LIBERAL HALLUJAH!

CONTINENTALISM IS DEAD ELECTORS DUG ITS GRAVE

Laurier Government Utterly Routed—Borden Has Majority of 43—Both Fielding and Paterson Caught in the Landslide—Liberal Expectations in West Shattered.

EIGHT MINISTERS HAVE GONE DOWN TO DEFEAT

Sir Wilfrid Laurier and his government were overwhelmingly defeated in yesterday's elections.

According to The World's summary at an early hour this morning Mr. Borden will have a majority of 43 on the elections already held. This includes the Nationalists of Quebec, but without them he will have a working majority.

There are four elections still to be held, every one of which will undoubtedly favor the Conservatives; so that Mr. Borden's majority will be in the neighborhood of 50.

In the last house Sir Wilfrid Laurier had a majority of 44, without the speaker.

The landslide was chiefly confined to Ontario, the every province contributed something towards the final result, except Manitoba and Alberta, which stand exactly as they were.

Only fourteen Ontario Liberals.

In Ontario there were only 14 Liberals who came thru safely, the rest were swept away. Smyth, in East Algoma, was reported late as having gone down, the possibly the mining district may pull him thru. There were 20 Conservative gains in Ontario and 5 Liberal gains.

Quebec did not split even, as some of the ardent Conservatives expected, but it did very well. Twenty-four oppositionists are elected, which will be increased when the final returns from Gaspe and Chicoutimi are in.

Eight Ministers Defeated.
 Eight of Sir Wilfrid Laurier's ministers are defeated, and but four of them survived the battle of the ballots. Sir Wilfrid Laurier himself was elected in two constituencies, Quebec East and Soulanges, but Hon. G. P. Graham, Hon. Mackenzie King, Hon. William Paterson, Hon. Sydney Fisher, Hon. W. S. Fielding, Hon. Sir Frederick Borden, Hon. William Templeman and Hon. Jacques Bureau were unable to hold up their end. Hon. Dr. Beland, the new minister, was also defeated in Montagny, although he was elected in Beauceau.

The defeat of Hon. W. S. Fielding and Hon. William Paterson was particularly gratifying to the crowds in the streets last night, since they were responsible for the inglorious pact, the same crowds were overjoyed when they learned of the drubbing Mackenzie King got in North Water-Loose and Sir Frederick Borden in Shelburne and Queens.

The World includes W. M. German of Welland in the Liberal column, since reciprocity has been disposed of by the electorate, and it will not be heard of in parliament. Mr. German was elected as an anti-reciprocity Liberal, and is now free to support his own leaders.

Gains in the West.
 The Liberals will not get much satisfaction out of the result. Even in Saskatchewan, for which the pact was particularly framed, the Conservatives made two net gains.

The defeat of McGrath in Medicine Hat is particularly to be regretted, but in all probability a seat will be found for him. He was one of Mr. Borden's best men from the west and it was expected that he would win handsily. The Conservatives, however, pulled thru John Herron in McLeod, where it was thought that he would be overcome.

British Columbia still incomplete, the figures not being in from Comox-Atlin, where Clements is expected to beat Duncan Ross.

Every Conservative member of the Ontario Legislature who resigned to go into the fight was elected. One Liberal M.L.A., Truax, is among the fallen Liberals.

One of the big turnovers was Norfolk. Hon. W. A. Charlton winning over Alex. McCall, who had 42 majority in 1908. It was admitted that the riding was in danger, but the Conservatives believed they would pull thru. In Liberal strongholds like Ottawa,

Some Opinions

J. W. FLAVELLE: "I recognize in the result of the voting the good judgment and sense of the Canadian people. It was not the movement of one man or ten men, but of the whole country."

HUGH BLAIN: "I consider this a great national victory. Canada remains her position in the front rank as a member of the British Empire."

J. C. EATON: "It's Canada for Canadians. The farmers and the consumers won't find that deals without reciprocity will be half as bad as it has been painted. It won't be bad for anybody. The Canadian people have shown that their hearts are in the right places."

J. G. KENT: "You know what Roosevelt said? De-lighted! I was never so pleased in my life. 'I think we will see a boom the like of which Canada has never seen before. I think that British capital will flow into the country like water.'"

BURNT OUT

CONSTERNATION AMONG WALL-STREET TRADERS

One Prominent Banker Advised Selling All American and Buying Canadian Stocks.

NEW YORK, Sept. 21.—(Special.)—As the wires flashed the news "The Laurier government has been snowed under," to-night, consternation prevailed among an element of Wall-street men that had been trading on the hopes that reciprocity would prevail. Millions of dollars have been staked and millions have been lost.

Canadian Pacific for the past year has been sold short and the Hill lines and the Grangers generally have been bought, for had reciprocity been endorsed by the Canadian elections, Canadian Pacific would have sold off and the shorts would have taken their profits. The Hill lines and the Grangers would have boomed because of a greater volume of Canadian business, and the longs would have profited largely. These stocks have been accumulated for the past year and have risen materially in value. Things will look different at the opening of the stock exchange to-morrow.

Significant Advice.

At a late hour to-night there was much cabling of orders to London, some seeking to catch the market before full returns had reached England. All of the prominent clubs and hotels posted bulletin returns of the election to-night, and much interest was displayed. When the defeat of Laurier was announced, one prominent Wall-street banker and broker at once sent out hundreds of telegrams advising the selling of all American stocks and the purchase of Canadian issues.

At the Canadian Club, there was little enthusiasm shown in the returns after it had been announced that the Laurier government had met defeat. Most of those present were advocates of reciprocity and they felt keenly its defeat. "For," as one said, "Canada has made a mistake. She could not look beyond the annexation bogey. They could not be made to understand the Americans did not wish to gobble up the country. The people's verdict

The Seniority of the New House

The election of yesterday made a sweeping change in the seniority of the house, probably more sweeping than in any previous election. Of the senior nine members of the house only one Liberal is left, and that is Sir Wilfrid; all the others are from Ontario, and are Conservatives.

Out of the seniors there disappeared yesterday, Sir Frederick Borden, Hon. Mr. Paterson and Hon. Mr. Fisher (albeit Mr. Fisher was out for three or four years). There are only eight or nine members now left in the house who have an unbroken or nearly unbroken connection with the house before or since 1891, and the order of seniority runs about as follows:

1. Hon. John Haggart, first elected 1872 (unbroken)
2. Sir Wilfrid Laurier, first elected 1874 (unbroken)
3. Dr. Sprague (Grey), first elected 1878 (unbroken)
4. Geo. Taylor (Leeds), first elected 1882 (unbroken)
5. Hon. G. E. Foster, first elected 1882 (broken)
6. David Henderson (Halton), first elected 1888 (broken)
7. Dr. Reid (Grenville), first elected 1891 (unbroken)
8. Colonel Hughes, first elected 1892 (unbroken)
9. W. F. Maclean, first elected 1892 (unbroken)

And then comes a very considerable gap. Mr. W. H. Bennett is probably the next in the order of seniority, but he was out of the late parliament. Mr. R. L. Borden came in in 1896. Mr. Osler of Toronto was also first elected in 1896.

GIVE THESE MEN THEIR DUE.

And to whom shall we give credit for the magnificent victory of yesterday? First of all to the people of Canada. Next to the united and devoted party, under the able and devoted leadership of Mr. R. L. Borden. Next to Sir James Whitney and his colleagues under the leadership of Hon. Frank Cochrane. And then you come to individuals. To the Hon. Clifford Sifton as much as to any one. Next, come the thousands and thousands of Liberals, headed by the Noble Eleventh of the City of Toronto and the Province of Ontario. Then the

ATTEMPT TO SET EAST AGAINST WEST FAILURE

Not a Man of Leader's Size Left to Liberals, Says Montreal Gazette.

HALIFAX, Sept. 21.—Out of eighteen seats in Nova Scotia, it looks at a late hour to-night as if the Conservatives had divided the province equally. They have returned nine candidates, while the Liberals have the same number, including Richmond, which may be in doubt, but the chances there favor the Liberals. For a long time the election of R. L. Borden in Halifax was in doubt, but at 10 o'clock a bulletin was issued from the Conservative headquarters announcing the return of R. L. Borden, Conservative, and E. Blackadder, Liberal, the former by a majority of over 100.

The outstanding feature of the election is the defeat of Hon. W. S. Fielding in Shelburne-Queens, by F. B. McCurdy, a successful banker and broker of Halifax, and who is largely interested in paper mills in that riding. This is Mr. Fielding's first defeat in 20 years of public life. His friends looked on this contest as the fight of his life, but they thought he would pull thru. The result shows his defeat by 123. Another sensation of the election is the defeat of Sir Frederick Borden, minister of militia, in Kings, who goes down against a majority of 223 for his opponent, A. Dew Foster, an undergraduate of Acadia College, who has a year more to put in before his graduation in arts can take place. Foster's father is a cousin of Hon. George E. Foster, ex-minister of finance. Several of the fishing counties voted against reciprocity, Lunenburg, Digby, and Shelburne-Queens having returned opposition candidates. On the other hand, mining counties of Pictou and Cape Breton have elected government candidates, in spite of the proposal to reduce the coal duty by eight cents a ton.

The excitement in the town to-night was intense, the crowds around the Conservative headquarters evincing the most borden on their shoulders from the headquarters to a carriage, which he took to the arena, where he addressed a big crowd.

Prince Edward Island returns three Conservatives to one Liberal, just reversing the standing of parties in the last parliament. This was effected by the Conservatives capturing Queens County.

Toronto was simply delirious with delight last night. It was like the night when the Ross government fell, only more so. A quarter of a million people thronged the downtown streets, watched the bulletin boards and cheered excitedly every time a Conservative gain was flashed upon the screens.

After doing their part in rolling up huge majorities of thousands against reciprocity and Laurierism, the citizens hurried down town to see how the country was going, the weather having cleared in agreeable fashion. The returns amazed even the most hopeful of this stronghold of Conservatism. As early as 6 o'clock the first provincial result was known, and by dark the returns were rolling in. One Conservative gain followed another, and from Yonke, King and Richmond streets arose an almost constant cheer. Bands played, the crowds yelled and everybody was joyful, excepting the little battalion of the last guard that stood, tearfully, watching from in front of the Liberal organ's office the results of the most historic day in all Canada's eventful history.

The first returns came from the city constituencies, and they were closely followed by those from the maritime provinces. They were all so overwhelmingly Conservative as to almost evoke doubt. But so closely were they followed by even more unexpected returns that the crowds absolutely forgot themselves in their exultation. The few old guard Liberals were thunderstruck. They had expected to see a reduction in Laurier's majority, but they were hardly prepared for what

ARTHUR HAWKES BIG FACTOR.

Arthur Hawkes the man who created the phrase, "British-born," was pleased last night with the showing in Ontario. He had done much speaking during the campaign and in looking over the list discovered that wherever he had spoken, lo, the anti-reciprocity candidate had won, or increased his majority.

Undressed Felt Hats Are Fashionable.
 In discussing the trend of fashions throughout the world a great English journal calls attention to the almost universal adoption by gentlemen of the undress or felt Alpine or Fedora hat for general utility wear. Of course the silk hat is the only one for functions or dress occasions. The soft felt, black Derby, with the low crown and wide brim, however, has a very large call in Europe. King George himself has lately adopted this particular block. The Dineen Company, which is sole Canadian agents for Henry Heath of London and Dunlop of New York, besides being distributing agents for most of the great English makers, is showing some splendid blocks in these new Derbys and in the undress felt Alpines. Particular attention is called to the unusually large display in the last named lines.

NEW YORK GIANTS SURE THEY WILL WIN PENNANT

Players Talk of Their Chances in World's Series Against Philadelphia Athletics.

PITTSBURG, Sept. 21.—The New York Giants have grown so strong in their pennant winning confidence that their Sunday rest in Pittsburgh was spent in discussion of their chances against the Athletics in a world's series rather than a plan of campaign against the Cubs and Pirates for the rest of the season.

While they realize that the western trip will be a continual fight to uphold their lead, they feel that the present margin gives them opportunity to begin figuring on their prospective opponents in the annual baseball classic.

DR. SOPER DR. WHITE

City Spoke Mind of Canada Was the Indisputable Message He Delivered.

While the returns of the North Ontario constituency were coming in, Hon. George E. Foster sat in his committee room at 801 Yonge-st. He had beside him W. K. McNaught, M.L.A.

As soon as half the returns had been received, W. K. McNaught rose and after warmly thanking his supporters for their splendid work, and being loudly cheered, Mr. Foster said:

"This is the final verdict of the riding of North Toronto on reciprocity. And I hope and believe it will be the feeling of the Canadian people everywhere." (Cheers.)

"I'm glad the country from one end to the other is going to put its foot on reciprocity."

"For Mr. Shaw I have nothing but good-will. He said this would be his last word to the people of North Toronto and you certainly have assisted him in keeping his word."

It is the only result you could expect for those persons who are the detractors of reciprocity.

Speaking from The Mall and Empire building later in the evening to the assembled thousands who watched the election returns, Mr. Foster received an ovation. After thanking his constituency for the generous support given him, Mr. Foster said that the mind of Toronto had spoken the mind of Canada.

"Whatever happens," he said, "the reciprocity pact is dead and buried forever. Mr. Taft last night was in a condition of prayer and hope; he will be able to pray, but there is no hope. The barrier which wrecked the pact was sturdy British patriotism. We have no hard feelings toward our neighbors, but we want to keep our own home and boarding-house."

Glorious Future for Canada. Mr. Foster concluded by saying that the election returns were a victory of the people. Laurierism was dead, and with it the disreputable tactics of The Globe and The Star. Liberalism still had a chance to prove its worth, but the people show beyond a doubt that even

PEARSON NOT SORRY THANKS WORKERS FOR AID

Was Up Against Irresistible Organization — Not Pleased With Star's Attitude.

"There is no question but that we are badly beaten," said James Pearson, K.C., Liberal candidate in East Toronto, in an address to his faithful supporters after the result of the poll was apparent.

"I wish to thank my friends who stood by me in the fight. I am not sorry I ran. I feel that I did something to show the people what reciprocity meant.

'T WAS SOLEMN SESSION OF MAGUIRE'S WORKERS

Returns From Foreign Quarter Were Staggering—Candidate Made Frank Admission.

It was a silent and sorry throng that listened to the results in Alf Maguire's head committee room on Yonge-st., as they slowly sifted in, telling their tale of woe and defeat.

They had pinned their faith on pulling a heavy majority out of the Jewish and Italian voters in fact, it had been their boast all along, but the campaign they put up was hardly to be expected to appeal to the best nature of the sometimes easily influenced foreign voter.

"No, I don't think I have anything more to say," and what is there to be said? The people of Centre Toronto didn't want reciprocity, and they didn't want Maguire either, and that's all there is to it.

'JOE' RUSSELL GOOD LOSER MET DEFEAT WITH SMILE

Told His Workers He Had No Intention of Mourning—May Contest Again.

Facing the flare of hundreds of torches in the hands of paraders, amid the deafening noise of horns and whistles, and the return from every sub-division showing his opponent had overwhelmingly defeated him, including his own home precinct, Joe Russell spoke, like the true sportsman he is, to his many supporters and friends.

"Well, that is easily answered," he replied. "The people wanted the other fellow, and if a candidate can't get more of the people's votes than his opponent, he can't win, and the crowd roared.

May Run Again.

Mr. Russell, when asked if he would run again, said: "Can't tell; I may, time, you know, changes things. Mr. Russell said he entertained no hard feelings for Mr. Kemp, and advised the people to stand behind their choice as a member of parliament.

J. J. USED 'CYCLONE CELLAR'

Anyway, He Couldn't Be Found—Supporters Showed Pique.

The bosoms of the Liberal sympathizers were not less ruffled than the bosom of the political sea. In the course of a fruitless search for J. J. Ward, a World representative who was expected to believe this as the result of a visit to the Ontario Club.

"But I have information that leads me to believe that Mr. Ward was to receive his return here."

Nothing more is needed—just agree to pay Ye Olde Firme of Heintzman & Co., 193-195-197 Yonge-st., Toronto, to have installed in your home forthwith a fine square piano of such makers as Chickering, Steinway, Miller and others.

A. E. KEMP WAS MODEST SEES END OF FRICTION

Loudly Acclaimed by Faithful Lieutenants, He Urged That Differences Be Buried.

Flags, cheers and a bouquet of roses for the conquering hero of East Toronto, Kemp, transformed Odd-fellows' Hall, Broadway-avenue, last night.

When Mr. Kemp, the member-elect for East Toronto, was called upon and showed his certain defeat, a supporter said, "Well, Joe, will we put on the crepe?" "Not in a thousand years," said Mr. Russell. "To what do you attribute your defeat?" asked The World.

Came Into His Own.

Some were there who would remember what he said after the defeat, the prolonged cheers for his support, Miss Beatrice Stagg, a little girl attired in white, presented the new M.P. with a handsome bouquet of red roses.

Credit to Lieutenants.

Much credit was due to R. H. Greer of No. 3 and Joe Thompson of No. 2 Conservative Associations. He was deeply grateful to the men and women who had given him their support, and he recognized that his success was owing to the way in which the workmen of the constituency had rallied to his support.

People Don't Wait Pact

SO W. H. SHAW ADMITS

"Doubtful" Voters Proved to Be Solidly Hostile—May Fight Again.

W. H. Shaw received the sad tidings without particular perturbation. As the returns came in, the district he looked them over quite calmly and philosophically. Each return was an obituary notice for the clerk had marked down nearly three-quarters of them without getting a majority for the Liberal candidate.

Contemplate!

Do not weigh anything in a second, but take a second thought when a druggist or dealer asks you to accept a substitute for DR. FOWLER'S Extract of Wild Strawberry.

This preparation has been on the market for over 65 years, and so far as we know has never yet failed to either relieve or cure the worst cases of DIARRHOEA, DYSENTERY, COLIC, CRAMPS OR PAINS IN THE STOMACH, CHOLERA MORBUS, CHOLERA INFANTUM, SUMMER COMPLAINT, OR ANY LOOSENESS OF THE BOWELS.

Mrs. A. J. McLeilan, London, Ont., writes—"It is with much pleasure I write to say that I have used Dr. Fowler's Extract of Wild Strawberry with great success. Last summer my little boy, 18 months old, was attacked two or three times with diarrhoea, but each time, after one day's dose, he was all right again. My husband was also taken by one night. The next day three doses cured him. I always insist on Dr. Fowler's being given me."

Trade Awaits Reciprocity Vote

Prices Are Inclined To Droop

Quiet Trading in Chicago Market, With Evening-up Trades the Feature---Cereals and Oats Unchanged.

CHICAGO, Sept. 21.—Pleading the outcome of the reciprocity vote, wheat dealers today almost unanimously confined themselves to evening up trades. As a natural result prices were inclined to droop, and the close ranged from 1/2¢ to 1/4¢ up, and 1/2¢ to 1/4¢ down, in corn the finish varied a shade down to 1/2¢ up; oats were 1/4¢ to 1/2¢ up, and 1/4¢ to 1/2¢ down, and hog products no more than 1/4¢ to 1/2¢ up, and 1/4¢ to 1/2¢ down. Nearly everything else was lost sight of in the wheat pit except the latest gossip about the Canadian section. The local flour trade was good, with prices 1/4¢ to 1/2¢ up for spring wheat, and 1/4¢ to 1/2¢ up for winter wheat. The market reacted to more than 1/4¢ above yesterday's close. Indeed, the greater part of the day the pit was becalmed as a shade up to 1/4¢. Cash grades were slow.

Mining Stocks Carried Lower

By Profit-taking Movement

Hollinger Leads Further Decline, Which Obtains Thruout Whole List—Beaver the Strong Point of the Cobalts.

World Office, Thursday Evening, Sept. 21.

Profit-taking movement was carried the list lower again today, liquidation being in evidence practically throughout the whole day, and prices proving unrelenting to the selling in the majority of instances.

The backward movement did not occasion any feeling of surprise among traders or market followers. New York was reported to be selling, and this was doubtless brought about by reason of the depression existing in the big market in that city.

As was to be expected the brunt of the loss was borne by the highest-priced issues. Hollinger and Rea showing the biggest losses for the session. The former stock was off 45 points at 11.90 at one period, profit-taking on the part of those who had bought in during the recent decline being sufficiently in evidence to depress prices to that extent. The latter was off 10 points, and the latter was off 10 points, and the latter was off 10 points.

Small losses were shown by the majority of the cheaper issues, but in no instance were these of much account, the selling being well taken, and prices declining only to a slight extent. Dome Extension was off 15 points, and Vi-pond was off 15 points, but other than these changes were of no special note. Vi-pond was off 15 points, but other than these changes were of no special note.

BEAVER

ONE of the most important and richest strikes of the year in the Cobalt District was made yesterday at the BEAVER MINE when the drills pierced a new vein, within five feet of the No. 1, carrying 4,000-ounce ore, and measuring eight inches in width, that leads the mine management to believe that what was thought to be their bonanza vein is nothing more than a "feeder" to the new vein just opened up.

The strike was made in a drift from the 350-foot level on the No. 5, and latest developments show the vein to be widening, and the high-grade ore running the full height of the drift.

So important did President Culver consider this latest discovery (just) he left last night for Cobalt to make a personal and thorough examination.

"If we have been getting all our rich ore from simply a 'feeder,' and have now entered the real vein," said one of the Beaver directors when he learned the news, "there is no telling how rich the Beaver Mine will prove to be."

Another important feature of the underground work now going on at this—yesterday and one of the healthiest of dividend-payers in Cobalt—is that this week, in raising on the 200-foot level above the old mine the roof discloses much high-grade ore still in place.

At no mine in Cobalt at present is more active development going on than at the Beaver. Before January 1st a large mill will likely be in full operation treating the low-grade ore, of which there is an immense tonnage.

The weekly shipments of high-grade ore from this property have been exceedingly heavy of late, at the same time the ore reserves are being materially added to.

The demonstrated veins behind Beaver stock—its strong treasury of \$195,000—its rapidly increasing ore reserves—the assurance from the mine management that before the next dividend it paid, from the mine to meet this quarterly disbursement, as well as provide the funds required to erect the new mill.

At prevailing prices in the market BEAVER is selling far below its intrinsic value, and is to-day returning 34 per cent. on its investment. With the underground workings showing up such wonderful wealth an increase in dividends may be looked for.

From a speculative standpoint, we predict a sharp rise in the market on Beaver, and without any hesitation we advise its immediate purchase.

For all those who are interested in BEAVER we have prepared an exhaustive report of the physical condition of the mine, which will be pleased to send free on request.

ASBESTOS IN CANADA.

The department of mines, Ottawa, has just issued an interesting monograph of the asbestos industry in Canada, written by Mr. F. Cirkel, M.E. The Dominion, it appears, produces 82 per cent. of the world's supply of asbestos. The companies operating asbestos quarries and factories in the Dominion are capitalized at \$2,300,000. In 1910 only 290 tons of asbestos were produced, valued at \$24,700, whereas in 1909 the production amounted to 63,300 tons, valued at \$2,300,000.

NOVA SCOTIA SHIPS BULLION.

The Nova Scotia mine at Cobalt sent out 28 bars of bullion to the old country on Wednesday afternoon, it being their shipping day in several weeks. The bars were very heavy, containing a total of \$3,600 fine ounces, and worth \$25,500.

GOING TO DEPTH AT TIMISK.

Two drills have been started to sink the main shaft of the Timiskaming mine at Cobalt to a further depth from the 575 foot level and at the present time the shaft is now down between 650 and 600 feet. It will be continued to a depth of 650 feet where the eighth mine level will be cut, which will be the deepest by over 75 feet ever reached in Cobalt camp.

ARGENTINE ESTIMATES.

The weekly Argentine estimates are as follows:

Wheat bush, 300,000; Corn bush, 60,000; 2,417,000.

LIVERPOOL WHEAT MARKET.

Sept. 21.—The market was dull at the opening, but with a steady undertone. Following the opening there was a further advance in the near months with offerings light. The market in America and the firmness in Winnipeg yesterday led to support. This support was further encouraged by the strong Canadian offerings and the tightening up of cargo offerings and predictions of continued light shipments from Argentina. March was under pressure of continued favorable weather in Argentina, better reports from India and Russia and more liberal offerings for forward shipment. The market was very dull, awaiting the reciprocity measure.

Crop Conditions.

The Price Current (Cincinnati) says: Rains and favorable temperatures over nearly all of the corn belt beneficial for development of grain and substantial and auspicious promise of good yield. Dry weather now prevailing in the fine condition for sowing winter wheat, which assures increased acreage.

NEW YORK CATTLE MARKET.

NEW YORK, Sept. 21.—Beef—Receipts 175 head; no trading; feeling steady. Veals, \$10 to \$12; culls, \$5 to \$6; southern calves, \$4 to \$7; grassers, \$2.50 to \$3.50; westerns, \$2.50 to \$3.50. Sheep and lambs—Receipts 404 head. Sheep, steady; lambs, slow. Sheep, \$2.50 to \$3.50; culls, \$1.50 to \$2; lambs, \$5 to \$6.50; Swastika, \$7 to \$7 1/2; 250; Vi-pond, \$4 to \$5.

PERU'S WONDERFUL GARDEN OF THE GODS.

In the Andes, half a thousand feet higher than Pike's Peak, is to be found the Peruvian Garden of the Gods, and which is visited by every traveler fortunate enough to visit it, writes William V. Alfred, F.R.G.S., in the Century, in an article entitled "The Andean Garden of the Alps."

It is locally called the Rock Forest, for in no sense of the word is it a forest; it simply resembles one when viewed at a distance of ten miles.

The traveler may be forgiven the error of thinking it a forest, as he sees it for the first time, and forgets that he is no longer where trees grow, but he will half an hour's ride of the high-carriage times the ground, and in beauty and interest surpasses its northern counterpart in the same ratio.
