FIFTEEN HORSES BURNED TO DEATH AND EAST END STABLES DESTROYED LOSS IS TWENTY THOUSAND DOLLARS

Lake Simcoe Ice Company's Premises Completely Burned But Loss is Mostly Covered By Insurance—Alarm Given By Whistle at East Toronto Pumping Station.

Fifteen horses were burned to death and the East Toronto stables of the Lake Simcoe Ice Company were completely destroyed by fire which broke out in the building shortly before 12 o'clock last night. As smoking is prohibited, and the stables were lighted by electricity, the manager, E. Pickering, attributes the fire to defective wiring. The loss will be \$20,000, mostly covered by insurance. The horses were worth about \$250 each, or \$3750, and the remainder of the damage is to the building, which was completed only a short time ago.

The fire was one of the most spectacular seen in the east end for many years, and attracted thousands of people. The first alarm was given when G. T. Slade saw the reflection. He is the assistant engineer at the East Toronto pumping station. He at once informed T. Alsthorpe, the engineer. Alsthorpe blew the whistle of the station and thus attracted the firemen at the East Toronto station. District Chief Williams and fifteen men soon were on the scene, and as the pressure was good the men had several streams playing on the building in a few minutes.

The stables were built of wood, covered with sheet metal, which confined the flames to the interior, and made it difficult for the men to fight the fire. The horses became panic-stricken, and raced madly about the stable until overcome by smoke, when they fell and were burned to death.

The stables, which were situated at 2778 East Gerrard street, adjoined the yard of the Milne Coal Company, where \$40,000 worth of coal is stored, and for a time it looked as though the flames would spread to the huge piles of coal, but the firemen prevented this, and there was no further damage. Mr. Pickering lives at 2780 East Gerrard street, and some of the embers lighted on the roof of his house, but were soon extinguished. He stated early this morning to The World that he walked through the stables shortly before going to bed, and found everything in good order.

SUFFS REACH DUBLIN HENCE CITY SHAKES

DUBLIN, May 12.—(Can. Press).—The recent outbreak of militantism is only a forerunner of a campaign which, according to information received by the police, the suffragettes have planned to carry out in Dublin for the purpose of showing their resentment of the action of the Nationalist members of the house of commons, whom they hold responsible for the defeat of the suffrage bill.

"HALLELUJAH! LORD, PUT IT OUT" SAID MULLIN AS HE FOUGHT FIRE

A panic in the Yonge Street Mission was averted last night about 8 o'clock when fire broke out in the clothes press in B. L. Mullin's house in the rear of the Mission Hall, 381 Yonge street. When the fire broke out there were about 200 people in the Mission Hall. Adam Barr, the noted Scotch evangelist, was speaking. As he was in the middle of his address, Mrs. Mullin whispered to him that there was a fire in the rear of the building. Never losing his presence of mind for a second, the evangelist whispered back: "Don't say anything," and then he called upon his hearers to sing the old favorite hymn, "When Love Shines In." The worshippers took up the Gospel hymn with vigor, and by the time they were thru the last verse, the fire was out.

HON. I. B. LUCAS TO GET OFFICE

His Appointment as Provincial Treasurer is Expected Within the Next Few Days.

Now that the legislature has come to a conclusion, the air again is full of rumors of changes in the provincial cabinet, which crop up every year. It was stated that the Hon. J. J. Foy, attorney-general, would be appointed to the senate, but this is not probable. Since the death of Hon. A. J. Matheson, his place has been occupied by Hon. I. B. Lucas, and there is every probability that Mr. Lucas' appointment as provincial treasurer will be announced very soon. It was rumored that if Mr. Foy went to the senate Mr. Haana would become attorney-general, and Mr. Lucas would be appointed provincial secretary. This, however, is not come about just yet. There is every reason to believe, however, that Mr. Lucas will become permanent provincial treasurer, and that a by-election will be held in South Grey on the same day as the one is held in the north riding, to fill the seat vacated by the resignation of A. G. MacKay.

GENERAL STRIKE NOW THREATENED. BUFFALO, N.Y., May 12.—(Special).—The express companies thru their attorneys today refused to reinstate their striking drivers or treat with them in any way, except to receive their applications as new men. Their attitude was communicated to Mayor Fuhrmann, who on Saturday invited the officials to meet at his office to discuss the strike. Mayor Fuhrmann has not decided what his next step will be.

BRYAN'S POLICY IS CRITICIZED

London Daily Mail Calls U. S. Secretary of State "A Highly Inexperienced Diplomatist."

LONDON, May 12.—(Can. Press).—The Daily Mail comments in a cynical vein on Secretary Bryan's peace policy, and describes Mr. Bryan as "a highly inexperienced diplomatist." Referring to the Panama dispute, the difficulties with European nations arising out of the new tariff and the California trouble, concerning which it says that Japan's proposal to refer the matter to The Hague ought to be "accepted with effusion by such an enthusiast for international arbitration as Mr. Bryan." The Mail concludes: "With so many hard nuts to crack in his own particular department it seems unnecessary for this eminent idealist to dissipate his energies in preparing for the millennium."

The other London papers warmly welcome and applaud the aspirations of President Wilson and Secretary Bryan, although in some cases with reservation. In regard to the Panama dispute, The Chronicle says: "Mr. Bryan always has been a great apostle of peace, and now has magnificent opportunity to do practical work, and his striking declaration of eagerness to sign arbitration treaties should have a world-wide welcome."

A Little Reckless, But Entertaining. If you think about two and a half hours of high-gear comedy would benefit you, don't miss "The Reckless Age" at the Princess Theatre this week. The play may be a little reckless in its nature, but very entertaining nevertheless.

Peace Congress Praises Wilson.

PARIS, May 12.—(Can. Press).—The National Peace Congress this afternoon adopted a lengthy program, which it demanded the French Government should support at The Hague in 1915. It embodied in a resolution the following sentiment: "The congress felicitates President Woodrow Wilson and Secretary of State Bryan on their project relating to an enquiry by commissions with a view to the solution of international differences."

PROXY MARRIAGE TAKES PLACE TONIGHT

Toronto Man Will Be Married, But He is Here and Bride is in Holland, so His Friend Will Be His Representative and Bride Will Come to Toronto.

Benjamin Van Hesse goes to bed in Toronto tonight a single man. He awakes tomorrow morning married. And the marriage ceremony takes place during the night at Amsterdam, Holland.

The remarkable achievement is to be brought about thru a marriage by proxy, which takes place in Amsterdam, Holland, at 11 a.m. Holland time, but which in Toronto will be 5 o'clock in the morning.

It will probably mark the first time that a man residing in Toronto has been married to a girl thousands of miles across the sea, without the bridegroom being present at the marriage ceremony.

Speaking to The World last night, Van Hesse, who is 25 years of age, and resides at 307 High Park avenue, Toronto, and is a salesman for the Harris Abattoir Co., explained how the marriage by proxy to his fiancée in Holland had been brought about.

The parents of his future wife, who is Diana Sarlouis, 23 years of age, had a notary public in Amsterdam prepare the required legal form, and this was forwarded to Toronto. On the arrival of the document here, it was filled out by Van Hesse, in the presence of Albert Nordheimer, consul for Holland, and a Toronto notary public. This was received in January, and five days later, was sent back to Holland properly filled out.

Signed by the Queen. On its arrival in Holland the document was given the signature of Queen Wilhelmina, and thus permission given for the performance of the marriage by proxy.

At 11 a.m. tomorrow Benjamin Van Hesse of Toronto, and Diana Sarlouis of Amsterdam are made man and wife by Baron de Roel, burgomaster of Amsterdam. In the case of a marriage by proxy being performed in Holland it is necessary for the burgomaster of the community to perform the ceremony.

Capt. Leeftman, a former captain in the East Indian army of Holland, and a lifelong friend of Van Hesse, takes the place of the Toronto man at the marriage ceremony. The marriage will be performed in a manner somewhat similar to that which would be the case if the bridegroom was present, but Capt. Leeftman will answer in his friend's name. He will be asked: "Do you, Capt. Leeftman, of Amsterdam, Holland, in the name of Benjamin Van Hesse, of Toronto, Canada, take Diana Sarlouis, of Amsterdam, Holland, as lawful wife?" To this and other questions of the marriage ceremony he will give answer in Van Hesse's place.

Will Live in Toronto. Following the marriage the bride will leave to join her husband in Toronto. On May 24 she boards the Holland-American S.S. New Amsterdam at Rotterdam, Holland, and sails for New York. On her arrival at New York she telegraphs to her husband in Toronto. She then will board a train for Niagara Falls and on receipt of the telegram Van Hesse will leave Toronto to join her at the Falls. After a short sojourn there they will proceed to Toronto, where they will make their permanent home.

Van Hesse proudly displays on the third finger of his left hand a little gold band, in which is engraved: "D. S. 12-6-10." This marks the date on which he became engaged to his sweetheart, which will be three years ago on June 12. His future wife also has the date of her engagement and her sweetheart's initials engraved within the band of her engagement ring.

At the time of his engagement Van Hesse was a traveler for a firm of shipping provision merchants of Am-

UNITED STATES OPENS ITS DOORS TO WOOD PULP AND PAPER OF WORLD

WASHINGTON, May 12.—(Can. Press).—The customs court today decided that European nations are entitled to the free entry of wood pulp and paper under the "most favored nations clause" of their commercial treaties with the United States, because the free entry privilege is granted to Canada under the only operative clause of the Canadian reciprocity agreement.

The decision applies to all nations with which the United States has "favored nation" treaties, admitting their wood pulp and paper to this country free of duty provided the foreign nations concerned do not prohibit or restrict the exportation of those products.

The Underwood tariff bill now before the senate grants free entry to wood pulp and paper, not exceeding 2½ cents per pound in value. The Canadian Reciprocity Act makes the limit of value four cents per pound.

DUTIES ON CEMENT AND SUGAR TO BE CUT ANNOUNCES WHITE REVENUE BUILDS BIG SURPLUS

National Debt Has Been Decreased by Twenty-Three Millions in Past Year—Consumer to Benefit by Rearrangement of Sugar Duties—Additions to Free List.

OTTAWA, May 12.—(Special).—Owing to the serious illness of his mother, necessitating his immediate departure from the capital, Finance Minister White this afternoon delivered the budget speech, but the debate thereon will not occur for some days.

His financial statement showed in striking form the ever-growing prosperity of Canada. The revenues for the fiscal year, ended on March 31 last, amounted to \$148,900,000, an increase of \$23,000,000 over the preceding year. The receipts for the year exceeded the ordinary expenditures of the government by \$55,000,000, and, after paying all capital expenses, the public debt has been decreased by over \$28,000,000.

The tariff changes announced today include a cut in the cement duty and some changes in the sugar schedules. Type-setting machines and traction ditchers go on the free list, as do also appliances and utensils for use in hospitals and for rescue work in mines. The readjustment of the sugar duties will mean a loss of revenue to the government of \$600,000, a part of which, it is hoped at least, will go to benefit the consumer. The lead bounties are extended for another five-year period.

A Handsome Surplus. Mr. White, in opening, recalled the revenues and expenditures for the fiscal year ended March 31, 1912. They had amounted to \$138,000,000. The expenditures during that year upon ordinary operations of government and minor public works had amounted to \$93,000,000. Capital expenditures had amounted to \$38,000,000. The net reduction of the public debt in that year had been about \$100,000. For the year ended March 31, 1913, the estimated revenues

were \$168,200,000, an increase of \$32,000,000. The current expenditure for the year would be approximately \$113,000,000, leaving a surplus of revenue over ordinary expenditure of \$55,000,000. The capital expenditure would amount to \$23,000,000, and as a result of the operations for the year there would be a reduction in the national debt of \$28,000,000.

Acquiring G.T.P. Bonds. After referring to some refunding operations, the minister said there would be only two issues of stock of comparatively small amounts to fall due before 1920. In the meantime, the government was purchasing the 3½ per cent G.T.P. bonds, guaranteed by the Dominion Government. These bonds to the par value of \$13,681,000 had already been purchased, and if bonds were issued to the full extent of the authority conferred upon the company the government would eventually acquire these bonds of the par value of \$28,000,000 in all.

The national debt on March 31, 1912, stood at \$239,819,000; it was now reduced to \$211,819,000.

Trade Exceeds Billion. Turning to trade figures, the minister said the total trade of Canada for the year ended March 31, 1912, amounted to \$574,837,734; for the fiscal year ended March 31, 1913, the total trade exceeded \$1,000,000,000. The imports for the year amounted to \$693,000,000, and the exports to \$398,000,000, making a total of \$1,091,000,000. The balance of trade in favor of the United States was very large. The trade doubled within six years. Our imports from the United States have risen from \$208,000,000 in 1907-08 to \$435,000,000 in 1912-13.

Premier's Amendment Is Safely Reported and All That Remains Is the Third Reading—Pugsley Plays Prominent Part on Firing Line, But Objections Are Overruled.

OTTAWA, May 12.—(Special).—Kaleidoscopic as a merry-go-round was the situation in the house today, and the general political situation.

When the house assembled this morning, it was understood that the naval bill should not be called up until tomorrow, and that it should then promptly proceed to a final vote. The threatened impeachment of Deputy Speaker Blondin, it was understood, had been abandoned by the opposition. Hence a large number of government resolutions and bills were rapidly advanced and by agreement, Hon. Mr. White delivered his budget speech. There was general surprise when, at a late hour this evening, the government called up the naval bill and signs of bad temper on both sides of the house were soon apparent.

Pugsley to the Fore. Hon. William Pugsley took the tabling and moved to recommitt the bill to the committee of the whole upon the ground that it had been improperly reported by the chairman. Mr. Pugsley claimed that Mr. Blondin, as chairman of the committee, had refused to entertain the amendment proposed by Mr. Carroll of Cape Breton, providing that the material for the dreadnoughts should be purchased as far as practicable in Canada, at current Canadian prices, and had also refused to put his (Mr. Pugsley's) motion that the chairman do now leave the chair.

Speaker Sproule ruled that the chairman could not be attacked in this collateral way, but could only be put upon his defence by a direct motion of censure. This ruling was sustained upon appeal to the house: Yeas 74, nays 37. Whereupon Mr. Macdonald gave notice of a motion of censure directed against Deputy Speaker Blondin.

Many important measures were considered by the house during the day, including Mr. Burrell's amendment to the Fruit Marks Act, and Mr. Cochrane's proposed amendments to the Railway Act.

Drayton's Salary Increase. Mr. Cochrane introduced a resolution increasing the salary of Chairman Drayton of the Dominion board of railway commission from \$10,000 to \$12,500 per year. The resolution was opposed by Mr. Lanctot, Liberal, Quebec, who urged that the chairman should not receive more pay than the prime minister or the chief justice.

Mr. Maclean, South York, said the chairman had done good work and should be properly paid, as should all the other commissioners. He believed, however, that the commission was unable to cope with the basic grievances of the Canadian people respecting transportation and communication. The west was demanding equality of rates for railway, telegraph and express services. The commission had apparently fallen down on this question. For this they were not to blame, because it was a question for parliament. The Canadian Pacific might reduce its charges, but the other two transcontinental railway companies claimed such a reduction meant ruin.

Speedy Action Promised. Hon. Mr. Cochrane promised that the commission would soon deal with telegraph and express rates and would decide the western freight rates case within sixty days.

He announced that upon passage of

SALARY INCREASES WON'T PASS WITHOUT A STUBBORN BATTLE

Several Large Advances Recommended for High Salaried Men, and Council is Likely to Hesitate—Most of the Members Are Anxious to Keep Tax Rate Below Twenty Mills.

By meeting at ten o'clock this morning the city council expects to finally dispose of the estimates possibly by 6 o'clock, and at least by midnight. It is probable that the recommended appropriations for the several departments, with the exception of the salaries, will go thru without much change. A stiff fight over salaries is expected, however.

That there is a strong lobby for increase of pay is beyond doubt. The lobby is ascribed to the men receiving between two and three dollars per day, and to the employees of the fire department. It is unlikely that the firemen will receive an increase, as it is not due until next year. In 1908 they were given a general increase, the agreement being that no further increase would be asked for three years. Again in 1911 they received a general increase, the 3-year agreement still holding. It will be 1914 before another increase is in order.

As for the employees of the several departments who are receiving from two to three dollars per day, many of them are scheduled for increases, and are given them. Those who are employed temporarily, and are therefore not scheduled, are not likely to be advanced beyond the amounts recommended by the board of control, as a two-third vote would be required, and many of the aldermen are reluctant to advance the tax rate further than 13 1/2 mills. Several large increases for high salaried men are recommended, and there may be more or less fuss over it.

The increases recommended by the board of control are as follows:

Here's the BIGGEST DEFECT in Most Tires of To-day: Loosening of the Tread

All other made-in-Canada anti-skid tires, except Dunlop Traction Tread, are manufactured by the old method—the tread is simply a strip of rubber stuck on the tire proper.

Naturally, in service, the stuck-on piece soon wears loose. Some tire users don't know what's going on in their tires until one day they find "loosening of the tread."

Unless your anti-skid is a Dunlop Traction Tread you have a stuck-on-tread tire. We control the only successful way to make a built-in-tread tire. That's why Dunlop Traction Tread is the most envied tire in all America.

stordam, Holland. He left his native land for Canada a year ago, arriving in Toronto last May. Before leaving it was agreed that the girl to whom he was engaged would join him in Canada as soon as he was well settled here and had a home to receive her.

WARD SEVEN

Shortly after 9 o'clock yesterday morning Albert Newland, an employee of the Swift Canadian Co., was found unconscious in the refrigerating room, with a heavy box pinning him to the floor. Dr. Clendenan was summoned and the injured man was removed to his home at 45 Baybould avenue, where he regained consciousness.

MASTER BARBERS RATHER AMUSED

With Few Exceptions They All Favor Early Closing Bylaw.

Master barbers in all parts of the city are rather amused at the action of Charles McCoubrey, who has entered an action at Osgoode Hall to unsettle the second early closing bylaw passed by the city council. There are about 365 master barbers in Toronto, and 35 of them asked for the passage of the early closing bylaw, so that the statements that the majority of the barbers are opposed to early closing are not exactly correct, to say the least.

No Need To Have Superfluous Hair (The Modern Beauty.)

In delicate, simple way has been found to remove hairy growths from the face, neck or arms, and one application is usually sufficient to permanently banish every trace of disfiguring hair or fuzz. This treatment consists of applying a paste made with water and a little of the powdered delatone. After remaining on two or three minutes, rub off with a soft brush, and it will be white, firm and hairless.

Short, straight eyelashes will grow long and have a silken sheen and delightful curl if proxiol is applied at last-roots with thumb and forefinger. Thin eyebrows come in thick and lustrous by rubbing on proxiol every day. Use care and don't get any where no hair is desired.

Activities of Women

By Winifred Short

—Over 3,000,000 women in California, Oregon, Kansas, Arizona, Idaho, Wyoming, Colorado, Utah and Washington now have the right to vote at all elections.

—Mrs. Key Pittman, wife of the new senator from Nevada, is the only woman in Washington society who ever went over Klondike snow and ice 2000 miles to get married.

—In a competitive examination given by the Beth Israel Hospital, of New York, in which 30 men and one woman took part, the woman candidate led.

—In order that she may lay the cornerstone for the new gas plant in Benton Harbor, Mich., Miss Jessie J. Dickman was made an honorary member of the Bricklayers' Union.

—Miss Mary L. Kern has brought suit against the New York Telephone Company for \$25,000, because her picture in such a newspaper in the company's monthly magazine without her consent.

—Mrs. Isabella Goodwin, who is a bona-fide member of the New York Police Department, was largely responsible for the capture of the principals in the famous \$25,000 taxicab robbery.

—Under the age of 13 years Curra Dunne, an Irish girl, has been selected to play for Ireland in the international hockey match. No girl appeared before in such important games.

—The only woman representative out of 2000 delegates from all parts of the world to the International Institute of Agriculture to be held in Rome, is Mrs. Kate Imbrie Woolsey, who has been appointed by Governor Suizer of New York.

—The new woman's club has been formed in New York City as one of the many activities of the Association of the Blind in that city. On a meeting held more than 40 women, all in the dark, who were invited to every body seems to know everybody else by their voice.

—Mme. Alice de la Ruelle, who is in the French Department of Commerce, investigating industrial conditions surrounding working women, says that the French girl can live on 80 cents a day because she has no desire to emulate the dress and mode of living of her sisters on this side of the water.

—On July 1, over a hundred women, many of them widows or old soldiers, will be deprived of a livelihood in Philadelphia, owing to an order of the war department, which transfers the French and Italian army trousseaus, now made at the Schuylkill arsenal, to the quartermaster's depot at Jeffersonville, Ind.

—Under an ordinance recently passed in New York City requiring all public schools, and over 100 stenographers in various city departments, must give up their positions or change their residence.

—Miss Kate Gleason, daughter of the owner of the Gleason Machine Works, of Rochester, N. Y., has supervised the installation in Europe of several machines built by the Gleason Works, which she is a director. She is a thorough engineer, having taken a college course to fit herself for the position she now holds.

—The enterprising and enterprise of Mrs. Heloise Rose, of New City, N.Y., who induced forty business men in the project, a trolley line will be built between Nyack, New City, Plermost, Haverstraw and several adjacent villages in New York State. The project is worth \$1,000,000, having been the only her father, who was associated with the late Jay Gould in railroad building.

—Philadelphia now has two police-women, Miss L. M. Gillespie and Mrs. Mary Diehl, having recently been sworn in with the power to make arrests in the two railroad crossings where they are stationed, for any offense. They are provided with special police badges and will carry 22 calibre revolvers and blackjacks.

—Most women who go abroad need plenty of money, but such was not the case with Miss Grace Putnam, of Landing, N. J., who travelled all over England for six months and cleared \$250 on the trip. Miss Putnam was not having the spirit of adventure, and she received for aspiring wardrobe and bought her ticket to England, carrying with her a trunk full of American novelties that cost about \$25 in all. When she arrived in London she immediately engaged a cheap room and started out to peddle her novelties. Besides making her expenses she had nine profit when she arrived home.

Scones, Crumpets and Tea Cakes

HERE are some delightful English breads that we are familiar with in song and story, but would not recognize if we met face to face in a baker's window.

Crumpets, for instance, and Bambury Cross buns and scones or English muffins.

An English girl writes from London to say something pretty about this column and encloses recipes for some of these good "tea cakes," as she quaintly calls them. As she gives minute directions along with her quantities we cannot go wrong.

She says: "We have in England, Ireland, Scotland, a number of breads that I missed greatly while with you. These small buns, and such like, did not seem to be known in your shops.

"Belfast is noted for its cream scones, just as your Boston has a reputation for buns and your Texas for pie.

"They are baked very quickly and are used hot, but if they are left they are reheated and well buttered and quite as well enjoyed as if fresh baked.

"Sift two cups of flour, a level teaspoon of cream of tartar and a half a teaspoon of salt together. Mix three table-spoons of butter in this and add one beaten egg, the last is often omitted. Measure two cups of fresh, not very sour, buttermilk and stir one rounded teaspoon of soda in and shape into a flat but not thick cake. Mark into quarters or scones with a knife and bake quickly.

"You have an odd belief, among your cooks, that when soda is used not any cream of tartar is needed, because the acid of the sour milk takes its place, but we British think that the right kind of lightness and moisture is better produced when cream of tartar is added.

"Buttermilk makes sweeter, finer baking than sour milk, and breads made with it will never be dry and yellow looking or overly large porid.

"Crumpets is another name for muffins; these we bake on griddles, but pour the mixture into muffin or crumpet rings to hold it from spreading over the griddle.

Mrs. F. H. Burnett, who is often claimed as an American, but who is really English-born and bred, has made this recipe popular: Two cups flour, one level teaspoon of salt, one level teaspoon of cream tartar, one half cup of sweet buttermilk containing a rounded teaspoon of baking soda and a tablespoon of melted butter. Beat this hard and pour into the buttered, hot muffin rings on the hot griddle. Fill the rings a little more than half full. The mixture will rise to the top. We do not turn them, but you can slip a spade under the ring, and its contents, and turn it quickly just before it is risen to the top of the ring. When done split open with a fork and spread with soft butter.

"This sort of thing goes on all afternoon during the pleasant season. In colder weather the scones read 'Toasted muffins.' Then dozens of crumpets are baked and toasted as called for.

the children of people of fashion and families high in the peerage.

"It seems odd," said this lady, "to go back to England, but to see hundreds of little girls with skirts at their feet and thick pig tails hanging down their backs. One can find these little girls in New York and some of your large cities. If you grow up in a rural district you will see these girls much more attractive with the simple dresses and coiffures appropriate to their time. The names of mature women are not designed to suit growing girls, but their thin necks and arms and undeveloped figures. And for the sake of life these girls should not be permitted to wear the fashions of their elders."

And in another interview she says: "The American girl never means to be a housewife. She is a public place, it is carelessness and not the desire to please that makes her sit with her elbows on the table. It is carelessness, not that she is excited—carelessness, lack of repose and self-control. These errors in taste do not come from ill-will, but from a lack of self-control."

Do you agree with all this? I am sure you stop to think about the matter and you will have to admit that we do not pay enough attention to the manners of our young people. Perhaps one reason for this state of affairs is that we are so anxious to have our children enjoy themselves and are so afraid of natural and not artificial pleasures, that we are too apt to be it is painfully acquired and it is not natural. We do not like to deprive our children of these pleasures, but we let our young girls go out too much, and we do not see that we are doing them any harm. We let our young girls go out too much, and we do not see that we are doing them any harm.

EQUAL FRANCHISE LEAGUE MEETING

Mrs. Hamilton Chosen to Preside for Coming Year.

MUCH GOOD WORK Women Are Striving for Universal Suffrage on Equal Grounds.

After sixteen months' existence the Equal Franchise League held its first annual meeting yesterday afternoon in the Margaret Eaton School of Ekspresion.

The society now has 299 members. Mrs. Leathes moved that election be by ballot. The resolution carried. The suggestion that a portion of all funds of the league be set aside for campaign purposes was left for further consideration.

The yearly fee was changed from 45 cents to a dollar. During the year a great deal of suffrage literature has been distributed both in this city and in rural districts.

Another important point of the meeting was the raising of the speaking fee of many of our members. It was decided, as either too high and unduly taxing the speaker, or too low to admit it.

President, Mrs. Hamilton, made a very happy address, giving a resume of the year and thanking the executive and members for their loyalty.

Miss Kerr and Miss Dent were appointed scrutineers. The election resulted in Mrs. Hamilton being returned president. The other officers are: first vice-president, Miss Constance Boulton; second vice-president, Mrs. Geoffrey Lloyd; cor. secretary, Mrs. Erickson Brown; sec. secretary, Mrs. J. T. Crawford; treasurer, Miss Elizabeth Boulton; executive, Mrs. Melville Bertram, Mrs. F. J. A. Davidson, Miss Jessie MacCardy, Mrs. Arthur Meredith, Miss Charlotte Ross.

OPEN AIR SCHOOLS

One hundred physically defective children will begin the season's term at the Victoria Park Open-Air School this morning.

Delighting Picture News

The grip of motion pictures is felt in all parts of the civilized world, and their consistent and universal popularity makes it evident that this feature of entertainment has outgrown the "fad" stage and is here to stay.

When moving pictures were first introduced to the public, their distinct novelty was the main attraction, but at the same time there were a scattering of those who headed the innovation with vague predictions that it would not be long before advertisers who knew the value of illustrations in advertising would take advantage of this superior medium of illustration in a strictly commercial way.

The possibilities of moving pictures in advertising are wonderful and seemingly unlimited. In order to realize on these possibilities the advertiser must bear in mind at all times that the advertising power in moving pictures must be effectively developed by one who knows how. The advertising message must be told or portrayed so that it "goes over" and drives home selling arguments, and the films when finished must be accurately and judiciously made her debut in moving pictures.

UNUSUAL PRODUCTION, SEVERAL SCENES OF WHICH ARE TAKEN IN EDITORIAL ROOMS OF LOS ANGELES TIMES.

Young Editor Disciplines Future Wife.

Walter, an Editor, Harry Pollard Mrs. Lawes, Gertrude Claire Tira Lawes, the Daughter, Margaret Elischer, Ted Lawes, the Brother, Wm. Clifford Doctor, Wm. Lloyd Foreman, F. G. Rice Maid, Victoria Fordo Gamblers, Printers, Etc.

Walter, the editor of an influential newspaper, is enamored of Tira Lawes, a frivolous young girl. Tira is not sure of her own mind. She is in love with Ted, but she will die an old maid. He goes her to temper, and she bets him a box of gloves she can make Patten prove himself a victim, but he overhears the victorious Tira claiming her wager from Ted. Patten is utterly shocked and feels that he is being deceived.

Two late, Tira seeks the ring and finds her. She tells her she grieves silently, but is too proud to offer any explanation to Patten. Ted gambles and is livid in an affair at the Casino. Patten is accused of cheating at cards. One of Patten's reporters is a member of the club, and despite Ted's request that he battle with the pirates, the report rushed off to Patten with the story. Patten sees his chance to get even, and to soothe his outraged pride he decides to make a sensational story of the episode.

Ted is quite seriously injured and he prevails upon Tira to go to Patten and demand for him his honor. Tira does this against her will. Her petition is so pathetic that Patten's heart melts and he tells her he will suppress the article if Ted will reform. The promise is given and the edition is stopped at the eleventh hour. Later Ted calls to see how high Ted is and give him some advice. Patten bids Tira good-bye, but turns back and sees her looking after him with a love-sick expression on her face. Patten capitulates and takes her in his arms. Tira slyly brings forth the ring which Patten threw away and he again places it on her finger.

"ROBINSON CRUSOE" A RARE TREAT FOR THE KIDDIES.

Poor Old Friday, the Savage Cannibals, the Pirates and the Wonderful House on the Desert Island All Shown New Rex Feature.

There is joy in the ranks of boyhood that amounts to ecstasy. "Robinson Crusoe," their beau ideal of adventure heroes has been made of adventure before their eyes on the screen of the motion picture shows. It is thru the enterprise of the Rex Company that this miracle has taken place. All of the wonders of the lonely tropic island, where Crusoe's bark was wrecked, are shown, as well as all of the savage people, of that entrancing land. The weird orgies of the cannibals, the rescue of the slave Friday, the battle with the pirates, and the details of Crusoe's life in his palm-tatched house are faithfully shown. A feature that is sure to delight the children is the happy family of animals that helped Crusoe to bear his awful loneliness until the faithful Friday came. These include the cat and dog that Crusoe took off the sinking ship; the goats and the little kids that he domesticated, and the parrot that startled him one day by speaking his name.

EGG RECIPES

Breakfast Eggs—Boil eggs hard, remove the shells, and cut them in small pieces, or chop them coarsely. The whites and yolks together. Make a cupful of white sauce with a tablespoonful each of butter and flour, cooked together. Add the yolks and a very little milk, stirred with these until the sauce is smooth and thick. Season to taste with salt and pepper. Add the chopped eggs, and pour on rounds or squares of toast. Serve hot.

Chese Eggs—Grate a half pound of American dairy cheese, put it over the fire with a tablespoonful of butter, a half cup of good stock, a tablespoonful of salt, a tablespoonful of Worcestershire sauce. Stir until the cheese is melted; then put in four or five well beaten eggs and cook three minutes. Serve on buttered toast. An excellent luncheon dish.

Spicuean Eggs—Take a cupful of white sauce, and when it is thick and smooth add to it four tablespoonfuls of grated cheese. The mixture is melted, and then pour a quarter of it into a buttered nappy, and thus fill four napkins. Into each one of these break an egg, sprinkle with salt and pepper, and put into the oven until the eggs are set. Sprinkle with melted parsley over the top and serve at once.

TO CLEAN FURS To clean white furs, buff out, swansdown and ermine, first beat out all the dust, gently but thoroughly, then lay the article upon a table covered with a clean white cloth and saturate it with a mixture of grain alcohol—three parts—and ether, one part. With a clean white-cloth brush scrub the fur with the mixture down to the skin. Next, sift into the fur all the boracic talcum it will hold. Rub the fur with the mixture, and wipe the roots. Put into a closed box and leave it for three days. Take out the fur and shake the powder from them, removing that which can not be easily dislodged by brushing with a clean white-cloth brush well on the wrong side to raise the nap.

RELATION OF FOOD TO BEAUTY Creams and Lotions Do Little Good if One Does Not Observe Care in Regard to Her Diet—What and When to Eat.

The woman who wishes to cultivate youth and beauty must first of all find out what diet will best agree with her. Over-eating, and eating too rapidly when the body is tired and exhausted, are nothing less than criminal. In time these practices undermine the foundation of the vigor and health of the body, and many nervous troubles are due directly to the habit of bolting food.

As a rule, not enough liquid is taken into the system; two quarts daily is not too much, but it is best taken between meals. Salads and the succulent green vegetables that are rich in salts should be eaten plentifully during warm weather. Above all, remember to eat slowly, thoroughly masticating the food, and do not, under any circumstances, eat more than the organs can digest. The stomach must be fed according to the work done by the body.

Choose, then, for your diet those foods which are appetizing, wholesome and easily digested; and, above all, see that each viand is well cooked, so that it may impart to the system as much nourishment as possible. It is dangerous in the extreme to overload the stomach. As for the woman who is interested in preserving a graceful figure, youthfulness, and beauty, it is against all the rules of the game. Food plays a very important role in the beauty culture of the careful woman; she must study herse and learn to know what foods she can best assimilate, and actually feed herself into a state of physical beauty. A woman can be as attractive at sixty-five as at twenty-five, if she lives properly and takes care of herself. The neglected-looking woman, who is badly groomed, unattractive and awk-

WOMEN GET NOTES

Entire Question of Female Suffrage Will Be Discussed in Frankest Possible Manner.

Special Cable to The World. LONDON, May 12.—(Copyright.)—The Daily Chronicle's Rome correspondent says: "In response to a demand made in the Roman senate for women to be allowed to vote at administrative elections, Premier Giolitti has shown a readiness to face the entire question of female suffrage in the frankest possible manner. He considers the recent adoption of quasi-universal suffrage by Italy in a gradual grant and enlargement of political privileges to women much on the same principle as has been followed in the progressive development of male suffrage."

A Dainty Dress for the Little Miss—Child's Dress With Yoke Bands. White mull was used for this design, with trimmings of Swiss insertion and edging. Wash silk could also be used, with trimming of "Val" lace, which would also be suitable for all wash materials. The pattern is cut in four sizes: 1/2, 1, 2 and 3 years. It requires 2 1/2 yards of 36-inch material for a 2-year size.

NO OTHER WAY

By GORDON HOLMES (Continued From Yesterday.)

As it happened, late as it was, Steingall was in when Clancy tapped at the door, and he thrust aside a pile of papers with a sigh of relief. "Well—any results?" he asked. "I really don't know," said Clancy, seating himself on the edge of a chair, and pinning his hands on his knees. That was his characteristic attitude. He seemed to be always ready for a sudden spring in pursuit of either a mafactor or a theory. Steingall used to chide him by pretending to believe that he slept in that same pose in a specially constructed bed.

"You did not wholly waste your day," said Steingall, "and you are pinching the end of a cigar." "No. Before you light up, tell me what brand this is," and Clancy held out the cigar given him by Claude Waverton.

"It is a genuine Havana—not the export type; but the sort of smoke planters themselves like," said the chief inspector, after a close examination succeeded to a good estate, was now settling down into the quiet dignity of country life.

"How do you mean—the man you have seen?" "I interviewed Claude Waverton at Providence, and the impression he left on me was of a young New Yorker who had roughed it in the west, either as a miner or cowpuncher, and, having succeeded to a good estate, was now settling down into the quiet dignity of country life."

"You must try again, Clancy," laughed Steingall. "Claude Waverton has been called out of the night court at least three times. Once he narrowly escaped imprisonment for buckling up a bouncer at the Casino, and, when his nerves were steady three years ago, he had his automobile license withdrawn in this state. Why, man alive, there is no livelier spark in Manhattan than he is at this minute!"

"He called it cataplexy," sniggered Clancy. "Called what cataplexy?" "The change, the transformation—puts it all down to a new bump on his cranium."

"Did you discuss the matter?" "Yes, in a sort of way. Old thing! Don't understand it. It's the kind of conversion you read about in a Sunday school magazine, and I have always fancied that such things were confined to the most ignorant of savages. He called it cataplexy, I fancy that!"

"Why shouldn't she call him 'Claude,' or any other 'Bob' name she had in mind? Bless me! I know what you are driving at!" "I don't know myself what I am driving at, nor where I am being driven. He unlocked a drawer in the business that would puzzle an analytical chemist, if it were possible to put human nature in a glass jar and remove it from the body. She wrote to her husband of John Stratton Teale?—Wall street style, tall, eye-glasses, gold-mounted cane, telescope, well-manicured hands—which he doesn't like."

Steingall smiles. The concluding words were a hit at his own habit of nibbling his lips, who deep in thought. He unlocked a drawer in the desk, took out a small volume, with indented index letters, and glanced thru some of its pages.

"Clancy seemed to be disappointed. He leaned forward, picked up the cigar brought from Providence, and sniffed it eagerly. "Suppose now you tell me what you have been doing," continued the chief good-humoredly.

"The little man was deep in his narrative of the day's occurrences when a station sergeant entered. "Telephone message for you, Mr. Clancy," he said.

Clancy read the written slip. "Chief of police, Providence, telephoned Mr. Clancy, ten-fifteen p.m.—Claude G. Waverton and valet left Providence for Boston."

He passed the paper cross the table. "Claude G. Waverton is evidently very anxious to get well away from Mrs. Delamar," he said dryly. "You must have scared him stiff," commented Steingall. "Shall we phone Boston?" "No need. We can find him easily when we want him."

"But—do we want him?" "I think so. The Waverton suit has not ended. It is just beginning. I am glad I went to Providence. I don't even regret Narragansett Pier. Have you ever seen Mrs. Waverton? Pretty woman, very. Teale didn't look at her thru a telescope—not he. Queer thing he should possess a telescope. Not one man in a hundred owns one. I wonder if he knows Mrs. Delamar? People who have telescopes usually squint thru them at ships, boats, cutters, and craft of that sort."

"Ah!" said Steingall, and his blue eyes sparkled. CHAPTER IV. Suicide—Or Murder? At Atlantic City, Clancy was faced by the unexpected. In the first instance, a pale, beautiful, and singularly self-possessed widow was there to pay a belated tribute of respect to the memory of a husband whom she had neglected in life; and, in the second, it was discovered that the man in the boat had died from the effects of a virulent poison, and not, as was assumed at the outset, from heart disease.

By an accident that was not devoid of significance in the course taken later by events, Clancy chanced to be in the office of the local chief of police on the Tuesday evening when the doctor who had made this alarming discovery, announced it in person. He was a young man, fresh from the hospitals, and was acting as substitute for the long-established practitioner who officiated as coroner's physician. When he entered the chief's private room none could guess from his cool and collected demeanor that he was the bearer of startling intelligence. He smiled pleasantly when the Atlantic City police officer said: "Ah, Dr. Gilman, we were just expecting you about this. This is Mr. Clancy, of the Detective Bureau, New York."

"Indeed!" The doctor's eyebrows curved with amiable astonishment. "Does New York think already, then, that our local mystery owns an importance beyond the ordinary?" "Yes," said Clancy. "But why? I have read every word that appears in our newspapers."

The young medico realized that his curiosity concerning the attitude of the Detective Bureau had been deftly turned aside; but he only said: "Yet I am puzzled. Frankly speaking, I had no idea that you people in New York were so sapient. For that happens, I am here tonight to make a statement that gives an unpleasant twist to the affair. Mr. Kyle did not die from natural causes. He was poisoned."

THE GARDEN SERIAL STORIES

There is no perfume so delicate, so elusive, and so satisfying as the breath of the vally lily. And could any thing be more striking than the peculiarly starry green spikes, projecting from the earth in the early days of May. Each of these stiff green spikes will unfold presently, showing itself to be a deep broad leaf, within whose protecting sheath a daisy spike of fairly white lily bells, hang, oh, so sweet.

Lily of the Valley is a plant very forgotten and neglected, it has bloomed on and on, year after year, forgotten by all save bee and butterfly. Anxious to attract the attention of the casual passerby, it has escaped from the confines of its garden and, by scattering its seeds along the highways, makes glad the heart of the young boys and girls, early on the hunt for wild flowers, and the first signs of spring.

Every season the beds should be thinned out in spots for these lilies multiply so rapidly that they will overrun everything in sight, and then comes up a question of the survival of the fittest. The vale lily usually comes out uppermost in the struggle for life. By keeping the plants thin, such dirty work, as digging up of flowers will be obtained; but, let me give a point, just here: if the roots are transplanted one year, in all probability, the following year no flowers will appear, but the second season will be much finer specimens.

To show how they will multiply, I am not exaggerating in the least when I tell you that last spring I was forced to throw away three barrels full. It nearly broke our hearts, as we were like the old woman who believed that such dirty work, as digging up of flowers nearby had any desire, apparently for the sardening is hard work, you know, and many think, it is also such a good deal to say about his lilies had to go out into the lane.

Vale lilies look unusually well on any kind of rockwork, shady spots, under trees, or on the north side of walls or fences, especially if the soil is fairly moist, they will do well. One drawback, however, is this: where they are not wanted, it is also hard to get them out. Their roots are so deep that the soil must be dug out to reach them. It can hardly be attempted in this short space. All I can say, is—If you have none,—buy some, and learn about them, from themselves.

TUESDAY MORNING, MAY 13

PARTISAN PAROXYSMS.

The Star appears to think that the readers of The World do not read any other paper. That is a theory more complimentary to us than to our readers. But we believe we have the most intelligent host of readers in Canada and no intelligent man confines himself to the reading of one newspaper, even when it be such an excellent medium of intelligence and opinion as The World. We had hitherto believed that The Globe and The Mail and Empire were the only papers to suppose that their readers saw no other journals, and we confess that The Star falls considerably in our estimation when it advances its idea. A man who reads only one paper becomes a violent partisan; the readers of The World are not violent partisans. The Star occasionally lapses into violent partisanship, and was even prepared to eat Buffalo bolognas in testimony of its political faith. The Globe, we understand, would have resorted to even more severe tests of political faith, and is believed to have swallowed several of the old barnacles attached to the ship of state.

The Star, however, is "pained" to think that we suppressed the information which it repeats daily in its columns to the effect that those eminent K.C.'s and equally eminent partisans, videlicet, Mr. E. F. B. Johnston, Mr. G. W. Watson, Mr. H. H. Dewar and Sir Alan Aylesworth were of the legal opinion that it would be possible, and, of course, from a Liberal point of view, desirable, to subject Hon. W. J. Hanna, who is also a K.C., to criminal prosecution. The Star, with many sobs and tears, having selected K.C.'s of the largest size, as the Carpenter did the Oysters, declares that "nobody at all wants to see that." And then it finds fault with The World for not giving as much space to the letters from the eminent K.C.'s as it did to the Laurier meeting in the Arena. As we said before, "The Laurier meeting was of some new value and was treated accordingly." The K.C.'s opinions got a few lines in the legislative report, according to their news value, and those who were further interested, no doubt, read them, in extenso, in The Star, or elsewhere. We should like to know how many people outside the class of partisans did read the opinions which The Star regards as so important.

Nor is it wise for The Star to belittle the independence of any paper which lifts its voice against partisan politics or partisan methods. The World protested against the methods of the committee, although these were legal and partisan matters, and, according to precedents set on other occasions. We said at the time that the Liberal party was entitled to make all the capital they could out of the procedure, and no doubt The Star will keep it alive.

In a conspiracy such as was organized by Maisonneville to bring Mr. Hanna into disrepute, the precautions taken were probably quite justifiable from a legal point of view. The Star might ask its four eminent K.C.'s if the legal procedure was not what they would have contended for had they been acting on that side of the case. If irresponsible letters written no one knows when or with what object, full of uncorroborated insinuations and statements at variance with known facts, are to be used as the basis of an attack on any man's reputation, he is not requiring too much in invoking the protection of the law against such attacks. The World would pay no more attention to a similar attack on Mr. Rowell or Mr. Proffoot than it does to this on Mr. Hanna, and we believe in the saner and calmer moments that succeed a partisan paroxysm The Star will be willing to give Mr. Hanna his due. But while the paroxysm continues we cannot hope to escape a daily repetition of what might, should, could or would have happened had Mr. Maisonneville's plot been successful.

THE EUROPEAN OUTLOOK

Concurrently with the disappearance of the European war cloud, financial circles everywhere look for relief from the long prevailing money stringency and a further expansion in international trade and commerce. For this hope there is substantial ground, but it may not follow immediately upon the decision of Montenegro to bow to the demand of the powers that Serbia is included in an independent Albania. Other problems have yet to be solved regarding the new boundaries of the allied territories and at the leisurely

pace hitherto adopted by the European concert, the world may be kept on tenter-hooks for an indefinite period. Yet the outlook is on the whole, more favorable for a peaceful settlement. Perhaps the most auspicious feature of the Balkan war is the decided change for the better in the relations between the United Kingdom and Germany. The improvement may indeed be meanwhile largely limited to what is diplomatically described as the official attitude, but this, if maintained, will powerfully aid the many agencies that are seeking to create a friendlier public sentiment in both nations. The main danger that threatens the development of that sentiment, arises from the special interests that thrive on international jealousy and suspicion, and, as recent disclosures have shown, are wickedly reckless in their efforts to foment and intensify, for their own advantage, irrational enmities.

FOR EIGHT YEARS?

Whatever may be the result of the negotiations which were launched yesterday for the proposed purchase by the city of the Toronto Street Railway, it is clear that a small party would prefer the citizens to suffer for another eight years than see them relieved from their present troubles at any price. Controller Church is reported to this effect in an interview in his private organ, The Telegram. He believes that trolleys will be obsolete in eight years, and that what he calls "the tube fad," is dead. It is just as well to know who is leading the opposition to the relief of the strap-hangers and what his reasons are. Tommy ought to reflect, however, that he may have to hang to a strap himself before eight years are over.

CANADIAN IMMIGRATION.

British immigration into Canada promises to be greater than ever this year, and newspaper paragraphs report western bound steamships booked up to their utmost capacity. This from the current point of view affords matter for gratulation, but it also suggests that too little regard is being shown for a possible recession of the tide of prosperity. The ebb will be temporary, for no one doubts that the Dominion, with its wealth of natural resources, will and must resume its march of development. But what preparation is being made to protect this flush of immigrants should Heaven cease to smile? Is there not at this time too ready an inclination to gamble on a succession of good harvests? For years the Dominion has been occupied in advertising its prospects and its opportunities through the continent of Europe and also in the United States. The results of that continued and vigorous campaign are now seen in the large accessions to the population, and the current, should nothing untoward happen, is more likely to increase than diminish. But if a snag be struck, if there be any general, the temporary setback, the movement so industriously started and encouraged may be not only suspended but altogether stayed. That this is of possible occurrence is evidently present to the minds of many Canadian observers. Immigration is good only while the incomers can be absorbed to their own as well as the nation's advantage.

IMPERIAL WIRELESS COMMUNICATION.

Altho the committee of the British House of Commons, appointed to enquire into the dealing of members of the government in Marconi stocks, is still occupied in its task, the other investigation into the merits of the different wireless systems was closed early in the present month. The latter enquiry was occasioned by the opposition to the agreement entered into between the imperial government and the British Marconi Company. It seems to have been mainly engineered by the advocates of the four competing systems and to have been supported largely in the hope that some political capital for opposition purposes might be made out of the transaction. The committee appointed to investigate the various systems was composed of experts and their report can therefore be accepted as authoritative.

Their main conclusion is that the Marconi system is at present the only one of which it can be said with any certainty that it is capable of fulfilling imperial requirements. These involved continuous communication over distances of from 2000 to 2500 miles, the minimum distance for imperial purposes. Except in the case of the Marconi Company the conditions suggested were not fulfilled, but the committee recognize that in several cases it was impossible for the companies concerned to arrange for the demonstrations within the short period it could allow. The report thus vindicates the action of the government and justifies its contention that if an imperial chain of wireless stations was urgent only the one company could be entrusted with the work. As the imperial postoffice reserved complete liberty to substitute new inventions and apparatus, the other recommendation of the committee was anticipated.

THE NEWSBOYS' SIDE

Editor World: Mr. John P. McKenna brought a complaint before the board of works on Friday, alleging that the news-stands in Yonge street are detrimental to his business, and asking that they be removed. This is the third time that he has complained. First he complained that the newsboys were selling magazines, and when this was disproved he laid a second complaint that news were being sold out-of-town weeklies, thereby spoiling his business. The board decided that we had a right to do so. Now he appears for the third

The Philosopher of Folly

Some men may climb to heights sublime and make a fortune painting steeples; some men may teach the tricks of speech of all the nations, tribes and peoples; some men may travel all over the world and try to sell us life insurance, and some may tear the ivories and prove their strength and great endurance; some men may win their dotage of tin by working on the daily papers, and some may earn a meal a turn by cutting us amusing capers. Their day's task over, these men can snore through the night in peaceful slumber, can soundly sleep upon a heap of broken bricks or busted lumber. The hard row they have to hoe, they need not fear to close their peepers; but Croesus Dash, who rolls in cash, he's not among these happy sleepers. To him the news-stands are a torment; he knows of want's grim if Toronto would be the only city to have news-stands, there might be some cause to complain. But everybody who has been outside of Toronto knows that every city of importance has news-stands larger, and more numerous than here.

NEWSPAPER MEN WILL GO NORTH

Party Will Spend Two Days Next Month in Mining Camp. Arrangements have been concluded for an excursion of representative newspaper editors and publishers to the mining camps of Porcupine and Cobalt immediately after the 55th annual meeting of the Canadian Press Association, which will be held in Toronto on June 3 and 4. The excursion will be under the auspices of the Canadian Press Association and one of the series held annually for the purpose of enabling the press men of Canada to see at first hand the development of various sections of the Dominion.

BRITISH INTEREST IN CANADA.

This year promises to break all records in the volume of British emigration to Canada. The outflow is due not only to the vigorous propaganda carried on at the instance of the Dominion federal and provincial governments, but also to the attention paid by British newspapers to the overseas states of the empire. Canada has naturally been especially favored in this latter respect, and the account of her premier position and her comparative proximity. One of the most recent Canadian supplements is that issued by The Northern Echo of Darlington, England, in connection with its issue of April 26. The Echo was the first half-penny morning paper in England, and has for many years devoted a considerable amount of space to Canadian affairs, a policy attributable to its managing editor, who has had two interesting tours thru the provinces in connection with the supplement is in every way creditable to our enterprising contemporary. It includes many interesting and instructive articles, is attractively illustrated and will, no doubt, be widely appreciated in the north of England, whose moneyed classes, The World is glad to see, are very kindly upon Canadian investments.

GRAND TRUNK PLANS

Thru Continental Service Expected to Be in Operation Next Month. The World was informed yesterday that final arrangements are now under way for the inauguration, early this summer, of the thru transcontinental service over the Grand Trunk and Grand Trunk Pacific, from Toronto to the Canadian west. It is expected that the service will be put in operation some time next month. The plans whereby this will be accomplished, while not yet wholly completed, will, it is understood, include the running of an additional west-bound train from Toronto. It is planned to run special thru trains from here to Sarnia. This would leave here about 10.30 a.m., and thus allow plenty of time for connections with the morning train from Montreal and the east.

MUST WAIT UNTIL EIGHT

CALL SPECIAL MEETING.

National Drug and Chemical Co. Want to Increase Capital Stock. MONTREAL, May 12.—The board of directors of the National Drug and Chemical Co., have decided to call a special general meeting of the shareholders on Friday, to sanction a bylaw increasing the capital stock by \$2,000,000 divided in 200,000 six per cent. cumulative first preference shares of \$10 each, equal to \$2,000,000, and seven per cent. preference shares of \$100 each. It is the intention to offer the first preference shares in England, (where all of the present first preference shares are held), some time in June, at a price equivalent to 105. President D. W. Bole and Vice-President and General Manager C. W. Tilling, have just returned from England where during a stay of one week they made all arrangements for the placing of the stock in that country.

ANNOUNCEMENTS. May 13, 1913. Judges' chambers will be held on Tuesday, 13th inst. at 11 a.m. 1. Stuart v. Bank of Montreal (to be continued).

Peremptory list for appellate division for Tuesday, 13th inst. at 11 a.m. 1. Stuart v. Bank of Montreal (to be continued).

Master's Chambers. 1. Before J. S. Cartwright, K.C. Krebn v. Bastico.—G. Grant for defendant. A. J. R. Snow, K.C., for plaintiff. Motion by defendant for order dismissing action with costs on requiring attendance for examination for discovery of David Krebn, a former partner of plaintiff. Judgment: There does not seem to be any authority for penalizing plaintiff for default of his former partner. It would seem that the remedy for any contumacious conduct by a defendant, properly examinable under C.R. 441, and perhaps also under C.R. 440, is that provided in order 464. In such cases proceedings must be taken by attachment as and for a contempt of court by the person sought to be examined, but requiring dismissal of its process. Motion dismissed with costs to plaintiff in any event.

McDonnell v. Smith—McConnell (Husband K.C.), for defendant, obtained on consent, order dismissing action, without costs.

Dominion Life Insurance Co. and Doyle—A. B. McBride (Waterloo), for the company, obtained order allowing payment into court of \$1000 insurance moneys, less their costs fixed at \$20. Copies of order to be mailed to parties interested.

Mack v. Hain—J. G. Smith, for defendant, obtained on consent, order transferring action from County Court of Peterboro to County Court of Hastings. Costs to defendant in any event.

Harvey v. Briggs—Findlay (Mills & Co.), for defendant, obtained on consent, order dismissing action without costs and vacating his pendens.

Kennedy v. Kennedy—O. H. King, for defendant, moved for order setting aside notice of pleadings as against them, and for leave to defend. E. D. Armour, K.C., for plaintiff. Order made as asked. Costs to plaintiff in any event.

Coulter v. Bennett—W. A. Proudfoot, for plaintiff, moved for judgment why should costs be paid to defendant. Motion enlarged until 15th inst.

McMurry v. Leshner—Fluberg (Husband H.), for plaintiff, obtained final order of foreclosure.

Campbell v. Sovereign Bank and several other actions.—F. McCarty, for plaintiff, moved for judgment to amend statements of claim and statements of defence, in the cross actions, and to counter claim of international actions. J. F. Boland, for defendant. Order made for all necessary amendments. Costs in the cause.

Single Court. Before Meredith, C.J. Royal Bank v. Kennedy.—D. I. Grant, for plaintiff, asked enlargement of his motion to continue injunction for purpose of answering affidavit. S. S. Mills, for R. C. Kilgour, who in objection, enlarged. Motion enlarged. Injunction continued meantime.

Waters v. Shindel.—W. C. Hall, for plaintiff, moved for judgment. J. Haverson, K.C., for defendant. Motion enlarged to trial, and both parties agreeing parties to go down to trial next week. Costs reserved to trial judge.

Wall v. Dominion Cannery.—F. McCarty, for plaintiff, moved for judgment on default of delivery of defendant. Plaintiff to serve defendants with notice for 14th inst.

Brown v. City of Toronto.—Plaintiff in person obtained an ex parte injunction, restraining defendant Hurwitz from interfering with plaintiff's access to the premises leased by him.

Before the Chancellor. Carr v. Town of North Bay.—H. E. Wein, K.C., for plaintiff. J. Haverson, K.C., for defendant. Action for a declaration that the local option proposed bylaw voted on in January, 1913, was not legally submitted nor voted upon in the manner provided by the Liquor License Act and the Municipal Act, and that the alleged vote does not operate to prevent the electors of the Town of North Bay from petitioning for a similar bylaw, nor the council of said town from submitting such a bylaw at any time. Judgment: It was known to no steps were taken to return rolls for 1912 had not been returned; he knew that no voters list for 1912 had been compiled, and that the old list would have to be used. Knowing this no steps were taken to withdraw the petition or to stay the action of the council. Can the plaintiff in these circumstances ask the court to nullify what he and his associates invited the council to do? The vote was good enough for the general municipal elections and therefore good enough for this bylaw. The first and only objection for this reason fails. There is no evidence that any voter

Before Middleton, J. Butler v. Butler.—J. G. Wallace, K.C., for plaintiff. W. R. Smyth, K.C., for defendant. Action to recover \$485.56 and interest, being moneys paid by plaintiff to the defendant to the Union Bank under a guarantee to said bank of moneys owing them by defendant. Judgment: As the plaintiff might have contented himself with one suit I give no costs up to the appearance, but costs subsequent thereto as they were occasioned by defendant's improper attitude. Judgment for plaintiff for amount claimed and interest and costs subsequent to appearance. Money in court to be paid plaintiff on account of this judgment. Seven days' stay.

Before Mullick, C. J.; Clute, J.; Rider, J.; Sturtevant, J.; Latch, J. Re City of Toronto and Toronto and York Radial Railway Co.—C. A. Moss, K.C., for city. Motion by the railway company for leave to appeal from the order of the Ontario Railway and Municipal Board of 17th February, 1913. Leave granted to both parties.

Stuart v. Bank of Montreal.—W. M. Douglas, K.C., and W. J. Elliott, for plaintiff. W. Nesbit, K.C., and H. A. Burbridge (Hamilton) for defendant. Appeal by plaintiff for judgment of Latchford, J., of 22nd February, 1913. That an order for a declaration of 1900, between John Jacques Stuart and John Stuart, the absolute in form, was given by way of security only for redemption of the lands in question hereon, and that plaintiff is now entitled to redeem said lands and that defendant may be ordered to convey same moneys received by them in payment of, etc., etc. At the trial the action was dismissed with costs. Appeal partially argued, but not concluded.

JUST ANOTHER FRILL?

That's Opinion of Finance Committee Regarding Proposed Consulting Council. Thursday's meeting of the board of education may have seen the projected consulting council. The project was knocked by all present at the finance committee meeting yesterday. Chairman Brown said it proposed "a board within a board."

Dr. McKay said: "It's just another frill." Trustee Hiltz, chairman of the board, said he was not great in favor of it, as the officials could be called together for consultation at any time without the organization of a council.

Trustee McTaggart said it is unnecessary. It would be nothing better than a burlesque.

The general view was expressed that the new chief inspector, Mr. Crowley, initiative to display itself before creating new machinery.

INHUMAN TREATMENT OF TURKISH GARRISON

Helpless Captives After Fall of Adrianople Allowed to Starve. NEW YORK, May 12.—(Can. Press.)—A cable to The Tribune from London says:

A woman connected with the British Red Crescent staff gives an appalling picture of the treatment of Turkish prisoners after the capture of Adrianople. She says the prisoners were left without food or shelter, and defended for themselves as best they could. They stripped the bark from trees to make a drink of water or a piece of bread, and hunger drove them to make an attempt to eat the bark and leaves without fires.

"They were all gaunt and weary, hopeless, miserable, hungry and cold, but the condition of the sick beggars, all description. They had no attention of any kind, no one even to give them a drink of water or a piece of bread, exposed to the sun in the day and the cold at night. Some hoarsely begged for water, one or two prayed, some groaned or screamed in agony, but the majority lay in a dumb, preternatural silence, more morose-sounding than any words or moans. Their eyes were sunken in their heads, their cheeks projecting thru their skin with hunger, and their lips and tongues cracked, blackened and useless."

RAILWAY GIVEN WARNING.

LONDON, May 12.—(Can. Press.)—The fire at the Nottingham Boat Club, the police believe, was undoubtedly the work of suffragettes. Three oil cans and a woman's bonnet were found nearby.

Officials of the Midland Railway today received an anonymous letter, saying: "It is my duty to inform you that a desperate act will be attempted in a few days to wreck a main line of cars."

While the railway authorities think the letter perhaps is a hoax, they are taking precautions.

DEATH OF GALLANT OFFICER.

WINNIPEG, May 12.—(Can. Press.)—Desk Serg. Wm. Trayner, Winnipeg police force died last night from typhoid fever. Trayner would have received the King's medal on May 20 for conspicuous bravery on August 1911, in assisting in the arrest of Harry Kelly and Frank Jones, who are now serving long terms in Kingston Penitentiary. In the encounter Trayner received a bullet in his body.

FIRST NIGHT AT TORONTO THEATRES

CLEVER ACTING IN STRONG PLAY. "The Reckless Age" Drew Capacity Audience to the Princess. BREATHLESS RECITAL. Interest Never Flags for a Moment Thru Entire Story.

COUNTRY LIVES REVIVET AGAIN. Quaint Characters in "Road to Happiness" at the Alexandra. HODGE FUNNY AS EVER IN "NOBODY'S WIDOW" A LARGE ATTENDANCE.

PLAYS AT SHEA'S ASSURED SUCCESS. Miss Kathleen MacDonnell Secures Unstinted Applause From Audience. BOSTELLE PLAYERS PROVED THEMSELVES A WELL-BALANCED COMPANY.

SWORD SUSPENDED OVER BRIDE'S HEAD. Novel Eastern-Marriage Custom Portrayed at Holy Land Exposition. FIVE HUNDRED CHURCH MEMBERS TAKING PART IN TABLEAU AND PROCESSIONS.

A drama so closely knit in interest and so intense in feeling, so modern in incident, and so sympathetic in character, with a superb cast, whose combined efforts produce the effect that one usually looks for in vain except from a first-class English company, can have only one result...

It is a good and pleasant thing for the everyday theatergoer to witness a play like "The Road to Happiness," which opened an engagement last evening at the Royal Alexandra...

The play that helped most to make Miss Kathleen MacDonnell famous was given last night by the Bonstelle Players and the presentation of the play was a masterpiece of work...

One of the strangest and most weird scenes on record at the Toronto exhibition created a sensation there yesterday. It was the spectacle of a veiled young Toronto society lady, standing with a drawn sword held over her head by another Toronto lady...

There are several threads in the plot and they are most ingeniously woven together, while the group of characters are as distinctly and clearly drawn as in the most elaborate novel...

Otherwise, it is an ordinary little tale familiar to many a country hamlet. A young girl with a bewitching face, and gave a charming portrayal of the young woman of an independent turn of mind, who, however, is better suited by inherent qualities to be a clinging vine...

Edward H. Robins was quietly impressive as the misguided husband and that repression, combined with great skill, to give the expression of gesture, brought him unstinted praise in the way of applause. He is the leading man, as Miss MacDonnell is the leading woman, of the company, and with these two distinguished stars the Bonstelle Players could be sure of attracting big houses to Shea's.

Bishop Sweeney, who presided at the ceremony, and Bishop Roewe, concurred in the commendation. The attendance was so gratifying, both in the afternoon and evening, that the manager, Rev. Samuel Schor, declared the success of the two weeks visit to Toronto was assured.

There is no anti-climax, and Frederick Burton, as Lloyd Williams, with his great tenderness and sympathy, with her restrained and powerful emotions, created a scene of splendid force. Alan Brooks, as Perry Dill, who, because he was rich, had an unfortunate falling, but whose work has been "one of the town drunks," contributed a story of extraordinary interest, mingling the sympathy and repulsion of the audience as the play proceeded.

From the moment that William Hodge, in the guise of Whitman, the village boy, presence blinds the eyes of the crowd, the play which should have been a dramatic failure, is a triumph. In one feature the play rarely descends to a rather refreshing manner. From the moment that William Hodge, in the guise of Whitman, the village boy, presence blinds the eyes of the crowd...

Every one of the thirteen members entering summer stock in the midst of our enlightening success in many varied parts. The company appears to be very well balanced and carefully chosen. Not all were seen last night, but those who were left a magnificent impression.

So complete is the exhibition, an exposition of oriental life, manners, customs, music and costumes, that both to the biblical student and the entertainment seeker the transformed transportation building affords a fascinating revelation of the east.

"Deborah" Next Week. The attraction at the Princess Theatre next week, commencing Tuesday night, will be the comedy "Deborah," by Legrand-Howland and the great Cry of Mr. Howland has proceeded along the lines of the purely modern school of thought, and the disciples of Ibsen and Brecht are the most famous, but he has done more than present a problem for solution in that he has written a stirring dramatic story, whose theme, however, is the Cry of Motherhood and the need of it in the life of a woman for her development mentally, morally and physically.

When the theatres close and the long hot evenings are with us, Long Branch Park will be one of the most attractive resorts this summer. It has been bought by an experienced entertainer, James H. Heron, who is overhauling the hotel and grounds with the intention of making the place a magnet for Toronto folk out on enjoyment.

The evening of one-act plays presented by dramatic students of the Conservatory School of Expression last night in the Conservatory Music Hall attracted a large audience. The first number, "When Charles Was King," by Edward Weitzel, was a "Three Musketeers" and was carried thru with spirit and dash.

Paul Standish, independent candidate for governor, is making a fight for principle, a fact which Baxter Wright, political boss, cannot comprehend. He is unable to reach any agreement with the anti-graft candidate, and secures the co-operation of a young woman who poses as his daughter, Alice. The love affair of Standish and Alice furnishes the basis of the only two scenes bordering on the melodramatic.

There will be dancing every night after the opening on the 24th inst, and among other novel features, a high-class vaudeville entertainment and exhibitions of kinocular pictures. As Mr. Heron is himself an actor, having just concluded two seasons as "Bunt" in "Bunt" Pulls the Strings," there is reason to believe that he is a good judge of a show, while his theatrical connections have brought him in touch with some of the best vaudeville acts on the continent.

The catering departments of the hotel and park are receiving special attention, and there is ample accommodation for Saturday to Monday visitors.

Probably the most pretentious offering was "A Lesson in Marriage," presented by the Norwegian Bjornson. This attractive little comedy at once affords splendid entertainment and touches some profound laws of life. Those stamper who presented the sketch acted with a precision and an artistic grasp of character and situation that revealed the mature artists in dramatic interpretation. The cast of the play were the Magistrate, Mr. Cooper; the Mother, Miss Ethel Doda; Laura, Miss Muriel Crow; Mathilde, Miss Divilly; the Woman, Axel, Mr. George F. Hayden.

Without this grand system-cleaning remedy I would still be sick, but each day brought me better health and spirits. I was cured and made strong, ruddy and healthy, and will always use and recommend Dr. Hamilton's Pills.

James H. Heron Will Provide Both at Long Branch Park. When the theatres close and the long hot evenings are with us, Long Branch Park will be one of the most attractive resorts this summer.

The evening of one-act plays presented by dramatic students of the Conservatory School of Expression last night in the Conservatory Music Hall attracted a large audience.

Old party graft and corruption form the basis for the interesting plot of "The Gray Hawk," the new political play which was presented by Albert Phillips and Leila Shaw at the Grand.

"I had terrible pains in my head. My appetite faded away, and when I did eat anything it disagreed and made me very sick for hours after each meal. The pains in my stomach and the dizzy headaches I had to endure almost set one wild. Sometimes attacks came on so severely that I had to go to bed. I would feel so worn, depressed and utterly miserable that for hours I wouldn't speak to my family. My system was poisoned with water and cobbing helped me. I'll use Dr. Hamilton's Pills. Without this grand system-cleaning remedy I would still be sick, but each day brought me better health and spirits. I was cured and made strong, ruddy and healthy, and will always use and recommend Dr. Hamilton's Pills.

At the Star. The performance given by the Blanche Baird Stock Company last night, to patrons of the Star Theatre, was one of the best seen in this city for many years in this city. The scenic effects are also good. In addition to the large chorus and coterie of principal women, there are some new comedies and beautiful girls. T. Beeson and Al. Lippman, eccentric comedians, are playing the leading roles in conjunction with Blanche Baird, Anna Kelley and Victoria L. Cord, with such favorites as Eddie Dale, James Dalley, Al. Shea and last, but not least, that good singer, Ernest Fisher.

The Hamburg Conservatory of Music announces a Puppets' Recital, on May 28, evening, to be held at the Foresters' Hall, College street. This concert promises to be a most interesting event in the year of this artistic institution, as the best of talented artists will be represented in all the departments. Two prodigies are appearing, Leila Preston, the little protégée of Professor Hamburger, and Alice Shaw, who is a great strength to the interest of an audience in that it treats of a subject that everyone is interested in.

The several acts were pretty well acted, and the play is a great strength to the interest of an audience in that it treats of a subject that everyone is interested in.

TO CUT 'EM LOOSE TODAY AT WOODBINE

Trainers Are Expected to Let Their Charges Down—The Daily Trials.

This should prove a big morning at Woodbine Park, as several of the trainers are expected to cut their charges loose. Yesterday the Seagram and Davies horses were sent along.

The Seagram trio, Volvode, Battle Song and Mabel, galloped a mile in 1:52.5, and the 1/4 miles in 2:08. Ruitling breezed three-quarters in 1:35, and the two furlongs, Sea Lord, Dark Rossie and Molsen, the half in 53.5.

Gold Bull and Meter, with Plate Glass setting the pace, made a mile in 1:46.5. Plate Glass, with Jockey Warrington up, galloped a mile in 1:44.5, with First Sight in closest pursuit. Nest and Spring Maid put in three-quarters in 1:17.5, with the former showing the way.

The railbirds are still talking of the move they missed Saturday afternoon, when they were to make the mile in 1:16.5, the best work by a plate trier since.

PETES TRIUMPH IN ELEVENTH

Whitecaps Hit in Final Innings for Winning Tally, Nosing Out Telephone City Squad.

PETERBORO, May 12.—Twenty-five hundred people saw the Whitecaps beat Brantford here today in a grand evening innings battle, the score being 2 to 2. After Donovan's two-socket had tied the score in the ninth no damage was done in the tenth or in Brantford's half of the eleventh, but the Petes hit Chapman, one of Kane's cast-offs, singled and was driven home by Sargent. Five misplays by the Petes got Sterling into frequent trouble, but he twisted consistently through and made a hit with the crowd. Brantford, the heavy favorite, and he fanned twice, in the opening ceremonies, after a big parade. Mayor Bradburn addressed the players and pitched the first ball. Mr. W. H. Denham, president of the club, was batsman, and Mr. Jas. Lynch was catcher. Score as follows:

HOMER IN NINTH WON GAME FOR HAMILTON

London Tied Score in Seventh, But Corns Made a Circuit on a Great Smash.

HAMILTON, Monday, May 12.—Hamilton defeated London in the first game of the series at the H.A.A.A. grounds this afternoon. After London had tied the score in the seventh it remained tied until the ninth, when Corns rapped one to left-centre for a home run. Hamilton used three pitchers, Smith being credited with the win, the score being tied when he took up the burden in the eighth.

JOHNNY EVERS DUE TO LOSE JOB WITH CUBS SOON, SAYS SEMMENS

Claims Chicago Manager Wanted to Make a Stool Pigeon Out of Him—Brenahan Will Succeed Crabbed One.

PITTSBURG, Pa., May 12.—Watch for the announcement from Chicago of Roger Brenahan succeeding Johnny Evers as manager of the Cubs. The talk that Brenahan is going to take Evers' job is open gossip, but the rumor was strengthened by "Doc" Semmens, the "white soap" trainer, who planned a left hook on Jaw's jaw, resigned his job, and then signed in like capacity with the Cincinnati Reds.

According to Semmens, there are fifteen members of the team who do not agree with the crabbing tactics of Evers, and they have resented almost every command made by the general. Further than this, Semmens declares, there are three members of the team who are trailing right along with Evers and acting as "stool pigeons" in digging up information of the conduct of the said fifteen, and rushing to Evers with minute reports.

"Evers has got to keep the Cubs right up on top or you can bet that Brenahan will be manager of the Cubs before many weeks get away," said Semmens. "And I know what I am talking about. I am in mighty strong with the boys. All of those who are against Evers are strong for me, and they are making life mighty unpleasant for Evers."

"Evers wanted to make a stool pigeon out of me, but I wouldn't fall for it," continued Semmens. "He wanted me to switch on the players, but I'm not that sort, because I told Johnny he was manager and I was the trainer. One word led to another, and when he called me a name, I just let him off the left. It caught him on the jaw, and I was ready to make a good job of it when Reulbach, Zimmerman and other players stopped me."

"You took the job away from Frank Chance because you went to Murphy with tales about Chance and the players, but you won't last long, and I'll point out the fellow who is going to get your job," and I pointed to Brenahan. Roger was sitting right in the coach and took it all in.

PRISCILLIAN RUNS THIRD

Horrion and Cock o' the Walk Ahead of Belmont Crack in Pimlico Feature.

PIMLICO, May 12.—Horrion's victory in the Belvedere Handicap, today's feature, was not by any means unexpected. There was an exceptionally good field, however, and Cock o' the Walk was also widely fancied, while the feeling with regard to August Belmont's Priscillian, which made his first appearance since his successful campaign in Toronto and Montreal last spring, was that it he proved at his best he was the most dangerous mount of the lot. Golden, which had been unplaced in the last three races, surprised everybody by winning the Elk Ridge Steeplechase.

FIRST RACE—Selling, three-year-olds and up, six furlongs:
1. York Lad, 115 (Deronde), \$22.40, \$6.90 and \$2.
2. Taddling, 112 (Wolfe), field, which includes Roseburg IV., Ralph Lloyd, Vigorous, Geo. S. Davis and George S. Davis, \$9.70 and \$4.30.
3. Clothes Brush, 105 (Obert), \$21.90.
Time 1:15 1/5. Progressive, Profile, Tonala, Mileage, Aviator, Roseburg IV., Ralph Lloyd, Vigorous, Geo. S. Davis and R. H. Gray also ran.

SECOND RACE—Selling, two-year-olds and up, six furlongs:

Lacrosse Gossip

It is rumored that the Riverdales of the Junior O.A.A. series will withdraw and that their place will be taken by St. Simons, who have a host of junior material on hand. Manager Tackaberry has called practices for both teams on Tuesday and Thursday evenings at 6 o'clock. The intermediates are trying to get a game with Varsity on Saturday.

Lehigh easily defeated Stevens Institute in a one-sided lacrosse game at Castle Point Field, Hoboken, New Jersey, on Saturday. The score was 9 to 1.

The Southampton Lacrosse Club was organized last evening for the 1913 season, and purposes entering a team in the junior series of the O.A.A. Entusias is high, and prospects for a successful season very bright. Officers elected as follows: President, C. M. Bowman, M.L.A.; first vice-president, A. J. Cheyne; second vice-president, John Treloar; manager, W. J. Cameron; treasurer, J. B. Clark; secretary and coach, G. H. Cheyne; executive, H. O. Bell; A. T. Bowman, W. C. Caney, E. B. Short, W. H. Johns, J. A. Thompson, Mayer Montgomery.

BASEBALL GOSSIP.
The Chicago Cubs lead in home runs this season, with eight to their credit, but the Phillies follow closely, with seven, while the Superbas can boast of six, three of which were made by Charley Stengel.

Harry Hooper, right fielder of the Boston Red Sox, is a "big" reader, and in order to keep his batting eyes in condition is acting on the advice of his physician and wearing spectacles of the field. His teammates now refer to him as "Old Man" Hooper.

When the Boston Braves defeated the Pittsburgh Pirates for the fourth straight time on Friday it was the first time in thirteen years that Boston has won a full series from Pittsburgh, the early part of the season of 1900 the Pirates visited Boston for a series of five games and were beaten five in a row.

Thursday will be Frank Chance Day in Chicago, when friends of the former leader of the Cubs will turn out by thousands to greet him in the uniform of New York. No doubt, the "fans" will applaud Chance and then not for the White Sox, but it is whispered that Ray Keating will be saved for that auspicious occasion, in which case the Yankees are sure to put their best foot forward.

THE T.R.A. CELEBRATE.

The official wind-up of the local hockey season will be celebrated on Thursday evening at the Prince George Hotel, when the O.H.A. champions meet to receive the new cup donated by Sir Henry Pellatt. In addition to the dinner, which will be a most elaborate affair, each of the boys will receive the official O.H.A. medal, a handsome 14 karat gold watch and fob, suitably engraved, and a gold stickpin. The stickpins are somewhat unique, in the form of a hockey stick, the puck being represented by a fine diamond. The handsome Pellatt Cup, with medals, watches and pins, will be on view in one of the windows of Ryrie Bros. Limited, until Thursday.

THE TIME IS LIMITED

Owing to the brief space of time that the distribution will be confined to, the World is limiting the coupons to one, which will enable you to secure one of these very handsome decorative runs.

GRACE CHURCH DRAW WITH WEST TORONTO.

The Grace Church and West Toronto C. C. played a friendly game of cricket on Saturday on the latter's grounds, High Park, which resulted in a draw. Grace Church, going to bat first, ran up a score of 123 runs for four wickets, and declared West Toronto scored 93 runs for five wickets, when time was called. A. T. Neale, for Grace Church, made the top score of the game by scoring 53 runs (not out) by good playing and hitting freely. W. Paris and F. Beardall also played well for their scores of 25 and 25 respectively. For West Toronto, Tuck played a fine innings for his 43 runs by hitting vigorously. McLaughlin also did well for his 19 by good playing and hitting freely. W. Paris and F. Beardall one wicket for two runs; Neale and Atwood one each for 25 and 25 respectively. For West Toronto, Collins captured two for 29 runs, Chapman one for 7, and Weston one for 50. Owing to the coolness of the weather and high winds, the game was somewhat delayed in starting. However, with all these drawbacks, the game was interesting and enjoyed by everyone. Following is the score:

Grace Church C. C.	123
E. Melville, lbw, b Collins	6

MAPLE LEAF QUOTTING CLUB.

The Maple Leaf Quotting Club held their evening handicap on their grounds, East Avenue street, on Saturday afternoon. Aid. Walton officiating. A large number of quotters were present. 22 contests were played, and a number of close-contested games the following won: I. R. Callender, 2, W. Lewis, 3, W. Carby, 4, C. Croft, 5.

PLENTY OF HORSES AT MAHER'S EXCHANGE.

Pleanty of horses of all classes faced Auction Jackson at the opening of the auction sale at Maher's Horse Exchange yesterday. Consignments from all parts of the country were on hand, the general high quality of which elicited favorable comments from all those present. The demand was fairly good, a large percentage of the offerings being disposed of, even tho' the bidding was a little draggy. Prices held steady at the very low figures of the past couple of months. Very little out-of-town business was in evidence. A few representative buyers were:

Out-of-town—Wm. Chisholm, Erin; O. Ricard, Montreal (carload); McMichael Bros., Qu'Appelle, Sask. (part carload); John Fresh, Hamilton, Ont.
City—Fraserbrook Box Co., Ewen Macenzie, Wm. McLeod, W. Winn, Union Express Co., Bert V. Weese, Dominion Horse Co., six; The Massover Carriage Co., J. E. McCann, M. Crofton, E. Scarlett, J. A. Kirkland, Carter & Leonard, the City of Toronto, the City Dairy Company, the Adams Purveyor Company, C. J. Miller, Medland Bros., M. Rubin, J. D. Hamilton, Wm. Boyd, J. J. Walsh, J. Finley, Roy M. Andrews, Wm. Menary, R. H. Scott, P. Edmonds, John Brennan and the T. Paton Co. (Ltd.).
A large number of horses still remain on hand for private sale any day, and with several fresh consignments on the way, they are sure that there will be no lack of stock for their auction sale on Thursday next.

CENTRAL LAWN BOWLERS.

The Central Lawn Bowling Association's tournament will be held in Brampton on June 17 and 18.

Some Juicy Mutuels

At Churchill Downs

LOUISVILLE, Ky., May 12.—Hamilton, as the winner of the feature at Churchill Downs today, was rather a surprise. Over the main and seventy yards course the choice had been Manager Mack and Grover Hughes or Rolling Stone, with Hamilton and Creme as mentees as possible contenders for the show. There were large fields and the most amusing upset was that in the maiden two-year-olds when Chasaryna paid \$47.90 for one. Score:
FIRST RACE—Selling, four furlongs:
1. Lady Lightning, 107 (McCabe), \$6, \$3.40 and \$2.30.
2. Blue Anstie, 107 (Musgrave), \$6.70 and \$4.40.
3. Jacob Bunn, 98 (Carroll), field, \$6.10.
Time—1:13 1/5. The Hogan, Kiva, Wyanoke, Dr. Volita, Gerard, Coropis, Strong, Dr. Waldo, Briggs and The Resolute also ran.

WEST END Y.M.C.A. ATHLETIC PROGRAM.

The Junior boys of the West End Y. M. C. A. will go to Varsity Athletic Field on Wednesday night for the second series of their weekly handicap events. By the interest shown last Wednesday in the different events, West End Y. boys were certainly showing their athletic ability this season.

The events for this Wednesday are 100 yards run and 8-pound shot-put, which will be called at seven o'clock. The senior events will be 100 yards dash, running high jump and 1/4-mile run. All seniors thinking of running at Newmarket are asked to get their entries in before Saturday, the 17th.

A full turnout of the senior baseball team is requested for Tuesday night at Centre Grove, as this will be one of the important practices before Saturday's game with Central Y.

Makes 14,000 Mile Motorcycle Jaunt

Just three months to a day from the time he chugged out of Indianapolis on his motorcycle, E. G. Baker chugged back in again, having ridden in the meantime 14,000 miles.

Up hill and down dale he went, over railroad roadbeds, thru streams, across deserts, along cut-paths, over mountains.

Cuba, Jamaica, Old Mexico, the Panama Canal, the West, the South-west and the South all fled past him as his sturdy motor carried him swiftly by thru the long miles.

Baker, leaving Indianapolis, struck out for Atlanta, Ga., then Savannah, Jacksonville and thence to Havana, Cuba. He spent six days riding around the island and then shipped to Jamaica, where he rode for three days. In Jamaica his gasoline was served to him in half-pint bottles—wrapped in tissue paper. It's a delicacy in Jamaica.

From Jamaica Baker shipped to Colon and then rode the length of the Panama Canal to the City of Panama. From there he rode to San Pedro, Los Angeles and then back into Old Mexico, San Jose, Santa Barbara, Oakland, San Francisco, Stockton, Los Angeles, San Diego followed in order, and then he headed for home. Yuma, Phoenix, El Paso, Fort Worth, Dallas, Little Rock, Paris Grove, St. Louis, Terre Haute and Indianapolis. That's Baker's motorcycle ride in brief.

One day he rode twenty-one streams. His best day's mileage (10 hours) was 238 miles.

One day he rode 333 miles in sixteen hours. During the entire trip he rode 400 miles on the cross ties of railroads. He rode 182 miles on cow-paths.

Naps Made Boots New York Winners

CLEVELAND, May 12.—Profiting by Cleveland's errors New York won today's game 4 to 3. McConnell was more effective than Greg, except in the fourth, when two singles and a double scored Cleveland's three runs. LaJoie was out of the game with a broken thumb and finger as result of being hit with a pitched ball yesterday.

Knocked Out Lew Beat Cubs Easily

NEW YORK, May 12.—New York today knocked out Lew of the Cubs with five innings and won from the Cubs with ease. The score was 5 to 1. In the five innings Lew pitched a total of 103 pitches. Mathewson pitched his usual strong game for the Yankees, and he was the only pitcher who was put off the field in the fourth inning for protesting a decision at second base. He reappeared in the eighth and the ninth and pitched a fine game.

Mathewson Pitched His Usual Game and Giants Defeated Chicago

PHILADELPHIA, May 12.—Philadelphia defeated Pittsburgh in an eleven-innings contest today, 5 to 3. Lobert scored the deciding run by reaching third when Wilson fumbled his single, and Magee sending a sacrifice fly to Hyatt. Mayer, who succeeded Moore in the ninth, held Pittsburgh safe, while O'Toole took Adams' place in the sixth.

Groom in Form Browns Blanked

ST. LOUIS, May 12.—Groom was in great form today and easily beat St. Louis, Washington winning 2 to 0. Mitchell pitched great ball for St. Louis, but an error by Pratt allowed Washington to score with two in the second. Washington had numerous chances to score in the latter innings, but Mitchell always tightened up with men on bases.

G. T. R. COAL CHUTES DESTROYED BY FIRE

Belleville, May 12.—A disastrous fire occurred this morning when the coal chutes in connection with the G. T. R. Co. were burned with five cars and upwards of 300 tons of coal.

Strange uses are being found for some of the queues lately cut off in vast numbers by the Chinese. A British woolen manufacturer recently received a lot of five tons of such hair for weaving into woollen fabrics.

MUST FORM SOCIETIES

In Case of Stallions Fee Covering Insurance Must Be Paid.

Realizing that inability to secure the use of well-bred male animals is at the present time one of the greatest difficulties standing in the way of live stock development in many parts of Canada, particularly in the newly settled districts, the Dominion department of agriculture, thru the livestock branch, is this year undertaking a widespread distribution of pure-bred stallions, bulls, rams and boars.

The original cost of the animals will be borne by the department, and they will be placed in the hands of such local organizations as agree to the conditions governing the distribution. In a word, these sires will remain the property of the department, but the local organizations will be responsible for their proper maintenance and management, under the general supervision of officers of the live stock branch.

All animals distributed will be bought from home breeders and will be Canadian bred. As far as possible, they will be purchased in the province in which they are to be placed. In this way Canadian breeders will receive encouragement, and their market will be increased not only directly, but also indirectly, thru the emphasis given thru the country to the value of pure-bred sires.

In order to take advantage of this form of assistance, it will be necessary for interested parties, in any section, to undertake the organization of a local association, in whose hands such sires as are required may be placed. Complete information regarding the rules and regulations governing the distribution may be made upon application to the live stock commissioner, Ottawa.

THREE CLASSES ADDED TO SHOW

Open Air Horse Parade Will Be Larger This Year.

A general meeting of the Toronto Open Air Horse Parade Association, was held in Room 'G', King Edward Hotel, last evening. There was a very large attendance. The president, Noel Marshall, was in the chair. Reports were read from C. A. Burns, offering to mount 129 officers and men of the Mississauga Horse and Governor-General's Body Guard to lead the 12th annual parade and show to be held in Queen's Park.

KINGSTON NEEDS JAIL FARM.

MAGISTRATE FARREL wants a farm to which he can send drunkards in an effort to reform them. He says it is no use to keep sending them to the county jail for short terms. Today he sent Michael McNally, who has spent most of the time since last December in jail, to six months in the county jail.

CHILTERN RANGE OUT OF COURSE.

WASHINGTON, May 12.—(Can. Press)—The British freighter Chiltern Range, which collided with an iceberg to the east of the Newfoundland banks on her voyage from Hull to Montreal, was fully 200 miles out of the steamship track, according to a report received by the naval hydrographic office today. Officials said that the freighter was in a field which her captain must have known was full of ice.

BULLETIN ISSUED ON HOG CHOLERA

Breeders Will Benefit by Securing Information From Government.

Thanks to wise government regulations faithfully carried out Canadian swine raisers suffer comparatively little loss from hog cholera, as compared with those of many other countries. From time to time, however, this disease appears in various parts of the Dominion where the infection has been brought in some way or other. This disease which is entirely confined to hogs, is extremely contagious and accompanied by a high death rate. In order to put owners of swine on their guard, the Veterinary Director-General, Dr. F. Torrance, has issued a plainly written bulletin setting forth such information as would enable the lay reader to readily detect the malady and understand what course to pursue in the case of an outbreak in his herd.

It is stated that the disease is caused by a germ which may be transferred in virulent form in many different ways, such as on the boots of attendants, the feeding of uncooked garbage containing raw pork, which may have come from a diseased pig, wandering dogs, domestic pigeons, or in the water of a stream flowing thru an infected pasture or yard.

Infected hogs lose appetite, become sluggish, and, if moved, may cough. They rapidly become thin and weak, linger for a time, or they may die in a few days. Other symptoms that will help diagnosis are described in the bulletin which contains a number of clear photo engravings of hogs in various stages of illness, as well as sections of internal organs showing characteristic diseased conditions.

Whenever the disease is noticed, the owner is bound by law to notify a veterinary inspector. Failure to do this, lays one liable to a heavy fine besides the forfeiture of compensation for the loss of slaughtered animals. On account of the nature of the subject treated this bulletin, No. 15 of the health of animal branch, is not being sent out to names on the regular departmental mailing list. Persons who desire copies may receive them by making application to the publications branch of the department of agriculture at Ottawa.

HARD FIGHT WITH FIRE AT ST. KITT'S

Blaze Threatened to Wipe Out Large Section of City.

ST. CATHARINES, May 12.—(Special)—With the aid of the Merritt firemen, the St. Catharines brigade this afternoon gained control of a fire that threatened seriously to wipe out a section of frame workmen's dwellings in the northeastern section of the city, but by hard work and a combination of fortunate circumstances, the loss will not exceed \$30,000. Children playing with matches in an empty old junk shop in the rear of A. E. Horton's house on Welland avenue are said to have caused the fire, which quickly communicated to the ice house of the St. Catharines Fuel and Ice Company which was quickly destroyed, along with three barns in the immediate neighborhood.

A high wind hurled a firebrand to Begg's cooper shop on Wiley street in another block, and almost at the same time another ember, carried still another block, started a blaze in Joseph Newman's barn on Welland avenue east. Both these fires spread to adjoining houses, giving the firemen a triple task. Firemen and hose were sent from Merritt, all the available city hose being already in use.

The fortunate cessation of the wind aided the work of the firemen, who succeeded in getting the conflagration under control after Newman's barn and the cooper shop had been completely destroyed and three adjoining houses had been badly damaged, but not totally destroyed. More than two dozen incipient blazes had been started on houses in the path of the wind, but these were extinguished by the use of garden hose. Over one hundred families had their household effects out on the streets, so threatening did the fire appear to be. The chief losses are: ice company, \$7,000, partially insured; cooper shop, \$3,500, entirely uninsured; C. Harper, house, barn, wagons and automobile, \$5,000, partially insured.

ORE PRICES COME DOWN

DULUTH, May 12.—(Can. Press)—Cutting of ore prices by "Independent" companies was reported today. The prevailing price for Bessemer ore of 51 per cent is about \$4 a ton, according to certain conditions, such as the amount of phosphorus. The "Independent" mines in northern Minnesota and Michigan are said to be making contracts at \$3.75, because they were not disposing of their stocks as rapidly as they wished.

CATTLE STEADY IN MONTREAL MARKET

Demand Was Fair, But Supplies Were Large—Hogs at Higher Prices.

MONTREAL, May 12.—At the Montreal stock yards west end market the receipts of live stock for the week ended May 10 were 1400 cattle, 600 sheep and lambs, 3000 hogs and 2200 calves. The supply on the market this morning was 300 cattle, 250 sheep and lambs, 1500 hogs and 1200 calves.

Prices for cattle were firmly maintained, but practically unaltered from last week. Extra heavy steers of choice quality are not in much demand, being sold at a loss to the shipper. Medium-weight, choice steers are in demand. The demand from packers and butchers was much better than a week ago.

Old sheep and yearling lambs were in good demand, but trade was quiet and prices firm. Spring lambs met with a fair demand. Hogs were stronger, and prices advanced 10c to 15c per 100 lbs. The offerings were light and demand was good.

Butchers' cattle, choice, \$7.15 to \$7.75; do, medium, \$6.50 to \$6.90; do, common, \$4.50 to \$5.25; cows, \$3.75 to \$4.75; calves, choice cows, \$6.25 to \$6.50; do, medium, \$5.50 to \$6.00; do, bulls, \$4.25 to \$5.00; sheep, each, \$7.50 to \$9.00; do, common and medium, each, \$6.50 to \$7.00; springers, \$6.50 to \$8.00.

Sheep, cows, \$7.75 to \$8.25; bucks and culls, \$7.25 to \$7.50; lambs, \$8.50 to \$9.00; Hogs, f.o.b., \$10.50 to \$10.65. Calves, \$1 to \$8.

LIVERPOOL CATTLE MARKET.

LIVERPOOL, May 12.—John Rogers & Co. cable that supplies of cattle at Birkenhead continue short, and prices dear, good quality stock being scarce and wanted at slight advance on late rates, quotations now being 15c to 16c per pound for Irish steers.

CITY CATTLE MARKET.

Receipts at the City Cattle Market were 12 cars—202 cattle, 93 hogs, 106 sheep and lambs and 108 calves.

There was an active trade, while it lasted. Butchers' steers and heifers sold at \$4 to \$6.85; cows, \$3.75 to \$5.50; veal calves, \$5.50 to \$6.50; sheep, at \$6 to \$7; yearling lambs, at \$8 to \$9; spring lambs, at \$8 to \$10 each; hogs, at \$25.50, f.o.b. cars at country points.

Representative Sales. Mayberry & Wilson sold 23 butchers, 1100 lbs., at \$6.85. Wm. Ettridge sold 19 fat cows at \$5.15 per cwt.

Representative Purchases. E. Puddy bought 23 butchers' cattle, 1100 lbs. each, at \$6.85; 25 light sheep at \$7 per cwt.; 20 yearling lambs at \$2 per cwt. W. J. Neely bought for Mathews-Laing Company 40 butchers' cattle, as follows: Butchers' steers at \$6.50 to \$6.85; cows at \$5 to \$5.50. Frank Hummel bought one load of butchers, 1000 lbs. each, at \$6.10. D. A. McDonald, Jr., bought 16 calves, 135 lbs. each, at \$8.12 1/2 per cwt. Jas. Halliday bought 15 butchers, 1025 lbs., at \$6.80.

UNION STOCK YARDS.

Receipts of live stock at the Union Yards were 90 cars—1797 cattle, 230 hogs, 136 sheep and 33 calves.

CHICAGO LIVE STOCK.

CHICAGO, May 12.—Cattle—Receipts, 6000; market steady to firm; beefsteers, \$7 to \$8.90; Texas steers, \$6.75 to \$7.75; stockers and feeders, \$6.85 to \$7.50; cows and heifers, \$3.90 to \$7.90; calves, \$6.50 to \$8.50.

Hogs—Receipts, 42,000; market steady; light, \$8.25 to \$8.50; mixed, \$8.20 to \$8.50; heavy, \$8.25 to \$8.50; bulk of sales, \$8.37 1/2 to \$8.45.

Sheep and Lambs—Receipts, 15,000; market higher; native, \$5.75 to \$6.85; yearlings, \$6.35 to \$7.50; lambs, native, \$6.40 to \$8.45.

SMALL IMPROVEMENT SHOWN.

LONDON, May 12.—The monthly figures of The Bankers' Magazine show that during the month of April the aggregate value of 287 representative securities listed on the stock exchange increased 1 per cent.

PREVENT FIRES IN THE WOODS

Hon. W. H. Hearst is Making Personal Inspection of Work Done.

In carrying out the careful administration of Ontario's forest interests advocated in the recent session, Hon. W. H. Hearst has left for Algonquin Park to personally supervise work of a preventive nature now under way in that region, with a view to eliminating the fire possibilities which yearly grow greater with the influx into the woods of summer tourists. Active measures are being taken to guard the portages from danger. At present rangers are engaged in the clearing out of debris, slashing and other troublesome impediments.

It is this work of which the minister will make a personal inspection. He expects to be engaged for several weeks.

GOES TO PORCUPINE.

H. D. S. Mutch, recent graduate in mining of the School of Practical Science, has left for South Porcupine, where he will be in connection with the Dome mines for the present. Mr. Mutch is a son of the late Rev. John Mutch, M.A., former pastor of Chalmers Church, Toronto.

SPECULATION IS AT A STANDSTILL

Apathy in Toronto Market is Most Acute of Year to Date.

SMALL LOSSES SHOWN General Tone of Prices Slightly Easier—Two New Low Records.

The Toronto Stock Exchange has drifted into a period of apathy such as has not been equaled at any previous period of this year.

The general list dropped a slightly easier tone yesterday, and at the close a number of losses were shown.

Restricted Price Changes. The establishment of new low records for the year on Spanish River and Maple Leaf Milling did not attract any particular attention.

TIME FOR CAUTION IN STOCK MARKET Future Promises Exceptional Opportunity for Investment, Says Henry Clews.

On the stock exchange the general tone has been one of caution. There is now a bear party of considerable importance, whose boldness has been much stimulated by recent successes.

HAS UNIQUE PLAN TO SETTLE DIFFICULTY A rather unique suggestion for the settlement of the Union Pacific-Southern Pacific divorce suit is made by The Wall Street Journal.

FLURRY IN OATS IN CHICAGO PIT Reports of Severe Damage Give Rise to Bull Market.

CHICAGO, May 12.—The speculative grain trade in grain today moved to the oat trade. A decided flurry resulted from serious reports that the oats crop in the best parts of Indiana and Illinois had received an unthrifty start.

There was a big trade in oats and shorts in all deliveries were badly squeezed. It was an old-fashioned bull market, everybody in the pit seeming possessed with a belief that prices would go skyward. The May option led the advance.

Wheat advanced with oats and because of a bullish outlook regarding the visible supply. The decrease in the latter, however, was somewhat disappointing as compared with last year.
