What Price, Joe? Mr. Balfour, during the speech on fiscal policy which cost him the Duke of Devonshire, was declaring his intention to lead the Unionist party, when somebody shouted: "What price, Joe?"

Mr. Balfour has been ignominiously rejected by Manchester. Mr. Chamberlain has been triumphantly re-elected by Birmingham.

Mr. Chamberlain's verdict is so different from that of the other big cities of Great Britain as to lend much justification to Mr. Chamberlain's persistent contention that the "whole-hog" policy was the best policy for the believer in fiscal readjustment.

This morning the Unionist papers have never been far from criticism of Mr. Balfour. He is surely calling for the formal substitution of Mr. Chamberlain for Mr. Balfour.

Mr. Chamberlain is the supreme electioneer of his generation. He won the 1886 campaign for the Liberals; he was the chief factor in the defeat of the Home Rulers in 1886.

is best. To live naturally, working during the day, keep your temper, eat three meals and take a Beecham's Pills.

Beecham's Pills

Sold Everywhere. In boxes 25 cents. The one best bet that he hasn't got anything up his sleeve as a politician as the things that happened in the legislature on a certain day eight years ago.

However, if someone had predicted five years ago that any considerable number of protectionists would be elected in Free Trade England in 1906, he would have been rusted off to the Foolish house.

Senator McMillen did not oppose the salary grant resolutions in the senate because the governor-general was likely to prorogue the house, and it would have been discourteous to keep his excellency waiting. Likewise, "the boys," like a certain railroad senator, were in a hurry.

The United States cannot subscribe to the fiscal program of the British Liberals; that is, in the sense that they believe in it and would adopt it themselves. But they halt its success with very properly suppressed emotions.

DEATH'S STING IN ARTICLE LAID AGAINST TOWN TOPICS

Question Asked Judge Deuel, Who is Suing Collier's for Criminal Libel.

New York, Jan. 17.—The question whether or not Wm. Travers, the well-known clubman, who killed himself last year, committed suicide because of an article published in Town Topics was asked of Justice Joseph M. Deuel in the hearing of the complaint of Joseph W. Osborne, counsel for Travers, read an article from Town Topics, which was understood to relate to the alleged suicide of Wm. Travers.

INDUSTRY AT MONTREAL FOR MAKING STEEL CARS

American Foundries Co. Have Organized for Canadian Railway Trade.

New York, Jan. 17.—(Special).—Interests allied with the American Steel Foundries Co., it is reported, have organized a company, to be known as the Dominion Steel Car Co., Limited, for the manufacture of steel cars for use on the Canadian railroads. The plant will be situated at Montreal West, near the works of the Simplex Railway Appliances Co., owned by the Steel Foundries, and will cost about \$500,000. Construction will begin in the spring, and it is expected to have the works in operation, with about 500 employees, by the middle of the summer. It will be the first plant of the kind in Canada, also the Canadian Car Company, controlled by the Pressed Steel Car Company, has begun construction of a plant at St. Henri, near Montreal.

AMERICAN LABORING MEN ARE KEPT IN IGNORANCE.
London, Jan. 17.—(Special).—The labor M. P. in an interview to-day, said American labor was hopelessly ignorant, and was kept under by capitalists. European workers, he said, were better educated.

Assaulted a Constable.
Brampton, Ont., Jan. 17.—George and Alfred Wright, two young English-Canadian power works, were brought before His Honor Judge McChibbin to-day, charged with assaulting Constable Rutledge in the discharge of his duties, and attempting to break jail. The two men were drunk at the time, and engaged in a free fight with the constable when arrested. When charged with breaking jail, they were sentenced to two months on each charge at hard labor in Brampton jail, the sentences to run concurrently.

To Quash Conviction.
In the division court yesterday Mr. A. DuVernet moved for a rule nisi to quash the conviction against Secretary Merrick of the Employers' Association, secured during the lithographers' strike. Mr. Merrick, it is stated, "committed an offence against the Alien Labor Act by importing a German from New York to work in Ralph & Clark's shop. The matter will be set down for trial in the high court."

Miss Roosevelt's Gown.
New York, Jan. 17.—Quite a large number of the gown for Miss Alice Roosevelt's wedding outfit are being made in Baltimore. The wedding gown is to consist of a heavy white satin brocade, being made in an American silk factory of a design originated for the president's daughter. The old lace belonging to Roosevelt's mother's family will be used in the trimming of the wedding gown.

Had a "Sing Song."
St. Catharines, Jan. 17.—(Special).—A "sing song" was given the officers, non-commissioned officers and men of the 19th Regiment at the new armories in this city by John S. Campbell, the newly-appointed colonel. The affair was largely attended. A feature was a game of basket ball between the officers and non-coms.

WOULD BE RABBIS ON STRIKE.

Students in New York Want Changes in Study Course.

New York, Jan. 16.—There is a strike in the rabbinical seminary Yeshiba Reuven El Chanan, on Henry-street, and lessons are at a standstill. The seminary has 100 students, between the ages of 17 and 24 years, who intend to become rabbis. Instead of paying the tuition these young men receive \$3 a week from the faculty. Collectors go out every week and solicit funds for the support of the institution. Jacob H. Schiff, the banker, gave \$1000 for the school. Monday night the students declared that they would not study unless their reforms were accomplished:

- (1) To have English taught; (2) to be allowed to know more about affairs outside their religious routine; (3) to study the Bible in addition to the Talmud; (4) to have larger classrooms and better air; (5) to be supervised so much; (6) to have modern methods and spirit in the school; (7) to have the school run on some system.

Many of the students do not speak Hebrew, and are unable to read the Old Testament in its original Hebrew, and not be confined to the Talmud.

STREET CAR SERVICE IMPROVES.

President Mackenzie, "Too, Promises That Orders Will Be Obedied."

"The street car service has so improved that there is now no occasion for taking any action against the company," said Mayor Mackenzie last night. He said he believed an attempt was being made to comply with the schedule. There had been a marked improvement in the system during the day.

CAR WAS DERAILED.

Safety Device Was in Working Order Last Night.

About 6:30 o'clock last evening a King-street car, headed east, was thrown from the track at the east Queen-street crossing by the derailleur device. The gates were down and a locomotive approaching. Apparently the derailleur was in error and was not stopping. Beyond a bad scare for the passengers, there was no harm done.

TEACHERS ASK INCREASE.

St. Kitts Ladies Appear Before the School Board.

St. Catharines, Jan. 17.—(Special).—The public school board met for reorganization to-night. Dr. W. H. Merritt, the acting chairman and Trustees McTavish, Malcomson and Watson, chairman of the finance, school management and building and supply committees, respectively.

Some little discussion arose over the appointment of the secretary, Wm. Mansel, the head teacher, Trappell, taking objection to it on the grounds that all complaints would pass through Mansel's hands. The appointment was approved by a majority of the board. The matter was referred to the school management committee.

STRIKE BREAKERS IN PLENTY SAYS NEW YORK TYPOTHESEAN.

New York, Jan. 17.—A statement issued by the Typothesean has the names of 107 electrotypes and stereotypers in the city who are willing to come to New York and take the places of the strikers who are called out by the Typographical Union yesterday, was issued by the Typothesean to-day. It was also stated that the men would be brought to this city.

FOOD—NOT MEDICINE.

If all the treatments for consumption were put in a book form it would make a pretty big library. But after all there has been little improvement over the old treatment of rest, fresh air, sunshine, plain, wholesome food and Scott's Emulsion. The latter supplies nourishment that cannot be secured in any other way, and after all, nourishment is what the consumptive needs first.

A gain in weight, however slight, is a long step toward improvement. If there is the least thing to build on Scott's Emulsion will enable the patient to make that gain. People have gained a pound in weight from a bottle of Scott's Emulsion—it's an exception when they don't.

We have seen Scott's Emulsion take hold of a patient and bring about a change for the better inside of a week. It always helps even the most stubborn cases. SCOTT & BOWNE, Toronto, Ont.

PUNISHING BOY FIREBUG.

Will Be Given Indefinite Term and Severe Training.

With a little touch of sarcasm the chairman of the Victoria Industrial School board asked for a resolution of regret that out of six aldermen appointed to the Industrial School board there was not a single alderman present at yesterday's meeting.

The greater part of the session was devoted to discussing the best mode of dealing with the boy who set fire to the building. The board did not want to resort to measures that will ruin his life, which a term in penitentiary would surely do at his age, nor did they desire that he should appear as a hero to the other boys.

Superintendent Ferrier was sure the boy is sound and sane, and that he did the act in pure malice at not being reprimanded. He had no matches, so he used the furnace, the superintendent suggested "fixing it" with the police magistrate to sentence the boy to the school for an indefinite term, and then he would not be allowed to associate with the other boys; must sleep in an isolated quarter, his meals to be prepared by the kitchen, and have an occasional public flogging.

The plan was adopted, and a committee made up of Superintendent Ferrier and Beverly will take the boy before the magistrate.

All those present were asked to witness the first chastisement by Superintendent Ferrier.

Since the fire Mr. Dwight has been in negotiation with the G.T.R. re-obtaining the 80,000 gallon tanks in the vicinity, with encouraging prospects.

One student, Caldwell, H. P. Dwight, W. J. Hendry, Beverly Jones, Aid Vaughan and Superintendent Ferrier, yesterday for the government for assistance in rebuilding.

Receipts for the past three months were \$28,310; disbursements \$72,211.

SHOT DEAD BY NEPHEW.

Had Been Instructing Boy in Use of a Rifle.

Bridgeburg, Jan. 17.—Orange Schryer of Fort Erie, was shot and killed by Willie C. Douglis his 10-year-old nephew, yesterday at the home of the lad's father, W. M. Douglis, president of the Fort Erie board of trade.

SAY LETTERS ARE OPENED.

Guards at Kingston Penitentiary Have a Complaint.

Kingston, Jan. 17.—(Special).—No sooner is one source of friction removed in the penitentiary than another springs into being. The last to be reported is an alleged opening of the correspondence of the subordinates by the warden, or his deputy, or both. The practice hitherto has been to have all the mail matter intended for the prison pass from a box in the Kingston post office to the warden's office in the prison. Once there, all letters addressed to convicts were opened and read, and the mail was considered fit for delivery to their destination. The rest of the mail was delivered to the prison employees as it came. Recently, however, it is stated that the subordinates' letters were opened, re-closed, and then delivered. This has caused a bitter feeling, and the guards and other officials have rented boxes in the city postoffice, to which all their mail matter will come and thence be delivered.

NOTHING LEFT.

Out of \$182,000 Deposited Only \$450 Cash Remains.

Boston, Jan. 17.—Application for a receiver for the Provident Securities Company was made to-day.

Attorney General De Gosh, told the court that of the \$182,000 which was deposited with the company, there remains now, the usualists say, but \$450 in actual cash.

Charges have been made against Police Captain Edward P. Gaskin and Lieut. Frederick J. Smith, for neglect of duty in failing to report to the bank and the officers went to the bank and removed several boxes which he took to his home.

VERDICT FOR \$4500.

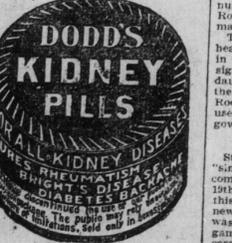

Toronto Railway Company Lose in Death of David King.

The jury in the civil assize court yesterday awarded Mrs. Mary King \$4500 damages, and her daughter Edith King \$1500. The defendant was the Toronto Railway Company. \$10,700 had been asked for.

James Moore is suing Edmeas Bedford of the Canada Ice Company. Moore claims that on Sept. 20, he went to collect the remainder of his wages, and that Bedford assaulted him with the ice tongs, from which he suffered serious injuries.

MILBURN'S HEART AND NERVE PILLS

They bring health to the broken down, energy to the weakened constitution, tone up the tired, overstrained nerves, and strengthen the weak heart, loss of vision, Mrs. Edward Jackson, Hall's Bridge, Ont., writes: "For a year I was greatly troubled with nervousness and loss of appetite, and could neither sleep nor eat. After taking a few boxes of Milburn's Heart and Nerve Pills I was completely cured and can recommend them to all sufferers."

CUBA: THE LAND OF SUNSHINE

Canada-Cuba Land and Fruit Co., Limited

As an illustration, the sales made to the sons of Canada since March are about forty thousand acres of these rich fruit-bearing lands, which are destined to make many Canadians independent in a few years.

An orange plantation is sure to produce a permanent income for the landholder of Canada-Cuba lands, all of which lie in a rich, fertile belt, and so situated that they possess the best shipping facilities and a ready market for all products in Havana and New York.

Our best references are those who have visited our vast Cuban estate, covering near (140) one hundred and forty square miles, have bought from us and are now cultivating their lands. The following cable received this week will show you what visitors think of our property:

CABLE MESSAGE.

Dated Havana, January 8, '06.

Selections—Reverend Huriburt wants eleven twelve thirteen. Segsworth wants fifteen, section eleven. Button wants sixteen, section fifteen. Bacon wants fifteen, section sixteen. Confirm and wire lots vacant. Dr. Basconi and Cunliffe waiting for reply to locate.

(Signed) THOMPSON.

When a number of influential men like these cable back for that amount of land it is sufficient to speak for itself. Several of them were located on these lots before going to Cuba. Simply confirms our judgment of the lands and of their satisfaction. Call and see numerous letters for orange and all other fruit culture. You MUST HAVE A SANDY LOAM SOIL. Then with good shipping facilities and other improvements which are under construction and with all other promises made which will be carried out, you can't do better than invest in a plantation at Ocean Beach. Those desiring to better their position in life, or anticipating a change in occupation, or looking for an investment which is sure to treble in a short period, will do well to call and get full information regarding this profitable proposition.

Bear in mind this land is only for sale for a short period at

\$20.00 PER ACRE

We are going to increase every acre to \$40.00, so take advantage while it is at \$20.00.

Within one year from now we have every reason to believe that every acre of these lands will be worth \$60.00 per acre at least.

Our own medical man will be in attendance on the property. A staff of men left to erect a sawmill on Thursday at Ocean Beach. Lumber can then be bought direct on the spot at reasonable prices.

Store on the property carries a good supply of necessities.

FALL WHEAT IN ALBERTA.

Condition Excellent With a Largely Increased Area.

Winnipeg, Jan. 17.—The condition of the fall wheat of Alberta today is declared to be A1. The acreage is largely increased as compared with 1905 and the progress of the plant is good in every instance. From Lethbridge the report asserts that the fall wheat is heavy, and as a result of this the crop is in a very favorable condition. From Nanton the reports are that the fall wheat is a very fair average. High River is not quite so optimistic, the report saying that the wheat has not secured a good start yet, except that on the summer fallow, which is most flattering. It is six inches high on summer fallow and quite vigorous. That put in after Sept. 15, however, is not so good. A favorable report, however, will result in a large crop. MacLeod reports a splendid condition and prospects of a fine yield. At Claresholm, one of the best "Alberta" districts in the west, the condition is most satisfactory. The plant is strong and making excellent progress. At Fincher Creek everything is splendid. The progress of the plant is increased acreage and prospects of a big yield. Two feet of snow fell in that district in December, and much of it remaining as a warm, wet cover for the growing grain.

PRESENTATION TO MR SIMS.

Sicbe Gas Co. Employees Approve to Manager's Interest in Them.

A pleasant happening in the offices of the Sicbe Gas Company, Limited, yesterday afternoon, was the presentation of a leather covered arm chair to F. L. H. Sims, who has been appointed managing director of the newly incorporated company. L. R. Arnett made the presentation on behalf of the assembled employees, which was accompanied by an address, saying:

"Dear Mr. Sims—We, the undersigned, desire to express to you our most hearty good wishes for your success as managing director of the Sicbe Gas Company, Limited, and we, sir, wish to convey our thanks for the many kindnesses shown us by you during the past four and a half years that we have been associated with you in the pioneer work of building up the Sicbe Gas Company under your management.

"We have always found you patient and thoughtful of our interests. Just in your decision when differences arose, when trouble or sickness overtook us, you left nothing undone for our benefit.

"We trust, sir, that you may long be enabled to occupy your new position and assure you of our loyal support in the work of making the Sicbe Gas Company Limited, grow as fast in the future as the old company did in the past.

"We desire you to accept this chair as a token of our esteem, and we earnestly pray that you may long be spared to enjoy it, after the labors of the day.

"Wishing you every success, we are, yours faithfully, (Signed) L. R. Arnett, H. P. Nafel, R. E. Beat, B. A. Curran, Kyle, Louisa Hardie, Jas. Huggill, H. Huggill, Ben Murgford, Geo. Green, H. Johnson, H. Nixon, W. G. Tooke, J. T. Farr, G. H. Maurer.

Mr. Sims, in reply, said that the consideration of the past would be that of the future, and in this he was reinforced by President Reuben Mill-champ, who had happened in.

SOLD TOBACCO TO MINOR.

B. B. Harlan Has Auto Too Fast—Other Cases in Police Court.

Selling tobacco to a minor was the charge upon which Arthur Wilbur was arraigned in the police court yesterday afternoon. He said he had done so on verbal instruction of the boy's mother, the time previous. On the complaint because of a bag quarter shot accused me of giving her son," he concluded. The excuse did not go, and he was fined \$10 without costs.

Five boys were fined for hanging around the corner of Avenue and Dundas streets, and for the same offence. Their names are: Eric Adams, 11; Oliver Abernethy, 11 and costs; Jack Racknor, 11 and costs; Hugh Guthrie, 11 and costs; and John Madill, 11.

B. Harlan appeared to answer the charge of neglecting to have a light on the rear-end of his automobile. He was fined \$5 and costs. For the latter offence he was fined \$5 and costs. He had been driving on the highway with his light before going out and again at High Park.

James Craig, a huckster, in the St. Lawrence Market, was fined \$1 and costs for striking P. Wilda. The latter initiated a complaint against Craig, who he could buy horse radishes below the price he was offering them at.

TEST OF PATENT MEDICINES.

Inland Revenue Department Will Shortly Publish Report.

Ottawa, Jan. 17.—The inland revenue department will shortly publish the results of an analysis that its chemists have made of a number of the best-known patent medicines, including headache powders.

The season before last Senator Sullivan of Kingston spoke of the excessive amounts of alcohol that certain preparations contained, and declared it was his duty to inform the government to license certain persons to poison the people of the Dominion.

It is stated that in certain of the American States the sale of preparations of a kind that might prove dangerous to the health of the people is prohibited. In Ontario there is a statute providing that in a case of medicine containing any of a long list of poisons in quantities sufficient to render them dangerous to health or life the provincial board of health may order the sale of the medicine to be stopped. The analysis to be made. After this has been done authority is given to the provincial board of health to impose the same restrictions upon the sale of dangerous poisons in a drug store.

FALLIERES IS PRESIDENT

FRENCH SENATE HAS VOTED

Political Career Began in 1876—Advocate of Repression of the Clergy.

Paris, Jan. 17.—M. Fallieres was today elected president of the republic. The vote was: M. Fallieres, 449; M. Doumer, 211; scattered, 25.

The National assembly met at 1 o'clock in the congress hall of the Royal Palace, Versailles. The assembly consists nominally of 591 deputies and 200 senators, but owing to death, illness and the passage of some of the deputies to the senate, leaving their seats vacant, the number present was decreased to 450, making 430 votes necessary to elect. The greatest interest was manifested in the proceedings, which were very dramatic, the members of the assembly voting in alphabetical order.

M. Clement Armand Fallieres, the new president of France, is the son of a master smith, the grandson of a blacksmith. He was born in 1841 at Mezin in the Department of Lot-et-Garonne. He studied law and was called to the bar at Merac, of which town he was afterwards mayor for many years. In 1876 he was elected to the chamber of deputies as a Republican, and affiliated himself with the deputational group in the chamber, and in 1880 was named as under secretary to the minister of the interior. In 1883 he was made president of the council and an interim minister of foreign affairs. Subsequently he became successively minister of public instruction, of the interior and of justice. He was elected senator in 1890, and has been three times president of that body. M. Fallieres took an active part in the religious question, opposing at first the proposition for the separation of church and state, but later energetically advocated the repression of the clergy.

U. S. LIVES PROFLIGATELY.

J. J. Hill Advises Conservation of National Resources.

St. Paul, Jan. 17.—In a speech before the Commercial Club last night Mr. J. J. Hill, president of the Great Northern Railway, made some pungent observations regarding commercial conditions in the nation. "The nation at large," he said, "is profligate. We are getting down, however, to a close examination, we will readily see that the nation is living profligately. We are selling out our natural resources, plotting them as fast as we can without building up industries and trade-relations to take their place when exhausted.

"We will eventually have to meet the commercial competition England is meeting to-day and have to face such problems as she is now facing. With 1,500,000 unemployed crying for bread and no bread to feed, have as charity does it all to them."

Mr. Hill closed his address with expressing a hope that steps would be taken to conserve the national resources. He especially urged better trade relations with Canada.

THE "RUSSELL" MAKES A HIT.

Canada Cycle & Motor Co.'s Auto Exhibited in New York.

New York, Jan. 17.—(Special.)—The first "made in Canada" automobile to be exhibited in any out-of-Canada show, is now attracting a considerable amount of commendable interest. It is the big annual show here is the "Russell" car, named after the manager of the Canada Cycle and Motor Company, Toronto, and made entirely by that company.

While the "Russell" car is a most satisfactory embodiment of a variety of good points, the demonstrations and testimonials from all sides upon it has been subjected have proved its staunch reliability.

The representatives of the Canada Cycle and Motor Company, who are attending the show, are receiving congratulations from all sides upon the successful showing of the "Russell" automobile.

MOVED BY STAGE SCENE.

Burglar Stands Up in Theatre and Confesses Crime.

New York, Jan. 17.—When in the first act of "As Ye Sow" at the Garden Theatre, the Rev. John St. John overpowers the burglar intent on killing the little child and makes him why he leads such a life. He tried to get work, but "My God! I tried to get work, but the world was cold, and wouldn't give me nothing to do."

When the lines were spoken last night a man who afterwards said he was Albert Emmerman of 14 Twenty-second-street got up and shouted:

"That's right; I'm a burglar myself!" Then in reply to laughter from the audience:

"You're right, ladies and gentlemen. They wouldn't give me a show."

The man was taken to the Tenderloin station. There he told the police that he was the best trackman in the city. He started life, he said, in the employ of a safe company, and got so expert that he could open the safe without dynamite. He had done several terms in prison, and was number 288 in the Rogues' Gallery.

"SATURDAY NIGHT" SOLD.

L. E. Sheppard Retires From Publication and Will Leave City.

Caracas, Monday, Jan. 15, via Port of Spain, Trinidad, Jan. 17.—M. Taigny, the French Charge d'Affaires, having gone on board the French line steamer Martinique, at La Guayra yesterday without legal permission, the Venezuelan authorities have prohibited his landing again in Venezuela and he must go to Colon.

FRENCH CHARGE RULED OFF.

CANT LAND IN VENEZUELA.

Ottawa, Jan. 17.—The Seward Lubricating Company building was destroyed by fire in Hull this morning. Loss about \$200, no insurance.

A GOOD THING.

When It Comes Along Don't Let It Get Away From You.

"I really feel that it is hardly possible to say too much in favor of Grape-Nuts as a health food," writes a Chicago woman.

"For 9 or 10 years I had suffered from indigestion and chronic constipation, caused by the continued use of coffee and rich, heavy, greasy food. My ailments made my life so wretched that I was eager to try anything that held out a promise of help. And that is how I happened to buy a package of Grape-Nuts food last spring.

"That ended my experiments. For in Grape-Nuts I found exactly what I wanted and needed. From the day I began to use it I noticed an improvement and in a very few weeks I found my health completely restored. My digestive apparatus now works perfectly and my chronic constipation has been entirely relieved. I have gained in weight materially, and life is a very pleasant thing to me so long as I use Grape-Nuts once or twice a day. I have found by experiment that if I leave it off for a few days my health suffers.

"A physician in our town has great success in treating stomach troubles, and the secret of it is that he compels his patients to use Grape-Nuts food. It always brings back the power of digestion." Name given by Postum Co., Battle Creek, Mich.

COULD NOT INFLICT THE TORTURE WOMEN SUFFER FROM HEADACHES

Headache is not in itself a disease, but a symptom or accompaniment of other diseases, principally those of the stomach, liver and bowels, such as Constipation, Dyspepsia, Liver Trouble, Bad Blood, Female Complaints, General Debility and Weakness. Headaches are common to both sexes, but more frequently affects females.

The varieties of headache most common are sick or bilious headache, nervous headache, headache from constipation, debility or indigestion, periodical and spasmodic headache. Undoubtedly the cause must be removed before permanent relief can be had.

Burdock Blood Bitters

removes the cause of the headache, and not only does this but it also restores the entire system to healthy action and buoyant vigor.

"I was troubled with headaches for a number of years, but could get nothing to help me. I procured a bottle of Burdock Blood Bitters, and finding it was doing me so much good, I got two more. I am now fully cured and think there is nothing in the world like Burdock Blood Bitters for headaches."

BUY LAND in WESTERN CANADA

The Last Great West

WE OWN

One Million Acres

Of the Richest Prairie Land in the World.

These Lands Comprise the Land Grant of the Canadian Northern Railway

LOCATED IN

The Famous SASKATCHEWAN Valley

The Carrot River Valley and the Great Saskatchewan Plains.

This land is open prairie, free from brush and stone. The soil is a rich, deep, black loam with clay sub-soil. This district produced last year the greatest crops in Western Canada. Last year (1905) this average yield was from thirty to fifty bushels of No. 1 hard wheat. These are not idle statements, as we can give the actual facts, date, etc., from hundreds of American farmers now operating in this district. This land is the last great tract of hard wheat land on the American Continent, and has no superior in the world.

Read What B. W. Snow Says:

Chicago, Ill., Sept. 12, 1905.
Davidson & McRae, General Agents,
Canadian Northern Land Dept.,
Winnipeg, Man., Canada.

Dear Sir,—
During the past twenty years I have visited and carefully examined the wheat fields of the principal producing countries of the world. Through this experience I believe I am qualified to express judgment upon the grain-growing capacity of wheat land. I have just completed a trip over the main line of the Canadian Northern R. R., from Portage la Prairie to Battleford making a careful study of the capacity of the country tributary to the line, and in my judgment I have never before seen so large a continuous area of consistently high-class wheat land as during this trip.

Here and there are a few spots where there has been settlement long enough to furnish data of actual performance, and the yields this year are running an average of close to thirty bushels per acre, with many exceptional yields reaching forty bushels and even higher. The vast part of the area in question is unsettled, but in character of soil and what is still more important, in quality of subsoil it in no way materially differs from the fields from which the yields I have quoted were obtained.

I am firmly convinced that within a very few years Northwest Canada will produce a larger surplus of wheat for the world's market than can be grown in any other country. Yours truly,

B. W. Snow

HARVESTING SCENE IN 1905 ON THE DESCHON FARM NEAR DAVIDSON, SASKATCHEWAN.

This was the second crop harvested on this farm. The land was purchased by Mr. Deschon in 1903, the cost of the land being \$5.00 per acre. It was broken and put into crop the following year. On this second crop, Mr. Deschon had 4,000 acres in wheat, which yielded an average of thirty bushels to the acre, which brought 72½ cents per bushel on track. The cost of operating the past season did not exceed \$6.00 per acre. In other words, Mr. Deschon's proceeds from this amounted to \$22.75 per acre, the cost of investor or farmer sit up and listen.

GREAT PROFITS IN ADVANCING VALUES

Wheat. These lands will advance more rapidly in the next three years than they have in the past five years. This is your opportunity. Act now!

Three years ago we advised the people to buy Western Canada farm lands located in these same districts; we sold hundreds of thousands of acres. The men who bought these lands at that time have become more than prosperous, in many cases rich. To the average person Western Canada was at that time an unknown quantity. To-day it is a country of great cities, prosperous towns, thriving farms, attracting the eyes of the world by its enormous yields of hard wheat. 45,000 American farmers settled in Western Canada in 1905; more than 100,000 will settle there in 1906. The cause of this great immigration to Western Canada can be explained in three words: "Money in the bank." These lands will advance more rapidly in the next three years than they have in the past five years. This is your opportunity. Act now!

Read What Prof. Shaw Says:

St. Paul, Jan. 5, 1906.
Davidson & McRae, Gen'l. Agts.,
Canadian Northern Land Department,
Winnipeg, Manitoba.

Gentlemen:—You ask for my opinion as to the value of certain lands for agricultural uses which are along the lines of the Canadian Northern Ry., and which I visited at harvest time last year. You designate more particularly the lands in the Saskatchewan and Carrot River Valleys and in the Great Saskatchewan Plains. I most cheerfully comply. I like to talk about such a country.

From Dauphin, 167 miles northwest from Winnipeg, to Edmonton, a distance of 683 miles, lies a stretch of country extending back from 20 to 50 miles on both sides of the C.N.R., the larger portion of which I regard as eminently adapted to mixed farming, that is, the growing of both grain and live stock. Its adaptation to growing wheat, oats, barley, speltz, rye, peas and flax most assuredly ranks high. I have seldom ever seen such crops grown anywhere as were then being harvested in these scattered settlements.

The evidences of high adaptation for live stock production are found not only in the exceptionally high yields from all the coarse grains named, but in the luxuriance with which wild and tame grasses grow. The land in the Carrot River region, reached by a branch line of the Canadian Northern, has been found to be possessed of extraordinary grain producing power. It embraces a large area lying north of the Canadian Northern Railway. The country known as the great Saskatchewan Plains, also covering many miles square and lying south from the Canadian Northern and in natural fertility, is a garden spot of the Northwest. Nowhere else in all the North American continent can so large an area of high-class farming lands be found. Much of this land is yet unoccupied. The question of the character of the winter climate is well answered in the fact that winter wheat and red clover can be grown over much of this area. Yours truly,

Prof. Shaw
