Russia Is About To Change Capital; Moscow Instead of Petrograd

Petrograd, Oct. 19.—The government has definitely determined to move to Moscow in the very near future. ABANDONING REVAL Petrograd, Oct. 19.—The newspapers publish an official communication that the evacuation of the fortified port of Reval, on the Baltic at the entrance of the Gulf of Finland, has begun. The schools at Reval have been closed. The inhabitants are being sent to the interior of Russia. Announcement that the government will move to Moscow was made by M. Kishkin, minister of public welfare.

After the capture of Riga by the Germans preparations for the removal of the government to Moscow were begun, but the failure of the Germans to develop their offensive, as well as the approach of winter weather making open campaign impossible, relieved the fears for the safety of Petrograd for the near future. Last week it was announced that the preparations for the transferring the seat of government had been stopped as there was no prospect that such action would be necessary at least for some time. The new offensive by the Germans, resulting in the capture of Oesel and Moon Islands, and the threat of an invasion of Estonia, again changed the situation, however, and may be responsible for the decision to remove the government to Moscow, the ancient capital.

The turbulent political situation in Petrograd, and the presence of large numbers of extremists and agitators there may also have influenced the cabinet. Armed Force if Necessary Petrograd, Oct. 19.—The executive council of the workmen and soldiers' delegates has adopted a resolution that, in view of the disorders throughout the country, which seriously menace the cause of liberty, all local groups are urged to repress such disorders without mercy, even by armed force. Eager to Fight Petrograd, Oct. 19.—The sailors of the main Baltic fleet are reported keen to fight. The men at Kronstadt are demanding that the ships be sent out to meet the Germans, but the government is understood to have taken the position that, as the enemy forces are superior, it would be disaster to leave Petrograd undefended.

Criticizes British Fleet London, Oct. 19.—The Daily Mail condemns what it calls the failure of the British fleet to prevent the German fleet from becoming master of the Gulf of Riga, and demands that the admiralty make an explanation. After recalling the success of the British submarines against the Germans in the Baltic in 1915, the newspaper says: "The Germans have accomplished all they were prevented from achieving in 1915, and they have done so without a single blow being struck at them by any of the British navy—a navy far stronger than it was two years ago, and recently reinforced by the addition of the American fleet."

Opinion in Washington Washington, Oct. 19.—Russian officials here say that the Kerensky government felt it could work with fewer hempering influences in Moscow than in Petrograd, which is the centre of the opposition. The German advance, Russian officials here say, undoubtedly has strengthened the extreme radicals in the council of soldiers and workmen's delegates. GERMANS LOSE TWO TORPEDO BOATS Petrograd, Oct. 19.—Two German torpedo boats were sunk in the mine fields in Moon Sound yesterday. The war office so announces.

PRISON FARM NOW USED FOR RETURNED SOLDIERS Guelph, Ont., Oct. 19.—The old provincial prison farm at Guelph is now being used for the purpose of receiving returned soldiers, the first of the invalided men to be treated here, arrived and took up quarters in the Guelph convalescent home yesterday, and he quickly followed by more until 850 are housed here.

RECEPTION FOR PREMIER FOSTER Victoria County News.—The friends and supporters of the Foster government held a reception last evening in the court house, Andover, N. B., in honor of Premier W. E. Foster, who was here for the purpose of meeting the people during the evening luncheon was served by the lady friends. Addresses were made by the premier, the Hon. J. P. Tweeddale, James E. Porter, and S. P. Waite.

BIG MAJORITY WANT EXEMPTION Winnipeg, Oct. 19.—The latest figures given out by the registrar show that there were 2,009 claims for exemption, and 335 reports for service. Approximately 3,400 men passed through the hands of the clerks yesterday.

COUNTRY MARKET In the country market this morning, chickens were selling for thirty-five cents a pound, and fowl from thirty to thirty-five. Butter was from forty-eight to fifty, and eggs the same price. Veal sold for thirty cents for roasts, and thirty-five for cutlets, lamb from twenty to thirty cents for roasts and from twenty-five to thirty for chops. Pork was thirty cents, and chops thirty-five cents. There was practically no change in the price of vegetables this week.

HOW THAT CUB HAS GROWN!

LIBERALS TO FIGHT UNDER SIR WILFRID

Indication in Ottawa; A Conference FORTY AT GATHERING Men From Ontario, East of Kingston—Other Political Bts From Various Parts of Canada (Special to Times.) Ottawa, Oct. 19.—Forty Liberal members, candidates and representatives of Liberal organizations of Ontario, east of Kingston, assembled in Ottawa this morning and behind closed doors began a conference with Sir Wilfrid Laurier on the political situation. As union government yesterday set out its position in a manifesto issued by Sir Robert Borden, the Liberals found themselves provided with something definite to work upon. The indications are that the Liberals will adhere to their opposition position in the event of the appointment of Sir Wilfrid as leader. The refusal of Premier Murray to join Borden and union is having an influence upon the situation so far as the gathering is concerned. A statement of conclusion is expected at the close of the conference tonight.

No New Leader Yet in Ontario Toronto, Oct. 19.—While the Ontario Liberals did not choose a successor to Hon. N. W. Rowell as leader of the opposition in the legislature at their meeting yesterday afternoon they passed a resolution expressing their determination to continue the fight for the progressive policies advocated in recent years, and formed a committee of seven to decide on the mode of procedure in connection with the appointment of a provincial leader and to formulate the programme of business to be brought before another meeting, to be held within the next thirty days.

LONGON-ALLAN A pretty wedding took place last evening at the residence of the bride's parents, Daniel T. Penobscot, Kings County, when his niece, Miss Frances L. Allan of St. John, was united in marriage to John Longon, also of St. John. The bride, who was attractively gowned in a brown traveling suit with hat to match and wearing a corsage bouquet of carnations, entered the parlor to the strains of the wedding march played by Miss Jennie Dymart, cousin of the bride. The ceremony was performed by Rev. Mr. Richards. They were unattended. After the ceremony a reception luncheon was served after which Mr. and Mrs. Longon left on a short wedding trip and on their return they will reside in St. John.

WEATHER REPORT Issued by Authority of Marine and Fisheries, B. F. Sturges, director of meteorological service. Synopsis.—Since yesterday the centre of disturbance has moved from northern Wisconsin to the Upper Ottawa Valley. Rain has been general in Ontario and light snowfalls have occurred in parts of the western provinces. East of the great lakes the weather is mild and to the westward it is cold.

FORECASTS Upper St. Lawrence and Ottawa Valley.—Strong south to west winds, with rain; Saturday, strong westerly winds, mostly fair and much colder. Lower St. Lawrence, Gulf and North Shore.—Strong winds and moderate gales, south and southwest, showery today and Saturday.

SHOWERY TOMORROW Maritime.—Strong winds and moderate gales, south and southwest, fair today and Saturday. New England.—Rain tonight, probably clearing Saturday morning; colder tonight in Massachusetts, but much colder Saturday; fresh to strong winds this afternoon and tonight, becoming west on Saturday.

NOT COMPULSORY TO SEE DOCTORS FIRST IF CLAIMING EXEMPTION Ottawa, Oct. 19.—In regard to medical examinations, the military service council issues the following statement: "The impression seems to prevail in some quarters that the procedure adopted in connection with the enforcement of the military service act makes it compulsory for a member of class 1 to be medically examined before claiming exemption. This idea is entirely erroneous. Facilities for medical examination were arranged in advance of the issue of the proclamation to serve the convenience of the public, and the extent to which the medical boards have been sought indicates that the public have appreciated the advantages. Medical examination, however, prior to reporting for service or claiming exemption is and has always been optional. The council has strongly recommended and will strongly recommend to members of the class, wherever it is practical, to be examined before reporting or claiming exemption, but where this course presents unusual difficulty it would be better for the man to wait until after he has put in his report for service or his claim for exemption, and he will receive notice in due course as to his medical examination."

BELIEVED TO BE PLOT TO BLOW UP SHIP IN BROOKLYN DRY DOCK New York, Oct. 19.—An alleged plot to damage or blow up a United States passenger transport here is believed to have been frustrated when the police today arrested a Scandinavian charged with attempting to bribe a ship mechanic to go aboard the vessel. The man arrested is Charles Wallman, a pantryman employed on a yacht owned by Harry Payne Whitney. The transport is the Danzig, Pennobscot, Kings County, United States entered the ward, and being overhauled at a Brooklyn dry-dock.

CONSTANTINE ONCE MORE ON OPERATING TABLE Paris, Oct. 19.—A Zurich despatch to the Matin says the old wounds of former King Constantine of Greece have reopened and that an operation was performed in Zurich yesterday. His condition is said to be most grave.

NEW YORK HAS MILK STRIKE New York, Oct. 19.—Because their demands for more wages, a larger commission on sales and union re-organization were refused, 1,400 of the 2,000 drivers, inspectors and milk handlers of the Borden's Farm Products Company struck early today. The normal distribution of milk in New York city was curtailed by nearly one-third.

FRENCH INTO GERMAN LINES AT SEVERAL POINTS

Damage Done to Enemy Works and Prisoners Taken; British Bomb Air-drome in Flanders Paris, Oct. 19.—Today's official French report says: "After particularly effective artillery preparation a series of detail operations enabled us to penetrate the German defenses in the region of Bray-En-Laonnois and Laffaux Mill. We destroyed German defenses and brought back 100 prisoners belonging to four divisions. An enemy attempt against our small posts in the Chevreux salient was repulsed. "Between the Mielt and the Aisne we inflicted severe losses on the enemy and captured materials. In the Champagne one of our detachments penetrated the German trenches north of the Casque, pursued the retreating en-

emy, and after a spirited combat, returned to its own lines. "On the right bank of the Meuse we repulsed a German attack north of Chantillon-Sous-Les-Cotes. "Twenty bombs were dropped by aviators last night in the region of Donkirk. No victims are reported. On October 16 two German airplanes were brought down by the automobile artillery. "British Report London, Oct. 19.—"Many bombs were dropped yesterday with satisfactory results on the Varsenacere air-drome (Flanders) by naval aircraft," says an official announcement given out today. "All our machines returned safely."

ONE MORE U-BOAT THAT WILL SINK NO MORE VESSELS

A Pacific Port, Oct. 19.—Officers of a Japanese steamer, here today from a European port, said they saw a destroyer sink a German submarine in the Atlantic on August 16. The submarine had just made an attack on another Japanese freighter which arrived this week with the story of its escape.

KEY TO WOBBLING POLICY OF GERMANY ON PEACE

Copenhagen, Oct. 19.—The key to the policy of the German government in refusing to make any definite statement of peace terms is furnished by Herr Hoch, a socialist member of the Reichstag.—German newspapers report that the deputy yesterday said that Dr. Von Bethmann-Hollweg, before his retirement as imperial chancellor, declared to the socialist members of the Reichstag that as chancellor he could not commit himself, but must pull out in the peace negotiations whatever could be obtained for Germany.

EX-CZAR MUST USE FOOD CARDS TO GET SUPPLIES

Petrograd, Oct. 19.—The family of Nicholas Romanoff, former Emperor of Russia, now procures its food supply by the use of cards. The authorities in the Tobolsk district are issuing food cards and the Romanoffs must obtain their food the same as other citizens.

DEFENCE THIS AFTERNOON IN WOODSTOCK CASE

Woodstock, N.B., Oct. 19.—The Taylor trial for alleged attempted poisoning of the Shannon brothers was continued this morning. Several witnesses for the crown were examined but nothing of a startling nature developed. The defence will probably commence late this afternoon.

SEAL OF RIGHTEOUSNESS PLACED ON ALLIES PART IN WAR BY ENTRANCE OF U. S. INTO CONFLICT.

New York, Oct. 19.—America's entrance into the war placed the seal of righteousness upon the conflict being waged against autocracy by democracy, declared Viscount Reading, Lord Chief Justice of England, in an address at a Liberty Loan rally in Carnegie Hall here last night.

LEAVES TO JOIN THE ROYAL FLYING CORPS

Flight Lieutenant Royden Foley of the Loch Lomond road left last evening for Toronto to assume the duties of equipment officer with the Royal Flying Corps, a post to which he has just been appointed. Mr. Foley is an expert aviator, skilled both in the making and flying of aircraft and for a time was engaged as an instructor with the United States army. He returned to Canada to place his services at the disposal of his own country and now has received his appointment with the Royal Flying Corps.

FREDERICTON MAN ESCAPES FROM GERMANY

Gunner Fred Boyd's Experiences Material For Novel—Two Others Get Away With Him Fredericton, N. B., Oct. 19.—John Boyd, mechanical foreman of the C. G. R. shops in Gibson, received a letter yesterday from his son, Gunner Fred Boyd, confirming news that he had escaped with two others from a German prison camp and was now interned in Holland, and will leave soon for England, and expects to be home for Christmas.

TEUTON, DEFRANCHISED GIVES TO RED CROSS FUNDS IN TORONTO

Toronto, Oct. 19.—An artisan of Teutonic origin who joined the British Red Cross campaign headquarters here yesterday and laid two \$5 bills on the counter. "I am one of the Canadians who have been disfranchised," he said quietly, "but no government can prevent me from giving my bit to the British Red Cross."

URGENT PEOPLE NOT TO GET PANNICKY OVER SUGAR

Montreal, Oct. 19.—Rumors in business circles here that sugar stocks were exhausted and that this commodity would be unobtainable were branded as much exaggerated by sugar merchants this morning. Merchants announced that if the people kept their heads and did not begin to buy in a panic the sugar shortage problem would be solved. In the meantime grocers here are selling only in small lots, generally one pound of brown sugar to five of white.

OUT OF GERMAN PRISON CAMP COMES MORE NEWS OF HUNGRY HUNS

Halifax, N.S., Oct. 19.—Two letters were received here yesterday from a prison camp in Brandenburg, forty miles from Berlin. They are from Captain C. O. Allen of the steamer Strathcona of the Canada Steamship Lines, which was sunk by a submarine early last spring. The letters, which bear the stamp of the German censorship, are remarkable for the statements which that official has allowed to pass. The captain is allowed to go into the town once a week to do some shopping. "If I had a cartload of canned stuff," he says, "there would not be much left in the country which I could not buy even at the enhanced prices of everything."

Another statement: "I am looking to bring the end. Another winter campaign would be too great a strain on humanity."

In the camp at Brandenburg from 400 to 600 parcels of food arrive daily for the prisoners, and they have a good variety. The letter is dated August 18.

THE EVENING TIMES AND STAR, ST. JOHN, N. B. FRIDAY, OCTOBER 19, 1917

Week-End Specials

CORNER UNION and SYDNEY STS.

LOCAL NEWS

FEW THIS MORNING. The number of local men applying for examination by the standing medical board in connection with the military service act is daily becoming smaller. This morning only fourteen applied. Of this number seven were put in class A, one in class C, and six in class E.

BOTH ARE WOUNDED. Word has been received by Mrs. Herbert Johnston, of Collins, K.C., that her son, Signaller C. R. Johnston had been wounded. This is the third time that Signaller Johnston has been wounded. Word has also been received that Herbert Kelly, son of Mr. and Mrs. J. C. Kelly, Fenwick, K. C., was wounded. Corp. Herbert Kelly enlisted with a

western battalion, and went overseas in June.

SUIT FOR SLANDER. Argument by counsel was heard this morning in the case of Smith vs. Bassen and the case will go to the jury this afternoon. Miss Rilla May Smith is bringing suit against David Bassen for \$2,000 damages for slander based on the allegation that Mr. Bassen explained her dismissal from his store by saying that things had been missed around the store. D. Mullin, K.C., is appearing for the plaintiff and K. A. Wilson for the defendant.

FINE FEAT TO CREDIT OF RUSSIAN AVIATOR. Petrograd, Oct. 19.—A Russian aviator has arrived at Vladivostok after a flight of ten hours from Tiflis across the Caucasus mountains.

Levine's Two Shoe Stores 81-2 BRUSSELLS ST. 96 CHARLOTTE ST.

Good Things Coming —to— Theatres of St. John

OPERA HOUSE TONIGHT; ALL NEW TOMORROW.

Everybody who has attended the Opera House this week has thoroughly enjoyed the remarkably clever impersonations of noted stage favorites offered by Betty Barnett. Tonight will be the last opportunity to see her—so do not let the chance slip by. There are four other good acts on the programme as well as the third chapter of "The Red Act," with Marie Wynn.

The new programme, opening tomorrow afternoon, offers a great novelty in Niobe, styled "the human fish"—vaudeville's prettiest mermaid, in wonderful feats under water in a special tank; Bruce and Betty Morgan, in bits of musical comedy; "Great Lorraine," in stunts on the bounding wire; Farillo and Girtle in a singing and instrumental offering; Holmes and Reilly, vocalists, and the opening of dramatic serial, "The Grey Ghost," with Eddie Polo in a prominent role.

Two shows as usual tomorrow afternoon, at 2 and 2:30; evening at 7:30 and 9.

DON'T FAIL TO SEE THIS AT THE GEM.

There has been much favorable comment on the Gem's new vaudeville acts. Those closing tonight are real good ones and with "The Ransom," a gripping picture, make a very satisfactory show. Last times tonight, 7:15, 8:45. Another big all new bill tomorrow.

SUM GATHERED HERE LIKELY WILL TOTAL MORE THAN \$35,000

The work of counting the money and checking up the subscriptions for the British Red Cross fund, is in progress. The canvass, still in progress, committee was at work in the mayor's room this morning and is continuing this afternoon. While the committee has not been able yet to ascertain the total amount received, it is confidently expected that it will be more than \$35,000. Last year the sum of the contributions for the British Red Cross fund from this city and province was not a matter for pride, chiefly because there was no organized effort to secure funds. This year the matter was handled in quite a different manner, with equally different results. That the people are ready and anxious to give to this cause is shown by the fact that St. John contributed not merely the amount asked for, but \$10,000 more.

Under the circumstances the committee in charge have every reason to feel gratified with the results.

FOR CASH TOMORROW

JAMS ARE SCARCE 30c. Killer's Strawberry. 23c. 30c. Killer's Damson. 23c. 25c. Furnival's Raspberry. 21c.

Gilbert's Grocery

THE WHOLE BODY NEEDS PURE BLOOD

The bones, the muscles, and all the organs of the body depend for their strength and tone and healthy action on pure blood.

If the blood is very impure, the bones become diseased; the muscles become enfeebled, the step loses its elasticity, and there is inability to perform the usual amount of labor. The skin loses its cleanness, and pimples, blotches and other eruptions appear.

Hood's Sarsaparilla makes pure blood. It is positively unequalled in the treatment of scrofula and other humors, catarrh, rheumatism, dyspepsia, loss of appetite, that tired feeling. Be sure to get Hood's and get it today. All druggists.

PERSONALS

Miss Mary Hayes of 24 Clarendon street, left last evening on a visit to relatives in Boston and New York.

Colonel E. A. Doughty of Ottawa arrived in the city today.

Fred M. Handley of Montreal, the engineer who prepared the plans for the equipment for the hospital power house, arrived in the city on the C. P. R. at noon.

Major S. A. Hargratt of the Royal Flying Corps, is at the Royal.

Miss Helen Jones, daughter of Mrs. Ernest Jones, Sussex, graduated as trained nurse on October 12, at Noble Hospital, Westfield, Mass.

Miss Mabel Dixon, daughter of Mrs. Amasa Dixon, formerly of Sackville, but now of Vancouver, B. C., is seriously ill in Vancouver. She underwent two operations for appendicitis.

Halifax Echo—Dr. David Allison and Mrs. Allison will leave on November 1 or thereabouts for a trip to Kentucky, anticipating an absence of about one month.

THE CORN MARKET

Chicago, Oct. 19.—Seasonable weather adapted for putting the corn crop into condition for road shipment gave an advantage today to bears. Selling, however, was not aggressive, and some development of demand from the seaboard led to a rally. Forecasts of a return of warmth and moisture tomorrow seemed to inspire part of the buying.

Initial quotations, which ranged from 1-8 to 5-8 cents lower, with December at 11 3/4 to 11 1/2 and May at 11 1/2 to 11 1/4, were followed by a moderate upturn but not of lasting sort.

Notice of Births, Marriages and Deaths, 50c.

BIRTHS MITCHELL—On Oct. 18th, to Mr. and Mrs. G. B. Mitchell, 194 Queen St., a daughter, Audrey Mina.

MARRIAGES LONGON-ALLAN—At Penobscus, Kings Co., on October 17th, 1917, by the Rev. Mr. Richards, John Longon to Frances L. Allan, both of this city.

DEATHS WHILAN—On Oct. 18, 1917, Mary, widow of Henry Whelan. Funeral on Saturday morning at 8:45 from her late residence, 130 Waterloo street, to the Cathedral for requiem high mass. Friends invited.

CLIMO

Is noted for his photos. The most appreciated gift is one of these. Christmas samples now ready. Come early and save disappointment. Studio, 85 Germain Street 11-17.

N. Y. STOCK EXCHANGE

New York, Oct. 19.—Wall street—Coppers were again the only laggards at the opening of today's stock market, changes in almost all other quarters showing material advances over final quotations of the preceding session. The war group was especially active and strong. Bethlehem Steel new shares rising two and three quarters points, with

one to one and a half for Crucible Steel Shipings, Central Leather, American Can, Baldwin Locomotive, and Texas Company. Minor rails added to recent advances and U. S. Steel rose half a point.

Canadian Returned After Months in German Prison Tells Experience

Brutality of Guards; Captives Practically Living on Food in Parcels Sent From Home

London, Sept. 24.—(Correspondence)—Four months' training on Salisbury Plain during an atrocious winter, ten weeks' active service in Flanders, thirteen months' inaction in German internment camps amid their earliest and worst horrors, seventeen months behind the gilded bars of Switzerland—such is the record of Pte. G. S. Beber, one of Montreal's first contingent men, who has at last attained full liberty on Britain's shores.

The new government elevator in Prince William street will prevent the vessels at the entrance to the harbor from seeing the storm signals on the yard-arm at the top of the custom house. Captain Butler, who has charge of the signals, says that these are not meant for the vessels coming into the harbor so much as for the vessels that are in port.

Powers, Manager, Association Bldg., 233 North Dearborn St.—LONDON, British and European—Frederick A. Smith, 29 Ludgate Hill, LONDON, E. C. 4, England. The Audit Bureau of Circulations audits the circulation of The Evening Times.

THE POLITICAL SITUATION

Sir Robert Borden has announced in general terms the policy of the new government. Its merits will be determined by the extent to which its provisions are carried out. Sir Robert has promised many things in the last half dozen years, but his performances have not encouraged the growth of popular confidence. No doubt the Liberals who have joined the cabinet will make a difference. The people will want to know, for example, what the government regards as adequate taxation of war profits, and to what extent it will really intend to reduce the cost of living and to prevent excess profits such as have notoriously enriched many people since the war began. There is no specific reference to tariff reform, for which the Liberals as a party have stood, and which is urgently demanded by the west. The silence of Sir Robert on this subject, although it is suggested that the allusion to provision to encourage increased agricultural production may involve tariff reductions in the interests of the farmers. Sir Robert is also silent on the question of national prohibition, which is certainly a needed war measure; and there will be a very keen disappointment that no action in this direction is promised.

With regard to civil service reform, woman suffrage, the care of returned soldiers, control of railways, improvement of transportation facilities, encouragement of co-operation among farmers, a shipbuilding programme, a national highway policy, and other matters touched upon by the prime minister, they all have a more or less familiar sound. If the people believe the new government is really in earnest, well and good.

It is clear from Sir Robert Borden's statement of policy that the Liberal members of the cabinet are exerting their influence to good purpose, but until definite acts of reform follow the declaration there will remain an element of popular doubt. The political situation is clearer as a result of the announcement of the premier, but it is still clouded. Premier Murray has declined to join the cabinet and there is still doubt as to who will represent Nova Scotia. Sir Wilfrid Laurier has not yet spoken, but will doubtless soon be heard from. It is already clear, however, that there is a vigorous Laurier party in the west, and the failure of the government to take a pronounced position in regard to tariff reform may increase the number of supporters of the Liberal chief. In the maritime provinces the Halifax Recorder, Moncton Transcript and Sackville Tribune are out in support of Laurier and against the union government. Next week we shall hear from Hon. Messrs. Calder, Crerar and Carvell, and they will of course shed some further light on the situation.

THE NEW POLITICAL FACTOR

The rest of Canada is invited to take note of the fact that the west will have a much larger representation in the next parliament, and that this will be notably increased again after the next census. The west will not have much sympathy for the interests which profit by a high tariff. The Grain Growers' Guide tells us what is in the western mind when it says: "Let us have a number of candidates elected on the farmers' platform who will really represent western opinion in the House of Commons. Such men can join hands with the government in the prosecution of the war in every possible way; but at the same time they can see that the west gets a square deal in other legislation that will come before parliament. What the west needs in the next parliament is thirty-five or forty strong independent western members. It is not necessary that they go down to Ottawa with an immediate demand for the complete fulfillment of the farmers' platform while the war is in progress. But it should be remembered that these men will be elected for five years, while the war may be over in a year or two at the most. Then will come the big problems where we will need our very best men. Let us select them now and have them ready in the House of Commons backed up by powerful western public opinion, so that when the war is over they can prevent any further betrayal of the best interests of this country."

If this is a correct interpretation of western sentiment there will be very little chance for Conservative protectionists in the coming elections. The west wants to win the war, but it wants much more, and a lower tariff and a longer free list are included. The Financial Post foresees a possible clash between the west and the manufacturers

and great financial interests of the east. "The rise of the western political power is no doubt viewed with mixed feelings by the 'stand-patters' and the 'old guards' of both parties. And well it might be. It takes no wild imagination to make of Calder, Crerar or Sifton a Redmond of the British house, wielding the balance of votes and playing a prominent part in the dictation of policies by coalition formations. Whether or not the western people can forget their political allegiances and stand firmly on a farmers' platform remains to be seen. But those who know the power of the organizations which have been formed by the prairie grain growers are cognizant of a growing force which is overcoming party policies and party differences in favor of western interests. The strength which results from union is being tested. Students of our national economies cannot but view this new political factor with some apprehension. Should it control the balance of power it would do so on behalf of many interests from the east—or, at least, a part of the Dominion which has long been self-enclosed in that impression. Changes of tariff and other policies would no doubt be brought about or attempted, the result of which, if carried out in the extreme spirit which pervades the western political atmosphere, might have serious consequences upon the Dominion as a whole."

Whatever the beneficiaries of a high tariff may think about it, the eastern consumers will welcome the aid of the west in bringing about some radical changes in government policy. Too many people in Canada have been made and are being made rich by legislation. It is time to call a halt and consider the welfare of the great masses of the people. No doubt the west is radical, and perhaps it will ask too much, but radical changes are necessary in the public interest.

The St. John Medical Society is heartily in support of Hon. Dr. Roberts in his plans for a complete reorganization of the public health service of the province. The need of a provincial bacteriologist and pathologist has long been recognized. Medical inspection of schools should be made universal. The whole system of health administration needs to be radically changed, and there should be a thorough system for registration of vital statistics. Hon. Dr. Roberts will lay the province under a lasting obligation if he can bring about the reforms he has in mind. This province is far behind in regard to the registration of vital statistics, medical inspection in schools, and hospital accommodation and equipment of the higher class. The time is therefore ripe for the institution of radical reforms.

There is trouble between the crews of German and Austrian war-craft in Adriatic waters, as well as mutiny among some of the German sailors who are ordered to go in submarines. There are increasing evidences of the trouble in store for the enemy when the people are convinced that they are to be beaten. A Socialist member of the Reichstag predicts revolutionary convulsions in all the war countries soon, but he knows nothing of the temper of the Allies. Perhaps he does know what is coming in Germany.

The manufacture and also the importation of oleomargarine will probably be permitted by the Canadian government. There is every reason why this should be done. There is undoubtedly a scarcity of butter, but it is also true that larger quantities are held for higher prices. A substitute is needed, and oleomargarine is a pure and healthy substance, approved by the medical authorities as a food. Now is the time to have it brought into Canada.

The announcement that the Russian government has decided to move to Moscow is ominous. Evidently there is fear that the Germans may win through to Petrograd. A portion of the Russian fleet is bottled up, and the German operations in the Gulf of Riga and toward the entrance to the Gulf of Finland are apparently meeting with continued success.

St. John's response to the appeal of the British Red Cross was splendid. It surpassed expectations, and proves once more that the heart of the people is sound in regard to the war and the necessity of caring for the sick and wounded among the fighting men.

When the new government goes after the profiteers it will have the hearty sympathy of everybody—except the profiteers.

The establishment of a central creamery at Moncton would prove of great advantage to neighboring farmers. It involves the principle of co-operation. Railway Strike Settled. Buenos Aires, Oct. 19.—After twenty-three days, during which time the railways have been paralyzed, the railway strike has been settled.

LIGHTER VEIN.

Improving. Wife—I think the cook is improving, don't you? Husband—Why, at dinner tonight everything was bad but the coffee. Wife—I know, but usually that's bad, too.

She Obeyed. Some time ago, before we all got so dreadfully economical, a mistress told her new Scandinavian kitchen girl never to leave in the refrigerator anything old or left over, out to keep it clean and fresh by throwing away the old things every morning. On the day following, the mistress happened to look out of the window and she noticed something peculiar in the yard. Calling Hilda she asked: "What is that and how did it get there?" "That's the old ice cream left from yesterday," answered Hilda. "I threw it away lak you tol me."

True Patriot. "Why don't you get an alienist to examine your son?" "No, sir! An American doctor is good enough for me."

NINE LIVES LOST; VAST PROPERTY DAMAGE IN B. W. I. HURRICANE

Georgetown, B. W. I., Sept. 29.—(Correspondence)—The Island of Grand Cayman was visited by the most violent hurricane in its history on September 24. The wind reached a velocity of 120 miles an hour. This and a heavy rain and giant breakers from the Caribbean Sea combined in damaging shipping and property. The property loss exclusive of shipping is estimated at \$800,000. Nine lives were lost. The damage to crops of all kinds as well as that to property was greater than in the hurricane of 1876 and the cyclone of 1903.

SENATE'S RECORD OF EXPULSIONS U. S. Upper Chamber Has Dealt With Several Civil War Sets Precedent Almost as Difficult to Arrange Expulsion as to Secure Admission; Recent Examples; The LaFollette Case

It is usually a task of the first magnitude to become a senator of the United States, but even more difficult it is to get rid of a senator once he has established himself, except at an election. Throughout his own State of Wisconsin, as well as through the country generally, there is a strong, even a passionate, desire to get rid of Senator LaFollette because of his efforts to hamper the war and the belief that he is actuated by a desire to get the pro-German vote. Many resolutions calling upon him to resign and upon the senate to expel him have been passed. A speech made at St. Paul is being investigated by a senate committee, and though the enquiry is limited to that speech, it is likely to be the first step in the fight to fire LaFollette.

He will not go without a fight, and he has friends in the senate, probably half a dozen, who think as he thinks and who would vote for him in any circumstances. It is noteworthy, however, that after his speech in defence of his conduct, only one fellow-senator stood hands with him. This was Vardaman of Mississippi, a member of that "hit-the-group-of-willful-men" denounced by President Wilson.

Two Recent Examples Only a few years ago two members were expelled, although this is not the word that was used. Senator Burton of Kansas was proved to have appeared before departments of the government in the interests of outside clients and thus to have forfeited his rights to remain in the senate. The case of Senator Lorimer created a political sensation in the United States a few years ago. Lorimer was accused of having bribed members of the state legislature to elect him as senator, and the charge was held to have been proved. In his case, although he had held his seat in the senate for some time, the verdict was that he was not properly elected, and so, without being actually expelled, he was merely fired out.

Southern Senators Quit At the time of the Civil war, when the seceding states as well as the other states were represented in the senate and the house of representatives, there were many members naturally whose hearts were with the southern cause. On the outbreak of war most of these Southerners took up arms for the confederacy if they were physically able, and others openly justified themselves in the cause. Some remained behind, and some others who did not represent southern sympathies did what they could to help the southern cause. A southern senator who remained in Washington was Senator Truxtun Polk of Missouri. His downfall was due to a letter he wrote to the editor of a Missouri paper in which he enclosed a check and used these words: "Will Missouri hesitate a moment to go with her Southern sis-

Soldier Husband To Be Handy About House Many visitors in the convalescent homes and sanatoria wonder why the inevitable wood-working shops conducted by the Military Hospitals Commission's vocational training branch form such a popular feature with the soldier-patients. They can see at a glance that most of the men working at the benches have no intention of making their livings as carpenters. The commission has even been criticized, thoughtlessly for emphasizing this trade. Only one-tenth of all the convalescent soldiers passing through the M. H. C. institutions require to learn new trades in order to obtain positions. Vocational training is provided for all, however, for a variety of reasons. Occupation is recommended by the medical officers as an important factor in hastening recovery. Useful occupation assists in graduation of the soldier to civilian life.

Not All The Wounded Need New Trades But Vocational Training Has Other Uses

There have been frequent reports of the presence in France of a considerable number of Chinese workmen and it appears that this number is growing constantly. Following Germany's declaration of war against China the influx

of Chinese into France began and at the first of February the number had reached 100,000. It is now believed to be well on the way to double that number. Some may have believed that the participation of China in the war would be very slight; that while it signified the sentiments of China that except amount to very little, but the contrary is the case. While China stands ready to send troops across the water this assistance may not be called for but the same effect of furnishing fighting men is obtained by the system that is being followed. The Chinese workmen are arriving in France in numbers and their training that could be given by them. The Chinese have never been distinguished for military ability but they are valiant and courageous and the training that could be given by the European officers would soon be adaptable soldiers for they are adaptable and obedient. There is another way in which China is making itself felt as a factor in the war, and that is in furnishing materials, metals and minerals used in the manufacture of munitions and of these natural resources China has an inexhaustible supply. China at war alone with Germany would not have any difficulty in supplying the Allies with munitions and the same situation holds good in relation to the South American republics now declared enemies of Berlin and ready to furnish men if called upon, as well as ships, food supplies and munitions.

Yale Has Big Deficit New Haven, Conn., Oct. 19.—Yale's finances this year will show a net deficit of about \$298,866 as a result of war conditions. It is announced, despite savings of about \$200,000, mainly through decreases in the faculty salary list where members are absent in government service.

WOMAN SICK TWO YEARS Could Do No Work. Now Strong as a Man.

Chicago Ill.—"For about two years I suffered from a female trouble so I was unable to walk or do any of my own work. I read about Lydia E. Pinkham's Vegetable Compound in the newspaper and determined to try it. It brought almost immediate relief. My weakness has entirely disappeared and I weigh 165 pounds and am as strong as a man. I think money is well spent which purchases Lydia E. Pinkham's Vegetable Compound."—Mrs. J. O. BRYAN, 1755 Newport Ave., Chicago, Ill. The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, and nervous prostration. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

THE PART OF CHINA

WOULD ADOPT HONEST GIRL. Wealthy Woman Impressed by Return of Bag Containing \$1,000. New York, Oct. 17.—Mrs. C. C. Munson, a wealthy woman, of 62 Lincoln avenue, Grantwood, N.J., impressed by the honesty of an eleven-year-old girl, who had turned over to the Edgewater police a bag containing \$1,000 which Mrs. Munson had lost a few hours before, indicated that she would try to adopt the child. In fact, she had a talk with the family with whom the child, an orphan, is now living at Tenafly, but was not able to induce them to part with the girl. Mrs. Munson and some friends went out in a motor boat on the Hudson. Mrs. Munson took along a knitting bag in which she had placed a purse containing money and jewelry valued at about \$1,000. She did not notice that she had lost the bag until she returned home late in the afternoon, and then she notified the police. In the meantime Clementine Derrick had found the bag on the road near the Edgewater ferry, and turned it over to the police. Mrs. Munson later identified the bag and went to Tenafly and, failing to get the family to permit her to adopt the girl, handed the child a \$100 bill. Mrs. Munson says she has not given up hope of inducing the foster parents of the child to turn her over to her for adoption.

Rev. Dr. Fullerton Does Not Think Union Government Will Do Away With Patronage. Charlottetown, P.E.I., Oct. 19.—At a social service congress here a resolution set forth that there is urgent need for raising the age of consent for girls from 14 to 16 to 18 at least. Another expressed joy at the formation of the union government which should be marked by the permanent abolition of the patronage system in politics. It was also resolved that there should be competent visitors to look after children placed in homes and orphanages and that there should be an annual gathering of teachers and clergymen for the study of moral politics. Rev. Dr. Fullerton objected to the resolution re union government which he declared would not stop the patronage evil. The resolution, he said, would neither do good nor harm. Only a few were present when the resolution was passed.

A social service council was reorganized for the island with Rev. Dr. Fullerton as president and Rev. H. A. Brown of Souris and J. J. Ross of Charlottetown, secretaries and Colonel Moore, treasurer.

Much interest manifested in the Colburg street Christian church revival last evening. Mrs. Spragg sang a solo nicely. The revival took for the theme Christian Baptism. One person responded to the invitation at the close of the service.

BRITISH RED CROSS DAY IN METROPOLIS

More Than 670,000 Pounds Contributed—King Doubles Usual Subscription

London, Oct. 19—The sum of more than 670,000, irrespective of street collection, was contributed yesterday to the British Red Cross. From daylight until dusk 8,000 women, including wives of cabinet members, titled ladies, society women and actresses canvassed the great city. They picketed the theatres, hotels and stores.

King George set a good example by contributing yesterday to the fund. His Majesty gave £10,000. The members of the royal family also contributed generously. Queen Mary and Queen Alexandra each gave £1,000. The Prince of Wales donated £2,000, the Princess Victoria £100, and Prince Albert 30. One of the pleasant surprises was a gift of £118,000 pounds from the people of Egypt.

BRITISH PRICES FOR NECESSARIES HAVE INCREASED GREATLY

London, Oct. 19—(via Reuter's Ottawa Agency)—An interesting report on food prices is published in the government labor gazette, which says: "Beef and mutton now exceed their pre-war prices by eighteen cents a pound. Butter and bacon are now double their pre-war level. Milk is 78 per cent higher than in July 1914.

CO-OPERATIVE MARKETING.

(Toronto Globe). In Hastings county one farmer's club sold \$100,000 worth of live stock for its members last year. The bulk of the sales were made in hogs, which were shipped direct to packing houses. By cutting out intervening charges the pro-

Makes Cooking a Pleasure

No bending over a hot top to reach the dampers—Kootenay controls are all on the outside—in front. And the oven thermometer shows the temperature without opening the oven door. This range saves fuel, time, trouble and—your temper. Write for booklet.

\$500.00 REWARD

THE Government of the Province of New Brunswick offers a reward of \$500.00 for information that will result in the apprehension and conviction of the party or parties who caused the death, on or about the 7th of August last, of Harry L. Williams, late of the City of Saint John.

JAMES P. BYRNE Attorney-General Fredericton October 5th, 1917

ducers of these hogs secured a substantial premium over current prices without adding to the price consumers of bacon paid for the finished product.

This is one line in which there might be an almost unlimited expansion of the co-operative system. The bacon hog, and all hogs should be of that type, is a standard article on which the proceeds of a sale due each contributor, to a car lot can be divided on a weight basis.

The work of collecting for car-lot shipments can be easily arranged over rural telephone lines, which now cover every part of Ontario. By co-operative selling standardization in production will be carried still higher, and a lot of needless expense in marketing will be avoided.

Potatoes furnish another line in which co-operation is made easy. This has been proved in at least one case in Sarnia township, where a group of farmers, under the direction of Harry Shewington, buy the same variety of seed co-operatively and sell a uniform quality of product in car lots in the same way.

ANOTHER BIG ROUND-UP OF GERMAN FOR SAFETY AT WATER TERMINALS

New York, Oct. 19—Federal authorities arrested fifty-eight German mechanics at the Tietjan-Lang dry docks at Hoboken last night. All were sent to Ellis Island.

The raids were a continuation of a determined effort to round up enemy aliens employed at river and harbor terminals, and to run down persons suspected of being enemy aliens.

TROOPS PARADED WITHOUT RIFLES

Significant Feature of An Inspection by Kaiser

Mutinous Spirit Is Rife

indenburg Was Boomed; 400,000 of Kaiser's Battalions Who Failed at the Front; Reprisals Now Would Mean Much

The Pall Mall Gazette of last Friday printed an interview with a "distinguished neutral" on the subject of the German mutiny. He says that Germany should experience a mutiny in the navy comes as no surprise to anyone who has lived in Germany during the last six months. The only sensational feature of the mutiny is the confession of its having taken place. It shows the mutiny must have been of great dimensions, otherwise German authorities would certainly, as in previous mutinies, have suppressed the news.

"Germany is not at the end of her resources. As a matter of fact the Germans are better off just now in food supplies than since the first eighteen months of the war. Occupation of the fertile Riga and Bukovina districts has abundantly made up the slump in supplies from neutral sources.

"Nevertheless the morale of the Germans is giving way. The German nation has no more illusions as to the final issue of the war. The German people have lost faith in their leaders and are unable to bear the strain of war much longer. There is nothing left of that admirable 'potato bread spirit' which characterized the German people during the first two years of the war.

"This would not matter much if by the German people was meant the civilian population only, but in the last twelve months, especially since the entry of the United States in the war a spirit of hopelessness has permeated the army and navy, and even the morale of the officers is giving way. Army deserters are more numerous than ever. Several thousands of military age men managed to escape in 1917 to the adjoining neutral states in spite of frontiers guarded vigilantly.

"There are at present more than 400,000 German soldiers, so-called 'strafe battalions' men, who have failed at the front through lack of moral stamina. At the beginning of the war men of this kind were mercilessly shot down by their own officers. This is done no more. No officers would dare. Too many German officers have been found dead with German bullets in their square heads.

"The men of these 'strafe battalions' are employed all over Germany in most menial tasks. They are treated even worse than prisoners of war. The hunger brigade is the appropriate German term for men belonging to these strafe battalions.

"The transfer of troops east and west and vice versa is no longer dictated by strategic reasons. The military authorities simply dare not keep any set of men together in the same place for any period of time. Platoons and companies are shuffled and reshuffled continually.

"Just before I left Germany the Kaiser visited the Flanders front to inspect the soldiers behind the fighting line, but on this occasion the soldiers were told to parade without rifles—the first time in the history of the Hohenzollerns. The week before Hindenburg had been booed by the soldiers on the Russian front in such an unmistakable way that the inspection which had already begun was abruptly brought to a close.

"These incidents like the mutiny in the navy show which way the wind is blowing in Germany. There can be no doubt now that before winter stops operations on the larger scale, is the psychological moment for giving German militarism and Kaiserism the knockout. A systematic daily bombing of German towns, such as Hamburg, Cologne, Frankfurt, Stuttgart and Karlsruhe, would speed the victorious issue more than anything else. All Germany is trembling with fear of the promised British reprisals for German aerial attacks on open English towns."

GOOD-BYE PRICES ON SOME WINTER OVERCOATS

One-of-a-Pattern Savings for a squad of men on these coats. A bunch carried from last season with but one of a kind left, and we need their room.

Popular styles—Ulsters, Slippers, D. B.'s and Fly-fronts—in black, grey and brown chevrons, tweeds and ulsterings, most sizes from 34.

At last year's prices, \$15 to \$28, there would be a saving of several dollars a coat, but these prices spell o-p-p-o-r-t-u-n-i-t-y.

\$10, \$12.50, \$13.50, \$15, \$20

LOCAL NEWS
CITY BOWLING LEAGUE
A meeting of bowling enthusiasts was held in Black's academy last evening and a general discussion took place regarding the re-organization of the City Bowling League. It was suggested that a three men team league be formed, but this did not meet with general approval and it was finally decided to adhere to the original plan of five men teams. The schedule is to be drawn up in four series. Seven teams have already signified their intention of entering and another is expected. Another meeting will be held in the near future.

NO MORE TROUBLE
That no further trouble with the lighting or power current may be expected is the gratifying announcement made by the New Brunswick Power Company today. The failure last night was due to failure of the present pumping system to meet the greatly increased demands on the power plant at a time when the tide was exceptionally low. Arrangements have been made to meet this condition while the low tides continue and until the new pumping system is in operation, a matter of about four weeks.

A PLEASANT EVENING
The St. John the Baptist Circle of the Red Cross held a tea in the basement of the church on Wednesday night for the members. The table was prettily decorated and a large number of the members were present. Mrs. R. Callaghan and Mrs. J. E. Barrett presided at the table. A musical programme was rendered in which the following took part: Mrs. T. Harris, Misses Sugrue, Miss Bernice Mooney and Miss Molly McQuade. Mrs. J. E. Barrett's lottery of a crocheted yoke was drawn during the evening. Mrs. W. E. Hamm of Pleasant Point was the winner. As a result of the lottery \$163 was raised for the branch circle funds.

OPENING OF THE BAPTIST CONVENTION
Large Number of Delegates in Halifax for 82nd Annual Gathering—Some of the St. John Representatives
(Special to Times)
Halifax, Oct. 19.—A large number of delegates are here for the eighty-second annual convention of the United Baptist churches of the maritime provinces. The meeting began at 10 o'clock today in the First Baptist church when Rev. D. J. MacPherson, president of the United Baptist Institute, called that body to order.

Among the delegates are a veteran preacher, Rev. Albert Chipman, D.D., of Berwick, who has preached for sixty years, and Deacon Charles E. Sanford, also of Berwick, now in his ninetieth year, and who never missed an annual convention. Rev. F. H. Wentworth, of St. John, the secretary, had the business well in hand. The nominating committee was appointed as follows: Messrs. Rev. F. E. Bishop, David Hutchinson, C. A. Brittain and D. B. Knott. Rev. R. J. McGillivray, acting editor of the Maritime Baptist, read a paper on The Rural Slum. The subject was discussed by Rev. R. O. Morse, Rev. J. W. Brown, Rev. Milton Addison, Rev. David Price, Rev. M. L. Gregg, Rev. A. J. Archibald, Rev. B. D. Knott, Rev. A. Harwood.

THE MILK COMMITTEE
Marked Diversity in Cost of Production in the Various Provinces
Ottawa, Oct. 19.—The milk committee visited the office of Charles S. McGillivray, health inspector, and examined charts relative to the cleanliness of milk from various points throughout the Dominion. Mr. McGillivray said that while the general conditions were good, some of the milk delivered by farmers was unfit for consumption. He referred to the excellent method of inspection in Montreal, where every shipment of milk to the city is thoroughly tested, and where the farms are also inspected.

Mr. Tustin, speaking of the price of milk, said that Ottawa supplied the consuming public with milk at cheaper prices than anywhere else on the continent. John Binns, of the Ottawa Dairy Company, said that this was due to the fact that there was less competition in the distribution. The next question to come up will be the most important of all—the consideration of the reports and tabulated forms from the various provinces. It can be said that the cost of production in the various provinces varies a great deal. In one particular case, a city, which charges more for its milk than any other, has the minimum cost of production. And these things the milk committee intend to investigate and correct. The enquiry will last for two or three days more.

SAYS JAMAICA GINGER WAS HIS INSPIRATION
A man appeared before Magistrate Ritchie in the police court this morning charged with drunkenness. When asked where he got liquor he said he did not get any, but had drunk some Jamaica ginger. He was given in charge of a policeman and told to point out to him where he got the Jamaica ginger which made him so drunk. As he was going down the stairs from the court room he was heard to say that he wanted to go to jail and did not care if they put him there for two years.

AFTER THE KNOCKERS OF THE LIBERTY LOAN
Washington, Oct. 19.—The government set in motion yesterday the machinery to apprehend and punish German workers who have started an organized campaign to defeat the liberty loan.

MEDICAL MEN OF CITY BACK UP DR. ROBERTS
Important Plans in Connection With Public Health
WE'RE BEHIND HAND HERE
At Medical Society Meeting Hon. Dr. Roberts Outlines Projects in Mind—He is Elected President of the Society
The first meeting of the St. John Medical Society for the season was held on Wednesday evening at Bond's. There was an excellent representation of the local profession. By request, Senator Daniel took the chair, while the president of the society, Hon. W. F. Roberts, M.D., delivered the opening address. Doctor Roberts referred feelingly to the loss the society and city had sustained in the death of Doctors F. D. Walker and F. J. Hogan. The one was a man of reputation already widespread; the other one of the most brilliant of the younger practitioners of the city.

The main part of Doctor Roberts' interesting paper was devoted to the state and public health. He contrasted the backward condition of this province, especially its rural parts and smaller towns, with the comparatively advanced conditions in most of the other provinces in Canada. With admirable force and logic he demonstrated the crying necessity of an adequate registration of vital statistics (births, deaths and marriages) for the province. All else in public work was gravely handicapped with this primary requisite. He briefly outlined his intentions as a member of the government respecting the reorganization of the public health service of the province and the necessary amendments of the public health act. He intimated that he was taking expert advice regarding the details necessary to be pursued. More especially he dwelt upon the need of an accomplished bacteriologist and pathologist to serve the various hospitals of the province, and was highly confident that such a man could be secured. He earnestly hoped and intended to see adopted if possible, everywhere, a complete system of medical inspection of schools and he closed with an eloquent peroration upon the outstanding importance of public health, quoting Lord Beaconsfield while introducing the great public health act of 1875 in the British House of Commons, that "public health was the first and foremost interest that could engage the attention of statesmen, philosophers and philanthropists."

The address was exceedingly well received and was discussed by the majority of the gentlemen present. Without exception the members agreed to uphold Doctor Roberts' hands in his laudable effort to give New Brunswick a well ordered and efficient system of public health administration. A committee composed of Doctors Addy, Bentley and Melvin was struck to consider the address and to bring in recommendations based upon it at the next meeting of the society, a fortnight hence. The officers of the society for the current year are: President, Hon. Dr. Roberts; vice-president, Dr. A. E. Logie; treasurer, Dr. Thomas Walker; recording secretary, Dr. A. E. MacIntyre; financial secretary, Dr. H. Allingham; librarian, Dr. C. M. Kelly; pathologist, Dr. L. B. Chipman; junior past president, Dr. W. E. Rowley. At the next meeting of the society in addition to the consideration of the president's address, Dr. Hugh Farris will hold a clinic on the treatment of tuberculosis at the St. John County Hospital.

After the society had concluded its work the members, as guests of the president, sat down to a most agreeable and satisfying luncheon, presented in the best style of the popular house in which the meeting was held.
A Suggestion.
Washington, Oct. 19.—That a health column in the newspapers might be an indispensable as the joke column was one of the suggestions for health education offered by Dr. J. W. Trask, assistant surgeon general of the United States Health Service, in an address before a section of the American Public Health Association here today.

INTOLERANCE STUPENDOUS, MAGNIFICENT

Large Gathering In St. Andrew's Rink Held Enthralled

D. W. Griffiths Has Outdone Himself In Spectacular Production—Historical Events Outstanding Feature of Wonder Picture

The directing genius of D. W. Griffith and the expenditure of unlimited sums of money have produced, in "Intolerance," what is probably the most magnificent moving picture spectacle which has marked the development of this modern art.

tion of this historic event Mr. Griffiths has surpassed himself. Every effort has been made to preserve the historical accuracy of the picture and, in a product on such a mammoth scale, the attention to detail is remarkable.

duction and the strength of the other scenes presented make the attempt to deal with modern intolerance seem the weaker by contrast and failure to take full advantage of a great opportunity the more to be regretted.

SAYS MOOSE SCARCE

C. E. Butler, of Ennisville, N. B., brought a large moose to the city this morning. In conversation with a 'Times' reporter, he said he shot the animal yesterday about three miles from his home. The moose dressed at 600 pounds, but had a poor spread of antlers, measuring only about forty inches. Other large moose were brought in this morning, two from Gaspeaux and one from Clarendon. All four were disposed of to local butchers.

GURKO, EXPELLED FROM RUSSIA, REACHES ENGLAND

"The Digest"—The Busy Man's Bible, the Doubting Man's Dictionary

Those of us who are busy, and which one of us is not in these superstitious times, frequently sigh over the arid wilderness of irrelevant information through which we have to struggle in our daily papers in order to obtain those diamonds in a dust-heap, the items of vital news for which we are seeking. THE LITERARY DIGEST does far more than merely sift the news. It derives its resume of world events, not from a single paper, which would be to retain the latter's view-point, but from a weekly gleaming of all the worth-while publications of the world, recording the result without comment or partiality, adhering to no view-point, but reporting all. The facts of the day, focused from all points, are yours in "The Digest."

(All Are in Natural Wool Color) Macaulay Brothers & Co. KING STREET

STATEMENT OF POLICY OF UNION GOVERNMENT

Ottawa, Oct. 18—Today, after consultation with his colleagues, the prime minister has issued the following statement with regard to the formation and personnel of the new government and with respect to its policy so far as there has been opportunity to consider it:

"The present union or national government has been formed with a desire to give representation to all elements of the population who support the purpose and effort of Canada in this war. Representative men of both political parties are included in its personnel; and it is intended forthwith to give to labor special representation upon the principle already followed with regard to agriculture.

"Impressed by the urgent necessity of putting aside all minor considerations, of sinking all party differences, and of presenting a united front at this solemn and momentous juncture in the nation's history, the members of the government have come together in the duty of service to the national interest.

"The lines of policy, which will be followed, chiefly relate to the prosecution of the war and to the consideration and solution of problems which will arise during its progress, or which will supervene on the conclusion of peace. They may be outlined as follows:

"1. The vigorous prosecution of the war, the maintenance of Canada's effort by the provision of necessary reinforcements, the immediate enforcement of the Military Service act, and the most thorough co-operation with the governments of the United Kingdom and of the other dominions in all matters relating to the war.

CIVIL SERVICE REFORM PROMISED.

"2. Civil service reform with a view to extending the principle of the present Civil Service act to the outside service, and thus to abolish patronage and to make appointments to the public service upon the sole standard of merit. The Civil Service Commission has already been directed to make a report to the prime minister as to the necessary steps for that purpose. Such arrangements will be subject to the existing regulations, which give preference in appointments to returned soldiers who are duly qualified.

"3. The extension of the franchise to women, with suitable provisions for enabling married women to determine their nationality and to obtain naturalization, notwithstanding marriage.

"4. Adequate taxation of war profits and increased taxation as necessitated by the continuance of the war.

"5. A strong and progressive policy of immigration and colonization, accompanied by suitable provisions to induce settlement upon the land, to encourage increased agricultural production and to aid in the development of agricultural resources.

"6. Effective arrangements for demobilization, for the care and vocational training of returned soldiers; for assistance in enabling them to settle upon the land and for adequate pensions to those who have been disabled and to the dependents of those who have fallen.

"7. The development of transportation facilities; the co-operative management of the various railway systems, so as to secure economy in operation to avoid unnecessary construction, and to secure the widest and most effective use of existing railway facilities; the encouragement and development of the shipbuilding industry and the establishment of steamship lines upon both oceans and upon the great lakes; co-operation with the various provincial governments for the improvement of highways; the investigation of the possibilities of air service for important national purposes.

"8. The reduction of public expenditure, the avoidance of waste, and the encouragement of thrift.

PROFITTEERING TO BE GIVEN ATTENTION.

"9. Effective measures to prevent excess profits, to prohibit hoarding and to prevent combination for the increase of prices and thus reduce the cost of living.

"10. The encouragement of co-operation among those engaged in agricultural production, with a view to diminishing the cost of production and marketing, so that the price paid to the producer may conform more closely to that paid by the consumer.

"11. The general development of all the various resources of Canada and their conservation and utilization to the best advantage of the people with co-operation and assistance of the state in every reasonable way for that purpose.

"12. Adequate consideration of the needs of the industrial population; the maintenance of good relations between employer and employed, and such considerations of employment as will assure suitable standards of living among the laboring classes.

"The policy of the government will also aim at a truer understanding and comprehension between the various communities, both east and west, and the development of a national spirit of united effort among our people, as the trustees of a great heritage.

"For the purpose of effectively carrying out these policies, the following methods have been determined:

"1. A new portfolio, that of immigration and colonization, has been established.

"2. For the effective prosecution of the war, a permanent committee of the cabinet will be established.

"3. For the purpose of considering and carrying out the other lines of policy above mentioned, another permanent committee of the cabinet also be constituted.

"The orders-in-council establishing these committees have been prepared, and as soon as they have been accepted by his excellency the governor-general, they will be given to the press for publication. The personnel of each committee will be announced at the same time."

WITNESS TELLS OF POISON PLOT

James Tapley Stands Trial On Charge of Attempt To Poison Shannon Brothers—M. V. Paddock On The Stand

Woodstock, N. B., Oct. 18—The trial of James Tapley, accused of attempting to poison Jonathan and Robert Shannon commenced today. There is quite as much interest as in the Glenn trial, and the court was filled with spectators. After a number of challenges the following jury was empanelled: H. Rogers, Burns Hemphill, Geo. Wheeler, John Keenan, Arthur Gibson, Geo. Tompkins, Greeley Jones, Chas. Crawford, Odour Shaw, J. Barton, H. V. Scott, David Shaw. Attorney-General Byrne and Hon. W. J. Jones are acting for the crown, and J. C. Hartley, K.C., for the defence.

Tapley, who is a well-to-do farmer, has been in jail since July, and except being somewhat bleached does not show any marked effects of his confinement. John Lafrenais, who is the principal witness for the crown, was put in the stand, and his story is that on the night of July 4, he met James Tapley, the defendant, in Houlton, and hired with him to work on his farm at Greenfield. He was taken to a hotel by Tapley and put up for the night, Tapley paying the bills. Next day they started for Tapley's home and after arriving there Tapley told him the Shannons had burned his barn and did other damage, and he wanted to poison them. He produced two vials of strychnine and told Lafrenais he would give him \$100 to put the stuff in their tea. He was to go over to their home and hire with them and use the poison the first opportunity. Before going, Tapley took the poison out of one bottle and pounded it up with a stone, saying it would work better if fine and would sink to the bottom of the cup, and not be noticed. He went to Shannon's house, giving as a reason that he was afraid Tapley would shoot him, as he had a revolver. The witness also said Tapley made him keep out of sight while at his house. Mrs. Tapley told him if he could not get them both to get the one with the glasses on. "And if we can't get them this way we will throw two sticks of dynamite in the window." He went over to Shannon's and met them and told them he had come to save their lives. He related the story of Tapley's hiring him to kill them and gave them the bottle of poison. The witness was put through a searching cross-examination, but stuck to his story in all essential parts. Enough to Kill 700.

M. V. Paddock, provincial analyst, gave evidence, identifying the bottle of strychnine, saying that he had put it to various tests. There was enough in the vial to kill 700 men. It had the appearance of having been pounded up. A few dark specks in the bottle must have come from the sealing wax. If pounded up with a stone the stone would have to be very clean or there would be more foreign matter in it than these specks.

Dr. Peppers said he met Tapley and another man on the road leading to Centreville, on or about July 8. He could not identify the other man. Hugh John Peppers, son of the doctor, who was with his father identified Lafrenais as being one of the men he met when with his father. He was not sure about Tapley. Other witnesses were called and testified meeting two men closely resembling the prisoner and Lafrenais. John Radigan, a Houlton hotel keeper, corroborated the witness' story that he stopped all night at his house and had no doubt that Tapley brought him there.

There are several more witnesses for the crown, but the case may go to the jury late tomorrow.

GOVT PARTY AT WOODSTOCK

Woodstock, N. B., Oct. 18—Premier Foster and Hon. J. F. Tweeddale came here yesterday on the invitation of the directors of the Agricultural Society, with Attorney-General Byrne, who is

attending court here, they were taken in automobiles to the proposed exhibition ground and also visited other points of interest about town. The visitors were much impressed with the beautiful location of the exhibition grounds, also with the plans for building.

Premier Foster left on the noon train for Grand Falls.

HUNGARIAN ARTIST KEPT IN INTERNMENT.

London, Oct. 18—Explaining in the house of commons today the denial that

the advisory committee of the home office yesterday of the appeal against internment of Philip Alexius Laszlo De Lombos, Hungarian artist, Sir George Cave, the home secretary, said there were

grave reasons to suspect him of being engaged in activities which might prove dangerous to the public interest. Sir George added that there was no legal evidence on which he could be convicted of a criminal offence.

Martin-Orme Piano

HERE are a few old hand-made violins in the world that are priceless because of their incomparable tone. They are the works of the masters. And it is just such earnest, personal, masterly planning of the sound-producing parts, which produces the rarely beautiful, sweet, singing tone of the Martin-Orme Piano. It reflects the genius of Owain Martin, inventor of the "Violiform" method of tone-production.

The sounding board, arched like a violin, is scientifically installed so as to permanently retain this arching under high tension. Like the works of the famous old craftsmen, each individual Martin-Orme Piano is carefully fashioned with true pride and sincerity. Only by taking time to make and perfect comparatively few pianos could such splendid enduring tone be achieved. It is that which elevates the Martin-Orme from the merely mechanically perfect, to the truly artistic plane. We cordially invite inspection at our warehouses.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, OCTOBER 19, 1917

Austrian Sailors Mutiny And Clash With German Crews

Russian Fleet is Bottled up in Moon Sound; Outclassed by Hun Craft and Lose One Battleship

Washington, Oct. 18—Official diplomatic despatches, received here today, report mutinies in the Austrian navy and clashes between Austrian sailors and crews of the German submarine fleet at Pola, in which officers on both sides have been killed and which resulted in a decision to change the base of the German flotilla. Despite the attempts of the Austrian admiralty to suppress the news, it reached here today, coming by way of Berna. The Austrian crews are said to have revolted under ill-treatment of officers and bad food, while the clash with the German submarine crews was caused by the overbearing conduct of the latter.

Berlin, via London, Oct. 18—The German forces have captured Moon Island, according to the official statement tonight.

Petrograd, Oct. 18—An official communication issued this evening points out the centre of gravity in the naval struggle is maintenance of communication between the Gulfs of Riga and Finland, and says the Russian torpedo boats are continuing their endeavors to prevent the enemy from penetrating Moon Sound.

Apparently contingents of the Russian fleet—in all about twenty warships of various classes—are bottled in Moon Sound, with a cordon of German war-craft barring their egress northward back into the Gulf of Finland, or to the south in the Gulf of Riga.

However, but outclassed by reason of superior gun range and heavier tonnage, the Russians gave battle to the Germans and attempted to force back the enemy armada off Oesel Island. Standing far outside the shell zone of the Russians, however, the guns of the German dreadnoughts sank the battleship Slava—a relic of the days before the

Russo-Japanese war—and so badly damaged other units that the Russian flotilla was forced to seek refuge in Moon Sound—lying between Moon Island and the Esthonia coast.

Immediately seeing their advantage the Germans, according to the latest German official communication began intensive operations against Moon Island, hammering its eastern shore batteries until they were silenced and also attacking the Russian guns on the mainland, putting them out of action. Moon Island was captured and the Russians took refuge inside Moon Island Sound.

Thereupon the Germans threw warships to the eastern part of Kassar Bay, lying to the north of Moon Island, exit from the northern entrance to Moon Island, apparently closing the passage to the south of the Gulf of Riga. Already the Germans have attempted to attack from the northern channel into Moon Sound, but the Russian guns have held them back successfully.

Among the German warships attacking the old line vessels of the Russian fleet, were at least two dreadnoughts of the Grosser Kurfuert type—vessels displacing 25,000 tons as against 18,516 tons for the Slava. A majority of the crew of the Slava was saved by Russian torpedo boats when the vessel took its final plunge.

PREPARING GREAT AIR SQUADRONS

Germany Working At Top Speed to Provide Machines Admit Present Inferiority

Anticipate New Troubles With Advent of American Airmen and the Offensive by Allies in Spring; Hence the Efforts

London, Oct. 18—(Via Reuter's Ottawa Agency.)—The following facts, which have come to the knowledge of the French staff, illustrate the vital importance of air supremacy for the allies.

"Germany is straining every nerve in anticipation of America's new air squadrons and the allies' spring air offensive. The number of German battle planes is being doubled during the winter and the motor building factories throughout Germany are enlarging their plants and increasing their labor. Two important new factories have been created. Between February and August large orders have been placed in Switzerland. Quantities of three-seaters, with two sixty horse-power engines and bombing machines are being built, capable of carrying 1,600 weight of bombs and climbing 1,200 feet in thirty-five minutes.

"New models of every type are being furiously produced. They include a new all-metal machine for co-operation with the infantry.

"A big German machine which recently landed in Holland was fitted with electric installation for the purpose of warming the aviator. Simultaneously the Germans are greatly augmenting the personnel of their air service and are encouraging transfers to this branch.

"A captured order issued by General Eudendorff states the allies are employing airplanes economically, with a view to great battles of the future. 'We should be wrong,' the order says, 'to overwork and wear out our air formations, which are inferior in number.' 'The infantry must be told it is impossible to prevent the enemy flying over our lines. The airman must be used sparingly, and at calm times. Germany must have as many machines as possible for great emergencies.'"

Some More Lost

London, Oct. 18—The British admiralty last night issued the following statement: "During yesterday's patrols were carried out by the Royal Naval Air Service, several enemy formations were encountered. One enemy seaplane was downed and seen to crash. Two other enemy machines probably were destroyed."

EVANS FORTUNE AGAIN

St. John Heirs to Large Estate in United States—Mrs. Evans Dead

Mrs. Marion Antoinette Evans, widow of Robert Dawson Evans of Boston, is dead and has left an immense estate to be divided among the heirs of herself and husband. There are some heirs in this city.

Robert Dawson Evans was born at West Beach, Simonds, St. John County. His father was captain of a little schooner plying between New Brunswick and United States ports. He was drowned in Boston harbor. His widow and family moved to Boston, and Robert D., then a small boy, entered a rubber store as a messenger. Showing industry and ability he advanced until he engaged in the rubber business and finally in mining, and at his death left ten or eleven million dollars. He left all his money to his wife. After her death what was left would go to his and her relatives. Mrs. Evans has spent millions since her husband died eight years ago, but no doubt there are some millions left.

Thomas J. Evans, janitor of the Bank of Nova Scotia, is a son of a brother of Robert Dawson Evans' father, and therefore an heir. Wm. Evans, caretaker at Ball's Lake Fishing Club; Walter Evans, at West Beach, and Richard Evans, Lower Cove, St. John, are the same relation. Mrs. James Sproule, St. John, and Mrs. John Wallace, Chicago, are sisters of the men named. Walter Evans, of Lorneville, son of Robert Evans, is a son of another brother of R. D. Evans' father.

It is not known whether or not Mrs. Evans has left any relatives. She had no children. She had relatives in the North End, St. John, some years ago, but they are dead.

Wherever tea is liked to-day, you will find the first favorite is always LIPTON'S. LIPTON'S TEA

WINS COMMISSION That Ottilie E. White, of this city, who went overseas as a member of the first Canadian division, has won his commission and is now a lieutenant in the Canadian Army Service Corps in France, was the information received in the city yesterday.

BISHOP RICHARDSON WILL INVESTIGATE Bishop Richardson has been selected by the house of bishops of the Church of England in Canada to go overseas and, on behalf of the church, make inspection of the Canadian troops in England and in France and submit a report regarding their condition and environments. It was a big surprise when his lordship at a synod committee meeting yesterday afternoon, announced to the clergy of the diocese that he had acceded to the request of the house of bishops to go overseas for inspection purposes. None of them knew of the request before. It is an honor paid to Bishop Richardson. His lordship expects to go overseas some time within three weeks. He has not definitely decided when the departure will be made. Speaking of the matter yesterday, one of the clergy stated that so much had been heard from different quarters about the state of the troops overseas and wishes of all officers, N. C. O.'s and men of the unit."

GERMAN BANK MEN IN NEW YORK TAKEN

Seized by Secret Service as Dangerous Enemy Aliens

In London When War Began; One Prisoner, Baron George von Seebeck, Son of German Army Corps Commander

(New York Times)

Secret service agents acting under instructions from the navy department, arrested two German bankers yesterday. One was George von Seebeck, said to be Baron von Seebeck, whose father, General Baron von Seebeck, commanded the Tenth German Army Corps at the outbreak of the war, and the other, Fritz Kuhn, who is the son of one of the best known bankers in Mannheim, Germany. Seebeck came to this country in August, 1914, having fled from England to escape internment as an enemy alien. Both he and Kuhn held important positions in the London branch of the Deutsche bank at the beginning of the war. In New York they were for a time employed by the Guaranty Trust Company, but were discharged, because of their German allegiance, several months ago.

Kuhn is a cousin of Mrs. Irving Lehman, wife of Supreme Court Justice Lehman. Justice Lehman said yesterday that Kuhn and von Seebeck made their home in Port Chester, and that so far as he knew they had observed the war regulations promulgated by President Wilson.

Baron George von Seebeck arrived in New York on the Camerac Campaign on August 22, 1914. His father was then exercising an important command on the west front, while a brother was an officer with the Third German Army at Liege. In England the young man is said to have moved in the highest social circles. He was at the German Embassy in London when word came that England had declared war on the side of France. He realized that he would be interned if he remained in England, and a few days later he fled to the United States as "Mr. Seebeck." He was accompanied by Count Minotti, an Italian nobleman.

The German Who's Who says that General Baron August W. J. von Seebeck was, prior to the outbreak of war, one of the infantry chiefs of the German army. He is a former member of the imperial general staff, and comes from a family of distinguished German soldiers. For years he is said to have been one of the Kaiser's most trusted friends.

Assistant United States District Attorney John C. Knox, when asked about the case said that the arrest had not been made at the instance of the department of justice, and added that he had not been informed as to the details of the affair. Because both Kuhn and von Seebeck were at one time in the employ of the Deutsche bank, it was suggested that that connection may have been the reason for the government's action. The revelations in the Bolo Pacha case proved that the Deutsche bank was the financial connecting link between Ambassador Bernstorff and Bolo.

All of Bernstorff's plot payments which figured in the Bolo case were made by Hugo Schmidt, New York agent of the Deutsche bank, who in each instance acted on instructions from the Berlin foreign office. These payments, according to the sworn admission of Schmidt, totalled in one year nearly \$2,000,000. Schmidt has not been interned and is still at liberty.

Adolph Pavenstedt was even closer to Bernstorff than was Schmidt. Pavenstedt was the man in whom Bernstorff confided regarding the proposed French plot, and Pavenstedt has admitted that he was the go-between for Bernstorff and Bolo. Pavenstedt makes his home at a prominent New York hotel.

Late yesterday secret service agents of the department of justice took into custody three Germans, whose names were given out as Ernest Gruesbach, Karl F. G. Pagenkop, and George Fuchs. The men were arrested in the waterfront zone, which is barred to all enemy aliens under the regulations promulgated by President Wilson. No details were given out by the department of justice agents. The three men were taken to the Ellis Island internment camp.

WATCHING ENEMY ALIENS AFTER FIRES ON NEW YORK WATERFRONT

New York, Oct. 18.—Destruction by fire or more than \$3,000,000 worth of foodstuffs and property along the waterfront, within the last few days, although not proved to be the work of German agents, may cause the revocation as a measure of precaution of permits issued to alien enemies allowing them access to barred zones. This was intimated today by federal authorities.

Agents of the department of justice were busy today, watching alien enemies in waterfront districts with more than ordinary care.

GROWN-UPS GOING TO SCHOOL NIGHTS

Bangor Teachers and Other Adults Taking Business Courses

Fewer Foreigners Now—Permanent Residents Interested—135 Students Now—Plan Evening High School

(Bangor Commercial)

Grown-up Bangor people, most of whom had thought their school days were all over, are now at their books again in the city's evening school, which has been established three years, but up to now has been largely devoted to foreign-born, who studied elementary subjects.

Now more ambitious subjects are offered, stenography, typewriting and bookkeeping, as well as domestic science, which has been given from the start. The result has been an astonishing response on the part of Bangor citizens—not the immigrants, but taxpayers, and sons and daughters of taxpayers, who are glad to take advantage of the opportunity the city offers them to improve themselves mentally.

Among those enrolled are numerous Bangor teachers, who are studying shorthand, typewriting and other business subjects from the secret.

Better still, Principal Lee T. Gray reports that he has had several inquiries about other subjects, and he wishes to have it understood among the residents of Bangor that if any group of a dozen or fifteen people can agree on a course of study they would like to take, it will be arranged for them.

Several have spoken to him about forming a class in French. Later a class in advanced English may be formed.

Evening High School So great a demand is there for more high school subjects that Principal Gray expects that by 1918 or 1919 at the latest, Bangor will have a regular evening high school, which will enable a girl or boy who has to leave school after graduating from the grammar grades, to continue his studies and get a high school diploma.

In the three years that the evening school has been established, two or three persons who were almost entirely without education before going to night school, have fitted themselves for high school, and while they have not enrolled for high school subjects, it is expected that by next year they will be a considerable demand for these branches. In other words, it will be possible soon to work and at the same time get an education from the first grade to senior in high school, by going to school nights.

CASUALTIES

Moncton, N. B., Oct. 18.—Mrs. Zechariah Lutes, of Lutes Mountain, received official notification from Ottawa that her son, Private Oley Lutes, was killed in action Oct. 5. Private Lutes was a son of the late Zechariah Lutes, and was about twenty years of age. He went overseas about a year ago.

That Private Edward Kirkpatrick, son of Mr. and Mrs. John Kirkpatrick, of Rothesay, is suffering from gas poisoning and has been admitted to the Western General Hospital in France, was the information that Mr. Kirkpatrick received last night from Ottawa.

Private Kirkpatrick is well known in Rothesay and the vicinity and his many friends will hope for a speedy recovery.

Official List Ottawa, Oct. 18.—In a casualty list of thirty names, issued tonight from the record office of the militia department, one Canadian soldier is reported killed in action, two died of wounds, three died, three wounded and missing, eighteen wounded, seven ill and one previously reported missing, now with unit.

SOLDIER HAZED; OFFICER ACCUSED

Captain Sullivan Said to Have Led Five Non-Coms in Mud-Bathing Gottschalk

Camp Wadsworth, Spartanburg, S.C., Oct. 18.—According to a report now in the possession of Colonel George A. Wingate, commander of the Second Field Artillery, Captain Howard T. Sullivan, Battery D, of the Bronx, is accused of having directed four non-commissioned officers, who on Saturday night took Otto Gottschalk from his quarters, stripped him, threw him out into a ditch of black mud, forced him to drink filthy water, and then beat him with sticks till he was raised.

An investigation which Major Wilbur Wright undertook by order of Colonel Wingate has been embodied in the report which Colonel Wingate says bears out Gottschalk's version of the affair. The colonel's recommendations in regard to Captain Sullivan will be submitted to Brig. Gen. Phillips, commanding the camp.

According to the story told by Gottschalk, he violated one of the camp's sanitary rules on Friday evening. Apparently, he said, this violation came to the ears of his captain, for on the night following Sullivan, with the four non-coms, appeared before the squad and containing Gottschalk and eight others.

That fellow needs to be punished," Gottschalk quotes Captain Sullivan as saying to the non-coms, indicating the offending private. The four sub-officers, the private continued, then entered the tent and forced him to dress. Putting him before them, with Captain Sullivan bringing up the rear, they led him to a broad ditch running back of the second's mess hall. This trench contained black mire, with a discolored stream running through it, the water being used in washing mess kits.

On the bank of the ditch, Gottschalk said, his captors undressed him, and then, knocking his feet from under him, sat him tall in the mire. Jumping down, the private charges, the four non-coms rubbed the mud all over him, grinding it in, and then pushed him into the polluted water and forced him to drink.

After this, Gottschalk said, they yanked him back to the brink of the ditch and, with the captain witnessing the whole procedure, hustled him down to the shower bath buildings. There he was showered under a shower, and when away Gottschalk said his tormentors vigorously brushed the rest of it off with brushes that gave him great pain.

The man said that this was followed by his being led back to the shower bath building and, without a stitch to protect him from the showers, and when away Gottschalk said his tormentors vigorously brushed the rest of it off with brushes that gave him great pain.

Because of military regulations the attitude of other officers could not be ascertained. However, however, were outspoken in condemnation of the hazing of Gottschalk. It was said that Captain Sullivan in civilian life is a customs inspector at the Port of New York.

ODDFELLOWS HAVE GRAND MASTER AND WIFE AS GUESTS

George S. Ryan, of Charlottetown, grand master of the Maritime Provinces Oddfellows of the Maritime Provinces, addressed an enthusiastic gathering of Oddfellows and Rebekahs last evening in their hall in German street.

Master W. Frank Hatheway, made a few opening remarks, and was followed by Thomas White of Pioneer Lodge No. 9, who is now a resident of Charlottetown, and who gave an interesting address.

Deputy Grand Master Hatheway presented a beautiful bouquet to Mrs. Ryan on behalf of the two Rebecca Lodges.

During the evening solos were nicely sung by Mrs. Murray Long, Miss Annur and Miss Gladys Grant. Refreshments and dancing followed.

Mr. and Mrs. Ryan left this morning to pay a visit to the lodge in Sussex.

To those who never wore IN-VIC-TUS shoes—

way back in the days of Solomon, men did not know the meaning of corns and bunions—seldom were their feet covered by more than sandals.

Today, foot troubles and other ills may be traced to the use of inferior and improperly fitted footwear.

The output of IN-VIC-TUS Shoes is restricted by the makers in order to maintain those qualities which ensure good fitting and long service.

IN-VIC-TUS THE BEST GOOD SHOE

GERMAN FORECAST LUSITANIA SINKING

Diplomat Wrote That Limer Would Be Sunk "Without A Moment's Hesitation."

Chicago, Ill., Oct. 18.—Addressing a mass meeting at Racine, Wis., to further the Liberty loan campaign, Levy Mayer, a Chicago lawyer, read a letter to an American from a person who, he said, was an official high in the German diplomatic service, bearing date of March 25, 1916, and forecast that the Lusitania would be torpedoed. The letter was received in this country the latter part of April and the liner was sunk on May 7, 1915.

Mr. Mayer quoted the German diplomat as writing this: "As far as the United States is concerned, the possibility of a conflict will not be considered likely (in the United States) in view of the Japanese danger, the Mexican embolism, the general unpreparedness for war, and the huge German-Irish element in your country. You do not suppose for a moment, if the Wilson-Bryan administration involves your country in a war for the benefit of England, that those twelve or fifteen million German and Irish would sit quietly? Such an eventuality might put the union to a dangerous test."

"The shipping question is extremely simple, to my mind. If one of our submarines should get the Lusitania, either under the English or American flag, she would sink her, if she could, without a moment's hesitation. Your fear that in such a case two or three hundred Americans might be drowned is quite justified, but nothing in the least would happen. If Americans, as well as other neutrals, in spite of the given warning, are still careless enough to travel on English ships, they have only themselves to blame if they come to grief."

The Chicago Herald says the author of the letter is Adolph von Brunnig, who at the time was minister without portfolio and attached to the German foreign office, and had been secretary to the German embassy in Washington. Oswald Schuetz, Berlin correspondent of the Chicago Daily News, today sent a cable dispatch from Zurich, in which he said:

"The report of the arrest of a man in New York on the charge that he put bombs aboard the Lusitania before the liner sailed on its last voyage, may verify a story current in German circles and credited to authoritative sources that internal machines had been put on the Lusitania lined to explode after the vessel's arrival in Liverpool."

MURDER TRIAL AT PICTOU

Pictou has its first murder trial. Two men, Natali Neri and Carmelo Soto Marabito are charged with the murder of Pietro Marabito in Stellarton in June last. Both prisoners have pleaded not guilty. A large number of witnesses were examined yesterday.

Ed Marksman "What is the chief aim of Jobling's existence?" "Making money." "But he's always hard up." "Quite true. His aim is poor."

Enlisted Over 100 Years JOHNSON'S ANODYNE Liniment

For more than a century this wonderful family remedy has been known as humanity's cause to conquer Coughs, Colds, Sore Throat, Grippe, Whooping Cough, Sprains, Stomach and many other common ills. Whether used internally or externally, its famous doctor's prescription is superior to all others in its class.

Exhibits of Fine Quality At The Loch Lomond Fair

Large Crowds Attend and Farmers Are Enthusiastic Over the Improvement in Roads; The Prize Winners

The annual Simonds and Loch Lomond fair which opened yesterday and was brought to a close in the afternoon, proved a success. The farmers showed a keen interest in the exhibits and the judges' decisions in the various classes.

The needle work, including hand worked quilts and fancy work of all kinds, was excellent and was not surpassed in years. The stock entry list was fairly large, and some fine horses of various classes pranced before the judges. A new scheme was adopted this year, that of allowing the one horse to be shown only once, thus doing away with the re-enters of the same horse in several classes. This was found to be a better scheme and proved most satisfactory.

A feature of the fair was the patriotic activities of some of the ladies. During the day Mrs. S. H. Barker collected Red Cross funds in keeping with the day all over Canada. As a result of her untiring efforts a sum well over \$100 was netted. Those from the city as well as the farmers gave freely.

Last evening a dance was held in the Agricultural hall, which was greatly enjoyed. The proceeds of the dance were devoted to the Soldiers' Comforts Association fund. Pledge cards were distributed among the women folk by Mrs. R. T. Worden.

Despite a postponement of the fair from last week and the fact that the season has been backward one the fair was even larger than last year. During the day there were many from the city visited the fair in cars and partook of dinner and supper at the Commodore House. During the afternoon Commissioner H. R. McLellan reviewed the fair and pronounced it a splendid exhibition.

W. T. Boyle, president of the Agricultural Society and Squire Alex. Johnston, secretary-treasurer, as well as the members present exerted much activity in the interests of the fair.

The many farmers who visited the grounds during the day were, to a man, loud in their praise of the road work that has been done by the present government. They were unanimous that the roads were never in better condition than now. Mrs. C. H. Dickson, of the city, collected \$10 for a patriotic drawing during the day.

The complete list of entries and prize winners was as follows:

- #### CATTLE
- Thoroughbred Ayrshire Stock.
Best cow, 3 years old or over—1st, Austin Baker.
Best heifer, 1 year old—1st, Austin Baker.

My Limbs Would Twitch

And Waken Me—Unable to Rest or Sleep, I Walked the Floor in Nervous State—When Specialists Failed I Found a Cure.

Windsor, Ont., Oct. 17.—This is the kind of cure that has set thousands of people thinking and talking about Dr. Chase's Nerve Food. The cure in this food is so radically different to the usual treatments for the nerves that everybody wants to try it. Gradually nerves back to health and vigor and the benefits obtained are both thorough and lasting.

Mrs. M. Smithson, 27 Arthur street, Windsor, Ont., writes: "I was suffering from nervous breakdown, which was caused by a shock when fire broke out in the adjoining house. My nerves were in such a state that, after going to bed I could not get my nerves quieted down sufficiently to go to sleep. I used to get up and walk around the room, or go downstairs. Even when I would be dropping off to sleep my limbs would twitch and waken me. I was now feeling cold, nervous, night sweats, sometimes would become unconscious and lie that way for quite a little while. I was unable to get warm or keep warm. When on the street I would see two or three objects at once, and did not want any person to speak to me or bother me. Any little noise irritated and annoyed me very much. I had consulted specialists and tried many remedies, but with no result. At last I tried Dr. Chase's Nerve Food, and before long could see that this treatment was proving of benefit. I am now feeling so much better that I can go out on the street without any difficulty, can go across the river and go about the same as usual. I sleep well at night, and am feeling more like myself every day. I am pleased to be able to write you to tell you how much good the Nerve Food has done me. It has strengthened and built up my whole system. I am recommending it to everybody I find suffering from nervous conditions. Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for \$2.75, at all dealers, or Edmondson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

WHY ZAM-BUK IS CHEAPEST & BEST.

You have a right to expect 100 per cent. value for the money you spend, and you get it when you buy Zam-Buk. That is why Zam-Buk is the choice of the good housekeeper and careful buyer. Money spent in Zam-Buk is well spent, because Zam-Buk is more reliable, goes farther and keeps better than ordinary ointments.

The reliability of Zam-Buk is vouched for by thousands of satisfied users, who have proved that it can be depended upon to do what is claimed for it.

Zam-Buk goes farther than ordinary ointments because it contains (by actual analysis) 95 per cent. more medicine, and has, therefore, considerably more healing power.

Zam-Buk keeps better than ordinary ointments because it is absolutely pure. Not only does it contain no poisonous mineral drugs, but positively no mineral fat to be come rancid. It, therefore, retains its strength and purity to the end.

Zam-Buk is used with unequalled benefit for eczema, scalds, sores, ringworm, salt rheum, pimples, hemorrhoids, running sores, ulcers, bad legs, blood-poisoning, piles, burns, scalds, cuts and all skin injuries. All dealers or Zam-Buk Co., Toronto, 60c. box, 3 for \$1.25.

Zam-Buk

NUXATED IRON

U X A T E D I R O N

You Can Tell Its Worth When You Use It. It is the most reliable and most effective of all iron preparations. It is the only one that is pure and does not contain any of the poisonous and irritating ingredients of the other iron preparations. It is the only one that is easily absorbed and does not cause any of the side effects of the other iron preparations. It is the only one that is pleasant to take and does not cause any of the side effects of the other iron preparations. It is the only one that is guaranteed to give you the best results.

Mrs. Geo. F. Smith Continues President

All Offices of Soldiers' Wives League Re-elected at Annual Meeting

At the annual meeting of the Soldiers' Wives League in the St. Andrew's church parlors yesterday, Mrs. Geo. F. Smith presided. The officers for the year were unanimously re-elected as follows: President, Mrs. Geo. F. Smith; vice-president, Mrs. James McFarlane; secretary, Mrs. J. Lee Day; treasurer, Miss Grace Skinner; convener of entertainment committee, Mrs. W. W. White; convener of visiting committee, Mrs. M. B. Edwards; convener of sewing committee, Mrs. Stewart Skinner.

Mrs. Skinner reported for the secretary of the year's work and Miss Grace Skinner handed in a treasurer's report showing a satisfactory balance.

Mrs. Skinner reported for the secretary of the year's work and Miss Grace Skinner handed in a treasurer's report showing a satisfactory balance.

LOST APPETITE, POOR BLOOD

C. E. Saper Says Dr. Cassel's Tablets Best Satisfies Anyone Can Take for Weakness.

Sapper A. Hartley, Canadian Engineer (home address, 906 Trafalgar street, London, Ont.), says: "I used Dr. Cassel's Tablets when I was in the South African war, and finding benefit have taken them since whenever I felt run-down. In my opinion they are the best tonic anyone can take for loss of appetite, poorness of the blood and general weakness of the system. I never fail to recommend them, and mean to have some with me always on active service."

A free sample of Dr. Cassel's Tablets will be sent to you on receipt of 5 cents for mailing and packing. Address: Harold F. Ritchie and Co., Ltd., 10 McCord street, Toronto.

\$35,000 FOR THE RED CROSS FUND

Collections in City Yesterday For British Society Far Exceed Amount Sought, Everybody Helped

Citizens of St. John responded nobly yesterday by subscribing fully \$10,000 more for the British Red Cross fund than the city's apportionment. The good news was flashed over the wires last night by the mayor to Albert H. Abbott, secretary of the British Red Cross at Toronto, and will be cabled with the other returns to England. The heartiest support was given to the committee say, how everyone entered into the campaign to make it the success that it has been. Many of those who are unable to fight their country's battles in France, displayed their patriotism by assembling at 23 King street before 9 o'clock in the morning and launching the attack on the city's apportionment. The business men and the residential parts were successful. The boxes brought in by the Scouts, one of the boxes brought in as high as \$100.00, while the total amount collected was \$10,000. At the head and foot of King street and also at the West Side ferry floats were stationed ambulances, and at these three places alone \$240 was collected. The work was carried on enthusiastically all day and shortly after 4 o'clock the whole city, both business and residential, had been covered. The scouts, with their boxes, marched down to the city hall and presented them to the mayor. Many of the business men and committee were at the city hall at 5 o'clock and immediately started counting the returns, but at a late hour the counting was not completed their task, so the full returns will not be had until today. Many of the business men have been giving in their returns, but the cause, and great credit is due them.

The Good News.

The minute that an estimate of the returns had been reached the mayor rushed to the city hall to receive the following telegram to Toronto last night:

Albert H. Abbott, Secretary Treasurer of the British Red Cross, Toronto.

Appeal for the British Red Cross has met with splendid response from the citizens of St. John, both business and residential. We expect the amount for St. John city to reach \$85,000. Have no reports from outside points of the province.

On the other hand, Mayor H. Hayes, President of the Provincial Red Cross. The returns received at the city hall last night at 11 o'clock amounted to at least \$25,000 and although they had received no other reports, they had been gathered in the different schools throughout the city, the committee was confident that the total amount would be at least \$30,000. The British Red Cross Fund would receive a check for at least \$85,000 from the citizens of St. John.

Boxes were placed in the lobbies of all the theatres, and when the returns were brought in last night, it was found that the total amount was not less than \$100. The streets of the business section of the city were well patrolled by the ladies of the Red Cross with their boxes, and although they were considerably augmented by the substantial sums that were gathered in this manner.

During the evening the ladies of the local branch of the Red Cross carried a very appetizing lunch to the mayor's office for those who had worked without taking time off for their support.

The Boy Scouts assembled at the court house at 4 o'clock in the afternoon under the direction of District Scoutmaster H. Hayes, and the parade, headed by the mayor and F. A. Dykeman, chairman of the committee, proceeded down King street and along Prince William street to the mayor's office.

The Scouts marched in single file and their boxes were received by Mrs. W. W. White, convener of the committee. The Scouts were then accompanied by the mayor, who on behalf of the central campaign committee, thanked them for the work that they had done and for the great assistance that they had rendered the committee during the day. Mr. Dykeman said last night the greatest praise should be extended to the Boy Scouts for the great assistance that they rendered during the whole day. Their manly and military salute as they entered the homes of the citizens was most attractive and no doubt extracted many additional dollars from the householders.

The highest amount collected in any individual box by the Boy Scouts was \$131.10, and this sum was found to be in box 82. After being addressed by the mayor, the Scouts paraded through the streets to the south side of King square, where they were addressed by Deputy-Commissioner B. C. Waring, and dismissed on their way to their homes between 100 and 150 Scouts on duty in the central campaign rooms, where they acted as messengers and made themselves generally useful to the campaign committee.

Campaign Committee.

The campaign committee was composed of the following: F. A. Dykeman, chairman; Mayor Hayes, treasurer; R. G. Schofield, secretary; C. B. Allan and Colonel E. Sturdee.

Apohauki, Oct. 17.—(Special)—The appeal of the British Red Cross met with a generous response in this village and community, the satisfactory sum of \$89.15 was collected through the efforts of Mrs. George B. Jones and Mrs. Harry F. Jones. Of this \$85 was donated by Mrs. H. Montgomery Campbell, of Fredericton, who was formerly a resident of this place.

The local society worked hard today for the British Red Cross Society, and the taggers were successful in raising \$1,800. All the returns are not in yet and the total may reach \$1,400. The largest contributors were the employees of the Dominion Pulp Company, who gave \$229.38.

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless, except sourly tinged when it is not unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel; let your feet before your blood, nerves and muscles become saturated with an accumulation of body poisons, begin this treatment and above all, keep it up! As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.

Germans Prepare For Air Struggle

London, Oct. 18.—With some weeks still left for offensive operations, the western Allies are evidently preparing for a new thrust at various points into the German front. Field Marshall Haig and his French associates to the west in Flanders have increased the volume of their artillery fire to great proportions, and another powerful assault is expected.

For more than a week the Germans have been trying to discover the Allies' intentions by determined raids at points all the way from St. Quentin to the St. Mihiel salient above Verdun. Today the French troops of the southern portion of the line repulsed a strong German attack in the Verdun sector near Beaumont and also along the Aisne front on the Vaulreux Plateau.

On the other hand, only reconnoitering engagements and bombardments are reported.

Intensive air fighting took place Wednesday between the French and German planes. Eleven German airplanes were driven down by French aviators, making a total of 86 destroyed up to that time this week.

The Reuter correspondent with the French army says that information in the hands of the French general staff shows that the Germans are making feverish preparations to meet the Americans in the air next spring.

The number of German battle planes in use is being increased during the winter, and airplanes and motor factories throughout Germany are being enlarged.

The Fokkers, who are building great fleets of fighting biplanes and triplanes, are being taken over the great Persia plant factories in Schweinfurt.

For bombing formations heavy three-seated machines are being built to carry nearly a ton of bombs apiece. When loaded they will be able to climb 12,000 feet in twenty-five minutes.

Working Out The Details For Election Now Interests

Understanding Reached is There Shall be No Distinction Between Liberal and Conservative Candidates Supporting Union Government

(Staff correspondence of The Toronto Globe.) Ottawa, Oct. 12—Now that union government is achieved, interest is centering to a large degree upon the working out of the complicated details connected with the selection of candidates for the coming election, the administration of the election machinery, etc. With the bulk of Conservative and Liberal candidates already in the field representing the two great parties, and with political predictions and prejudices still strong throughout the country, the question arises as to who is to drop out, or who is to be the government candidate, or how the choice is to be made between nominees candidates in each constituency, should both adopt the union government platform. A story which went the rounds today, to the effect that the sitting members of parliament supporting the Military Service Act, which was the vital thing leading to union negotiations, should have acclamations, has no authoritative basis. As a matter of fact, while details in regard to the question of candidates have not yet been finally agreed upon, the understanding reached with the Liberal leaders who have gone into the government is that there shall be no distinction between Liberal and Conservative candidates pledged to support the union government. In cases where a constituency has two great candidates, one Conservative and one Liberal, both can run on an equal footing so far as government influence or imprimatur is concerned. In that case, while political affiliation may influence the vote in favor of one candidate or the other perhaps to a deciding extent, the personal equation will also be an important factor. It is believed that the best elements will vote for the best man, thus leading to the best personnel in the new parliament. In many instances it is believed that candidates and their followers will endeavor to get together, drop politics and agree among themselves on the union candidate, thus insuring his election against a possible anti-conscriptionist and anti-government candidate. It is recognized that in a majority of the constituencies, having regard to human nature, this would be very difficult of consummation. With a view, however, to giving assistance along this line it is proposed to appoint two representatives of the government for each province, one Liberal and one Conservative, who can be called into consultation at the request of the local men in order to help straighten out the question of candidates. For the province of Ontario the names of Hon. Dr. Reid and F. F. Pardee are suggested. These two "election supervisors" for each province will also be given charge of the selection of returning officers, enumerators, etc. The general principle agreed upon is that in carrying out the election there will be, as far as possible, even-handed justice for Liberals and Conservatives. The government influence will go only for union government candidates as against anti-union government candidates. And in cases where two union government candidates are running in the same constituency they will be left to fight it out between themselves. Patronage is Cut Out. One important benefit of union and non-partisan government is already manifest. The patronage burden is being lifted from the shoulders of the ministers. There is a ready answer for all seeking the influence of their geographical minister to do something affecting another department of state. The answer is that patronage has been cut out, and that each departmental head must decide questions of policy and appointment solely in the interests of the state. One illuminative case in point was drawn to the attention of your correspondent this afternoon. One of the new ministers received a telegram this afternoon asking him to intervene to prevent the sending of a battalion for the winter from one city to another. The reply was that any such application must be made direct to the Militia Department, where it would be dealt with solely on the ground of military efficiency and economy. It is this very cutting out of political pull and patronage that is now causing very strong protests from a number of interested politicians and contractors now here, against the whole union scheme, which they declare, is impracticable and will not last more than two or three months at most. One thing, however, is certain. The ministers of the new government, having experienced the worries and evils of the patronage system, especially in

BORDEN'S Reindeer Coffee. Combined with Milk and Sugar. A delightful cup of coffee with a dash of milk and sugar, adding boiling water. A 25c tin makes 50 cups.

METHODIST HOME MISSION PLANS

Standing Committee Fixes Grants For N. B. And P. E. I. Conference At Meeting In This City

A meeting of the standing missionary committee of the New Brunswick and P. E. I. conference of the Methodist church was held in the board room of the Centenary church, this city, yesterday morning and afternoon. The committee is composed of the following ministers and laymen: Revs. J. L. Dawson, Charlottetown (P. E. I.), president of the conference; George Steel, D.D., superintendent of missions; Thomas Marshall, Fairville, and W. H. Barralough, now of Moncton, and Col. F. S. Moore, Charlottetown; Dr. J. M. Palmer, Sackville; J. M. Lemont, Fredericton; J. A. Bruce, Summerside; Mayor R. T. Hayes, and F. T. Barbour, St. John.

MURRAY MAKES NO STATEMENT

Just Confirms Announcement That He Will Not Enter Government —C. H. Cahan Will Not Run

Halifax, Oct. 18—Premier Murray, when seen by the Canadian Press representative at the Halifax Hotel, tonight, confirmed the announcement from Ottawa that he had declined to accept a portfolio in the union government. When asked if he would state his reason for declining to accept a portfolio the premier declared that he had no statement to make.

Ottawa, Oct. 18—It is officially announced that word was received by the prime minister, this afternoon, from Premier Murray of Nova Scotia, definitely declining to enter the union government. The reasons for Premier Murray's action will, doubtless, be announced by him at Halifax, but means which little is known here as to the reasons for his decision. As to what will now be done by the prime minister in regard to a Liberal representative from Nova Scotia, it is uncertain. There is a suggestion that either Hon. W. S. Fielding or A. K. Maclean, M.P., will take the place reserved for Premier Murray, but probably no decision will be reached until Hon. F. B. Carroll returns to the capital tomorrow morning. Sir Robert Borden, naturally, was consulted in regard to filling up the maritime province Liberal representation.

Mr. Cahan Withdraws. Montreal, Oct. 18—C. H. Cahan, K.C., Conservative candidate for parliament in the district of St. Lawrence-St. George, this city, at a meeting in the Monument National tonight announced that he would withdraw from the field in favor of Hon. C. C. Ballantyne, the minister of marine and fisheries in the union government at Ottawa.

The retirement of Mr. Cahan does not leave the field to Hon. Mr. Ballantyne alone, as Alderman Waldon, an anti-conservative "win-the-war" candidate, still remains.

For Digby-Annapolis. Weymouth, N. S., Oct. 18—At a largely attended convention of the Liberal Conservative Association this afternoon, delegates from the Annapolis Digby county constituency unanimously selected A. L. Davidson, Conservative member for Annapolis, to be the "win-the-war" candidate in the forthcoming election. H. B. Short was reappointed president of the association, and L. M. Swaby, secretary.

Like Our Potatoes

Montreal, Oct. 18—Because people in Toronto are demanding Green Mountain potatoes, which have to be carried from New Brunswick, the price of these spuds has gone up, said Thomas A. Ward, potato merchant, today.

Mr. Ward contended there are plenty of potatoes in Ontario seeking a market. Just because they are not blessed with the name Green Mountain, they cannot find buyers, and are consequently selling at \$1.55 and \$1.60 laid down in Montreal.

Toronto people are wasting precious freight space and coal, hauling them 1,000 miles. Green Mountain variety sell at \$2.16 to \$2.25 a bag.

"Here is a chance for the food controller," Mr. Ward declared. "Let him place an embargo on New Brunswick potatoes shipped to points west of Montreal."

Ottawa, Oct. 18—The food controller reports the following prices paid today for potatoes, quotations being on the basis of a 90 pound bag in each case: Toronto, \$1.60; Montreal, \$1.97 to \$2.25; Quebec, \$2.02 to \$2.25; St. John, \$1.62 to \$1.75 for Prince Edward Island stock and \$1.75 to \$1.87 for New Brunswick white stock.

The Quebec market is reported unsteady, with potatoes scarce.

PRICES MUST COME DOWN

Washington, Oct. 18—Food Administrator Hoover announced today that, subject to co-operation from the farmers and retailers, the corn has now been turned in high prices for food. He said retail prices had not come down to conform to wholesale reductions, and that was a matter for public sentiment to correct.

"We never have coffee at our house, because I can't make good coffee". Have you ever started right —with Chase & Sanborn's "SEAL BRAND" COFFEE?

Chase & Sanborn, Montreal.

Summerside districts in their plans for the continuation of summer school work. The committee adjourned to meet again in March, 1918.

ENJOYABLE CONCERT.

St. James street hall was filled last evening to its full capacity to hear one of the finest colored concerts that has been given in St. John for some time. The concert was held in order that money might be raised to buy Christmas boxes for the St. John colored boys who are now in France as members of No. 2 Construction Battalion. Their efforts were not in vain as it was learned that more than \$50 was realized. The concert opened up with a tableau representing France and England. This tableau was exceptionally good and reflects much credit on those taking part. The singing was especially good and the harmony is rarely surpassed by many of the trained singers of the city. Little Miss Mary Penny was perhaps the best soloist of the evening. Her singing was especially good and she won the favor of the audience. The following took part in the programme: Mrs. Alfred Carty, Mrs. Ethel Tyler, Mrs. M. Holmes, Miss Rebecca Edison, Miss Mary Penny, Mrs. Sadie Walker, Miss Agnes Sadler, Mrs. Helena Sadler and Herbert Nichols.

OPINIONS DIFFER on most questions, but Canadian housewives are agreed that Purity Flour is the best and most economical flour for ALL baking requirements. A trial will convince you, of its great superiority. PURITY FLOUR More Bread and Better Bread—and Better Pastry, too.

Redpath SUGAR. Besides maintaining a quality which for 60 years has been admittedly the highest, Redpath was the first in Canada to introduce a modern and convenient series of packages—Cartons and Bags—from 2 to 100 pounds. "Let Redpath Sweeten it." Made in one grade only—the highest!

Bread, Meat, Butter, Bacon, Eggs all go higher and higher in cost while CATELLI'S "MILK"—"HIRONDELLE"—"L'ETOILE" MACARONI remain the most economical food you can serve. They have greater food value than eggs, chicken or lean meat and can be prepared in dozens of appetizing ways. Our booklet, "The Girl at Catelli's" gives you over 100 recipes for Macaroni Dishes—some of them exceptionally delicious—all are nourishing and satisfying. Send us your name and we will mail a copy to you free. THE C. H. CATELLI CO., LIMITED, MONTREAL, Que.

What is Crushed Coffee? Briefly, Crushed Coffee is coffee that has had the beans crushed between steel rollers with just enough pressure exerted to break the beans into clean, even grains from which the bitter chaff and dust are easily separated by air suction—Resulting in a coffee so pure that no egg is needed to settle it. Red Rose Coffee is as easy to make as Red Rose Tea, and its flavor, aroma and smoothness are a delight as compared with the ordinary ground coffees. Sold only in double-sealed air-tight cans to keep it good. The same price as it was three years ago.

"Please, Mother may I have some more Jersey Cream Sodas? They're awfully good." No wonder the little tots like these delicious biscuits—they're made from rich creamery butter, sweet milk, high-grade flour and pure shortening. You'll like their delicious, appetizing flavor, too. Always Fresh and Crisp Sold Everywhere in Different Sized Packages. McCormick's JERSEY CREAM Sodas

Buy This Canadian Cocoa. Now-a-days Canadians must stand by each other. Canada needs to keep all the money in the country that is in circulation. Every time you buy a foreign article made abroad, out goes that much money into some foreigner's pocket. Inversely, every time you purchase a Canadian made product, that much money stays in the country, to your own benefit and the community at large. Without question, Canadian goods are equal if not better than foreign. If you have not patronized your home market, start to-day and begin by trying COWAN'S COCOA—"Perfection Brand" Purest and Best.
