The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

THIS INSTITUTION, Founded in 1838, for LIFE ASSURANCE and ANNUITIES, has twice received the Approval and Sanction of the British Government, after due Investigation, namely, when Incorporated by Royal Charter and by Special Act of Parliament.

LIFE ASSOCIATION OF SCOTLAND.

ANNUAL INCOME (1863), UPWARDS OF £200,000 STERLING.

ASSURANCES have been issued since 1838 to the number of nearly EIGHTEEN THOUSAND, for SEVEN and ONE-HALF MILLION POUNDS STG. Being thus one of the most extensive Life Offices, the Association possesses an element of safety and permanence not contained in smaller Institutions.

The Association has now in operation two separate Schemes of Assurance.

PRINCIPAL FEATURES.

ORDINARY ASSURANCE—CLASS A.

This Scheme has been in operation for twenty-five years, and is arranged expressly with the view of reducing the expense of Life Assurance as low as is consistent with security.

- 1.—An Allocation of Profit** is made yearly to all Policy-holders who were of five years' standing at the date of the preceding balance, and so as to reduce the outlay for the policies. Policy-holders of the First Series have thus for many years been called on to pay only 62½ cents per \$1 of their premiums; the remainder having been paid from the profits. For example, a Policy-holder, whose premium is \$200.00, obtains, this year, a return from the profits of \$75.00; and another, whose premium is \$80.00, obtains \$30.00. A policy of £1,000 Sterling (\$4,866.67.) opened in 1846, at the age of 60, has, therefore, cost \$2,832.40 less than the stipulated premiums. At the age of 55, the policy has cost \$2,326.27 less than the premiums. At age 45, the sum thus saved to the Policy-holder has been \$1,581.67; and so on at every age, and with all policies of more than five years' standing. Even the latest Policy-holders, entitled to participate in the profits, have had already an allocation of 25 per cent. of their premiums, and require, this year, to pay only 75 cents per \$1.
- 2.—The Outlay for a Policy** may be materially lessened also, until the time of participation in profits, by the CREDIT SYSTEM; under which only three-fourths of the premiums for the first six years need be paid, under policies for £500 Sterling or above, the remainder being allowed to continue unpaid as long as the Assured pleases, and he is not asked to pay interest thereon; but the amount, with accumulated interest at 6 per cent., will be deducted from the Sum Assured at death, if not previously liquidated.
- 3.—Freedom from Restrictions.**—The Policies now being issued are free from some important restrictions imposed by most other Offices, and confer unusual privileges. They are thus peculiarly valuable as Securities for money, Family Provisions, and for every other purpose.

See Prospectus for full explanations of this Scheme.

UNCONDITIONAL ASSURANCE—CLASS B.

While the Policies of Class A have been relieved of many of the usual imperfections of Assurance Policies, the Association has, by this Second Scheme (B,) met the desire for a system *still more simple and unconditional.*

- 1.—The Rates** (With Profits) are the same as for ordinary Assurances.
- 2.—No Forfeiture** (as is usually the case,) by omission to pay a premium through accident or oversight; and, after Five Years, payment of a premium may be intentionally postponed for a year.
- 3.—No Restrictions** as to Occupation, Residence, or Travelling, and no extra Premiums can be payable.
- 4.—The Liability** of the Association for the Sum Assured continues, even if death happen by *Suicide, Duelling, etc.*
- 5.—The Validity of the Policy** cannot be questioned, in so far as an Assignee is concerned; and, under any circumstances, the Assurance becomes unquestionable and indefeasible by the lapse of Five Years.
- 6.—Credit System**—Under which the Assured for £500 Sterling, or upwards, may leave unpaid one-half or one-third of the first Ten Years' Premiums, no interest being payable until death, or previous liquidation, as in Class A.
- 7.—Allocations of Profits** in the form of *Bonus additions* to the Sums Assured,—with the option of equivalent cash payments, if the Bonus additions are surrendered.

The Policies of this New Scheme have, therefore, an EXTRAORDINARY VALUE AND IMPORTANCE, and afford complete protection under almost all circumstances. It is, however, not intended for persons residing in, or likely to proceed to, unhealthy climates.

See Prospectus for full explanations of this Scheme.

Increasing, Endowment, Joint Lives, and Short Period Policies are also granted, under both Schemes.

SPECIALLY EMPOWERED for the purpose, and having HEAD OFFICES, with separate BOARDS OF MANAGEMENT, at MONTREAL,—ST. JOHN, New Brunswick,—HALIFAX, Nova Scotia,—and ST. JOHN'S, Newfoundland,—as well as Agencies throughout British North America, the Association presents equal facilities in all parts of the country.

P R E F A C E.

A promise was made by the publisher last year, if practicable, to add to the Directory this year a new feature, a Street Directory, showing the succession of the houses in each street, their occupants, &c. This promise has been redeemed; and the public will not fail to appreciate this addition to the usual matter of this work.

A Directory is a work used and valued chiefly for reference and information as to the occupants of a city; and a Street Directory is a great assistance in furthering these objects. In fact but little explanation of its merits need be made; the public will readily assent to its value. It is inserted, however, this year for the first time, and as a first attempt it may have and no doubt has some few defects and inaccuracies. In a city like Montreal, where the irregular numbering of the houses is a known and admitted grievance, and when the short space of time ensuing on the annual moving, taken for the preparation of this work is considered, the public will not look for perfection in the first compilation of a Street Directory, but will hail it, it is hoped, as a valuable addition to the work, hereafter to be improved in like manner as the work itself has been.

As regards the general features of the Directory, the publisher can add little to the remarks in his Preface of last year. There is a manifest and steady increase in the population and importance of Montreal, a subject of congratulation to all interested in its welfare and prosperity.

The publisher, while as before he has aimed at compiling a valuable and improved Directory, has made minor details a subject of studious care, with a view to obtain, as near as can be, *accuracy*.

It has been the publisher's endeavor to place the Directory in the hands of the public at the earliest possible moment, and it will be noticed that it is issued this year fully a fortnight earlier than last.

While endeavoring from time to time to improve and expedite the issue of this annual and necessary publication, the publisher looks with confidence to the necessary support and patronage of the public. Although this has not been accorded so fully this year as before, it may with confidence be predicted that in succeeding years the public will endorse the publisher's efforts with a larger support.

Any errors or want of sufficient detail in the work should be notified to the publisher. For all information he will be grateful; and such a course will prevent the recurrence of similar omissions.

JOHN LOVELL.

# STREET DIRECTORY.

In fulfilment of the promise made last year, the following STREET DIRECTORY has been added by the Publisher, with the hope that it may be found useful. If it is desired to know the precise spot in the street where any person is to be found, the information is at once furnished by the STREET DIRECTORY, which the mere number of the house would fail to afford. But this is only one out of very many uses to which such a directory may be applied.

The STREET DIRECTORY is a new feature in this work. It is compiled for the first time in Montreal, and the irregular numbering of the houses in the city, and other causes, render perfect accuracy almost unattainable in the short space of time devoted to its compilation.

The STREET DIRECTORY is presented in a condensed form. Fuller information will be found in the ALPHABETICAL DIRECTORY. The contractions noticed are adopted to save space, and bring the STREET DIRECTORY into the smallest possible compass.

# ESTABLISHMENT

FOR THE

## Board and Education of Young Ladies,

CONDUCTED BY

### MRS. SIMPSON,

### MANSFIELD STREET,

### MONTREAL.

# Commercial Union Assurance Company,

19 CORNHILL, LONDON.

CAPITAL, . . . . . 512,500,000  
RESERVED, . . . . . 1,750,000

CANADA BRANCH OFFICE.

221 & 223 ST. PAUL STREET, MONTREAL.

## Fire Department.

The distinguishing feature of this Company is the introducing of an equitable adjustment of charges proportionate to each risk incurred, instead of being bound to an indiscriminating and unvarying tariff.

This office insures against loss or damage by Fire of property of every description, including Mills and Manufactories; and the Goods, Merchandise and Machinery in the same, will be made good.

Losses occasioned by Lightning will be made good, when the property insured has been actually set on fire thereby.

Loss or damage caused by Explosion of Gas is covered by this Company's Policies.

All reasonable expenses incurred at the time of fire, in the removal of Goods insured by this Office, will be paid.

Losses settled and paid in Canada, without reference to the London Directors.

## Life Department.

Among the prominent advantages offered by this Company are the following:

Perfect security, the Capital being one of the largest amongst Assurance Companies.

The total expenses of Management to be charged against the Life Department is limited, by Resolution of the Shareholders, to a small per centage on the annual Profits Interest. The rapid accumulation of the Life Funds, with the certainty of good Returns, is thus secured.

50 per cent. of the entire Profits—including those on the Non-Participating Branch—appropriated for division every five years, among the Policies on the Participating scale.

50 per cent. at least of the premiums received on Participating Policies will be allowed for surrender, after Premiums have been paid for three years.

Claims are paid one month after proof of death.

Policies that have been in force five years, may, without extra charge, be freed from all restrictions as to change residence (see Prospectus.)

*From the Montreal Gazette of October 23, 1863.*

### Mr. Lovell's School Books.

We find in the *Halifax Morning Journal* of October 12th the short article which we subjoin. We are glad to notice the statements contained in it. They prove that the labors of our enterprising Montreal publisher are appreciated as they deserve to be in the Sister Provinces :

“ On Thursday last, Mr. McGRATH, the intelligent Agent of Lovell, the great publisher of Montreal, Canada, appeared before the Provincial Teachers' Association, then in session at Windsor, for the purpose of explaining the advantages possessed by the series of Lovell's School Books over those now in use in the Provinces ; which he did in so clear, concise, and able a manner, that a vote of thanks to him was proposed and passed by the assembled Teachers. A Committee has been appointed to prepare a list of school books for general use, to be submitted to Rev. Dr. Forrester, Superintendent of Education, for approval ; to be again approved of by the Legislature ; and from a cursory examination of Lovell's Series, we hope to see a large portion of it officially authorized for general use in the schools of our Province.”

## NOTE.

Two millions of persons receive injury every year in Great Britain from Accidents of a more or less serious character. Of these, ten thousand are killed or die from the direct effects of the accident. Others are maimed for life; and nearly all are disabled from following their avocations from the time the injury takes place until its reparation.

By Accidental Death the families of the killed are entirely deprived of their natural help; and by Accidental Injury the injured person himself is prevented from earning his accustomed pay.

The peculiarity of death from Accident is its awful suddenness. It cannot be anticipated. The transition from health to death is instantaneous, and a family in wealth in the morning are often paupers at night.

To make provision for the families of those killed, and to afford a maintenance during the time the injured person is disabled from following his business, the ACCIDENTAL DEATH INSURANCE COMPANY was founded in the year 1849.

Since that date nearly \$1,200,000 have been paid in claims, which evidences the magnitude of the operations of the Society, and its paramount advantage to the public.

All classes have taken advantage of its benefits—noblemen, clergymen, doctors, professional men, tradesmen, clerks, porters, mechanics, have here been enrolled for the common object of providing for their families after death, or obtaining an allowance to cover the expenses attending a broken bone or other accidental injury. The amount which has been paid has far exceeded all original computation. The immense experience of this large Company shows that all former statistics were erroneous, and that the casualties which befall the community were far larger than could have been anticipated unless tested by experience.

The whole scheme of the Society is to provide any amount at death, from \$250 to \$3000; or any amount of weekly provision during complete disablement, from \$2 50 to \$100 a week; or a sum at death and weekly compensation together, at rates which are furnished. Persons may insure a further sum whilst partially disabled, if they so elect.

Instead of a sum at death, a Pension for a widow, or child, or other nominee may be insured, which is generally a preferable provision to a sum of money.

The Company undertake to insure every risk, however hazardous, whether it be the perils of the sea, the perils of the railroad, the perils of travelling, the perils of mining, or working hazardous substances. The office seeks to fix a fair premium in each case, and as long as the premium is rightly estimated, absolute security is obtained for the assured.

There is one risk only which the Company decline to insure, and that is the vague and uncertain risk of Drunkenness. They will not insure the drunkard at any price, nor will they continue the insurance of one who falls into that state. The drunkard not only continually meets with accidents, but his constitution fails to repair an injury, and so renders his risk a burden upon the Society.

All other classes are insured from 16 years to 60, and the insured are allowed to be members of the Volunteer Corps.

Accidents from Railway travelling may be insured separately at rates proportioned to the risk.

The Premiums which have been received from all sources during the past year amount to upwards of £100,000 sterling, which is largely in excess of former years; and the present rate of income is £120,000 per annum.

The especial and particular advantage of Accidental Insurance is to provide against sudden death, by receiving a large sum for a small premium, or a provision against a loss of time. Every head of a family ought to be thus insured, and every head of a family is invited to insure at once in this Office.

# DENTISTRY,

210 NOTRE DAME STREET.

DR. NELSON EDWARDS,  
DENTAL SURGEON,

(Eighteen years' practice in New York City,)

## MECHANICAL DENTIST,

AND MANUFACTURER OF

## ARTIFICIAL TEETH.

### TEETH FILLED without PAIN, and without destroying the NERVE

All operations, and all artificial work warranted to be satisfactory.

Those who have amalgam fillings in their teeth may have that injurious substance removed, and the teeth, though turned quite black, restored to their normal whiteness, and re-filled with gold.

By permission, reference to gentlemen of respectability in Montreal will be given, whose teeth I have restored in this manner from unsightly blackness to life-like whiteness.

Teeth which have become dark by the decay of the dental pulp, and by the death of the animal matter which they contain, may be restored to their primal whiteness by a process peculiarly my own.

Scurvy in the gums, so offensive to the sight, and so polluting to the breath, is not at all difficult to cure.

Irregularities in children's teeth may be easily corrected, without the use of plates, attended to in due season.

No arsenic or other poisonous substances are employed in my practice.

Respectfully,

**N. EDWARDS,**

## THE EUROPEAN ASSURANCE SOCIETY.

### GUARANTEE DEPARTMENT.

IN ADDITION to the Business usually transacted by Life Assurance Associations, this Society is specially constituted to grant Bonds of Indemnity to Bankers, Merchants, Public Companies, Municipal Corporations and others, against losses occasioned by the dishonesty or infidelity of their Employees.

#### TO EMPLOYERS

The system of this Society offers great advantages, inasmuch as it not only secures to them the prompt payment of any loss so sustained; but affords them the means of avoiding the unpleasantness, and to a great extent uncertainty, attendant upon Private Suretyships; and as the Society, *for its own safety*, takes all steps to ascertain the character of an applicant for employment, Employers are relieved of that necessarily delicate and troublesome task, and are assured by the fact of the Society's consenting to grant a guarantee, that the Candidate for such employ has been found, as far as it is possible to be known, fully worthy of their confidence and trust.

#### TO EMPLOYEES,

It obviates the unpleasant necessity of resorting to their personal friends, and enables them by payment of a small annual premium, to be their own independent sureties—with the satisfaction of feeling that the security they give is of the most substantial nature, and at the same time, a convincing proof of their well-established trustworthiness.

#### TO BONDSMEN,

It affords, in approved cases, the means of immediate release from the liability under which they have placed themselves: every facility being given to substitute the Society's Bonds for existing suretyships—no expense beyond the actual premium being incurred.

**This system of Guarantee** has been thoroughly tested, and its advantages largely made use of by the Mercantile and Commercial Communities in Great Britain, and most of her dependencies—the various departments of Government, in addition, being authorized by special Act of the Imperial Parliament to accept the Bonds of *this Society only*.

The Rates of Premium in all cases are commensurate with the risk incurred.

### LIFE DEPARTMENT.

This Society, from its peculiar constitution and the large amount of its income, from both premiums and invested Capital, is in a position to transact Life Assurance business upon terms unusually favorable to Assurers.

The following are the more prominent features in this Department:—

All Life Policies issued upon the faithful representations of Assurers, are indisputable.

Policies, on which five full premiums have been paid, are purchased at the Society.

## THE EUROPEAN ASSURANCE SOCIETY.

On Policies for over £200 stg. for the whole of Life, one half the premiums for first five years may remain unpaid at interest at five per cent. per annum.

Three-fourths of the entire profits of the Society are divisible amongst the Life Policy Holders on the Profit scale of Premiums.

In consequence of the profits of the Guarantee Department, (which shew a large annual increase,) already more than paying the whole expenses of the management of the Society, Life Policy-holders are placed in a peculiarly advantageous position in respect of Bonuses, seeing that in addition to the unencumbered profits of the Life Business, they participate in the continually increasing profits of the Guarantee also. Thus persons assuring with this Society, not only pay a very low rate of premium for Life Assurance, but get in addition to three-fourths of the Life profits, *three-fourths of the Guarantee also*—the two together being equal to, if not more than the whole of the profits of the Life Business.

All the advantages of a Mutual Society are thus at once obtained, without incurring the liabilities attendant thereon; and the Assurers have, in addition, the security of a large *Subscribed Capital*, the prudent employment of which gives a still further ratio of increase to profits.

Thirty days' grace is allowed for payment of Premiums, and in the event of death before the expiry of such grace, the claim will be paid, less amount of premium due.

Policies lapsed by non-payment of premiums may be subsequently renewed by paying the premium, and a small fine, on the production of satisfactory evidence of the good state of the life assured.

All claims, Life or Guarantee, paid without reference to London.

EXAMPLE.—A person 25 years of age, by paying £2 2s. 9d. Stg. (\$10.40) annually, can secure £100 Stg (\$386.87) whenever death may happen, together with such addition as may have been appropriated to the Policy by way of Bonus.

Premiums are also made payable Quarterly.

## THE EUROPEAN ASSURANCE SOCIETY.

Assurances are also granted upon Joint Lives; for Short Terms; or for sums payable at a Stated Age.

**SPECIAL NOTICE.**—The next investigation of the affairs of the Society with reference to the Division of Profits, will fall to be made at the close of the year 1865, and all persons Assuring during the present year on the "With Profits" Table, will then be entitled to **Two Years' Bonus** which may either be received in cash, appropriated to the reduction of Premiums, or added to the amount Assured.

—•••••

The Combination of Life Assurance with Guarantee, which is a feature introduced by this Society, affords the following important advantages to the Assured:—

When the Life and Guarantee Policies are for an equal amount, (the rate of Premium of the Guarantee not exceeding one and a half per cent.,) an abatement equal to half of the Guarantee Premium is made in the Life Premium.

When the Life Assurance is for **DOUBLE** the amount of the Guarantee, (the rate being as before stated,) the whole of the Guarantee Premium is appropriated to the Life Premium.

For example, a Guarantee Policy is required by A. B. for **£500 Stg.**, and the Premium being one and a half per cent. for the character of the risk undertaken, he pays **£7 10s. Stg.** a year. He Assures his Life for an equal amount, and the age being, say **35** next birthday, the Annual Premium, *with Profits* as per Table of Rates annexed, is **£2 15s. Stg.** per cent., equal to **£13 15s. Stg.**, for **£500 Stg.**; but an abatement equal to half of the Guarantee Premium being allowed, the Life Premium is reduced to **£10 Stg.**, thus presenting the advantage of an immediate reduction of the Premium equal to **27** per cent., or a prospective Bonus of **£135 Stg.** on the amount assured.

Or, suppose the Guarantee to be as above stated, **£500 Stg.**, and the Life Assurance **£1,000 Stg.**, the yearly Life Premium, as abovespecified, would be **£27 10s. Stg.**; but the whole of the Guarantee Premium (**£7 10s. Stg.**) being allowed, the Life Premium is reduced to **£20 Stg.**, being equal to **26** per cent. immediate reduction of premium, or a prospective addition of more than **£230 Stg.** to the sum assured.

In other cases than those specified, the reductions are matter of special arrangement, and depend on the class of risk, rate of premium, and the relative proportion of Life and Guarantee.

*The foregoing benefits are available by existing Guarantee Policy holders who may be disposed to effect a Life Assurance, or by Life Policy holders who may hereafter require Guarantee*

Prospectuses, Forms of Proposals, Agency Applications, and all information may be obtained from the Canada Head Office, Montreal.

The above Stores present every facility for the careful and proper STORAGE of all kinds of PRODUCE and GENERAL GOODS, being commodious and well ventilated.

Excellent Cellarage for Pork, Butter, &c., which cannot be surpassed by any in the city, being large, cool, and airy.

Ample accommodation for the Storage of Iron, Coals, and Heavy Goods, in our Canal premises, which, from their close proximity to the Basins, reduces the cartage to a low figure.

Our Coal Oil Stores at Point St. Charles are specially adapted for the Storage of this article, having an inner and outer roof and walls of earth, thus rendering them dark, but at the same time cool, which prevents the leakage of the Oil.

Our Warehouse, being connected with the main line of the Grand Trunk by an adjacent siding, there is no cartage incurred on Coal Oil received by this railroad, thus saving not only the expense, but also the damage which necessarily, more or less, ensues to the barrels when carted.

### Terms and Conditions on which all Messages are received by this Company.

In order to guard against and correct as much as possible some of the errors arising from atmospheric and other causes appertaining to telegraphy, every important message should be *repeated*, by being sent back from the station at which it is to be received to the station from which it is originally sent. Half the usual price will be charged for repeating the message, and while this Company in good faith will endeavor to send messages correctly and promptly, it will not be responsible for errors or delays in the transmission or delivery, nor for the non-delivery of *repeated messages*, beyond two hundred times the sum paid for sending the message, unless a special agreement for insurance be made in writing, and the amount of risk specified on this agreement, and paid at the time of sending the message. Nor will the Company be responsible for any error or delay in the transmission or delivery, or for the non-delivery, of *any un-repeated message* beyond the amount paid for sending the same, unless in like manner specially insured, and amount of risk stated hereon, and paid for at the time. No liability is assumed for errors in cipher or obscure messages: nor for any error or neglect by any other Company over whose lines this message may be sent to reach its destination, and this Company is hereby made the agent of the sender of this message to forward it over the lines extending beyond those of this Company. No agent or employé is allowed to vary these terms, or make any other or verbal agreement, nor any promise as to the time of performance, and no one but a Superintendent is authorized to make a special agreement for insurance.

No liability is assumed for any error or neglect by any other Company over whose lines a message may be sent to reach its destination.

19 CORNHILL, LONDON.

**CAPITAL, - - - - - \$12,500,000**  
**INVESTED, - - - - - 1,750,000**

**CANADA BRANCH OFFICE.**

221 & 223 ST. PAUL STREET, MONTREAL.

## Fire Department.

The distinguishing feature of this Company is the introducing of an equitable adjustment of charges proportionate to each risk incurred, instead of being bound to an indiscriminating and unvarying tariff.

This office insures against loss or damage by Fire of property of every description, including Mills and Manufactories; and the Goods, Merchandise and Machinery in the same, will be made good.

Losses occasioned by Lightning will be made good, when the property insured has been actually set on fire thereby.

Loss or damage caused by Explosion of Gas is covered by this Company's Policies.

All reasonable expenses incurred at the time of fire, in the removal of Goods insured by this Office, will be paid.

Losses settled and paid in Canada, without reference to the London Directors.

## Life Department.

Among the pre-eminent advantages offered by this Company are the following:

Perfect security, the Capital being one of the largest amongst Assurance Companies.

The total expenses of Management to be charged against the Life Department are limited, by Resolution of the Shareholders, to a small per centage on the annual Premium Income. The rapid accumulation of the Life Funds, with the certainty of good Bonuses, is thus secured.

80 per cent. of the entire Profits—including those on the Non-Participating Branch—appropriated for division every five years, among the Policies on the Participating scale.

40 per cent. at least of the premiums received on Participating Policies will be allowed for surrender, after Premiums have been paid for three years.

Claims are paid one month after proof of death.

Policies that have been in force five years, may, without extra charge, be freed from all restrictions as to foreign residence (see Prospectus.)

## FIRE DEPARTMENT.

Insurances effected at the lowest rates of Premium corresponding to the risk.  
Losses by fire from lightning made good, also damage sustained by the explosion of Gas occurring within Buildings on or in which the Company has Insurances.

## LIFE DEPARTMENT.

The leading features of the Office are:—

1. Entire security to Assurers.
2. The large Bonus additions already declared, and the prospect of a further Bonus at the next investigation.
3. The advantages afforded by the varied Tables of Premiums—unrestricted Conditions of Policies—and general liberality in dealing with the Assured.

### New and Important Advantages.

#### 1. Half Premium System.

By this Table a person may insure his life at one-half of the usual rate, and thus secure the benefits of the Half Credit System, without any debt being incurred.

#### 2. Double Insurance System.

By this Table, for a moderate Premium, a Policy may be effected which will increase to double the amount originally assured. This system is particularly advantageous to young lives.

### Indisputable Certificates.

Upon application, and on certain conditions, the Company's Policies are declared unassailable and free from extra premium for Foreign Residences.

### Application of Bonuses.

- The Assured have the option of applying their Bonuses in either of the following ways—
1. To be added to the Sum Assured—and payable with the sum in the Policy.
  2. To surrender them for an immediate payment in Cash.
  3. To the reduction and ultimate extinction of the future premiums.

### Lapsed Policies.

Such Policies may be revived at any period within six months from the expiry of the two or one days of grace, on payment of the premium with interest, without any Medical examination or certificate.

The full power of settling losses is invested in the Montreal Board of Directors.

Forms of Proposal and every information will be furnished upon application at the

*Mails.*—Mails are conveyed twice each way every day, except Sunday, over the principal lines of railway in Canada. Over the less important lines of railway they are carried only once each way every day, except Sunday.

Mails are also conveyed once each way every day, except Sunday, over the principal lines of common road; and once, twice, or three times per week over the less important lines of common road.

The postal communication between Canada and the Lower Provinces is three times per week each way via Quebec, and once per fortnight each way by Cunard Steamers via Boston and Halifax. Also twice per week each way in summer via Portland.

The most speedy and direct postal route from Canada to almost every portion of the globe, with the exception of the Continent of North America, the Isthmus of Panama and a portion of the West India Islands having direct communication with New York or Halifax, N. S., is by way of England, from whence mails for the several British Colonies and Foreign Countries are regularly dispatched.

The most speedy and direct postal route from Canada to all parts of the Continent of North America, the Isthmus of Panama, and a portion of the West India Islands having direct communication with New York, is via New York.

Mails for England are despatched twice in each week from Canada, viz.: once by Canadian Steamer sailing every Saturday from Quebec in Summer and from Port and in Winter; and once by Cunard Steamer sailing every Wednesday, either from New York or Boston.

The following post offices in Canada make up mails direct for certain post offices in the United Kingdom, viz.:

|           |           |
|-----------|-----------|
| Hamilton, | Montreal, |
| Toronto,  | Quebec.   |
| Kingston, |           |

Mails are exchanged daily with the United States at all the principal frontier points, and

closed mails are exchanged daily between the principal cities of Canada and New York and Boston.

Mails are also made up at Quebec, Montreal, Toronto and Hamilton, for Halifax, Nova Scotia, and for St. Johns, Newfoundland, and despatched to destination by Cunard Steamer, sailing from Boston, every alternate Wednesday.

*Rates of Postage on Letters.*—The rate of postage on pre-paid Letters between any place in Canada and any other place in Canada, and on pre-paid or unpaid letters between any place in Canada and any place in British North America (except the places hereinafter mentioned) including Nova Scotia, New Brunswick, Prince Edward Island, and Cape Breton, is regulated by weight, irrespective of distance, and is as follows:—

|                                     |              |
|-------------------------------------|--------------|
| On a letter not more than ½ oz.     | 5 cts.       |
| “ more than ½ oz. but not ex. 1 oz. | 10 cts.      |
| “ “ 1 oz.                           | 1½ “ 15 cts. |
| “ “ 1½ oz.                          | 2 “ 20 cts.  |
| “ “ 2 oz.                           | 2½ “ 25 cts. |

And so on, 5 cents being charged for every additional ½ oz., or fraction of half ounce.

If the weight be exceeded to the smallest extent, even though the balance be merely turned, the letter becomes liable to an additional rate.

Letters posted in and addressed to any place within the Province of Canada, if sent unpaid, are liable to a charge of 7 cents per ½ oz.

The charge on local or drop letters, viz., letters posted at an office in Canada for delivery from that office, is one cent for each letter.

The charge on letters delivered by Letter Carrier in Canada, is two cents for each letter in addition to the ordinary postage.

Letters for Nova Scotia, specially addressed by “Cunard Steamer,” sailing from Boston to Liverpool via Halifax, every alternate Wednesday, are liable to 12½ cents per ½ oz., which can be pre-paid or not at the option of the sender.

Letters for Newfoundland are liable to a rate of 20 cents per ½ oz., which should be pre-paid.

The rate of postage on letters to British Columbia and Vancouver Island is 25 cents per ½ oz., which must be pre-paid.

The rate of postage on letters to Red River via the United States, is 10 cents per ½ oz., which must be pre-paid.

The rate of postage on letters between any place in Canada and any place in the United States, is 10 cents per ½ oz., which may either be pre-paid or not, at the option of the sender.

Upon a letter or packet, of any weight addressed to the United States, the whole postage or none at all should be pre-paid. If anything less than the whole is pre-paid, no account is taken of it, and it is entirely lost to the sender.

The scale of weight under which the above letters are charged is the same as the scale under which letters passing between places in Canada are rated.

The single rate of postage on letters between any place in Canada and any place in the United Kingdom, is as follows:—

By Canadian Steamer, sailing every Saturday from Quebec in Summer, and from Portland in Winter, 12½ cents.

By Cunard Steamer, sailing from New York or Boston every Wednesday, 17 cents.

Letters addressed to the United Kingdom and forwarded by either the above routes, will be charged according to the following scale, which it will be seen differs from the scale of weight under which letters passing between places in Canada are taxed:—

|                                      |          |
|--------------------------------------|----------|
| Letters not over ½ an oz.            | 1 rate.  |
| “ more than ½ oz., and not ex. 1 oz. | 2 rates. |
| “ “ 1 “                              | 2 “ 4 “  |
| “ “ 2 “                              | 3 “ 6 “  |
| “ “ 3 “                              | 4 “ 8 “  |

And so on, adding two rates for every additional ounce or fraction of an ounce.

The postage on all letters posted in Canada for the United Kingdom, and in the United Kingdom for Canada, should be pre-paid.

If sent unpaid, 6d. sterling will be charged on each letter on delivery in addition to the ordinary postage rate.

Newspapers posted in Canada and addressed to the United Kingdom must be pre-paid by stamp, one cent each newspaper.

When two or more newspapers are enclosed under one cover, postage must be pre-paid by stamp at the rate of one cent for each newspaper, or the package will be detained and sent to the Dead Letter office.

Newspapers forwarded by Canadian Steamer are delivered in the United Kingdom without additional charge.

Newspapers forwarded by Cunard Steamer are liable on delivery to one penny each, being the American transit rate.

Newspapers posted in the United Kingdom for Canada should be pre-paid one penny each, by stamp.

If forwarded by Canadian Steamer they are subject on delivery to no additional charge.

If forwarded by Cunard Steamer they are subject on delivery to two cents each, being the American transit rate.

British newspapers re-posted in Canada must be pre-paid 1 cent each, by stamp.

British newspapers distributed to regular subscribers by Canadian booksellers or agents, pass free in the same way as if received by the Canadian Steamers.

Canadian newspapers addressed from the office of publication to subscribers in the United States, the United Kingdom, Lower Provinces, &c., may be forwarded on pre-payment of the commuted rate, applicable to subscribers within the province; but they cannot be forwarded if unpaid.

Exchange papers passing between publishers in Canada, and between publishers in Canada and publishers in the United States, are carried free through the post.

No newspaper, properly so called (except exchanges), whether devoted to education, temperance, agriculture, or to any branch of science, is entitled to exemption from charge. The law exempts only periodicals, other than newspapers, printed in Canada, and devoted exclusively to the above objects.

Newspapers addressed to Newfoundland must be pre-paid two cents each, by stamp.

No United States newspapers of any kind or description (with the exception of exchange papers) are on any ground entitled to pass through the Canadian mails free of postage.

In cities and towns where newspapers are published, the printers and publishers should send them to the post office put up in a manner to admit of their being readily counted, and, if necessary, withdrawn from their copies for examination. The newspapers for each office also should be made up in strong paper in a separate parcel, which should be plainly addressed.

When the numbers of a newspaper published in Canada, or in either of the other British North American Provinces, or in the United States, and issued daily, have remained in a post office in Canada uncalled for during two weeks; of a newspaper issued semi-weekly, or tri-weekly, during three weeks; of a newspaper issued weekly, during one month; and of a monthly periodical during two months, or when such newspapers and periodicals have been refused to be taken by the party to whom addressed, the postmaster is instructed to notify the respective publishers in the proper form, which is to pass free of postage. If the newspaper or periodical continues to arrive after the notice has been sent, the postmaster is instructed to notify the publisher in the same way a second time, specially calling his attention to the first notice.

To enclose a letter, or any writing, or to make any written marks to serve the purposes of a letter, or to enclose any other thing (except publishers' accounts and receipts, as before mentioned) in a newspaper, posted to pass as a newspaper, is a misdemeanor. Postmasters are requested at once to transmit all newspapers containing such writing, marks, and enclosures, to the Postmaster General.

**Periodical Publications.**—Periodical publications in publications issued at regular intervals, but less frequently than once per week.

Periodical publications can be transmitted by post by any part of Canada and the United States at the following rates:—

For every periodical publication weighing not more than 8 oz. in weight ..... 1 cent.  
Over 8 oz. in weight ..... 4 cents.

The above rates must invariably be pre-paid by postage stamps.

If pre-paid by postage stamps and sent from the office of publication, periodicals published in Canada weighing over 3 oz. pass for two cents each.

Periodical publications received from the United States are liable to the rates above mentioned, viz.: If not exceeding 3 oz. 1 ct.; if exceeding 3 oz. 4 cts.

Canadian booksellers and news agents may post British, American or Provincial periodicals for distribution to regular subscribers unpaid. If sent unpaid they will, when exceeding the weight of 3 oz., be subject to a charge of 4 cts. upon delivery.

Canadian booksellers and news agents may also post for transmission by mail in Canada small periodicals, whether Canadian, British, or United States, weighing less than 1 oz., such as the Children's Paper, Child's Paper, The Ply Flour, The Carrier Dove, The Sabbath School Visitor, The Evangelizer, The Gospel Message, The Good News, and others of a like description, in packages to one address, at the rate of 5 cents per pound, or fraction of a pound bulk weight, provided that the same news agents and booksellers pre-pay such packages by postage stamps. This must not be understood as imposing a charge on Canadian periodicals entitled to pass free.

Periodicals printed in Canada other than newspapers when specially devoted to education, meaning the instruction of youth (both religious and general), to agriculture, to temperance, or to any branch of science, and addressed directly from the office of publication, to be transmitted to any post office in Canada, are conveyed by mail free of charge. Such periodicals must not contain general news or advertisements, or they forfeit their claim to exemption.

A periodical devoted to education to pass free must be either strictly scholastic in its subject matter, or manifestly adapted and intended for juvenile as distinguished from adult instruction. It is in this primary sense that the word Education, whether religious or secular, is understood to be used. Religious publications are not as a class entitled to exemption from charge. The law exempts only those which come within the foregoing definitions. It must, however, be borne in mind that when such periodicals are addressed to the United Kingdom or to foreign countries, they become liable to ordinary book postage.

No United States periodical of any kind or description can, upon any ground, claim exemption from Canadian postage.

Parcels of unbound periodicals may be returned by a subscriber to the office of publication at the rate of two cents per 8 oz. or fraction of 8 oz.

Periodicals to pass at the above rates must be put up in covers open at the ends or sides, and if the regulations are not complied with, or if such periodicals are found to contain any writing other than the address, they are liable to full letter rates of postage.

No packet of periodicals can be forwarded through the post if exceeding the weight of 48 oz.

Bound volumes of any periodical published in Canada may be forwarded at the rates and under the conditions described under the article *Book Post*.

**Book Post.**—Books bound or unbound posted in Canada, and addressed to any office in Canada, British North America and the United States, are chargeable with a rate of 1 cent per oz., which must be pre-paid by postage stamps.

Book packets are forwarded by post from Canada to the United Kingdom, and vice versa, by Canadian Steamers only, at the following rates: For each packet Not more than 4 oz. .... 7 cts.

Exceeding 4 oz. and not exceeding 1 lb., 12 " " 1 lb., 25 " " 1 lb., 37 " " 1 lb., 50 "

And so on, adding 12½ cents for each additional half pound, or fraction of half a pound weight.

Book packets, printed matter, or single newspapers can be forwarded from Canada to France, or vice versa, by Canadian Steamers only, at the following rates:—

If not exceeding 2 oz. in weight, ..... 5 cents.  
If exceeding 2 oz. and not exceeding 4 oz. 10 " " 4 " " 8 " 20 " " 8 " " 1 lb. 40 "

And so on, adding 20 cents for each additional ½ lb. or fraction of ½ lb.

**A.** The patterns or samples must not be of any intrinsic value; and this rule excludes all articles of a saleable nature, and whatever may have a value of its own, apart from its mere use as a pattern; nor must the quantity of any material or article sent as a pattern or sample be so great that it could have on this ground an intrinsic value.

**B.** The patterns, &c., must be sent in covers, open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and such like, which cannot be sent in open covers, may be enclosed in bags of linen or other material, simply tied at the neck; but bags closed against inspection, although transparent, must not be used for the purpose.

**C.** There must be no writing or printing other than the address of the person for whom the packet is intended, the manufacturer's or trade mark and number, and price of the article.

**D.** Any infringement of the above regulations will render the packet liable to be treated and charged as a letter.

**E.** The rule which forbids the transmission through the Post of any article likely to injure the contents of the mail bags, will apply to patterns and samples; and any package transgressing this rule is to be sent to the Postmaster General.

5. The book post rate between Canada and the United Kingdom remains unaltered at 7 cents, for a packet weighing not more than 4 ounces:—

- For a packet exceeding 4 oz. and not exceeding ½ lb.—12½ cents.
- For a packet exceeding ½ lb. and not exceeding 1 lb.—25 cents.
- For a packet exceeding 1 lb. and not exceeding 1½ lb.—37½ cents.
- And so on, adding 12½ cents for each additional ½ lb. or fraction of ½ lb. weight.

6. No prints or printed matter will be allowed to pass by book post between the United Kingdom and Canada, unless printed on paper, parchment or vellum.

7. As regards book packets posted unpaid or only partially pre-paid, the following rules are laid down by the Imperial Post Office:—

When a book packet is posted in the United Kingdom for Canada, or in Canada for the United Kingdom, either wholly unpaid or pre-paid less than a single rate of book postage, it is to be forwarded to destination charged with double the amount of the book postage rate on the packet—deducting, however, the amount of postage actually pre-paid, if any has been pre-paid. But if the partial pre-payment of a book packet amount to a single rate, then the book is to be forwarded charged with additional postage equal to the deficiency, and another single rate as a fine.

**MONEY ORDERS.**

Post offices in Canada at which money orders are issued and paid, are distinguished in the List of Post Offices by being printed in *italics*.

Every money order office in Canada issues money orders on every other money order office in Canada, as well as on every money order office in the United Kingdom. Every money order office in the United Kingdom also issues money orders on every money order office in Canada.

The rate of commission charged on money orders drawn by one money order office in Canada on any other money order office in Canada, is as follows:—

|                                             |          |
|---------------------------------------------|----------|
| If not exceeding in amount \$10 .....       | 5 cents. |
| Exceeding \$10 and not exceeding \$20. .... | 10 "     |
| " 20 " " " " " " " " " " " "                | 20 "     |
| " 40 " " " " " " " " " " " "                | 30 "     |
| " 60 " " " " " " " " " " " "                | 40 "     |
| " 80 " " " " " " " " " " " "                | 50 "     |

Money orders on the United Kingdom are drawn in sterling money, and may be for any sum from one shilling to ten pounds. They must not, however, exceed the latter amount; but postmasters are at liberty to issue two or more separate orders for ten pounds each or for any smaller sum.

The rate of commission charged on orders on the United Kingdom, over and above the currency value of the sterling, is as follows:—

|                                            |         |
|--------------------------------------------|---------|
| For orders not exceeding £2 sterling ..... | 25 cts. |
| Exceeding £2 and not ex. £5 stig. ....     | 50 "    |
| " 5 " " " " " " " " " " " "                | 75 "    |
| " 7 " " " " " " " " " " " "                | 1.00 "  |

No half cents can be introduced into orders.

No money order exceeding \$100 in amount can be granted on any office in Canada; but postmasters are at liberty to grant two or more orders for \$10, or for any lesser sum. They cannot, however, grant two or more orders for sums of or under \$30 on the same day to the same applicant in favor of the same payee.

Tables shewing the amount of Provincial currency required for money orders issued in Canada upon the United Kingdom, in addition to the commission, and money orders issued in the United Kingdom upon Canada, will be found subjoined.

Applicants for money orders should always use the printed application forms, in which they should fill up the particulars of the order required. These forms are supplied gratuitously at all money order offices.

The Christian and surnames in full, and residences, both of the remitter and payee, should be furnished to the issuing postmaster. When a married woman is either the remitter or payee, her own Christian name should be given, and not that of her husband, thus—"Mrs. Mary Smith," not "Mrs. John Smith."

If the remitter or payee be a Peer or a Bishop, his ordinary title is sufficient. If a firm, the usual designation of such firm will suffice, such as "Baring Bros.," "Smith & Son," "Jones & Co."

Parties procuring money orders should examine them carefully to see that they are properly filled up and stamped. This caution will appear the more necessary when it is understood that any important defect in these respects will throw difficulties in the way of payment.

Money orders which, in consequence of misapprehension of the name of the remitter or place of payment have been erroneously made out, can be returned to the postmaster, and a correct order given in exchange; a new commission, however, will be charged on the corrected order.

Parties obtaining money orders on Canadian offices can procure re-payment thereof on presentation of the orders at the office at which issued, signing the receipt at the foot. No order, however, can be re-paid without the authority of the superintendent, unless presented for re-payment on the day on which it is issued. Neither can orders on the United Kingdom be repaid without his special authority.

When a remitter desires an order on the United Kingdom to be paid through a bank, it is left to his option to give or withhold the name of the payee, or substitute for the name of the payee any other designation or modification, such as "the Cashier of the Bank of England," "the Chief Clerk of the Foreign Office." Such orders must, however, be crossed by the issuing postmaster with the name of the bank through which the order is to be paid.

The issue of money orders on credit, or for cheques not marked "good" by the bank drawn upon, is strictly prohibited.

If a payee is unable to write, he must sign the receipt at the foot of the order, in the presence of the paying postmaster, by making his mark, to be witnessed by writing; as, for example:—

Witness—John Kenny, His Joseph + Allen. Queen Street, Toronto. Mark.

In cases of money orders issued in Canada, postmasters are at liberty to accept the written order if the payee on the order itself in favor of a second person, if through illness or insuperable difficulty the payee is prevented from presenting the order in person.

When a Canadian money order has been lost, either by the remitter or payee, the circumstance must be made known to the superintendent, who, under certain precautions, will issue a duplicate.

Duplicates of sterling orders can only be granted the paying country. Thus the British post office issues duplicates of orders drawn in Canada on the United Kingdom, and the Canadian Head Money Office grants duplicates of orders drawn in the United Kingdom on Canada.

Money orders which are not presented until one full year after their date are considered as lapsed orders, and cannot be paid without the special permission of the superintendent. In all such cases satisfactory reasons should be given explanatory of the delay in the presentation of the order.

The Deputy Postmasters General of Malta and Gibraltar are authorized to issue money orders on the several money order offices in Canada. Money order offices in Canada do not, however, grant money orders on Malta and Gibraltar.

*General Regulations.*—Postmasters and certain other officers of the department are not exempt from serving on juries or inquests, or in the militia. This exemption applies to mail carriers, but not to assistants appointed and paid by postmasters.

The postmasters of Quebec, Montreal, Three Rivers, and Sherbrooke, and the postmasters of incorporated cities and towns in Upper Canada, divided into wards, and other officers of the Post Office Department, excepting Postmasters at other than the above places, cannot legally vote at the election of any member of the Legislative Council or of the Legislative Assembly.

Postmasters are not authorized to give credit for postage; if they do so it is entirely at their own risk.

A letter once posted becomes the property of the person to whom it is addressed, and must be forwarded according to its direction. On no application, however urgent, can it be delivered back to the writer, or to any other person.

A letter addressed to a firm may be delivered to any member of the firm. If addressed to several persons it may be delivered to any one of them.

A letter delivered to the wrong person in consequence of his name being the same as the one of the person for whom the letter is really intended, should be at once returned to the postmaster from whom received, the party writing on the cover "opened by me through mistake," and signing his name thereto.

Letters posted without any direction or addressed imperfectly that they cannot be forwarded to their intended destinations, and also unpaid or insufficiently paid letters addressed to countries to which letters cannot be sent without the postage is pre-paid, are returned to the writers through the Dead Letter Office.

No information can be given respecting letters which pass through a post office except to the persons to whom they are addressed.

Parties desiring their letters and papers to be re-directed should send an intimation to that effect, in writing, to the postmaster of the office from which the letters and papers are to be re-directed.

Postmasters are allowed to re-direct letters to the known places of residence of the parties to whom they are addressed, after allowing a reasonable time to elapse without their being called for.

Letters and papers are not subject to any additional charge when re-directed from one post office in Canada to another post office in Canada.

Postmasters are instructed not to receive any letter or packet which there is good reason to believe contains glass or anything likely to injure the contents of the mail bag or the person of any officer of the post office.

A postmaster is not legally bound to furnish change, but if absolutely necessary may require that the exact amount of postage on any letter or packet to be tendered to him in current coin, or in Canada postage stamps.

Postmasters and their assistants in the above matter, as well as all their official intercourse with the public, are expected to afford every accommodation, and to treat every person having business at their offices, with the utmost courtesy.

Mail couriers are bound to receive letters offered to them whilst on the road between one post office and another, provided that when a letter is so offered the distance from the nearest post office exceeds one mile. Such letters are termed *Way Letters*, and are subject to the ordinary rates of postage.

*Suggestions for the Public.*—Facility will be given to the post office in the discharge of its daily duties, and greater security afforded to the public, by careful attention to the following recommendations:—

Post all letters and newspapers, &c., as early as practicable, especially when sent in large numbers.

When a number of newspapers are addressed to the same office, put them up in one parcel.

When a number of circulars are posted, tie them up in a bundle, with the addresses all in one direction.

Address letters, papers, &c., in a legible and complete manner, always giving the name of the post office; and if there be more than one post office of that name, the name of the county in which situated. In case of letters going abroad, the name of the country as well as of the town and city, should be given in full. Letters, for example, intended for London, England, if simply addressed "London," would be forwarded to London, Canada West, and thus be delayed.

See that every letter, newspaper, or other packet sent by post, is securely folded and sealed. Every such packet has to be several times handled; and even when in the mail bag, is exposed to pressure and friction. Unless, therefore, the article be light and pliant, it should be enclosed in strong paper, linen, parchment, or some other material which will not readily tear or break.

When dropping a letter or newspaper into a letter-box, always see that the packet falls into the box, and does not stick in its passage.

Never seal letters for the East or West Indies and other hot climates, with wax. Such a practice is attended with much inconvenience, and frequently with serious injury, in consequence of the melting of the wax, and the adhesion of the letters to each other. In all such cases use either wafers or gum, and advise your correspondents in the country referred to, to do the same.

Never send money or other articles of value through the post office, except either by means of a money order or in a registered letter. Carefully secure every letter or packet containing money or value, first with gum and afterwards with good sealing wax, on which make the clear impression of a seal.

In posting a registered letter or packet, always obtain a receipt for the same at the office where posted.

When letters or papers are delayed or missing, at once communicate the fact to the Postmaster General or to the Inspector of the division in which is situated the post office at which the delayed or missing letters were posted. In case of a missing letter enclosing value, state the exact contents, the exact address, and the office at which posted; the name of the person by whom posted, and the name of the person by whom received at the office. In the case of a delayed letter or paper, send the cover or wrapper in an entire state, in order that the place of delay may be ascertained by an examination of the post marks.

Troubles and loss occasionally rise out of the carelessness or dishonesty of parties employed in the post office service; yet instances are not wanting in which it has been shown to the satisfaction even of the complainants, that the fault at first attributed to the post office, in truth rested in other quarters. Thefts by private hands, although very difficult of proof, have not unfrequently been brought to light; and it is greatly to be desired that those who suffer loss should, in the first instance, and while the circumstances are fresh, endeavour to ascertain with the utmost precision all particulars respecting the despatch or receipt of the lost letters or papers, and lose no time in communicating this information to the Inspector. Indeed generally speaking, it is only by careful inquiry into minute details that the offender can be detected, whether he be a servant of the Department or not.

Time is generally required to carry out any material change in postal arrangements; for even when decided upon, old contracts, requiring notice of termination, may have to be got rid of, and tenders for new contracts invited by public advertisement, before the decision can take effect.

New post-offices are established by the Department wherever it is ascertained that a sufficient number of inhabitants can be accommodated, and a sufficient amount of postal revenue collected to warrant such a measure. When a new post office is required, a petition should be addressed to the Postmaster-General, signed by as many of the inhabitants as can conveniently subscribe the same. The petition should state the name of the township and the number of the lot and concession on which it is desired the office should be established; the distance from the neighboring offices; whether at the site of the proposed post office there is

a village; the number of mills, stores, taverns, and houses thereat; the extent of the settlement to be served and the probable cost of the mail; together with any other facts which may form any ground for the accommodation applied for.

**THE MERCANTILE AGENCY,**

Established in New-York nearly twenty-four years ago, on June 1st, 1841, for the promotion and protection of trade, Union buildings, 23 St. Francois Xavier st., Montreal, C. E.

Our object, and that of our eighteen branch and associate offices in the large cities of the United States of America, Canada, and in London, England, is to give information to subscribers of the standing of those who purchase goods on time, or otherwise require credit.

We are supported by fully three-fourths of the merchants, bankers, and manufacturers of every community where our advantages are known.

"This institution, established in the city of New York over seventeen years ago, for the promotion and protection of trade, was the first organized effort ever made to relieve the merchants and manufacturers of the Union from the insecurity of credit operations, and to substitute for the tardy, expensive, and unsatisfactory results of individual investigation, a system that should be alike prompt, economical, and reliable—whose purpose it should be to supply (to subscribers only) all necessary information as to the standing and responsibility of merchants, traders, manufacturers, public companies, &c., throughout the United States, their Territories, and British North America."

Collections of past due debts particularly attended to for all, whether subscribers to the Agency or otherwise.

Terms of subscription will be made known at the office, where we shall be much pleased to afford information as to the system pursued, and to give (free of expense) to those who contemplate joining the institution a reasonable test of the correctness of our reports.

# SELECT GRAMMAR SCHOOL,

CONDUCTED BY

REV. J. A. DEVINE, A.M.,

*King's College and University, Aberdeen.*

**No. 59 GERMAN (near Dorchester) STREET.**

THE course of Study pursued in this School embraces the ordinary branches required for Mercantile Pursuits, as well as the higher departments of Classical and Mathematical Learning.

The immediate province of Education being the formation of suitable Moral and Intellectual Habits, rather than the mere memorial accumulation of facts, due attention is paid, both in the classification of the Pupils, and in the direction of their Studies, to this primary object.

It is deemed necessary to recommend, on all fitting occasions, the fear of God and the love of our neighbour, as the only safe foundation on which learning can rest. Parents and other Guardians of Youth are respectfully invited to visit the School, as, by inspecting the ordinary daily routine of the Classes, a better opportunity of testing the merits of the system of teaching, and the actual proficiency of the Pupils, is obtained, than by *Stated Exhibitions*, at which a correct estimate of comparative merit can with difficulty be formed.
