The Canadian Order of Foresters

The following table gives the standing of the society since its organization in 1897, as to number of members, claims paid, increase in reserve.

Y. at	Members	Claims Paid	Increase in Reserve	Total
1897	850	\$ 5,838.50	\$ 888.50	\$ 888.50
1898	1,740	5,000.00	2,158.50	3,047.00

1885	4,305	23,000.00	31.66	6,984.53
1886	5,131	23,000.00	9,539.82	16,524.35
1887	5,758	28,000.00	14,786.34	31,310.69
1888	7,261	30,000.00	25,501.66	56,812.85
1889	8,625	41,000.00	23,473.16	80,285.51
1890	10,282	51,800.00	27,728.49	108,014.00
1891	12,514	60,200.00	36,219.65	144,233.65
1892	14,208	69,000.00	46,974.78	191,208.43
1893	16,295	74,059.83	61,576.04	252,784.47
1894	18,641	88,000.00	70,463.09	323,247.56
1895	20,791	105,647.10	70,297.02	393,544.58
1896	22,651	104,647.10	82,976.73	476,521.31
1896, 7 mos	24,092	104,647.10	48,538.12	525,179.43
1897	27,165	152,352.53	67,587.08	592,766.51
1898	30,789	143,937.06	108,407.24	701,173.75
1899	35,657	158,035.81	136,087.91	838,261.66
1900	40,142	195,668.99	144,767.66	982,029.32

As will be noticed in 1900, over \$144,000 was carried to the reserve fund, after paying over \$195,000 out in death claims.

The order issues policies for \$500, \$1000, \$1500 and \$2000, the latter sum being the limit of insurance carried on any life.

The premiums payable monthly in advance, are as follows:

Between ages of	On \$500	On \$1000	On \$1500	On \$2000
18 to 25	.35	.50	.90	\$1.20
25 to 30	.40	.55	.98	1.30
30 to 35	.45	.70	1.05	1.40
35 to 40	.50	.85	1.28	1.70
40 to 45	.55	1.00	1.50	2.00

After paying upwards of one million and three-quarters in death claims, the Order had a surplus in the insurance department of \$1,001,000 at the end of January last, all of which is invested in gilt-edged securities in Canada, or is on deposit in the best monetary institutions of the country.

Not a dollar of the moneys collected for the insurance fund is or has been used for the expense of management. The society's business being confined to Canada, the death rate is very low. The death rate per 1000 of membership in 1898 was 4.56, and in 1899, 4.43, and in 1900, 4.88, and since the organization of the society, the average death rate has been only 4.92.

The Sick and Funeral Benefit Branch is a very popular department and upwards of 22,000 of the members of the society are participating in this feature of the order. The benefits are \$3 per week for the first two weeks of illness and \$5 per week for the following ten weeks, altogether \$56 during the year, besides a funeral benefit of \$30. In case of continuous illness \$56 is paid each year. The fees monthly in advance, are as follows:

Between 18 and 25 years	25 cents
" 25 and 30 "	30 "
" 30 and 35 "	35 "
" 35 and 40 "	40 "
" 40 and 45 "	45 "

During the year 1900 over \$63,000 were paid out in sick and funeral benefits.

Physically and morally qualified males, between the ages of 18 and 45 years, who are not debarred on account of occupation, are accepted for membership.

For further particulars enquire of any of the officers or members of the Order, or address—

Scotch Village

It is with sadness we chronicle the early demise of Miss Maud Smith, youngest daughter of the late Edward and Lydia Smith, at the age of 25. Two months ago she went up to her cousins, Mrs. Howe McKay's, and was there stricken with Measles. Rallying from these, she was attacked with pneumonia caused by a cold contracted after the measles. Other complications followed and on Friday after being unconscious for three days death came to her relief. Of a quiet, unassuming disposition, Maud had hosts of friends, by whom she will be deeply mourned and missed. But much more so by her widowed mother, on whom as age advanced, she was wont to lean. Besides her mother, three brothers and three sisters mourn their loss. In Division and social circles her absence will be felt, as she ever held it her duty to

and total reserve, and is well worth the careful perusal of all desiring life insurance. The growth of the society has not been of a mushroom character but has been steady and substantial.

aid any good cause. The funeral took place on Monday at 1 p. m. and the remains placed in the Baptist cemetery here.

Appearance of a very early spring are all around us, the oldest inhabitant remarking on the unusual greenness of the grass.

Wild geese are going north, spring birds are appearing in numbers, and frogs are piping their cold water song and this only April 6th.

Mr. Clarence Nelson went to the States last week and Mr. Clarence Salter is expected home this week after a winter's sojourn in Mass.

Mr. E. C. Putner is getting out a quantity of R.R. sleepers. Messrs. Salter and Vaughan have the contract of pulling them to Mr. North-up's mill.

The roads are much improved, yet in places they are bad. The above items came in too late for last issue.—Ed. ADVANCE.

The boys gathered at Mr. H. H. Salter's and made havoc with his woodpile.

Councillor O. C. Murphy went to Halifax and purchased two horses. He sold two of his not long since. Horses are in demand. Prices in the country rule high.

Measles still hang around. Mr. Geo. Salter's little boys have had them as bad as any around. Mr. Salter who had the misfortune to cut his foot early in the winter is getting around again.

The funeral of Maud Smith was largely attended, evidencing the esteem in which she was held.

Miss Mary Smith, sister of the above deceased is expected on Friday. Miss Bessie Salter, from Hantsport is in the village. She came to attend the funeral of her cousin.

Miss Dimock, sister of Mrs. Edward Dimock, was buried on Friday last at the Baptist cemetery. Also on Thursday of this week Miss Brown sister of Mr. John Brown, Woodville, was interred in the same burial lot.

Mr. Thomas Nelson, census enumerator is pursuing his rounds this week.

HILLFORD

Death has again been at work in our midst. On March 29th John Sanford, Jr. died at V. G. Hospital, Halifax, where he had gone for the purpose of undergoing a surgical operation ordered by his physician. The peralim, though serious proved at first to be successful, but later a relapse took place, after which he rapidly sank, his wife, who had been summoned to his bedside, only reaching there in time to see him pass away. The remains, having been brought home for burial, a large number of relatives and friends heard the last solemn rites at the house and at the grave in the quiet cemetery at Burlington where they were laid to rest on April 2nd. The deceased was a quiet industrious man, a kind husband, a devoted and affectionate father. He leaves a wife and four small children. A deep and general sympathy is felt for the stricken wife and mother.

Mr. Pearl of Scotch Village and A. E. Reynolds of this place are making preparations for a somewhat extensive business in fishing for gasperca, salmon and bass in the river this spring. If fish prove as plentiful as they anticipate, they purpose sending them to Halifax for shipment to Europe. This is an industry that our people have given little attention to in the past, but we hope the above gentlemen will find it remunerative.

Mr. Pearl comes from Kings County, where he has had considerable experience in this kind of fishing.

F. G. Reynolds has captured another large sillicat.

Salmon have spring freshets risen so high in the river and lakes as during the past week. No damage was done.

Several of our men that have been working in the logging woods during the past winter have returned to their homes.

School reopens April 22nd. Stephen Brown and family have removed to Waltham, where they will occupy the old home-stead and care for Mr. B's mother, a very old lady, who has been living much of the time alone. The Browns made many friends while here and no enemies. Mrs. Brown was ever ready to help in times of sickness. Mr. B. is a brother of Mrs. Dixon's of Hantsport.

The local government has engaged Mr. Wm. C. Tibb an expert from New York to spend a month in Nova Scotia to examine the trees for suspected cases of San Jose Scale.

A CATARRH SPECIALIST

Mr. James Spence Clachan Ont. I have been a sufferer from catarrh for 15 years, which became chronic. I have spent a lot of money and consulted several doctors, among others a specialist in London. I have tried every thing I could hear of or see advertised, without doing me any good. But thanks to Dr. Chase's Catarrh Cure I am completely cured after using three boxes of it. I recommend it to anyone suffering from catarrh.

The Ophir, with the heir-apparent and wife on board, arrived in Ceylon on Thursday. They will proceed from there to Australia. The Duke and Duchess will be one of the leading attractions at the Halifax fair this fall. If the show isn't a success financially this season, with St. John out of it altogether, it probably never will be. Here's hoping we'll all be there to see the future King of Britain, and incidentally, the other attractions.

It is said Com. mandant Botha has reopened peace negotiations with Lord Kitchener. Likely while Botha is pretending to make peace with Kitchener, General deWett, the "insane" man, is executing some clever move to circumvent the British. It seems to be a peace-sonp, this South African business anyway.

Blood.

We live by our blood, and on it we thrive or starve, as our blood is rich or poor.

There is nothing else to live on or by.

When strength is full and spirits high, we are being refreshed, bone muscle and brain, in body and mind, with continual flow of rich blood.

This is health. When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Back of the Blood, is food, to keep the blood rich. When it fails, take Scott's Emulsion of Cod Liver Oil. It sets the whole body going again—man woman and child.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

People will talk, and when neighbors get together there is very likely to be something said about Dr. Chase's Ointment, and the surprising cures it is effecting among sufferers with piles and itching skin diseases. It is by words with mouth, from friend to friend, that the fame of this great Ointment has girdled the globe. It stands to-day as the only actual and guaranteed cure for every form of itching bleeding and protruding piles.

The meetings in Berwick, conducted by Evangelist H. L. Gale and ably assisted by Miss Hall's beautiful singing which have been running for two weeks, have now closed. The gatherings were very helpful in a religious way, and many of the deep truths of Holy Writ were brought out forcibly and clearly presented by this earnest Christian worker.

Hantsport

On Easter Sunday evening Dr. McKenna was installed a deacon of the Baptist church Wolfville.

J A Mosher, son of Mr W H Mosher, Avondale, died at San Francisco, April 3rd. He leaves a wife and one child, now residing in San Francisco.

E E Armstrong, station agent at Falmouth, has bought of the Newport Nursery Co. the balance of the nursery stock, some 3,000 trees, now in the Faulkner nursery, this town.

The April shower Saturday came in the form of snow, which, however, under the rays of Old Sol soon disappeared.

The first plaster trains from T. Mosher's quarry at Newport Station began to run yesterday. The schooner Aberdeen is now loading plaster from this quarry.

In June a wedding is to take place in Hantsport, when a prominent gentleman of New Brunswick will lead to the altar one of Acadia's popular daughters.—Tribune.

Miss Foster a returned missionary, will give an address in connection with the Women's Auxiliary in the Methodist church here next Friday evening. A collection will be taken.

Rev. J. M. Fisher, stationed at Rose Bay, Lunenburg county, was in town for a few days last week looking after his property. He expects to set out a lot of apple trees on his farm here this spring.

The anniversary services of the Windsor Methodist church were held last Sunday, Dr. Smith, Halifax, preached the morning sermon. Rev. Mr. Prestwood, of Berwick, gave the evening address. Both services were much enjoyed.

Rev. Mr. Higgins, formerly of Wolfville, preached in the Baptist church here Sunday morning and evening. Mr. Higgins had charge of a St. John congregation for some years. Of late he has been doing evangelistic work in Ligby county. His sermons here were much enjoyed.

A. P. Jones, the well known Water Street, Windsor, sail maker and chandler, has gained a national reputation as a maker of fine sails. As one captain who runs into Windsor remarked the other day "Jones is the only sailmaker in Nova Scotia." See his new ad in this issue.

Mr. John Martin, who, by the way is an extremely active man for his age has leased the Churchhill cottage near Newcombe Bros. store, and will move in shortly. Mrs. Martin has been quite ill for some time in Halifax, but has now recovered sufficiently to remove to town.

The Easter Tea of the Hantsport Presbyterian church in Sweet's block on Tuesday, 9th, was well attended and quite successful. The hall was tastefully draped with bunting. A bountiful tea was provided, and confectionery, fruit, etc., was sold under the management of two of the young ladies. All had a fine time and thoroughly enjoyed the good things provided. Proceeds nearly \$23.

R. J., Jr. and J. J. Salter, agents for the Newport Nursery Company, were out in Kings and Annapolis counties three days last week and took about \$700 in orders for their stock. The sales of this popular company are rapidly growing, and the Upper Canada fellows can't compete with them in hardy and accimated stock. In fact, it is said the large firms of Ontario and the United States who used to control the nursery stock business in this section a few years ago, are being forced to yield to the superior goods supplied by the Newport Company and find it quite difficult to make sales. That's right, the Newport firm puts up a first class article and I say, Nova Scotia for the Nova Scotians. Now we can get such good nursery stock right at home, farmers don't need to patronize other companies.

Hants comes next to Halifax Co. in contributions to the soldiers' monument fund. The amount as given by Hants is \$449.75. Kings county has contributed \$98.35. A stranger not knowing the circumstances would think that Kings Co. people were stingy, but such is not so. They gave very liberally to the patriotic fund, and have not supported the Herald's last movement because they intend to erect a monument in their own county in honor of their noble dead. It is about time some move was made in that respect, isn't it?

THE NEW BABY

Opens up a new world to the loving mother. If it is a strong, healthy baby that new world is a world of happiness. If it is a weak, fretful child the new world is full of anxiety. It has been proven in thousands of cases, that the use of Dr. Pierce's Favorite Prescription makes all the difference between strength and weakness in children. Healthy, happy mothers have healthy, happy children. "Favorite Prescription" gives the mother strength to give her child. It makes the baby's advent practically painless and promotes the secretion of the nourishment necessary to the healthful feeding of the nursing child.

"I have been using Dr. Pierce's Favorite Prescription and can say it is just what you advise it to be," writes Mrs. Victor J. Hadin, of Leonardville, Riley Co., Kansas. "I began taking it just two months before my baby came and was greatly benefited by its use. The doctor who attended me said I did about as well as any one he had seen (as I was sick only about three hours), and also that your 'Favorite Prescription' was 'one of the best medicines' which he had ever seen. We now have a darling baby, boy, strong and healthy, who weighed thirty pounds when born. During this month he has gained three and one-half pounds. Have never given him one dose of medicine."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, sent free on receipt of 31 one-cent stamps to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE HIGH SCHOOL OLIO

Hantsport Academy is an institution of which the people are justly proud. Under the efficient principalship of Mr. Shield's, ably assisted by Misses Angwin and Burgoyne, the school has gotten a reputation second to none of our excellent high schools.

Last Friday evening the teachers and scholars gave what they called an Olio, short, I should say, for pie social and art gallery. One of those small words like "yes" or "no," which mean so much and are so comprehensive.

Although stories of a large number of the unfair and fair sexes were present. An invitation was given to look upon the art gallery, into which, for five cents, you were ushered, with all the mysterious thrown in. Well, it was an art gallery and no mistake. Some of the artistic things you may have seen before, but one had to brush up their memory to recollect where they had seen them. For instance, an old empty whiskey bottle was supposed to represent, "the piece of departed spirits," while two candy hearts were "two sweethearts." Prizes were offered to the person guessing right the largest number of objects (supposed to represent works of art) and one to the person guessing the least number.

Before the contest closed, the sale of pies was announced. The ladies lined up, one at a time behind a screen and the men and boys had to bid on such a flighty object as a shadow. But as it was understood there was a girl and a pie attached to the shadow the bidding was brisk, and ranged from 15 cents to \$1.50 per pie. Mr. J. W. Lawrence did the auctioneer business to perfection.

After the viands had been sold, everybody sat down and not exactly "ate and ate till they ate them all up," but did justice to the delicious pastry. Our worthy mayor had no less than eight girls around him, and was the liveliest in the group.

The art gallery prizes were distributed after this. Miss Clara Putnam got first prize, guessing 21. Harry Lawrence was fortunate enough to secure the booby prize. THE ADVANCE man (with considerable help) was a close second with 19. The proceeds, some \$20, will be devoted to school apparatus.

ST. JOHN LETTER

James Donaldson, aged 50 years, was found dead in a house on Blood Alley, last Friday. It is believed he died a natural death.

Never were the streets in any city in a civilized country in a more respectable condition than those of St. John.

H. S. Cruichagk's magnificent conservatories have furnished the city with several thousand dollars worth of Easter flowers, and for weddings and funerals in the country his blooms are in constant demand.

It is rumored that four prominent St. John householders are in trouble and that four divorce suits may follow.

Mr. Richard Thomson, wife of Mrs. Thomson, formerly of the Sheffield House, died last Monday, at an advanced age, and Mr. Thomson died on Thursday following.

Margaret Anglin, daughter of the late Hon. T. W. Anglin, is winning laurels for herself as an actress in the New York theatres.

William Cameron, 45 years old and married, is under arrest for assault on a fourteen year old girl. This is a case where the old fashioned whipping post might be used to advantage.

Superintendent Bustin of the Juvenile Reformatory, disappeared about a week ago. There is "a woman in the case."

The following shows all notable changes in the market. Most quotations shows a slight reduction in prices:

Table with market prices for various goods: Cornmeal \$2.30 per bbl, H. P Beans 1.80 per bus, Medium Cod 4.10 per cwt, Large Cod 4.25, Extra C Sugar 3.70, Yellow C 3.50, Ex Fancy P R Molasses 40 per gal, Choice 37, Barbadoes 35, N. Permanently Cured

AFTER SEVEN YEARS OF GREAT SUFFERING

Mr. Hamilton Waters of Ridgville, Tells of His Relief from Neuralgia, Rheumatism and Stomach Trouble Through the Agency of Dr. Williams' Pink Pills.

For years Mr. Hamilton Waters, the well known cattle breeder of Ridgville, Ont., was an acute sufferer from neuralgia, which was later complicated with rheumatism and stomach trouble. But now, thanks to Dr. Williams' Pink Pills, he is enjoying the best of health. Swearing of his illness and subsequent cure, Mr. Waters said: "For seven years I suffered great agony from the pains were of a darting, excruciating nature, and for days at a time would be so great that I feared I should lose my reason. To increase my misery, I was attacked with indigestion, and this was closely followed by stomach trouble. My joints and muscles became swollen and I was unable to get out of bed. I suffered from nausea and vomiting, and for days at a time would be so great that I feared I should lose my reason. Three years ago the United States was the champion of Venezuela against Great Britain. Since then Venezuela has played fast and loose with the rights of an American company and has virtually given the U. S. minister his walking ticket. Ex President Cleveland can meditate on the ingratitude of Republics.

During the six years of Liberal rule about one thousand postmasters have been dismissed from office to make room for grit partizans.

Up in Hastings, Ontario, Mr. Hurlcy, the defeated grit candidate, has been appointed a fishery officer at a salary of \$1200 a year, with a census commissionership thrown in at four dollars a day while it lasts. It sometimes pays to be defeated.

If the United States government estimate of the winter wheat crop of that country is realized it will be the largest ever known, 460,000,000 bushels, against 330,000,000 bushels last year. This will be good news for the bull speculators.

BLAIR DECEIVES PARLIAMENT
\$4,000,000 Contract without tender

OTTAWA, April 13th.
This week the Government has shown decisive signs that it is weak and the party behind it divided. Laurier shows more and more what a weak man he is, while Borden makes his strength manifest by the dignity and quiet force of his lead.

MINISTER OF AGRICULTURE A POPINJAY.
On Tuesday Parliament met and the first thing we had was an exhibition of the incompetency of the Minister of Agriculture, and

pretty well the last thing we had was a laughable demonstration of the absurdity of making such a man a minister of the Crown, above all minister of Agriculture. On Tuesday Sydney Fisher looking like a fatted two year old moved the third reading of his bill for the inspection of fruit packages. At the end of the week there was nothing left of the two year old steer but a small kidney and that was fizzling and contracting on a grid iron held by Monk, the leader from Quebec, and a most refined political cook, over a particularly hot fire to which his supporters added fuel while some blew the bellows. On Tuesday, he was almost stunned by a huckleberry flung at his cranium by the persistent Taylor, Opposition whip, but on Thursday his ignorance as shown up by the aforementioned gentlemen was something portentous.

MENDACITY.
During the week the mendacity of this Government has been awful. Laurier was proved to have said what was untrue in regard to the Alien Labour Bill, he having solemnly declared he had submitted it to the labour organizations and it turned out he did nothing of the kind.

BLAIR CONTRACTS FOR FIVE YEARS WITHOUT CONSULTING PARLIAMENT.
Nothing contributed more to drive the late Alexander Mackenzie from power than buying vast quantities of steel rails in a falling market. Blair has now repeated the blunder or villany, according to the point of view. But Blair, to do him justice, is no fool, and cannot plead that imbecility which covers a multitude of sins. First he does the deed, then he denies it; then he has to produce the contract; then he flies from parliament for a time.

On the item of \$500,000 for steel rails and fastenings for the Intercolonial he made a very innocent statement, and the sum itself is innocent enough, for it is not large. He said they would have to get a little more money. Haggart asked for particulars. The innocent minister, in accents bland, gave them. Last year they laid some seventy odd miles and paid \$32,60 a ton. He received a proposal from the Sault Ste. Marie Power Company to supply rails, and he said—

"We made a contract with this company to deliver 25,000 tons of the quality and standard which we have been placing upon the road and we were to pay them \$32.60. . . . We have no permanent and explicit contract with them for the future. . . . We finally concluded to give them an order for 25,000 tons, and while we have no explicit contract with them for any term beyond the year in which we are now entering, we have an understanding with them under which if they furnish us, as they engage to do, with rails of the quality and standard we require, and at the current price in the English market we are prepared to continue to take our rails from them."

We here see

Mr. Blair promised to bring it down after dinner. But after dinner no Blair appeared. The next day the contract was brought down. It is dated the 9th October, 1900. It is for 125,000 tons of steel rails instead of 25,000, tons; it is for five years, a contract of \$4,000,000 worth of steel rails given without tenders, without consulting Parliament, and at a high price in a falling market. In the Yukon contract made by Sifton for the building of the Yukon Railway, there was a provision that the deal should have the sanction of Parliament—no such provision is here—and the present Government are on record as having laid down the sound doctrine that no Government can contract to spend money that has not been voted by Parliament. The Minister of Railways admitted that the rails could be bought

\$6 A TON CHEAPER NOW.
The contract says: "It is agreed that Her Majesty will in each year from the year 1901 to the year 1905, both inclusive, purchase from the Company and take delivery of 25,000 tons of 2,240 pounds to the ton; that with the exception of the year 1901 for which year the price per ton is hereby fixed at \$32.60, the price of such rails per ton shall be the same as the price obtainable for the same quality of rails in the open market of Great Britain at the time when the respective orders for such rails are given under the said contract."
This company will be in a great position. It gets \$3 per ton for pig iron and \$3 per ton for steel, that makes \$6, besides a bounty from the Ontario Government of \$1 and it has not a forge lit yet!
The country stands to lose on this transaction \$1,543,750.

A news agency publishes a despatch from Capetown which says that General De Wet is so distracted by the hopelessness of his cause that he can truthfully be described as insane. He goes in fear of his life amidst his own troops, and keeps himself surrounded night and day by a bodyguard of chosen adherents. But from his own ranks voices are now most frequently heard calling imperatively for peace.

THE CLERGEUE DEAL

If the Clergue contract for rails had been submitted for the sanction of parliament the Spectator would have said nothing against the deal, because we believe in encouraging Canadian industries, but we do protest against the irregular way in which the contract was made. It seems to be the policy of the new Liberalism to ignore parliament and let the cabinet run the affairs of the country. The Clergue contract was made in October last year, a month before the elections, and it was not until Tuesday that Hon. Mr. Blair condescended to tell parliament anything about it. Even then Mr. Blair tried to deceive the members by stating that only 25,000 tons of rails had been contracted for; but the opposition was on the alert and discovered that 125,000 tons of rails had been ordered at a cost of \$4,000,000. Another question that should be asked is, Was it any advantage to the government to make the deal on the eve of the elections?—Hamilton Spectator.

FARMERS make MONEY

Professor James W. Robertson, Commissioner of Agriculture and Dairying for Canada, in his report to the House of Commons for Canada, after going to England and investigating, and sending sample shipments, endorses the great object of this Company.

THE CANADIAN DRESSED POULTRY COMPANY, Limited

(TO BE INCORPORATED)

CAPITAL STOCK \$450,000

HEAD OFFICE—HAMILTON, ONTARIO.

PRESIDENT—MR. GIBSON ARNOLDI, Barrister-at-law, Toronto, Ontario.

MANAGER—MR. WILLIAM S. GILMORE, Merchant, Hamilton, Ontario.

OBJECT OF THE COMPANY.

THIS COMPANY is formed to advance Canadian trade with England in dressed poultry, ducks, turkeys and geese, dressed meats and other farm produce that the Company may deem it advisable to deal in. This is the GREAT OBJECT OF THE COMPANY. It will be no monopoly and it cannot be made one; its success means the FARMER'S SUCCESS. The farmer who wants to make money must first become a shareholder in this Company; which is the only company of its kind, and by so doing show that he means business, and his money being invested, his interests and the interests of the Company are the same, and then to earn a good reputation for himself as a first class raiser of poultry, turkeys, ducks and geese for the Company. This Company will buy ONLY FROM ITS OWN SHAREHOLDERS; therefore with care and attention every farmer and every farmer's wife and every man, woman and child of ordinary intelligence in Canada who has fifty dollars can buy ten shares and become a shareholder, and by beginning in a small way and saving his profits make himself wealthy, like Mr. Taylor has done. Who Mr. Taylor is explained in the following extracts from a story told by Professor Robertson, the well-known Commissioner of Agriculture and Dairying for Canada, to the standing committee of the House of Commons:

"Well-to-do farmers fatten chickens. I learn that there is money in the business. I had got the name of Mr. Samuel Taylor from one of the leading poultry dealers in London. When I got to his place I found Mr. Taylor was a successful farmer. He had begun life as a farm laborer without capital. When I visited him he had a fine farm-stead and was doing a prosperous business. I would not like to say how much money the chicken-fattening business brought for stock at once, as the Company will only buy from its shareholders and the lists will be closed. This is a GRAND CHANCE TO MAKE MONEY for either farmers or their wives and those who either cannot afford to keep up a large farm or who, through some infirmity or poor health, are not able to attend to the heavy duties of heavy farming.

PRICES TO BE PAID.—This Company will pay the very highest prices to its shareholders, so as to encourage the raising of first-class poultry, and, as it will year in and year out be selling at the high prices to be obtained in England, it can afford to pay more than the best prices now paid for birds, new sold on the Canadian market.

GREAT PRICES IN ENGLAND.—Chickens shipped to Liverpool, England, met with a ready sale at eightpence (sixteen cents) per pound. As they weighed eleven pounds per pair, they sold for one dollar and seventy-six cents per pair. JUST THINK FOR ONE MOMENT—one dollar and seventy-six cents for a pair of chickens in England, and yet it is only a fair market price there, and the profits are equally as good, if not better on turkeys, ducks and geese. The consignee wrote as follows about the shipment: "I was greatly surprised at the all-round excellence of your small experimental shipment of Canadian capons (chickens). The chickens were found to be in beautiful condition, and presented a most saleable appearance. After the birds were uncased I hung one out to find how long it would retain its bright appearance, and found that it became milky white as soon as it had dried out of the chilled state; to-day five days later, it is as nice looking as a fresh killed bird. I think the price obtained will both please and pay you. It is a fair market price."

RAISING POULTRY PAYS.—It pays better to fatten them, and it pays best to ship them to England. The shipment sent to Liverpool, England, above described brought one dollar and seventy-six cents per pair; the farmer sold them to the shipper for fifty-four cents per pair, which is above the average price, as often he does not get more than thirty cents per pair; can anything be clearer than that the farmer is failing to make enormous profits? By becoming a shareholder you will commence putting the money in your own pocket.

SUCCESS.—This Company is a natural outgrowth of the great and wonderful cold storage system. Before "cold storage" became known it would have been an impossibility to carry on this great business, but now the great success of cold or chilled storage is the maker of this enormous business, which will prove a money-maker for its shareholders. Space will not permit giving a description of the great arrangements to be made, or the many receiving and shipping stations, abattoirs, cold storage plants, offices and agencies this Company will establish in the different Provinces of Canada and in England, or of the numerous employees it will engage to do the buying, killing, plucking, packing and shipping; the instructions the Company will engage will give to the working shareholders such directions and assistance as they may desire.

THE HEAD OFFICE WILL BE AT HAMILTON, ONTARIO, and from there MR. WILLIAM S. GILMORE, THE EXPERIENCED MANAGER, will direct its affairs. Mr. Gilmore is already well known to many Canadians, but for those who do not know him and who would naturally like to know something of the man who is to direct the affairs of the Company in which they intend to invest their money the following extract from a letter written by the celebrated firm F. W. FARMAN CO., LIMITED, the greatest pork packers and provision merchants, and probably the oldest established firm of its kind in Canada, to the proposed bank of this Company, will be of interest:

GENTLEMEN.—At the request of Mr. W. S. Gilmore I write to advise you that we have known him for years, and have had during that time continuous dealings with him as one of our customers. He is a practical provision dealer and butcher of many years' experience. He is about fifty-five years of age, but active and progressive, and as a judge of poultry, live or dressed, he is certainly the equal of the best in Hamilton. As to his personal character, respectability and integrity, we believe he is fully to be relied on for anything he will undertake.

Every shareholder in this Company is not obliged to raise poultry simply because he is a shareholder, and everybody can buy stock in the Company, and the net profits or dividends will be divided between all shareholders alike. Everybody with any money should buy shares, and it is safe to say they will get large dividends for their money.

EXCLUSIVE PRIVILEGE.—The Company extend an exclusive privilege to those who hold ten shares or more of the Company's stock to raise poultry, turkeys, ducks, geese, etc., for the Company to supply the great demand, and to this class of shareholders the Company will pay the very highest prices for their birds. They will be given the great advantage of careful instruction, free of charge, in the art of raising and fattening poultry, as well as receiving their share of all the profits of the Company, and, as the promoters wish to make this a Company by the farmers and for the farmers, all the servants and employees of the Company will be chosen from among the shareholders and their families.

THE CAPITAL STOCK of this Company is divided into shares worth five dollars each, and of this only a limited number of shares are offered for public subscription, but no subscription will be accepted for less than ten shares (\$50). If you wish to become a shareholder lose no time, but send in your subscription at once, as the stock will be allotted in the order in which the applications are received, and no stock will be held open for anyone. Fill out the APPLICATION FORM given below, be careful to state how many shares you want and the amount of money you enclose, sign your name to it and then fill in your address and send it by registered letter to Mr. Gibson Arnoldi, the President of the Company, 9 Toronto Street, Toronto, Ontario, accompanied by a marked cheque, postoffice order or express order for the full amount of your subscription, payable to the order of Mr. Gibson Arnoldi, President of the Company.

The promoters reserve the right to change the name of the Company if the Government requests them to do so as a condition to the granting of Letters Patent under the Great Seal incorporating the proposed Company, and also at the same time to ask incorporation with any other amount of capital stock than named in their discretion.

The Various Bluenoses

There are Bluenoses and Bluenoses. That is evident from a speech lately delivered before the Canadian Club of Boston, by Prof. G. D. Roberts. He is thus reported:—

It seems to me, he said, that in coming here to the Canadian Club of Boston, I have a right to speak to you more personally than I would anywhere else, because this club is made up so largely of men from our own part of the world—brother "bluenoses" from Nova Scotia, Prince Edward Island, New Brunswick. I cling, by the way, in parenthesis, to the term "bluenose," which on account of its historic associations, is a great honor to all who come from those maritime provinces. I dare say some of my brother "bluenoses" who are here do not know of the important division which exist among the "bluenoses." Of course we are all Canucks. But among the Canucks there are special divisions—the "bluenoses" are one sub-division, and no small one. Then among "bluenoses" there are special divisions. The original Nova Scotians were the original "bluenoses." There are New Brunswickers who are the "buck wheat bluenoses." Finally in Prince Edward Island our brother "bluenoses" are red footed "bluenoses"—a term which perpetuates the memory of their rich and amazingly fertile soil.

HE WAS A CUCKOO

A newly married man, who was anxious to buy a cuckoo clock, visited a jewelry store for that purpose.

Don't buy it, said a bystander. I say—don't buy it.

And why? asked the prospective purchaser.

Well I'll tell you, replied the bystander. I took one home not long ago and a few nights after setting it up it came home as it was on the point of striking three. Wife called from up stairs. John what on earth is the time? O I said just about twelve. Hanged if the clock didn't begin to strike and cuckoo'd out one-two three. And I had to cuckoo the other nine myself! Wouldn't that rattle your slats? But wait. Wife called down stairs: Say John what's the matter with that old cuckoo anyway? Hasn't it got some sort of a jag on?

The "Maple Leaf Club" entertained the "W. W. W. Club" of Hantsport on Wednesday evening at the home of Mr. S. P. Schurman.

The following programme was rendered: Opening chorus, Kin's friends will meet again, by the Club; speech of welcome, by James Bishop; minutes of last meeting, by Nettie Shaw; Duett, Maguerite, by James Bishop and William Chandler; reading, A lively train load, by Sadie Sutherland; Solo, Song of the Sunny South, by Ada Pentz; recitation, Beware of the Vidders, by Nettie Shaw; instrumental music, by Cora Davis; reading, Bidley's trials among the Yankees, by James Bishop; dialogue, Aunt Virginia's Ear Trumpet, by Ada Pentz, Florence Hopkins, Maggie Sutherland, Frank Keho and Morton Schurman; solo, Asleep in the deep, by William Chandler; recitation, The Inventor's Wife, by Florence Hopkins; solo, The Widow's plea for her son, by James Bishop. In response to an encore he sang Annie Laurie Recitatio, How we tried to whip the teacher, by William Chandler; music Old Black Joe, with echo, by Ada Pentz, William Chandler and James Bishop; reading, The Independent Bride, by Mrs. Wolfe; music, Down by the Riverside, by Messrs. Bishop, Chandler, Kehoe and Smith; dialogue Scene is a Photographer Gallery, by Sadie Sutherland, Nettie Shaw and Fred Smith.

At the close of programme refreshments and confectionary were served.

After a half hour spent in social intercourse the W. W. W. were called on for entertainment and contributed the following: Speech thanking the Maple Leaf for their invitation, by Mr. Beazley; solo, In Sunny Tennessee, by Mr. Sheely. Having received an encore he sang in response Behind the Times; monologue by Mr. Newcombe; Trio, There's a hole in the bottom of the Sea, by Misses Putnam, Burgess, Borden and Mr. Luke. They were answered by a Chorus, We're all here, by the Maple Leaf Club; Solo, Echo, by Miss E. Toye; recitation by Miss Toye.

After sometime spent in games a vote of thanks was given to host and hostess, to which the host responded in his usually cordial manner by a few appropriate remarks, thanking the company for the evening's entertainment.

The evening was brought to a close by singing "God Save the King." The members then started for their respective homes and judging from appearances the young ladies were not slow in taking the advice of the host, that of taking care of the boys; it took two in some cases. We advise the Hantsport boys to drive next time.

Canadian Dressed Poultry Company, Limited (TO BE INCORPORATED)

All cheques, Post Office Orders, Express Orders, etc., sent in payment of stock subscriptions are to be made payable to Mr. Gibson Arnold, the President of the Company, and sent to his office, Toronto, Ontario.

Toronto, March 29th, 1901.

Gentlemen,—Permit me to answer in a letter through your columns, a number of inquiries which are being made as to the intended operations of the Canadian Dressed Poultry Company, Limited (to be inc.)

In the first place its promoters have been fully convinced of the great profits to be made by exporting dressed poultry, turkeys, etc., to England, and after a careful study of the matter from every standpoint, including the condition of the export trade in other products, they are convinced that the business must be thoroughly systematized; if it was not through lack of management, bad packing and care less shipping. With this object in view, before them, the promoters of this company decided that the practical way to make this business a success is to establish a number of receiving and shipping stations in each of the provinces, say five or six in Ontario, about the same number in Quebec and a proportionate number, according to the population and the number of shareholders, in Nova Scotia, New Brunswick and Prince Edward Island. With these stations the birds can be gathered alive from the farmers, killed, dressed and packed carefully for shipping to the old Country. The shareholders will be divided and a proportionate number will be directed to ship to each station. The stations will be fitted with plants necessary to make the exported article as perfect as possible. It was not desirable to have people in Prince Edward Island shipping to a station in Quebec, or those in Quebec shipping to Hamilton, therefore, the object is plain and reasonable.

The promoters consider the plan of buying only from shareholders in the company the strongest feature of the business, as by this course the company secures a practical bond of faith from the farmers and the best possible guarantee of getting the right quality of poultry, turkeys, etc., and secondly, because the buyers and inspectors when they go out on their trips for the company will know just whom to see and arrange with as to the number of birds and kinds to raise. For instance, the buyer can go to the shareholder and say plainly, "How many birds and of what kind will you undertake to raise this coming year; and when will you be prepared to deliver them?" The shareholder tells him and the company is then prepared to re-ulate their supply as well as the "quality," which it would be almost impossible to do in any other way, especially if a business is intended to carry on year in and year out. Just where these stations will be now being held responsible for its careful management. It will be his duty to deal with the particular shareholders directed to supply his station. All the stations and all the managers, including the manager in England, will act under the instructions of the company's general manager, Mr. William S. Gilmore.

It is intended that this shall be an enterprise for the Canadian people, and for the protection of the farmers particularly, and, therefore, the entrance subscription was placed at a figure within the reach of all it will pay the company to do business with.

It is expected that the buyers for the company will commence operations on or about the first of June next, so as to arrange with the shareholders as to supply. It is, therefore, of the utmost importance that all those who wish to sell to this company or to subscribe for shares in it should lose no time, but send in their subscriptions at once, as the stock is being rapidly subscribed for and the list will be closed without them.

Yours truly, GIBSON ARNOLD.

The steamship Hobenzollern which arrived at New York on Thursday, reports passing an abandoned ship. Twelve hundred miles out of Sandy Hook she sighted a lumber laden vessel which turned out to be the Parthena. The signal "I am sinking" was displayed. The wheel was whirling wild, and the ship, yawning slightly in the light swell, appeared to be sailing on the port tack of her own accord. The Parthena, a vessel of 1,356 tons left Mobile, Ala., on March 6th. She was built at Newport, N. S., in 1877.
