Petitions gone in--survey made--and still no wharf at Beaver Harbor. What's the matter?

A. C. Gillmor is spoken of as likely to be a candidate in the governments interests at the next election.

The bags containing the St. John papers were carried through to St. Stephen Thursday. Nobody's fault.

On Tuesday, Chas. Blaney, an employe of the Pulp Co., jammed his hand severely while engaged at his work.

One day last week some would be sportsman shot a valuable cow belonging to Mr. Burbank, of Bonney River.

Thos. McCracken, of St. Andrews, is painting the new residence of A. C. Gillmor. He has a number of contracts in town.

Hon. Geo. P. Graham, Minister of Railways, was elected in Brockville on 18th inst. by acclamation to the Dominion house of parliament.

A. C. Gillmor's fine new residence is nearly completed and he will soon move in. It is one of the neatest and most attractive houses in town.

Collins' trial is now taking place at Hopewell Cape. Bench warrants are out for Wm. J. Dean and son of Musquash, important witnesses who didn't obey subpoenas.

Over fifty Sunday school workers, including seven ministers, attended the Charlotte Co., Sunday School Association at Moore's Mills, on the 17th inst. The convention was the most successful that has been held in years. Frank Gamble of St. George was appointed one of the 1st Vice Presidents. H. V. Dewar was elected a delegate to the provincial convention at Fredericton.

R. M. Cherry, who has been given the contract from the Government for the extensive repairs to be made on the interior of the Custom House building, and for the surroundings, which include a modern granolithic pavement on the south and east sides of the lot, began work the first day of the present week. Mr. Cherry and crew being at work on the building and Varney brothers making preparation for the laying of the pavement.--Eastport Sentinel

While returning from St. George, N. B., on Monday last, when off Clam Cove, near Island, the trim little steam tug Fishpaw, owned by the Deep Cove Manufacturing Co., had an experience with a mammoth whale which rose just under her bow, nearly capsizing the little craft. He was a good-natured fellow however, often splashing about for a few minutes, throwing great volumes of water over the somewhat alarmed occupants of the boat, blew a great waterspout into the air and disappeared. Had the great fish come up directly under the little steamer she would have in all probability been turned over, as the whale is reported to have been very nearly her size.--Eastport Sentinel

Ernest Lowe, a popular young man of Red Beach, was drowned on Sunday by falling from a boat, while trying to lower the sail. He was a young man of much promise, and his loss will be deeply felt by a large circle of relatives and friends. For some years we met Ernest every day and it is with deep sorrow we record his untimely death. Imbued with a spirit proper to a young man, anxious to make his way in the world, he had determined to take a commercial course in college, and a glorious future shone brilliantly and enticingly before him. He was eager to begin his studies, and had all arrangements made to enter school, and carry out that laudable design some time ago. Before the time for the realization of his bright anticipations had come, death, who "disregards persons", claimed him as his portion, and in the midst of his bright dreams he was cut off from earth. To his bereaved relatives our sincere sympathy is extended. Ernest has passed to his eternal rest, a striking example of a good and virtuous boy, beloved in his life, and honored in death by all who knew him.

HARMONY?

To the Editor of the St. George Greetings:--Our attention has been drawn to an item in the last issue of your valuable paper stating that there was a lack of harmony among the officials in a public institution. If you have reference to the Commissioners of the almshouse we wish to give it an emphatic contradiction as there has not been up to the present date one word of disagreement between us since the present caretaker was installed.

PATRICK McLAUGHLIN,
JAMES A. CRICKARD,
JAMES S. MCKAY,

News of the World
Fred Pettit, a Nova Scotian, aged 26,
fell out of a basket, being overcome with
gas, in Green Meehan mine at Cobalt on
Monday and fractured his skull. His
recovery is doubtful.

In a fight at Black River, Que., on
Sunday Edward Remand, a carter, was
so severely injured that he died. Raoul
Poliquin is held criminally responsible
for the death of Remand.

At Toronto on Monday the crown plate
of the boiler of a C. P. R. locomotive
blew out, and the explosion sent the
fireman, Thos. D. Miller, clear out of
cab, across a railway fence and into an
adjoining field.

The entire plant of Nichols & Stone
chair manufacturer's in Gardner, Mass.,
was destroyed by fire on Monday, entail-
ing a loss of more than \$100,000 and
throwing 150 hands out of employment.

Two young men and two girls, whose
ages range from twenty to twenty-five
years, were drowned in the Saginaw
River at Saginaw, Mich., on Monday
night, when a gasoline tank exploded in
a power launch.

Walter Wellman will probably return
to Spitzbergen at the end of the present
month, abandoning plans to attempt to
reach the pole in an airship for the
present year. No start had been at-
tempted up to August 26, and the
weather subsequent to that date pre-
clude an ascent of the airship, northerly
winds, fog and snow prevailing.

After the payment of all the debts and
outside legacies, the estate of the late
Marshall Field, Chicago is now finally
figured up at \$55,000,000. It is a con-
siderable reduction from the original
figure, but it does not alter the fact that
this late merchant prince of Chicago died
leaving the largest estate ever bequeathed
to his heirs by any man in America.

There are far richer men than was the
late Mr. Field, but they still live, and
some of them are trying their best not to
die in that condition.

The Transvaal government, with a
view to helping solve the problem of the
unemployed, has decided to work the
fields of the Petrusburg district in the
interests of the mine workers. The
scheme is to advance the wages to the
men to enable them to obtain tools. The
workmen are also to share in the profits,
according to the miners' scheme. Pros-
pectors who are already on the ground
and have been waiting for it to be thrown
open are angry, as are also hundreds of
agents of the big mining groups.

Congressman Longworth, who has just
sailed from Honolulu for San Francisco,
says: "President Roosevelt will not be-
come a candidate for re-election unless
the entire country demands it. He has
firmly made up his mind to stick to his
course and only a more widespread de-
mand for him to accept the nomination
will alter his determination."

A man who had worked on the Pen-
nsylvania railroad for twenty-six years
gave up his job a couple of weeks ago
and went to work in a rubber mill. He
said that so many of his friends had been
killed he could not stand the nervous
strain of railroading any longer. Five
days later he was caught in a belt in the
mill and killed.

Thursday morning a suicide took place
at Perth. William Clark arrived at one
of the hotels from Presque Isle and fill-
ing his pockets with stones jumped into
the river. He was suffering from a
chronic illness.

A church in Kansas is now suing de-
linquents for their pew rent. This is
certainly a novelty.
Lindsay P. Lawrence was fined \$37 at
Winnipeg for selling part of an unused
C. P. R. ticket.
"The Canadian Northern is ready to
build through to Vancouver if the British
not true on this side of the water. He
declared also that in his opinion there is
more politics to the square inch in Cana-
da than there is common sense to the
square mile."
F. Boduas shot and killed his three-
year-old boy at Veonda, Sask. The
child was asleep in the grain and both
Boduar and the hired girl mistook him
for a wild cat.

To keep cheese moist, wrap in a cloth

When making coffee, add a pinch of
salt after placing the coffee in the pot.
The flavor will be much improved.
When mashing potatoes, add a little
hot milk to the butter used. It will pre-
vent the potatoes from being heavy and
tasteless.
To relieve indigestion.—A quarter of
a teaspoonful of bicarbonate of soda
taken in a cupful of hot water after meals
will often relieve indigestion.

Miss Marjorie, who has been spending a few days at Mrs. John Daly's, New River Beach, was out in a boat gunning and when landing, reached for her gun, a light 22 calibre rifle, when it exploded burning her hand and the bullet passed through her coat sleeve and penetrated the right thigh, very nearly striking the main artery. We hope no serious ill effects will follow as the young lady was very plucky under her misfortune and deserves to recover rapidly.
