TERRISH BLACK SALVE INDER THE PATRONAGE OF THE HONORABLE

THIS SALVE, prepared from the original a recipe procured from a celebrated Turkish glakim, (physician) of Smyras, in Asia Minor, and which has obtained an imprecedented celebrity in Great Britain and the East Indies, from the attendishing Cures performed by it in both these countries, has lately been introduced into Montreal. As might be expected, its popularily has followed it, and its use is bacoming general among all classes. The Proprietors, prompted by the very flattering reception it has met with in the Metropolia, tave determined on extending its mediumes to all other parts of Canada; and, for that purpose, have established agreeties in all the principal Chies. They flatter fleme-lives that when its wonderful properties shall become more generally known, they will meet with that encouragement which the introduction of such a valuable medicancest into recountry joutly entitles flow. The contracted limits of an adventisament necessarily precludes their entering into any adequate detail of its merits, but, for the information of the public, they intend to publish, from turns to time, such statements of cures at save or re-ay occur, and for the present will content the server with merely enumerating some of the complaints for which if has been used with the rest complete uncreas—Such as Swellen thanks. REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM. THE great and decided success which has attended this Institution has increed the Directors to REDUCE the RATES originally required in British North America to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the im-European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits of Life Assurance at much lower Rates of Premium than those of any other Assurance Company transacting business in Canada. The Directors have also renolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their interest in their respective Policies. hey may
