REDUCED RATES OF PREMIUM-HALF CREDIT RATES OF PREMIUM. REDUCED RATES OF PREMIUM—HALF
CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at much loser Rates of Premium than those of any other Assurance Company I ansacting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of FREMIUM which have been so highly approved, and are so included the contract of the cover, to insure only afted anomal; the lower, to insure only afted amount; the higher entiting the Insurers to a matiental to the contract of the cover, to insure only afted amount; the by the MALF CHRIST KATES of PREMIUM; which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.
