

TWENTY-FIVE CENTS A MONTH.

CALGARY, SATURDAY, MAY 28, 1910

NINTH YEAR—NO. 77

STRONG EVIDENCE
BY THE ENGINEER

Goddard's Story Reflects
Somewhat Upon Late
Attorney General

STRANGE DOINGS BY
RAILWAY COMPANY

Half of Road Between Ed-
monton and McMurray
is Muskeg

Edmonton, May 27.—Telling how he has turned at one letter sent to him recently by Dr. J. A. L. Waddell under instructions from the latter, how he, while in the hospital at Winnipeg, and also his wife, had been detected by detectives, how the figure of the estimate of the cost of the construction of the A. & G. W. railway had been raised before they were presented to the legislature, how the specifications were down cheaper again after being adopted by the legislature, how Engineer Darling estimated the cost of construction under the specifications adopted at only \$17,000 a mile, how W. H. Clarke had cured the specifications controversy in one hour after a visit to the parliament buildings, how Hon. C. W. Cross had met Clarke by appointment on the street during the last legislative session, and how Cross had allowed inferior spruce to be substituted for tamarack construction, Assistant Chief Engineer Goddard of the Canada West Construction company furnished some interesting information to the Royal Canadian Mounted Police under cross-examination by R. B. Bennett.

"Do you know of an occasion during the last legislative session when Clarke telephoned to Mr. Cross from the Alberta Hotel to meet him on Seventh street and Victoria avenue?" asked the witness.

"How did you find out?" answered the witness.

"Never mind."

"You must have had detectives following you. When I was in Winnipeg these fellows were watching me all the time. They came to the hospital and bothered me even before I was sufficiently recovered to speak. They even bothered my wife."

"Yes, I presume they did the work for you."

Goddard said he did not know who Clarke saw when he went to the government building, but he supposed it was Cross and Woods. Bennett asked that whereas specifications called for tamarack and jackpine ties, spruce and jackpine have been used in the construction.

The witness admitted that spruce makes a very poor tie, but he said Waddell had written him from Athabasca Landing to get permission from the government to use them because of the Dominion law that in cutting timber for ties, the tamarack, spruce and jackpine were to be used as they occur.

Clarke kicked Waddell.

Goddard said he went to see the premier to get the required permission, but the premier refused it. He informed Waddell, who told him to see Cross. He saw Cross.

"Mr. Cross told me," said the witness, "that he would see the premier about it, and if he did not hear from him, I could go ahead and use a percentage of spruce ties. We did use them, but Mr. Clarke kicked like a mule when the Canada West Construction company would be unchanged. Judge Harvey—" You are assistant chief engineer, aren't you?"

"To whom?"

"I don't know, I have not learned who will be Mr. Waddell's successor."

Cost of Construction.

The witness said he had had a part in the preparation of three reports regarding construction of the road which were submitted to the government, and that in one of these reports the estimate had been raised before going to the government on Waddell's responsibility. He explained that the distance to Lac La Biche from Edmonton is 123 miles, and that the first fifty miles would be practically prairie construction. He also stated that the route he originally laid out to the east of the lake would have been a better farming country than the present one to the west of the lake, but that the west route would be somewhat cheaper. He admitted that the engineers had tried to get a map with the government. It was shown that the specifications drawn by Waddell provided a very small fill for the roadbed.

The witness admitted it was so low that operation would be very expensive. "When the trouble began in the legislature, wasn't the grade changed to a better one?"

"There were a number of changes made. As a matter of fact, wasn't this grade changed back to the low one for the vote in the legislature?"

"It may have been a coincidence," said Judge Harvey. "Was it a fact?"

"I believe it was changed about May 10."

Dr. Waddell was figuring on the low grade.

"And when the snow disappeared in the spring he lowered the grade?"

"About that."

"Do you know of any other line in Canada so cheaply constructed?" asked Bennett.

"Well, the grade was very low, but I had no intention of building the road as cheaply as that," said the witness. "Mr. James would not stand for such a road."

"And yet it would have been very inferior?"

"Yes, if it had been built."

Mr. Wolf Looked Them Over.

Engineer Goddard admitted that S. B. Woods, ex-deputy attorney general, was a frequent visitor at the Waterways office. He told of how on one day he telephoned to the witness that J. M. Wood, M.P., was coming to his office to look over his estimate. Bennett tried to make Goddard admit that Wood had asked him to make the cost appear to Waddell as large as possible, but the witness declared he would do that for anybody.

"But was not that the sense of it?" asked Bennett.

"Well, I was loyal to Clarke and naturally wanted to smooth things over by the means of the witness, but I would not make a direct answer."

What Darling Really Did.

Goddard made the astonishing admission that when Darling, the engineer sent here by the applicants of

M'LEAN
SIFTON CABINET

Some Objection is Being
Raised to the Selection
of Dr. Warnock

PREMIER DECLINES
TO MAKE STATEMENT

He Will Sit for Northern
Constituency—Probably
For Lac Ste. Anne

Edmonton, May 27.—Premier Sifton has made no statement, but he is the only one in Edmonton who has not figured it out and named a cabinet many times over.

Premier Sifton declined today to say anything either of the policy of the new government or of the selection of Dr. Warnock as premier.

The feature of the day is the report and general belief that Dr. Warnock will not be taken into the cabinet, but that he is the reason given for the district of Lethbridge, will be the man selected. Dr. Warnock has been a very vigorous opponent of the government, and that is the reason given for the rumored action. Mr. McLean is a very strong man in his district. He is an able business man, and though no speaker in regard to the cabinet for the rumored action. Mr. McLean is a very strong man in his district. He is an able business man, and though no speaker in regard to the cabinet for the rumored action.

The friends of Mr. Cross have no great expectation of his immediate return to the cabinet, though they do believe that if the commission reports favorably in July, there may be a chance of him being taken in as a minister. It has been suggested that Lieutenant Governor Blyth should join the cabinet, but that is not taken very seriously.

It is believed that Marshall will be taken in.

The Insurgents Are Firm.

The insurgents are firm for two things which are a clean sweep of the present government and the election of a new cabinet.

They seem to be prepared to support the government under such circumstances, but not otherwise.

The Great Demonstration.

In connection with the Cross demonstration a number of the older heads among the government supporters, as well as among the insurgents, expressed the opinion that the government should cross in view of the generation that is before them.

Several ill-advised appeals to sectionalism were made during the meeting. There was little effort to conceal the fact that sections were being worked. Much is also being made of the fact that the proposition of the high level bridge, because of its cost, is the Edmontonians argue that an Edmonton man, Cross, preferred, but that that section is not covered by the interests of Edmonton in the house.

Abolished or Modified.

London, May 27.—According to the Tablet, the English Catholic organ, the declaration is to be, "nothing in doubt being whether it will simply be abolished or modified so as to be ineffective."

DR. KOCH, SCIENTIST
AND PHYSICIAN, DEAD

Most Celebrated of the Day—Discoverer of Bacillus of Tuberculosis and Cholera.

Berlin, May 27.—Prof. Koch, the celebrated scientist, is dead. He became distinguished as an investigator of micro-organisms, but probably gained most renown as the discoverer of the bacillus of tuberculosis and cholera. He was graduated in 1866 from the University of Göttingen, and while a practitioner at Wallstein, he began his researches in bacteriology. His first writings, covering investigations of anthrax and the etiology of treating infectious diseases marked an epoch in medicine, and placed bacteriology on a scientific basis.

STRIKE IN ALBANY
TIES UP CAR LINES

Circuit Day Selected by the Men—The Cause is One of Local Interest.

Albany, N. Y., May 27.—Disaffected employees of the United Traction Company chose Circuit Day on which to tie up the local trolley lines because the men on the cars of the Cohoes Railway Co., a subsidiary line, were preparing to run beyond their usual terminal and "clean sweep" the north end of the city, in the district grounds about a mile further out.

THE FUTURE OF THE
RANCHING INDUSTRY

Alberta Ranchers Refer to Certain
Very Unfavorable
Regulations

LIMITED LEASE MAKES
BUSINESS UNSTABLE

High Rate of Taxes When Taken
Into Local District Threatens
Their Existence

The ranching industry in the province of Alberta is in a very critical state and unless some changes are made in the regulations in a short time we shall see the last of it. The ranching industry, it would be remembered, is a very important one, and with the passing of it, there will go from this western country one of the industries which helps to make it great.

It must be remembered that throughout Alberta there are large areas which are not fit for agriculture, but are fit for cattle raising. This is no reflection upon the country, and it is a fact. But in the past it seems that the authorities have gone on the assumption that the ranchers have been encroaching upon the settler, keeping back the settler, but that the rancher in some way is keeping back the progress of the country. This is not the case. The rancher is doing quite the opposite and there is no conflict between the rancher and the settler.

PARKIN GETS MONTH
IN THE WORKHOUSE

Sentenced For Defrauding an Inkeeper—Other Charges Pending Against Him When He Gets Out.

St. Paul, Minn., May 27.—A. M. Parkin, of Calgary, Alta., who has been held at the Minneapolis Central station two weeks, unable to furnish bail, appeared there in police court today charged with defrauding an inkeeper. Parkin, who claimed he was the political representative of H. B. Bennett, the leader of the opposition in the Alberta parliament, was a guest at the Hotel Radisson for about ten days. His bill amounted to \$200.

Coming of Royal George

London, May 27.—The Royal George of the Canadian Northern Railway sailed yesterday for Canada with 400 passengers. The Lake Champlain of the Canadian Pacific railway sailed with 1200 emigrants, including fifty female laborers.

A L'OUFRANCE

Sir Rosebery (detached Observer)—"Pardon me, but as a matter of academic interest, I should very much like to see whether you couldn't win without your sword."

Sir Balfour—"A most interesting speculation, but I'm not taking any more risks than I need."

AN ANNIVERSARY DAY
FOR CITY OF CALGARY

The City Site Was Located by
White Men May
29, 1751.

FORT LAJONQUIERE WAS
BUILT AT THAT TIME

French Traders and Explorers
Came up the Bow
River

Tomorrow is rather an important Calgary anniversary day, though it has never been celebrated and few people know of it. It is believed that white men first set foot in this district and built a fort of encampment where the Bow and Elbow meet on May 29, 1751.

The ancient records of St. Pierre refer to the establishment of a fort in this district. St. Pierre, it will be remembered, was acting for Lajonquiere and left Montreal in 1750.

The Herald believes that the coming in of Mr. Sifton will not unite the party but will divide it into three parts, instead of two, as before. It believes that there should be an appeal to the country and concludes as follows:

"If ever a situation demanded an appeal to the country, it is surely one. Mr. Sifton has no right to administer without an election, and if the lieutenant-governor had done his duty he would have insisted upon a prompt appeal to the people as one term of yesterday's charge."

The Edmonton Journal (Conservative), believes that the new premier will have the opposition of the government party; the insurgent party and the opposition, and calls for an election it says in part:

"If there is profit and security in the existence of active opposition in any legislature, then Alberta is thereby blessed as a result of the present makeshift."

"A deposed government, despite most loyal utterances, cannot be expected to be in perfect accord with their successors."

"Those who had planned and schemed to become successors and find themselves occupying only a precarious seat in the back benches, ignored and neglected by both the old and the new regime, will hardly be content with their effacement."

"The Conservatives who had thought to measure swords in an open election after confusion of the late hierarchy, must continue to harass the cabinet which has been substituted for that of the misdeeds. It is hoped sufficient strength may be developed to bring about an election at the earliest opportunity."

THE EDMONTON CAPITAL (Rutherford), says nothing about Premier Sifton, but devotes its attention to getting Mr. Cross into the cabinet, and a bitter, vicious attack upon the insurgents. It says that the new Liberal cabinet will make a great mistake if it does not make a prompt Mr. Cross set out to accomplish Mr. Cross' political aims. It proceeds: "An astute politician such as Mr. Sifton is surely never hope for loyal support from the handful of men who were chief instigators of the government against the Rutherford administration."

TWO HOME RUNS IN A SINGLE BALL GAME

There Was Some Heavy Bombardment at Victoria Park Yesterday—We Won

With two home runs as the main feature Calgary again won the game from Cox's army last night, and for the first five innings it kind of looked as though it was going to be another small score game like it was the previous night. Not so however. Things began in the fifth when Del Paddock slugged out a home run and brought in Carney as well. Then we kept on scoring every inning till they had run up 10, while the Coxies could only bring in 4.

Cy Pleh and Eddie Geehan were the star artists and they both pitched good ball—at times—though Geehan, with the exception of the sixth and eighth, held them right down all the time. He fanned them time after time and refused twelve men, and only allowed one pass.

Eddie, who has perhaps the hardest luck of the Calgary pitchers, seems to have lost his hoodoo, and from now on when they face him they want to look out. He fanned four men one after the other and in the eighth inning when things began to kind of look as though the miners might be able to run in enough runs to tie the score he pulled himself out of the hole by fanning the last two men.

It happened this way. Head was the first man up and he fanned. Cox, the only Chesty, was next, and he had already got two hits out of three times up. He connected again and this time he was beautiful. Three bags, and in fact it would have been good for a homer but for our little Babe Clynnes who dug in his toes and went after it. Chick was next and surprised himself and everybody else by ramming out another one that was good for three sacks, bringing Chesty in Lynch then shoved out a sac, single that had to go for a hit, and Dudley and O'Haver also singled. Chick came in on Lynch's single but the other two hits were so well fielded that no one could advance more than one base. This left the bases full and only one man out. It looked a little as though there might be something about due to happen in the line of success, but her it was that the Geehan boy got in his fine work and pulled himself out of the hole. Grayson and Pleh were at the tail of the batting order, but the way they swaggered to the plate you would have thought they had never batted less than 400. Eddie took his time and put them through for them too, but all they could do was fan the air.

Homerun Flanagan was behind the bat last night and Pete Standridge played in the center garden. Flanagan was good, too, but there is only one Stanley.

Cy Pleh seemed to lose his nerve at times but the way he settled down afterwards wasn't at all bad. Calgary got their first run in the third after Geehan had fanned. Paddock walked and then King Bill shoved out a dainty little thing that carried him over the sacks. Lynch threw it to second to try and catch Bill napping and Paddock tried to get home and was out. Bill made for third and Mackin sent it down there to head him off, and when he didn't get it in time he shot it back to the tail of the line. Pleh, Paddock between them, and Lynch finally got him. Babe Clynnes then pushed a saller out for two bags and brought Carney in.

In the seventh Calgary got four. King Bill was passed this time, and Clynnes singled and Wally Smith brought them in with a snicker. Kelly and Kelly fanned and Flanagan walked. Conners got a fielder's choice, Mackin throwing it wild to third to head off Smith. Chesty got it and threw it again trying to catch Smith at home and this time he threw it wild and Conners who followed around the track scored on his error. Pete Standridge went out on a fly to second.

The complete score is as follows:

Lethbridge	A. B. R. H. P. O. A. E.
Mackin, 2b.	5 1 1 4 5 1
Head, 1b.	4 0 0 2 2

Score by Innings:

Calgary	000	002	411	8
Lethbridge	000	002	020	4

Summary:

Bases on balls—Off Pleh, 7; off Geehan, 1. Struck out—By Pleh, 4; by Geehan, 12. Hit by pitcher—Kellack and Geehan. Passed balls—By Flanagan, 1. Home runs—Paddock and Flanagan. Three baggers—Cox and Chick. Two baggers—Carney, Clynnes and Smith. Double plays—Mackin and O'Haver. Time of game—1:45. Umpire—Brown. Attendance—700.

Winnipeg Team For England

Winnipeg, May 27.—After practicing hard for a number of weeks on the Red river and undergoing a few tests, the Winnipeg four-oared crew, stroked by Con Riey, enabled their entry to England yesterday for the Stewards' cup. The oarsmen went over a course of a mile and a half on Wednesday night covering the distance in nine minutes, and it was then and there decided to cross the water. The crew will leave the city on Monday night.

Sons of Scotland Cup Draw

The draw was made last night for the Sons of Scotland cup. Five teams are entered, the Caledonias, Hillhurst, City, Glenbow and Maple Leafs. The first game will be played next Tuesday night. May 31, and will be between the Callies and the City teams. The dates have not been set for any of the other games yet, but the Maple Leafs will meet the winners of Tuesday's game, the Hillhurst and Glenbow teams will play, and then the winners of this game will play off with the winners of the Maple Leaf game.

An optimist on pay day does things then to make him a pessimist all the other days.

The reason a woman can't add up all the years she has had is she can all the proposals she never had.

NO SCORE IN THE BIG FOOTBALL CONTEST

Caledonias and Hillhurst Play Another Tie Game—Contest Very Keen

In a very keenly contested football game last night at Newata Park, Hillhurst drew with the redoubtable Callies, the game ending with no score. This was the second meeting of the two clubs in the city league, the first game being called with the score standing one all. Considerable interest was taken in this match, owing to the strong standing both teams have in the league table. The first teams put out their strongest players, Allan of the Hillhurst team being the only absentee. Toole replacing him on the Tiger line-up.

It was a Bad Night

About 400 spectators, watched the game, which owing to the strong wind made it rather unpleasant, but they were certainly rewarded by the fine display of football put up by both sides.

The strong wind also much interfered with the play, and at times the dust was almost blinding.

The Champions won the toss and decided to play with the wind and sun in their favor, defending the west end.

Following were the line-ups:

Callies—Goal, W. Stewart; backs, Veitch and McKechnie; halfbacks, Sandy Strang, Petrie and J. Haag; forwards, W. Stewart, T. Stewart, Johnstone, Solinas and Barnes; center, Hillhurst—Goal, Boothman; backs, Ross and Cooper; halfbacks, Jenkyns, A. Wakelyn and Ward; forwards, Nuttall, McEwan, Strang, Wakelyn, Toole and A. Stewart (capt).

Referee—A. J. Davis.

Nuttall kicked off for Hillhurst, and the Callies, checking, immediately began to press, and for a few minutes kept the Tigers on the defense, but they ultimately fought their way out, and gradually worked the leather back to the half way line. The Tiger halves then placed their forwards on the attack, A. Wakelyn sending the ball out to the left wing to A. Stewart, who took down well and shot, but Strang cleared, and the ball again travelled to the other end, where the Callies forced several corners in quick succession. They were placed well by Solinas, but the Tigers kept their line intact and cleared every time. The Champions, not to be denied, however, kept up a fierce attack on the Tiger goal. Cooper was penalized for fouling in the dangerous area, a penalty being given Jimmy Haag took the kick and with a terrific shot, banged the ball against the cross-bar and Jack Ross, jumping in, cleared with a huge kick to touch, and thus a good chance of gaining the lead was lost.

The Tigers, except for an occasional burst up the field, were mainly on the defense the rest of the first half, which arrived with no score.

The Second Half

After the change of ends, the Bow river boys, with the wind in their favor, took down, and S. Wakelyn put behind. Fast play was now the order, the Tigers pressing the Champions hard, but Veitch and Sandy Strang, with Haag were putting up a great defense, and time and again the Tiger forwards were checked before they could get to the goal.

The game ended in a draw, both sides following, each team strenuously striving to gain the lead, but the defense on both sides were equally strong. Boothman and Strang, between the posts for both sides were called on to clear on several occasions, which they did creditably.

Some nice football was now being played in spite of the treacherous wind, and the play throughout the game was fairly clean, which made it much more pleasant to watch, being quite the reverse to the previous meeting of the two teams.

The Tigers pressed hard in the second half, but try as they would could not score, the game ending with the Callies pressing, a pointless draw, neither team scoring.

Intermediary Game

An intermediary baseball game was played last night between the C. P. R. White Sox, and the Y. M. C. A. Sox, which the latter was defeated 13 to 6.

It was fairly good ball, two home runs being made during the game. The railroaders seemed to be able to connect with "Chick" Frarey last night and then at times the support behind him was also not the best. One of the homers was made by Woodard of the Y. M. thought, and Woodward, who batted for Miller of the Y. M., shoved out a three bagger. Brown and Henry of the C. P. R. found the sphere for three bags as well. The teams were as follows:

C. P. R.—Shelbourne, cf.; Maclean, p.; Boves, 2b.; Henry, 1b.; Stewart, lf.; Dean, rf.; Bell, 3b.; Brown, ss.; Cameron, c.

Y. M. C. A.—J. Donley, 2b.; West, cf.; McSpadden, 1b.; Miller, ss.; Stedman, 2b. and c.; Healy, lf.; Love, c.; V. Donley, cf.; Frarey, p.

ATURDAY, MAY 28, 1910.

GIVING A FREE HAND

It was announced that Premier Sifton accepted office on the understanding that he was to have a free hand in selecting his cabinet. Some credit was given to the government by its supporters because the members of the cabinet had resigned under circumstances. Yet on the same day a demonstration was organized in Edmonton in behalf of one of the retiring ministers. In the reception there were two brass bands and P. J. Nolan, any one of which is sufficient to rather far the nerve of the most important leader. There was a loud, panding, roaring demonstration in the midst of which such substantial liberals as Harold Drummond, Joe Adams, P. J. Nolan and "Juncker" Joe Clarke named the new Premier just what he should be and how it should be done.

Albertan doubts if the new Premier appoints any member of the government to office. And if the Albertan is not mistaken the trumpets can here until the crack of doom and P. J. Nolan and "Juncker" Joe Clarke and all the other heavyweights of the province can grate until the end of time without materially influencing his sound judgment. Premier Sifton is having a free hand, but if he moves the hand very much one way he bumps into the Edmonton brass band and fireworks, or dips a finger into the inspiration of the renowned orators of the north and south. It would be better to leave the Premier alone to make his own choice. He is responsible for it, and he isn't likely to make his selection to the thump of the drums or the eloquence of the celebrities.

THE RANCHING INDUSTRY

In another part of this paper the Albertan publishes a interesting interview with two prominent ranchers in Alberta. Both deplore the conditions of the ranching industry and see nothing but disaster unless some changes are made in the regulations. The changes asked for are not in any respect radical and can be granted without injury to any person. The grievances seem that the authorities believe that the entire province of Alberta is either agricultural land or that it soon will be, and the sooner the better. But that is a mistake. Not only are there large areas of land which may be described as grazing lands, but there are smaller areas throughout the province which are good for grazing and that alone. It is necessary to acknowledge that fact and it is well for Alberta that that is the case.

The regulations respecting the grazing lands provide that the government can cancel a lease upon two years notice. That really means that that is the length of the lease. That is not a business regulation at all. No rancher can organize a ranch in less than four or five years. No man can be expected to go into a business or stay in a business which has such a suspended sword hanging over his head.

EDITORIAL NOTES

Guys Instantaneous Automatic Water Heater is now installed and can be seen at the office of the Alberta Water Heater company, 403 Eighth Avenue West. A few politicians remain who have not been mentioned as possibilities for the new cabinet, but we cannot neglect their names at the present time. Now that the governor general is going to take the Hudson Bay trip, it will be unfortunate if he cannot take the entire Toronto Globe with him. Calgary had its very first beginning 135 years ago, but that does not mean that Edmonton will not be a large city as Calgary now is, before the year 2068. The Rutherford government started in last October with two newspaper men in the line-up, and see what happened to it. This is just a little lesson help to Premier Sifton in his cabinet making. The clearing returns once more place Calgary in the lead in evidences of prosperity throughout the country, and the man who sees Calgary understands how absolutely accurate the evidences really are.

BRITAIN IN EGYPT

A story comes in a roundabout way from Egypt to the effect that the reason why Lord Kitchener had been appointed to the command in the Mediterranean, and incidentally why he made such a flying trip across America is that trouble is anticipated in that country. There is no doubt that there has lately arisen in Egypt a strong party, which is opposed to the intervention of Britain or any other power in its affairs. This was shown in the defeat of the measure proposed in the Egyptian Assembly for the extension of the franchise of the Suez Canal Co. This company's charter expires in 1968, and Sir Eidon Gorst, the British Resident, proposed to the Khedive that it should be further extended in consideration of the payment of the sum of \$20,000,000, and certain additional royalties. The Khedive has refused to grant this concession, but he referred it to the Assembly, which refused to agree to it, only one of the members voting in its favor. One can hardly believe that the Khedive did not foresee this result. The Egyptian Prime Minister, Boutras Pasha, was murdered last February. He was a Copi, and racial feeling ran fiercely against him, but it is claimed that his strong British proclivities greatly increased this jealousy with which he was regarded by the native Egyptians. Sir Eidon Gorst in his latest report submitted to the British Parliament, admits that a somewhat serious situation has arisen in Egypt proper. After a review of the financial and general condition of the country, which he thinks is very satisfactory, he notes the growing discontent and says: "The only sound course, in my opinion, is to persevere on the lines already laid down—namely, that British intervention in the affairs of this country is directed to the safe and orderly introduction and maintaining good administration, and gradually accustoming the Egyptians to carry this on for themselves. The Englishmen engaged in this task must possess their souls in patience in the hope that time will clear away misunderstandings, and that in the end all classes of the community will recognize that British policy in Egypt in no way differs from that followed by Great Britain all over the world towards countries under her influence—namely, to place before all else the welfare of their populations." It is claimed that the British government feels there is imminent danger of the Egyptian Nationalist movement assuming an acute stage at a very early day, and hence Lord Kitchener is wanted near at hand. His position as Commander-in-Chief of the Mediterranean, with headquarters at Malta, would place Egypt under its military supervision. The Duke of Connaught formerly held the post, but he was asked to be relieved on the ground that the position was merely a sinecure. To replace His Royal Highness in a sinecure by the greatest general of the day seemed at the time an inexplicable arrangement, but we see in the condition of Egypt a possible explanation. Kitchener was the creator of the Egyptian army, and he is recognized in that country as a man of exceptional ability and resolution. His presence at Malta and his supervision of the military side of Egyptian affairs would have, it is believed, a profound effect. As yet the Egyptian army is not in sympathy with the Nationalist movement, and it is said that Lord Kitchener's influence will keep it loyal to the existing administration, if anything can.

Still Sticking About.

As you pass through the halls of the used-to-And halt by the bars of the was. You will light on some battle-seamed marrow. That linger here 'simply because' They're the remnant of what, in the heyday. Of things we would have as they were. Of the army that went to the races. And sported with never a care— With never a care for the future. With only good words for the past; When they cheerfully snarled on each marrow. And played every day for the last. Crushed? Not at all—they are cheerful. Or at least that's the front they put up. They find still a lingering sweetness In the dregs of adversity's cup.

Not a harsh word for those who deprived them. Of the joys that were dear to their soul. But a bowing with sporting submission. To something they cannot control. They think only this, "It's a shame." That theirs should be made to surrender. By the loss of some other man's game. They have that in abundance. Hope that's a sturdy thing to do. The upshot of hopes—that sustains them. And that keeps them sticking about. Hope for a bright tomorrow. Hope for the word to begin. Hope that knows never a waver. "The stake that they cannot play in."

Giving the Little Lady a Little Space.

The good old baseball days are gone. Or so my faddy thinks. He does not like the new players' modern kinks. He's sore because Mike Donlin's zone and Figgs and Teay, too. Without Moran and handsome Nick. He talks about those rare old days when the Comm'rs. don't let the suit. And Highey Jennings playing short connected with the shoot. He loves to talk of Broadway John. In a sinuous way the greatest of the most. He sings the songs that Kelly sang. And wishes all were back. He talks sometimes of Captain Anse at seven-forty rate. He knows old Pop's history—that line of his is great. A marvelous thing he can recall—no please don't throw a fit—He claims that he remembers when the White Sox team could hit. —J. J. G. in Chicago Tribune.

Loyalty Depends on Team's Standing.

Loyalty in baseball appears to be about on a level with loyalty in all other things. It depends on the worthiness of the object. The loyalty of a fan to his favorite team is proverbial. Just why, it is hard to say, because baseball fans are among the most fickle people on earth. There may be two persons out of every hundred who will stick to a ball club through "thick" as well as "thin," but the other ninety-eight are sure to use their "hammers" as soon as the club suffers a losing streak. Chicago fans are just as loyal as any on earth, but their remarks during the last few weeks prove conclusively that the big majority of them will be loyal only as long as their favorite team is successful. How many times since the season opened has been heard the query, "What do you suppose is the matter with the Cubs?" or the remark, "The White Sox are going to have their troubles keeping out of last place." The Cubs have been winning lately and accordingly there has been a marked change in the tone of the comments on them, but they would be sure of their share of "knocking" if they began to lose again. Moreover, there are many baseball fans for whom the White Sox when they are enjoying a few victories, but the hammers will be out for them just as long as they continue to lose. Real loyalty, it is about as scarce in baseball as real weather has come to be. —Chicago Tribune.

FAT REDUCTION IS NO SIN

The purpose of Beauty is to refine the native uncouthness of human nature. We all bow to its power. It is the only autocracy that has no nihilist shadow. Also! This means the fat woman must serve as a model of rule, for beauty in woman is a composite of both line and feature. Thousands of fat women are beautiful of face. But they lag behind in the race for preference—because a too ponderous outline dashes the favor their face has gained them. Now, pretty fat women can reduce that fat to the good purpose of the flesh in a very simple way. No exercise—no dieting is necessary. Let them take one Marmola Prescription Tablet after each meal and at bedtime for a month. The fat will simply fade. No wrinkles or pouches of skin will form, but the loss will be uniform. The fat will go as stealthily as it came, fade away. The health will improve, the eye grow more brilliant, the wit sprightlier. Marmola Tablets are a boon—and harmless (being made from the famous fashionable prescription, 1-2 oz. Marmola, 2-4 oz. PL. Ex. Cascara Aromatic, 4-8 oz. Peppermint Water), and are likewise cheap. A large case of the drug is at the Marmola Co., 1197 Farmer Bldg., Detroit, Mich., costing only sevenpence-five cents.

Ketchell Knocked Out Lewis

New York, May 27.—Stanley Ketchell of Michigan, the middleweight champion, knocked out Willie Lewis of this city in the second round of a scheduled ten round bout at the National Sporting club tonight. Lewis, who was the Parisian lion some months ago, is a welterweight, and was fully ten pounds lighter than Ketchell, who weighed 155 pounds at 115 pounds, according to agreement.

Interest Attaches to Changes in Rules.

Chicago, May 28.—Coach Fielding H. West of University of Michigan football team was a Chicago visitor last week and expressed the opinion that the game, as it will be played under latest rules, will be the most "versatile" in its history. He thinks the offense will have a better opportunity of gaining ground than ever before, having the privileges of passing the ball either forward or back "unrestricted"

IT WEAKENS THE MIND

Fear of Disease Not Only Causes Nervous Prostration, But Often Insanity.
An experienced teacher in one of our largest schools says: "The teaching of physiology in school creates hundreds of health cranks. I was vastly interested at school in physiology, and I was a very good student. Teaching seven years, however, imposed great strain upon my nerves, and I found it easy to apply to various organs many of the symptoms caused by this blood and weak nerves. If my heart palpitated quickly, I imagined I had heart disease. If a cold held of my chest, I was sure of consumption. Finally my mind dwelt so much on the horrible prospect of some dreadful disease, I worried myself into a state of complete collapse. I am now, thanks to the great rebuilding power of Ferrigno's, perfectly well. There wasn't very much the matter with me, but the nervous debility, as when Ferrigno had soothed and strengthened my nerves, and had renewed my blood. I was on the high road to recovery. The mistake was in not using Ferrigno when I first felt rigorous and robust-looking young women in the school with I attribute solely to the regular use of Ferrigno."

Sermons of Rubie Waddell.

As a result of Rubie Waddell's sermon in Boston the other day there is a likelihood that the St. Louis pitcher will never be able to pitch another game. At the same time Rubie is in matrimonial straits, his second wife having left him. The big, eccentric pitcher has compiled the following on matrimony: "As has often been delicately suggested by some 10,000 ball players in this country, there are several drawbacks, not to say inconveniences, in being a baseball player. One of these, if you will pardon the expression, is an incommensurable and objectionable necessity of sleeping in Pullmans, of having managers and of carrying your own if not others' baggage. "Get married. I have been married twice so that I can speak with authority on the subject. Marriage has done more for me than Connie Mack and the balance of my managers combined. Why do you know that L. H. Richard, manager of the Browns, got gray hair trying to keep me straight and since I have been married twice I am as docile as a lambkin. A lambkin is much more docile than a regular man and that is saying a good deal. "Since I have been married two times I am completely gentle. At every stop the boys gather around and say: "Rubie, what would you rather do than go fishing? "I reply: "Why, carry all the baggage of course. "Then they give three whoops and allow me to do it. It is getting to be so that, every time some one suggests doing something, a pitcher will pipe up saying, 'Let George do it.' George, of course is my first name. In conclusion allow me to advocate the noble institution of matrimony. I am the living exhibit of its success."

Continuing today we offer thrifty housekeepers the opportunity of the season to stock up the china closet with dinnerware. We have just opened up another crate of that popular cream white dinnerware with a relief scroll work on all edges and handles that is well known in Calgary homes for everyday use. But don't judge the quality by the prices we're quoting. It is a very reliable and substantial ware. The reason of the remarkable prices is that this crate should have come to hand months ago. Now it drops in just before stocktaking and instructions are to clear every solitary piece, before inventory sheets come from the office. At the following prices a continual clatter will make short work of it. See the display in the window today and stock up for future use.

Tea Cups and Saucers, reg. \$1.25 doz. for 85¢
Coffee Cups and Saucers, reg. \$1.00 doz. for 90¢
Dinner Plates, reg. \$1.50 doz. for 85¢
Breakfast Plates, reg. \$1.25 doz. for 75¢
Tea Plates, reg. \$1.00 doz. for 75¢
Bread and Butter Plates, reg. 80¢ doz. for 50¢
Soup Coupe, reg. \$1.25 doz. for 75¢

Soup Rim, reg. \$1.25 doz. for 75¢
Fruit Saucers, reg. 60¢ doz. for 40¢

We have a complete line of this splendid open-stock dinnerware to match above at equally low prices. SALE CONTINUES TODAY.

Choicest Quality in Groceries

THE uniformly high standard of the groceries sold at this store is so well known to the public that no other recommendation is necessary. In making selection of wearing apparel or other goods, etc., fads and fancies may have a place, but in the purchase of food stuffs there is a fairly general disposition among consumers to obtain the best procurable, such as are always to be had at the Company's stores. Our large output of groceries is the best assurance that fresh goods are daily arriving. The greatest care is exercised in making selections of stock from the producers and manufacturers of highest standing in Canada, Great Britain and the United States. If you have not yet tried our groceries you have a cordial invitation to visit our store and satisfy yourself that our goods are all that our thousands of customers claim for them—"The Best Procurable." If you are unable to visit the store personally, a letter addressed to the manager will receive prompt attention. We are always pleased to answer enquiries, and to fill carefully all orders received by mail.

Few Women Can Afford to Miss This Belt Sale

At thirty-five cents these handsome black elastic belts are disappearing like magic. Our buyer brought the entire line from an eastern manufacturer at a price concession too good to let pass. The purchase involved exactly 1584 belts. They are the fashionable black silk elastic belts with dull metal buckles of handsome design, some trimmed with jet. Not a belt in the entire assemblage that would sell for less than 65¢ to \$1.00. On sale today 35¢

Clearance in Remnants

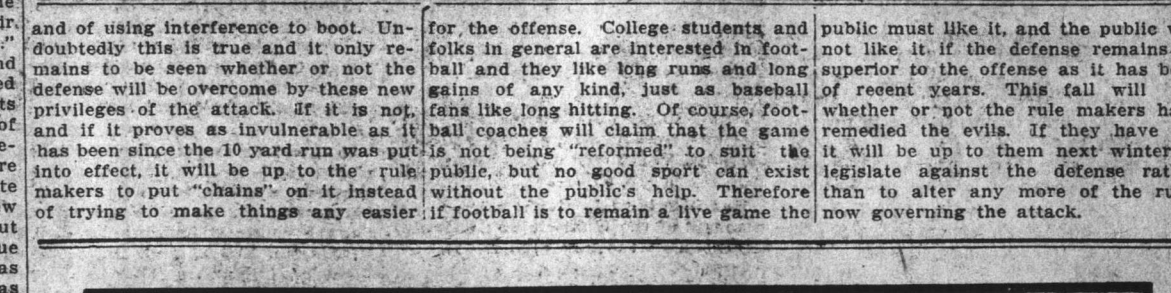

Heavy selling the first of the season naturally create hundreds of short ends, remnants of the most popular selling materials. And now stocktaking turns up dozens and dozens more. These must be cleared out in quick order, regardless of cost or profit, before inventory, and to make sure of the desired result we have marked them low—very low. These remnants include dress goods of a wide variety of different qualities, textures and shades, together with a quantity of the season's best lines of summer wash materials, varying in lengths of from one to five yards. On sale as long as quantities last at HALF PRICE AND LESS.

Last Call of the Wallpaper Sale

A sale of this character puts a different price aspect on the cost of brightening up homes for the summer season. Remember that we are clearing out every roll of wallpaper in stock, which includes papers of the handsomest designs for either parlor, diningroom, kitchen, or, in fact, any room in the house. And clearing them out at less than you could buy them if you went to the factory for them. Don't you think it is worth looking into? The same generous reductions still prevail. Visit the housefurnishing section today and get your supply.

and of using interference is best. Undoubtedly this is true and it only remains to be seen whether or not the defense will be overcome by these new gains of any kind. Just as baseball whether or not the rule makers have remedied the evils, if they have not it will be up to them next winter to legislate against the defense rather than to alter any more of the rules of trying to make things any easier if football is to remain a live game the now governing the attack.

The above is the front elevation of a five house terrace, situated on four lots on corner of 18th Ave. and 1st Street East, which the undersigned offers for sale the next three days from date of this first insertion, if not sold in meantime.

Get my price and terms. They may surprise.

A brief description of terrace is given below:

External walls are composed of solid brick and stone; partition walls between each apartment which protrudes four feet above roof, are composed of solid stone and brick, making a fireproof wall; full sized basement under each apartment, partitioned off by solid brick wall, into four separate rooms, composed of furnace room, which contains a Hecla furnace; a laundry room, fitted with stationary laundry tubs and gas heater used for laundry purposes; a drying room and larder.

Floors in basement are concrete, ceilings are 8 feet in height; all rooms are well lighted.

On first floor there is a large diningroom and parlor; there is a fireplace in both of these rooms, which is fitted up with set grates; there is also a hall, den, kitchen and pantry.

On second floor there are four bedrooms, bath room and hall; there is a clothes closet off each bed room and a linen closet off hall; two of the bed rooms are of a large size; there is a balcony at the rear of each apartment.

This building is equipped with electricity, gas and plumbing, and is thoroughly modern throughout. Apply

with large back and white hat, and Miss Metcalfe, in pale blue silk mull with a pretty corn-colored hat, served the very dainty refreshments. Little Louise Kennedy ushered in the guests.

Dr. and Mrs. Crawford entertained the members of the choir of the Central Methodist church and other friends on Friday evening in their new and beautiful home on Thirteenth avenue east. The reception hall was brightened with clusters of sweet peas and variegated stalks. The drawing room (Continued on page 5.)

On Thursday of this week a very pleasing reception claimed Mrs. J. Harry Alexander as hostess. She looked lovely in a fashionable gown of pale blue silk poplin finished with satin ribbon and iridescent applique. Mrs. Dr. Anderson assisted in receiving and wore a perfectly fitting mauve satin costume trimmed with rich cream silk lace and a large white lace turban with pretty green foliage. The reception room was fairly abloom with ferns and several clusters of fragrant pink roses. In the tea room, Mrs. Taylor, in a becoming grey silk crepe de chine and black picture hat, presided at the prettiest of tables, covered with a beautiful centre of Irish cluny lace. Upon this stood a tall cut glass vase filled with ever-beautiful American Beauty roses and touches of smilax. Mrs. George Kennedy, in a black coin-spotted net dress over taffeta with large pale blue hat; Miss Perkins, in a graceful gown of dotted Swiss muslin

LATEST NATURE FAKE
Black Minors that Eat Coal Dust and Lay Black Eggs

Oxford, N.Y., May 27.—F. J. Dedrick's coal containing Black Minors—the hens which produce the coal-black eggs—are believed by Oxfordites to be the greatest discovery of the century.

In every mail Mr. Dedrick receives letters of enquiry concerning his wonderful fowls. The egg shells, thickly impregnated with coal dust, burn a long time and give out an intense heat. This is said to be due to the combination of coal and lime which the shells contain.

One of Mr. Dedrick's correspondents in Pennsylvania wishes to obtain some of this season's hatch of the fowls to continue experiments on the huge heaps of fine coal dust representing untold heat units, no economic use for which has ever been found.

It is obvious that if an egg contains in its shell potential heat which can be used to cook that same egg and also to help cook other dishes, the price of meat in restaurants can safely be lowered.

GAVE THE WEALTHY TOO MUCH INFLUENCE

The German Government has Abandoned Efforts to Pass the Prussian Franchise Bill.

Berlin, May 27.—The government today abandoned its efforts to secure the enactment of the Prussian franchise bill, popular opposition to which has been expressed in frequent mass meetings, during some of which the Protestants have clashed with the police. The debate has been long drawn out owing to the objections raised in the lower house to the amendments adopted by the Lords.

Chancellor Von Bethmann-Holweg, in announcing his decision, said that the government placed no further value on the measure, which had lost its effect by giving the wealthy and middle classes a greater influence in the elections. He added that a continuance of the bitter agitation against the election system was most likely to continue until the government submitted new legislation representing an endeavor to carry out the Emperor's promise made in the speech from the throne.

Even if a woman doesn't love a man, she loves to have a man love her.

There never was an "oldest inhabitant" who had not seen better days.

MOTHER SEIGEL'S SYRUP

= cures =

INDIGESTION

In two sizes. Price 50 cents and \$1 per bottle. The dollar size contains 2 1/2 times as much as the smaller size. A. J. White & Co., Ltd., Montreal.

Mother Seigel's Syrup is made of the extracts of certain roots, barks, and leaves, which have been found to exert a remarkable curative and tonic effect on the stomach, liver and bowels. Taken daily after meals, it regulates the bowels, aids digestion, makes food nourish you and thus cleanses and strengthens the whole system. As a digestive tonic, and remedy for biliousness, indigestion and other stomach and liver disorders, Mother Seigel's Syrup has no equal.

VOTES FOR WOMEN IN GREAT BRITAIN

A Working Compromise Has Been Secured—It Would Add a Million New Voters to the Register.

London, May 27.—A number of members of parliament of all parties constituted themselves a committee for woman suffrage. The aim of the committee is to secure a plan acceptable to a practicable minimum. The committee's bill is a compromise between a bill enfranchising women holding such house property as would qualify them, if they were able to vote. The authors of the bill regard it merely as a working compromise, and as an ideal solution. It would add a million new voters to the register.

Wage-Workers' Symposium

PARAGRAPHIC RECORD RELATIVE TO THE TOPIC, PROCEEDINGS, EFFORTS AND LESSONS LEARNED BY THE WORKERS AS THEY PLAY THEIR PART IN THE WORLD'S GREATEST MOVEMENT.

The Disposition of Wages

In the disposition of the wage returned from the sale of labor power, man is also his own free agent. All things he may lawfully buy he may lawfully abstain from buying. He may purchase from whomsoever he will; he may give his patronage to one man or another. What he may do with his wages in the form of bestowing or withholding his patronage, he may lawfully agree with others to do—Samuel Gompers.

The Evolution of Sex Relations

Give woman economic freedom; give her a chance to provide for herself; give man the opportunity to supply himself with the necessities of life, then one more step will be taken in the evolution of sex relations. But so long as life is a bitter struggle for bread from childhood to the grave, so long will the economic factor be the principal determining one of man's actions. The evils are inherent in the capitalist system that breeds them—J. Stewart.

The Future of the Labor Party

Keir Hardie on old-country "labor" party: "What I foresee plainly enough is that if we are to keep down, our policy to suit the convenience of the government, refuse to take on three-cornered contests, lest we injure its prospects, and to all intents and purposes put ourselves in line with the Liberals we are foredoomed in ignominious extinction. Rather than be a party to such fatuous folly, I would retire to the banks of the Luggar and take to raising cabbages."

Lashbridge Difficulties Settled

The "strike" situation at Lashbridge, Alta., has been all but smoothed out by a compromise with the builders and contractors. Union officers advise that there are plenty of men in the Southern Alberta capital for the work in hand. The proposed new labor temple on a site already paid for is assuming shape. Lashbridge is one of the best industrially organized towns in Western Canada. But politically the wage-workers still elect representatives of the old parties to their legislative assembly.

Net Due to Agitators

The times of that superstition which attributed revolutions to the illwill of a few agitators have long passed away. Every one knows that whenever there is a revolutionary convulsion, there must be plenty of men in the background, which is prevented by ill-worn institutions from satisfying itself. The want may not be yet felt so strongly as generally as might be supposed, but every attempt at forcible repression will only bring it forth stronger and stronger until it bursts its fetters—Karl Marx.

A New Department of the Federation

It is altogether likely that at the St. Louis convention of the A.F. of L. a clothing trades department will be formed, consisting of the garment workers, hatters, boot and shoe workers, ladies' garment workers, glove workers, cap makers, tie makers, etc. Then the time will have arrived for a consolidation of the interests of the custom tailors and garment workers, which would complete an organization that would be able to look after the health and vigor.

REAL ESTATE TRUST CO., LIMITED

Bank of British North America Building
P. O. BOX 1129. PHONE 595.

Bank of British North America Building
P. O. BOX 1129. PHONE 595.

LOTS

50 foot corner in C. P. R. Sub., on the corner of Royal avenue and Park street. This is cheap at **\$1650.**

One view lot in block 42, Mount Royal, for **\$1650.** Good value.

One lot facing west, block 42, at **\$1500.**

One lot in block 53, C.P.R. Sub., facing north on 17th avenue, **\$1850.** This is one of the cheapest business lots offering.

Four lots on corner of block 47, Regal Terrace, for **\$1000.** Easy terms.

Two lots in Bonnybrook at **\$425** each. These are cheap.

HOUSES

Fully modern bungalow on 14th avenue west, containing parlor, den with fire place, dining room, kitchen, pantry neatly fitted up, 3 bedrooms and bathroom with closet to each. This is a very well built house and is good value at **\$3700.** Lot is 33 feet wide.

Large new fully modern bungalow on 18th avenue west, containing 8 rooms and bathroom. It is well decorated throughout, has fireplace in den and all other modern conveniences, including wash tubs in basement. Price **\$4500** for a few days. Lot is 40 feet wide.

Fully modern house on 11th avenue east, in East Calgary, containing 6 rooms and bathroom, full basement, and all modern conveniences. Only **\$2800.** It is very good value. Lot is 33 feet wide.

Fine fully modern house on 13th avenue west containing 7 rooms and bath. It is fully modern in every respect, is well decorated and ought to find a ready sale at **\$3800.** The lot is 25 feet wide.

Fully modern house on 15th avenue west, with 6 rooms and bathroom, 50 ft. lot and stable in rear. It is good value at **\$4600.**

ACREAGE

Our acreage at **\$175** per acre, 3 1-4 miles from the post office, is much cheaper than anything else that is being offered. It is free from every defect and the improvements that are being placed on the property is sufficient to warrant the raise in the price of \$100 per acre on June 1st. Till that time, you may buy a limited amount for the above price with terms equally as low and easy as the price.

We are able to offer some cheaper truck garden land southwest of the post office at **\$75** per acre. This is also a most profitable investment, but there is a very small amount to be placed on the market for sale at this figure. The terms are very easy.

Wage-Workers' Symposium

(Continued from page 7.)
interests of workers in the clothing industry in an effective manner.—P. Obermeyer.

Sydney Organizing.
Sydney, C.B., is becoming an important factor for unionism as it is steadily organizing with very good prospects and organizers for the mine workers are going over the ground thoroughly and doing good work with the aid of the local men who have every reason to be proud of the way they have built up the labor movement. The Sydney Trades and Labor council are also giving great help wherever possible and the idea now is to give aid to a political movement which will be nothing less than a thorough working class party.—East-ern Labor News.

Federation of Labor Convention.
The first annual convention of the British Columbia Provincial Federation of Labor will be held at Victoria in January next. The question of affiliation has been laid over till then, the Trades and Labor Congress of Canada and the American Federation of Labor officers to be communicated with relative to the subject in the

meantime. The organized labor movement in Canada feels that the Congress should function as something more than a State Federation of Labor inasmuch as it has power to issue charters to federal unions and Canadian central bodies.

The Pioneer Work.
The union men of today have little or no conception of what the pioneer unionists had to contend with when they first started forth on their mission of organization. The organizer of the present time has to face difficulties enough, it is true, but as a rule the road has been at least broken for his approaching footsteps. The labor agitator of the early day held no office, had no title, drew no salary, saw no footlights, heard no applause, never saw his name in print, and fills an unknown grave. The labor movement is his monument, and though his name is not inscribed upon it, his soul is in it, and with it marches on forever.—Eugene V. Debs.

A Heavy Loss of Life.
The daily toll of death and accident among the industrial slaves of Canada just now, is cause indeed for every worker to spend a day in mourning.

And in this respect there should be sympathy akin in the United States. According to officials of the United States Geological Survey, which has the supervision of coal mines throughout the country, twelve men lose their lives in coal mines daily, while the number of injuries is unknown but appalling. The figures tell an official story of incredible horror. Less time spent in mourning and more in organizing politically to end the needless slaughter would be more fitting and more to the point. Great is the profit system of wealth production!

Are Not of Identical Interests.
Thousands of unionists are beginning to learn that the interests of the buyers and sellers of labor-power are not identical. Non-unionists and craft unionists are another evidence that the interests of the sellers themselves are not identical as sellers. Politically, however, the interests of all workers are identical if that movement is organized and directed with the avowed object of abolishing a social system that compels men to be buyers and sellers. So long as there is a labor market there will be lack of harmony and discord, conflict and strife. The means of life must be owned as they are used—collectively. Pending that day the mission of the organized worker is one of education.

The Opium Traffic.
One of the greatest curses of British

Columbia cities is to be found in the opium dens. Even Revelstoke is not free from it. The British government has committed a foul deed when they forced the supervision of coal mines throughout the country, twelve men lose their lives in coal mines daily, while the number of injuries is unknown but appalling. The figures tell an official story of incredible horror. Less time spent in mourning and more in organizing politically to end the needless slaughter would be more fitting and more to the point. Great is the profit system of wealth production!

A Labor News Service.
Socialist daily and weekly newspapers throughout the continent are circulating a plan to establish a continental news service and later an international news bureau of its own. With the assistance of voluntary correspondents and the reduction in telegraphic rates consequent through the introduction of wireless telegraphy it looks as though the proposal would materialize shortly. There is every reason why such a service should be established and the experience of the socialists and unionists of Europe should serve as a strong incentive to the promoters of the scheme in New York. Even a wage workers' news service by freight would be preferable to the present daily record of the ef-

forts of the rule of capitalist. The object is worth striving for.

Where the Labor Party Benefits.
The active construction of four transcontinental railways all heading towards the Pacific coast is opening up an immensely fertile and productive field for the profitable investment of surplus value by the capitalists of the world. Thousands of immigrants from all sections of the earth are flocking westward, and if the international unions intend to keep up with the employment of dozens of organizers in Western Canada. It may mean nothing to the future a little, but the results will justify the expenditure even from a financial standpoint. The real value, however, will be the part organized labor will play in the destiny of the new nation. Environment and the foundation already laid augurs well for the future well being of wage-workers.

Works Both Ways.
Fernie, B.C., is known as the center of the great coal fields of the Crow's Nest valley. Its population is made up largely of hard-working miners. A little more than half of them are registered as voters in the electoral district of Fernie. At the last election W. R. Ross, a lawyer and a Conservative, was elected to represent that riding. John Harrington, the candidate of the Socialist Party of Canada, made a splendid run, but was defeated by

the votes of wage-workers. Some of the "pernicious" legislation secured by other members of the Socialist Party in the British Columbia legislature was amendments to the Workmen's Compensation Act. As a consequence it has cost the mine-owners a lot of money for the sustenance of the widows and orphans of miners killed in the company's employ. The mine-owners do not like it. A short time ago a number of "foreign" coal diggers were blown up in an explosion. Now the company seeks to evade the payment of the "compensation" on the ground that the bereaved dependent ones are not residents of Canada. (Jis because the bread-winners had not the price to bring their families along when they came in search of jobs. The case comes up in Vancouver this month. The counsel for the company in question is none other than W. R. Ross. If there isn't food for thought in this case on the part of the coal-miners who elected Ross to "represent all interests" then by what process will the workers of Fernie ever come out of their political stupor?

The Regina Strike.
The building trades strike at Regina, Sask., has now resolved itself into a general strike on the part of the Federated Council of the Building Trades. Every member of every affiliated union is out in answer to an edict of the employers that the unions must go. The only regrettable exception is that of the bricklayers and masons,

who are still working. Secretary Simmonds advises that the situation is well in hand locally and that the union will but lend assistance. The Building Trades council will not, but despite this handling the solidarity of the unions affected will compel the bosses to recognize the right of attempting to stave off the inevitable increase of wages and bettering of trade conditions. The unions of Regina were somewhat responsible for the defeat of a blow granting a franchise to a corporation for a street railway system and the passage of a measure providing for municipalities owned and operated cars, and this is believed to have some bearing on the attitude of the employing builders and contractors. Since the mixup has developed into a straight fight for the existence of organized labor in Saskatchewan capital the contest will be watched with interest by every unionist in Canada. If the Regina participants in the conflict will but realize the part they are playing in the struggle for existence under something like half decent conditions there can be no question of what the result will be. Having triumphed industrially the powers of government should be vested in representatives of the workers alone. (Continued on page 10)

RIVER HEIGHTS

Lethbridge -- The Railway Centre

Lethbridge is one of the three or four cities of the West which are marked out for certain greatness. There is no investment in the world so secure and so certainly profitable as the EARLY purchase in the RIGHT location and in the RIGHT city. Some of the greatest fortunes of the present time have been made in this manner.

Lethbridge today presents an unique opportunity; because it is just at the vital period when it is entering upon the destiny of a city. At such a time, an investment can be made more satisfactorily than at any other period, and great profit can be made upon comparatively small investments.

Lethbridge is today growing at a rate which will cause it to be double in population in less than two years. Within a few years, the property which we are now offering will be in the heart of a Great City. By way of comparison, property in Vancouver (population 100,000) situated relatively in the same location is worth today about \$4,000 per lot.

Development in this last Great West is taking place with wonderful rapidity. If you wish to take part in this development, if you wish to share in its tremendous increase of wealth, you must act at once. These opportunities do not last.

Thousands of people have wished in vain that they had foreseen the growth of the large cities of the present time, and had taken advantage of this foresight. Here is one now whose growth you can absolutely foresee, in which you can make an investment at a cost of a few dollars, which will double in value with every year that passes.

You are convinced—you cannot help being convinced—of the future greatness of this country and of this city, but your conviction will be of no advantage to YOU unless you ACT upon it, and act NOW.

A veritable net-work of railroads is now building and project with Lethbridge as a centre.

Every important railroad in Canada and the Northern States is planning to build or to increase its lines in the Southwestern Canada. Without exception these lines will build to Lethbridge as the strategic centre of this country.

Within the next two or three years Lethbridge will be served by the following railways:

1. Canadian Pacific Trans-Continental.
2. Canadian Pacific Crow's Nest Line.
3. Canadian Pacific to Calgary.
4. Grand Trunk Pacific to Calgary.
5. Canadian Northern into Saskatchewan to Saskatoon.
6. Canadian Northern to Winnipeg.
7. Canadian Pacific, Lethbridge-Weyburn line to Manitoba.
8. Grand Trunk Pacific to Regina and Winnipeg.
9. Great Northern Trans-Continental.
10. Alberta Railway and Irrigation Co., to Montana.
11. Canadian Northern, west via South Kootenay Pass to Pacific Coast.
12. Manitoba and British Columbia, east to Winnipeg and west to Pilot Bay, British Columbia.
13. Northern Empire railway, south to International Boundary and north through Edmonton to the Peace River.
14. Electric line of Southern Alberta Land Co., to Calgary and Medicine Hat.

Several of the new lines are already under construction. With the exception of the Canadian Northern and Great Northern Railways, whose well known policy it is not to give out any advance information, the routes and plans of the lines shown above have been officially announced.

Wage-Workers' Symposium

(Continued from page 8.)

A New Era Coming
We have reached a time in the world's affairs when intelligent men are ignoring the principles of right and justice and are inclined to rest on brute force, but a new force is coming into the world to bring about universal peace when the organized workers of the world decide that they will no longer go out to shoot down their fellow workmen to satisfy the greed and ambition of rulers.—John W. Foster.

To Abolish Capital
The taking away of jobs they always thought belonged to them has opened the eyes of some fifteen hundred or two thousand Black Hills workers during the past five months and seventy-five per cent. of these people are now willing to admit that capitalism is an evil that must be abolished before we can have a real republic. Some of these men will never vote again in the Black Hills, but some other section will get the benefit of the education that has been given them by the Black Hills mining companies. And some of those who take their places will, in time, also become educated. This is the way the Socialist movement grows and by dis-

charging socialists and setting them adrift the capitalist bosses but spread the virus over a greater territory.—Lead Register.

Should Demand Union Label
"Too many union men and women are disposed to regard the duty of demanding the union label as a general proposition having no immediate or direct bearing upon standing in labor movement. This is a serious mistake. The fact is that the demand for the union label is one of the very first and most imperative obligations upon the trade unionist, equally at least with the duty of paying dues, attending meetings and observing shop rules. The fact that the former duty is more easy of evasion than the latter increases the obligation rather than lessens it. The strength of a given union is proportioned to the degree of cooperation between the unions. The union label is the guide to co-operation, the means by which the members of the organization may identify the products of other organizations."—Coast's Seamen's Journal.

Should Go to the Bottom
What would be the consensus of opinion regarding the efforts of an individual who claims that he would exterminate mosquitoes by capturing

them in a net whilst completely ignoring the sources of propagation? We feel safe in stating that it would be that he was as illogical as Don Quixote tilting at the windmill. This inconsistency has its parallel in the actions of those people no matter how well meaning their intentions, who attempt to accomplish such reforms as "the white slave traffic," "the white plague," "the drink problem," and the hundred and one social pests infesting the body politic while remaining totally oblivious to the underlying causes. The expenditure of energy, although it may effect slight relief, is as equally transitory as the efforts of the mosquito netter in so far as effecting a remedy is concerned.—Ferne Ledger.

The United Garment Workers
If the United Garment Workers of America continue absorbing other organizations, and if the proposed federation of the garment workers and journeymen tailors materialize, the organization will shortly be one of the largest in the A.F. of L. says P. Obermeyer in the Hamilton Herald. At the request of the A.F. of L. the garment workers' general executive board is now considering a proposition to take in all of the suspender workers' unions now affiliated with the federation as federal unions. From appearances the garment workers' board is in favor of the project. This will mean another three thousand members added to the U.G.W. of A. The suspender makers have about twenty local unions, the most important being in New

York, Chicago, Philadelphia, St. Louis, Milwaukee, Cincinnati, Minneapolis and Syracuse. Most of these now use the regular A. F. of L. label, but if transferred to the garment workers will use a special garment workers' label.

To place economic power over woman, in the hands of any man is wrong. Whether managers be virtuous or vicious, the industrial system which places power over the fortunes of a woman in the hands of any man is a vicious form of organization. We owe it to womanhood to abolish such industrial autocracy.—The Cypriote.

A Barbers' union has been organized at Cranbrook, B.C.

Halifax, N.S., carpenters have received an increase in their scale without any trouble ensuing.

Cranbrook, B.C., corporation laborers are striking for an advance of 25 cents per diem. They demand \$2.75 for a ten hour day.

About 400 painters have joined the Toronto local since the union members went on strike last week to enforce a 15-cent an hour rate of wages.

Winnipeg painters have succeeded in reaching agreements with most of their employers, and the strike for a 40 cent hour rate is practically won.

Canadian Frenchmen are being imported by British Columbia mill owners

near New Westminster to replace the Hindus imported some two years ago.

A vote in time saves a lot of money, worry and discomfiture to wage-workers pending the next election. Less winning and more voting is what is needed.

Western employers are finding that the men they induce to go there to break strikes one year are the men who strike for better conditions the next.—P. Obermeyer.

The miners' monthly payroll in the Crow's Nest Pass coal fields for April amounted to \$172,000. The price of the product of the coal-diggers for the month is not given.

May Day was fittingly celebrated in Vancouver and other western towns. There will be no more September Labor Day parades in this territory; the day will be spent in picnicking and speech-making.

G. E. B. Member Magnus Sinclair of the Street Railway Employees' union reports the schedule controversy between Division 107, Hamilton, Ont., and the employing company as having been agreeably adjusted.

The San Francisco Clacian announces that after years of struggle it has reached a paying basis. The Clacian is to be congratulated. The unions subscribe for it as bibles, paying 6 2-3 cents a month per member.

Patrick Martin Draper, secretary-treasurer of the Trades and Labor Congress of Canada, has again been elected by acclamation as a delegate to the Fort William session of the Congress by the Ottawa Typographical union.

The only concessions ever granted telegraphers have been wrung from their employers through organization. Organization is the only method through which we may hope to keep what we have and obtain more.—Telegraphers' Journal.

A remarkable percentage of the inmates of the asylum for the insane at New Westminster, B.C., were loggers in camps along the Pacific coast. The isolated life and utter destruction of home life is the cause attributed by physicians who have made a study of the phenomenon.

The national executive of the Socialist Party of Canada has under consideration the holding of a federal convention at Winnipeg in 1911. Practically every province in the Dominion has now a provincial executive and organization, and the time for a general convention seems almost at hand.

Colton's Weekly asks: "What Canadian constituency will be known in history as having returned the first revolutionary Socialist to the House of Parliament?" Why, Nanaimo, Vancouver Island, of course, next election.

and J. H. Hawthorn, secretary of the representative.

True to the militant spirit of the Western Canada union the workers of the Inland of Northern British Columbia employed on the coast have some of the best strike conditions "white" workers could wish. Ten hours will be paid for Sunday work.

As a result of the agreement between Montreal Longshoremen and the Shipping Federation, the bonus system, which has been the cause of much strike, will be abolished. Ten hours will be paid for day's work and double the rate will be paid for Sunday work.

The Carling Brewing and Malting company of London, Ont., has signed a contract with the United Brewery Workers for two years, with an increase in wages and reduction in working time. Organizer Al Kane put the contract through. The national union has been working two years to secure recognition.

Trade unionism is succeeding in the Leithbridge district. The local of local of Carpenters at Diamond City, Alta., Organizer C. J. Harding got 17 men the other day to sign up for a charter from the International Laundry Workers of the Leithbridge steam laundry were also organized by J. M. Ritchie last Monday night.

NOTICE TO THE INVESTING PUBLIC!

BURNSIDE

Goes up \$50 an Acre After June 5th

Only a few plots now left, and we are now selling at \$150 an acre. This is your last chance to buy BURNSIDE and get its first profit, which is the BIG PROFIT.

Acreage Is the best Buying Burnside Is the Best Acreage

and \$150 an acre makes it the cheapest acreage on the market. Our auto is at your service. Let us take you over BURNSIDE---it will be time well spent.

50,000-TON SHIPS TO RIDE ATLANTIC OCEAN

Will be Larger Than Lusitania and Mauretania, But Not So Swift

London, May 27.—Mr. Booth, chairman of the Cunard Steamship company, said at a recent meeting of shareholders that in his judgment the future of the New York trade lay with the 40,000 or 50,000-ton combined passenger and cargo boats. He spoke from the experience gained from the Lusitania and Mauretania, each of them of nearly 25,000 tons. These two vessels have proved so successful that a ship still larger is to be built to share the New York service with them. It is believed that the new vessel will not possess the speed of the Lusitania and Mauretania.

In the near future there will be four monster ships exceeding in size the present Cunarders. Two of them are well under way, the Olympic and Titanic, each of which is to be about 45,000 tons. They are for the White Star Line and are to run from Southampton to New York. The launching of the Olympic at the yards of Messrs. Harland and Wolff is fixed for October next, and the Titanic is expected to be ready not long after.

A third vessel of the 40,000 ton order is that which the Hamburg-American Line is to build in Germany. Here Ballin had this steamer in view two or three years ago, but cancelled the order he had given to Messrs. Harland and Wolff owing to the depressing outlook for Atlantic traffic.

Neither the White Star boats nor the German ship will have very high speed. Probably 20 knots will be held to suffice. The Olympic will be fitted with a combination of the reciprocating engine and the turbine.

With regard to the cost of building large vessels it is pointed out that the government advanced the Cunard company \$12,000,000 for the building of their triple turbine ships, which suggests an expenditure of less than \$6,500,000 on each vessel. The two White Star boats are expected to cost about the same sum, the more moderate speed aimed at helping to compensate for their superior dimensions.

Mr. Booth remarked at the Cunard meeting that 20 years ago a weekly service to New York would not have represented a greater capital outlay than \$7,500,000.

CANE WAS FULL OF STOLEN SOVEREIGNS

Sir R. Anderson Tells of Goldmaking Fraud That Was Worked in London

London, May 27.—Sir Robt. Anderson, formerly head of the criminal investigation department at Scotland Yard, in his reminiscences tells the following story:

A genius claimed to have discovered the secret of making gold and he offered to sell it to a great city firm—a house whose name is in high repute, not only in England, but in all the capitals of Europe. By means of a process which he had discovered the bulk of any quantity of gold could be increased by one-half at trifling expense.

"His dupes accepted his terms, subject to his giving proof of the value of his discovery, and to test it they proposed to supply him with 100 sovereigns and the needed plant. He 'thought secret' of working on such a petty sum as that; it would be waste of time, for the process was a tedious one.

Command of the Waterways is the Key of the Situation

A hundred years ago the Hudson's Bay Company selected Fort George as the strategic point of their trade with the interior of this vast, unpopulated Empire. The same reasons which influenced their decision are today operating to make it the second, if not the first city of British Columbia.

Unequaled System of Waterways Center at Fort George

A new country to be attractive to settlers must have a transportation system suitable for agricultural purposes and transportation facilities. Both these facilities are to be found here. It is out of the question to transport farm produce long distances by wagon, even were not the making of a road expensive. But when a waterway is provided with natural transportation routes, the improvement of which would be inexpensive, that country is an advance over any other.

SENSATIONAL SESSION OF NEW YORK LEGISLATURE

By Wm. Bricker Case and Was interesting All the Way

Albany, May 27.—Starting with the most sensational bribery trial in the annals of the state and ending in a red-hot fight over the various direct primary measures, the session of the state legislature, which ended at noon today has been one of the most strenuous in years.

EGYPT IS A VOLCANO

Since Death of Lord Cromer Things Have Been Getting Worse

Accumulation has been received from a British officer who has resided for many years in Egypt and who recently returned to London. He states: "I echo not only the apprehension of your Cairo correspondent at the loss of the British prestige which has followed Lord Cromer's retirement, but the warning which he sounded against permitting a continuance of the present British policy of laxity and weakness in Egypt, but particularly among the resident British."

The Transportation

the products and of the supplies of the inland Empire thus centres at Fort George.

THE DREAM OF AGES DISCOVERED AT LAST

United States Doctor Has the Alchemy Secret Which Has Been Sought Since Time Began

Scranton, Pa., May 26.—Dr. E. W. Lange, a retired and wealthy physician today corroborated the report that he had fulfilled the dream of ages in that he had discovered a simple chemical process of transmitting the basic of mercury to the finest silver and into gold, consequently he anticipated a drop in the price of the two standards of money.

My discovery is one which upsets all scientific theories," said Dr. Lange in the statement which was made public today. "I have developed a process sought for ages which will revolutionize the world. In short, I have discovered the means of increasing an atom of silver by the introduction of base metals to 100 times its size and weight, the result being still pure silver of equal, if not greater, fineness. For four years I carried the secret. It was so great and so wonderful that I did not dare to believe it myself. Every day for years I remonstrated the wonderful process. I spent thousands of dollars in equipment. I have taken base metals of four different kinds and successfully transmuted them into silver of the utmost purity and the product passed successfully the severest scrutiny of the best assayers and analysts in the country. I even sent specimens of the transmuted metals to the United States mint, and the report came back that the substance was pure silver."

"My explanation of the process is on the theory of evolution. I believe that evolution pertains to the organic as well as to the organic things of this earth.

"After four years of experimentation I decided to give the world the benefit of my discovery. I did not have money enough to exploit it properly and I intended Mr. Dickinson in my scheme here to witness a transmutation.

"The test was entirely successful. Mr. Dickinson was seated at my side as well as to the organic things of this earth.
