A RARE CHANCE FOR INVESTMENT

Canada's Victory Bonds Pay High Rate of Interest and Are Absolutely Safe

Canada is about to launch her third popular loan. The first loan of \$100,000,000 was made two years ago, when \$50,000,000 was asked for and was over-subscribed within a week. The second loan was asked for a year ago and the hundred million dollars' worth of bonds were quickly taken up. The interest offered paid the investors a better return than any other sound investment, while the security was the firmest in the world.

The loan about to be launched calls for \$100,000,000 and Canada's Victory Bonds are offered as the safest and most profitable investment ever offered to the people. The bonds are issued in denominations of \$50, or any multiple of \$50, \$100, \$500 and \$1,000 and they bear interest 5 per cent. The bonds are issued for terms of 5, 10, 15 and 20 years. The short term bonds are issued at par, while those of longer time may be bought for 96 or 95 cents on the dollar. They will thus draw interest of nearly 5 per cent. And again, to the public is pointed out the fact that the security is the very best in the world.

Those having small savings on deposit in the banks as well as those having thousands have now offered to them an absolutely safe investment that pays them almost double the interest a savings bank affords. Should those who have funds of long period desire to use the money they represent, they may simply deposit their bond with any bank and be credited with the amount originally paid for the bond. The holder of any Victory Bond can raise the cash he invested just as quick as he can get to any chartered bank. The county of Carleton is expected to invest somewhere around \$450,000. The parish of Brighton is expected to invest \$35,000.

Tory Criticism of Carvell

The following is from the Conservative Toronto News:

As for Mr. Carvell's position, no man in the new government has been actuated in accepting office by higher motives or more intense patriotism. Acceptance of office under Sir Robert Borden was an exceedingly serious step for him and he has made the move with no mere desire to secure a portfolio. Mr. Carvell is not built that way. He realized that as far as his own province was concerned he would be doing the popular thing to refuse the office, that he would be flying in the face of public opinion, and that he would be endangering his own political future. He has entered the new union government only from a sense of patriotic duty. He will devote himself to his portfolio with all his intense energy, great capacity and almost passion for work. He will give the country his best, and he will give Sir Robert Borden loyal support, no Conservative need doubt that. He would never have entered the government if he had not been impressed by Sir Robert's earnestness, sincerity and patriotism in his desire to form a union government.

Tapley Found Not Guilty

The jury in the case of James Tapley charged with the attempted poisoning of Jonathan and Robert Shannon, reached a verdict of "not guilty." So far as any comment can be made the verdict was a genuine surprise. It is said that the best the defence looked for was a disagreement. As an illustration of the intensity of the feud that exists between Tapley and the Shannons some jurors asked to be excused from acting on the case, as they lived in the vicinity of the belligerents, and did not wish to take any chances by expressing an opinion on the case.

by it was national e. certain the proposa. being made to him to this end. "After very careful consideration, Mr. Carvell accepted the invitation to join the government, and he now fills the important position of minister of public works. "I am satisfied that Mr. Carvell and his Liberal associates in the new government are actuated by the highest patriotic motives. I know that their desire is, and their aim will be, to consecrate, not only the man-power of the country, but the wealth, the vast agricultural, industrial and other resources of Canada to the mighty task which lies before us.

In conclusion, permit me to add that Liberals who support Mr. Carvell as a minister in the union government, will not thereby cease to be Liberals, any more than Mr. Carvell will cease to be a Liberal and a valiant and fearless champion of Liberal principles. For the duration of the war and for that period only, Liberals and Conservatives alike are asked to sink their party differences in a united effort to win the war."

Opportunity for Dental Work

Dr. Manzer has returned to Woodstock and will resume his practise in dental surgery. For the past year Dr. Manzer has been serving as a Captain in the Canadian Army Dental Corps and his great experience has added more to his already long experience in dental work and head surgery. His experience in anaesthetics, especially gas, has been enormous, handling hundreds of patients monthly in the Army Hospitals. He is anxious to procure all the difficult cases possible. His equipment is of the most modern type and as in the past he guarantees all his work to be of the best. Gas and ether administered. His famous anaesthetic, "Itdonhurt," for the painless extraction of teeth has greatly improved upon. Artificial teeth; gold, silver, the new porcelain and cement fillings inserted; Crown and bridge work. His motto is quality and not quantity of work. Office at his residence, Chapel Street, which faces the Post Office and is opposite the Turner House and Armoury, Woodstock, N. B.

Kidney Disease Overcome

Mr. James Proase, cattle dealer, Sheho, Sask., writes: "For about ten years I suffered from Kidney trouble, at times I was bad with back-ache, and derangements of the digestive organs. During that time I was treated by four different doctors. One day I read in Dr. Chase's Almanac about the Kidney-Liver Pills and began to use them. Altogether I used six boxes. All I need say is that I feel well now and attribute this condition to the use of Dr. Chase's Kidney-Liver Pills."

Why Canada Needs More Money

UP to date the war has cost Canada about \$700,000,000. Canada has spent in Canada over \$400,000,000 on her own account. Canada has spent in Canada on behalf of Great Britain over \$300,000,000. What Canada spends for Great Britain is really loaned to Great Britain and will be repaid or credited to Canada later on.

Great Britain needs so much ready cash to finance her own expenditures at home for herself and for our Allies that she must buy on credit from Canada, and from every other country where she can get credit.

Of course Great Britain's credit is so good that other countries, in order to get her trade, are quite as willing to give her credit as we are in Canada.

Canada wants to help Great Britain not only because Canada wants Britain's trade but because we are Canada and she is Great Britain—both members of the same Great Empire, kin of our kin, our motherland.

For Canada it is both a filial and patriotic duty to supply Great Britain's war needs and remember, her needs are our needs. Also it is in Canada's self-interest to supply those needs and thus keep open a market for our products.

Now, Britain needs our wheat, our cheese, cattle, hogs, and many manufactured articles.

Canada also needs many of these things—between the two it amounts to more than a million dollars a day in cash.

And the producers must be paid in cash.

Neither Canada nor Great Britain could go to a Canadian farmer and buy his wheat or his cattle on credit.

The farmer and all other producers might be ever so willing to give their country credit but they could not do it because they have to pay cash for wages,

for rent, materials, etc. They must be paid in cash, or its equivalent.

So Canada says to Great Britain:—"I will lend you the money so that you can pay cash to Canada's producers for what you want."

"I will borrow this money from our own people just as you borrow money from your people."

"I will also borrow from the people of Canada money to pay cash for all the products that Canada, as well as Great Britain, needs in Canada."

That is Canada's practical, patriotic part in helping to win the war.

Without this credit the Canadian producer could not sell to Great Britain, and without these Canadian products the war would be prolonged.

So it is necessary for Canada to give to Great Britain the credit in order that Canada's own producers, who need a market, will have one; and in order that Great Britain which needs the products to win the war, will get them.

Now how does Canada get the money by which both Canada and Britain can pay cash for Canada's products?

By borrowing it from the people of Canada through the sale of Canada's Victory Bonds to be offered in November.

That is why Canada's Victory Bonds are offered to the people—to raise money to help to finish the war.

"Canada must keep her shoulder to the wheel even though it be a chariot of fire," and the way for Canada to keep her shoulder to the wheel is by buying

Too Sick To Work

Many Women in this Condition Regain Health by Taking Lydia E. Pinkham's Vegetable Compound.

Convincing Proof of This Fact.

Ridgway, Penn. — "I suffered from female trouble with backache and pain in my side for over seven months so I could not do any of my work. I was treated by three different doctors and was getting discouraged when my sister-in-law told me how Lydia E. Pinkham's Vegetable Compound had helped her. I decided to try it, and it restored my health, so I now do all of my household work which is not light as I have a little boy three years old."

Mrs. Lindsey Now Keeps House For Seven.

Tennille, Ga. — "I want to tell you how much I have benefited by Lydia E. Pinkham's Vegetable Compound. About eight years ago I got in such a low state of health I was unable to keep house for three in the family. I had dull, tired, dizzy feelings, cold feet and hands nearly all the time and could scarcely sleep at all. The doctor said I had a severe case of ulceration and without an operation I would always be an invalid, but I told him I wanted to wait a while. Our druggist advised my husband to get Lydia E. Pinkham's Vegetable Compound and it has entirely cured me. Now I keep house for seven and work in the garden some, too. I am so thankful I got this medicine. I feel as though it saved my life and have recommended it to others and they have benefited."

GLENN NOT GUILTY

Woodstock, Oct. 17—"Not guilty on the grounds of insanity" was the verdict brought in by the jury after being out twenty minutes, this afternoon, in the case of William Glenn, charged with the murder of Harry Wiley. The fact that Glenn killed Wiley was not disputed by the defence but the question was raised as to whether, at the time of the murder, the defendant knew that he was committing a wrong act. In his charge to the jury, Judge Chandler pointed out that it was not the law that an insane man can kill another man and not be punished for it and that it was the duty of the jury to decide whether, or not at the time when Glenn shot Wiley, he understood the nature of the his deed and knew that he was doing wrong. The jury decided that the murderer was irresponsible.

At the morning session three witnesses for the prosecution, Guy Welch, William Love and Alexander Quigg, gave evidence as to seeing the body of Wiley, and the crown then closed its case. Hon. F. B. Carvell opened for the defence, and in outlining his case, said that the defence did not deny that this unfortunate affair had not occurred and the shooting had been done by the accused. If this man, Glenn, was insane he was not guilty of murder. Dr. W. D. Rankin swore that he had seen Glenn several times and asked him questions and found his mind quite unbalanced.

He first saw him three weeks after the crime and in recent visits had noticed no change in him. He seemed indifferent to his surroundings and that he continually heard voices of people who were talking about him and making accusations against him. He did not seem to appreciate his situation. The witness said the prisoner did not try to deceive him but was indifferent to his situation. He did not think the prisoner was cognizant of right and wrong.

H. V. Moores, deputy sheriff, related particulars concerning the arrest of Glenn. Witness said he was the jailor and saw Glenn three or four times a day. He never talked about the case, reads some and is very slow in answering questions. Elmer Glenn, a brother testified that his brother had changed greatly and seemed to want to be alone always. While working in the woods he carried his rifle from tree to tree as he said the spies would get it he left it down any place. He went to his brother's house after the murder and got the rifle away from and gave it to Sheriff Foster. He had not known him in two years to eat anything unless prepared by himself.

Dr. A. V. Anglin superintendent of the provincial hospital, gave evidence in the afternoon. He saw the prisoner in August and, after a conversation, concluded he was abnormal. He had hallucinations heard voices and said that there were "sneakers" about his house. The witness said that many of the insane could distinguish between right and wrong, can discuss some matters and still be insane. It was quite possible that at the time it was an impulsive act. He considered him insane at the time.

The witness, in reply to Attorney-General Byrne, said he might be insane and know that it was a wrongful act to shoot a man. In this case it was the act of an insane man not an insane act.

To Mr. Carvell, so far as this man was concerned he was not prepared to say whether he knew it was right or wrong.

Several other witnesses called by the defence, all testified the eccentric actions and habits of the accused.

Mr. Carvell addressed the jury for fifty minutes, went into the evidence in detail and said there was every indication the ac-

cusced was not responsible for the crime.

Attorney-General Byrne followed with a forcible argument in which he claimed that Glenn knew what he was doing when he shot Harry Wiley.

Judge Chandler, in his charge to the jury said, "We have arrived at the conclusion of a very important and serious case that requires most careful consideration. So far as the mere fact is concerned you are the sole judges. The duty of the judge is to construct the jury in matters of law. You can adopt your own views of the facts. You have to come to a conclusion that William Glenn did kill Harry Wiley—this is not disputed. The accused puts up defence that at the time of commission of the crime he was insane."

"As a matter of law merely saying a man is insane is not sufficient. It is not the law that an insane man can kill another man and not be punished for it. Did William Glenn, when he shot Harry Wiley on June 23, understand the nature of the act—or if he did understand did he know he was doing what was wrong. This is the question for you to decide."

The jury retired at 8.30 and returned in twenty minutes with the following verdict—"Not guilty on the grounds of insanity."

The judge ordered that Glenn be kept in strict custody in the common jail, county of Carleton, under charge of the sheriff until the pleasure of the lieutenant-governor is known.

The court room was crowded at the evening session when the verdict was announced Glenn did not display the slightest interest and never moved from the position he took when he was brought in until the trial was over. He has been sent to the provincial hospital.

Severe Headaches and Pains in the Back

Resulted From Deranged Kidneys and Constipation of the Bowels.

It is in vain to try to regulate and restore the healthful action of the kidneys until the liver and bowels are set right. And just here is where so many kidney medicines fail. Kidney derangements almost invariably begin with constipation and torpidity of the liver. The whole work of filtering the blood is thrown on the kidneys, and in time they fail to stand the strain. The poison in the system gives rise to severe headaches, pains in the back and tired, depressed feelings. Because they act directly on the liver and bowels, as well as on the kidneys, Dr. Chase's Kidney-Liver Pills are eminently successful in the treatment of kidney derangements.

Mr. William Loney, Marvyle, N.B., writes:—"I am glad to recommend Dr. Chase's Kidney-Liver Pills to anybody who is suffering from kidney trouble or constipation. I suffered for a long time from kidney disease and pains in the back, but have found that by using one pill a week the kidneys and bowels are kept in good order, and I do not have any more pains in the back or head like I used to have. I was also a great sufferer from piles and could get no relief until I used Dr. Chase's Ointment. This ailment is entirely cured now, but we always keep both the pills and the ointment in the house for use when they are needed."

This statement is endorsed by Mr. F. Saunders, Town Marshal, who writes that Mr. Loney's letter is true and correct.

Exemption Tribunals.

Exemption Boards have been chosen in such a way as to make them absolutely independent and removed from all influence. There are over 1,250 boards throughout the country, each composed of two men, one appointed by the county judge in the district concerned and one selected by a joint committee of Parliament. Being familiar with local conditions where they sit, the members are well-fitted to appreciate such reasons for exemption as are put before them by men called up.

Exemption will be granted to those who can establish that it is in the national interest that they remain in civilian life. This is for the Exemption Board to decide after having received full information in each case.

The grounds on which exemption may be claimed (which are similar to the grounds recognized in Great Britain and the United States) are as follows:—

- (a) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (b) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he wishes to be engaged and for which he has special qualifications.
- (c) That it is expedient in the national interest that, instead of being employed in Military Service, he should continue to be educated or trained for any work for which he is then being educated and trained.
- (d) That serious hardship would ensue if the man were placed on active service, owing to his exceptional financial or business obligations or domestic position.
- (e) Ill health or infirmity.
- (f) That he conscientiously objects to the undertaking of combatant service and is prohibited from doing so by tenets and articles of faith, in effect on the sixth day of July, 1917, of any organized religious denomination existing and well recognized in Canada at such date, and to which he is in good faith belongs.
- (g) That he should be exempt because disfranchised under the War Time Election Act.

No Claim for Exemption should be put forward unless one or other of these grounds in fact exists, and no loyal citizen should assist in, or allow himself to be made a party to, any Claim for Exemption unless thoroughly satisfied that it is made in good faith.

Exemption may be applied for by the men selected themselves or by their parents, near relatives or employers. Application for exemption must be made on printed forms to be found at every post office, which are to be filled in and left with the postmaster if exemption is desired. The postmaster will forward the form to a Registrar, who will send it to the appropriate Exemption Board. In due time, then, the Applicant will get notice as to when he must present his case before the Board.

SCOTT SIPPRELL WRITES AGAIN

Following is another letter, written by Scott Sipprell of Hartland who went west on the harvest excursion and is having the time of his life:

On our trip across the prairie, we passed a cattle ranch of 2400 head—a pretty sight. No meatless days out here was the thought that came to me. These cattle were rounded up to be dipped for a disease. They are taken one by one and dropped in a large tank about twice a year. This tank of course is filled with water containing chemicals of antiseptic nature. On our way we came to some dead calves that died of a disease called black leg caused, so cattle men say, from getting too fat. They are so fat they can hardly walk. I saw some spring calves that were larger than ordinary cows in the east. For this distemper, they have to vaccinate in time to do any good but this is neglected and then serious losses are met with. We saw a good sample of this before the end of our trip. We see many skeletons of the old celebrated buffalo; saw some horns and skulls that measured two feet across. I picked up a pair of horns in quite good shape. Their old trails are very plain yet—grown up with a white top grass—and their old licks around sloughs and rocks from one to three feet deep. Saw many of them.

On another trip to the town of Delia we passed what is called the hand hills, shaped like a hand. We saw several Coyotes and in the trail a badger. They are very numerous and a great nuisance; they dig so many holes to fall in. It's quite a high altitude in these hills and you can see the mountains on a clear day. We passed the forest of the land which some day will be used for farms which will be a pretty layout for farms. The coal mines near Delia are quite worth your while to see. You can get coal here most any old place from three to five dollars a ton delivered and if you wish you can take a pick and team and go and get it yourself. These little prairie towns have almost everything in four years, as that is their age on the C. N. R. They have from three to six small grain elevators, good hotels, bank, drug stores, churches and movies, sure and automobiles—from two to three garages in every town and repair men scarce. There is a great chance for auto business out here as they are just what farmers need, as they have so far to travel and you can run them fine over the old trails; in fact you can run them over the prairie most any old place. We did, at least, chased coyotes and other small animals in them. We now are on our way to Calgary. Started in the morning train so we can see the country. Saw many good crops of wheat. Hundreds and thousands of acres still in the stock and not many machines in sight. Will take three weeks to clean up if they can get machines to do the work and men are not very plentiful. Saw a little girl about twelve years of age driving a four horse team ploughing. Her brother had gone to war and she took his place on the farm. One great draw back they have out here and that is bad water and no water at all. They have to bore wells two hundred and fifty feet and then quick-sands plug in and stop the flow. Some have spent six or seven hundred dollars and no water. Have to go two miles and dig in the valleys, and catch rain water for their stock and house use.

Seems to be good crops east and south of Calgary and around Lethbridge. One machine there threshed out 5,900 bushels of oats per day for 29 days, and 2,700 of wheat is the average threshing per day when the crop

Advice The Use Of "FRUIT-A-TIVES", The Famous Fruit Medicine.

MR. ROSENBERG 269 Caspary St., Montreal. April 30th, 1915.

"In my opinion, no other medicine in the world is so curative for Constipation and Indigestion as 'Fruit-a-tives'. I was a sufferer from these complaints for five years, and my sedentary occupation, Music, brought about a kind of Intestinal Paralysis—with nasty Headaches, belching gas, drowsiness after eating, and Pain in the Back. I tried pills and medicines of physicians, but nothing helped me. Then I was induced to try 'Fruit-a-tives', and now for six months I have been entirely well. I advise any one who suffers from that horrible trouble—Chronic Constipation with the resultant indigestion, to try 'Fruit-a-tives', and you will be agreeably surprised at the great benefit you will receive". A. ROSENBERG. 50c. a box, \$5 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Ouch! Ouch! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Chemist and authority, who claims that a few drops of a drug called Treosone when applied to a tender, itching corn stops soreness at once, and soon the corn dries up and lifts right out without pain. He says Treosone is an alkali compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of Treosone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

is any good. This year they are only getting 15 to 28 bushels per acre. Around Calgary is a beautiful prairie country, very level in the east and good water that come from the mountains. The Bow river and the Elbow water is so blue and bold you can hardly drink it at first. On arriving in the city I first came across Dorian Grey. Had a long talk with him and looked down the street and saw Abner Stewart. Same old Ab with moustache big as ever. So we had to stop and talk another hour. They are looking well and enjoying life out here, and made many enquires of their friends in the east.

On Guard at the Reading Gate

It is a fine thing to guard our homes against alien soldiers of

whose purposes we are well aware. But it is also very important to guard them against other, insidious foes that creep in under the disguise of friendly entertainers to plunder and destroy the cherished ideals, the lofty standards, the clear views that have given the home its character.

If you will familiarize your young people with the best reading, they will not be likely to crave what is inferior and demoralizing. The Youth's Companion has a powerful influence in awakening a taste for what is best in reading. It is on guard at the reading gate! Nothing cheap, mean or hateful passes its challenge. But neither does the crabbed and dull and austere. Cheery idealism is The Companion's countersign. Put it on guard at your reading gate!

The Companion is \$2.25 a year. If you do not know it, by all means send for sample copies giving a Forecast of what the next volume will bring.

Our offer includes, for \$2.25:

1. The Youth's Companion—52 issues of 1918.
2. All the remaining issues of 1917.
3. The Companion Home Calendar for 1918.

Thomas H. Turney

Thomas H. Turney of Waltham, Mass., died in the hospital after a long illness, on Saturday, Sept. 29, aged 52 years. He is survived by his wife, who was Miss Olmstead of Wicklow, and two daughters; also one sister, Mrs. John Harper of Jacksonville and one brother, Duncan Turney at Manitoba. Mr. Turney was born in Richmond, but has lived in Waltham for some years. The remains were brought to Woodstock on Wednesday, Oct. 3, accompanied by his daughter. Service at the grave was conducted by Rev. L. A. Fenwick of Jacksonville; interment was in the Turney burial lot in the Methodist cemetery. The pall bearers were two brothers-in-law, John N. Harper of Jacksonville, and H. S. Olmstead of Wicklow, and two cousins, H. H. Estabrooks of Wicklow and Samuel Trnney of Woodstock. Many beautiful flowers were sent by relatives and friends.

Oh! My! That Smells Good!

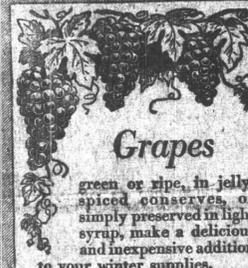

And, madam, you should just smell the fragrance of crushed coffee after it is brewed. And the flavor of it! Well, you never tasted ground coffee with a flavor just like Red Rose Coffee. Coffee critics, those who have travelled far and wide and tasted coffees in various climes, tell us they have never tasted more delicious coffee. Some have even said—but we will refrain from printing such high praise. We prefer you to try Red Rose Crushed Coffee without seeing anything further as to its quality. We don't want to take all the edge off the surprise in store for you, when you try it. And the same price it was three years ago.

Fall is the Ideal Time to Paint

Unprotected surfaces decay rapidly, so prepare your property for winter by painting this fall. The wood is free from frost and dampness and the pores are more receptive, enabling the paint to penetrate deeper. Summer heat has passed, flies and insects have gone and ideal painting weather has set in.

B-H "ENGLISH" PAINT

70% Pure White Lead 30% Pure White Zinc 100% Pure Paint

This is the paint that is giving Canadians from coast to coast entire satisfaction. It is made according to the formula which scientific tests and many years' experience by practical painters prove to be the best for Canadian weather conditions.

It contains 70% Brandram's Genuine B.B. White Lead and 30% Pure White Zinc—the world's two standard paint materials. These materials, ground and mixed by our special methods, produce a paint that has maximum penetration, works easily, and lasts longest.
