(Canadian Press) New York, Feb. 2.—The retirement of Charles F. Murphy as leader of Tammany Hall was demanded in a resolution adopted last night by the National Democratic Club. Today friends of Murphy announced their intention of appealing to the board of governors of the club on the ground that the bye and bye vote was illegal. Thomas F. Smith, secretary of Tammany Hall, who with other friends of Murphy fought the resolution and the method of its adoption, denounced the action of Edward F. O'Dwyer, president of the club, in refusing to put the question to a rising vote. He called it the worst instance of boss rule I ever saw. The whole proceeding was illegal, Smith declared, and he said the matter would be taken before the board of governors in the form of a protest. It was also announced that another meeting of the club will probably be called and an attempt made to rescind the action taken last night, or declare it illegal. Joseph Cassidy, former Democratic leader of Queens County, and Louis T. Walker, Jr., his lieutenant, were found guilty, late last night, of conspiracy in selling a nomination to the state supreme court bench to William Willett, a congressman. They are locked up in Raymond street jail today, awaiting sentence. This is expected to be imposed two years in prison and a fine of \$5,000. Ex-Congressman Willett, who was convicted ten days ago of buying the nomination for judgeship, was arraigned in court for sentence today. "No I have not for, so far as I am aware, there is no disposition on the part of our people to add dances of that kind. They are too self-respecting. I know that in one town Bishop LeBlanc's diocese the tango gained quite a vogue and this it was that called forth the bishop's pronouncement."

That all the men who were in the Salvation Army Metropole escaped with their lives when the place was burned early this morning is the firm belief of the officers of the army who were about the building last night. Adjutant Cummings told a "Times" reporter this morning that he was confident that when he made a tour of the rooms of the burning building last night all the men had got out. Just how many men were in the shelter last night cannot be ascertained as the list was lost during the fire. The fact that some of the lodgers have not been located may be explained by the fact that some of them refused to go to the police station, and probably found other lodgings. The amount of insurance on the building is definitely known, as this is handled from the head Canadian office of the army, in Toronto. With regard to the furtherance of the good work that has been carried on by the army through the Metropole, Adjutant Cummings this morning wired his superiors in Toronto for instructions, but at noon had received no reply. Quick Relief The generosity of the people of St. John was effectively demonstrated this morning in their response to the appeal for clothing for the unfortunate men, most of whom lost all their clothes in the fire. Before several generous donations of under-clothing, boots, overcoats, etc., had been received at the Seaman's Institute, when How Walker had consented to superintend the distribution. At a meeting of the executive of the Women's Canadian Club, hurriedly called at a meeting of the executive of the Women's Canadian Club, which was held at the Seaman's Institute, and in which the members of the club were asked to contribute to the relief of the unfortunate men. The Women's Canadian Club has asked all their members to do all they can in the way of furnishing clothing, sending it to the Seaman's Institute for distribution. Great sympathy is felt for Adjutant Cummings and family, who were also affected by the fire. The adjutant has been a strong influence for

good in St. John, and the fact is now universally realized. The Future Just what disposition will be made of the men who have been making the Metropole their home during the winter, is a question that is facing the Salvation Army at the present time. Adjutant Cummings said this morning that there was no doubt the army would continue to look after the men who were in the shelter last night, but in the meantime some place would have to be located for the sheltering of the men. Arrangements were made this morning for looking after some of the men in several vacant rooms in the Magge building, Water street, until a permanent place could be located. Use the Army A. H. Wetmore this morning suggested in the "Times" that the new army might be used for sheltering the men mentioned in the matter to Colonel Sturdee, who replied that such a thing might be done if Adjutant Cummings would agree to look after the place while the men were there. As the army is now unoccupied, and there is plenty of space there, comfortably heated, the suggestion is considered a good one, and the men would be all housed together, and it would not necessitate scattering them about the city. No doubt sufficient food might be secured from various sources. Provides for Meals Action taken by L. P. D. Tilley, M. P., along with that taken by the Women's Canadian Club, hurriedly called at a meeting of the executive of the Women's Canadian Club, which was held at the Seaman's Institute, and in which the members of the club were asked to contribute to the relief of the unfortunate men. The Women's Canadian Club has asked all their members to do all they can in the way of furnishing clothing, sending it to the Seaman's Institute for distribution. Great sympathy is felt for Adjutant Cummings and family, who were also affected by the fire. The adjutant has been a strong influence for

Charlottetown, P. E. I., Feb. 2.—The temperance people are disappointed over the outcome of the recent campaign conducted by the alliance against prohibition violation. They thought Thiel detectives here from Montreal. Representing themselves as fox men they left the country. In the whiskey cases prosecution was easy but the beer cases were more difficult. There were about twenty-five convictions in all. Among some who confessed were two four offence men, which might mean six months in jail. Sentence was suspended, however, on promise of giving up the business. Up to this time the temperance people were fairly well satisfied with the prosecution. W. E. Bentley of Charlottetown, and Ernest Strong of Summerside. A case in Summerside was dismissed, but the other cases were not. Bentley and Strong were arrested sixteen others were sent to the workhouse. These cases in Charlottetown were the same. Mr. Bentley has published a lengthy statement giving his side of the quarrel between Strong and himself. He says that he was appointed by the alliance to represent all the government prosecutions including those in Charlottetown and Summerside, and that the appointment was sanctioned by the government. He said he was to be the only government prosecutor in Charlottetown and Summerside, but that the appointment was not made until after he had accepted the position. He said that he had no objection to Strong appearing in court and following the same. Bentley's statement was published in the "Times" and was widely read. Strong has not yet published his side of the story, but he maintains that he had the appointment from the government to act continuously on behalf of the temperance people and that this appointment has not been cancelled. The provincial alliance will meet on Thursday and the whole question will not doubt be ventilated. It is believed that some do not favor the methods used by the detectives, and declare that they will not justify the means. Some ask to have light thrown on the following questions:— Including some of the principal violators, including one of the vendors, allowed to escape from the island before summons could be served upon him. Why were the sixteen cases in Summerside, and the three in Charlottetown, abandoned? Although there were seven convictions in Charlottetown, why were only two fines collected? The reply of Prosecutor Phillips and Attorney Strong to the assertions made by Mr. Bentley are awaited with interest. It was rumored that the hand of the politician has been at work and that the government has had something to do with the matter. All the prosecutors and their counsel are Conservatives.

ARCHBISHOP MCCARTHY INTERVIEWED ON MATTER OF CERTAIN DANCES Halifax, N. S., Feb. 2.—In reply to a question this morning as to whether he had made any pronouncement such as that made by Bishop LeBlanc on the subject of certain dances, His Grace Archbishop McCarthy replied:—"No I have not for, so far as I am aware, there is no disposition on the part of our people to add dances of that kind. They are too self-respecting. I know that in one town Bishop LeBlanc's diocese the tango gained quite a vogue and this it was that called forth the bishop's pronouncement."

NORTON GRIFFITHS ON IMPERIAL COUNCIL Gives His Views in Speech Before Montreal Canadian Club Montreal, Feb. 2.—The progress of the movement in Britain towards the idea of an imperial parliament was outlined by the Canadian Club here yesterday by J. Norton Griffiths, Unionist M. P. for Westbury, England. "There have been many suggestions," he said, "as to the method of creating an imperial council, and once a public opinion throughout the British Empire is convinced that an imperial constitution must be written, the British Empire will be laid before the people. Our present aim is to have the whole Empire united in demanding such a council for their protection and their welfare. "I am not going to treat unfavourably ground today, but many people in this country have asked me what is the real position in the navy. Are we facing danger or are we not? Now could not an imperial council, unaffected by any party bias, have given the true lead and told the Empire really the truth?" He had no hesitation in saying that the critics of the world realized that in naval matters we were going through one of the most critical periods in our history. Behind security and strength lay cheap money and prosperity. The British empire had always had cheap money because of her naval strength. He added that there had been a serious cabinet crisis on the naval question the decrease in the Bank of England rate during the recent discussion in the press would not have taken place.

COURTENAY BAY INQUEST IS HELD Company Fully Exonerated By Coroner's Jury The Courtenay Construction Company was fully exonerated by the jury which returned its verdict on the death of John Olsen, killed at the Courtenay Bay works by a premature explosion. The superintendent of the works, A. A. Miller; Alex. Fraser, the walking boss; James Robertson, the drill foreman; and Morris Steves and A. Johnson, two powdermen gave evidence. The verdict returned by the jury to the coroner was as follows:—"We, your jury, find that John Olsen and Andrew Damon met their death on the Courtenay Bay works of the Courtenay Construction Company at Courtenay Bay, St. John, death being due to premature explosion, cause of explosion unknown. "After considering the evidence submitted, we feel that the company operators, including the company employees, must be fully exonerated from all thought of blame and the said accident can only be considered as a signal to powdermen to exercise great care in their work."

In answer to the second charge he said he was cold and he only wanted to get something to warm himself. **MANY SEE MODERN DANCES AT THE IMPERIAL THEATRE**  
Shown by Two of World's Best Teachers—Harmony Girls and Others Features of Attractive Programme

The Imperial Theatre afforded the people of St. John an opportunity yesterday of viewing the modern dances, Hesitation Waltz, Turkey Trot and tango, in their original form as exemplified by two of the best dance teachers in the world, Miss Dora Sawyer and Miss McCutcheon, of New York. The civilized world for some time past has been discussing the propriety of the Tango and because of the extravagant forms into which the original has been corrupted, some prominent people have pronounced severely against it. In fairness to the entertainment provided at the Imperial, however, it must be said that the interpretation of the Tango as given by Miss Sawyer and Mr. McCutcheon, little, if any, objection could be made to it by the most prudish. It was a charming series of movements of a most complicated character, displaying the poetry of motion to a fine degree and conveying a vivid impression of one of the chief folk-dances of Spain. The Hesitation Waltz is merely a new form of the standard waltz movements with, as the name implies, occasional pauses and some graceful dips. The Turkey Trot, on the other hand, is a romping, rollicking dance, in reality less graceful and more gaudy than either of the aforementioned dances. Large crowds of discriminating people witnessed these exhibitions, and their applause seemed to indicate their approval of them.

The outstanding feature of the Imperial's bill, however, was the singing and playing of the Three Harmony Girls. These young ladies are thorough musicians. They sing in concert, duos and in offering pleasing variety of numbers. Their piano duets and accompaniments were unusually brilliant. The soprano and contralto performers elicited much applause, particularly the lady with the almost bass voice. A Vitaphone two-reel comedy of an hilarious quality entitled Jerry's Mother-in-Law, concluded the programme, except for Miss Ashe's splendid soprano number. The same programme will be put on today, and in deference to the wishes of several clericalmen of different denominations, the cabaret ensemble dances which belong to the suite, will be omitted as was done yesterday.

**A SENSATIONAL WESTERN PICTURE AT GEM THEATRE**  
Exciting Adventures and Hairbreadth Escapes—Owen Moore in Victor Drama—Travel Scenes and Comedy

The many sensational episodes in the career of Tom Mix, the famous western cowboy were in part illustrated yesterday at the Gem theatre in Selig's exciting two part drama, "The Escape of Jim Dolan." The picture pleased all who saw it. Dolan was a westerner who had a facility for getting into "scrapes" and only his ingenuity and quickness saved him in many instances. For example, in one scene yesterday he was shown in a river with pursuers close upon him, so that had he shown himself he would surely have been caught. Using the barrel of his rifle as an air-tube he remained under water till the enemy had passed. This was but one of the many exciting scenes. The picture will be given today. Owen Moore, a former St. John favorite, made a big hit in the Victor Co. drama "Consequences," while interesting was taken in the scenic picture "Snow Effects in Austria" and hearty laughter centred in the comedy "Dixie's Dishwasher." The Gem orchestra directed by H. W. Burnham gave a fine programme.

**S. R. D. SIGN AT OPERA HOUSE; DAVID HARUM ATTRACTS THEM**

Thompson-Woods Company Have Drawn Another Winner in Successful Stock Engagement

To those who have read Westcott's novel the presentation of the famous rural comedy-drama "David Harum" at the Opera House must surely afford unlimited pleasure, while to those not familiar with the quaint, humorous and lovable characters the advice would be to see the Thompson-Wood performance and there will be continuous appreciation. Before an audience which allowed the "S. R. D." sign last night the first performance was given and it was heartily received by all present. The only unfortunate feature (and one not on the programme) was a tiresome lengthy interval between acts which caused the production to drag, but which should be removed this evening.

David Harum is a character of many years standing in the literary and dramatic world. He added fame and fortune to W. H. Crane and was popular wherever he appeared because of his droll manner, witticisms, epigrammatic sayings, and general whole-souled, big-hearted nature. Sam A. Meharry last night was the centre of interest in the Thompson-Wood production in the title role and he gave a clever and admirable rendition. He played the part of the passionate horse-lover, the country banker, the sentimental father, and the trader of horse-flesh, for which David Harum was all of these with an ease and capability which gained him highly deserved applause.

Miss Brandt, evidence of whose popularity was attested in a keen demand for her recent photographs, was seen as Mary Blake, a winsome school teacher, and was amiable and delightful as usual, though afforded little opportunity to display the ability she possesses. Miss Bridges as the good-natured, rather fussy sister of David appeared to advantage, while Miss Derby as the Widow Cullom aroused sympathetic interest in all present. Mr. Hodge was a popular favorite as John Leno, in love with Mary, while Mr. Weyler, as the gruff and burly General Weyler, his guardian, handled the part most satisfactorily. Mr. Fager brought out the miserable traits of character in the role of miser Zeke Swinney; Mr. St. John, Mr. Drummond and Arthur McCloskey as three rural citizens helped keep up the spirit of laughter pervading the piece as did Gerald McCaffery as Deacon Perkins, taken in by Harum on a horse-deal. Mr. Fleming as a bank clerk, was as "self-important" as the role demanded. Dainty Miss Davis died in "knickers" as an office-boy, was more popular than many such though she had but little to do.

David Harum should be received with continued approval throughout the week. Abounding in quaint old-fashioned humorisms, savoring of the refreshing atmosphere of "Way Down East," portraying the whole-heartedness of old-time country folks, and creating an effervescent fountain of laughter, the play should be classed as another to the long list of successes in the Thompson-Wood repertoire.

**AMUSEMENTS**

**AT THE UNIQUE**  
The Unique Theatre started the month as well as the week with a good programme. A Kay Bee subject takes head-places on the Monday and Tuesday bill. The one presented yesterday bears the somewhat significant title of "The Green Shadow" and is a forcible lesson in the outcome of a jealous nature. The story is interesting, there is an abundance of thrilling moments in the film and the action is well sustained throughout. The falling of the telegraph operator from the top of the pole on which he is working makes one gasp for breath, while the circle of Indians riding around the captured soldiers is a thrilling sight. The fourth of the Reliance series of "Two Men and a Mule" is more laughable than the other subjects of the series as it depicts the adventures of Steve and Pete, the two hobos in a little town called Squeedunk. An Indian Training School affords one the opportunity of seeing how the red man is educated in the military schools of America.

**LYRIC**  
For good acrobatic feats coupled with an abundance of real funny situations and laughable jumping manoeuvres, the Turner Bros., rightly styled "Jumping Jack Boys," who are the attraction at the Lyric theatre the first three days of this week, have every reason to congratulate themselves on having an act that pleases all persons from the frivolous and young to the old and more sedate. The marvellous dexterity displayed in presenting several novelties from the acrobatic world places the act on a little higher level than most performances of this nature. The clown created much laughter and received well merited applause for his ability not only as an acrobat but also as a comedian.

The picture programme claims Reliance mystery story as its feature. For "Another's Crime," with which is shown the regular film of weekly events.

**Regularity**  
of the bowels is an absolute necessity for good health. Unless the waste matter from the food which collects there is got rid of at least once a day, it decays and poisons the whole body, causing biliousness, indigestion and sick headaches. Dr. Morse's Indian Root Pills—entirely vegetable—regulate the bowels effectively without weakening, sickening or griping. Live.

### LARGER SALARIES TO U. M. W. OFFICIALS

Miners' Journal to Be Printed in Three Languages—Delegate Says Sick Fund Would Put All on the List.

Indianapolis, Ind., Feb. 2—Increases in salaries amounting to about \$10,000 a year were voted today by the United Mine Workers of America, in convention here. The salaries of the vice-president and secretary-treasurer were increased from \$2,500 to \$3,000, that of the editor of the Mine Workers Journal from \$1,200 to \$2,000, international executive board from \$4 per day to \$125 a month for the time they are employed, and letters, auditors, and delegates to the American Federation of Labor conventions from \$4 to \$5 a day.

Other amendments added to the constitution propose a fine of \$10 on any officer found guilty of giving the names of the membership to others than officials entitled to them, and make possible the establishment of sick, accident, and death benefit funds by districts, sub-districts, and local unions, where it is desired by two-thirds of the membership.

There was considerable opposition to the sick fund. One Ohio delegate declared that his union had a sick fund for about a year and that, if it had continued much longer the entire membership of the union would have been on the sick list.

The convention hall resounded like a miniature Tower of Babel when the question of printing the Mine Workers' Journal in other languages than English was under discussion. The union numbers among its members practically every nationality on the globe and for a time it seemed that a delegate from each nationality was trying to gain the floor and speak in favor of printing the journal in his native language. It was finally decided to change the form of the journal to that of a magazine and publish it in two languages in addition

### Blames Captain for Loss of Cobequid But He Retains Papers

Wreck Commissioner's Court Exonerates Bay of Fundy—Good Work of Captain Howson After Disaster Borne in Mind

An Ottawa Despatch says—

The finding of the wreck commissioner's court in the matter of the investigation into the causes which led to the stranding of the Cobequid on January 18, was filed yesterday, and copies sent to the agents of the vessel at Halifax, the Dominion Marine Association, and the St. John Board of Trade. The court was composed of Commander Lindsay, R. N. S., Dominion wreck commissioner, with Captain Neil Hall and J. W. Harrison acting as assessors.

The court is unanimous in its opinion that the stranding and ultimate loss of the steamer was caused by the grave error on the part of the captain, who, in the face of the weather conditions at that time were so bad and likely to last, and with a strong gale blowing on to the land, he was not justified in attempting to pass inside of the Lurber shoal, especially as he was practically ignorant of the conditions of the tidal streams in that locality and in the court's opinion should have heeled his vessel to the westward into deep water where there was ample sea room to handle his vessel until such time as the weather cleared or he was able to proceed with safety.

The court therefore severely censures the master, but on account of the very efficient and satisfactory manner in which everything was carried out on board his ship for the safety of the passengers and crew after the stranding, does not deal with his certificate.

### ONE OF MAINE'S BEST AND LARGEST LUMBER MILLS COMPLETED

The Hammond Property at Van Buren Has Great Capacity

(Bangor Commercial)

An important development in the lumber manufacturing industry of Maine has just taken place in Van Buren in the completion of the large mill by A. E. Hammond, who was formerly at the head of the Van Buren Lumber Co. Mr. Hammond sold his holdings in that company to the Sletton, Cutler Co., which owns and operates large mills in St. John, N. B., Van Buren and Ashland and began last season on the erection of the plant which is now completed.

The new mill is located at Allendale, a mile and a half from the Van Buren post office. Violette stream, a tributary to the St. John river, the stream was dammed at a point just below the mill site, making a wide pond which extends about four miles up stream and affords a large storage for logs.

The main mill is 210 ft. long by 80 ft. wide, and the engine room is 25 ft. by 60 feet. There is a boiler house that is 45 feet wide and 55 feet deep, and a small detached pump-house that is 12 feet square. A well equipped machine shop has been built, this building being 25 by 50 feet.

The shingle shed is 300 feet long and there is a storehouse 80 feet wide. The loading platform is 800 feet long and 90 feet wide.

The entire equipment of the plant is new and modern in every particular, and was selected after a thorough investigation of some of the largest plants of the country to determine the best to be used for the purpose. The boilers at the plant, which is run by steam and of 600 horse-power capacity and the engines at 500 h. p.

Its Yearly Capacity.

An estimation of the size and importance of this plant on the northern boundary of the state of Maine may be had from the figures which give the annual capacity of product of the mill. These figures were furnished by Mr. Hammond, and are as follows: 15,000,000 feet of long lumber, 20,000,000 shingles, 7,000,000 laths and 1,000,000 clapboards.

The mill is on the line of the Bangor & Aroostook railroad, and a siding for the plant is the largest of the kind in the state of Maine. The mill is situated on a tract where the lumber will be loaded direct to the cars and a third one will be used for the storage of the logs on a wharf. This is for the log cars and is conveniently placed for unloading directly into the pond.

The crew of the new plant will number about 100 men. Charles A. Pills of Van Buren is the superintendent, and designed and constructed the mill and will have full charge of it in operation.

A. E. Hammond is one of the leading lumbermen in northern Maine, and one of Aroostook county's most prominent citizens. It was he who was the pioneer in the practice of cutting logs in northern New Brunswick along the line of the International Paper Co. mill, and there over the St. John river from St. John, N. B., to Van Buren in manufacturing. The bulk of the logs for the new mill are being cut along the line of this railroad, although some are on the B. & A. R. R.

Has Four Log Haulers.

To haul the logs from the railroad to the mill Mr. Hammond owns and has in operation four gasoline log haulers which are running all the time.

There is being cut this season for the new mill 15,000,000 feet of spruce and 2,000,000 feet of cedar.

That the people of Van Buren welcome this addition to their principal industry is put in evidence by the fact that John Lumber Co. now has in operation there, what is considered the largest lumber mill in New England, and the Van Buren Lumber Co. is operating its large mill, this making the third and largest of the kind in the county.

### NO MORE FALLING HAIR NO MORE DANDRUFF, HERPICIDE

Nearly every one has dandruff, and must reconcile themselves to the idea of becoming completely bald or resort to the use of New's Herpicide.

The manufacturers have absolute faith in Herpicide to remove all traces of dandruff. So perfect is this belief that dealers are instructed to sell the preparation with a "money back" agreement.

Such supreme confidence is the best evidence in this world of the merit of Herpicide. They know the result, hence the guarantee. It protects the purchaser. Used as directed, it cures the scalp, eradicates dandruff and prevents the hair from coming out. It stops itching of the scalp, which is so disagreeable.

Send 10c. in postage or silver for sample and booklet to The Herpicide Co., Dept. E, 1100 Broadway, New York.

New's Herpicide is 50c. and 60c. sizes is sold by druggists, who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.

Applications may be obtained at good barber shops.

### Women on Canadian Even Intimate Captain With Discussion of Rights

Boston, Feb. 2—Woman's status was discussed so vehemently on the S. S. Canadian here from Liverpool, that Captain Bullock feared he might be called on to arbitrate, and thereby averting.

The majority of the sixteen passengers were women; time hung heavily. The discussion started by Miss Grace Dukeman, who had motored with the Prince of Wales, as to whether women should be privileged to do this or that was kept up eighteen hours out of each twenty-four.

Men passengers were permitted no voice in the discussion, and according to one of the slighted males, their permission was wholly ignored. Captain Bullock timidly referred till wisdom warned him to stay away. He withdrew to the bridge, and when the air vibrated with scorn had his cakes and coffee brought up.

When the liner docked there were mutterings among women who would have the last word anyhow. Even when the customs inspectors were taking account of stocks, the situation was ominous and called for explanation. A reporter fanned the latent flame when he inquired if everybody had been seasick.

The argument started anew. Not till all but one of the debaters had left the pier was silence assured. Even this last woman openly fought her fight afresh, with nobody to feed her explosives. She was shouting out her convictions when the taxi thronged away.

Such Troubles Now Quickly Rubbed Away by Powerful Remedy

If you have any muscles that are strained and weak, they are frequently subject to rheumatic pains; if you have any painful swellings that refuse to go away—get busy with Nervilleine. This is the very sort of trouble that Nervilleine is noted for curing quickly. "I have proved Nervilleine simply a wonder in reducing a hard, painful swelling. There is a soothing, pain-relieving power about Nervilleine that touched the root of my trouble. Nervilleine reduced the swelling, it destroyed the pain, it brought my limb back to perfect condition." The experience of Mr. Bowen, whose home is in Middlesex, is not unusual. Already well served with railways other transportation facilities were necessary to connect the growing in-

NEW POPULAR SONG

Odd Love Ballad Expressing Sentiment of Feminine Fidelity

A new popular song in which lovers single or wedded make the appeal of loyalty, is the latest New York sensation. The song, which is entitled "Would You Take Me Back Again?" is a sentimental affair, quite prettily written, with a swinging waltz chorus in the order of the ballads, "Mine" and "Why Did You Make Me Care?" and kindred love songs. Following is a portion of the chorus:

Did you ever wonder how it is that the healthiest men and women in the world are found in the uncivilized races knowing nothing of medical science? It is so. The reason is right here—These people are content with Nature's own "healers." They use roots and herbs solely for their skin diseases and injuries.

Recognizing this, the proprietors of Zam-Buk, years ago, compounded their great balm on Nature's lines. Zam-Buk is simply the old skin healers of the ancient Greeks and Romans, in modern guise. The gladiator who came out of the ring with a gaping wound, which would be fatal to a modern man, applied his secret herbal balm and in a week was ready for the ring again.

Zam-Buk. Don't you believe that antiseptic treatment of a serious wound is absolutely necessary? Zam-Buk is antiseptic. Don't you think it wise to stop the pain and smarting of a wound, cut or skin disease? Zam-Buk will do it, as nothing else can.

Finally, don't you believe that personal experience is worth more than hearsay? If so, cut out this article, write across it name of this paper and mail it to Zam-Buk Co., Toronto, with 1c. stamp and we will send you a

He also objected to the investigation which said that owners of property could not be ascertained, the person owning adjacent property, deriving special benefit from it, should be charged, but it was pointed out by Commissioner Agar that the following clause said, "If there are no such persons, the duty shall be treated as owner for the purpose of this act," which would safeguard owners of adjacent property. D. J. Ferguson expressed his approval of the bill.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. We know of no other medicine which has such a record of success as has Lydia E. Pinkham's Vegetable Compound. For more than 30 years it has been the standard remedy for woman's ills such as inflammation, ulceration, tumors, irregularities, periodical pains and nervous prostration, and we believe it is unequalled for women during the period of change of life.

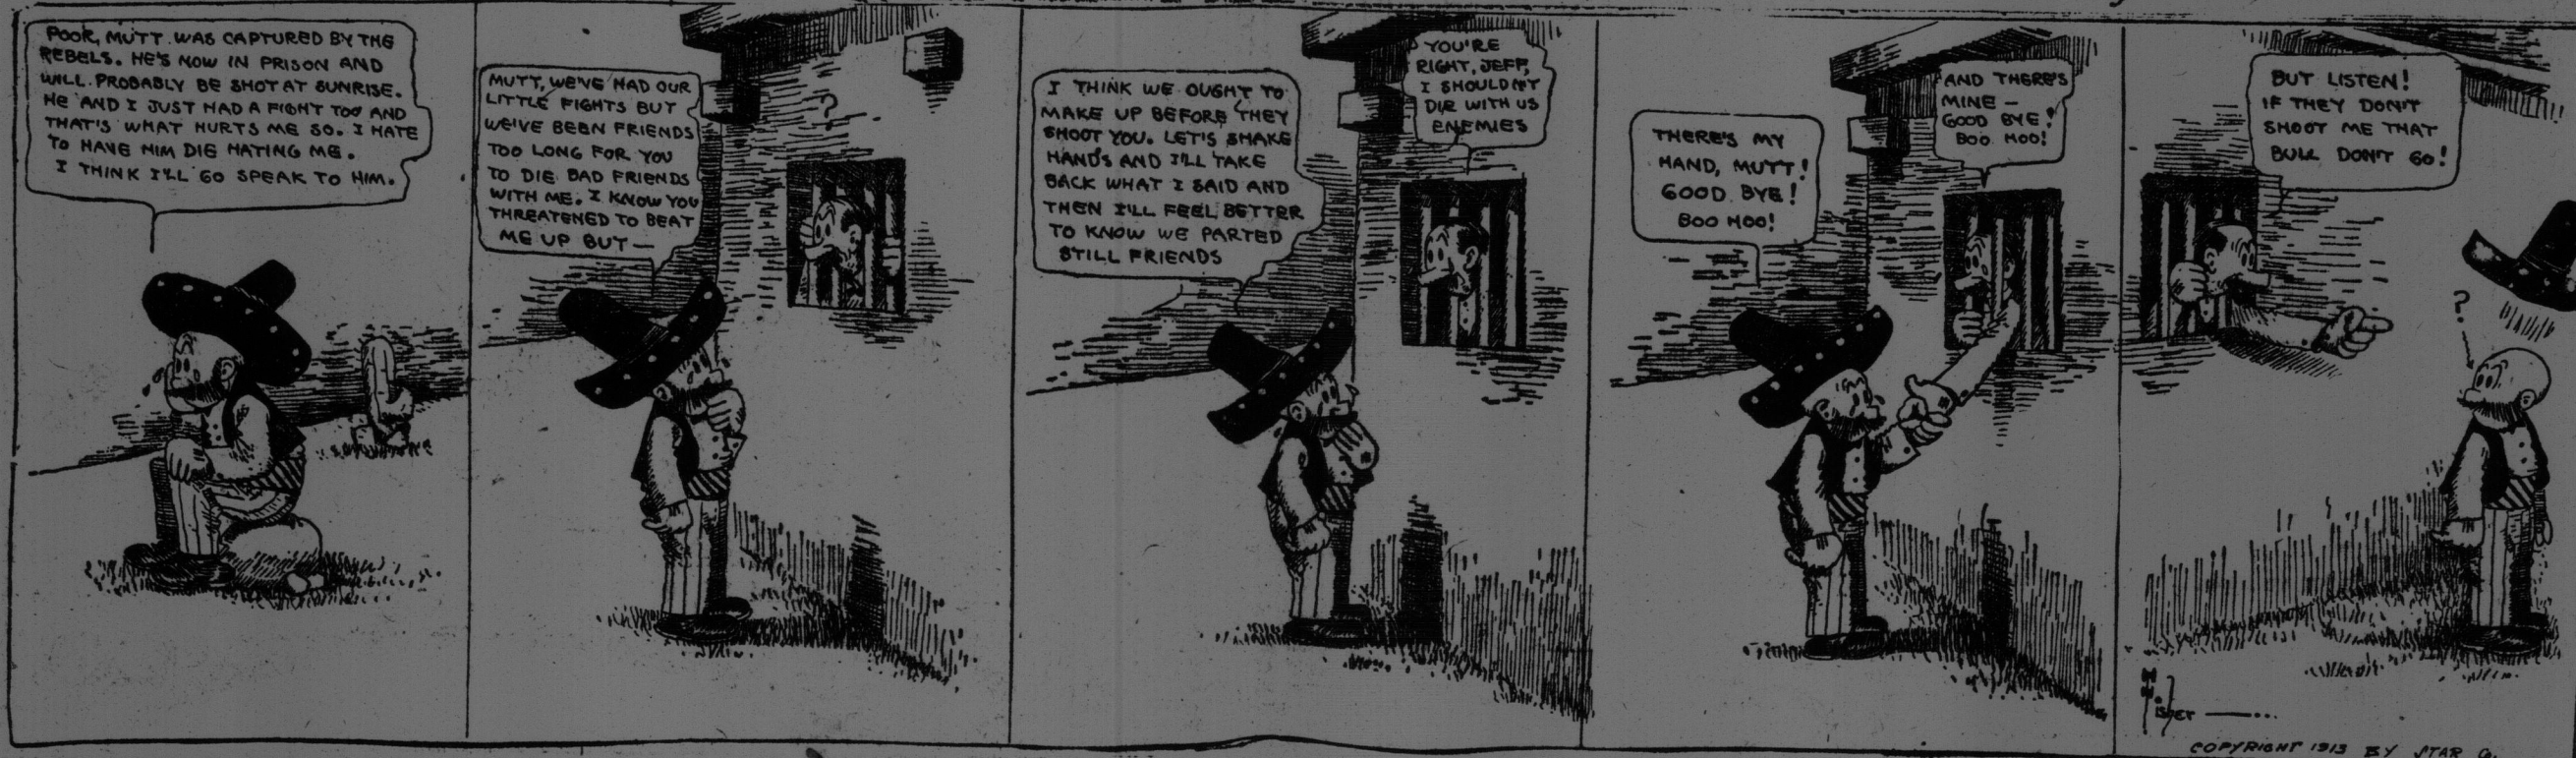

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham's Medicine Co., confidentially, Lynn, Mass., for advice. Your letter will be opened and answered by a woman, and held in strict confidence.

**ROBICHAUD CASE IS IN THE COURT AGAIN**

Wm. Seaberry is Given Two Months in Jail For Beating Wife

"You take the high road and I'll take the low road," were the poetical words used by Joseph Robichaud in emphasizing the fact that he did not wish to walk on the same side of the street with May Robichaud, his wife.

Robichaud some days ago announced his intention of going his own way but his wife swore out a warrant against him charging him with assaulting her in Charlotte street last Sunday afternoon.

Mrs. Robichaud said her husband found out where she was working and also where she was living and visited both places and made it unpleasant for her and molested her to such an extent that she was discharged from her position in a restaurant. Not satisfied with that she said Robichaud went to where his wife boarded and in consequence of what he told the landlady she was asked to give up her room. The magistrate told Robichaud that all this trouble he had brought on other people, he was also bringing on himself.

Robichaud asked to be allowed to say a few words in his own behalf and took up three quarters of an hour in telling practically in one sentence every detail of his troubles. He asked to have the case postponed until this afternoon. This was agreed to.

"It is a mean thing for a man to assault any woman but when it comes to beating his own wife whom he has sworn to protect" it is the most contemptible thing imaginable." These were the remarks made by Magistrate Ritchie when William Seaberry was brought before him.

The case was tried last Friday, when the prisoner was found guilty and sentenced to two months in jail without the option of a fine. In sentencing him the magistrate had given fair warning a short time ago that he would send all wife beaters to jail.

A citation was issued returnable on April 16 at 11 a. m. J. Roy Campbell, K. C., is proctor.

The court also took up the matter of the estate of John McDermott, laborer. He died intestate leaving the wife, three sons, John and Henry, both of St. John, railway employes and Rev. Joseph McDermott, the executor, and one daughter Sarah McDermott. On the petition of all of these the son John was appointed administrator. There is no real estate; personality \$750. John A. Barry is proctor.

**FATHER AND SON IN THE POLICE COURT TODAY ON DRUNKENNESS CHARGE**

"This is the most disgraceful thing I ever heard of," said Magistrate Ritchie in the police court this morning, when two men both bearing the name of Duncan Cameron, father and son, were charged with being drunk.

The two men were found drunk in Ponce street last night. They came to the city yesterday from Sussex. Both were remanded.

**CITY DEATH RATE IS MUCH LOWER**

(Continued from page 1)  
tem from such a cause is peculiarly insidious and generally inappreciable to the person involved, but it is often just when it takes place that the germs of cold effect a lodgement in the system. It may be pretty generally laid down as a rule that these germs do not exist in effect in large quantities in the open air, either in winter or summer, and, as a consequence, colds are not contracted other than within doors.

The second ordinary cause of depressed vitality leading to colds is draughts. Draughts are narrow currents of air, of considerable velocity, perhaps from five to ten feet a second, and very decidedly lower in temperature than the general air surrounding the person. Such a current striking the body (most effectually on the back) depresses the system, and affords the germs, when present, effective access to the breathing passages.

It is for this reason that colds are more frequent in the cold than in the warm season. The greater the difference in temperature between the air outside and inside a house, the greater will be the velocity of the draught, other things being equal, and, hence, the more pronounced will be the resultant chill. It is well to note that the depressions from each of these causes are essentially temporary in their character, the inevitable tendency being, once the cause is removed, for the system to almost at once regain its accustomed vitality. It is for this reason that persons of vigorous physique suffer only momentarily from a cold, perhaps merely to the extent of sneezing a few times. In these cases, as in so many other instances of infection, the human system proves superior to the poisons inhaled and no harm results. It is not so, however, with many of less resisting force, especially when one or both of these depressing causes is frequently encountered. Specific directions regarding how to avoid colds are generally useless, as the circumstances under which they may be contracted are so nearly infinite in number. When, however, one obtains some rational notion of their cause, he can do much to avoid them by using precautions suited to the immediate time and place. It is well, though, for those who have colds not to go to places of public assembly, not to fondle or come into close contact with young children, and to keep alone.
