GREATER HAMILTON'S MOST RELIABLE NEWSPAPER

SECOND DAY OF CONVENTION

Two More Days Preliminaries Before the Nominations

Committees Busy-Tariff Plank Not Yet Adjusted.

Big Time Round the Hotels-Fine

Chicago, June 17.—Down to business at last, the fourteenth Republican National Convention entered upon its sec unsettled, and with trouble enough in sight to make it practically certain that least two days more must be consum ed before nominations can be made and the work of the convention completed.

The hotels were scenes of what might be called a harmless riot; singing, cheering crowds in ceaseless, endless lines passed back and forth; campaign songs of old times and new were sung, and the far corners of the great buildings rang with cheers for everybody, from favorite

The bitterness which has been displayed on both sides of the injunction plank gave ominous threat of a storm of no small proportions should the controversy be flung into the convention in its grade form.

the national committee.

The Committee on Rules and Order of Business also had troubles of its own, and adjourned until this morning, with an unsettled controversy of importance on its hands. This was over the proposition to regulate the ratio of representation in future national conventions. The question is before the committee in the form of two resolutions, one by Representative Burke. of Pennsylvania, the other by Representative Parsons, of New York both of which, it is argued by those opposed to them, will have an important effect upon the status of the negro members of the Republican party in the south. A lively discussion on this matter was expected when the committee resumed its sessions this morning. In view of these incomplete matters before the committees, it was assumed at the outset that to-day's session of the convention would be comparatively perfunctory, so far as the main purpose of nominations is concerned. The features of to-day were expected to be a parade of the visiting marching clubs, the reports of committees and the speech of United States Senator Henry Cabot Lodge, of Massachusetts, as permanent chairman of the convention.

If a compromise be reached to-day upon the disputed planks of the platform, and if battles over the committee reports do not extend over night there seems a fair prospect that to-morrow will be clear for the nominating speeches, and that the close of the day may see the close of the convention.

INCOME TAXES.

Comber Thinks Ainslee Family Is Not Paying Enough.

Chatham, Ont,. June 17 .- One of the nost bitter disputes than ever agitated an Ontario town may be settled on June 23, when the Tilbury West Council will decide whether the Aimslee family, in Comber, are paying their full income taxes. The numerous branches of this family are said to own the best part of the village of Comber, Essex county, their properties said to aggregate about \$250,000. Other taxpayers have for some time past been impressed with the smallness of the incomes of the Ainslee family as shown by the assessors' roll. A fund was collected to investigate, and it is the intention of the appellants in case the Council decides against them, to carry the matter before the County Judge. when the Tilbury West Council will

(Special Despatch to the Times.) Toronto, Ont., June 17.-The impres ive ceremony of the installation of the Most Rev. Fergus Patrick McEvay took place this morning at St. Michael's Cathedral, which was crowded to the doors plowed through the long line of contests, and few were much surprised to find that all of the decisions confirmed those the Archbishopric of Toronto.

At the door of the cathedral the new Archbishop was met by Archbishop O'Connor, his predecessor, and by Vica General McCann. The latter, as chief celeric of the diocese, peformed the cere-mony of welcome and presented the Archbishop with the holy water. After the assembled priests had been sprinkled the procession advanced to the sanotu-ary. The Archbishop kissed the relies, and Vicar-General McCann read the pagal bull apointing His Grace Bishop papal bull appointing His Grace. Bishop Dowling, of Hamilton, then conducted Dowling, of Hamilton, then conducted the new Archbishop to the throne and installed him. Very Rev. Dean Morris, of St. Catharines, read an address of welcome on behalf of the clergy, and Justice Anglin read another from the laity. In his reply, Archbishop O'Connor laid special stress on the importance of religious education for the young. He rejoiced in the fact that Quebec and Ontario furnished an example for therest of the world in the way the rights of the minority should be respected by allowing for both religious and secular education under the school system. During the ceremony of installation Mgr. Sharretti, Papal Delegate, occupied a place with the priests of the diocese, and afterwards objects the diocese.

GREAT RUSH FOR HOME

Over a Thousand Persons Left Behind by Steamer.

Foreigners Anxious to Take Advan tage of Cheap Rates.

Will Sleep In Parks Until Next Boat Sails.

New York, June 17 .- More than a thousand persons holding steerage tickets for European ports were left behind by the Steamer Potsdam when she sailed to-day with her steerage modations filled to their capacity of 2,000. Thousands who were unable to find accommodation on the ship were assured that they would be taken on the next out-going steamer but many of them made determined efforts to get on board the Potsdam They were held in check by a large force of policemen, which had bee summoned to the pier, however, and the best they got was a sight of the ship as, with swarming decks dropped out into the stream and started on her

Township Goes to Law Over Supply of Water.

Power Committee In Private Session This Afternoon.

Beach Water Service to be Ready About July 1.

Barton township and the city have ocked horns at last in the dispute over supplying county residents with water sewers. At noon to-day W. A. H. Duff, solicitor for the Township Council, served Mayor Stewart with a writ in a people, applying for a mandatory injunc tion to compel the city to specifically perform the agreement of 1903, under which the annex came into the city. which the annex came into the city. The plaintiffs ask, among other things, to have the court define what is a reasonable distance from the water pipes for the township residents to get connection; what is a reasonable rate for sewer connection; for an injunction restraining the city from enforcing the resolution passed by the Sewers Committee in September of last year, insisting on the township people paying so much for every connection and sign an agreement; to have the township rate of assessment as made by Barton's assessor taken as the basis of assessment, and for a mandatory injunction compelling and for a mandatory injunction compel ing the city to carry out an agreement made with Thomas Barnes and others regarding the Sherman avenue sewer in

MARGUERITE'S SECRET

A rew days arrer that he came to ner with an inquiry whether she would be willing to give a lease of the property for a term of years, and, glad to be able to meet his wishes at any point, Mrs. Helmstedt at once agreed to the proposition.

Mrs. Helmstedt at once agreed to the proposition.

The new tenant at Plover's Point was Dr. Hartley, with his wife, son and daughter. They were a great accession to the neighborhood, for, though fifteen miles up the river, they were, in that spacious district, considered neighbors. The Houstons, Comptons and Wellworths called upon them, as also did Mr. Helmstedt, who apologized for the non-appearance of his wife, saying that Mrs. Helmstedt suffered in health and spirits and never left her home, and expressed the hope that they would dispense with form and visit her there. And this, at last, Dr. and Mrs. Hartley decided to do, and, after having once made the acquaint-size of Marguerite, they felt powerfully attracted to pursue it.

About this time, five years from the birth of her daughter, Marguerite became the mother of an infant son, who merely opened his eyes upon this world to close them immediately in death.

The loss of the babe was a severe disappointment to Mr. Helmstedt, and, for that reason, a heavier sorrow to Marguerite. Her health was now so enteebled that her physician, Dr. Hartley, earnestly advised a change of air and seene, and his advice was warmly seconded by her friends at Buzzard's Bluff. This consultation took place in the presence of Marguerite, who smiled proudly and mournfully.

Her husband answered:

"It shall be just as Mrs. Helmstedt decides; but as she has confined herself exclusively to her home, against the wishes and advice of all her friends, for more than five years, I greatly fear she will not be induced, by anybody, to leave it."

Mrs. Houston replied:

"Think of it, Dr. Hartley, Mrs. Helmstedt here." The new tenant at Plover's Point was

Mrs. Houston replied:

"Quite enough, indeed," said the kind-hearted physician, adding, "I hope, Mr. Melmstedt, that you will be able to persuade your wife to leave here for a time."

"I shall endeavor to do so," gravely answered the gentleman.

And when the visitors had all departed, and Mr. Helmstedt was alone with his wife, he took her white, transparent hand, and gazing mournfully into her emaclated, but still brilliantly beautiful face, said:

"Marguerite, will you have mercy on your life? Will you save your life? Will you, in a word, make the revelation I require as your only possible ransom, so that I may take you where you may recover your health? Will you, Marguerite?"

She shook by

She shook her head in sorrowful

pride.

"Have you so mistaken me after all these years, Philip? And do you think that the revelation I could not make for your dear sake aix years ago I can make now for my own? No. Philip, no."

And again, for a time, the harassing aubject was dropped.

Mrs. Helmstedt had one dear consolation; a lone angel was ever at her side, her little daughter "Margaret," as her Anglo-Saxon father preferred to write the name. As the lady's health temporarily rallied, her sweetest employment was that of educating this child.

"Iney are the same in fact. Remember, Marguerite, that you are your was to the properties, that you are your wisher."

"Would, indeed, that I might utter the words you wish to hear, Philip Helmstedt. Alas, I cannot!"

"Will not, you mean. Very well, Marguerite, then remember that you choose this confinement to the island."

She bowed her head in proud though and acquiesence, saying:

"Be it so! I accept your version of the affair, Philip, I shoose this confinement to the island."

"Mr. Helmstedt's immense wealth was for the present not only of no. use, but of versation to her; it was troublesome to manage, on account of her various estates being in places distant, or of difficult access, and some four or free times in the course of each yea it became necessary for Mr. Helmstedt to make a jouncy of three or four weeks for the satclement of accounts.

These absences were so trying to the sellude woman, who had no companion but her husband, and could scarcely but to lose him. He instead that the husband, and could scarcely to to lose him. He instead that the husband and cound and her house on Londoun street, in Winchester. Whereupon Mr. Helmstedt, who desired nothing better, immediately a hould swall themselves of the first favorable property for sale, and soon found purchasers. When the transit in any way you see fit, dear Philip, should an opportunity was presented to remain under cultivation, in the first the pour own name, and in any way you see fit, dear Philip, should an opportunity was presented to remain under cultivation, in the first the pour own name, and in any way you see fit, dear Philip, should an opportunity was presented to remain under cultivation, in the first to my daughter?

"Invest it in your own name, and in any way you see fit, dear Philip," should an opportunity was presented to remain under cultivation, in the first to my daughter?

"It was my mother's ancestral home, and my own birtplace, dearest Philip," As my own birtplace, dearest Philip, As my own birtplace, dearest Philip, As my own BARAKAKAKAKAKAKAKAKAKAKAKAKAK

now when she needs tht companionship of her equals, as much as she wants teach-

ers."

"Marguerite! there is not in this wide world a teacher, man or woman, so, in all respects, and for all reasons, competent to educate your daughter as yourself. You delight, also, in the occupation of instructing her; therefore, she shall not leave you."

"But her isolation—her loneliness? Her evident depression of spirits?"

"She feels the loss of her companions, as she must feel it for some days, after which she will get over it. For the rest, a child abroad with nature as she is, cannot suffer from loneliness; and even

a chind abroad with nature as she is, cannot suffer from loneliness; and even if she did, her sufferings would be less than nothing compared with what you would feel in losing her for years."

"I pray you do not consider me in this affair."

"Cease, dear Marguerite; the child is etter with you, and shall not leave

"Cease, dear Marguerite; the child is better with you, and shall not leave you," said Mr. Helmstedt. And as little Margaret entered at the same moment to take her music lesson, the subject was dropped, and Mr. Helm-stedt left the room. But Marguerit did not yield the point.

After giving her young daughter her lesson on the harp, and while siting exhausted on her sofa, she suddenly said:

answered by asking, softly:
"Do you want me to go, mamma?"
"I think, perhaps, it might be best
that you should do so, my love."
"Well, then, I will go," she said, meekity, struggling to govern her feelings, and
then, losing all self-control, she burst
into a fit of irrepressible weeping; in
the midst of which her father re-entered
the room, and learning the cause of her
emotion, said:
"Casea carrier."

"Cease crying this moment, Madge. You shall not leave your mother."

"But—sir, mamma prefers that I should go," said the little girl, quickly swallowing her sobs and wiping her eyes, for she feared even more than she loved her father, though she loved him very much.

loved her father, though she loved him very much.

"Your mother prefers that you should go, only because she sees you look sad, and fears that you feel lonesome here without companions of your own age."

"Oh, but—I should be more lonesome at Richmond, away from my dear mamma," said the little maiden, with a look of amazement, that her mother should, for a moment, think otherwise.

"Of course you would, so then let the matter rest, Mrs. Helmstedt, are you at length satisfied?"

ength satisfied?

Marguerite bowed and smiled to her husband, and then turned upon her daugh-ter a look of ineffable tenderness, while forming the secret resolution that her own devoted love and care should com-

alike of teachers and companions.

And well she kept her silent promise
No princess ever had an instructress a once so accomplished, so competent and zealous as this little island rustic poswrite the name. As the lady's health temporarily rallied, her sweetest employment was that of educating this child.

Margaret had inherited little of her mother's transcendent beauty and genius; but the shadow of that mother's work lay lingering in her eyestices large, soft, dark eyes, so full of carnest tenderness. Through the drear these texasons in all the long and dreary years of her confinement—those desorate seasons when Mr. Helmstedt was varying the scene of his life at Baltimore, Annapolis or some other point to

to her little boat and row around the isle, or if the wind was fresh and hot too high plant her slender mast and hoist her sail.

Ralph Houston was at this time at Harvard University, but Franky was at home, preparing for college, under the direction of the Rev. Mr. Willworth, whom he attended in his library three times a week. And Franky came often to the island to see his young neighbor, Margaret; and in his affectionate seal would have been Grace, Clare, the city of Richmond and himself, all in one, for her sweet sake. While at home in the evenings, he carved "cornelian" rings and bodkins out of broken tortoisesbell combs, and "ivory" needle-cases and paper-folders out of boiled mutton bones for her; and she wore and used them because they were Franky's work. And if he had pocket money, as he generally had, for he was a great favorite with his stepmother, who liberally supplied him, he was sure to send it, by the first opportunity to the city fo buy the newest book, picture or music for Margaret, who, whether the present were good, bad or indifferent of its kind, read he book, framed the picture or learned the music, because it was the gift of Franky. As time passed Mr. Houston observed this growing friendship with delight, and prophesied the future union of the youth and maiden—a provision at which Franky would blush scarlet between boyish shame and joy. Other interested parties took cognizance of this state of affairs. Mr. Helmstedt, whenever he gave himself the trouble to think of his daughter's future, viewed this prospect without dissatisfaction, which was, perhaps, the highest degree of approbation, if which his sombre nature was now capable. And Mrs. Helmstedt also, conscious of the precarious hold of her feverish spirit men her featile. which was, perhaps, the highest degree of approbation, if which his sombre nature was now capable. And Mrs. Helmstedt also, conscious of the precarious hold of her feverish spirit upon her frail body, found great comfort in the contemplation of Franky's clear mind and affectionate heart, cheerful temper and strong attachment to her child. But if Margaret loved Franky it was "at second best," and as much for the sake of one far away as for his own. There is no accounting for the waywardness of the passions and affections, and if the truth must here be told. Margaret in her secret heart better liked the dark, earnest, thoughtful man, Ralph, who was twelve years her senior, and whom she never saw more than twice a year, than this fair, gay, gentle youth who was her almost daily companion. And no one suspected this secret, which was but dimly revealed to the young maiden's self.

PAN-ANGLICAN.

OPENING OF GREAT CONVENTION IN LONDON.

Delegates From the Ends of the Earth -The Morality of the Canadians Emphasized-Magnificent Reception to Oversea Pan-Anglicans.

London, June 16 .- At the Pan-Anglican Conference the Archbishop of Toronto presided over the section which discussed the work in the prairies and foothills

During the discussion of the mar-riage question, under the Presidency of the Bishop of Montreal, the statements that divorce was practically unknown in Canada, and that no Canadian clergymen would celebrate the marriage of a man with his deceased wife's sister, were loudly cheered. Canon Tucker son. of a man with his deceased wife's sister, were loudly cheered. Canon Tucker emphasized the high standard of morality obtaining in Canada, despite the increase in illegatimacy, due to the growth of industrialism in the cities. A White-chapel delegate observed that more than seventy-five per cent. of the immigrants chosen to be helped to Canada were living in concubinage. The Bishop of Albany hoped that instead of the United States corrupting Canada, Canada would correct the United States. The Bishop of Montreal expressed great satisfaction at the magnificently conservative ring of the debate.

Replying to the toast of "Our Guests," proposed by the Premier at the Pilgrum's dinner last night, the Archbisnop of Rupert's Land remarked on the magnificence of the reception accorded to the oversea Pan-Anglicans, and pointed out amid laughter that Sacktacheway had a town called

son on the harp, and while sixting exhausted on her sofa, she suddenly said:
"My dear, you miss Grace and Clare very much, don't you?"
"Yes, dear mother."
"Wouldn't you like to go to Richmond and enter the same school they are in?" she inquired, pushing a side the dark clustering curls from the child's fair forehead, and looking wistfully into her face, which was suddenly shadowed by a cloud of grief or fear. "Say, would you not, my Margaret?"

The little red lip quivered, and the dark eyes melted into tears; but she answered by asking, softly:

pale of the old land the English Church has mothered no fewer than two hun dred and fourteen daughter dioceses In the United States and Canada there are one hundred and eighteen a dioceses; in Australia twenty, in the West Indies nine, in India eleven, New Zealand seven, South Africa ten, trop-ical Africa six, in China and Japan eleven, and so on, until in faraway Melanesia there is but one.

GROWTH OF CHRISTIAN SCIENCE. New Church Established Every Four and

a Half Days.

Boston, June 16.—The annual meeting of the members of the First Charch of Christ, Scientist, was held late today in the extension of the Mother Church. Nearly 4,000 members from many parts of the country and abroad were present.

The new officers and readers of the mother church were elected as follows: President, Commander John Bliss, Boston; Clerk, William B. Johnson, Boston; Treasurer, Stephen A. Chase, Fall River; First Reader, Judge Clifford P. Smith, Mason City, Iowa; Second Reader, Mrs. Carroll Hoyt, Powers, Boston.

A message was read from Mrs. Mary Baker C. Eddy, in which it was stated that new Christian Science churches or societies have been established at the

PROFESSIONAL WIDOWS

Evidently a Lucrative Business in New Orleans.

New York June 16.—A despatch to the Herald from New Orleans says: That professional widows exist here was indicated to-day when four women applied consecutively for the belongings of a sailor washed overboard from the schooner Anita D. in a recent Lake Pontehartrain squail.

When the vessel weathered the blow, Earle Andersen was missing. The Anita D. was on her way here from Mandeville and docked this morning. A few hours afterward a woman in deep mourning came aboard. Between sobs she told Captain Clarke she was Mrs. Andersen, and asked for his wages and belongings. Clarke told her Andersen had drawn all that was coming to him. The woman then ransacked the dead seaman's locker "for keepsakes," and left.

Fifteen minutes later another "widow" clambered aboard, and a sked for details.

Fifteen minutes later another "widow" clambered aboard and asked for details of her husband's death. This was all she got. The captain was still puzzling over Andersen's past when another sombrely veiled female presented herself as the third Mrs. Andersen. Clarke dismissed

ther without ceremony and went ashore to notify the police. When the master returned he learned that another "widow" had called in his absence.

HORSE THIEF SENTENCED. Harry Thomas Goes to Kingston Peni-

tentiary for Three Years. Orangeville, June 16.—On Saturday there was stolen from the sheds of the there was stolen from the sheeks of the Alexandra Hotel a horse and buggs, worth nearly \$300, belonging to Alian Macdougall, of Hillsburg, Harry Thomas, hailing from New York State, was later in the evening arrested and loaged in iail here. He was brought before Police Magistrate Pattulle this afternoon and pleaded guilty. James Johnston, a Caledon farmer, was offered the mare for \$50, prisoner explaining he had to accept it for his wages as farm laborer. Finally the whole outfit was effered for \$25. Thomas Harrison, a neighbor of the previous witness, could have purchased the horse and rig for \$40, but he also was suspicious.

The prisoner stated he had been in Canada since May last, and had been a C. P. R. operator, but was laid off. He had never been in trouble before, and was drunk, he said, when he took the lorse.

The magistrate said it was a most.

The magistrate said it was a mo serious offence, and sentenced him three years in Kingsten Penitentiary.

SWALLOWED POISON. Montreal Girl, Without Money, Parted

From Lover.

From Lover.

Montreal, Que, June 15.—Hard luck and parting from her lover, who was leaving town in search of work, drove Jennie Stone late last night to make an attempt on her life.

Judson O'Connell and his sweetheart had just said geod-bye on Beaver Hall Hill, when he heard cries which drew him back. He found that the young woman, who is but 19, had swallowed the contents of a bottle of deadly poison. With the aid of a motorman, who heard the shouting, an ambulance was called, and the girl was removed to the General Hospital, where prompt remedies were applied, and, though in a critical condition, it is expected she will recover.

recover.

The girl had been told to pay her board bill or leave the house where she lived, and as she had been out of work the thought that her best friend was going away, too, proved too much. O'Connell had but 8s cents after buying his ticket, and the girl refused to take it. Squaw Island on the Niagara Rive

Several Socialists Elected Which May Calm Agitation.

Berlin, June 17.-The results of the inal elections for the Prussian Diet esterday make but little change in the orecasts sent out. A feature of the omposition of the new House will be the appearance of the Socialist members. numbering six and possibly seven as th esult of the vote in one of the distriots has not yet been recorded. The Poles also will be increased by two mem-Poles also will be increased by two mem-bers while the extra Conservatives have gained eight seats at the expense of the more Liberal groups. Otherwise the changes are merely in persons.

The representatives of most of the parties are inclined to welcome the So-calasts as their presence is considered likely to calm the agitation for suffrage.

Their election is regarded in some quar-

Kansas City, June 17.—The overflow from the Missouri and Kaw Rivers here continues to subside, and within a few days the waters will more than likely be back to normal. During the past 24 hours the Missouri fell nine-tenths of a foot and a fall of more than three feet was recorded for the Kaw for the same period.

The organs of the Conservatives are adding hypocrisy to the highwayman tactics of their party at Ottawa, in laying at the door of the Government the unconscionable delays which their own persistent and premeditated obstruction has caused, and in denouncing the Liberals as imbeciles, heipless, and incompetent when they yield anything to further the business of the country.

HODGINS RETRACTS.

Before the Special Committee of the House appointed to investigate his charges against the Transcontinental Railway Commissioners and Hon. S. N. Parent, Major Hodgins yesterday frankly admitted that he had made a mistake, that he had no evidence to offer as to mproper interference by the Commissioners with the engineers of the road, or of Hon. Mr. Parent having attempted to influence Sir Wilfrid Laurier to refuse an investigation into the charges. All he had to say was that there was a difference of opinion among the engineers as to the classification of work on the road, and he had every confidence in the board of arbitrators appointed under the statute to settle such disputes, and to it he would give any evidence necessary. Thus ends in a miserable fizzle what the Tory newspapers gloated over as a huge scandal that would startle the whole Dominion. Visions of graft, of Commissioners dickering with engineers and contractors for their own benefit, and of efforts being made to hush up a great scandal vanish, the Commissioners are vindicated, and once again the "muck Takers" have been "stung." For months past the Tory newspapers have flaunted the charges which were made by the Major before their readers as evidence of the crookedness of the Laurier Government and of its appointees, and protested to high Heaven that the time had when the Liberal Government should be hurled from power, as too vile to live. Now that the charges have en withdrawn, that the Major has publicly admitted his mistake, will these papers do the fair thing—give Sir Wiltrid a square deal? Not much. They will still try to make the charge stick while they ply the muck rake in other directions. It is not often that charges of this nature have been so openly and completely shown to be false, and had the Major stuck to his guns the Opposition would have made the most of them, false though they were. Mr. Barker appears to have been sorely upset by Hodgins' withdrawal of the charges, and wanted the investigation to go in any event, in the hope, no doubt, that he might find something to the discredit of the Government. Mr. Barker has our sympathies . The Major's frank avowal must have been a great disappointment to the scandal-hunting Barker.

PROTECT OUR WATER SUPPLY.

In an article in the Engineering and Building Record, Geo. M. Kober, professor of Hygiene, Washington, presents series, of graphic records showing the benefits of water filtration upon the health. Taking Washington for illustration, it is shown that there has been a wonderful improvement in the city's health coincident with the purification of the water supply. In 1890 the typhoid death rate per 100,000 stood at startling figure of 104; in 1902 it had declined to 72. In that year sedimentation began to show its usefulness, and in the following year, 1903, the typhoid rate fell to 44. In 1905 the new system of sand filtration was put into con on, and in 1907 the typhoid rate fell below 35. Malarial diseases, which used to prevail in the city, showing a death rate of 49 per 100,000 in 1891, were reduced to 2 in 1907, while typho-malarial diseases no longer figure in the

Washington's experience shows that dimentation itself is a great advantage to health, and that it tends to assist the filtering process. The use of the Delcarna reservoir confirms Prof. Kober in the belief that the careful settlement effected removes 87 per cent. of the bacteria from the polluted water, and forestalls in part the work of the

It is interesting to note the general effect of considering the source of the water supply of cities tabulated for purposes of analysis in the study 1896 per 100,000 of population. It is found that the rates for cities using unpurified water vary from 33.1 at Minneapolis to 122.1 at Alleghany and 133.1 at Pittsburg. The summary shows: 4 cities using ground water from

4 cities using ground water from 18.1
18 cities using impounded and conserved rivers or streams.... 18.5
8 cities using water from small 19.3 7 cities using water from the Great

32.8

Lakes ... 32.8
5 cities using both surface and unground water ... 45.7
10 cities using polluted river water 61.1 This is an illuminating showing, and one that is well calculated to make men think of the waste of life consequent on neglect of water purity. Nor does the evil end with the death rate. Prof. Kober says that "according to the cenfrom typhoid fever during the census year throughout the United States; and based on an estimated mortality of 10 per cent. it is within reason to assume After a year of good prices for farm products and of Biquidation of labor in occupations which compete with agriculture, farming has more abundant capital as well as a more liberal labor supply than probably in any earlier year in the current decade.

The fourth line of defence is thus not only well entrenched against in action, but will probably be the first to raise the signals for advance. The charging purchasing power of the rural population must find outlet for its resources in some direction. Much of will be laid away for the such as that to be \$10,000 for every actual death caused by the disease, or \$333,790,000. To reduce this even one half by water purification would be a great achievement, even from the dollars and cents view. That such a result attainable is proved by Prof. Kober's yearly prevalence of 353,790 cases

tabulation of the experience of seven U. S. cities which shows that the combined average annual death rate from typhoid fever in cities with a contaminated supply was 69.4 and after the sub stitution of a pure supply it fell to 19.8 per 100,000; a reduction of 70.5 per cent. The Bulletin of the N. Y. State Department of Health, April, 1908, contains an interesting article showing that the death rate from typhoid fever in ten cities of that State has been reduced 53.4 per cent. by an improved water supply.

Purification of waters has everywhere been followed by decrease in disease. In 14 countries and cities studied by Dr. Wilbur the average reduction in typhoid death rate has been from 42.3 18.1 per cent. The typhoid death rate in Berlin was in 1872 as high as 142 per 100,000; in recent years it has been brought as low as from 5 to 14. A fine example of the benefits of filtration was furnished in Hamburg in 1892. The cholera epidemic of that year which resulted in 17,020 cases, with 8,605 deaths, was caused by a band of gyp-sies camped on the banks of the river Elba, and the discharges of one of its members suffering from cholera were emptied into the river which at that time was served to the inhabitants of Hamburg without filtration. The epidemic spared the adjoining city of Altona, which derives its water from the same river after receiving the sewage of Hamburg with its 800,000 people, but Altona filtered its water and Hamburg at that time did not.

The experience of Washington has already convinced her people that the few million dollars spent in her new filtration plant is an excellent investment. The city's death rate of 28.08 in 1875 has been reduced to 19.25 in 1907. New York's, with an increasing density of population has been reduced from 38 per 1,000, in the middle of the last century, to 18.9 in 1906; and vital statisticians estimate that over 290,000 lives are annually saved to the Republic

Let our city fathers not neglect their obvious duty in this regard. Get the sandsucker set to work, clean out, and enlarge the capacity of our filters. And the time to do it is before we feel the effect of not doing it in time.

GERMANY TOO!

The Berlin Tageblatt appeals to the German people to put an end to the (to Germany) disastrous tariff war between that country and Canada, "while there s yet time." The Tageblatt sees reasons to think that Germany will not obtain as favorable terms from Canada by and by as might now be secured; and acknowledges that Germany's stand. in the matter of the denouced treaties, was indefensible. It draws a striking picture of the wonderful growth and development of this great young country, and it regretfully remarks: "With this great land of the future, with this rising people of the twentieth century, Germany is still engaged in a tariff war. While our exports to other lands continue to increase, our exports to Canada have during the last five years gone down from £1,950,00 to £1,250,000. It is high time that we, after our experice with the South African tariff, took the initiative in coming to some understanding and gave up the standpoint we had in 1898, which may be theoretically justified, but which is politically damag-

The Tageblatt specially refers to the 'independent treaty" which Canada has with France, and sees in it a precedent which Germany should promptly move to take advantage of, receding from her unjustifiable attitude toward the Dominion, and recognizing Canada's indisputable right to take the action which she did. Expressing the hope that Germany will arrange a commercial compact with Canada, it says: "Canada's good Government, her richness in natural products, her healthy populacountry into line with the leading nations of the world. We must work together with them in poses of analysis in the study of the mean typhoid death rate from 1892 to the mean typhoid death rate from 1892 to the constant of the consta part." Evidently the German press and statesmen are taking a better perspec

LOOKING FORWARD.

Business indications are looking better. Last month's banking report would ap the turn in the road, and the general sentiment of Canadian business men is that things are picking up. The Montreal Trade Review points out that we possess four lines of defence, the financial, the mercantile, the industrial and the agricultural. The three first are making little, if any, advance, but the fourth indicates progress. The Review says:
The official reports go to show th there has been ceaseless activity during the winter in the discussion of improved

the thrill of rising life in the blood of the business community..

This is moderate and hopeful in tone, and there is reason to think that it is

a fairly accurate estimate of the situa-tion. In spite of all that has been, or may be, said, the prosperity of Canada is, and will continue to be, founded chiefly upon her agriculture. Agriculture does not always make the greatest bluster, or demand most favors from the Government, but it brings in the cash. When it prospers, all prosper. When the bins are empty, commerce contracts, and there is hunger in the industries May the farmer have a fat year, for we all share his good things!

His Worship the Mayor, it is announ ed, is far from being satisfied with the Cataract power proposals. It is also announced that Rameses II. is dead. Mr. Borden's appeal to the Manitoba Government to extend the time so that the revision of the voters' list may be made something better than a farce, and accuses of help to excuse the Ottawa obstruction, goes to indicate that he is recognized as the nominal leader of the Opposition But it is little more than nominal, else he would have controlled his party in the House, instead of being overridden

Major Hodgins is his own refutation. In his charges of over-classification on the La Tuque cutting, he said that 86 per cent. of the work was classified as rock, whereas 40 per cent. would have been liberal. The records of the Com mission show that the classification, in stead of being 86 per cent., was 32 per cent., 20 per cent. less than Major Hodgins' estimate of what would have

GOVERNMENT APPOINTMENTS.

Civil Service Reform Bill Introduced Into Commons.

Commission to be Formed to Make Appointments.

Examinations and Nominations After the British Style.

(Special Despatch to the Times.) Ottawa, June 17.—The movement for civil service reform took practical shape o-day, when in the House of Commons Hon. Sydney Fisher introduced a bill, the effect of which will be to revolutionize the civil service and place it more or ess on the English basis.

Hon. Mr. Fisher said that in prepara tion of the bill he had carefully studied the various legislation in the Dominion bearing on civil service all the reports of the three commissions which had been held in Canada on the subject, the course of procedure in the motherland the question, and the course of on the question, and the course of events in the United States in the direction of civil service reform. It would be found that a large measure of civil service reform was proposed. The greatest and probably the most important reform was the establishment of an independent civil service commission, which would control the examinations to be held for entrance to the civil service, and give such attention as might be necessary in regard to promotions, increases of salary and improvement of the status of any individual in the civil service.

service.

The commission will have power to make regulations and control the examinations and the arrangements for the carrying out of its work. It was intended that the commission should be composed of two, and thereby should have the status, salary and tenure of office of Deputy Ministers. The commission would recommend the necessary officers and staff which would be required for the carrying out of their work.

Mr. Bergeron-Will they be employees

Mr. Fisher-There will be two new men appointed for this particular pur pose with large powers under the oper

The second important reform was that entrance into the civil service would be by open competition examination, and the nominations to the service would be in the order of merit under the control of the commission. The procedure in regard to the examinations and nominations was based on the English system. The examinations will be held as often as necessary in the judgment of the commission, probably twice a year. The different heads of the departments would notify the commission what vacancies were required to be filled in their various departments. When about to hold an examination the commission would advertise, asking how many and what character of appointments were to be made. When the examination was completed they would renge the candidates in the order of merit. Some slight latitude would be left to the commission. If a clerk in the examination excelled in a particular line the commission would have the power to appoint that clerk.

Mr.—Foster—What is the period of probation?

Mr. Fisher—Six months, but at any The second important reform was that entrance into the civil service would be

probation?

Mr. Fisher—Six months, but at any time, after two or before six nonths, the head of a department might notify the commission that a candidate was un fit and the commission might reject him,

Mr. Borden asked if that system would apply to promotions.
Mr. Fisher said competitive examinations were not insisted on in the case of promotions. It was proposed under the bill to bring all of the departmental service at Ottawa into the inside service under the operation of the civil service act. It would also provide for the bringing under the rules or the civil service any outside service by order in-Council.
With regard to classification there was a considerable change made in the public service into three divisions. Each of these divisions will be divided again into two subdivisions. Class A of the Mr. Borden asked if that system would

Class B of the first division will be made up of the lesser (echnical and ex-centive officials. The standard divis-ion is made up of certain other clerks whose duties would be of a kind to qual-ify them for the higher divisions. These will in turn be divided into two sec-tions.

where the record of the clerk justified it, and on a certificate from the commission, this increase could be made \$100. All promotions and all increases would be on the certificate of the commission, following action by the head of the department and order-in-council.

It was hoped by the bill to do away entirely with the present situation in regard to temporary employees. As all the hon. gentlemen knew, many employees were called temporary clerks, though some of them had been in departments 20, 25 and 30 years. The bill provided that a temporary clerk could be employed not more than six months in any one year, and then only on certain commission. Therefore, there would be more parmanent employees known as such instead of being known as temporary employees. Roughly speaking, he said in answer to some questions, the increase in salaries over those now paid would be about \$200 for higher grades crease in salaries over those now paid would be about \$200 for higher grades and \$100 for lower grades of service. Superannuation was not dealt with in the measure. It was a matter for a separate bill. He made it clear later in replying to still other queries that the present employees would not have to pass another examination, and that those who were brought from outside to inside service would come in on the basis of present salaries. The changes were practically based on the work of basis of present salaries. The changes were practically based on the work of the English civil service commission and

Mr. Borden, while complaining of delay in introducing the measure, expressed satisfaction with some of the leading features, such as appointing an inde-pendent commission, selection of candipendent commission, selection of candidates for public examination, and appointments in order of merit. It was satisfactory to know that the Government proposed to reconsider its attitude in regard to superannuation, but it would have been more gratifying if they made a measure of superannuation part of the bill. The measure, it was worth noting, did not touch the outside service, which was the greater portion of the service, and he trusted that on the second reading there would be some announcement as to the policy of the Government in that regard. that regard.

She was wiser than we knew this dog I shall tell you about—although we had given her credit for being wiser than all other dogs.

She had a bed in the corner of the kitchen, and in it were three little baby dogs.

One morning when I went to make my usual call and inquire after the health of the babies, the bed was empty. I found the little mother in a favorite nook in an upper room, but nowhere could I find the puppies, until after a long search I happened to go near a lounge in the dining-room and noticed that two pillows that belonged on it were on the floor one on top of the other. I raised the top one, and there lay three little fat puppies fast asleep.

Don't you see what it meant? Why, I do, as plainly as if I had found a letter saying. I need a rest but I wanted my babies to keep warm, so I brought them here; but how she managed the whole thing no one will ever know.—Christian Intelligencer.

RAILWAY COMMISSION.

Telegraphs and Telephones Under Its Jurisdiction.

Ample Powers Given Board to Enforce Agreements.

Boys of Eighteen Not Allowed to Purchase Tobacco.

Ottawa, June 16-The Opposition were again in a conciliatory mood to-day, with the result that the Government were able to advance several important measures a stage. The greater part of the session was occupied in consideration of Hon. Mr. Graham's bill bringing telephones and telegraphs under the jurisdiction of the Railway Commission, and increasing the powers of that board. Among the more important points emphasized in the course of the discussion was that the Railway Commission will have ample powers to compel the fulfill-ment of agreements between railway and municipalities. Another important bill which passed its second reading was Hon. Mr. Aylesworth's reading was Hon. Mr. Aylesworth's measure restraining the use of tobacco by boys. The bill fixed the age limit under which boys should not be permitted to purchase tobacco or cigarettes at sixteen, but after a general expression of opinion on both sides of the House in favor of raising the limit it was agreed to fix the age at eighteen. Other bills considered were the amendment to the postoffice act instituting a Other bills considered were the amend-ment to the postofice act instituting a one-cent drop rate in cities and towns which have a letter-carrier delivery, and a measure altering in some respects the prisons and reformatories act so far as it applies to Nova Scotia. The bill pro-viding for a one-cent drop rate in cities and towns with a letter-carrier delivery was passed.

Foster asked whether the telephone and telegraph companies had to get the approval of the board before they put their rates into force.

Hon. Mr. Graham said the companies would have to submit their tariffs to the board before putting them into force.

Northrup asked whether the would have power to deal with telephone companies. He men-that there were two such companies in his own county deriving their franchise from the Provincial

Hon. Mr. Graham said that according to the interpretation clause the word company meant a company incorporated by the Dominion.

Mr. Northrup did not think the bill made that clear. If the board had jurisdiction over such local companies he thought they were considered.

Mr. Northrup did not think the bill made that clear. If the board had jurisdiction over such local companies he thought they were giving a power they had no right to give.

Hon. Mr. Aylesworth said the bill was intended to apply to any individual or company which carried on the business of a telephone or telegraph company, and which had the legislative authority of the Dominion Parliament. As to whether certain companies were not under the jurisdiction of the Dominion Parliament, that was a question for the courts to determine.

Mr. Northrup complained that the bill contained nothing which would enable the Railway Board to take steps to recover \$21,000 from the Grand Trunk Railway Company, of which, he declared, the Government had been robbed in connection with the Belleville & Hastings Railway. That railway having obtained a subsidy from the Government had turned it over to the Grand Trunk Company, who had not complied with the conditions upon which the subsidy had been given.

Mr. Northrup moved an amendment covering the case and similar cases which might arise.

Hon, Mr. Graham did not think it would be wise to legislate for something that had happened twenty years ago. The clause was allowed to stand. Mr. Henderson asked whether the bill fulfilled the promise made by the Minister of Railways in connection with the Hamilton Radial bill, that the board would be given power to compel railway companies to carry out their agreements with municipalities.

companies to carry out their agreements with municipalities.

Hon. Mr. Graham said there was a provision in the bill which would enable the board to see that agreements with municipalities were carried out. The powers of the board would be so ample that they would be able to deal with every form of agreement between a company and a municipality.

Replying to Mr. Lalor, Hon. Mr. Graham said the connection of a local company with a trunk line would be subject to the jurisdiction of the board, which would be in a position to compet trunk lines to connect with locals.

Other clauses including a demurace of the connect with locals.

Other clauses, including a demurrage provision, empowering the Railway Commission to impose penalties upon railway companies for delay in furnishing cars or delivering freight, were carried without discussion.

out discussion.

Reverting to Mr. Northrup's amendment, Hon. Mr. Aylesworth said he was not prepared to accept the proposition that a company which had acquired the property of another company who were in default of their, agreement with the Government should be called upon by Parliament te discharge the obligations of the defaulting company.

Mr. Northrup thought the Minister of Justice was misinformed as to the facts of the Belleville & Hastings Railway subsidy.

of the Belleville & Hastings Railway subsidy.

Mr. Henderson pressed the Minister of Railways to put a clause in the bill compelling specific performance of agreements, such as had been effected by the Hamilton, Radial Company, with the municipalities as to rates.

Hon. Mr. Graham claimed that the provisions of the bill completely met the requirements referred to by Mr. Henderson.

Hon. Mr. Aylesworth said that if a company violated any agreement with the Crown, municipalities, individuals or other companies, any person might go before the Railway Commission, asking that such agreement be specifically carried out, and the board would have power to enforce it.

Mr. Northrun's amendment was de-

red out, and the board would have power to enforce it.

Mr. Northrup's amendment was declared lost on the understanding that the member for East Hastings would have an opportunity to discuss it on the third reading.

The bill was reported and now stands for third reading.

Hon. Mr. Fielding moved the House into Committee of Supply, but Mr. Foster suggested that the Government might proceed with another of the bills on the order paper, and this was agreed to.

raises the minimum period of incarceration from one to two years. The bill was passed.

Hon. Mr. Aylesworth next moved the second reading of the bill to restrain the use of tobacco by young persons.

Mr. Miller suggested that the age limit be fixed at eighteen instead of sixteen years, as proposed in the bill.

Hon. Mr. Aylesworth pointed out that the bill was a new departure, and was somewhat drastic in its provisions. It absolutely prohibited the sale of cigarettes, cigarette papers and tobacco in any form to boys, whether for use or not, and after careful consideration he had reached the conclusion that to fix the age limit at sixteen would be to go a good distance for a first step.

Mr. Miller thought a boy of eighteen was just as apt to be injured physically by smoking as one of sixteen.

Mr. Wright (Renfrew) said his experience was that boys were boys until they were eighteen. (Laughter.)

Mr. Henderson also supported the amendment. There were, he said, some men of 25, and even more than 25, who required to be restrained. He did not think cigarettes were good for any-body.

Brunswick the age limit was eighteen years.

Hon, Mr. Aylesworth said the age limit varied in different Provinces. In Ontario and New Brunswick it was eighteen; in Nova Scotia, Prince Edward Island and in the new Provinces in the west, sixteen, and in British Columbia fifteen. If they fixed the limit at eighteen they would impose a very considerable task upon the constables, whose duty it would be to confiscate the smoking materia? of the boys daught. If, however, the House wanted it he was agreeable.

Mr. Blain thought the bill did not go far enough. He was in favor of prohibiting the importation, manufacture and sale of cigarettes.

Dr. Sproule did not think the act would prove effective.

The amendment changing the age limit to eighteen was carried.

Mr. Macpherson objected to the amendment, declaring that he was earning his living and smoking when he was fifteen, and thus contributing to the revenue of the country.

The bill was reported, and the third reading stood over in order that Mr. Blain might have an opportunity to move his amendment prohibiting the importation, manufacture and sale of cigarettes.

importation, manufacture and sale of cigarettes.

The House again went into committee to consider the bill amending the Post Office Act by giving a one-cent drop rate in cities and towns where there is free delivery, and providing for the appointment of a financial superintendent, whose duty it will be to examine the accounts of staff offices and post offices.

Hon. Mr. Lemieux said the total revenue drawn from cities and towns which would receive the benefit of the one-cent drop rate amounted to \$4,728,361.

Mr. Armstrong thought the Postmaster-General should do something for rural delivery.

Hon. Mr. Lemieux claimed that the rural districts had not been overlooked. He had welficed the distances between the consideration of the content of the co

Heated Discussions Over Business of Anglican Synod.

Toronto, June 17 .- "The entrance fees to the Woodbine race course for its thir-teen days, I am told by a man who is connected with the race course, are be-tween \$125,000 and \$130,000, while the 80 or 100 bookmakers there each paid \$1,300 for the right to be there on those days. "And with all this money going to the race track we are unable to support our widows' and orphans' fund. It we take our splendid Church of England and test it by that grand old book which tells us to visit the widows and orphans in their affliction, and to walk humbly before our God, we find we are nothing but a band of hypocrites. Men have given up their lives to the service of the Church, relying on the absolute prothe Church, relying on the absolute pro mise that the Church would look after their widows, and to-day it is reported that the Churches are not observing

this promise."

These strong and pointed statements were made last night on the floor of the Synod of the Diocese of Toronto, in St. James' Cathedral schoolhouse, by Hon. S. H. Blake, K. C., in a discussion over a report presented by the Committee on the Widows' and Orphans' Fund. As the committee have been unable to get in enough funds from the churches to pay the amounts pledged to the widows and orphans a list of the churches in arrears were published in the Synod Journal. the Synod Journal.

Rev. Frank Vipond, speaking on be half of the country churches, many of which, he claimed, were too poor to contribute a single dollar to the fund, said in answer to the report, it was an outrage to have thrown at them on the floor of the Synod a vituperative har-angue by men whose purse-strings hap-pened to be a bit longer than those of

Bishop W. D. Reeve, who presided, made no comment.

This was not only the discussion in which Mr. Blake took a prominent part. Earlier in the day he had criticised the report of the Diocesan Mission Board, which called for \$17,000 for its purposes next year, while regretting that it was so far unable to make the special distribution to the missionaries which thad done in previous years.

Mr. Blake pointed out that the figures for this year were only a little in excess of \$12,000, and wanted an explanation.

"I cannot give it without looking into the matter. I am not responsible for the figures," said Archdeacon Warren.

"Yes, you are responsible; the figures

"Yes, you are responsible; the figure are presented by you," responded Mr Later on Archdeacon Warren, in

Blake.

Later on Archdeacon Warren, in contributing to the discussion, said that Mr. Blake's criticism was unfair, as such a criticism reflected on the veracity of others.

To this Mr. Blake replied that his remarks were not intended to reflect against the Diocesan Mission Secretary, and he moved an amendment to the report instructing the assistant bishop to obtain a sum of \$\$4,000\$ with which to give the usual pro rata disbursement to the missionaries.

Archdeacon Warren replied that a phrase used by Mr. Blake, "swelling the accounts," conveyed the impression that his veracity was questioned.

"I merely pointed out," rejoined Mr. Blake, "that while the report says that \$17,000 is needed, our totals for last year only show an estimate of \$12,825. I want to know how these figures are arrived at, and I want to see that we fulfil all the promises we made last arrived at, and I want to see that we fulfil all the promises we made last year to our workers struggling in the mission field. has so indecently made upon me. He pointed out that he himself had become personally responsible for \$1,250, over the erection of the St. Monica's Church, and håd collected almost \$9,000 for the fund. "I think I can fairly say that no one here has done as much for church extension as I thank God I have been able to do," he said.

Several delegates arose and offered explanations of the figures, one of which appeared to satisfy Mr. Blake, "I will be smothered with explanations," he protested, indignantly, when Archdeacon Warren rose to offer another explanation. "I have been treated here as if I were a baby. I have lived in the city all my life. I have sat in the Synod for forty years, Please permit me to know something of my own knowledge, and don't smother me with more explanations."

Mr. Roy was unable to obtain a renewal of his bail and was taken to jail to-night. His counsel has applied for a writ of prohibition to prevent Magistrate Lanctot from hearing the case, on the ground that he is an interested party.

DEVASTATION BY BUSH FIRES.

Entire Quebec Village Wiped Out in Lake St. John Region. Quebec, June 16.—Forest fires are reported to have devastated a large section of country in the Lake St. John region at present. The scene of the fire is between Lake Cimon and Lake Quaquimaxis, west of the Quebec & Lake St. John Railway. All the houses in the village of Lake Cimon are stated to have been destroyed. A light breeze was di-recting the fire towards the mountains

recting the fire towards the mountains. It is supposed the fire was started by imprudent fishermen who failed to extinguish their camp fires.

At Dequem, about 60 miles further away, a whole side of a mountain was

For a good spring tenie, get from your druggist: One ounce Fluid Extract Dandellon. One ounce Compound Salatone. Four ounces Compound Syrup Sarseparille. Mix, shake well, and take in teaspoonful doses, after

The formula is given by a prominent physician, and is said to have remarkable results in ridding the blood of the uric acid and poisonous waste matter with which the blood is likely to be charged at this season of the year, particularly of persons afflicted with rhoumatism or kidney diseases. It strengthess and assists the kidneys to filter these poisons from the blood, restoring the healthy, normal action, so necessary to perfect health.

If you feel that you need a tonic, prepare a bottle and try it anyway, for being so highly recommended it can bring nothing but good results.

The spider seldom bites or stings, but should any one try to catch him bite he will, and, though not venomous, his jaws are as powerful as a bird's beak. The bodies of these spiders are very handsomely decorated, being bright gold or scarlet underneath, while the upper part is covered with the most delicate slate-colored fur. So strong are the webs that birds the size of larks are frequently caught therein, and even the small but powerful scalp lizard falls a victim. A writer asys that he has often sat and watched the yellow monster—measuring, when waiting for his prey, with his legs stretched out, fully six inches—striding across the middle of net, and noted the rapid manner in which he winds his stout threads round the unfortunate captives. Wagons will be kept busy hauling water. There will be little inconvenience to the camp as a whole, as there are many artesian wells available. In spite of the medical interdict, the townspeaple declare that there were but two cases of typhoid all last year, and what was good for them ought to be pure enough for the militia visitors.

The businese end of the camp is increasingly at the rifle ranges, after giving all other sections their due. Every man of the 3,000 infantry has to pass through the careful hands of Capt. W. P. Butcher, R. C. R., and his staff of instructors. Though the men will drill with the Lee-Enfield, the "Mark II. Ross rifle" will be used exclusively on the ranges for the first time. This will mean that every man will have to receive preliminary instruction in the slightly different movements of a new arm. Five hundred Mark II. Ross rifles fresh from the Quebec factory are piled in the old fort on the ranges for the use of the troops.

TRAINS 3 AND 4.

The latest publication produced by the Advertising Department of the Grand Trunk Railway System is a booklet descriptive of their line between Chicago and New York, through Ontario via Niagara Falls, also Chicago and Portland, via Toronto and Montreal, under the title "Trains 3 and 4." It pictures to the reader by consise description and well printed half tones the route of these two popular trains. The publication is a handsome one of 32 pages, printed in two colors, and is adorned by a strikingly beautiful cover printed by the tricromatic process, the sketch showing a head-on view of the premier train of the Grand Trunk System. "The International Limited," approaching as if through an archway with massive pillars on either side, surmounted by the Dominion coad of arms, with the Canadian and United Etates flags draped on either most pleasing effect.

London, June 17.-The annual meet ing of the Grand Lodge of the Canadian Order of Oddfellows opened here yes-terday with 150 delegates present. Im-

order of Oddfellows opened here yesterday with 150 delegates present. Immediately after the opening of the meeting yesterday afternoon the Grand Master, W. T. Jenkins, of Fenelon Falls, made his address to the delegates assembled, in which he reviewed the work of the past year, and outlined the business which is to be discussed during the convention. A paragraph of the address reads as follows:

"During the year just closed our order has enjoyed a marked degree of prosperity, and, briefly, I would draw your atention to the following fact: We have now the largest membership at any time in the history of the order. Our assets per \$1,000 of insurance is higher than ever before. We have instituted more new lodges and received more applications for membership than any year during the last decade. Our death rate has been the lowest for seven years, while our lapses have been fewer than usual."

During the afternoon presentations of jewels were made to Past District Deputy Grand Master James Barnes, of Toronto, who has for many years been an honored member of the order; and to Past Grand Master Robert Clark, to take the place of the jewel which he had destroyed in a fire last year. Dr. H. S. Bingham, Past Grand Master, made the presentations, speaking a few words of appreciation for these men who have done much for the order.

ABANDONED HIS CHARGES.

Major Hodgins Admits He Was In the Wrong.

No Imputations Against Commission or Premier.

"We Have Been Thrown Down" Say Conservatives.

Ottawa, June 16 .- Major Hodgins this afternoon frankly declared before the special committee of the House vestigating his charges that he had no evidence to offer as to improper terference by the Transcontinental Railway Commissioners with the en gineers, and none as to Hon. S. N Parent's having attempted to influence Sir Wilfrid Laurier to refuse an investigation. The only issue now, he declared, was the proper and correct interpretation of the specifications, and he did not see that he was called upon to prove that. "I cannot,"

remains only a difference of opinion as to the correct view of the specifications.

"We have been thrown down" is the phrase the Conservative are using to-night in reference to the fiasco. They were very keen when the investigation started, scenting scandal, and allied themselves quite openly with Major Hodgins, and on the platforms and through the medium of their party organs have given garbled reports of the proceedings, with the sole intent of misleading the public as to the situation. They are in the position to-night that Major Hodgins has abandoned his charges of impropriety, and has left them completely in the air.

When the committee met this afternoon Mr. Murphy, after examining Major Hodgins to say wherein the classification approved by the commission differed from that recomended by the chief engineer, as was alleged in his (Major Hodgins) charges. The witness finally stated that the chief engineer's recommendation was open to two interpretations.

Mr. Murphy—So that in your opinion

Mr. Murphy—So that in your opinion
he is wrong, mostly because you disagree with him? agree with him? Major Hodgins-Yes, I disagree with

Major Roughus him.

In answer to a further question by Mr. Murphy, Major Hodgins said: "It seems to me the only issue now is the correct interpretation of these specifications, and I do not see that I am called upon to prove it. I cannot."

A.—With those opinions there I do not see that I have.

Mr. Macdonald—And you are not in a position to offer any evidence to say that they have exercised any improper interference with the engineers? A.—No.

No.

Mr. Macdonald—In regard to the statement made here, that Sir Wilfrid Laurier Zefused an investigation of your complaint on account of the influence exercised over him by Mr. Parent, I understand you are not in a position to offer any evidence of Mr. Parent's having attempted to influence Sir Wilfrid Laurier in any way? A.—No.

Mr. Macdonald—You have no evidence of that? A.—I have none.

Mr. Macdonald—They are people in whom you have confidence that they can settle this question fairly and in the interests of the country? A.—Absolutely.

can sottle this question fairly, and in the interests of the country? A.—Absolutely.

Mr. Macdonald—And you are prepared to accept their judgment on the question of classification? Answer—Certainly.

After some further questioning Mr. Macdonald said: "I think every one of us here recognizes Major Hodgins' position. I think in stating that he has stated here to-day he has shown himself to be a frank and honorable man, who realizes that a mistake has been made on certain lines, and who is asking to admit it. I think he is entitled to the full credit that every man deserves when he sees that he has taken an improper course and wants to remedy what has been done."

Mr. Macdonald further observed: "You do not desire to press before this committee any charge of wrongdoing on the part of the commission, so far as their interference with the engineer's is concerned? Is that a fair statement? A.—That is right.

Mr. Macdonald—And so far as that phase of the inquiry is concerned you do not offer any evidence? A.—It is

Stood in Rain on Fourth Floor Fire Escape,

New York, June 16.—Standing in the rain on the fourth floor fire escape at No. 303 East 165th street last-night, because she wanted "to grow into a big girl," Jennie Fiorillo, five years old, fell through the opening to the ground and was instantly killed.

Jennie, who was small for her age, had several older and taller sisters, who have frequently told the child that she must hurry if she meant to catch up with them. When the rain came yesterday they laughingly advised her to stand under the shower, which, they said, would surely add several inches to her height. Jennie took their words seriously, and when the family gathered in the kitchen carly in the evening she was missed. arly in the evening she was missed.

Joseph Fiorillo, her father, found the vindow open, and outside, with the rain ouring upon her, stood the little girl. He ordered her inside, but she refused to dome, pleading that she wanted to beto come, pleading that she wanted to be-come as tall as her sisters. The father stepped forward to seize her arm. PRACTICAL EVERY-DAY COSTUME.

Nos. 2250-2268.—All seams allowed.—There is no style of costume more practical for a young girl's every-day attire than the ever popular shirtwaist of taffetas of surah silk (or of India-head or handkerchief linen, Victoria or Persian lawn, pique or duck), combined with the separate skirt of serge, mohair, voile, cheviot or tweed. The shirtwaist (2250) known as the "Marie Antoinette" model is devloped in dark blue taffeta silk, the front ornamented with five narrow tucks each side of the centre box-plait, stitched to nearly the bust line. The back is plain, with the exception of a 3-4 inch tuck which extends over the shoulder and down the front The turned-back tucked cuffs and centre box-plait are trimmed with a narrow ruffle of the taffctas. The skirt (2268) is a four-gored circular model of dark-blue serge with plaits at the front and back. Two bands of self-colored mohair braid are put on above the hem, about four inches apart as a trimming.

For a miss of 15 years the shirt-waist requires 3 3.4 yards of material 20 inches wide, 3 1.4 yards 27 inches wide, 2 1.8 yards 36 inches wide, or 2 yards 42 inches wide; with 1-2 yards of linen 27 inches wide for collar and 1-2 yards of material 20 inches wide, 3-8 yards 27 inches wide, or 1-4 yard 36 or 42 inches wide, extra, for fluted ruffles. The pattern is in 3 sizes—13 to 17 years. Price of pattern, 10 cents.

For a miss of 15 years the skirt requires 6 1-2 yards of material 20 inches wide, 3 5.8 yards 36 inches wide, 3 1.4 yards 42 inches wide, or 2 1.4 yards 54 inches wide; with 7 1.4 yards of braid to trim. The pattern is in 3 sizes—13 to 17 years. Price of pattern,

day in the Temple building, it was not until last night that any excitement developed. It seems that last night the delegates were pledged to more than ordinary secrecy, but some of the general trend of the discussion leaked out. In the words of one representative what really happened was "a complete vindication of the Supreme Chief Ranger," Mr. Elliott G. Stevenson, with reference to any rumored charges that may have been made against him.

Following the meeting came rumors of other changes with reference to the elections. Mr. George Mitchell, the chief organizer for Central Ontario, was being urged by many to run for the Chief Supreme Treasureship, the office now occupied by Mr. Harry A. Collins. It was stated definitely also that Mr. E. J. Hearn, of this city, would be a candidate for that office. Another rumor was to the effect that Mr. W. H. Hunter would not be a candidate for the office of Supreme Counsellor, a position which he holds at present, since the candidature of Mr. John G. H. Myers, of New York, for this office has developed strongly of late. Mr. Hunter would not say last night whether he would contest the office or not. The elections will probably take place this afternoon.

The court was for-ally opened yesterday morning, though outside of the report of the Supreme Chief Ranger, Elliott G. Stevenson, little business was transacted. The afternoon was largely taken up with the reading of resolutions and the suggestions of delegates regarding the amendment of the constitution. These resolutions were all referred to the committees to deal with. One outstanding resolution was moved reterred to the committees to deal with. Mass.

New York, June 16.—A despatch to The Tribune from Worcester, Mass., says: Announcement was made to the parishioners of St. Casimir's Church to-day by the new parish priest that Bishop Beaver had refused their application to have an auditing committee, but instead had ordered that cash registers be put in the church. They will be placed at the entrances before next Sunday, and then the churchgoers must give up their dimes at the door, paying as they enter and can see their money registered. In this way the Bishop expects to do away with the tangles, financial and otherwise, in which the new priest found the affairs of the church on his arrival here a week ago.

with Delory's Bilberry in the jumping race. Two or three thousand dollars was bet on her in pool rooms across the border, and he was backed from 7 to 1 to 3 to 1 in the ring. A lot of money was taken out of the ring by a few bettors who knew how good the big gelding was. Bilberry won by 15 lengths, and cut twelve seconds off the track record for the course. The event was a stake, the Barton Steeplechase, \$1,000 guaranteed, and it was an exciting contest over the sticks. The conditions put 160 pounds on Picktime, and he was withdrawn, while Mrs. Webb's stable took out John Dillon and depended on Moongold, who again ran in blinkers. He was the pacemaker, and the pace was fast. Nat Ray tried to rate Spencer Reiff, but there was no time when he could outfoot Moongold and Bilberry, even if sent after them. When Spencer Reiff finally made his run Moongold stopped him, and he had already been in trouble by making a bad job of clearing the Liverpool the last time. Moongold was leading when they went into the cast field for the last time, but Tommy Rae and Bilberry were still to be reckoned with. They came along at a tremendous rate of speed, and had Moongold tried to take it running and went down, throwing Archibald heavily. Good old Bilberry then came home alone, while Gault Barton Steeplechase, \$1,000 guaranteed,

Track---Old Edgely Landed at Last.

A good sized killing was made at the Hamilton Jockey Club track yesterday with Delory's Bilberry in the jumping room and spencer Reiff.

And ther coup was pulled off in the fifth race, the medium being Patriot. Bud May's Ben Bush colt opened at 12 in some books, and was backed down to 3 and 4 all over the ring. Dorothy We'b was a hot favorite at 8 to 5, but on account of the big play on the Tur-We'b was a hot favorite at 8 to 5, but on account of the big play on the Turner entry and Patriot, its price went up to 2's. The May stable following profited nicely on Patriot when Fairbrother scored his first win as a journeyman jockey. Off in front he rolled home alone, and though Dorothy Webb, the favorite, was only second. Nicol had to drive her to beat J. W. Kent for the place.

drive her to beat J. W. Kent for the place.
Old Mr. Gallagher finally landed with Edgely in the first race. Edgely got a flying start and beat out Joe James' Redonda, who was almost left.

Bertha E. was the only favorite to finish in front.
Starter Murray's work was not of the gilt edge kind yesterday. There were several bad starts.

John Dyment's Fort Hunter colt Fort Garry showed up in the most promising fashion in the fifth race, and was third to the stretch. He has the speed quality, that is sure.

The contract of the apprentice rider N. Kennedy has been transferred to Dr. Chas. Pangritz, who has secured the most skilful young rider here. He has a very good seat, patience and judgment, and yesterday rode two winners, a second and a third horse.

There were over 2,200 persons at the track restreads.

ST. THOMAS WON.

ST. THOMAS WON.

London, June 17.—Rube Liebensperger blew up in the ninth when London had a lead of one on St. Thomas, and when the smoke drifted away over the battlements and the firing lines resumed skirmish formation again, St. Thomas reposed serenely on the apex of the International League heap. This happened at Tecumseh Park yesterday, while the Yankees were trouncing Hamilton to the tune of 10 to 0. Therefore the Railroad City reposes serene and dignified on the highest altitude, facing, however, a dou-

ble-header to-day, which will either pile them up higher, or put the Beavers into that coveted first position, held as yet they have been unable to reach or come mearer to than a tie with Hamilton.

The following report was read and adopted:
The committee of the Canadian Cricket Association beg to submit their annual report for the year 1907, as follows:
An effort was made to revive the district matches throughout the country, but practically no response was received to the circular addressed to various clubs and published in the newspapers on the subject, and nothing further in this direction was done.
The international match with the United States was played on the Rosedale grounds in Toronto on Aug. 5, 6, 7, and resulted in a victory for the United States team.

and resulted in a victory for the United States team.

A considerable amount of discussion has taken place during the year, both verbally and by letter, with representative cricketers in Ottawa and Montreal, as to the association changing its constitution, and the formation of a provincial or western association, to manage all matters in connection with local or provincial cricket, leaving to the Canadian Cricket Association merely the management of international cricket, and the selection of international cricket, and the selection of international teams.

It has been suggested that the affairs of the association should be managed by

The Swedish athletes have arrived in London 156 strong, and among them is a man who can high jump 6 ft. 3% in. Then there are three Swedes who have covered five miles under 26 minutes 12 seconds. One Swede, Lindberg by name, has covered 100 metres in competition in the great time of 10 3-5 seconds, one-fifth of a second better than the world's record and one-fifth faster than was run at the American Olympic tryouts in Philadelphia recently.

Philadelphia recently.

A feature of the season in both big leagues is the remarkably large number of pitchers that have been used. In half of the American League games up to the first of June a change of twirlers was necessary. The proportion of games in the National League for the same length of time in which a change of pitchers has been made is still greater, being fully a third more than contests in which no change in the box was made. There have been all the way from three to seven pitchers to a game. The man who has to keep record officially of pitchers' wins and losses has a mammoth and intricate task on his hands.

Entries For To-morrow's Races at Local Track.

The passing of the anti-betting bill in New York State has caused a big slump in the thoroughbred market and man of the owners at the local track hardly know what to do with their gallopers It is expected that the customs authoriwill have considerable trouble at the close of the meeting, as owners will abandon their horses rather than pay the shipping expenses to distant tracks. All attered U. S. horses are bonded at \$500 eacn, the Hamilton Jockey Club being on each bond, and many of them are not worth \$50 now. The bonds am ount to about \$100,000. There is no duty on fillies, mares and stallions.

This morning a number of private sales took place at the track. Mr. Jas Mackay bought a two year old filly, Cherry Picker, and Jockey Ray bought Aiarmist, who ran fourth the other day at \$100 to 1, for \$150. Before the race Mr. Henley offered to sell Alarmist, a two-year-old, for \$25, and the entrance fee.

Mr. Fraser Tells of Irregularities and Over Charges.

(Special Despatch to the Times.) Ottawa, Ont., June 17.-The inquiry before Judge Cassels into the affairs of the Marine Department was continued this morning, the chief witness being At torney-General Fraser, who drew attention to several instances of irregulari-ties in the matter of purchasing supplies for the department. While no actual disfor the department. While no actual discrepancy might have been shown in the cash, Mr. Fraser was inclined to think that there was some extravagance and lack of care evident on the part of some of the officials. These instances, however, had for most part already been mentioned in the Attorney-General's report to the department. Mr. Fraser said that he had frequently called the attention of Deputy Minister Gourdeau to the high prices paid for goods and to failure to call for tenders in some cases.

In this connection the witness quoted from his annual report of 1905. He had

Coughlin & Co., of Montreal, and a commission of 5 per cert, or \$1.100 had been allowed Mr. Coughlin over and above amount called for by the contract.

This amount had been refunded by Coughlin after investigation by Attorney-General, although the Deputy Minister would have allowed it to him.

Mr. Fraser also referred to a certain letter to the department from Coughlin, letter to the department from Coughlin, purporting to show that silverware bought for the private use of Col. Gourdeaus was purchased for the Government. After finding that some of the vouchers presented by Col. Gourdeau Commander Spain and Mr. J. F. Fraser, Commissioner of Lights, could not be relied upon, the Attorney-General had concluded to place no confidence in them, as being uncorroboratable evidence that prices mentioned and charges made were correct.

prices mentioned and charges made were correct.

In the case of Commander Spain, the witness had found that the former's accounts for travelling expenses were padded. Charges had been made for travelling expenses when the Commander was not out of the city. In one year, after checking up the Commander's accounts, as presented, the Auditor-General had ordered a refund of \$700 to \$600. He had reported this padding of accounts to the Deputy Minister and also to the Minister.

Women as Social Members --- Elections This Afternoon.

Toronto, June 17. - Discussion of the oposed amendments to the constituion occupied the members of the Su tion occupied the members of the Superme Court of the Independent Order of Foresters this morning, and will in all probability keep them engaged during the greater part of the day. The election of officers will take place this afternoon, and the question of the adjustment of rates will not likely be reached. In connection with the first report of the committee on the constitution and laws, presented by Mr. W. H. Hunter, several changes in the constitution and laws presented by Mr. W. H. Hunter, several changes in the constitution and laws were adopted, in accordance with suggestions made in the appendix to the Supreme Chief Ranger's address. This total disability department is to be abolished, and its functions transferred to the mortuary department, as was the case formerly.

It was definitely enacted that the offices of secretary and treasurer in local courts should not be combined in one position. This has not been hitherto clearly stated in the constitution.

After September 30th next applicants initiated shall be considered to be the age of their nearest birthday to the date of initiation, up to the present their age at their last birthday has been accepted.

Women may be admitted as social members of companion courts or courts into which both sexes are admitted. Other amendments of a minor nature were also disposed of.

A committee of old friends of the late Dr. Oronhyatekha was appointed to prepare a suitable memorial to the former Supreme Chief Ranger. The committee consists of Edward Botterell, Jas. B. Hackett, E. B. Cummer, T. Millman and Hon. D. D. Aitkin. reme Court of the Independent Order of

Hotel Man Killed In His Shack Near Rochester.

Rochester, N. Y., June 17.-Lying in a pool of blood, with his skull crushed, "Bill" Loomis was found murdered this morning in his shanty near the Empire Coke Co. plant at Border City, just outside Geneva. Lomois kept a saloon in his little shack. His body was found behind the bar. Beside him lay a broken beer glass. He was evidently killed by a blow on the head from a heavy club or iron bar. His skull and jaw were

Loomis, who was 65 years old, lived alone in his shack, and was known far and wide in the community. His watch and money are missing. It is thought his assailants intended to hide their crime by means of fire, as part of his clothing was burned. Evidently, owing to the stuffy condition of the place, the flames died out.

A Corner in Real Heroes.

A Corner in Real Heroes.

In a little chapel in New York City there is erected a plain brass altar cross that bears this inscription:

"To the glory of God, and in loving memory of William Miller. Born Sept. 11, 1890. Departed this life Oct. 3, 1903."

Many a visitor has asked who was this little thirteen year old boy and what did he do to have such a memorial as this in the chapel. Then comes the story, for little Wille Miller gave his life to save his two younger brothers. On that October afternoon he was hurrying the two little fellows across one of New York's crowded streets, holding a hand of each, when they saw a trolley car coming rapidly down the street. In sudden fright one wished to go one way, the other the other, and there was no time for Willie to make them reasonable. Letting go of their hands he just managed to push them both off the track into safety as the car came down upon them. They picked the boy's body up dead, but his spirit speaks to all those who look at the cross which stands there to his memory. Last October in New York also, Henry Veir, another little hero, only eight years old, lost his life in much the same way after saving his little sister-Florence.

in much the same way after saving his little sister-Florence.

A small girl last year in Williams-bridge, Theresa Flood, eleven years old, had such a chance to prove herself a heroine, as seldom comes to children. Theresa's baby brother, only two and a half years old, fell into a bonfire near his home and was so badly burned that the doctors said there was only one chance for his life. That was that enough skin could be grafted on to the baby's body from other healthy people to cover the terrible burns. Little Theresa was the first to offer, and four weeks in the hospital she lay strapped to the baby unable to move while ten pieces of her skin were grafted on to his little body. Anna Kurbli is a young Swiss girl whose brother Carl is a chamois hunter on the great Swiss Alps. One Saturday evening having gone out hunting, he did not return, and Anna at daybreak set out to search for him. Six thousand feet up she climbed until she found his trail, and at last her brother himself lying unconscious, his thigh broken by a fall. Making a sort of splint out of her Alpenstock, she first of all spliced the broken leg and tied it firmly up. Fearful of leaving him there while she went for help, she decided to carry him home herself. Being a strong, sturdy mountain girl, she lifted her unconscious brother to her back, and carried him all down that great steep again to their valley home.
