## Royal Baking Powder Saves Health and Saves Money

ROYAL BAKING POWDER CO., NEW YORK.

Here, one day last summer, I nearly lost my life—now think! Mrs. Yingt's story is related as she spread open the treasure and handed it to her guest. "I got it for such a price with a box of soap. I had it made it will be this five years back—ready till next summer. I was all ways careful with it. Yes, one day last summer, I nearly lost it."

Mrs. Yingt examined the tin carefully. She could discover nothing about it which explained its being so carefully guarded and treasured. It appeared to be worth about ten cents. Having come with a box of soap, the possibility was predicated of there being any sentiment associated with it. This was mystified. Her long walk had made her warm and tired, and she began to wonder whether she was really awake or whether she was dreaming of all these wild, strange impressions of things that seemed to be passing before her.

"I say," Mrs. Yingt abruptly remarked, in a deep voice that had a touch of the tragic. "There's the fly!"

Her eyes were fixed, with a stony stare, upon the high back of Miss Yingt's rocking-chair. "There's the fly!" she rose cautiously, but a look of profound disappointment came into her face, and she sighed, as she sat down again.

"We and Pop's tried now for a week back to catch the fly. It must have been the day I cleaned up for Lopholite's coming home that it somehow got in. We ain't never been able yet to catch it. Sure things spits a body, when you see it's the same fly!" Miss Coxie wondered, not only that it could be no other, but why she should have been so sure of it.

"I can't see how you can be so sure of it," Mrs. Yingt said, looking at her. "You don't see this, Miss Coxie?"

"You don't see this, Miss Coxie?" Mrs. Yingt said, looking at her. "You don't see this, Miss Coxie?"

She left the room, and after a moment, came back with a thick glass goblet.

"You must excuse me if I call you Laura. Ain't you will?" she asked.

"It ain't for us New Mononites to pay compliments and call folks Miss, or Ma'am, or whatever. We don't favor titles. You know we read: 'Call no man Master; and we try to obey to the Scripture. Are you Bible-read?"

The question was disconcerting. "Well," smiled the girl, "I'm not ready to take a chair of Biblical exegesis in a theological seminary."

Mrs. Yingt started uncomprehendingly. "Them big words comes easy to you, ain't it? With 'Lopholite, too,'" she nodded. "Would you like to look at 'Lopholite's picture?"

She took a photograph album from the table and, drawing her chair on to Miss Coxie's side, she spread it open on her own ample lap.

"The doctor's picture's in the middle age, with his arm bent at the elbow to a sharp right angle and his hands spread heavily on a small boy's head, as though in the act of examining him for a middle-aged against the law. 'Pop was always so much for havin' 'Lopholite's picture' took."

He had been strolling about in the moonlight, over the lawn, among the flower beds, and down by the vegetable garden, when suddenly he was startled by an apparition in the path before him—the ghost—as for a moment he verily believed of his fair lady.

"It was all up, of course," he grimly told himself. "I see it all with her eyes now and from her point of view. Her prejudices will never let her marry me!"

**Biggest Liner that Sails the Seas.**

The Gigantic New Battle of the White Star Line's Great Gray 3500 Passengers.

New York, July 19.—This morning this port to-day the biggest steamship that ever floated over the bar—the great new Battle of the White Star line, on her maiden trip from Liverpool to New York.

Although crossing in six days, she has hitherto contrived, the symmetry of her hull is so perfect that it is only when in juxtaposition to other craft that her great size becomes apparent. Some idea of her bulk can be had from the statement that the Lusitania and the Campania, made into cargo, would be lost a few hundred tons larger than this 24,000-ton vessel.

The Battle can carry 3,500 passengers more than any other liner in the world. She has a view of the sea from the very top of her funnels, the management being content with compensating advantages, among others the fact that she carries a proportion of the travelling public that she does not take a wholly momentary view across the Atlantic above other considerations of speed, stowage, and the like.

Contradictory reports are received from Sydney in regard to the progress of the strike. The Dominion Coal Co. profess to think the strikers will hold out a very short time longer, and state that they have more applications from workmen than they can accept.

On the other hand the P. W. A. men state that the organization has no intention of yielding. Their protest to the Minister of Labor brought a statement from Mr. Mulock to the effect that he offered the assistance of the government, urging both the company and the P. W. A. to consent to arbitration and proposed sending deputy minister of labor to assist in bringing about an agreement. He also disclaimed responsibility of the government in sending the militia.

A Halifax dispatch of the 18th inst. "Deputy Minister of Labor King arrives in Sydney tomorrow night, but even some of the P. W. A. men admit that his mission will not likely be productive of much good, and that the strike will settle of its own accord before very many days."

We referred last week to the necessity for some method of street sprinkling. An exchange makes a suggestion which seems practical and quite inexpensive, and would not exhaust even a very limited water supply. The idea is to attach to each of the hydrants in succession along the roadway to be sprinkled a piece of rubber hose half the length of the distance between the hydrants. The men performing the service twice a day would connect the factory results, and a degree of comfort not unknown to our citizens. Will not our street committee take into consideration this very practical and timely suggestion?

The meat packers' strike in Chicago is affecting the local meat markets of the United States to a serious extent, so dependent are they on the output of the great abattoirs of that city, which by cold storage systems send its products all over the States. Independent dealers are making the most of the situation, and the price of meat has risen. This will be a good opportunity to test the value of the vegetable diet so highly recommended by hygienists for the summer months.

Rifle Competition. The rifle match last Saturday on the range at Paradise between the Granville and the Bridgetown teams resulted in a victory for the Bridgetown team by 85 points. The day was not the best for shooting, as the light was changeable and a very unsteady wind blew right across the range. Below is the score: The Granville team was entertained at tea by the home team, at the St. James, and a pleasant evening was spent.

Well Known Author Takes up Residence at Clarendon. A. J. McLeod, councillor-at-law, Boston, has retired from practice and removed to Nova Scotia, taking up his residence at Clarendon. Mr. McLeod has been for 35 years a practicing member of the Suffolk Bar of Massachusetts. In the capacity of commissioner for Nova Scotia, he is also well and lucratively known throughout the province, and he receives a hearty welcome here to his native land. Though retired from active legal labor, it is heard he can still be relied on. His "Notes of Grand Jury," an historical romance written by him in 1900, is an extremely interesting book, and has had a wide sale both here and in Nova Scotia. In his early years Mr. McLeod was a vigorous writer in political circles of the time, as was his father before him in the columns of the old Nova Scotia. B. R. McLeod is a brother, and Grace Dean Rogers, author of "African Folklore," is a daughter.

Auto-mobile Accident. Mr. Delaney Harris, of Forton, who has been spending a few weeks in Annapolis, brought his fine automobile to town on Friday last. Mr. Harris with his chauffeur, accompanied by Miss Cyrus Perkins and Mrs. Bennett Harris, drove from Annapolis around Bridgetown and through Granville to Victoria Beach. Within a short distance of their destination they struck a rise of gravel road crossed by a short bridge. The vehicle slipped to one side, and to avoid going off the edge of the bridge the driver slipped so sharply as to upset the carriage. All were thrown out, and though the automobile was badly smashed, but only one of the occupants was seriously hurt. Mrs. Perkins and her husband were specially unharmed, and attended to the injured lady who was carried to the home of Mr. Porter. The automobile had to be sent to Boston for repairs.

Inland again has the same old job on her hand, that of subduing the "Mud" which has been one of the main items of her official campaign with 4,000 footmen. Not long ago British troops were withdrawn from the country in promises to be good. There will never be any more for the lion and this stream of mudmen is either dead or shut up—Boston Journal.

Saturday promises to be the best day's cutting for the rifle association this season, and if high winds are not made, there will be no limit to the interest in the match, as the two leaders are very enthusiastic, and each one is determined to win.

The remains of Capt. V. J. Young, drowned from his boat in the Croquet we, Lower Granville, seven weeks ago, came ashore about seventy rods east of Littlewood wharf on Sunday. Mr. Fred Thorne went to get his horse about one p. m., and seeing it on the shore, went to catch it, when he discovered the body a few rods below high water mark. It was in a fair state of preservation, all the clothing being on it except the coat. A casket was at once ordered, and the interment took place at 5 p. m. It had been arranged to hold a memorial service that afternoon in the Baptist Church, and it seems a strange incident that the body should be recovered in time to be buried at the close of the service.

WARREN-DARGIE.

A very pretty home wedding took place in Roxbury, Mass., on Tuesday, the 12th of July.

The Rev. W. W. Buntard officiated at the ceremony, which took place at 7 p. m., in the presence of the near relatives and friends.

The bride was attired in white silk with lace trimmings, the veil being fastened with a wreath of orange blossoms, and carried a large shower-bouquet of white sweet peas.

The bride was given away by her uncle, Mr. William Dunn, of Windsor, Manitoba. The ushers were Messrs. Walter M. French, Frank French and Carl Small.

A reception followed from 8 to 10, at which time a large number of their friends were presented to the bride and groom. Caterer J. A. Hardy, of Boston, furnished refreshments.

Many useful and handsome presents were received, silver, cut glass and china predominating.

The happy couple were later registered at Hotel Essex. The following day they sailed on the "Prince George" for an extended trip through Nova Scotia. They will reside in Halifax.

Mr. Bohner is a young man of great energy and will be gone some four or five weeks. Upon their return they will reside for the present year at Round Hill.

Editor of Monitor: I was started last week when reading your valuable paper, that visitors to Port Lorne on the Sabbath Day were noisy. Some would infer that this included visitors at the hotel Bay View. Beg to say I was present at the hotel when visitors were there on the day mentioned, when only good cheer and friendly greetings characterized the proceedings of the day.
