HELPING THE BOYS OF HARTLAND

The weekly meeting for Hartland boys was held in the Town Hall on Monday from 7 to 9 p.m. There was a very good attendance, three mentors being present, also two men visitors. This is an encouraging sign of increased interest in the movement. The aim of the Canadian Standard Efficiency Tests program for teen age boys is to encourage all round development in mind, body, religious experience and service. It is not confined to any one church, but aims at co-ordinating the various churches in saving and training young manhood. The work of the churches has at least two aspects. They have a mission to hardened sinners and shallow, emotional and lazy professors of religion. They have also a mission to the youth of today, at the plastic and formative stage of life, wonderfully open to influences of example and inspiration. In the period of reconstruction of world life and standards which the return of peace will usher in, the teen age boys of today will be the key-group. They will mould the new world of tomorrow. "Help the boys!" is a living and up-to-date watchword for Christian citizens. It was in accord with this ideal that A. Plummer was asked to address the boys on Monday evening on the meaning and value of an education. Mr. Plummer pointed out the great educational privilege enjoyed by young people of today, as compared with the last generation, for the upkeep of good schools is now recognized as the duty of any enlightened community. The speaker impressed upon the boys the necessity for hard work if they would attain in learning. The effort was worth while, for an educated mind is the greatest and most convenient asset anyone can have to carry through life.

Stickney News

E. W. Bell started his mill on Monday.

Winnie Drake left for Florenceville yesterday where she goes to clerk for G. H. Wheeler.

Mrs. S. Atwaters of Peel was visiting Mrs. J. A. Drake on Monday last.

Mrs. E. W. Bell returned last week from Fredericton where she was on a visit to her daughter.

John Ryan of Bath was in our village on Saturday on business.

One of our esteemed residents, Arthur McLean, has sold his farm and is moving to Simonds.

Holley Chase is moving to River Bank for the summer.

Children Must Be Protected

The children must be safeguarded, for, if they do survive the frequent coughs and colds, it is often with the lungs so weakened that they become chronic sufferers from bronchitis or consumption. Being composed of simple ingredients of undoubted value, Dr. Chase's Syrup of Linseed and Turpentine is admirably suited as a treatment for children. It is pleasant to the taste. So much so that children delight to take it on this account, as well as because of the quick relief it affords them.

SUNDAY SCHOOL EQUIPMENT

Following is a paper prepared by Mrs. L. A. Simonson, Florenceville, for the Peel parish Sunday school convention:

Sunday School of today are greatly handicapped oftentimes by inadequate building and equipment material. The ideal Sunday school cannot be realized unless the building provides for separate class rooms. Where this is impossible the classes should be separated by a screen. This to my mind is absolutely necessary, as a number of classes together must cause confusion and children are listening to others and noticing all that is going on outside their own class.

Is it any wonder that poor work is being done? The building too, should be well heated in cold weather, for if a child is cold very little attention can be paid to the teacher. It also should be light and well ventilated. Now, having a suitable building, we will provide the equipment perhaps not property equipment; but the first necessity would be to provide efficient officers and teachers. A superintendent who is a student of human nature and a thorough Christian and one who keeps up-to-date in every way. Teachers who understand child life and of course Christians. And I would also add trained teachers. By a trained teacher I mean one who has taken a course in teacher training.

Much can be said both for and against graded lessons, but for my part I am in favor of using graded lessons, particularly for the primary, beginners and juniors. Always beginning with these lessons by introducing them into the beginners' classes.

I might suggest equipment for the primary class rooms. Children in order to do best work and give good attention must be comfortable. In order to accomplish this provide them with low seats or chairs, preferably chairs as they can be moved to suit the teacher or pupil.

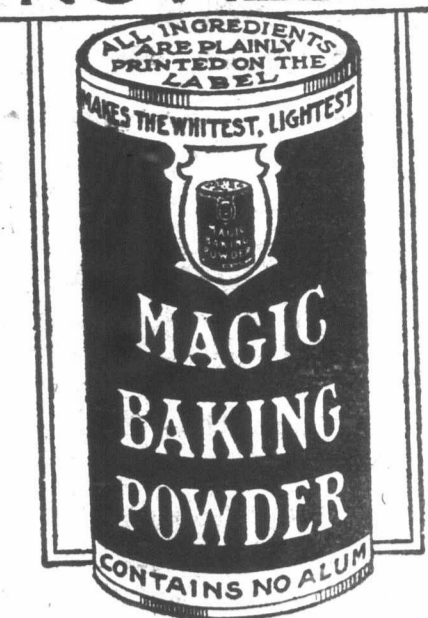

There are some things which are essential to good work in the beginners and primary departments, such as maps, blackboards, pictures, etc. A teacher need not be an artist to use a blackboard, as a single mark might stand for a boy, road, etc. Continued use will soon make one proficient. Then I like the using of the map to fix the location of a place in the mind, with small children, pictures and stories are a great help. In order for a Sunday school to succeed it must have the heart cooperation of all teachers and officers which should be known as the executive of the Sunday school. A great deal more might be said regarding equipment, which I feel might cause some to feel discouraged with the small showing that we are making. For my part I would urge upon all teachers and officers of the Parish of Peel the great need of trained, orthodox, clean and aggressive men and women to push the advance forward to the first line trenches of the enemy. Surely it demands our very best selves.

Yours in the Master's service
Mrs. L. A. Simonson

Mrs. David Irvine

Another pioneer in the life of Knoxford for many years has passed on. On March 14 Jane Irvine, wife of David Irvine died of cancer aged 82. Besides her husband, four sons, two daughters, eleven grandchildren and numerous relatives survive. The children are Lydia (Mrs. J. Fred Hume) of Nelson, B. C., Horace, of New Westminster, B. C., Henry, of Berkeley, Cal., John, of Ontonagon, Mich., David, Jr., and Miss Addie at home. A faithful wife, an affectionate mother, a constant friend has left us. Fifty-eight years ago Mrs. Irvine came to the vicinity with her husband, reared a large family and made a considerable property. Though

NO ALUM

a small woman she was endowed with remarkable powers of physical endurance and capabilities, a marvel of thorough and energetic executive ability, accomplishing without collapse for a long life what few women have done even among pioneers. Her keen brain planned the work of her hands and to her wise foresight and swift performance much of their financial success is due.

Her last nine years were made comfortable by the loving devotion of her daughter, Miss Addie, and by a grand-daughter, Miss Annie McKay. Cataract and deafness shut her out from reading and from much intercourse with friends, but to the end her intellect was clear, although to those who know, her disease meant intense suffering and at the last over seventeen weeks confinement to her bed.

Two years ago the farm was sold and thus Mrs. Irvine died at Centreville, their present home. The funeral service was conducted by her pastor, Rev. J. B. Champion, at their residence and her remains lie in the Methodist cemetery. The floral tokens of esteem were generous and beautiful.

Successful Sale of Fine Horses

That "it pays to advertise" was again exemplified when last week G. B. Nixon and O. I. Clark offered through The Observer a carload of fine Ontario horses. The horses were unloaded Saturday night; selling commenced on Monday, and by Tuesday night all but three were gone.

Such a fine lot of horses was never before brought here, and the lot is a valuable addition to the equine population of the community. Of the carload there remain only a good matched pair and a fine purebred Clydesdale mare.

The purchasers were H. H. Hatfield, a beautiful matched pair of black Percherons at \$750. Fred Seely, a pair of matched Clydes at \$750.

Frank R. Kelly, a pair of magnificent bay Clydes.

Henry Birmingham, a fine gelding.

Mr. and Mrs. William McGee visited relatives in Houlton the past week.

Harry Nixon, after having spent the winter in the woods in the employ of D. Nixon, returned home last week.

Flattering to the Original

But Imitations Only Disappoint

There are many imitations of this great treatment for coughs, colds, croup, bronchitis and whooping cough. They usually have some sale on the merits of the original, but it should be remembered that they are like it in name only.

This is a facsimile of the package bearing portrait and signature of A. W. Chase, M.D.

Mr. and Mrs. Frank Nixon visited Mrs. Nixon's sister, Mrs. Eddie Smith, at Rockland one day last week.

Raymond Tedlie is confined to his bed with an attack of measles.

The friends of David Noble and Harry McAllister will be glad to hear that they are both rapidly improving.

Fred and Arnold Brown attended the Sunday School Convention at Hartland Thursday.

Quite a number from this place attended the evangelistic services at Hartland Sunday. Some report themselves very much pleased with the discourses, while others the reverse.

Felt Wretched Until He Started To Take "Fruit-a-tives"

534 CHAMPLAIN ST., MONTREAL.
"For two years, I was a miserable sufferer from Rheumatism and Stomach Trouble. I had frequent Dizzy Spells, and when I took food, felt wretched and sleepy. I suffered from Rheumatism dreadfully, with pains in my back and joints, and my hands swollen. A friend advised "Fruit-a-tives" and from the outset, they did me good. After the first box, I felt I was getting well and I can truthfully say that "Fruit-a-tives" is the only medicine that helped me." LOUIS LABRIE.

Cross Society was entertained at the home of Mrs. Wm. McEwen on Wednesday, March 7. In the evening two sled loads of young folks arrived and a very pleasant evening was spent in music and games. A refreshing luncheon was served at a late hour after which the parties dispersed and made their homeward drives to the neighbouring villages.

On Thursday, March 1, Mr. and Mrs. William Hemphill of East Knowlesville celebrated their fiftieth anniversary. All their children were present, also many relatives and friends. Many valuable and useful presents were received. All join in wishing them many more years of happy wedded life.

The many friends of William Phillips will be glad to know that he is able to be about again after his long confinement to the house with a broken leg.

Are You Aware?

THAT

there will be a tremendous shortage of cars for the coming Season

BECAUSE

shipments which formerly came from the factory in six or seven days are now, on account of railroad congestion, taking between two and three months;

BECAUSE

the factory has the same difficulty in receiving raw material and are able to run only part time, thus falling very much behind in shipping schedules;

FURTHER

during all of February not a single car was shipped to me and only six during the first three weeks of March, and this in the face of an abnormal demand for cars, caused by the great prosperity our farmer classes are enjoying.

AND FURTHER

during the last three years prices of all raw materials have advanced many, many times, while the prices of Ford Cars have been reduced three times, a total of \$155.00. Practically every other company manufacturing cars has already announced advances and it must be only a question of time when the Ford Motor Company will advance their prices.

If you order at once you will not have to pay any advanced price and a limited number will be sure of their cars when the season opens.

May Their Tribe Increase

We are in receipt of the following letter: "Please find enclosed a cheque for \$15 which I think will clear me to the end of the year. I have taken the Colonist for over forty years and consider it one of the best papers in Canada and the best in the Province." The letter recalls an incident that happened some time ago. James Watts, then one of the proprietors of the Carleton Sentinel, of Woodstock had a taller one day, who asked: "How much do I owe you?" Mr. Watts asked his name and the caller replied that the amount might not be charged to him, and explained that twenty-five years previously he had gone West, leaving instructions that the paper should be sent to his father, who had been receiving it. Mr. Watts looked up the name and said that the amount due was \$37.50. The caller proceeded to place \$75 upon the table, saying: "I'll pay what's due, and to avoid mistakes I'll pay another twenty-five years in advance." We fancy this must be a unique experience in newspaperdom.—Victoria Colonist.

Fullerton—Page

A quiet but interesting wedding took place at the home of Mrs. E. L. Page, Centerville, on Thursday afternoon, Mar. 1, when her daughter, Laura Helen, became the wife of Frank Stanley Fullerton of Delia, Alberta. The bride, who had been receiving it, the strains of Mendelssohn's Wedding March played by Mrs. Edward Walton, sister of the bride. The ceremony was performed by Rev. W. J. Hurlow of Tracey Mills, in the presence of the immediate families.

On Friday evening about 35 of the married and single cousins of the bride gave her a surprise in the form of a silver and linen shower. The company left at a late hour wishing Mr. and Mrs. Fullerton many years of happiness together.

The bride was a successful teacher in the schools of New Brunswick.

The groom, who is a prosperous western farmer, has been spending the winter with his parents in St. John West.

On Mar. 5, the happy couple took the express for a trip to St. John and elsewhere. They will reside in Delia, Alberta.

10 CENT "CASCARETS" IF BILIOUS OR COSTIVE

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

Lieut. Hawkins, Killed in Action

Lt. Kenneth B. Hawkins, whose death in action was mentioned last week, was a former employee of the C.P.R. He commenced work for the railroad at Aroostook Junction on May 1, 1910, was appointed a fireman Aug. 31, 1911, and a locomotive engineer Sept. 1, 1914, just after war broke out. On Dec. 18, 1914, he went into military service at the Detention Camp, at Amherst. After making repeated applications for overseas service his persistence was finally rewarded, and he sailed for England with the 24th Battalion some time in September, 1916, and was shortly afterwards sent to France, where he gave his life for his country, leaving a wife and two small children to mourn his loss.

TRY IT! GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you care for heavy hair that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.

"SAFETY FIRST" PIONEER

N. S. Dunlop Introduced Novelities Into Canadian Railroad Life

Mr. N. S. Dunlop, tax and insurance commissioner of the C.P.R., who decided to take a prolonged rest upon the advice of his physician, had been in the service of the company for 29 years. He joined in 1888 at Toronto. The year afterward he was appointed tax and insurance commissioner and claims adjuster. In these capacities Mr. Dunlop did excellent work.

Mr. Dunlop may be said to be the father of Safety First on the Canadian railways; and into this work he threw himself with splendid enthusiasm—doing much to popularize the movement. As far as the outside public is concerned, he is best known as the creator of the floral department of the C.P.R. He began in 1889 to save flower seeds from his own garden; and conceived the idea of spreading the cult of flowers over the system. He was a flower, nature and work lover; and the work was congenial to him. He sent out seeds and bulbs to the agents and others along the system; and soon, from ocean to ocean, the plots in front of hundreds of stations were ablaze with flowers. He gave prizes, and labored in every way to make this feature notable. In this he succeeded abundantly.

Mr. Dunlop is a member of the New York State Stenographic Association, one of the oldest and largest associations of shorthand in the world; but his brochure, "What the Flowers Tell Us," and his work of love in adorning a big railway system with floral beauty, will be Mr. Dunlop's best recognition in connection with his long service with the C.P.R.

RUBBER FROM STEEL

Its Manufacture From Coke Oven Gases a Possibility

At a recent meeting of the Iron and Steel Institute in London, the president read a paper on by-products in steel manufacture. He discussed the utilization of blast furnace gases for operating gas engines and for illumination and heating, and the later developments in making nitric acid from these gases, and also the manufacture of bricks and cement from slags. A new idea was presented looking toward the synthetic production of india rubber from coke oven gases. The president's words were: "It was being sought to obtain from it the hydrocarbons, the derivatives of which were found in india rubber, and experiments that had been made permitted the foreshadowing of the manufacture of artificial rubber."

System Was Full of Poison; Pains in Side and Back

Had Constipation for Many Years, but Was Entirely Cured by Dr. Chase's Kidney-Liver Pills.

The most common ailment and the greatest cause of disease and suffering to-day is constipation. Artificial food and sedentary indoor life combine to induce torpid, sluggish action of the liver, kidneys and bowels. As a result poisonous waste matter remains in the system and gives rise to pains and aches and affords a starting-point for serious disease.

Infectious and contagious diseases are little known to persons whose liver, kidneys and bowels are kept in healthful activity, for there are suitable conditions for disease germs to thrive in. Even common colds usually take their start when they find the system in a constipated, poisoned condition.

Mrs. Ed. Miller, West Flamboro, Ont., writes: "I can truthfully say that Dr. Chase's Kidney-Liver Pills have cured me of constipation. I suffered with constipation almost

ever since I can remember, and for four years had pains at the left side of the back. If I walked across the kitchen floor I would have to sit and rest. That, I think, was terrible for a woman of twenty years. The condition of my blood was shown by pimples breaking out on my face. I suffered so much from pains and stiffness in the back I am sure my system was full of poison. Dr. Chase's Kidney-Liver Pills have entirely cured me, and I feel better than I have felt for many years."

As a cure for constipation Dr. Chase's Kidney-Liver Pills stand alone, for by their action on the liver they awaken the activity of this organ, cause a good flow of bile, and hence remove the cause of indigestion, for bile is nature's cathartic. One pill a dose, 25 cents a box, all dealers, or Edmanston, Bates & Co., Limited, Toronto.

LIMBLESS SOLDIERS

Clever Feats Done With New Scientific Devices

British soldiers who have lost an arm in the war are doing some amazing feats. Indeed, with the artificial limbs now offered, it is possible for a persevering man to almost equal nature. Queen Mary Auxiliary Hospital at Roehampton is exclusively for disabled soldiers and sailors. The King and Queen visited this institution founded by Mrs. Gwynne Holdford, and were deeply impressed. At one of the branches the King saw a Tommy working and found that though he had lost an arm and leg at Armentieres, he is now able to do useful work. With a special clip taking the place of a dummy right hand he used a variety of tools under the King's inspection, and afterward took a match from a box and lighted it with dexterity and ease.

"Can you shake hands?" asked the Queen of an armless private of the First West Ontario Regiment. "Try me, your majesty," promptly replied the Canadian. The Queen shook hands with him, laughing merrily at the convincing grip of the artificial hand.

Professor Laveran showed the French Academy of Science a remarkable substitute for a missing arm invented by Professor Auzar. The arm hand and fingers are of aluminum and very light. With a glove on it is almost impossible to perceive the limb is artificial. Certain movements of the thorax acting on fine steel wires give to the hand and arm almost all the movements of the natural limb.

FIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

A ROYAL SOLDIER

Among the most popular of the Royal soldiers of Great Britain is His Serene Highness Prince Alexander, Augustus Frederick William Alfred George of Teck, who was born in Kensington Palace, the third son of the late Duke of Teck and the late Princess Mary Adelaide. Prince Alexander is the brother of Queen Mary, who has always been devoted to him. He has spent more than twenty years in the army, and saw his first active service in the Matabeleland campaign in 1896. Three years later he went to South Africa to engage in the Boer war. He was present at the relief of Kimberley and took part in Lord Roberts' advance on Pretoria. In both campaigns he won mention in the dispatches, and earned the Distinguished Service Order and promotion to the rank of captain in the Seventh Hussars. Four years after the war he was transferred to the Royal Horse Guards and promoted to the rank of major. In his South African experience he had the ill fortune to arouse the animosity of some war office officials because of his rather free criticism of the food supplied to the soldiers. On one occasion it was said, the Prince and the men under him were without food for two days, and were then supplied with meat which made him violently ill. His greatest popularity is among the rank and file of soldiers and the hospital patients, and the boy scouts have exalted him to the position of a hero.

It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and druggists here are kept busy dispensing freezone, the ether discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers. Ask at any pharmacy for a quarter ounce of freezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn, and instantly the soreness is relieved, and soon the corn is so softened that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

LIGHT IN THE BARN

Dingy Stables Breed Disease in Many Canadian Farms

One of the commonest mistakes made in planning Canadian farm buildings is the small number of windows in the stables. In the placing of the buildings, in their relation to one another or to other surroundings, care may have been taken, but in so many instances there has been an utter disregard of the proper lighting of the stables. Many fine barns and stables, well painted and of excellent outward appearance, are miserably lighted and are dark and gloomy within.

Prevention is better than cure, and light is the cheapest preventive measure known against disease. Dark and dingy stables are much more favorable for the development and spread of disease than a stable flooded with light. In working it is both difficult and unpleasant to grope one's way around in a stable which is dark when the sun is shining. The work can be done better, in less time and more cheerfully in a well-lighted stable than in one where at the brightest time of the day a dismal twilight reigns. For the sake of comfort and health, which means, incidentally, greater profits, let us have more light in our farm buildings.

Sheep at the Pacific

William Thompson, owner of the SX ranch in the Aspin Grove, Nicola Valley, British Columbia, says that the sheep industry throughout the valley is proving a big success both financially and numerically. Mr. Thompson is an old sheep owner in Montana and Idaho, and speaking of these states in comparison with British Columbia, says that the latter has many advantages in its favor. "One I might mention is that we are not subject to the equinoctial storms that raise such havoc and cause large losses to Idaho and Montana sheep-breeders."

"MORE BREAD AND BETTER BREAD"

A CHRISTIAN PROTEST

Mr. Editor: Can you find room for some quotations from Scripture with some brief comment?

1. From I Kings 18: 26-29:

And they (the priests of Baal) called on the name of Baal from morning until noon, saying, O Baal, hear us! But there was no voice, nor any that answered. And they leaped upon the altar which was made.

They made a great noise and leaped up and down before the altar for hours, but without result.

2. The word of the Son of God himself recorded in John 4: 24:

God is a spirit and they that worship him must worship him in spirit and in truth. (Not with gymnastics.)

3. Paul's exhortation given in Heb. 12: 2:

"Let us have grace, whereby we may serve God acceptably with reverence and with godly fear. For our God is a consuming fire."

Crying with a loud voice and leaping about is not reverential worship acceptable to a Spiritual God.

4. Solomon's instruction given in Eccl. 5: 1-2:

Keep thy foot when thou goest to the house of God and be more ready to hear than to give the sacrifice of fools.

God is in heaven and thou upon the earth, therefore let thy words be few.

5. When Moses was at Horeb and saw the burning bush, Ex. 3: 5, God spake to him and said:

Draw not nigh hither, put off thy shoes from off thy feet, for the place whereon thou standest is Holy ground.

And in the same direction was given to Joshua—see Joshua 5: 15.

6. Our Lord also taught the necessity of quiet, spiritual worship by his precept recorded in Matt. 6: 6:

Thou when thou prayest enter into thy closet, and when thou hast shut thy door, pray to thy Father which is in Secret, and thy Father who seeth in Secret shall reward thee openly.

Let us here quote James Montgomery's hymn:

Prayer is the Soul's sincere desire
Uttered or unexpressed;
The motion of a hidden fire
That trembles in the breast.
Prayer is the burden of a sigh,
The falling of a tear,
The upward glancing of an eye
When none but God is near.

We however do not mean to intimate that the Lord taught that public prayer should never be offered, nor that in our opinion it is always wrong. We quite realize that it has a place in leading devotions of the public assembly. But it should be spiritual, both in

its origin and in its tone, and not a vehicle to display the ability or the vagaries of the utterer.

Our object in this communication is to protest against the mechanical and gymnastic performances of some (so called by themselves) Evangelists and against the imitation in a Christian church of the antics of the old priests of Baal, by jumping up and down and getting astride the reading desk and other vagaries.

In conclusion we again recall our Lord's Words, that we must "worship the Father in spirit and in truth" and Paul's words, that we must "Serve God with reverence and godly fear, for our God is a consuming fire" and make our last quotation, Matt. 7: 22-23:

Many will say to me in that day Lord, Lord, have we not prophesied in thy name? and in thy name have cast out devils? and in thy name done many wonderful works? And then will I confess with them, I never knew you, depart from me ye that work iniquity.

We remain,

Piles Entirely Cured

William Woodell, 107 St. John St., Carlton, St. John, N. B., writes:—"I have used Dr. Chase's Ointment for itching, bleeding piles, and as a result have been entirely cured. For years I was a great sufferer from this distressing ailment and can say that three boxes of Dr. Chase's Ointment cured me. You may use this letter for the benefit of others."

Need of a Sound Forestry Policy

The Crown Lands of the Province of New Brunswick consist of 74 million acres of which 6 1/2 million are under license.

The revenues from these Crown Lands pay most of the costs of public administration.

The value of the lumber industry is second only to agriculture. It is worth about fifteen million dollars a year.

In common with other parts of Eastern Canada the quality of New Brunswick forests has been steadily deteriorating. In 1825, 400,000 tons of squared white pine was the export crop of a single season. Today, white pine is almost an extinct commercial species.

A few years ago hemlock was valued only for its bark. Today it is very scarce at \$12 to \$14 per thousand feet for the round log.

The Government's minimum measurements for the spruce log have been lowered, for the reason that the spruce stands were no longer equal to higher specification.

The devastation of the forest

areas by fire has reduced the stock of wood supplies much faster than have lumbering operations.

Thousands of acres of timber land, where the soil could not possibly produce field crops, have been taken up under pretense of settlement. The clearing fires of the temporary farmer have spread into surrounding timber, taking a vast toll of badly-needed forest material. What the so-called farmer gained from clearing such land was but a fraction of what the province lost through his fires. Moreover, the toleration of settlement of lands unfit for agriculture is preposterous from every point of view. The land is deprived of its only crop; the surrounding timber is frequently ruined; the human crop is demoralized by its shiftless purpose, and inevitable poverty.

By inaugurating the Forest Survey and Land Classification, now in progress and soon to be completed, New Brunswick may put an effectual stop to the waste of land, timber and human energy. By making a careful inventory of the location of timber lands, the stock upon them, the good agricultural soil in and near the timber areas, the Province will possess a business-like foundation from which settlement can be intelligently directed. The lumbering industry can be expanded, and new industries introduced to utilize tree species now held valueless. The Survey is the first step in making every acre of land contribute maximum revenues to the people of the province. It has the same value to Crown Lands administration as a set of blue prints in the erection of a mammoth bridge.

WISHING AND GETTING.

An Old Man's Realized Day Dream and the Moral It Teaches.

They had started in the most primitive way, the man and his wife, back in the little log house, but they were dreaming of the day when they would own a farm of their own and not have to work so hard. After a time their hard toil was rewarded, and they owned a farm. Then it seemed desirable to add to this tract, and they worked a little harder. A new house seemed a necessary accompaniment to the large farm, so the work could not stop.

A son came to the age when he must be educated and have his chance in life, and they toiled on. All the time the old man dreamed of the days ahead when he could stop work and take life easy. Somehow the days did not come, or he did not recognize them when they came, for he kept on working until he had grown old and worn. Then his health failed, and he had to stop work.

The son for whom they had given precious years out of their lives now showed his gratitude by his gentle, un-failing love and care. It seemed to others that the goal had been reached—that the old man could now enjoy life, surrounded as he was by every comfort and attention. But he was quiet and sad, sitting with head bowed on his toil worn hands.

A neighbor, stopping in for a little visit, asked, "How are you getting along, grandpa?" Then the secret of all his sadness burst forth as he answered earnestly, "Oh, if I could only get out and work!"

What queer things our dreams are after all!

PRETTY ROUGH SPORT.

The Game of "the Bounding Brothers of the Bosphorus."

Many extraordinary forms of amusement have been devised by army officers from the earliest times down to the present day, but none perhaps have more startling characteristics than the following new and original game, which Sir Robert Baden-Powell describes in "Memories of India."

It was introduced into the mess by a brother of our colonel, who came to stay with him. We believed him to be a quiet, harmless planter from Behar, and so he seemed throughout the evening, both during and after dinner, when he remained watching us playing the fool in various ways for our own amusement. But evidently our ways did not strike him as original, and he therefore invited us to play the great game of the bounding brothers of the Bosphorus, and when he had once shown us we joined most heartily in the sport.

The game had few rules, but a certain amount of etiquette. The apparatus consisted of all the furniture, which was piled in a heap near the center of the room, and a writing table, which was placed a couple of yards from it. You were, expected then to clap your hands three times—that was the etiquette of the game—then run at the table and turn heels over head on it into the pile of furniture, shouting as you did so, "I am a bounding brother of the Bosphorus!" That was all. It was quite simple, but how it hurt when you landed on the upturned legs of a chair or the side of a table!

Ada Rohan's Bandsman.

Miss Ada Rohan used to say that the finest appreciation of her acting she ever observed came from a bandsman in the orchestra of a Birmingham theater. When she played the angry Katharine she had one piece of superb fury—a swift march to the back of the stage, a right about turn and then a straight march down the stage, pulling up short and sharp at the footlights. One night she saw a bandsman sitting directly in her line of advance shrink back in his chair at the moment of the full stop at the footlights.

"Sure, he thought, I wasn't going to stop on the stage," Miss Rohan said. "I wonder if he is married to a Katharine."

The next day she sent him a box of cigars.—Manchester Guardian.

Home Ties.

A sedate banker of Hamilton, Canada, was sitting in his office one morning when his ten-year-old hopeful drifted in bearing with him an expression of unutterable gloom.

"Anything gone wrong, boy?" interrogated the financier. "Why, at your age you ought to be cheerful all the time."

"I know it, Frank; I know it," responded the youngster. "I'm doin' the best I can; but, honest I had a terrible time up at the house with your wife this morning."

The Parental Bulwark.

"I'm going to be a burglar when I grow up."

"Why, Johnny, that's very wicked, and, besides, burglars are sent to prison."

"Not me. My father's a lawyer."

Diplomat Defined.

"What is a diplomat?"
"A diplomat is a man who can steal your hat and coat and explain it so nicely that you give him your watch and chain."—London Telegraph.

Influenza

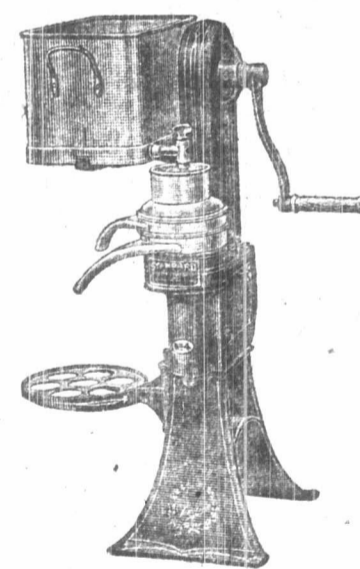

Nothing I know of will give such prompt relief from this disease as Chamberlain's Cough Remedy. The pain in the chest disappears, the fever goes down, and the whole body feels better. After effects of the disease can also be avoided by taking

Chamberlain's Cough Remedy

I have never known a single case of influenza to result in pneumonia when Chamberlain's was freely given, and the cough following influenza speedily yields to this splendid remedy.

Back Ache

Gin Pills banish backache, no matter how severe. The effect, understand, is not to numb the pain, but Gin Pills go right to the source of the trouble, the kidneys, restoring the natural functions of these organs, and with the blood purified, and inflammation allayed, the pains disappear permanently.

Gin Pills FOR THE KIDNEYS

Other indications that the kidneys are not purifying the blood stream properly are frequent headaches, deposits in the urine, touches of rheumatism—to name but a few symptoms—and every case calls for Gin Pills.
