THE WAR SITUATION.

Apparently the Russian forces have taken the offensive. London is informed the main advance has commenced two armies one of them from Vladivostock and one from Manchurla converging on the Yalu River. A Jap army, 70,000 strong, is in Northern Korea, headed towards the south bank of the Yalu, where it is said the Russians have thrown up fortffications. Another important news item is that Russia has warned Kerea that she will be considered a billigerent because of her alliance with Japan. Jap naval losses since the opening of the war are placed at four cruisers and five torpedo boat destroyers. The machinery of a battleship has also been badly crippled by Russian shells. These reports come by way of Paris, which is anti-Jap. It is again reported that Port Arthur was badly damaged by the various Jap bombardments.

TWO-YEAR TERM FOR ALDERMEN Delicacies.

Proposal to Give System to Places Which Ask It.

MIGHT BRING IN POLITICS

After the Second Year One Party Would Be in Control, Mr.

Gibson Fears.

Toronto, March 16.-The bill proposed by Mayor Adam Beck, of London, to perait a two-year term for aldermen mayors was almost adopted by the municipal committee of the Legislature today, but on second thought it was decided to hold it over until the next meeting.

The bill, as it was originally drawn, applied only to cities of over 30,000 population, and was trained to the second thought in the second thought it was decided to hold it over until the next meeting. tion, and was to go into effect bylaw being adopted by the council. Mr. H. Preston thought that perhaps it was a little too much power to give councils, and it was decided that the bylaw would have to be submitted to vote of the people.
"Why not apply it to towns and all cities?" asked Dr. Lackner, of Waterloo. "There are petitions for it from all over the Province," said Mr. John Lee,

Chairman Davis put the question, and was unanimously decided to let the bill pass, making it apply to all muniipalities, on condition that the bylaw should be submitted to the pe But then Attorney-General Gibson entered the room. He was not sure that the egislation was altogether perfect. He aid that personally he was in favor of the principle of a two-year term for municipal councils, and he would be inclined to say that the act should k bsolute, instead of optional with the people. But he pointed out that unde the bill, at the end of the first year the half of the council which had received the lowest votes would drop out, and that thereafter half of the council would

It was not so to such an extent in Toronto, where he believed there was less party politics than in any of the other cities. The result in Hamilton would be that the council would become almost solidly Conservative. At the present time Liberals got elected his party was raising racial only in the first half, and they would and religious cries. At St. Peter's Cathedral mass was celebrated at 8:30, and at 9:30 in St. Mary's Church, large congregations attending in both instances, and the separate school children also taking part in the services. The only distinctly Irish event in connection with St. Patrick's Day will be the concert, which will be held in St. Mary's Hall tonight.
