

The Acadian

DEVOTED TO THE INTERESTS OF WOLFFVILLE AND EASTERN KINGS

Vol. XL. No. 16.

WOLFFVILLE, NOVA SCOTIA, FRIDAY, JANUARY 28, 1921.

\$2.00, payable in advance

Wolffville Wins Twice

Defeats Canning and Windsor and Heads League

Wolffville is again in the lead in the Valley Hockey League, having defeated Canning last Friday night in the Canning Rink by a score of 3 to 2, and also defeated Windsor at Windsor on Monday night by the same score. The local boys have only to win a few more games to assure them first place. Keep up the good work boys.

The game at Canning was witnessed by about 700 persons. It was one of the fastest and most exciting games ever witnessed at Canning and was also a good, clean game. There was no score in the first period. Canning scored twice in the second period and Wolffville three times in the final period. C. K. Smith, of Windsor refereed to the satisfaction of both teams. The teams lined up as follows:

Canning	Goal	Wolffville.
Baxter	Eagles	
L. Lyon	Defence	Parker
Jodrie		Fraser
Eaton	Centre	Tingley
Houghton	Left Wing	Mason
Kinsman	Right Wing	Baird
Dickie	Substitutes	Kennedy
H. Lyons		Woodman
		Johnson

The 600 enthusiastic spectators including a large number from Wolffville who attended the game in Windsor on Monday night were given the worth of their money.

The game was late starting. Referee K. Fraser, of Acadia could not get the teams in action until 9.10 o'clock but when the puck chasers finally spread out they kept the fans guessing. Windsor scored in five minutes from the face off in the first period, McDonald rushing in the disc behind Eagles on the wing pass in front of the goal. Wolffville bucked up after that and for ten minutes real hockey delighted the spectators. Both teams strove hard to score and finally Wolffville got past Windsor's defence. In the next five minutes before the bell rang, Wolffville scored again and the first period ended 2-1 in favor of the visitors.

The second period was a series of rushes from end to end, both teams showing splendid form and sticking closely to the rules of the game. It was ten minutes before either side scored. Then McCann bulged the twine and evened the score, while the home fans shouted their joy. This period closed without a further tally. Score 2 to 2. There were no penalties handed out in the first or second period.

When the first call to play sounded, excitement on both sides was at fever heat. The two hundred fans from Wolffville were confident that their team was to be victorious and Windsor felt just as sure of the home boys.

It was 10.15 when the referee lined up the teams for the final struggle. The face off carried the rubber into Windsor's territory to be instantly shot back toward Wolffville's defence.

It was clean swift hockey for ten minutes. Then Wolffville scored again, putting the visitors one in the lead, which they kept to the end.

The Wolffville goal keeper played a star game and Windsor's also did well, but left his goal undefended giving Wolffville an opportunity of making the last tally.

The teams lined up as follows: Windsor: Goal, Smith; Defence, Wigmore and McDonald; Forwards, L. Smith, McCann, Poole; Subs., L. Cochrane, Burbidge. Wolffville—Goal, Eagles; Defence, Parker and Fraser; Forwards, Tingley, Mason, Baird; Subs., Kennedy, Woodman, Christie. Only two men, one on each side, were penalized one minute each for tripping. No one was hurt.

The standing of the Valley Hockey League is as follows:

Team	Won	Lost	Drawn
Wolffville	4	1	0
Windsor	2	2	1
Canning	0	3	1

\$300.00 CASH PRIZE CONTEST

Three hundred dollars in cash is being offered as a prize to the one who guesses nearest to the correct figures of trade of the United States with Canada for February. See the offer made by "MY CANADA" on page 3. "MY CANADA" is soon to be issued weekly by week as Canada's National Weekly, to provide a Canadian "Post" for Canadians in Canada and the Empire.

Mrs. E. J. Ferguson, secretary of the Children's Aid Society of Kings County, writes through THE ACADIAN to acknowledge a contribution of \$14.00 from the Women's Institute of Habitat, towards the work of the Society. Also \$1.00 from Miss Harwood and \$1.00 from Miss Cooper.

MOUTH OF THE PERSEUS RIVER, NEAR CANNING

Town's Finances

Wolffville, Nova Scotia, January 26, 1921

TO THE EDITOR OF THE ACADIAN:

Dear Sir: I hope there is to be an immediate return to the custom that prevailed up to 1916, of the publication in pamphlet form of the Town's annual reports, for to me the report that appears in your paper of January 21 is most unsatisfactory.

1. The form in which it is put (double columns) is unsatisfactory as it does not permit of clearness of statement. In reporting receipts, it is always understood that the source of these receipts shall be indicated. In several items in this report the reader has no way of telling whence the funds came. Take the item "Poor \$580.11" for example. Then on the payments side we have "Interest \$5723.17." How much of this is Bank Interest, how much Debenture Interest, and does it include something for Sinking Fund? If not, where are the payments to those funds?

2. It is unsatisfactory because it mixes Current and Capital Expenditure. In the Receipt Column, we have "Deposit Receipt \$3000.00" and in the Disbursement Column, "Street Construction \$4110.91" and "Water Main \$1000.00".

3. It is unsatisfactory because incomplete in the statements of Liabilities, we have Water, School, Sewer and Streets Debentures, but no mention of Electric Light Debentures. I had the impression that Wolffville was responsible for some Electric Light Debentures. Those who hold these bonds may be somewhat disturbed when they learn that the Town of Wolffville has no liability for them.

The following is the Financial position of the Current Account as I make it from the published report:

CR.	
Cash on hand January 1, 1920.	\$113 78
Receipts for the year.	31234 33
	\$13448 11
DR.	
Bank balance, January 1, 1920.	1259 34
Outstanding Cheques, January 1, 1920.	2999 88
Expenditure for 1920.	40216 99
Accounts payable.	884 93
	\$45361 14
Debit balance.	14013 03
Less cash in Bank.	227 92
	\$13785 11
Less overdue taxes.	2323 97
Net debit balance.	\$11461 14

The debit balance on December 31, 1916, as shown in the report for that year was \$5774.18. It will be seen that in four years our deficit on Current Account has increased \$6686.96 or more than \$1000.00 per year.

Evidently the financial condition of the Town is now calling for courage and wisdom on the part of the Councillors who should be accorded the sympathetic co-operation of the people.

There are two items in which the report shows improvement.

1. In 1916, the receipts for water were \$3402.45. In 1920, \$5361.89.

2. In 1916, the overdue taxes counted good were \$7210.00. In 1920 they were \$2323.97. Here is an indication of what may be accomplished by persistent effort, which will, no doubt, be continued.

Acadia Defeats Mt. Allison

In Fast Game of Hockey

Acadia defeated Mt. Allison at Evans Rink last evening by the score of 5 to 2.

A large crowd witnessed the game, which was fast and exciting from beginning to end. Both teams played exceedingly well but in the last period the local legionnaires completely outplayed their opponents. G. V. Smith refereed to the satisfaction of all.

Mt. Allison got off to a good start and scored within 2 minutes. After resumption of play Acadia forged forward and a shot from Mason hit the Mount Allison goal post, but Copp and Stick soon transferred the game to the other end of the rink. Later Parker, from a face-off near the goal made the score one all. After Acadia continued to press home and Mason scored a second goal. At the end of the period Rainnie kept the puck from going into the net.

At the opening of the second period Mount Allison almost put herself back even footing with her competitors. Wetmore carried the puck into the net and Allison retired, where it stayed for the remainder of the game.

After the first period, Wetmore broke his due to an argument. Wetmore broke his skate, which caused an interruption of the game, and Captain Edgett of Mount Allison refused to resume play except under protest because Acadia failed to play a substitute. The period finally ended with a score of two all.

The last period was fast and furiously contested. Beardley scored in the first minute. Mount Allison strove valiantly to retrieve her fortunes, and Elliott shone especially in his stick work, but Mason scored twice again, making the score 5-2. The teams lined up as follows:

Acadia	Goal	Mt. Allison
W. Steeves	Rainnie	
K. Fraser	Defence	Elliott
D. Wetmore		M. Stick
A. Parker	Forwards	Edgett (Capt.)
K. Mason		Pickard
Beardley (Capt.)		Wyse
	Substitutes	
W. Monkley		R. Stick
Murray		Copp
A. Tingley		Hunter

CANADA'S SHARE IN WORLD TASKS

For twenty years the women in the different denominations in Wolffville have met together during the winter months to study the books prescribed for the united study of Foreign Missions. These books for the most part, have been written by persons living in the United States, chosen by the Committee there, and published in that country, and, naturally, have dealt largely with American missions.

This year Canadian women are given a book of their very own for study. It is called "Canada's Share in World Tasks." Written by men working for Canadian missions at home and on the field, and edited by Rev. H. C. Priest, of Toronto, Sec'y of the Missionary Education Movement, it comes to us as a result of the great Forward Movement to give us not only a concise survey of the mission work we, as Canadians, have already accomplished, but also, as the foreword tells us, "a conscientious estimate of our responsibilities in light of the world's needs, Canadian resources, and God's promises."

Every patriotic Christian woman in Wolffville should join in this study to bring Canada to her highest ideal in usefulness.

The course will cover a series of six lessons held in the vestry of the Baptist Church fortnightly, on Monday evenings, at 7.30 o'clock; and the first of these meetings will take place next Monday evening, January 31st. A cordial invitation is extended to all the women of the town to be present.

Interesting Social Event

One of the most interesting and attractive weddings of the winter season occurred Wednesday in St. John's Church when Helen Marie Moore, of this town and Philip Harold Hamon, of Grand Bank, Newfoundland, were united in marriage.

The bride, who is a daughter of Mrs. Haliburton Moore, is a charming young woman, popular in social circles and with a large number of friends throughout the province. She is a descendant of the well known Haliburton family who belonged to the United Empire Loyalists and were the original grantees of the land in Windsor. The groom is the manager of the Canadian Bank of Commerce in Grand Bank, Nfld.

The ceremony, which was performed by the Rev. R. F. Dixon, took place at three o'clock when the bride entered the church on the arm of Mr. F. S. Crawley and took her place at the altar to the strains of the wedding march, played by Mr. Manely of the Conservatory Hall, preceded by the little flower-girl, Elizabeth King, of Annapolis, dressed in white and carrying carnations. The bride, who was given away by her mother, wore a travelling suit of navy blue serge with a hat of beaver cloth and satin and carried a shower bouquet of pink roses.

The bride's trousseau consisted of a set of Russian sable furs. Many beautiful and costly presents were received, including a Queen Anne sterling tea and coffee service from the groom's family and all the flat silver from the bride's mother.

The out-of-town friends who were present were Mr. and Mrs. Hamon, Truro; Horace and Helier Hamon, Truro; Hector Hamon, Kentville; Mrs. Aubrey Brown, Digby; Mayor and Mrs. King, Annapolis; Dr. and Mrs. Keddy, Mrs. and Miss Geldert and Mrs. Johnson, Windsor. A largely-attended reception was held at the bride's home on Tuesday evening when the happy couple received congratulations and congratulations of their many friends.

The new Acadia Memorial Gymnasium is now rapidly nearing completion. The gymnasium proper has been in use for the past week or more and the swimming tank was used this week for the first time.

Our Town Government

Very little interest was manifested in the civic elections in Wolffville this year. There was no apparent strife among the citizens for the privilege of sitting at the Council board during the coming year.

We trust this does not indicate a lack of interest on the part of citizens in town affairs. Tuesday was nomination day, when only the necessary papers were filed. The candidates were then elected by acclamation without the necessity of another term, which is in harmony with the usual custom of giving two successive terms to that officer. Councillor Sutherland who has been a faithful and energetic member of the board is re-elected. The experience he has gained during the past two years should fit him for even better service in the next term of his election.

The new men are Messrs. A. M. Wheaton, the popular manager of the Acadia Dairy Co., and Mr. A. C. Cox, a comparatively new-comer in Wolffville. The retiring men are Mr. A. V. Rand, who has served for a number of years, and done good work as chairman of the streets and schools, and Mr. Edson Graham, who has been most efficient as chairman of the poor and police committees. THE ACADIAN asks for the best council the fullest support and assistance of the citizens in their endeavour to properly manage the affairs of the town. Here's to their success.

MINISTER OF CUSTOMS VISITS WOLFFVILLE

Wolffville had a visit this morning from Hon. Mr. Wigmore, Minister of Customs, who, with Mr. R. R. Fallow, Deputy Minister, and Mr. Ide, the Minister's private secretary, are touring the province. They arrived by the morning train in a private car, accompanied by Mr. R. U. Parker, of the D. A. R. and paid a visit to the Custom House and other places of interest to them in Wolffville.

Mr. J. R. Black, who has been conducting the Wolffville Garage for the past few years, has sold out to Mr. C. A. Bentley, who moved here from Berwick last autumn.

Willow Bank Cemetery

Annual Meeting of Lot Holders

The annual meeting of the lot-holders of the Willow Bank Cemetery was held at the Council Chamber on Monday evening. The attendance was larger than usual although not nearly so large as it should have been.

The report of the managing director indicated that considerable work had been done during the year at a cost of \$343.50. Seventy of the 190 lot-holders paid the annual assessment.

A part of the grounds on the south side of the main avenue was cleared and levelled and will be ready to lay out for about thirty lots in the coming spring. There have been sixteen burials during the year. The total receipts of the year were \$396.03. The balance in hand at the end of the year was \$245.40.

Mrs. W. A. Chipman was appointed chairman of a committee of five ladies to be chosen by herself to arrange an afternoon meeting of all the lot-holders at the cemetery, in the early spring, the object being to quicken an interest in the affairs of the grounds.

Authority was voted to assess the lots two dollars each for necessary work.

The report of Dr. A. Coboon, treasurer of the Perpetual Care Fund, showed the total amount of that Fund in hand to be \$854, covering eight lots. \$750 is invested in Victory Bonds maturing in 1934 and the balance deposited in savings bank, the income to be applied to the care of the grounds.

Directors for the ensuing year were elected as follows: W. H. Chase, Ross Fraser, R. E. Harris, Dr. McKenna and C. A. Patriquin. Dr. W. L. Archibald and B. O. Davidson were re-elected as auditors.

At a subsequent meeting of the directors on Tuesday morning, W. H. Chase was appointed President, Dr. McKenna Vice-President, C. A. Patriquin Secretary and R. E. Harris managing director and treasurer.

On motion, the president, R. E. Harris and Dr. McKenna were appointed to further the Perpetual Care Fund and up to the time of writing this report had secured the following pledges: W. H. Chase, A. J. McKenna, R. E. Harris, Mrs. Annie E. Tingley, The J. W. Barss Lot, per Mrs. J. W. Barss, Mrs. J. W. Barss, Mrs. J. W. Barss, Mrs. J. W. Barss.

This represents a contribution to the Perpetual Care Fund of about \$900, the income from which is applied to the care of those lots and other cemetery needs.

HOCKEY NOTES

The Kings College hockey team defeated the Nova Scotia Technical College team at Windsor last Friday evening by the score of 8 to 6.

The first game of the eastern section of the inter-Collegiate league was played at Antigonish on Saturday night when Dalhousie and St. Francis Xavier played a tie game, each team scoring four goals.

Dalhousie defeated Kings at Halifax on Wednesday night by the score of 5 to 2.

About 80 per cent. of Canada's farm produce is consumed in Canada.

GASPEREAU

Grand Pre News

Rev. W. M. Ryan, of Sackville, N. B., visited friends here last week. A number of our young people went to Windsor on Monday evening to attend the game of hockey. A lively interest is taken in the games of this season. We are sorry to report so much sickness in this vicinity, but are looking forward to a speedy recovery to all. Mr. George C. Pickford left on Tuesday for the United States. Miss Edith L. Trenholm returned home last week after spending a few weeks in Somerville, Mass.

MILK THIRTEEN CENTS QUART IN OTTAWA

OTTAWA, Jan. 24—Reduction of one cent per quart in the price of milk, to come into effect on February 1, is announced by the Ottawa Milk Producers Association. This will bring the price of milk down to thirteen cents a quart, the lowest, it is said, in any city in the Dominion. The step is voluntary on the part of the milk producers. The main reason for the lowering of the price is to encourage increased consumption of the commodity. During the war the farmers were encouraged to increase their herds so as to increase the production of milk for export purposes in the form of butter, cheese and ice-cream. There is now a surplus, which can best be taken care of by household use.

HIGHEST RAILWAY STATIONS IN CANADA

Table with 3 columns: Province, Station, Feet. Lists stations like Nova Scotia Folleigh (612), New Brunswick Adams (1294), Prince Edward I. N. Wiltshire (311), Quebec Boundary (1850), Ontario Dunkalk (1705), Manitoba Erickson (2053), Saskatchewan Senate (3171), Alberta Mt. Park (2580), British Columbia Stephen (5332), Yukon Meadows (2824).

EDITED

(From Judge) "You writing your sermon, pop?" the small son of a minister asked, interestedly. "Yes, my boy," was the reply of the divine as he looked up from his manuscript. "How do you know what to write, pop?" was the next question. "God tells me what to write, my son," the minister replied impressively. The little fellow looked doubtful. "If he tells you what to write" he demanded, "why do you go back and scratch out a lot of it?"

LOGIC AT WORK

(From Harper's Magazine) Teacher—"Thomas, will you tell me what a conjunction is, and compose a sentence containing one?" Thomas—(after reflection) "A conjunction is a word connecting anything, such as 'The horse is hitched to the fence by his halter.' Halter is a conjunction because it connects the horse and the fence. First Workman—I've got a new job with the railway company. Second—That's fine. What are your duties? First—You know the man that goes alongside the train and taps the axles to see if everything's alright? Well, I help him listen.

PALE, WAN CHEEKS INDICATE ANAEMIA

New Health Can Be Obtained by Enriching the Blood

When a girl in her teens becomes peevish, listless and dull, when nothing seems to interest her and dainties do not tempt her appetite, you may be certain that she needs more good blood than her system is provided with. Before long her pale cheeks, frequent headaches, breathlessness and heart palpitation will confirm that she is anaemic. Many mothers, as a result of their own girlhood experience, can promptly detect the early signs of anaemia and the wise mother does not wait for the trouble to develop further, but at once gives her daughter a course with Dr. Williams' Pink Pills, which renews the blood supply and banishes anaemia before it has obtained a hold on the system.

Among the many who have benefited by the use of these pills is Miss Dora Kerr, R. R. No. 4, Warton, Ont., who says: "For a long time I had been feeling tired and worn out. I was troubled with headache and backache, and would wake up in the morning feeling tired and depressed. I had to walk a considerable distance going to and from school and would feel so tired that it seemed I could not go another step. About this time a lady doctor came to the school to examine the children, and she told me I badly needed a tonic to build me up. Dr. Williams' Pink Pills had been used in our home before this and I began to take them. I can only say that they have greatly helped me. I no longer suffer from the headaches and backaches and I now wake up in the morning feeling rested and refreshed. If ever in need of a tonic again I shall lose no time in taking Dr. Williams' Pink Pills."

You can get these pills through any dealer in medicine or by mail postpaid at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

CASH—KEEP IT WORKING

A tremendous impetus would be given to business right now, says the Toronto Star, if every man who has ten dollars in his pocket would go straightway and pay it to somebody to whom he owes it. A few years ago there was a widespread Pay Up movement in Toronto, and it limbered up business in a remarkable way. Retail merchants especially, will recall the most magical effects that were produced in two or three weeks.

It is simple enough. There is a given amount of money in circulation, and its function is to circulate. If it isn't doing that it is out of work. A ten dollar bill in your pocket is, while it remains there, much like any other piece of paper; it is only when it is put to special use that it discloses its special value.

If one man keeps ten dollars in his pocket all week and pays it out on Saturday, and another, instead of waiting, makes his payment on Monday, one of those bills lies idle for a week, but the other may be in rapid circulation, solving, settling, closing up five hundred or a thousand dollars worth of business.

When one man pays his bill another man is enabled forthwith to pay his. And so it goes. But if everybody holds back, and while there may be plenty of currency, it is not current enough—it is huddled, held, retarded in a thousand ten thousand and a hundred thousand hands. There is thus withheld from circulation the currency without which business cannot move briskly.

During the great war 21,139 Canadian soldiers received decorations.

Canning AND VICINITY

Mrs. Clements, of Muskoka, is the guest of her daughter, Mrs. Harry Meek. The Canning branch of the W. C. T. U. met at the home of Mrs. L. F. Blenkhorne on Thursday afternoon, a large number being present. After the discussion of business "tube essences" were discussed the members forming a committee to canvas the houses in the town, for the purpose of preventing the use of essence of lemon.

Miss Rita Kinsman, Sheffield Mills, has returned from Truro. The Womens' Institute of Habitant, met at the home of Mrs. Milton Greenough Friday afternoon, the president, Mrs. Owen Davison, presiding. Collectors for the Childrens' Aid, reported \$12.85, which will be forwarded. An expression of thanks from the County Farm for box, was received, and a communication stating that at a recent meeting of the directors of the Federated Association of Womens' Institutes, held in Montreal, the "Canadian Home Journal" was appointed the "official organ," of the Womens' Institute of Canada, special rates to be made to this magazine, which will devote a portion of its space to the work of the institute.

A circulating library has been commenced among the members of the Habitant Institute, Miss Alice Eaton and Miss Reynolds being appointed a committee. The program consisted of: Quartette, Misses Meek, Alice Eaton, Mrs. Ellis, reading Mrs. McBride; readings, Mrs. Payzant Cox, Miss Reynolds. A social hour during which tea was enjoyed followed.

Miss Julia Eaton, Habitant, has accepted a position on the staff of Somerset school, and is the guest of Mrs. Ernest Bishop.

NO GROUND FOR COMPLAINT

(From the Sydney Record.) Papers unfriendly to Prohibition are declaring that since so many people failed to vote in the recent referendum in Nova Scotia and the Prairie Provinces, it is in reality minority rule to ban liquor importation in those Provinces. It would be easy enough to show the absurdity of that contention, but, in any case, people who do not exercise their rights as citizens to vote upon an important question would have very little ground for complaint if they did come under minority rule.

READ THE DICTIONARY

(From the Chicago Journal of Commerce.) Reading the dictionary is not a popular indoor sport, but it might well become the habit of any man who likes entertainment and information coming hand in hand. The dictionary, of course, must be unabridged, and not devoted solely to spelling brief definitions such as are found in the small and incomplete editions! Two or three pages, selected at random, will be found to contain a surprising amount of interesting fact, and comment for any man, no matter how learned he may be.

"He's perfectly quiet, ladies," remarked the liveryman to the two girls who were about to hire a horse and rig, "only you must take care to keep the rein off his tail."

"We won't forget," they replied. When they returned the liveryman inquired how they had got on.

"Splendidly!" they exclaimed. "We had one rather sharp shower, but we took turns holding the umbrella over the horse's tail, and he didn't get a drop on it."

COAL!

HARD COAL SOFT COAL COKE KINDLING A. M. WHEATON

AS TO TOWN LOANS

Appropos of the successful floating of the latest town loan of \$7,000 among the citizens of Annapolis Royal, the Financial Post of Toronto, has had this to say: "The time has come when municipalities will have to take a greater interest in their own securities."

So writes a Toronto bond dealer in a letter appearing in the Financial Post. The Canadian municipalities are beginning to take a greater interest in the ultimate placing of their debentures. Municipalities that have depended entirely upon the larger financial centres to absorb their securities in the past are discovering that there is a market for their bonds and debentures at home. From Halifax in the east to Penticton in the west, a score or more municipalities are conducting bond-selling campaigns. To judge from the tenor of the letters mentioned above, the bond dealer did not feel that their business will suffer from this local bond-selling. In the first place, it is not contended that every town and city in Canada can finance all its needs locally. But most of them can finance at least a portion of their requirements and sell their smaller issues "over the counter."

ADVERTISING MAY BE A GAMBLE

Geo. W. Newton, of the Newton Advertising Agency, during an address on the subject of advertising before a body of advertisers, said:

Is advertising a gamble? It is unless you keep at it. To use display advertising in a newspaper occasionally is a gamble, for the simple reason that newspaper rates for transient ads are naturally the highest rates they quote; in other words, you pay a big price for one insertion of an ad with a gambler's chance of results, whereas the regular advertiser pays a minimum contract rate and is before the people practically all the time.

In conclusion, it is well to remember that the people demand the newspaper; and can you imagine what a home would be like without a newspaper? It is no experiment to advertise in the newspaper. It is a gilt-edge investment, neither a gamble or a speculation. Try it.

"I came within an ace of winning the game."

"Then why didn't you?"

"Because the other fellow had the ace."

Greenwich Notes

The Community League met on the 13th for the first time this year. The following officers were elected: President, W. H. Watts; Vice-President, Murray Forsythe; Secretary, Miss Betty Fenwick; Treasurer, O. K. Forsyth. It was decided to hold the meetings once a fortnight. The next meeting to be held the first Friday in February.

Mr. W. H. Bishop returned home recently after having spent Christmas and New Years with his sister, Mrs. Z. L. Fisk, of Fredericton.

Mrs. F. E. Forsyth received word last Friday that the stork had left a baby boy at the home of her son, Mr. Chesley Forsyth, Bridgetown.

The Misses Jennie and Mary Johnston are spending a few weeks at the home of their brother, Mr. H. D. Johnston.

Miss Charlena Pearson, who is a probationer at the Cambridge Hospital is getting along finely.

Miss Mildred Power, of Berwick, is visiting at the home of her uncle, Mr. T. J. Borden.

Mrs. Geo. L. Bishop visited her aunt, Mrs. Alfred Chipman, of Berwick, a few days before Mrs. Chipman's death.

Miss Catherine Meek, of Canning, is visiting her sister, Mrs. D. H. Forsyth.

Mr. G. E. Bishop continues in poor health.

Dr. Howard Shaw, of California, visited his cousin, Mrs. G. L. Bishop, on Monday last.

Mrs. Herman Porter, who has been on the sick list, is around again.

Quite a few of the young folk went to Windsor last Monday evening to the hockey match.

Mrs. Geo. L. Bishop and also Mr. Herman Porter and Mr. Lorne Pudsey are sick with colds.

On Thursday evening the 20th, the ladies held a very successful Bean Supper in the Division Hall, which was prettily decorated with evergreen. The tables were well supplied with pies, cakes, etc. Supper over, the remaining pies and cakes were auctioned off. The proceeds of the supper were over \$91.

WOODSTOCK HAS GOOD TOWN MANAGEMENT

Woodstock, N. B., Jan. 11—At a largely attended meeting of representative citizens last evening the report of the town manager for the year was presented. The report was most complete and for the first time in the history of the town the financial statement indicated a net surplus of \$5,616.80. All departments have been administered according to the budget prepared at the start of the year. The surplus was obtained chiefly from the water and sewerage departments and the excellent work along all lines in the town service under the direction of R. E. Armstrong, the efficient town manager.

The present system of government was adopted in August, 1919 and at the end of the year there was a deficit of \$3,109.48. This has been wiped out and all outstanding bills paid, leaving a net surplus. If there were any doubts lurking in the mind of any citizen as to the success of the new form of government they have been dispelled by the report. Of last year's assessment of \$71,000 there has been collected \$66,731, and a collection of tax arrears amounting to \$5,554.

Manager Armstrong was warmly commended and a unanimous vote of thanks extended him for his excellent work during the year.

To those who describe the League of Nations as utopian, Lord Grey makes the retort that he prefers the chance of Utopia to the certainty of the destruction of civilization which adherence to the old order in international affairs would involve. The best thought of the world will support Britain's former great Foreign Secretary.

One of the best known guides in Nova Scotia gives this testimonial of Minard's LINIMENT—

Have used MINARD'S LINIMENT in my home, hunting and lumber camps for years and consider it the best white liniment on the market. I find that it gives quick relief to minor ailments, such as Sprains, Bruises and all kinds of wounds. Also it is a great remedy for coughs, colds, etc., which one is liable to catch when log-driving and cruising during the winter and spring months. I would not be without MINARD'S LINIMENT and cannot recommend it too highly. (signed) Ellison Gray
East Kemptville, N. S.

PEAK OF DEPRESSION PASSED

From the Stratford Beacon.—Canada may consider itself fortunate that it has almost passed an industrial crisis which has failed to justify the fears of those inclined to be pessimistic. The re-opening of industries reported from a number of centres, is an indication that a gradual improvement of conditions may henceforth be anticipated. The unemployment situation, however, has not yet been so bad as the contrast with several years of exceptional activity has made it appear. Statistic evidence that there were possibly even a greater number out of work in the fall of 1914. But, concurrent with progress in other branches of thought and endeavour, there should be methods developed to cope with such emergencies.

HOW TO IDENTIFY HIM

(From Harper's Magazine)
An agitated woman burst into a police station in Chicago not long ago with this announcement:
"My husband has been threatening to drown himself for some time, and he's been missing now for two days. I want you to have the river dragged."
"Is there anything peculiar about him by which he might be recognized if we should find a body?" asked the inspector.
For a moment the woman hesitated, and seemed at a loss. Then a look of relief came to her face, and she replied:
"Why, yes! He's deaf!"
The Canadian Methodist Church has 17 colleges and universities.

Winter Weather Hard on Little Ones

Our Canadian winters are exceedingly hard on the health of little ones. The weather is often so severe that the mother cannot take the little one out for airing. The consequence is that baby is confined to overheated, badly ventilated rooms; takes cold and becomes cross and peevish. Baby's Own Tablets should be given to keep the little one healthy. They are a mild laxative which regulate the stomach and bowels and thus prevent colds. The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

A COMMON NAIL

After weary months of waiting, the newly married couple had at last got a house, and with joyful hearts were setting things straight.

At length John came across a little picture of which he was very fond, but which was too small to hang from a picture rail. So he got a nail and hammered it firmly into the wall. A few moments later there was a loud knock at the front door.

"Oh, John dear," whispered the bride anxiously, as she peeped through the window. "It's the man from next door. I'm afraid your hammering has disturbed him."

John hastened to greet the visitor, and began to apologize.

"That's alright," said the neighbor heartily. "I don't mind the noise a bit. I've only come to ask if you'd mind my hanging a picture on the other end of the nail!"

THE LONLIEST PEOPLE

The lonliest people in the world, the inhabitants of the little island of Tristan da Cunha, in the South Atlantic, will shortly learn something of the big movements of the outside world when the annual mail reaches them.

Two mail bags containing letters and other packages addressed to the settlers in the island are now on their way to Cape Colony. Thence they will be conveyed by H. M. S. Dartmouth from Simonson to Tristan da Cunha.

Many of the settlers are descendants of the crew of the Bounty, who landed on that lonely coast, but eventually grew to like the place. Incidentally a British garrison was maintained as a sort of warden of the ocean area until after the death of Napoleon at St. Helena. Cattle and sheep raising, poultry farming, and vegetable growing, with ample fishing facilities, make up an ideal sort of existence of the Robinson Crusoe type.

THE PROFITABLE SKUNK

The advantages of the artificial raising of the fox, beaver, and muskrat, specifically, have been often pointed out, and here it is proposed to devote a few words to that much abused animal, the skunk. The fact that the animal is to be found in practically every part of the American continent, and that the pelt has sold as high as ten dollars, is sufficient to attract the attention of fur farmers and induce a study into the feasibility and advantages of the industry.

Many years ago Ernest Thompson Seton, the well known nature writer and naturalist to the Manitoba Government, advocated a more extensive artificial propagation of the skunk, and himself operated a most successful ranch of this kind. Because, largely of a prejudice against the little animal and its method of defense, skunk farming has never been firmly established in Canada as an industry although the advantages and possibilities are obviously so great. Success on other parts of the American continent and elsewhere have demonstrated the feasibility of establishing the industry firmly and profitably in the Dominion.

The skunk is widely found over the Canadian Dominion in every corner and nook where it can find food suited to its needs, and notwithstanding the fact that it is persistently hunted, trapped and worried by dogs, it continues to thrive and multiply in close proximity to settlements. The animal is neither

timid nor vicious and is practically omnivorous, devouring large quantities of insects including grasshoppers, crickets, beetles and caterpillars. In captivity, its feeding is very economical, the diet consisting of meat, fish, cooked cereals, vegetables and milk. The food problem is most easily solved where the ranch is established within reach of a hotel. The contents of the daily garbage can well feed a considerable number.

The skunk multiplies rapidly with litters of from six to twelve, the period of gestation being eight weeks. Descending may be performed when the animals are five weeks old and all possibility of future nuisance may be eliminated, but in domestic raising this is not really necessary contrary to general belief.

as the animals become remarkably tame and friendly with those handling them and never bring into play the powerful weapon nature has given them except when badly frightened by some intruder.

Skunk ranching could be successfully carried on in practically every section of Canada for the animal is indigenous to every part and would find his natural conditions wherever a farm was located. In wire enclosed pens of suitable land the animals will make their own burrows and dens and need little attention beyond feeding. The demand for pelts is steady and general, and the high prices prevailing during the past few years make skunk ranching very profitable concerns and augur a successful future for any development along these lines.

1870 THE FATHERS OF CONFEDERATION — were in their prime when Morse's Teas first won favor in Canadian homes. Today, when Canada takes her place among the nations, Morse's Teas are favored more than ever.

MORSE'S TEAS

This means dollars to you, Mr. Merchant

READ IT—

NEWSPAPERS would be much less than they are if they contained no enjoyable, instructive and valuable advertisements. Many persons read the advertisements quite as thoroughly as they read the news matter. This is just as it should be.

The more advertising the more buying. The more buying, the greater the consumption of goods or service advertised.

More business could be done by the merchants of Wolfville if they advertised more, and if more of them advertised. Much business goes to the big city mail-order houses because they advertise. These houses would cease to draw business from this community if they ceased to advertise.

TO THE MERCHANTS OF WOLFVILLE

Advertise more, and more of you advertise, and the big mail-order houses will get less and less business from this community.

Advertisement Reading is worth while

GUESS!
"MY CANADA" "MY CANADA"
\$300 Cash Reward to any Person
Who is Nearest Right on 3 Guesses

FRANKLY, we want to draw your attention to the enormous imports of United States goods into Canada. We want you to realize what it all means to every Canadian—to Labor especially. So we will pay in Cash \$300.00 First Prize, \$100.00 Second Prize, \$50.00 Third Prize—and the next eleven prizes of \$5.00 each to any person who makes and sends into us the nearest guess to the amount of money in goods that will be imported into Canada from the United States for FEBRUARY, 1921, as will be reported in

Canada's Trade Returns for February, 1921

The figures for February, 1920, were \$60,701,248.09; for February, 1919, they were \$52,255,909.00; for February 1918, they were \$41,185,814.00; February, 1917, were \$53,578,027.00, and for February 1914 (before the war) they were only \$23,286,731.00. You see where we are and what we are coming to in Canada! What will be the figures for February 1921? Are you a good guesser? If so, win one of the prizes.

HOW TO WIN

Get two of your neighbors to give you only ONE DOLLAR each for a year's trial subscription to "MY CANADA" (regular price Two Dollars per year) and send in the money with your three guesses. Each subscriber is also allowed three guesses! Will you risk an hour of your time to win THREE HUNDRED DOLLARS? Come! "GO, GET IT!"

"MY CANADA" will be published monthly. It lives to help you and Canada do better things. It goes without saying that the more readers we have the better this National periodical will be. This is not only true commercially, but we feel that every additional reader means so much added moral support.

Your guess must be in by FEBRUARY 28th, 1921. As the old adage would say, OBEY THAT IMPULSE—obey it now! Help us by this means to reinforce our convictions as to the future and the present in Canada, and of leading the way to better things for you, and yours, and us. Address your guess and send subscription to the publishers, "MY CANADA," Suites, 314-5 Stair Bldg., Toronto.

THE SCHOOL PROBLEM.

The decisive vote of the citizens at the public meeting on Thursday of last week indicated their interest in securing adequate school accommodation rather than their support of any particular plan in which this is to be done. The amount of money voted may or may not secure this end. It will depend upon the policy adopted by those having the work in hand. As was hinted by the mayor, it may be necessary to call another meeting for the purpose of voting additional money before the work is finally completed.

The problem facing the people of Wolfville is that of providing sufficient school accommodation to satisfy the demands of the Education Office and thus be in a position to receive the government grants. It is also evidently the wish of our citizens to insure an efficient school for which they are willing to pay well.

In view however, of the present exorbitant price of building material and labor, it would appear unwise to undertake just now the erection of an expensive building which might not be worth more than quarter its cost when normal conditions are again reached a few years hence.

The wise policy, then, would seem to be to secure the most and best accommodation at the least possible outlay. A plan has been suggested that on the face seems to be worthy of the fullest investigation. If after it has been fully looked into, the plan is found not to be feasible, or the expense too great other plans might be considered while this is discarded.

We refer to the proposition to move the present school building back and erect an addition to the front providing six more departments—twelve in all. The moving of the building should not prove a very difficult or expensive operation and is said by builders to be no great undertaking. The advice of a competent building mover would settle this question fully and would not be very difficult to obtain at a moderate expense.

When the present building had been removed to a new foundation previously prepared, it would require no further alterations, and would be in condition to carry on school work when required without any further interruption. The same corridors and stairways would amply serve the new departments as well as the old. The new basement would furnish room for an ample play-room and gymnasium, as there is plenty of room at present for heating and sanitary arrangements. This would provide a feature that is much needed and obtainable in most modern schools.

The addition to the building which would be erected on the

front would be of the same size and general plan as the old building.

As much light as is necessary could easily be supplied and the styles of architecture could be made as elaborate as was thought necessary.

A thoroughly competent local builder has estimated the cost of the whole undertaking at \$15,000 and it might be done for less money. Is it not worth investigation?

In the old days in was no uncommon thing to see numerous teams engaged in hauling mud from the creeks and river-bottoms to the orchards and fields of the country. Such a sight is no longer witnessed. Now when fertilizers are bringing such high prices would in our opinion be a good time to revive a practice which did much to promote successful farm operations.

The winter is passing rapidly and before we know it spring will again be with us. The new Council should take into consideration plans for street and sidewalk construction. The matter of providing good sidewalks especially should not be longer delayed. There are some things that we cannot afford to go without if our town is to maintain its proper position.

The most careful plans should be made regarding the policy of increasing our school accommodations. When these plans are mentioned there should be another meeting of citizens to vote approval. The schools are the property of the people and they will have to pay the bills. It is therefore only right that they should have the fullest opportunity of expressing an opinion on the matter.

One of the matters which should engage the attention of the County Council is the provision of some sensible prison regulation by which the labor of persons confined might be utilized in the public interest. At present occupants of our county jail are a public expense and receive no benefit from their confinement. A prison should not be a place of punishment but an institution of reform. Prisoners sentenced to our jails should be taught regular habits and trained in some useful occupations and compelled to earn their living. When this measure is adopted laws will be better enforced because there will be no hesitation about imposing the penalty. We are a good many years behind the times in this regard.

HARD COAL MAY SOON COST LESS

MONTREAL, Jan. 25—About the first of March a reduction of three or four dollars a ton in the price of hard coal may be expected, according to a prominent fuel merchant this morning. The heavy fire and the decline in however, will prevent anything like a drop to old levels.

JUNIOR HOCKEY

Kentville and Wolfville Play Tie Game

Last Friday evening, at Evangeline Rink, the Wolfville Tuxis Boys played a game of hockey with a team from Kentville. Although the visiting players were much larger than the local boys, the latter succeeded in holding the score to a tie, 4 to 4. The score at the end of the first period was 2 to 1 in favour of Wolfville. Each team scored in the second period and Wolfville tied the score just before the final bell rang. It was decided to play for ten minutes longer, and at the end of that time the score stood 4 to 4, and the game was called. The team lined up as follows:

Kentville	Goal	Wolfville
Walsh	Defence	B. Elderkin
Corbin	Defence	G. Rand
Walsh	Defence	Coldwell
Kiley	Forwards	C. Thompson
Sanford	Forwards	M. Rand
Young	Forwards	D. Hogan

AVONPORT NOTES

Mrs. P. B. Trefry is spending a few weeks in Kentville where her husband is employed.

Mrs. A. W. Lockhart spent the week-end at Mapleton, guest of Mrs. John Coldwell. Miss Roxie Holmes arrived from Halifax on Wednesday of last week to spend the remainder of the winter with her parents, Mr. and Mrs. Wm. Holmes.

Mr. Walter Huntley, of Waltham, Mass. is spending a month with his father, Mr. David Huntley.

Mr. A. B. Cox spent the week-end at Middleton, guest of his brother, F. E. Cox.

Miss Lillian Marshall has resumed her duties at Avonport school after a very pleasant vacation spent with her parents at Burlington, Kings Co.

Mr. and Mrs. Russel MacDonald are receiving congratulations on the arrival of a daughter "Elizabeth Holmes."

Mrs. Geo. Brooks has returned home after spending two weeks in Wolfville guest of her daughters, Mrs. H. E. Fraser and Mrs. Maude Abbott.

Mrs. Brenton Borden spent a few days of last week in Truro with her daughter, Miss Phyllis, who is taking treatment there with Dr. Marsh.

LUMBER PRICES CUT

SYDNEY, N. S., Jan. 25—A local lumber firm announced today that a twenty per cent cut in lumber prices will take place on Thursday of this week. The cut will cover building material of all kinds.

Rt. Hon. A. L. Sifton, Secretary of State, died at Ottawa last Friday morning. He had been confined to his room for over two weeks but had been gradually failing for the past two years. The direct cause of death was heart failure induced by arteric sclerosis.

Items of Local Interest

Miss Harriet W. Whidden, youngest daughter of Mr. and Mrs. D. G. Whidden, and Mr. Clarence T. Sterling, of Schenectady, N. Y. were married at that city Jan. 24th, inst. by Rev. Gordon Baker.

Mr. Herbert Stairs, agent of the Childrens Aid Society of Kings County, gave an address before the Women's Institute at Falmouth on Monday evening, on the work among neglected and delinquent children.

A special meeting of the Council will be held this evening when the reports of the various committees for the past year will be received and discussed and other business having to do with the present regime will be transacted.

Miss Muriel Haley, of St. Stephen, N. B., has been engaged to take charge of the new department in the Wolfville school. Miss Haley is well known in Wolfville, and will be a most valuable addition to the teaching staff of Wolfville's schools.

The opera "Pinafore" was presented at Truro last week by local talent under the direction of Mrs. Cora Pierce Richmond, and was a great success. A feature of the program was a vocal solo by Evelyn Duncanson, of this town, who was enthusiastically applauded.

The ACADIAN is sorry to hear that Mr. W. J. Boates, who recently met with a serious accident at the Woodworking Mill, is suffering considerable in consequence. It was found necessary to make a second amputation and Mr. Boates has since been confined to his bed.

Misses Harwood and Cooper wish to express their gratitude for the many gifts, the services, and the patronage of all those who helped to make their effort in aid of the Relief Fund, such a pronounced success. The receipts on Saturday totalled over one hundred dollars all of which will be forwarded immediately to the Relief Commission. The need is still very great, and contributions left at the Devonshire Tea Room, will be sent without delay to those who have in charge the distribution of the necessities of life to these famine-stricken peoples.

Mr. E. C. H. Young, the enterprising proprietor of "The Palms" has had plans completed for some additional changes in his building, which will add materially to its popularity. The change will include the adding of another story to the structure providing a large open room which will be fitted up as a "roof garden" and will provide a very popular feature. When the work is completed, as it will be in the early spring, "The Palms" will undoubtedly be one of the very best establishments of its kind, and something that Wolfville people may justly be proud of.

The letter of Dr. Cohoon, which appears on another page in this paper, is referred to the careful perusal of readers of THE ACADIAN, dealing as it does with matters of vital interest to citizens of the town. Dr. Cohoon is recognized as a financial critic of the first rank, and his presentation is always clear and logical on any subject. Citizens will appreciate the interest he takes in town affairs and THE ACADIAN can only repeat the regret so often penned that a foolish interpretation of the law has prevented him taking the place he is so admirably fitted to fill in the town government.

Only two passengers were injured and those slightly, they being Sam B. Marshall of Clarence, Annapolis County, and N. S. Temperance Act Inspector Robert White, of Kentville. The damage to the tracks and cars was comparatively slight, and traffic was running as usual yesterday.

The Dominion Atlantic Express train No. 95, bound for Yarmouth, met with an accident two miles this side of Annapolis Royal on Tuesday, nearly the whole train leaving the rails.

The baggage car left the track as did the first-class coach; the second first-class car was left crosswise on the track and the parlor car in a similar position. Kentville was immediately advised and wrecking trains dispatched to the scene and a special train of coaches was sent out from Kentville for the transfer of passengers coming east, the eastbound express from Yarmouth transferring her passengers and returning to Yarmouth with those bound for that point as well as boat passengers bound for Boston and Digby.

Only two passengers were injured and those slightly, they being Sam B. Marshall of Clarence, Annapolis County, and N. S. Temperance Act Inspector Robert White, of Kentville. The damage to the tracks and cars was comparatively slight, and traffic was running as usual yesterday.

The suggestion is being made in Ontario that there should be compulsory insurance of automobiles. Thousands of cars are operating, with persons at the wheel who have no attachable property or other assets, leaving mere empty judgements for persons who might sue them for damages. Damage judgements for several thousands of dollars are not infrequent where pedestrians are hurt. It is argued that compulsory insurance or compulsory furnishing of bond up to the value of the car, would do much to diminish recklessness and carelessness in driving. There are numberless cases where careful men in good cars must take to the ditch to avoid a smash with an irresponsible careening along on an old rattletrap who knows his own irresponsibility will obtain him right of way. Some check against these reckless ones is necessary, and perhaps if a bond or compulsory insurance were required of them as a condition of license, the safety of the road would be much improved.

In the financial report of the town in the last issue of THE ACADIAN, I notice that there is no mention of the electric light bonds. Am I in error when I suppose that we owe for this item; or have they used up current account funds to pay the bonds off? Perhaps that accounts for the shortage in the current account funds. However, if these bonds have not been paid; they should not be slighted, but be given their proper place in the liabilities with the rest of the items. This would make our total debt about one hundred and fifty thousand instead of one hundred and twenty-five thousand. Now I do not see any reason why the finance committee should try to make the people think the debt is less than it is; because it is there, and must be paid by the people.

The first mention in which the Government of Norway had a part, resulted in the adoption of measures restricting the manufacture and sale of intoxicating liquors to light wines and beer.

The first mention in which the Government of Norway had a part, resulted in the adoption of measures restricting the manufacture and sale of intoxicating liquors to light wines and beer.

Coming Events

Notices under this heading are inserted at 10 cents a line. Each repeat, 5 cents a line; minimum charge, 30 cents. Contract rates on application.

The Philathea Class will hold their second annual Valentine Supper in the Baptist Church dining-room, February 14th.

The Freshman class of Acadia University will be At Home to the faculty and students on Saturday evening in the Memorial Gymnasium.

The public is cordially invited to attend a lecture in the Baptist Church by Prof. W. M. Whitelaw, on the subject "When West Meets East," on Thursday, Feb. 3rd, at eight o'clock. Silver collection.

Here's your chance to see the stage girls behind the scenes, making up for their parts, their dressing room scenes and their parties after the play, on the stage and in the lobster houses. Get a ticket for "Mind the Paint Girl" Friday and Saturday.

Will Rogers in his latest Goldwyn production "The Strange Boarder," will appear at the Opera House on Monday and Tuesday of next week. This is another picture of the Rogers type which is full of heart interest and dramatic appeal. It should amuse and interest where it appears.

The "best dressed woman on the screen" is pretty much of an ugly duckling in the early scenes of "The Amateur Wife," at the Opera House, next Wednesday and Thursday. Later, however, Mrs. Castle is given an opportunity to wear the distinctive gowns for which she is famous, and the feminine contingent in the audience is made happy.

THE COMMUNITY ASSET OF A LIVE LOCAL PAPER

If a town were to check up its assets, chief among these would be its newspaper. It matters not so much who owns the stock of the publishing company, or who occupies the editorial chair, so long as the people recognize it as a public institution and have due appreciation of what it can mean to them. In a very real sense a town and its people may be judged by the kind and quality of the paper that is published in their centre. If it is a live, energetic, foresighted publication, the town will be progressive and live. If the paper is lifeless, dry and without forward purpose, apart from selling subscriptions and advertising space, there will be little or no progress and community spirit manifest.

No matter how efficient city papers may be, they can never take the place of the country weekly. There is a personality and flavour about the home town paper which cannot be furnished by any publication on earth. To the people of the district it is guide, philosopher and friend, and to those living away from the old home centre, its weekly coming is welcomed like a message from an absent friend.

It is the merchant's means of communicating with his customers. It is equally the buyer's shopping-place. Honesty of present day advertising commends itself to the public and the home paper is becoming more and more the medium through which the purposes of legitimate advertising is made known. The time is close at hand when, instead of the publisher having to solicit the merchant to get advertising, advertising space will be sought for by the merchants as the economic and practical means of reaching his buying public.

For the most part country papers have done a real service in fighting the battles of the community they serve. They see that the interests of the small town and of the farm are linked up together, and for the most part they have been warm supporters of the Modern Movement to give the common people a larger voice in the affairs of the nation. Despite the many and increasing difficulties under which the country publisher has had to work during recent years, we would like to see more of them conduct an editorial column or corner where they could express their opinions on public questions. Some of the country papers have excellent editorial columns, and it is really too bad that all of them do not feature this side of their paper. The rural editor is nearer to his constituency and is better able to summarize and express the opinions of his readers than is any other writer.

The rural newspaper is the intimate friend of every citizen; it knows everybody. It praises the good, censures the evil, and stands solidly for the progress and betterment of the community. It can do more than any one single agency to bring unity and advancement to the district. The live newspaper supplies effective leadership to every industrial, social and moral movement. It makes for that accomplishment without which a town is inactive and dormant—(The Grain Growers' Guide)

COST OF GOVERNMENT

Representative Canadian families contribute, directly or indirectly, to the cost of government—municipal, provincial and national—from about \$190 to about \$450 annually.

This is the finding of the Citizens' Research Institute of Canada, as presented in Bulletin No. 14 of their Canadian Citizenship series. It is asked if it is not time for the citizen to consider seriously what his work buys in government service.

Canadians pay for their government under three main heads, national or federal, provincial and municipal or civic. The following table shows the comparison of per capita cost of government for 1918 in the principal cities, computed from the various sources of revenue.

	Dom- inion	Pro- vincial	Muni- cipal
Vancouver	\$25.14	\$16.87	\$38.51
Edmonton	25.14	12.13	54.53
Regina	25.14	10.05	32.52
Winnipeg	25.14	8.60	28.70
Toronto	25.14	6.23	40.53
Montreal	25.14	5.50	28.61
Halifax	25.14	5.26	18.37
St. John	25.14	6.66	15.82
Charlottetown	25.14	5.38	8.29

Those cities for which comparative figures are available, show an average increase in cost of government of \$8.15 per capita in 1918 over 1917. A considerable portion of this increase can, of course, be attributed to the per capita rise in the cost of national government. At the period under review, Canada was still prosecuting the War, which makes for abnormal conditions. In this year, every province in Canada, except Manitoba showed a per capita increase in the cost of provincial government over 1917. Prince Edward Island showed the lowest increase with 2c. per capita, whilst British Columbia showed the greatest with \$2.13 per capita.

All the cities for which the institut had per capita data, except Winnipeg and London, had an increase in per capita cost of municipal government in 1918 over the previous year.

Canned fruit and vegetables should be opened some time before using, that they may be aerated and the flavor improved.

CLIMBING THE CANADIAN ALPS

Where the Appetite is Always Keen.

Sections of the Alpine Club of Canada in all parts of the Dominion have received the anniversary message of the director, Arthur O. Wheeler, interprovincial boundary survey commissioner for B.C. There is much in this document of special interest to members of the club, but there is also a great deal which affects the general public, since it looks forward to a greatly increased tide of summer travel into the fastnesses of the great hills.

The director's message opens with comments on the prosperous standing of the club and the success of the camp at Yoho lake last summer. Thanks are also tendered to many who helped to make the camp successful. Mention is made of renewed photographic activities in the mountains and of the fact that the challenge cup for competition by amateur mountain photographers was won last summer by Dr. H. E. Bulyea of Edmonton.

With reference to the erection of a suitable memorial to the soldier members of the Alpine club, the director says: "It is decided to do this on two separate lines, first, to place a record of all our members on military service and particularly those who have joined the supreme honor roll, on the club house grounds at Banff, and second, the erection of a hut above timber line at some serviceable place in the Canadian Rockies for the use of our members and possibly the public who are interested in making mountain climbs."

With reference to independent mountaineering during the past year mention is made of the first ascents of Mt. King George, and several other peaks of the Royal Group, lying in a hitherto unexplored district fifty miles southwest of Banff. Mt. Sir Douglas and Mt. Joffre were also climbed for the first time last summer.

After some comment on the Banff winter carnival, in which the Alpine club takes an active interest, having been donors of a challenge cup for hockey, the director takes up the matter of the forthcoming "Welcome Home" camp to be held at Mt. Assiniboine from July 20th to 31st, 1920. At this camp more than 300 people will be placed under canvas and the special feature will be the fact that all returned members will attend as guests of the club. The camp will be situated three days' journey from the railroad and transportation of baggage will be by a specially organized pack train known as the "Alpine club pack train." Of special interest is the fact that the general public will be in operation throughout the summer and anyone wishing to make a really interesting trip into the heart of the mountains can do so at a minimum expense. The camp at Mt. Assiniboine and the "Overnight Camps" on the way thither from Banff will be open to the public from the first of July until the end of September, except during

Mount Assiniboine, Canadian Pacific Rockies.

the two weeks when they will be occupied by members of the Alpine club. At any time during the summer walking tours may be taken to Mount Assiniboine and these camps will be open to furnish good meals and a bed to the tramp at the end of his day's journey. There is only one way to really see the mountain and that is on foot, but so far this pleasure has been confined to the very few, on account of the difficulty of carrying food and bedding. These difficulties are now to be removed and it is planned in coming years to arrange many such walking and riding tours for the benefit of the public. In conclusion the director quotes the verses of a gifted Calgary

poetess, Miss Marian L. Moodie: Oh wind that comes out of the West, the land of the sunset skies, Whence far o'er yon mountain's crest these glorious colors rise, You bring me the fragrance of pine, the coolness of mountain snow, The music of falling streams by the hills where the lilies grow. Oh wind that comes out of the West, you sigh on your way to the plain. The mountain land is the best. Will you not come back again? Glow skies with your golden light, Blow softly wind from the hill For my heart has a longing tonight, that only the mountains can fill.

EATON-BORDEN

On January 19th an interesting event took place at the home of Mrs. Mabel I. Borden, of Canard, when her daughter, Jean Frances, was united in marriage to Mr. Fred B. Eaton, son of Mr. and Mrs. Freeman A. Eaton, of Lower Canard. The ceremony was performed by Rev. A. J. Prosser. To the strains of the wedding march from Lohengrin the bridal party took its place beneath the bell and evergreen arch.

The bride looked very girlish and pretty in a dainty gown of white satin and georgette, with conventional veil and orange blossoms. The bride's cousin, Miss Muriel Eaton, acted as bridesmaid, while the groom was supported by his cousin, Mr. Wilfred Burbidge. Following the ceremony a most delicious lunch was served. The bride was the recipient of many beautiful and useful gifts, including numerous checks, silver, china, linens, etc.

The travelling costume of the bride was a navy blue suit of tricotine with a becoming black hat, also a set of black wolf furs, the gift of the groom. A rain shower of confetti and the many good wishes of their friends the happy couple left for an extended trip to Boston, and vicinity. On their return they will reside at Lower Canard.

Mother to Willie, as father takes the receiver of the hook— "Run outside, Willie, father is going to try and get it."

The common peanut is the source of a new substitute for milk which so closely resembles its prototype that it

turns sour, and curdles, produces butter-milk when churned and may be made into cheese.

BETTER ROAD

After commenting at some length on the great advantages to both rural and urban interests that will come through the recent completion of the hard surfacing of a section of the Pacific Highway running south from the New Westminster bridge, the British Columbian says:

"If rural life is to be made as attractive as city life to those of healthy mind and ambitious spirit, the advantages of the city must be brought to the country. The paved highway and the motor car are important factors in promoting this, and the politicians are wise if they recognize the trend of the times and meet the demand in a business-like and conservative fashion. Main highways to serve the traffic needs of the rural districts must be improved to stand the new demands that are being made upon them, and prosperous conditions will result for both agricultural and city communities when the age-old problem of transportation and distribution are handled with vision and practical common sense."

Canard Notes

The members of the Upper Canard Baptist church met at the parsonage Thursday afternoon, to organize a "Dorcas Society," to work for the needy in the community.

The annual business meeting of the Upper Canard Presbyterian Church was held on Friday evening January 21, the pastor, Rev. G. A. Logan, presiding.

The following officers were appointed Church Clerk, Robert Harris; treasurer, Sherman Belcher; mgrs. Percy Ellis, Whitfield Ellis, W. D. Burgess, John Sheffield, Hamilton Morris, A. Dickie, Robert Harris, Sherman Belcher; ushers, Arthur Dickie, Aubrey Newcombe, Oscar Chase; organist, Mrs. Arthur Dickie.

The church has had a good financial year, \$400.00 including Forward Movement Fund having been contributed. The church has a resident membership of 75, there being 48 families.

The sum of \$100 was presented to the church, as a memorial to one of our boys who enlisted for overseas service.

Supper was served by the ladies of the congregation and a delightful hour spent with the pastor, Rev. G. A. and Mrs. Logan. This ended one of the most successful years in the history of the church.

HEALTH IN WINTER

In winter everything conspires against health—the temperature, both indoors and out, clothing, food. Man in his disregard of hygiene does little to counteract the danger. It is well, therefore, to remind ourselves of some of the simple rules of health that, if observed, will increase our power to resist disease.

In winter the two parts most vulnerable to disease are the digestive and the respiratory tract. In summer a person eats fresh vegetables and fresh fruits and has less appetite for heavy meats, in winter when the canned vegetables are not so tempting or so nutritious, he instinctively turns to meat.

In winter a person should wear clothing as light as is consistent with comfort, and as loose as possible, for tight clothing disturbs the circulation, upon the healthy condition of which the power of resistance may largely depend.

THE BALLYBUNION STATE

(From the Washington Post) Miss Mollie Carroll, the actress who flew over the British Embassy dropping leaflets of protest about Ireland, said at a Washington dinner party the other day: "Poor Ireland! I know an Irish boy named Mike Shane who immigrated into America last month. When he reached here the immigration officer started to question him. 'Where do you come from?' he says. 'I come from Ballybunion,' says Mike. 'Ballybunion,' says the immigration officer. 'And what state is Ballybunion in?' 'Faith sor,' says Mike 'she's in a horrible state. That's why I immigrated.'

CANADA LOSES RANK AS MARITIME POWER

In Seventy Years She Has Dropped From Third to Eighth Place

Seventy years ago Canada was the world's third Maritime power. Today, through lack of interest to Canadians in their maritime affairs, she is in eighth place. Today the protection of Canadian trade routes is not given by Canada, and her 8700 ships, manned by 47,000 men, are neither officered or manned by Canadians.

The start of all navies has been from the merchant marine service" said Capt. Donald Monro, C. M. G., R. N., recently, in discussing Canada's naval future. "I am convinced that the best thing for Canada to do is to get a sound sea instinct permeating through her population. This can only be done by training the young; the provision of fighting ships necessarily must follow afterwards."

Capt. Monro was chief advisor to the British Admiralty during the war on empire port defence, and at the present time is touring Canada under the auspices of the Navy League. With his trained eye he has sized up the naval situation in Canada and is endeavouring to show to all British Dominions that definite contributions must be made to Great Britain by all her colonies.

WHO AM I?

Who am I? I am a means of thrift. I am a bulwark of defense. I am a booster of education. I am a child of civilization. I am a friend of the school-boy. I am a symbol of human progress. I am a spur to peoples' pride. I am a groove to the market place. I am a savor of seasons and climates. I am an open sesame to comfort and joy. I am a shrinker of space and a saver of time.

I am a tie that makes neighbors of strangers. I am a lure for them who fare for pleasure outside a city's gates. I am a standing invitation to the tourist to come my way past fruitful fields and through quiet woods. I am an upholder of nature upon the base that Mother Nature has marked out for men to follow in their architecture. I stand to the world as a sign of what are the dreams and hopes and aims of men for themselves and their children.

I am a weaver of community spirit that touches in common the folk who live in the marts of trade and those who abide in hamlets and along the quiet lanes. Who am I? I am a good road.

INCREASED LICENSE ON N.S. MOTORS.

A big increase in the license fees on all motor vehicles is the feature of the new schedule which has just been issued by the provincial government. The schedule shows that the fee for all light automobiles such as Fords has gone up from \$16 to \$25. The license on all other motor cars has gone up in proportion to their horse-power. The highest fee is \$60 for all vehicles over 40 horse-power. The new number plates for 1921 will have black letters on a green background.

Piles Cured Permanently Without Drugs

Internal Bathing Relieves the Cause.

Mr. A. N. Steele, Cupar, Sask., writes: "I had been troubled with my stomach, Piles and Constipation for years until I had become very thin and looked 20 years older. A leading Doctor in Regina told me that the main canal was badly ulcerated. I gradually became worse, until one day, when purchasing a threshing outfit from Mr. Russel of Regina, Mr. Russel noticed my condition and said: 'I can cure you. Get a J. B. L. Cascade.' Well, I did so, and the first night I used it I slept all night for the first time in weeks, and in a short time felt quite myself again. It also cured my piles, which had troubled me for years."

If you are troubled with constipation don't drug yourself. Internal bathing with the J. B. L. Cascade is the only permanent way. This wonderful appliance is the invention of Dr. Chas. A. Tyrell, New York. It is pleasant and easy to use, and will serve the whole family. It should be in every home. See the J. B. L. Cascade at A. V. Rand, Drugist, Wolfville, where it will be shown and explained. Ask for 32 page booklet all about internal bathing. It is free; or write Tyrell's Hygienic Institute, 163 College Street, Toronto, Ont.

BUILDING COSTS SHOULD DROP

We look for a reduction in the cost of building during the next few months, says the Canadian Building Review. During the past six years the prices of building materials have advanced on an average of 140 p.c. One half of this increase has come since July 1919. Wages in the building trades (averaged over the whole country) since 1914 increased about 65 p.c. The result is that building last September cost on an average of 100 p.c. more than in pre-war times. Reductions in the cost of building should naturally first be expected in material prices, because they have had the greatest advance and prices of commodities change more readily than wages. Lumber and brick have already turned downward and other materials are following. When we come to consider what has taken place we find that the readjustment in building costs has already made great progress and that by Spring there is hope of sufficient stabilization to again make a real estate first mortgage covering not more than 60 p.c. of the building costs, a gilt edge investment. As to labor, there will be a levelling process. There should be a drop in the price of common labor and the outlook at present is that many skilled workmen will be glad to work for less. General efficiency which was approximately 75 p.c. in 1914 and which dropped to 50 p.c. a few months ago should get back to 1914 levels. This will be a most important factor in reducing costs. It is generally conceded that 1921 and 1922 will be the most economical years in which to build for a decade to come.

Canada has more than 15,000 churches.

Minard's Liniment for Garget in Cows

Cause of Early Old Age

The celebrated Dr. Michenhoff, an authority on early old age, says that it is "caused by poisons generated in the intestine." When your stomach digests food properly it is absorbed without forming poisonous matter. Poisons bring on early old age and premature death. 15 to 30 drops of "Segel's Syrup" after meals makes your digestion sound.

T. E. HUTCHINSON WOLFVILLE

OUR FORESTS

The necessity for further education along the line of conservation of natural resources is plainly evidenced by a perusal of the laws covering forest protection. The laws of any country may be behind the degree of development of public opinion at any given moment, but the absence of a law must surely denote the absence of an enlightened public opinion among that particular line.

The law of Nova Scotia limits the diameter of trees for cutting to 5-inch and 10-inch poles, and affords the added protection of making the permit to cut smaller trees more expensive than cutting the larger ones. But it contains no provision for reforestation, and the area cut over may be left to itself and grow up with less valuable varieties of wood, either for home use or for exportation.

In all new countries, vast areas are apt to be covered with wood growths, and early settlers are inclined to be careless and extravagant in their use. The habit is handed down from father to son and is apt to continue long after the disappearance of valuable trees should of itself be a warning against useless or extravagant destruction. Of late years research has shown us how essential forests are, not merely to provide the timber without which we seem to be unable to carry on modern civilization, but also as conservers of the soil and its fertility, upon which life itself depends. Such knowledge seeps through to the great mass of indifferent people very slowly and the demand for the practical application of its fundamental principles comes about more slowly still.

Governments do not as a rule go far ahead of the demands of the people. For this reason, educational propaganda along various lines becomes a real necessity if a democracy is to move forward to its goal. Schools, colleges, homes, churches and newspapers should continue to impress upon the present and the rising generations the need of forest protection and conservation in Nova Scotia, to the end that a progressive policy for the conservation and recreation of our wood resources may be adopted.

The Canadian Presbyterian Church has 4,563 congregations.

W. C. T. U. Notes.

Women's Christian Temperance Union first organized in 1874.

Aim—The protection of the home, the abolition of the liquor traffic and the triumph of Christ's Golden Rule in custom and in law.

MOTTO—For God and Home and Native Land.

BADGE—A knot of White Ribbon.

WATCHWORD—A gitate, educate, organize.

Let us not judge one another any more, but judge this rather, that no man put a stumbling block or an occasion to fall in his brother's way. RM. 14-81. Business meeting of the W. C. T. U. the last Monday of every month.

FIGURE THIS OUT FOR YOURSELF

How many apples did Adam and Eve eat?

Some say Eve 8 and Adam 2—a total of 10 only.

Now we figure the thing out far differently: Eve 8 and Adam 8—total 16

We think the above figures are entirely wrong:

If Eve ate and Adam 82, certainly the total will be 90.

Scientific men, however, on the strength of the theory that the antediluvians were a race of giants, reason something like this: Eve 81 and Adam 82—total 163.

Wrong again. What could be clearer than if Eve 81 and Adam 812 the total was 893?

I believe the following to be the true solution: Eve 814 Adam and Adam 814 Eve—total 8939.

Still another calculation is as follows. If Eve 814 Adam, Adam 8142 oblige Eve—total 82,056.

A well proportioned man should weigh 28 pounds for every foot of his height.

Personal Paragraphs

Miss B. Rockwell is home from New Glasgow for a few days returning Saturday.

Mr. Ralph Creighton, manager of the Royal Bank of Canada, spent Sunday in Halifax.

Mr. and Mrs. Geo. Holt, Hilaton, spent the week-end with Capt. and Mrs. L. H. Baird.

Dr. Simeon Spidle was in Truro on Sunday occupying the pulpit of the Baptist Church.

Mr. and Mrs. Gerald S. Bauld and Miss Betty were in Halifax over Sunday, returning Tuesday evening.

Friends of Dr. Tufts will be sorry to learn that he is not so well, but it is hoped he will soon be improved again.

Mrs. W. O. Taylor was in Berwick last week for a few days and attended the funeral of the late Mrs. Alfred Chipman.

Mrs. A. Guest and little son, of Riverport Lunenburg county are visiting at the home of the former's father, Dr. J. F. Tufts.

Mr. George Nowlan arrived home from Halifax yesterday to attend the Acadia-Mt. Allison game. He will return to Halifax tomorrow.

Mrs. Edwin Chase has been a guest at the home of Mrs. Margaret Harvey. She left on Thursday in company with Mrs. Ralph Donaldson for Bridgetown.

Mr. and Mrs. H. W. Phinney left recently for the South, where they will spend the balance of the winter, on account of the condition of Mrs. Phinney's health.

Mrs. L. H. Eaton left recently to spend a month or so in Halifax, the guest of her niece, Mrs. Samuel Freeman. Mr. Eaton will spend the winter with relations at Lower Canada.

H. E. Woodman was in Sackville, N. B., last week in connection with the coming campaign of Mt. Allison University to raise \$500,000. Mr. Woodman is in charge of the campaign for this district.

Mr. and Mrs. Murray Millet have been visitors in town this week. The former is well-known in Wolfville as a former Acadia boy who did excellent service over seas, winning the M. C. Mrs. Millet is the guest of her sister, Mrs. Roy Forbes.

The marriage of Dr. Arthur C. Primrose, son of Dr. and Mrs. Primrose, of this town, took place at Baltimore, R.I. on the 17th inst. Mrs. Primrose and little daughter were present and are spending some weeks in that city, their old home.

Mrs. A. E. Etter and two little sons, of Saskatoon, Sask., arrived on Friday last on a visit to the former's parents, Mr. and Mrs. E. B. Shaw. It is eight years since Mrs. Etter left Wolfville, and many old friends are glad to welcome her back.

Mrs. R. D. G. Harris, who has been spending the past year in Roxbury, Mass., arrived in town last week and has purchased Mrs. Van Zoost's house on Highland Avenue. Mr. and Mrs. Van Zoost intend leaving for Holland next month, but it is hoped that they will return to Wolfville at a not distant date.

NEWS FROM THE CAPITAL

The passing of Hon. A. L. Sifton has been the principal event in political circles at Ottawa. He had no great record as a parliamentarian, or as a politician but in the Cabinet he was a shrewd and competent counsellor, valued fully as such, and he will be missed. His death creates the first vacancy in the Cabinet of Mr. Meighen and the third in the Common.

His constituency was Medicine Hat, Alberta. The other vacancies are Yamaska, Quebec and York, New Brunswick. It is considered doubtful if the vacant Cabinet position will be filled immediately. Rather, it seems more likely to await that broader reconstruction of the Cabinet which has long been talked of, and is on the calendar for later in the year.

For the opening of Parliament preparations are going ahead with special attention to the tariff. Some of the Cabinet are inclined to have the Budget brought down late and fashioned according to the action of the United States, but a more predominant view seemingly is to go ahead and work out a tariff for Canada, with disregard to any effect from possible hostile tariffs elsewhere. The Budget, in any event, will not be down before March. A few of the eight Senate vacancies may be filled before the session, but only a few. Most of them are to be held open for the eventual appointment of members of Parliament. It is pretty certain however, that the Nova Scotia vacancy will go to John Stanfield, an ex-M. P., and one in Saskatchewan to Archibald Gillies, a prominent Conservative in the Legislature there.

Canada's trade for the twelve months ending December, totalled \$2,039,746,135, of which \$1,336,921,021 were imports and \$702,825,114 were exports. The figures show an increase of nearly four hundred million dollars in imports over 1919, and an increase of about \$8,000,000 in exports over the corresponding period of last year.

Stand up for your rights but do not obstruct the view of those who defend them.

WASTE

I regret to have to again call the citizens' attention to the waste in electric light. On Sunday morning last the street lights burned until about half-past nine, when the sun had already been up some time, and was shining brightly. Now merely our electric light commission is not trying to set up rivalry to old Sol. If so, they made a very poor companion, for while the street lights are very good when it is dark they make very little improvement on bright sunlight. Just who is responsible for this waste and neglect, I do not know; but it is the business of the electric light commission to see who is responsible and put a stop to it. There is also a great wavering in the lights lately which, if caused on the line in town, will cause waste also. The commission know of this and should see that it is remedied; if not, what does the commission exist for? C. M. G.

THE SCHOOL RINK

The rink at the school grounds was fit for use on Saturday last, thanks to the good work done by the committee in charge. Since then it has been taken due advantage of by the young people and has presented a scene of activity pleasant to look upon.

During the next few weeks if winter weather holds, the young people of the town will take real enjoyment in their new rink, which will become a permanent institution of the town. The rink affords a good sheet of ice which will be sufficient for hockey games as well as for skating. Wolfville people are indebted to the citizens who promoted and gave their time and money to secure this fine institution.

HOW TO INCREASE TOWN VALUES

MR. EDITOR: The address of Mr. Percy Brown, C. E., on town affairs published in a recent issue of your paper contains facts and conditions that cannot well be contraverted. The town depends upon the Institutions; without the latter, it would still be Mud Creek, with a store or two, a tavern and with farms up and down the Valley. This inter-dependence makes it necessary for the College to do all that it can for the town and the town for the College. In what way can this condition of things be best promoted to the interest of both? It has to be recognized that Wolfville's chief asset, outside of the institutions is scenery. One is never tired gazing at that bold Cape Blomidon, with the stories and traditions of Glooscap. Then there is Grand Pre with the equally fabled Evangeline and the more real tragedy of Noble's Command. The whole country is surcharged with the memories of Acadian life—so happy—and then dispersed in misery and sorrow. Above the town, one enters into the Gaspereau Valley—a land of ideal charm. When the summer tourist is done luxuriating in these charms, he leaves and does not return. In Digby, Chester and other places it is different. With abundant boating, yachting, bathing and sports, the same people return year after year. How can Wolfville induce the stray traveller to remain here, invest his speckles, and become a taxpayer and a citizen? A chance new comer finds the cost of living here is about the same as Halifax—which is described as the dearest city in Canada. Everybody is in the game of high prices. The virus of high price has penetrated the blood of the people and is destroying the reputation of the place.

If the Board of Trade possesses a tourist committee whose members are sufficiently free from the taint of making all the tariff will bear, let them take full charge of tourist travel the coming season, in the way of providing regular taxi service at fixed rates to scenic points, with reduced rates for hotels, duly advertised. Thus people who come here may be induced to come again and bring their friends.

A friend of mine came here not long ago to purchase a bit of land and settle here. He claimed he found the price of residential lots in this town of 1500 people more than in Halifax, with its 60,000 people. Land varies in value with the density of population. He returned promptly to Halifax.

The town has no weekly wage bill coming in like Sackville, or Windsor, or other towns like Truro, Amherst, etc., the industries of which are a perpetual source of wealth and prosperity. Its taxes therefore come out of the incomes of the residents, drawn almost entirely from outside sources, and which being largely "fixed" do not expand with the increased requirements of the town for increased school accommodation and other services. It is important that the town should control an area suitable for building lots to be sold to actual home builders and kept out of the hands of land speculators. If these lots were sold at reasonable prices, an inducement would be given to families with sons and daughters to educate them here, make this place their homes and ultimately bear their share of the civic burden. Then why not run a street or two parallel to the main street off Westwood Avenue, lay them off in

lots, say 60 x 120 and offer them at a small advance above cost? I would also suggest another method of naming the new and even the older streets. The names "Summer St." "Prospect St." "Linden Avenue" etc. mean nothing. Why not name them after those worthy men such as Cramp, Sawyer, Crawley, Rand, also Rockefeller, Rhodes and not least amongst the throng, Cutten. Let there be room for any new benefactor of the College and the town. Such changes will add little or nothing to the tax bill and may prove a means of promoting the growth of the place.

NO INCREASED TAXATION.

GASPEREAU NOTES

The ladies Institute was held on Thursday afternoon, Jan. 20, at the Parsonage a goodly number in attendance and a very interesting program was conducted.

Avery Duncanson and Elmer took a number of the young people in their auto trucks, to Canning to attend a hockey game on Friday evening of last week.

A rousing good time will be held at the Gaspereau Division Hall next Saturday night, if the members will attend. The young women will provide entertainment while the gentlemen furnish the treat. Don't miss it!

Miss Gwen Sawler, of Kentville, was the guest of Miss Vera Duncanson on Sunday last.

Very sorry to hear that Mr. Clifford Coldwell has been laid up with a cut in his leg.

Miss Hazel Coldwell and Mr. Glenn Gertridge spent Sunday with friends in Falmouth.

Mr. Elmer Allen took a number of young people of Gaspereau to Canning to the hockey match in his auto truck on Friday night of last week.

A number of young people of Gaspereau attended the hockey match in Windsor on Monday evening of this week.

The Twenty-fifth Annual Convention of the Nova Scotia Farmers' Association was held in Bridgetown this week.

The Merchant Who Advertises

Is helping to keep money circulated at home because the advertising done by business men of other places to reach Wolfville buyers tends to attract money elsewhere.

If they find it pays to advertise, the home merchant who can advertise at less expenditure of money is even more favourably situated.

Our new Spring samples of Cloth are in and we invite your inspection.
