JAPS DESTROY OR CAPTURE VLADIVOSTOCK SQUADRON.

London, March 9.—(Bulletin)—The Daily Telegraph publishes a despatch from Tokio, dated March 7, and saying: "It is reported that the Japanese fleet engaged the Russian Vladivostock squadron at sea yesterday. The result is not announced, but it is believed the Russian ships were destroyed or captured."

NO DETAILS OF FIGHT YET RECEIVED BUT BENNET BURLEIGH'S STORY LIKELY MARQUIS ITO PROTECTORS OF KOREA

Means that the Peninsula Will Become Japanese Military Base and Source of Supplies.

London, March 9.—Far eastern dispatches make no further mention of the Russian Vladivostock squadron has been engaged, and the Tokio correspondent (Bennet Burleigh) of The Daily Telegraph, cabling on the night of Tuesday, March 8, says: "No details have yet been received of the fight at Vladivostock."

The whereabouts of the Vladivostock squadron is still unknown, and it would appear quite likely that a naval battle has occurred, as every one places great faith in The Daily Telegraph's correspondent, Bennett Burleigh. The sending of Marquis Ito on a mission to Korea is regarded here as the most significant news of the day, and it is believed to indicate a virtual protectorate over Korea, which will become the Japanese military base and source of supplies. Marquis Ito enjoys a great prestige in Korea.

It is reported from Shanghai that Marquis Ito is preparing to remove his headquarters to Harbin, after having in vain ordered the Tartar general to dislodge the Chinese garrison at Mukden.

Port Arthur, March 8.—Vice-Admiral Makarov, who takes command of the Russian Pacific fleet, arrived here today and hoisted his flag on the cruiser Askold. His arrival has aroused great expectations among the Russian sailors, and he was given a triumphant reception by the people. He has already inspected the four merchantmen which have been brought into Port Arthur.

RUSSIA FEARS CHINESE.

Berlin, March 9.—The Tagessblatt this morning published a statement regarding the motives of Russia in protesting against the concentration of Chinese troops on the Manchuria frontier, and intimates that it originated with the Russian Embassy in Berlin. The communication says that the assumption that Russia was influenced by political motives such as cherishing designs on Chinese territory, in making this protest, is erroneous. Her motives were purely military.

Russia is convinced that she soon will overcome the Japanese; nevertheless she cannot permit the operations of troops, nor can she be threatened by disturbances, in her rear. The presence of Chinese troops on the Manchuria frontier, and the reports of their movements, are of great importance to Russia. The St. Petersburg government is fully convinced that China honestly intends to maintain a strict neutrality, but this concentration of troops would endanger such neutrality.

The Pekin government is not sure of its troops. Yuanshikai, the Chinese commander-in-chief, would hardly disobey orders, but it is different when it comes to subordinate soldiers. It must be remembered that the Chinese soldiers, who are already beginning to make trouble in Manchuria, are for the most part ex-Chinese soldiers, who deserted, often in entire regiments, and taking modern weapons and even cannon with them, began to lead a roving life in Manchuria.

If Chinese troops are now stationed on the frontier, there exists a danger that at some favorable opportunity they will desert and join the Chinese. This would make it necessary to detach Russian troops from the front to fight the marauders in the rear, consequently, Russia protests against the concentration of troops.

JAPS TO SEIZE NEWCHANG.

London, March 9.—In Shanghai it is believed that the Japanese will attempt the seizure of Newchang as soon as the ice clears. A correspondent of The Daily Express at Shanghai asserts that the Russians are throwing up a continuous line of earthworks at Kaping to Liayang.

Premier Can't Say if Bill Will Be Down Liberals Said To Be Hopelessly Split Up Caucus Told Details of License Reform

Proposition Outlined by World the Middle Road Which Government May Take.

Premier Ross was unable to say whether a liquor bill would be brought down this session, when the question was put to him during the last meeting of last night's caucus of the legislature. This grave admission caused a broad and significant smile to pass over the faces of the whole opposition, and when the full import was flashed across their minds there was a vigorous round of applause. When this subject was discussed by the members of the caucus joined in the merriment.

As the house was about to adjourn, Mr. Whitney reminded the premier that during the last week he had intimated that the liquor bill might be brought down towards the end of this week.

Could the premier say what day he expected to bring down his bill? The best was tremendous, and the fence on the north side of the street was lit with several lamps. A 20-foot extension ladder of the Times was also used.

It was a badly scorching. It had been placed to the upper windows of the working section of the factory, one of many from which the flames succeeded in penetrating the building. The salvage department of the building was in a very bad way.

Loss About \$100,000.

Manager F. J. Smith places the loss to building and contents at about \$100,000, upon which there is \$80,000 insurance.

AN OPPOSITION DAY.

The Conservatives showed fight in the legislature yesterday and took advantage of the rift in the government ranks to harass the premier whenever a favorable opportunity presented itself. When a bill to aid the Algoma Central Railway, which means to rehabilitate the defunct Soo industries, was introduced, Mr. Whitney gave notice of intention to oppose the proposition with all the force at his command.

He stated that the bill would be a "stupid" proposal, and said it would never have been introduced if the premier had a sufficient majority to defend himself against the importunities of a large fraction of his precarious majority.

The opposition occurred in a memorial to the Dominion government praying for a subsidy to the Temiskaming Railway, but Mr. Whitney assertedly criticized the government for allowing two years to pass without securing the usual grant. Several of the opposition members joined in the attack.

The whole of the evening session was taken up with the consideration of the estimates. Mr. Whitney inserted a payment of \$600 to Saturday Night for "advertising" the advantages of the sayings and prayers of the province. This discovery formed a fruitful topic for two hours.

As the session closed Mr. Whitney drew from the premier the statement that he did not know whether the promised liquor bill would be introduced or not. The government caucus on this question seems to have been anything but a harmonious affair.

How Mr. Whitney Describes Premier Ross' Bill to Aid Capped Soo Industries.

The opposition heartily concurred in the government resolution to memorialize the Dominion government to grant a subsidy to the Temiskaming Railway, but before the resolution was passed the government was severely criticized for its inaction in allowing two years to pass before taking the matter up seriously. The resolution was to this effect:

Moved by Mr. Ross, seconded by Mr. Gibson, that the government respectfully memorialize the Dominion government to grant a subsidy to the Temiskaming Railway by way of aid to the Soo industries.

The speaker of the house, Mr. Whitney, said that the Dominion government had been brought down, and among other things, called for a resolution to the effect that a first objective against the law, it contained no proposition to reduce the liquor tax, but the abolition of the bar and the business of catering to the thirsty.

Middle Road Popular.

The middle road, and the one that will probably be adopted, is a compromise between the two extremes. It is a bill which would bring down this session, when the question was put to him during the last meeting of last night's caucus of the legislature.

There were other schemes discussed. One that was laid down, a license which would be required to sell liquor, but the seller of liquor without fee. How this would work out is a question, but it is said to be a very good one.

However, was not received with any degree of seriousness, was that the government should be asked for the recovery of the liquor tax. It is a question, but it is said to be a very good one.

Mr. Ross said it was not for war purposes.

CITIZENS' MASS MEETING BACKS MOVE OF COUNCIL FOR A PENALTY CLAUSE

Ratepayers of Kingston Strongly Favor Passing of Bylaw to Buy Light Company.

KEEN FOR MUNICIPAL OWNERSHIP

Average Cost to the Consumer Will Be Reduced From \$26 to \$6, It is Contended.

Kingston, March 8.—(Special).—An immense gathering of ratepayers assembled in the city hall tonight at a mass meeting called by Ald. Tor, chairman of the civic fire and light committee, to discuss the question of the acquisition of the plant of the Light, Heat and Power Company by the city. A majority of those present were property owners, who are primarily interested in the passage of the proposed bylaw.

From the feeling of the meeting, the passage of the bylaw is assured. Interest was intense all thru the meeting and each point brought out by the different speakers in favor of the municipalization of the plant was warmly applauded. Mayor Bell presided, and in a few words pointed out the necessity of the city acquiring the lighting plant, and expressed the hope that every property owner would support the bylaw. Senator Sullivan followed along the same line, showing how the municipalization of the waterworks plant had proved profitable to the citizens. He strongly endorsed the bylaw and counselled all present to support it.

City Could Make Money.

Ex-Mayor Polson, who presided, and strongly advocated acquiring the plant. He quoted figures to bear out his contention that the city would make money by taking over the plant. Ex-Mayor Gieskin spoke in much the same way, quoting figures to show that the company had made large profits out of the plant, and that the plant, under municipal control, could be a profitable investment for consumers.

Ex-Mayor Thompson pointed out that the new service would prove more profitable than had the acquisition of the waterworks plant. BY WHICH THE AVERAGE COST PER CONSUMER WAS REDUCED FROM \$26 TO \$6.

Mattress Factory Wrecked by Flames Employees Jumped to Save their Lives

One Man May Die as Result of \$100,000 Fire on Buchanan St. Yesterday Afternoon.

Flames, which spread rapidly, utterly destroyed the four-story factory building of D. W. Thompson & Co., cabinet, mattress and mattress manufacturers, on Buchanan-street, yesterday afternoon, endangering the safety of employees, some of whom jumped for their lives, resulting in serious injuries to one, and later impeding the firemen for mending ways. Seldom has a big structure been more thoroughly or quickly destroyed, and the blaze was spectacular.

The factory includes two buildings, one of which is the office, the other three. In the former are the offices, show rooms and flagging rooms, with what is called the wire room in the basement. An elevator in the building is said to have caused the fire, and the slight delay on the part of employees in trying to extinguish the blaze with and before calling for the fire department gave the flames a start. When home No. 8, only a couple of minutes' run away, arrived on a telephone alarm, the fire had shot up the elevator shaft apparently and destroyed the entire building. Dozens of windows of smoke were pouring from the windows and the cellar was a sea of fire.

VIOLATES MONROE DOCTRINE.

French Filibusters Prepared to Seize Brazil Territory

Washington, March 8.—News was received here today from Paris that syndicates organized in France have purchased four steamships to carry a filibustering expedition to the territory of Brazil, lying between the Oyapok and the Amazon Rivers.

The report from Paris is of importance to this government, as any attempt on the part of Europeans to interfere with the sovereignty of Brazil over the territory in question may be construed as a violation of the Monroe doctrine. It was said here today that the proposed expedition was organized by the French government, and that anything suggesting an attempt to violate the Monroe doctrine will not be tolerated by the Washington administration.

According to belief in Washington, the proposed expedition is fostered by a Mr. Bregat, whose home is in Cayenne, but who now resides in Paris. He has announced himself as the president of the expedition, and acting as the agent of the colonists of French Guiana, who resent the decision of the States government in awarding the territory to Brazil. The Brazilian government is exceedingly anxious to acquire the territory between the Oyapok and the Amazon.

LAW'S DELAYS.

New York Journal, Justice Clarke of the supreme court yesterday pointed his finger straight at one of the most serious causes of the law's delay. When his calendar was called, Justice Clarke pointed to an adjournment of cases. Justice Clarke marked that he would like to have the court which is investigating the reasons for dragging litigation to come into his court and see what work is being done.

TWO YEARS OF INACTIVITY

Continued From Page 1.

side from the Dominion legislature might be encouraged, pending the fact that other demands were made to continue the railway to James Bay, that in view of the burdens which the province will have to bear in the construction of a considerable portion of the T. & N. P. and in view of the contribution which the construction of the Temiskaming railway will make to the population of Canada, and in view of the subsidies already granted to other railways of no greater importance, the memorialists earnestly press upon the Dominion government the propriety of granting the usual subsidy of \$2,200 a mile to the railway and any extension thereof, and such additional subsidy as other railways, under similar circumstances, are allowed.

Ontario's Share of Burden. The premier elaborated some of the details of the position, and then said he had studied various reports on the question of subsidies as between Ontario and Quebec. He was not going to say the other province received more than their share, or that Ontario should not provide for its own railways, but he pointed out that the Dominion government had granted three million dollars for the construction of 10,000,000 miles of railway, and 30,000,000 acres of land, and since the premier came to the legislature he had been asked to say if the Dominion government did not grant the subsidy asked for the time being, he would be obliged to ask the government to pay for the railway in a more forcible manner. The government had not failed to bring the matter before the legislature, and particularly to the attention of Sir Wilfrid Laurier, who, while recognizing the merits of the case, had refused to grant the subsidy in a more forcible manner, but he had failed to do so.

Mr. Whitney Approves. The leader of the opposition was glad to approve of the resolution. On that side of the house the vote was 20 to 10. The resolution was adopted, and had in many cases met with opposition from the government, but he was glad to see that some of these ideas had been adopted, and the government had been asked to grant the subsidy in a more forcible manner. He was glad to see that the government had been asked to grant the subsidy in a more forcible manner.

Did anything occur at Ottawa which would lead to the granting of this subsidy? Whatever the opinion of government members, the hon. member had a right to expect that of the opposition. He was glad to see that the government had been asked to grant the subsidy in a more forcible manner.

TAX THEM AT ACTUAL VALUE

Brantford Township Council is Out After the Railways.

Brantford, March 8.—(Special)—The Brantford Township Council in session today passed the following resolution in regard to the taxation of railways.

"That in the opinion of this council railways under existing assessment laws are not sufficiently taxed, and that all railways should be taxed on their actual value, and that this council respectfully urge the members of the north-western division of the County of Brant to use their utmost endeavors to have the Assessment Act so amended that railways should be taxed in the various municipalities according to the actual value of the property of railways fixed on the basis of an entire system."

GOVERNMENT CONSIDERING.

London, March 8.—An interesting question was answered by Premier Balfour in today's parliamentary debates giving replies to questions.

One raised the question of the use of naval ports by belligerents. The member who asked the question referred to the use which Russian warships recently made and are still making of the ports of Canada, Suez and Port Said, and suggested the desirability of communicating to the neutral powers possessing seaboard or trade routes between Great Britain and the Mediterranean, and the views of his Majesty's government as to the duties which should be exacted of the warships of belligerents seeking to use neutral ports in connection with their military operations.

Mr. Balfour, while not explaining the government's attitude, admitted that the matter raised was of the greatest international importance, and said they were receiving the attention of the government.

EXPECTS TO BEAT OLIVER.

Montreal, March 8.—(Special)—Mr. Scott, M.P.A., of Edmonton, and Conservative candidate against Frank Oliver, M.P., is here to-day and expresses the belief that he will receive a majority of the vote in the division. He says Edmonton's population has increased from 2700 in 1901 to 9000, and in ten years the population has increased from 2700 in 1901 to 9000, and in ten years the population has increased from 2700 in 1901 to 9000.

When asked to express an opinion on the railway question Mr. Scott replied that he wanted all the railways they could get, and that there was plenty of room for both the Canadian Northern and the Grand Trunk Pacific.

EXAMINATION ON APRIL 13.

London, March 8.—The trustees of the will of the late Cecil Rhodes announce for the information of the college authorities in the United States and Canada that a qualifying examination for Rhodes scholarships will be held simultaneously in each state or province beginning April 13.

The committee of selection will be furnished with examination papers prepared by the trustees of the Rhodes trust, and by March 17 to the committee of selection, who will be asked to fix a date for the examination. George R. Parkin, the representative of the trustees, leaves England for New York about March 15.

MOB FIRES A SWELLING

White Men Rage While Negroes Remain Calm—Grievous Trouble Expected.

Springfield, O., March 8.—Threats throughout the day and this evening the levee, the negro district of the city, caused Mayor G. J. Bowler to ask Governor Herrick for troops. Two companies from Dayton and one each from Mansburg, Urbana and Columbus, were promised to reinforce the two local companies. Many of the negroes of the city were surly tonight and it is believed only slight provocation was needed to start a race war. Crowds of whites gathered in the vicinity of the levee and the rioting police were ordered to report for duty.

At 9:30 the crowd in the levee district had increased to 1500 and one or two revolver shots had been fired at random. In contrast with last night not a negro was to be seen in the downtown districts, although hundreds of them were thought to be heavily armed and awaiting an attack. All sections throughout the city were closed.

A crowd of 200 men assembled along the Big Four street, which is almost blockading Washington street, which is known as the levee. Two hundred negroes were clustered together in just west of Mountain avenue, in the levee district. The negroes were quiet. The other crowd was boisterous. Rifle shots were heard, no one was reported injured. Mayor Bowler and other officials remained in the mayor's office, where the mayor was in constant communication with Major Kirkpatrick of the militia and Governor Herrick.

At 11:20 the threat of the mob was made good, and a volume of flame was sent to Springfield from the rear of a place occupied by "Les" Thomas, a colored saloon-keeper. Preceding the firing of the building, the mob, at a distance of 100 feet, shot at the front of the building for a half hour, but it is not known whether anyone was injured. The fire spread both ways in the mob. The fire spread both ways in the mob. The fire spread both ways in the mob.

MILITIA ORDERED OUT

Columbus, O., March 8.—Upon urgent requests of Mayor Bowler of Springfield that a race war is imminent, as a result of the lynching of the negro, Dixon, Governor Herrick tonight ordered eight companies of militia to Springfield to preserve order. Springfield, Urbana, Dayton, Xenia, Mansburg and Piqua were called out. Governor Herrick ordered Mayor Bowler to close the saloons and instructed the colored members of Company A, 9th battalion, to rest on their arms and the army and see that none of the boys were stolen.

PECULIAR STATE OF AFFAIRS.

Sender of Poisoned Candy Can't Be Brought to Justice. Des Moines, Ia., March 8.—Mrs. Sherman Dye of Boone, accused of sending poisoned candy to Miss Nelson at Pierre, S. D., of whom she was said to be jealous, and from which Miss Nelson died, cannot be brought to justice. Neither can she be tried for murder in Iowa. This was the purpose of the action taken yesterday by Governor Cummins today. In his decision the governor says that under the extradition law the person accused must have been personally in the state where the crime was committed, and must have been in the state after the commission of the crime. Mrs. Dye was not in South Dakota. As to her trial in Iowa, he said: "I regret the conclusion, but because if Mrs. Dye is guilty of murder she must be tried for that offense in South Dakota or not at all unless the statute be changed." He will recommend such a change in the statute.

TRIPLETS.

Woodstock, March 8.—To Mr. and Mrs. Harry Swanson of Dundas street east were born yesterday morning triplets, consisting of two girls and a boy. Unfortunately the two former have died. FROM THE COURTS

Talk of Criminal Conspiracy Among Clerks to Discredit Harry Page's Evidence—End of Investigation Into Assessment Department in Sight.

One after another the assessors and controllers of Toronto went into the box yesterday to deny that they could cast light on the padding of the voters' list during the past few years, which Ald. Woods swore was so general in high places. The only bit of interesting information from this source came through the cross-examination of A. J. John Dunn, and this was chiefly due to the fact that he is responsible for the investigation into the assessment department.

Rather a sensational turn was given the inquiry by the charge made by Mr. DuVernet, representing Ald. Dunn, that the clerks in the assessment department were in a conspiracy to break down the evidence of Harry Page, and exonerate Commissioner Fleming. The charge was made deliberately, based upon revelations so startling as to cause Mr. Riddell to observe to one of the witnesses that he was denouncing the man who had charged.

With considerable dramatic effect, Mr. DuVernet charged the clerks of the department with having been interested in a criminal conspiracy to discredit the evidence of Page. Lewis denied that the statements were prepared for the purpose of having the clerks swear to them, but said they supplied the true facts in the case and were merely intended to bring to the memory of the men in the office. No copy of these statements had been supplied to Mr. Riddell, and the civic prosecutor was visibly annoyed by the revelations.

Mr. Riddell observed that he hoped to get the balance of the evidence in the case, and that he was in office. He addressed what he was in office.

Mr. DuVernet next produced a written statement, "Answers to discrepancies in the evidence of Harry J. Page." Mr. Lewis admitted that it had been a duplicate of the copy of the witness's copy were made. There were six. "And to whom were they delivered?" "One was given to the assessor, and the balance were kept by the clerks."

Law Wins in Argument, But Theology in Style—Result of Intercollegiate Debate.

Last night in Wycliffe Convocation Hall, Osgoode Hall successfully contested the final debate of the Intercollegiate Debating Union of Toronto, being awarded to honor by the narrowest possible margin of points.

"Resolved, that it would be in the best interests of society in Canada that in order to remove the present difficulties in obtaining divorce and for other reasons, the present divorce law be amended so as to conform to the ordinary judicial tribunals."

The affirmative was upheld by Osgoode Hall, whose chosen champions were J. B. Coyne, B.A., and M. A. Macdonald, while the negative was supported by G. C. Matthews, M.A., and J. M. Warner, who represented McMaster, Professor Hume of Toronto University, G. C. James, M.A., and J. M. Warner, who represented McMaster.

Young Wife of Mormon Tells Story of Her Life

Declares She Was Made a Plural Wife After Church Pretended to Abandon Polygamy.

Washington, March 8.—The story of the Mormon wife, living in a state of polygamy, maltreated and neglected by the severely wived husband, was told on the witness stand of the senate committee on privilege and elections, Monday, March 8.

Mabel Barber Kennedy, a comely, modest and intelligent young woman, Mormon by inheritance, and at one time a plural wife, who subsequently repudiated polygamy and left her husband to live according to the orthodox Gentile marriage law, was the witness.

She gave facts and dates disproving the assertion of Joseph Smith, the Mormon president, that not since the manifesto of 1850 has the Mormon Church permitted or sanctioned plural marriages. Mrs. Kennedy is a little dark-haired woman with shining brown eyes, a pretty face and a bright, snappy manner. She was attired becomingly in a dark gown and became very interesting only at times when closely questioned concerning her marriage ceremony.

Gained Ten Pounds.

His Weight Increased Many Pounds. His Health and Strength Completely Restored by Ferreroze, the Great Food Tonic.

Mr. A. L. Godfrey is well known to everyone in Victoria, where he has been engaged in business for many years. Last winter he fell ill, he writes, "and recovered very slowly. When well enough to leave the house I was many pounds lighter than usual weight. My appetite was poor and my blood was thin. Ferreroze did me good."

"I consider Ferreroze a wonderful tonic and a first-class remedy for people who are run down. My reasons for believing Ferreroze so good lie in the fact that I used it for several months ago I was run down, tired and nervous. I had once before been benefited by Ferreroze, when living in Boston, and started using it again. Ferreroze at once gave me a splendid appetite, toned up my nerves, and actually made me fat. I used Ferreroze regularly and increased my weight several pounds. My cheeks filled out and I became rosy. My nervous system disappeared, and I haven't had a single day's illness since using Ferreroze."

Alward, Whites Point, N.B., has to say about them: "This is to certify that I have used Doan's Kidney Pills for pain in the back and kidney trouble and do most gratefully recommend them to any person suffering in this way. I was so bad with kidney trouble that I could not get around the house. My feet and ankles were so swollen and painful that I could get no rest day or night. I tried several remedies but could get no relief. My doctor's friend advised me to try Doan's Kidney Pills. I soon perceived a decided change for the better and had only taken two boxes when I was able to do my household work again, and three boxes made a complete cure."

\$120,000 FOR MISSIONS.

Estimates of Presbyterian Home Mission Committee Totaled.

The home mission committee of the Presbyterian Church in Canada met in Knox church yesterday with a large attendance. The reports presented were very gratifying. Dr. Warden stated that in spite of the fears that there would be a deficit, the receipts during February were \$15,000 in advance of the same month last year. The whole year was expected to reach \$120,000. The committee estimated that the total for the year would be \$120,000.

JARS AFTER A LOAN.

Think It Advisable to Place One as Soon as Possible.

Tokio, March 8.—The Japanese government, it is considered, is considering the advisability of seeking to secure promptly a loan in America and Europe. It is estimated that enough bonds could be sold at home to provide sufficient money to prosecute the war for at least one year and a half, and all the Japanese statesmen and financiers believe that Japan is capable of engaging in a long and arduous struggle without borrowing a single cent abroad. It is a year or two a contingency when money may be seriously needed. It is thought that it would be better to place a loan now, if possible, rather than attempt to do so in a future crisis, when money may be badly needed.

Bombardment Brought Deaths.

San Juan, P. R., March 8.—A letter received here from San Pedro de Macoris, Santo Domingo, gives details of the bombardment of the city of Macoris, P. R., by the Dominicans. The city was shelled for several hours, and 60 men on board of her were killed. Only six of the crew escaped without wounds. A RESTORATION.

A restoration from the roots upwards must take place to cure an obstinate cough. The inflammation begins way up at the bottom of the throat and throat and when it finishes its work there it is no inflammation left.

GAUCY WILL SPEAK.

Mr. E. L. Little, M.L.A., will speak at a political meeting in Riverview, Wellington Township, on Saturday evening.

A HUMAN MATCH FACTORY.

The body of the average man contains phosphorus sufficient to make 48,840 matches, enough to fill about 6,000 boxes, allowing eighty matches to the box. Phosphorus is one of the elements entering into the composition of the body. It is divided among the bones, flesh, nervous system and other organs. Without phosphorus the brain would be weak, the body feeble, and the bones would disintegrate leaving man a squiddy invertebrate squirming in the dust. The perfect human body requires a perfect balance of the constituent elements of which it is composed. The carbon, iron, lime, sulphur, sodium, and potassium are the elements which make up the human energy. Take all the iron from the blood and the circulation stops. That is death. Change the proper proportion of these substances to each other, destroy their natural balance in the body, and you destroy the balance of health.

Where do these essential elements of vital force come from? From the food we eat. How are they extracted and distributed to the several organs they sustain? They are extracted and distributed by the stomach and other organs of digestion and nutrition. What happens when the stomach is "weak"? The food is only partly digested and assimilated. And then what? Then the balance of health is destroyed and there's blood "trouble," nerve "trouble," lung "trouble," heart "trouble," or some other "trouble" with the vital organs of the body. Pain is the hunger cry of the starved organs.

Put the stomach and organs of digestion and nutrition into a condition of sound health. That is just what is done by Dr. Pierce's Golden Medical Discovery and that is just the secret of the many marvelous cures effected by this remedy. No medicine can make fat or flesh. Food alone can make them. Only the stomach and its allied organs can extract from the food the elements that make flesh and fat and sustain life. "Nerve trouble," "blood-making" medicines are mere fads and fallacies. The stomach and organs of digestion and nutrition prepare and distribute the food. Dr. Pierce's Golden Medical Discovery is not a cure-all, but it cures the human body of the stomach and organs of digestion and nutrition. The rest Nature does. Nature feeds the nerves, cleans the blood, restores the vitality of the failing vital powers. "Golden Medical Discovery" only removes the obstructions disease has put in Nature's way. There is no alcohol in "Golden Medical Discovery" and it contains neither opium, cocaine nor any other narcotic.

Sick Stomach is working-- Sick Owner is idle

If you will give your digestion a rest, it will go along. You can do this by means of

DR. VON STAN'S PINEAPPLE TABLETS

which digest your food and rest your stomach. You want relief and cure. Pineapple relieves at once and cures quickly. No stomach can rest except it can rest while digestion goes on safely. The patient eats heartily while taking his cure. It strengthens the weakest stomach.

Pineapple is nature's simplest and quickest cure—Price, 35c. In five minutes after using Dr. Agnew's Cathartic Powder the bowels are moved, and the work is quickly completed. New health, comfort in breathing, new vigor, and removal of danger of consumption or pulmonary trouble.

Before and after the debate, songs, a violin and piano were given with much acceptance. The hall was crowded, and the debate was followed with close interest. The more salient points being loudly applauded.

Mr. John Beets of the Bull's Head Hotel is the party who had his leg broken in a fight with some rowdies on Monday night.

CHART OF HEALTH.

The throat and roots of disease on which health is largely dependent. Dr. Pierce's Chart of Health is a complete and accurate chart of the human body, showing the location of the various organs and the points of entry of disease. It is a valuable aid to the physician and the patient alike. It is a complete and accurate chart of the human body, showing the location of the various organs and the points of entry of disease. A LEGISLATIVE GUARANTEE

Do the people of Ontario know that the Ontario Act means financially to the franchiseholding corporations of the province. It means a legislative guarantee of every dollar invested in these enterprises.

MEANING OF MORMONISM

There is more or less interest for Canadians in the investigation at Washington into the methods of the Mormon church. The Northwest Territories are being settled by large numbers of the " Latter Day Saints," as the adherents of the polygamous doctrine term themselves.

PROHIBITION AND POLITICS

The reports of the government caucus held yesterday do not agree in all respects, but two things seem clear. The Liberal members are divided on the question. The premier is inclined to go further in the direction of prohibition than the majority of his followers.

WARSHIPS HEMMED IN

London, March 8.—Revised versions of the bombardment of Vladivostok have been circulating in the press. It was done by the shells, but leaves several mysteries unexplained. One is the constitution of the attacking squadron.

AN HONEST REPROBATE

New York World: The testimony of Joseph Smith, the Mormon president, has left the country gasping in disbelief. His admission of a "hold dear, and admission for the superb courage of his conduct" is certainly a revelation.

REPRESENTATION OF THE WEST

It is reported that the immigrant arrivals into Western Canada last year were 128,364. This, on our present basis of representation, would mean five new members, or one more than the entire representation of the territories in the present house.

A MASTICATING WOODER

Imagine an intelligent man in the year 1904 not being ashamed to make such a statement! He says he believes in polygamy as a divine institution. Polygamy is an invention of brutish men to degrade women, and a curse upon the race.

CHAMBERLAIN'S NEW MANNERISM

London Chronicle: The mannerisms of great men are always a subject of interest. Mr. Chamberlain is no exception. In putting off his cheek slightly when he is interrupted, as if he were blowing away the person who dared to break the continuity of his speech, it is not a new mannerism.

CORRUPTION AND THE FRANCHISE

N. W. Rowell, K.C., thinks that the franchise in Dominion and provincial elections is too low, and that some political evils may be traced to this cause.

IT IS THOUGHT THAT THE JAPS ARE PREPARING FOR BIG FIGHT IN JAPAN SEA

St. Petersburg, March 8.—The whereabouts of Captain Reitzenstein's Vladivostok squadron is carefully guarded by the military authorities, but there is a strong impression here that the seven Japanese warships appeared off the harbor Sunday and yesterday the Russian squadron was outside, perhaps down the coast, co-operating with the Russian land force near the mouth of the Tumen River.

TO STRAIGHTEN THE DON

The City of Toronto's bill for the straightening of the Don was discussed in the private bills committee yesterday morning. J. A. Paterson, K.C., appeared on behalf of the University of Toronto. Under the charter given by the Ontario government in 1880, some 1300 acres were acquired by the city for the vicinity of Ashbridge's Bay on condition that all rents and revenue derived therefrom were to be expended on improvements in Queen's Park.

W.A. Murray & Co. Limited Dressy Dress Fabrics For Spring 1904

SOON as you see the name you know instinctively the character of costume for which the fabric is intended—thus Voile, that lovely, soft, pliable material, appeals to you at once as the correct thing for a dressy afternoon gown.

Of tailor-made suitings it may be said that quiet, mannish types find greatest favor with fashionable dressing women—neat, indefinite checks, stripes and mixtures winning favor where more pronounced effects get little or no sanction.

Moreen Skirts \$4 to \$4.50. Tailor Made Costumes. A thorough shipment of Tailor-mades came through from New York yesterday.

WOMEN'S \$4 BOOTS, THURSDAY \$2.90. Here's striking evidence of our shoe chief's wideawakeness—brand new spring footwear priced less by almost a third, and he's not the loser.

HOUSEHOLD GOODS. We carry a complete line of the newest kitchen fixtures, including WASHERS, WRINGERS, MEAT CHOPPERS—COFFEE MILLS, VEGETABLE SLICERS, ETC.
