#### STATEMENT PREPARED

By Assessment Commissioner Grant To Be Presented to the Assessment Commission.

A statement has been prepared by Assessment Commissioner Grant for submission to the assessment commission. respecting the assessment of the business part of the city. The statement comprises that part of the city commencing at a distance of 165 feet from the west at a distance of 165 feet from the west side of Talbot street, and running easterly on Dundas to Wellington; also Richmond street, from G. T. R. tracks to Fullarton street. The whole assessment amounts to \$3,523,080, made up of \$2,345,200 realty; personalty, \$898,600; income, \$279,-280. The tax rate in 1900 produced \$85,-434 69. The income taken from the whole would leave the sum of \$3,243,800, which would require a rate of 26 1-3 mills to produce \$85,434 69. With income and personalty both removed, a rate of 36 2-5 mills would be necessary to produce the same sum. The income, personalty and same sum. The income, personalty and buildings taken from the whole would leave an approximate land value of \$1,-\$\$2,780, and would call for a rate of 612-5 mills to produce the sum now secured by 24¼ mills. A business tax of 7½ per cent on the real estate would produce \$4,202 05 less than the present assessment on personal property. The assessment on personal property. sonal property ranges from \$1,000 to \$40,-STORM SASH MUST BE PUT ON, eavestroughs cleaned, trees pruned. Now is the time to buy an extension ladder. Factory, 405 York street. Catalogue free. Address, The Waggoner Ladder Company, Limited, London, Ont.

600, according to the present rate. Concluding, Mr. Grant argues against a land tax. Vacant land in the city is valued at \$540,893, and he believes that a valued at \$540,593, and he believes that a rate of 60 mills and local improvement rates levied on this property would be ruinous, and create tax sales. No person was holding land in the city to his own advantage or to the disadvantage of his neighbors, land values being taken as the basis of assessment, and the margin, if any, is allowed on buildings. Land in the business part of the city is more than half the value of land and buildings combined. The same test applied to residential property would show the value of buildings to be at least two-thirds greater than that of land, which would, of course, increase the rate if applied to land only, or single tax, to 8 or 9 per cent. or 9 per cent.

Babington Drives Back the Commandos of Delarey and Steenkamps.

Knox's Command Meets a Superior Force and Suffers Severely---Three Officers and Fifteen Men Killed, and Twenty-Four Wounded---Almost a Panic Among the Cape Colonists.

London, Jan. 7.-Reporting to the struggle. All reports, however, agree war office under date of Jan. 6, Lord Kitchener says:

"Yesterday Badington engaged Delarey's and Steenkamp's commandos at Naaupoort. The enemy was forced to retire to the northwest. Our casualties have not yet been received, but are reported slack. A Boer doctor admitted that 20 Boers were killed or wounded. Commander Dupez was taken prisoner.

HEAVY BRITISH LOSS. "It appears from reports of the wounded who have arrived at Heilbron that a detachment, 120 strong, belonging to Knox's command, came into contact with a superior force near Lindley. I regret to say that Lieut. Laing, two other officers and fifteen men were killed and two officers and twenty men wounded. No details have come from Knox of this action." EARL OF DUNRAVEN'S WARNING

In a letter to the Times this morning the Earl of Dunraven, emphasizing the "very grave situation in South Africa," warns the country to distrust the opinions of experts on the spot, and to be ready for the unexpected. He complains of the "inertia of the authorities," and urges the necessity of large reinforcements.

REINFORCEMENTS NEEDED. The Cape Town correspondent of Times, who confirms the reports, of multiplicity of the Boer commandos,

"Nearly five-sixths of the British troops are employed to guard the lines of communication and to gravison of communication and to garrison towns, leaving a very small number, partly unmounted, to pursue the en-Large reinforcements are ademy. visable, and these would be cheaper in the end.

'The damage which the Boers did to the Kleinfontain mines is officially

estimated at £10,000. This morning's news from Cape Town is again unsatisfactory. Martial law has been proclaimed at Malmesbury, and would have been proclaimed in other districts, but that the cabinet meeting called Saturday was unable to agree as to its advisability.

CALLING ROR REINFORCEMENTS The vagueness of the information concerning the movements and position of the invaders has sent a fresh cold fit over the colonists, and Cape Town, calls loudly for strong reinforcements from England on the ground that the greater part of Lord Kitchener's available force is employed in protecting the lines of communication and the Rand mines, the latter extending for a distance of fifty miles. It is asserted by one Cape Town correspondent that unless the forces in Cape Colony are in-creased a most undesirable state of affairs may result, as the success in arms of the invaders, however slight, might be the

SIGNAL FOR A DUTCH RISING. As it is, many British residents have had to leave the Dutch villages near Cape Town, their lives being unbear-According to a native report, a hundred men, either Boers or local farmers, have just passed through Clanwilliam district, in the direction of Malmesbury.

A CHALLENGE. The Cape Town correspondent of the

Daily Mail, who calls for 40,000 fresh troops, says: "Prominent Afrikander loyalists declare that the rebellious colonists will construe the colonial call to arms as a challenge, and that the ominous silence of the president of the rebels, combined with the fact that members of the pro-Boer junta in Cape Town have been touring in the disaffected districts, emphasizes the necessity for martial law. GOOD ADVICE.

A Boer prisoner, who is on parole, has published an appeal to the burghers of the Transvaal to stop their hopeless and useless struggle, and to throw themselves on England's justice and mercy.

A Pretoria dispatch, dated Jan. 6, says: Gen. Louis Botha, the com-mander-in-chief of the Boers, has trawersed the country with one of his commandos from Ermole to the

that he has told the Boers frankly that Kruger's mission to Europe has been a failure, and that it is useless to hope for foreign intervention. COMING HOME.

Ottawa, Jan. 6.-The following members of Canadian contingent sailed on the Tunisian on Thursday: Sargeant Stayner; 44, Brown; 252, Tunstead; 7,380, Robson; 47, Brown; 8,141, Purcill; 7,711, Wilkins.

Windsor, Ont., Jan. 7.-Kingsville people will give the seven boys of the Kingsville Cavalry, who are to return this week, a royal reception. The Kingsville Cavalry, the school children and all the societies of the town will meet the heroes at the train. Bands from Essex, Ruthven and Leamington will add to the occasion, and the Leamington Infantry and the Daughters of the Regiment will also march in the procession to the town hall. There a banquet will be spread by the ladies of the town, after which will come the presentation of solid gold watches to the soldiers The afternoon will be spent in jollification, and a patriotic concert will be held in the evening.

Missionaries Not Satisfied With the Powers' Joint Note.

Alleged Treaty Between Russia and China To Be Drawn Up at St. Petersburg.

Pekin, Jan. 7 .- A meeting of the Proestant missionaries was held Saturday to consider the terms of the joint note of the powers to China. A majority of the missionaries spoke on the subject. The concensus of opinion was that the note is not comprehensive enough. Rev. Mr. Owens, of the American board of foreign missions, said he was opposed to it, because it was narrow, selfish and careless. He added that it did not mention the slaughter of Christians, but merely referred to the killing of Baron Von Ketteler, the German minister, and an official of the Japanese legation, Sugi Yama Akira. Rev. Dr. Tewksbury, of the American board of foreign missions, said the note was unsatisfatcory. Rev. Mr. Wherry pointed out that

the note was not comprehensive enough.

Rev. Mr. Lowrey thought it was only a preliminary note, and said the missionaries should get together, the same as business men, and press their demands upon the ministers when the time came for making the treaties. Rev. Mr. Upcraft said he thought the mention of Christianity in the note would have been a mistake, as it might have prevented its adoption by Japan. Mr. Lowrey's proposition that missionaries should adopt a programme and endeavor to get their respective ministers to see it inserted in the treaties, was agreed to. Finally, two representatives of each committee were ap-

Pekin, Jan. 7 .- Li Hung Chang has suffered a relapse, and because of the serious effects of his great age it is feared that he will be unable to act as plenipotentiary in arranging a settlement of the troubles in China, and that the difficulty and delay in securing a successor may cause the postponement for a time of negotiations.

HE MASSACRED MISSIONARIES. Paris, Jan.7.-The foreign office is advised from Shanghai, under date of Jan. 3, that advices from Sian-Fu confirm the reports of the execution of Yu-Hsien (the former governor of Shang-Si, guilty of massacreing about fifty missionaries whom he had invited to accept his protection). Dec. 19. by order of the dowager empress. Prince Tuan is still in Ninghia. There are 30,000 Chinese regulars at Sian-Fu. The court has made no preparations

CHINESE WANT DELAY. "Chang Chih Tung, the Wu Chang viceroy, wired the Chinese envoys strenuously urging trem to delay the signing of the note," says Dr. Mor rison, wiring to the Times yesterday from Pekin, "until several clauses had been amended, and that portion of the preamble had been expunged which charges the imperial court with the responsibility for the attacks upon the legations. He further urged the imperial personages not to return to Pekin

An important decree was issued to delay the affixing of signatures, but the Chinese plenipotentiaries replied that it was impossible to recall the assent already given.

# Montreal, Jan. 7.—Vice-President and General Manager Reeve of the Grand Trunk Railway returned from Portland Friday, after having chosen a site for a new grain elevator, with a capacity of more than 1,000,000 bushels, and involving an expenditure of \$300,000. Mr. Reeve has also approved of the plan for the construction of a spacious new dock for the accommodation of the ocean line steamers which transport the Grand Trunk traffic to British ports. The construction of both elevator and dock will be commenced forthwith, and it is expected that both will be ready for the grain traffic of next winter. For some time past the Grand Trunk have felt themselves handicapped by their limited terminal facilities at their ocean port. Their present elevator, which has a capacity of over 1,000,000 bushels, is always full, and the detention of cars in the yards has prevented them from handling with such expedition as they could wish their rapidly-increasing traffic. Western shippers have been urging them in this direction. The removal of their coaling plant to another site has rendered this extension possible. The statement that they have decided upon the construction of three new wharves is not correct. There is no need for this. The new dock will give all the accommodation required. This dock will take the place of the small wharf upon which their coal plant formerly stood. New York, Jan. 5.—J. P. Morgan & Co., of New York, confirmed the report that they had acquired control of the Jersey Central Railway, and that they had sold this control to the Reading Railway. ### AN INTERVIEW WITH THE POPE

Relations of the Vatican With China and France.

Deadly Conflict Between Gendarmes and Miners-Spanish Ministerial Crisis.

Marseilles. Jan. 7.-Archbishop Favier, the head of the French mission in North China, and vicar apostolic of Pekin, has arrived here from the Chinese capital after a short visit to Rome, where he discussed with the pope the situation in China. In an interview his holiness made a highly important statement of the Vatican's policy toward the French republic apropos the intention of the Waldeck-Rousseau ministry to introduce a bill against the religious orders and also in relation to the letter from the pope to Cardinal Richard, bishop of Paris, dealing with the pro After an Illness Covering Iwo Years—How posed bill. #### WHAT SHALL WE EAT

To Keep Healthy and Strong !

A healthy appetite and common sense are excellent guides to follow which the dying man had asked. It was read sentence by sentence, and each was repeated by Mr. Armour. When the "Amen" had been repeated in matters of diet, and a mixed diet of grains, fruits and meats is undoubtedly the best, in spite of the claims made by vegetarians and food

by him he sank back on the pillow and closed his eyes restfully. It was cranks generally.

As compared with grain and vegetthe last word the great financier spoke, ables, meat furnishes the most nutriment in a highly concentrated form and is digested and assimilated more quickly than vegetables or grains.

Dr. Julius Remusson on this sub-

ject says: Nervous persons, people

run down in health and of low vitali-ty should eat plenty of meat. If the digestion is too feeble at first it may be strengthened by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food in three or four hours, while the malt diastase also contained in Stuart's Tablets causes the perfect digestion of starchy foods. like potatoes, bread, etc., and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets they supply the pepsin and diastase so necessary to perfect digestion, and any form of indigestion and stomach trouble except cancer of the stomach, will be overcome by their daily use. That large class of people who come under the head of nervous dyspeptics should eat plenty of meat and insure its complete digestion by the syste-matic use of safe, harmless, digestive medicine like Stuart's Dyspepsia Tablets, composed of the natural digestive principles, peptones and diastase. which actually perform the work of digestion and give the diseased stomach a chance to rest and to furnish the body and brain with the necessary nutriment. Cheap cathartic medicines, masquerading under the name of dyspepsia cures are useless for relief or cure of indigestion, because they have absolutely no effect upon the actual digestion of food.

Dyspepsia in all its forms is simply failure of the stomach to digest food and the sensible way to solve the riddle and cure the indigestion is to make daily, use at meal time of a safe preparation which is indorsed by the medical profession and known to contain active digestive principles, and all this can truly be said of

Colder weather has proved a slight stimulant to retail trade in winter goods, but stocks in retailers' hands are reported large. Cereals and provihave advanced this week, stocks have declined, but the upward movement has been one of those familiar of late—a short selling with small fluctuations, limited by feverish desire to bag profits. Railway earnings hold

up well for the season.

Failures show the usual large crop of small disasters-a feature of turn of the year, but the results for 1900 as a whole are not at all discour-

War is reported broken out in rub-ber goods, and quotations have certainly been cut. Sugar prices are also low-er, while coffee (roasted) has been advanced, which is charged to "readjust-

Suffered Untold Agony for Ten Years from Asthma and Bronchitis--Was Oured by Clarke's Kola Compound.

In spite of the interruptions of the holiday and the unusually heavy annual settlements in all lines of business, the new year opens with indications of further progress.

There is no lack of contracts offered at steady prices in the country's leading industry; and in some departments of cotton goods there is better movement, though speculation has depressed the price of the raw material. Otherwise a decline in wheat is the only noteworthy movement in staples. It is explained by a reduction in the flour output at Minneapolis.

Trade balance for the year at this city was \$45,228,874 in favor of this country against an adverse balance of \$50,000,000 to \$166,000,000 in each of the average of 100 quotations \$19 28, according to Coates Bros.' circular. Father Hastens to Welcome His Pardoned Daughter.

Dramatic Incident in the Experience of a Philadelphia Family.

New York, Jan. 7.—The happiest man in New York Thursday was Rev. Philip Graham, the "Cobbler Preacher," of Almedia, Pa., who had come to the city to meet his daughter, Annie Walden, who was pardoned by Gov. Roosevelt on Monday. Ten years ago she murdered her husband and had been in prison ever since.

"Yes, I am after my daughter Annie," he said, in answer to the question of a reporter. "She is at the Endicott Hotel in the apartments of Mrs. Beckham de Payster.

"'Wife,' said I, 'look here.' She came and fell to the floor in a faint, but was straightway up and laughing and crying all at once, so happy was she.

"Annie had a quick temper, and it came natural for everyone to humor her. At 17 she was the handsomest woman of her age, or any other, in Almedia. She had a dozen lovers, honest country fellows, all of them. We never knew who it was that got her away from home, but we know that it was none of them. It was some city chap. "It was long before we heard of her. Then we found she was in Philadelphia. We went there, but she had gone to New York. Once after that she came home. Then came the shooting of the She had married that horse-racing fellow and he was abusing her, and one night she shot him. The next morning the Sunday papers had it all. Mrs. De Peyster opened the door, and Annie, in a black dress, very plainly made, and with her flowing brown hair brushed lightly back, stood looking very pretty, but pale and agitated, in the center of the room.

Nine years in prison had failed to

quench her pride. With eyes brimming, biting her lips hard for self-control, the girl waited for some token of tenderness on the part of the father.

As the door opened the happy parent ran in with arms wide open. Throwing her arms about her father's neck, and dropping her head upon his big shoulder, she socked happily — and Mrs. De Peyster shut the door.

They left for Almedia next morning at 9 o'clock.

HIS EIGHTH SPOUSE.

Sterling, Ill., Jan.7.—William Hinsley, aged 82 years, and Miss Mary Heins, aged 20, were married at Tampico in this county, Saturday. It was the eighth marriage for the groom, and he

is feeling exceedingly happy.

Hinsley is an ardent Republican, and during the last campaign wagered a bet with the girl that if McKinley was re-elected she was to become his wife, and if Bryan was elected he was to pay her \$2,000. The wedding was one of the most romantic in the history of the county and is the talk of the town.

### MRS. MARY LEASE WILL QUIT POLITICS

She Mas Changed Her Mind About Suing Her Husband for Divorce.

Wichita, Ks., Jan. 7.—Mrs. Mary E. Lease has changed her mind about suing her husband, Charles Lease, for divorce. The suit, which was prepared two months ago, was never filed and never will be unless the Leases quarrel again. Mrs. Lease has instructed her attorney to proceed no further with the case.

Reconciliation between Mr. and Mrs. Lease was brought about by their children, all of whom are now of age and living in New York with their mother. Mrs. Lease will shortly return to Wichita, quit politics and settle down to demestic life.

settle down to demestic life.

Her husband said today: "My wife will not push the divorce case she started. I never knew she was going to file it until her attorney gave it to the newspapers. She will return to Wichita and live with me. We never did have any quarrels, although I disagreed with her ideas of politics and reform. She will quit ell that. Our children all have steady employment in New York and will remain

Mrs. Lease was a "Populist" in politics, and had practiced as a lawyer.

It seems certain that a ministerial crisis will occur after the suspension of the sittings of the Spanish chambers.

# THE PAN-AMERICAN

A Glance at the Great Enterprise and Its Purposes.

True Picture of Nineteenth Century
Development Arranged in a Setting
of Unsurpassed Beauty and
Splendor at the Pan-American Exposition.

If one may judge by the presence of thousands of workmen at the grounds of the Pan-American Exposition and the wonderful progress they have made during the last few months, the Exposition will be opened in a condition of completeness upon the 1st of May next.

For the benefit of those who, for any reason, have not been informed concerning the plans and purposes of this wast enterprise I will state that the Exposition grounds are in the northern part of the city of Buffalo and have an area of 350 acres. Buffale, with its 400,000 population, is preparing the most artistic creation ever produced for the purposes of an exposition. The completed work will cost probably \$10,000,000, exclusive of exhibits.

The landscape upon which the buildings stand includes a part of one of the most beautiful parks in Buffalo or, in

BALL OF MUSIC.

fact, in the world. The Exposition will thus have the setting of trees, lawns and water features, which have cost the city of Buffalo millions of dollars. The main Exposition buildings are some 20 or more in number and are arranged about a system of beautiful courts some 33 acres in extent. The arrangement is such as to permit the most exquisite decorative effects that the best trained artists of the world may be able to produce.

Space will permit only an enumera tion of the principal buildings. These are: The Electric Tower, 375 feet high, which is to be the centerpiece of the most brilliant and novel electric illumination ever conceived: the Propylæ, or architectural screen, at the northern end of the grounds; the Stadium, for sporting and athletic events; the Agriculture building, Manufactures and Liberal Arts building, Ethnology building, the Government group of three great buildings, the Midway restaurant building, Electricity building, the Machinery and Transportation buildings and Railroad Station, the Temple of Music, Graphic Arts, Horticulture, Mines, Forestry, Dairy, Ordnance, Service and other buildings, the Albright Gallery of Art, costing \$400,000; the New York State building, costing \$175,000, besides the state and foreign buildings and numerous other structures of beautiful and interesting design for a variety of purposes.

The Midway at the Pan-American Exposition alone will cost more than some large expositions. It is estimated the cost of the Midway will be about \$3,000,000, as it will have more than a mile of frontage closely built with the most picturesque structures conceivable and will contain between 30 and 40 entertainment features of most novel and interesting character.

The purposes of the Exposition are not merely to give the people a most magnificent and attractive entertainment, but it will furnish the opportunity for every one to inform himself upon the progress of the nineteenth century. The Exposition is held for the purpose of celebrating the achievements of the western world during a century of unparalleled progress. It is distinctly a western world affair, all the governments of the western hemisphere having been invited to participate in all departments. Official responses have been made by every important government, state and dependency of the western world, and they are preparing to be represented by most creditable exhibits.

The exhibits are classified in the following divisions: Electricity and electrical appliances; fine arts, painting, sculpture and decoration; graphic arts, typography, lithography, steel and copper plate printing, photo mechanical processes, drawing, engraving and bookbinding; liberal arts, education, engineering, public works, constructive architecture, music and drama. sanitation and hygiene; ethnology, archæology, progress of labor and invention, isolated and collective exhibits; agriculture, agricultural implements; machinery and appliances, foods and their accessories, horticulture, viticulture, agriculture, forestry and forest products, fish, fisheries, fish products and apparatus for fishing; mines and metallurgy, machinery, manufactures, transportation, railways, vessels, vehicles, ordnauce, exhibits from the Haiwaiian Islands. Porte Rice, Guam, Tutuila and the Philippine Islands.

The Exposition has the indorsement not only of the state of New York, which appropriated \$300,000, but of the national government, which appropriated \$500,000 for the purpose of being suitably represented upon this great occasion. The Exposition will continue six months and will furnish an opportunity such as rarely comes for the public to take note, at a glance, of the wonderful progress of the western world. It will be like a great university, at which the young and old will become for the time being students of western civilization.

About 12,000 people have subscribed to the stock of the Exposition, and it is a public enterprise in the broadest sense of the term, the aim being to produce a magnificent spectacle to delight the artistic sense of all who attend and to present through the medium of an army of enterprising exhibitors a true picture of nineteenth century developemnt. John G. Milburn, an eminent lawyer of Buffalo, is president, and the director general is William I. Buchanau, who was director of the departments of agriculture, live stock and forestry at the World's Columbian Exposition at Chicago and afterward for six years United States minister to the Argentine Republic. "PAN-AM." RESTAURANTS.
The Best of Service Will Be Pro-

The needs of the inner man will be well attended to at the Pan-American Exposition to be held at Buffalo from May 1 to Nov. 1, 1901. At some expositions a great mistake has been made by not providing for good restaurants, where satisfactory meals could be obtained at reasonable prices. Either the food obtained has not been of good quality or prices charged have been exorbitant or the facilities in some particulars have been inadequate to the occasion.

There will be good restaurants in different parts of the grounds of the Pan-American Exposition, so that it will not be necessary for visitors to go outside of the grounds to secure a good meal, well served, at a moderate price. All tastes will be suited in the services rendered, for there will be places where meals will be served on an elaborate plan to suit the most fastidious taste and where prices will be in proportion to those charged at high class restaurants in large cities. There will be other places where the meals will be cheap, but the food appetizing and healthful and the surroundings clean. There will be restaurants in the beautiful building at the entrance to the Midway, another in a similar building at the entrance to the Stadium, another in the Electric Tower, which will be one of the great centers of interest on the Exposition grounds, and another on the Midway. Refreshments will also be served in the Temple of Music, which may be enjoyed by visitors at the same time that they are listening to the concerts in progress in the auditorium. There will also be a New England kitchen, a German restaurant, a Mexican restaurant, an Italian restaurant and other places where various kinds of refreshments will be served.

#### EAGLES AT THE EXPOSITION

Remarkable Decoration For Ethnology Building at Buffalo.

The building devoted to the Departments of Ethnology and Archæology at the Pan-American Exposition, which is now approaching completion, will have some remarkable sculptural decorations. Among them will be gigantic figures of eagles and lions, which will be placed upon eight of the 16 panels

of the domes. These sculptures in staff will be conspicuous features of the architecture of this beautiful building. Models in clay are first made of the figures, and from them reproductions in staff are cast.

The model of the eagle has just been completed. It is of colossal size. In the model nearly 10,000 pounds of clay have been used, and each bird, when cast in staff, will weigh fully two tons. The sculptured eagle will measure nearly 16 feet in height.

Essays on Pan-American.

A movement to interest the public

school teachers and public school pupils in the Pan-American Exposition to be held at Buffalo next summer has been started. It originated in some of the public schools of Pennsylvania and is being taken up elsewhere as the wisdom of the plan becomes apparent. The idea is to have the teachers in the public schools write essays for various occasions of an educational character on the objects and aims of the Exposition and the bearing that such a display will have on the commerce of the world. A similar plan regarding the Paris Exposition was found quite successful and resulted in the attendance of a large corps of teachers at that fair. The plan contemplates also essays by pupils. It is believed that in this way much information can be spread regarding the benefits to be derived from cultivating closer relations with the different countries of this hemisphere and that it would result in greater intelligence among the public school teachers and pupils on this subject, as well as a larger attendance among this class of the population at the Exposi-

We see no obstacles in the way of the proper working of what we propose. Summonses might be issued by the justice of the peace, and the date for hearing fixed for such time and place as the county police magistrate could attend to the matter. A county police magistrate would, of course, need to be a qualified official, one who had experience and training that fitted him for the position. The fact that abuses grew out of

our present system in the past, even although they may not exist to a great extent at the present time, is one reason why the change proposed should be made; and as there is nothing more important than the administration of justice, it should be placed in the very best hands possible to be obtained. The governments all aim at the appointment of the best available men as judges, and it is equally important that from the highest to the lowest judicial position the very best men should be obtained.

#### Reminiscence of a Famous Speech.

In a recent issue, the Vancouver World revives an important address, made by the late Hon. George Brown, in this city, on Nov. 29, 1859. Perhaps some of our older residents remember the gathering, which took place in the city hall, and was one representative of all the leading Liberals in Western Ontario. Mr. Brown's speech was chiefly remarkable for its strong declaration in favor of the Confederation of the Dominion, a question destined to be a burning one, but then little referred to. graphy; we received wood and stone He said he would herald with delight the day when the great British North sky-scrapers of steel. nations of the world. Let us have, he concluded, a federation of our own, between Upper and Lower Canada, and then gradually take in those other provinces when the opportunity is offered. The proposition was adopted by the leaders of both sides of politics, and Confederation was accomplished on July 1, 1867-a union that has been fraught with good for the people of Canada, and bids fair, in the twentieth century, on which we have now entered, being still more fruitful of benefit to its steadily growing population. Mr. Brown's advocacy of Confederation and of the acquiring of the Northwest Territories, ought never to be forgotten by the Canadian people.

At a recent gathering in Boston one of the speakers made the following Steel: "The century received from its mobile. We received the goose quiil and bequeathed the typewriter; we received the scythe, we bequeath the mowing-machine; we received the sickle, we bequeath the harvester; we received the hand-printing press, we bequeath the Hoe cylinder press; we received gunpowder, we bequeath nitroglycerine; we received a tallow-dip, we bequeath the arc light; we received the galvanic battery, we bequeath the dynamo; we received the flint-lock, we bequeath automatic firing Maxim guns; we received the sailing ship, we bequeath the steamship, the greyhound of the sea: we received the frigate Constitution, we bequeath the battleship Oregon; we requeath the telephone and wireless telefor structures, we bequeath 20-storied

These tremendous British vessels will carry nothing larger than 12f the Empire, the present Govern- inch guns. Their batteries will chiefly be composed of these guns and of 7.5-inch and 6-inch guns. Russia, France, the United States and Japan have all been increasing their displacements, till Great Britain has been almost left behind. AMERICAN COMPETITION. The greatest grievance of English trade against America consists in the government purchasing flour in the United States for South Africa. A writer in the Morning Post declares this action is a fit subject for an inquiry, and that it constitutes a most unfair handicap for English miliers, "while the Americans, who pay no taxes, are able to dispose of inferior grades." It appears that large quantities are being purchased in America on account of the standard brands shipment being better and ready at the dock. The champion of the English millers maintains the government is wrong in believing the American article has these advantages, averring that the English mills are now fitted with machinery superior to that in use in America, and that they are quite able to supply the demands for South Africa. protest, however, is not likely to deter the government from patronizing this new branch of American industry.

#### ARMY REFORM.

It is clear that army reform depends in a large measure upon Lord Roberts' initiative rather than upon the recommendations of the special commission appointed by Mr. Brodrick to consider the details of the administration of the war office. Nothing is said by Mr. Brodrick about restoration of the functions which were taken away from the commander-in-chief when the Duke of Cambridge resigned the post. It would be an earnest of real reform if Lord Roberts, who knows practical experience what is needed in order to increase the efficiency of the army, were armed with those larger pawers. That would be an effective tribute to a general whom the court and people have honored, and it would gratify the army, which is fretting under war office control. Sir Henry Colville's course in attacking the staff of the army in South Africa is condemned by military men, but he commands a certain amount of sympathy in the service by his strictures upon the war office for exstrictures upon the war office for exercising authority with which it ought not to be intrusted. The interof the service suffer without doubt from civilian attempts to en force discipline when the personal authority of the commander-in-chief would be accepted without questioning.

This explanation tends to confirm rather than dispel the vague rumors which have found their way into print, but not from any authoritative source. It is probable that Gen. > A SURPRISE. Lord Kitchener, who was credited by his admirers with being an iron-handed soldier, without sentiment or softness, has astonished his critics by a timely display of conciliation and statesmanship. His temperate language at the burghers' conference in Pretoria has been followed by a suspension of the order for burning farms, and the way is opening for negotiations of peace. Lord Kitchener happily has disappointed expectations, based upon his conduct in the Khartoum campaign, and is carrying out Lord Roberts' policy policy of patient leniency with re-markable discretion.

It is suggested by a prominent military man that Lord Kitchener knows he has three points in the campaign namely, to capture Gens. Dewet, Delarey and Botha. He is concentrating his energies upon hunting down Dewet. and when that result is accomplished, he will mass his mounted forces against the other two Boer leaders. He has not allowed himself to be diverted from the pursuit of Dewet. When the raiders crossed the Orange River into the Dutch districts of Cape Colony, he probably smiled grimly, for he knew that they were not in sufficient force to do much harm, yet would be certain to harass the seditious population, which has been a thorn in the British side throughout the war. The Cape Colony Dutch are now getting practical experience in damage caused by the raiders, with whom they have been in sympathy, and their views of the justice of the Boer cause will undergo a radical change. Cape Colony has also been put on its defense. Mean-while the hunt after Dewet goes on, and Lord Kitchener tells the burghers they are not beaten or disgraced, but overpowered, and ought to abandon a

that the virtual annexation of Manchuria by Russia and the disturbance of the balance of power in the far East. It is a curious illustration of the impairment of national judgment through pre-occupation with a single subject. England, by making too much of what is happening in South Africa, has a false measure for estimating values everywhere else. While the Chinese government has accepted the proposals of the powers in prinbut reserved the right of discussing the details, it has sanctioned an agreement by which it retains the nominal administration of Moukden and the southern provinces of Man-churia under Russian military occupation. Manchuria has become Russian, and the seizure of Port Arthur has led to this inevitable sequence of events. The presence of a Russian resident in arises. that Manchuria, with a Chinese administration, has become nominally a protected state, but in reality a province of the czar's dominions. Thus the relations of the powers have been thrown out of balance by the extension of the Russian system. TRIED TO BUY OFF THE BISHOP.

New York, Jan. 7.-At the city club dinner Friday night, Bishop Potter made a statement which somewhat startled his hearers. speeches were all the subject of municipal misrule, and, said Bishop Potter: "Cupidity is a patent cause. Before I sent my letter to the mayor, I was approached again and again by persons who wanted to know what form of sacrifice in the police force would assuage my desire for personal revenge for the indignities which had been put upon me and active men of my church. I was asked by a gentleman who professed to represent Mr. Croker if I should be appeased if Captain Herlihy and Inspector Cross were 'beheaded." Bishop added: "I told him I had nothing whatever against these men personally, who were only the tools of men above them, who only held their places by the favor of those above them, and who were not per-sonally responsibe for the system of corruption forced upon them by a higher power. The love of money is the root of all evil."

INFAMMATORY RHEUMATISM .-Mr. S. Ackerman, commercial traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Eclectric Oil for Inflammatory Rheumatism, and three bottles effected a complete cure. I was the whole of one summer unable to move without crutches. every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, have never been troubled with rheu-matism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others, as it did so much for me."

Also, it will take a long time to count up the vote at the polling booths after 5 o'clock on account of the large number of names on the list. It is just as well for the public to be prepared on Monday night with a good stock of patience, while waiting for results.

As a time-saver - saving not only your own time, but the time of those waiting to follow you into the pollingbooth-you had better cut out the list from tonight's Advertiser, put a mark opposite these of the candidates you intend to vote for, and take it with you to aid your memory, when you come to mark the ballot handed to you. You can put the X opposite twelve aldermanic candidates, if you wish to do so, or you can mark any lesser number. If you mark more than twelve names, that spoils your vote.

Dear Sir,—You are a candidate for reelection to the city council. I am an elector, and you solicit my vote. There is a public meeting called by the mayor for this (Saturday) night at 8 p.m., for further discussion of municipal matters. I will be present at that meeting. I trust you will be present, as I desire to ask you for an explanation of your action in the city council, moving to rob me of the constitutional right to go on the ballot in a municipal campaign for the city council, on nomination by my fellow-citizens. That constitutional right belonged to the working class in Ontario since the days of confederation until 1900, when Col. ### FOGS MADE HOLIDAY

Roberts' Home-Coming Was the Redeeming Feature.

Kitchener Will Not Have Command of British Troops in India-Naval Changes - A Millionaire's Princely Surroundings.

[Special Saturday Cable Letter.] London, Jan. 5 .- The holiday was indeed rendered gloomy by fogs, the only redeeming feature being the home-coming of Lord Roberts. Society is returning to town, with the house parties in none too good humor, most of the days having been spent indoors in anathematizing the weather.

Gen. Kitchener is not going to take command of the British troops in India. The work ahead of him in South Africa is expected to occupy all his energy for many months to come. Gen. Sir Arthur Power Paimer, the acting commander-in-chief in India, will probably shortly be confirmed to that command, unless Lord Roberts interferes—which is not likely.

LORD ROBERTS' NEW TASK. There is much talk in the papers and elsewhere of Lord Roberts insisting on fuller privileges as commander-in-chief of the forces than accorded to Lord Wolseley, but the Associated Press learns that he has done nothing of the kind. He accepted office on the same terms as his predecessors, though the personal relations existing between him and the government officials assure greater co-operation than was possible with Lord Wolseley. The work of re-organizing the war office will be let almost solely to Lord Roberts. The adjutant-general, Gen. Sir Evelyn Wood, who is personally responsible for the recent action regarding Major-General Sir Henry Colville (who was asked to resign, but refused to do so as a result of the Yeomanry surrender at Lindley, in May), is likely to be one of the first to go. It is thought he will do so with

MORE TROOPS GOING TO AFRICA. More troops are to be sent out to South Africa. The present plans are to dispatch infantry. This the most capable officers in the service devoutly hope Lord Roberts will frustrate, substituting cavairy, which is so much needed.

One of the largest parties witnessing the Lord Roberts' parade was held at the house of Commander Richardson Clover, the United States naval attache, in Park Lane, where nearly 50 persons were entertained at luncheon, including several Americans and mem-bers of other embassies.

BETTERING THE NAVY.

STOCK EXCHANGE SEATS.

The increase in the cost of membership on the stock exchange from 500 to 600 guineas has caused a discussion as to whether it would not be better to adopt the system in vogue in New York. It is pointed out that this insures the members being of large means, and also provides a satisfactory asset in case of failure. The lack of latter commodity caused serious difficulty to many an old established London firm this week. It is doubtful, however, if such a conservative body as the stock exchange will bring itself to adopt a change so radical.

A MILLIONAIRE'S HOME. Few millionaires in England or other countries live in such princely style as Mr. Whitaker Wright, the moving spirit in the collapsed London and Globe group. In London he has a miniature palace, in Park Lane, in the drawing-room of which is a copy of the famous cabinet Du Roi of Louis XV. It took three years to complete this article, and cost many thousands. At Godalming, he owns a country seat worthy of Monte Cristo, on which 600 workmen are now engaged in beautifying. It contains costly fountains and statuary brought from Italy. Wright's 12 per cent for miners. They understables alone cost a small fortune. They have upholstered oak and leather settees and polished gun-metal fittings, while valuable paintings and bas-reliefs adorn the stalls. His private yacht is fitted up with similar luxuriance. Everything he owned had to be of the best. To gratify this desire there was no stint in expenditure.

THE BIG TUBE. Both Mr. Howard Able, of Chicago, and Mr. Henry C. Davis, of New York, the agents of Mr. Charles T. Yerkes, are now installed in London, busily engaged in pushing the underground railway work, which they hope to have in good shape by the time Mr. Yerkes arrives here in March. The delays in the plans for the electrical installation on the district underground rail-way are said to be due to insufficient capital, and caused a reiteration of rumors that Mr. Yerkes will take a rate. hand in the scheme.

THEATRICALS.

"The British invaders have lost over 45 per cent of that force. The Boers' total losses in killed and dying from wounds have not exceeded 1,500, but their loss in property and in the poverishment of the people has been very great."

#### WORK AND WAGES

Hitch in the Settlement of the Nova Scotia Miners' Trouble.

New Glasgow, N. S., Jan. 4 .- The settlement of the coal strike seems to be uncertain. The miners had demanded an increase of 50 cents a day for mechanics, and a general increase of stood Mr. Fergie's offer as granting both increases to the mechanics, and on the strength of that they agreed to call the strike off. ever, they learned that the manager would only grant all employes a on this they joined issue. Manager Coll, of the Acadia Coal Company, the Drummond men will go out again. All mines will consequently remain idle for some time longer, although it is confidently expected that a settlement will soon be reached. The increase of 12 per cent asked for by the miners is not a 12 per cent increase on their present wages, but on their pay in April, an increase of 10 per They will now be getting an cent. increase of 22 per cent on their old MORE STRIKES.

#### CANADA AT THE PAN-AMERICAN.

Dominion Government to Erect a Building and Make an Exhibit.

[Special to Advertiser per C. P. R.] Ottawa, Ont., Jan. 5.-The Dominion Government has decided to erect a building and make an exhibit at the Pan-American Exposition next summer. A decision was reached at yesterday's cabinet meeting to make a grant for the purpose. The vote will not be large, such as Canadians would like to see, but nevertheless the building and the display will be creditable to the country. The building will not large enough to take in the man-

ufactures of the country. They will be distributed in the main building. Ontario and Manitoba have already decided to send exhibits, and now that the Dominion has decided to do so. they will likely co-operate with the Ottawa authorities.

Nova Scotia has been talking of sending an exhibit, and it is likely that it will do so now, while the probability is that some of the other prov-

inces will follow suit. Geo. D. Cameron, of London, Ont., who is one of the Pan-American commissioners for Canada, and who has done good work to interest Canadians in the exposition, has been in Ottawa for some days past in connection with the matter. He left for Toronto last

Toronto Globe: The appearance of young Hern on the forward line of the Londons in their game against Tilbury will bring about an immediate investigation of his standing. Hern is a Stratford lad, attending a business College in London. It is alleged that he is not a resident of London, that he went there since the date fixed in residence qualification, and that the London club can be directly connected with his removal. The London club was made aware of these allegations, and the fact that he was played in an O. H. A. match would indicate that the club has what it considers a full answer to them.

MR. POCOCK'S LETTER.

To the Editor of The Advertiser: Who owns the waterworks? The pres-Who owns the waterworks? The present commissioners kept off the public platform to avoid giving an account of their stewardship and answering any questions that might be asked them by the electors. They did the same thing last year. Their scheme works well. If they are elected this year, it is because they kept off the public platform and avoided public attention. One claims he is a Liberal, the other a Conservative, and the combination works well for them. Combinations are often dangerous. Mr. Jones said if he got on the platform he might say something about a bridge would only grant an employes a Mr. Jones said it he got on the platform straight increase of 12 per cent. Upon this they joined issue. Manager Coll, of the Acadia Coal Company, also would not grant 50 cents a day raise to mechanics. The result is that after building the abutment in the center of the new dam, have abandoned that scheme, as shown by Mr. Jones. I am sufficiently interested not to burden our city with a \$15,000 bridge. The electors can easily see who it would benefit tors can easily see who it would benefit most. Thanking you, Mr. Editor, for your valuable space, I remain, yours, etc. JOHN POCOCK.

Addresses Two Large Gatherings at the London Opera House.

Stirring Address From the Subject, "The Song of the City"-The Afternoon Service.

The opera house was crowded to overflowing yesterday afternoon at 3 o'clock to hear Commissioner Eva Booth, of the Salvation Army. Col. Jacobs opened the meeting with prayer. The two little orphans who travel with Miss Booth were present, and sang three songs in dust. The little tots were loudly applauded. The little boy, Willie, has a rather attractive feature in his fleece of white hair. Miss Booth, in introducing him to the audience, humorously remarked that perhaps the whiteness of the child's hair might be due to anxiety for the weltare of sinful humanity resting on his little shoulders. The children sang well to Miss Booth's accompaniment with the harp, and presented a particularly beautiful and pathetic sight in the song "Let Little Children Come Unto Me." Staff-Capt. Cowan, of the Rescue Home, gave a solo, and at the request of Miss Booth the congregation sang that time-revered hymn, "Rock of Ages."

Commissioner Eva Booth, in the preface to her remarks, stated that it was a great difficulty, physically, for her to speak. She was suffering from a cold, which seemed like a combination, in a mild form, of all the more serious maladies, such as grip or bronchits. Her marked that perhaps the whiteness of

which seemed like a combination, in a mild form, of all the more serious maladies, such as grip or bronchitis. Her subject was entitled "The Song of the City," and the text was taken from Revelations, chapter xiv., last part of the second verse, "And I heard the voice of harpers, harping with their harps." "No one would wish to depreciate the allprevailing power of music. The world in which you and I are placed is filled with enchanting and captivating strains, which are surpassed by those only of the world to come. Even the stars sing together, and join in praises to their Maker; the streamlet murmurs, and the mighty thunder drums its music. There is music everywhere. Our hearts are lifted and our spirits cheered by its ten thousand strains. All music is grand and beautiful, springing from the love in God's own heart, and it is all good if it were not perverted and turned to evil uses. 'Is not the music of the dance beautiful?' some may ask. It may be, but it comes to a standstill in the early hours of the morning, when the head is aching and the heart throbbing. Worldly music ends, leaving nothing to cheer when it is done; it does not satisfy the longings of the spirit. It is not so, however, with the song of redemption; its strains are not lowered when the world and the home need them most. This is the song of the rightous, the song of the rightous, the song of the history of the songs of the church, but

"Attempts have been made to write the "Attempts have been made to write the history of the songs of the church, but this is a task beyond man's power of accomplishment." Here the speaker paid a glowing tribute to "Rock of Ages" by Toplady, placing it superior to everything else in literature except the Bible and Bunyan's "Pilgrim's Progress." She stated that the late Prince Albert requested that it be sung to him again and quested that it be sung to him again and again when he was on his death bed. It was the song of the penitent sinner, as well as of the righteous follower of

A young woman came home one morning from a ball, with aching head, unable to participate in the joy that should have been kindled in her heart by the warm rays of the morning sun that shone on her through her window. She took her pen, and, kneeling before her table, wrote the hymn mentioned. That young woman was Charlotte Elliott.

Speaking of the end of life, Miss Booth said that death is one great hour of farewell. There is no thought of honor, farewell. There is no thought of honor, wealth, amusements or discussion of the latest play then. The shadow of approaching night is on the brow, and the beating heart drums the knell of death. In conclusion, she said: "Is there no power to take the sting out of death? I say yes, a thousand times yes! The song of redemption, which is the song of the city."

The Sunday evening meeting was even more crowded then that of the afternoon. Commissioner Booth speaks again tonight, at the Salvation Army citadel, Clarence street.

### Canada After 100 Years. THE WEAK,

[Montreal Witness.] Canada is practically the growth of

ada was only about that of Montreal today, and forty-one years were to pass before these provinces were united. It was not until July 1, 1867, or thirtythree years ago, as we all know, that the union of the provinces of Canada, Nova Scotia and New Brunswick took place, under the name of the Dominion of Canada, and the names of Upper and Lower Canada were changed to Ontario and Quebec respectively. Twelve years after the opening of the century Great Britain and the United States were at war, with Canada as their fighting ground and Canadians as the defenders of the empire in the battles of Queenston Heights, Chateauguay, Chrysler's Farm and Lundy's Lane.Circumstances of this sort made it neces-sary very early in the century to inprove our navigation, and between the years 1821 and 1825 the Lachine Canal was built, followed by other Ottawa and St. Lawrence canals. In 1833 the steamship Royal William left Quebec and crossed over to Gravesend, and as this was the first steamship that ever crossed the ocean, we are rightly very proud of it. In 1836 the first line of railway in Canada was opened, between Laprairie and St. Johns, and this was followed in 1837-88 by the dark days of the rebellion. The settlement of the boundary line between Canada and the United States by the Ashburton treaty took place in 1842, when our neighbors, as usual, outdid our cham-pions in the bargaining. The first railway in Upper Canada, from Toronto to Bradford, was opened in 1853, and in the same year the first ocean liner arrived in Montreal. Seven years before the first telegraph line had been established between Quebec. Montreal and Toronto. We adopted the decimal system of coinage in 1858, and in the same year gold was found both in British Columbia and Nova Scotia. In 1876, the Intercolonial Railway from Quebec to Halifax was opened, and only four-teen years ago the first through train ran'from Montreal to Vancouver over the Canadian Pacific, the largest rail-way enterprise in the world. These are a very few of the facts in our history of the past hundred years which account for our development and the hopeful position we occupy in the world today. What, under good leadership, our nation has accomplished during the past few years is burned very deeply into the memories of us all. We are taking our rightful place in what promises to be a confederation of great nations, all speaking the same tongue, and all moved broadly by one impulse to maintain freedom and righteousness and peace. We close the year and the century with a French-Cana-dian premier at our head, and in that fact there is great significance and much promise. He is courtly, statesmanlike, undeniably honest, undeniably great, and the one great object of his nobie ambition is to unite the two races in an indissoluble union of aim and accom-plishment. In the promotion of this mutual goodwill and understanding we

If the patient, daily becoming reduced by wastes and decompositions, that are continually progressing, succeeds in arresting these wastes and repairs the same with new material made from healthy blood, and this the Sarsaparillian will and does secure, a cure is certain, for when once this remedy commences its work of purification and succeeds in diminishing the loss of wastes, its repairs will be rapid, and every day the patient will feel himself growing better and stronger, the food digesting better, appetite improving, and the flesh and weight increasing.

#### SCROFULA FROM BIRTH.

Dr. Radway—Deer Sire It is with pleasure that I take my pen in hand to inform you of the great cure effected by your medicine called Sarsaparillian Resolvent. I have a girl 3 years old last September, who has suffered with corefula ever since she was two years old. In fact the doctor told us she was born with it. We had our best local doctors with her, and it seemed like all hope was gone, for they told us if the disease settled on her lungs she could not be oured. This frightful disease seated or seized upon her lungs severely. I began to think that our little girl could not live very long; our physician's medicines doing no good. In the meantime I received a copy of your medical publication called "False and True," which you sent me. After weing the accounts of so many cures effected by your treatments I at once resorted to them, and by the time she had used one bottle she was well. The ulcers that were making their appearance on her body are entirely gone, her lungs almost healed, or, at least, she has quit coughing. She has begun on the second bottle, and I believe by the time she uses all of it she will be well. She had a very bad cough. I am yours with respect, SAMUEL S. BARKER.

semed deeply agitated, although she strove hard to conceal it.

Every night for more than a week the young girl stole away to visit this apparently friendless woman, performing the same gentle offices for her, and cheering her with her sympathy and kindness, while every time Madame Beza would question her closely regarding the incidents that had transpired during the day at Carisford House.

One evening Tha told her that the next day they were all going to the earl's country residence at Newport, on the Isle of Wight, and that she had come to say good-bye for several weeks.

Tears actually sprang into the eyes of Dame Beza at this intelligence.

"Little one," she said, patting the hand that Tima had given her in farewell, "my heart is as sore to part with you as-as-well, sorer than it has been for many a long year. You have driven the wedge clean home; and now, dearle, if you ever get into trouble come straight to old Barbara. If I'm not here I'll leave word where you can find me. I'm not good for much apparently, but appearances are often deceitful, and I might be able to help you out of a tight place when nobody else could. If that villain La Fort molests you again, don't fail to let me know, for I have it in my power to expose a trick or two of his that might make him feel as if he'd better take a double-quick pace back to Belgium. Will you remember?"

"Yes, I will remember, Madame Beza." Tina answered, smiling, "and I hope I shall have no more trouble; but I will come and see you, at all events, just as soon as we return from Newport."

The next day the Arlesburys left for the Isle of Wight.

Tina was delighted to be out of the great, smoky, dirty city of London; its black, grimy walls and blacker chimreys had a depressing influence upon her, and she was like a happy child to be once more in the beautiful open country.

The earl himself appeared no less desighted, for the Carisford estate was the pride of his heart, and as he termed it.

The earl himself appeared no less de-lighted, for the Carisford estate was the pride of his heart, and, as he termed it, "the gem of the isle."

"Oh!" Tina said, with a long-drawn breath of delight, while her face became fairly glorified as if with inspiration.

"How beautiful it all is!" she added, after a moment, while her sparkling eyes looked out over a broad expanse of sunlit water, then sweeping the gracefully curving coast, marked the exceeding beauty of the landscape.

"You say truly, my little friend." the earl returned, much pleased with her involuntary tribute to his possessions. "It is beautiful; it is a noble sight, and as dear as the apple of my eye to me. All these broad lands, as far as the eye can sweep along the margin of the sea, have belonged to the Carisfords for centuries: and yonder-inland—do you see that huge turreted stone building?"

"A serpent twined about a cross."
Her livid lips parted in a gasp at the answer, and she wrung her fair hands until every joint ached with pain.

"Had the old count any—any sons?"
Her agonized tone made the question almost a prayer, and the old man turned quickly to her.

"Any sons?" he said, repeating her words. "No; there were three daughters, and my wife was the youngest of them all: they are all dead—all gone."

A look of despair swept over the features of the girl standing behind him; her clasped hands fell nervelessly apart and a sob heaved her chest.

"No, the old count never had any sons," the earl resumed after a moment, and as if speaking more to himself than to his companion; "and there were no

sons," the earl resumed after a moment, and as if speaking more to himself than to his companion; "and there were no grandsons save my Louis, and we named him partly after his grandfather, Louis Arthur Demair Carisford, and—"

Without a sound, and before he could complete what he was intending to say, the turf at dropped senseless on the turf at CHAPTER XXII.

Through the ministrations of the earl. Tina soon recovered consciousness, and he was anxious to get her to the mansion. The distance was accomplished in silence, Tina being too miserable to talk, and they had just turned into the circular driveway leading to the porch, when they encountered Gertrude Arlesbury, accompanied by Lord Holborn, while just behind them Lady Arlesbury was walking with Lord Ernest's mother. Gertrude glanced at the earl and his companion and shrugged her aristocratic shoulders as she nodded to her grandfather, while Lord Holborn doffed his hat to both, although he was gazing, with his whole heart in his eyes, straight at Tina. with his whole heart in his eyes, straight at Tina.

"Is Mademoiselle Florienz ill?" he asked, gently, of his companion, having observed her exceeding pallor.

"Oh, no, she is perfectly well; but it is so amusing. Grandpapa appears completely infatuated with her. If she belonged to a different grade of society I should be afraid that he would surprise us some day with a new grandmamma, young as she is," said the gay girl, with a careless laugh.

"There is something very attractive

a careless laugh.

"There is something very attractive about Mademoiselle Florienz, I myself think, and really she does seem fitted for a far different station than the one she occupies," Lord Holborn replied, thoughtfully.

Miss Gertrude arched her eyebrows and wondered how his lordship had learned so much regarding their little lace-maker; but she turned the subject, since it did not please her to hear him express admiration for any one, as she had especial reasons for wishing him to admire herself.

The day seemed destined to be fraught

The day seemed destined to be fraught with incidents of a strange character, for just as Tina and the earl reached the steps leading to the mansion a carriage dashed to the door, and a handsome, though rather fast-looking, young man sprang to the ground.

The earl started forward with an except the started forward with a starte clamation of surprise.
"Louis! we did not look for you for another week!" he said, extending his hand and shaking that of his grand-

hand and shaking that of his grandson warmly.

"No, my lord, but I've had a dused
hard time of it this term, and I was
anxious to get home and rest, so I gave
up my week in Paris. Zounds!".

This latter expletive was called forth
by his suddenly turning to go up the
steps and finding himself vis-a-vis with

she had bestowed but a casual glance upon the newcomer.

At his exclamation of astonishment, however, she looked at him more closely, and in an instant the blood rushed in a torrent up to the waves of soft brown hair that lay about her temples, for she recognized in Louis Arlesbury the young man who had so insulted her that night in Brussels when she was returning from the Hotel d'Europe, and when Lord Holborn had come so opportunely to her born had come so opportunely to her

assistance.

The recognition was mutual, for the young man knew her instantly; but after that one first glance of astonishment, Tina's proud little head came up right regally, and with a look of scorn she passed him and disappeared within the

mansion.

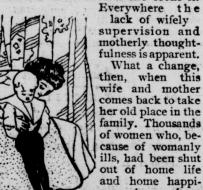

"Who is she?" Louis Arlesbury asked of his grandfather as the door closed after her, and he had recovered somewhat from his amazement at the unexpected meeting.

#### What Makes the Home?

Not the house, however fine it may be: not its furniture, pictures and appointments. The wife and mother makes the home, and to speak of going home means to go back into the shelter of the mother's love and care.

And when womanly ills sap the mother's strength, the home-life suffers. The food is not cooked as she cooks it. Everywhere the lack of wifely

motherly thoughtfulness is apparent. What a change, then, when this wife and mother comes back to take her old place in the family. Thousands of women who, because of womanly ills, had been shut out of home life and home happiness, have been enabled to once

more take their place in the family after being cured by Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness. It makes weak women strong, sick women

well.

"I commenced taking your 'Favorite Prescription' and 'Golden Medical Disc y' about the 10th of last December one year ago," writes Mrs. Eliza Wright. of Mountainview, Howell Co., Missouri. "I have been very slow about writing to you, although I am thankful I am here to-day and have the privilege of saying I thank you a thousand times for your kind advice. I can truthfully say that it was through your kind advice and your medicine and the will of the Lord that I am living to-day; I am in better health than I have been for three years. I have taken one-half dozen bottles of each medicine. I am able to do my washing for four in family, and all my housework, cooking and milking. In fact, I feel like a new woman."

Dr. Pierce's Pleasant Pellets cure constipation and its almost countless consequences. They do not react on the system nor beget the pill habit

Junior O. H. A. Schedule Undergoes a Change.

Woodstock Here Tonight-Sharkey and McCoy Matched-Six Day Race Won by Walthour.

#### HOCKEY.

SCHEDULE CHANGED. Woodstock, Jan. 5.—Owing to the Victoria O. A. C. club, of Guelph, having dropped out of the junior O. H. A., a meeting was held here last night for the revision of the schedule. The district now comprises London, Woodstock, Stratford and the Wellingtons, of Guelph, and the schedule, as revised, is as follows:

Jan. 4—Woodstock vs. Wellingtons.
Jan. 4—Woodstock vs. Wellingtons.
Jan. 7—London vs. Woodstock,
Jan. 9—Wellingtons vs. Stratford.
Jan. 14—Stratford vs. Woodstock.

Feb. 5—Stratford vs. Wellingtons.
The first-named club being the place where the game is to be played.

THE O. H. A. EXECUTIVE.

THE O. H. A. EXECUTIVE.

Toronto, Jan. 5.—The executive committee of the Ontario Hockey Association announces that owing to the delay in the arrangement of the schedule in many districts, and the late entrance of several clubs, the O. H. A. executive will not be able to forward the official schedule to the clubs until the middle of next week. next week.

MONTREAL BEATEN.

Montreal, Jan. 5.-The opening championship hockey match of the season, which was played at the Arena on Saturday evening, between the Victorias and Montrealers, resulted in an unexpected victory for the Victorias by three games to two. Both teams were even enough to keep the excitement at fever heat until the finish, but the Victorias played with the most combin-

QUEBEC DEFEATED BY OTTAWA. Ottawa, Jan. 6.—The Ottawa hockey team defeated the Quebec seven Sat-urday night by a score of 5 goals to 4. It was the opening match of the Canadian Amateur Hockey Association. The game was close and hard, but by no means a first-class exhibition.

PUCKERINGS. Tonight the London Junior Hockey Club will make its first public appearance, when it crosses sticks with Woodstock in the opening match of the O. H. A. series, at Jubilee rink. London's juniors are very little behind the sen-iors in speed and cleverness, and should put up the very strongest kind of an argument against their doughty opponents. The line-up will be picked from Allan, Gibbons, McGuffin, Geo. Gibbons, H. Labatt, Dowell, Coughlin, Adams, Wooley, McMahen (captain.) The Woodstock team came within a goal of wining from Stratford last season, which team landed the junior championship. They have retained nearly the same team as they had last year, and are making a strong bid for first honors. The game will be called at 8 p.m. sharp, and this means 8 o'clock. At Stratford tonight the London and Stratford senior teams clash in the most interesting match of the present round. Should Stratford lose, it looks easy for London to repeat its remark-

seasons. Should Stratford win London will yet have a chance to win out when the return game is played in London next week. President Arthur W. Little has arranged for a special train to Stratford to leave by G. T. R. at 6:15 p.m. sharp, and returning at 11 p.m., landing the excursionists in the city before midnight. London's colors will be worn by

Johns, Peel, Walter Little, Hern, Lang. Hobbs, Westcott (captain) and Belcher. The teams of the London Shoe Company and R. C. Struthers played a friendly game on Morkin's rink Saturday. The game started at 5:15, and at half-time the score was 1 to 0 in favor of the Shoe Company men. Mr. Woolley, the referee, then called the game, as it was quite dark.

THE WHEEL

BIG RACE WON BY WALTHOUR.

Boston, Jan. 5.—In another of the cyclone finishes for which he is famous, Bobby Walthour, of Atlanta, the southern champion, and the 73-hour world's champion, won the international six-day bicycle race at Park Square Garden, which ended tonight. He did not let himself out until the last lap, and when he did it did not seem as if any of the others were riding at all. Will Stinson, of Cambridge, came in second, while Archie McEachern, of Toronto, was th.rd. The distance was 1,099 miles, 2 laps. Among the most sensational features of the day were the gaining of laps by Babcock and Muller during the evening. The riding has been uniformly good, and was marred by no serious accidents. There was fully 10,000 people in attendance during the evening. The racing has been ten hours each day during the week, and ended at 11:09 tonight. Babcock and Muller, who left the track after the 59th hour, so the leaders could have a cleared field, had scored 1,081 and 1,071 miles respectively. BIG RACE WON BY WALTHOUR.

respectively.

The start of the racing this afternoon, the last day of the race, was made at 12:06, and McEachern took the lead, but after a couple of laps let Muller cut out the pace. Kaser led at the end of the hour with 947 miles, and in the bunch were McEachern, Walthour, McLean, Downey and Fischer, with the same score, while Babcock had 946.4 and Muller 936.6. The 950 mile mark was passed in 51 hours, 10 minutes and 4-5 second, with Kaser leading. The end of the 52nd hour brought no changes, and the score was 964.3; Babcock, 963.7; Muller, 954.1. The Italian still held the pace. Moderate going characterized the third hour. The distance was 981.1; Babcock, 980.5; Muller, 970.7. There was no change in the relative positions of the riders. The fourth hour of the day was a repetition of the previous one, the score at the end being 997.1. Just at the 54th hour the men began a terrific sprint for the lead at the 1,000 mile mark, but Stinson was the first man to reach the mark. The time was 54 hours, 8 minutes, 32 2-5 seconds. Harry Elkes' afternoon exhibition mile was done in 1:45 2-5. Archie McEachern, the clever Toronto rider, let loose with a spring just as Elkes finished, but was captured by the bunch in five laps. Albert Champion, the French rider, rode an exhibition mile, his time being 1:39 3-5. The final afternoon sprint began at 5:03. Muller led for five laps, and then McEachern took the lead and kept it to the finish. Just before the close of the afternoon's riding McLean fell, his machine having broken down, and as the wheel was not repaired in time, he did not finish. The laps were returned to him. The 55th hour score was: McEachern. Kaser, Stinson, McLean, Downey and Fischer, 1,013.7 each; Babcock, 1,013.3; Muller, 1,003.4.

The final score, 60th hour, in the race was as follows, in the order named: Walthour (leading by two lengths), 1,099.2; Stinson, 1,099.2; Fischer, 1,099.2; Kaser, 1,099.2; Jowney, 1,099.2. Babcock and Muller left the track after the 59th hour so the leaders could be given as cle respectively.

TWO MINOR ACCIDENTS.

The corner of Dundas and Waterloo streets was on Saturday afternoon the scene of two minor accidents. A farmer, evidently intoxicated, was thrown from his wagon by a sudden stopping of his horses. He was slightly stunned, but soon recovered. Shortly afterwards a coal wagon was struck by a street car, and its rear wheels knocked from their place. The car fender was bro-ken, the passengers and the wagon driver shaken up, but no further damage was done.

PRESBYTERIAN MEETINGS.

The union Presbyterian meetings will be continued tonight in St. Andrew's, when Rev. W. J. Clark will be the preacher, and tomorrow, in the First Presbyterian Church, when Rev. Dr. Johnston will preach. On Wednesday evening a joint communion service will be held in St. Andrew's Church, when all the Presbyterian ministers of the city are expected to take part. As this will be commemorative of a historic occasion, the service will be very interesting, and doubtless largely attended.

A SYRIAN SPEAKER. The men's meeting at the Auditorium yesterday was conducted by Madam Barakat, a Syrian woman, who is one of the officers of the Philadelphian Woman's Christian Temperance Union She gave to her hearers "a message from Lebanon." Her clear voice and excel-lent delivery helped to make her story one of the most interesting of all that have been told in the Auditorium. The message came from the land that had given the Bible to the world, from a land whose people had been compelled to give up their Christian faith, and adopt Mohammedanism. American missionaries had begun many years ago to bring these people back to the true religion, and, as Madam Barakat related it, the story of their efforts was decidedly interesting. When she re-membered the trials to which she had been put to by the Christian life, she wondered at the number of heathen in these so-called Christian lands, where it is so easy to live the Christian life.

Madame Barakat will hold meetings at the Auditorium every night this

BAGS OF GOLD. A recent issue of the Chicago Times Herald says: Two big bags of gold were deposited last night in the Paimer House safe. They were the property of Mr. Arthur R. MacAdams, of Chicago, and William H. Brown, of Oswego, N. Y., who have just returned from the new gold fields on the Kusquestrien River, Alaska. MacAdams, who started away from Chicago a little over two years ago with only enough money to carry him to the Klondike, but went subsequently to Alaska, and who has just sold a halfinterest in two of the claims for \$50,been the scene of much excitement | He leaves Gaudaur to fix the date. lately, is situated on the Kusquestrien River, 185 miles in the interior and north of Nome. Prospects are fine in this district. Of its possibilities, you may judge from the fact that I have alone taken out as much as \$1,780 in ten hours, and one nugget valued at \$210." Mr. MacAdams is a Canadian boy, was born in this city, and is the son of Mr. Alex. MacAdams, a former resident, but now af Chicago. A private letter states that a low estimate of the claims held by the young Londoner is \$1,000,000.

#### A CHURCH WELCOME

Extended Yesterday to the Soldiers of Christ Church Parish.

Ptes. W. Reed, Bert Woodward and A. H. Wheatcroft, who belong to Christ Church parish, were welcomed home with appropriate thanksgiving services yesterday. The church was attractively decorated, and both in the morning and evening the congregations were large. Rev. Canon Dann conducted the services in the morning, and preached a sermon that throbbed with patriotism to God and country, his text being, "O, God, the Lord, the strength of my salvation. Thou has covered my head in the day of battle."—Psalms, 140th. "Death had been very close to you." he said, while concluding, "but God kept you safely. You were nobly fighting your coun try's battles, and you did it well and truly. We have foes to fight dailyworse foes than the Boers-and God can and will shield us from them, we let him, and bring us safely through to our eternal home, even as he has brought these, our boys, t

their paternal homes." The rector, Rev. Mr. Moorhouse preached in the evening, and he earnestly returned thanks to God for his mercy and love to all. He prayed that the boys whom he welcomed home would prove themselves heroes for Christ in fighting his enemies, as they proven themselves heroes earthly affairs.

A personal invitation has been given to the soldiers who have returned to attend a reception that will be held in the school room tonight, and many of them have accepted it. It

#### BASEBALL BIG BASEBALL WAR.

Louisville, Ky., Jan. 5.-The war of

the National League against Ban

Johnson and the American League is to be to the knife, and the first blood is with the National League. Indianapolis has broken away from the American League, and there are prospects that Detroit will do likewise, Louisville, which has been looked upon as favorable territory by Johnson, gone over to the league's new organization. At a meeting held at the Louisville Hotel this afternoon papers were signed for the eighth club of what is to be the American Association, backed by and with the hearty support of the National League. circuit may not, however, be confined to these clubs, but may be ten. All depends upon Detroit. There were present at the meeting W. H. Watkins, of Indianapolis; Harry C. Pulliam, formerly secretary of the Pittsburg club, and John J. Sanders, H. B. Burford and John J. McCloskey, who represent the Louisville territory. As a result of the meeting it can be said that an agreement has been signed by the eight clubs interested, and that in two weeks a meeting will be called and steps taken for the granting of recognition and the disposition of the surplus players over the limit of 16 by the clubs of the National League. The new circuit is to be as follows. the name mentioned being either the manager or the financial backer or both: Boston, Arthur Irwin and Havermeyer, Charles River Park; New York, Andrew Freedman, Manhattan Field; Baltimore, Von Der Host, Mc-Graw and Robinson, Union Park; Washington, the Wagners, League Park; Louisville, McCloskey, Saunders and Burford; St. Louis, Al Spink; Indianapolis, W. H. Watkins; Milwaukee, H. D. Quin and Koch. In addition Detroit may be induced to follow the lead of Watkins. If so the franchise will be given to Burns and Stallings, and to balance the circuit the old Athletics will be resurrected in Philadelphia and F. C. Richter given the franchise there. There may be one or two changes in this circuit, all depending how Johnson acts. If he

shows desperate fight, two more towns may be added, perhaps Buffalo and a western city now having American League teams. If he enters St. Louis to fight the league an association team there may not be started, but instead be transferred to one of the towns where the American League has the field. Harry Pulliam, it is said, is to be made secretary to Nick Young, and upon the organization of the American Association he will probably be given charge of it, though still retaining his position as secretary of the league, Nick Young still being president. Freedman in New York is expected to split his team, one being at the polo grounds and the other at the Manhat-tan Field. To Freedman is said to be due the credit for bringing McGraw around.

THE GRIEF OF HUGO. In his comment on the Victor Hugo love letters in Harper's for December. Paul Meurice tells a charming little story of Hugo's grief for his mother's

"His mother's death was a deep grief to Victor. His capacity for affection, to which he sometimes makes allusion in his letters, had need of family ties; and the adoration he bestowed upon his mother had given this to him, with the sweet consciousness that he, too was infinitely beloved by her. He had twice owed her his life, and now he felt twice orphaned. He was estranged from his father, who was indifferent to him, to say the least of it. He was cruelly treated by his brothers, who were jealous of his superiority, and separated from Adele, whose hand was

refused him. He felt himself all alone in the wide world. "His wretchedness was increased an unhappy incident. He will tell it in one of his letters; we can only allude to it here. On June 29, the evening of the day when his mother was buried, he left the house, unable to bear its emptiness and solitude, and instinctively, as he often did, found his way into the neighborhood of the Hotel de Toulouse. Its windows were a blaze of light; it was M. Foucher's fete day; there was a ball going on there. Victor knew all about the place; he went up to the second story, went into an empty room, and from thence he saw Adele dancing and gay. Subsequently she proved to him that the news of his mother's death had been carefully concealed from her, and assured him that had she known of his presence she would have risked everything to leave the ball-room and come to him to share his sorrow; but at the time he was absolutely over-whelmed by this fresh blow."

WELL QUALIFIED. When the late Prince Christian Victor was a subaltern in the King's Royal Rifles he had in his company a corporal who was a severe disciplinarian, and considered it to be his duty to find fault with everything. On the expiry of his 21 year's service he applied to the prince for a testimonial as to character to enable him to procure a situation in civil life. Prince Christian Victor willingly assented and credited the retiring corporal with being the most assiduous faultfinder he had ever met. The recipient of the testimonial was lucky enough the first time he showed the prince's credentials to secure a congenial situation. He had applied for the post of assistant labor master in a workhouse, and the prince's letter secured him the berth. The ex-corporal still holds the

### The Ability of Dr. Chase

Is Measured by the Cures He Makes-Each Remedy Specific for Certain Diseases-A Remarkable Cure of Bright's Disease.

In this practical age a physician's | profuse, and it gave me great pain to ability is measured by the actual cures he makes. Judged by this high stand-ard, Dr. Chase stands pre-eminent as a giant among physicians. Take kidney and liver derangements, for example. Dr. Chase, by means of his Kidney-Liver Pills, has brought about some of the most surprising cures ever effected. This is due to the direct and specific action of this great home treatnent on the liver and kidneys. Here is the experience of a highly-respected

resident of Consecon, Ont.: Mr. James Dellihunt, Consecon, Prince Edward county, Ont., writes: "For several years I suffered great tortures of mind and body from Bright's disease of the kidneys. The pains were sometimes almost beyond endurance and extended from my head and be-tween the shoulders down the whole spinal column and seemed to concentrate across my kidneys. My back was never entirely free from pain. When I got up in the morning, I could not straighten myself at all, but would go

"I could do no work, and, though I tried many kinds of kidney pills, could get no relief. As a last resort I was induced by a friend to give Dr. Chase's Kidney-Liver Pills a trial. I felt a change after the first dose I used in all about five boxes, and they have entirely cured me. I have no pains now and can do as good a day's work as I ever could. It is a pleasure recommend Dr. Chase's Kidney-Liver Pills, as they have done so much for

Mr. J. J. Ward, J. P., Consecon. certifles that he has known Mr. Dellihunt for years as a truthful man and re-spected citizen, and vouches for the truth of the above statement.

You cannot possibly obtain a more beneficial treatment for the kidneys and liver than Dr. Chase's Kidney-Liver Pills. It has stood the test of time, and has proven beyond dispute its right to the title of "the world's greatest kidney medicine." One pill a bent nearly double most all day.
