# Protests designed to tell public about inequalities in education

Canadian students participating in National Student Daydemonstrations, Oct. 27, are not looking for a hand-out.

Carole Henderson, chairman of the Dalhousie committee for National Student Day, says the protests are designed to create a general awareness of the inequalities that exist in the nation's system of higher education.

'As university students," she said, "we will not be marching for ourselves, but for those who are, or will be barred for other than academic reasons from attending university.'

Although the form of protest, or demonstration, will differ to post-secondary education. from area to area in Canada, national co-ordination is being provided by the Canadian Union of Students.

At the CUS national Congress this fall, a resolution was passed stating the right and responsibility of students to employ legitimate methods of public pressure to bring about adoption of the principle "of universal accessibility to post secondary education."

demonstrate on each campus in addition to a combined march by for financial reasons. representatives of all seven Maritime universities on the Provincial

Upon arrival at the Legislature a brief will be presented to Premier Stanfield and other political leaders. They will be asked

The brief will contain a number of aims of the national student body, as drawn up by CUS.

It will call for the removal of all social and financial barriers

To accomplish this end the brief lists a number of steps necessary to achieving democratic opportunity of education.

It takes into account that in order to reduce or eliminate fees, our governments must make the money available to our universities. They will do so only to the extent that the public demands greater

In Nova Scotia, students with support of their councils will support for post-secondary education, and that no one be excluded

At the federal level the brief calls for : (1) a higher per capita levy, (2) equalization of distribution of this levy.

The second point would require a formula to cover students who study in a province other than their own, so that universities will not suffer by taking out-of-province students.

The province will be asked to allocate a higher percentage of the provincial budget to post-secondary education.

It will also be suggested that the amount budgeted for the entire field of education be increased.

In dealing with the relationship between the province and the universities, the brief calls for close consultation with students on the best method of eliminating the financial barriers to students continuing their education.

A local panel discussion took up the evening session. An attempt was made to tie the day's topics into the general theme of the Teach-in. "Revolution and International conflict." Opinions as to the success of

the teach-in were varied. John Cleveland, president of King's Student Council and chairman of the panel, felt that "the object of the Toronto teach-in was not achieved." The speakers never descend-

ed from their political plateau into intelligent and honest discussion, he said. The Americans staunchly supported the position of the Johnson administration, while other speakers were given to making sweeping statements, often factually imperfect, Cleveland said.

Poor publicity and scheduling of the teach-in on the Thanksgiving weekend have been blamed for the relatively small attendance figures.

Wither tending?

#### Students offered training in drama, practical theatre

By LINDA GILLINGWATER of The Gazette Staff

"Drama taught apart from practical theatre orientation is inadequately taught." The Dalhousie Drama Workshop, available to any full or parttime student is designed to allow the average student in any faculty to develop his personality through theatre study, to enable him to participate in dramatic productions of good standard, and to encourage a greater appreciation for and participation in Community and Professional Theatre."

Briefly stated this sums up the raison d'etre of the Dalhousie

such a venture.

And rubber boots. It rains all the time in Halifax.

I scorned their warnings as being an unworthy manifestation of the inate Western suspicion and discrediting on principle of anything east of Winnipeg. They clucked over my refusal to take them seriously, I did

agree that some rain and fog might appear but that the quantity would probably not be as great as rumours suggested. What I didn't know, definitely hurt me.

It's not that I dislike fog or rain. The misty, white mornings give one the feeling of infiniteness even in the confinement of strange, inpenetrable walls.

However, I hadn't counted on wet shoes that don't dry overnight, on frizzy hair that straggles limply over one's eyes, or on torrents of bullet-sized raindrops that make you feel as if your're under a shower with a small tornado stirring things up to make life interest-

The cold settles into your bones, defying the comfort of warm slippers and three sweaters.

Oh, how I long for the dry air of Edmonton where it rains and then stops and then the sun shines for a few more weeks. Oh, for the comparatively flat campus where you don't have to trudge up and down hills just to get to class and you don't have to walk miles to the Forrest building when you've only got one hour to get through that phenomenal lunch line-up at Shirreff Hall.

But please don't misunderstand me. Dalhousie is a wonderful university, despite its rather unfortunate climatic situation.

The courses I'm taking are absorbing and challenging, the girls in residence and other students on campus have been very friendly and kind. The campus itself is probably one of the most beautiful and impressive in Canada, due mostly to the uniform building materials and the lovely trees.

And the Nova Scotia names are fascinating - Antigonish or Halifax itself are good examples. But perhaps Edmonton and Inuvik sound equally strange to the Eastern ear.

Three weeks at Dal have really made me a Dalhousie student, although of course I still use the University of Alberta for purposes of identification. And when I return to convocate at U of A this spring, I'll probably be nauseatingly full of anecdotes about that Eastern Utopia where I spent a glorious year.

tration, and film-making" will teach speech and child drama.

This year's first production, Julius Caesar, has already been cast, and rehearsals are now underway. To be staged in the university gymnasium, the play will run from Nov. 9 to 13 inclusive.

Once Professor Lawrence has oriented himself to the campus and its possibilities he will choose and direct the second production of the Workshop to be presented in the spring.

When asked about the future Dr. Ripley said: "We are going to grow and have to grow." Drama programmes in the Maritimes are lagging far behind those of the rest of Canada and the U.S. A number of universities recognized some years ago the importance of a theatre in the cultural life of their respective areas and tured lecturer was internation- set up a degree programme in Drama. The University of British els. Columbia and the University of 2) increasing involvement in Alberta were among the first in community theatre projects.

#### Council Frolic Break The Lar

Part of your outrageous tuition fee of \$600. is spent by the Council of the Student's, who were elected last spring to represent your best interests. The Gazette feels that some of you might be interested in a progress report on how this year's Council is faring.

There are three groups on Council. The ingroup, the reactionary caucus, and the others. The in-groups proposes, the reactionaries oppose and the others vote-almost always for the in-

Essentially the Executive forms the in-group. Robbie Shaw as President functions as a father figure who inspires confidence. His experience in CUS and at Queen's has given him the ability to project such a favorable image that most of the "others" feel a bit sinful when they vote against him. Robbie is the reason why the Executive hasn't as yet been stoned to death by the

Liz Campbell the Vice-President is in charge of applications. Since she is not a father figure applications are sometimes rejected by the mas-

John Young is the Treasurer. He is a good Treasurer though he tends to be a bit "too much" with his favorite statement that "only the Commerce Rep. will be able to understand" the mysteries over which he presides. Young is fun to watch since he makes his feelings known very audibly when he disagrees with another Council

Carl Holm does the "politicking" for the Executive. He does his best to emulate the great Herrndorf but usually falls somewhat short - with the result that the father figure must once again, "sincerely urge" the Council to adopt the Executive's legislation. Sometimes Carl succeeds however. This is usually when he is "politicking" against the rest of the Executive.

The final member of the Executive is Bill Mac-Donald from Graduate Studies. Bill is silent and is only called upon when Shaw feels the need for reinforcement of his "fairness" image.

Joe Macdonald's position is somewhat analamous. It would seem that he is the Executive Assistant to the President. As such he functions as a member of the in-group. Yet on Council he has chosen to play the role as leader of the reactionary caucus. However, now that Eric Hillis has joined the Council as Education Rep. and doubled the caucus perhaps Macdonald will be able to spend more time bustling and organizing.

The "others" are actually of no consequence. The level of debate is usually fairly elementary and sometimes banal, Dave Simpson, Kay Free. man, Ann Rungas and Frank O'Dea are the best but even they seem incapable of providing sustained intelligent comment on the Executive decisions. Perhaps this situation will be rectified as the year progresses. Certainly there are many members, though presently silent, who have resources within them to make reasonably com-

This then, is the Council to date. In later issues the Gazette will review the performances of the "others" rating them against their fellows. Now you know the grim truth.

The Gazette suggests that the students of this university should go out and break the law. Not that most of you need any encouragement since surveys show that the great majority of you have already done so.

That is, you have, in contravention of the law, consumed alcoholic beverages while under the age of 21 years. Indeed some of you have compounded the transgression by entering a tavern while still in a state of youthful purity. You have committed these acts wilfully and with full knowledge that your actions were in direct violation of a statute of the province of Nova Scotia. You have done those things which you ought not to have done and there is no health in you.

But don't worry. In this case the law is an ass. More important, it is a hypocritic ass. There is not an official of government in this province from the Premier down to the rookie cop who doesn't realize that every day hundreds of university students violate the law. And this know. ledge has not lead to prosecution (at least in the DEAR SIR: vast number of instances) but a cozy arrange. ment whereby the law officers of the crown wink at drinking violations of university students.

To this we object. We object, not because we by the Association of Atlantic believe that students should not drink, but because Students, October 5. we are fed up with the cant and hypocrisy of the treatment of young people in our society.

For many freshman, their introduction to college is also their introduction to liquor. They go to a party where somebody, quite naturally, pulls out a bottle and, quite politely, passes it around. They like it and soon begin to buy it on their own. This incidentally in extremely easy in Halifax where liquor permits are issued upon payment of a fee of fifty cents without any identification being required. Indeed, the situation is so ludicrous that a Nova Scotia liquor permit is the one piece of identification that tavern waiters are absolute. ly forbidden to accept by order of the liquor inspectors. So with a permit readily available the freshman is able to experiment with the various products sold by the Liquor Commission (profits accruing to the government). Very often students go on great tearing drunks. Why?

One, because drinking can be fun, and two, because the illegality of the whole business makes it look (at least in the eyes of many freshmen) awfully adult to come in stone drunk at least once a

After all, it is only if you treat students as adults that there is any chance of them behaving as such. Or at least, students treated as adults are more likely to behave as adults and, unfortunately, the reverse is also the case.

The law must be changed. The Gazette feels confident that this generation is not as ready as our parents to blindly accept the stupidity and the hypocrisy of laws of this nature. We hope that the end of this kind of legislation will help restore our somewhat shattered faith in the good traditions of out civilization. We expect of our governments that they will help instill in us a respect for the Law by immediately removing those items which are unenforceable and unwanted.

If the students of Canada begin to use their collective strength, these laws, proposed for an obsolete age, can be banished from the statute books of this province and this nation.

... New radicalism on campus

#### Revolution in United States...

## Student protests geared to change American system

By STANLEY GRAY Special to The Gazette

The last year has seen a rapid increase in both the activities and number of participants of radical marches opposing the war in izing projects all reflect the erican campuses and prompting munity organizing. them to concrete action to realize their goals. Indeed, it can be said that for the first time since the Mc Carthy rampages intimidated thousands of intellectuals inpolitical quietude, the spirit of dissent is becoming a widespread phenomenon and an integral elescene in the United States.

Thus far the growing radicaland peace organizations) is limited mostly to university students and civil rights activities. However, despite its predominantly youth protest orientation, a significant feature of the current resurgence of the American left is that the new radicalgroups are trying to broaden the base of their movement to include other sectors of society, and to organize a broad social movement that can act to fundamentally change the American economic, social and political system.

with different ideologies and tarian power structure of Amerversity administrations, strategies co-exist on the student scene. The activities and organ- and purpose of education in a bur-Viet-Nam and community organ- izations of the new student radicals can be grouped under four growing social consciousness categories: university reform, that is seizing thousands on Am- anti-war, civil rights, and com-

#### University Reform

Widespread student action to challenge the authoritarian structure of the university and the arbitrary actions of university administrations is a very rement of the current political cent development on American campuses. The most spectacular instance of a student revolt against administration attempts ism (outside of the old socialist to curb political freedom is, of course, the Berkeley Free Speech Movement. The FSM, which at times involved over half the 27,000 students at the university, initially conducted civil disobedience campaigns for the right of free political expression on campus, and eventually broadened its approach to a quite serious and sophisticated critique of the bureaucratic and impersonal "multiversity".

University reform actions have not all centred around the right of free speech on campus. Some Student social and political ac- groups have concentrated on ortion in the United States is not ganizing university employees channelled through official into a trade union (eg. Michigan),

ican universities and the meaning eaucratic and war - oriented society which produces universities servile to the corporate and military establishments.

ideas for university reform have emerged out of this general ferment on the campuses. Perhaps Free University idea - an approach which looks to the establishment of parallel educational institutions, run by students and faculty, addressing themselves to the important social issues in the world today. One such free university has been set up in New York, and plans are afoot for others, particularly in Califor-

#### Anti-War

The most dynamic and widespread radical student action in the United States today focuses around organizing opposition to the war in Viet-Nam. The 25,000 strong march on Washington last April organized by the Students for a Democratic Society (SDS) the blossoming of the teach-ins on Viet-Nam, and the many anti-

stream organizations (liberal line in support of popular faculty the opposition to the war. This or political party). Students have members improperly treated by summer saw a number of sitrather acted through a number of the university (eg. Yale). But all downs by students trying to block protest groups or movements, these disparate actions on trains carrying troops destined number of participants of radical and a significant number of radi-students groups in the United cal and leftwing organizations around a critique of the authori-States. Student action against uni-with different ideologies and tarian power structure of Amer-200 persons from the peace and civil rights movements in Washington on August 9. This Fall should see a considerably increased anti-war drive by the student movement. Demonstrations, sit-ins, teach-ins, antidraft movements will occur Many positive and constructive throughout the U.S.

There are a number of groups and Viet-Nam Committees orthe most challenging one is the ganizing the current opposition campaign, the most significant of them being SDS. Also, organizations like The National Committee for a Sane Nuclear Policy, the Du Bois Clubs, the Young Socialist Alliance and the May 2nd Movement are organizing militant programs. Also, and perhaps this is the most significant development recently, the civil rights movement is becoming increasingly involved in the antiwar movement. Many civil rights organizers and Negro activists attended the April 17 march, and icalism and social conscious- co-ordinate the various freedom The Student Non-Violent Co-or- ness of American students in- rides and sit-insthat were occurrently giving its full support to student organizations are SNCC.

#### Civil Rights

It was the civil rights movewar rallies constitute merely the ment that several years ago be-

Community, unions have ciety.

representatives . In Georgia, a democracy" in the Unites States. SNCC worker, Julian Bond, was recently elected to the Georgia State Legislature.

#### Community Organizing

The NSM is mostly active in the Negro ghettoes of the North and its orientation is the building of permanent community organizatons controlled by the Negroes themselves, for radical social change.

Perhaps the most significant form of student action, and the one that has a long-term perspective for the radical restructuring of American society, is the "community organizing" movement. Sponsored largely by SDS large numbers of students in the last 2 years have gone into northern to help people living under poverty conditions to organize themselves and make radical demands, upon society for basic social and economic change. With about 45 million Americans living controlled from below, will be

action. SNCC helped form the been built in places like Chicago, Mississippi Freedom Democra- Cleveland and Newark, and their tic Party last summer, and is tactics vary from rent strikes to currently trying to replace the running candidates for municipal Democratic representatives in council. Their goal is the Congress by their own elected achievement of a "participatory

> The SDS projects have much of the same orientation that NSM and SNCC have, and the three movements interlock to a very great degree.

-Bullets

All the groups and activities mentioned above may tend to give the impression of a heterogeneous and disparate movement, with no common goals, constituency or strategy. The contrary, however, is the case. There is considerable overlapping in the various groups, and a lot of their action in diverse fields is co-ordinated. The movements all stem from a basic critique of the American system - a system where power is wielded by a highly undemocratic power structure and where people in all sectors of society are prevented from leading decent and human lives. They all uphold the values of peace, freedom and equality. The student radials oppose the slaughter in Viet-Nam for the same reasons they oppose the brutalization and oppression of the Negroes in Mississippi. They are equally for democracy for the student and democracy for the poor, and they realize that freedom for the student, the poor and the Negro can only be made a realty when America becomes a truly free so-

town, torn asunder with the feud-

in' of the two leading families.

Reminiscent of Shane, Yojimbo shows us the humour underlying this choice situation, and the hideous comedy of death. Mifune's excellent acting and Kurosawa's brilliant direction bring this out. He, the merchant of death, stands aloof, always aware of the situation; yet he regards his life and the lives of those around him as being a joke.

The supporting actors acquit themselves more than adequately, and again Kurosawa keeps the film's pace well in control, although occasionally allowing the camera to linger too long in a

MUSIC: PATRICIA MOWAT

#### **Sunday Concert:** piano and winds

Last Sunday afternoon, the third in a series of Dalhousie University Concerts was presented at King's College Gymnasium. The performers in this concert for piano and winds were Monique Guesset, pianist, Margaret Norton, oboeist, Albant Gallant, clarinetist, James Hansen, basoonist, and Ronald Mackay, French horn; the last four all members of the Halifax Symphony Orchestra.

The program included works by Stanitz, an eighteenth century German composer, and two twentieth century French composers, Milhaud and Ibert.

Using winds in combinations of fours and threes, this part of the program was rather unexciting and not especially well-played. In the Stamitz quartet shaky intonation and ensemble problems marred the interpretation.

The program improved as the two trios by Milhaud and Ibert were performed. The young musicians instilled a great deal of charm and humor in these two interesting works. Their ensemble and overall playing improved in these two compositions although the feeling was still one of uncertainty and unfamiliarity.

The second half of the program was devoted entirely to Beethoven's quintet for Piano and Winds, Opus 16. This was certainly the best by far on the program. The composition although technically and musically very difficult, was well handled by the players, who displayed their full potential.

Although not in any sense perfect, this was real Beethoven. It was a controlled and steady performance played with a sensitive feeling which made one accept it as music well worth the listening. A great deal of credit for this performance is due to the superb playing and skill of Monique Gusset, the pianist. She played the difficult technical passages with great control and was able at the same time to give the sensitive interpretation Beethoven re-

The Second Coordinating Committee of the National Student Press Council of India (NSPCI) was held at Ahmedabad on 26th of July to discuss the administrative, financial and the publication activities of NSPCI. In view of the appointment of Sri C.M. Gulhati as the Director of the Asian Student Press Bureau the Coordinating Committee accepted the resignation submitted by him to the Chairmanship of NSPCI. It also elected Mr. V.S. Ramchandra unanimously as the Chairman of NSPCI until the next General Council Meeting. The Coordinating Committee Meeting decided that the publication of "Student Chronicle" should be carried on. In course of time "The Student Chronicle" should be made self sufficient. It also decided to participate in the International Student Press Conference and conduct the exchange ists with the press associations in other countries. (NSPCI News

Features, New Delhi)

"New accommodation for students" was the theme of a meeting in Berlin to which the National Union of German Students (VDS) had invited 50 building specialists, student representatives and experts from the regions and the federation. It was arreed that in the past the student hostel had had in some respects a similarity with the barracks-style. Long flights of rooms with common kitchen and toilet facilities; the quarters often became like an institution. Today's student wants to be as much a private individual as possible within the communal setting. He wants his own cloak-room, his own shower and washing-facilities and his own toilet. A modern student hostel will try to bring together the occupants of two, four or six rooms so as to attain a feeling of neighbourship. It is possible by an interlinking of floors and smaller blocks to create an impression of a collection of miniature apartments in which the programmes of student journal- student will find every facility necessary for living there.

# Would like to join us?

We're Canada's largest manufacturer of telecommunication equipment and cables, both power and communications. Sales in 1964 exceeded \$315,000,000 - an increase

of 33% in three years. Our plants are located at Montreal, Lachine, Ottawa, Belleville, Toronto and London, and our sales and distribution houses stretch from coast to coast.

Our International Operations Division is developing world-wide markets.

We do our own research and development in the largest and most modern laboratory in Canada

- more than 700 people work in R. & D. Of our 19,000 employees, over 1100 are university graduates:

they comprise more than 60% of middle management and more than 90% of top management. Although more than half the 1966 grads we hire will be for

technical assignments, the balance will be from a wide range of non-technical degrees and disciplines. Our starting salaries are substantial. Your performance will be

based on these evaluations. To encourage your professional growth we have liberal tuition

evaluated at regular intervals and increases will be

refund plans, scholarships and bursaries for our employees. We provide excellent employee protection in the form of sickness benefits, life insurance, company-subsidized medical plans and non-contributory pensions.

If you'd like to work for an all-Canadian Company that is a leader in its field and is daily breaking ground with new and exciting projects, ask your Placement Officer for an appointment with our recruiters.

They'll be on campus in two weeks.

#### CAREER OPPORTUNITIES with the Government of Canada

Personnel Administrators Financial Administrators Foreign Service Officers (Diplomatic, Trade, Immigration) Economists Archivists Statistical Analysts Industrial Promotion Officers

These and many other similar careers are open to able graduates of all faculties but will be of particular interest to those completing a degree in ARTS, COMMERCE or LAW

Career development opportunities in 1966 will be excellent for those who can measure up to the qualifications required.

ARE YOU A LEADER, an organizer able to get things done? Have you a good academic record and an appreciation of national and regional problems? If so, you owe it to yourself to explore these challenging opportunities.

Selections will be made through the annual programme for Junior Executive Officers and Foreign Service Officers, for which the qualifying examination will be held on campus:

OCTOBER 20 - 7:00 p.m.

Further details, booklets and applications are available at the Placement Office on campus.

#### HUDSON'S BAY COMPANY and HENRY MORGAN & CO. LIMITED

for news and views regarding employment and career opportunities

CALL 429-1420

Some companies say bachelor graduates are a dime a dozen.

We don't. Because we are involved in almost every phase of economic life in Canada, we're looking for men with a broad outlook. Consequently, we don't restrict ourselves by any means to graduates with specialized backgrounds.

Banking has become both a highly competitive and fast-changing business. The Royal Bank's decentralized operations provide many active management positions to men of diverse inclinations and talents.

We'll be on campus soon. Meanwhile, why not have a word with your placement officer today?

#### From The **Sidelines**

By Mike Smith

It was a day like most days, filled with the events that alter and illuminate . . . and YOU weren't there. That is, unless you were one of the hundred-odd fans who turned out to see the Dalhousie Soccer Tigers come from behind to tie their arch-rivals, St. F.X. 3 - 3, in a game played last Saturday on Studley Field. This desk was impressed by the calibre of ball displayed by both teams, and particularly the offensive work of Bengal stalward - Mike Hewitt. As predicted, the Tigers showed a much stronger offensive attack. The highlight of the game was by Hewitt. Shortly after the second period opened, Hewitt emerged from a maze of players in front of the X - goaltender, and deflected a well-placed sidelines pass into the corner of the net.

Meanwhile at Fredericton, the Dalhousie Football Tigers were being subdued 20 - 3 by the UNB Red Bombers. Most Tiger supporters will tell you it was what they had predicted, and that the first two Bluenose schedule games are just a prelude to another winless season for Dalhousie. Immediately fingers are pointed at the coaching staff. What the average fan doesn't realize is that the greatest impediment is the eligibility ruling, which automatically limits the number of experienced players turning out for the team. It means that the coach has to work from year to year, with more than the usual number of 'green' players. By the time the coach reaches the peak of his rebuilding program, those players who have logged three-to-four years with the team are entering, or have entered, professional school and because of the pressure of studies are not prepared to commit themselves to another year of football.

Consequently the coach is faced with another rebuilding program, and the vicious cycle begins all over again. Why not institute a more effective recruiting program, you ask? Well, it must be remembered that Dalhousie is primarily academic, and therefore cannot, and will not, offer the same incentives that some of the other Bluenose Conference teams do. That is, the \$100-deductible incentive offered students who play a varsity sport. The solution is no easy one. Football is undergoing a transition period in the Halifax area, and the calibre of ball is improving at all levels. But the process of improvement is slow. This is particularly true at the highschool level. With football being introduced to a greater number of schools in Halifax County, hopefully Dalhousie will have a greater cross-section of talent to draw from in the near future.

While on the subject of football, this desk would like to offer congratulations to the Acadia Axemen for an outstanding game against the St. Mary's Huskies, last Saturday night.

#### Optimistic despite 20-3 loss Varsity Tigers host Xaverians at Studley Field in third game

GAZETTE SPORTS REPORTER

St. Francis Xavier invades Studley Field Saturday, when the Tigers host the Xaverians in their third game of the Bluenose Conference schedule. Most 'Black and Gold' supporters are calling went ahead early on a field goal no contest, and perhaps unrea- after a good steady rush, but then sonably so. For although the capitulated when a dropped punch Tigers dropped another game was lost on their 5-yard line and last weekend, this time by a 20- a major resulted. The two other 3 count to U. N. B., there remains touchdowns were direct results of an air of optimism that the team a fumble and another dropped winning combination earlier predicted. Once again errors of inexperience lost the ball game for the Tigers. Fumbles, dropped punts and unfinished rushes, all signs of a young team, were predominant factors working against nificant is the welcomed steady the Bengals. St. F.X. opened the scoring early in the game, when the 'blue and white' squad scored two quick goals. The Tigers came half time but within the first back quickly, when Andy Kee beat the X netminder.

#### Grass Hockey By JANE CUSHING

In an upset victory the Dal Tigerettes grass hockey team squeezed by Acadia 1-0 last Wed-

The single goal was scored

early in the first half by center forward, Sandy Skiffington, on a pass from Heather MacKinnon, Play was evenly matched throughout the rest of the first half and both teams played well. In the second half Acadia warmed up and began to play a much more aggressive game while the Tigerettes stuck to a strictly defensive game. At one point in the game there were eleven "defencemen" between the 25 yard line and the Dal goal.

The extreme cold made both teams uncomfortable with Dal managing to hold onto the shutout. The goalie was Freydis Mason-Hurley who made nine saves for the shutout. Dal's standing as of Oct. 6 was Played 2. Won 2.

#### Plan grid trip, Oct. 23

The annual Acadia football trip is slated this year for Saturday, October 23. Tickets for the event sponsored by the Men's Residence Council, go on sale Monday, October 18 at the canteen, Sherriff Hall and the Men's Residence. Prices are; \$1.00 for men residents, \$2.00 for women residents, and \$3.00 for nonresident students.

These include transportation and tickets costs. Buses will leave the Men's Residence around noon on the 23rd. There will be special buses for those having Saturday morning classes. Plan now to support your team. For further information, call or see Doug Dunbar, Room 1323, Men's Residence

#### Professor Aitchison Dominican policy "biggest blunder"

By CATHERINE MACKENZIE Assistant News Editor

As a result of "the biggest blunder ever made in American foreign policy . . . the Dominican Republic will probably become a prize American show-case", says Professor Aitchison, in the third of his Topic Hours.

communist backing or support

for what Aitchison called a "typical, historic democratic peoples

revolution"? The "hastily pre-

ized their mistake" says Aitchi-

were known communists.

The Johnson administration in the American embassy," said has come under heavy fire from Aitchison. both the communist and non-communist press. The London Observer suggests that the present administration could "use a sharp injection of brainpower."

Dr. Aitchison outlined the historical events which led, in April, to the landing of an "invasion force" of twenty thousand American marines to supress a revolution in which eighteen known communists were thought to be involved.

From 1916 to 1924 American marines occupied the Dominican Republic. According to Aitchison "these marines trained the officers who then brought Trujillo into power. Subsequently the C. I. A. were to supply the arms which were used to assassinate the hated dictator.

Democratic elections were held; bringing Juan Bosch into power with an incredible 62 per cent of the popular vote. Described by John Rittie as the "most scrupulously honest president in the island's history", Bosch was unable to translate his liberal ideals into practical politics.

In September 1963 a rightest coup headed by General Wessen. Wessen overthrew the Bosch government. U.S. recognition of the regime came only after power had been given to a civilian triumvirate headed by Donald Reid

Cabral. The "constitutional counterrevolution" came to a head on April 24, 1965. According to what the professor described as the "rules of the game", Reid resigned to the rebels who displayed the most impressive show of force. Thus bloodshed was avoided.

However, Wessen ignored the rules, and fighting broke out. His troops, beaten and demoralized, were saved only by the arrival of the American marines.

According to a recent "White Paper" troops were requested commendations. "by the only responsible authority in Santo Domingo."

Who was this authority? It was a military junta headed by General Imbert; stationed in the American embassy - "the brainchild

posium on the theme "Perspectives of Economic and Political Development of the Latin American Countries," was recently held in Moscow. It was organized by the Secretariat of the Permanent Latin American Student Seminar in the Soviet Union with the support of the Student Council of the USSR and the Soviet Association of Friendship and Cultural Cooperation with Latin American countries. Altogether 220 students and postgraduates from 30 countries took part in the symposium as well as a group of distinguished Latin American scientists. (news service. Prague)

A students' scientific sym-

And what of the evidence of revolution were dispelled. By his own account Wessen was hustled out of the country with "an American bayonet in my back.

The unilateral intervention was pared C. I. A. document" listed a direct violation of both the U. N. fifty-eight known communists or and O. A. S. charters. After the invasion was completed, the U.S. poor typing the number decreased turned to the O. A. S. for moral support. # BLADEN PROPOSAL FOR GRA

OTTAWA (CUP) - . University presidents across Canada have welcomed the Bladen Report's recommendations for a massive increase in federal government spending on education, "Perhaps the most important single thing about the report is that it makes it absolutely clear that higher education is one of the two or three most vital issues in Canada," said Thomas

Symons, president of Trent University. Many presidents were especially pleased that the report calls on Ottawa to increase its share of responsibility for higher

Dr. Walter Johns of the University of Alberta said that in the past Ottawa had looked on education as a provincial matter

and had refused to recognize some of its problems. The President of the University of Saskatchewan, J.W.T. Spinks, said that federal government actions to date did not show awareness that the economic life of Canada depends on

the quality of its higher education. Claude Bissell of the University of Toronto criticized the proposal that fees continue at the present level, saying he would have "no objection to the elimination of fees, gradual or immedi-

ate" if additional grants could be provided. The additional cost of providing free tuition of top of the other Bladen recommendations would be between \$25 and \$30 million, it was estimated here.

However, Dr. J.B. Macdonald of the University of British Columbia said the proposal that tuition fees be retained was

While endorsing the general aims of the Bladen Commission's report on the Financing of Higher Education, political leaders have expressed doubts about some aspects of its re-

Prime Minister Pearson said the additional federal aid "must be in a form which does not, of course, interfere in any way with the prime responsibility and constitutional jurisdiction of the provinces in this field.'

He has not yet commented on the Report's proposal to make one federal minister responsible for higher education.

Conservative leader John Diefenbaker has previously come out in favor of raises in federal grants to universities on the scale of those recommended in the Bladen report, and has indicated his desire to reduce tuition fees.

New Democratic leader T.C. Douglas, in addition to calling for the abolition of tuition fees, criticized the per capita grants system in a speech in Oshawa Oct. 6.

"This system has greatly increased the disparity between the educational systems of the have and the have-not provinces," Douglas commented, adding that funds should be provided on the basis of each province's need.

Douglas said that an NDP government would make sufficient money available, through grants or tax abatements, that a province could provide free higher education if it wished.

Premier Duff Roblin of Manitoba, commenting on the report, objected to the recommendation for a federal minister of education which, he said, "would unnecessarily complicate

the constitutional situation." He accused the federal government of having "put us off time and time again, asking us to wait for this report. Now it is here there is no excuse for further stalling."

In Quebec, university professors voiced strong criticism of the definition of powers under recommendations of the report. The Association of Professors of the University de Montreal say the Bladen report's recommendations are "absolutely contrary to the letter and spirit of the constitution."

The association says it is astonished that the report recommends the federal government should assume part of the responsibility for the expansion of higher education, when education is the exclusive domain of the provinces.

Jacques-Yvan Morin, professor of constitutional law at U de M, presented the statement Oct. 6, stating that it was based upon the principles of the professors' association which were overwhelmingly adopted at a recent general meeting.

The statement calls on the government of Quebec to opt out of federal plans in the field of higher education and scientific research, the two fields in which the Bladen report advocated massive increases in federal expenditure.
