Mr. Sanford is a Justice of the Peace Sanford is a justice of the Peace for the County, and a member of the Board of School Commissioners. He is also Deacon of the Baptist Church in Berwick. Indeed it would be difficult to find a man more widely known and more highly respected. Here is his opinion of Zam-Buk. He says:—

"I never used anything that gave me such satisfaction as Zam-Buk. I had a patch of Eczema on my ankle which had been there for over 20 years. Sometimes also the disease would break out on my shoulders. I had applied var ous oinments and tried all sorts of things to obtain a cure, but in vain. Zam-Buk, unlike everything else I had tried, proved highly satisfactory and cured the ailment. "I have also used Zam-Buk for itching piles, and it has cured them completely also. I take comfort in helping my brother men, and if the publication of my opinion of the healing value of Zam-Buk will lead other sufferers to try it, I should be glad. For the relied of suffering caused by Piles or Skin Diseases I know of nothing to equal Zam-Buk."

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her. special womanly organism soon losec the power to sway the heart of a m.n. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestife as a woman. Dr. R.V. Pierce, of Buffalo, N.Y., with the assistance of his staff of able physicians, has prescribed for and cured may thousands of women. He has devised a successful remedy for woman's allments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. In a very happy speech Mr. Chaplin paid a deservedi eulogium on Mr. Higgins, referring to his great interest in sporting matters generally, but particularly so to the excellent efforts he has made to the encouragement of football. Mr. Higgins' many years service as Secretary of the League, the excellent work he did in the performance of the onerous and laborious duties of the office and his career tending over several years, during which his decisions were impartial and unbiassed were extolled, and the remarks were received with much applause. Mr. Higgins thanked Presidents dent Chaplin and the members of the League teams for their handsome ap-preciation of his work on the field and League Executive, and though compelled to retire through stress of business he would ever take a live interest in the League and do all pos-

Mr. Higgins is well deserving of the appreciation he received, for it is safe to say that no man in the city has taken a more practical interest in sporting matters nor given so much time and attention to them.

FRIDAY, Sept. 29, 1911. Fear Competition.

That the Reciprocity Pact should prove a boomerang in the Dominion generally was somewhat remarkable. That it should weaken the Government in the Maritime Provinces, where there are many fishermen was surprising. The disfavour with which it was regarded by one fish firm is evidenced by a circular issued by N. S. Smith & Co., Ltd., Lunenburg. Parts of this circular were burg. Parts of this circular were prove interesting reading to our people, as they set forth the fear and anxiety of Newfoundland caught fish competing with Nova Scotia caught fish in the markets controlled by Americans.

They should wont show any change and am delighted to hear of the defeat of the measure."

Mr. Carroll's sentiments were echoed by practically every vessel owner and fish packer and many of

Americans.

Here they are:—
"We are in the fishing business and our success or failure depends largely on the conditions prevailing in the fisheries. We are absolutely and unqualifiedly opposed to the reciprocity agreement. We are opposed to it because it was created for and by Americans and instead of being a Canadian agreement it is a Yankee agreement born at Washington. It them, when interviewed, simply said, "it is the best thing for the city that has happened in a long time. It means Gloucester's fish business will continue to be done in Gloucester instead of laborers all along the coast of Nova Scotia. It means that the old place will continue to be on the map as the leader in salt fish production and it means that the Porto Rico market is still ours." canadian agreement it is a rankee agreement born at Washington. It means more than appears on the surface and instead of the benefits its passage will be the means of destroying Porto Rico market entirely so far as Canadian fish are concerned. We give every elector of this country solemn warning that if this agreement is ratified by the election of a majority of Liberals in the Dominion of Canada, the fishing business is doomed to destruction for, just as sure as the sun rises and sets, the Americans will arrange a similar agreement with Newfoundland and every fisherman in this country will be brought into competition with the Newfoundland fisherman through the Newfoundlan agreement born at Washington. It

"Let us ask any one who can an swer the question why the Gorton-Pew Fisheries Co., of Gloucester, acknowledged to be the largest sal fish concern in the world, have recently purchased and equipped a steamer of 1,300 tons carrying capacity, with cold storage apparatus, at a gross cost of over \$100,000? Do Zwicker & Co. know this steamer is going to be placed in the Newfoundland waters and is to be used to carry cargoes from Newfoundland to Gloucester? Do Zwicker & Co. know that for several weeks the manager of the Gorton-Pew Co. was in New-foundland looking about for locations to establish branch plants, and that this great concern to-day is anticipating all the fish it requires from Newfoundland? Do any of you know of any such activity on the part of the Americans in the Dominion of Canada, except in a little port of Louisburg, Cape Breton, where the sam company will establish a small plant for the purchase of fish? But doesn't strike you very peculiar that they have sought the nearest and most ac

At 2.30 this afternoon, Thomas Wright, cook of the Ellen Stewart, at Smith's wharf, was lighting the fire in the forecastle when a match dropped into a four gallon can of oil and it exploded. He came out of the forecastle a mass of flames and jumped overboard. He was rescued from drowning by a man named Best. Wright is terribly burned about the face and body.
