Caused the Teri Disaster to the V. ria.

Official Dispatches from the Camperdown's Commander.

Story of the Catastrophe Told by Survivors.

The Distance Between the Eattleships Was Misjudged.

VALETTA, Malta, July 2.—Notwithstanding the efforts that are being made by the naval authorities here to prevent the survivors of the Victoria disaster from giving any information concerning the loss of the vessel, a full story of the casualty has been obtained from reliable sources. A subofficer, who was attached to the Victoria, save:

officer, who was attached to the Victoria, says:

"The fleet was maneuvering when Vice-Admiral Tryon signaled to the first division to turn sixteen points to port, and to the second to turn sixteen points to starboard. The bject of this maneuver was to bring the ships in position for anchoring. Vice-Admiral Tryon either forgot or mistock the distance between the two columns, which were six cable 'nights and columns, which were six cable 'nights and sixteen to directed the diameter of which was three cable lengths (1,800 feet), a collision was inevitable.

The Camperdown etrack the Victoria on the starboard side, midway between her catheads and turret. When Rear Admiral Markham saw that his ship was bound to taken with the company of the company o

the starboard side, midway between her catheads and turret. When Rear Admiral Markham saw that his ship was bound to stride the Victoria le signaled for the Camperdown's engines to be reversed. It was too late, however, to check the Damperdown's headway, and she struck the Victoria a fearful blow.

Not only did the ram of the Camperdown penetrate the flagship, but her foreastle was shoved ten feet under the foreastle on the flagship calling all hands to their stations, and the order given to close the water-tight doors in the bulkheads a minute before the collision occurred. The Camperdown, however, was swinging rapidly toward the Victoria, and those on the flagship, scarcely had time to reach the compartnents before the vessels came together. Then the water rushing into the ship through several of the forward doors prevented access to those compartments.

The officers who were in the wardroom.

partments.

The officers who were in the wardroom felt the shock, which was tremendous, and heard the sound of tearing iron and the rushing of the water on board. A bugler sounded the collision alarm, but though everybody aboard ship knew he was in imminent danger, there was not the slightest trace of a panic. Perfect discipline was maintained, and every order was obeyed as soon as it was given. The pumps were cleared and rigged for action and Capt. Maurice Bourke, flag captain of the fleet, made an inspection. All hands were then ordered to fall in on the port side of the ship. An attempt was made to place the mat over the hole in the forecastle, but it failed. While this was being done Commander Jellicoe was engaged in getting the boats out. The rapid and increasing list the ship was making made this task a difficult one. The port side of the ship was crowded with men, their anxiety plainly showing in their countenances, but perfect order was maintained.

The Victoria lay with a list of from 20 to The officers who were in the wardroom

was maintained.

The Victoria lay with a list of from 20 to 25 degrees for about two minutes. She was settling by the head at the time. Suddenly the water rushed through the main deck ports, and in less than ten minutes after the ship went down. In the last few minutes she neeled over with frightful rapidity, but clutching stanchions and anything else 'ts' would hold them, the men hung on, no one attempting to leave the ship.

e-Admiral Tryon saw that all hope was gone, and gave the order, 'Jump, save yourselves.' Then, and not till then, did the men break ranks. They climbed into the weather nettings, crying, 'She's going wn, and scrambled to get hold of som thing on the upper part of the ship. The men who were in the stern above

thing on the upper part of the ship. The men who were in the stern above the port propeller, which was revolving rapidly when they jumped, were forced to jump close to it. Some did not clear the blades and were instantly killed. Those still on the storn, accing their fate, cried, 'Stop the engine, for God's sake.' This, of course, could not be done, as it was impossible, even had anyone dared to cute the engine room.

Many who jumped went down beneath the water, but rose again. In the meantime the Victoria had turned bottom, how first, carrying with her many of the men who were still clinging to her, they having clambered loward her keel as she turned slowly over after getting down on hier side. About 400 got clear of the ship before she sank, but many of them were struck by floating wreckage afterward and so injured that they drowned. The air that excaped from the ship as she can be down caused anything that would float to come to the surface with tremendous force, and the men struck by the upcombing riches were in many instances never seen uniterward.

itterward.

For 200 yards around the spot where the years cleant, the water was a seething mass, the men in it being whirled around, half choked and dashed against the wresting for a minute or two. Among those who were killed by the propeller was Liest shipling N. Munso.

When last seen Vice-Admiral Tryon was killed by the propeller was Liest shipling to the rail on the top of the chart country was the ding to the rail on the top of the chart was the ding to the rail on the top of the chart was the ding to the could have a single charce to with the indeed leading to the deck before the ship went down. He made no attempt to leave his post.

Viete Cari. Benefic with many instances never seen and ind single was a seen that we have a single charce to the chart was the chart was the could have hardly set to leave his post.

he ship went down. He made no attempt to leave his post.

Capi. Bourke, who was saved, was on the forward bridge below Vice-Admiral lyron when the Victoria sunk. When in he water the men's actions were here come warm around helping others and many of them seemed to think more of rescuing their countades than of saving their countades than of saving their own lives. After the first few counds following the disappearance of the interface was no shouting and screaming, of those who died, met their deaths lently.

LONDON, July 1.—Shortly after the opening of the stock market this morning opening of the stock market this morning prices became easier, and at the close all stocks, with a few exceptions, showed a fractional decline. The opening quotations were the highest of the day. The market closed dull. Italian and Spanish securities were especially affected. Operators regard Spain as bordering on bankruptly and believe that the securities of that country will

The Warship Disaster.

LONDON, July 1.—Important dispatches have been received at the Admiralty office from Rear Admiral Albert H. Markha m, in which it is said he places the blame for the disaster which befell the hattleship Victoria, where in his opinion it belongs. The Admiralty officiated user of iverlige the contents of these telegrams to the press until after the court martial has been held at Fortsmouth to ascertain every fact someeted with the loss of the ship.

Every effort is being m de at Malta to keep in seclusion the eury vors of the disaster who arrived there esterday, and to prevent them talking also is the collision.

The Government will be questioned in the House of Commons Monday as to the reason for this attempt to maintain secress. from Rear Admiral Albert H. Markham, in

The fact that she did use the strap in this instance is sufficient avidence. the better nature than by corporal punishment. The tact that she did use the strap in this instance is sufficient evidence to those who know her and her methods of the exigency of the case. That marks should have been found on the boy's arms is not to be wondered at, a very slight punishment would have caused that. No doubt Miss Coyne could exhibit similar or worse bruises as the result of her encounter with this boy, and I think the committee showed very little judgment in censuring Miss Coyne for doing what must have been to one of her kindly nature a most unpleasant yet necessary duty in order to his cover of her kindly nature a most un-pleasant yet necessary duly in order to preserve discipline in the school. As a parent I protest against the unjust action of the committee.

TERRIBLE DEATH RATE!

A Doctor's Opinion!

A very prominent physician said; "I my opinion the general use of Lactate Food would very largely reduce the alarning death rate now prevalent among infants." This opinion coming from a experienced medical man is worthy of consideration by every mother who is anxiou about the safety of her babe in the hot an trying summer weather. Mothers shoul now commence to provide a good and soil foundation for baby, on which to build safe and permanent superstructure chealth, strength and beauty of form Lactated Food will lay that grand foundation for the building that goes on in child hood and youth; and mothers who neglectouse this musele and bone-forming focare not true to their little ones. No othe food now in use can boast of as many stron letters of testimony as Lactated Food. A that is said in favor of Canada's great fooi is well-known to every mother who haused it. When Lactated Food is tried for one year as baby's diet no other form of the convenience in sever tolerated. To used it. When Lactated Food is treated one year as baby's diet no other form of food or nourishment is ever tolerated. Trit, mothers, during the summer and you babies will assuredly escape every summer disease and trouble.

THE WESTERN DAIRYMEN.

Meeting of the Executive in This City.

Thewing at the World's Fair to An Effort to be Made to testern Ontario Cheese Properly to Chook Work Being Done Todavard the Industrial and Western F air Competitions.

An important meeting of the executive committee of the Western Dairymen's Association was held in the secretary's office, 361 Richemond street, Saturday afternoon. There were present: President Geary, London; Hos. T. Ballantyne, Stratford; A. F. McLeres, Windsor; A. Pattullo, Woodstock; I. S. Pearce, London, and the secretary, J. W. Wheaton.

Reports of the work carried on during April and May at the Elma, Harrietsville, Gallows, and East and West Oxford factories in jiving instruction in making early apring cheese were received. These reports showed that good work had been done, and that the efforts of the association to improve the quality and increase the value of our western cheese were bring appreciated by the daymen of Western Ontario.

A grant of \$100 was made by the Toronto Industrial Exhibition to be put with similar pants from the Eastern Dairymen's Association of Quebec, and \$200 from the Industrial Exhibition; the whole to form a purse of EO. This amount is to be given in prizely cheese to be competed for by members of the three associations. This awais arranged for it, bringing into direct execution the cheese made in the three ariots, Eastern and Western

ectition the cheese made in the criets, Eastern and Western Quebec, and it is hoped that the man and cheesemakers of the ake an extra effort in this re-

west whale an extra effort in this regard, withat our best factories will make argements to send some of their prime clast to Toronto early in September, so the present high reputation of westerness may be maintained, and do not lose good name as the leading dairy district Canada, both as regards the quantitied the quality of products.

The Wern Fair, London, also came in for a likenount of \$100, to be given in prizes forese to be competed for at the coming efficient near from Sept. 14 to 23.

Consider discussion took place in reference the showing that Western Ontario imade at the competition at the Wor, Fair in cheese made during the same of 1893. Although Ontario heat reason to be proud of the ceat reason to be proud of the dor cheese made during lited this spring, yet through estanding of what was rested this spring, yet through standing of what was rejough being too lax in their

WOMAN'S WORLD.

On y evening, June 18, Rev. Dr. Ball, Jof Zion Congegational Church, Colleginue, delivered another of a series courses on "Christian Socialism." subject for the evening was "Womforld." The text was taken from the chapter of Genesis: "It is not gooman to be alone." Dr. Ball introduces subject by saying that the statement the text, "It is not good for man to lone," is but partially understood a There was folded up in it the livit of the equality of the sexes. Christiand always been a force on woman's, but eighteen Christian centuriel passed and still woman was not whed had put her in his Word. In some is it was still a curse to be a woman, wen in Canada the equality of the sexes not yet recognized, and it was onlybeent years that woman had been give right to co-education with her broth the higher schools and the universit. As yet no women were employed a plessors, or teachers, in any universit. Why," he asked, "since women atmitted as students, should they not a the right to toach when they have the sarry qualifications!" Man was much lame for the present state of affairs, for had trained woman to be lieve that is unwomanly to do many things forhich she had sometimes a splendid csty. Dr. Ball spoke warmly in praise of World's Congress of women lately held hicago. One of the most important gas said there was this: "We are nwilling that any reserve power in thilvidual should be left unued." War's work should only be limited by hapacity. It was not good for man to bone in the pulpit. Woman hid been det the right to preach but not justly so, her soul is on fire with the love of God had the right to stand, and, looking the face of her sisters, preach to the the week should only be limited by hapacity. It was not good for man to ballot and to a scat in the Legislature is referred to Wyoming, where women re recognized by the law as on an equal with man, and gave an account of an etton he witnessed in that State at whiche women turned out in large numbers a

he women turned out in erand cast their ballots as saany and quily as you drop a card into the letter k.

Speaking of a labor question, Dr. Ball sa of that in not y did we degrade women more than wa we declared she was inferior to main the matter of wages. Our school conflictes say "we want a woman tender, cause we can get her for half as much a man"; and the same logic is used in ery calling where woman is employed. The was not right, and Dr. Bell called upon bomen to refuse less pay than is given in for the same work equally performe. In conclusion he spoke strongly of the direct treatment accorded to men and womb who fall from virtue, and said that it was not good for man to standalone in his minence, while for the same sin woman it cast out; both should stand or fall togeter.

stand or fall toget THE YANKEES IDEAL OF LABOR. the executive felt de does does not receive made to have been used and ask for the lairymen in their if as good an exect as good an exect as good an exect as good an exect as possible.

IALISM.

THE VANKEES IDEAL OF LABOR.

The Yankee's attpathy to work has never yet been adequately appreciated. He is na state of perpetual insurrection against the primal carse. He feels that he was born to sit on the fence and whittle in was born to sit on the fence and whittle in the sunshine, and he is against every apprent necessity that would compel him to take his already and ask for the lairymen in their if as good an execution and ask for the lairymen in their if as good an execution and the lairymen in their if as good an execution and the lairymen in their if as good an execution and the lairymen in their if as good an execution and the lairymen in their if as good an execution and the lairymen in their if as good an execution and the lairymen in their if as good an execution and the lair was born to sit on the fence and whittle in was born to sit on the fence and whittle in the sunshine, and he is against every apprent necessity that would compel him to take his done to leave no stone to

sserts Every
icme.

Substitute is not possessift, as that he loves labor so little.

But to get rich is only an indirect way of beating the tyrant. The Yankee would rather abolish work than clude it. If he can get it done without human intervention, at all, he likes that best; and if he amount wholly eliminate human intervention, at all, he likes that best; and if he cannot wholly eliminate human intervention, he wants to reduce it to its lowest the solitary in here words an se of which he complaint. When he gets matters fixed so that the work is done with very little intermeddling, he is willing to sit by and supervise the process. He will pull a lever and turn a cock now and then without once lite is a noncest nations; didual morality lessive for home uym for energy and perseverance. But make things work together for the au

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. D. Kellegg's Dysentery Cordial ready for use, It corrects all looseness of the bowels premptly and causes a healthy and natural actics. This is a medicine adapted for the young and old, rich and poor, and israpidly becoming the most popular medicine for cholera, dysentery, etc. in the market.

London, Monday, July 3.

States, and until Congress expresses its in- | we have." tentions greater or less uncertainty is

will be repealed at the earliest possible moment. This contemplated action poplists as is the case under the present moment. This contemplated action alarmed the Government of India, which has a currency almost entirely composed of silver, and it forestalled action in the United States, of which it was the best customer for the purthe metal. The new development has been accomplished by a steady drop in the price such is the case. It is always that of the metal, a wholesale closing up of people not to agree to any scheme that makes it easy for a party in power to exbusiness over the border, and congressional action is now imperative.

not for the public good, but to benefit friends who corruptly aid them to retain power. Better far is it to collect no more paratively casy to maintain gold as a standard of value, because of its comparation of the country and to let every was one of the be tive scarcity. But silver is now nearly as possible centremain in the pockets of the be plentlini, in comparison with the quanplen(liul, in comparison with the quantity of gold in circulation, as coppes ence was. For over 200 years picell'ill, in comparison with the quantity of gold in circulation, as coppes once was. For over 200 years proof to 1872 eilver maintained towards gold pretty much the same ratio of value, namely, 15 to 1. But from 1872 to the present date there has been a steady decline in the relative value of silver, and within the past few years the decline has been averaged by the proof of the natural products of this vast country. He knows nothing about the laws of the ariler municipal so frade who hopes to increase the wealth of present City. of the natural products of this vast country. He knows nothing about the laws of trade who hopes to increase the wealth of a country by preventing its inhabitants from buying where over their self-interest dictates, for with increased purchases abulbe the quantity required twenty years of home products. We do not self-interest do from the products of the natural products of this vast country. He knows nothing about the laws of trade who hopes to increase the wealth of a country by preventing its inhabitants from buying where over their self-interest dictates, for with increased purchases will always go increased development of home industries and increased sales of home products. We do not send money

In that year the world's output of gold in so far as any law prevents our people from so far as any law prevents our people from so trading just in proportion are they was \$96,200,000, while the cutput of gold so trading just in proportion are they was only \$81,800,000. In 1891 we find the world's tetal gold product only \$126,159, 000, while its silver product had increased to 186,174,000, "while its silver product had gold product of the world exceeded the silver in 1873 by \$14,400,000 the silver in 1891 exceeded the gold by some \$60,000,000. In eighteen years gold production has increased dangerous. 31 per cent. and silver production has increased 128 per cent. These facts show

Now that India has given up the free coinage of silver, we have probably seen the last of that metal as a standard of value. Great Britain dispensed with it in 1818, though still using it as a subsidiary loss, shough stit using it so coinage in to make good butter, or because Can-coin. Germany gave up free coinage in 1871, the United States in 1873, the Latin Union in 1875 and Austria in 1892. From market the product in first-class now onward, except probably in Mexico shape, that this country does not and South Anerica, coins of silver will become mere tokens, having their value from that established by the flat of the Government which issues them, and from their could have been largely added to. What inter-convertibility with gold. But for all the farmers of Ontario, at all events, now require is a fair trial of the creamery its commercial value as bullion, along with system. By its general introduction and careful management, the butter production cold, because of its comparative scercity, of this country could be vastly improved and incomparative scercity.

An ingenious general information ma-An ingestous general information manches has been set up in a railway station Melbourne. Australia. By pressing erent electric buttons the following mg other things will appear: A list of best hotels in the city, a fist of the tast he theaters, with their play bills, of the omnibus routes and the cab to the various points of interest. The ple of the machine is capable of hite expansion; and doubtless it will be introduced in this country.

The Colonel's Judgment.

The regiment was drawn up for church modate them all. "Sergeant-major," of the omnibus routes and the colonel, "Italian all arge number quickly and gladly availed themselves of the privilege. "Now, sergeant-major," said the colonel, dismiss all the men who did not fall out and merch the others off to church—they need it mest."

AS WE BUY SO SHALL WE SELL The movement in favor of emancipation from all unnecessary customs taxation is even stronger in Manitoba and the North-west Territories than in Ontario, and that is saying a good deal. This fact was the patent me even stronger in Manitoba and the Northstrikingly exemplified at the meeting of the been sent for tr Manifoba Central Farmers' Institute at Brandon last week. When the question was put if a reduction to 12½ per cent. duty women if nothing think it's a thing factory, there was a general outery that it would not the second seco that it would not. The duties on these and other necessaries to successful farming must be reduced if the agricultural committy are to prosper, if our vacant lands same to be filled up with contented settlers, who will be ready and able to buy the products of our factories and workshops.

"M. W." who is known to be an intelligent those dear things saming and scintillating. "M. W." who is known to be an intelligent English settler in Manitoba, writes to she Farmers' Advocate on the subject of tax-

taion and prosperity in this strain:

"The old argument that the tariff is higher in the States than with us is about played out. Let any farmer go from Emerson to Pembina and see whether he could not buy his goods of all kinds to better advantage. The fact is that while the United States is nominally a protective country, it is really the greatest free trade country in the world.

There is a system of perfect free trade because the same underwards without agents and the heavy run storm came up deponent says that the heavy run says the says that the limit says the protective country. It have been austomed to hearing the form heavy run says the policy that the limit says the protective country run says the protective country run says the says that the limit says the protective country run says t PRESIDENT CLEVELAND TAKES
ACTION ON THE GREAT
MONEY QUESTION.

President Cleveland of the United States has very properly called an extraordinary seasion of the United States Congress to consider the financial situation as developed by the position into which the silver question has been thrown by the stoppage of coinage in India. It is admitted that the uncertainty of the future of silver as a currency has done much to bring about recent business troubles in the United States, and until Congress expresses its in-

As we understand the demands of the bound to prevail.

By the Sherman Act, passed in 1890, the United States endeavored to retard the Britain, but with their kinsmen and near drop in the price of silver. It undertook neighbors in the United States. They may to buy \$4,000,000 of builtion monthly, for coinage purposes. The result has been the do so by arranging a comprehensive accumulation of many millions of dollars in silver in the Government vaults for which there is no demand. This scheme, it has been seen, was bound to fail, and a recent canvas of Congressmen showed that the act will be repealed at the carliest possible. opolists, as is the case under the present system. But in any case let us get as near

Some express fears that under emanci-pated trade it might not be easy for the of the people's money. The fears are wellsuch is the case. It is always well for the ploit the public purse at its sweet will, to accumulate surpluses of public funds, to ction is now imperative.

The trouble lies in the attempt to retain the force of the public good, but to benefit the public good, but to benefit the force of the public good, but to benefit the force of the public good, but to benefit the force of the public good, but to benefit the force of the public good, but to benefit the force of the public good, but to benefit the force of the public good, but to benefit the force of the public good, but to benefit the force of the public good the force of the public good the force of the public good to the public goo government of the country and to let every was people.

souther to buy I ownee of goid—aimost for home industries and increased sales of home products. We do not send money away to buy what we need from other countries, we pay for what we require with the products of Canadian labor, and

These are the days when the circus

ollowers are abroad in the land trying theat the unwary. They have new gat o play every visit. One of them, I no by a Michigan paper, was successfully couple of sharpers who were with augh's circus at Bay City. They hound the Callagan House, a farmers' sori, for some time, making themselves familiar with the yokols. After a white one of them took a padlock out of his pocket and began locking and unlocking the pocket and began locking and unlocking the pocket and began to ask questions. Bet you \$5 yes can't unlock it, add the confidence many the took in months. He wasn't satisfied with a small bet and the ante was raised to \$20. Then he took the lock, and after half as hour's work reluctantly gave up his claim to the money. Another one was sure he could work the thing. He didn't have but \$15, but this was quickly covered and he was a loser. About this time their wives got onto the racket, and quickly saw, what the men did not, that they were being taken in, and raised a loud cry for police, but by the time an officer was found the sharpers had made themselves scarce. ort, for some time, making themselve

Joseph Ruby
Son of Harry K. Ruby, of Columbia, Pa., Suffered From Birth

With a Severe Form of Scrofula Humor

"Until my boy was six years of age he was from birth a terrible sufferer from scrofulous humor. Sores would appear on him and spread until as Large as a Bolinz and then discharge, followed by others, so that the larger part of his body was one mass of sores all the time, especially severe on his legs and back of his ears and on his head. The humor had a very offensive odor, and caused

Very offensive odor, and caused

Intense Itching

We cannot tell how that poor boy suffered in all those years. Physicians did not effect a cure. At last I decided to give him Hood's Sarsaparilla, as my druggist recommended it. In about two weeks the Sarsaparilla began to have effect. The sores commenced to heal ap: the flesh began to look more natural and peatilly. Then the scales came off and at over his body new and healthy flesh and skin formed, when he had taken two bottles bears to show there they had been. These have all disapeared. We are unable to express our thanks or the good.

Hood's Sarsaparilla has done our little boy." HARRY K. RUBY, Box 356, Columbia, Pennsylvania.

Two Interesting Games of Cricket Played Here Saturday.

London Teams Defeat Their Toronto and Berlin Visitors.

Results of the Sarnia Bicycle Tournament-Racing at Glencoe and Petrolea-Various Sporting Events.

CRICKET.

LONDON VS. BERLIN.

This season has been ushered in with brighter prospects than ever in the past, and up to date the London Cricket Club have won all their matches. The two best games were with Detroit, who certainly rank as high as any club in Canada, and always put up first-class cricket. Last year a picked team from the asylum and London won against Chicago, Torento, Hamilton and Chatham, and sent two members, Rev. Mr. Terry and Mr. D. Bacon, to Philadelphia as members of the International. The successis due not only to the arrival of new material, but the advance of batting over the bowling; in other words, practice has developed more attention to a strong defense game. Many of the younger members have made rapid progress, and helped materially to the success of the club. Mr. C. Becher's twenty not ont on the Asylum grounds was a grand performance. Messrs. F. Reid, G. Macbeth, L. Becher and Snell are strong additions to the active membership.

To-day Chatham plays on the asylum grounds, and a close and exciting game is expected.

To refer back to Friday's game with East

grounds, and a close and exciting game is expected.

To refer back to Friday's game with East Toronto mention should have been made of the unsurpassed excellence of Mr. Grew's bowling in the second inning, as all the wickets fell to his ergdit for only fourteen runs. This has been done probably but once in Ontario. The ridiculous manner of disputing an umpire should be discontinued, as it is not only very unfair to the gentlemen who kindly ofter their service, but the dist act of affairs is rarely seen.

The fact the control of the month of the possible to the good of light blue, the state of affairs is rarely seen.

The fact the Toronto and Ham last.

Two MILES, 6 CLASS.

PRISPERING WONDERFULLY.

Ho. Robt. Watson, Minister of Public Ho. Robt. Watson, Minister of Public Work, and Hon. Clifford Sifton, Attorney-Genesi of the Manitoba Government, were interiewed in Montreal last week. Speaking othe Liberal convention, Mr. Watson and not the new policy drafted by that bodywould carry the Northwest for the Libeste. Unrestricted reciprocity was always obnoxious to the old country Engishmen, who are a strong political factin in Manitoba and the Territories. Yet hese Englishmen were, he said, almost unanimously free-traders and they would Yet beechngishmen were, he said, almost unaimously free-traders and they would vote and work enthusiastically for tariff for recene. Mr. Waten referred to the greath of the Tatrons of Industry organization in the west. The Patrons, he said, are properly winderfully and will have to be reckined with in the next election.

Ellter (anxiously)—Well, doctor, what is the matter with me Nothing serious I hope. Doctor—H mi well, you're in a bad way. Your circulation is very low. Editor (creitedly)—What? Why, I have at least 200,000 a day. You have been reading a rivil sheet, sir.

The Proof of the Pudding.

as against Wells' the of 13:58 2.5, thus reducing the existing standard by 175 seconds.

Sanger, it is rumefel, will appear on Monday. Some surprise may be looked for.

Manville, London's lever pedaler, although not showing wa in the results, did some exceptionally increasing for one who has not had the advantages of a good track for practice. When this efficiency is remedied, the Forest City's representatives will be found leading the variated of the victors.

The officers of the day vere: Referee, R. A. Robertson, Hamilton starter, Hal. B. Donly, Since, judges, W. A. Hunter, Toronto, A. E. Fitzgeral, Petroles; W. E. Mulleus, London; time-keepets, G. H. Ork.

"Dogs and Cats."

The following composition was written by a ten-year-old nephew of Josh Billings when the teacher gave him "Dogs and Zate" for a subject: "Dogs and kats allways fite ech uther when the git a chance, but a dog ain't no match for a kat because a kat kin make her tail biggern a ball club and run up a tree whit a dogs gettin riddy."—[Interior.

Runaway Accident.

Runaway Accident.

Geo. Nevitt and his young daughter were both injured under somewhat peculiar circumstances in a runaway accident Saturday. They were driving down Richmond street, and when near York a runaway came up behind them and started to climb over the back of their buggy. The seast was denolished and Mr. Nevitt severly injured in the back. His little daughter was hurt in the head and blood flowed from her mouth. The two were driven to Dr. Geo. H. Wilson's effice and their injuries attended to. The man appears to be the most injured of the two, the borse's hoofs having struck him in the back. The runaway belonged to a farmer named Kelly and commenced to run from near the market.

near the market. London Debentures Sold. City Tressurer Pope and Detective Rider, of London, were in the city yester-day. Mr. Pope succeeded in disposing of \$725,000 worth of London debentures to \$725,000 worth of London debentures to O'Hara & Co., stock brokers, Maii building. The debentures, which under the new Consolidation Act, were issued to provide for entstanding debentures, maturing in from 20 to 30 years, were sold for 95.18, and bear interest at 4 per cent. Considering the present stringency of the money market, Mr. Pope thought it a very good deal. Detective Rider's mission is to accompany the money to London, that being a cheaper way of transport than by express.—[Toronto Globe.

She took her bonnet in her hand and went slowly up the stairs. It was not a pleasant task, this question that the historical properties and the stairs and t

dow, her head shaded by the half-drawn bind.

"Well, I have been, aunt."

"Been?" granted Miss Bettins. "Not mow, when all your ducks and drakes."

(To be Continue the been? I know propriety better than to be seen streaming abroad to-day.

Sara drew a chair to the little table on Sara drew a chair to the little table on which lay her aunt's pear! basket of wool, and sat down close to her. Her pale, refined face was ominously severe, and Sara's theart seemed to faint ather task. Not at this one particular task before her, but at the heavy task altogether that her life had he heavy task altogether that her life had he heavy task altogether that her life had he heavy task altogether that her life had beking Fowder of her self.

"I doserved tha I had gone to see the boys, Aunt Bettina. They both send their love to you."

"A smile costs no more tha

boys, Aunt Bettima. They both send the looks much better.

A smile costs no more the looks much better.

ilove to you."

"I dare say they do. Especially that impudent Dick!"

"Mrs. Keen also desired to be remembered," continued Sara.

"You can send back my thanks for the honor," ironically sucke Miss Davonal. The last time she was at Hallingham she passed our house without calling."

"She snoke of it to-day, Aunt Bettina. She nodded to you at the window, she said, and pointed towards the station; she wished you to understand that she was pressed for time."

Aunt Bettina made no answer. She was knitting vehemently. Apparently Sara was not getting along very well.

"Mr. Wheatley has been here, aunt."

"You need not tell it me. He has been dodging in and out like a dog in a fair. Acybody but he might have respected the quiet of the house on the very day after its poor master had been taken from it. He came in and went out again, and then came in again—with you. As he had come, he might have been polite enough to ask for me, Neal said he wanted you. Early times, I think, to begin showing people you are the bitliousness is entered."

It was not a promising commencement.

It was not a promising commencement. ara could only apply herself to her task in

Sara could only apply herself to her task in all depreading meekness.

"Aunt Bettina, he came to speak about the future. I dare say he thought you would not like to be intruded upon to-day, for he wished me to talk things over with you. He was asking when we-you-when we should be ready to vacate the house."

"To do what?" she repeated shrilly. But she heard very well. Sara was close to her and speaking in low tones.

"When we shall be ready to leave the house!"

"Had he not better turn us out of its superior was a superior with the same than the same than

"When we shall be ready to leave the house!"

"Had he not better turn us out of it today?" was the retort of the angry lady. "How dare he show this indecent haste" "Oh, aunt! You knew it is only in accordance with papa's will that he has to do it. You heard it read. You read it to yourself afterwards:
"Yes, I did read it to myself afterwards; leould not believe that my brother Richard would have made such a will, and I chose to satisfy myself by reading it. Everything to be sold, indeed; as if we were so many bank, rupts? Hold your tongue, Sara! Do you think I don't grieve for the loss of the best brother that ever stepped! But there are things that I don't understand."
"The re is a necessity for the things being sold, Aunt Bettins."
"He told me so before he died: you need."
We have re."

not repeat it to me. Where's the money to be paid ?

not repeat it to me. Where's the money to be paid?"

"And therefore Mr. Wheatley is desirous that there should be no unnecessary delay." Sara continued, a fair color tinging her cheek at the consciousness of evading her aunt's question. "He does not ask us to go out at once, Annt Bettins; he only wishes to know when we shall be ready to go out." "Then tell him from me that I will be no hindrance," retorted Miss Bettina, her temper rising. "To-merrow—the next day—the day after—any day he pleases, now, or in a month to come. I can get a lodging at an hour's notice."

"Aunt, why are you so angry with me?" A mens the rise of t

Bestim knitted on more fiercely, decining an answer.

"It is not my fault, aunt. If you knew want I have to bear !"

"It is your fault, Sara Davenal. What I complain of is your fault. You are keeping the secret from me. I door keeping that they are going to sell the chairs and tables; they are going to sell the chairs and tables; they are going to sell the chairs and tables; they for it; but I don't like to be kept in the dark as to the reason, or where the money is togo. Why don't you tell it me?

It was a painful position for Sara. She had always been duifful and submissive to Caroline had been.

"Aunt Bettina, I cannot tell you. I was a painful position for Sara."

Histogenetic Medicine Assina 2 and 3 Albion Block, London, or

19 Gerrard Arcade, Toronto

What is

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Casteria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea-the Mother's Friend.

Castoria.

"Casteria is an excellent medicine for chil-dren. Mothers have repeatedly told me of its good effect upon their children."

Da. G. C. Osgood,

Castoria is the best remedy for children of "Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria in-stend of the various quack nostrums which are destroying their loved ones, by foreing optum, morphine, soothing ayrup and other hurtful agents down their throats, thereby sending them to premature graves." them to premature graves."

DR. J. F. KINCHELOR,

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me,"

H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y. "Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the nearits of Castoria has wen us to look with favor mon it."

Star.

The officers and men of the Twentyeighth Battalion were tendered a reception
upon their arrival home in Stratford from
the London camp. The Herald says: Of
the camp itself the officers and men speak
highly, but outside the camp little is said
complimentary to the Londoners. There
was an absence of that cordiality between
citizens and soldiers that prevails in other
places where camps have been held—as in
Stratford and St. Thomas. This condition
of things may perhaps be accounted for in
some degree by the fact that London sees
enough of soldiers in connection with "D"
School.
