CONFIRM DECISION TO STRIKE

Representatives of 800,000 Coal Miners in United Kingdom Confer

THERE IS STILL HOPE

Men Holding Out for Minimum Wage—Weavers in Whitnashville Will Go Out For More Pay—The Record Company's Labor Trouble

(Canadian Press)

London, Feb. 13—A conference of the representatives of the whole of the 800,000 coal miners in the United Kingdom, which was held in London today, confirmed the decision reached during the recent talks to bring about a national stoppage of work in the coal mines on Feb. 29 unless, in the meantime, the mine owners accept the principle of a minimum wage for all men and boys employed underground.

Upwards of 40,000 colliers employed in the mines in Derbyshire this morning handed in their notices to quit work, and by Feb. 15, all the men employed in the mines throughout the country will have followed suit.

There is still, however, a considerable body of opinion that a way out of the difficulty will be found before extreme measures are taken.

WHITNASHVILLE

Whitnashville, Mass., Feb. 13—One hundred weavers employed in the Linwood Cotton Mills went on strike yesterday afternoon when Superintendent James G. Maddox refused to make immediate answer to their demands for an increase in pay.

Montreal, Feb. 13—The Record Foundry & Machine Co. declare they will fight the strike which is on at their works here, and in Moncton, N. B., and that they can get on to replace the strikers.

WEDDING IN MONCTON

Moncton, N. B., Feb. 13—(Special)—A pretty church wedding was solemnized last evening at five o'clock in St. Bernard's church when Miss Alice, daughter of Mr. and Mrs. Charles Rogers, was married to Theodore Corbett of the C. I. R. office. The ceremony was performed by Rev. Father LaBrosse, Mr. and Mrs. Corbett left last evening for Montreal. They are taking with them the best wishes of many friends. They will reside in Moncton.

NOT CANDIDATES

The Standard this morning mentioned three prominent citizens as likely to offer as candidates in the coming city elections. St. H. Estabrooke, who was spoken of as a candidate for the majority; said this morning that it would be absolutely impossible for him to entertain the idea of being out of the city, but it is known that, although his friends have been urging him to run, he has not yet consented to do so.

KING PRESIDES AT COUNCIL MEETING

Momentous Matters in British National Life Discussed This Morning

His Majesty Goes Over Admiralty Plans and Hears War Minister's Report From Berlin—Revival of Rumor of Haldane's Retirement—Busy Time For Men of the Commons

(Canadian Press)

London, Feb. 13—King George presided this morning at a meeting of the privy council, the first since his return from India. The meeting was held in Buckingham Palace. The king approved of the speech from the throne, which is to be read at the opening of parliament tomorrow.

Prior to the assembling of the council, the king had an unusually long audience, which lasted an hour and a half, with Winston Spencer Churchill, the first lord of the admiralty. It is understood that Mr. Churchill gave His Majesty explanations of the king from England, and which His Majesty is reported as not to have altogether approved.

After George received Viscount Haldane, secretary for war, in order to hear his personal report of his visit to Berlin. The report that Viscount Haldane will soon vacate the war office, and be succeeded by Colonel John Edward Seely, member of parliament for the Iffington division of Berkshire, and under secretary for war, is revived today.

The changes made in the admiralty under the administration of Winston Spencer Churchill, will start an early date, but the subject of questions in the House of Commons. The session which will open tomorrow, promises to be a momentous one on account of three important measures.

An autumn session is assured and many sleepless all night sittings will be necessary in order to complete the legislative task before December, unless something occurs in the meantime, to bring about a general election, which the Unionists are already forecasting.

ALLY OF SUFFRAGETTES GOES TO THE ASYLUM

Was in Jail and Refused Food—Women Are Demanding Inquiry

London, Feb. 13—The unitarian suffragette became very much agitated, learning that Wm. Ball, one of their male servants who was sentenced to two months' imprisonment for window smashing during the suffragette riot in December, had gone insane while in prison and had been taken to an asylum.

Ball followed the tactics of the suffragettes and refused to eat, and the prison authorities fed him forcibly with a tube. He is now in the lunatic asylum, and the suffragettes demand an inquiry into the case.

DISCOVERER OF BACILLUS OF LEPROSY DEAD IN NORWAY

Christiana, Feb. 13—Dr. Garmann Hansen, biologist and discoverer of the bacillus of leprosy, is dead. He was the head of the leprosy hospital in Bergen, Norway.

ALL DUE TO A MATCH

Kingston, Ont., Feb. 13—A match scratched too hard caused damage to the extent of \$1,500 at the store of Cornelius A. Jones late last night. Jones lit a match to light his lamp. The head flew off and set fire to some paper. The fire spread rapidly and Jones and the members of the Howman family, living over his store, had to run to save their lives.

LATE NEWS OF SPORT

Szpako, Polish Wrestler, Defeats Italian in One Hard Bout—Seven Men on a Side in the Stanley Cup Matches

(Canadian Press)

Sydney, Australia, Feb. 13—Sam McVey, a California pugilist, and heavyweight champion of Australia, has signed articles for a match with James Barry, a Chicago heavyweight, to be fought on March 9, and also for a match with Sam Langford, of Nova Scotia, heavyweight champion of England, to be fought on Easter Monday, April 8.

New York, Feb. 13—Szykako, the big Polish wrestler, defeated Giovanni Raddi, of the Fort Williams club, in Madison Square Garden last night. It was to have been a finish affair of catch weight, but two falls in three by the Polish wrestler, however, for, after the 10th round, the Italian with a half Nelson with a leg and head catch, held off for 45-four minutes and five seconds of grueling work on both sides. Raddi's was not only to come to the match, Tom Jenkins, the referee, declared Szykako the winner.

Ont., Feb. 13—If there are any matches this season for the Stanley cup, they will probably be played under the new rules. It is now believed that the New Ontario champions will get first chance at the silverware.

The Fort Williams club, and will force the clubs to live up to the rules. Mr. Moran is known to be an advocate of the seven man team.

ROCKEFELLER AND BROTHER HAVE NOT SPOKEN IN YEARS

Frank Says so in Court Case Over Suit Brought by Chauffeur

Cleveland, O., Feb. 13—How much does your brother John D. pay his chauffeur? An attorney, asked Frank Rockefeller, in the municipal court yesterday.

"I don't know," answered Mr. Rockefeller. "He and I have not spoken to each other for twelve years." Mr. Rockefeller presented his brother's counsel, who obtained judgment for \$42.99. The decision is to be appealed.

HOLD LIQUOR DEALER TO BE RESPONSIBLE

If Bad Liquor Kills, Vendor Can Be Brought to Account

Toronto, Feb. 13—A Russian named Pundin froze to death on his way to the lumber camp after drinking with companions at a Thosdon hotel. The man took bottles of liquor with them when they started on their twelve mile tramp on a bitterly cold night, just before Christmas, in 1910.

N. de Strevy, Russian consul in Montreal, brought action against S. McQuinn, hotel keeper, and John Goggin, bar tender, and has now recovered \$500 damages. The divisional court has set aside the judgment and confirmed the judgment below, dismissing the appeal. It was contended by the appellants that as the man had gone six miles before they called the liquor they drank at the hotel could not have been responsible but the court did not accept this view.

CHANGES IN WARSHIPS

Want More Speed By Britain's Big Fighters

London, Feb. 13—Important structural alterations have been commenced at the Docksport dock yards, to the new battleship cruiser Lion, the longest warship afloat, which last month attained a record speed. The alterations will, it is estimated, cost \$125,000 and will include re-arranging the position of the two masts and altering the position of one of the funnels.

The other vessels of the same class, the Princess Royal and Queen Mary are to be similarly treated. It is believed that the alterations are necessitated by the fact that, although the designed horsepower was exceeded in the course of the Lion's trials, the speed attained did not come up to anticipations, having regard to the enormous horsepower developed.

AEROPLANE CAN SKATE AS WELL AS FLY AND SWIM.

FRANK COFFIN FLYING OVER THE HUDSON.

Frank Coffin, an air pilot trained by the Wright brothers, introduced the hydroaeroplane to New York as a new feature of winter sport. In a spectacular flight of twenty minutes over the lower Hudson River he demonstrated his marine aeroplane can skate as well as fly and swim. Further, his triple capacity enabled it to travel at will over rough frozen masses inaccessible to an ice boat and to glide without hesitation from water to ice or to the air at a turn of the rudder, all in a twenty-five mile gale.

Its performance caused spectators to name it the "flying toboggan."

FORTY SIX ARE DROWNED

Two Japanese Steamers Collide and Both go to the Bottom

Nagasaki, Japan, Feb. 13—Forty-six passengers and members of the crews were drowned by the sinking of the Japanese steamer the Ryoka Maru and the Mori Maru, today after a collision.

The Mori Maru was of 1,200 tons net, built at West Hartlepool, England, in 1900, and owned by the Yoshida Seikoku.

FEATHERS ON HER SHOES DECREED

Latest Paris Fad in Woman's Garb—New Footwear Will Cost Pretty Penny

New York, Feb. 13—The lady of fashion will show plumage on her feet this year, but will be allowed to display a radiance of feathers on her shoes, according to advice from Paris.

The very latest note of elegance in footwear is dedicated to shoes covered with broad plumes of the most elegant hues, gummed on to the leather. Buckles will be concealed by little grooves of alpacas of feathers. The price of the new shoes will be enormous.

CONSERVATIVES OF YORK ARE DIVIDED

Already a Split Over Possible Resignation of Crockett—Supreme Court Session

Fredericton, N. B., Feb. 13—(Special)—It is said that in the event of O. S. Crockett M. P. resigning his seat to accept a government office a section of the party will seek the nomination of Hon. George J. Collier, of Keswick. The machine element of the party want Hon. H. F. McLeod as a candidate.

The five ranks of St. Stephen curia are divided in opinion as to who should be the seat of the king's name in the cabinet's unqualified approval. Sir Edward Grey's conduct of foreign affairs during the recent session has been the subject of all shades of opinion are asking today what significance the king's act possesses from the standpoint of the future.

The retirement of Herbert H. Asquith from the premiership to the House of Lords has been rumored for some time. David Lloyd-George, the chancellor of the exchequer, and Sir Edward Grey are supposed to be rivals for the possession of the prime minister's mantle. Mr. Lloyd-George is so conspicuously before the public, as the author of the comprehensive programme of social reforms that he has been considered as the most promising candidate for the position.

Sir Edward Grey represents the conservative wing of the Liberal party, while Lloyd-George is the spokesman of the opposite extreme.

Some of the newspapers today say that the conferment of the Order of the Garter on the secretary for foreign affairs gives Sir Edward Grey such eminence that he could not be expected to serve in the cabinet under Lloyd-George. One question which awaits an answer is whether the conferment of the Garter on Sir Edward Grey has any relation to Viscount Haldane's recent mission to Berlin.

Another interesting question is whether it is designed as a proclamation to other nations of King George's endorsement of Sir Edward Grey or as a rebuke to his home critics. Every one agrees that it is a tribute to Sir Edward Grey's rare personal character as much as to his diplomatic ability, and that it is fully worthy of the historical distinction which implies that the king and his colleagues in the cabinet rank him as one of the foremost foreign ministers in British history.

ATE SODA BISCUITS; DRANK SNOW WATER

Train Passengers Stalled 36 Hours in Snow Bank in Ontario

Belleville, Ont., Feb. 13—Passengers on the Meade train on the line of the Midland railway, which left here on Friday at noon, had a thrilling experience. Although Meade is but twenty miles from Belleville, the train did not reach its destination until ten minutes after five Sunday morning. The train became stalled in a snowbank, three miles from West Huntington station, and remained there thirty-six hours.

IS A SIGNAL HONOR FROM HIS MAJESTY

Sir Edward Grey Made Knight of Garter By The King

ONLY TWO PRECEDENTS

Peculiar Significance on Account of Viscount Haldane's Visit to Germany—Report on This Likely in Speech From Throne or in Debate

(Canadian Press)

London, Feb. 13—The foreign secretary, Sir Edward Grey, who was made a Knight of the Garter yesterday, is the only commoner to receive such an honor since Horace Walpole. The order, excluding foreign sovereigns and princes of the blood royal, consists of the sovereign and twenty-five knights.

Sir Edward takes the place left vacant in the order through the untimely death of the Duke of Fife.

Only two precedents of a commoner receiving the order are the case of Edward Montagu, who was made a Knight of the Garter before he was created Earl of Sandwich, in 1600, and of Sir George Villiers, afterwards Duke of Buckingham, who was created a Knight of the Garter in 1616.

The king's gift to Sir Edward Grey is interpreted as a sign of testimony. His Majesty's confidence in the foreign secretary and obtains particular significance in view of Lord Haldane's visit to Germany. The war minister is now back in England and gave a report of his trip at a cabinet council yesterday afternoon. No official information as to the nature of his mission is as yet forthcoming, but it is expected that reference will be made to it in the speech from the throne at the opening of parliament tomorrow, or that a statement will be made from the treasury bench in the course of the debate on the address in reply to the king's speech.

The London Graphic suggests that Mr. Asquith is to resign the premiership of Great Britain and will be succeeded by Sir Edward Grey.

London, Feb. 13—The almost unparalleled honor which King George has bestowed on Sir Edward Grey has created immense speculation throughout the British Isles.

Some Speculation

It is nearly 60 years since the garter was conferred upon a commoner under similar circumstances. Only four other commoners have been privileged to wear the blue ribbon during the history of the order of the Knights of the Garter. The exact meaning of this signal honor, especially in view of the fact that the king's act is known only to the innermost circles, while it is conspicuously set out in the king's name in the British cabinet's unqualified approval. Sir Edward Grey's conduct of foreign affairs during the recent session has been the subject of all shades of opinion are asking today what significance the king's act possesses from the standpoint of the future.

The retirement of Herbert H. Asquith from the premiership to the House of Lords has been rumored for some time. CHURCHES NOW PLAY HOUSES

Paris Gives up Consecrated Buildings to all Kinds of Shows

CONVENT USED BY TROUPE OF WOMEN DEPICTING LIFE IN MOROCCAN VILLAGE—DESTRUCTION OF MANY PLACES THAT WERE BUILT FOR DIVINE WORSHIP

(Times Special Correspondence) Paris, Feb. 2—Many of the churches of Paris have fallen upon evil days. Since the separation of church and state and the consecration of the buildings by the latter, the Catholic churches, convents and chapels have been put to many strange and incongruous uses and Turkish harems, cinematograph shows, savings banks and dance halls now occupy the places formerly given over to divine worship.

One of the cruelest churches has been converted by Edward de Max, an actor, and rented by him into a residence. Adjoining it is the Hotel Mirou, formerly the Convent of the Sacred Heart. For a time Rodin, a sculptor, had an atelier there, but now his and the other tenants have been turned out by the state, which wants the building for other uses.

In the majority of the cases no attempt has been made to re-construct the churches for the new purposes for which they are being used. The typewriters, adding machines, desks, counters and other accessories of a modern bank, have intruded one large chapel and amid stately pillars, stained glass windows and painted Madonnas, the business is carried on.

But it is in that part of Montmartre given over to music halls, cafes and cabarets and famous the worst over as "the Round of the Grand Dukes" that the most startling change has taken place. Here the old convents have been converted into a show depicting life in a Moroccan village.

The convent itself became a harem where the alleged beauties of a great harem were kept in a cage for a few years. The church occupies the dormitory of the harem and the daily life among the crowds of pleasure-seeking Parisians and foreigners who patronized the show.

COURTENAY BAY Some two years ago President Hays of the Grand Trunk Pacific told the members of the St. John board of trade that work on the terminal facilities at Courtenay Bay could not be begun too quickly, for almost before the citizens realized it the trains of the new transcontinental would be running into St. John. Mr. Hays of course realized that there was a great deal to be done before steamships could sail into Courtenay Bay and take cargo. There was a great deal to be done and what was to be done was to build a breakwater, and tracks and warehouses.

What Mr. Hays said at that time may be repeated with far greater force today but the work of development has not been begun. Hon. Dr. Pugsley had been taken, which proved that the bay could easily be dredged. He had plans prepared for basin, wharves, breakwater and dock, and called for tenders for the construction of the work. The tenders were awarded, and the Liberals were returned to power the contract would have been awarded, and Norton Griffiths & Co. would have had offices here preparing for active work at the earliest possible date in the spring.

It is for Mr. Hays to explain why nothing has been done, and why his own supporters in St. John should be disgusted by rumors that the work is to be postponed for a considerable period. The government has had since September last to make up its mind. Many trivial matters have absorbed its attention, but here is one that affects the trade of Canada, and should receive immediate attention. Canadian trade is to be conducted through Canadian channels; if the Grand Trunk Pacific and Canadian Northern are to do business at St. John, a vast deal of work must be done at Courtenay Bay; and it cannot be delayed without injury to the transportation interests of the country. This is not merely a matter affecting real estate in St. John. It is as large a question as that of providing larger harbor facilities at Montreal or on the lakes. It is a question of national importance. Delay in the vital interests of the country. No one doubts that the work must eventually go on, for the Grand Trunk Pacific must have an Atlantic terminus, but it is quite as easy to begin now as two years hence.

THE NEW CHINA The first great aim of the Chinese revolution has been accomplished. The Manchu dynasty has fallen. It has not been overthrown in battle, but has been overthrown by the sword, and retired from the field, receiving from the republicans treatment so considerate as to excite wonder. However, the unexpected happens in the Orient; and this republic, which permits emperors and princes to retain their titles and also great wealth, may be pursuing a wiser course than the French republic which cut off their heads.

The new government grants religious liberty to the people, and the rights and privileges of all classes are to be safeguarded by the state. Of course the new form of government will make very little change in the aspect of affairs in the provinces at large, the people have been so long the slaves of custom; and the success of the new experiment must depend upon the patriotism and the largeness of vision of those who assume the leadership in the republic. The Chinese people are not by nature turbulent, and for some thousands of years they have had a form of civilization which in the main gave them satisfaction. But the old order is being overthrown, and the Chinese mind is not likely to be shaken rudely and suddenly out of its old ways of thought, and this fact is reassuring in the present crisis. If the new rulers are wise and patient, the natural cleverness of the Chinese will enable them gradually to adjust themselves to new conditions and new modes of thought, and the new China will be infinitely better than the old.

One cannot but indulge in speculation as to what may happen when a regenerated China, assured of its own strength, sets out to readjust its relations with the world at large. The fall of the Manchu dynasty is an event fraught with much significance to the world at large. The East has awakened.

The world's greatest parliament will assemble at Westminster tomorrow. The city and province have received so much complimentary attention from influential journals in other parts of Canada as it is receiving at present.

If the views of the town-planning committee are carried out, St. John will expand in accordance with a proper system, governing streets, lanes, buildings and open spaces. Such a system is greatly needed.

Sir Edward Grey has received an additional distinction at the hands of the king, and there is now a rumor in London that he may succeed Mr. Asquith as prime minister. A few days ago it was Lloyd

POOR OLD PHARAOH

From the deepest pit in the pyramid, Where the dead Egyptian King He hid, Old Pharaoh blinked at me and said, 'Oho! but it's long that I've been dead. 'For many a year and rather more, I've looked in here on the parlor floor, And they've winced outside and they've made good cheer. But I've been slumbering dead in here, The grape in the burial vase has dried, And the glow of my last good glass has died. The last good glass that my throat shall see, So down a brimming one just for me. 'Long, long ago, in the world above, I kissed farewell to my last true love, And she kissed my cheek and she kissed my chin, And she kissed the coffin they put me in. But now I am scared with seam and grade, And the red lips die from the lips burned black, And the true loves stay where the blood runs red. So kiss a pretty one just for me. 'Have you heard the songs in the gray moonlight, Of the good companions of the night? Such songs we sing, my friends and I, Till the day that red in the eastern sky, But now with the dust in my throat I'm choked deep, And my voice outwings by a cricket's chirp. All my songs lie dead for eternity— So sing a jolly one just for me! So I bought me a drink with a two-ply straw, And I kissed the prettiest girl I saw, And I sang a rousing stave of song, For the sake of a chap who'd been dead so long.

THE BAIT THAT BATES ALL

From 'The Pedlar's Pack,' February Canada Monthly. 'What bait do you use?' said a saint to the Devil. 'Why you fish where the souls of men abound.' 'Well, for general use,' said the King of Evil, 'Gold and fame are the best I've found.' 'But for special use?' asked the Saint, 'The Devil's angle for man, not men; And there's one that will fall I never have found. For a thing I hate, Is to change my link, So I fish with a woman the whole year round.'

NAMES

There's one problem that is not unsolved—the names of the kid. For no one seems quite suited with the job, his parents did, Plain Bill had a name, and he had a high-class name. He says there are so many Bills that his cognomen's name. And Reginald would gladly trade his off for Hank or Bob. So people wouldn't think they must consider him a snob.

Plain Maud would rather have Lucille or Phyllis for a name; Fair Gladys would prefer a simple one like Blane. And Susan longs to be Hortense; and Katie would be Sarah and Caprice would Constantine be. And Madge is apt to pose as Marguerite most any day. And Mary changes hers to May, Marie and Marie and Mae.

Elijah doesn't like his name, because it sounds so good. If Algy could pick out a name less frivolous, one would.

Her name she switches quick as a cat, and says it's Antoinette. Bill Jones gets some magazine to print one little tale. His name is Wilson Hawthorne Greene at once, and without fail. —Brooklyn Eagle.

STOMACH LIVER LUNGS Each of the chief organs of the body is a link in the Chain of Life. A chain is not stronger than its weakest link, the body is weaker than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

PLAGE FOR CHIEF SECRETARY OF THE HON. MR. ASQUITH Taken to Foshadow the Retirement of Prime Minister—Mr. Nash Guards State Secrets Well.

(Times Special Correspondence.) London, Feb. 3.—The prime minister of England generally places his right hand man beyond immediate view when he is preparing to shed the mantle of office. So it is that at the present moment the rumour is that Mr. Asquith, the talented chief private secretary to Mr. Asquith, is being taken to Foshadow, the country seat of the prime minister, to be the probable successor of Mr. Lloyd George. Mr. Nash was also private secretary to Sir Henry Campbell-Bannerman, the general and popular leader who preceded Mr. Asquith. Before he became associated with Sir Henry Campbell-Bannerman, Mr. Nash was a clever Fleet street newspaper man. He was a recognised authority on labor and economics and was most valuable to a prime minister of the radical kind, who was just entering on a big programme of social legislation and reform. The prime minister really has four private secretaries. The handling of his daily mail is a heavy job even for the three men who assist Mr. Nash. The latter spends most of his time in close attendance upon Mr. Asquith, acting as confidential go-between for his chief when he desires to communicate with other members of the cabinet. He is probably in possession of more official secrets than any other man in London, yet so close-mouthed and careful is he that no man was ever known to get even the hint of a story from him.

Joe Houston of Kentucky Lasses Opportunity in Alaska

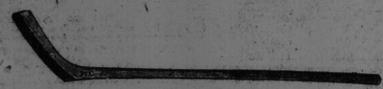

Tacoma, Feb. 13—Two years ago Joseph Houston, aged fifty, had only \$240 after life time spent in mining camps of Colorado, Nevada, Klonkiko and Tanana. He had made several small strikes, but lost them on new deals. Today he is worth several millions. He is on his way to New York. On Feb. 21 he will sail on the Olympic for London, not to interest new capital, but to confer with the partners. Even in Paris, Mr. Houston speaks with southern drawl. His mining camp sobriety for years has been "Fowahll Joe" Houston. From Fairbanks he went to Kenai peninsula, southwestern Alaska, and as a beginning "gathered in" 4000

acres of good hydraulic placer ground. Tempted by the Katalla oil prospect he and associates secured 200 acres of oil lands, since transferred to a company controlled in London. He next bought for \$8,000 a quartz ledge that will soon produce that much monthly. One evening he became a quartermaster of the "Junco Douglas Island telephone system. He has other interests. Next June Houston will ship north steam mills for the quartz property, oil rigs for Katalla and a hydraulic placer plant. His Katalla oil tests up to 350 degrees Centigrade, producing highest grades of kerosene, naphtha, gasoline and white vaseline. Houston says: "I have good opportunity. There's 'povahll' chances up there for experienced men." Last year, in Paris, he made the acquaintance of Charles M. Schwab, who is his friend. NO MORE INCOME NEEDED. "Uncle Joe, do you believe in votes for women?" "No, sah, I don't. Manda's got all de money dat's good for her now."

AWAKENING IN NEW BRUNSWICK

Canadian Finance, Winnipeg, Takes Notice of The Boom Here

CONDITIONS WELL STATED

Great Prospects for St. John—The Rise in Real Estate Values and the Outside Interest in This City

(Canadian Finance, Winnipeg.) The province of New Brunswick is experiencing an awakening without parallel in its history. Premier Bennett, in a speech at Newcastle this week that \$25,000,000 would be expended in development work in the province, the next five years. This work includes the construction of a railway down the St. John Valley 200 miles, from Grand Falls to St. John, and its connection near Fredericton, with the Grand Trunk Pacific, the total cost being about \$10,000,000; the construction of great harbor works at St. John, at a cost of nearly \$10,000,000; the construction of a harbor at Miramichi, from Fredericton to Minto in Queen's county, and the development of the coal fields there, which will then be connected with the Canadian Pacific as well as the Grand Trunk Pacific system; the development of natural gas and oil fields, and the establishment of large new industries, and a general expansion along all lines of agriculture, industry and trade. A provincial immigration congress will be held in Fredericton in March, while the legislature in a period of vigorous and well-directed policy to settle the farm lands of the province with desirable immigrants. Six boards of trade have each subscribed funds to establish in their vicinity a large commercial orchard, under the direction of the provincial horticulturist, and a policy has been adopted which within ten years will make New Brunswick a great apple exporting province. The federal government and the Canadian Pacific Railway have each announced that they will establish an experimental farm in the province, and a group of St. John business men have decided to provide funds to establish a similar farm on scientific principles, for which the province is especially suited.

Great Prospects for Canada's Winter Port

Coming now to St. John, the assurance of great expenditure in harbor and terminal facilities, not only for the Canadian Pacific but for the Grand Trunk Pacific and Canadian Northern Railways, making it a great summer as well as a winter port, has electrified the business atmosphere. A period of rapid growth and expansion has been entered on. Real estate is rapidly rising in value, new industries are springing up, and the New Brunswick Hydro-Electric Company, with capital of \$1,500,000 will harness the water power and provide the city with electric heat, light and power. A number of Montreal and English capitalists have lately invested in property at St. John, and a very decided forward movement is in progress. During the present year the armory will be completed, a new post office modelled somewhat after that at Winnipeg, will be begun, and a large new theatre, the largest brick and broom factory in Canada will be erected; a beginning will probably be made on a large sheep mill, by a company with \$500,000 capital, of which about \$2,000,000 is invested in timber lands; and there will be a boom in house building, besides the large expenditures to be made on the water front by the federal government and Canadian Pacific Railway. Naturally, also, St. John will reap great benefit from the unparalleled forward movement throughout the province.

RECENT DEATHS

Mrs. James M. Hallett, aged 84, one of the oldest and best known residents of St. John, died at her home here on Sunday morning. She is survived by five sons and one daughter.

The death of Rev. Joseph Thibierge, one of the oldest and most beloved priests of the diocese of Chatham, occurred in the Hotel Diet on Sunday last, aged seventy years. He was ordained to the priesthood in 1858 and was stationed on the North Shore since then. The funeral will take place in Chatham tomorrow.

The death of Mrs. Mary Holder occurred at her home, 172 Winslow street, West End, yesterday morning. She was the widow of Captain Howard Holder, and is survived by one son, Bernard Clinton Holder, and two daughters, Mrs. S. L. Fullerton of Boston, and Miss Beattie Hazel Holder, at home. She was the daughter of the late Jacob and Rebecca Fullerton. The funeral will take place Wednesday afternoon from her late residence.

QUEBEC ADVANCING IN POULTRY ENCOURAGEMENT

Reports Show That Forward Step is Being Taken—A Government Grant

In the Quebec legislature last week, in asking for the sum of \$3,000 for the encouragement of poultry raising, Hon. Mr. Curran, minister of agriculture, referred to the two years' campaign which had been made. The lecturers of the department, especially Brother Ligouri, and J. I. Bover, manager of the poultry department of Guay, Langlois & Co. of Montreal, had gone to different parts of the province with the object of encouraging the farmers to build cold-ben coops for the production of eggs and the fattening of poultry. They had been especially successful in the latter direction, as they had made arrangements with the C. P. R. and the Allan Steamship Company to supply them with chickens, and now it was possible to see on the bills of fare of the C. P. R. buffet service, "Quebec milk-fed poultry." In this they had been assisted by Mrs. Cooper of the C. P. R. and Sir Andrew Allan had also shown great interest in the results obtained, and had assured Mr. Bover that they could count on all the patronage and support of his company. Mr. Curran gave a few statistics showing that the C. P. R. consumed no less than 200,000 broilers a year on its cars apart from other poultry, and they required seven dozen eggs a day. Besides this the private car of the governor-general was now supplied with milk-fed poultry. During the fall term, Langlois & Co. had sent a special car of pure bred poultry for reproduction at the demonstration farms of Alberta. Mr. Alfred, one of the professors of Macdonald College, had said that the Province of Quebec could have no better advertisement than this carload of poultry. Some of this pure stock had been purchased at the government farm at Foster, and the remainder of La Trappe, Ste. Scholastique, St. Agapit, and other places in the neighborhood of Quebec and Montreal. The sum of \$3,000 was readily voted unanimously.

CITY SCHOOL MATTERS

The Board of School Trustees decided at a meeting last night to hold a special meeting next Monday evening to meet a committee from the board of trade to discuss the establishment of night trade schools. H. H. Mott, architect, reported that the King Edward school is completed and that he was ready to pass the bills for the final payment. The bills were referred to the building committee. The teachers of grade nine wrote asking that the increase in their salaries take place at once instead of in September. Miss P. Williams asked for a place on the teaching staff. Dr. W. S. Carter, superintendent of education, wrote congratulating the board on its annual report. As the local government had reported that there were no objections to establishing savings banks in the schools and the cost was reported to be only \$2 a school at first and \$3 a year afterwards a committee was given power to proceed with the arrangements. It was decided to grant the janitor of Alexandra school \$15 a month, and to deduct the amount from the estimate for repairs. On behalf of the committee on the establishing of a manual training class

in the La Tour school, Miles K. Agor suggested instead, the employ year to work on the buildings. The secretary's report showed an enrollment of 7,007 and an average attendance last month of 6,175. The matter was referred back to the committee. On the suggestion of Mr. Bullock the building committee was asked to report on the proposal to employ a painter by the year to work on the buildings. To wash new blankets soak for some hours in cold water, to which three handfuls of salt have been added, wring well, and then you will have no difficulty in washing in the usual way. If they are washed right off in hot water the first time it tends to set the sulphur in the blankets and turn them black.

IN PARLIAMENT

Many Liberals Have Had to Walk Plank—Tariff Commission Bill is Discussed

Ottawa, Feb. 12.—The extent to which the axe has been wielded on Liberal office holders by Hon. Messrs. Monk and Pelletier is shown by a return presented to parliament this afternoon giving a list of appointments to the civil service, in the post office and public works departments since the government assumed office.

In the inside service the appointments totaled 382, of which 256 were additions and 126 to fill vacancies.

In the public works department four appointments have been made to the inside service and 101 to the outside service.

Whether the duties of the proposed tariff commission will be to act as Mr. Ames says "in sympathy" with the protectionist views of the government, or as Mr. White proclaims, simply to collect accurate and comprehensive data for the information of the government, was in essence the point at issue in today's continuation of the debate on the bill creating the board.

Sir Wilfrid Laurier took part in the discussion for the first time, covering succinctly the criticisms previously directed against the government's proposal as being in disguise a movement for higher protection. He announced himself as a "tariff for revenue man," and applied apologetically to the hasty declaration of the finance minister in favor of moderate protection, "A little too much is just enough."

Ottawa, Feb. 12.—An order in council was signed today appointing Sir Wm. R. Meredith of the Ontario High Court to be a royal commissioner to investigate the affairs of the defunct Farmer's Bank.

PLAYGROUND RESULTS WITH ORGANIZATION

An Object Lesson is Furnished By the City of Newark

SYSTEM WORTHY OF STUDY

Children, Young Workmen and Women in Clubs or Classes With Duties for Each Group—Youthful Police, Courts and Rulers—Gangs Broken Up

(Christian Science Monitor)

By means of organization, Newark has put in operation a city playground system that is worthy of study by other municipalities. These patrons of the play places, from the children who attend the kindergarten to the young working men and women, are arranged in groups known as clubs or classes, and certain duties are prescribed for each group. This idea, as applied, would seem to cover certain features in the boy scout movement, together with some in the school city-plan. The favor in which the system is held by the people of Newark speaks well for the good it is accomplishing.

Organization

Thoroughness of organization is the keynote of the Newark city playground system and the point on which any claim to superiority in that respect, that many be advanced on its behalf is entitled to respectful consideration. Like other American municipalities, this bustling manufacturing center has a number of other systems providing playgrounds for the people, and recreation centres, in charge of the playground commission, that is accomplishing specially notable results.

The Newark city playground system provides the usual and conventional activities for school children to be found in any city where the subject is more or less intelligently handled, and there are the swings, the testers, the sand-boxes and the chutes. But here the smaller boys are organized into sanitary squads, whose duty it is to see that the grounds and play places are kept free of clutter. Sanitary badges are awarded to the youngsters who display the most efficiency in this primary city work.

Boys and girls of more than ten years are organized into police forces, and it is the boast of these city playgrounds that they have never called or desired the presence of a blue-coated policeman; they depend entirely upon their juvenile force. So eager are the youngsters to serve as police that it is customary to have civil service examinations and only those who qualify are eligible to wear a police badge. Then there are the juvenile police courts, one for boys, and presided over by a boy judge, and the other for girls, with a girl on the bench. There are playground elections of city officials carried out in the same way as any municipal elections. All this is in the nature of play, playing at being sanitary inspectors, police and mayor, but the seeds of good citizenship are sown in this form of recreation.

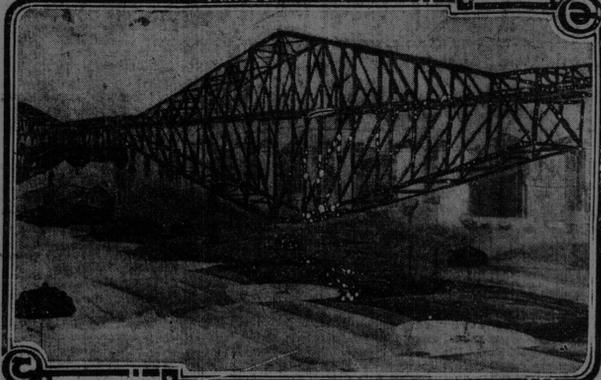

Some of the Classes

The children have folk dancing classes, cooking classes, sewing, raffia-work, brass hammering—manual training in a primitive way; that is, the boys are shown how to make things they can use. The girls in their sewing classes, between moments of recreation are taught coarse and fancy sewing and how to make the costumes for plays that are given from time to time in the different recreation houses. The feature of the working of this system that is said to be productive of the greatest amount of good to the community is the organization of clubs of boys and young men who are working for a living.

Two of the playgrounds are located in congested districts once infested by gangs before playgrounds were there. Through the playground organizations the gangs have been eliminated. In one district, there were two gangs that had proved troublesome for several generations. The police for twenty years had been dealing with the members of them, and the taxpayers had to pay the costs of keeping them under restraint.

Within two years all this had been changed. The boys of the particular neighborhood, where such conditions existed, have another standard by which to live and work. It is the ambition of the average boy of the neighborhood to qualify for membership in one of the playground organizations. The moral and social standards of the neighborhood have been improved through these stamp agencies, and the work has been done by the young men themselves. They were given the opportunity to work up to a higher standard and they did so. Those who are familiar

HOW NEW QUEBEC BRIDGE WILL LOOK

This picture shows how the new bridge which is to span the St. Lawrence River, when completed, will appear. It will be the largest single-span bridge in America, and is taking the place of the one which collapsed about three years ago while under construction. This picture was taken in Toronto at the University of Toronto, and was a feature of the decorations at the third and fourth year engineers' dance. It is an exact reproduction, on a smaller scale.

THE LITTLE SEASON NOW IN LONDON

Parliament and Society

With a stormy and lengthy session of parliament expected, hostesses are not making any elaborate preparations for political entertaining. Indeed it is practical useless to do so for, with the programme of legislation which the government is determined to pass, late sittings will be frequent at Westminster, and practically only Friday and Saturday nights will be available for social duties. Upon the week-end habit has made enormous strides recently so that we can expect very little in the way of the big political functions of the past.

There is promise, however, that some entertaining will be done by the wives of the Canadian members, and after her return from Canada and America it is expected that Lady Parker will not be the only one to make her debut in London.

Mr. and Mrs. Donald MacMaster have taken a house in town for the season, which they will occupy for the winter season. They have also a charming country residence at Woking. Just now Mrs. MacMaster, with her two daughters, is in Paris for a prolonged stay. They are visiting Mr. MacMaster, Jr., who is residing in France.

Then Lady Aitken, wife of Sir Wm. Max Aitken, possibly will give an entertainment either at her town house or at her more fashionable, a week-end house party at their handsome country place.

Plans for other social entertainments among Canadian hostesses cannot be learned, but it is certain that entertainments will be given.

THE DUCHESS OF SUTHERLAND AND FAIRY GODMOTHER—COUNTESS OF LYTON'S GOWN AT MRS. PAGET'S RECEPTION—CANADIANS IN SOCIETY

(Times' Special Correspondence)

London, Feb. 9.—Dances and other forms of festivities herald the approach of the "little season," a time devoted almost entirely to the young people, and which they often enjoy more than the real thing which follows in May. The rooms are not so crowded, not so hot, and the dances themselves are a matter of pleasure and not so much the result of duty, that they become late.

There is no royal process to make her debut this year, and even if there were, the Duchess of Sutherland, who has already probably deferred it for this season. For this reason, we shall not see, in two daughters, the Duchess of Sutherland, who has already probably deferred it for this season.

Then Lady Aitken, wife of Sir Wm. Max Aitken, possibly will give an entertainment either at her town house or at her more fashionable, a week-end house party at their handsome country place.

LOST 45 POUNDS IN WEIGHT

Now Weighs 125 Pounds, Thanks to "Fruit-a-lives"

Plantagenet, Ont., Jan. 31st, 1910.

"About March 1st, 1910, I was taken deathly sick with Liver Congestion and Stomach Trouble. I failed from 125 pounds to eighty pounds and was confined to bed for eight weeks. The doctors said they could do nothing for me, and as a last resort, one of the doctors told me to try "Fruit-a-lives"—if they would not cure me, nothing would.

"My husband bought some "Fruit-a-lives" and inside of ten days, I was able to leave my bed. My stomach got strong and I could eat and retain my food. Today I weigh 125 pounds and feel like a new man."

writer terms Hamar Greenwood the most striking member of the House of Commons from overseas on the government side. In his political career Mr. Greenwood is greatly aided by his wife. She enters most keenly into his work and is almost as ardent in politics as her husband. Of course she belongs to an old English family which has many political affiliations. Undoubtedly she is one of our rising political hostesses. At present she is at Monte Carlo.

Few politicians' wives have so completely identified themselves with their husband's work as Mrs. L. S. Ames, who was Miss Greenwood of Toronto. When she made her debut in English society and was presented at court by Lady Crewe she was welcomed instantly as a charming and accomplished addition to Anglo-Canadian circles. Her marriage to L. S. Ames, a journalist and politician, soon afterwards, was one of the political weddings of the year. In the last election Mrs. Ames was very energetic and frequently made speeches in her husband's behalf.

Mr. and Mrs. Orr Lewis of Montreal and Whitteville Park, Endish, are to sail by the Olympic on Wednesday next for New York. They will be accompanied by the Messrs. Orr Lewis and will spend some time at their home in Montreal. F. W. Heach of Winnipeg, will leave on the same steamer.

After the Earl Grey function last week, Sir Hugh and Lady Graham of Montreal left London and are at present in Paris, at the Hotel de l'Athenes.

Many Canadian visitors to London endeavor to visit the Bank of England. Unfortunately owing to the rigid rules of that institution not everyone can be admitted. It is not generally remembered that the wife of the governor of the bank is a Canadian. She was Miss Williams, daughter of the late Sir John Williams, Bart., and was formerly married to Herbert Chamberlain, a brother of the Right Hon. Joseph Chamberlain.

GOVERNMENT HAS NO POLICY FOR NAVY

Senator Gets Information Showing Things Are in a Pretty State

The senate at Ottawa on Friday Senator Lavergne put a number of interesting questions. He first asked: "Is the government in a position to announce its policy in naval matters? If not, why has it provided in the estimates for an increased number of employees in the naval service?"

The Hon. Mr. Loughheed, replying for the government, said: "The government is not in a position at present to announce its policy on the navy."

As to the question of an increase in the number of naval employees, the Hon. Mr. Loughheed said he would give the information at a later date.

Senator Lavergne next asked: "Has the government decided to maintain the naval college at Halifax, at least until its naval policy is brought down?"

"It is the intention of the government to maintain the naval college at Halifax, at least until its naval policy is brought down."

Another query was: "Does the government intend to allow the Roman Catholic minority in the part of the north-west territories which is to be annexed to Manitoba the same rights and privileges which it enjoys in virtue of the Territories' Act?"

"The government expects shortly to lay upon the table of parliament a bill containing the proposed terms between the dominion government and the province of Manitoba, and the extension of the boundaries of the province and until that bill is laid on the table of parliament, it would be manifestly improper to state what negotiations have taken place between the two governments," replied Senator Loughheed.

Senator Cloran thought the government should give an answer to this question so important a subject before it brought down its bill.

A SEVERE COLD DEVELOPED INTO PNEUMONIA.

Doctors Said He Would Not Live.

DR. WOODS' NORWAY PINE SYRUP CURED HIM.

"Too much stress cannot be laid on the fact that when a person catches cold it must be attended to immediately, or serious results are liable to follow."

"There is only one way to prevent pneumonia, and that is, to cure the cold just as soon as it appears."

Dr. Wood's Norway Pine Syrup will do this quickly and effectively.

Mr. Hugh McLeod, Estehary, Sask., writes: "My little boy took a very severe cold, and it developed into pneumonia. The doctor said he would not live. I got some of your Dr. Wood's Norway Pine Syrup, and he began to improve. Now, he is a strong healthy child, and shows no sign of it coming back."

THE ONTARIO FISHING WATERS

The Fish, Forest and Game Protective Association last evening discussed the proposal to take over the South Branch of the Ontonago River for preserving of the fishing privileges for the use of the public. As the present law requires that the privilege shall be sold at auction to the highest bidder it was decided to await on the government to ask for a by-law enabling the association to secure control of this and other waters for the benefit of the public. The secretary reported that he had written to the minister of marine and fisheries asking for a shipment of trout fry to restock some of the streams which are open to public use.

CRIMP CUT TOBACCO

Take a tin of TAXI home with you tonight. After supper get out your old briar— Shake in some TAXI—(it's Crimp Cut). Light up.

Then settle back for a spell of real pipe-smoking happiness. You'll be a TAXI smoker ever after, because you'll know that you've found just what you've been looking for ever since you started up your first pipe.

Say TAXI next time. Price, ten cents.

SPORT NEWS OF A DAY; HOME AND ABROAD

The Vermont team had his check book cut with a skate during the game. In New York. The Toronto University Hockey team defeated the New York Wanderers eight to one in New York last night.

A Montreal paper says "Norman, the chuckle, little hockey player, who was here in the early part of the season to try and get men for the Lower Province League, is anxious to play in the N. H. A. tank again. He has written George Kennedy to that effect, but he gives no reason."

The opening meet of the St. John's Hockey Club will be on Wednesday, tomorrow. Seventy one names were added to the membership roll last night. A grand has donated \$25 for a prize in one of the classes. The classes are arranged for tomorrow's races as follows:

MORRIS WINS EASILY FROM JIM STEWART

New York, Feb. 12.—Carl Morris, the Oklahoma giant, had the better in every round in a ten round bout with Jim Stewart, a Brooklyn heavyweight, at the Casino A. C., in Brooklyn, last night. Although Stewart had been hailed as an even match for Morris, he lasted out the ten rounds only by holding on and running. Morris' did about all the fighting, chasing Stewart about the ring, and cornering him in almost every round, when he placed a few stiff punches. It was the general opinion that Stewart would have been knocked out, had he stood up and fought. Morris weighed in at 230, and Stewart was thirty pounds lighter.

Class A, Trotters. Maudie M. John McCarthy, Beauty, John A. Davidson, Hazellian Jr., John A. Barry, Parkson, Harry Tippett, Sutton, driver E. Charters, of Moncton. Dot, David Love, Lady Hilda, George E. Brown.

Class B, Pacers. Crowther, C. M. Kerrison, Billy Miller, William Melatyre, Lord Minto, Arthur Connor, Arthur E. W. A. Gair, Cassie W. George Latimer, Day horse (name not available), W. H. Coleman, Buster H. George Stephenson.

There will be two out of three heats. The second heat will be on Saturday, when there will be three classes, including a free-for-all. It has also been decided to have a class for colts as there are some promising ones in the city at the present time.

Great String of Batemen. Detroit, Feb. 11.—Henry Perry, of Wilcox, Mich., comes up to the expectations of those who have followed his career in the heat of the minor leagues, the 1912 Detroit Tigers are likely to have an array of sluggers the main battery consisting of Fredrickson, who has been decided to have a class for colts as there are some promising ones in the city at the present time.

Of the five named as 300 hitters, three—Cobb, Crawford, and DeLoach—are sure to enter the select circle as they are certain of immunity from serious physical injury. Gainer, No. 4, of the sluggish quintette, showed wonderful ability as a batsman last spring before Jack Coombs broke his wrist with a pitched ball.

Perry, who combines the hand of a preacher, has yet to prove that he is a major league 300 hitter, but nobody who knows him is afraid to predict his success. Diamond Sparkles.

Olding, star centre fielder of the Athletics, will again be with the world's champions next season. "Rube" work had a great deal to do with the White Elephants' victories.

Women fans who cheer from the grandstand do not believe a woman's dignity, says Mrs. Burton, owner of the St. Louis Cardinals. She also believes that women could be benefited by attending more games.

Billy Hart, of Cincinnati, an umpire in the Southern League, holds the distinction of pitching more seasons than any other man—just twenty-four. He started in Chattanooga in 1885, and ended in the same city in 1910.

Bill Sweeney, of the Boston team, made twenty-one runs on nineteen hits in 122 games last season. He was credited with thirty-nine consecutive confetti.

The average of 420 made by Ty Cobb in the American League last season was the highest of any of the thirty-four leading batters of the various leagues. Hans Wagner, of the National, was twenty-fourth in the list.

Frank Roth, former Chicago White Sox and Cincinnati catcher, holds the world's record in home runs. Roth made thirty-six in 1901.

Despite the fact of his pitchers going out against the Athletics, McGraw determined on keeping the same lot next year with the possible addition of Tercan and Robertson.

The shortest game of the major leagues last season, in point of time, was between the Athletics and Washington, which consumed one hour and ten minutes. It went nine innings, and was the last game between two teams for that year.

SOME I.C.R. CLERKS TO EMPLOY OF THE C.P.R.

Changes Consequent on Opening of New Freight Warehouse

The new freight offices of the C. P. R. will probably be in full use by Thursday of this week, and tomorrow will be occupied by those who have been selected to compose the staff in the office and in the shed. By the lessening of the amount of freight to be handled by the I. C. R. there will necessarily be a reduction in the staff in the offices of that railway and some transfers will be made from the I. C. R. shed. The reduction, it is expected, will effect about ten employees. Others are being transferred from the I. C. R. shed to the new freight offices, but it is said that the freight handlers will be entirely new men.

It is not fully decided who will be transferred. After seeing the handling of the freight under the new arrangements, its receipt and delivery, there will follow some changes in the system. The C. P. R. freight for St. John proper will be held at Fairville and brought to the city by the C. P. R. to points west will be received at the new sheds, and all inward freight for St. John proper, will be received and delivered there. This includes freight from New England points.

OTHERS HAD BOUGHT RAZORS FROM HOLM

Evidence of Two Sold by Him is Given in the Police Court

The case against William Peterson, alias Holm, arrested on suspicion of entering the barber store of John Daley on January 8 and stealing a quantity of razors, was continued in the police court this morning. E. S. Ritchie appeared for the defendant. The first witness called was Thomas A. Black, who conducts a barber shop at 183 Main street. He said that about the latter part of January the defendant called at his store and offered for sale a razor. The witness declined to buy, but the defendant told him a hard luck story of having come from Toronto and being a stranger in the city, so he bought the razor from him. He gave twenty-five cents for it. Three days later he handed the razor over to Detective Killen. He had a razor proved in court as the one Holm sold him.

L. Dumaine, employed at the Green Barber College, Main street, identified Holm as the man who sold him a razor for twenty-five cents about the latter part of January. Holm had called and offered the razor for sale, saying that he was hungry and wanted something to eat. The witness bought the razor. He had known Holm before, having seen him quite frequently getting a free shave. He also identified a razor produced in court as the one he had purchased.

The case was then adjourned until to-morrow morning at 10 o'clock. Holm was remanded to jail.
