## SAD ACCIDENT AT MILLBANK.

Wm. Dempsey of Ferryville  
Fataally Injured by  
Coal Chute.

### STRUCK ON HEAD.

Died Before Doctor Loggie Could  
Reach Him From  
Chatham.

Wm. Dempsey, of Ferryville, aged 16 and son of John Dempsey, was killed at the Dominion Pulp mill wharf on Monday.

The young fellow was working on the steamer Coban unloading coal at the wharf for the Dominion pulp mill. The coal chute swung and hit the lad on the back of the head, knocking him into the water. As quickly as possible he was rescued and taken to the engine room, one report stating that he walked that far and then collapsed. His head was cut open at the back, where he was hit by the chute, but no other injuries were apparent. Dr. W. S. Loggie was at once telephoned for and the steamer Arthur proceeded to Chatham and brought the doctor as speedily as possible to the scene. The lad however, was dead before Dr. Loggie reached the mill.

Mrs. J. K. Barney, World's Supt. of W. C. T. U. work among prisoners, gave a very impressive Bible reading from the 34th psalm, in the Methodist Church, Thursday afternoon. Thursday evening she addressed a large audience in the same church, taking as her subject, "The Lost Sheep." Six new members were added to the local W. C. T. U. that day.

## BIG FIRE IN EDMUNSTON.

Over \$25,000 Worth of Property  
Destroyed on Saturday  
Morning.

Edmunston, N. B., Oct. 19.—Fire broke out at 5 o'clock this morning in the Thadee Hebert Hotel, on Victoria street, and the hotel, Murchie & Burpee's store and the dwelling adjoining, a dwelling owned by James Murchie Sons and occupied by J. N. Bouchard, were all destroyed before the progress of the fire was stopped.

Several other buildings adjoining were in danger, but after great efforts by many of the citizens the further spread of the fire was stopped.

The loss will exceed \$25,000, less than one-half of which is covered by insurance. Murchie & Burpee's stock is an entire loss and was valued at upwards of \$16,000, and the building was worth \$4,000. The Hebert Hotel building is a loss of over \$3,000, besides the furniture and stock of liquors.

The origin of the fire is unknown but it is supposed to have been set by some men who were drinking and were seen around the Hebert Hotel at a late hour that night.

The insurance is as follows: On Murchie & Burpee building, \$2,000 in Atlas; on Murchie & Burpee stock, \$1,000 in Atlas; \$2,000 in Ontario, \$1,000 in London Mutual, \$1,000 in New York Underwriters, \$1,000 in Insurance Company of North America. On T. Hebert's hotel and contents, \$2,200 in British American. On J. B. & J. Mi-chaud's dwelling house, \$500 in Queen.

## NEW BOOKS.

We have just received another lot of paper covered novels. These contain the writings of some of the best authors.

The price is the same as before—15c. or 2 for 25c. New paperies, new post cards novelties in all the lines we carry.

## TEACHERS OF GLOUGESTER MEET.

Interesting Sessions at Bathurst on  
the 17th and 18th  
Instant.

### SYNOPSIS OF PAPERS.

Addresses by O. Turgeon M. P.,  
Superintendent Kidner  
and Others.

Bathurst, Oct. 18.—The Teachers' Institute of Gloucester convened in the intermediate room of the Grammar School, Bathurst, on Thursday the 17th instant, at 10 a. m. Mr. Girdwood of the Bathurst Superior School, very efficiently presided at all the sessions. After the president's opening address a very carefully prepared paper on Composition in Its First Steps was read by Miss Helene De Grace, and commented on most favorably by many members of the institute. The forenoon session was closed by enrolment of members.

On assembling in the afternoon a paper dealing with the inculcation of Patriotism was read by D. L. Mitchell, principal of the Grammar School. It was discussed in quite a lively manner by the president, Messrs. Robichaud, De Grace and Poirier. Mr. Kidner, director of manual training, was then introduced, and proceeded in his characteristic manner to entertain and instruct the institute by a talk on what could be done in any school without elaborate equipment, illustrating his remarks by picture frames of neat but easily made designs.

An improvised public meeting was held in the evening and attended by a considerable number of parents, who seemed to enjoy the proceedings. The questions handed in were answered, and an address given to parents by Mr. Kidner. The evening was made very enjoyable by songs by Miss McNair, violin duets by Miss Rennie; a recitation by Mr. Kidner and refreshments provided by a committee of ladies.

The second day's morning session was devoted to how to teach decimals. Mr. Daigle led and was followed by Messrs. Boudreau, Robichaud and by Misses McNair, Eddy and Street.

Inspector Doucet, who had been hindered by illness from being present at Thursday's session, gave an address, dealing very hopefully with educational progress in the county. He was followed by B. R. Armstrong with a brief address on the annuity scheme.

A resolution was drawn up by a committee thanking the government for their attempt to find a solution, and urging a speedy settlement of the question on an equitable basis. The resolution was endorsed by the institute and ordered forwarded to the board of education.

In the afternoon Miss Eddy showed at large her method of teaching French to English speaking pupils. Her method was very cordially approved of by those taking part in the discussion. Addresses were given by Jerome Boudreau (one of the oldest, if not the oldest teacher in the province), and by Mr. Turgeon, M. P. They were received with cordial applause.

The officers for the ensuing year were elected: Mr. Robichaud, president; Miss Agnes Nicol, vice-president; and J. E. DeGrace secretary treasurer. Thanks to the retiring president and secretary, to the entertainment committee and to the speakers closed a very interesting and profitable meeting. The institute elected Shippegan as the next place of assembling—time to be fixed by the executive.

## SPECIAL MEETING TOWN COUNCIL.

Ald. Morrissy and Mayor Miller  
Would Extend Town's  
Sphere in Business

### SUGGESTION OPPOSED.

Settlement With Inspector Menzies  
Postponed.—Police Court  
Paying.

The town council met in special session on Monday evening. There were present Mayor Miller and Ald. Belyea, J. Clark, T. A. Clarke and Morrissy.

The request of the Crystal Basketball Club that the club be allowed to use the town hall for practice at \$1.00 a night and for the match games at \$5.00 provided the hall was not needed for other purposes, was complied with.

A letter was read from T. Goudreau, re lighting N. W. bridge. Major Lawlor's communication re defective covering of the sewer in the Armory grounds was read, stating that it was dangerous to try to remove the cannons from the building lest they should sink into the sewer.

His Worship said that he had recommended to the government that the latter build a concrete sidewalk in front of the Armory, and had suggested to Major Lawlor that the government also attend to the sewer.

The communications were received and filed. Ald. Belyea, chairman of the finance committee, recommended payment of following bills: A. A. Davidson, legal advice, \$13. Barnes & Co., stationery, 6. J. Cassidy, commission for collecting taxes, 100.

The report was adopted. Ald. Morrissy, chairman, reported for the Light and Water Committee, recommending payment of the following:

James Robertson Co.,	\$ 27.25
Can. Gen. Elec. Co.,	21.28
Jerome Landry,	9.40
T. McAvity,	3.50
Intercolumbia Mining Co.,	91.36
John Ferguson & Sons,	9.13
T. McAvity,	13.52
	175.44

Report was adopted. Ald. T. A. Clarke, chairman of the Police and Appointment to Office Committee, brought the following report:

1. Recommending payment of \$62.16 to the Stothart Mercantile Co., for work and material used in changing and repairing the police Court.

2. Submitting Police Magistrate report for quarter ending Sept. 30 ult. This showed that fines and costs of \$133 had been collected.

The Magistrate's costs were \$74, and the constable's fees were \$5. Balance of \$54 had been paid into town treasury.

3. Recommending placing of an incandescent light on Mary street, midway between Gremley's stable and Henry Street.

4. Recommending that County Scott Act Inspector John Menzies, in consideration of the great amount of money he had brought into the town treasury during the years 1906 and 1907, be paid a further sum of \$75 in settlement of his claims.

5. That new overcoats be procured for the two policemen. Sections 1, 2, 3 and 5 were adopted. At the Mayor's request, section 4 was allowed to stand till there should be more aldermen present.

The Mayor reported that several parties had complained to him that the town marshal had occasionally served writs for private parties.

The marshal said that he had served some dozen papers, but he never allowed it to interfere with his town duties.

Ald. Belyea asked if there were any bye-laws forbidding the marshal serving notices for private parties.

The Mayor read all bye-laws relating to the duties of the Marshal and found none forbidding principle.

What had been complained of.

Ald. J. Clark and T. A. Clarke

## SUBSIDY OF \$500.00 GRANTED.

Messrs Russell Will Receive That  
Amount for Balance of  
Present Season

### FOR REDBANK SERVICE.

Local Government Substantially  
Assists Up-River  
Service.

The local Board of Trade has received the following letter and enclosure from Robert Murray, M. P. P., which communications speak for themselves:—

Chatham, N. B., Oct. 18th, 1907.  
To the Secretary of The Board of Trade,  
Newcastle, N. B.

Dear Sir:—  
I herewith enclose you for submission to your Board of Trade at its next meeting, a certified copy of an order in Council passed September 18th 1907, ordering an appropriation of \$500.00 as a subsidy to be given to Messrs Russell for Steam service on the Miramichi River between Redbank and Chatham during the present season, which I trust will be found satisfactory.

Yours, etc.

ROBT. MURRAY.

Upon consideration of the application of the Board of Trade of the Town of Newcastle, and of the fact set forth in their Memorial to the Honorable, the Minister of Trade and Commerce, it is ordered, that a subsidy of \$500 be given to the Messrs. Russell for a steam service on the Miramichi River, between Redbank and Chatham, for the balance of the season, to be paid at the close of the season and upon a satisfactory showing to be laid before the Lieutenant-Governor in Council as to the performance of the service.

Certified: Passed Sept. 18th, 1907.

Jes. Howe Dickson,  
Clerk Ex-Council of N. B.

and his Worship saw no objections to the Marshal serving writs for 3.50 private parties, when his regular work was not interfered with. The Mayor reported that he had quoted to the local government a rate of \$20 per light for three \$175.44 lights on the N. W. bridge.

Ald. Morrissy asked opinion of the Council as to the advisability of the Light and Water Committee, brought the following report: Such action would interfere with the retailers, but would, by inducing more people to buy light from the town, greatly help the civic finances.

Ald. Morrissy moved, and it was carried, That the Light and Water Committee be authorized to order enough fixtures to connect the incandescent lights now in use and the constable's fees were \$5. Those already ordered to be installed with are light circuit.

In discussing Ald. Morrissy's suggestions re the town supplying light fixtures at cost, Mayor Miller said he would go still further and not only install the lights at cost but after beginning of the year reduce the cost of the light fixtures.

Ald. Morrissy also thought that light cost too much. The Mayor remarked that Chatham, Campbellton, Richibucto and other towns supplied light at 10 cents, whereas Newcastle's rate was 15 cents with 15 per cent. for prompt payment—a net rate of 12 3/4 cents.

Ald. J. Clark opposed the town wiring houses at reduced rates because it would thus compete with the private parties now doing the wiring. Some had had fixtures put in at certain rates; it would be unjust for the town to put in others' at lower rates. He did not believe in the town doing business that is being done by private concerns.

Mayor Miller—The town is now in business; it supplies light and water.

Ald. T. A. Clarke said that the town council should not interfere with any firm doing business in the town. It was an incorrect principle.

The Mayor—The town is in a

Thursday afternoon at two o'clock the power house of the Maine and New Brunswick Electrical Power Company, situated at Aroostook Falls, Victoria county, was formally opened and electrical power sent out to the surrounding places. The new plant is said to be a very complete one. Electricians from the United States have inspected it and have said that it is one of the best of its kind that has been built. The works supply 1,500 horse power, and provision to double this power has been made. The towns of Andover, Perth, Houlton, Presque Isle, and Fairfield will all be supplied with light and power from the plant.

**Constipation**

Washed sweet apples, with some people, bring prompt relief for Constipation. With others, prunes all about them will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation. The bark of a certain tree in California, called Cascara, offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this mine Cascara bark is given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this ingenious and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Hollow Constipation, etc., is indeed prompt and satisfactory. No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

The record moose head of the season has been received for mounting by Mr. Avery B. Moorehouse of Zealand Station. The head was brought down by Mr. William Sproul, of Sproul's Hotel, Campbellton, and has a spread of 60 inches, with thirty points and is beauty.

At a meeting of Baptist young people's Societies at Tracy Station Sunbury Co., on the 15th and 16th, a provincial United Baptist Young People's League was organized. A. J. Dearness was elected president, and C. R. Wasson, corresponding secretary. Rev. P. J. Stackhouse, of Campbellton, is superintendent for the North Shore District.

Leo, the eight year old son of Wm. J. Fraser, Rexton, had a narrow escape on the 15th from drowning. He with some others was fishing off the public wharf when he fell into the water. It was in the act of going down the third time when he was rescued by Mr. Black and T. E. Girvan, of St. John, who happened to be near.

At Fredericton Wednesday Engineer Barbour completed his test of the filtration plant and high duty pump at the water works. The pump failed to come up to the state of efficiency guaranteed and it is likely another test will be made later on. The filtration beds removed ninety-nine per cent, of impurities from the water.

**WILL COME TO CHATHAM.**  
Amherst, N. S., Oct. 16.—At the special meeting of the Wallace Presbytery, held at Oxford yesterday, Rev. Geo. Wood, pastor of St. Stephen's church, accepted the call of St. Stephen's church, Chatham, N. B. Mr. Wood will preach his farewell sermon here on the 31st. During Mr. Wood's four years' pastorate of the church here he has made many friends and has been deservedly popular, and his many friends both in this church and in other denominations will regret to hear of his decision. The church to which he is going is one of the best parishes in Northern New Brunswick and they have secured in Mr. Wood a preacher of much ability and one who will prove a power for good in the community.

**LABOR CANDIDATE IN LONDON.**

London, Ont., Oct. 19.—John D. Jacobs, iron moulder at the Mc. Beattie is the conservative candidate. The Liberals will not content the seat, but will support the Conservatives against the new party.

**JAPS WANT DAMAGES.**

Ottawa, Oct. 16.—The statement of Japanese claims for the destruction of property by the rioters in Vancouver, is one of the most complete documents ever prepared for presentation to the government. The property is minutely described and a photograph or a blue print of the different buildings is given. There are two columns of figures. One shows the damages done, and the other the loss of time to business.

For the loss of time there is a claim of \$11,100, and for the damages to property, consisting principally of broken windows, there is a claim of \$2,400, making in all a loss of about \$13,500.

The exact size of the panes of glass required, and full particulars, seemed to be embodied in the document. It looks as if some of the items might be pruned down a little.

**W. S. FEILDING RECEIVES TRIBUTE.**

Immense Assemblage do Him Honor at Halifax on the 15th.

**LAURIER PRESENT.**

Hon. Dr. Pugsley Warmly Welcomed by Liberals of the Sister Province.

Magnificent was the reception tendered Hon. W. S. Fielding in Halifax on the evening of the 15th 20,000 people watched the brilliant street procession in his honor; an 7,000 persons crowded the Empire Rink to listen to the speeches made by the Finance minister, Sir Wilfrid Laurier, Sir Frederick Borden, and Hon. Dr. Pugsley.

Delegates were present from all Nova Scotia, and never in the history of Halifax was there so large or a more enthusiastic meeting.

Mr. Fielding was presented with an address, signed by Premier Murry, on behalf of the Liberals of Nova Scotia. The address read, in part, as follows:  
To a position of the highest importance and power in the Government of Canada, they have seen you called by our illustrious leader Sir Wilfrid Laurier, and under that Government they have witnessed the enormous increase in the revenues of this country; the unparalleled expansion of its trade and industries; the rapid development of a national spirit of enterprise and self reliance; the rise of a new nation in the western world, which has given proof of her filial devotion to the Motherland by the preferential treatment of British merchandise, by the improvement of the facilities for transportation and communication within the Empire, by undertaking the defense of her own borders, and by the sacrifices which her sons have made on the field of battle.

To you, Sir, the Liberals of Nova Scotia believe the credit of these great national achievements is due in a degree second only to that of Britain's foremost statesman beyond the seas, Sir Wilfrid Laurier.

To you whose wisdom, unquestioned integrity, and great abilities have brought honor to Nova Scotia, and to yourself a foremost place in the Councils of the Dominion and the Empire, we, the Liberals of your native province, pledge anew the loyalty and support which are due to the leader who has never failed us in the hour of conflict, nor deceived us in the day of victory.

On behalf of the Liberals of Nova Scotia.

(Sgd.) G. H. MURRAY.  
Premier Laurier received a great ovation; and Dr. Pugsley received a very warm welcome. So did Sir Frederick Borden, minister of Militia.

**SPRINGHILL MINERS BACK TO WORK.**

Halifax, Oct. 16.—The Spring Hill mines trouble is finally settled and the men will go to work this week. To-night Pioneer Lodge received a telegram from General Manager Cowans, stating that the men could go to work at once. The machinists start work to-morrow, and the miners will enter the colliery on Friday.

Mr. Cowans is in Halifax and this afternoon he sent the following telegram to Pioneer Lodge: "The men can go back to work the same way that they came out, but it is to be distinctly understood that no advance will be asked for on the production of coal."

The managing committee of the lodge immediately wired back: "Men are willing to go back the same way as they came out, and will abide by the decision of the Conciliation Board."

**PANDORA**

Owing to the fine construction of most ranges it is a rather difficult feat to cook and bake successfully at the same time.

But the arrangement of the Pandora flues differs considerably from others. They are so constructed that the draft for baking is also the best for cooking, the heat circulating around the oven twice and under every pot hole before passing up the chimney.

The Pandora bakes and cooks perfectly at the same time.

Do you know of another range that does? If your local dealer does not sell the Pandora write direct to us for **Free Booklet**.

ELECTION NOT FIXED.

Says Mr. Hazen Made a Mistake of a Million and a Half.

On Wednesday evening, there was a Local Government rally at Norton at which the speakers were Ora P. King, M. P. P.; Dr. W. B. McVey; A. B. Copp, M. P. P.; and Liberal organizer, Hon. James Barnes, and Premier Robinson. All were well received.

Premier Robinson received an ovation. He said that Mr. Hazen's statement that the attorney-generalship was begging was not correct. It was not necessary for the office to go begging, as there were in the government service several gentlemen eminently suited to be attorney general.

Mr. Hazen had said that if placed in power he would hand over the control of the roads to the municipal councils. Just how the conditions of the road would be improved by such action was not apparent.

Arrangements had been made whereby the Atlantic and Lake Superior railway would amalgamate with the International and build a line from Gaspe to the River St. John.

The great tract lately purchased in the north of the province would be partially if not wholly settled by men from the Danish settlement in Victoria county. Other settlers were also to be brought in.

UNITED STATES OF EUROPE.

A Great European Thinker Proposes a Federal Union of Europe.

A PRACTICAL SCHEME

Would Prevent War And Hostile Tariff And Thus Enrich The Continent.

London, Oct. 15.—An interesting memorandum, embodying a plan for the formation of the "United States of Europe," has been submitted to all the reigning sovereigns of Europe by Sir Max Waechter.

Sir Max is a German-born naturalized British subject, and is regarded as one of the keenest business men in England. His suggestion is for a federal European continent whose exterior relations shall be managed by one Foreign Office, whose frontiers shall be guarded by an army and navy under one control.

What, he asks, is going on in Europe in contrast with the development in America? Europe, he says, is spending annually upwards of \$1,250,000,000 on armies and navies.

Enterprise is crippled by fear of war. Each country has its own tariff system, which produces costly tariff wars.

Race differences are unnecessarily accentuated in Europe, while in America the people of all races amalgamate more or less in one generation.

Sir Max thinks that unless some such scheme is consummated soon, there will be another great European war.

SYNOPSIS OF CANADIAN NORTH-WEST.

Homestead Regulations. Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situated.

The homesteader is required to perform the homestead duties under one of the following plans: (1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or) mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

**AN EXCEPTIONAL CASE.**

The late Rev. Ralph Brecken left an estate of \$255,000. It is safe to say that not one per cent. of this amount represents what he saved from his ministerial salary. He must have had other sources of revenue. Few teachers, either clerical or secular, receive more than enough now-a-days to support themselves and keep their insurance premiums prepaid, let alone invest in bank stocks and mortgages.

**THEY WANT TOO MUCH.**

It appears that MacKenzie & Mann, the owners of the Canadian Northern Railway and several lines in Quebec and Nova Scotia, are now unwilling to build the St. John valley railway unless the provincial government guarantees \$30,000 a mile instead of \$15,000 as at first proposed. \$30,000 a mile is too much to guarantee. Let the Dominion government build the road and run it as part of the I. C. R. Such a road should pay for the start.

**THEY WILL SEE THEIR MISTAKE.**

The resolution in favor of the town of Newcastle voting \$5,000 and endeavoring to supply water to help in the erection of a paper mill, the municipality to retain as stock the whole value of what assistance it should render the enterprise, is cordially endorsed by the North Shore Leader, whose editorial on the public meeting of 14th instant contains the following in support of our idea:  
"At the meeting Monday evening there was a resolution introduced for the town to put in \$5,000 and take stock for this amount, which in fact, was a far better agreement than Mr. Hickson spoke of at the previous meeting. The resolution moved by Mr. Stuart was a fair one to be made to any company. When the workmen read the resolution and consider it well, they will see their mistake."

**LET THE TOWN EXTEND ITS SPHERE**

We heartily agree with the contention of Alderman Morrissy and His Worship Mayor Miller, that the Light and Water Committee of the town council should deal in electric light fixtures, supplying them at cost to all who get light from the civic plant. Of course, before the inauguration of this new system due notice should be given so that any private dealer would not be put to any unnecessary loss or inconvenience. The principle that the municipality should do as much business for itself as possible is fast gaining recognition. Let the town not ask any person or firm to do for it what it can do for itself. Why shouldn't the town supply light fixtures as well as water pipes? Why shouldn't it have kept a share in the factory it helped to build and now reap part of the profit

flowing from that institution? When a government helps to build a railway or subsidizes a steamship line, why doesn't it demand as large a share of the profits as it bore of the cost?

**WHY DO THEY NOT PROSECUTE?**

At the Gagtown convention on the 17th instant, Hon. Dr. Pugsley, Minister of Public Works, again referred to the charges he had made against one of Mr. R. L. Borden's lieutenants in his recent speech at Fairville, saying in part:

"In my previous speech I simply stated that \$25,000 had been spent in one New Brunswick constituency. I will supplement this by stating that of this sum \$5,000 was sent into the constituency by telegram on the 24th day of October, 1904, and \$20,000 on the 20th day of October, 1904, and that both of these amounts were wired to the legal partner of the candidate who was contesting that constituency in the Conservative interest. If I did not prosecute, let me say that these facts were only disclosed a few weeks ago in certain legal proceedings under which the books of a certain bank in Montreal came under investigation. If any man in the Conservative party considers my remarks libellous, and if they are true they are certainly libellous, no plea of privilege will be offered against any suit, which may be brought. It will be freely admitted by myself or by any Liberal newspaper proceeded against that the accusations are libellous if true, and subpoenas could at once be issued and proceedings taken to prove to the hilt everything that I have said. It seems to me that none can complain that this language is not plain enough."

If the Conservative leader can prove that his party is the party of purity and that only the Liberals used money to corrupt the electors, it would seem that Mr. Pugsley has given him an excellent opening to make his claims good. If, on the other hand, the Conservatives cannot show clean hands in the matter, they should cease alleging that they are the only people who are politically honest. Mr. Pugsley should go one step further and actually name the man who received the election funds. The Conservatives should not let the charges go unanswered. The man who violates the election law should be disqualified and sent to jail. He who by any means prevents the free and truthful registry of a voter's opinion at the ballot box is an enemy of society and should be frowned upon as such, no matter to what party he belongs. The people of Canada are altogether too lenient in dealing with this class of criminals.

**REV. DR. JOHN POTTS DEAD.**

General Secretary of Education of Canadian Methodist Church Passes Away.

Toronto, Oct. 16.—Rev. John Potts, DD., LL. D., General Secretary of Education of the Methodist Church in Canada passed away at 7 o'clock this morning at the age of 69 years. The death of Dr. Potts ends the career of half a century in the ministry and removes one of the most prominent and most gifted of men in the Canadian Methodist churches; one of her ministers most widely known outside of the Dominion, most indefatigable of her workers in the cause of Education, a proved bulwark of Victoria University, the leader for over eight years of the International Sunday School Association, a staunch advocate of temperance and latterly of church union, at once the pride of his people and the most beloved of the ministry of this church from the end to end of the Dominion.

The social in the Methodist Church on Friday night, under the auspices of the Methodist Ladies' Aid society, was a success. It was largely patronized. A good time was spent by all, and the proceeds were nearly \$40.00.

general business now, giving water pipes at cost, erecting granolithic sidewalks, etc.

Ald. Belyea thought the town should be consistent and equalize the method of installing water pipes and light fixtures. Ald. Morrissey would, if the town thought it advisable, reduce light rates to five cents and increase the cost of water pipes and put in meters on water.

The Light and Water Committee were instructed to have report from Electrician Follansbee re the number of parties who are not now using light but would be willing to buy light at reduced rates.

Ald. Morrissey called the Council's attention to there being two versions of the town's agreement with the Anderson Co.—one on the minute book, but a different one signed by the contracting parties.

Adjourned.

ROSEBUD.

WARM AND DRY

TO STAY WELL

Now is the time when the doctor gets busy, and the patent medicine manufacturers reap the harvest, unless great care is taken to dress warmly and keep the feet dry. (This is the advice of an old eminent authority, who says that Rheumatism and Kidney trouble weather is here, and also tells what to do in case of an attack.)

Get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Mix by shaking in a bottle and take a teaspoonful after meals and at bedtime.

Just try this simple home-made mixture at the first sign of Rheumatism, or if your back aches or you feel that the kidneys are not acting just right. This is said to be a splendid kidney regulator, and almost certain remedy for all forms of Rheumatism, which is caused by uric acid in the blood, which the kidneys fail to filter out. Any one can easily prepare this at home and at small cost.

Druggists in this town and vicinity, when shown this prescription, stated that they can either supply these ingredients, or if the readers prefer, they will compound the mixture for them.

Do not wait until the fire alarm rings to make your application for fire insurance. Do it now. Low rates in reliable non-tariff companies.

(L. S.) To the Sheriff of the County of Northumberland or any Constable in the said County:— GREETING,

Whereas John S. Pond, Administrator of the estate and effects which were of Margaret Bubeare, late of the Parish of Ludlow in the County of Northumberland, and province of New Brunswick, widow, deceased, hath prayed that he may appear to pass the accounts of the said estate: You are therefore required to cite the heirs, next of kin, creditors and any persons interested in the estate of the deceased, to appear before the Judge of Probate for the County of Northumberland at a Probate court to be held in the Council Chamber in the Town Hall in the Town of Chatham, in the said County, on Friday the eighth day of November next at eleven o'clock in the forenoon for the purpose of showing cause, if any, why the said accounts should not be passed and the estate distributed as prayed for.

Given under my hand and seal of the said Court, this Twentieth day of July, A. D., 1907. (Signed) R. A. LAWLOR, Judge of Probate, County of Northumberland. (Signed) G. B. FRASER, Registrar of Probate.

"So you can tell everybody now," chimed in Millicent in her silvery way. Lady Cantourne was not very communicative during that refined little tea a fortnight, but she listened smilingly to Jack's optimistic views and Millicent's somewhat valueless comments. "I am certain," said Millicent, at length boldly attacking the question that was in all their minds, "that Sir John will be all right now. Of course, it is only natural that he should not like Jack to get engaged yet. Especially before, when it would have made a difference to him in money, I mean. But now that Jack is independent—you know, auntie, that Jack is richer than Sir John."

CHAPTER XXI. OF late Sir John had felt a singular desire to sit down whenever opportunity should offer, but he had always been found standing on the hearth rug by the butler, and, hard old aristocrat that he was, he would not yield to the somewhat angular blandishments of the stiff backed chair. He stood for a few moments with his back to the smoldering fire, and, being quite alone, he perhaps forgot to stiffen his neck, for his head drooped, his lips were unsteady; he was a very old man.

At dinner it was evident that his keen brain was hard at work. He forgot one or two of the formalities which were religiously observed at that solitary table. He hastened over his wine and then he went to the library. There he wrote a telegram, slowly, in his firm, ornamental handwriting. It was addressed to Gordon, Loango, and the gist of it was—"Wire whereabouts of Oscar—when he may be expected home."

At half past 8 Jack arrived. Sir John was awaiting him in the library, graying sitting in his high backed chair, so carefully dressed as for a great reception. He rose when his son entered the room and they shook hands. There was a certain air of concentration about both, as if they each intended to say more than they had ever said before. The coffee was duly brought. This was a revival of an old custom. In bygone days Jack had frequently come in thus and they had taken coffee before going together in Sir John's carriage to one of the great social functions at which their presence was almost a necessity. Jack had always poured out the coffee—tonight he did not offer to do so.

"I think," he said suddenly, "to give you a piece of news which I am afraid will not be very welcome. Millicent and I have decided to make our engagement known."

"I am getting too old to indulge in the luxury of pride," said the father at length. "I will attend your marriage. I will smile and say pretty things to the bridesmaids. Before the world I will consent under the condition that the ceremony does not take place before two months from this date."

bowed. The man was walking with great difficulty, staggering a little at each step. He seemed to be in great pain. Guy Oscar laid aside the rifle. He stepped forward to the open window. "Is that you, Durnovo?" he said, without raising his voice. "Yes," replied the other. His voice was muffled as if his tongue were swollen, and there was a startling break in it. Oscar stepped aside and Durnovo passed into his own house. "Got a light?" he said in the same muffled way. In the next room Joseph could be heard striking a match, and a moment later he entered the room, throwing a flood of light before him. "Good God!" cried Oscar. He stepped back as if he had been struck, with his hand shielding his eyes. "Save us!" ejaculated Joseph in the same breath. The thing that stood there, sickening their gaze, was not a human being at all. Take a man's eyelids away, leaving the round balls staring, blood streaked; cut away his lips, leaving the grinning teeth and red gums; shear off his ears—that which is left is not a man at all. This had been done to Victor Durnovo. Truly the vengeance of man is crueler than the vengeance of God! Could he have seen himself, Victor Durnovo would never have shown that face, or what remained of it, to a human being. He could only have killed himself. Who can tell what cruelties had been paid for, piece by piece, in this loathsome mutilation? The slaves had wreaked their terrible vengeance; but the greatest, the deepest, the most inhuman cruelty was in letting him go.

"Good God!" cried Oscar, looking down his nauseating horror. His teeth were clinched; his face, through the sunburn, livid; the blue of his eyes seemed to have faded into an ashen gray. The sight he was looking on would have sent three men out of five into gibbering idiocy. Then at last he moved forward. With averted eyes he took Durnovo by the arm.

"Come," he said, "lie down upon my bed. I will try to help you. Can you take some food?" Durnovo threw himself down heavily on the bed. There was a punishment sufficient to expiate all his sins in the effort he saw that Guy Oscar had had to make before he touched him. He turned his face away. "I haven't eaten anything for twenty-four hours," he said, with a whistling intonation. "Joseph," said Oscar, returning to the door of the inner room—his voice sounded different; there was a metallic ring in it—"get something for Mr. Durnovo; some soup or something."

Joseph obeyed, shaking as if ague was in his bones. Oscar administered the soup. He tended Durnovo with all the gentleness of a woman and a fortitude that was above the fortitude of men. Despite himself his hands trembled, big and strong as they were. His whole being was contracted with horror and pain. Whatever Victor Durnovo had been, he was now an object of such pity that before it all possible human sins faded into spotlessness. There was no crime in all that human nature has found to commit for which such cruelty as this would be justly meted out in punishment. Durnovo spoke from time to time, but he could see the effect that his hissing speech had upon his companion and in time he gave it up. He told haltingly of the horrors of the simian plateau; of the last grim tragedy acted there; how at last, blinded with his blood, maimed, stupefied by agony, he had been hounded down the slope by a yelling, laughing horde of torturers. There was not much to be done, and presently Guy Oscar moved away to his camp chair, where he sat staring into the night. Sleep was impossible. Strong, hardened, weather-beaten man

# WHO SHE WAS

## SKETCH OF THE LIFE OF LYDIA E. PINKHAM

And a True Story of How the Vegetable Compound Had Its Birth and How the "Panic of '73" Caused It to be Offered for Public Sale in Drug Stores.

This remarkable woman, whose maiden name was Edes, was born in Lynn, Mass., February 9th, 1819, coming from a good old Quaker family. For some years she taught school, and became known as a woman of an alert

and investigating mind, an earnest seeker after knowledge, and above all, possessed of a wonderfully sympathetic nature.

In 1843 she married Isaac Pinkham, a builder and real estate operator, and their early married life was marked by prosperity and happiness. They had four children, three sons and a daughter.

In those good old fashioned days it was common for mothers to make their own home medicines from roots and herbs, nature's own remedies—culling in a physician only in specially urgent cases. By tradition and experience many of them gained a wonderful knowledge of the curative properties of the various roots and herbs.

Mrs. Pinkham took a great interest in the study of roots and herbs, their characteristics and power over disease. She maintained that just as nature so bountifully provides in the harvest-fields and orchards vegetable foods of all kinds; so, if we but take the pains to find them, in the roots and herbs of the field there are remedies expressly designed to cure the various ills and weaknesses of the body, and it was her pleasure to search these out, and prepare simple and effective medicines for her own family and friends.

Chief of these was a rare combination of the choicest medicinal roots and herbs found best adapted for the cure of the ills and weaknesses peculiar to the female sex, and Lydia E. Pinkham's friends and neighbors learned that her compound relieved and cured and it became quite popular among them.

All this so far was done freely, without money and without price as a labor of love.

But in 1873 the financial crisis struck Lynn. Its length and severity were too much for the large real estate interests of the Pinkham family, as this class of business suffered most from fearful depression, so when the Centennial year dawned it found their property swept away. Some other source of income had to be found.

At this point Lydia E. Pinkham's Vegetable Compound was made known to the world.

The three sons and the daughter, with

their mother, combined forces to restore the family fortune. They argued that the medicine which was so good for their woman friends and neighbors was equally good for the women of the whole world.

The Pinkhams had no money, and little credit. Their first laboratory was the kitchen, where roots and herbs were steeped on the stove, gradually filling a glass of bottles. Then came the question of selling it, for always before they had given it away freely. They hired a job printer to run off some pamphlets setting forth the merits of the medicine, now called Lydia E. Pinkham's Vegetable Compound, and these were distributed by the Pinkham sons in Boston, New York, and Brooklyn.

The wonderful curative properties of the medicine were, to a great extent, self-advertising, for whoever used it recommended it to others, and the demand gradually increased.

In 1877, by combined efforts the family had saved enough money to commence newspaper advertising and from that time the growth and success of the enterprise were assured, until to-day Lydia E. Pinkham and her Vegetable Compound have become household words everywhere, and many tons of roots and herbs are used annually in its manufacture.

Lydia E. Pinkham herself did not live to see the great success of this work. She passed to her reward years ago, but not till she had provided means for continuing her work as effectively as she could have done it herself.

During her long and eventful experience she was ever methodical in her work and she was always careful to preserve a record of every case that came to her attention. The case of every sick woman who applied to her for advice—and there were thousands—received careful study and the details, including symptoms, treatment and results were recorded for future reference, and to-day these records, together with hundreds of thousands made since, are available to sick women the world over, and represent a vast collaboration of information regarding the treatment of woman's ills, which for authenticity and accuracy can hardly be equaled in any library in the world.

With Lydia E. Pinkham worked her daughter-in-law, the present Mrs. Pinkham. She was carefully instructed in all her hard-won knowledge, and for years she assisted her in her vast correspondence.

To her hands naturally fell the direction of the work when its originator passed away. For nearly twenty-five years she has continued it, and nothing in the work shows when the first Lydia E. Pinkham dropped her pen, and the present Mrs. Pinkham, now the mother of a large family, took it up. With woman assistants, some as capable as herself, the present Mrs. Pinkham continues this great work, and probably from the office of no other person have so many women been advised how to regain health. Sick women, this advice is "Yours for Health" freely given if you only write to ask for it.

Such is the history of Lydia E. Pinkham's Vegetable Compound: made from simple roots and herbs; the one great medicine for women's ailments, and the fitting monument to the noble woman whose name it bears.

#### CANADA IS ALIVE.

Canada is ever alive to the extension of her trade and towards that end is seriously considering the advisability of opening up the Hudson Bay route to Europe. Only about 480 miles of railroad would have to be built to connect the existing systems of the west with the proposed port of Churchill. Grain blockades in the west are frequent and considerably retard the progress of that part of the country. Churchill is available to vessels drawing 24 feet of water, and is very little farther from Liverpool than is Montreal, while the distance from the wheat fields to tide-water is much less than Churchill than to Montreal.—New York Shipping Illustrated.

#### THE PATRIOT AND PATRIOTISM.

Yesterday we republished a graphic account of the great electoral scandal of 1904, which had appeared in The Dartmouth Patriot. But patriotism is not confined to Nova Scotia. It flourishes no less luxuriantly along the banks of the St. Lawrence and reaches the flower of its perfection in the City of Montreal.

Here is the centre towards which worshippers throughout the land must turn their faces when about to sacrifice upon the altar of their country. It is the Mecca to which the pilgrims must travel hereafter. The temple is on St. James Street in the office of The Montreal Star.

Following the Dartmouth Patriot's article comes a great broadside from the Star, and for once we have, in concrete form, the definition for patriotism.

It is the duty of rich men, sayeth The Star, to contribute, of their abundance, to the campaign funds of the two great political parties. "Elections," we have been told by another illustrious editor, "are not made with prayers." The Star points out that the necessary expenses of both parties are enormous. What more proper than, than for those who are able to unbelt and contribute?

If elections must be held, and if money must be contributed, then he is most patriotic who contributes the most. Judged by this standard would Mr. Graham's contributing make him pre-eminent? But others may be, according to their means, no less patriotic. Their names, and the amounts which they contribute, should be published that their fellow citizens may do them honor. And the

"I can take you to a hundred homes, right around my store, in which St. George's is used."  
"You can ask those, who do the baking, what they think of."

great corporations, are they devoid of patriotism? Let us know, by all means, how much they give up? Their patriotism should be fragrant in the nostrils of the public. They should not "Waste their sweetness on the desert air."

But what are these "necessary" expenses, and why could they not be borne by the government? The authorities provide the ballots, the ballot boxes, the advertisement of the election, the polling booth and the returning officer. What else is needed? Scrutineers, you may say; by why should they not be paid by the government? Hiring halls is an item we hear much about, but the actual hall rent paid out is a bagatelle. The town hall and the country school are usually at the disposal of both parties, or they should be at least.

Getting out the vote and getting names on the voters' list are vague charges that cover thousands of dollars. But why should the voters be gotten out, who are too lazy, too indifferent or too corrupt to exercise the right of suffrage without solicitation? As to the voters' list, there is no need of one in the country districts, and, in cities, by universal registration, the voters could put themselves on the list—as the manhood suffrage voters, do now.

Campaign funds are largely used to corrupt voters. They are not to be condoned, much less commended.—Toronto World (W. F. MacLean, M. P., editor and proprietor.)

#### THE COST OF LIVING.

On the subject of the rapid increase in the cost of living, the St. John Star has the following in a recent issue:—

"In less than a month and a half the cost of living in St. John has advanced fifty per cent. This is startling and the small salaried man is beginning to wonder what the end will be. For ten years the cost of living has increased steadily and the difference has not been offset by increased salaries. To the average bread winner this thing is serious. Rents are going up, fewer houses are being built, and there is every indication that in a short time houses in the respectable part of the town will be at a premium and entirely out of the reach of the ordinary wage-earner. It would seem that this is hardly just. The wheat crop in Western Canada this year has not been a failure. True, it is on the whole not up to the standard and did not fulfill all expectations in Manitoba, but it is a fair crop and the yield is good. Without a doubt the Bears in the American wheat pits, cornering as they do countless million bushels of wheat, are largely to blame for so many rapid advances in the price of that commodity. Each year sees new acres of wheat lands in the west under cultivation and the supply should increase much faster than the demand, notwithstanding the fact that thousands of new settlers arrive each year. To the average man these periodical jumps in the price of things necessary for the sustenance of life do not furnish pleasant reading."

The Ottawa Free Press has the following upon the same subject:—

"The average housewife is nearing her wit's end at the continuance of the increase in the cost of living. The problem of household management, always a difficult one in Ottawa, promises this winter to be harder of solution than ever. It is true that this has been an unusual season in every respect, that there is a scarcity of almost every article of consumption but the casual observer must come to the conclusion that some of the middlemen are taking advantage of the situation to add to their profits wrung out of the people..... The significant fact is that all the millers in Canada have united in this combination to unduly enhance the price of a necessity of life to the consumers of this country. This ought to be justification for the Attorney-general of one or other of the provinces to enforce the laws and either compel the millers to reduce the cost of flour to the actual advance in its value or to explain before a court of law why they are taking this extra thirty-six cents per barrel out of the pockets of the bread-eaters of Canada. And when he is investigating the enhanced value of a barrel of flour he might also investigate the further increase in the price of a bag. Canada used to be a cheap country to live in. It is rapidly becoming one of the dearest in the world. There must be some remedy in law for a condition which compels the consumer of flour in the 'granary of the Empire' to pay more for the wheat than to make his bread than

does his brother across the Atlantic."

It is high time that the unprofitable disputes and petty personalities that take up so much of the time of our political parties were laid aside and a united effort made to remedy the evils certain to soon result from this rapid increase of the price of the necessities of life. It is the most important question of the day.

#### THE OKLAHOMA VICTORY.

In commenting upon the triumph of the prohibition cause in Oklahoma, the "Oklahoman," the Democratic organ of Oklahoma City, asserts that many persons who are not opposed on religious or ethical grounds to the use of intoxicants, and who have used liquor with moderation in their own houses, nevertheless gave their votes and influence to the prohibition side. The reason given is that the really independent and impartial voters have become alarmed at the political phase of the liquor problem, and have noted the activity of the saloon party in party conventions and elections. The newspaper declares that the saloon men of Oklahoma are thus largely responsible for their own discomfiture. "For years, the most liberal laws affecting their business have been subject to constant and ruthless violation. Furthermore, their constant interference with political affairs has become intolerable..... So powerful an element in politics has the saloon interest become here and elsewhere that a conscientious candidate must compromise himself or court defeat in a majority of instances. Manifestly, this is a condition that is intolerable and should not exist. It would not exist under a régime of high license and local option with proper law enforcement. Its abolition under prohibition depends upon proper law enforcement. If prohibition in Oklahoma means the elimination of the saloon influence in the politics and government of the state it will accomplish a great good."

Here is food for thought for ourselves. The liquor interest is a power in this and other provinces in Canada, as we see every day. The law is not enforced here—it is broken, it is defied, because the saloon keepers are defended by the politicians and others. Are our respectable public men not already nauseated with the degrading condition of things and ready to do something to stop the violation of the law and the constant and intolerable interference of the liquor interests in political affairs? It is full time that they were.—Montreal Witness.

#### WHITNEYVILLE.

Whitneyville, Oct. 17.—Miss Margaret Dunnett left last week for Bathurst, where she intends spending the winter. Mrs. Margaret McAllister, of Lytleton, is the guest of her daughter Mrs. Addington McLean. Mrs. Bert Donald and family of Upper Blackville, spent a few days last week with her sister, Miss Menzies. Mrs. Richard Cluston and son, Fred, of Derby, was the guest of her brother, Mr. Addington MacLean, for several days last week. Mr. Moses Whitney, while engaged in hewing some lumber a few days ago, gave his foot rather a bad gash. We hope to see him around again soon. Mrs. Daniel Hubbard, of Cassilis, spent a few days with her mother, Mrs. Charles Scmers last week. Mr. Hiram Blackmore spent Sunday with his sister, Mrs. G. Dunnett. Messrs. David, Melvin, Walter and Harvey Stewart left for the lumber woods a few days ago. Miss Mae Donovan paid a flying visit to friends in Neldid Saturday. Messrs. Greg. and Benj. Dunnett captured a fine moose a few days ago, its antlers having a spread of fifty-four inches. The farmers are taking advantage of the fine days and are busily engaged digging potatoes. In some cases the crops are much below the average and in other cases away above. Mr. James McKendrick's are so thick he can hardly get them out of the ground. He expects to dig nearly a hundred barrels, having only planted three.

### Here's the Cure for Sick Kidneys

TEST THEM FREE

Perhaps you are skeptical about GIN PILLS. So was Mr. Brown. He had tried so many things for his kidneys, without getting any better, that he had just about made up his mind that he couldn't get well. When he first read about GIN PILLS he laughed. The second time, he thought. The third time, he said "he would write for a sample just to see if there was any chance of getting well." He was pretty nearly tickled to death ever that box of GIN PILLS. They did him so much good that he would have paid \$5 a box for the second, if necessary. The dizziness, headaches and backaches stopped. Those shooting pains in hips and legs died away. Urine lost its high color. He slept through the night without being disturbed by bladder trouble. His appetite began to pick up and he felt better than he had been for years.

Being a sufferer from my Kidneys and Dizziness in the Head, and could get nothing to help me, I saw in the papers what good GIN PILLS were doing. I got a sample box, and they did me so much good, I bought three boxes and am taking them. They have worked wonders for me. I can recommend them to any similar sufferer. Don't be prejudiced. Give GIN PILLS a fair trial and they will cure you just as they cured Mr. Brown. Mention this paper and we will send you a free sample. The Bole Drug Co., Winnipeg, Man. 50c. a box—6 for \$2.50. 86

April 24th, 1907. C. GATES, SON & Co., Dear Sirs: I can highly recommend GATES' No. 1 SYRUP for dyspepsia and indigestion, and also a great remedy, if not a positive cure, for piles, when they are induced by constipation. I can also recommend your LIFE OF MAN BITTENS as a purifier of the blood, and speak from experience, as I have used your remedies in my family for many years. Yours very truly, C. W. SHORT

**GENUINE COCOA BEANS**  
Pure Chocolate is made exclusively from the kernel of the cocoa or chocolate nut. The only positive way to avoid frequently adulterated forms and to procure the pure article is by personally selecting genuine cocoa beans and grinding them yourself, which we do. This explains why the coating on our bonbons is so much richer, finer flavored, why it's wise to insist on Moir's Chocolates. MOIR'S, Limited, HALIFAX, N.S.

By the end of this month, the Gibson Company's lumber shipments to St. John from Marysville and Gibson, will be completed for this year. A total of between thirty-five and forty millions of lumber, mostly deals, will have been shipped from Gibson to St. John by the time the work is completed. Of this amount between twenty-five and thirty millions were manufactured in the Marysville mills, while about nine or ten millions is the manufacture of the Blackville mills.

Coun. John Timmins, of Springfield, York Co., reports having had a most exciting time while en route to Fredericton in the early hours of Saturday morning. About half past three o'clock, while it was bright moonlight, Coun. Timmins was surprised to see in front of him a monster bull moose, towering above his horse and with antlers spreading upwards of 50 inches. When he approached the animal hunched up as if prepared for a fight, and the horse became frightened. The ex-Warden then called upon Mr. Moose to get out of the road, and apparently frightened by his voice, the moose stepped to the side of the road and the councillor drove by. Mr. Timmins says the moose was within six feet of his horse's head when he frightened it out of the road.

The granolithic walk from the Singer office to Mr. D. Ryan's corner, has been completed, and presents a very creditable appearance.

The directors of the Lepreaux iron mines, at a special meeting Saturday morning at the office of Pres. C. V. Wetmore, Sydney, received and accepted the offer made to them by the Dominion Iron and Steel Company to rent their areas at Point Lepreaux. The lease will be made for eighty years and it is the intention of the new owners to begin prospecting at once. The iron deposits are believed to be very extensive and of a high grade. The expectation is that for the present at least the new owners will confine their operations in New Brunswick to mining the ore and shipping it to the furnaces in Sydney to be smelted. The Steel Co. will pay 25 cents royalty on all iron taken out and must work the mines continuously.

U. S. EPISCOPAL CONFERENCE.

Motion to Eliminate the Thirty-Nine Articles Laid Over Till 1910.

Richmond, Va., Oct. 19.—The triennial general conference of the Protestant Episcopal Church, ended this afternoon. The resolution proposed by Rev. Dr. Huntington, of New York, for eliminating the thirty-nine articles of religion from the prayer book on the ground that they are antiquated goes over to the next general convention, which is to be held in Cincinnati in 1910.

The former I. C. R. depot at Moncton was badly gutted by fire Wednesday afternoon. The building was occupied by the offices of the yard master, Geo. Bleakney, superintendent of trackmasters. All books and papers relating to the freight cars in the yard were in the office and were carried to safety by clerks. The telegraph instruments were saved as well, but a quantity of tools owned by the men in Mr. Bleakney's department were lost. The fire started around one of the chimneys, the building being heated by stoves. The building was wrecked.

A communication in the Globe a few days ago told of the destruction caused by linemen in the employ of the New Brunswick Telephone Company, in cutting down a number of beautiful shade trees about Westfield and vicinity. This matter was brought forcibly to the attention of the management of the Company by Messrs. Barnhill, Ewing & Sanford and other solicitors, on behalf of the clients whose trees had been cut down or damaged. As soon as Mr. White, president of the company, heard the affair he took steps to prevent its recurrence by ordering the dismissal of the linemen who had been responsible for the acts of vandalism, which were contrary to all the orders and desires of the company. Mr. White is also endeavoring to do all that is possible to repair the wrong done.

Wedding Bells.

BETTS—BROOKS. A quiet wedding took place on Wednesday evening, Oct. 16th, at half past seven, at the Baptist Parsonage, Harvey, Albert Co., when Miss Katie Ethel Brooks, of Newcastle, was united in marriage to Mr. Mason E. Betts, also of Newcastle, the Rev. Adolphus F. Brown officiating. The bride was prettily attired in a taylor made costume of navy blue chiffon broadcloth, trimmed with hat to match. Miss Beatrice F. Brown was ring bearer, and wore a gown of white silk organdie. The groom's gift to the bride was a handsome fur-lined coat. The bride, who is well and favorably known in Newcastle, received many handsome presents, among which was a beautiful sideboard and extension table from the Lounsbury Co., and office staff, of which Company Mr. Betts is an

MATHESON—DONOVAN. A very pretty wedding took place in St. James' Presbyterian church last night at 8.30, Rev. S. J. McArthur officiating. The contracting parties were Miss Mamie Donovan and Mr. Freeman Anderson Matheson, both well known residents of Newcastle. The bride was attended by Miss Eva McMurray, while Mr. Fred Witherell, cousin of the groom, was best man. The bride looked charming in white organdie, with point d'esprit overdress, and valenciennes trimming, veil and orange blossoms. She carried a bouquet of white carnations. The bridesmaid was tastefully attired in white dimity, with valenciennes trimming and carried a bouquet of pink carnations.

Among the many beautiful gifts received by the bride was a sable ruff from the groom. The latter's gift to the bridesmaid was a handsome sapphire ring. After the wedding a reception was held at the groom's residence. Mr. and Mrs. Matheson will reside on the King's Highway.

The millinery event of the season! Mrs. H. A. Quilty's opening on Saturday. Her store was thronged that day and has been on every day since. Her display of fall millinery was very pleasing to all lovers of the beautiful in form and useful in material. Judging by the eagerness with which her hats are called for, she will soon need another supply. Hats this year are quite large and they are worn back considerably from the face. The brims have short fronts and long backs. Flowers and ribbons are profusely used, with velvets for the body of the hat. Outing hats are liberally decorated with wings and velvet.

TO SAVE COLLINS. The residents of Albert county are watching with considerable interest the efforts that are being put forth by the friends of Thos. F. Collins, under sentence of death, to obtain a commutation of the sentence to one of life imprisonment. Several copies of the petition asking for this change are in circulation in different sections of the county and a determined effort is being made to save the young man from the gallows. In some localities few signatures have been obtained, but in the upper part of the county, through Hillsboro and Coverdale, the petition is being extensively signed. In Coverdale alone, it was reported, there had been 200 signatures in one day. There appears to be a feeling among a certain number of the residents of the county that the ends of justice would be fully met if the prisoner were sent to the penitentiary instead of the gallows.
