time to lose.

The first section of the St. Andrews and experience of other countries have failed to instruct us. We have forgo ten nothing that is old, and learned nothing that is old, and learned nothing that is old, and learned nothing that is establish a connexion with this line. They were a ferging to rulroad construction, has already, in spite of grave pecuniary obstacles put himself in commercial connexion with a principal empirium of a sister Privince—ne has tapped the St. Lawrence—in the said when comparatively sparsed to the first stime they have been reserved. The solution of the said to we have a forgo the normal destroy of this road to thank for having saved them the plans furnished, for the Quebec and Richmond Railway, and also the increase of this road to thank for having saved them the plans furnished, for the Quebec and Richmond Railway, and also the increase of this road to thank for having saved them through the plans furnished, for the Quebec and Richmond Railway, and also the increase of this road to thank for having saved them through the plans furnished, for the Quebec and Richmond Railway, and also the increase of this road to thank for having saved them through the plans furnished, for the Quebec and Richmond Railway, and also the increase of the operations at the position of the stablish a connexion with a principal empiricant of grave pecuniary obstacles, put himself in commercial connexion with a principal empiricant of a sister Privince—in has all the total decision to the series of the projectors and between the plans furnished, for the Quebec and Richmond Railway, and also the increase of the population of the stablish and to make the from £6,000 to £8.

Support the plans furnished, for the Quebec and Richmond Railway, and also the increase of the population of the stablish and to make the from £6,000 to £8.

Support the plans furnished for the decision of the stablish and forms on the first made for the material from £6,000 to £8.

Lawrence it will have the plans furnished for th Itad New Brunswick been true to uself, this have [Portland & Montreal] would still be a project in embryo. Our neighbour has all along kept an eye on our movements, and silled country—and a considerable portion of it in a valley between mountains where the succeeded in occupying a field, which we by relationship and interest should have occupitry, ich in varied elements of unlimited and Landau project in embryo. Our neighbour has all that it may send fleets into the Black Sea of that it may send fleets into the Black Sea of that it may send fleets into the Black Sea of the country—and a considerable portion of it in a valley between mountains where the country is still a wilderness, except a narrow beta along commercial tity, and a great country. The Vicina Pairie of the 21st states that assume the effective cross the Droube, and a sum the fleet of the Turks will sell by strength to the Russian Army have received orders to assume the effective cross the Droube, and a Black Sea of the Capital exposed Auction, at his Sales Room, on FRIDAY.

The St. Lawrence & Atlantic railroad and Co. are tulning then engaged.

The Gazette says:

"By the contract they are bound to provide without fear of leaving the Capital exposed Auction, at his Sales Room, on FRIDAY.

The St. Lawrence & Atlantic railroad and Co. are tulning then trailed country—and a considerable portion of the action of the country is still a wilderness, except a narrow better they have saved this expense by not having the Russian Army have received orders to a sum the engage.

The St. Lawrence & Atlantic railroad and Co. are tulning the country in the provide without fear of leaving the Capital Sales Room, on FRIDAY.

By the contract they are bound to provide without fear of leaving the Capital Sales Room, on FRIDAY.

The St. Lawrence & Atlantic railroad and Co. are tulning the country without fear of leaving the Capital Sales Room, on FRIDAY.

The St. Lawrence & Atlantic railroad and Co. are tulning the contract they are bound to provide without fear of lea

mic an many. It modifies taitifs and intro-duces responsible government against its duces responsible government against its a linguistic with also her chief com-will. It provides for municipal institutions mercial emporium intends giving the upper which scarcely anybody will accept it op-goses commercial freedom, and asks for a pose, by less scrupulous relatives. It would be ungrateful in our neighbor not to accept the provided freedom, and asks for a free reciprocity, which would go far to the. ultimately lead to the same thing. It pro the guardon will ere long be duly required laws, and is itself one of, it not the cheapest ship building country in the word, It would at the door of St John. But here a quershackle commerce, when itself is geographically and essentially commercial. It grumbles when class interests are menaced, although the supercondendation on these interests, by a "the European & North American railroad" relaxation of restrictions is proved by experience as well as principle, to be a general benefit. It does something for railroads against
St. John & Shediac Railroad,"—and find is own scepticism, but, as to the location, it guils enough to sanction it? When the U. quietly submits to a dictator (St. John) who is as much at cross purposes with his own a State Bank under the same name was interest, as itself. It is precisely because it chartered. Foreign holders of stock were has no faith in railroads wherever built, that not generally aware of the difference .has no faith in railroads wherever built, that hot generally aware of the otherwise is indifferent to the place where, or who second lects. This will probably go on till the counties. This will probably go on till the counties. This will probably go on till the counties of this sort about to this County. We understand our friend John be enacted in New Brunswick? If so, it fish and miserable empiricism. Railways will be public, not individuals that will be discussed in the counties of fish and miserable empiricism. Railways will be public, not individuals that will be discussed in the counties of fish and miserable empiricism. Railways will be public, not individuals that will be discussed in the counties of fish and miserable empiricism. fish and miserable empiricis are too costly a luxury to be trifled with with victimised, impunity. Such a people if they prosper, raust prosper, because their natural advantages are great, and in spite of themselves.

How much greater would be their prosperity, if they did not out themselves in configuration. if they did not put themselves in conflict with

sound principles of progress? The newness of the country, its varied resources, its natural facilities for internal and external traffic, and the native, though isolated and too often misapplied vigor of the people, are more than a match for their want of as usual, but touches upon every subject of independent and concert in internal and exterimprovements. What the people are, the legislature is-the one reflects the other -to know the legislature, is to know the age in a mirror. Our neighbours deride us the Message :tion, and profit by our ignorance and apathy
They have cajoled us to bear the bush with
men beyond the limits fixed by the Convenyears of hard struggling, they find themselves in the fruition of their labors, and all the better able to enter on new enterprises, whilst shem in bing jealousy, have produced a confusion of ideas, in the public mind, and described its capacity for any great undertaking demand days the general good. Every thing belonging to public wants is seen through the advantage of having the first Railroad to perverted medium of an inveterate selfhood, which confound public requirements with supposed individual or sectional interests -There is therefore imminent danger that any

WEDNESDAY, DEC. 14 1853.

THE PRESIDENT'S MESSAGE. - We have received this document, which is not as lengthy mends a reduction of the Tariff-the subject of greatest interest to this Province is the people, just as a man recognizes his own im-

> men beyond the limits fixed by the Conven-Provinces, a negociation has been opened with a fair prospect of a favourable result."

we are debating about where to begin, or whether on our own credit and resources, we shall begin at all or not. "Kate is crazed." spected correspondent "Orthos" in our co-Individualism, sectionalism, partizanism, and lumns to-day. He is intimately acquainted a benumbing jealousy, have produced a con- with the subject he treats on-Railroads; we

The Weather for the last week, has been There is therefore imminent danger that any expensive acheme of railroad construction will, by its mis-location, prostrate the public and mornings were cool, but during the day, by extra-provincial expital—and of this, any present hope, since the explosion of the E. The rivers and lakes are open and there is snow on the ground. It is possible we may have "a green christmas"—which the old Thursday mornings and notypone for have "a green christmas"—which the old Thursday mornings and anxiety, notwithstanding the recomposite of the colors and mornings were cool, but during the day, editorial.

SEVEN DAYS LATER!

ARRIVAL OF THE NIAGARA!

The Mail Steamer "Niagara," with English dates the 26th ult., arrived at Halifax on and Portugal again spoken of.

Thursday mornings, at halifonst ten order. exceedingly fine for the season, the nights means, embarrass finances, and postpone for have "a green christmas" - which the old Thursday morning, at halfpast ten o'cluck years to come what we imperatively require saw has it, makes "a fat church yard," be She had ninety through passengers.

and that is, a railroad connexion with the this as it may, the weather for the season is

decided at one sitting, by two or three competent and disinterested men - and rightly.

A railroad to connect the Bay of Fundament they were in forecast to the great masses, big only were in forecast to the great masses, big only were in forecast to the great masses, big only were inforecast to the great masses, big only which advancing into the forest; and clined to consider it. Note therefore were generally very firm, but only were information of the Canadian Trunk scheme or one two locomotives running on the anew Ang o Proch note, but the Brigans, aged 14.

I seath to desire than the crowd in the mean time diplonacy in the destructions, but in the mean time diplonacy in the destructions, but in the mean time diplonacy in the destructions, but in the mean time diplonacy in the destructions, but in the mean time diplonacy in the destructions, but in the mean time diplonacy in the destructions, but in the mean time diplonacy in the destructions, but in the mean time diplona only twenty three years since the first locomotive ran upon a railroad—and now the U. S. alone have fourteen the usand miles a year since their first railroad in 1834, and mearly as much more in progress and projected.—
Now all the world is claimorus for railroads. Whence this change in the public sentiment?

Have railroads anywhere been a balare?—
Some particular horse have failed to realize the anticipations of their projecters from injudicious location, or it may be, have been as perspected by inore judicious rouses. With the history of railroads before it, No. B use perseded by inore judicious rouses. With the history of railroads before it, No. B use the first railroad of their project railroads before it, No. B use the project of railroads before it, No. B use the project of railroads before it, No. B use the first railroad of their project railroads before it, No. B use the first railroad of the railroads of their project railroads before it, No. B use the project of railroads before it, No. B use the project of railroads before it, No. B use the first class comparation of our own can prevent this consummation, and that too at an early day. There is no of the project of small—the Povince too poor—to justify the expanse of their project and not provide the project of provided the consumption of the project of the spirited and project of the undertakings of the spirited and solidity, which has challed the card for the undertakings of the spirited and solidity, which has challed the contract of the undertakings of the spirited and worthy contractors. They do not recommended the undertakings of the spirited and worthy contractors. They do not recommended the undertakings of the spirited and worthy contractors. They do not recommended the condition of the project of firm and worthy contractors. They do not recommended to the contract of the undertakings of the spirited and worthy contractors. They do not recommended to the contract of the undertaking of the undertaking of the profit of an authority of the con the Province too poor to justify the expense and that too at an early day. There is no and capitalisis Jackson & Co. say as much have learned to swim before it will be safe to venture into the water. The example and to venture into the water. The example and the first section of the St. Andrews and respecting their Canadian works? It ap-

are consequently, left to the rule of thumb as to grades, and get through culvert work in a way which has not yet been seen, even on what Mr. Jackson "in true English style," calls "one of your Yankee roads."

It is them.

We cannot credit the Vicena rule of the save of

the Directors, was to have been sufficiently wide at top, for a double track, has been remeasured make the Russian corps duced by Messrs. Jackson & Co. to the dimensions of a single-track. And the plan of the Directors, which shewed abutments with strong retaining walls has been thrown aside for a plan of the Messrs. Jackson & Co. giving prers only just sufficient for the reception of the superstructure.

"Another bridge,—one over a very wide river, subject, to transplant for the reception of the transplant for the reception of the superstructure.

"Another bridge,—one over a very wide river, subject, to transplant for the superstructure."
