

EVENTS OF THE DAY

NOT YET!

ELECTRIFICATION MEANS LOSS OF COAL COMPANY TRADE

English Syndicate, Which Sent Engineer to London, Turned Down Proposal for That Reason—Mr. Welch on Radials.

Mr. A. E. Welch, who promoted the traction line, now called the London and Lake Erie Transportation Company to Port Stanley, and who has been active in radial interests, in a statement to The Advertiser today declares that an English syndicate which sent an engineer to London, turned down the proposal of electrifying the London and Port Stanley Railroad. The reason was that the Lake Erie Coal Company would take away its coal trade, which meant the loss of the bulk of the carrying trade of the L. and P. S. R.

Mr. Welch said: "Hydro-electric power for this Province is one of the most important issues of the day. It is a big question—one worthy of big minds, but all enthusiasm should be tempered with judgment."

"Mr. Beck has no more loyal following on hydro matters than I am, and I shall continue to most cordially support any proposal to cheapen hydro in this city."

"Cheapest to Haul by Steam. It would not be wise to spend the amount proposed on the electrification of the Port Stanley line for two reasons."

"In the first place, all authorities agree that such traffic as coal in quantities can be much better handled by steam power than by electricity."

"Secondly, from the result of investigations made last spring for parties in England, who had their eyes here looking into the electrifying of the line, we learned that such a change would mean the loss of the coal trade, which constitutes the bulk of the carrying trade of the L. and P. S. R."

"Such being the case, the line would commence business with its present passenger traffic only to start on, which it would have to supplement by what it would draw from the Traction line."

"I have absolutely no financial interest in that railway, but as a citizen and the promoter of it, I naturally have a large sentimental reason for desiring its continued success."

City Would Suffer. "It has taken years of hard, laborious toil and energy to bring it to its present condition, and a diminution of its earning power would seriously affect it, and I feel sure the business of the city would suffer as a result of the crippling of its premier interurban."

"From a hydro standpoint I say most emphatically—electrify, but electrify on a steam basis."

ANNEXATION PETITIONS BEFORE RAILWAY BOARD

Application of Chelsea Green to Join the City Will Not Be Dealt With Today—Some Opposition to Scheme Taken in the Suburbs.

The Ontario railway and municipal board are holding at the city hall this afternoon to consider the petitions for annexation presented by the ratepayers of Pottersburg, Ealing and Knollwood Park. The application of Chelsea Green will not be considered, owing to the fact that it was not received in time to be dealt with. It will come up later.

The commissioners arrived in the city this afternoon, stopping at the Tecumseh House. At 2:30 o'clock the session commenced.

City Solicitor Meredith, K. C., is representing the city, while Mr. W. R. Meredith is looking after the interests of London Township. Mayor Graham, Ald. Spittal (chairman of the annexation committee), City Clerk Baker, and other members of the council were present to give testimony. Mr. Baker will testify that the petitions contain

a majority of the ratepayers of the district to be annexed Mr. George Angus and others, who circulated the petitions for annexation, will also give evidence regarding the circulation of the documents, etc.

To Fight Annexation. The anti-annexationists living in the districts mentioned are also represented.

"We are going to fight annexation tooth and nail," said Mr. J. K. Little, one of the residents of Pottersburg. "I have not met many in London who favored annexation, and I do not know that there are many in Pottersburg who do not approve of it."

Mayor Graham and Ald. Spittal are confident that annexation will carry. However, a deputation of citizens of Chelsea Green will present a numerous signed petition against the move.

PORCUPINE MINERS WALKED OUT; OVER 1,000 MEN AFFECTED

Strike Is General Throughout Northern Gold Camp.

[Canadian Press.] Cobalt, Nov. 15.—Porcupine miners, after voting all day yesterday, decided by a solid vote for a general strike throughout the Porcupine camp, and walked out this morning. The trouble arose over the wages paid the men, and

before Monday it is likely that the strike will reach every mine in the camp. The origin of the strike dates back several weeks, when the Pearl Lake Mines, including the McNay, McIntyre, Pearl Lake, Jupiter, Plenaum and Vipond, gave notice that a general cut would be made in all wages of 25 cents a day. This went to a conciliation board, but the board could not agree, and the vote was the result.

The strike will affect over a thousand men. The last strike of importance in the district was in Cobalt in July, 1907.

STANLEY STREET IS DANGEROUS WORST ROADWAY IN CITY

Ruts Run From Six to Fifteen Inches in Depth and Six Inches Wide.

Stanley street, from Perry street to the Wharncliffe road, is, beyond doubt, the worst street in London.

The street railway tracks are from six to eight inches above the level of the road.

over an hundred feet long and from six inches to fourteen or fifteen inches deep, and which form a trough about six inches wide.

Drivers of vehicles unlucky enough to get into the block, sit far out on one side of the street, which is not only a nuisance but a real danger. Stanley street forms one of the main arteries leading into the city from the townships of Westminster and Delaware. It would be a disgrace to a backwoods village a year

ago. Who is to blame for the awful condition of the street, which is not only a nuisance but a real danger? Stanley street forms one of the main arteries leading into the city from the townships of Westminster and Delaware. It would be a disgrace to a backwoods village a year

A LIVELY MOVEMENT IN REAL ESTATE IN E. LONDON

Carling's Farm, Higgins' Farm and Other Properties Change Hands at About \$1,000 Per Acre—Demand Is Phenomenal in Districts To Be Annexed by the City of London.

Large real estate deals have been taking place during the past few days on Dundas street, east of the city limits, in the district proposed to be annexed by the corporation. It has largely been confined to the factory land lying between London and Pottersburg. Further sales are mooted, and still larger deals will probably be reported in a short time.

The Higgins farm, along the inter-switching line, approximately 32 acres, has been sold for \$32,000.

The Cobbledeek farm, close at hand, containing about 20 acres, has also disposed of at \$21,000.

The Carling farm, about 40 acres, north of Dundas street, has been sold to an eastern syndicate. The deal has

been closed, and at the present time the purchasers are merely investigating the deeds.

Smaller parcels have been disposed of for prices averaging \$1,200 an acre. Aggregate \$100,000.

A legal gentleman informed The Advertiser that the sales during the past week would aggregate more than \$100,000 in that section.

The most of the property has been bought on speculation. It is stated, by real estate firms. Eastern capital, Toronto brokers being largely interested, is behind the deals.

Some time ago a big Toronto brokerage firm took an option on 20 acres of the Cobbledeek farm for the purpose of placing a large industry there. The firm were underwriting the bonds of the company, and hoped to establish the manufacturing plant there. The buildings,

Continued on Page Eleven.

DOES MR. BECK REALIZE?

That Ald. Richter was the only member of the city council who failed to get a copy of the report on electrification?

That in order to reach the receipts he has estimated, an electrified road must make in the first year as much as the electric line and the steam line to Port Stanley both make at the present time?

That on some days forty cars are required to handle the excursion business on the London and Port Stanley Railway? He would provide six passenger cars and six trailers.

That the Lake Erie Coal Company has a \$100,000 coal screener at Rondeau?

That the company can bring mine-run coal to this screener in shiploads, doing away with car loading?

That it is cheaper for the coal company to bring its coal to Rondeau in shiploads than to bring it in carloads to Port Stanley?

That not one car of coal has come to London from Port Stanley in the last three months?

That only a small proportion of the Lake Erie Coal Company's output comes to London?

That the other railways decide how the amount of coal that goes to other places shall be shipped?

That the only benefit to the coal company to be secured through the Port Stanley road is by being allowed to use the road to handle all its business, and not having to pay profits to other lines?

That the Pere Marquette could destroy many connections with London if it chose to do so?

That the city has no assurance that the Michigan Central will continue to operate its trains over the road to St. Thomas?

That at present there is no charge for inter-switching to the shippers of London, excepting when the payment of the inter-switching charge does not have earnings of \$8.00 to the car?

That it is a rare occurrence when a car of freight does not yield enough to pay inter-switching charges and \$8.00?

That London shippers get a rate on freight that extends between and includes all points between Peterboro and Windsor?

That in order to construct his "loop" line it would cost at least \$25,000 to cross the Grand Trunk, if the railway commission would permit it to be crossed?

That he does not know what the Lake Erie Coal Company or any other company intends to do in case of electrification?

That he has not explained why this report (dated July, 1912) was withheld from the people over four months?

That he has not explained why his expert puts the moneys expended by the city of London on the road at \$765,311, while City Clerk Baker's year book puts it at \$2,010,186?

That including what the city lost while operating the road, the amount is nearer \$4,000,000?

GREEK ARMY ON WAY TO MONASTIR; CITY IS DOOMED

Servian Corps Already Reported To Be Encircling the Turk Fortress.

BULGARS CLOSER TO CONSTANTINOPLE

Detachment of Invaders Said To Be Within Few Miles of the Capital.

[Canadian Press.] Athens, Greece, Nov. 15.—The Greek army, commanded by Crown Prince Constantine, left Saloniki today, and is proceeding to Monastir. The Servian troops have succeeded in practically surrounding that city, where it is believed a large Turkish army is concentrated.

The British steamer Annetta, which was reported to have been captured while conveying war stores from Philadelphia to Albania, was it is now learned, on the way here with a cargo of ammunition for the Greek war department. It was merely under the convoy of Greek warships in the vicinity of the coast.

Nothing Official. London, Nov. 15.—For the moment the action of Turkey in applying for an armistice, has superseded the efforts of the powers to mediate. No official news has yet leaked out as to the course things are taking. If the armistice is made in Berlin, it is that Osman Nizam Pasha, the Ottoman ambassador there, has been appointed first Turkish delegate to a Bulgarian-Turkish peace conference it would appear that the negotiations are making good progress.

Montenegro Roused. The differences between Austria-Hungary and Servia are evidently in a fair way toward settlement, but Montenegro, which jumped into the war ahead of its allies, seems loath to relinquish any of the spoils gained in the fighting.

The peremptory rejection by King Nicholas of Montenegro, of Austrian and Italian intervention, is causing some concern to the European powers who are anxious for an immediate cessation of hostilities, and today comes a further report that King Nicholas has informed the Bulgarian Government that he will not agree to an armistice until the Turkish troops evacuate the fortress of Scutari.

The ministers of the European powers communicated to the Greek Government at Athens today the port's request for mediation. The Greek foreign minister expressed his thanks and gave the same reply as his Bulgarian colleague had done, namely, that a final response would be forthcoming after an agreement had been reached by the Balkan allies.

Closer to Capital. Sofia, Nov. 15.—A detachment of Bulgarian troops, by making a wide detour along the coast of the Black Sea, has got within three miles of Constantinople.

UNIONISTS CONDEMN PAYMENT OF M. P.'S

[Canadian Press.] London, Nov. 15.—The payment of members of parliament was heartily condemned at this morning's session of the conference of Unionist associations now meeting in London. A resolution was carried inviting the "next House of Commons" to restore the principle of gratuitous parliamentary service.

THE WEATHER

TOMORROW—COLDER.

Forecast: Toronto, Nov. 15.—S. A. M. Moderate to fresh northerly winds; fair, and a little colder today and on Saturday.

Temperatures. The following were the highest and lowest temperatures during the 24 hours previous to 8 a.m. today:

Stations	High	Low	Weather
LONDON	43.5	32	Clear
Victoria	46	42	Cloudy
Calgary	56	14	Clear
Winnipeg	32	28	Fair
Port Arthur	34	14	Clear
Barry Sound	16	22	Cloudy
Toronto	46	32	Cloudy
Ottawa	32	22	Snow
Montreal	34	28	Snow
Quebec	26	22	Snow

Weather Notes. A disturbance is situated over the Bay of Fundy, while pressure is high over the greater portion of the continent.

Snow is falling heavily in Quebec, and snow and rain in the Maritime Provinces, attended by strong winds and gales.

TWO BADLY INJURED BY EXPLOSION OF G.T. ENGINE

Bursting of Boiler on Locomotive of No. 11 at Junction Cut, Near Hamilton, Causes Serious Injuries to Engineer Cook, of the Falls, and Fireman Salt, Who May Die.

[Canadian Press.] Hamilton, Ont., Nov. 15.—Two men were badly injured, one probably fatally, this morning, when the boiler of the engine on Grand Trunk train No. 11, an accommodation train from Niagara Falls to Windsor, exploded at the Junction Cut. That several were not killed is a wonder.

The Injured. George E. Cook, engineer, Niagara Falls, 45 years old, badly scalded, lacerated, and suffering from shock.

Samuel Salt, Niagara Falls, 38 years old, right leg blown off, skull fractured, terribly scalded, and badly injured.

The victims were rushed to the city hospital, where doctors said Salt could not possibly recover.

Hurled Through Window. The train left here on time at 8:10 o'clock and was just into the cut at the "Y" when the boiler suddenly exploded. This jammed the emergency brakes on at once, and the concussion after the boiler went up caused the train to rebound, throwing people out of their seats and tossing members of the train crew from one end of the coaches to the other.

Salt was hurled through the cab window over the back of the tender, and was found by Conductor George Stoddard, of Windsor, hanging over the crossbar. Stoddard himself was pitched half the car-length.

H. Whittaker, brakeman, and M. E. Liddy, express messenger, of Whingham, were both catapulted down the car aisle when the shock came. Several of the clerks in the mail car were also shaken up.

Engine Demolished. It is supposed that the water ran low in the boiler and caused the explosion, although this will never be definitely known, as the engine was demolished.

Another engine went out and hauled the train back to Hamilton. An auxiliary is clearing the line.

Train No. 11, due in London at 10:58, the engine of which exploded at Junction Cut this morning, arrived in London at 2 o'clock this afternoon. All of the passengers who came to London boarded the train after leaving the scene of the accident and consequently none of them know anything of the affair. There was but one passenger on the train at the time the explosion occurred, this being a lady who got off at Cobles station.

The members of the crew expressed their keenest regret, and spoke very highly of both the engineer and fireman, who were perhaps fatally injured. The fireman, who was an Englishman, had been in the service of the company for two years, and had purchased a home at Niagara Falls, Ia. 2, dine to marry. His fiancée lived at the Falls.

The train was brought on to London by engine 1912. The baggage car was not damaged, and all of the coaches escaped in the same manner. It is said that the only effect of the explosion apparent in the train was the sudden halt, and a pronounced jolt. The train had just started from a halt and was travelling not more than five miles an hour when the explosion took place.

Boiler Hurled 20 Yards. The boiler was hurled twenty yards ahead of the train, leaving the tracks and tender on the roadbed, just before the cars, which were halted by the application of the emergency brakes when the crash came.

The fireman was hurled over the tender, and was found hanging over the coupling between the engine and the baggage car.

SHIPPER COMPLAIN OF THEFTS WHILE GOODS ARE IN TRANSIT

Railway Men Say Conditions Are No Worse This Year Than Usual.

A number of the wholesale merchants of the city are complaining about the number of petty thefts that are being made while goods are being shipped by the different railway companies to and from this city. One dealer stated this morning that the losses incurred each year amounted to thousands of dollars, and are steadily increasing each year. This dealer was particularly emphatic in stating that something should be done immediately to remedy this source of loss.

On the other hand, the freight agents of the different railways entering London when asked if the thefts this year were more numerous than in other years, stated that they were not, and, in fact, judging from the complaints received, they seemed to be decreasing. The agents admitted that every year there is a considerable amount of loss incurred during shipment that the officials of the different companies were unable to locate, but that the railways were always prompt in paying any claims presented by the merchants. Of late there have been some complaints, but generally it was found that the loss occurred in some parts of the road. "Of late years," said one of the freight agents, "the companies have been more particular in regard to these thefts, and the thieves will be prosecuted to the extent of the law when arrested."

DID NOT SAY THAT HYDRO HANDED SURPLUS TO CITY

Free Press Garbles Report of Mr. Pocock's Speech at Radial Meeting.

In its report of the radial meeting at Toronto yesterday, the Free Press reports Mr. Philip Pocock, chairman of the London water commission, as saying:

"We are possibly one of the cities farthest from Niagara Falls. We have received no favors at the hand of the hydro-electric commission, and hydro has been of very great advantage to the city of London."

We have not only saved our citizens thousands directly to the cost of power, BUT HAVE HANDED TO THE CITY QUITE A SNUG LITTLE SUM AS NET RESULT OF THE OPERATION OF THE SCHEME."

As the city hydro-electric department has never as yet handed over any money to the city, but on the contrary is accused by Ald. Richter and others of over-charging the city council for street lighting, so that the hydro scheme may be made to show a surplus if London, the statement credited

to Mr. Pocock created some amusement.

Mr. Pocock, who arrived home from Toronto, was seen by The Advertiser, and he said that he had been misrepresented.

"What I said was that we had saved the citizens thousands of dollars in light and power bills in London," Mr. Pocock declared, "and that in addition we had a snug sum to the good. It is a well-known fact that any surplus from Niagara power cannot be handed over to the city."

MAJOR BEATTIE WILL NOT BE INTERVIEWED

Refuses to Express Opinion on Proposed Electrification of the Port Stanley Line.

Major Thomas Beattie, M. P., was asked by The Advertiser for his opinion on the proposed electrification of the London and Port Stanley Railway. "I will not make any statement for publication," said Major Beattie,

ASSESSMENT EXPERTS WILL BE CALLED IN

Govt. Invites Commissioners of London and Other Cities to Get Evidence.

Toronto, Nov. 15.—In order to secure information of a practical nature from men who have come into close touch with assessment matters the Ontario Government has invited the assessment commissioners of Toronto, Hamilton, London and Ottawa to appear before the select committee on assessments which commences its work on Tuesday morning next.

The clerk of the committee has received communications from a number of organizations desiring to have their views presented, among them the Trades and Labor Council, the Dominion Grange, the Tax Reform League, and the Single Tax Association.

COMMITTEE APPROVES STRATHROY'S OFFER

Recommended That \$15,000 Be Voted For Hospital on Manson Property.

Strathroy, Nov. 15.—The committee appointed by the Middlesex County Council to consider the granting of a loan to the hospital board, visited the town today. Accompanied by Mayor Owens and councillors, the committee inspected the Manson property given to the town for an hospital site by Councillor T. N. Dunn. At a meeting held after the inspection, the following resolutions were adopted.

Moved by Reeve McGugan, seconded by Reeve Toohill:

"That this committee recommend the grant by the county of Middlesex to Strathroy Hospital Board of \$15,000 on the same conditions as the grant now existing to the Victoria Hospital."

"Second—That two trustees be appointed by the county council to act in conjunction with, and on the Strathroy Hospital Trustee Board, these trustees to be appointed for two years, one retiring each year."

"Third—That the Strathroy Hospital Board agree to convey all county patients to the hospital with a free ambulance. All arrivals at the hospital, at a banquet held in the evening, Mr. D. C. Ross, M. P., and Mr. W. S. Calvert spoke of the difficulty of transportation, and said that no doubt roads would solve this difficulty. Reeve Currie, of Glencoe, chairman of the hospital committee of the county council, stated that the committee were in hearty sympathy with the Strathroy hospital, and that the county council were not asked too much. Deputy Reeve Beech, of Carleton Place, thought a hospital in the western section of Middlesex was a necessity."

Reeve Jackson, of London, said that although opposed to the project at first, he was in hearty sympathy with it now.

Warden Buttery was of the opinion that a hospital would fill a long-felt want.

Deputy Reeve Noyes, of London, wanted those present to know that he would not be a stumbling block to the grant.

The committee was composed of R. Currie, Glencoe; R. Jackson, London; Township; C. Hawkshaw, Lucan; J. McGugan, Lobo; W. Toohill, Metcalfe; T. C. McDonald, E. Williams and J. Morgan, Alisa Craig.

TO DIVIDE FORTUNE OF HALF-MILLION

Canadian Woman Living at Syracuse in Poverty Learns of Bequest.

Syracuse, N. Y., Nov. 15.—Mrs. Richard Simmons, 56 years of age, who keeps a boarding-house at 730 East Water street here, takes in washing and acts as caretaker in a factory next door, and whose aged second husband is a day laborer, expects shortly to come into one-third of an estate of \$500,000 left by her sister, Mrs. Clara Hunt, a former pre-press in a gas works in Ontario, who died some time ago, leaving her fortune to Mrs. Simmons and two other sisters.

The other beneficiaries, who are said to be well-to-do, are Sophia, aged 63, wife of Peter Williams, a Canadian, Ontario, lawyer, and Elizabeth, aged 65, wife of James Irvine, a farmer of Antwerp, New York State.

It is nearly two years since Mrs. Hunt died in San Francisco, and the executors of the estate have searched persistently since then for Mrs. Simmons, only locating her here in Syracuse a few days ago. Mrs. Hunt's will provided that the estate should go to her husband and son, but as they predeceased her, a clause naming the three sisters as contingent beneficiaries became operative.

Mrs. Simmons was asked to sell her claim in the estate, which is tied up in Canadian real estate to a great extent, and may take some time to settle, but this she declined to do. Her two sisters have been here to see her in this connection.

The four sisters were daughters of Philip Frolich, of Antwerp, N. Y., who made his money in the iron industry at that town. The late Mrs. Hunt, her husband and son, were all in the teaching profession, and were at various times connected with several educational institutions in the United States and Canada. Mrs. Simmons' present poor circumstances are explained by the statement that she married her first husband, Peter Brown, a liveryman, against the wishes of her parents. Brown was killed at a railway crossing here four years ago. A son, 19 years of age, who works in a shoe factory, is a survivor of this marriage.

Biliousness Is Cured by HOOD'S PILLS

McNAMARAS REGRETTED DIDN'T KILL OTIS

Knew Times Building Was Filled With Workers When He Dynamited It.

Indianapolis, Ind., Nov. 14.—For the first time since the twenty-one persons were killed in the blowing up of the Los Angeles Times building, on Oct. 1, 1910, James B. McNamara's detailed confession of the explosion, with his motives for doing it and his comments on the fact that so many people were killed, was related on the witness stand in the "dynamite conspiracy" trial today.

Orie E. McNamara testified the confession was given to him while he was hiding with McNamara in the woods five miles from Conover, Wis., both of them having gone to the Wisconsin woods on the pretext of hunting.

Orie A. Tveitmo and Eugene L. Cheney, San Francisco labor leaders, McNamara as having made arrangements for the Los Angeles explosion and as having furnished the two men F. A. Schmitt and David Caplan—to assist in buying the high-power nitro-gelatin, because Schmitt and Caplan had been regularly employed on the coast by the Building Trades Council of California. Tveitmo and Cheney are among the forty-five defendants now on trial.

When he asked McNamara why he twisted off a gas-jet in the basement of the Times building before the explosion, McNamara testified that this conversation ensued:

McNamara—Why did you break off the gas-jet?

McNamara—Because when the explosion occurred I wanted the whole building to go to —

McNamara—And you knew there were many people in there, too?

McNamara—What's the difference? I was to make a good cleaning out and I did it. But I am sorry so many were killed. I hoped to get Gen. Otis.

GOLD CAMP IN PERIL OF DISASTROUS STRIKE

Porcupine Miners Voting On Question of Going Out in a Body.

Jobait, Nov. 14.—All day the members of the local miners' union at Porcupine have been voting on a subject which may result in the declaration of a general strike throughout the camp, affecting a score of mines and several thousand men. The return of the vote will not come until a late hour, as polling is being carried on for a long period in order to get a large and representative vote. It is stated, however, that the men at the McManey mine have already left their work, and that a gang was sent up from the Crown Reserve this morning to be ready to take their places.

Some time ago notice was served of a change in the wage scale of a number of the mines of the camp, and a conciliation board was appointed to adjust matters. The conciliation board held meetings, and the result of these was the filing of a report from each member, the members being unable to agree. The matter was then turned over to a higher authority, and since then little has been heard until yesterday, when word came to Cobalt to the effect that the union would vote on the question today.

Even union men are hoping for an amicable and immediate adjustment of the difficulties to avoid a strike. The Porcupine camp is just on the verge of an era of prosperity, and just recovering from the effects of the disastrous fire, and a strike now would prove a severe setback. There is a possibility that only four mines, all said to be in the Pearl Lake section, will be affected.

Reeve Jackson, of London, said that although opposed to the project at first, he was in hearty sympathy with it now.

Warden Buttery was of the opinion that a hospital would fill a long-felt want.

Deputy Reeve Noyes, of London, wanted those present to know that he would not be a stumbling block to the grant.

The committee was composed of R. Currie, Glencoe; R. Jackson, London; Township; C. Hawkshaw, Lucan; J. McGugan, Lobo; W. Toohill, Metcalfe; T. C. McDonald, E. Williams and J. Morgan, Alisa Craig.

GERMAN KNIVES SENT AS ENGLISH

Sheffield Manufacturers Complain to Canada of Misrepresentation.

London, Nov. 14.—Sheffield manufacturers have complained to the Dominion royal commission that foreign manufacturers are invoicing goods to Canada at a lower rate than their value to avoid customs, and then raised the prices before selling, thus underselling British makers. Much German cutlery went Canada-wards as British make.

The dominion royal commission concludes its sittings next week. Visits will not be paid to other English centres, as originally intended. The commissioners are not pressed for time, as the report from them is not expected till the imperial conference of 1915. The question may arise in the British Commons whether all the expenses of the commission are to be paid by the colonial office or whether the dominions will play a part.

BANK OF ENGLAND FIRE

Was Quenched With Bank's Own Apparatus, Damage Being Small.

London, Nov. 14.—A fire broke out in the Bank of England tonight, but it was quenched with the bank's own fire apparatus. The damage is declared to be small.

NEW WINNIPEG CHURCH.

Winnipeg, Man., Nov. 14.—The new church to be erected by the First Congregational Church will involve an expenditure of half a million dollars. It is contemplated to make it in many respects the most unique house of worship in Canada, if not on the continent, with the pulpit in the centre and the seats rising in tiers, like a great amphitheatre. The seating capacity will exceed 4,000, and the cost of the structure will be about \$300,000.

TRACKLESS MOTORS.

Calgary, Nov. 14.—Trackless motors instead of street cars to serve the residential district, is a subject under consideration by the city commissioners. The residents of the district have been fighting the intrusion of the street car buses, but there is a large population on the other side of the Mount Royal district clamoring for transportation. The commissioners think that motor buses may solve the problem.

SHOPPING WITH A TRANSFER CARD SAVES TIME

STARTLING NEWS IN PAPERS THESE DAYS---NONE MORE VITAL THAN THIS---ACTUAL PRICES AND OTHERWISE

The old-fashioned practice of throwing out advertising lines with a hook on them and a bait on the hook to draw the customer is still followed by some stores. For instance, many well-known lines of merchandise are paraded at prices less than actual cost, with the object of creating the impression that such are the ruling prices throughout the store. To carry a watch that sometimes tells the right time and sometimes does not, is no more misleading than such advertising, and how a merchant pays rents and salaries and advertising, and sells everything under or at cost, is yet an unsolvable mystery. This store never attended the old school of such business science, and has always been a firm believer that the public realize that shopping is easier and surer where actual prices and reasonable and legitimate profits are adhered to. When goods are advertised by this store at sale prices, the actual prices are given. Many are listed on this page today for Saturday selling.

Warm, Stylish Polo Coats for Misses, \$15.50

Double Breasted Heavy Blanket Cloth Coats with convertible collar, in tan and red. Swagger style for misses from 14 to 18 years, patch pockets and belt all around. The popular coat\$15.50

SATURDAY OVERCOAT DAY IN MEN'S STORE

We realize more and more clearly every day that the best way to hold the patronage of discriminating and intelligent men is to sell them merchandise that will win their business respect.

80 Men's Overcoats and Ulsters at Snap Prices Saturday, \$12.95, \$13.50 and \$16.50

Men's Fur Collar Overcoats, good melton cloth with quilted linings, having every appearance of a fur-lined coat. This may be your last opportunity to secure one of these smart, dressy winter coats at these prices.

MELTON COAT, QUILTED LINING, WITH MARMOT COLLAR.....\$13.50

MELTON COAT, QUILTED LINING, WITH PERSIAN LAMB COLLAR.....\$16.50

Men's Convertible Collar Ulsters, \$12.95

The popular Convertible Collar Ulster, also Chesterfield Style Overcoats. Not a Coat in this collection worth less than \$20.00 regular. Every man who comes to see these will have his winter coat before Saturday night. Don't pass this chance if you have your Overcoat yet to buy. All sizes, 33 to 44. Sale price.....\$12.95

Winter Overcoats, Reefers and Buster Suits \$2.00 to \$2.50 Garments, Sale Price \$1.00

20 dozen Shirts and Drawers, in fine natural elastic rib, all-wool. You will scarcely find a defect in this lot. Some are but slightly soiled, and all go as seconds. All popular sizes in the lot. Regular prices \$2.00 to \$2.50 per garment. All to be cleared at one price, per garment.....\$1.00

\$4.00 Combination Suits, Sale Price \$2.50

180 Men's Combination Suits Underwear, first quality, all pure wool. The "Ellis Brand" of high-grade underwear, in natural color, fine elastic rib, of medium weight. A very comfortable and durable underwear; regular price \$4.00 suit. Perfect goods, to clear at, suit.....\$2.50

Sale of Mill Seconds Men's Underwear, SATURDAY ABOUT HALF PRICE, SOME LESS.

These are from one of the best makers of fine wool underwear in Canada. Any garment that does not pass inspection, having the slightest imperfection in weave, a drop stitch or slightly soiled, is classed as seconds. Any defects in weave are neatly repaired and finished, and in scarcely any garments are the damages noticeable.

[Entered at London Postoffice for transmission through the mails as second class matter.]

LONDON, FRIDAY, NOV. 15.

HOW THE CANADIAN PEOPLE ARE SQUEEZED.

Yesterday a London grocer, in conversation with The Advertiser, recalled the time when he sold four cans of tomatoes for 25 cents. Today they are 15 cents each. There has been the same lift of prices through the whole range of canned goods. The grocer was bitter against the canning combine, which holds both wholesalers and retailers at its mercy, to say nothing of the public. The combine has not scrupled to restrict production if it could increase the margin of profit. The vegetable growers, the middlemen and the consumers all suffered to swell its inordinate profits.

Mr. Alphonse Verreille, M. P. of Maisonneuve, dealt vigorously with these abuses in a recent speech. He pointed out that in their contracts with the wholesale houses the canning food trust people arbitrarily insist in black and white that the wholesale buyers must buy from the trust alone. Not only that, but they must also sell at the price fixed by the trust. Further, the canning food trust agreement with wholesalers provides that if the wholesaler accepts the trust's terms, he receives at the end of the year a cash bonus of 10 per cent. on all he has purchased. If the wholesaler sells at a quarter of a cent lower than the price prescribed by the trust, he loses his 10 per cent.

Having a monopoly of the selling end, the combine can also virtually fix the price which it will pay for vegetables. With a grip like this on the food of the people, it is little wonder that the canners combine and all connected with it, are quite sure that Canada is an ideal country in which to live and do business. The canning trust was in the forefront of the fight against the reciprocity agreement, which would have given consumers of canned goods some relief. What a loyal lot the canners were in that election!

The canners are not the only offenders. Inquisitive persons in Toronto want to know why higher prices are charged in Canada than in England for Canadian meat. The Toronto Star says:

"Why should Canadian ham and bacon be ten or twelve cents dearer here than in England?
"There is no use in making the Canada that is better paid in than in England. The excuse is bad, because the bacon is produced by Canadian labor. The Englishman in England pays the cost of production, and also the cost of transportation by rail and ocean.

"Therefore we ought to get the ham and bacon for a good deal less than is paid in England, instead of ten or twelve cents a pound more."
It will be remembered that the packers were lined up with the canners in the firing line of the last election. How those dear comrades in arms did wave the old flag! And how it paid them to do it!

A ROMANTIC REPORT.

"Our local contemporary is into a libel suit through its ingrained preference for mud-throwing to argument.

It has refused to discuss the electrification of the London and Port Stanley Railway on the merits of the proposal, but the same charge lies against the father of the scheme. In his Board of Trade address Mr. Beck, whose object is to try to sell more hydro-electric power, threw not a ray of light on the financial side of the project. He merely rehearsed a report by some outside engineers who are less qualified to estimate the future earnings of the London and Port Stanley Railway than any one of half a hundred businessmen of the city of London. No outside engineer knows whether the London and Port Stanley Railway as a municipal enterprise can retain the coal business which forms the bulk of the traffic, and is given to the Pere Marquette by a private company, which itself asks for a lease of the road. No one knows whether the advantages of connection with the Pere Marquette or the Michigan Central could be retained under a new order of things. So far as the engineers are concerned, their estimate of an increase of nearly 100 per cent. in the receipts of the L. and P. S. R. in the first year of electrification, is pure romance. Even with this guess-work, it is necessary, in order to show a surplus on paper, to mark down the cost of the L. and P. S. R. to 20 per cent. of the real figure.

These castles in the air explain why the report has been concealed for months, and sprung on the public so as to allow no proper time for inquiry and discussion before the municipal elections. It was insulting to the City Council to withhold from it such a document, and then demand at the eleventh hour that the Council submit it to the ratepayers without deliberation. It is equally unfair to the ratepayers, who are asked to put up \$900,000 on less than two months' notice when the report could have been before them for consideration all summer.

WOULD TAX CANADIAN PRODUCTS

The Canadian plutocrats, who are subscribing to the British tariff reform funds, and being paid with invitations to dine with the Duke of Devonshire, should ponder some recent words of the leaders of the Unionist party in the House of Commons and House of Lords.

The other day Mr. Law threatened that if Home Rule carried and "Ireland set herself up as a practically independent kingdom or colony," the imperial pursestrings would be tightened against her. "Our first duty," he said, "is to our own people; we will put them first, and money will be spent on Ireland afterwards." Mr. Churchill interrupted with the remark, "The colonies are our people," to which Mr. Law made the significant reply:

"We intend to treat the colonies better than we treat any foreign country, but WE DO NOT INTEND TO TREAT THEM AS WE TREAT OURSELVES."

Reduced to practice, this means that the Unionist party adheres to its proposal to tax colonial foodstuffs in the supposed interest of British agriculture, placing a higher tax on foreign foodstuffs in the supposed interest of both colonial and British agriculture. Canada will no longer have the free British market, which has been her mainstay since she was shut out of the United States by McKinleyism. Not only is she to be deprived of this boon, but she is asked to open her own doors wider to British manufactures. This was the demand made by Lord Lansdown last night in a speech in London. He said:

"If, when the time comes, the great dominions ask us to grant them, in return for such substantial advantages, they will be asked to give us—what? They ask us to grant them a moderate duty upon foreign wheat, sufficient to bring into our markets the great and unlimited granaries of all Canada and Australia—we shall not be deterred from examining their proposal by any statement that it will involve the taxation of food."

The Unionist party will not be satisfied with the present preference of 33-1-3 per cent. in the Canadian market. Canadian manufacturers will be required to share their home market more liberally with British competitors, and Canadian farmers will be required to submit to a tax on their products which now enter Great Britain duty-free. There is much to be said for an extension of the British preference in the interest of Canadian consumers, but it will not be granted by the party now in office in Canada.

Yet the men who in this country oppose any relaxation of the tariff on British goods, are the loudest in their professions of imperialism. All the combinationists in Canada are great imperialists because it pays. They traded in the sentiment of loyalty successfully in order to defeat the reciprocity agreement, which would have plucked the food combines. But any proposal to reduce duties on British imports shows that their imperialism is located in their pocket-books.

Of course the Hon. James Bryce is being driven into private life by the attacks of the Toronto Telegram.

The spectacle of Turkey down on its knees to Bulgaria shows that history can reverse itself as well as repeat itself.

Dr. Byrne has gone to England for a trip with Sir James Whitney. It will make no difference in the educational department, except for the better.

Mr. Bonar Law says that if the home rule bill carries, the Unionist party will wreck it anyway. The Unionist leader becomes more like Mrs. Fankhurst every day.

An Essex woman has died from blood poisoning through cutting corns with a rusty razor. But husbands do not advise wives to take the nearest and brightest razors for corn-paring.

London shippers are becoming anxious over the prospect of losing the Pere Marquette and Michigan Central connections. "It will be unsafe for the ratepayers to vote on any scheme until there is definite assurance from these companies.

The women of the United States are following their British sisters by cultivating an interest in public affairs. The same class of women in Canada are as a rule more interested in social affairs, but the change is coming. In a few years there will be a vigorous woman suffrage movement in this country.

PROVED.

[Harper's Weekly.]
"Do you believe that money makes the mare go?" asked Dubbleigh.
"Sure," said Wiggley. "As soon as a man gets the money he buys an automobile and the mare goes for what she's worth."

FROM THE HEART.

[St. Louis Globe.]
Mrs. Hartley's Ward and her voluminous and heavy novels were being discussed at the Franklin Inn in Philadelphia. A poet said:
"I met the Humphry Ward during the last London season. Poor Humphry himself is rather overshadowed by his wife, and I think he feels it. At dinner a lady said:
"In olden times men claimed that it was possible for them to make themselves invisible."
"That is still possible, madame," said Mr. Humphry Ward in his grave, said way.
"Possible for a man to make himself invisible!" the lady cried. "How on earth can he do it?"
"By marrying a celebrated wife," was the reply.

POLITICS IN THE HOME.

[Harper's Weekly.]
The whole British scheme of things is so organized as to make politics and society on the higher levels at any rate, virtually identical. It is this which gives English women their pre-eminent chance. It is the absence of this, it is the separation of politics from society, that to Europeans seems to make the lives of the great majority of American women so insipid and incomplete.

YOU'VE MISSED A GREAT BOOK.

(Toronto News.)
Most people make a bluff about their reading. Have you ever read Jane Austen's *Pride and Prejudice*? Neither have we.

SAM HUGHES' NEW COLONELS.

[Hamilton Times.]
Sam Hughes is a joker. He has just raised a bunch of civilian military rank. We have now Col. Shaughnessy, Col. Clifford Sifton, Col. Adam Beck and others. And Lieut.-Col. Canon Death, Lieut.-Col. Rev. Robert Burwash, Lieut.-Col. Archdeacon Cody, etc., these latter representing the church militant, we suppose.

NO TAIL-TWISTER IN WILSON.

(Brantford Expositor.)
There is no spraddlelegism about Woodrow Wilson. The writer heard him deliver a Fourth of July oration in 1911. He set off no oratorical fireworks to please the assembled multitude, and he did not attempt to twist the tail of the lion even once. He rather appealed to the hearers to forget for the time the achievements of the past and realize the responsibilities of the present. He stated in plain and unmistakable terms.

HUMAN KINDNESS.

(Washington Star.)
Many a story that isn't funny gets laughed at because there's no use of hurting the feelings of a man who doesn't mean any harm.

SOME REMARKS.

[By Alaska Bill.]
Storm sewers, embankment and feed-and square
Is cuttin' some capers just now in the air—
And as bridges and pavements are wanted, also,
There ain't many millions to spare.

Well! I am not a gent which is anxious to save,
Not to any extent—but I'm fearless and brave
About spendin' such plunks as is handy;
And the future—is yit in his grave.

But I got a small start, when I heard of the dust
Which this here little hamlet is goin' to bust
Sum time high the end of December—
So it is on January first?

The village is scappin' the railroad for good!
Which they put on the map in the days of this youth,
'Cos the Government's stacked up with hydro—
More extensive prang than with truth.

And the voters is told that their fortunes is made
The moment a million is borrowed and paid—
A fact which they'd never discover
Alone, by themselves, I'm afraid.

But they have it distinct, for it comes with a roar
(12 inches, I'm told, is the size of the bore,
Which our bores of that sort is unusual—
And a Ross rifle cracklin' "encore.")

But how will they run it—oh, how do we know!
One thing at a time in this valley of woe—
Ask "Beck," or "the May," or the "Expert,"
Or the others who have it in tow.

What the ordinary boob is expected to do
Is to show and to vote and to see the deal through;
And then go and mortgage his wigwam
To any available Jew.

The House for the Aged will give him a crust,
And other mother Earth will take care of his dust;
And we'll whistle a stick and inscribe
"He voted for hydro and bust."

Yours,
ALASKA BILL.

TO BE EXPECTED.

[Washington Star.]
Marks—They say the absconding cashier had been a lamb in Wall street.

Parks—Then the skipping was quite natural, eh?

GETTING OVER-EDUCATED.
[Boston Transcript.]

"Never mind," said the ready-made philosopher, "experience is the best teacher."

"Yes," replied the man who is constantly in trouble, "but the person ought not to be expected to stay in school all his life."

THE DIFFERENCE.

[Toronto Star.]
If you establish a Canadian fleet you plant something on Canadian soil. Sorry, but that bucolic, hayseed illustration will keep coming up. You plant something that will grow, that will receive the benefit of some Canadian resources, and of Canadian enthusiasm. If you send a check to England, you plant nothing. The benefit is no more than the actual cash on the check, and perhaps not that, for there is no guarantee that the money will be spent in ships.

Grand Trunk Chief
IN N. Y. CONFERENCE

General New England Railway
Situation Under
Discussion.

[Canadian Press.]
New York, Nov. 15.—President Chamberlin, of the Grand Trunk Railway; Herbert A. Rice, attorney-general of Rhode Island; and Wm. C. Bliss, chairman of the public utilities board of that state, met for a conference in New York today to discuss the stopping of work on the Grand Trunk line into Providence, and the general New England railroad situation.

The conference was behind closed doors, but it was said that a statement might be issued later in the day.

At the conclusion of the conference Mr. Chamberlin declined to comment on what had been discussed.

There is really nothing to be said," he declared. "Whatever is published about the meeting will have to come from the other side."

Messrs. Rice and Bliss left the hotel in a motor car, and it was believed that they would telegraph Governor Pothier of Rhode Island, the result of their talk with Mr. Chamberlin.

WHO WROTE THIS FINE POEM?

[By Special Arrangement With the Winnipeg Telegram.]

An anthology of American verse suggests such a number of interesting topics that I cannot resist the temptation to return to Professor Lounsbury's "Yale Book of American Verse" once more. The chief impression that I have gathered from my reading in this book is one of disappointment with the poetic product of the American people. This anthology dates back to the middle of the eighteenth century, and includes specimens of the work of some sixty-seven poets. At least half of the poems in the book, however, are slight in subject matter, deficient in striking content of thought. Professor Lounsbury has been broad-minded enough to include a large number of poems of the lighter sort, such as a poem for instance as William Allen Miller's humorous effort "Nothing to Wear," and funny pieces by Eugene Field, Bunner, and others; he devotes nearly seven of his precious pages to the "Ballad of Laker Bier," he gives twenty-two pages to Steadman, in my opinion twenty pages too many. Now, nearly all these lighter poems would be ruled out of an anthology prepared by an Oxford professor. If we were to subtract these poems, therefore, from the total number, there would be a considerable shrinkage in the book is the war poetry. A great many of these lyrics are still interesting to the American people, but it may be seriously questioned whether they will survive another half century. It is at least certain that aside from their sentimental associations the majority of these poems would have to be excluded. Professor Lounsbury is himself a veteran of the Civil War, and it is just possible that his own feelings have overborne his literary judgment in leading him to include such a large number of martial lyrics.

Among the war songs in this collection, "Maryland, My Maryland," is undoubtedly the best. A close second, however, is an anonymous poem, entitled "Home Wounded." And thereby hangs a tale, a human interest story, of which Professor Lounsbury is the centre. In his introductory essay to the collection, he tells us that he came across this poem himself when he was with the northern army on the march to Gettysburg. "The army had gone one night into camp," he says, "when I picked up a torn piece of newspaper which was fluttering about. . . . What arrested my attention were certain verses headed, if I remember aright, 'Home Wounded.' . . . No name of writer appeared on this torn fragment as I found it; in fact, no space was left for one. Even the last word of the poem had disappeared, though it was easily supplied by the sense and rhyme. It could have been written by either man or woman, though in my ignorance about its authorship I should attribute it to a woman. . . . I was so struck at the time by the poem that I cut it out of the torn piece of paper containing it. Naturally this soon disappeared. The words, however, remained in my mind, and though after the lapse of so many years, I cannot be sure that what is printed here is an absolutely exact transcript of the lines as I read them, I am confident that it is not much out of the way."

The poem, rescued from oblivion in such a fortunate way, is one of the gems of this collection of verse, for it breathes a noble passion for a great cause. It runs as follows:

When I go down by the meadow,
Anchor me where the shadow
Skins over the billowy grass;
Where the arbutus struggles to grow,
The slope of the spreading hill,
The scent of hidden violets
Their scented air distill.

Saint, with your sweet composure,
Lean your cool cheek against my hair;
My soul's in the fierce exposure
Of fields where the dying are;
And even your hand can never
Or soften the restless longing
To share in the contest again.

O, to be here so idle!
To stand like a dog in his chair,
With hands that ache for the bride,
With heart away in the war!
Instead of the long roll heating,
To hear but the tinkle of vines,
The rust and whirl of the conflict
Only the wall of the pines.

Still midst the sounds of summer,
If I could fight the soft June air
With tender slumberous murmur,
My soul hears the trumpet's blare,
What have I laid on the altar?
Only a few drops of blood!
Small is the gift to offer
For honor, freedom, God.

While by your side I daily
Still waits the slave in his chain.
Up, my faint pulse must rally
Once more 'mid the leaden rain.
With kisses on lips, eyes and forehead,
Sign me the sign of the Cross,
If you heart throbs its last for my banner,
Create the gain that the loss.

If we gain—there'll be time for our wooing,
In paths where the wild roses nod;
If I lose—'Till wait for you, dearest,
'Neath the palms by the mount of our God.

WHAT EVERY WOMAN WANTS TO KNOW

Miss Macmillan Describes
Work in Health Centres in
Chat With "The Nomad"

Beaded Tunics Distinctive Feature

Beaded tunics are a distinctive feature of the season. They are worn over simple foundations of silk or satin. Usually a note of color is introduced in the corsage trimming, and sometimes in the skirt, as seen in this model of white satin.

HEALTH CENTRES FOR CHILDREN

Miss Margaret Macmillan Tells "The Nomad" About Her Work Amongst the Poor in London, England.

It was a very kindly-faced lady, with a friendly smile and a delightfully softened English voice who chatted freely with me yesterday about the wonderful work she is doing in different parts of England by establishing health centres for children of the poor.

Miss Macmillan's whole heart is in her work, which is probably one of the greatest for its success. She first became interested in the subject in Bradford, an industrial town in the north of England, where conditions of home life were often most pitiful. As a member of the school board there, she became an agitator for social betterment, and out of this grew her scheme of founding health centres, where children from insanitary and miserable homes could be properly cared for.

No Half Measures.
"I don't believe in helping a child by bits," Miss Macmillan said. "In treating an eye, or an ear, or a throat. What is really necessary, is to go farther than that, to get the entire body into good health and to maintain this by proper food and cleanliness."

Her work, begun in a small way at first, has progressed wonderfully, there now being one hundred and thirty health centres in various parts of England. Six years ago, Miss Macmillan started a branch in Deptford, one of the slum districts of London. Expenses were covered at first by donations from private friends, but after a time Mr. Joseph Pels, the well-known American reformer, became interested, and showed his approval in a practical way by donating a certain sum each year.

Her Work Approved.
"The teachers and almost all the philanthropic workers are in sympathy with the health centres now, and the London county council gives me a grant of £6,000 a year. We have out-door play gardens, out-door sleeping rooms, medical rooms, night nurseries and day camps, and children who come filthy and unhealthy in a short time are rosy and clean."

"Is there any age limit?" I asked her. "Oh, no, we take babies and children of all ages up to 15 and 16. I send the older ones home for dinner, but breakfast and tea are given to all when desired."

"You don't have any trouble in getting people to send their children?"
"None at all. They come and ask to be admitted to the health centre. Last year we treated 7,000 cases. We cannot do much work in the homes, though."

By the time a woman is married and a mother of several children, perhaps, she is apt to resent any advice we may offer about housekeeping and the care of her offspring.

Is a Suffragist.

"How do you stand on suffrage?" Miss Macmillan laughed. "Well, I am a suffragist—but not a violent one. I do not believe in using violence to gain any. Perhaps I am wrong in saying it, but I think women on the whole are so prejudiced, it seems as if we were fighting."

Miss Macmillan had seen but little of London, having arrived by the noon train and going at once to the home of Mrs. Betts, president of the Women's Canadian Club, where a luncheon was given in her honor. She had, however, spent some time in Toronto, and was quite charmed, she assured me, with that city and its people.

The Nomad

WHAT THEY SAY

"Candidly, I like him, but not well enough."

"Yes; you loop up the braid to look like petals, and make some French knot in the centre. They just look like a daisy."

"She's one of those girls who regard 2 finger-bowls, 4 cushions on tops, and a 5 o'clock tea-cloth as all that is necessary to begin housekeeping with."

"Our new grammar teacher has the sweetest brown eyes. They remind me of a dish of hot taffy—they're so melting."

"His wife stopped to look at some suits ticketed \$35 and \$40, in a shop to go to the moving picture show. Yet she proudly tells how generous 'dear John' is."

"Some people have to find themselves outside in the mud before they realize that they have been kicked out."

"My husband takes the children around 'toy-town' every Saturday afternoon. Says it bores him terribly and that he does it merely for the sake of the youngsters, but I know he enjoys it just as much as they."

"Wait until I buy a pound of these peppermints for grandma. The dear soul loves them."

"He grumbled at the mince pie she made, but she just said that if he didn't like it he could lump it."

"I must buy one of those Turkish rugs before the Turks are all killed off."

"He writes just as good poetry as Rudyard Kipling. Alfred Brownings, or any of those old high-brows—but nobody buys it, yet."

Problems of the Fair Sex Solved by Cynthia Grey

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn as they are received. No letters can be answered privately.]

Should Buy an Encyclopedia.

Dear Miss Grey: As I am an interested reader of your column, I am seeking your advice.

1. I am trying to find out the seven wonders of the world. Also I would like to learn where Sierra Leone is, also what is the chief city and capital.

2. When was the first cablegram sent? What date?

3. What date was the big fire in London? Thanking you in advance. Yours truly, W. H. P.

A.—1. The world's seven wonders are: Pyramids of Egypt, Hanging Gardens of Babylon, Temple of Diana at Ephesus, Philae statue of Jupiter at Athens, Mausoleum at Halicarnassus, the Colossus at Rhodes, and the Pharos, or Lighthouse at Alexandria.

Sierra Leone is a British colony on the west coast of Africa. The capital city, Freetown, with 30,000 inhabitants, possesses one of the finest harbors on the west coast. Freetown is a coal station and an important trading centre.

2. The records regarding cablegrams appear to be rather contradictory, but the most authentic states that the first Atlantic cable was laid in July of 1857, messages being sent by the 1st of August. On the 11th of August, 1857, this cable broke, but was successfully replaced again in 1858. However, as early as 1838, attempts at submarine telegraphy were made in England. For further information why not study up the subject in one of the encyclopedias at the Public Library the next time you are in the city?

3. Between Sept. 2 and 6, 1866, the "Great Fire" destroyed fifteen city wards, with some 13,000 houses.

Tomato Jelly.

Dear Miss Grey: Will you kindly help me out on a couple of points?

1. Does the customary wedding announcement imply any obligation to the receiver?

2. Will you kindly furnish one or two recipes for tomato jelly, or any preparation from tomatoes which will take mould shape?

Thanks, sincerely, EFFIE E. A.—1. No, excepting to call on the bride after she receives in her own home.

2. This recipe for tomato jelly you will, I think, find excellent: 2½ cups cooked tomatoes, slice of onion, stalk of celery, ½ cup cold water, 1 tablespoonful tarragon vinegar, ½ box (1 ounce) gelatine. Cook the tomatoes with all the ingredients, except the last two, for 15 minutes; add vinegar and gelatine, softened in cold water and stir until the gelatine is dissolved. Then strain and mould. This is much nicer if the tomatoes are strained through a sieve just fine enough to keep back the seeds.

Just Sweet Sixteen.

Dear Miss Grey: Will you please give me some advice on these questions?

1. How could I clean a white felt hat at home?

2. How could I keep my hair curled in damp weather?

3. What will bring bleached hair back to its former color, it being autumn?

4. Could you give me a good recipe for a massage cream?

5. What will keep the nose from getting red after going from a warm room out in the cold?

6. What would make a pretty party dress and how could I have it made?

Hoping I have not taken up too much of your time, thanking you in advance. SWEET SIXTEEN.

A.—Rub the hat thoroughly with magnesia or French chalk; if it is in a drawer for two or three days, then brush the powder off. The hat should look much cleaner, but do not expect it to look like new.

2. My dear, nothing has ever, to my knowledge, been invented or discovered that will keep hair in curl.

3. You will simply have to go through the rather trying period of having two-toned hair, until the natural color is restored. It takes quite a while, but let it be a little lesson not to try bleaching your hair again. Be satisfied to leave it the way Nature colored it.

4. Sweet almond oil 2 ounces; rose-water 2 ounces; spermaceti ½ ounce; mace ½ ounce. Break the spermaceti and white wax into tiny bits. As they soften pour in the almond oil and French chalk. When the mixture has softened well, lift the bowl from the water and stir in the rosewater, slowly beating it. Do not let the mixture become hot. Put in a few drops of any desired perfume, and place in air-tight china jar.

5. The trouble is caused, perhaps, by poor circulation. See to it that your clothing is not too tight; avoid rich and spicy foods, and bathe the nose several times daily with eau de Cologne.

6. A pretty figured muslin or cotton voile would be nice. Make the waist with a V neck in front, piped with silk to match the color of the design in the dress. A couple of tucks over the shoulders, and two or three deep ones in the skirts, with short sleeves, and a crush girdle, would be quite pretty, I think.

The Birthday Calendar

IF THIS IS YOUR BIRTHDAY Keep your health and that of your family in order, and in affairs in general be cautious. A dull season will trouble you, but later on the signs are favorable. Those born today have difficult natures and are prone to deceit. They will get themselves into much trouble, but will usually be helped out by friends.

Dainty Date Dishes

Date and Apple Salad.

Half pound of choice dates, 5 tablespoonfuls of olive oil, 4 apples, lettuce leaves, juice of half a lemon, salt. Stone the dates, pare and core the apples and cut both into strips. Add a little salt, the lemon juice and oil, and mix thoroughly. Serve on lettuce leaves.

Date Sandwiches.

One cupful of stoned dates, 1 cupful of nut meats, 3 tablespoonfuls of thick sweet cream, 2 tablespoonfuls of butter, 1 loaf of wheat bread. Chop the dates and nuts, and mix well with the cream. Slice the bread thinly and trim off the crusts. Let the butter stand near the fire till soft. Butter each slice of bread and spread the date filling between two slices.

Date Muffins.

One cupful of stoned dates, half cup-

Fountain Syringes

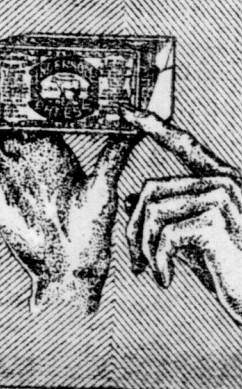

We carry quite a variety of these necessary articles in our rubber goods department, ranging in price from one to three dollars. We recommend the P. L. and O. syringe—it's guaranteed for two years. Six feet rapid flow tubing, three rubber pipes with each syringe. Two dollars.

A DAY IN THE SPORTING WORLD

SIDE LIGHTS ON
MANY SPORTS

MEDS WILL ALTER LINE-UP FOR TOMORROW'S GAME

Use of American Rules Will Necessitate Several Changes—Collegiate Game Will Be for Championship of Western Ontario—Both Teams Are Practicing Hard.

Both the Western University and L. C. I. football teams have been practicing faithfully during the week for the double-header tomorrow, when the Collegiate meets the Sarnia C. I. team and the Meds meet the team from Assumption College, Sandwich. The Collegiate fixture is for the championship of Western Ontario, as the London team have defeated all the teams in this section, and the Sarnia aggregation are champions of Lambton County. Several members of the Sarnia team are also members of the O. R. F. U. team of that town and will not be able to play in this city, as the Sarnia team have hopes of defeating Petrolia tomorrow and tying up the group. Nevertheless the L. C. I. team will have a hard battle to win, and a good game will undoubtedly take place.

Meds Will Be Minus Stars.
The Meds will not be able to have all their stars on the team tomorrow, as several are suffering from injuries received in the game with Petrolia in this city. Neither Whetter, Borland or McKinnon will be able to play, and several of the substitutes will be used. The line-up for the first half, which will be played under the American rules, will likely be: Campbell, full back; Judd, left half; Murray, right half; MacQueen, quarter; Little, centre; Martin and Rowan, guards; Raymond and Freeman, tackles; Steele and McKay, ends. In the last half, the Meds will line up as follows: Morrison, full; Murray, Campbell and Judd,

halves; MacQueen, quarter; Little, Hogg and Laird, scrimmage, and the same wing line as in the first half.

Two Smiths.
Coach Smith, of Assumption College, will referee the American part of the game, and Vic Smith, who has been assisting the Meds all through the season, has been asked to handle the whistle under Canadian rules. The Assumption team has been drilled in the Canadian style of play this week by Coach Smith, who formerly played with the Ottawa Rough Riders.

Murray Was With Sandwich.
Murray, who will play right half for the Meds, played the same position with Sandwich last year, and knows considerable of their style of play. A final drill will be held this evening at the Medical School at 7:30, when the final instructions for tomorrow will be given. Raymond played for the Yale freshmen several years ago, and Freeman also has played the American game. MacQueen will direct the play tomorrow in place of Borland, who will be out of the city. While the Meds are not making any forecasts as to tomorrow's results, they state that the local team will make a far better showing than the 'Varsity Old Boys did against Carlisle.

The Sandwich team is one of the best playing the game in Michigan, and is very fast, but as several of the local players have played American rules the outcome of the contest will be in doubt until the final whistle.

YALE TEAM EXPECTS TO BEAT PRINCETON

Complete Confidence Expressed by the Players and Coaches—Betting Favors Yale.

[Canadian Press.]
New Haven, Conn., Nov. 15.—The Yale football men are giving every evidence of complete confidence of their ability to administer a defeat to Princeton in the big game tomorrow. Coaches, players and undergrads alike are convinced of the team's readiness for the contest. There is not the slightest evidence of worry in the Yale dressing room after practice, and nothing but the most exuberant spirits prevail. Betting odds are 10 to 7 in favor of Yale.

BAT NELSON NEARLY GOT KNOCKED OUT

Former Champion Had a Close Call in His Bout at Hammond With Arthur Stewart.

[Canadian Press.]
Hammond, Ind., Nov. 15.—Battling Nelson, former lightweight champion, had a close call in his ten-round bout with Arthur Stewart last night, when in the second round he was knocked down with a punch on the jaw. He arose grandly, but Stewart failed to follow up the advantage. In the succeeding rounds Nelson showed in his old-time form and had his opponent tired and bleeding at the end of the battle.

An O. H. A. Officer

J. T. SUTHERLAND, of Kingston, re-elected to the executive of the Ontario Hockey Association.

PRESTON WILL BUILD NEW HOCKEY RINK

Efforts Will Be Made To Land Senior O. H. A. Championship With New Rink This Winter.

Gait, Nov. 14.—A company has been formed in Preston for the purpose of erecting a new hockey and skating rink in that town, and the citizens are enthusiastic over the prospects of good sport during the coming winter. The new rink, which is to be erected on Lowther street, near the centre of the town, is to be 200 feet long and 100 feet wide, with an ice surface of 81 feet by 155 feet. The building is to be constructed of cement and metal, and will accommodate 5,000 people, with a seating capacity for half that number. The roof will be supported on arches, and there will be no posts to interfere with the open space of the interior. Over a hundred 100-candlepower lights will be installed for lighting purposes. The cost will be about \$10,000, and work will be commenced immediately, as it is to be completed by Dec. 20. Preston has long been famed as a hockey town, and an effort will be made to land the senior O. H. A. championship with a fast team to mark the erection of the new rink.

EVERS MAY TRADE TINKER FOR HAUSER OF CARDINALS

Murphy and His New Manager Are Making Frantic Efforts to Get a Shortstop—Big Deal Will Be Pulled Off Any Day Now.

Milwaukee, Wis., Nov. 13.—Charles W. Murphy and Manager John J. Evers today took things into their own hands and aroused the interest of the visiting magnates and managers by trying to pull off the biggest baseball deal of the year. The Cub president and manager got Manager Miller Huggins, of the Cardinals, into a corner and attempted to take Arnold Hauser, his young shortstop, away from him. There was doubt late tonight whether the holdup would be a success or not. Huggins took up the trade with Mrs. Helen Hathaway Britton, the woman owner of the St. Louis club, and she had not been heard from. **Cubs Need Shortstop Badly.**

Here is the trade and the facts which led up to it. The Cubs need a shortstop. Both President Murphy and Manager Evers realize that Joe Tinker has gone so far that it's likely he will go the limit and that a successor must be found. They don't want to trade Joe for Grant, Philan and Mike Mitchell, of the Reds, unless they see where they can trade these fellows for a shortstop, because the women owner of the St. Louis club, without a shortstop, and may have to switch Heinie Zimmerman from third to the shortstop position. They know that Zimmerman was a success at third, but they do not know that he will be a star at short.

Hauser or Doolan Wanted.
There are just two shortstops in the National League that Murphy and Evers are willing to take. Hauser is one of them and Mike Doolan is the other. They have attempted to get Hauser.

MINOR MAGNATES' MEETING GOES TO COLUMBUS IN 1913

Eleventh Session Concluded at Milwaukee Yesterday—A Few Deals Made.

Milwaukee, Wis., Nov. 14.—Columbus, Ohio, was selected as the 1913 meeting place of the National Association of Professional Baseball Leagues, at the eleventh annual session here today.

Appointments of the readjustment committee settled what threatened to become an object of severe contention among the magnates. There appeared some dissatisfaction with the agreement in so far as it required the minors to submit their salary limit action to the committee for approval, and because many of the smaller leagues thought the commission dictatorial in its attitude.

President Sexton announced as members of his committee to meet the National commission, besides himself: E. G. Barrow, president of the Interna-

They will give at least two of the men they get from Cincinnati and maybe all three of them for the St. Louis player. If Huggins is willing to trade along these lines the deal with Garry Herrmann will go through. Tinker will go to the Reds and be made manager, and two of the men secured from Cincinnati will be traded to St. Louis and Hauser will come to the Cubs. The West Siders will have a shortstop. Tinker will have been taken care of and everything will be lovely.

Tinker for Hauser Outright.
But if this proposition is rejected then the Cubs stand willing to trade Tinker to St. Louis for Hauser. This upon the theory that the Chicago ball club is the first consideration and that the Cubs must have a shortstop. The first, and the one the Cubs are trying to put through, provides for the promotion of Joe. But if that one falls and the Cardinals demand Joe for Arnold, that, too, will probably go through.

Both Murphy and Evers realize that Hauser today is not the shortstop that Tinker is, but they have also become impressed with the statements of Tinker and believe that he would not be as effective with the Cubs as if he were allowed to elsewhere. They also figure that the youth of Hauser is in his favor and believe that he has many more years of baseball left him.

Huggins can get along very well without Hauser, but he does need a third-outfielder to short, or send Smith there, but he needs a third-sacker, and if he went through with the deal he would have two in Grant and Philan.

national League; W. M. Kavanaugh, of the Southern League; F. R. Carson, of the Central League, and M. E. Justice, of the Central Association. Rumors sent Hugh Duffy to manage a list of clubs ranging from the New York American League team to St. Paul, Minn., and back to Newark, N. J., and concluded with admitting that he was signed by no one.

A committee was appointed today to recommend before Jan. 1 a schedule of maximum individual salary limits, the association being unable to agree on such a schedule.

The deal to send Charles O'Leary from Indianapolis to Providence, was closed today by Detroit, waivers having all been secured. Toronto let one man go today when Pittsburgh, in the Eastern Association, bought Catcher Sam Curtis. Catcher Charles Schmidt, of Providence, was sold to Mobile by Detroit.

"Iron Man" Joe McGinnity, of Newark, has bought the Tacoma Northwestern League team. Infielder Ed Gagner, of Indianapolis, was sold to Newark, and Lathers, of Providence, goes to Minneapolis.

City Hockey League Meeting Tonight

The election of officers for the new city hockey league will take place at the meeting to be held at the Tecumseh House at 8 o'clock this evening. It is the intention to form a six-club circuit and play the games in the Westminster rink if suitable arrangements can be made. The league will be conducted on a different principle than the city leagues of the past, but will be just as fast. The city is full of excellent material for a league of this kind, and it should prove the fastest organization in the city outside of the O. H. A. teams. A cup will be donated as soon as the league is formed, and it is likely the schedule will be drawn up to start as soon as the ice comes.

Representative and teams and those interested in hockey matters are requested to turn out to the meeting this evening.

ST. MICHAEL'S PLAYED FIFTEEN MEN AND NOBODY NOTICED IT.

There was an odd happening in the last Muelock Cup game between St. Michael's College and Dental College, which St. Michael's won. Father Carr, in looking over the list of players for the next game in the semi-finals, accidentally discovered that fifteen men had been untingly used by St. Michael's against Dental. He immediately notified the committee and asked to have the game replayed. The odd part of it is that neither the referee, Art Gray, nor the Dents, nor St. Mike's themselves, knew at the time that there was an extra man on the field. The game will be replayed on Monday. If Dental win it will result in a three-cornered tie between St. Michael's, Dents and Victoria.

OTTAWA PREPARING FOR BIG RUGBY GAME

Large Crowd Is Expected, Although High Prices Are Much Criticized.

VARSITY IS THE FAVORITE

Ottawa Fans Hope to See McGill Win But Are Betting Their Money on Blue and White.

Ottawa, Nov. 14.—Clearer and colder atmospheric conditions are promised for tomorrow by the weather man, and the Varsity and McGill teams are likely to have a fast, hard field for Saturday's big game for the intercollegiate championship. It rained early this morning, but stopped in the afternoon, and tonight the weather is crisp and cool. Messrs. Gray and Reid, of the Varsity and McGill teams, inspected the field today, and are arranging to have several loads of sawdust at the grounds to be used in case of rain Saturday. There is a baseball diamond in the centre of the gridiron, but unless it pours the teams will fight on a very good footing. The plan opened here this morning, and the rush for seats was remarkably large in view of the fact that both are outside teams.

Prices Criticized.
There has been considerable criticism because of the prices, but the clubs are sure of an excellent crowd, providing the weather is fair. Chief Ross says that he will allow the students a certain amount of grace, but that they must not damage property or interfere with the traffic. The hotels and stores are preparing for a red letter day, and already big streamers of red and white and blue and white are in evidence everywhere.

There has been considerable betting so far, and the majority of Varsity backers have been compelled to give odds. The Varsity team made a grand showing when it faced Ottawa College here in previous years. McGill has not played here this season, hence the installation of the former as favorites.

Sympathy for McGill.
Then, again, sympathy is strong in the Capital for McGill, yet the local sharps have seen Varsity triumph on so many fields of late that tradition makes them the logical choice as winners on Saturday. The local newspapers have been inclined to commend Varsity's great strength is feared.

Reports of injuries from both camps are not being taken seriously. The majority of the Ottawa players call Varsity to win from McGill and to give the Argonauts a severe drubbing in the championship final. One of their executive officers, in fact, remarked tonight that he expected to recuperate for his losses on the Ottawa-Argonaut matches by backing Varsity should they qualify to play the Garsmen in the championship final. Ottawa seconds have refused to play the Kingston Cadets at Kingston Saturday. They claim that they are entitled to the semi-final here and will default rather than play at the Limestone City.

We Won't Crowd You

Some stores think it right to "push" clothing on a man, but many a customer resents pushing. Not getting what he wants, or getting what he doesn't want, he never goes back. Thereafter he goes elsewhere. This Live Store doesn't let a possible dollar escape that can be cornered decently, but we'll not "push" you. We won't need to "push" you to buy when you see the dresy 45-inch Coat with velvet collar, worth \$15, that we offer for \$10—Remember, they're odd sizes—maybe we can fit you—maybe we can't.

The Week-End Specials....

We're not giving you the former price—We want you to see the goods, then you'll know that they're worth more.

The Live Oak Hall

The oldest Ford is yet a young car—with a surplus of 'go,' strength and power. Slow depreciation is a big factor in the economy of Ford maintenance. A long life—and a useful one—is the Ford's unforfeitable birthright.

Every third car a Ford—and every Ford user a Ford "booster." New prices—run about \$675—touring car \$750—town car \$1,000—with all equipment, f.o.b., Walkerville. Get catalogue from Ford Motor Company of Canada, Limited, 29-3-5 Dundas street, London—or direct from Walkerville.

POLICE TO SUPPRESS ROWDY STUDENTS

Ottawa Officials Getting Ready for McGill and Varsity Routers Who Go Too Far.

Ottawa, Nov. 14.—Chief of Police Ross will increase his patrol staff Saturday from morning until late in the evening, and be generally prepared for any outbreaks on the part of the University of Toronto and McGill students, who will flood the city for the intercollegiate saw-off.

"The students will be given a fair amount of latitude and allowed to parade the streets, sing and cheer, but just as soon as they attempt to destroy property or assault citizens they will be arrested. The boys can have all the fun they want so long as they keep within the law," was the way the chief put it. "Twenty-four hours' rain, snow and sleet has left the park in bad shape today, and as the prognostications call for a continuance of unsettled weather, McGill and Varsity may be expected to battle on a slippery field. No matter how bad the overhead conditions may be, Lansdowne Park will always offer fair footing, the sandy soil absorbing moisture like a sponge."

BUFFALO WILL ERECT BIG HOCKEY ARENA

Canadian Capital Behind Scheme To Put Bison City on Hockey Map.

Ottawa, Nov. 14.—Dr. Eugene Galvin is back in town, not as coach of the football club, but as promoter of a new artificial ice arena to be erected in Buffalo, N. Y., next summer. Practically all the capital has been subscribed by Buffalo and Toronto people, and it is stated that Charlie Richardson, the well-known Cobalt mining man, has a big interest in it. Buffalo, like Syracuse and other northern American cities, has the hockey bug, and Dr. Galvin thinks the project will be a great success.

TERMS ASKED BY TURKS TO GO BEFORE THE ALLIES

**Bulgarian Government Will Not Consent to an Armistice Until
Proposals Have Been Considered—End of War
Close at Hand.**

London, Friday, Nov. 15.—Bulgaria has received the Turkish request for mediation, and the reply from that aggressive little state is that this request will be received at the headquarters at Sofia, and that the matter will be discussed with the cabinets of the allied Balkan nations.

The note from Constantinople reads: "The Ottoman Government, having approached the great powers of Europe to ask their mediation, we are charged to inquire of your excellency if Bulgaria is disposed to accept this mediation, and if so, to what condition her acceptance will be subjected."

It is understood that Kiamil Pasha, who has all along favored mediation, has come to King Ferdinand of Bulgaria directly, asking for the conclusion of an armistice pending the negotiation of peace preliminaries. Turkey has not yet told the world what terms she has proposed. If Bulgaria is to accept any terms, however, they must, in the opinion of diplomats, be unlimited. Bulgaria, say the military men, will not consent to any terms that do not give her the full fruits of her victories.

Cholera Epidemic.
One reason, however, which may induce Bulgaria to consent to an armistice and to a peace settlement is fear of cholera. Official reports issued at Constantinople represent that comparatively few cases are occurring daily, but other reports state that the epidemic is serious, with a high mortality.

The censorship is again exceedingly severe, and it is difficult to arrive at any correct idea of the military position. The fall of Adrianople is rumored from both Servian and Turkish sources, but this is still unconfirmed.

Another report says that the Bulgarians have occupied Hademkeul, 21 miles from Constantinople. If this is true it is a very important capture, as that town is Nazim Pasha's staff headquarters.

Little Fighting.
While the Vienna Reichspost correspondent with the Bulgarian army reports what he describes as "murderous fighting" along the Tchataldja line, Turkish official reports deny that there has been any serious fighting there for several days.

A report through Bucharest places the Bulgarian losses in the war at a far greater figure than has yet been estimated. According to this report the killed and wounded number between 60,000 and 80,000 out of a total of 320,000 men, and it is pointed out, after allowance is made for holding the line of communication, only 150,000 effective men are left for fighting.

Russia Withdraws.
Throughout Europe the impression prevails that Russia, overawed by Austria's show of force, had withdrawn from her high horse, doubtful of the support that she was likely to get from England and France in view of the threatening attitude of Austria and Germany.
Bulgaria, who has borne the brunt of the fighting, it is predicted, will get the Turkish Province of Roumania, and a share of Eastern Macedonia, Albania, the suburbs of Constantinople, and the provinces of Bulgaria, and the provinces of Austria and Serbia, will, it is expected, be transformed into a semi-independent kingdom under a nominal Turkish suzerainty, such as prevailed in Bulgaria until the year 1878.

A Turk Surrender.
Belgrade, Serbia, Nov. 15.—Another Turkish force hoisted the white flag and surrendered to the Servian cavalry near Monastir yesterday.
The Servians attacked the Ottoman troops at Dobrunsk, about five miles to the northeast of Monastir, and in spite of a gallant fight succeeded in dislodging the Turks' advanced posts from their strongly entrenched positions.

LORD LANDSDOWNE TELLS OF UNIONIST POLICY

**Says When in Power First and
Main Item Will Be Tariff
Reform.**

London, Nov. 15.—At the Unionist demonstration last night the Marquis of Lansdowne spoke of the Unionist policy as follows:

"The first item of the Unionist policy is tariff reform. If the Unionists win in the next election, as I believe they will, they must be free to raise taxation and to meet the enormous and grossly underestimated obligations they will inherit."
Lord Lansdowne emphasized that the Unionist party was most anxious to give the dominions a voice in the councils of the nation, and that they should co-operate in providing her defenses.

A Duty on Grain.
He went on to say that the Unionists must also be free to meet the dominions half-way in regard to reciprocal trading.

"What we shall give them," he said, "must to a great extent depend on what they ask. Each side will no doubt think most of its own people, but both sides will, I hope, think of the empire. If, when the time comes, the great dominions ask us to grant them, in return for substantial advantages which they will be prepared to give us—if they ask us to grant them a moderate duty upon foreign wheat, sufficient to bring into our markets the great and unlimited granaries of all Canada and Australia—we shall not be deterred from examining their proposal by any statement that it will involve the taxation of food."
The Unionists, the speaker continued, are ready to undertake to specify precisely the limits within which they would resort to tax-

The Turks retreated and were pursued as far as the village of Morabi, close to Monastir, by the Servians, who surrounded them there and poured in such a heavy fire that the Turkish officer in command decided that it was useless to continue fighting and ordered his men to throw down their arms.

The advance of the Servian army has been temporarily stopped by floods.

CHOLERA IN RANKS OF BOTH ARMIES

Dread Plague Devastating the Regiments of the Sultan.

Constantinople, Nov. 15.—The cholera epidemic among the Turkish troops holding the line of fortifications at Tchataldja, in front of Constantinople, is rapidly becoming worse. Over 500 cases are reported daily, and the total number already exceeds 6,000.

Whatever hopes the Turks may have held of maintaining the line of defenses at Tchataldja have been dissipated by the outbreak of cholera. An eye-witness declares that he saw 263 corpses buried in one big trench at Hademkeul, the headquarters of the Turkish commander-in-chief, on Tuesday. The bodies were dragged to the spot on hooks, and dropped to the trench, which was not nearly deep enough for the purpose, the covering of earth being very shallow.

While cholera is undermining the Turkish defenses, it also at the same time constitutes a most formidable opponent to the Bulgarian advance, and it is generally believed here that the outbreak has disposed of the question of even a temporary occupation of Constantinople by the Bulgarian troops. It is thought unlikely that King Ferdinand of Bulgaria will risk the lives of his soldiers in this way if he can avoid it.

It is stated on good authority that the cholera has already appeared among the Bulgarian troops. This would not be at all surprising, seeing that the disease occupies the positions where the disease claimed its first Turkish victims.

FIGHTING BEGINS AT MONASTIR

**Servians Marching Through Albania
Meet With Little Resistance.**

London, Nov. 15.—Fighting has commenced at Monastir, according to an Upskip dispatch to the Daily Mail. The Servian forces, marching through Albania to the Adriatic, are meeting with little opposition, many places being occupied without firing shot.

A Daily Mail dispatch declares that one of the ministers is authority for saying that 390 deaths from cholera occurred in one Turkish camp at Hademkeul Wednesday.

An uncensored Daily News dispatch from Constantinople, by way of Constantza, says:

"The Government is flying in the face of Providence by bringing cholera-infected troops from the Adana district in spite of the protests made by the railway company. They have been sent to Tchataldja, where, as elsewhere, the officers make not the smallest effort to secure sanitary precautions, even in the camp."

"Steamers have been chartered to take 25,000 men and munitions, and the officers make not the smallest effort to secure sanitary precautions, even in the camp."

The total Turkish losses in Thrace, according to the Constantinople correspondent of the Times, number 35,000 killed and wounded, and 20,000 missing.

The Tchataldja lines are held by 60,000 troops, most of whom are demoralized. At San Stefano and Hademkeul, there are 20,000 first reserves, who present a smart appearance, but who have not yet been engaged.

"The Austrian and German military preparations in Pera," continues the correspondent, "excite interest and awe. Not only are Krockers Hotel and the Austrian embassy held by strong guards landed from the warships, but the flat roof of the German embassy is admirably protected against an aeroplane attack by Maxim guns and a sand-bag cover, and another Maxim guards the port's lodge."

"Many regard this military parade with discreet mirth, and think that the energy would better be bestowed in measures of sanitation against the cholera."

A Sofia dispatch to the Times says that the Bulgarians are bringing 450 heavy guns to bear on the Turkish positions on the Tchataldja lines.

action of that kind, and they would not exceed those limits without further authorization from the country. Moreover, the revenue raised by that means would not be treated as ordinary revenue, but would be applied to alleviating the burden of the workers.

ASTOR OF AGE

**Takes Over Father's Fortune of Eighty
Millions of Dollars.**

New York, Nov. 15.—Today was Vincent Astor's 21st birthday and he took legal and official title this morning to the fortune left by his father, Col. John Jacob Astor, who was lost on the Titanic. The total amount of the estate is estimated at \$80,000,000, of which Vincent Astor receives approximately \$67,000,000.

AIRMEN MADE GOOD.
London, Nov. 14.—The great value of aeroplanes in war has been proved by the Bulgarian army.

That the murderous work of the Bulgarian artillery is due to a great extent to the activity of their airmen is now demonstrated in letters received from the front.

Any attempt by war correspondents to telegraph news of the employment of flying machines by the Bulgarians during the operations has met with very severe censorship, but stories are beginning to filter through showing that remarkably effective work has been done by the army which passed through its baptism of fire in Tripoli.

DEATH OF PRELLATE.
Naples, Nov. 15.—Cardinal Alphonse Capececiattro, archbishop of Capua, died yesterday. He was born in 1824, and was created cardinal in 1885. He was librarian of the Roman Catholic Church.

A Border of Money-Saving Bargains

Help pay your coal bill by saving good money on these genuine bargains in wanted cold weather goods. Read the border of bargains. Every item is interesting because it speaks of real savings. Come Saturday morning if you can.

Overcoats From Canada's Foremost Tailor Shops

What do you expect in an Overcoat? Good style, a perfect fit, a pleasing color and good tailoring, will likely be your answer. And in all these we can satisfy the most particular man, with the addition of unequalled variety and UNEQUALLED VALUES.

"Society Brand" Overcoats

Designed by the highest-priced artist in America, and tailored by the best craftsmen in Canada from exclusive patterns and colors in fine British fabrics, these Coats admit of no competition in the trade. To see such models as the "Standard," a 46-inch Chesterfield, the "Stormfair," a 50-inch belted two-way coat; the "Leigh," a REAL Raglan, and the "Sheridan," a swagger pleated-back model, is to acknowledge their supremacy. The prices are interesting in their reasonableness. **\$18, \$20, \$22, \$25**

Popular-Priced Overcoats

Unusually interesting is our showing of Coats at the more moderate prices, because we've duplicated in many of the lines the very fabrics shown elsewhere at much more money. And from the lowest price up we've been as careful of the fit and the style as we have in the \$25 Coats. Two-way Coats with or without belts, either single or double breasted, and regular collar models, in browns, grays, tans, mixtures and rich blacks. **\$8.75, \$10, \$12.50, \$13.50, \$15, \$16.50**

Coat Sweaters

New arrivals daily, with and without new Triplex collar, including dandy showing of boys' sizes, 98c, \$1.48, \$1.98 to \$4.50

ENGLISH CARDIGAN JACKETS—Special importations in all sizes at. **98c, \$1.25, \$1.50 to \$3.00**

'Monarch' Shirts

Monarch and Arrow Shirts from Cluett, Peabody Co.'s Canadian factory, at greatly reduced prices. **\$1.25, \$1.50**

HOLIDAY NECKWEAR—Already big sales of this early showing of handsome neckwear. **50c and 75c**

Perrin's Gloves \$1

Third repeat order on this famous Unlined English Cape Glove. Regular and Cadet sizes 7 to 10. **\$1.00**

Perrin's Special Elk Tan \$1.50
FLANNEL SHIRTS—Fine qualities for business in plain colors and stripes, with separate collars. **\$1.50 to \$2.00**

LAW IS NOT SORRY OVER HOUSE RIOT

Says He Did Not Attempt to Stop Tumult in Commons and Does Not Regret It—Determined to Wreck Home Rule Bill.

London, Nov. 14.—Mr. Andrew Bonar Law, leader of the Opposition in the House of Commons, speaking at a big Unionist demonstration in Albert Hall tonight, said that he did not regret last night's disturbance in the House, and did not try to stop it.

While he would rejoice if a way out of the difficulty were found possible by the speaker's intervention, it would not end the crisis. The Government was trying to do what it had no moral right to do, and the Opposition would continue its endeavors to wreck the home rule bill in the House of Commons.

Sees Civil War.
If the bill should become a law the Opposition would surely wreck it, and it was the intention to press for the reference of the bill to the electorate for their judgment, and thus prevent the degradation of the House of Commons.

SURGEONS' CONGRESS TO FIGHT AGAINST PLAGUE OF CANCER

Will Start a Crusade of Publicity Through the Press.

[Canadian Press.]
New York, Nov. 15.—With the statement that practically 25 per cent of women afflicted with a form of cancer peculiar to the sex can be cured permanently if the disease is treated in its early stages, the Clinical Congress of Surgeons at its meeting last night, in the Academy of Music, Brooklyn, took steps to start a crusade of publicity throughout the country, which, it is believed, will help largely to check the ravages of the unusually fatal malady. A committee of five of the leading gynecologists of the country were appointed to begin the fight at once, and to report at the next congress.

TOO GENEROUS TO FIT HIS SALARY

**Father Objects to Son's \$50
Gift to Sweetheart On a
Weekly Wage of \$7.**

Windsor, Nov. 14.—Judge Smith, in division court here today, devoted several hours listening to the love story of Laura White, 17, of Walkerville, and Aldrick Adam, 18, son of a Windsor grocer.

Young Adam presented a \$50 armchair to his sweetheart some time ago, and when the boy's father heard of it he declared the chair must be given up immediately. Miss White, however, decided that inasmuch as the furniture in question had been presented to her it was her rightful property, and she declined to entertain the proposition from Adam, son, looking to its return.

It developed in court today that the youthful swain is paid \$7 a week by his father, that he has no other means, and that under the circumstances the \$50 gift was highly out of keeping with the general state of his finances. Judge Smith will decide next week who owns the chair.

PETER LYALL DEAD.

Montreal, Nov. 14.—Peter Lyall, the head of the great construction firm of Peter Lyall & Sons, lies dead here, after a long illness. Mr. Lyall was born in Caithness, Scotland, in 1841, and came out to Montreal in 1870. He was for two years president of the Montreal Caledonian Society, and had given large sums to charity.

NANTEL EXPLAINS HIS NAVAL VIEWS

He Is Agreeable to a Contribution If an Emergency Proved.

IS AGAINST PLEBISCITE

Minister of Inland Revenue is Stumping for Hon. Mr. Coderre at Montreal.

[Canadian Press.]
Montreal, Nov. 15.—Hon. Bruno Nantel, minister of inland revenue, was the chief speaker last night at the Point St. Charles meeting held in the interest of Hon. Mr. Coderre, who is seeking re-election in Hochelaga, after his appointment as Secretary of State. Telling how he stood on the naval issue, Hon. Mr. Nantel said:

"Some thought no emergency existed. He had formerly held that opinion, but he was open to conviction, and if emergency were proved, he was ready and willing to vote for an emergency contribution. Regarding a plebiscite, he said he was not in favor of such a proceeding, as in part it must necessarily be based upon certain documents from the British Admiralty, which could not be placed at the disposal of the electorate."

"I believe the best help Canada can give the Empire is by developing her own territory, and that she has no other military obligation than that of the defence of her own territory, as British statesmen have themselves said. Canada, a young country, having vast public works to accomplish, must employ all her resources to her own development and defence."

"Therefore, I am opposed to any kind of contribution to the general expense of the imperial army and navy, on the direction of which we have nothing to say."

INCINERATOR WILL COST ABOUT \$40,000

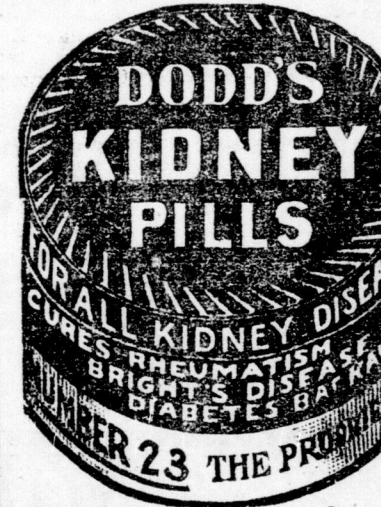

Total Building Permits for the Month Are \$70,650—A Big Increase.

The permit for the construction of the local incinerator was issued this morning by Building Inspector Piper. It calls for a three-story brick building, to cost \$38,875. This does not include the chimney, which will run the cost up above \$40,000. It will be erected on Waterloo street south.

The total permits for the month now reach \$70,650, as against \$26,400 for November, 1911.

The total for the year has now reached \$1,067,591, as compared with \$1,036,880 for all 1911.

Last year the highwater mark in building was reached, and it was thought that 1912 would not exceed it. However, the permits for 1912 are \$31,000 in advance, with a month and a half to go. "We should reach a million and a quarter," said Building Inspector Piper. "If we do not, we will be much ahead of last year in any event."

REPORT ON L. AND P. S. R. IS GROSSLY MISLEADING

Expert Shows an Ignorance of Elementary Facts—How He Blundered in His Reference to Traction Company—Made No Inquiry.

In a reference in yesterday's edition to the expert's report on the London and Port Stanley Railway, it was shown that the expert placed at \$765,311 what the city clerk's year book for 1912 placed at \$2,010,186.81. The expert based his whole calculations on this misstatement. It was pointed out that neither statement gave the whole facts, because it left out of the calculation the sixteen years from 1886 to 1902, when the city ran the road at a total loss, and the ten following years, when the income under the lease would be \$20,000, or under the road, \$40,000, or under the traction company, \$80,000. He is trying to minimize the loss to the city.

Misleading Figures. Equally unfair is his reference to the London and Lake Erie Railway and Transportation Company. He says as follows:

"It might be interesting to compare the operating statistics of the London and Lake Erie Railway and Transportation Company with the above. It will be noted that the London and Lake Erie Railway and Transportation Company operate between London and Port Stanley with a length of main track approximately 15 per cent greater than that of the London and Port Stanley."

"The equipment in use consists of twelve passenger cars (closed), ten freight cars and two work cars. They carried in 1910, 637,861 passengers, and 5,311 tons of freight, from which they obtained a revenue of \$103,835.50 for passengers and \$12,513 for freight, together with

miscellaneous earnings, giving the gross earnings of \$122,888.92. Their total operating expenses, including general expenses, rentals, insurance, etc., were \$77,698.78. "The above expenses do not include fixed charges on capital."

"The above capital amounts to \$2,700,000, of which \$2,000,000 is in stock and \$700,000 in bonds. This makes a capital expenditure of \$93,103.44 per mile."

The Facts. He is a beautiful expert, whoever he is. The report is not signed, no wonder. It is grossly misleading. If he had inquired he would have ascertained that \$1,300,000 of the capital stock authorized was held for extensions of the road. He would also have ascertained on inquiry that every dollar above the amount required for interest on bonds, and thousands of dollars besides went into the expenditure necessary to complete the road and equip it.

The road and equipment are far from completed. If the expert had inquired, too, he would have found the management of the London and Lake Erie fully alive to the necessity of straightening the road between St. Thomas and Port Stanley, and so taking away the 15 per cent difference in length he refers to. It was their intention to do so.

But it apparently didn't suit the expert's purpose. Make the cost as low as you dare of the London and Port Stanley, even to less than 20 per cent of the real amount. Make the London and Lake Erie appear as bad as possible.

What Do the Ratepayers Think? Why did he not draw public attention to the small freight earnings of the electric road, as compared with the large freight earnings of the steam road?

It didn't suit the expert's purpose. Yet for 56 years it has been the object of the steam road to keep down freight rates.

What do the taxpayers think of such a report? Don't they think they have paid enough, when, during 56 years, they have paid approximately \$4,000,000, or nearly over \$50,000, and daily over \$200?

Do they want to be trapped into further unnecessary taxation on that score?

WATER DISCHARGED ON PLAINTIFF'S LAND
Writ issued on Behalf of John Powell Against George Hicks and Wife.

J. W. G. Winnett, acting for John Powell, has issued a writ against Geo. Hicks, a contractor, residing at 40 Miles street, this city, and his wife, for damages for wrongfully discharging water into the plaintiff's premises. In the writ the plaintiff also questions an injunction restraining the defendants from discharging any more water on his land, as well as mandamus commanding the defendants to build a line fence in accordance with the award of the fence viewers of Aug. 21, 1912.

HUNSAK GUILTY.
Medicine Hat, Alta., Nov. 15.—Before Mr. Justice Stewart, Mike Hunsak, charged with the murder of A. L. Rediff, on Sept. 22, was found guilty of manslaughter after one hour's deliberation by the jury. Hunsak will be sentenced before court adjourns.

Toronto, Nov. 15.—Philip Kaufman, who was driving the automobile which killed William Stein at John and Queen streets last May, was this morning found guilty of manslaughter by a jury in the assizes court. He will come up for sentence at the end of the sitting.

NA-DRU-CO Tasteless Preparation of Cod Liver Oil

This Na-Dru-Co Compound embodies the well-known nutritive and curative elements of Cod Liver Oil—Hypophosphites to build up the nerves—Extract of Wild Cherry to act on the lungs and bronchial tubes—and Extract of Malt, which, besides containing valuable nutriment itself, helps the weakened digestive organs to assimilate other food.

The disagreeable taste of raw Cod Liver Oil is entirely absent, and the Compound is decidedly pleasant to take. In 50c. and \$1.00 bottles, at your Druggist's.

30 NEW MEMBERS FOR THE Y. M. C. A.

Annual Fall Banquet Was Held by the Boys in Gymnasium Last Night.

"NATION'S YOUNG MEN"
Rev. Mr. Norwood's Address to the Lads—A Strong Plea to the Boys to Follow Right Path.

The annual fall banquet of the Y. M. C. A. which was held in the gymnasium of the institution on Thursday evening, was a great success. Over 160 boys and their friends were in attendance and the banquet purposes they are divided into three teams, each of which are vying with the other in a battle to increase the membership roll. The result of last night's gathering added 30 new members.

The varied menu presented was much to the boys' liking, and was provided by the ladies' auxiliary. During the banquet the London Male Chorus rendered some fine musical numbers.

Rev. Mr. Norwood's Address. Rev. R. W. Norwood, rector of the Croydon Memorial Church, gave a masterly address on the subject, "Our Nation's Young Men." He stated that the world did not require the kind of young men of the type who erected Babylon and Nineveh, and possessed the kind of civilization which Christ came into the world to destroy, but the world did require that type of manhood which would have the Bible as the foundation of their lives. This latter type of man was the kind which would place Canada chief among the nations.

Though American by birth, Mr. Norwood stated that he left his native country when he first entered the ministry. He felt the future greatness of Canada, and since he had lived here he has gloried in the privilege of being a Canadian citizen.

A Strong Plea.
He advocated that all young men should turn to and be guided by the Man who was chosen Master and Director of the Christian civilization. If they refused His call there was an alternative.

The leaders of the three teams were then called upon to inspire their respective teams to victory, and were given hearty applause. Mr. William Turnbull, president of the Y. M. C. A., gave a short address, emphasizing the "Y" and its object. The selections rendered by the London Male Chorus were much appreciated.

The hour spent with Sidney Hamilton, the entertainer, was one round of enjoyment. A master of pathos, music and mystery, the entertainer provided some splendid wholesome amusement for the guests.

GRAIN TARIFFS FOR EXPORTING

Railway Rates to United States Are Filed With the Government.

A BIG AMERICAN CROP
Canadian Shippers Will Meet With Unusually Large Competition This Year.

Ottawa, Nov. 14.—The Canadian Northern Railway has just filed tariffs with the interstate commerce commission at Washington, comprising export rates on Western Canadian grain from western points to Duluth and Minneapolis. The rates will come into effect on Dec. 9, and the Canadian Pacific Railway rate, notice of which was filed some time previously, will come into effect on Dec. 2. The Grand Trunk Pacific rate, which is applicable to Minneapolis and Duluth, will be in effect on Dec. 1.

The C. N. R., when approached by the Department of Trade and Commerce in the first instance, declined to file rates until it was certain that their own Canadian grain elevators would be filled. It is believed, however, that the company has realized that the danger of congestion at terminals calls for an outlet through American channels.

For Export Only.
The rates in question apply simply to grain for export purposes, and not for domestic consumption in the United States. In this connection the latter concession, which was granted after strong representations from the Canadian Government, was last year responsible for a heavy southern movement on account of the amount of tough grain throughout the provinces which could not find a ready market. On account of the superior quality of the western grain this year it is believed by the railways that the percentage of the whole crop offered for shipment to the south will be considerably lower than in 1911.

The spring wheat crop of Minnesota and the Dakotas is estimated this year at 220,000,000 bushels, which is said to be a hundred million bushels more than was ever produced before in these states. It is contended, therefore, that there will be a heavier export movement than usual competing with the export wheat of Canada in the markets of the world.

In view of their experience of last year in moving the grain, it is claimed that the C. P. R. will be in a better position to move the grain along the north shore line after the close of navigation than it was last year. More elevator capacity at the head of the lakes, more motive power, and more cars incline the railway to believe that a less amount of grain than last year will have to seek an outlet to the south.

Insurance Rates.
The promise made by Hon. Robert Rogers, that navigation would this year be kept open for a longer period than usual on the great lakes, appears very unlikely to be fulfilled. Preparations have been made for aids to navigation, but the stumbling-block lies in the fact that the insurance companies have so far refused to extend their policies beyond Nov. 15. Mr. Richard Grigg, trade commissioner, met a large delegation of insurance men, grain exporters and shipping men at Montreal yesterday, when every

BRIDGE TENDERS ARE TOO HIGH

City Will Likely Change West London Plans to Reduce the Cost.

SEWER REPORT LAID OVER

Engineer Macgregor's Findings on a Storm Water System Will Be Dealt With Later.

The report of Engineer A. E. Macgregor on storm sewers was not presented to the board of works last evening. It was ready, but the aldermen thought it better to lay the matter over until next week.

The tenders for the West London bridge were not opened at the meeting. Two were presented. Ald. Moore, City Engineer Brazier and City Clerk Baker were instructed to open them at their convenience, and send them back.

Tenders Too High.
"The tenders are too high," explained Mayor Graham. "From what the agents have told me, the prices will run between \$40,000 and \$45,000. The bridge we tendered for was not the one we want. For instance, the roadway was to be 20 feet across, with a 6-foot walk for pedestrians on each side. In addition, the span was to be 270 feet. Now that we have got into the thing we find that we have not enough money for such a structure, and we should send the tenders back, and call for new offers for a bridge we can build. One foot path is sufficient, and the roadway should not be more than 18 feet wide. The span can be shortened to 240 feet, I am informed."

Heavy Weight On the Stomach

Stuart's Dyspepsia Tablets Remove It and All Other Forms of Indigestion Quickly.

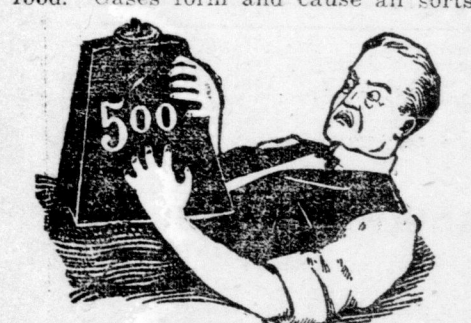

This awful feeling as though there were a heavy weight on your stomach—as though you had swallowed an enormous lump of lead—is caused by the failure of your stomach to thoroughly digest your food. You may have eaten too fast or too much. Your stomach may be overworked, and tired out. It is too weak to produce enough of the digestive juices necessary to take proper care of the food. Gases form and cause all sorts of agony. The stomach demands more pepsin, hydrochloric acid and other digestive agents which it is unable to secrete.

Medicines are not only worthless in cases of this kind, but are actually injurious to the whole system. It is sheer lunacy to pour a lot of vile stuff into the stomach—drugs that have no digestive power whatever.

Stuart's Dyspepsia Tablets contain ingredients that not only bring quick relief to indigestion sufferers, but actually digest the food for the stomach. One of these little magic tablets taken after each meal will rest the stomach, revitalize the secretory glands, strengthen the muscular walls—in fact, tone up the entire digestive system.

No home should be without Stuart's Dyspepsia Tablets constantly on hand. They stop all forms of indigestion, such as sour stomach, belchings, heartburn, dizziness, burning sensation, brash, etc. After a brief course of treatment your appetite improves. You enjoy your food more. You awaken every morning with a happy disposition. Life looks brighter. Your brain becomes clearer and your eyes sparkle with their old-time snap and twinkle. You are practically a new person.

Stuart's Dyspepsia Tablets are sold by all druggists at 50 cents a box.

No home should be without Stuart's Dyspepsia Tablets constantly on hand. They stop all forms of indigestion, such as sour stomach, belchings, heartburn, dizziness, burning sensation, brash, etc. After a brief course of treatment your appetite improves. You enjoy your food more. You awaken every morning with a happy disposition. Life looks brighter. Your brain becomes clearer and your eyes sparkle with their old-time snap and twinkle. You are practically a new person.

Stuart's Dyspepsia Tablets are sold by all druggists at 50 cents a box.

of agony. The stomach demands more pepsin, hydrochloric acid and other digestive agents which it is unable to secrete.

Medicines are not only worthless in cases of this kind, but are actually injurious to the whole system. It is sheer lunacy to pour a lot of vile stuff into the stomach—drugs that have no digestive power whatever.

Stuart's Dyspepsia Tablets contain ingredients that not only bring quick relief to indigestion sufferers, but actually digest the food for the stomach. One of these little magic tablets taken after each meal will rest the stomach, revitalize the secretory glands, strengthen the muscular walls—in fact, tone up the entire digestive system.

Stuart's Dyspepsia Tablets contain ingredients

Skin Diseases

ARE PAINFUL
AND UNSIGHTLY.

Among the most prevalent are Salt Rheum, Eczema, Tetter, Rash, Boils, Pimples and Itching Skin Eruptions.

These troubles always arise from the blood being in a bad condition and it is absolutely impossible to eradicate them from the system unless you put your blood into good shape. This you can do without the slightest trouble by using Burdock Blood Bitters.

It drives out all the humor from the blood, and makes it pure and rich. Thousands of people have used it during the last thirty-five years and have been cured.

Mr. Robert Gamble, Jones Falls, Ont., says: "I write with the greatest of pleasure to recommend your great blood purifier, Burdock Blood Bitters. My wife and I had itching sores on our face and ears, and tried everything to help them, but found no relief. We saw your B.B.B. advertised and got a bottle, and before it was half gone we both were getting better, and when it was all gone we were cured."

Burdock Blood Bitters is manufactured only by The T. M. B. Co., Limited, Toronto, Ont.

HAYWARD WRECK NOT A MENACE

U. S. War Department Decides
to Let Remains Rest at
Harbor Beach.

IS GUILTY OF PERJURY

Indian Williams, Who Gave False Evidence at Murder Trial, Out on Suspended Sentence.

Sarnia, Nov. 15.—The war department of the United States, which has charge of the navigation on the lakes, will not remove the wreck of the Hayward at Harbor Beach, as the position in which she is lying does not render a menace to navigation. The Hayward went on the rocks there a year ago, and although several attempts to raise her were made, it was necessary to abandon the task. The boat, which was sunk in a collision with the steamer Curlew at St. Clair Lake last summer, is reported to have been removed from the ship channel. Captain McCullough, of Port Huron, was given the contract for taking her away.

Snow has been falling in Sarnia since morning, but only at spasmodic intervals. The vessels that were tied up here yesterday and last night on account of the heavy weather, and the lake, cleared this morning on their up-bound trips. Among those to leave was the Lillie Smith and consort, bound for Spanish Rivers for a load of lumber.

Not an Indian.
Mrs. (Capt.) Michael Ironsides, widow of the late Capt. Ironsides, wishes to deny a report that appeared in the London Free Press, that her husband was of Indian blood. The deceased was one of the best-known and liked marine men on the lakes, and was respected by all. Mr. Ironsides' father was a Scotchman, and one of his ancestors a well-known general of the English army, stationed in India. His mother was a southern woman from south of the Mason and Dixon line.

Four more boys have escaped from the Industrial School at Mimico, according to a telegram received at the police station. A description of the youthful fugitives is furnished, and a request that the authorities keep a sharp lookout for them.

A large number of Sarnia people attended the Majestic Theatre in Port Huron last night to hear Madame Nordica sing. At a rough estimate over two hundred local people were present at the performance. Many of those who attended were disappointed by the pointed with the songbird's offerings.

F. C. Slater, American consul at Sarnia, has received from his Government several descriptions of missing to be associated with relatives. Mrs. Hutchins, of Dorchester, Mass.; Charles Fagen, of Tennessee; Simon Parrot, New York State, and Carson Long, of Chicago, are the missing ones, and back of each disappearance lies a heavy story of human interest.

Williams Guilty.
Joseph Williams, whose false testimony at the recent trial of Steven Kyoshka for the murder of Charles Nahden, caused his arrest for perjury, was tried before Judge Taylor at a sitting of the divisional court here this afternoon and found guilty of the charge against him. He was allowed to go on suspended sentence. The wife and daughter Behea, also indicted on the same charge, will be tried later. Williams appeared to be very happy over his release, and executed a little clog dance as soon as he got outside the courtroom. Very few people were present in the courtroom during the trial, and only one or two Indians.

SHIP GOES AGROUND IN THE ST. CLAIR RIVER

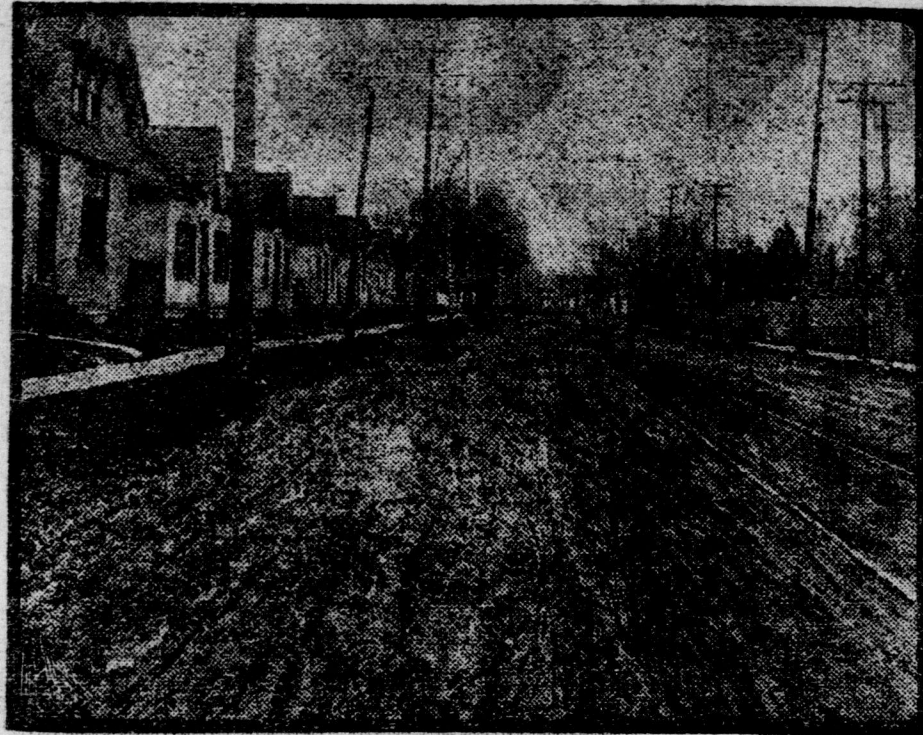

[Special to The Advertiser.]
Sarnia, Nov. 15.—The Collingwood, a steel boat with grain, Capt. Blackwood in command, went aground during the night below the refinery during a heavy windstorm. She was coming down the river, and in attempting to make the turn, struck fast. The boat is now at work trying to get her off. The Lillie Smith and consort started out into Lake Huron Thursday morning, but were compelled to turn back because of the rough weather. The storm was the heaviest the boat had ever put out in.

BERLIN MAN MAY BE HEADED SARNIA WAY

[Special to The Advertiser.]
Sarnia, Nov. 14.—The police here have received a communication from the Berlin, Ont., authorities, asking them to be on the lookout for a man named Gray, who is wanted on a charge of theft.
Two tramps were taken from a train last night and lodged in the police cells.

A STREET THAT IS JUST A MUDHOLE

EXHIBIT NO. 1.

The above cut was made from a photo taken by an Advertiser photographer on Dundas street in West London, just over the bridge, and near the ball park.

MOTOR CAR CAUGHT FIRE CARBURETTER WAS LEAKING

An Auto Owned by Mr. A. W. Heaman Badly Damaged on Dundas St.

A motor car owned by Mr. A. W. Heaman, the coal man, caught fire while the chauffeur changed a tire on Dundas street east last evening, and was very badly damaged. The top, body, three of the wheels, and other parts, being a total loss.

Mr. Heaman had loaned the car to a couple of the employees of a local garage, who went east of the city for a drive. When near the city limits one of the front tires blew out. The carburetter was leaking slowly, but not

noticeably, and when one of the men lit a match to find a valve cap, the gasoline was ignited.

Enveloped in Flames.

The car was enveloped in flames in an instant, the men finding time to save only one spare tire. The body, together with the top, was burned off, and a second later the gasoline tank, containing five gallons of the explosive, caught fire. Fortunately, however, it burned in the liquid, and did not explode.

While the loss is heavy the major portion of the mechanical part of the machine is not damaged. The magneto and carburetter were affected, together with the wiring, but the engine is otherwise ready for work. The drive and rear axles were not damaged.

Cattle and Produce Markets

For Other Markets See Page Eleven

PRODUCE.
TORONTO, Nov. 15.—The market for Ontario wheat is unchanged at 96c to 97c, outside, with little coming forward. Cables lower for wheat and corn. Manitoba wheat weaker, and Ontario rye stronger. Very little doing in Ontario oats. Wheat futures in Winnipeg and Chicago 4c lower. Flour—There is no change in this market, which rules steady. Ninety per cent patents are quoted at \$4 to \$4 10. Manitoba are unchanged at \$5 50 for first patents, \$5 for seconds, and \$4 80 for strong bakers.

Manitoba wheat—Dunnell 4c, bay ports, 4c to 4 1/2c; No. 1 northern quoted at 92 1/2c to 93c; bay ports, No. 2 at 91 1/2c, and No. 3 at 89 1/2c. Bay ports, feed wheat, 85c to 87c; bay ports, Ontario wheat—No. 2 new, white and red wheat quoted at 96c to 97c, outside, and 90c to 92c, outside. Oats—Oats are small, with the market steady. No. 3 Ontario, 55c to 56c, outside, and 54c, on track. Toronto, Western Canada oats quoted at 42c for No. 2, and at 40c for feed, bay ports. Peas—There are buyers outside of No. 2 at \$1 10 to \$1 15. Peas—Trade is quiet, with small offerings. Forty-eight lb barley of good quality, quoted at 85c to 86c, outside. Corn—The market is dull and easier, with No. 2 old American quoted at 64 1/2c, all rail, Toronto, and No. 3 at 64 1/2c, all rail. No. 3, bay ports, 61 1/2c. New corn, December delivery, 55c, Toronto, Rye—The market is higher, with No. 2 quoted at 52c to 54c, outside. Buckwheat—Prices are nominal at 52c to 55c, outside. Bran—Manitoba bran is steady at \$22 1/2c, in bags. Toronto freight, shorts, \$25 50 to \$26.

MONTREAL, Nov. 14.—Provisions were steady. Hog—Dresser hogs—Abattoir killed, \$12 to \$12 25. Pork—Heavy Canada short mess, barrels, 35 to 40 pieces, \$20; Canada short cut, barrels, 35 to 40 pieces, \$20. Cheese—Finest western, 12 1/2c to 13c; finest eastern, 12 1/2c to 13c. Butter—Finest creamery, 30 1/2c to 30 3/4c; second, 28 1/2c to 29c.

CHICAGO, Nov. 14.—Provision varied. Hogs—Lowest to an advance of 17 1/2c. Shorts, who had been hammering provisions, turned to the buying side after the announcement that the packing in the West for the week amounted to nearly a quarter million less hogs than a year ago. There was an irregular close, which averaged about the same as last night. Cash quotations: Mess pork, per barrel, \$16 62 1/2; lard, No. 1, \$11 15; No. 2, \$11 15; short ribs sides, loose, \$10 25 to \$10 62 1/2. Estimated receipts of hogs for tomorrow, 15,000 head.

Open. High. Low. Close.
Jan. \$13 65 18 80 18 65 18 65
Feb. 10 62 10 70 10 60 10 62
Mar. 10 07 10 20 10 07 10 12

DAIRY.
MONTREAL, Nov. 14.—Demand for butter good, but the trade in cheese is quiet. Cheese—Finest western, 12 1/2c to 13c; finest eastern, 12 1/2c to 13c. Butter—Finest creamery, 30 1/2c to 30 3/4c; second, 28 1/2c to 29c.

NEW YORK, Nov. 14.—Butter—Firm; receipts, 4,570 tubs; creamery, 26c to 27 1/2c; do, held, 27 1/2c to 28c; state dairy, first, 32c to 33c; factory, current make, 23 1/2c to 24 1/2c. Cheese—Steady and unchanged; receipts, 1,374 boxes. BROCKVILLE, Nov. 14.—On the cheese board here today, 1,491 boxes were offered, of which 1,334 were white and 155 colored; 139 colored sold at 11 1/2c on the board; balance sold on the street at the same figure with a few exceptions, where fractional advances were secured. With the regulars, the day's sales reached about 3,000 boxes.

POTATOES.
TORONTO, Nov. 11.—Potatoes—The market is firmer, with a fair demand.

GIRLS! GIRLS! SURELY TRY THIS!
DOUBLES BEAUTY OF YOUR HAIR

All You Need Is a 25-Cent Bottle of "Dandierine"—Hair Gets Lustrous, Fluffy and Abundant at Once.

Immediate?—Yes! Certain?—That's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Dandierine hair cleanse. Just try this—moisten a cloth with a little Dandierine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil and in just a few moments you have doubled the beauty of your hair.

A delightful surprise awaits, particularly those who have been careless, noticeably, and when one of the men lit a match to find a valve cap, the gasoline was ignited.

Good stock quoted at 80c to 85c per bag, on track, and New Brunswick, 15c per bag.

HIDES.
TORONTO, Nov. 15.—Hides—The market is quiet, with prices generally unchanged. City inspected, No. 1 steers and cows, 15c per lb; No. 2, 14c, and No. 3, 13c. Country stock, cured, 13c to 14c per lb, and green, 12c to 13c, at outside prices. Lambskins and pelts 50c to 60c each. Calveskins, 12c to 13c here, and at 12c to 13 1/2c, outside. Horse, hides—\$3 50 to \$4 75; horsehide, 35c to 37c. Tallow—Solids are quiet, cakes, 6 1/2c. Wools—Receipts are limited, and prices firm. Dealers pay the following prices: Unwashed, 15c to 17 1/2c, for coarse, 15c to 15 1/2c for fine; washed, 21c to 24c; rejections, 16c per lb, at country points.

GILS.
LONDON, Nov. 14.—Calcutta—Insured, November and December, 55c; insured oil, 54c; sperm oil, 52c; petroleum, 50c. Canadian refined, 54c; spirits, 54c; turpentine, 54c; 100 lb; rosin, American strained, 15c; 75 lb, 14c. Sarnia—Turpentine—Firm, 57 1/2c; sales, 664; receipts, 891; shipments, 1,243 lb. Outside—Receipts, 2,655; sales, 3,500; shipments, 2,170; stocks, 125,600.

STOCKS.
TORONTO, Nov. 15.—Trade here is fairly good, with leading staples firm. Sugars are quoted in Toronto as follows: Cane sugar, 11 1/2c; beet sugar, 11 1/2c. Redpath's, 20-lb bags, \$4 95; do, St. Lawrence, 20-lb bags, \$4 95; extra, 20-lb bags, \$4 95; Imperial, 20-lb bags, \$4 95; No. 1 yellow, \$4 95; unbranded, yellow, \$4 25.

LIVE STOCK.
CHICAGO, Nov. 15.—Cattle—Receipts, 2,600; market steady; beefs, \$5 25 to \$11; Texas steers, \$1 20 to \$1 50; Western steers, \$5 50 to \$9; stockers and feeders, \$4 10 to \$7 15; cows and heifers, \$2 75 to \$7 40; calves, \$8 50 to \$10 50. Hogs—Receipts, 20,000; market slow, 5c to the lower; light, \$7 20 to \$7 90; mixed, \$6 40 to \$7 15; heavy, \$6 30 to \$8; roughs, \$3 30 to \$7 50; pigs, \$5 to \$6 80; bulk of sales at \$7 65 to \$7 90. Sheep—Receipts, 2,000; market strong to 10c; natives, \$3 50 to \$4 65; westerns, \$2 65 to \$4 50; yearlings, \$4 75 to \$6; lambs, natives, \$5 50 to \$7 50; westerns, \$5 75 to \$7 40.

Union Stock Yards.
TORONTO, Nov. 15.—It was fortunate for drovers and dealers who had cattle to sell at the Union yards yesterday that receipts were light. There were 41 cattle, 121 calves, 51 calves, 32 sheep and lambs. It gave sellers an opportunity to dispose of the considerable overflow in the market earlier in the week. There was some revival in trade, especially for good cattle, and stockers were a little more in demand. Good beasts therefore sold at steady prices, while inferior grades, though they sold at sacrifice towards the close of the market, changed hands freely. Several loads of stockers that were bought went to Buffalo. Trade continued active for sheep and lambs. Calves were steady and hogs were steady to firm. Good to choice butchers brought from \$5 25 to \$5 90, medium from \$4 50 to \$5; good butcher cows ranged from \$4 75 to \$5, with common to medium at from \$3 50 to \$4 50, and canners at from \$2 25 to \$3; fair to medium bulls went at from \$3 25 to \$4 25; milkers and springers were about steady, from \$50 to \$55 being paid for them. Stockers and feeders were steady; light stockers went at \$3 75 to \$4 per cwt; lambs ranged from \$6 15 to \$6 40; light ewes from \$4 to \$5 50; bucks and culls from \$2 to \$3 50; good calves from \$7 to \$9, with roughs at from \$3 25 to \$5; hogs were steady, except for a few which went at \$8 50; \$8 was paid for the most part, on the fed and watered basis.

EDUCATION IS NOT ADEQUATE

Miss Margaret MacMillan Tells
of Work in the Old
Land.

SCENES IN THE SLUMS

"The Schools of Tomorrow" the Basis
of a Most Interesting Address
at the Normal.

"The Schools of Tomorrow" formed the basis of a most vitally interesting lecture given last night by Miss Margaret MacMillan, of London, England, in the Normal School, to members of the Women's Canadian Club. Miss MacMillan is a most convincing speaker, and drove home many truths about the inadequate methods of educational systems of the present day. Illustrating her address with lantern slides, Miss MacMillan was able to present to her audience a vivid picture of the miserable conditions existing in many homes of the poorer classes in England, and the efforts being made by herself and colleagues to better the mental, physical and moral health of the children from these homes.

Most Adequate.
"The function of the educational system of yesterday, does not satisfy us today, and the education in our schools today is not adequate for tomorrow's needs," said Miss MacMillan. "In England our system is laid by men with every advantage—men from Cambridge and Oxford, yet it is founded on ignorance. People are passing an enormous sum of money for an education not worth having. And that is not only true of England, but also of every civilized country."

Miss MacMillan then proceeded to explain her theory of education, stating that as a child's entire powers depended upon its nervous system, it was necessary, first of all, to build that up into proper shape, and once having established a child's health then follow with mental training. Medical inspection alone was not satisfactory. "In England we pay £160,000 to inspect school children; but inspection does not cure them. I am convinced that dirt is at the bottom of two-thirds of all disease, and that lack of food, especially of the right kind of food, is the second great source."

Work in England.
The speaker told of commencing this work in Bradford, England, while a member of the school board there, and of coming later to London, where she opened a "health-centre" school. In England, one of the great city's worst slums.

Several of London's greatest physicians became interested in her work, and by their influence an act was passed calling for compulsory medical inspection, and stipulating that a new department be created, whose sole work would be the physical education of London's children. Investigation revealed some alarming facts about the health of thousands of slum children, and Miss MacMillan is now allowed a grant of £6,000 a year to further her mission of healing and teaching.

Scenes in the Slums.
The pictures shown by Miss MacMillan were excellent, depicting scenes from the Deptford slum, colliery towns of England, and later, the improved conditions of children who had been treated by the clinics in various parts of the country. Swimming baths, outdoor sleeping rooms, and drill for the correction of deformities are included in the work of the health-centres, besides the scientific preparing of food each day for several thousand children.

The speaker urged her hearers to study the needs of the poorer classes here and to fight against disease by establishing a system of education which will look after, not only the mental training, but the physical as well.

ONLY ONE "BROMO QUININE."
That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Cures a Cold in One Day. Cures Grip in Two Days. 25c.

The Elegance of Hygeian Underwear

will make an appeal to your sense of fineness. The elegance of the texture—the beautiful trimming sensibly put on, so that it keeps its beauty throughout the life of the garment—the combined warmth and lightness—all these things go to make Hygeian recognized as the last word in underwear quality. Hygeian has style—it is tailored to fit the form—following the lines of the body closely, enabling one to dress in comfort according to present day fashions.

A BOSTON MYSTERY

Stenographer Found Dead in Bath
Tub of a Hotel.
[Canadian Press.]

Boston, Nov. 15.—The result of the autopsy on the body of Miss Marjorie G. Powers, the 26-year-old stenographer who was found dead in a bathtub in a west end hotel yesterday, was awaited with interest by police officials today. Medical interest in the case was heightened when it was announced that a post-mortem examination had been performed, it would not be determined whether death was due to drowning. No poison or drugs were discovered in the room occupied by the young woman.

Arthur T. Cummings, head of a large produce firm in this city, who registered at the hotel Wednesday afternoon with Miss Powers, who was employed by him, spent the night in a police station. He appeared confident of being released after Dr. Magrath had made his examination report, and declared he was absolutely innocent of any connection with the death of Miss Powers.

For That Cold Room

There's one or more cold rooms in every house. Somehow or other these rooms can never be made comfortable on a cold day.

There Is a Way to Overcome This

Use an Odorless Gas Heater.
Can be connected to any gas fixture.
Heats quickly. Positively no odor. Price, \$2.00 up.

INGERSOLL HUNTERS GOT AN EARLY START

Big Exodus Into Oxford Woods to Get First Shots at the Squirrels.

Ingersoll, Nov. 15.—There was an exodus of hunters to the country when the first streaks of approaching dawn were discernible this morning. The lateness of the squirrel season, while it is undoubtedly most protective for the squirrels, has increased the interest on the part of the hunters, and every one of them eagerly look forward to the first day's shooting. After that very little dependence can be placed in the weather man, and the squirrels usually become so thoroughly panic-stricken by the initial bombardment that success cannot be counted upon.

only three days' distant, and still no action looking to organization, the fans have reconciled themselves to the situation.

Those who relish the real, sparkling "apple juice" in all its original purity will no doubt get something good out of the cider barrel this season. With so many choice apples in the country that are meeting with no demand from the exporters it is noticeable that large quantities are being hauled to the cider mills. In most instances the apples this season that are being reduced to cider are of exceptional quality, and the beverage should have the genuine twang of the orchard.

NAPIER.

Napier, Nov. 15.—The Napier Woman's Institute met Wednesday afternoon at the home of Mrs. Hughes. There was a good attendance of the ladies. A splendid paper on "Music" was given by Mrs. J. Beer. It was decided to have the next meeting at Mrs. Dan McCaw's. A very dainty lunch was served. Jerome, Will and Frank Goldrick have returned from the West and report conditions about the same as in this district.

OFFICIAL VISIT TO KING SOLOMON LODGE

W. Bro. F. H. Thompson and Officers Exemplified the Second Degree.

Rt. Wor. Dr. Percy Banghart, D. D. G. M., for London District, No. 3, paid his official visit to King Solomon Lodge, No. 378, A., F. and A. M., on Thursday evening. He was accompanied by a large number of the distinguished members of the order in the city.

F. L. Burdon, Bro. J. H. Fowler and Bro. Peacock responded on behalf of the visiting brethren.

Rt. Wor. Bro. Banghart proposed the health of King Solomon Lodge, and Wor. Bros. Thompson, A. R. Galpin, George Finnegan and Hugh McPherson did the honors for the members of that lodge.

During the evening songs were rendered by Bro. W. A. McCutcheon, Dr. Ziegler, and Bro. Sawyer, Halifax, in excellent voice.

DEATH OF E. CARROTHERS.

Former Londoner Passed Away in Detroit on Thursday.

Mr. and Mrs. R. A. Carroll, of Detroit, who came to London Wednesday evening to visit Mr. and Mrs. Oliver G. Gaud, of Wortley road and Brick street, received a message yesterday telling of the death of Mrs. Carroll's father, Mr. Elijah Carrothers, a former London man, who resided with them.

RADIAL SYSTEM OWNED BY ONTARIO

Municipal Association Discusses the Proposal at Toronto Meeting.

ASK AID OF THE GOVT.

Resolution Passed Asking That the Construction Be Placed in Hands of Hydro-Electric.

Toronto, Nov. 15. — Yesterday representatives of nearly two score municipalities of the Province met at the city hall to consider the advisability of requesting the Government to give the hydro-electric commission power to construct electric railways throughout the Province.

The meeting was called by the Ontario Municipal Electric Association, of which ex-Mayor Geary is president. It was practically the result of the action taken by Controller Foster a few weeks ago, when he succeeded in inducing the city council to pass a motion in favor of maintaining the power to construct electric railways in the hands of the Province wherever hydro-electric power was installed.

All present agreed that it was desirable something should be done to improve the transportation situation, but they had no clear ideas as to the form it should take.

Resolution Adopted.

After some three hours' general discussion, the following motion was unanimously passed: "Resolved, that in the opinion of this meeting, representing over thirty Ontario municipalities, it is desirable that a system of electric railways, including street railways to be owned by the municipalities, be established and built, and, further, that the hydro-electric power commission be requested to look into the advisability and practicality of constructing such a system, and to furnish a report thereon to the association."

In order that the request to the hydro-electric power commission be made definite, it is further suggested that the initial report should refer to the road collecting the hydro-transmission lines of the commission at present existing, and contemplated in the Niagara power zone extending throughout Western Ontario and the Midland district. It is desired that the report should cover cost of construction, of operation, and probable revenue in each case.

Government Willing to Assist.

Hon. Adam Beck said the hydro-electric commission would be only too pleased to help out the movement suggested. There were many difficulties in the way, for instance, the Government had in the past only leased the right of way for its transmission lines, in many places. He was glad to say that it was intended in future to purchase these outright. There was no reason why electric railways, like other public utilities, should not be successfully operated by the people. He thought, however, that if it were the wish of the meeting that the commission be requested to study and report upon the suggestions made for the establishment of lines of light railways for freight and passenger traffic it should only be asked to report upon the cost of construction, operation, and probable revenue. The matter of financing should be left over to be dealt with separately.

Financial Problem.

Some of the representatives of the smaller municipalities said that was the most important feature of the whole matter. They desired to have both hydro-electric light and a car service. They could get neither if the municipalities had to raise the money to establish same. They thought the Government could raise funds more advantageously than the municipalities.

The Stratford representatives said the people of that city had passed a bylaw to help finance an electric railway system, but were unable to carry it out, as the company objected to proceed unless the clause in the bylaw compelling them to use hydro-electric power was modified. The Government had refused to allow this, which they considered a hardship. However, they were willing to let a general scheme for the construction of railways by the Province if the municipalities were to be allowed to operate them.

Municipalities Represented.

Among those present were: Reeve R. Shireff, Peterborough; Mayor H. Shepherd, Windsor; Mr. P. W. Ellis, Toronto; Reeve D. W. McBurney, Hag-

ersville; H. J. Glandely, London; Mayor J. Brown, Ald. R. S. Frame, Ald. J. Stephens and ex-Mayor W. S. Dingman, Stratford; Ald. W. McTavish, Midland; Councillor W. D. Sharp, Brantford; Reeve J. S. Beck, Brantford; Dr. P. T. Coupland, St. Marys; Councillor A. Werden, Mimico; Ald. J. Buller, Woodstock; Mayor R. H. Price and Ald. J. R. Martin, St. Thomas; W. Proudfoot, M. P. P., Goderich; Dr. G. W. Smith, Bayfield; Mayor G. H. Lees, Hamilton; W. B. Doherty, St. Thomas; Philip Pocock, chairman hydro commission, London; Warden T. Struthers, Huron County; Mayor Amstrong, Paris; Mayor C. A. Reid, Goderich; Reeve B. C. Munnings, Goderich; Reeve G. Lindsay, Bayfield; Ald. S. Carter, Guelph; Mayor Scott, Galt.

MRS. NORDHEIMER DIED AFTER SHORT ILLNESS

A Prominent Toronto Woman Contracted a Cold at Her Son's Wedding.

Toronto, Nov. 15. — Death came with comparative suddenness yesterday evening to Mrs. Samuel Nordheimer, at her home, "Glen Eadythe," on Poplar Plains road. While attending her son Roy's marriage at Holy Trinity Church a week ago Wednesday Mrs. Nordheimer, who was in her 65th year, contracted a cold, which developed into angina pectoris, a heart pang. During the eight days of her illness she suffered three particularly severe attacks of the malady, the third causing her death at 6 o'clock yesterday evening. Roy Nordheimer, who is the only son, is at present on a trip to the Mediterranean with his bride, and is due at Gibraltar in a few days.

The late Mrs. Nordheimer was very prominent in Toronto society, and became known over Canada through her work in the Imperial Order of the Daughters of the Empire, of which organization she was elected the first president in 1901, retaining that office until her retirement in October, 1911. Because of her death the dance of the Lord Wilson Chapter, which was to have taken place tonight, has been indefinitely postponed.

LOANS IN CANADA SOLID AS A BANK

Mr. Foster Tells Englishmen Not to Worry Over Canadian Investments.

London, Nov. 14. — The Hon. Geo. E. Foster, Canadian minister of trade and commerce, referring to the attitude of the English financial world toward investments in the Dominion, said today, at a meeting of the Royal Colonial Institute, that the fact which lay in some of the criticisms of Londoners was that they looked upon Canada as a whole, while their criticisms ought to be confined to certain private or semi-private notations.

There was a time—it was in his infancy, but Lord Strathcona would remember—when land in Canada was not saleable for 50 cents an acre. "And just outside Winnipeg, too," interjected Lord Strathcona. Mr. Foster, continuing, said that Dominion loans were as solid as 25 Banks of England. Truly, there had been a land boom in Toronto, but that city received an addition of 30,000 to its population yearly, which means, he considered before the allegation of wild speculation was made. Nobody who had got in on C. P. R. stock early would have any misgivings, and his own belief was that the other great railway lines would come along likewise, though perhaps not so quickly.

For another hundred years, Mr. Foster said, Canada could take an increase of population at the present rate, finding employment for all.

BERLIN CANADIAN CLUB

Mr. Englehart, of Temiskaming Commission, Addresses First Meeting.

Berlin, Nov. 14. — The opening meeting of the Berlin Canadian Club for the season was held in the Masonic Hall this evening, with J. L. Englehart, chairman of the T. and N. O. Railway Commission, as the speaker. He reviewed the work done to date by the "People's Board," and made a strong plea for the young men of the older cities who feel inclined to leave home to go into Ontario instead of the Northwest.

The gathering comprised mostly representative men of the county to the number of about 100. C. R. Honning, of Preston, presided, and among the guests were: W. G. Weichel, M. P.; H. Mills, M. P.; and Geo. Patterson, M. P. P.

NEW SUFFRAGE SCHEME

New York, Nov. 14. — A brand new suffrage scheme was hatched up today. The women have found a short cut to the ballot-box, and some of them mean to get there whether New York gives suffrage or not.

The scheme is the result of an inspiration on the part of Mrs. John W. Brannan, of the Women's Political Union. Some inquiring mind among the habitués of the union's headquarters discovered that easy is no name for the job of qualifying for citizenship in the State of Michigan.

Now that suffrage has won out there, any woman who meets the other conditions can secure the right to vote in Michigan by merely spending six months in the state. That is just exactly what Mrs. Brannan today proposed that the New York women do. The idea caught like wildfire. Mrs. Harriet Stanton herself decided that the climate of Michigan would just suit her in the good old summertime of 1912.

"We shall probably have quite a little colony," said Mrs. Blatch. "We shall live in bungalows, which we will call 'Votes for Women Bungalows.'"

The Turk Within His Guarded Tent

Nazim Pasha, the defeated Turkish commander and chief; from a photograph taken in his field tent since the beginning of the war and forwarded from Constantinople to The Advertiser by E. Ashmead Bartlett.

CHARGES RYAN WITH KNOWLEDGE OF "JOBS"

Dynamiter McManigal Says He Told Ironworkers' Head About Kansas City Job.

[Canadian Press.]

Indianapolis, Ind., Nov. 14. — Direct charges that Frank M. Ryan, president of the International Association of Bridge and Structural Ironworkers, had full knowledge of explosions, and that he even advised the dynamiters, were made by Orin E. McManigal in his confession at the "dynamite conspiracy" trial today.

"I had blown up the Kansas City job Aug. 23, 1910, and had stopped off at Peoria, Ill., on the way back," McManigal testified. "At Peoria I got in touch with Edward Smythe, business agent of the Ironworkers' Union. Smythe showed me non-union jobs he wanted me to blow up. He said J. J. McNamara had agreed I should do it. I told Smythe I had had luck at Kansas City, where I lost four quarters of nitro-glycerin on three alarm clocks. Smythe said dynamite known as the 'New York Kid' had been around Peoria and he (Smythe) was suspicious of him, thinking he might be a spy of the National Erectors' Association."

"When I returned to the Ironworkers' headquarters in Indianapolis McNamara was not there, so I saw President Ryan. I told Ryan about the Kansas City explosion and showed him a newspaper account of it. Ryan said: 'I want you fellows to stop coming around this office so openly,

and you don't change your appearance enough. When anyone gets a good look at you they will be sure to know you next time.'"

"I told him we weren't reckless, and that no one knew what we were doing. I told Ryan that Smythe had spoken of the 'New York Kid' as a dynamiter, but Ryan said he didn't know him."

Had Sore Four Years

Zam-Buk Healed It In Few Weeks

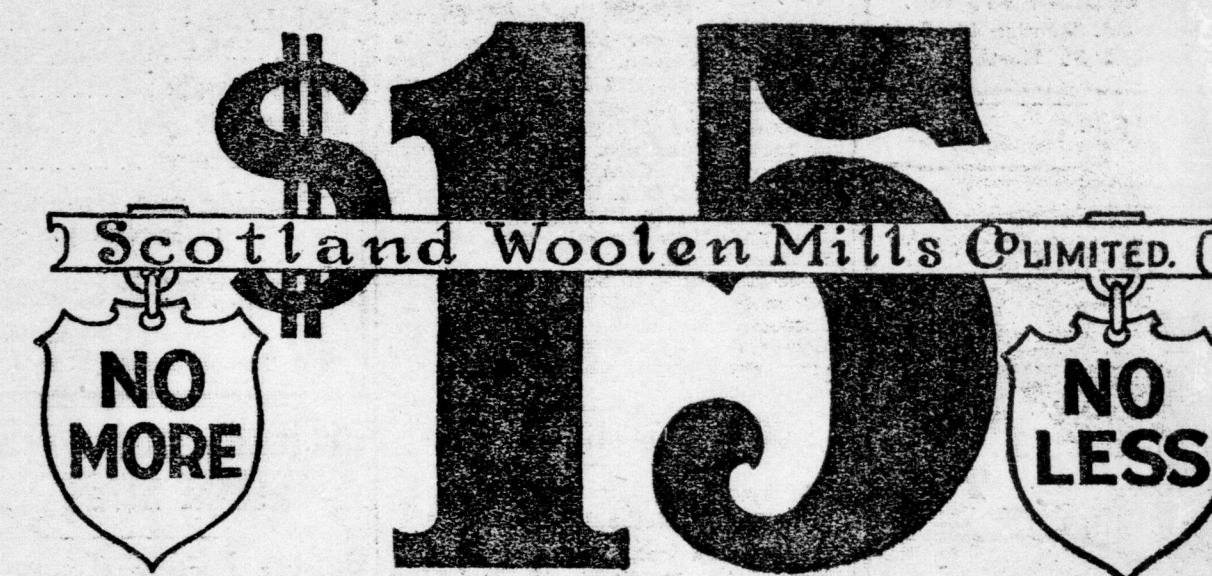

Have you some old wound or sore which has defied all doctors' remedies? If so, you have a case for Zam-Buk!

Dr. Oliver Sime, of Purvis, Man., writes: "The healing power of Zam-Buk is really wonderful. I had an old, irritating sore on my forehead that had troubled me for four years. I had used all sorts of remedies, but none of them seemed able to close the sore. Zam-Buk was recommended to me, and in a marvelously short time it healed the obstinate sore perfectly. You may depend upon it that after this proof of its power we will never be without a box in the house." As a rapid and certain healer of ulcers, abscesses, piles, inflamed places, cuts, burns, bruises, scalp sores, eczema, eruptions, cold sores, chapped hands, etc., etc., you can yet nothing to equal Zam-Buk. Antiseptic, too, and immediately applied it removes all danger of wound taking the wrong way. Druggists and stores everywhere at 50c box or post free for price from Zam-Buk Company, Toronto. Try Zam-Buk Soap for tender skins and baby's bath; 25c tablet all druggists and stores.

Six years ago the Scotland Woolen Mills Company opened its first branch in Canada. The record of sales since that date would make an excellent story of unprecedented progress in business.

To our Company goes the credit of having, single-handed and against great opposition, reduced the price of made-to-order clothing in Canada. Our enormous sales are convincing proof that the people realize we have made good our promise to deliver a high-class thirty-dollar suit for fifteen dollars.

A Choice of any Material Made-to-Order Suit or Overcoat

Outside the cloth we sell, which comes direct from the mills in the old country, we ask you to consider the splendid tailoring and finish which goes into the Scotland Woolen Mills Suits.

Our tailoring facilities on the individual order plan cannot be approached on this continent. Our big work-room building and splendid staff guarantee exclusive finish.

Out-of-Town Men—Write us today for samples of new winter suitings and overcoatings. We guarantee satisfaction or your money will be refunded.

CHAMBERLAIN MUM

Does Not Give Out Much Information as to New England Muddle.

[Canadian Press.]

New York, Nov. 14. — E. J. Chamberlain, president of the Grand Trunk Railway, said today that he had nothing to discuss with Rhode Island officials concerning the cessation of construction work on the Southern New England line. He arrived here today from Montreal, and dispatches from Providence last night said that Attorney-General Bliss, of Rhode Island, and William C. Bliss, chairman of the public utilities board of that state, had been delegated to meet him.

"I have nothing further to say regarding the New England situation than was contained in my statement issued from Montreal yesterday," said Mr. Chamberlain. "I know nothing of a conference to be held in New York today, and have made no arrangements to meet the Rhode Island officials."

He added that so far as he was concerned, there was nothing to discuss, and intimated that much of the recent public discussion of Grand Trunk plans was exaggerated. He declined to discuss the reported traffic arrangements with the New York, New Haven and Hartford Railway, saying that his Montreal statement also covered this. In this statement Mr. Chamberlain admitted that he was negotiating with President Mellen, of the New Haven lines, and further, that he would not consider any arrangements for a term of less than 25 years.

Patron—What took you so long with my eggs? Waiter—Pardon the delay, sir; but they were mislaid.—Judge.

Teacher—What was the Reign of Terror? Pupil—Please, miss, it was the flood in the Bible.—Boston Transcript.

SOUTH LONDON LADY

DIED VERY SUDDENLY

Mrs. Sarah Hodgson Expired

as She Walked to the

Supper Table.

Mrs. Sarah Hodgson, who resided with her daughter, Mrs. W. A. Corbett, of 125 Cathcart street, expired suddenly from an affection of the heart as she approached the supper table—this evening, Mrs. Hodgson, who was 79 years of age, had been in poor health for some time, but her death was not looked for.

Yesterday evening she arose from a couch to take her place at the table, but fell back dead. Dr. R. Ferguson was summoned, but found that death had occurred almost instantly. Her husband, John Hodgson, predeceased her many years ago. She is survived by one son, William, of Windsor, and two daughters, Mrs. R. A. Corbett, who recently came to London from Hamilton, and Miss Francis, also of 125 Cathcart street.

The funeral is to be held on Sunday, and interment will be made at Littlewood Cemetery on the twelfth concession of London Township. The services will be in charge of the Salvation Army.

CONGREGATIONAL TEA

Held by the Ladies' Aid of Dundas Centre Methodist Church.

A congregational tea, under the auspices of the members of the Ladies' Aid Society, was held last evening at Dundas Centre Methodist Church in celebration of the anniversary of the congregation. At the conclusion of supper, which was served from 5 until 6 o'clock, an excellent program was given in the church proper. Rev. Mr. McCamus, of Colborne Street Methodist Church, was in attendance, and inaugurated the proceedings with prayer. Rev. Mr. McKenna, of Ottawa Ave. Baptist Church, also spoke, joining in extending congratulations to the Dundas Centre Methodists.

DELICATE TIRED WOMEN

This is an unnatural condition—a little rest each day

and Scott's Emulsion after every meal gives nature the material to restore strength.

Scott's Emulsion is a strength-building, curative food and tonic to overcome weakness and fatigue—contains no alcohol or drug.

It doesn't stupefy the nerves, it feeds them.

Expectant and nursing mothers always need Scott's Emulsion.

Scott & Bowne, Toronto, Ontario. 12-78

CROSS OR FEVERISH, HALF-SICK CHILDREN

If Tongue Is Coated, Breath Bad, Stomach Sour, It Means a Torpid Liver and Clogged Bowels.

Mother! Don't scold your cross, peevish child! Look at the tongue! See if it is white, yellow and coated! If your child is listless, drooping, isn't sleeping well, is restless, doesn't eat heartily or is cross, irritable, out of sorts with everybody, stomach sour, feverish, breath bad, has stomachache, griping or weakness, or is full of cold, it means that the little one's stomach, liver and 30 feet of bowels are filled with poisons and foul, congested waste matter and need a gentle, thorough cleansing at once.

Give a teaspoonful of Syrup of Figs, and in a few hours all the clogged up waste, undigested food and sour bile will gently move on and out of the little waste-clogged bowels without nausea, griping or weakness, and you will surely have a well, happy and smiling child again shortly.

With Syrup of Figs you are not drugging your children. Being composed entirely of luscious figs, senna and aromatics it cannot be harmful; besides they dearly love its delicious taste.

Mothers should always keep Syrup of Figs handy. It is the only stomach, liver and bowel cleanser and regulator needed—a little given today will save a sick child tomorrow.

Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggist for the full name, prepared by the California Fig Syrup Company. This is the delicious, safe, genuine, old reliable. Refuse anything else offered.

ENGINE BROKE DOWN

P. M. Locomotive Stopped Traffic at Ridgetown.

Pere Marquette locomotive No. 305, hauling a freight train between Walkerville and St. Thomas, broke down at Ridgetown last evening, and as a result traffic was blocked for several hours. Passenger train No. 4, from Walkerville to London, which was due in here last evening at 9:50, did not arrive until nearly 7 o'clock this morning as a result of the mishap.

FRESHMEN ENTERTAINED

A Reception Held at the Western University.

The Freshmen of the Western University held a reception on Thursday evening, in which they royally entertained both their friends and their enemies (the sophomores). The reception surpassed the efforts of former years, and the two hundred guests who assembled for the occasion were more than pleased in the way things were managed.

Professor Young gave the chairman's address, and welcomed all to the university, and told them to make merry, merry, and to be merry.

Mr. A. B. Westby, president of the Freshmen's year, also addressed the gathering in behalf of the class. The varied program consisted of numbers contributed by Messrs. Moore, Anthoine and Austin, and Messrs. Hanne, Austin and Payne.

The Freshmen were allowed to sing their annual song. They sang the song once and before the semblance

PEOPLE ARE Mired IN LONDON'S ROADS

Mr. Jos. Lawrence Objects to Luxuries When Necessities Stare People in Face.

CELLARS FULL OF WATER

South London Man Gave His Opinion on Several Matters—Electrification of L. and P. S. R.

Mr. Joseph Lawrence, of South London, was the principal speaker at a well-attended meeting of the East End Progressive Association last evening, and spent considerable time in pointing out the mistakes of the present city council to the members of the society. Mr. Lawrence was also firm in his denunciation of the proposal to revert to the single sessions in the kindergarten. In a very modest manner he stated that he had drawn the attention of the school board to the system in vogue four years ago, and his efforts were finally rewarded by the adoption of the double-session system. The speaker stated that the school board was a very expensive body, and the members should be compelled to have a property qualification the same as the aldermen.

The meeting did not adopt Mr. Lawrence's suggestion to pass a resolution in favor of the present double sessions being continued.

A Municipal Slate.

Mr. Lawrence suggested that the East End Progressives, the West London Progressives, and the Central Real Estate Owners each appoint three members to act as a committee to procure suitable candidates for the approaching municipal elections, as the present aldermen have proved themselves unfit to cope with the various matters of importance to the city.

Mr. Lawrence criticised the actions of the council in regard to the West London breakwater, and the comfort of the Market Square. In regard to the latter he stated that no businessmen would think of erecting a \$6,000 building on a \$60,000 lot. The speaker stated that he had bought a lot in the city, and the idea of building the city hall there was never seriously considered, according to the speaker.

The incinerator was another great mistake from his point of view, as it will be put out of commission inside of two years on account of the large number of writs that will be issued against the corporation. The water works and electrical departments were in need of reorganizing.

"Of course, the aldermen are not entirely to blame in the mismanagement of the civic problems, and I hold the mayor responsible for much of the trouble. He is too outspoken and was altogether too hasty in the Engineer Wright matter," stated Mr. Lawrence in summing up the civic management.

Strong Talk.

Mr. Lawrence was asked for his opinion of several of the questions that are likely to be brought before the electors on election day, and as a rule he was decidedly against supporting any of the candidates.

"The advocates of the federal square proposition are fit candidates for the lunatic asylum. Personally, I don't care where the hall is erected, but why the city should pay for a parade ground for the militia department is beyond me. We would lose the McCormick factory, and also would lose the taxes which we ourselves have water in our cellars and are mired in the roads?"

Scheme Would Not Pay.

In regard to the electrification of the Port Stanley road he said he would not like to condemn the scheme, nor was he prepared to adopt it. In his estimation it would not be a paying scheme. The storm sewers were a necessity in some parts of the city, and should be installed in the sections in which the citizens are troubled by flooded cellars. He was in favor of the annexation of the different suburbs if all the different sides of the question were presented in a true light.

"The city is deeply in debt, and these suburbs will eventually be asked to pay for some of the present improvements, and as soon as that happens there will be trouble," was Mr. Lawrence's opinion.

The association appointed a committee, composed of Messrs. Wakeling, W. Hay and Leah, to attend the meeting of the Ontario railway and municipal board this afternoon to see that the interests of the citizens of the East End were considered.

Box for Newspapers.

The postoffice department was asked to install a newspaper box at the corner of Campybell and Rectory streets, and a letter-box at the corner of Elias and Elizabeth streets.

The deputation that attended on Nov. 13, 1912, to the Aux Sable River to overflow its banks.

Mr. and Mrs. Lachlan Galbraith, of West Williams, left yesterday for Tennessee on a few months' visit to Mrs. Galbraith's father and mother, who reside there.

John Giechris, of Centre road, who went out to the Northwest last spring, returned home a few days ago.

The funeral of John McDonald, of Parkhill, was held recently. Interment took place at St. Columba's Cemetery.

Mr. McDonald was working on the G. T. R. as sectionman at Burlington, Ont., when he was struck by a fast mail train. The remains were brought to Parkhill to his home. He is survived by his widowed mother and one sister, of Detroit.

The man who robs Peter to pay Paul generally intends to strike Paul for a larger loan later on.—Puck.
