ROYALTY REACH REGINA WARM WELCOME WAITING

Journey Through the Great Western Wheat Belt—Spectacular Events of Tour—Great Assembly of Indian Tribes.

Regina, N. W. T., Sept. 27.—Their Royal Highness the Duke and Duchess of Cornwall and York only spent six hours in Winnipeg, but into that period they compressed a large amount of the work that royalty is called upon to perform. Leaving the capital of the Prairie Province at 5.30 last evening, after a day spent in receiving and making addresses, the two royal trains sped towards Regina, where they arrived early this morning, passing Brandon at 1.34 a. m. and 2.37 a. m. respectively.

Upon the arrival of the royal train the usual enthusiastic reception was accorded and an imposing procession took place to Government House. At half past 12 loyal addresses were presented and replied to, and decorations conferred upon a large number of South Africa veterans, including many members of the mounted police. At 1 o'clock the royal party were entertained at luncheon at Government

House, and at 3 o'clock their Royal Highnesses again embarked upon their train and proceeded towards Calgary, where they will arrive at 8.30 to-morrow morning, and where the most spectacular events of their western tour will take place. At this place the Northwest Mounted Police will be inspected, medals will be presented, and a great assembly of Indian tribes will welcome the heir apparent and his wife. The day will close with a typical North-western celebration, including steeplechasing, rough bronco breaking and cowboy races, the departure taking place at 4.15 p. m. for Vancouver. Their Royal Highnesses since leaving Winnipeg have had an opportunity of seeing the great western wheat fields, though they have not seen it under the most picturesque conditions, as the waving wheat of a few weeks ago is now either in shock or has been thrashed and stored in the elevators. Still the royal party were able to see enough of the western prairies to enable them to appreciate their enormous extent and fertility, and were immensely pleased with the prospect.

TEXT OF THEIR TROUBLES PRESENTED BY BURGHERS

Their Appeal to Court of Arbitration at the Hague—Charges Made Against England—Rules of Warfare.

New York, Sept. 27.—Charles D. Pierce, representative in the United States of the defunct Orange Free State, has received a copy of the appeal made by the Boers to the administrative council of the permanent court of arbitration at The Hague. The appeal, which is dated The Hague, Sept. 10, says in part:—

"Now that this war has gone on for nearly two years without any prospect of an end thereto, except in the way of only recently acknowledged as being the most efficacious, and at the same time the most equitable means of deciding international differences, to wit, submission to arbitration. The desirability, mutually, for such a peaceful termination cannot but become more and more acknowledged. The states represented by the undersigned therefore consider that they should repeat the proposal already made by them before the war, but rejected by England, to submit to arbitration the settlement of the differences which gave rise to the war. In this way particularly we have in view the question whether England is right in alleging that any action was taken by the republic which had for its object the suppression of the English element in or its expulsion from South Africa, and generally whether the republics have made themselves guilty of any act which, according to internationally recognized principles, would give England the right to deprive them of their independence. The undersigned moreover allege

that England already at the outbreak of the war commenced and has ever since continued to act in contravention of the rules of war between civilized powers as generally, and also by England acknowledged and solemnly confirmed by The Hague convention of 29th July, 1864, concerning the laws and usages of war by land, and more particularly in contravention of the following articles of the said rules to wit: 4, 5, 7, 12, 15, 16, 23 (and thereof the subsections C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z, and 55, which England has moreover quite recently by proclamation issued by Field Marshal Lord Kitchener at 1901, virtually notified that she intended to take action in contravention of article 29 also.

"The Governments of the states represented by the undersigned are fully prepared, as soon as an opportunity thereof shall be afforded them, to substantiate the allegations herein made by setting forth and proving the particular facts to which they refer. Since England sees fit to deny this continental violation of the laws of warfare, the states represented by the undersigned consider that they may also in regard to the differences seek a decision of the permanent court of arbitration. Should the English Government give an unfavorable reply it will thereby be manifest that they dare not submit themselves to the judgment of a conscientious, leant and impartial tribunal.

"The appeal is signed by W. J. Lloyds, A. Fischer, A. D. W. Wolmarans, plenipotentiaries of the Orange Free State, and A. Fischer, C. H. Wessels, plenipotentiaries of the Orange Free State."

WRECKS

Two Ugly Railroad Disasters—Wabash Passenger Train Smashed.

Omaha, Neb., Sept. 27.—A through passenger train on the Wabash from St. Louis to Omaha, was wrecked to-day eleven miles southeast of Council Bluffs. The entire train, consisting of mail and baggage cars, two day coaches, a chair car and a Pullman sleeper, rolled down an 18-foot embankment, the engine alone remaining on the track. The engine stopped with the forward trucks on the edge of the bridge over Indian Creek. The train carried nearly a hundred passengers. Three people were perhaps fatally hurt and six others received minor bruises.

The badly hurt are:—Conductor Arthur F. Wilson, Council Bluffs; Mrs. George Rye, Silver City, Iowa; infant daughter of A. H. Wilson, Tekamah, Neb. A score of others were more or less injured. Some were taken to the hospital at Council Bluffs and others were brought to this city this evening. The cause of the wreck is thought to be the spreading of the rails.

AN UNACCOUNTABLE ACCIDENT.

Plymouth, Mich., Sept. 27.—A pulchre horse car was shunted on the siding of the Marquette to-day. It overturned, killing two valuable horses and injuring two others, so that they had to be killed. Besides the horses some men, women and some boys were in the car. H. King, a boy, had his arm broken. Others of the party escaped with slight injuries. The car was en route from Fort Erie to Cincinnati. The accident cannot be accounted for.

BY AN AXE

Wounds Were so Made in Crown Medical Evidence in Sifton Case.

London, Ont., Sept. 27.—The crown reached the medical experts in the Sifton murder trial to-day, Dr. Harry B. Anderson, professor of pathology at Trinity University, and Dr. George A. Bingham, professor of surgery at Trinity. Dr. Anderson testified that having examined the injuries received by the deceased, Joseph H. Sifton, he was of the opinion that it was "morally—practically impossible"—that the injuries were sustained by the fall of twenty-four feet which the defense alleged. He entirely coincided with the theory of the crown that the wounds were administered with an axe.

Dr. Bingham was scarcely less emphatic as to his belief that the wounds could not all have resulted from a single fall. The doctors said if there had been a fall and such severe injuries resulted as indicated, there would have been injury elsewhere, which the postmortem examination, put in by the crown this afternoon, states is not the fact.

The body was in a perfectly normal condition. The only injuries were the fractures at the right side of the skull and the "boggy" mass on top of the head. An important bit of testimony was the finding of blood upon chips taken from the ladder where the deceased stood when, according to Walter Herbert, he received the first murderous blows. The absence of traces of blood inside the barn has been a serious drawback to the crown's case. The end of the case for the crown is in sight. Edgar Morden, who was the strongest witness against the prisoner at the preliminary examination, will not be called because his connection with the "butter paper" will, since found to have been a forgery.

HANGED OCT. 25

Joseph Leplaine, the Montreal Murderer, Found Guilty.

Montreal, Que., Sept. 27.—Joseph Leplaine, who some months ago shot and killed his boarding mistress, Mrs. Lafabre, with whom he was in love, was yesterday afternoon found guilty of murder in the court of Queen's Bench. When the court opened this afternoon the court room was crowded, all the corridors being filled with people. Among those present were the mother and sisters of the prisoner. He was sentenced to be hanged on Oct. 25. At the conclusion of the judge's words, in passing sentence, the mother of the prisoner broke into convulsed sobs, and had to be helped out of court.

KITCHENER SORE

Rumors of Breach with Broderick are Confirmed.

London, Sept. 27.—The Pall Mall Gazette this afternoon confirms the rumor received by the Daily News to-day of the differences between Lord Kitchener and the war secretary, Mr. Broderick, and adds that, as a result, Mr. Broderick has had a long interview with the King.

The Pall Mall Gazette declares it is in a position to say that Lord Kitchener is dissatisfied with the partial enforcement of martial law in South Africa, wanting it proclaimed at Cape Town and elsewhere. He desires more serious penalties for rebellion and better reinforcements. Lord Kitchener took over the command with the explicit understanding that his hands were not to be tied, but as this condition was not carried out "he is seriously reconsidering his position."

WAR CHEST FULL

Britain has Money to Pay all Boer War Bills till February.

London, Sept. 27.—Three Ministers attended the King's Council yesterday, but it was a formal function and offered no justification for rumors that there would be an autumnal session of Parliament for replenishing the war chest. Campaign expenses have been provided for until the end of January, and there is nothing to indicate any intention to despatch reinforcements on a large scale.

A CAMPAIGN OF CALUMNY.

The Berlin correspondent of the Times quotes an editorial in Kreuz Zeitung, describing the campaign of calumny waged by a section of the German press in regard to the British operations in South Africa as the expression of "the universal indignation of the continental press at the brutalities perpetrated against Boer women and children." The same paper protests against comparing the German methods in 1870-71 with the British methods in South Africa. The correspondent remarks that if German pro-Boer organs desire to give the German public an opportunity to be impartial, let them publish German military proclamations of 1870 side by side with the proclamations of Kitchener.

LANARKSHIRE ELECTION.

Exceptional interest has been taken in the Lanarkshire election. As a result of the splitting of the opposition vote, a Unionist candidate is returned for the first time in the history of the constituency. The Liberal party is now more disunited than ever.

THE STYLE OF HAIR WORN.

Is an important factor to produce a younger and refined face and a well shaped head to any Lady or Gentleman. Prof. Dawson, who will be at the Garner House, Chatham, Tuesday, Oct. 1, can demonstrate this to anyone calling on him at his show rooms. He has Ladies' and Gents' Wigs, Toupees, Bangs, Waves, and Plain Fronts. Switches in every length and shade, that he will gladly adjust on any Lady's head free of charge to prove this. SATURDAY, SEPT. 28.

A VARIABLE ORGAN.

What are the Globe's real views on the question of trade reciprocity between Canada and Great Britain? It seems to endorse the ideas which Hon. G. W. Ross is putting forth, and to favor the taxing of foreign products by Great Britain in return for lower duties on British goods entering the colonies; yet not long ago it defended Sir Wilfrid Laurier when he declared a policy entirely opposed and antagonistic to this. Its pliability is really marvellous. Sir Wilfrid Laurier says "England will never place a duty on foodstuffs coming from foreign countries, and Canada doesn't want her to do it at any rate"; The Globe applauds straightway, and abuses everybody who dares to express a contrary opinion. Then Mr. Ross comes along and speaks in favor of a commercial union which involves the taxing of foreign goods by Great Britain and a reduction of the duties on English exports by Canada; The Globe immediately falls in with his views and is filled with admiration of an intellect which could conceive such an idea, forgetting that it was conceived long before. He is a large minded statesman, though only a few weeks ago those who expressed the same opinion were denounced as ignoramus. The Globe should really be more consistent. Even Liberals are beginning to see that its opinions are formed according to the exigencies of its party and not from principle, and though a little of that sort of thing is excused, people soon lose confidence in a paper which is always ready to veer round like the vane on a weathercock.

PORTLAND'S GARRISON.

Portland, Me., is to be made the most strongly fortified post, with the exception of New York, on the Atlantic coast of the United States. There is to be a garrison of one thousand men put in the various forts which protect the entrance to the harbor. This all leads the Portland Press to make the following comment: "The friendship of Uncle Sam and Brother Jonathan is constantly on the increase, and at this time it does not seem at all probable that a war will ever occur between these two great nations. But brothers are more prone to fight than strangers, and family jars are much more common than any other kind of rows. If such a row does come, Portland will be prepared to strongly resist the British attempt to control the Grand Trunk terminal here and there will be enough men in garrison here to care for its defence without much help unless it be the navy."

When a new gun is invented in this country or a new brand of smokeless powder is being sampled our people do not always glance significantly towards the United States. Why not talk of some other power as the possible assailant of Portland? So far as the British are concerned, the United States is the last country in the world they think about in connection with war. The fact that Portland is the terminus of an important system of Canadian railways is the only reason why there is any such city as Portland there. It is that also which has

made it a port now so well worth protecting. We are pleased to see the United States Government preparing to take such good care of Canadian property.

Is not our Portland friend making a rather frank admission when it says "The friendship of Uncle Sam and Brother Jonathan is constantly on the increase"? While we have no doubt that the affection of Uncle Sam for Brother Jonathan is greater than that for any one else, we think he owes a little. The appearance of the thousand and artilleymen manning the forts of the Prohibition State's chief port does not strike as deep terror to our hearts as though the soldiers wore the uniform of some other nation, and the new band did not play "Yankee Doodle."

MRS. NATION AND OTHERS.

Sometimes people in Toronto are compelled to think that they get more than their share of the time and attentions of people of eccentric views and sensational piety. If a colossal drunkard or offensive infidel gets religion anywhere in North America, he seems to make a living for the rest of his life by coming here at intervals to tell us how he had been used to, and how good he has become. Social reformers come here from Chicago and denounce evils that our basest citizens never heard of, and our good people shudder and subscribe liberally to be shocked at lectures for men only or for women only. The man who tries to sell an article of utility that should be in every home has the door banged in his face, while the man selling stock for gold mines in the moon is doing a big stroke of business with the head of the family in the parlor. In morals it is the same as in business.

Carrie Nation, the saloon-smasher, and Schlatter, the divine healer, are both in town, and the probability is that they both will take such a liking to Toronto that they will derive half their income from this city hereafter. There is no reason why they should seek further. Anybody who has a new scheme in morals or medicine can prove here and draw an instant following, partly because old things are unsatisfactory, but mostly because new organizations need officers, while old ones have already have them.

Mrs. Nation and her hatchet have no significance here. On the whole, our laws are well administered, and the liquor trade is conducted on lines as little harmful as is possible in the traffic. If this woman from Kansas succeeded in nerving some unfortunate Carrie of this city with a desire to use a hatchet and attain celebrity as a smasher and a lecturer, the inevitable result would be an arrest and a medical enquiry, conducted with a strong presumptive belief in the insanity of the accused. The hatchet has no place in our institutions. If anybody knows where liquor is sold illicitly, it is his duty to lodge complaint. With us lawlessness is not suppressed by lawlessness.

THAT PALLID COMPLEXION.

In both sexes the blood becomes impoverished, the system weak and worn out. A pallid sickly complexion is a sure sign of thin, watery blood. Price 25 cents, at all druggists, or mailed on receipt of price. Address: The Dr. Hall Medicine Co., Kingston, Ont.

strikes a woman is because the contest would be unequal. While men refrain, and have done so in nearly all ages, the women, too, have refrained, knowing that their victories must be won not by force. But if women resorted to the use of force and persisted along that line of endeavor, men would presently bob up who would use enough force to resist the force employed against them. Nowhere could a hatchet crusade succeed for long. It may succeed so far as to attract attention to a glaring evil, and it may invest with interest a woman lecturer, enabling her to collect audiences wherever she goes, but that is all, for the movement ends as the sound of smashing glass dies away.—Toronto Star.

Goldwin Smith says, in his "Bystander" column in the Weekly Sun, that "to enforce the keeping of the Sabbath is neither feasible nor desirable. But it is feasible and most desirable to enforce the Day of Rest," points out the Woodstock Express. Presumably Goldwin Smith would strip Sunday of its religious significance; at least he would make it a compulsory day of rest. But why compel a man to rest who does not want to rest? Can any work be harder than inactivity to a man who does not want to be idle? The original command was to keep holy the Sabbath Day; the command to rest was merely supplemental and to facilitate the carrying out of the first command. If the first and more important command must go, what reason is there for keeping the second and less important one?

A CONTENTED CANADA.

Brooklyn Eagle.
In Canada, show as that country is, and much as we think it ought to learn from the United States, there is a general content with the political system and a placid belief that there is greater freedom than in the United States, greater assurance of protection against assaults on life and property, less danger of uprisings of western Indians and eastern labor organizations.

THE REAL CULPRITS.

Woodstock Express.
Rev. J. T. Pitcher, who administered the public reprimand to Rev. Mr. McAmmond, started off apparently with the idea that the real offense was committed by the newspapers which published the stories of the two ministers' doings in Syracuse. In the eyes of a good many people the worst sin consists in being found out, but heretofore we were not aware that that doctrine found any favor in the pulpit.

What Catarrhoids are and is Not

Catarrhoids is not a wash. You cannot force liquids into the lungs. It is not an ointment to be snuffed up the nostrils. Ointments are useless against Catarrhoids. Nor is a powder to be blown up the nostrils and still further irritate the already congested and irritated membrane. It is simply balsamic and healing substances breathed into the lungs and throat. Cures of course. That is nature's way of curing, and nature's way is the only true way. If you suffer from disease of the throat, lungs, nasal passages, do not neglect to test Catarrhoids. Two sizes at all druggists, 25c. and \$1. Guaranteed to cure Catarrh, Asthma, Bronchitis and Hay Fever, or your money back.

There are indubitable evidences that the good in the world is stronger than the evil; great, slow, steady progress of the good, forever gaining on the evil.

Take care of the stomach and the health will take care of itself. If people only realized the soundness of that statement the majority might live to a good old age like Moses, "the eye undimmed, the natural force unabated." It is in the stomach that the blood is made. It is from the stomach that nourishment is dispensed to nerve and muscle. If the stomach is "weak" it can't do its whole work for each part of the body. If it is diseased the disease will taint the nourishment which is distributed, and so spread disease throughout the body. It was the realization of the importance of the stomach as the very centre of health and the common source of disease, which led Dr. Pierce to prepare his "Golden Medical Discovery." "Diseases which originate in the stomach must be cured through the stomach." The soundness of this theory is proved every day by cures of diseased organs, heart, liver, lungs, blood,—by the use of the "Discovery" which is solely and singly a medicine for the blood and organs of digestion and nutrition. It is a temperance medicine, containing no alcohol, whiskey or other intoxicant.

A good trade, or a good education, once acquired by an ambitious man, are things most valuable and which no robber can steal from him.

SOME ILLUSTRIOUS EXAMPLES.

There is kindness of disposition, kindness of word, kindness of act, and this is Jesus Christ, the impersonation of all of them. Kindness! You cannot affect it. You cannot play it as a part. You cannot enact it. By the grace of God you must have it inside you, an everlasting summer, or, rather, a combination of June and October, the geniality of the one and the tonic of the other. It cannot dwell with arrogance or spite or revenge or malevolence. At its first appearance in the soul all these Amalekites and Gergashites and Hittites and

while the petals sit in as wondrous
glow at 12 o'clock at noon and
at dusk in the evening as at sunset.
And this grace of kindness
is spasmodic; it is not intermittent;
it states the whole nature all through-
out and clear on till the sunset of our
earthly existence.

"Kindness! I am resolved to get it."
You are resolved to get it? It does
not come by haphazard, but through
study without the divine help. The
flowers grow without culture. Rocky
mountain sea grass grows without
culture. But that great red rose in
the conservatory, its leaves parked
in leaves, deep dyed as though in
and been obliged to fight for it. It
with the courage of the battle, that
seed needed to be cultured, and
through long years its floral ancestors

There are many other kindnesses! Let us be thankful to our Father in heaven for all that He has done for us, and let us pray for the blessing of His Kingdom to be established in our hearts and in the hearts of all men.

When you can speak a good word for some one, speak it. If you can conscientiously give a letter of recommendation, do so. There are many opportunities for doing good fifty years after you are dead. All my life has been affected by the letter of introduction that Rev. D. Van Vranstede, of the New York State Wesleyan Seminary wrote for me, a boy under him, when I was seeking a settlement in which to preach the gospel. That letter gave me my first pulpit, and I have been preaching ever since. More than thirty years ago, yet I feel the touch of that magnificent old professor. Strange sensation was it when I received a kind message from Rev. D. Van Vranstede, of the New York State Wesleyan Seminary, a great Methodist orator, six weeks after his death! By way of the eternal world? Oh, no; by way of this world. I did not meet the friend to whom he gave the letter of introduction until five months after, Thomas

BANISHED FROM ITALY.

Rome, Sept. 26.—Prince Nakacheidze, a Russian, who was banished from Italy as a Nihilist and a dangerous anarchist, has been arrested and has been expelled again. He was expelled from France in 1886 for making bombs, and was condemned to death in Russia in 1887 for plotting to kill the Emperor.

Prince Nakacheidze's wife was arrested with him. They will be conducted to the Swiss frontier. Both are in a precarious condition of health. The Prince is dying of consumption. He said when he was arrested:—"I am not harming anybody. Why can I not

THE YACHT RACE

The Light Boat Leads Out Well at the Start.

A MAGNIFICENT STRUGGLE

Wind Decreases During Progress of Contest

SHAMROCK WELL HANDLED.

Irish Boat Turned Outer Mark First.

Columbia Wins by 33 Seconds on Time Allowance.

Special to The Planet.

New York, Sept. 28.—Thick fog and no wind gave a most discouraging outlook at dawn, but the sun had not been above the horizon many minutes before the fog began to melt. At 7 o'clock it had lifted entirely, while out of the northeast came a puff of wind full of promise and by 8 o'clock it had increased to 12 knots. As the morning wore on the sky became slightly overcast, and the weather slightly predicted the coming of enough wind to suit either Shamrock or Columbia.

Capt. Barr cheerfully predicted a good sailing breeze.

"Those things up there," he said, pointing to the fleecy clouds in the northeast, "hold the wind, and you notice there are lots of them to-day."

Just before 9 o'clock Jameson, Watson and Duncan, then went on board Shamrock. Columbia was first taken in tow, and five minutes later was off the Point of the Hook passing out, Shamrock following close behind. On board Columbia are E. D. Morgan, H. C. McGiloway and Herbert Leeds.

Columbia went down rapidly toward the starting place in tow. On Shamrock just as it got clear of the Horse-shoe, sailors began hoisting the great mainsail.

The wind at the Hook was then blowing steadily from the northeast at 10 knots an hour, and with indications that it would freshen.

Lipton did not go aboard Shamrock. Erin did not leave for starting point until 9:30. It was still later when the excursion fleet passed the Hook. It was equally as varied and picturesque as on Thursday, and in number of boats somewhat larger.

As the racing yachts moved down toward the starting point it looked, from the way they dug into the rollers, as if the wind was increasing.

New York, Sept. 28.—9:10 a. m.—Sandy Hook reports wind between 8 and 9 knots.

10:02—Both yachts are near the starting line. Wind about 11 knots.

COURSE EAST BY SOUTH.

10:18—The committee boat has set a signal for a 15-mile race to windward and return, course east by south, with start at Sandy Hook lightship.

10:45—Both yachts now jockeying for position.

10:47—Preparatory signal fired at 10:45.

10:49—Shamrock is reaching for the line on the starboard tack, Columbia holds next to the judges' boat.

10:53—The yachts are having a fight for position and it looks as if Columbia had the best of it a little to windward.

10:56—Warning signal was fired at 10:55 with both boats on the port tack.

New York, Sept. 28.—11:01—Yachts have started.

Official starting time: Columbia—11:00-04.

Columbia—11:00-06.

11:05—In the first five minutes of sailing it looked as if Columbia was out-sailing Shamrock.

11:13—Shamrock leads by 150 yards.

11:20—Marconi—Shamrock to windward, but astern. Boats heeling to increasing wind, Columbia increasing her lead.

11:23—Columbia has just gone about on the port tack and is leading Shamrock, coming down on starboard tack.

11:37—Shamrock is ahead on the starboard tack, Columbia being on the port tack, forced about by Shamrock.

C. P. R. Special to The Planet.

The official time of start is:—Shamrock—11:00-14.

Columbia—11:00-16.

New York, Sept. 28.—12:08 p. m.—Both boats are now on the port tack and Columbia had worked slightly to windward still a little astern.

12:23—Both boats have sailed about nine miles of the course, both are on the port tack and Shamrock appears to have worked out from under Columbia's lee.

12:30—Shamrock is ahead and forces the Columbia about. Both are now on the starboard tack and the Shamrock to windward.

12:36—Both boats have gone on the starboard tack and the mark is now in sight.

1:00—Both boats are on port tack and very close together; Columbia has the wind but is behind.

1:10—The wind is increasing and the Shamrock is gaining slightly.

1:17—Shamrock still ahead.

1:19—The turn will be very close.

Shamrock turned at 1:20-30.

Columbia turned at 1:27.

1:30—Both boats running before the wind and on a north-west course; neither racer has yet changed sails since turning outer mark.

1:32—The yachts are coming home before the wind with booms to port and spinnakers to starboard; Shamrock leading.

Official time of turning is:—Shamrock—1:25-12.

Columbia—1:25-53.

1:59—The yachts have covered about five miles of the running and the Shamrock seems to have maintained her relative distance ahead.

2:10—Boats are running home under a cloud of canvas with no perceptible change in their position; the wind is falling somewhat.

2:11—Columbia is gaining.

2:14—Columbia is now ahead.

2:20—Columbia is a length ahead.

2:20—Columbia gains slowly.

2:30—The exact time allowance as corrected on Wednesday is 46.7 in favor of Columbia.

2:31—Columbia only two lengths ahead but still gaining.

2:30—Columbia still gaining, crowds on excursion boats cheering.

2:42—The lightship now in sight, eight miles away; Columbia still gaining slightly.

2:51—Columbia is four lengths ahead and the lightship four miles away.

3:10—Wind has fallen away to seven knots.

3:10—Shamrock has been gaining and has almost overhauled Columbia. They are two miles from finish. It is anybody's race.

3:15—Columbia maintains a positive lead and should now win the race.

3:25—Columbia leads by two lengths.

3:28—Shamrock gaining; Columbia only a length ahead, nearing the finish line.

3:30—The boats are now even and within half a mile of finish.

Last—Columbia wins.

Shamrock crosses line 11 seconds ahead, Columbia wins by 33 seconds time allowance.

Columbia wins by 43 seconds corrected time, officially.

The finish is:—Shamrock, 3:31:04.

Columbia 3:31:08.

FINE CITY

Mr. McLeod, a Former Resident, Re-visits Chatham After a 13 Years Sojourn in Australia.

C. McLeod, who has charge of the experimental department of the Massey Harris Company, Toronto, is spending a few days in the city. Mr. McLeod is a former resident of the Maple City, having at one time managed the old Harvester Works on Adelaide near the C. P. R. track.

It is now 15 years since Mr. McLeod has been in Chatham. Thirteen of these years he spent in Australia opening up the Company's business there. For the last two years he has been stationed in Toronto.

"Chatham, looks very much better than when I was here before," said he to The Planet. "Your water-works, which was put in after I left, is a great improvement. In fact I think you now have a thoroughly up-to-date city in every respect. I would hardly have known Chatham if I had just dropped in, not knowing where I was there are so many new buildings and different improvements."

"The country all around Chatham is also much improved, undoubtedly due to the up-to-date system of farming. You have the best farming country around here that I have ever seen. Australia has the finest climate that I have ever seen. It cannot be better. The country is going ahead very fast and is being continually improved. Agriculture and mining are the chief pursuits and in this line business is booming."

"There are wonderful possibilities in store for a young man in that country either in farming or mining. There is no use, however, for a young man to go there without capital. If you have sufficient capital to start up in business you can undoubtedly make a success of it. There is not much chance for a man in the clerical line. There is far more chance for a young man without capital, in Canada than there is here."

Mr. McLeod thinks there is no place like Canada and is pleased to meet so many old Chatham acquaintances.

THE MARKET

A very good market greeted the housekeepers to-day. Plenty of fruit and vegetables were offered with ready buyers. Tomatoes, which were thought to be very scarce, were offered to-day in large quantities at 10c a peck or 30c a bushel. Eggs were a little higher to-day—selling at 14c per dozen. broad, complete, dignified, legitimate, to create such a department was our purpose at the start, the purpose is realized. Those who visited this store during the past week, were astonished at the transformation in this section of Chatham's Greatest Store.

We will continue to build this business for a long future. Under these circumstances, dare we risk exaggeration or mis-statement? Certainly not! Therefore our claim that we are giving you exceptional value for your dollars is based upon our plans for next year and all future years.

About Carpets

First a word of Advice and Information . . .

THE ADVICE:—If you are planning extensive fall furnishing schemes for your house, remember the important part the Carpet plays in the success or failure of the general effect. Don't ignore its influence; don't imagine that any carpet that is "near" in color will do, begin with the CARPET and WORK UP then will the result give satisfaction,—which brings us to the INFORMATION.—The new Carpets for Autumn are here in styles and colorings of a variety to meet your needs. We shall be glad to help you in your search for the right one:—

Best English Wiltons, \$1.40 per yd.

Best English Velvets, \$1.15 per yd.

Best English Brussels \$1.25 per yd.

Best English Tapestries 75c per yd.

Best Canadian Ingrains 85c per yd.

Then Rugs

These offer a simple yet effective way of supplying the basis of a well furnished room, and these Austro-Oriental Rugs offer price economies beyond compare. Our stock is large, ranging in sizes from 10x14 ft. to 15x24 in., and the price less than a dollar per sq. yd.

New Experience

It is the business of a business man to get new experiences every season if he wants to keep his business at the front. The map of the world's work-places is more familiar to us now than last year. New methods and new machinery are constantly supplanting costly methods of construction. Learning of new and better sources of supply we have availed ourselves of them. One of the results of this is—the best value in Lace Curtains we have ever offered.

Brussels Net \$3 to \$15 per pair.

Irish Point \$3.75 to \$15.

Point De Saxe \$5 to \$12.

Point Arabian \$9 to \$12.

Real Battenberg \$6.75 to \$15

Nottinghams 25c to \$6.00

T. T. George.

Blacksmith's Backache

Dr. Pitcher's Backache Kidney Tablets Cure This Serious Trouble.

There is hardly a blacksmith in Canada who does not know what backache means—the stabbing pain, the sore, lame, stiff back that makes work misery.

James Leonard, the well-known blacksmith of Port Hope, was troubled, as thousands are, and gladly tells of his cure in the following words: "My life work as a blacksmith has been a hard one, and my back and kidneys bothered me for a long time. I have tried many remedies without relief, until I got a box of Dr. Pitcher's Backache Kidney Tablets from Dr. Deyell, the druggist. Since then I have had comfort, and am able to work with ease. I am sure those who use your medicine for backache, kidney, bladder, or liver troubles, will never regret it. They are so easy to take, and yet work so well."

Dr. Pitcher's Backache Kidney Tablets cure so well that you'd be wasting money to experiment with anything else. Price 50 cents a box, at all druggists. The Dr. Zina Pitcher Co., Toronto, Ont.

ITCHING Burning Scaly HUMOURS Complete External and Internal Treatment. CUTICURA

THE SET, consisting of CUTICURA SOAP, to cleanse the skin of crusts and scales, and soften the thickened cuticle, CUTICURA OINTMENT, to instantly allay itching, irritation, and inflammation, and soothe and heal, and CUTICURA RESOLVENT, to cool and cleanse the blood, and expel humours from the system. A SINGLE SET is often sufficient to cure the most torturing, disfiguring skin, scalp, and blood humours, rashes, itchings, and irritations, with loss of hair, when the best physicians, and all other remedies fail.

Millions of People Use Cuticura Soap Assisted by CUTICURA OINTMENT, the greatest cure, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chafings, and for all the purposes of the toilet, bath, and nursery. Millions of Women Use Cuticura Soap in the form of baths for soothing irritations, inflammations, and excoriations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sensitive, antiseptic purposes which readily suggest themselves to women, and especially mothers. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. No other medicine or soap is to be compared with it for preserving, purifying, and beautifying the skin, scalp, and hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in One Soap the best of the most toilet and complexion soap, and the best toilet and baby soap in the world.

Sold throughout the world. British Depot, 27-28, Chancery Lane, London. Foreign Depot, 10, Rue de la Paix, Paris.

A SERIES OF SIDELIGHTS

EDITED BY HELEN HALL.

At the convention of the members of the different municipal councils of the Dominion held at Toronto this summer, the advisability of the city owning such industries as waterworks, electrical light plants, coal yards, etc., was discussed and it was decided to look into the matter and report at the next meeting. Taking the country as the unit, instead of the municipal corporation—for if the plan is feasible for one it will be for the other—it would mean the government ownership of many industries that are at present owned by private individuals or corporate companies. A great many arguments are to be advanced in opposition to such a scheme carried to any great extent. For instance it might be difficult to get men to manage these industries. As long as they are private concerns there is rivalry, and this brings out the best business qualities in man. On the other hand, if these industries were owned by the government the higher business qualities of the people might be dormant from lack of competition. Since neither the individual nor the country can stand still if they are not advancing they must be going back. There is just a question, however, whether it might not be a sure way for an evil which threatens to greatly hinder the progress of all productive, thickly populated countries—the evil of the wealth of the country being controlled by a few. Canada being virtually a country of small, independent farmers, does not fully appreciate this evil. But our cousins have during this month had a taste of what it may lead to. There is little doubt but that the assassination of President McKinley is the natural outcome of the rich being very rich and the poor being very poor. As things are now, a man is able, using the industries of the United States as his tool, in less than a life-time, to amass a fortune so large that he can control the money market of the whole world. This should not be, because wherever the wealth is in the hands of a few, the poverty is at the door of millions. The country just possesses so much wealth according to its population and natural resources, and if a few control this wealth, the multitude is destitute. The multitude becomes desperate and the result is such a crime as was enacted the other day at Buffalo. Understand this crime, was not a result of poverty but of jealousy toward the rich and oppression by the rich. We have examples in history of a poor, but contented people. The Puritans endured as great hardships as the poor of the States are called upon to bear, but the burden was made light by the fact that it was a common burden. This solace is denied the poor of today. But if it were impossible for men to become so rich, and if the surplus they make and cannot use were owned by the government thus lowering the taxes, the great cause for jealousy and the power of oppression would be removed at one stroke. This government ownership would by no means make all the poor rich, but it would prevent the vast accumulation of wealth by a few and that would mean a decrease in the crimes of the poor against the rich. In the case of the crime at Buffalo, we find an "innocent man and one who was a real benefactor to his country, losing his life on account of this deplorable state of affairs."

The same thing happened only a short time ago in Italy. The common people of Italy had no truer friend in their own ranks than the late King, yet on account of jealousy and oppression they took his life. The poor deluded creatures are not benefiting their own cause. Crime never can benefit a cause; it only destroys. But they are too ignorant to see that. Consequently it remains with those in power—and they are really the rich—to provide a remedy. The remedy is bound to come. If evidence of the need do not bring it about, the necessity for self-preservation will.

The opal (the eye) has ever been considered an unlucky stone, just as the peacock's fan is said to bring ill-fortune to the house where it hangs, and for the same reason, being full of eyes, they spy out secrets and then report to the Fates the very things we would not have them know. Certainly the opal of Alphonso XII. (of Spain) was a very fatal possession. Let me see, can I tell the story; it is rather complicated. The King on his wedding day presented a magnificent opal ring to his beautiful young wife, with whom he was passionately in love, but scarce the honeymoon was over when she faded and died before her husband's eyes. Before the funeral the distraught King gave the ring to his sister, Maria del Pilar, who died a few days afterwards. The King then gave the ring to his sister-in-law, the Princess Christina, youngest daughter of the Duke of Montpensier, and sister of his beloved dead wife, but the gift still carried its fate with it—in three months the fair recipient was dead. Alphonso, astonished at these fatalities, resolved to wear the ring himself, but died also within a very short time. So possessed was she, after this, with the idea of its fatality, the Queen Regent attached the ring to a gold chain and hung it about the neck of the Virgin of Almodena, of Madrid and there it hangs to this day, and end, we hope, to its evil influence forever. But cheer up, October maiden, all the good things flew out of Pandora's box but one, you know, and that was "Hope," of which the opal is the emblem. The October

maiden is warned by the old rhyme:
"An eye on her brow to bind—
'Twill cure disease of the mind."

WHAT'S WORN.

Judging from the store windows the correct thing in jackets is the three-quarter coat with the half-fitted back. These certainly look swell on a good figure, but as good figures are scarce let us hope few will invest in them. Besides they require a long skirt to properly set them off and the most reliable fashion notes inform us that long skirts for street wear are a thing of the past. Another thing to be said against the long-coat-long-skirt combination is that it is almost impossible to hold up the skirt.

Fortunately for the medium figure we see the short jacket still to the front. Skirts with closed fronts will be seen with many customers as will also the Russian blouse.

Not all the jacket sleeves are full at the wrist. A great many are being shown with the plain coat sleeve.

The latest name for the pedestrian suit is the "sporting suit." It is no longer considered correct to hold up the skirt on the street. The skirts of the latest suits clear the ground.

Collarettes and eperines in furs have had their day and now have been put in an appearance again. They are not nearly so comfortable for a cold day but are much more stylish looking.

A pretty blouse is made of French flannel closed at the back. The front is tucked to form a pointed yoke and the fullness below the tucks allowed to fall in a blouse front. On this fall are attached zig-zag bands of red velvet over which is placed cream applique.

Another pretty blouse is made of cream luster decorated with black applique.

A swell autumn suit is of black velvet. The skirt is trimmed with silk bands covered with black silk applique. The bodice has a white silk front with reverses trimmed with the applique. A long black velvet coat with the half fitted back is worn with this costume.

Another elegant fall suit is of brown, coarse, storm serge. The skirt had a graded flounce trimmed with a green Persian border. The bodice is light-fitting and trimmed to match the skirt.

The taffeta silk blouses for evening are still tucked all over. A new trimming for these blouses is a box plait of the silk hand embroidered.

Cures Weak Men Free

Send Name and Address To-Day—You Can Have it Free and be Strong and Vigorous for Life.

INSURES LOVE AND A HAPPY HOME

L. W. KNAPP M. D.

How any man may quickly cure himself after years of suffering from sexual weakness, lost vitality, night losses, varicose, etc., and enlarge small, weak organs to full size and vigor. Simply send your name and address to Dr. L. W. Knapp, 1710 Hull Bldg., Detroit, Mich., and he will gladly send the free receipt with full directions so that any man may easily cure himself at home. This is certainly a most generous offer and the following extracts taken from his daily mail show what men think of his generosity.

"Dear Sir:—Please accept my sincere thanks for yours of recent date. I have given your treatment a thorough test and the benefit has been extraordinary. It has completely braced me up. I am just as vigorous as when a boy and you cannot realize how happy I am."

"Dear Sir:—Your method worked beautifully. Results were exactly what I needed. Strength and vigor have completely returned and enlargement is entirely satisfactory."

"Dear Sir:—Yours was received and I had no trouble in making use of the receipt as directed and can truthfully say it is a boon to weak men. I am greatly improved in size, strength and vigor."

All correspondence is strictly confidential, mailed in plain, sealed envelope. The receipt is free for the asking and he wants every man to have it.

HER CHOICE.

If fate should bid me choose a road
Twixt easy path and byway,
When bowed 'neath life's relentless load,
We'll all along the highway;
Should choice 'twixt path of promise
And steeper climb be given,
Oh, I would choose the crooked way
That you might tread the even!

If life were as a garden green,
Where roses bloomed unhidden,
With many a stealthy thorn unseen,
Beneath the blossoms hidden;
If lingering, ere the close of day,
We'd make our choice of posies,
Oh, I would pluck the thorns away
That you might wear the roses!

And life is changed with change of lot
Of mingled joy and grieving;
We learn that love endureth not,
Since hope is all deceiving;
But be our future what it may,
'Mid all the work of leisure,
I still will smooth the cares away,
While you enjoy the pleasure!

Plum table jelly—Stew the plums in a little water, strain out the juice, in a pint which soak a box of gelatin. Sweeten to the taste, add a quart of boiling water, strain and cool. It is to be made the day before it is wanted for use.

Dried plums—Plums may be dried with the stones in, to retain the full plum flavor, or the pits may be removed and the cavities filled with sugar. Put them on plates in the sun, sprinkling with sugar and turning often. The finish may be made in a right cool oven.

Stuffed baked potatoes—Bake until done five large smooth potatoes. With a sharp knife cut from the flat side an oblong piece of the skin, scrape out all the potato, mash and season, adding a teaspoonful of finely chopped parsley; put back into the skin, not returning the cover, place again in the oven until the potato in the opening is browned.

Orange shortcake—Two-thirds of a cup of sugar, two-thirds of a cup of sweet milk, one egg, one teaspoonful of baking powder, one scant cup of flour, drop on butter, one half cup of sugar, one slice four or five oranges. Peel, seed and slice four or five oranges. Whip half a cupful of cream, with which spread both layers, then lay on the oranges and put the layers together.

Cream puffs—One-half cup of butter melted in one cup of hot water. Put a small tin pan on the stove to heat. Stir in one cup of sifted flour while boiling, take off and let cool. When cold, stir in three eggs, one at a time, beating them. Drop on buttered tins and bake in a hot oven twenty or thirty minutes. Filling—One cup of milk, one egg, one-half cup of sugar. Thicken with corn starch and flavor with vanilla.

Small sponge cake—Put the yolks of three eggs with one-half cup of sugar, in a bowl, stir fifteen minutes; beat the three whites until very stiff and add to the yolk mixture; add one teaspoonful of lemon juice and a little grated rind, stir in half cupful of flour, stir the flour in lightly; butter some small forms and dust with flour, fill them half full with the preparation and bake in a slow oven. These are nice for supper eaten warm.

Egg Plant, French style—Boil a large egg plant in salted water until tender, drain, add one mash smooth. Add one level tablespoonful of butter, one scant teaspoonful of salt, one-quarter of a teaspoonful of pepper, two hard-boiled eggs chopped fine, one teaspoonful of finely chopped onion and two tablespoonsful of fine dry bread crumbs. Mix well, turn into a buttered baking-dish, sprinkle with buttered crumbs and brown in a quick oven.

Plum cake—An equal weight of butter and flour, a quarter of a pound of cut peels and citron, double the weight of butter in currants, the grating of three lemons, and the juice of one, half a nutmeg, half an ounce of pudding spice, and the same quantity of eggs as the weight in butter, heat your butter as for pound cake, put in a few chunks of sweet almonds. Paper and butter a hoop, bottom and sides, then put in your mixture, bake in a slow oven for some time, try it, if done, take off the hoop but not the paper.

Tomato croquettes—From now on for a good many weeks to come tomatoes are best eaten raw. A receipt for tomato croquettes will be useful only if it is liked to stew the vegetable occasionally, as a way of using what may be left over from this service. To a pint of tomato sauce add a thin slice of onion, three cloves, and a good seasoning of salt and pepper. Unseasoned tomato is an improvement. Heat through in a saucepan and thicken with two tablespoonsful of corn starch rubbed smooth in a bit of butter. Stir this in, adding an egg just before taking off the stove. When the mixture has cooled, mold in croquette form, dip in crumbs and

beaten egg and again in crumbs, and fry by immersing in hot fat.

Coffee jelly—Rinse a quarter of a pound of the kernels over a moderate fire to a fine yellow, take it from the fire, set aside the eighth part of it, and throw the rest into three glasses of nearly boiling water, cover close, and let it cool. In the meantime boil half a glass of water and pour it over the small portion of coffee, which should be ground, and a little isinglass, when perfectly clear, pour it to the other mixture. Having strained it through a silk sieve, filter the whole, and mix it with three quarters of a pound of clarified sugar, and one ounce of isinglass.

Cucumber salad cups—Choose three medium sized cucumbers, pare carefully and cut off the two ends, cut them in halves lengthwise, take out the seeds and put the cucumbers into ice water for two hours. When ready for use wipe the cucumbers dry, set them on a bed of asparagus leaves or other pretty greens, and fill the shells with cold boiled asparagus or vegetable salad, mix with mayonnaise before stuffing and put a little more on top afterward. Leftover vegetables or cold fish can be used to advantage in making this dish.

Chicken en Casserole—Dress a young chicken and cut in pieces for serving. Heat three tablespoons of butter in an omelet pan, add an onion and a small carrot, each cut in slices, add the chicken and cook until delicately browned. Remove to the casserole, add one and one-half cups of white stock and a bit of bay leaf. Cover and let cook an hour or until nearly tender, then add some potatoes cut in slices and a few mushrooms sautéed in butter, season with salt and pepper and cook until tender. Add three tablespoons of sherry and serve at once.

Apple pudding—A much easier way than being, especially where there are several to cook for, is to make a pudding with your apples. Take three or four eggs, beat, add buttermilk and soda enough to make it foam, some salt, stir in flour enough to make a batter, then add the apples; half a jar or all, if you wish. Have your breadpan on the stove, the grease must be hot; pour in pudding and bake till done; try if done as for cake. This can be made to be eaten first if you like. Have your cream all ready, sugar and flavored. Serve in dishes while hot with plenty of cream.

Pigeons potted—Be careful they are fresh, clean and season them with salt and pepper and lay them close together in a small, deep pan, for the closer they are put the less butter they will take. Cover them with butter, tie them with a thin paper, and bake them. When cold, put them in drip in pots that will hold two or three; each, and pour butter over them, using that which was baked as some, mind the butter should be thick over them. If it is done for company, the pigeons would be closer and want less butter if they are boned, and put into the pot in an oval form. They may be stuffed with minced meat, made with veal and bacon, etc., and seasoned is preferred, add more all-spice and a little cayenne pepper before baking.

A quiet wedding was celebrated at the Parsonage, Wilkesport, on Tuesday, the 17th. The contracting parties were Miss Maggie Reddick, of this place, and Mr. Samuel Topliff, of Wilkesport. Both are well known, and have a large circle of friends who wish them happiness.

Half the tea drunk in Canada is black, and half Japan green tea. The black tea is now entirely supplied from Ceylon, the change taking place by their introduction by the Salada Tea Co. This company is now introducing a green tea from the same island, which in a year or two will entirely displace Japan tea in Canada and the United States.

While handling a small rifle crossing over a fence on Saturday last, Master Edward Nichol, of Blenheim, was accidentally shot through the hand, the bullet passing clean through, from the palm, near the base of the fingers, coming out about the centre of the back, making a painful wound. He will have to carry a bandaged hand for some time.

The different ministers of Leamington have arranged for a mass meeting in the town hall immediately after evening service on Sept. 29, to make known the work of the Lord's Day Alliance and its claims to be considered one of the vital questions of the present day. Addresses will be given by Rev. T. Shields, Principal Elliott and others. Music will be furnished by a choir from the different churches.

The Tilbury West Agricultural Society's show will be held at Comber on Friday and Saturday; Tuesday and Wednesday of the next week the dates reserved for the A. & M. Union Fair at Amherstburg; while Wednesday, Thursday and Friday will see the Mercers fair at Leamington. The Colchester South fair at Harrow is billed for Tuesday and Wednesday, Oct. 8 and 9, and the Pelee Island show closes the list on Thursday and Friday Oct. 10 and 11.

On Monday night the sheep and hog pens belonging to the Mercers Agricultural Society, lying along the track of Lake Erie, at Leamington, were nearly all destroyed by fire. The loss will be considerable. They will have to be rebuilt in a very few days as the exhibition opens on Wednesday next. The fire was doubtless caused by sparks from the locomotive. Being beyond reach of fire protection from the waterworks, the only way to overcome the fire was by tearing down the pens adjacent, but the flames spread so rapidly that few were saved.

A farmer's rig was standing in front of one of the stores on Saturday forenoon, and a couple of old people sat on the seat apparently waiting for some one. A bicyclist approached the rig from behind when suddenly the rear tire of his wheel burst with a mighty pop. Mr. Charles Comeau, of Neguac, New Brunswick, Says:

"I AM NOW CURED THANKS TO

Faine's Celery Compound

Dyspepsia and Liver Troubles Forever Banished.

The Wells & Richardson Co., Limited. Dear Sirs, I can conscientiously recommend Faine's Celery Compound to all who may be suffering from dyspepsia and liver troubles. For years while living at Black Brook, I suffered from a complication of troubles, and was so bad with dyspepsia that I could not touch a morsel of food. I found it difficult to sleep, and what little I did get was often broken with horrid dreams. Intense sufferings from constipation added to my load of agony; also had dizziness, pains in the back, and was pale, haggard and despondent.

I kept doctoring and dosing without deriving the slightest benefit, and finally gave up all hope of getting well. One day my daughter, who had read of a wonderful cure by Faine's Celery Compound, begged me to try one bottle of the medicine. I told her it was no use to throw away money, but she pleaded so hard that to please her, I bought a bottle, and before it was used up I felt better. Encouraged so much, I continued with the medicine and improved every day.

I am now cured, thanks to Faine's Celery Compound. You cannot wonder that I consider Faine's Celery Compound the greatest medical discovery in the world. I urge all who are suffering to try this grand medicine, and test its virtues.

Yours truly,
CHAS. COMEAU.

Jas. O'Leary shot 93 hogs last week, through the instruction of V. S. Dr. Thorne, who pronounced the cholera among his swine. Mr. O'Leary suffers quite a loss as he had some valuable brood sows in the lot killed. His place was placed under quarantine for months.—Wallaceburg Herald.

A PRETTY WEDDING.

On Tuesday the home of Mrs. John Hunter, Charing Cross, was the scene of the wedding of Miss Flora May Hunter and John Herbert, sons of D. G. Wilson, Esq., Ridgetown. Miss Shaw, Cedar Springs, furnished the music, while Rev. Mr. Thompson, of Charing Cross, and Rev. Mr. Shaw, of Cedar Springs, performed the ceremony.

Which made two happy hearts. The bride wore a handsome costume of white organdie and carried a bouquet of cosmos. The bridesmaid, Miss Eva Hunter, sister of the bride, was attended in a similar costume. Hugh Ferguson, of Ridgetown, assisted the groom. The house was very tastefully decorated with flowers of various kinds and the large number of handsome presents testified to the high esteem in which the bride was held by all who knew her. Among them was a handsome lamp and stand, the gift of the Charing Cross choir, of which Miss Hunter has been a valued member for a long time. The happy couple left for Toronto, Buffalo and other eastern points and will take up their residence in the handsome home of the groom, at Ridgetown.

Mrs. Louis Brovoost Publishes What She Thinks About Dodd's Kidney Pills.

A Convincing Piece of Evidence as to the Wonderful Power of this Remedy—Bright's Disease, Heart Disease and Rheumatism Each Afflicted Mrs. Brovoost—Dodd's Kidney Pills Positively Cured Her.

St. Magloire, Que., Sept. 27.—(Special)—The following letter was written by a well-known and highly respected lady of this place, being a copy of the original sent to the (Dodd's) Medicine Company, of Toronto.

"When I wrote you for some Dodd's Kidney Pills I was so discouraged that I had no hope of being able to find any remedy to save my life. I suffered with Bright's Disease, Heart Disease and Rheumatism and I was much bloated also with dropsy. I was so feeble that I was unable to do anything. I suffered for sixteen years with Rheumatism. There were two years and a half that I suffered with Bright's disease. I have tried all the remedies in the world and always grew worse and worse.

There was one time when for three months I abandoned all my remedies and resolved to let myself die without taking any medicine. I received by chance, one of your almanacs and a paper. I read them and I decided to write to you and try again with your remedy.

"Great was my surprise at the good that Dodd's Kidney Pills gave me with the first box you sent. I took them and my health was greatly improved. Since then I have taken twenty boxes. I am cured of my Bright's disease, my heart disease, and my rheumatism. I have still two boxes to take and by the time I have finished them I shall be in perfect health. I will permit you to publish this letter with pleasure, and I hope later to give you facts of my recovery more completely than at present. I am still weak, but with time I shall be strong as ever. I recommend Dodd's Kidney Pills to all who suffer with any of the diseases that I did."

A PRETTY WEDDING

James W. McLean, a Form. r. Chatham
by Married in Lorain, Chic.

It was exactly 3.30 yesterday when the wedding of James W. McLean and Miss Jessie Jacobs, took place at the bride's home on Oberlin avenue. Nearly 50 guests had gathered in the house which was beautifully decorated, when a Toledo orchestra played the sweet strains of Mendelssohn's wedding march. The bride, who was dressed in a gown of cream colored silk and carried a train of white roses, was accompanied by Miss Lela White, her sister, of the groom. The groom was accompanied by Frank Wood. Miss Fay McDougall was the ring bearer. The ceremony was very impressive and was followed by an excellent supper. The newly married couple were accompanied by the bride's parents, Mr. and Mrs. W. J. McLean, who are now residing in Buffalo. They received a large number of fine gifts.

The above is copied from one of the Lorain, Ohio papers, and is self explanatory. Mr. McLean, the groom, is well and very favorably known in this city, being a former Maple City resident. His former associates with whom he was a general favorite, will all unite in wishing he and his bride a happy journey through life together.

APPRECIATED

Maple City's Condolence With American People.

The following is the answer received from the Secretary of State, by Mayor Sulman, in answer to the letter of condolence and sympathy sent by him on day of the President's death.

Department of State,
Sept. 25, 1901.

Hon. G. W. Sulman,
Chatham, Ontario,
Canada.

Sir—Among the many messages of grief and of sympathy with Mrs. McKinley and the other members of the late President's family in their overwhelming trouble, received by the government, and acknowledged by me on their account, and among the multiplying expressions of profound respect for President McKinley's unselfish devotion and great services to his country, together with a wide and increasing testimony to his exalted character and gracious personality, from every part of the United States—indeed from all parts of the world—I have the honor to acknowledge with sentiments of sincere appreciation, your telegram of the 14th inst., on behalf of the people of Chatham.

I am, Sir,
Your obedient servant,
JOHN HAY.

AT DRESDEN

Enjoyable Program Presented in the Baptist Church There.

Last evening in the North Dresden Baptist church, Mrs. S. C. Walker, of this city, put on an exceedingly fine program, assisted by her pupils of that place and local talent from Chatham.

Particular mention we make of Miss Margie Duncan, as it being her first appearance as a vocalist, she did well. The church was crowded and the pastor, Mr. Stevenson, acted as chairman in his usual up-to-date manner, making reference as to the excellence of the music rendered by the Mandolin Club. Miss Evelyn Barrasin, eloquently, pleased the audience admirably. Miss Nellie Rhody acted as accompanist of the evening.

The program was a most successful one, and the church was well patronized.

Rheumatic Pains. SUNDAY SERVICES

CAUSED BY AN IMPURE CONDITION OF THE BLOOD.

If Neglected They Will Grow Worse And Serious Results Will Follow—Rheumatism Can Be Permanently Cured.

From the Telegraph, Quebec.

Rheumatism is one of the most common and at the same time one of the most painful affections from which humanity suffers. It affects the joints and muscles, and is characterized, even in its simplest form, by a dull constant pain. While it remains in the joints and muscles, it is sufficiently painful and distressing, but as it is liable to attack the vital organs, such as the heart, the disease becomes a source of danger, and in many instances it has proved fatal. Dr. Williams' Pink Pills possess qualities for the cure of this disease which are unequalled by any other medicine. Mr. Cyrus Lamond, a well known resident of Stadacona, Quebec, bears testimony to the wonderful curative powers of these pills. To a reporter of the Telegraph, he gave the following story:—"Until some three years ago I always enjoyed the best of health, but about that time I was attacked with what proved from the outset to be a severe case of rheumatism, from which I suffered great torture. I tried a number of the supposed cures for this disease, but none of them benefited me. I seemed to be constantly growing worse, so I called in a physician, but as his treatment did not give me relief, I sought the assistance of two other doctors, but they also failed to help me. My appetite left me; my strength gradually ebbed away; one of my legs was drawn out of shape, and I was never free from pain. I was in despair of ever being well again, when one day a relative brought me a box of Dr. Williams' Pink Pills and urged me to take them. He seemed to have such great confidence in the pills that I determined to follow his advice. To-day I am happy that I did so, for within the use of less than a dozen boxes of these pills the pain from which I suffered so much is all gone, and I feel stronger and healthier than I did before. This I owe to Dr. Williams' Pink Pills, and I would strongly urge similar sufferers to give them a trial."

Experience has proved Dr. Williams' Pink Pills to be without an equal as a blood builder and nerve restorer. It is this power of acting directly on the blood and nerves that enables these pills to cure such diseases as rheumatism, sciatica, neuralgia, locomotor ataxia, paralysis, and all the ordinary diseases of the blood and nerves. These pills are sold by all dealers in medicine, or can be had by mail, postpaid, at 50c a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

LAST TRIP

Steamer City of Chatham has Closed a Very Successful Season.

The steamer City of Chatham has closed her regular excursion season. The last trip was made to Detroit on Thursday, with exceptionally favorable weather.

The City is now under charter for two or three weeks with the Pelee Island fishing club. She is now lying at Sandusky and will leave for Pelee Island on Sunday morning.

Following is a list of the passengers on this morning, William Hall, president of the Chatham Navigation Co., said, "The season just closed has been a very satisfactory one for the steamer. Her excursions have been successful in popularity and the service has been good. We are well pleased with the results."

NEW RECTOR

Appointment to Holy Trinity Church is Offered to Rev. T. Beverley Smith, of Toronto.

Last evening his lordship, the Bishop of Huron formally tendered Rev. T. Beverley Smith, of Toronto, the appointment to the pastorate of Holy Trinity Church, city, and St. Thomas Church, Dover.

The Bishop's action was taken as a result of the meeting of the executive of the Synod at London, held yesterday at which William Hall, of this city, represented the congregation of the churches in question and asked for the appointment.

Rev. T. Beverley Smith is well and favorably known in this district. For some years he served most acceptably in the capacity of curate at Windsor and his recent work in Toronto has been fraught with exceptional success. He is both earnest and enthusiastic and enjoys a reputation for special ability in winning the young and enthusiastic life into his congregation.

It is expected that his response to the proffered appointment will be received here to-morrow.

Our Store Closes At Six

Men who know this store do not need to be told that it has some little ways of its own. We mention it for those who do not know.

In this city of Chatham there is one clothing and furnishing store that closes its doors at six o'clock every evening but Saturday—has done so since its sign was first hung over the door, and expects to while the sign stays there.

Do you approve of a nine or twelve hour working day? Does it strike you as the fair and considerate way to let the salesman have his evenings for recreation and home life as the mechanic has? Are you in sympathy with us on this question? Well then?

DROWNED BABES

Insane Mother Threw her Children in a Well and Followed Them.

Cleveland, Ohio, Sept. 27.—The small town of Little York, a station on the line of the Akron, Bedford & Cleveland railway line, fifteen miles south of this city was the scene of a terrible tragedy early to-day.

Mrs. Perry Curtis, the wife of a farmer, 38 years old, drowned her four small children in a well, and the committed suicide by jumping in herself. Her husband, Perry Curtis, was in Cleveland with a load of potatoes, and knew nothing of the tragedy until he read an account of it in the newspapers.

Following are the dead: Mrs. Perry Curtis, 38 years; Ross Curtis, 2 years; Anna Curtis, 4 years; Harry Curtis, 5 years; Harold Scuder, 9 years.

The last named was Mrs. Curtis' stepson.

Mrs. Curtis was released from the Massillon insane asylum recently as cured, and it is thought that it was while suffering a relapse that she committed the terrible deed.

Before leaving home, Curtis requested Eugene Roberts, a neighbor, to milk his cows this morning. Roberts, on arriving at the Curtis farm, attempted to draw some water from the well. To his horror he found it literally filled with dead bodies. The body of Harold, the oldest boy, was horribly bruised. He had evidently made a desperate struggle to save himself.
