Capital And Labor In Conference In Ottawa

Industrial Congress Is Opened in Senate Chamber

SOME 200 ARE PRESENT

Liberal Leader Shows Way to New Spirit in Industry—Premier, in Message, Reviews Position of Canada Today

(Special to Times) Ottawa, Ont., Sept. 15.—The industrial conference opened at ten o'clock this morning in the senate chamber with about 200 delegates and a large number of vitally interested government officials and business men in attendance.

Hon. A. L. Sifton gave a review of what had taken place at the meetings of the conference in regard to the convention was gradually to raise the condition of labor in those countries where conditions were not equal to our own.

Trouble came when the first report was brought in, as it contained a clause discriminating against our position in the international convention, and it took six weeks' hard work on our part to get this righted and put Canada on an absolute equality with the others at the convention.

Hon. Mackenzie King spoke of his connection with the labor department in Canada and how it came about that he was summoned from Italy twenty years ago to take charge of the Labor Gazette.

The provinces of Canada must work together in regard to standard of labor in order that they might reach a common standard and they had it in their power at this conference to put a new spirit into industry and make it something better than a mere revenue producing process.

The Premier's Message Sir Robert Borden's message was in part as follows: "In common with every nation in the world the Canadian people are called upon to meet new and untried conditions, surrounded with difficulties not less vital and complex than those which we encountered at the outbreak of the war, and during its continuance."

WHAT THEY ALL SAY

PROFITEERING BILL IF YOU ARE FOUND TO BE TOO FAT BEWARE!!

"We're not too fat; we're just comfortable."—London Evening News.

Paris, Sept. 15.—The industrial conference opened at ten o'clock this morning in the senate chamber with about 200 delegates and a large number of vitally interested government officials and business men in attendance.

Hon. A. L. Sifton gave a review of what had taken place at the meetings of the conference in regard to the convention was gradually to raise the condition of labor in those countries where conditions were not equal to our own.

RIOT STICKS TAKE BAYONETS' PLACE IN BOSTON

Troops Still on Duty But the Situation Better

MATTER OF RE-INSTATEMENT

Governor Coolidge Takes Firm Stand—His Reply to Comptroller Curtis Re-Making Police Force General Strike May Not Develop

Boston, Sept. 15.—(Canadian Press)—A definite campaign to regain for the striking policemen the places now officially declared to have been lost because of desertion was expected to be inaugurated today. The action was expected to depend upon the result of a conference between union labor leaders and Police Commissioner Curtis.

The chief of police, who had returned to the city after an absence of some years, he told me the thing that impressed me most was the change in the social conditions and the decline of home life.

As Hiram Sees It

The Settlement, Sept. 15.

"Mrs. Hornbeam," said the Times reporter, spreading some blackberry jelly on a piece of bread, "a visit to the city gives fresh charms to life in the Settlement."

"Oh, he'll be one of us soon," put in Hiram.

"You newspaper fellows," said Hiram, "bring the world to us folks out here, and we'll see it without gittin' the dust of the streets in our eyes."

"And you have here," said the reporter, "the real home life. I talked the other day with a clergyman who had returned to the city after an absence of some years."

"A pup chasin' its tail," said Hiram, "that's about as useful an occupation as lots of 'em has in their spare time. An' some of 'em has nothin' else but spare time—yes, sir."

Belgrade, Sept. 15.—(Canadian Press)—A definite campaign to regain for the striking policemen the places now officially declared to have been lost because of desertion was expected to be inaugurated today.

D'AUNIONIZIO PROCLAIMS UNION OF FIUME AND ITALY

Troops Refuse To Obey Order To Intercept His Force

DAY'S NEWS FROM EUROPE

Situation in Austria Bad—And Approaching Chaos—Expulsion of Large Number of Galician Jews—The Serbian Crisis

Rome, Sept. 14.—Premier Nitti, in a statement in the chamber of deputies today regarding the Fiume raid, announced that the commander of the sixth army had been ordered to intercept and disarm Gabriele D'Aunizio's troops.

Geneva, Sept. 15.—Gabriele D'Aunizio, supported by the force of Arrivi which accompanied him to Fiume, has proclaimed a union of Fiume with Italy, according to advices received by the Serbian press bureau here from Belgrade.

FATHER GARNEY SPEAKS ON PROHIBITION MATTERS

(Special to Times)

Fredon, Sept. 15.—In a sermon in St. Dunstan's Catholic church, Rev. E. L. Garney made pointed reference to the carrying out of the prohibition act and said that a physician who would issue a prescription to a person whom he knew to be a habitual drunkard and the druggist who would fill a prescription for such an individual were in the same class as the old-time liquor seller.

The prohibition act is getting away from the public, and thousands more are expected. Special accommodations are being provided. Many visitors are arriving by motor.

The horse racing on Tuesday, Wednesday, Thursday and Friday is a big drawing card.

The secretary of Gloucester sub-district board of health sends word of one case of smallpox in Iokerman. The usual precautions are being taken.

MURDER CHARGE NOW MADE AGAINST LEGAULT

Montreal, Sept. 15.—Constable Legault, against whom has been issued a warrant for a commission and grand jury on Friday in the court of king's bench on Friday for the killing of John Joseph Clarke, returned to his home today for a jury on the capital charge of murder.

New evidence was forthcoming today which caused the crown to change the charge from manslaughter to murder.

Clarke knocked at the door of Legault's home to ask his way. Clarke had been drinking. Legault opened the door and a scuffle ensued between the two. It ended in Clarke being shot by the officer, who contained he was compelled to shoot to protect himself.

The wearing of the Victory medal by those entitled to it is now authorized. It will be issued to all officers, nursing sisters, non-commissioned officers and men of the allied forces who have actually entered the theatre of operations on the strength of any military unit on any front.

There was a good attendance of members of the Holy Name Society at the services in the Cathedral yesterday. Rev. Wm. Duke officiated. In the morning the members attended Communion in large numbers. The same was true in the evening. Rev. Dr. Mehan preached to the members of the latter church.

Marshal Foch Seeks Body Of Son, Killed Early In War

Paris, Sept. 15.—Marshal Foch has recently asked the Belgian government to have a search made for the body of his son, who was killed in August, 1914, in the Belgian Ardennes.

Marshal Foch has religiously refrained from mentioning his lost son and few knew that the younger Foch was killed early in the war.

THE ANNIVERSARY OF COURCELETTE

For a large number of the members of the Canadian Expeditionary Force, today is a double anniversary, for it marks the date on which the Second Canadian Division landed in France four years ago, and also the capture of Courcellette, during the 1916 operations on the Somme.

Just twelve months later. Both these anniversaries are of moment to the people of St. John as the fighting 26th was concerned in both.

CAPT. H. E. C. STURDEE AND LIEUT. H. O. MORRISON ARE HOME FROM WAR

Arriving on the S. S. Minnehaha at Halifax yesterday was Captain H. E. C. Sturdee, who left on August 28, 1914, one of the originals in the 12th Infantry Battalion and who has since been serving in various capacities overseas.

Lieut. H. O. Morrison, son of Doctor and Mrs. W. S. Morrison of Hampton, was also a passenger on this steamer and returned to his home at noon today.

GREAT FIRE BURNS ITSELF OUT

New York, Sept. 15.—The spectacular oil fire which since Saturday afternoon has raged at the plant of the Stone & Fleming Company in Long Island City, with injury to more than fifty persons and property damage running into the millions, was gradually burning itself out today.

BURIED TODAY

The funeral of Mrs. Sarah J. Duncan took place this afternoon from the residence of James Collins, 31 Gooderich street. Service was conducted by Rev. H. L. Eisenor, and interment made in Fernhill.

The funeral of Mrs. Charles T. Stackhouse took place this afternoon from her late residence, 175 Rodney street, West St. John. Service was conducted by Rev. Jacob Heaney, and interment made in Cedar Hill.

The funeral of Abram W. Craft took place this afternoon from his late residence, Prince street, West St. John. Service was conducted by Rev. W. H. Samson, and interment made in the Good Shepherd burying ground.

The funeral of Charles W. Wallace took place from his residence, Star Court street, at 3 o'clock. Service was conducted by Rev. R. H. W. Pinkett, and interment made in Cedar Hill.

ADULTS MET ON NARROW PART OF THE ROAD

Harry Dever Had Foot Injured And Car Might Have Gone Over Bank

Yesterday afternoon on the main road near Public Landing an automobile driven by Harry J. Dever of North End was forced off the roadway by another coming at high speed up the road.

His father, Henry Dever, had his foot painfully injured, but is recovering quite comfortably now at his home, 24 Adelaide street, where Dr. H. S. Clarke is attending him.

They had been visiting at Public Landing and were returning home. They had not gone far when in a narrow part of the road the other car came along and the only way to clear was for one or the other to back up.

Mr. Dever backed his car towards the ditch and his father jumped out to chalk the wheel and return to his home at noon today.

He left in the ranks of the 60th Battalion from Montreal, where he was employed at the time of joining, was made quartermaster-sergeant and later got his commission. As a lieutenant he joined the 26th Battalion and saw much service with that unit. He has also been employed on special records work in England connected with demobilization.

HOME AFTER EIGHT YEARS

A pleasant surprise was accorded Mr. and Mrs. Frank H. White, 7 Charles street, this morning when their son, F. Abbott White, arrived on a holiday visit after an absence of about eight years.

He was accompanied by his wife and her sister, Miss Dorothy Marshall of Sydney, Australia. Mr. White was married about two years ago in Los Angeles. On first leaving here he went to the west and was engaged in various cities until about three years ago he became employed with the Ford automobile people in Detroit and has since resided there. To show his faith in the "old Ford" he and his wife and sister-in-law motored here in a Ford.

THANKSGIVING DAY FIXED FOR OCTOBER 13

Ottawa, Sept. 15.—Monday, Oct. 13 has been fixed by the government as Thanksgiving Day for the dominion.

MORE DELEGATES HERE

Members of the Knights Templars from Montreal, Ottawa and Boston arrived in the city this morning to attend the convention opening here tomorrow in the Masonic Temple. They were met by a reception committee of local knights at a depot.

WEATHER REPORT

Issued by authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

SOME OF BOSTON STRIKERS ARE BACK AT POSTS

(Special to Times)—Boston, Sept. 15.—Regular police work was started today when fifty members of the metropolitan police department and fifteen of the regular force who had not gone on strike resumed their work.

MANY WANT A-HUNTING. Judging by the demand for game licenses the woods are going to be full of sportsmen taking advantage of the season opening today.

Local dealers in sporting goods are having a sale of vendors of licenses say that there have been quite a large number issued. It is expected that many from outside parts will visit the province in quest of big game this fall.

FROM THE CANARIES

The Canaries Trading Syndicate, an organization which was formed during the war but which has decided to carry on during the period of peace, has written a letter to the board of trade, asking for opportunities of extending its connection to this country.

The electric markets of the Canary Islands, those of West Africa and the West Indies.

ROTARY CLUB

The weekly meeting of the St. John Rotary Club at Bond's today heard a very stirring address on the situation and events in Russia during the fight against the Bolsheviks by Rev. (Capt.) George Parquhar. His address was similar to that delivered by him last evening at St. David's church and referred to elsewhere in the Times.

VICTORY MEDAL

The wearing of the Victory medal by those entitled to it is now authorized. It will be issued to all officers, nursing sisters, non-commissioned officers and men of the allied forces who have actually entered the theatre of operations on the strength of any military unit on any front.

HOLY NAME SOCIETY

There was a good attendance of members of the Holy Name Society at the services in the Cathedral yesterday. Rev. Wm. Duke officiated. In the morning the members attended Communion in large numbers. The same was true in the evening. Rev. Dr. Mehan preached to the members of the latter church.

A GOOD TOTAL

In the church of the Assumption yesterday Rev. A. J. O'Neill, the pastor, announced that the collection for coal had amounted to \$744, a very satisfactory total.

MUST REMAIN AS PART OF EMPIRE

Fine Words of Premier Smuts in Vigorous Speech in Parliament of Union of South Africa

Cape Town, Sept. 15.—(Reuter's)—Premier Smuts, in a vigorous speech in parliament, has declared that South Africa must remain a part of the empire and that it cannot secede. The union, he said, must not be torn apart by nationalistic feelings.

Strongly urging the acceptance by South Africa of a mandate for Southwest Africa, he declared that the German people of Southwest Africa would prefer the union administered to any other. He believed that in the interests of the union and of the native population in the territory should be administered by the union.

Premier Smuts challenged General Hertzog's leader of the nationalists, to declare whether or not the nationalists no longer insisted on the separate independence of the Transvaal.

General Hertzog replied that the nationalists could decide that whereupon Premier Smuts declared the reply evasive and asserted that South Africa has no right to secede from the empire.

TYPHOID SITUATION. One new case of typhoid from Durham street, East St. John, was reported to the board of health this morning. This is the first case in five days and the disease seems to be on the wane. It is of a moderate type and no deaths have yet been reported.

Notice of Births, Marriages and Deaths, 50 cents

MAGEE'S NOVELTY SHOP ST. JOHN

MISSING GIRL IS AT HOME AGAIN. Queenie Earle Had Gone to Golden Grove and Was Cared For at Home of Mr. and Mrs. John McGuire. After two days of suspense and conjecture as to the fate of their thirteen-year-old daughter, Queenie, Mr. and Mrs. Robert Earle, 50 Waterloo street, were made happy today by the return of their wandering child. The little girl had spent the week-end at the uninvited guest of Mr. and Mrs. John McGuire at Golden Grove.

GUENNA EARLE. The little girl had spent the week-end at the uninvited guest of Mr. and Mrs. John McGuire at Golden Grove.

While returning to his home in Golden Grove about four o'clock on Saturday afternoon, Mr. Stevens encountered the little Earle girl walking in the same direction as he was going, and he asked her to ride with him. He says she told Mr. Stevens that her name was Pearl Thompson, that her father was dead and her mother, who was employed at the Dufferin Hotel, had sent her out to work. Arriving at Golden Grove he left her in the care of Mr. and Mrs. McGuire, who said they would look after the child until enquiries had been made.

Mr. McGuire came to the city this morning and, reading the story of the missing girl in The Telegraph, came to the conclusion that it was the principal of that article who was at his home. As a result a reassuring message was sent to Mrs. Earle, and Sergeant Detective Powers was notified. Mr. Powers went to Golden Grove and brought Miss Earle back to her anxious parents about half-past one o'clock.

To a Times reporter this afternoon, Mrs. Earle expressed her relief at having her daughter with her again and asked the Times to thank publicly Mr. and Mrs. McGuire for their help.

RIGHT TO SEARCH WITHOUT WARRANT

Point Raised in Liquor Case in Police Court—Other Matters Before Magistrate

In the police court this morning John Lane was charged with having liquor in his residence for illegal purposes. Inspector Linton said he found twelve bottles of brandy in the defendant's dwelling at 2 City Road, on July 14, in company with Inspectors Merryfield and McKee. He said they searched the house and back of the stove under a piece of carpet they removed two boards and in a hole in the floor Inspector Linton found twelve bottles of brandy. He said the defendant went through the house at that time and went down stairs and was not seen since until Saturday night at Willow Grove, where he was arrested by the police on a warrant.

On cross-examination by J. A. Barry, counsel for the defendant, some argument as to whether there was a search warrant or not, took place, and the witness said that so far as he knew there was no search warrant on the night in question. He said the way he understood the matter was that if a man was convicted on a liquor charge once, no search warrant was needed to search the house on another occasion if it was found necessary, and this, he said, was the case with this defendant. Inspector McKee gave corroborative evidence. The case was postponed until Inspector Merryfield, who is now out of town, could be in court to give evidence.

A case against Frank Coleman, who is charged with interfering with Policeman Coughlan in the discharge of his duty, was resumed. W. W. Garnett told of seeing the policeman struggling with a man at the corner of Waterloo and Union streets on last Friday. He said he saw Coleman talking to the policeman and, thinking that perhaps the policeman

MARINE NOTES. The four-masted schooner Cumberland Queen, 634 tons, was launched on Saturday afternoon at Diligent River, N. S. She was designed by Horace W. Huntley and built by Charles Robinson for J. Newton Pugsley and himself. She will load lumber at Pettigill wharf and land at Halifax, with a cargo of herring blew ashore at Clam Harbor on Saturday morning and is a total wreck. She anchored in a dense fog on Wednesday and in the face of a heavy gale on Friday night the crew took to the boats and landed safely, and at eight o'clock the following morning the schooner broke away from her anchorage. The schooner Manchester Civilian is loading lumber at Pettigill wharf and will sail in a few days for Philadelphia.

LABOR LEADER DEAD. Viscount French, lord lieutenant of Ireland, taking the salute at Belfast on peace day.

Broken Glasses. We can duplicate any lens. If your glasses were made by us your prescription is on our file. If your glasses were not made by us we can duplicate the broken lens of a fragment of it is given to us to work from. Grocery Markets

The following comment on the market situation as regards foodstuffs appeared in Canadian Grocer last week: "The markets in groceries are generally very strong with advances shown in a number of instances, particularly on the Montreal market. Sugar is still very scarce. There are a few lines showing reductions, but in the majority of cases the trend is the other way."

There are advances of importance this week and among the most important is that of an advance of 50 cents a cwt. for refined sugar. This is made by one refinery, bringing the price to \$11, while other quotations are still held at \$10.40 to \$10.50. A change has also been made in the differentials for some grades of yellows. One line of soap powder is advanced in price and vinegars of Canadian manufacture are marked up one cent. Lantern globes are advanced 20 cents per dozen. "Gross" candles of the one cent variety are up 2 1/2 cents a box. Baked beans are higher. Baking powder, winter wheat flour and mill feeds are all firmer and are bringing higher prices.

Among the lines on which reduced prices apply are: Crisco, flaxseed and canned blueberries of new pack. Japanese beans are selling at \$5 a bushel. Tapioca is marked down in one quarter. Evaporated apples are easier in the States and they may be here before long. Corn syrups are active, but ruling somewhat easier. Honey is reduced in price. Canadian caraway seed is much reduced and green vegetables and fruits are lower. There is an easier tendency for grains and oil prices are less.

An improved situation is in prospect for refined sugar, raws having come to hand the past week with other shipments en route. Molasses is also arriving and the undertone is firm. Coffee is unchanged, but somewhat easier in New York. Tea is firm and active. Hay sales are limited and some think reduction of price is in order now. Altogether there is a large volume of business, and the one remark in this connection is that of the difficulty of getting all the goods necessary.

Continued strength in the markets for general grocery commodities marks the week insofar as Toronto is concerned. The sugar situation is still very acute and great difficulty is being experienced in securing anything like adequate supplies. One refinery has announced an advance of 7 1/2 cents a cwt. Receipts of raws are reported at Montreal, and it is hoped that in ten days' time there may be some relief. Tea for future delivery are very high and the position of exchange on Ceylon is such as to discourage buying. Stocks on spot are becoming low, although prices to the retail trade are steady and very firm. Coffee are inclined to be easier, that is for Brazils, but the mild coffees are very firm and supplies are very limited. A feature of the markets is the strong upward tendency in rice. New Southern greens are being offered, but a wholesaler stated that for a fancy Carolina rice, that he would have in the course of a short time, he would have to ask twenty cents a pound, a record figure for this commodity. Dried fruits are in very small supply. Seedless raisins are practically off the market and seeded ones

are very strong in price. There are still some small sizes of prunes, but apricots have all been cleaned up for some time. There is a very heavy demand for spices and prices are very strong. Nuts continue to show a generally upward trend and high prices are being quoted on goods for future delivery.

In produce lines, particularly in meats, the movement is towards lower levels. Fresh meats are selling at easier figures and smoked lines, too, show declines. Lard and shortening are also lower, with butter and cheese remaining firm. There is a good demand for both poultry and fish.

Some 250 or 300 Knight Templars will be in the city during the next few days in attendance at the Sovereign Grand Priory of Canada, the 86th annual assembly, to be held in the Masonic Temple, opening tomorrow morning. A. Shaw, of Kingston, Ont., deputy grand master, arrived here on Saturday after having been in Philadelphia attending the gathering there. A line programme of entertainment has been arranged for the visitors who will be from all parts of Canada and the states.

GUM DECAY CAUSES TOOTH DECAY

Healthy teeth need healthy gums to hug them. Else they will loosen in Pyorrhea. Tiny openings will come in the gums to act as the gateways of disease germs, which infect the joints or tonsils, or cause other ailments. Forhan's prevents Pyorrhea, if used in time and used consistently. No mere toothpaste does. Are your gums tender, gums? Are they bleeding, gums? If so, you are certain to have Pyorrhea (Riggs' Disease). Four out of five people who are over forty have it. To you we earnestly recommend Forhan's. It preserves the gums which hold the teeth secure. Brush your teeth with it. Forhan's cleans the teeth scientifically—keeps them white and clean. If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. 35c and 60c tubes. All Druggists. **FORHAN'S, LTD.** Montreal.

FORHAN'S FOR THE GUMS

EXPANSION IN SHIPPING EXPECTED

New York, Sept. 13.—Trade conditions favor a great expansion in shipping. P. A. S. Franklin, president of the International Mercantile Marine, reported upon his arrival here from Europe today on the S.S. Adriatic. His company, he added, is in a position to take advantage of every opportunity "to help further develop shipping either by operating United States Shipping Board vessels or in any other way." "The British shipbuilding interests," he explained, "are not worrying about the question as to whether or not she is to be the leader in world shipping as she was before the war. On the contrary her spirit appears to be more desiring to co-operate with all nations in re-establishing normal shipping conditions by an increase in world tonnage."

Home From Winnipeg. B. B. Allan returned yesterday from Winnipeg where he was in attendance at the convention of the Central Council of the Canadian Red Cross Society. Winnipeg had given the Prince of Wales an enthusiastic reception, he said. In meeting him again Mr. Allan said the prince remembered him and spoke pleasantly of his visit to St. John. The prince officiated at the opening of the new Tuxedo Park Military Hospital, of which Miss Edith McCafferty of this city is matron.

CUT DOWN THE FIRE LOSS.

The government at Ottawa does well to father a movement for the inauguration of "Fire Prevention Day." The proposal is to have Thursday, October 9, set aside as a special time for dealing with this important matter in schools, homes and places of business.

That the day may not be devoted entirely to theory or the public efforts limited to talk, several practical measures are suggested which would add to the value of the occasion. Each household and the owners and occupants of buildings of all descriptions are urged to make a careful inspection of their premises and to note and correct conditions which might promote the spread of fires.

The loss of life, the loss of valuable property and the destruction of natural resources as a result of fires have been so great in this country that there has been an inclination to take much of it for granted as an unavoidable evil.

THE SHANTUNG AWARD.

Reference to the original agreement between Japan and China, which was made on May, 1915, after Japan had captured the German possessions in China, helps to explain the Shantung award which has excited considerable controversy.

1.—Opening the whole of Kiao-chau as a commercial port. 2.—Establishment of a Japanese settlement in the locality to be designated by the Japanese government.

3.—Establishment, if desired by the powers, of an international settlement. 4.—Arrangements to be made, before the return of said territory is effected between the Japanese and Chinese governments, with respect to the disposal of German public establishments and properties and with regard to the other conditions and procedure.

Capital and Labor meet at the one table today in Ottawa to discuss labor matters of mutual interest. The conference is one of the most important ever held in Canada. It is in line with modern thought, this get-together of the men who provide the money and those who do the actual hand work in our industrial life, and should be productive of good results to both and to the country.

Report now has it that Hon. C. C. Ballantyne, Minister of Marine in the Borden government, is to retire and that Sir Douglas Hazen will return to the position he vacates and which he himself before occupied. Meantime New Brunswick continues without cabinet representation at Ottawa.

A RIVER HOTEL.

The need of summer hotel accommodation along the beautiful St. John river, referred to in an article in the Times on Saturday, is one that has been debated for some time, but so far there seems to be nobody sufficiently interested or courageous to take the initiative.

There is no doubt that on the St. John and Kennebec rivers we have the most wonderful wealth of natural scenery in the country. The fine scenery, the bright days and cool pleasant evenings appeal to our neighbors to the south and it is a great pity that we cannot share with them our natural advantages and at the same time reap the benefit which a great influx of tourists cannot fail to bring with it.

So far the Fredericton exhibition has been favored with better weather than was the experience at Woodstock and St. Stephen, and it gives promise of success.

TELAUTOGRAPH IN STEEL MILLS

Valuable Where Accuracy and Written Record are Needed

Saves Messengers' Wages—Does Away With Dilatory Service and Reduces Cost of Operation in Big Plants

An objection to the telephone is that it makes no record. For purposes where accuracy and a written record are required the telautograph which gives electrically, at any distance, an exact facsimile of writing or drawing done at the transmitting station, is being substituted in many commercial and industrial plants.

"In the blast-furnace department the chief gain also is not in money saved, but through increased efficiency obtained by getting laboratory reports quicker and thereby enabling the mixers and furnaces to handle their work with precision.

"The telautograph is not limited to the sending of words only, but it can transmit numerals, signs, symbols, sketches, or anything else that is written at the transmitting end and accurately reproduce them at the receiving stations.

Specification Records. "Practically all orders for iron and steel contain specifications describing just the quantities of carbon, silicon, sulphur, phosphorus, and manganese that should be delivered on the orders should contain. Each order is given a heat number to identify it throughout the plant, and copies of the order with

(Copyright by George Matthew Adams)

THE OLD JOB. When autumn comes, with soothing sighs, I grow so tired of swatting flies, which light upon my roof! Through all the weary months since spring I've swatted flies upon the wing, and also on the hoof.

specifications and heat numbers are sent to the laboratories, blast-furnaces, open hearth and Bessemer mixers, soaking pits of the blooming-mill, chief recorder of the blooming-mill, hydraulic shears, hot bed and bar-mill, hot down mill and bloom yard office or other place where lies the control of final assignment to orders of heats or blows of steel.

Re-employment of Returned Soldiers—Places Found For More Than Left Company to go Overseas. The re-employment of returned soldiers has been carried out by the C. P. R., so whole-heartedly that according to the official records up to the end of August, actually more returned soldiers have been given employment than left the company for service overseas.

C. P. R. AND THE MEN FROM WAR

Re-employment of Returned Soldiers—Places Found For More Than Left Company to go Overseas. The re-employment of returned soldiers has been carried out by the C. P. R., so whole-heartedly that according to the official records up to the end of August, actually more returned soldiers have been given employment than left the company for service overseas.

In finding employment for returned soldiers, the C. P. R. has found by experience that in most cases it is advisable to reinstate them in the same department as that in which they worked previous to enlistment. The freight handler who has ambitions to become a dining car waiter is not encouraged to change his vocation unless he can prove that he learned something about waiting, for instance, at an officers' mess during his military service.

"The policy of the C. P. R. has been to find a position at least as good as the position given up and this policy has been carried out in the higher ranks of the service as well as in the lower ranks. Thus: T. S. Acheson who was employed as general agricultural agent at Winnipeg, enlisted in October, 1915, was re-employed in the same capacity on January 1st, 1919.

A. L. Gascoigne, who was Superintendent of Car Service, Montreal, enlisted July 1915, resumed duty as secretary-treasurer of the Canadian Pacific Ocean Services Ltd., Montreal, in October, 1918. Gerald Hiam, who was District Freight Agent at Fort William, enlisted in June 1915, and returned to duty on March 15, 1919, as Agent at Glasgow.

Cremonaphone TALKING MACHINE
Plays all Records

The Refining Influence of Music
A CREMONAPHONE should be in every home, not only for the rich and varied entertainment it provides for all the family but also because of its cultural and refining influence upon children.

No home is too poor to be unable to give the children the advantage of good music. If you are thinking of buying a talking machine on no account fail to see and hear a Cremonaphone before making a decision. Most liberal easy terms of payment will be arranged.

RECENT WEDDINGS

Patterson-Crocker.
A quiet wedding took place at the home of the bride's brother, George I. Crocker, North Leominster (Mass.) on Sept. 8, when Miss Lillian A. Crocker was united in marriage to William F. Patterson of Sussex (N.B.). The ceremony was performed by Rev. Mr. Globe of Fitchburg (Mass.), only immediate relatives being present. The happy pair left on Friday for Sussex (N.B.) where they will reside. The groom being a prosperous farmer.

Gould-Fulton.
At Minto, Sunbury county, on September 8, at the Church of the Holy Rosary, the Rev. E. J. Conway united in marriage Miss Ada Fulton, daughter of Mr. and Mrs. William Fulton, and William Gould, both of Minto. Miss Kathleen Coholan, of St. John acted as

bridesmaid and Cecil Fulton, of Minto, supported the groom. They received very many useful gifts. Mr. and Mrs. Gould will reside in Minto.

RECENT DEATHS

Mrs. Margaret Parker.
The death of Mrs. Margaret Parker, widow of George Parker, occurred at her home in Greenwich Hill, on Sept. 9. She is survived by three sons, Isaac Parker of Westfield, Thomas Parker of St. John and George Parker of Greenwich, and three daughters, Mrs. James Nickoles of St. John, Mrs. Frederick McAuley of West St. John, and Mrs. G. M. Mowry of St. John; two brothers, Thomas Ingram of Harcourt and James Ingram of Pennsylvania, and one sister, Mrs. Hannah Bellows of Pennsylvania.

Charles W. Wallace.
The many friends of Charles W. Wallace will regret to learn of his death which occurred at his late residence, Indiantown, on Sept. 12. He was born on November 11, 1838, at Fredericton (N.B.), where he conducted tonorial parlors until a few years ago, when he moved to the city. He is survived by one son, H. L., of Houton (Me.), and one brother, James F. of New York. The funeral will be held on Monday afternoon at 2 o'clock.

Joseph Faulkner.
Woodstock, N.B., Sept. 13.—Joseph Faulkner, a well known citizen died last night, aged eighty-three years. He is survived by his widow and seven children.

William Crowe.
Halifax, Sept. 14.—William Crowe, business man, who came to Halifax fifty-two years ago from Guilford (Ont.), and entered into business which he has conducted ever since, died today. He was prominent in Masonic circles and had been secretary of the St. Andrew's Lodge without missing a meeting for twenty-four years.

Mrs. Robert Slater, aged seventy-four years, died at her home in Hillsboro on Saturday morning, Sept. 13. She is survived by her husband, one son and one daughter.

MAKES REPORT ON CEMETERIES

Fernhill Superintendent Has Been Inspecting Those in Toronto And Elsewhere

A meeting of the Association of Cemetery officials was held last week in Toronto and J. P. Clayton, superintendent of Fernhill, was sent up there by the directors and to report on cemeteries in other places. After attending the convention, where many matters relating to the management of cemeteries were discussed, Mr. Clayton visited all the cemeteries in Toronto and also those at Niagara, Hamilton and Montreal. He reports that none is ahead of St. John in appearance or natural beauty, and care, though he found several models and systems in vogue which, if adopted here, would save money and improve conditions. These included the use of motor lawn mowers, which save time and labor, the use of lawn plots without gravel paths and a hard and fast rule regarding the erection of monuments, only one being allowed on each lot, and it must be kept in repair or be liable to be taken down and removed from the grounds. Mr. Clayton found that St. John is the only place where burial of soldiers and sailors is entirely free; in all other places a charge is made. In Prospect Cemetery, Toronto, a soldier's burial plot has been laid out with some 5,000 graves, and a uniform headstone or marker is required, which in Fernhill is provided free. So drastic are rules carried out that in one cemetery a funeral was stopped until an amount overdue by the lot holder was paid. Mr. Clayton found charges for lots and graves rather higher than in St. John. In many cemeteries Sunday funerals were prohibited except in cases of disease. The result of Mr. Clayton's experience will no doubt be seen next season, as he has several recommendations to make to the directors.

SOME SUBURBANITES LATE GETTING TO WORK

Owing to a mishap on the engine of the Hampton suburban train this morning a large number of suburbanites were late getting to the city. As the train started to back up to the station at Hampton one of the driving rods bent, disabling the engine so that it would be necessary to get another engine to bring the train to the city. The Sussex suburban however picked up the disabled train and brought it to the city, but the extra load delayed the train some three-quarters of an hour. This is the first accident on the suburban service for some months.

Seventy Years in Workhouse.
London, Sept. 15.—A male inmate of the Chertsey Workhouse, who has just died, was taken there when a baby, seventy years ago and spent his whole life there. The records so show.

Fall Opening

Beautiful Autumn Fashions, Tuesday, 16th and Following Days
You are cordially invited to come and see these new models—whether or not you desire to purchase, it will be a pleasure for us to show them

THE SUIT REVEALS NEW STYLE TENDENCIES
and according to Paris advice is to enjoy unusual popularity. Many are the smart versions in which it appears.

SEPARATE COATS
Variety vies with fashion in enlisting the attention of women who insist upon the more advanced coat ideas of the skilled designers of reliable manufacturers. Here they are in models, fabrics and sizes aplenty.

DRESSES OF BEAUTY
A splendid lot of Dresses each presenting some new and fascinating whim of fashion. In models, materials, method of trimming and pricing they leave nothing to be desired.

GOWNS
For formal and semi-formal wear they are in this Fall opening exhibition many of the most beautiful gowns seen in seasons. Individuality in dress is assured, as there are practically no duplicates in the entire group.

EXQUISITE BLOUSES
Each is a creation to arouse desire in the heart of the lover of loveliness. We have never had so much variety or so much beauty at a season's beginning to offer you.

BECOMING SKIRTS
From among the many in our first autumn display of Skirts it will be an easy matter to select one to your liking. Assortments are complete in every particular and prices are moderate.

IRON, STEEL, METAL AND MACHINERY

In its summary of the iron, steel, metal and machinery markets for last week, Manufacturing News, Toronto, made the following comment:

"There is business in this country for the British firms, providing they can supply the demand for delivery. In many cases it is a fact that the price is not the determining factor. One dealer this week said that his house was constantly in contact with firms that expressed a preference for British-made goods. He instanced a case where equipment is required for a ship. Here a wait of six months would not be objected to provided delivery could be definitely promised. Dealers who have been handicapped in this respect, report very little improvement in the matter of securing the material they want. Any improvement that can be made on the part of the British firms, it is safe to say, will meet with a quick response in this country."

"The future of machine tools is just a little uncertain regarding the important matter of prices. Following the war, many makers anticipating a drop in wages and the price of raw material, made a reduction of their prices. The reduction did not come in wages and material, and the makers are growing weary waiting for signs of this taking place, although they do not wish to put prices up. New York advises state that there will be increases in many lines of machine tools that will bring them back to where they were in war days."

"The scrap metal market is doing a fair amount of business, and that is about all that can be said for it. Shipping that is being done by the larger dealers to points outside Canada is on contract only, and new business is not being taken on. Prices show a change, and there is some dullness hanging over the whole market."

HARDWARE MARKET

(Hardware and Metal, Sept. 13.)

Revisions have been made in some quarters on galvanized and black steel sheets resulting in an advance in both of these commodities. Steel plate is just the reverse, having shown a slight decline. The market is firm, completely until they died. It'll do the same thing with this one." Crawford is seventy-five.

AT SAULT STE. MARIE. THE PRINCE READS AN ADDRESS

BY COURTESY OF C.R.R.

range ranging from 5 to 7 1/2 per cent, with lapweld tubes in some sizes similarly affected. These changes it is indicated, bring prices more in line with what prices issued by the manufacturers.

A somewhat lower level of prices has been established on both electric weld and iron rivets, which show an advance in new discounts issued about 1-1/2 per cent. This is true of both single and double diamond glass with the exception of the first three brackets of single on which the list shows an advance of approximately 10 per cent.

Prices on window glass show a decline in new discounts issued about 1-1/2 per cent. This is true of both single and double diamond glass with the exception of the first three brackets of single on which the list shows an advance of approximately 10 per cent.

Linseed oil becomes scarcer every week. Crushers are pretty well loaded up with business and cannot handle the orders offering. This does not mean that volume of orders is exceptionally heavy, but rather that shortage of seed is becoming acute. No relief is looked for before another month or six weeks passes and new crop seed is available. Prices show a slight advance this week.

Turpentine has reacted from the high level reached last week and is now being quoted at figures showing a decline of one cent a gallon. This is in line with the downward move shown in markets to the north. Resumption of overseas buying of turpentine may mean higher prices again as stocks are just about at level of domestic requirements.

IN WALL STREET

New York, Sept. 15—Prices forged steadily ahead during the first hour, casting slightly at noon. The market was further stimulated by the greater strength of United States Steel, which increased its gain to two points. Other noteworthy accessions to the early rise included Bethlehem, Lackawanna, Republic and Nova Scotia Steel, Baldwin and American Locomotive, Mexican and Pan-American Petroleum, Texas Company, Motors and their specialties, high priced tobacco, Atlantic Gulf, American International and Leathers.

Damase Racine, M. P. P., has been renominated by the Liberals of Russell county for the Ontario legislature.

MASONS ARRIVING FOR GRAND PRIORY MEETING

Members of the Masonic order are assembling here today from all parts of Canada for the thirty-sixth annual assembly of the Sovereign Grand Priory of Canada which opens tomorrow morning in the Masonic Temple. It is expected that the delegates will number 200 and at least thirty ladies will be present from other provinces.

This afternoon after registration, the visiting knights and their ladies will be taken for a motor-car trip around the city and suburbs and out to Loch Lomond. Returning by way of the Churchlands road, they will stop at the Manor House for tea.

A meeting of the Grand Council will be held this evening at 7:30 and at 8:30 a reception will be tendered the visiting knights in the Shrine's club rooms by St. John DeMolay Preceptory. Following this lantern slides prepared from special photographs of the Masonic peace celebration in London, secured by D. C. Clark, will be shown and explained by Dr. Thomas Walker, who also was present at the celebration. Afterwards there will be an informal dance.

Tuesday and Wednesday will be crowded with business sessions and entertainment features and the visitors will be kept busy from early morning until late at night.

A bolt of lightning which entered the home of Mr. and Mrs. John Jones of Boyne City, Mich., combedly emptied a glass of water that Mrs. Jones was about to raise to her lips. The glass was not knocked from her hand, nor was she injured.

Mrs. Elmer Crawford, a sixty-eight year old bride, at Okla. City says: "I took care of my other three husbands until they died. I'll do the same thing with this one." Crawford is seventy-five.

WHY NOT SIT AT THE SAME TABLE?

—St. Louis Star.

FAVORS ARMY OF 25,000 MEN

General Wood Thinks U. S. War Dept. Bill Calls For Too Large A Force, In Consideration Of Economic Conditions

Washington, Sept. 13—An army of 250,000 men is sufficient for all the peace time requirements of the United States and a sufficient nucleus for any establishment based on universal military training of a citizen army, Major-General Leonard Wood told the senate committee on military affairs, General Wood told issue with the policy recommended by the war department as embodied in the bill now pending before the committee.

The war department bill calls for a professional army of 676,000, an army, General Wood said, which is more than twice enough to meet all demands and far too large considering the economic condition of the country.

General Wood also arraigned the policy of the department providing for a three months' course in two successive years for all boys reaching the age of sixteen, declaring that a continuous period of six months in one year was much better from the point of view of making efficient soldiers and also less expensive.

The aircraft programme of the United States, General Wood said, had been practically scrapped since the signing of the armistice, despite the lesson learned in the war. It was brought out that in the month of July last the United States produced only sixteen planes, whereas the British government had delivered to the United States 2,000. The witness urged that all aircraft for the army and the navy should be put in charge of a department with full powers over production, training of officers and maintenance of flying fields.

Plan of Organization. General Wood recommended the organization of the standing army on a five or a three-division basis to meet the continental needs of the United States. If the three-division basis is chosen, one division, he said, should be established on the Atlantic coast, one on the Pacific coast, and one in the middle west. He recommended that the remainder of the forces should be distributed as training cadres for the yearly recruits under the proposed universal training scheme.

He again took issue with Newton D. Baker, secretary of war, and Peyton C. March, chief of staff, on the officer question. There should always, he said, be 10 to 15 per cent of officers in excess of the actual needs of the army but the British officer organization of thirty-two major-generals and eighty-eight brigadiers asked in the war department bill is entirely too large and would act as an impediment to promotion of younger men.

Military Training. Discussing the general question of universal military training, General Wood declared that the war department bill is entirely too large and would act as an impediment to promotion of younger men.

Discussing the general question of universal military training, General Wood declared that the war department bill is entirely too large and would act as an impediment to promotion of younger men.

"I would create, out of the men who had served with the colors for six months at the age of nineteen while they were getting their training, the national reserve force. They would enter in the calendar year which marked the attainment of the age of nineteen and serve until they died. I'll do the same thing with this one." Crawford is seventy-five.

bill, would be enough" members of the committee asked.

General Wood replied with emphasis that if only three months' training was given the number of fatalities was doubled thereby. "Six months are necessary to the acquisition of the training a soldier needs," he said. "In time of war, under full pressure and impetus of dire need, four months might suffice to train a soldier to fight in a modern war, but in peace six months are necessary."

"I would suggest that the men be trained in the areas where they have their residence. As each class graduates at the end of the summer months of each year they would be transferred to the reserve. The last four classes of training would form the division of instant response to a call."

Value of Trained Commanders. There should be recalls to active duty of the officers, commissioned and non-commissioned out of the reserve, General Wood said, laying special emphasis on the value of trained commanders.

"By just that measure of lack of trained officers you measure the magnitude of your casualty lists," he said.

General Wood endorsed the schemes of industrial training embodied in the Baker-March bill. He said that the eighty-ninth division, his own command, had obtained good results from the application of the scheme.

Not in the least," answered General Wood. "The returning veterans of this war furnish you all you need to answer that question. The first thing they want of every one to be should be and order. You can't militarize the United States of America. You need not fear."

General Wood endorsed the schemes of industrial training embodied in the Baker-March bill. He said that the eighty-ninth division, his own command, had obtained good results from the application of the scheme.

Not in the least," answered General Wood. "The returning veterans of this war furnish you all you need to answer that question. The first thing they want of every one to be should be and order. You can't militarize the United States of America. You need not fear."

EDUCATIONAL

A COMPETENT

STATION AGENT FORCED TO QUIT

"All the Boys at This End of the Line Are Talking About My Recovery," Says Canadian Pacific Man.

"When the boys come by any see me back on the job looking like my old self they always hold me to know what has brought about the wonderful change and I always shout back 'Tanlac' said A. E. Rawley, the popular telegraph operator at Westford Station on the Canadian Pacific Railroad and living at Westfield Beach, New Brunswick, in relating his remarkable experience with the medicine, recently.

"My recovery has not only surprised me," continued Mr. Rawley, "but all the boys on this end of the line are talking about it. Pulling through what I have suffered back into health and strength seems more like work of a miracle than of medicine for I had been spared of living much longer.

"My health suddenly gave way four years ago following a severe attack of grippe, which settled in my stomach. My food would sour causing gas and such a pressure through my chest that I could scarcely breathe. Sharp pains would suddenly strike me in the chest keeping me in agony for hours, and at night I would have to get up and walk the floor to keep from smothering. One day, about a year after my trouble started, I began vomiting and kept it up almost incessantly for four days, and I thought sure my life would end there. I had to be carried to a hospital for treatment after which I felt in fair condition for a few years and then another attack came on me with great pains in my stomach and intestines which would last for hours.

"At first these spells came about once a month, then twice a month and then every week and got me down to where I just couldn't work at all. In fact, I lost fifty pounds in weight and had to give up my position as station agent and do nothing, but try to find relief. Then I went to another hospital for treatment, then another, making three in all, but kept getting worse. I had no idea I could live much longer and, of course, had little hope of ever getting any better.

"My case was like that of the drowning man, reaching out for a straw—desperate—and although I had no faith in Tanlac to help me when I saw it advertised I grabbed at it as my last resort. I had tried three hospitals and everything in the way of medicines so I couldn't have much faith in Tanlac, but it's a fact, before my first bottle was gone I noticed a difference in my feelings. It was not long then until the gas stopped forming on my stomach, I had a good appetite, and could eat most anything without it hurting me. Now, to put it all in a few words as possible I have taken eight bottles of Tanlac, am not only feeling better but I have gotten back twenty pounds of my lost weight. I am now working regularly every day and am still picking up both in weight and strength right along. I attribute my recovery to nothing but Tanlac. To me it is the most wonderful medicine in the world and I will praise it as long as I live."

Tanlac is sold in St. John by Ross Drug Company and F. W. Munro under the personal direction of a special Tanlac representative.

A DISTINGUISHED VISITOR TO CITY

Rt. Rev. Monsignor George Joseph Waring, vicar general and chancellor to the bishop of the United States army and navy, was a visitor in St. John over the week-end and celebrated mass at St. Peter's church yesterday morning. Monsignor Waring was a chaplain in the 11th cavalry, which was one of the most famous regiments of the United States army for more than fifteen years, and held the rank of major. He has been in foreign service with the American expeditionary force and also with the United States army in Cuba. Monsignor Waring is the only chaplain in the American army who has been honored by the Pope with the title of domestic prelate, this honor having been conferred on him for special work overseas, when he went on a confidential mission with the American assistant secretary of war. He is visiting John McMahon and family, 26 Paradise Row.

Monsignor Waring motored from New York to St. John with Eugene H. O'Connell, of the New York Sun, recently discharged from the United States army as a major. Mr. O'Connell is a son of Mrs. John O'Connell, who has been visiting for some time with her brother, John McMahon.

The party will leave some time today on their return to New York.

Wonderful Remedy Establishes Regularity, Cures Constipation

As you value life itself, never use medicine that racks the system. Constiveness is bad enough but violent cathartics are the limit. When the bowels are constipated and you have stomach trouble and headache, try Dr. Hamilton's Pills; they are so mild you can scarcely feel their action, yet so effective that the entire secretory apparatus is stimulated to healthy action. Dr. Hamilton's Pills move the bowels gently. They tone the liver and kidneys. They renew the blood. Digestion is assisted. Headaches disappear. Stomach rumblings cease. Biliousness is prevented. Dr. Hamilton's Pills are more than a bowel medicine, for they act as a system cleaner and general tonic. For those who feel dull, heavy, and morose, for those who suffer frequently from colds, dizziness, and stomach disorders, there is no better medicine. You risk nothing in using Dr. Hamilton's Pills because they are guaranteed to cure. Made according to formula of one of the greatest physicians that ever lived, Dr. Hamilton's Pills are bound to give our system just the aid it requires. Sold by all dealers, 25c. per box.

HON. F. J. TWEEDDALE OFFICIALLY OPENS FREDERICTON FAIR

Says New Brunswick Potatoes Will Find Big Market in United States, Thus Helping in Relieving Unfavorable Trade Balance—Production Should be Slogan of All Governments.

Fredericton, N.B., Sept. 13.—The Fredericton exhibition of 1919, the lineal descendant of the Fredericton exhibition of 1868, the first held here under permanent organization, was officially declared open by Hon. J. F. Tweeddale, minister of agriculture for New Brunswick, Saturday night. The attendance of spectators was not large, but as Monday will be the real first day of the fair, the attendance then will indicate the patronage which the exhibition will receive.

The selection of the minister of agriculture as the speaker upon the occasion of the opening was particularly appropriate as the Fredericton exhibition from earliest days has laid particular stress upon the agricultural and livestock features and the fair of 1919 will ably sustain the reputation earned in previous years and will also indicate to no slight degree the advancement in things agricultural, which has taken place in this province under the present administration.

The speaker of the evening was introduced by William McKay, president of Agricultural Society, No. 84, which conducts the fair.

Hon. Mr. Tweeddale in his introductory remarks expressed regret on account of the inability of the lieutenant-governor or the premier to be present.

The agricultural features of the exhibition should call to the minds of all the fact that farming and stock-raising together formed the basic industry of Canada, as statistics showed that their products exceeded in value those of all the Dominion's three other great natural resources—forests, fisheries and mines. Agriculture differed in one important particular from the other three natural resources. Minerals, forest-growth and sea-foods all existed and awaited the hand of the toiler to make them available, but the products of the soil were created. They were produced by intelligent cultivation which accompanied the control of the elements by a benign Providence. From being a menial occupation farming had come to be regarded as a business demanding constant application and a highly specialized knowledge.

Hon. Mr. Tweeddale went on to say that Canada was in a period of prosperity. Money was plentiful but it came largely from borrowings. The country was in the position of a mortgagee living upon the proceeds of his sales. The balance of trade against Canada in the United States and the resulting discount of Canadian money were indications of the position of the Dominion.

He had feared an embargo against New Brunswick potatoes going to the American market but a recent survey of conditions in the United States had shown that crop failure in some of the large potato-producing states would make the supply in the republic to the south insufficient to meet the demand and the cost of living problem would make it impossible to shut out Canadian potatoes. The money paid in the United States for potatoes from Canada would aid in restoring the balance of trade.

The minister reviewed the activities of the provincial department of agriculture in 1918, when it appeared problematical how much longer the war would last, a special appeal for increased production was made in order to permit Canada to export to Europe as great a quantity of wheat as possible. A conference of all provinces was held at Ottawa and a campaign planned. The provincial department was assisted by the municipalities and favored by a Divine Providence with the result that one million bushels of wheat was raised in New Brunswick in 1918. To encourage continuance in wheat raising the minister had substantial increase made in the bonuses for flour mills and by next year six new and modernly equipped mills would be in operation in the province.

To aid in the reduction of the cost of meat and woolen clothing a campaign was started to place sheep on every hillside. The provincial government gave first line of credit to farmers to establish flocks of sheep. The general result of the campaign was that today New Brunswick was carrying ten thousand more sheep than it was three years ago but what was wanted was a continuation of the increase in sheep until they would be exported by the railroads and not the carload. There was good prospect that such would take place.

Dairying also had shown marked improvement. The standard New Brunswick cheese had been brought up to that of the Ontario product and an equal price was being paid for it. Fruit has been the most abundant crop in several years. The production of honey had increased more than one hundred per cent under skillful departmental management.

The chief feature of the exhibition grounds this year is the new concrete building which is devoted to transportation. The occupation of this structure makes it possible to give additional space to agricultural and horticultural exhibits.

As with all fairs there is an eleventh hour rush to complete stalls, booths, and so on, but by Monday everything will be in readiness. The midway and amusement attractions are coming from Ottawa and airplanes are to arrive from Truro (N. S.). The livestock arrived Saturday night and has been allotted to its stalls. The poultry section of the exhibition will be particularly large.

Racing Programme.

The Fredericton Park Association announces the card for the four day exhibition harness meet next week. For eleven races there is a total of one hundred and nineteen entries which include all the fastest horses which have been racing in the maritime provinces and eastern Maine this season.

Brick or Wood? High Mileage or Low Price?

Large factories and office buildings are built of brick or concrete—not wood.

Although wood is cheaper.

Because fifteen years from now the brick or concrete building will be good—but a wooden one would need rebuilding.

Apply that to tires. To-day you are offered a Goodyear Tire and a lower-priced tire.

What will they be like six months from now? Will you need a new tire?

Enough motorists have made this test to make Goodyear Tires the largest selling brand in the world.

Enough motorists in your district have talked about it to make a very interesting story for the Goodyear Service Station Dealer to tell you.

The Goodyear Tire & Rubber Co. of Canada, Limited

GOODYEAR MADE IN CANADA

Sox, Fern Hal, Thomas Earle. Thursday, 2:15 trot and pace, purse \$400, seven entries; 2:25 trot and pace, purse \$400, fifteen entries; 2:25 trot, Barter House purse \$400, fifteen entries.

FIRE PREVENTION DAY LIKELY TO BE OBSERVED

An extra of the Canada Gazette received in the city yesterday contains a proclamation from the governor-general in council setting Thursday, October 9, as a Dominion wide "Fire prevention" day, recommending a careful inspection of their premises by property owners and house holders and the calling of a public meeting by the municipal authorities for the purpose of creating interest in the exercising of greater care and doing away with likely conditions that lead to fires. Instruction is also to be given in the public schools. White no word up to last night has yet officially reached the mayor and the county warden, it is very likely that as soon as the proclamation is delivered in today's mails the matter will immediately be taken up and the public meeting called.

This action is based on a movement to cut down the fire losses in Canada which, as shown by statistics, reach annually an average of \$20,000,000; the loss for 1918 was in excess of \$30,000,000. In addition to the loss to property through fires there is a large annual unappraised loss from forest fires which the proclamation says "threatens to greatly impair, if not entirely destroy, our heritage of forest wealth."

The proclamation also points out the deplorable loss of human life which annually occurs in Canada and with a desire to incite a better regard for the protection of human life, the fire prevention plan was resorted to with an idea of disseminating all available information

and the giving of such instructions on fire loss and fire prevention that might be practicable. The recommendations for fire prevention day are set forth as follows: 1. All dwellings and their surroundings be carefully inspected by their occupants and all conditions likely to cause or promote the spread of fires removed. 2. All public buildings, stores and factories be inspected and cleared of rubbish. 3. Fire drills be held for the children in all schools and for employees in all large stores and factories. 4. Special instructions on the subject of fire prevention be given by the teachers and by municipal officials in the schools and such appropriate literature as may be made available be distributed to the pupils. 5. All legislation and regulations enacted or issued by Dominion, provincial or municipal authorities dealing with fire prevention be given publicity by the municipal officials and that by public means or otherwise as may be thought best. 6. All legislation and regulations enacted or issued by Dominion, provincial or municipal authorities dealing with fire prevention be given publicity by the municipal officials and that by public means or otherwise as may be thought best. 7. The most successful solvents are used to extract the medicinal properties from these herbs. Every utensil and tank that comes in contact with the medicine is sterilized and as a final precaution in cleaning the medicine is pasteurized and sealed in sterile bottles. It is the wonderful combination of roots and herbs, together with the skill and care used in its preparation which has made this famous medicine so successful in the treatment of female ills. The letters from women who have been restored to health by the use of Lydia E. Pinkham's Vegetable Compound which we are continually publishing attest to its virtue.

NOTABLE PEOPLE ON STEAMSHIPS AT HALIFAX

Halifax, N. S., Sept. 15.—The first of two troopships to enter the harbor yesterday was the Cunard liner Orduna, which left Liverpool at five o'clock on the afternoon of Sept. 6, with 750 passengers, of whom 800 were dependents and 450 returned soldiers. She was followed by the Minnekahda with 2,500 troops and practically no civilians. Both steamers went on to New York.

THE MAKING OF A FAMOUS MEDICINE

How Lydia E. Pinkham's Vegetable Compound is Prepared For Woman's Use. A visit to the laboratory where this successful remedy is made impresses even the casual looker-on with the reliability, accuracy, skill and cleanliness which attend the making of this great medicine for woman's ills. Over 350,000 pounds of various herbs are used annually and all have to be gathered at the season of the year when their natural juices and medicinal substances are at their best. The most successful solvents are used to extract the medicinal properties from these herbs. Every utensil and tank that comes in contact with the medicine is sterilized and as a final precaution in cleaning the medicine is pasteurized and sealed in sterile bottles. It is the wonderful combination of roots and herbs, together with the skill and care used in its preparation which has made this famous medicine so successful in the treatment of female ills. The letters from women who have been restored to health by the use of Lydia E. Pinkham's Vegetable Compound which we are continually publishing attest to its virtue.

MEMORIAL PLAQUE AND SCROLL TO KING OF FALLEN HEROES

Ottawa, Sept. 13.—The scroll which with a memorial plaque, is to be issued by the British government to the next of kin of those who have fallen in the war, will soon be distributed in Canada by the department of militia and defence. It has been found impossible to issue the plaque at the same time as the scroll, owing to the necessity of building a special factory for its manufacture. The scroll, which is on thick paper in the form of a rectangle, bears the following inscription: "He whom this scroll commemorates was numbered among those who, at the call of king and country, left all that was dear to them, endured hardship, faced danger and finally passed out of the sight of men by the path of duty and self-sacrifice, giving up their own lives that others might live in freedom. Let those who come after see to it that his name is not forgotten." This is followed by an inscription of the soldier's name and all is surrounded by a device including the royal arms and the initials of his majesty. The scrolls will be accompanied by the following letter from Buckingham Palace, over the king's signature: "I join with my grateful people in sending you this memorial of a brave life given for others in the great war. They will be distributed as they are received and no special application for them should be made."

MATRICULATION COURSE FOR RETURNED MEN

Toronto, Ont., Sept. 15.—A special matriculation course for returned men will be started at the University of Toronto on October 1. This is the fourth matriculation course that the university has offered to returned men.

PILES

Do not suffer another day with itching, bleeding, or protruding PILES. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly cure you as a box of ointment, or KEMMEL'S, FARR'S & CO., Limited, Toronto. Sample box free if you mention this paper and enclose 10c stamp to pay postage.

CHAPLAIN MAKES A COMPROMISE IN GRATUITY MATTER

Would Give \$1 a Day For Service in France and Fifty Cents For Days in England

Captain (Rev.) Thomas Harrison, formerly chaplain of the 64th battalion and, later, the 14th brigade, Canadian Field Artillery who has just returned from overseas is a visitor in the city and preached a very strong and impressive sermon at St. Andrew's church yesterday morning. He took as his theme, "Lessons from the life of Absalom," and in the forceful and effective style for which he is noted, spoke concerning present-day conditions. In the evening Captain Harrison spoke in the First Presbyterian church, West St. John on much the same theme, before a large and interested congregation. Captain Harrison, in his sermon yesterday, proved that he has lost none of the eloquence which has made him in the past one of the most noted orators in the Canadian Presbyterian church and which made him one of the most respected and best liked "padres" among the fighting men in France.

Captain Harrison will be remembered in this city as having been prominent in recruiting in the early days of the war and has the proud record of having been instrumental in securing over 2,800 men for overseas service and of having served with those men afterward. He took the advancement of that brigade's headquarters staff to Petawawa and proceeded with that party to England. He went to France and served with these units of the 8th Canadian divisional artillery, having many stirring experiences in the trench warfare on the Lens-Arras front and in the great final campaign from August 8 to November 11 last year. Captain Harrison is a seasoned soldier having served also in the Soudan campaign and on the Indian frontier as a member of the famous Royal Munster Fusiliers and the Royal Field Artillery. Captain Harrison's future movements are as yet uncertain but after a brief visit to his old pastorate at St. George, he will spend a few weeks in the city and it is to be hoped that local congregations will hear him again. He is first foremost a "man's man," and, as many local soldiers know can speak to men in a wonderfully moving and effective spirit.

Speaks of Gratuity.

In a talk with a reporter last evening on present-day affairs and those affecting the returned soldier, particularly the proposed grant of \$2,000 to each returned man, Captain Harrison said that he feels that the returned soldier can never be paid in dollars and cents for the splendid work on the battlefields in the struggle for the world's freedom. He felt deeply conscious that something must be done in this respect, however, and, believing that the \$2,000 extra gratuity would be to burden the country with an expense it could hardly carry, he suggests as a working basis between the government and the soldier that every man, irrespective of rank, be paid additionally \$1 for every day of his service in France and fifty cents for each day of service in England. This, he feels, would mean that every returned man would receive an amount commensurate with his service and he also feels that the government is well able to carry this expense.

In St. David's

Russia, knowing what she did, committed suicide in hurling her armies at the Germans at the outbreak of the war and compelled Germany to withdraw some of her forces from the western front. Russia by so doing helped to win the battle of the Marne and the city of the western world today, "Let Russia fight out her own salvation" is filled with the utmost of inhuman ingratitude.

Such were the statements made in St. David's church, last night, by Rev. (Capt.) George Farquhar, who in a vivid way portrayed the agonies through which Russia has gone, spoke of her promising future and appealed for better understanding and greater interest in her trials. He besought his hearers to be ready to assist the efforts of the valiant armies of Kolchak and suggested as a practical form of assistance, the sending of Red Cross supplies from St. John.

Captain Farquhar, in opening words, said that he would not apologise for speaking. In Knox Church. Rev. James G. Potter of MacVicar Presbyterian church, Montreal, occupied the pulpit of Knox church both morning and evening yesterday. Baptists Exchange. The monthly exchange of pulpits by the Baptist clergymen of the city took place yesterday morning. Methodist Changes. Rev. R. J. D. Simpson of Toronto spoke in Portland street church yesterday morning and in Centenary in the evening on the forward movement. Rev. G. F. Dawson and Rev. J. Heaney exchanged pulpits yesterday morning; in the evening Rev. Neil McLaughlin and Rev. M. E. Conron exchanged.

HON. W. L. MACKENZIE KING ON HARVARD FUND COMMITTEE

W. L. Mackenzie King of Ottawa, and Frederick P. Fish, Robert Homans and Arthur H. Weed of Boston have been appointed members of the Harvard endowment fund committee. Mr. King is leader of the Liberal party of the House of Commons in Canada, having been recently elected to succeed Sir Wilfrid Laurier. He took his A. M. degree from Harvard in 1896 and his Ph. D. in 1909.

Mr. Fish, class of '75, is a member of the law firm of Fish, Richardson & Neave and is chairman of the State Board of Education. He was formerly president of the American Telephone and Telegraph Company. He has been much interested in Harvard, Technology, and Radcliffe affairs. Mr. Weed, a graduate of Harvard in 1898, took his LL. B. degree in 1900. He is a member of the law firm of Herrick, Smith, Donald and Farley.

Both Mr. Fish and Mr. Weed were members of the original Harvard endowment fund committee, which was founded in 1916 and was disbanded until the conclusion of the war. The goal of the present committee is \$15,000,000, former committee set out to raise \$10,000,000. Mr. Homans '94 was a major in the American Expeditionary Forces. He was chief marshal at Commencement at Harvard in last June. He has been secretary of the Massachusetts Bar Association and a director of the Associated Harvard Clubs and is now a member of the law firm of Hill, Barton and Homans.

MORNING NEWS OVER THE WIRES

Arthur Sewell, South Devon, N. B. purchased on Saturday at public auction in Fredericton 200 acres of York and Sunbury crown lands for \$4,000. F. B. Parnell, M. P. P. has accepted the Conservative nomination in St. Catharines, Ont.

W. E. Turley, provincial secretary of the G. W. Y. in Ontario, has resigned because of his feeling against the demand for \$2,000 in gratuities. Nursing Sister E. J. Caswell, who is now the wife of Capt. R. Hamilton, M. C., Regina, has been especially mentioned for good work overseas. She is a daughter of Dr. Caswell of Gagetown, N. B.

The National News says that the Earl of Athlone, brother of Queen Mary, will be the next governor-general of Canada. It has been agreed to submit to arbitration the matter of financial consideration in connection with the transfer of the Grand Trunk Railway system to the government. Major Louis Duncan, M. C., has been appointed a sub-commissioner in the board of commerce and provincial authorities on the regulation of food prices. At an investigation there on Saturday it was charged by R. A. Reid, a bartender, that a combine existed between the Cuba sugar growers and the Canadian and American sugar refineries as to sugar prices.

Sir George Perley will return to England next month to resume his position as high commissioner for Canada. Sir Edward Kemp, overseas minister of militia, will return to Canada soon. Sir Robert Borden is expected to be back in the house today or tomorrow after his illness.

MARLBOROUGH LODGE WINS THE SILK FLAG

Marlborough Lodge, Sons of England, has won the silken Union Jack offered as a prize by T. H. Carter, supreme president, to the lodge getting the most members for a certain period. The presentation was made at a recent meeting to F. J. Punter, who received it on behalf of the lodge. There was also the presentation of a handsome ring emblematic of the order to C. Ledford, who has been secretary since its organization.

SAVED BOY FROM DROWNING.

The prompt action of Harry Shaw, employed in Haley's lumber yard, Lower Cove, was responsible for the saving of the life of a lad named Bennett on Saturday afternoon when the boy fell off a scow into the harbor. Shaw dove in after him and got him safely ashore.

MILLIONS LOST IN NEW YORK FIRE; FIFTY ARE HURT

New York, Sept. 14.—With more than fifty persons injured and the damage already done estimated at from \$2,000,000 to \$10,000,000, weary fire-fighters to-night still were fighting a threat of further explosions of oil tanks at the scene of the fire which practically wiped out the Stone & Fleming Oil Company's plant in Long Island city yesterday. Five tanks of crude oil were burning today. Should there be a sudden shift from north to northeast many additional tanks in early plants would be threatened as well as thousands of tons of coal.

Two fire boats, the Abraham Howitt and New Yorker, caught fire when they cruised up and down Newton Creek fighting the flames on both shores and seeking to save the Greenpoint Bridge from destruction. As the flames ate their way into the forward superstructure the men aboard the craft devoted only part of their energies to combating the blaze that threatened their own lives. While part of the crews fought fire on their own boats the rest continued to play their streams on the fire.

Two Fire Boats Burned. The two crafts were literally floating in a sea of flames. On all sides of them was blazing oil spreading over the surface of the creek, preventing the fireboats William J. Strong, Cornelius Lawrence and George B. McClellan from coming to their assistance, because of the dense drawbridge which separated them. These three crafts, however, hauled tons of water on the blazing draw, enabling firemen to open it, so that they finally could steam to the aid of their sister ships.

Playing streams on the Hewitt and New Yorker, they succeeded in quelling the flames. There were many spectacular deeds of heroism. Early today Lieutenant Louis Semansky threw a rubber coat over his head, rushed through the flames and turned off three valves, preventing the flow of burning oil from tank to tank. Another tank blew up a few minutes afterward and had it not been for Semansky's courage three more undoubtedly would have gone.

Thomas Whitcomb of the fireboat New Yorker was fighting the fire in a tank this morning when the structure fell and burning gasoline was thrown into Newton Creek. Whitcomb tried to jump into the hold of the fireboat but blinded by dense smoke fell into the water, surface of which was covered with blazing oil. Hearing his cries, Benjamin Benjamin Moore jumped overboard to rescue him. Fireman Frank Lannon also seized a rubber coat and jumped, but struck the two men in his dive. This submerged the men and put out the flames which were enveloping them. Lannon then threw the coat over the tank and the men were hoisted aboard the boat to safety. A surgeon treated the three men, all of whom remained on duty.

AGITATION FOR GRATUITY USELESS SAYS DOHERTY

Ottawa, Sept. 14.—Members of the returned soldiers "Gratuity" League of Toronto, who were here yesterday asking for a grant of \$2,000 for veterans of the great war, were turned down by the government. Hon. C. J. Doherty told them that the country could not raise the amount they were demanding, adding that it was useless for them to continue their agitation as the government had made up its mind and did not intend to recede from its position. "And the government cannot be intimidated," declared the minister of justice emphatically.

The deputation arrived by the morning train from Toronto and immediately got in touch with the prime minister. Sir Robert Borden was confined to his house with the grippe and could not see them but advised them to see members of the cabinet. Accordingly, they were headed to the east block and were received in the privy council chamber Saturday afternoon by Judge Doherty, Hon. Arthur Meighen and other members of the cabinet. The spokesmen on behalf of the veterans were H. J. Flynn, president of the league, and Harry Rose, W. P. Gordon, H. Ainsworth and Kearns Batchelor.

In reply to their demands Judge Doherty told them a special committee of parliament would be appointed in a day or two to deal with a bill now before the house respecting the civil establishment of soldiers. War veterans will have an opportunity of appearing before that body and stating their views as to what is needed in the way of further gratuities and pensions to assist disabled soldiers and the families of men who were killed in action or died of wounds.

ANGRY PEOPLE USE HAND GRENADES AGAINST PROFITTEERS

Coblenz, Aug. 25.—(Associated Press correspondence)—Hand grenades left over from the war were used effectively recently by enraged civilians in opposition to the profiteers. A mob, armed with hand grenades, revolvers and other weapons, attacked the stores which were known to have charged high prices. In the interior of Germany margarine has been quoted at six marks a pound, whereas it formerly cost 2.80 marks. This is attributed to the fact that large quantities have lately been bought abroad at higher prices than formerly, owing to the low rate of German exchange. The official rate of exchange for August army headquarters is one franc, twenty-two pennies for one franc, giving the mark a value in American money of a fraction more than six cents.

MINE WORKERS ARE FOR THE PLUMB PLAN

Cleveland, O., Sept. 15.—The United Mine Workers' convention endorsed the Plumb plan for the nationalization of railroads, pledged the support of the miners' organization to secure its enactment and invited the railroad brother-

Make the News More Interesting

WHEN you sit down to read the newspaper after dinner, chew a Chiclet. Scrunching the dainty candy-coating releases a flood of zesty peppermint flavor that adds interest to the news.

Besides, Chiclets are an ideal after-dinner confection—"Really Delightful." They satisfy that craving for "something sweet." Aid digestion. Keep the teeth white. Sweeten the mouth.

PLEASED WITH FACILITIES IN ST. JOHN HARBOR

The Canadian Government Merchant Marine officials who came here Friday night to look over the port accommodations and general facilities, left again Saturday evening, taking away with them enthusiastic and striking impressions of the port of St. John and assured, by representatives of the common council and other city officials, that everything possible would be done locally in the inauguration of the new line of steamers that is to be operated by the Canadian National Railway. The premier and the officials of the St. John and Quebec Saturday afternoon and it was announced that the final inspection of the road was now being made and that it was expected the completion of an agreement between the C. N. R. and the C. P. R. would transpire within a very few days. While it was impossible to definitely determine when the road would start, it was confidently felt that the details in connection with the operation of the road would be arranged next week.

This announcement will be received with interest as well as satisfaction throughout the province and others interested in the operation of this important railway. D. O. Wood, traffic manager in charge of foreign traffic, who was with the official party of railway men, spent part of Saturday afternoon with Harbor Master Alward getting detailed information in the matter of port facilities and how steamers were handled by the city during the winter port business.

Sunlight Soap advertisement with image of a soap box and text: Sunlight does it. You always dread wash day—because of the hours of weary wash-board rubbing, the damp steamy air, with perhaps your skirt and shoes splashed and soaked—just forget all that. Come into the ease and comfort of a Sunlight Wash Day. Sunlight Soap will do the washing you can go out calling or shopping. Read the directions. Insist on getting the Soap you ask for—SUNLIGHT. Lever Brothers Limited, Toronto.

LLOYD GEORGE ON "THE FUTURE"

London, Sept. 13.—(By the Associated Press.)—Premier Lloyd George has issued a message to the people of Great Britain entitled "The Future," which will be distributed throughout the country on Monday. The premier says: "Millions of gallant young men have fought for the new world. Hundreds of thousands died to establish it. If we fail to honor the promise given them we dishonor ourselves. "What does the new world mean? What was the old world like? It was a world where toil for myriads of honest workers, men and women, purchased nothing better than squalor, penury, anxiety, wretchedness; a world scarred by slums, disgraced by sweating, where unemployment, through the vicissitudes of industry, brought despair to multitudes of humble homes; a world where, side by side with want there was waste of the inexhaustible riches of earth, partly through ignorance and want of forethought, partly through cringed selfishness. "If we renew the lease of that world, we shall betray the heroic dead. We shall be guilty of the basest perfidy that

HALIFAX HAS FINE STATUE OF BURNS

Halifax, Sept. 15.—A statue of Robert Burns was unveiled in this city on Saturday by the North British Society. It is a replica of the one at Ayr, by Lawson, and is pronounced the best of all the statues in Halifax. The flag that covered the statue was removed by Premier Murray amid the cheers of the crowd. An address, prepared by Lord Finlay, who had expected to be present at the unveiling, was read by Dugald MacGillivray, and an address prepared by Professor Todd, formerly of Dalhousie University, who also was absent was read by Professor Howard Murray. The R. C. R. band played Scottish selections and there was music by the pipers of the North British Society. The statue stands in Victoria Park, near the public gardens.

ever blackened a people's fame. Nay, we shall store up retribution for ourselves and our children. "The old world must and will come to an end. No effort can hold it up much longer. If there be any who feel inclined to maintain it, let them beware lest it fall upon them and overwhelm them and their households in ruin. "It should be the sublime duty of all, without thought of partisanship to help in the building up of the new world, where labor shall have its just reward."

POST TOASTIES are about the best thing made from corn that you ever did taste—says Bobby. POST TOASTIES are not ordinary corn flakes. A special way of making gives them unusual substance and rich flavor. At Grocers.

PREDICTS WOMEN WILL CAUSE FALL OF THE BOLSHEVIK

Reported Germany Has 200,000 Men Concentrated on Frontier of Silesia

LETVIA ACCEPTS OFFER OF PEACE

Bolshevik Statement Says Eastern Siberia Has Been Cleared by Their Troops, Assisted by 200,000 Chinese—Estonia Takes Action to Expel Foreigners.

New York, Sept. 13—A prediction that the downfall of Bolshevism would be brought about by women is made today by Mrs. Emmeline Pankhurst, noted British suffragist, who arrived here from England on the S.S. Adriatic.

Paris, Sept. 14—(Havas)—A despatch received here from Sossone, in the government of Piotrkow, Poland, asserts that a German army, comprising a minimum of two hundred thousand men, is concentrated on the frontier of Silesia ready to be thrown against Poland.

London, Sept. 13—The whole Amur territory from Khabarovsk to Hoeney, in Eastern Siberia, has been cleared by the Bolsheviks, according to a wireless report from Moscow. It is said that the Bolshevik forces, aided by two hundred thousand Chinese troops, attacked the White Guard.

Stockholm, Sept. 13—The Estonian government has decided to expel about four thousand foreigners from Estonia, according to advices from Petrograd.

Stockholm, Sept. 13—The Estonian government has decided to expel about four thousand foreigners from Estonia, according to advices from Petrograd.

Stockholm, Sept. 13—The Estonian government has decided to expel about four thousand foreigners from Estonia, according to advices from Petrograd.

Greatest of All Tonics Vinol

Ask any doctor if he can suggest a better tonic than the following Vinol formula.

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol. We guarantee it will build you up and make you strong or we will give you money back—at leading drug stores—look for the Vinol sign on windows.

SOLDIER WORK IN CAPITAL IS OF HIGH CLASS

Civil Re-Establishment Efforts Meet Good Results

The Men Much Interested

Learning Mysteries of Useful Occupations Under Competent Instructors—A Work That Should be Encouraged.

What can be accomplished in the way of technical education within a short time if properly promoted can be seen in the offices of the Discharged Soldiers' Civil Re-establishment at Fredericton.

Quite a large number of discharged soldiers graded as unable to take up their pre-war occupations because of physical unfitness or through having enlisted as minors, are now engaged upon courses of various kinds under the same direction as being done towards re-education and vocational training.

The work is not yet fully developed in Fredericton. Much more can and will be done. Plans are now under consideration for an expansion and for an industrial survey of the province which will lead greatly to more widespread co-operation in the re-establishment process to the same degree as some other parts of Canada such will not long be the case if present plans mature successfully.

The soldiers who are taking the courses at Fredericton seem all very much interested in their work. Those in charge say that they are eager to learn and show an unusual aptness for the trades they have adopted.

Up-to-date machinery has been installed in the shoe-making department and the same presented there is a particularly busy one. One of the chief methods of training in this room is the re-building of old army boots so that one day they had been worn by the machines lie scores and scores of discarded military boots—boots that look as though they had been on the march to the Rhine or had suffered from the mud and slime of the trenches. They are taken in hand and through a process which makes them fit for a display in a Bond street window.

The other branches and trades taken up by the discharged men receive each its share of attention and the big plant in the fine new building being used for the purpose is a hive of activity and a fine manifestation of what can be done towards furthering vocational training in the province. Arrangements are now being made to have a display of the work at the exhibition and it should prove both educative and attractive besides remunerative for many of the articles will doubtless find ready buyers.

Police reinforcements are sent to Korea. Zoul, Korea, Sept. 12—(By the Associated Press)—The government here requested 1,500 police reinforcements from Japan as the result of the recent bomb outrages against Baron Saito, governor of Korea. It is announced that the casualties due to the explosion of the missile aggregated thirty-two.

Khaki University Achieves Excellent Results BRITISH FOLLOW LEAD

Preparing To Fit Soldiers For Civil Life, Says Prof. J. A. Dale, Just Home From Europe

(Montreal Gazette.) That the Canadian Khaki University had been amply worth while, and had done much to aid soldiers overseas to prepare themselves for the coming battles of peace, was the statement made yesterday by Prof. J. A. Dale of McGill University, who recently returned from voluntary work with the Canadian Khaki University in Belgium and France.

St. Stephen, Sept. 13.—Over 2,500 people witnessed the postponed races today.

Carleton Out With Challenge.
The Carleton club of West St. John wish to challenge any baseball club in the maritime provinces to a series of games to be played on any grounds they prefer. It is hoped that Alerts or St. Peter's will accept.
(Signed) W. C. WILSON,
Manager of the Carleton Club.
Alerts Win First.
The Alerts won from St. Peter's team on Saturday afternoon by a score of 5 to 3 in an exhibition game. Five members of the regular St. Peter's team were absent, and only four of the regular players, including Doherty, Connors and Dever, were on deck.
Regarding the game between the St. Peter's and Alerts on Saturday, Manager Cleary of the former team said this morning that this was a championship match. Such was not the case, he said. It was only an exhibition game. They had only four of their regular players on their line-up and had it been agreed upon that it would be a championship encounter they would have had their regular members playing. It was likely he said, that a championship game would be arranged.

TWO THOUSAND ENJOY
J. D. O'CONNELL'S PICNIC
About 2,000 children from the different orphanages in the city and many from private homes were made happy on Saturday at a picnic at Rockwood Park, given by J. D. O'Connell. As many automobiles as could be procured were placed at the disposal of those in charge, but it was not possible to secure as many as were wanted. The little ones were thus conveyed to Rockwood where they were treated by Mr. O'Connell and his aids to candy, fruit, ice-cream and the various dainties that go to make up an outing of this kind. He presented to each of the youngsters a twenty-five cent scrip and also quite a sum in a scramble for coppers. It is estimated the cost of the picnic was \$2,000, but the look of happiness on the faces of the youngsters and their evident gratitude must have amply repaid him. He is sure of a hearty welcome from the youngsters on his return next year.
Those who lent automobiles to transport the children to the park and back, and to whom Mr. O'Connell and the children express sincere thanks, were E. A. Goodwin, T. H. Estabrooke, W. J. Eastbrooke, R. T. Hayes, Knodell, R. D. Paterson, Mrs. H. C. Hayes, John DeAngelis, R. Sullivan, J. T. Dunlap, W. J. Pickett, H. C. Groat, George Pattee, J. H. Doody, J. O'Connor, J. T. Dunlap was Mr. O'Connell's right-hand man and a great measure of the success of the arrangements was due to his personal efforts.

U. S. INSPECTORS SEIZE
200 BARRELS OF WHISKEY
Medford, Sept. 15.—Two hundred barrels of whiskey and 600 pounds of sugar were seized in a raid by United States Inspectors McCarthy and Newman upon a cottage in the woods formerly owned by the late Alexander Mollison, where a group of four Poles had erected a fully equipped still and had been distilling their own whiskey.
Manchester, N. H., Sept. 13.—Federal officers raided the home of Joseph Isabelle, 182 Willow street, and confiscated twenty gallons of rum, said to be in process of fermentation, also apparatus used in making the contraband liquor.
Samples of the home made liquor will be analyzed by the state chemist to see if the amount of alcohol is sufficient to warrant Isabelle's arrest on charge of conducting an unregistered liquor still.

ENGLAND CANNOT
KEEP SUPREMACY
INDEFINITELY
Bournemouth, Eng., Sept. 13.—The address of Sir Charles Parsons, president of the British Association for the Advancement of Science at its annual meeting here was in part as follows:
"The whole question of the future resources of the empire demands the serious attention of all scientists. It should be attacked in a comprehensive manner, with the insistence which has been notable in connection with British investigation in the past. A great step has already been taken by a government department which has fostered and aided financially nine trade associations, eight more of which have been approved, while twelve additional ones are in process of formation."
Sir Charles Parsons also spoke of Canada's water powers. He said they were over 20,000,000 horse power, of which already 3,000,000 was harnessed. England, he said, possessed less than one per cent of the world's water power.
Discussing the future, the president remarked that the nations which have exerted most influence in the war have been those who developed to the greatest extent their resources, manufactures and commerce. "But viewing the present trend of developments in the war have been those in using up the fuel resources of the world, one cannot but realize that falling new and unexpected discoveries in science, the population will gradually migrate to those countries where natural resources and energy are most abundant," he said.
President Parsons paid a tribute to the research conducted by Professor F. D. Adams of McGill University towards investigating the earth's interior.
Sir Hugh Bell, president of the Section of Economic Science and Statistics, reviewed the labor situation. Referring to the present unrest he said:
"A cure will come, but it may come

SUPERIORITY OF GRANITE CURBING IS CONCEDED

Council Approves Mr. Fisher's Call For Tenders

WAGE MATTER OF THURSDAY

Another Hearing Granted Civic Employees—Building Bye-Laws Are Being Revised—Union Street Trestle to be Repaired

A decision in favor of the use of granite curbing was won by Commissioner Fisher at the meeting of the common council in committee of the whole this morning. His recommendation for the purchase of curbing had been held up because of suggestions that concrete curbing at a much lower price might prove equally satisfactory. The arguments presented by Mr. Fisher today, reinforced by statements by the road engineer, convinced his colleagues and the recommendation that tenders be called for 10,000 feet of granite curbstone was adopted.

Commissioner Bullock put over a recommendation for repairs to the Union street trestle in West St. John, but another for the painting of three warehouses at Sand Point was held up. An announcement that he is proceeding with the revision of the city building laws was made by Commissioner Thornton.

Mayor Hayes presided and all members of the council were present. In response to a communication from the Civic Public Services Employees Union asking for a further hearing with regard to wage increases, Thursday morning was fixed for the hearing. Action on the application of the Corona Candy Company for a fixed valuation for assessment purposes was deferred until Tuesday.

Mr. Fisher brought up the matter of granite curbing, saying that, if the city intends to go ahead with extensive permanent paving plans it would be necessary to provide curbing. He strongly favored granite and it was necessary to place the orders a year in advance to ensure delivery. Concrete would cost two-thirds as much and was not nearly so durable.

G. N. Hatfield, road engineer, on motion of Mr. Fisher, was heard. He pointed out that the last bond issue had provided for granite curbing for Douglas avenue, although it would not be laid until next spring, and he had been surprised to hear concrete suggested for this street. In other cities granite curbing usually is used only on light traffic streets and almost always is protected by an iron bar running along its face. Even with this protection it was not nearly so durable as granite, which goes for years without sign of wear. Concrete curbing laid in St. John soon showed signs of wear and some had to be renewed within a few years. Freestone was not any better than concrete, perhaps not so good, and probably would cost more. Concrete would be about fifty cents a running foot cheaper than granite, including cost of laying, and he thought it might be used with advantage in some residential streets. Under heavy traffic conditions the granite would last three times as long. There was no difficulty in getting granite if the order is placed for enough in advance.

Mr. Jones said that, in view of these statements, he did not think the city should bother further with concrete. Mr. Fisher moved that he be given authority to call for tenders for 10,000 feet of granite curbing, to be made in the spring. He felt that it should be paid for by bond issue but if the council wished it could be paid by next year's assessment. It would be required for Douglas avenue, Marsh road and Haymarket square.

The road engineer said there had been a demand for a more permanent sidewalk on the Marsh road and a curbing would be required. It should be laid also in Victoria and St. James streets. The motion was adopted unanimously.

Douglas Avenue Work.

Mr. Thornton remarked that his attention had been called to the fact that the residents had been put to a great inconvenience as a result of the street car track's laid on top of this trench. To change the location of the pipes would mean cutting a new trench through solid rock. The company had agreed that it would be better to hold up traffic on both tracks at the same time, rather than to have one track blocked at one time and another later.

Regarding the water main to be laid in Brussels street, Mr. Hare said that it was part of the scheme outlined by experts brought in for the purpose. No pipe recently laid was to be replaced. Some of the old pipe had been laid eighty-one years ago.

An Old Employee.

Mr. Bullock submitted a report, prepared by the superintendent on the case of J. Casey, aged sixty-eight years, who had been employed in the ferry department for twenty-nine years, who through illness, had been unable to work since November 27, 1918. The superintendent urged that some provision be made for a faithful employee who had lost very little time during his period of service and suggested the payment of one year's salary. Mr. Casey had drawn no pay since he was laid up. His pay was at the rate of \$89 a month.

The mayor suggested they wanted to deal fairly with such cases, but suggested that the assistance of the city solicitor be secured in drafting any resolution which might be passed.

Mr. Fisher thought that half pay for a longer period would be preferable to full pay for one year.

Mr. Bullock submitted a recommendation by the city engineer that tenders be called for repairs to the trestle work which affords a short cut from Rodney Wharf to a point further south on Union street, W. E. Jones concurred.

In view of the fact that the harbor might be placed in commission, Mr. Fisher thought that the work should be delayed. Mr. Jones concurred. Mr. Bullock regarded the work as es-

LOCAL NEWS

HERE AGAIN.

Robert McAlinsh, sub-liquor inspector, returned today from St. Stephen, where he had been on duty during the fair.

SEVERAL TRAINS THROUGH.

Several "deadhead" trains passed through the city this morning on their way to Halifax, where they will meet steamships coming with Chinese coolies.

IN TWO SECTIONS.

The Montreal train today came in in two sections; the first, carrying passengers, was on time, while the second, with baggage, was reported two hours late.

COUNTY COURT.

The case of Huey vs. Doody is being continued in the County Court today before His Honor Judge Armstrong. Teed and D. Mulholland are the plaintiffs and D. Mulholland, K. C., for the defendant.

REPRESENTATIVE INVITED.

The board of trade has been invited to send a representative to the national convention on moral education in the schools in relation to Canadian citizenship. The common council has also received a similar communication.

THE MARITIME BOARD.

R. B. Emerson, chairman, and R. E. Armstrong, secretary of the local board of trade will be in attendance at the meeting of the maritime board which will meet in Moncton on Wednesday morning. It is expected that other local members of the board will also attend the meetings.

FIRST MOOSE OF THE SEASON.

Perhaps the first moose of the season fell to the lot of Thomas Kerrigan, who made his bag early this morning near Musquash. The moose is a good specimen with a spread of forty-eight inches. Mr. Kerrigan's guide was Roy McCluskey.

HAMPTON FUNERAL.

The funeral of Percy E. Giggey took place yesterday afternoon from his late residence in Hampton. Service in the house was conducted at three o'clock by Rev. C. Gordon Lawrence and the cortege proceeded to the Church of the Messiah, where Rev. Mr. Lawrence conducted services. The funeral was held in the rural cemetery, where service was held at the grave. The pall-bearers were H. Ryder, F. P. Giggey, W. Baird and Ed. Wannamaker. The funeral was one of the largest held in Hampton for some time.

CHIGNECTO IN.

The Royal Mail Steam Packet Liner Chignecto, Captain Willatts, arrived this morning from the West Indies with 105 passengers and a full cargo of general freight. Amongst the passengers was E. R. H. Tucker, who returned from overseas in June and has been spending a few months with relatives in Bermuda. Mr. Tucker is well known in local banking circles, having resigned his position with a local bank to enlist with the 1st Canadian Divisional Artillery. He served during the last part of the war with the 6th C. P. A. Brigade in the Second Division.

NOT NECESSARY TO HAVE TWO TRAINS A DAY IN MONTREAL SERVICE

Business Fluctuates, Says Superintendent—Take Off Sunday Train on November 2

The increase in travel between St. John and Montreal has given rise to a report that an extra train was to be put on the service each way by the C. P. R. giving two trains out of here and in from Montreal each day. A letter was received this morning by H. C. Groat, superintendent for the New Brunswick district, from the general manager saying that the matter had been receiving attention there and it had been decided that the extent of travel did not warrant the extra train.

"Traffic fluctuates considerably," Mr. Groat explained this morning. "For a few days now and again there is a great rush of people and then it slackens off for perhaps a longer period. We shall be having several specials between Montreal and here for the steamboat travel, which also is of a fluctuating nature, sometimes several ships arriving together meaning a crush of work for a little while. If there were any assurance of steadiness in the travel it might be a different matter but for much of the time an extra train would be running light."

Mr. Groat said that the Sunday train between Montreal and St. John would be taken off on Nov. 2.

LEG AND ARM BROKEN

Lsie W. Bewick Falls From Train On Way To Office in City

In a fall from the Sussex train this morning in the Island Yard, Leslie W. Bewick, aged nineteen years, of Brookville, was seriously injured and was taken to the General Public Hospital unconscious. It is not known definitely how the accident happened many different reports being given by those who were near him on the train but that which is most current is that he was standing on the steps at the rear of a car and lost his balance in a lurch of the train.

He was picked up by some men about the Island Yard. Dr. C. M. Kelly attended him. One of his legs was broken and he sustained a compound fracture of one of his arms. Young Bewick was in the employ of the Furness Withy Co. Ltd., and was in the habit of coming to the city each morning by train. His friends will regret to learn of his accident.

essential and thought it should be proceeded with.

Mr. Thornton seconded the motion that tenders be called and the motion carried. Mr. Bullock also moved that tenders be called for painting the warehouses at berths Nos. 1, 2 and 3.

Mr. Jones, Mr. Thornton and Mr. Fisher announced their opposition and the motion was declared lost.

In reply to Mr. Bullock Mr. Thornton said he was working on the revision of the building laws. He was gathering information on the subject and was desirous of submitting a report as early as possible. The building inspector and the city engineer were assisting
