DO NOT BESPEAK HARD TIMES.

EVIDENCES are wanting that the condition of the country is unhealthy; but evidences are forthcoming to prove that the country is healthy.

The Government savings' banks returns for 1893 recently published are of the latter character.

These banks are the depositories of the savings of the masses. And when people are hard up, not only do they not increase their savings, but they are of necessity compelled to draw upon what they have in their day of prosperity put aside. No one will gainsay this. Yet, notwithstanding the hard times that some people have been bemoaning, we find that last year not only did these people increase their savings, but they withdrew less than they have done any year during the previous five years.

The total number of depositors in the Government savings' banks last year were 148,868 against 145,400 in 1892, while they deposited \$7,708,000 against \$7,056,000 the latter year.

The number of withdrawals was 73,000, and the amount withdrawn \$6,631,000,

against 77,000 and \$7,230,000 respectively in 1892.

The total amount on deposit at the end of the fiscal year 1893 was \$24,153,193, including interest. Not so bad a nest egg, after all, for a people suffering from "hard times."

The fact of the matter is, we are too much in the habit of crying "wolf" when no wolf is nigh.

Half the time it is "scare" talk, and the want of confidence it breeds that clogs the wheels of commerce and prevents their running as freely as they otherwise would.

When business is quiet, instead of sitting in sackcloth and ashes, merchants should exert a little more ingenuity to bring trade. That is the sensible way—that is the right way.

CANDLE YOUR EGGS.

IT is not wise to trust the doing of a thing to anyone else when you can do it yourself.

The commission merchant candles the eggs he sells the retailer, but that is no reason why the retailer should not repeat the operation before he sells to the consumer.

Just now, when so many held and bad eggs are being placed on the market, it is necessary that the retailer should exercise more than usual care in the matter of eggs.

A bad egg may mean a good deal. It may mean the loss of a customer.

The trouble is that too many retailers are not precautionous enough in the matter of eggs. Numbers of them never candle an egg, and numbers of them as a result have a reputation that they cannot be relied upon for supplying fresh eggs.

It is worth while for the retailer to take a little extra pains to satisfy himself as to the quality of the eggs he has for sale.

The grocer who has earned a reputation for keeping good butter and eggs has opened a door through which customers will come in to buy other things, and has laid a good foundation upon which to build a good business.

People always have a weakness for the man who can be relied upon to please their stomachs.

A good way to test eggs is to cut a dozen holes in the top of a box, and an aperture through the side. Inside place a mirror on which to reflect the eggs when they are placed in the holes. By this means it can be seen at a glance whether the eggs are good or bad. The experienced "candler" will probably prefer the more expeditious method of picking up half a dozen eggs at a time and holding them before a candle in a darkened room.

But by whatever means you may do it, candle your eggs.

CANADIAN BEANS AND U.S. TARIFF

CANADIAN bean growers and exporters should benefit by the new tariff in the United States.

In the face of a tariff of 40 per cent we sold the States 273,354 bushels, valued at \$351,058, during the fiscal year 1892-3.

The importance of the American bean market to us may be gathered from the fact that our total exports to all countries, the States included, was 776,313 bushels, valued at \$355,682, showing that all other countries combined took less than 3,000 bushels from us.

The people of the United States are great bean eaters, but they are not great bean raisers, in spite of the fostering care of a high protective tariff, and the persistency with which the press have urged the farmers

of that country to cultivate more extensively this popular article of food.

And if under a high tariff they could not be induced to do so, what can they be expected to do under a lower tariff of 20 per cent.?

During the fiscal year ending June 30, 1893, the importations of beans into the United States aggregated 1,225,607 bushels valued at \$1,206,689, and on which duties to the amount of \$490,243 were paid.

As already pointed out Canada's contribution to the total imported was 273,354 bushels. What Canada's crop of beans on an average aggregates we have no means of ascertaining, the Government returns classifying beans and peas under one head, but we doubtless raise enough to spare the United States a few more than we did last year. Then if it is worth our while we can increase our acreage anyhow. And it does look to be worth our while.

TRADE DEVELOPMENT THE ISSUE.

THOSE who claim to know allege that the real issue in the conflict between China and Japan is whether progress shall be the rule in Corea.

China is credited with a desire to preserve Corea in its pristine condition as a hermit kingdom, while the Japanese are said to be in favor of opening up that country to trade and civilization.

The "pristine condition" referred to is deplorable. The old feudal system obtains there, while abject poverty is the condition of the great mass of the Coreans. The country is rich in minerals, but they are undeveloped except a little gold, and all the precious metals the King claims as his own. In one part of the country there is a rich seam of anthracite coal, for the product of which a high price could be obtained at Hong Kong or Shanghai, but it is quarried for the use of the palace, and its export is prohibited.

Corea has long been known as a nation low in the scale of civilization, and the revelations of the past few months have emphasized this knowledge. If, therefore, the real issue of the present war is as stated, let us hope for success to Japanese arms. Otherwise the people of this country are unconcerned how the conflict ends.

The trade and navigation returns do not show that Canada either buys from or sells to Corea one dollar's worth of goods, but if Japan, by trouncing John Chinaman, is

going to increase our opportunities—or the opportunities of any other civilized nation for that matter—for doing business with that country, well and good. We have, no doubt, a few things which we could sell the Coreans, and they have in all likelihood a few things which they would not object to sell us.

THE EMBARGO ON CANADIAN CATTLE.

IT is not with good grace that Canada receives the announcement that the British authorities have finally decided that the embargo against Canadian cattle entering that country must continue.

But what are we going to do about it? It is evident that something is wrong in the state of Denmark.

It has yet to be demonstrated that pleuropneumonia exists in Canadian cattle, but that no contagious disease is to be found among them is another thing.

Experts in Great Britain aver that there is, and they are not likely to say so unless there is some ground for it.

The duty of Canadians is now to search out this evil thing, its cause, and its cure.

It may not have developed in this country, but it is evident that some of our cattle have been affected by some disease or other when they reached Liverpool.

We want to get our cattle into the British market again on the hoof, and the best way in which we can do this is by seeking out and removing the cause which has deprived us of the privilege we once enjoyed.

THE CHEESE POSITION.

THE cheese market in Canada has got into an interesting condition to those of a speculative turn of mind.

THE GROCER'S Montreal correspondent on Monday last had an interesting half hour's chat with one of the leading Montreal shippers.

According to this gentleman the cheese market on this side of the water was entirely controlled by the speculative element. If country cost was any criterion, the cheese market was firm with a strong upward tendency. On the average the cost of recent purchases in the country was one-quarter cent higher for those of the corresponding period last year, and the latter were generally admitted to be high enough. In fact,

the Canadian factorymen this season have realized fully one half cent more for their July cheese than they have in previous seasons.

They certainly have made money on their early goods, and substantial money at that, and of course it is none of their business if the buyers do make a cent or not.

The prospects of the latter are not so definite. Their purchases have cost them all the way from 9¼c. to 9½c. per lb., and on the face of it the argument seems to be against such prices this season.

They are comparatively high, and how the owners of goods costing this money will come out only the future can decide. Exporting firms are—to use a colloquialism—into it with both feet, and how they are going to come out will be seen later.

On the face of it the argument seems to be against high prices. Though drouth is spoken of, it is held that the shrinkage in this respect is fully made up for by the increased number of establishments turning out cheese this year, and that, allowing for all drawbacks, the make this year is an average one.

The shipments of cheese this year from Montreal are in excess of those of last year for the same period. There is a large quantity of cheese in cold storage which has got to be marketed some time or other, reliable estimates placing it at 500,000 boxes in the United States and Canada.

Reports from Great Britain are not bullish in their tenor, for they all speak of a largely increased make, some statements pointing at 20 to 30 per cent. of an increase.

If this is correct, it means, based on the aggregate British output, a quantity of cheese almost if not double our season's exports.

It is also worthy of note, despite the way prices on this side have been climbing the scale, the public Liverpool cable on cheese stubbornly refused to budge a peg until Thursday last, when it jumped 1s.

Another point worthy of mention is that shippers in Montreal don't seem to be rushed with orders, for the reason that their limits prevent them from doing business. No buyer can secure finest cheese under 9½c. At the present time this means that he must get over 47s. c.i.f., and at that price he will have to do some close figuring to come out even, while it is unlikely, if values continue

id to have filled 20,000

to go up in the country, that business can be done on this basis even very long.

In the meantime nothing seems to bother the speculative element, who still keep at it hammer and tongs. Factorymen last week got $\frac{1}{4}$ to $\frac{3}{8}$ c. more per lb. for their output than in any previous season for the last six years, yet buyers seem to be still hungry for choice.

In addition to the full figures paid, offers have been made to contract September and October's at $10\frac{1}{4}$ c. in the Brockville and Belleville districts, while factorymen have refused bids of 10c. for their August makes.

These contract offers have not, as far as we can learn, been accepted by factorymen.

It may be remarked that factorymen at present are in a good position to hold. With the exception of some in the townships and down around Quebec they are practically sold right up to date. This means that their shelves are clear and that they can be in no hurry to sell.

If all we can hear is to be believed, action in this direction would fall in line with the views of quite a few buyers.

Anyone who has got cause to sell should carefully consider whether advice to hold their make is entirely disinterested or not.

DANGERS OF AN "UPLIFT."

DEAR GROCER,—Is it not ambition to rise which leads men onward and upward in professions and in business? Is this not the oil which keeps the axle of the whole machinery of life running continually? And are there not dangers of an "uplift" in all these pursuits? If a laborer were called to ascend the lofty spire of a church to assist in some repairs near its apex, he would realize that his new and loftier position greatly increased his personal perils. A slip or a stumble on his part, that would be a little matter while he was on the ground level, might prove fatal to him when his standing place was two hundred feet above the roadway. A tourist who would give slight heed to dangers in a pleasant valley among the mountains would have a sense of growing danger with every hour of climbing toward a mountain summit; and his outlook from a lofty crag a thousand feet above the valley would require a steadier head and a firmer foothold than were called for on the lower plane. So in every sphere of human experience dangers increase with the "uplift." A man cannot be in such danger of falling when his feet are on the ground as when his head is high above his fellows; and his perils grow with his upward progress. With every promotion in business or in station there are new responsibilities and new opportunities of harming one's self

or one's fellows by mistakes or failures in duty. Many a man at the head of a large mercantile or manufacturing establishment, or an extensive financial or railroad corporation, or in high political station, realizes the increased perils of his position to such an extent that he longs at times to be back in an humbler place where his blunders and lacks concerned only himself, or those in a limited sphere, instead of involving the interests and welfare of large numbers. Promotion has its attractions and its advantages, but it cannot be said to lift one above perils, or to diminish dangers to him who rises. Knowledge, wealth, station, influence, and power of all kinds, with all the gain that they proffer to anyone, have special and corresponding dangers unknown to those who have not risen so high in the world. And no one of us can ever rise to such a mental or moral elevation that he is above weakness or temptation. And he in business who counts himself already above danger of failure is perhaps in the direct of peril. The present condition of trade throughout the Dominion calls for judicious, not reckless, moves to be made by its business men, and the order of the march should be carefulness and better times are sure to follow, and the "uplift" in trade will then stand upon a surer footing.

A TRAVELER.

Toronto, Aug. 20, 1894.

THE EGG TRADE.

D. Gunn, Flavelle & Co., Toronto, have issued the following circular re eggs. It requires no comment:

The very unsatisfactory condition of the egg trade in this city is apparent to all engaged in the trade, both in the city and adjacent towns; but the cause is not so generally known. Why should eggs go begging for buyers in Toronto to-day at 7 to 8c. per dozen when they are worth in New York 17c.? It will only take about 5c. to pay freight thence and duty. It is simply because the quality is poor.

Why is this? Do not our Canadian hens lay good eggs? They do. There are no better eggs than those produced here. Then what is the trouble? Simply this: They are not fresh.

Many farmers and country dealers do not market their eggs when fresh, but they get into the vicious habit of holding for a rise in price, and not having storage of suitable temperature, a few hot days catch them. They are then hastened to market, arrive out of condition, and are unsalable. To-day there are hundreds, yes, we believe thousands of cases of eggs held here for which the receiver would be glad to get any price, but for which there is no sale. Attempts to force these into consumption have turned consumers against eggs generally, and other articles of food are now taking their place. The consumption of eggs in the city at pre-

sent is not half of what it should be if stock were good.

The loss the country has sustained during the past month from deterioration in the value of eggs is very great, for every egg was once fresh and salable, and there has always been a good demand for fresh eggs.

Notwithstanding all this, there is still a demand for fine fresh eggs.

THE SALMON PACK.

NEWS, Vancouver, August 15: With the arrival of the Danube from the north yesterday morning, comes the news that the salmon canneries all along the North-west Coast are closed down. These consist of the eight on the Skeena, one on the Naas, one on Lowe Inlet, one at Alert Bay, and two at River's Inlet. The run, however, still continues, but despite the fact, with the exception of those on the Naas and River's Inlet, the packs are small, not running over three-quarters of the average put up, and there is little probability of operations being resumed. The fish have been of larger size and excellent quality, and although troubled somewhat with a strike amongst the fishermen, in all other respects the season has been a very quiet one. The following are the packs so far reported:

	Cases.
Naas River.....	20,000
Skeena—	
Inverness.....	8,000
North Pacific.....	9,500
Aberdeen.....	8,000
Balmoral.....	7,000
British America.....	7,500
Diamond C.....	8,000
Royal Canadian.....	8,000
Standard.....	6,500-62,500
Lowe Inlet.....	9,000
River's Inlet—	
Wharnock.....	13,000
British Columbia.....	27,000-40,000
Alert Bay.....	2,000
Total.....	133,500

On the Fraser the run still continues in large numbers. Fishermen are kept hard at work, and the canneries have all they can do to keep up with their supplies of fish.

B. C. Commercial Journal, August 14, has the following salmon news: Further advices have been received by the steamship Danube, which arrived from northern canneries Monday morning. On the Skeena, the cannerymen are disappointed, extensive arrangements having been made in anticipation of a full pack. The weather has been generally bad for fishing, and the packs of the canners run from about 6,500 to 8,500 cases each. At River's Inlet, the B. C. Canning Co.'s two canneries have put up 27,000 cases. The Wharnock is also reported with from 12,000 to 13,000 cases.

Alert Bay Cannery has a pack of about 2,000 cases.

The Naas River canneries of the Federation brand are reported to have filled 20,000

cases. The run on the Naas is said to have been an exceptionally good one this year.

A late advice from Ladner's Landing says that there has not yet been a full day's pack on the Fraser River, but it has been fairly good during the past week. At a number of the canneries the average pack for the week was 3,000 cases.

Last week was the first really good one since the beginning of the season. Previous to that the fish were only running in dribbles. Prices to the fishermen were advanced from 8c. per fish—the usual figure—to 15c., and in some cases 25c., to induce the fishermen to keep at work. Even last week, with a fairly satisfactory run, there were not sufficient fish to keep the canneries employed to their full capacity. The total pack for the Fraser all depends on the next two weeks' fishing, and even with a big run it is feared that the canneries will fall far short of filling the tins already made. A three-quarter pack is expected in some quarters, but it is a matter of great uncertainty.

The Fraser River packs to date vary considerably. Some report an average of 5,000 cases to the cannery, others 7,000 cases, and some of the larger canneries are reported to have put up 10,000, 13,000 and 15,000 cases.

The markets are unsettled, and canners are looking for advanced figures

AMONG THE RETAILERS.

A. G. AULT, of Seaforth, who formerly conducted a general store, has gone exclusively into groceries.

J. Comb, of Palmerston, is in Bonnie Scotland with relatives.

Mitchell Bros. & Co., of Galt, are about opening up in Aurora.

J. Colborn, of Paisley, will move into his new store in a few days.

J. H. Strickland, grocer, etc., Cannington, has opened a branch store at Bolsover.

J. S. Sharpe, formerly of Pontypool, has bought out William Watson, of Cadmus.

Fred. Rogers, of Enniskillen, has gone to the Old Country. He will be away about three months.

J. Rothwell and James Whitefish, two Walkerton merchants, are summering with their families at Southampton.

Stuebing Bros., Berlin, have had a large fruit trade this season, and general business has been likewise good with them.

Sam. Ashton, of Hampton, is seriously ill. He is about seventy-five years of age, and fears are entertained of his recovery.

John Waddel, of Harriston, has been confined to his bed for several days, but he is expected to be all right again shortly.

Hilborn Bros., general merchants, Baden, have just completed their first year in business, and it has been a successful one.

Hilborn Bros. are pushing and energetic, and to those who know them their success is not surprising.

Henderson & Son, who opened up in Georgetown a few months ago, are reported to be well pleased with the results obtained.

Peter Bros., Walker on, are making an addition to their store. It is about 40 feet long and will be devoted to a clothing and boot and shoe department.

Robertson Bros. & Co., of Drayton, adopted the cash system about six months ago, "and it works like a charm," said a traveler who had called on the firm lately.

J. H. Shields, Palmerston, has had an addition made to his store and is now occupying it. Mr. Shields is credited with having one of the neatest stores on the W. G. & B. railway.

"Steiss & Good, Berlin, have one of the nattiest stores on the G. T. R. west, and they have a largely increasing family grocery and fruit trade," a traveler was heard to say the other day.

Wm. Clay, son of the well known W. P. Clay, grocer, Galt, is representing the Hamilton Coffee and Spice Co. in Western Ontario. Mr. Clay's friends wish him success in his new venture.

A unique and attractive window display has E. S. Cressman, of Hanover. He has the whole of one of his windows devoted to fruit jars which are tastefully arranged and filled with a variety of colored waters.

D. McEachren and family, of Clifford, are now residing at their summer cottage "Argyle," Southampton. "Mac. is one of those men whom the boys always like to call upon," enthusiastically remarked a traveler.

J. S. Boddy & Bros., of Bradford, have made extensive alterations in their handsome store. They have extended its length nearly 25 feet, and made other improvements. THE GROCER hopes that Boddy Bros. will be compelled to enlarge their premises again before long.

N. S. Bowman, general merchant, Conestoga, has refitted his dry goods department with new shelving, greatly improving the appearance of the store. Mr. Bowman is one of the oldest merchants in the county of Waterloo, having been in the business there for some 30 years.

Robert Mitchell, of Guelph, familiarly known as "Bob," has one of the best equipped grocery stores in the "Royal City." His is the old John A. Wood business, with whom Mr. Mitchell served his apprenticeship, and Mr. Mitchell receives a large patronage from the best city and rural families.

Scott Bros., who bought out the business of MacWillie Bros., King street east, Toronto, have issued a writ for \$2,000 damages against the latter for alleged breach of contract. The charge is that MacWillie Bros.

have not abstained from doing a jobbing trade since they removed to Yonge and Richmond streets.

Coulter & Perrin, of Pontypool, decided to dissolve partnership the other day. In pursuance of this the store was closed up, and Mr. Coulter took a trip to Toronto. After three or four days, Messrs. Coulter & Perrin found they could not get along without each other. Then the partnership was firmly cemented again and the store opened for business.

S. Ruthven & Co. have removed from No. 377 Parliament street, Toronto, to No. 346 the same street. The latter was formerly a private dwelling owned by the firm, but it has been turned into a large and attractive store by the addition of a new front some 40 feet in length. The store has two large plate glass windows, and at night is brilliantly lighted with patent gas burners. The arrangement of the stock and store well maintains Ruthven & Co.'s reputation in this respect.

J. A. Mc Kerchar, of Winnipeg, has found it necessary to make extensive alterations in the interior of his premises, so well and favorably known to the people of the Prairie City as the Maple Leaf store, which is now in the fourteenth year of its existence. The division between the front shop and the back store room has been taken away and the shelving on both sides extended to the rear end of the building, where a nicely arranged office is situated, the combined arrangement of stock and fixtures giving evidence of the progressive nature of this establishment, which is one of the largest and most successful grocery houses in Winnipeg.

FLY CATCHING SCREENS.

A correspondent of the Scientific American, G. P. Yule, of Clinton, Ia., tells a grateful public how to put in window screens and not have any flies in the room. First place the frame on the outside of the window, the wire to be on the inside of the frame. Nail on moulding on each side and at the bottom to cover the ends of the wires, but let the wire cloth extend over the nail on top of the

frame. Put no moulding at the top on the inside. If you will give the flies a chance, they will alight on the screens and walk up and out. Take any common window screen and place it on the outside, but instead of closing the space at the top, take a hammer and pull the top moulding off from the screen; let the space then be open between the top of the screen and the sash. When you draw down the window shade half way, or down to the top of the screen, and the open space is thus left across its top, you will see the flies go toward the light and walk up the screen and go out. All the flies that come in from the screen door when it is open go to the window screen and thus go out.

DRY GOODS.

TORONTO MARKET.

TRADER has picked up very considerably during the past two weeks, although it has not yet attained ordinary proportions. The orders for fall delivery now being taken are much more generous than those secured in July. Not only have retailers decided to buy staples, but they are also buying more in novelties. Braids, jets, fancy dress goods, underwear, ribbons, grey flannels and blankets are a few of the lines in which most attention is centred.

The millinery openings next week, be-

ginning on the 27th, will attract many buyers to the city and liven the house trade.

A special lot of lace curtains in three prices to retail at \$1, \$1.25 and \$1.50 respectively are shown this week by John Macdonald & Co. The quality and patterns are said to be much better than ever seen before.

A new dress facing can be procured from W. R. Brock & Co. It is called R.D.F., and is a combination of a braid and a cord. This corded edge is where the wearing qualities are found, and it is claimed to be much ahead of a wholly flat braid or a velvet facing. It is easily attached, is low in price, and should be popular. It can be procured in black, cream, navy, four shades of brown, fawn, cardinal, etc.

The special number of THE DRY GOODS REVIEW, issued this week, contains about 60 pages, is resplendent with a special colored cover, and is valuable as an index to the fall trade.

Wyld, Grasett & Darling have passed into stock this month some very desirable lines of men's umbrellas. They show special value in steel rods, both nicked and japanned, with laventine, gloria and silk tops, and new designs in handles. These are most attractive goods and worthy of inspection. They also show a number of lines with 27-inch paragon frames, in various cloths made from American designs. Their finer

numbers are made with pure silk coverings and small, nobby frames known as the "Cobweb," "Featherweight Perfectum," etc.

In W. R. Brock & Co.'s dress trimming department, lace braids, military, Hercules, and fancy wave braids, jet trimmings, jet gimps, and other more extreme novelties are shown in abundance. The collection is thoroughly up to date, both in point of designs shown and with respect to colorings.

Samson, Kennedy & Co. are running on laces and trimming novelties just now. They have a very large range of the newest things in both these lines. Jet gimps and jetted laces are leading for trimming purposes, and promise to hold fairly well throughout the season. Their smallware department is especially well stocked.

MONTREAL MARKETS.

The wholesale millinery openings have been announced for the week of the 4th of September. A call at the different warehouses elicited the fact that it was too early for them to speak of their goods.

It is understood that the firm who secured the round lot of prints at a cut of 12 to 15 per cent., which was the clearance of a line in first hands, are carrying the bulk of them over until next season. They have marketed a small portion of them, however, and it was no doubt from this fact that talk of a

BEST TO BUY, BECAUSE BEST TO USE.

The sales of "SUNLIGHT" SOAP testify to its popularity with those who use it, and it is no idle boast or exaggerated statement to say that over **Five Million Dollars' worth of SUNLIGHT SOAP** was sold during the year 1893. No such sale of soap, by one firm, was ever heard of before. **Quality tells.**

and 5 lb.

Tins.

Davidson & Hay Wholesale Grocers and Importers **Toronto.**

regular campaign of lower prices by the manufacturers arose.

Thouret, Fitzgibbon & Co.'s glove department report that in fancy glove shades, blue, navy and myrtle are about the only shades likely to be the "go" for fall wear. Dark tans and browns are good under any circumstances, but greys seem to have had their day.

Brophy, Cains & Co. say that black will be a very fashionable color this autumn. There will be a run on black silks, gros grain taffetas, bengalines, and gros de Londres. They have the goods.

Thibaudeau Bros.' new carpet showrooms, which have been referred to in previous issues, have a very handsome appearance at present. This firm shows an unusually large range of carpets.

Any buyer who likes to look at some

handsome lines of fine fall underwear, mufflers, etc., should spare some time when they get a call from Matthews, Towers & Co.'s travelers. If they want any goods of this sort they will not find it time wasted.

Those who have check silks left in stock should have them made into petticoats. Check silk petticoats are the mode in Paris; the handsomest have a ruffle of lace around bottom and a broad flounce of lace above it. The laces you can get from Brophy, Cains & Co.

A busy warehouse when the writer called was the big store on the corner of Victoria square and Craig streets of S. Greenshields, Son & Co. Their stock of English and other imported goods is as usual a very complete one.

J. G. McKenzie & Co. report more activity in domestic tweeds and woollens, and hold

that the indications in these point to more activity. They have experienced quite a brisk time recently in Canadian underclothing.

The domestic tweed department of Gault Bros. is a busy scene just at present. The demand for fall tweeds has shown more life than other lines, and this firm's trade in Canadian goods of this sort is, perhaps, the largest in the country.

The valley of the Pembina River which is about a mile wide, is in many places this season, a vast hay meadow, for owing to the dry summer many portions of the valley usually too wet can now be gone over with the mower, and strong forces of men are at work cutting and stacking all along the river. The Pilot Mound Sentinel says that the quantity of hay secured will be prodigious.

TRADE CHAT.

A. R. CAMPBELL, Carman, Man, is building an addition to his hotel, whereby he has largely increased his facilities for accommodating the public. The hotel has now two sample rooms. A bus runs to and from the hotel for the accommodation of the guests.

H. P. Eckardt & Co. are holding a large stock of all kinds of tea bought at the bottom of the market.

Kelly & Co.'s flour mills at Brandon were completely destroyed by fire Thursday night. The loss is fully \$55,000; insurance, \$33,000.

George E. Boak & Co., Halifax, received a cable Saturday from the Spanish West Indies, stating that the duty on Canadian fish had been removed.

The general store of Hercules Burwell, Lawrence Station, was broken into the other night and thirteen silver and nickel watches and a lot of other goods were taken.

H. P. Eckardt & Co. are selling a fine line of Eleme raisins at a low price considering the scarcity of Valencias. They are also offering a line of selected bunch Dahesas at about half the original cost.

On Saturday night a man found a \$5 bill on a store counter which he gave to the proprietor to return to the owner. Up to the middle of yesterday afternoon no less than three persons called for that bill, all expressing their readiness to swear on a stack of Bibles that they had lost it.—News, Vancouver.

The death of Henry S. Losee, secretary of Woodstock Cheese Board for a number of years, took place Friday. The deceased had been in failing health for the past year, the direct cause of his death being pleuropneumonia. Mr. Losee was seventy-four

years of age. The funeral took place on Monday at Burgessville.

The Montreal Gas Company decided recently to reduce its price of gas all over the city. The new price is to be 95 cents per 1,000 feet, for both lighting and heating purposes. The consumers are to be allowed one meter free. The prices charged by the company at present are \$1.30 for lighting and \$1 for heating, so that the reduction is a good one for the citizens.

CURING FORMOSA TEA.

THE British Consul at Tamsui recently furnished his Government with a report regarding Formosa tea. Among other things he says:

It is in reality a black tea prepared without the usual fermentation, but possessing a decided flavor of the green variety. The leaf is fired when green, and this, taken with the flavor, may account for the popular belief. But between the exposure in the open air and the firing, the leaf has to undergo a somewhat peculiar treatment, a process which I discovered accidentally, and which was unknown to the foreign tea merchants to whom I mentioned the matter. One day in September I was walking at the base of the North Hill, near the port of Tamsui, on the look-out for a certain plant, when I suddenly found myself near a farm-house. I saw a man sitting on a high stool on the threshing floor, and with his feet he was rapidly turning what appeared to be a long cylindrical drum. On nearer inspection I found that the machine was about 8 feet long and 2 feet to 2½ feet in diameter, six-sided (each side being made of brown coarse cloth, let in a wooden framework), that the axle ran right through the cylinder and rested on two wooden supports, one at each end. Between the support and the cylinder at one end were four treadles fixed in the axle; working these with his feet the man

caused the cylinder to revolve rapidly, each revolution being accompanied by a swishing noise inside the cylinder. On my expressing my desire for some enlightenment, the man willingly unfastened one of the sides, which was the door of the cylinder, and laid it back on its hinges. Exposed to view were six bamboos, corresponding in number to the sides of the machine, fixed at equal intervals in the ends of the cylinder, midway between the axle to which they ran parallel and the periphery of the 'ch' a-nung, or tea-preparer; at the bottom of the cylinder there was a heap of green tea leaves which had been placed there after the necessary exposure on the threshing floor. As the machine revolves these leaves are dashed against the bamboos, whereby their edges are rendered quite soft; they are then removed and put into the iron firing pans. It will be asked: Why are the edges of the leaves softened? The answer is easy: Were the leaves, after being picked and exposed for a short time, placed in the firing pans, they would split up—the leaf is dark and brittle—and lose all semblance to the whole leaf, which is so much desired. Such at least was the explanation given to me, and it appears to be very reasonable and natural. Some of the leaf which is brought into Twatutia, the tea market of the island, is ready for packing and shipment, but most of it is brought in after the first firing and is finished—that is to say, again fired in bamboo baskets—in Twatuti itself, where foreigners and Chinese alike possess firing rooms. After being fired until every particle of moisture has evaporated, the tea is removed and packed hot in lead-lined boxes for export. Almost the entire output of tea finds its way to the United States, where it is specially favored; and to show the value attached to this trade, I may mention that attempts have been made in Ceylon to manufacture Formosa tea, but in spite of all efforts it has been found impossible to produce an article of the proper flavor.

MARKETS AND MARKET NOTES

TORONTO MARKETS.

TORONTO, August 23, 1894.

GROCERIES.

TRADE does not exhibit much activity—less in fact than last week. Tea is the commodity that is the centre of attention at the moment, there being a good business doing in some lines, while prices are generally firm. Sugars continue firm, but the demand has fallen off. Valencia raisins are gradually getting scarcer and higher. Prunes are cabled a little lower. The movement in syrups continues to increase, but the usual seasonable dulness obtains in molasses. Spices are in good demand, and marked advances have taken place in the first cost of some kinds. In green fruit, oranges are almost out of the market. In fish, trade is much as before. The egg market is still in an unsatisfactory condition, and there is no material change in butter.

CANNED GOODS.

Nothing materially new has developed during the week. There are not many tomatoes selling, and prices are unchanged at 90 to 95c. The idea for peas is 85 to 90c., but there are only a few selling. Canned fruits are quiet. We quote: Peaches, \$3 to \$3.25 for 3's, \$2 to \$2.25 for 2's; raspberries, \$1.65 to \$1.80; strawberries, \$1.90 to \$2.10; apples, 3's, \$1 to \$1.10, gallons \$2.65 to \$2.80, and preserved fancy quarters at \$1.35 to \$1.40. Demand keeps brisk for salmon at unchanged prices. We quote \$1.30 to \$1.40 for first class and \$1.10 to \$1.20 for second class. There is a good demand for lobster in ½ lb. flats, but otherwise trade in this line is quiet. We quote: Tall tins, \$1.80 to \$2.00; \$2.40 to \$2.50 for flats; and \$1.35 for new flat ½'s. Potted meats and sardines are still in good to fair demand.

COFFEES.

Green Rio coffees are scarce on the spot. New crop is expected to arrive about middle of September. Fine coffees are slightly higher, while mediums are a little lower. We quote green, in bags, as follows: Rio, 20½ to 22c.; East Indian, 27 to 30c.; South American, 21 to 23c.; Santos, 21½ to 22½c.; Java, 30 to 32c.; Mocha, 27 to 28c.; Maracaibo, 21 to 23c.; Jamaica, 21 to 22c.

RICE.

There is no change in rice, there still being a fair seasonable demand at unchanged prices. We quote: "B," 3½ to 3¾c.; extra Japan, 5¼ to 5¾c.; imported Japan, 5¼ to 6¼c.; tapioca, 4¼ to 4½c.

SPICES.

The long-expected advance in the first cost of certain spices has at last materialized. Nutmegs are from 3 to 5c. higher, and pepper 1c. Cloves are also firmer. No actual change has taken place here. We quote: Pure black pepper, 12 to 14c.; pure white 20 to 28c.; pure Jamaica ginger, 25 to 27c.; cloves, 25 to 30c.; pure mixed spice, 25 to 30c.; cream of tartar, 20 to 25c. per lb.

SUGAR.

Firmness is still the predominating characteristic of the sugar market, but no speculative buying seems to have been induced. Neither wholesalers nor retailers are large buyers. "Retailers," said a jobber, "are buying just what they want for immediate requirements. They say that they do not make money out of sugar, and that if a further advance takes place, the consumer will merely have to pay it. The retailer cannot be induced to take any risks." The price of granulated rules at from \$4.40 to \$4.50; 3½ to 3¾c. is the ruling idea for yellows, with a dark sugar selling at 3¾c. Raw is unchanged at 3¼c.

Willet & Gray's Statistical referring to the raw market says: It can scarcely be said that there have been any transactions as yet upon the new duty basis. One-eighth cent per lb. advance has been paid in two instances by a speculator for Centrifugals, and the same advance is offered by refiners, but sellers, with few exceptions, are waiting to see where the new basis will settle. It is early yet to say, but we think that 3¼ to 3¾c. duty paid will be about the settling point until the new sugar campaign begins in October. The market may be slow in reaching this level, because refiners hold about five weeks' supply, and are not forced to purchase until that is gone. Business will be small for some time. The arrivals this week were as remarkably small (5,806 tons), as they were remarkably large two weeks ago (116,000). At the close sales have been made to refiners of 12,000 bags Centrifugals, from store, at 3¾c.

SYRUPS.

Syrups continue to show increased movement at firm prices; the idea for prices ranges from 2 to 3¾c. per lb. We quote: Dark, 25c.; medium, 28 to 30c.; bright, 35 to 40c.; very bright, 45 to 50c.

MOLASSES.

Business is still quiet in this line, with West Indian, New Orleans and Cuba kinds in most request. We quote: New Orleans, barrels, 26 to 28c.; half-barrels, 30½ to 32c.; Barbadoes, barrels, 28 to 32c.; half-barrels, 30 to 34c.

TEA.

There is still a good deal of high and low grade and medium new season's Japan tea moving at from 17 to 25c. A fair enquiry is reported for last season's growth of Japan teas at 12½ to 15c. A good many new season's Japan teas are understood to have been sold in Chicago during the last few days by Toronto houses. The feeling in Japan teas is strong on account of the war. A little improvement is announced in the demand for Indian and Ceylon teas at from 18 to 35c., but business cannot yet be called brisk in these lines. China blacks are quiet; and the same may be said of Young Hyson's, but as far as China teas are concerned people are of course now awaiting the new crop.

Mail advices dated London, 10th inst., state that during July, 164,928 lbs. Indian, and 432,277 lbs. Ceylon tea, were re-exported against 150,583 lbs. Indian, and 429,049 lbs. Ceylon during the same month last year. The very small quantity of Indian tea brought forward has met with a ready sale at prices showing no change on rates current last week. A few lines have commanded some very satisfactory quotations. The market for Ceylon tea, the despatches state, continues to advance gradually, and the small quantity catalogued met with good competition. The quality of many marks shows a tendency to improve, a feature generally noticeable at this period of the year.

DRIED FRUITS.

Valencia raisins continue scarce and higher. Ordinary off-stalk seems to be about the only kind now to be had on this market and it is quoted at 6½ to 7c. A cable states that the first shipment of new season's Valencia raisins were shipped from Denia Monday last. We quote off-stalk at 6½ to 7½c.; fine off-stalk at 6½ to 7½c.; and layers at 8¼ to 8½c. It is said by a competent authority that there are buyers on spot for 10,000 boxes of Valencia raisins if they could be had.

Currants are getting more active on account of the scarcity of Valencia raisins. The first of the new crop will be shipped about the 28th inst. Quotations are still: Provincials, 3½ to 4c. in brls., half brls., 3¾ to 4¾c.; Filiatras, 4 to 4¾c. in brls., and 4½ to 5c. in half barrels; Patras, 5 to 5½c. in barrels, 5¼ to 5¾c. in half brls., 5 to 6½c. in cases; Vostizzas, 6½ to 7½c. in cases, 6¾ to 7¾c. in half cases; Panariti, 8½ to 9c.

There is very little demand for prunes, but no stocks are held here. A cable received by P. L. Mason & Co. on Tuesday quotes

MARKETS.—Continued

Turkish prunes a little lower. We quote: U's, $5\frac{1}{2}$ to $5\frac{3}{4}$ c.; B's, $7\frac{1}{2}$ c.; bags, $3\frac{3}{4}$ c.; casks, $4\frac{1}{2}$ to 5c.

BUTTER AND CHEESE.

No material change has taken place in the butter market during the week, either in regard to volume of business or profits. Demand is still local in character. Holders are still asking 15 to 16c., f.o.b., for round lots, and a few lots of Strait yellows have changed hands at the inside figure, but buyers, as a rule, apparently do not want to make purchases. There is not much really good butter in the country, and choice tubs are a little firmer. Second grade butter, on the other hand, is abundant and accumulating. A round lot of mixed butter offered at 13c., f.o.b., but was not taken. Some of the local jobbers have been nibbling in Montreal for bids, but without success. Demand for first-class quality dairy pound rolls is good, but there is very little of this to be had, a good many of the pound rolls coming forward still being made up from old tub butter. There is a good demand for creamery pound prints, but creamery tubs are still not much wanted, although several lots sold Monday at 19c. The factories are reported to be wanting $20\frac{1}{2}$ c. The bulk of the dairy tub butter is going at about 16 to 17c., with $\frac{1}{2}$ to 1c. more than the outside figure being obtained occasionally for something extra choice. We quote jobbing prices as follows: Dairy—Choice tubs, 17c.; straight store, 15 to 16c.; crocks, 18c.; bakers' butter, 12 to 14c.; pound rolls, 19c. Creamery—Tubs, 19 to 20c.; pound prints, 22 to 23c.

Cheese is in fair demand and higher at 10 to $10\frac{1}{2}$ c. Some orders for export are reported at $9\frac{3}{4}$ c.

PROVISIONS AND DRESSED HOGS.

Provision market continues active, with prices higher in some instances. There have been quite a few dressed hogs in this week, but all were taken.

BACON—Long clear, 8 to $8\frac{1}{4}$ c.; smoked backs, 12 to $12\frac{1}{2}$ c.; breakfast bacon, $12\frac{1}{2}$ to 13c.; rolls, 9 to $9\frac{1}{2}$ c.

HAMS—Small and medium, $12\frac{1}{2}$ c.; large, 11c.; pickled, 11c.

LARD—Pure Canadian, 9 to $9\frac{1}{4}$ c. in tubs, $9\frac{1}{4}$ to $9\frac{1}{2}$ c. in pails, and $8\frac{1}{2}$ to $8\frac{3}{4}$ c. in tierces. Compound, $7\frac{1}{2}$ to $7\frac{3}{4}$ c.

BARREL PORK—Canadian heavy mess \$18; Canadian short-cut, \$18.50 to \$19; shoulder mess, \$14.50 to \$15; clear mess, \$15 to \$15.50.

LIVE STOCK MARKET.

The receipts on Tuesday showed a falling off, but the market generally was worse than on Friday last in consequence of poorer cables. The total receipts at the western yards were 68 car loads, which includes 1,100 head of cattle. The demand for export cattle was somewhat slow, and only choice animals wanted. A few head of the best sold at $4\frac{1}{2}$ c. per lb., and best loads at 4c. Good to medium shippers brought $3\frac{1}{2}$ to $3\frac{3}{4}$ c. The run of butchers' cattle was of inferior quality, and prices ranged low. The best loads brought $3\frac{3}{4}$ c. per lb., while in a few cases two and three head sold at $3\frac{3}{4}$ to $3\frac{1}{2}$ c. Good medium butchers' sold at 3c., and others at $2\frac{1}{2}$ to $2\frac{3}{4}$ c. Calves dull at \$2 to \$6 each, and milch cows also easier at \$22 to \$40 each. The demand was less active for shipping sheep, and prices are off a little. There were sales at $3\frac{1}{4}$ to $3\frac{1}{2}$ c. per lb., and of butchers' sheep at \$2.50 to \$3.50 each. Lambs dull, with \$3 an exceptional price; they ruled at \$1.75 to \$2.50 each. Hogs dull and about steady. The best sold at \$5.25 to \$5.30, thick fats at \$4.75 to \$5, stores at \$4.50 to \$4.75, sows at \$4.50, and stags at \$2 to \$2.50 each.

GREEN FRUIT.

Trade keeps fairly good. There are very few oranges to be had. Sorrentos are the only kind to be had, and they are quoted at \$5 per box. Lemons are in good demand and the price is kept at its present figure by the shipments of new season's growth which are arriving. Tomatoes are receiving moderate attention, but receipts have been larger than the demand warranted. It is, however, anticipated that the cooler weather of the past few days will cause both a falling off in the supply and an increase in the demand. California green fruit is scarce and high. Domestic peaches are not as plentiful as they were, it now being between the early and fall crops. Watermelons are not receiving as much attention as they were on account of the cool weather. Musk-melons, on the other hand, are in good demand, especially on country account. Canadian pears are forced sale. There are a good many apples going into consumption, but a large portion of the supply is being received

direct from the farmers. Wholesale trade is quiet. Bananas are plentiful and easy. We quote: Oranges—Sorrentos, 200's, \$5 per box. Lemons—Fancy Rodhi, 300's, \$5.50 to \$6.50 per box; ditto, 360's, \$5.50 to \$6 per box; Messinas, 300's, \$4.50 per box; 360's, \$4.50 per box. Bananas, \$1.25 to \$1.75 per bunch. Watermelons, \$15 to \$23 per 100. Musk melons, \$1.50 to \$1.75 per case; \$2 to \$2.25 per brl., and 50c. per basket. Huckleberries, \$1 per basket. Lawton berries, 6 to $8\frac{1}{2}$ c. Cucumbers, 25c. per basket. Tomatoes, 60 to 75c. per basket. Peaches, 60 to 75c. per basket. Pears, 30 to 50c. per basket. Plums, 60 to 85c. per basket. Apples, 75c. to \$1.50 per brl., and 15 to 40c. per basket. California green fruit—Peaches, \$1.60 to \$1.75 per case; plums, \$1.50 to \$2.50 per case; pears, \$2.25 to \$2.75 per box.

COUNTRY PRODUCE.

BEANS—Quiet and unchanged at \$1.25 to \$1.30 ordinarily.

DRIED APPLES—There have been sales at $6\frac{1}{2}$ to 7c. during the week, and a few more could probably be placed at the same figure, but not many.

EVAPORATED APPLES—The factories are asking for bids for new season's fruit, but neither transactions nor bids are heard of.

POTATOES—Market is quiet and weak at 60c. per bag for Canadian and 75c. per bag for American.

EGGS—A good many bad eggs are still coming in and prices are weak and without a recognized basis, jobbers being willing to take almost anything they can get. Good are quoted at 8 to 9c., while anything that cannot qualify under that head can be had all the way from 3 up to 6c. Said a dealer: The quality of many of the eggs coming in is so bad that we simply cannot do anything with them. We would buy eggs here and pay 10c. for them if the quality could be guaranteed strictly fresh.

ONIONS—Much as before at \$1.25 per sack for Egyptian, and 50 to 60c. for new crop domestic.

HOPS—Dull at $12\frac{1}{2}$ to 15c.; package hops, 20c. per lb.

FISH.

The movement is about the same as it was in white fish and trout, at about previous prices. Lake herring is not to be had. We quote: Skinned and boned codfish, $6\frac{1}{2}$ c.; shore herring, \$4 per brl.; boneless fish, $3\frac{1}{2}$ to 4c.; boneless cod, 5 to

MARKETS—Continued

8c.; Lake Erie herring, \$1.75 to \$2 per 100; blueback herring, 4c.; blue pickerel, 4 to 5c. lb.; yel. ditto, 5 to 6c. per lb.; salmon trout, 6½c.; white fish, 6½ to 7c.; pike, 5c. lb.; haddock and cod, 5½c. per lb; steak cod, 5 to 6c.; large halibut, 10c.; ciscoes, \$1.25.

SALT.

Trade continuous to improve and prospects are good for the pickling season. Prices are unchanged. We quote: Dairy, \$1.50, special grade; brls., 90 to 95c.; coarse sacks, 68c.; fine sacks, 70c. American rock, \$10 per ton.

PETROLEUM.

Trade is firm although what is moving is in small lots. Prices are still unchanged, but a rise is anticipated in the near future. We quote, in 5 to 10 brl. lots, imperial gallon, Toronto: Canadian, 12 to 12½c.; carbon safety, 15½ to 16c.; Canadian water white, 16 to 17c.; American water white, 18 to 19c.; photogene, 20c.

MARKET NOTES.

Lucas, Steele & Bristol have another lot of Odart's pickles on the way from Gillard & Co., of London.

W. J. McFarland, of Markdale, has sold and just shipped to Yong & Bisby, of Hamilton, four carloads of wool.

Rising Sun Stove Polish is now in stock with Lucas, Steele & Bristol. This firm also have shredded cocoanut in 5 and 10-lb. tins.

James Turner & Co. have arriving a full line of Batger's Nonpareil jelly, pints. They have just received some of this firm's "University" marmalade.

Lucas, Steele & Bristol make a specialty of pure spices, including currie powder (bulk and in tins), turmeric, mustard seed, red peppers, etc.

James Turner & Co. advise the arrival of splendid values in new season Congous. They have also arriving in a day or two a large consignment of Japan's ex ship Argomene.

Toronto Salt Works is building a brick extension to the rear of its warehouse 20x24.

SOLICIT ALL KINDS OF

Fruit and Produce

The company has been compelled to make this increase in floor space in order to keep up with its growing trade.

W. Paterson & Son have a unique "Candy ad." on page 6 of this issue. See it.

Consumers are beginning to ask after Aikenhead & Sloan's prepared fish.

Warren Bros. & Boomer claim they have the finest value in Japan teas on the market.

T. Kinnear & Co. announce that they are showing good value in new season's Japan teas.

Aikenhead & Sloan expect their first shipment of haddie about the first week in September.

T. Kinnear & Co. have this week received their first shipment of new season's "Crown" lobster.

J. W. Lang & Co. have sold out their last shipment of beef, iron and wine, but another lot is on the way.

Sloan & Crowther have a direct importation of new season's finest Pekoe Congous to hand; also car of new season's salmon.

Perkins, Ince & Co. have to hand their first consignment of new season's French peas. The quality is said to compare well with last year's pack.

W. Paterson & Son make a specialty of "Gross Goods." Their sales in this line they say, are enormous, and they are producing "something new" continually.

Davidson & Hay have to hand a shipment of Brown & Polson's corn flour, direct from London, England; also direct importation of Ceylon tea, which is claimed to show excellent value.

Smith & Keighley are importing large lots of Japan tea this season, "and we are giving our friends the advantage of the low prices at which we purchased," said a member of the firm.

Eby, Blain & Co. have a lot of medium Japan teas coming in which are said to show excellent value. They have also to hand a direct shipment of Ceylon tea; also fresh kippered herring.

Roberts' table jellies are reported by Davidson & Hay to be in brisk demand at the moment. The firm has another shipment on the way. Kurma package tea is also reported to be having a good sale.

Eby, Blain & Co. got in a shipment of Californian loose Muscatels, and they have taken so well that another lot has been ordered. They are to take the place of Valencia raisins, which are so scarce just now.

Agencies for the sale of Salada Ceylon tea have been opened in the following towns during the past two weeks: Rockwood, Port Colborne, Gorrie, Dunnville, Lucknow, Kincardine, Mitchell, Wroxeter, Hepworth, Warton, Paisley, Southampton, Hanover, Blythe, Lucan, St. Mary's, Exeter, Seaforth, Goderich. P. C. Larkin & Co. claim that

one-seventh of all the tea sold in Toronto is Salada, and state that they are willing to prove it to the satisfaction of anyone that is interested.

W. H. Gillard & Co. report that their second shipments of new Japans and Congous are now coming in. Their first, they say, showed such good values that they went out in fifty and twenty-five package lots in most cases.

The egg market would have been in better condition to-day, and holders would have little or no loss, had they placed them in Aikenhead & Sloan's cold storage warehouse, instead of keeping them where there were not proper facilities to keep them good.

Sales of Imperial cheese have more than doubled since MacLaren & Co. removed their factory to Toronto some three months ago. They are receiving orders every day from the Atlantic and Pacific coasts.

T. B. Escott & Co. report a steady sale for "Leon Digestive Coffee," and they look for an increased demand as the weather gets colder. The peculiarity claimed for this coffee is that it is particularly beneficial to people with weak stomachs. Both this coffee and "Mogul" tea will be exhibited at the Western Fair by Escott & Co.

W. H. Gillard & Co. are daily expecting the arrival of Sphinx prunes, "U" brand. They have handled many carloads of this pack during the past few seasons, and they report that the quality has always been excellent and uniform.

Hamilton Times: A magnificent map of the city of Hamilton, in which a bird's-eye view of all the streets, churches, public buildings, business blocks, etc., is given, is being presented by W. H. Gillard & Co., the enterprising wholesale grocers, to their customers.

T. B. Escott & Co., London, write: We had exhibits Grand Mogul tea the past week at J. G. Stewart, Clinton; W. M. Ellis, Goderich; R. Babb, Mitchell; H. Livens, Seaforth; Shiver & Marshall, Kirkton; R. B. Thornton, Woodstock. The lady in charge writes that everybody is delighted with the full round flavor of Grand Mogul tea, and in most places her sales was quite large, those who tasted it, pronouncing it the best tea they ever drank.

R. S. McIndoe is advised by G. Marcopoli & Fils, of Smyrna, as follows, under date of August 10: Sultanias—Since our report of 7th ult. alarming advices have come from nearly all the vine-growing districts. The favorable hopes that were entertained some five or six weeks ago with regard to the coming crop have not been realized inasmuch that the vines have sustained sensible damage owing to hot weather. According to trustworthy accounts, the yield will be short by 25 to 30 per cent. as compared to that of the preceding year. Some, however, bring down the deficit up to 50 per

cent., but we think that the production will not be under 25,000 tons. The berry will be small and the quality moderately fair. Under such circumstances the prevailing opinion is that opening prices will be relatively high; this is partly justified by the firmer tone already noticed on the markets of consumption. We have unfortunately to report the same for Elemes, which show a yield of about 170,000 tons. Figs—This product has not suffered so much, and we presume to reach last year's return, viz., 13,000 tons, with the exception that the fruit will be smaller, and large figs very few. We shall not be able before a month to furnish our friends with reliable types of our crops in general. Any samples mailed earlier would imperfectly represent the exact bearing of the new fruit.

MONTREAL MARKETS.

MONTREAL, August 23, 1894.

GROCERIES.

THE grocery market does not present any particular activity at the moment, but this condition is usually normal to the month of August. The most lively staple at the moment is tea, which has been dealt in pretty freely during the week. The recent advance in sugar has not put any life into the demand, which remains quiet. Syrups and molasses are characterized by the same feeling. Advices on rice are firm, but spot prices remain as before. The canned goods market rules quiet, and in dried fruit the actual movement is small. No importation of new crop fruit can arrive here before the end of September or the beginning of October. Its tone continues firm. Other lines furnish no feature of moment.

SUGAR.

Since the advance last noted there has been no important change in the sugar market. Prices are well maintained, but the demand is not active and the volume of business is small. The condition of things, however, is more or less expected during August. Supplies in second hands at present are said to be ample, and with the advanced prices wholesale grocers no doubt will benefit on those goods which cost them less money. We quote: Granulated at 4¼c. and yellows, 3¼ to 3¾c., as to quality at the factory.

SYRUPS.

The market for syrups continues to rule quiet and steady, with only a jobbing business doing. We quote: Bright goods, 2 to 2½c., and dark, 1 to 1¼c. per lb.

MOLASSES.

Business in molasses has continued quiet under a limited demand, and there is no important feature to report. We quote: Round lots, 26c.; car lots, 29c., and single puncheons, 30c.

MONTREAL MARKETS—Continued.

TEA.

The demand for teas has continued good and the market rules active, both on local and country account. Importers state that orders have not been coming in so freely as at present for a long time, and they consider prospects encouraging for a very active market. We quote: Japan teas, common, 10 to 13c.; medium, 14 to 17c.; fine, 18 to 21½c.; and choicest, 23 to 29c.

RICE.

There has been no change in the situation of the rice market. The demand is fair and business is moderately active at steady prices. We quote: Standard, \$3.45 to \$3.70; Japan, \$3.95 to \$4.25, and Patna, \$4.25 to \$4.75.

DRIED FRUIT.

Sales of small lots of Valencia raisins have been made during the week, but the price was kept private. It was very likely a pretty full one. No new fruit is expected until the end of September, which is about a month later than the date when new crop fruit was offered here last year. Currants continue unchanged. We quote: Off-stalk Valencias, 5 to 5½c.; fine, 5½ to 5¾c.; layers, 6 to 6½c.; currants, 3 to 3½c.

NUTS.

A fair jobbing trade is passing in nuts, with nothing special to report. We quote: Almonds at 11½ to 12c.; shelled do., 23 to 29c.; shelled walnuts, 18 to 21c.; Grenoble walnuts, 11½ to 12c.; filberts, 7½ to 8c.; pecans, 7½ to 8c.; Brazils, 9 to 10c., and peanuts, 7 to 9c.

COFFEES.

The coffee market has been rather more active owing to the excitement in the States. Prices here in consequence are more or less nominal, as dealers don't know what to ask. We quote: Java, 24 to 28c.; Mocha, 25 to 28c.; Maracaibo, 19 to 21c.; Jamaica, 19 to 21c., and Rio, 18 to 21c.

CANNED GOODS.

Since our last there has been but little change in the canned goods market. Jobbers have ample stock for immediate requirements, and having provided for some future

FLOUR AND FEED

IT is the opinion of many of the local flour and feed merchants that an advance in the price of hay is to be expected. The reduction in the United States tariff will open a new market for Canadian hay. Timothy hay is quoted in New York at \$15 per ton, and the same hay is reported to be able to be bought in the vicinity of Toronto for \$8 per ton, baled and on track at a profit of \$1.50 to the seller. The freight will come to about \$3.50, so Canadian hay can now be placed on the New York market considerably below the present quotations there.

Dealers report a slightly better demand for cereals, flour moving better owing to cooler weather, and a good demand for bran and shorts. Collections have not improved much, still being poor.

THE MARKETS.

TORONTO.

FLOUR—Dealers report a slightly better demand during the past week. Some of the city mills have made a 10c. reduction on all their fall flours and are selling at the following prices. We quote: Manitoba wheat patents, \$3.55 to \$3.65; strong bakers', \$3.35 to \$3.45; Ontario, \$3.00 to \$3.15; straight roller, \$2.80 to \$3.

BRAN—The demand is still large owing to the continuation of dry weather, and the price has again advanced 50c. to \$1 per ton. City mills have very little on hand and are selling at \$12.50 to \$13 per ton.

SHORTS—A good demand is reported. There has been no change in price, though some car lots were sold during the week at \$16.50 per ton. City mills are selling at \$16.

SCREENINGS—The demand remains good at unchanged prices. Good screenings are selling at \$12 per ton.

MONTREAL.

There was no change in the situation of the flour market. The tone is steady and values are fairly well maintained. The demand was good on local account, and business continues fairly active, but there was no business done for export. Winter wheat, \$3.25 to \$3.50; spring wheat, patents, \$3.25 to \$3.50; Manitoba patents, best brands, \$3.50 to \$3.60; straight roller, \$2.85 to \$3; extra, \$2.55 to \$2.60; superfine, \$2.40 to \$2.50; Manitoba strong bakers', \$3.30 to \$3.40; Manitoba strong bakers', best brands, \$3.40 to \$3.45.

The feed market is very firm, and prices have an upward tendency, which is due to the light offerings; in fact, some millers have been obliged to stop selling to out-

siders, as they have only sufficient stock to supply their regular customers. On the whole an active business is doing. Bran, \$15.50; shorts, \$17.50 to \$18; mouillie, \$20.

A fair amount of business was transacted in oatmeal in a jobbing way at steady prices. Standard, brls., \$4.30 to \$4.40; granulated, brls., \$4.30 to \$4.40; rolled oats, brls., \$4.50 to \$4.60; pot barley, per brl., \$3.90; split peas, per brl., \$3.40.

ST. JOHN, N.B.

Flour is rather firmer, millers being stiff on their price. Stocks here are large and movement slow. Dealers only buy to fill actual wants. Feed flour, owing to scarcity of feed and the high price of cornmeal, is higher and in demand. Cornmeal is firmer again, being about 10c. above last week. Oatmeal, following the low price of oats, is rather easier. Samples of new Ontario oats

to hand are hardly up to last year in quality. Prices are 2 to 3c. off from last week. New hay is selling in Woodstock at \$6 per ton. This is to make room to store grain. It is expected the price will be higher. The crop is a large one. We quote as follows: Manitoba flour, \$4.30 to \$4.35; best Ontario, \$3.50 to \$3.60; medium, \$3.35 to \$3.50; oatmeal, \$4.50 to \$4.60; cornmeal, \$3.20 to \$3.25; middlings on track, \$2.20 to \$2.3; bran, \$18 to \$19; cottonseed meal, \$30 per ton; oats, N.B., 42c.; Ontario, 41 to 42c., on cars; oats, small lots, 47 to 50c.; beans, h.p., \$1.55 to \$1.60; prime, \$1.45 to \$1.50; split peas, \$3.65 to \$3.85; pot barley, \$3.85 to \$4.00; round peas, \$3.65 to \$3.75; hay on track, \$9.50 to \$10.

Some 600 brls. damaged flour, ex schr. Welcome Home, were sold by the underwriters at auction at \$1.55 to \$1.85 per brl.

"SALADA"

CEYLON TEA IN LEAD PACKETS.

Retailed at 40, 50, and 60 cts.

The consumption of "SALADA" Ceylon Tea is fully one-seventh of all the teas consumed in Toronto. Before making this statement we take into account all Indian, Ceylon, China and Japan Teas either loose or in packets.

MONTREAL MARKETS—Continued

supplies as well, are holding off more or less at present. We quote as follows: Lobsters, \$6 to \$6.50 per case; sardines, \$8.50 to \$9.50; salmon, \$1.15 to \$1.30 per doz; tomatoes, 80 to 85c. per doz; peaches, \$2 to \$2.10 per doz.; corn, 85 to 90c. per doz., and marrowfat peas, 85 to 90c. per doz. Australian canned meats: Boiled mutton, \$1.86 to \$1.90 per doz. 1-lb. tins, and \$3.10 to \$3.15 per doz., 2-lb. tins; roast mutton, \$2.05 to \$2.10 per doz., 1-lb. tins, and \$3.35 to \$3.40 per doz., 2-lb. tins; corned mutton, \$2.05 to \$2.10 per doz., 1-lb. tins, and \$3.35 to \$3.40 per doz., 2-lb. tins.

GREEN FRUIT.

The green fruit market continues to present a seasonable degree of activity. Several car loads of California fruit changed hands. There are few changes in prices to note. Pears sell at \$1.15 to \$1.40 per box; plums, \$1.10 to \$1.40; peaches, \$1.10 to \$1.75, and grapes, \$2.05 to \$2.35. Local demand for apples is small. Astrachans sell at \$1 to \$1.10 per bbl. and Duchess, \$1.25 to \$1.75. Rodi oranges move at \$5 per box. Lemons sell at \$3.50 to \$4.25, and bananas, 75c. to \$1.50 per bunch.

COUNTRY PRODUCE.

The egg market continues quiet and unchanged on the whole. Prices remain at 9 to 10c. for choice candled, and 7 to 8c. for culls. Hops sold dull, at 10 to 12c. Potatoes are in light receipt at the moment, and are selling at 95c. to \$1.25 per brl. Reports state that the crop this year is a very heavy one.

PROVISIONS.

There was no change in the situation of the local provision market. The demand was fair, and a moderate amount of business was done at quotations. We quote: Canadian short cut, heavy, \$18.50 to \$20; do., light, \$17.50 to \$18.50; hams, city cured, per lb., 10 to 13c.; lard, Canadian, in pails, 9½ to 10c.; bacon, per lb., 10 to 12c.; lard, common refined, per lb., 7¼ to 7½c.

BUTTER.

Butter rules about the same. The tone is about steady, and we do not hear of any further important operations in the country. With regard to encouragement in the shape of new business from the other side it is not very much in evidence at present. Some of the optimists, however, point to the exceptionally high prices ruling across the line as an influence in favor of steadiness. Finest creamery, 18 to 18½c.; creamery seconds, 17¼ to 17½c.; fine Townships, 16 to 17c.; fine Western, 14 to 15½c.

CHEESE.

There is but little business in cheese on spot, and private advices from Great Britain do not indicate much change in the temper of buyers over there. It may be noted, however, that the public cable for the first time since the recent bulge in the country acted in sympathy. It advanced a shilling on Fri-

day last to 46s. The market here is pretty well cleared up of available lots, which have consisted principally of goods from the Townships, Ottawa valley, etc., which have realized around 9½c. Prices for finest Western continues nominal. The goods are here, but they are not offering on spot except at fuller figures than buyers are prepared to pay. At the wharf on Monday the offerings were 5,000 boxes, with 9¾ to 9¾c. the range, the inside the ruling price. We quote: Finest Western colored, 9¾ to 10c.; finest Western white, 9¾ to 9¾c.; finest Townships, 9¾ to 9¾c.; finest Eastern colored, 9¾ to 9¾c.; finest Eastern white, 9½ to 9¾c.; under grades, 9¼c. Cable 46s.

ASHES.

Receipts of ashes continue light and prices rule firm. We quote: First pots \$3, seconds \$3.70, and pearls \$6.50 per 100 lbs.

MONTREAL TRADE NOTES.

Marshall's herrings in tomato sauce are a genuine breakfast delicacy.

Laporte, Martin & Co. offer their Richard brandy at special prices to the trade.

Frank Magor & Co. report that the new season's marmalades of Charles Southwell & Co. are now ready.

Arthur P. Tippet has been registered proprietor of the firm of A. P. Tippet & Co., manufacturers' agents.

Advices to a leading tea broker here state that Ceylon teas in London have advanced 1d. to 2d. per lb.

Caverhill, Hughes & Co. are at present receiving their new supplies of Crosse & Blackwell's jams, pickles, sauces, etc.

Rose & Laflamme have placed quite a few good lots of California raisins since the market became so bare of Valencia fruit.

Gillespie & Co. don't expect their first importations of new crop Valencia raisins until the end of September, which is a month later than last year.

John Pinder & Co. have put the balance of the cargo of molasses, ex Runnymede, into store. Quotations are therefore no longer ex wharf.

J. Alex. Gordon & Co. have placed during the week on this market two carloads of California canned fruit. The way these goods are put up would be a pointer to some of our Canadian canners. They are due to arrive about the end of September.

W. T. Costigan & Co. note further advices from the Coast about a small catch of salmon on the Columbia and Fraser rivers. Their correspondents hold that there is a possibility of some contracts not being filled.

London advices state that the demand for Burmah rice cargoes has shown more activity, prices being fully 3d. to 4½d. higher. Other kinds of rice also manifest a firmer tendency in London, while at primary markets in Burmah an advance of 3d. nett is reported.

TORONTO: Wright & Copp, 51 Colborne St.
WINNIPEG: E. W. Ashley.

The St. Croix Soap Mfg. Co.,
St. Stephen, N.B.

ST. JOHN, N.B., MARKETS.

St. John, N.B., August 23, 1894.

THE past week has seen somewhat of an improvement in business. There has been a strengthening of prices except perhaps in cheese, which, compared with lines west, are low. Cheese is moving slowly. Tea continues to arrive in large quantities, some four thousand five hundred half chests arriving during the past week. No business is receiving more attention at the hands of the wholesalers at present, and the competition between the different houses is keen. The bulk of tea now imported is coming direct from China, almost all the wholesale houses being direct importers. The stocks here and to arrive are large; it is not expected the trouble between China and

Japan will at all affect prices. The tone of the market is not as firm as it is in London, better prices being obtainable there. Large sales of woodenware are reported by brokers at lower prices than for some time past.

SPICE—There is nothing whatever new to report. Values are unchanged and demand is fair. We quote: Cream of tartar, brls., 17½ to 18½c.; boxes, 20 to 25c.; nutmegs, 60 to 90c.; cassia, 18 to 20c.; cloves, ground, 20 to 25c.; whole, 15 to 20c.; ginger, 18 to 22c.; pepper, 12 to 16c.; bicarb soda, \$2.30 to \$2.38; sal. soda, 1 to 1½c.

SALT—The last week has seen a very decided improvement in the demand. Prices are therefore firmer. A combination is reported between local holders to keep the

price of coarse at 52. It is understood that the first cargo to arrive has all been sold. One house sold upward of 6,000 sacks ex store and to arrive, one day this week. Coarse salt, ex store, 52c.; fine factory filled, \$1 to \$1.15; Canadian 5-lb. bags in brls., \$3.25; 10-lb. bags, \$3.10; American salt in 20 lb. wood boxes, 20c.; 10-lb. boxes, 12c.

TOBACCO—The business manager of the firm of Geo. E. Tuckett & Son Co. has been here during the past week and was much pleased at the amount of business done. With four factories now in active competition here it is making somewhat of a change in the tobacco business. Tuckett's brands are quoted by the trade: T. & B. Myrtle Navy plug, 59c.; cut, 70c.; Lily, 46c.; chewing,

ST. JOHN MARKETS—Continued.

T. & B, long black, 48c.; Mahogany 12's, 48c.; and 7's, 48c. McAlpin's brands: Beaver, 62c.; Tecumseh, 65c.; Jubilee, 49c.; Gold Shield, 49c.; Woodcock, 53c.; Army and Navy, 45c. McDonald's brands: Crown, 43c.; Pilot, 45c.; Index, 43c.; Napoleon, 49c.

OIL—Fish oil is rather firmer and is in limited supply. Prices are as last week. We quote as follows: Burning oil, best American, 18c.; best Canadian, 17c.; prime Canadian, 13c.; terms, 60 days, no charge for barrel; linseed oil, raw, 56 to 59c.; boiled, 59 to 62c. Turpentine, 45 to 47c. Cod oil, 28 to 30c. Seal oil, steam refined, 40 to 45c.; pale, 38 to 43c. Olive oil, 90c. to \$1. Castor oil, 6½ to 7c. Extra lard oil, 65 to 70c.; No. 1 lard oil, 60 to 65c.

CANNED GOODS—By this time it is usual that the larger part of the canned goods for fall delivery are sold, but not so this year, the association not yet having quoted prices. Outside of vegetables, however, some goods have been sold. Corn is scarce, though for present small demand it is sufficient. Values are a little higher. Demand for canned fruit is at present limited. We quote: Corn, 95c. to \$1.10; peas, 90 to 95c.; tomatoes, 95c. to \$1; gallon apples, \$2.40 to \$2.50; oysters, 1's, \$1.50; 2's, \$2.25; corned beef, 1's, \$1.65; 2's, \$2.65; salmon, \$1.25 to \$1.35; lobsters, \$1.75 to \$2.10; peaches, 2's, \$1.70 to \$1.90; 3's, \$2.70 to \$2.90.

DRIED FRUIT AND NUTS—Raisins are quiet. New Californias are now being quoted, but as yet are high. Loose muscatels would cost, landed here, about 6¼c. Talking to one broker selling Valencias direct, he reports 2,500 sold for August shipment, and about 1,000 more for later—a good beginning. Dried apples are hard to get. Currants are firmer, but demand

is light. French prunes are being sold here to come direct, fall shipment. We quote as follows: Sultana raisins, 7 to 7½c.; Valencias, 5½ to 6c.; London layers, \$2.10 to \$2.20; loose muscatels, in boxes, 6½ to 6¾c.; prunes, 7 to 7½c.; California, 11 to 12c.; dried apples, 6¼ to 7c.; dates, 5 to 6c.; figs, 10 to 12c.; Egyptian onions, 1¾ to 2c.; French walnuts, 11 to 12c.; Grenobles, 13 to 15c.; almonds, 13 to 14c.; Brazils, 11 to 12c.; filberts, 9½ to 10c.; pecans, 12 to 13c.; peanuts, 10 to 12c.

GREEN FRUIT—Nova Scotia apples are now in the market, but American and Canadian apples continue to have a large sale. New Brunswick apples will soon be on the market; there are never many, but there will be more than usual. N.B. plums will also soon be in the market; the crop is large. Pears are cheaper. Business in fruit is very active. We quote as follows: Lemons, \$4.50 to \$5.50; oranges, \$5.50 to \$6; bananas, \$2 to \$2.50; grapes per basket, \$1.00 to \$1.25; tomatoes, \$2.50 to \$3.00 per crate; cucumbers, 25 to 30c. per doz.; watermelons, 40 to 45c. per doz.; gooseberries, 40c. per peck; California apricots, peaches and plums, \$2.50 to \$3 per crate; California pears, \$3.50 to \$4.00; Bartlett pears, per brl., \$6 to \$7; Nova Scotia apples, \$1.75 to \$2.50.

DAIRY PRODUCTS—Cheese continues quiet and low, and market here does not at all show sympathy with western values. One factory, it is understood, has sold a car for export at slightly over 9 cents. The lack of united efforts among the factories is largely the cause, and also because a large quantity of the cheese are not properly put up for export. The output of cheese in this province will not, it is expected, be up to last year. This is very different from what was

expected. Butter is higher, being up from 1½ to 2c. Demand good. One creamery reports selling about 1,000 pounds per week. There will be quite a quantity of creamery tub butter for sale in this province this fall; it is an extra article. Eggs—Supply is equal to demand, at firm figures. Cheese, 10 to 10½c.; butter, 17 to 18c.; creamery, 21 to 22c.; eggs, 9½ to 10c.

MOLASSES—There is nothing to report. Price as last week. Fair demand. Barbadoes, 27 to 28c.; Porto Rico, fancy, 42 to 43c.; choice, 34 to 35c.; Antigua, 27 to 28c.; St. Croix, 27 to 28c.

SUGAR—Our refiners which have already done some business in American markets, are looking forward to a large business there should the present duty cease. Prices are up here and firm, being about ¼c. advance on those of last week. Demand good. Granulated, 4½c.; bright yellow, 3½ to 3¾c.; yellow, 3¼ to 3½c.; Barbadoes, 3¾c.; powdered, 6 to 6¼c.; Paris lump, 6 to 6¼c.

FISH—Owing to the fishermen picking out their large mediums and having the bulk of those sold only just over the required 14 in., the measure being 14 to 22 in., the dealers have decided to make the inside limit 16 in., the measure running to 22 in. All under 16 in. will be regarded as small. Large cod are higher as are bay herring. Smoked fish are easier. Shad are now being caught in fairly large quantities; one day this week nearly 2,000 were landed. The quality is very fine and will make a choice pickle stock. Smoked shad are very popular here, and to lovers of fish there can be no more dainty dish; it is much liked by Americans visiting here. We quote: Large cod, \$3.60; medium, \$3.20 to \$3.35; haddock, \$1.75; pollock, \$1.70 to \$1.75; bay herring, half brl., \$1.40

MARKETS—Continued

to \$1.50; medium smoked herring, 11 to 12c.; lengthwise, 9 to 10c.

PROVISIONS—Pure lard is easier. Prices with this exception are as last week. Demand fair. We quote: Clear pork, \$19 to \$20; P.E.I. mess, \$16.50 to \$17; prime, \$13.50 to \$14; plate beef, \$13.50 to \$14; extra \$13.75 to \$14.25; pure lard, 9¼ to 10c.; compound, 8 to 9c.; cottolene, 9¼ to 10c.

ABOUT RIO COFFEE CROP.

A SUPPLEMENTARY market report, giving results of exports of coffee from Rio Janeiro for past crop year and comparisons, has been issued by Johnson & Co.:

	Crop Year		
To—	1893-94.	1892-93.	1891-92.
The United States, bags...	1,654,828	1,966,893	2,555,105
Europe.....	568,293	820,060	986,465
The Cape of Good Hope..	87,820	96,901	111,670
River Plate and sundries.	42,850	59,332	48,605
Total.....	2,353,791	2,943,191	3,701,845

The verified stock on hand June 30th was 120,000 bags. There is also the following table of direct exports from Victoria, State of Espirito Santo:

	Crop Year		
To—	1893-94.	1892-93.	1891-92.
Europe.....Bags	66,429	39,300	10,950
The United States.....	291,824	146,306	94,320
Total.....Bags	358,253	185,606	105,270

After reviewing the discouragements of the past season, Johnston & Co. say that the planting of new fields goes on. Present currency prices are a powerful incentive to production, to which not only the older coffee states, but also the new ones of Es-

pirito Santo and Bahia are responding. The large increase in Victoria exports, as shown by our statement, is due partly to a change in the mode of conducting the business, for all the coffee of home growth is now exported direct instead of coming to Rio; but the area of production in the province will soon be extended by the construction of the railway that will eventually connect the capitals of Espirito Santo and Minas. This line will open a new and rich country in the valleys of the rivers Doce and Manhuassu, causing coffee to be cultivated also in the Minas district north of the Ouro Preto Mountains, well suited for planting, but hitherto neglected on account of the difficult communications and higher freights Bahia is attracting no little attention, and it is worth noting that its exports of coffee, which were, in 1892, 121,000 bags, and in 1893, 315,000 bags, are estimated for 1894 at 400,000 bags. With high prices prevailing, every effort has been made to market the new crop early, and small parcels began to appear even in May. As usual, however, the work of gathering the crop, which is the more important and more urgent, has stopped its preparation for market; besides which heavy and continued rains during June have interfered with all agricultural work, transport included, so that large entries are not expected before the customary time. The new coffee so far shows a good bean, but also the customary lack of careful preparation, type 8 N.Y. (Common Channel) and below composing the lots offered for sale. From inquiries made, with all possible diligence and care we are led to expect a yield of from 3,000,000 to 3,250,000 bags. This does not include the exports from Victoria nor that from Bahia.

PERSONAL MENTION.

W. H. Sey'er, of Eby, Blain & Co., went off on his holidays last Monday. When last seen he was boarding a steamer, having in his arms a pair of field glasses and two long-necked pickle (?) bottles tied up in strong paper.

Wm. Ince, sr., and Wm. Ince, jr., returned this week from a bass-fishing expedition to Penetang. There are several less back bass in the waters thereabout as a result.

W. L. Baker, representing the manufacturers of Sapolio, is making a business tour of Canada. He was in Toronto last week. He has just returned from a trip through the Southern and Pacific States, and announces that his orders aggregated larger than ever before for the same territory.

Robert Hamilton, grocer, Queen street east, Toronto, was charged at the Police Court on Tuesday by Eby, Blain & Co. with fraud, it being alleged that he obtained some \$1,200 worth of goods on the statement that the house in which he lived was his own property, which the plaintiffs claim is not true. Mr. Blain said in the witness box that Mr. Hamilton gave him a statement of his position in February last, showing assets of \$7,100 and liabilities of \$1,283, and on the truthfulness of this statement the firm furnished Hamilton all the goods he required since then to the amount of about \$1,100. The statement was made because Mr. Blain refused to sell Hamilton any more goods in the state the account was then. Hamilton assigned some time during this month.

LIVE HALIFAX MERCHANTS.

The enterprising wholesale merchants of Halifax propose to use their country customers well during Exhibition week in that city in September. The Herald says: "The wholesale merchants of Halifax some time ago decided to suitably entertain their country customers during Exhibition week. A committee was appointed to arrange details of this very commendable undertaking. The project will doubtless succeed, as it should succeed. The committee propose to have a building erected on the Exhibition grounds, about 50 by 25 feet, in two compartments. One will be used as a reading room, etc., and in the other refreshments will be served. Such an arrangement would prove a great convenience to country merchants, and it ought to be of advantage to the Halifax wholesale men as well."

NOT A COMBINATION.

Wm. Dixon, of Dixon Bros., Hamilton, president of the Fruit Buyers' and Exporters' Association, writes congratulating THE GROCER on its article of last week on the apple situation.

He draws attention to the fact that among some persons not well informed there exists an impression that prices were fixed at the recent meeting in Toronto, and desires THE GROCER to state that such an impression is entirely erroneous. There has been no attempt at a combination to control prices, and every appearance of such has been tabooed. The association exists merely to introduce better methods of business and to collect proper crop reports.

NOTICE

The British Columbia Fruit Canning and
Coffee Co'y, Lt'd.

VANCOUVER, B.C.

Having largely increased their capacity. We advise all dealers to see their price list before placing their orders for Jams, Jellies, Canned Fruits, and Canned Vegetables.

Besides their regular brands of Ground Coffee, now so favorably known, they quote:
Blend No. 1 at 50c., either ground or whole roasted
" 2 at 50c., " " "
" 3 at 50c., " " "

Their Flavoring Extracts are of the choicest quality.

Executive Offices, PROPRIETORS.
NOS. 279, 281 AND 283 BROADWAY, NEW YORK

Offices in the principal cities of the United States
Canada, the European Continent, Australia and
in London, England.

The Bradstreet Company is the oldest and
financially the strongest organization of its
kind—working in one interest and under one
management—with wider ramifications, with
more capital invested in the business, and it
expends more money every year for the collec-
tion and dissemination of information than any
similar institution in the world.
