SINGER SEWING MACHINE

What can be done with our Improved Family Machine.

Family Sewing requires a machine that will do, and do *well*, the greatest *variety* of sewing. This is precisely what our "I.F." machine will do.

This machine is now sewing Shirts, Collars, Dress Goods, Clothing, Overalls, Mantles, Cloaks, Suits, Gloves, Millinery, Umbrellas, Upholstery, Hats, Caps, Rubber, Gosamer and Oiled Clothing, Suspenders, etc., running at a high rate of speed the year round—the severest possible test to which a machine *can* be put. It sews

THE FINEST CAMBRIC OR LACE

equally well with

THE HEAVIEST BLANKET.

Bear in mind that this is not a Manufacturing Machine (as canvassers for other machines sometimes try to make people believe), but is a strictly Family Machine, for light or heavy family work.

We make a Manufacturing Machine on the same model, (only larger and heavier), but thousands of manufacturers who have light sewing to do on a large scale, will have our "I. F." We could fill volume after volume with their testimonials to its superiority over any other machine in the world.

The Factories of the Singer Manufacturing Company.

1. ELIZABETH, N. J.; 2. KILBOWIE-ON-THE-CLYDE, near Glasgow, Scotland;
3. SOUTH BEND, IND.; 4. CAIRO, ILL.; 5. MONTREAL, CAN.;
6. VIENNA, AUSTRIA,

Our Army—Not Destroyers But Producers.

It takes about 10,000 operatives to make our machines. It takes about 30,000 persons more to sell and deliver them, besides 10,000 horses, 8,000 wagons, one steamer, and five locomotives.

¹⁸⁷ The bulk of this business is caused by the demand for Singer Machine for use in families

¹⁸⁷ Please recall these figures the next time you are told by a traveling salesman that "the Singer is a good machine for manufacturing, but is not intended for family use!"
