

STICK OF DYNAMITE BLEW HIS HEAD OFF.

Dog Find Its Way From Columbus, Ohio, to Its Mistress In Chicago.

Three Persons Reported Killed In Collision Near Greensboro, N. C.

York, Pa., Oct. 18.—Jacob Dettinger, aged 59 years, of this city, committed suicide last night in an unusual manner.

Last Tuesday Dettinger, who was a well digger by occupation, lost a sum of money said to have been \$40, and brooding over this is believed to have caused the desire to end his life.

A Clever Dog. Chicago, Oct. 18.—Left in Columbus, O., more than three hundred miles away, on March 18 last, Trix, pet dog owned by May Clark, aged 16 years, of 233 North Clark street, turned up here yesterday, and discovered his mistress, having made one of the most remarkable journeys performed by an animal on record, and accomplished the additional feat of singling out the family with whom he formerly lived from more than 2,000,000 persons.

HAMILTON W. C. T. U.

Rally at the Home of Mrs. De Long Yesterday.

Thursday, Oct. 17, was "rally day" and fee social with the Hamilton W. C. T. U. The members and friends were present in large numbers at the home of Mrs. Fred, De Long, 111 Emerald street south, and a meeting full of interest and information was enjoyed.

SIX KILLED

And Ten Seriously Hurt in a Street Car Collision.

Chattanooga, Tenn., Oct. 18.—A street car collision occurred on Harrison avenue early this morning. It is reported five or six persons have been killed.

GAMBLER DEAD.

Was Canfield's Most Formidable Rival at Saratoga.

Westcott, who was Richard Canfield's most formidable rival at Saratoga, was stricken with pneumonia and Bright's disease several weeks ago. He left a fortune valued at nearly \$500,000 to his wife.

STEAMER IN THE MUD.

Chattanooga, Tenn., Oct. 18.—A street car collision occurred on Harrison avenue early this morning. It is reported five or six persons have been killed.

Bain & Adams' List.

Neufbatal and square cream cheese, Select and Standard oysters, Long Point ducks, pigeons, Boston head lettuce, had- die, escapes, pineapples, grape fruit and Jersey sweet potatoes, quinces, plump ducks, chickens, cranberries, beets, water melons, Jacobs' biscuits, comb and extract honey, new figs, table raisins.

LARGE REDUCTION.

New Electric Lighting Rates Go Into Effect on Dec. 1.

The Hamilton Electric Light Company announces in this issue an important reduction in lighting rates. Beginning on December 1, the rates for domestic incandescent lighting will be reduced by from 23 to 60 per cent., according to the consumption. The company will also furnish all incandescent renewals free. After that date all lighting will be by meter—there will be no more flat rate. Domestic incandescent lighting will cost, according to the current consumption, from 7.65 to 5.94 cents per kilowatt hour, exclusive of meter rent of 25 cents a month. A kilowatt hour will operate a 16-candle power incandescent lamp 18 hours.

THE INTERPRETER.

Budimar Protich, Recommended for Official Appointment.

Mr. Budimar Protich, who acted as interpreter at the Sunfield murder trial, has been recommended to the Attorney General for the position of interpreter for the crown in this county, a position which the Grand Jury at the High Court now sitting recommends be created.

DOING THINGS.

Billy Tomes Presses Clothes Now While You Wait.

To-morrow Mr. W. T. Tomes, the well-known merchant tailor, starts a great sale of clothing, consisting of overcoats, tweeds, blues, etc., the \$4,000 stock of E. J. Breheny. He will make up and guarantee a perfect fit. Regular \$24 suits and overcoats for \$12.00; regular \$50.00 trousers for \$25.00. He sells on cash or credit, and claims that his prices are just half those of ready mades. He is also building an elevated room where gentlemen can sit and read the Times and wait for their clothing to be pressed and cleaned. This is quite a new thing for Hamilton, and will be popular. He will send his man for your clothing and have them returned promptly without any glossy finish, or all boiled up. This department is run by Mr. John Trainor, a practical man, and one with wide experience. Billy will be in future confine his attention to the business at 45 James street north—the only store he runs in Hamilton—and is determined to keep pace with the times and give citizens un- paralleled bargains.

REMARKABLE SALES.

Right House Offers Dependable Bargains of Merit.

The big Thomas C. Watkins' advertisement in to-night's paper carries news of great interest to every economical person in Hamilton and vicinity. It tells of splendid savings on the goods you need for fall and winter—goods of sterling Right House character and quality.

CRICKET NIGHT, 24th.

Thursday evening, October 24—Thursday of next week—will be Cricket Club night at the Savoy. Manager Appleton promises a performance that will be a delight to all who attend and the Cricket Club and its friends promise to fill the popular theatre to its utmost capacity. The club deserves the warmest support of Hamilton people, and this is an easy and enjoyable way to help it.

OPENING OF HOUSE.

Ottawa, Oct. 18.—(Special)—Sir Wilfrid Laurier has returned from Halifax, where he was attending the demonstration to Mr. Fielding. There will be a meeting of the Cabinet to-morrow, when the date for the opening of Parliament will probably be arranged. The 21st of November is mentioned, but nothing definite decided.

DISCUSSED THINGS CIVIC.

North End Improvement Society Met Last Evening.

Mr. Heddie Reports all Loose Joints Have Been Repaired.

New Special Work Has Been Ordered for James Street.

The North End Improvement Society held a meeting last night, in its quarters, 488 Mary street. Routine business was transacted. The topics of the evening were the sand-sucker, the Parks route and the voting system. Ald. Wright, in speaking of the sand-sucker, said that the Council was following the lead of the Spectator, in paying too much attention to it, letting more important matters slip, such as the G. T. R. overhead crossing at Barton street. The Board had no doubt that the sand-sucker was a benefit to the city.

THE MISSING SHOCK.

The Earthquake Was a Sequake Near Hawaiian Islands.

Berkeley, Cal., Oct. 18.—Prof. A. E. Louschner, of the observatory of the University of California, announced that the centre of the earthquake disturbance felt on the Pacific coast on Wednesday afternoon practically the same as that registered on the seismograph at Washington, D. C. was about 1,000 miles south of Berkeley, in mid-ocean, probably between the Hawaiian Islands and the south coast of Mexico. The shock is known to scientists as a sequake, and is usually followed by a tidal wave. Reports of the shock will probably be brought in by incoming ships.

A CREEPY FEELING.

"Creep" Under N. S. W. Mine Causes Heavy Damage.

Sydney, N. S. W., Oct. 18.—Despatches from Newcastle state that a serious "creep" has occurred in the old mine workings under the residential quarter of that city. Buildings on an area of 15 acres are affected, and the damage so far is estimated at half a million dollars. There have been no casualties.

WILLIE'S WHEEL.

Willie Hunter, the Truancy Officer, was hunting for the scalps of three persons suspected of stealing his wheel this morning. Willie's wheel had a pedigree and was exhibited in the Times' window as a wonder when it made its debut in this city under the wing of Willie. The wheel was taken from in front of the police station, which was filled with policemen at the time, and hidden in the cellar of the court. A reward of \$5 was offered for the arrest and conviction of the thieves by Willie, but the results were nil. It was subsequently recovered by the Truancy Officer himself, and the joke is on the genial Highlander.

IF YOU GIVE US A CHANCE

We'll show you some clothes that are really worth while. Other dealers sell the imitation, but they lack the style that Hart, Schaffner & Marx get into them, and lack the all-wool quality. These clothes will be a credit to you and us. See our \$20 suits and overcoats. Pretty sure you'll see nothing better.—Fralick & Co., 13 and 15 James street north.

SAFETY DEPOSIT BOXES.

To rent at \$2 a year and upwards, for the storing of deeds, bonds, stocks, wills, silver and other valuables, at the TRADERS BANK OF CANADA.

VERY SUDDEN.

Mr. E. H. Robinson, of Beamsville, Died In Chair.

Mr. E. H. Robinson, proprietor of the Robinson House, Beamsville, passed away suddenly to-day while sitting in his chair in front of the hotel. Deceased had been in apparently good health during the morning, and went out on the veranda about 2 o'clock and sat down. Fifteen minutes later, Mr. Robinson passed away. Bright's disease being the cause of death. Deceased was about 58 years of age, and was very well known throughout the district, as a horseman. He was the father of Harry Robinson, who was injured recently in a wreck on the H. G. & B. A daughter also survives, Mrs. A. E. Orr, of this city.

ON THE MOUNT.

Chalmers Church Ladies Entertained Most Pleasantly.

On Wednesday evening Mrs. Nicol, Mount Hamilton, very kindly entertained the Ladies Aid Society of Chalmers' Church, at her home. The appreciation of her kindness and interest in the Society was shown by the large number present. On account of having to speak at another meeting the pastor of the church, Rev. S. H. Sarkisian, was unable to be present, but all were pleased to have Mrs. Nicol, Chalmers' church, an enjoyable programme was rendered and games indulged in, after which refreshments were served by Mrs. Nicol. The jolly event was brought to a close by singing "Auld Lang Syne."

WILL BE POPULAR.

Good Music and Views at the Sunday Night Meetings.

The business council of the Central Temperance Executive is meeting 1:25 month at regular intervals, and working hard on preparations for the mass meetings in the Bennett Theatre during the Sunday evenings of the month of November. In view of the hour at which the meetings are to be held—8:30 to 9:30—the kind of auditorium, and the tastes of the people whom it is hoped to attract, great attention is being bestowed on the element of music. It is expected that a volunteer choir of about fifty voices and an orchestra of about twenty pieces will sustain the hearty congregational singing which will be a strong feature of the meetings. The music for the general choir will be so simple that any one can quickly pick it up. Singing of the highly artistic type will also be furnished by church choirs in rotation, and well-known soloists. As to the addresses, they will be by persons of recognized ability, occasionally illustrated with stereopticon views and the like. Every meeting will close with a pledge-signing levee.

EMERALD Y. M. U.

Emerald Y. M. U. held its regular weekly meeting last evening. There was a large attendance and a good programme was provided for the boys, including a debate, "Resolved that the pulpit is more beneficial to the country than the press," being won by the affirmative. The remainder of the programme consisted of readings, both organ solo and speeches by the members. By the way the meetings are being attended the most prosperous season yet being looked for.

COL. GIBSON MAY NOT DEFEND CITY.

Report That He Will be Unable to Command on Thanksgiving Day.

Col. Bertram of Dundas is Mentioned as the Likely Chief Officer.

There is a good deal of talk going on in military circles of this city, at the present moment, regarding the Thanksgiving Day sham battle, which will be fought in the Dundas Valley. Some- what of a surprise was sprung upon the local corps when it was rumored that Col. Gibson, who is the commandant of the 15th Brigade, would not command the defending forces in the battle. Col. Gibson is out of the city at the present time, and could not be interviewed to-day. It is said that Col. Gibson would be unable to take charge of the defence, owing to the pressure of business. Lieut.-Colonel Bertram, of Dundas, is being mentioned to take charge of the defence. Colonel Bertram would make a very efficient officer in command, he having had charge of the 3rd Brigade at the camp this year, besides having many years' experience in military work. Col. Bertram's knowledge of the Dundas Valley is very extensive, he having lived in that vicinity for so many years. It is the opinion of many of the local officers that Colonel Bertram will be the man to take charge of the forces, in case that Col. Gibson is unable to act.

The fact that Col. Davidson has retired and will not command the attacking forces, followed by Col. Gibson's inability to take charge of the defence, will necessitate important changes in the plans.

SAYS THE GOVERNMENT OFFERED TO DROP CASE, BUT GROCERS HOPE TO STICK IT FOR THE COSTS OF ABOUT \$7,000.

A wholesale grocer, whose firm is connected with the Grocers' Guild, made the somewhat sensational statement yesterday that the Government will offer to drop the conspiracy charges against the officers of the Guild, if they would pay their own costs. This was months ago, and the defendants would not agree to it; that is the reason the cases were proceeded with at the Assize Court last week. The Grand Jury after spending two or three days on the case returned a true bill, holding just as the Police Magistrate did—that there was evidence enough against them to put them on trial. Although the statement seems almost incredible, it is pointed out that it is about two years since the crown officers seized books and contracts in possession of the Guild, and 15 or 18 months since the cases were sent up by the Magistrate. The wholesaler in question said he was sure the Government will have to pay the defendants' costs, which will be \$6,000 or \$7,000. Chief Justice Falconbridge has fixed Jan. 6th as the date for the opening of the trial, which will take place at Osgoode Hall.

# THE USURPER

"Well, well, I can understand your disappointment. But is not given to all of us to succeed; and on those of us whom Fortune favors is bestowed the privilege of helping those near and dear to us. You must let me help you."

Neville stopped short and looked at him in the semi-darkness. "You offer to help me?" he said. "Certainly, my boy; what more natural? Do you think I am lost to all sense of kinship, that I forget we are brothers?"

"Half brothers, please," said Neville, grimly. "Just so, and I cannot forget that our father did you—yes, I will say so candidly—a wrong. You know that he—did not mention you in his will?"

Neville's face flushed. Oh, why had he promised Trale to keep quiet, and leave the working out of affairs to that astute inspector! Why couldn't he seize this smooth, oily gentleman by the shoulder and shake him!

"Yes," said Neville, "I did my best to induce our father to be reconciled to you—to leave you, at any rate—a competency, but he was immovable. He would scarcely permit me to mention your name. But we will not speak of that; it can only sadden both of us. Tell me your plans, Neville?"

"My plans?" growled the young man. "Yes," said Jordan, blandly. "Do you intend to remain in England? Ah! I am afraid not. I have always noticed that when a man has taken to wandering he cannot settle down; once a globe-trotter, always a globe-trotter, and I suppose you are already thinking of starting off for somewhere?"

Neville was silent. "Silence gives consent! I feared that would be the case! Well, well! After all, a roaming life has its charms. But you must let me help you. I think I may say without immodesty that I have some interest, you know—or perhaps you don't know that I am in the Cabinet?"

"For the life of him, he could not keep a tone of proud superiority out of his smooth voice. "Oh, yes," said Neville, grimly. "I know, I saw you one night coming out of Audrey's house—or the Marlowe—to your carriage, and heard the crowd shout for the great Sir Jordan Lynne."

"Indeed, Really, now! And you did not come forward and make yourself known! I am afraid you are proud! Beware of pride—"

Neville stopped, restrained himself, and strode on. "Well, yes, I have some influence," resumed Jordan, little guessing how narrow a squeak he had had of being shaken, "and I must use it. I must get something for you, some place abroad. A consulate, or something of that kind. And—meanwhile you must come and live at the Court."

"No!" Restless and anxious to be on the move already? said Jordan, pleasantly. "Well, well! I am sorry. You must let me make you an allowance—no refusal! You must indeed!"

"His quick ears had heard a footstep behind them. He looking round and saw a man's figure crouching stealthily under the shadow of the hedge, and his heart leaped as he recognized Jim Banks.

"They were in the avenue now; the lights of the village glimmered in the distance. He glanced over his shoulder stealthily, and was silent for a moment or two, then he went on.

"Yes, you must not allow your pride to come between us. You must not forget that I am your brother."

"Half brother," said Neville again, grimly. "Jordan laughed softly. "Son of the same father!" he said. "I cannot forget it, if you would. I shall esteem it a favor if you will accept"—he paused. "Shall we say two hundred a year?"

Neville stopped again and looked at him. This man who had robbed him of five or six thousand a year, generously offered him two hundred! He laughed—actually laughed—a laugh that made Jordan shrink away from him.

He saw Neville striding along, and Jim Banks following like a shadow. He saw Banks gain on him, and crouch as if ready for a spring, something gleaming in his hand.

"Kill him! Curse him! Kill him!" broke from Jordan's white lips; and at that moment, though he could not have heard the injunction, Lavarick rose as if to spring.

But as he did so, Sir Jordan saw another figure emerge from the darkness and join Neville. It was Trale. Lavarick saw it, too, and he stopped, and slunk back into the hedge.

Jordan waited a moment, watching Neville and Trale walk off together, then with a bitter sense of disappointment he turned in at the lodge gate.

CHAPTER XXIV. Neville tossed and rolled through the night, but, strange to say, it was not the thought of Jordan's villainy which kept him from the sleep which knits up the raveled sleeve of care. It was Sylvia.

"Her brother!" he thought. "That's all I am to her. Just her brother, nothing more! She wouldn't have flown to me, and made so much of me, if—if she cared for me in any other way. And why should she care for me in the way I want! A lovely, radiant creature like her—she looked like a young princess!—and famous, too! No doubt there are dozens of men in love with her, belted, earls and swells of that kind. And perhaps there's one she cares for!"

In the morning Trale came round to Mrs. Parsons, and found Neville pacing up and down restlessly in front of the cottage.

"Mr. Neville," he said, in an excited whisper, "I've found him!" "Found him? What?" said Neville, starting. He was too much engaged thinking of "her" to have any room for any reflections about a "him."

"Why, Jim Banks!" said Trale, looking round cautiously. Neville's eyes flashed, and his interest awoke.

"When—how?" "Last night," said Trale. "One of my men came upon him at an inn outside the village, where he was drinking heavily, and sent me word. He is keeping his in sight. We'll give him just rope enough; we'll just see what he means to do."

"And lose him!" said Neville, grimly. "Not this time, sir," responded Trale, confidently. "I've told my men to knock him on the head and handcuff him, if necessary. No, don't you be afraid, Mr. Neville; I've got him this time. If you can only manage to keep civil to Sir Jordan for a little while longer!"

"It's a large order, but I'll try," said Neville, doubtfully. "Do, sir, do!" pressed Trale. "I'm hoping to catch 'em both so tight that they can't shuffle out of it. I'm off now, Mr. Neville. Don't be surprised to see me at any moment."

Neville walked down to the inn to spend the time, but he was told that Lord Lorrimore had gone out, and after hanging about still thinking of Sylvia, he made his way to the cottage. As he entered the avenue he saw Lord Lorrimore in front of him, and soon overtook him.

Lorrimore looked grave and anxious. "Mr. Lynne," he said, almost at once, "last night when I stated my intention of leaving England immediately, you said 'don't.' Will you tell me your reason? Excuse the abruptness of the question, but—well, you see how it is with me."

"Yes, I do," said Neville, "and that's why I said 'don't.' Lord Lorrimore, I want you to believe that I've good reasons for asking you to stay awhile, but that I can't give them."

"It is something in connection with—Miss Hope?" "I'm," assented Neville. "Look here, Lord Lorrimore, any one can see that Audrey is not happy, that—that, in short, her engagement to me—to Jordan is not making her happy, and that—well, don't you think it is possible that it may be broken off?"

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or North-West Provinces, excepting 8 and 26, not reserved, may be homesteaded by any person the sole head of the family, or North-West Provinces, to the extent of one-quarter section, of 160 acres, more or less.
Application for entry must be made in person by the applicant at the office of the local Agent or Sub-Agent. Entry by proxy may be made under certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.
An application for entry or inspection made personally at any Sub-Agent's office may be made by the holder of a homestead certificate at the expense of the applicant, and if the land applied for is vacant on receipt of the application such application to have priority and the land will be held until the necessary papers to complete the transaction are received by mail.

In case of "personation" the applicant will be summarily cancelled and the entry will be forfeit all privileges.
An application for inspection must be made in person. The applicant must be eligible for homestead entry, and only one application for inspection will be received from one person until that application has been disposed of.

A homesteader whose entry is in good standing and not subject to cancellation, may, subject to approval of the Sub-Agent, relinquish it in favor of father, mother, son, daughter, brother, or sister, eligible, but to no one else on filing declaration of intent.
Where an entry is summarily cancelled, or voluntarily abandoned, subsequent to institution of cancellation proceedings, the applicant for inspection will be entitled to prior right of entry.

Applicants for inspection must state in what particular the Act was first assumed that some sort of an understanding had been arranged between the United States and Great Britain. It seemed rational. England had withdrawn her ships from the western continent under the tacit agreement that the United States would safeguard British interests and that England had long done for the benefit of the whole world. What more natural than that the United States should, finding her fleet more necessary elsewhere, ask the neighboring assistance of England? But further re-

DUTIES-A settler is required to perform the conditions under one of the following (1) At least six months' residence upon and cultivation of the land in each year during the term of the homestead.
(2) If the father or mother, if the father is deceased, of a homesteaded residence upon a farm the holder of the homestead certificate by such homesteader the requirement as to residence may be satisfied by such person residing with the father or mother.
(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirement may be satisfied by residence upon such land.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.
SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS
COAL-Mining rights may be leased for a period of twenty-one years at an annual rental of \$1 per acre. Not more than 2,400 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.
QUARTZ-A person eighteen years of age, or over, having discovered mineral in place, may locate a claim 1,280 x 1,280 feet. The fee for recording a claim is \$5. At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at \$1 per acre.

The patent provides for the payment of a royalty of 2 1/2 per cent. on the sales.
Patent mining claims generally are 100 feet square; entry fee \$5, renewable yearly.
An applicant may obtain two leases to dredge for gold, five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.
The leases shall have a dredge in operation within one season from the date of the lease for each five miles. Rental \$10 per annum for each mile of river leased. Royalty at the rate of 2 1/2 per cent. collected on the output after it exceeds \$10,000.
W. W. CORY, Deputy of the Minister of the Interior. N.B.-Unauthorized publication of this advertisement will not be paid for.

OBITUARY

The funeral of Mrs. Caroline Knowles took place this afternoon on the arrival of the T. H. & B. train at 3 o'clock. Rev. F. W. Hollinrake officiated, and the pall-bearers were G. L. Forth, the funeral taking place from the residence of her father-in-law, 665 King street east. Rev. F. W. Hollinrake conducted the service, and the pall-bearers were all relatives of the deceased. The infant child of deceased was buried with its mother.
The corpse that laid the golden egg must have been killed at about the same time as the cow that gave beef tea.
Some people are never satisfied, but most men feel that they know they can't get anything by anything they know they can't get.
Flattery may be applied with equal success to a woman's heart or a man's pocketbook.

PROTECTOR OF THE EAST COAST
Will Germany Look After it During the Pacific Adventure.
Now that it has been officially announced that the American battleship fleet will sail from the United States on its long cruise to the Pacific about the middle of next December, the question that a great many people ask is, What is the nature of the understanding that exists between the President of the United States and the German Emperor? It is a question more frequently asked by naval officers than any other class, although the public at large is not inquisitive. But the naval officer interprets all politics and statesmanship in the terms of naval strategy, and the first lesson instilled into the embryonic Nelson or Farragut is never to give an invitation to a possible enemy by offering a temptation to assault. Naval officers are too modest to think that they have ability enough to make successful Presidents or Secretaries of State, but no naval officer can conceive that any President or Secretary of State would leave the Atlantic coast at the mercy of even a second rate naval power unless there were one or two rational explanations; either the Pacific coast is in greater danger than the Atlantic coast, and it is the less desperate hazard to leave the eastern seaboard of the United States in case of necessity. Which is the power?

Obviously there are only two powers to whom the United States could turn in case of emergency. One is Great Britain, the other is Germany. When the navy learned that the fleet was to go to the Pacific it was first assumed that some sort of an understanding had been arranged between the United States and Great Britain. It seemed rational. England had withdrawn her ships from the western continent under the tacit agreement that the United States would safeguard British interests and that England had long done for the benefit of the whole world. What more natural than that the United States should, finding her fleet more necessary elsewhere, ask the neighboring assistance of England? But further re-

Tommy Atkins' Clothes.
A change is to be made in the system of clothing in the army, but the soldier will not benefit peculiarly therefrom. The idea is to substitute a simple and easily comprehensible method for the present system, and under the new arrangement men will know the precise amount to which they will be entitled.
It will result in men being more careful of their clothing by the fact that the balance of their quarter's allowance will be credited forthwith to their pay account instead of being held over to their next enlistment anniversary. Under the system that now obtains a complete outfit is given on enlistment, with annual issues afterward, composition to soldiers for garments suitable for three months' further wear and twopenny a day for upkeep.

In future the complete outfit will be given on enlistment and a quarterly clothing allowance granted after the first year's service to purchase clothing. The twopenny a day for upkeep being added to the allowance and paid quarterly in advance. Four special clothing days are to be appointed, and the company commander will be responsible for his men providing themselves with necessary clothing out of their allowance.

New Gloves.
There are fewer colors.
Black is a prima favorite.
White and gray hold for dress.
In the morning the manish glove appears.
For afternoon the long glove is seen with elbow sleeves.
Long gloves accompany short-sleeved blouses, even when the coat shows long coat sleeves.
So fashionable is gray that an effort is being made to make this color in gloves replace tan.
Dress gloves are lovely in pastel shades of the costume color, though no more modish than white or pearl.

Toronto Live Stock.
Receipts of live stock at the city market since Tuesday, as reported by the railways, were 123 carloads, composed of 2444 cattle, 2271 hogs, 2500 sheep and lambs, 288 calves and 1 horse.

The quality of the cattle in all classes was fair to good, but on Tuesday, many poor and a very small percentage of what could be called good.
Considering the heavy deliveries there was a fair trade at lower prices, especially for the stockers and feeders of poor quality, which sold at 2c to 3c per cwt. lower than at any time in this season.

Exporters-Strictly speaking, there were none on sale, outside of a few bulls, which sold at \$2.25 to \$2.75 per cwt.
Butchers-Best butchers, 1000 to 1200 lbs., of which there were few, at \$4.15 to \$4.50; fair to good butchers and steers, 500 to 1000 lbs., at \$3.65 to \$3.85; medium light heifers, 800 to 900 lbs., at \$3 to \$3.25; good cows, \$3 to \$3.50; medium cows, \$2.15 to \$2.40; poorer cows, and bulls, \$1 to \$2 per cwt.
Feeders and Stockers-Best feeders, 1050 to 1150 pounds, \$2.25 to \$2.50; best stockers, 800 to 1000 pounds, \$2.20 to \$2.50; medium stockers, 700 to 900 pounds, \$2.10 to \$2.40; common stockers, 500 to 700 pounds, \$1.50 to \$2.00.

Milkers and Springers-For good to choice milkers and forward springers there was a better demand. Two choice cows sold at \$59 each but 12 some of the best would sell around \$45 as an average price. Medium and common light cows were slow sale at \$25 to \$35 each.

Sheep and Lambs-Receipts were very large the quality in many instances being poor. Export: ewes sold at \$1.25 to \$1.40; rams and culls at \$3 to \$5.50; lambs sold at \$4.25 for culls and 4 to \$4.50 for best lots.

Hogs-Deliveries of nearly 3000 hogs sold at unchanged quotations. Mr. Harris not about to sell his hogs at \$2.25 for select and \$5 to \$5.25 for all that did not grade up to the select standard.

COBALT NOTES

It is now said that the new find on the Silver Leaf runs into the Kerp Lake Crown Reserve property. The vein is claimed to be a good one.
Mr. George H. Doran, of Foster Cobalt Mining Company, who is just back from Cobalt, brings word of an excellent find on the Foster property. The new vein is six to ten inches wide; it carries smallite, and it was located in the drift 50 feet away from the 700-foot level of shaft No. 5, on the No. 4 vein.

The famous Lawson Mine at Cobalt threatens to be the subject of further litigation. By an agreement between the parties, dated April 28, last, the former proceedings were brought to a close by the defendant agreeing to form a company to pay \$50,000,000 as consideration for the mine. On this understanding three appeals then pending in the Supreme Court at Ottawa were dismissed.

Returns have just been received from a recent shipment from the Foster Mine on the Le Deux smelter. The car yielded \$3,119.

Oil Boom in Canada.
With the past few months experienced oil and gas prices being very buoyant, securing oil and gas leases on Manitoulin Island and Bruce's Peninsula, and now most of all the same being done in the West, it is not surprising that the prospect of drilling for oil and gas. Recent developments there in the way of drilling wells indicate that the best oil is in the rich oil and gas district, and within few months many wells will be put down for the purpose of tapping the oil and gas basins.

ISOLATION IN TYPHOID FEVER.
E. P. Joslin and C. L. Overlander believe the time has come when typhoid patients should be treated in separate wards in our hospitals, with their own attendants, who should not mingle with other patients. They note that the present method of mixing them with other diseases leads to a spread of the infection, quoting Schuber to the effect that 33.10 per cent. of all typhoids are the result of hospital infection.

Nurses frequently contract the disease. Statistics collected from six Boston institutions over a period of four years, and embracing nearly 3,000 cases of typhoid show that for every 114 cases treated one nurse came down with the disease. They declare that, considering the dangers nurses now run, under no circumstances should a "probationer" ever come in contact with a typhoid case. Typhoid nurses should not be overworked, and the greatest pains should be paid to the health of night attendants. In all the American hospitals there are enough favor cases to insure the proper training of nurses.

They deny that it is in any respect harder to care for several typhoids at one than for two typhoids and non-typhoids. On the contrary, it is simpler to do strictly typhoid or non-typhoid nursing. The typhoid utensils will all be found in one place; supplies will be made and procured in bulk and thus many duplicate steps saved. The concentration plan of nursing typhoids should easily lessen by one-half the number of days of a nurse's exposure to the disease. Separate nursing eliminates the chief dangers to which other patients are exposed, as the "go between" are eliminated. A given case may harm a fellow typhoid from proximity, but the danger is far less than that of giving the disease to a neighbor weakened by some other malady.

Isolation of typhoids was made compulsory in Germany two years ago. The knowledge of a nurse that she is detailing for strictly typhoid duty leads her to be far more careful as to precautions for her own protection.-Boston Medical and Surgical Journal.

AMERICANS UPON ENGLISHMAN'S GRAVE.

Rear Admiral Very, United States naval commandant at Honolulu, has recently sent the naval tug Iroquois to Kealahou Bay, in the island of Hawaii, a distance of 17 miles, for the special purpose of renovating the monument erected in that place to the memory of Captain Cook, the great English circumnavigator of the globe. All the undergrowth in the inclosure was cut down, the monument repaired, the lettering of the inscription blackened, and the cannon and chains surrounding it repainted by the blue jackets of the Iroquois, under the direction of Lieut. Commander Carter, U. S. N. Formerly the monument was kept in order by crews of British men-of-war which visited the spot from time to time for the purpose; since the annexation of the Hawaiian islands, however, the United States Navy has undertaken the task. Captain Cook met his death in 1779 at the hands of a native chief named Noaah. The fight arose owing to the stealing of a ship's boat by the natives. Captain Cook endeavored to remove the king on board in order to hold him as a hostage, when he was struck down from behind.

THE HAMILTON TIMES

FRIDAY, OCT. 18, 1907.

VIEW IT AS BUSINESS.

Our neighbor, the Herald, accuses the Times of misrepresenting Mr. Sothman's estimate of the cost of an electric light distributing plant and making it appear that his figures are \$375,000, instead of less than \$200,000. Of course Times readers know that the accusation is unwarranted, and that the Times made no such statement. And the Times gives the Herald credit for more "gumption" than to think that it did. But the Times does not think Mr. Sothman's figures are safe or practical, and we do not think anybody familiar with them and with what they should cover views them differently. Even the Herald sees that, and concedes that the estimate for wages (\$1,800) is absurdly low, and is driven to excuse the estimate by the guess that the fixed charges "probably include allowance for depreciation and repairs." As to its suggestion that the electrician would be required to take charge of the system, the operation of electric machinery, and transformers and the general supervision of the plant, but that it could be operated entirely "by two or three handy men," it is a proposition that needs but to be stated to show its absurdity. If Hamilton is going to plunge into this scheme, the people want to know what it is going to cost them; they don't want to be tricked into it. And whether the figures give them will pay for the plant or not, the ordinary citizen can see plainly that the figures of cost of operation, even on that basis, are utterly insufficient. Why should this be so? What object is to be served? It is a business matter, and should be viewed from the point of view of business.

EDITORIAL NOTES.

It is expected that over \$30,000,000 will be required for the U. S. rural postal delivery system this year. There is now about 38,000 routes established.

Those new Provinces and States are surely radical. Alberta proposes to compel every drunk incarcerated to take the gold cure! And which fellow's nostrum, pray?

Wireless transatlantic telegraphy has now passed beyond the theoretical stage, and the station at Sydney, N. S., is now in regular business. These are surely days of progress.

London Liberals will not put a candidate in Mr. Hyman's place, but will offer him the position when the general elections come round. In event of the labor candidate withdrawing that would mean Beattie's return by acclamation.

Who is paying the salary of Hon. Geo. P. Graham while he is running about the country introducing Hon. A. G. Mackay, the new leader of the Grit Opposition in the Ontario Legislature?—Dundas Star.

Who is paying the salary of Hon. Mr. Hanna while he is up in the North country hunting moose—and keeping out of Dr. Beattie Nesbitt's way?

The Cataract Company appears to have tired of waiting for the council to compel it to reduce the cost of private lighting, and so it acts itself. The reductions range from 23 to 60 per cent. If the estimate that a "kilowatt hour" costing 5.94 to 7.65 will operate a 16-candle power lamp for 18 hours be realized, there will be a very important cheapening to the consumer.

Well done, 13th! That is a splendid record which the Times publishes today. A soldier's usefulness is not to be gauged by the perfection of his marching and the machine-like precision with which he performs his drill. Those are indeed worth much as a matter of discipline and appearance, but the real test of efficiency is his capacity to inflict damage on an enemy—to shoot well. And the 13th has good reason to be proud of its work at the ranges. The record is creditable to officers and men, and fully justifies the pride felt in the corps by our people.

A few days ago the Herald said that the Hydro-Electric Commission would be able to construct its transmission lines for at least \$400,000 less than the estimated cost on account of the drop in the price of copper. To-day the Toronto World quotes the opinion of an electrical engineer to the effect that the saving that could be effected on this item alone is not less than \$1,000,000—Hamilton Herald.

There has been a very great decline in the price of copper in the last few months, and doubtless the saving from the price of a year ago would be very important. The World, however, is rather enthusiastic. When the Hydro Commission's estimate was made copper was quoted at from 15 to 18 cents. Mr. Beck in his speeches pointed out that the estimate was based on an extreme figure and said copper was never likely to be higher. It did go higher—to about 25 cents. On Tuesday 1,900 tons were sold to British buyers on the New York Metal Exchange at 25 5/8 to 26 1/8. A ton. On Wednesday 2,500 tons were sold, some at even lower prices. Speculative lots were quoted at 12 1/2 to 12 3/4, and the market closed with a gain of 7 1/2. On spot and 12 1/2 to 12 3/4. Lake copper is quoted at 13c to 13 1/4c. It is probable that if the metal were bought to-day a saving of 15 to 20 per cent. of the cost of the wire might be made.

JURY WAS OUT UNTIL 3 A. M.

Blamed Power and Fire Alarm Systems for Accident.

Recommend That Power Wires Be Placed Underground.

Inquest In Dundas Fatality Concluded This Morning.

Dundas, Oct. 18.—The coronor's jury, empanelled to enquire into the death of Samuel Sutton, convened again last evening after two weeks. The same legal representatives were present and the taking of the evidence was not a lengthy proceeding.

also inspected the wiring of the Dundas Electric Company. Between Hatt street and the corner of Providence he found nineteen places not protected by insulation and from the corner of Main and Victoria streets, up King street to the corner of Church, 94 places were found in the same condition.

The jury was locked up at 9.15, and in a few minutes agreed as follows: "The jury find that the death of Samuel Sutton was caused by coming in contact with a fallen live wire of the Dundas Electric Light Company, owned and operated by the Cataract Power Co."

Further the jury found that both the Electric Light and the town fire alarm system were in dangerous condition. They followed a discussion to have a clause added recommending that the power current be cut until such time as the Cataract Co. put its plant in such a condition as is called for by their agreement with the town.

The coroner charged the jury briefly, saying that if convinced that the death was owing to the negligence of any person or corporation, it should say so and on the other hand, if it deemed it wise it might exonerate any person or corporation.

STREET RAILWAY.

An Advocate of Municipal Ownership Talks.

To the Editor of the Times:
Dear Editor,—Will you kindly publish the following: I give below a few very interesting facts for the people, and from which the Street Railway management can take a good lesson.

Berlin, being a good sized town, not a city, the following is a grand showing, especially when you think the town has only run their street car service for three months, from May 1st to August 1st.

They carried 164,000 passengers, their average receipt for each passenger being 4-1/2 cents, the average cost of carrying such passengers amounting to about 3-2/3 cents, which gives them a net profit on each passenger carried of 2-1/2 cents, which is a great credit to the town and citizens, to think that they have such efficient management in the street railway. They operate three cars on a 20-minute schedule regularly, and on Saturdays they put on two or three extra cars.

The city of Guelph, although a much smaller city than Hamilton, yet knows how to run their street railway and make money out of it, while the Hamilton Street Railway, according to Mr. J. M. Gibson's statement, cannot make money; it must be poor management.

Of course Berlin and Guelph have not the Cataract Power Co. to buy motive power from.

The Guelph Street Railway Co. carried last year 616,046 passengers. Their cost of operation was \$20,169.03, total earnings being \$29,509.65, showing a net

gain of \$8,340.62. They paid 4 1/2 per cent. dividend on the capital stock, and the balance was written off and carried to reserve.

Surely after reading the above figures the Street Railway management should engage one of the managers of the Guelph or Berlin Street Railways to run their road for them. If they cannot make money out of the company's roads, there must be something wrong with the management of our street car system, especially when passengers have to stand in the cars because the seats are wet, as they did not know enough to put on closed cars. Just think of any company running open cars on a day like Saturday, September 28th.

I think it is high time the city took over the street railway. We may then be like Guelph and Berlin, have a paying road under efficient management. These roads are run by commissioners, hence their success.

Thanking you for your valued space, I remain, yours truly, W. W. G

[Note—The figures of Guelph's street railway experience do not quite tally with our correspondent's. In 1906 the "net gain on operations" was given as \$8,340.62, as he has it, but from that was deducted an accident claim and legal expenses amounting to \$853.34, leaving \$7,487.28. In presenting the report the treasurer pointed out that in the two former years a deficit of \$463.09 was incurred, and thus the net result of the three years' operation was a balance of \$7,024.19. On \$108,000 a dividend of 4 1/2 per cent. was paid for one year, or at the rate of 1 1/4 per cent. a year, and \$2,164.19 carried forward, nothing being set aside for depreciation, sinking fund, etc. And still the showing is not so bad for a municipally managed railway.]

INCOME FIGURES.

A Protest Against Publishing Them to Gratify Curiosity.

To the Editor of the Times:
Sir,—Your dailly on Tuesday to hand. I differ from your editorial about publishing the assessment rolls, including the income tax. They were printed some years ago, and it was a fine grist for the gossips. There is nothing private about real estate. It can be seen from the streets, the perspective really belongs to the public. No objection can be raised to the printing of this part. I would be glad to pay for a copy of real estate values, but our present rolls are out of date and unreliable, for I personally have the quiet department and reserve of a true gentleman; if I were to ask him to place a value on his house and lot, he would not think me impertinent. If I were to ask him what amount he had saved out of his personal earnings, and what salary he was getting, or, in other words, to produce his private papers, what would he say in reply? I regard the income declarations as confidential papers, but not secret. No one except the custodians of them should have access to them. Any one wishing or needing this kind of information for business purposes or curiosity, he should apply to the man himself, and not filch figures at the City Hall. Surely there must still be some part of our private affairs left that we can keep from the street corner.

[The above letter reaches us without name, number or date, and contrary to our usual practice, we publish it, instead of consigning it to the waste basket, because it deals with a matter of very general interest, and without introducing any personal questions. In our editorial of Tuesday the Times dealt with the law as it stands, without any desire to defend or excuse the law, which we regard as one of the worst of the statute books, inquisitorial, inequitable, discouraging to investment and improvement, penalizing enterprise, energy and thrift, unjustly discriminating between classes of business—in short, a measure to extort taxes without regard to services rendered by the public to the person taxed. But we have no doubt as to its intent to make public the assessment roll. We are equally sure that to spend the money of a hard-up city to publish the roll would be folly and waste. But the framers of the Act recked little of principle or justice if they could get taxes, and for such a matter as the rights of privacy they had little respect. What we need is a new and rational assessment law.—Ed.]

LIFE IN RUSSIA.

Interesting Address By Rev. D. G. Protich in St. John's.

Last night in St. John's Presbyterian Church Rev. D. G. Protich, late of Moscow, gave an interesting lecture to a large audience on "The Russia of Today." Being a Russian and fully conversant with all classes and manners of the people, he was able to unfold a very interesting tale to his hearers, which was much appreciated. The lecture was under the auspices of the Young Men's Union of the church, and half of the proceeds go to the maintenance of the lecturers' countrymen in this city.

Miss Coultis and Mr. G. Richmond gave vocal selections and Mr. Webster gave some selections on the organ. Mr. J. H. Horning, President of the Y. M. U., was the chairman, and introduced the lecturer. Mr. Protich speaks English fluently. In opening he gave some statistics of his country as regards size and population. He stated that there were 9,000,000 square miles of territory in Russia, with 80 people to the square mile. Since 1816 the population has increased 74 per cent. The educational advantages of the country are great, he stated, there being 80,000 Normal Schools, 30,000 Mohammedan and Hebrew institutes and a great number of military schools. Crime seems to be on the increase there, to judge by the fact that there have been a great many more condemnations. There are 500 jails in Russia, only ten of which are hard labor prisons. The Czar has one-third as much property as is owned by the peasants of the country. He spoke of the extensive bribery and corruption of the country, and said that in every thing bribery is a necessary evil, having grown in the blood. Amusements are not a common thing there, consist of dancing and singing at the crossroads, and card playing. Tea rooms were provided, where, for one cent, a man can get lots of tea and amusement, but has to supply his own sugar. He took up the many different religions of the country, and dwelt briefly on each. Not so very long ago nobles were sent to Siberia if they read the New Testament to their servants.

PETROLEA DISASTER.

WAS A TREMENDOUS EXPLOSION OF NITRO-GLYCERINE.

Magazine of the Torpedo Company Blown Up—Several Buildings Damaged and Much Glass Broken, But Only One Man Hurt—Loss Will Be Heavy.

Petrolia, Oct. 17.—At present no cause can be ascribed for the explosion of the nitro-glycerine magazine of the Petrolia Torpedo Company. The liquid was thought to be packed properly. In any event a searching investigation is promised by the authorities.

It was an act of Providence apparently that the accident occurred at the time it did, as there would have doubtless been many fatalities in connection with it had it occurred in the day time. The magazine contained between 300 and 400 quarts of the deadly fluid, enough to have completely wiped this town off the face of the earth if it had exploded in the limits. The company's manager states that no workmen had been around the building since 11 o'clock the previous morning, and they are utterly at a loss to account for the cause of the accident.

Several residences in the immediate vicinity of the works were almost completely destroyed, the inmates fortunately escaping serious injury. The magazine building was a one-story brick on a concrete foundation. It was some 20x30 feet, and all that now remains is a hole in the ground big enough to engulf it. Bricks and debris were thrown at a distance of several miles. Fences in all directions were laid low. The force of the concussion broke many windows in Wyoming, a town five miles north of here. The shock was apparently felt as far away as Windsor and St. Thomas on the north, and Sarnia, Forest and London on the south, and west, as many inquiries have been received from those places to-day.

The monetary damage is hard to estimate, as there are so many who lost by the explosion, but it will run well up into the thousands. The nature of the business of making explosives precludes the idea of insurance, so that the loss will be total to the company. The question as to the individual losses that can be recovered from the company has been discussed freely, with varying opinions.

FOURTH ARREST.

JOHN F. McDONALD, A DAWSON JEWELER, IN CUSTODY.

More About the Great Mail Robbery at Dawson—Kincaid Lived High and Spent Money Recklessly—Other Arrests Expected.

Vancouver, Oct. 17.—A Dawson despatch says: John F. MacDonald, a Dawson jeweller, was arrested at White Horse yesterday, on the arrival of the steamer Selkirk from Dawson, charged with complicity in the robbery of \$40,000 from registered mail in Dawson on July 29.

This makes four arrests in the case, the first being Richard Hall, who was taken here; the second George Kincaid, chief Government foreman, who was arrested at Selkirk, and who committed suicide; the third Tom Vaughan, held on suspicion with a blanket charge of vagrancy against him, and the fourth MacDonald. Other arrests are expected to follow. So far the plot is not all unravelled.

It now develops that Kincaid lived at a great pace here for many months, spending as high as \$200 to \$400 nightly in the past few weeks on wine and women, giving some men \$100 at a time, telling them to have a good time. Kincaid was a clever building master. He dressed fashionably.

ELECTERS WERE CAUGHT.

Young Londoner's Bride Held by Her Parents.

Crystal City, Man., Oct. 17.—Some months ago Miss Potter, of this town, was clandestinely married to Jos. Lawrence in London, Ont., and her parents took prompt action to separate the young lovers. The bride was brought home and Lawrence was put under legal restraint. Last night another runaway was planned by Lawrence and his bride, and a start was made for the boundary, but her irate father overtook them three miles from home and another sudden rude separation followed.

THE WOLF BOUNTIES.

Over Seven Thousand Dollars Paid Out So Far This Year.

Toronto, Oct. 18.—Up to the end of September the Provincial Treasurer had paid out \$7,280 in wolf bounties, for which the appropriation made at the last session of the Legislature was \$8,000. Last year the total paid for the whole twelve months was \$8,367. The Government pays \$15 for every wolf killed in the unorganized districts, and \$6 of the \$15 which is paid by counties for wolves killed in the organized sections of the Province.

G. T. P. SURVEYORS DROWN.

Their Canoe Went to Smash in Giscombe Rapids.

Vancouver, Oct. 17.—Three members of a Grand Trunk Pacific survey party were drowned on October 4th in Giscombe Rapids, thirty-five miles above Fort George, on the Fraser River. They attempted to shoot the rapids in a canoe, but struck a rock and the canoe broke to pieces. The drowned are William Lusby, Harry Cummings, W. Springton. The survivors are Robert Sheffling, J. Miller, Arthur Cape. No bodies were recovered. Cromwell's party from Edmonton brought the survivors to Quesnel.

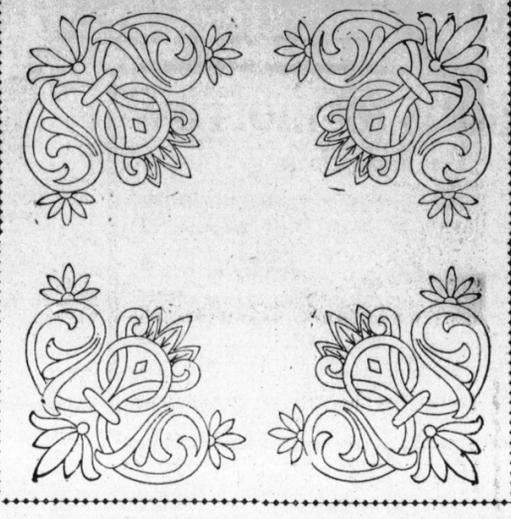

OTTAWA ALSO GOES BAD.

Prosperity Induces the Capital to Drink More.

Ottawa, Oct. 17.—Statistics of the arrests for drunkenness in Ottawa during the past ten years show that there has been an increase of about sixty per cent. in the per capita proportion of arrests made during that period. In 1897 when the city had a population of 33,727 there were 221 arrests for drunkenness. Last year, out of a population of 67,572 there were 448 arrests for the same cause. Magistrate O'Keefe, who has had many years' experience on the Police Court bench, holds that the abnormal increase of drunkenness is due to increased prosperity. The class of people usually addicted to drunkenness, the Magistrate says, have now more money than they had a decade ago, and consequently indulge to a greater extent in liquor.

VON BUELOW'S AUTOMOBILE. It Killed Aged Woman on Road Near Hamburg.

Hamburg, Oct. 17.—Prince Von Buelow, the Imperial Chancellor, was in a fatal automobile accident near here to-day. The Prince was being spending a few days at Kleinflottbeck since his return from Nordenf. He started for Hamburg to-day, and hired an automobile and his car to take him to the residence of the Burgomaster. While on the way an aged woman tried to cross the road in front of the machine, but became confused, and was run down before the cab could be stopped.

The Prince had the chauffeur go and get a physician, who examined the woman, and said that her death had been instantaneous. The Prince took the number of the chauffeur, and continued his journey to Hamburg on the electric cars.

HARVEST OF TERRORISM.

There Were Thirty-four Executions in Russia in September.

St. Petersburg, Oct. 16.—The police statistics published to-day regarding terrorism during the month of September show that thirty-four persons were executed, that 207, including 73 officials, were murdered and that 172 people were wounded in various affairs. The figures do not include the casualties in the anti-Jewish riots at Odessa, Rostov and Simferopol.

DEATH BY POISONING.

Doctor at Elgin May Have Given Frank Day Wrong Medicine.

Elgin, Oct. 17.—A very sad accident occurred here yesterday, resulting in the death of a respectable laborer named Frank Day. Mr. Day was troubled with cramps, and called at the office of Dr. Dunn for treatment. The doctor, who had only recently purchased the stock of drugs, it is alleged, gave Day a dose from a bottle which was wrongly labeled. The patient was dead in a few minutes. He leaves a wife and five children.

BURN HERETICS.

RETIRED DREACHER PLEADS FOR TORCH AS A CURE.

Others Should Die, Too—Dr. R. M. Patterson Startles Assembly in Philadelphia When Views Are Announced.

Philadelphia, Pa., Oct. 18.—The Rev. Dr. Robert M. Patterson, a minister of the Presbyterian Church, who is well known in Albany, Chicago and Philadelphia, and who has lived in Malvers, a suburb of this city, since his retirement from the ministry several years ago, caused an uproar in the Presbytery that met here to-day by declaring that the death penalty should be inflicted upon all heretics, blasphemers and correspondents in all divorce cases.

Persons who sought out affinities should be harshly dealt with by law, said Dr. Patterson, and the death penalty should be established as the punishment for attacks on women.

Dr. Patterson had been scheduled on the programme of the Presbytery for a speech on John Calvin.

The first thing he said when he got up to speak was: "If I had my way about it I would have an executioner called in to deal with all heretics and blasphemers. Burning at the stake would be too good for those who revile religion and take the Lord's name in vain. The growth of heresy is such to-day that nothing but measures like this can stop it."

"The executioner should be the services of the executioner, those despicable persons who make divorce necessary by their insidious machinations between husband and wife.

"And for those who, under the guise of an artistic temperament or uncontrolled affection, take upon themselves the duty of forsaking their lawful wives, I would have the law recommend harsh punishment. Execution also should be the punishment for attacks on women."

When Dr. Patterson had finished speaking the Rev. Dr. John Wheaton, the pastor of Mizpah Presbyterian Church, of Philadelphia, rose to declare that such pronouncements were too radical for expression in the present day.

The Rev. R. C. McCook, formerly pastor of the Presbyterian Tabernacle, got to his feet with some heat and declared that instead of being radical, Dr. Patterson was ultra-conservative. He had harked back to the thought of the middle ages, said Dr. McCook, and his ideals were those of the inquisitors in Spain and the anti-Papal religionists of Germany.

"There is no man in the Presbyterian Church like Dr. Patterson to-day, I hope," said Dr. McCook in conclusion. This roused Dr. Patterson's ire and he started to make a spirited reply. Others tried to speak at the same time, and the meeting was in an uproar. The Moderator presiding pounded for order and announced that to preserve the peace of the meeting further discussion on Dr. Patterson's speech would not be allowed.

BURNED BY STOVE WOOD

Organist's Tribute to Zam-Buk

When you get a burn or a scald lose no time in putting on a little Zam-Buk balm. It soothes the pain at once, and heals quickly. H. E. Jenner, organist of Central, Man., writes: "Some little time ago I took hold of a piece of wood in a box stove which I wished to move, thinking it had not caught fire. Unfortunately it was very hot and burned my thumb severely. I had some Zam-Buk handy and applied it, then bandaged up the thumb. The Zam-Buk took the fire out of the wound almost instantly and eased the pain. It seemed to penetrate to the very seat of the injury and give quick relief. I was very glad of this, because I had an engagement to play at an organ recital a few days later. Thanks to Zam-Buk I was able to keep the appointment."

Zam-Buk heals sores, cures eczema, skin eruptions, ulcers, ringworm, itchy, rheum, abrasions, abscesses, cuts, ulcers, scalds, and all skin injuries and discharges. Of all stores and druggists at 30 cents, or from Zam-Buk Co., Toronto, for price; 3 boxes for \$1.25.

DISMISSED SAM WEAVER.

Dundurn Park Superintendent Set Out by Board.

One of the Oldest Employees in the Service.

Mr. Wild Laid Charges and Made Serious Accusations.

Commissioner Wild exploded a bomb at the Parks Board meeting yesterday afternoon by making charges against Samuel Weaver, for several years caretaker at Dundurn Park, which resulted in the dismissal of that official, and a decision to advertise for a new superintendent of parks.

While Mr. Wild, in his sensational arraignment of Caretaker Weaver, charged him with inefficiency, neglecting his work and not only drinking himself but encouraging other employees to drink, he intimated that there were other accusations he could make.

"I have told you some things; I could tell you more things that would open your eyes to the carryings on up there," was the way he put it. The action of the commissioners was short, decisive and unanimous.

The board was just preparing to adjourn when Commissioner Wild sprang his surprise. He charged Caretaker Weaver with spending considerable of his time drinking and taking some of the other employees with him. "And he neglects his work," said Mr. Wild. "This has been going on day after day, week after week and month after month."

"Was he sick?" asked Mr. Bruce. "He could go and drink," said Mr. Wild. "This thing has been going on so long that it is my opinion it will never be any better. This man runs down day after day and every one of you gentlemen. There is not one member of the board of whom he does not speak in that way. I am not going to be on this board and have the foreman run me down like that. I don't think it is fair, and I can't think of this board any more."

"I think it is a very serious matter," said the chairman. "What is the remedy?" "We should have a man we could trust," said Mr. Wild. "We would do ten times better off if we had a good man on there. Look at the money we are wasting."

"I think it is most important that we should have a good foreman," asserted Mr. Hope. "They are largely their own masters, and we want men we can trust. I should say most decidedly that this man should be struck out of the pay list of the Parks Board. We must have a man who will do the work properly."

"That man can not do a good job," said Mr. Wild. "If I want a good job done in any park I have to go and get Mr. Duncan to do it. If I leave it to the other man it will be done right. For a man that has been connected with the parks as long as he is I am surprised."

running diagonally from Florence to Peter streets has been completed, and while the work was in progress the committee ordered the construction of a cement curb around the flower bed, which not only improves the appearance of the bed, but prevents pedestrians and bicyclists from taking a short cut through the bed, which has been the practice for some time past.

"Mr. S. S. King has renewed the cannon stand and placed it in the position picked out at our last inspection."

"Acting upon instructions received from the board, the committee has gone right ahead with the Mountain drive. Splendid progress has been made, and to-day the roadway is so near completion that the road has become a popular thoroughfare for pedestrians, pleasure vehicles and numerous horsemen. The road cannot be completed, however, until possession is secured of the Gage property."

"Considerable difficulty was experienced in laying out the road, due to several narrow places and an old excavation. These were partially overcome by giving the roadway a winding effect, making it possible also little resting places along the brow, wherever the road curves from the brow.

"The nature of the soil on the Mountain is such that we find it will not be necessary to macadam the roadway. If the road is crowned up once or twice a year (which will be a very inexpensive matter), the committee is of the opinion that it will last longer and be more serviceable for a roadway of this nature than a tar macadam.

"Where the roadway enters the park it will be necessary to gravel the road for a considerable distance, as the sun cannot penetrate the trees during the foliage season. By the end of the week, besides having the roadway completed to the Gage property, we expect also to have the grading of the boulevard complete and ready for seeding. It was found necessary to go right ahead with the grading of the brow to give a more completed effect to the drive. The entire cost of the work accomplished, exclusive of the little work done by our regular employees, will be less than \$200, which the committee think is a splendid record, when one considers the extent and nature of the work."

The offer of Mr. W. D. Platt to donate the site in the southwest end for a park, which did not receive the prompt attention it should have through a mistake, was discussed. The special committee appointed to appear before the Board of Works will take the matter up with that body at its next meeting.

The plans for the proposed pavilion in Dundurn Park were looked over and that matter discussed at some length. The estimated cost was \$7,000, but this has been reduced down to about \$6,500. Where the funds were coming from was a puzzle. It was agreed, however, to have a special committee to see what arrangements could be made to finance the scheme.

Chairman Pain welcomed Mr. George Hope, the new member, and Mr. Hope made a suitable reply. A special committee will take up the question of buying the Gage property in the east end.

FESSERTON FIRE. John McDonald and William Craddock Arrested on Suspicion. On the night of the 15th of October there was a fire started in W. W. Carter's stove factory at Fesserton. The matter was reported to the department, and the chief detective returned up, who, after making some investigation, had John McDonald and Wm. Craddock arrested this morning. They had been employed in the factory, but had left a short time before. They were taken by Detective Reburn and brought before P. M. Badenhorst, but did not plead or elect, and were remanded till Wednesday next.

BACKACHE IS SIGN.

Simple Home Recipe Given to Prevent Serious Kidney Trouble.

More people succumb each year to some form of kidney trouble than any other cause. The slightest form of kidney derangement often develops into Bright's kidney disease, diabetes or dropsy. When either of these diseases are suspected the sufferer should at once seek the best medical attention possible.

Consult only a good, first-class physician, leave patent medicines alone. There are many of the lesser symptoms of kidney trouble which can be treated at home as stated by a well-known authority. For some of these, such as backache, pain in the region of the kidneys, weak bladder, frequency, (especially at night) painful seething and other urinary troubles, try the following simple home remedy: Fluid Extract Dandelion one-half ounce. Compound Karkoon one ounce. Compound Syrup Sarsaparilla, three ounces. These simple ingredients are harmless and can be obtained at any good prescription pharmacy and anyone can mix them by shaking well in a bottle. The dose for adults is a teaspoonful after each meal and again at bedtime.

There is no better general remedy known to relieve all forms of rheumatism either, because it acts directly upon the kidneys and blood. It cleans the clogged up pores in the kidneys so they can filter and strain from the blood the poisonous uric acid and waste matter which if not eliminated remain in the blood, decompose and settle about the joints and muscular tissues causing the untold suffering and deformity of rheumatism.

Backache is nature's signal notifying the sufferer that the kidneys are not acting properly. "Take care of your kidneys," is now the physician's advice to his patients.

WONDERS OF THE WIRELESS.

OVERSEAS MESSAGE FROM SIR WILFRID AND OTHERS.

One Has Gone Astray—Cable to the London Mail Elicits the Fact That the Message Sent to that Paper Had Not Been Received.

Glace Bay, N.S., Oct. 17.—This afternoon at Port Morien the commercial wireless service between Canada and Ireland was inaugurated by Signor Marconi. The messages exchanged to-day were sent by Sir Wilfrid Laurier, Lord Strathcona, Sir Hiram Maxim, the Lord Mayor of London and other notable men, and the first newspaper to get a story from the other side was the New York Times.

A cable just received from the London Mail says that the message handed in for transmission this afternoon at 4 o'clock had not been yet received in London.

Marconi said that over ten thousand words had been received and sent to-day and not a single word had to be repeated. The inventor said that he had nothing new to tell and when asked if he would make a statement for the press, said he had nothing to say. In a few days, he said, a press service would be inaugurated between the towers and ships at sea so that press messages may be sent each day. It is possible for Marconi to locate a ship anywhere at sea, and in a test made by the wireless people for the British Admiralty a British warship went to sea under sealed orders, and while she remained in touch with the Marconi system the chart of the course she had taken was made up at the wireless station that corresponded exactly with that of the ship.

Asked if it was possible for a message to be intercepted, the inventor said no, and even if one was copied by a fluke it could not be done again if the matter was found out, as the tuning apparatus of the sending and receiving station would at once be altered. Two messages may be received at the same time, and to-day Morien messages were being received and sent over the same set of aerials.

A wire was sent by the London Daily Mail to President Roosevelt conveying greetings. Sir Wilfrid Laurier sent the greeting of Canada to the mother country. The operating room is about twenty

feet long and about twelve feet wide, and is equipped with three keys. Right in front of that room is the transformer room, where 8 or 10 transformers are at work transforming the current up to a very high voltage. The key is connected to an ordinary wire, which wire is connected with the aerial. A funnel-like tube spits flame when the operator touches the key. This, in turn, communicates to the jump spark, and so to the aerials. The noise on the wire is like a number of whips being cracked. The whole process is most interesting, and while it is difficult to get any definite demonstration that messages are really being sent, yet both Marconi and Vyvian claim that they have been sending and receiving.

MESSAGES FROM LAURIER. Two London Papers Publish Greetings by Wireless.

London, Oct. 18.—The Daily Chronicle this morning publishes the following message from Sir Wilfrid Laurier, transmitted by wireless from the Marconi station in Canada: "Greetings to the people of Great Britain upon the attainment between the British and Canadian coasts of nature's latest triumph over distance."

The Express published the following from the Canadian Premier: "Welcome. By this bond between Britain and Canada one more triumph for the Empire and science has been achieved." The Daily Mail also publishes a message from "Loyal Canada."

THE DEAD LINE.

PREVENTING YOUNG MEN FROM ENTERING THE MINISTRY.

Would-be Clergymen Dread Prospect of Losing Their Pastorate on Attaining Middle Age—Increased Salaries Advocated at Congregational Council.

Cleveland, Ohio, Oct. 17.—The allurements of commercial life and fear of the "ministerial dead line" are given as reasons for the alarming decrease in the number of young men entering the ministry by the Congregational National Council, which held its final meeting here to-day. The report of Prof. C. S. Nash, of California, on "Ministerial Training and Equipment" aroused the discussion. A score of delegates engaged in the argument. Increased pay for ministers was the only solution suggested.

Dr. C. L. Morgan, of Illinois, said: "Congregations seem to think that a minister should labor for nothing. We cannot blame young men if they do not venture their own lives and those of their families in such a precarious career as the ministry affords." Dr. Wm. Parkes, of Chicago, said that the fear of losing their pastorate after they reached middle age deterred many who would otherwise enter the ministry. "It is the cry everywhere for young men. It is this ministerial dead line that holds men back."

SMALLPOX IN OAKVILLE. Twenty-one Cases in Town, and Residents Are Alarmed.

Oakville has twenty-one smallpox cases, and naturally there is considerable alarm among the residents of the town. The list of patients includes one member of the Oakville Board of Health. So serious has the matter become that a deputation from the local Board of Health yesterday called on Dr. Sheard, Toronto Medical Health Officer and Chairman of the Provincial Board of Health, with a request for assistance in stamping out the scourge. This was readily granted, and now the town seems in a fair way to cope with the disease effectively, after several months of ineffectual work.

The disease broke out in a colored family at Oakville about the middle of August last. The will of the late Rev. Ralph Brecken, D. D. of Toronto, a retired minister of the Methodist Church, was filed for probate yesterday. The estate is valued at \$255,187.58, and includes \$86,000 in 95 mortgages and \$130,000 in stocks of all kinds, besides \$8,277.65 realty in Prince Edward Island, and \$11,900 equity in 190 Lowther avenue, Toronto.

Mr. C. R. Devlin, M. P., and Mr. L. A. Taschereau, M. P., have been appointed to the Quebec Cabinet.

MARRIED NIECE.

CHARLES TROTTER SENTENCED TO FIVE YEARS.

He Committed Perjury in Denying the Relationship—Case Tried at North Bay Assizes Provokes Some Comment.

North Bay, Oct. 17.—Charles Trotter and Marie Chenier lived near the little village of Warden, about twenty miles east of Sudbury, and an affection sprang up between the two young people which ripened into love and a desire to be married. Trotter presented himself to the parish priest and asked that the banns be called, but his simple habitant soul was shocked with the intelligence that, inasmuch as Marie was his niece, the priest could not countenance the marriage.

After young people were deeply grieved over their predicament, but Charles determined that the marriage should proceed, even if the Protestant minister had to be called in. The marriage license was secured and, blinded by love, Trotter took the necessary affidavit that his intended bride was no relative. A Methodist divine performed the ceremony and the young couple were happy, but their happiness was short-lived, for Nemesis was on their trail and a complaint was lodged against Trotter for perjury.

After a trial before Judge Riddell and jury, Trotter was found guilty and sentenced to five years in Kingston Penitentiary, a pitiful ending to his romance and the young wife is left husbandless in the beginning of her honeymoon.

FOR DEATH OF FIREMAN.

Crown Will Prosecute Trainmen for Collision Near Barrie.

Barrie, Oct. 17.—The Crown authorities having decided to take proceedings against Engineer Henry J. Morris and Conductor Farrell, who were mentioned in the verdict of the coroner's jury as being responsible for the collision which resulted in the death of fireman Robert Blackburn, information has been laid against the parties concerned and the preliminary hearing arranged for Tuesday next before Police Magistrate Badenhorst.

A large number of railway men will be called to give evidence, and Chief King to-day served summonses. Pending the hearing, Morris and Farrell will not be placed under arrest.

NURSES EXONERATED.

Medical Men Report on Child-Whipping Case at Montreal.

Montreal, Oct. 17.—The finding of the three medical gentlemen appointed by Mr. Recorder Weir to examine the eighteen-month-old daughter of Mr. and Mrs. Ryan, who was alleged to have been whipped by the nurses of the Montreal Day Nursery, follows: "We, the undersigned, have this day examined the child of Mr. J. H. Ryan. The child is anemic and the tissues are soft, which indicate that its general condition is below par, and there is no evidence at present of any injury." The two accused, Sarah Robinson and Katherine Duroes, were discharged by Recorder Weir.

CHILDREN BUY REVOLVER.

Vendor Fined \$10 and Told to Refund the Money.

Toronto, Oct. 18.—Harris Goldstein was yesterday fined \$10 and costs for selling a revolver, and Mr. H. McArthur, \$10 for selling cartridges to Frank Maxwell, 12 years, and Harold Vancouver, 10 years of age. The boys stated they had intended to go duck shooting. Magistrate Kingsford said he would do his best to stop the selling of firearms to children, and remarked that the law gave sufficient protection in Canada without people having recourse to revolvers.

Goldstein objected very strongly to refunding the amount paid by the youngsters till he was told that he was still liable for not registering the sale.

A Panic at Naples.

Naples, Oct. 17.—A panic was caused here to-day owing to the sudden cessation of smoke from all the craters of Vesuvius, accompanied by loud detonations, which usually mean a resumption of activity on the part of the volcano.

The Robert Simpson Company, Limited, Toronto, paid a fine of \$20 and costs yesterday in the afternoon Police Court for breach of the Pharmacy Act. The manager of this department said that the directors of the company were not aware that they had to be registered under the Act in order to sell medicines, etc., in the store.

BAPTIST MISSIONS.

FALLING OFF IN THE CONTRIBUTIONS ANNOUNCED.

Church is Losing Good Men on Account of the Salary Difficulty—Reports Received at the Convention at Woodstock—Mr. Urquhart's Address.

Woodstock, Oct. 17.—Increasing opportunities and the needs of the Baptist Church in Ontario and Quebec and the decrease in money, supplies and available men made a somewhat gloomy feature in the presentation of the 56th annual report of the Home Mission Board of the Church at the convention's session here this afternoon. The report showed for the past year an increased deficit, the board having failed to raise as much as was raised last year—that is, \$30,000. Against this is placed the fact that the Church is fast losing its good pastors on account of the comparatively low salaries paid them. The men in Ontario and Quebec could not be expected, the report said, to withstand the temptation to take larger salaries in the United States and our own northwest churches.

The report urged upon the congregation the extreme need for more liberal contributions by the churches to the general funds. Much work lies before the Church. The influx of foreigners into Ontario and Quebec, and the loss of native Canadians here through emigration to the west is throwing much responsibility on the Church, while the tide of materialism and commercialism and the "just for gold" sweeping New Ontario" demanded the counter-influence of the Church. The board heartily endorsed the policy of independence adopted in connection with the Church union movement, enunciating the view that the principles of the Baptist Church are such as may not be sacrificed in the interests of sectarian co-operation. The report, notwithstanding the discouraging features, was optimistic in its tone, and told of notable endeavor and accomplishment in establishing pastorates in New Ontario. An evangelist has been secured, and will shortly set out to work in this field only.

The Treasurer's report showed a deficit. The funds for the year, including \$302.09 brought forward from the last term, amounted to \$1,941.80, while the expenditures were \$2,116.86. Encouraging results were indicated in the fact that 21 new Baptist Sunday schools have been added to the roll, making in all 446 throughout the two Provinces. At the afternoon meeting Rev. E. T. Fox, B. A., Toronto; Rev. A. A. Cameron, D. D., Ottawa, and Mr. George Matthew Lindsay, were appointed to the Board of Home Missions to fill vacancies caused by the expiration of terms of other trustees.

Mr. Thomas Urquhart, Toronto, delivered an address in the evening devoted to the home mission report. The speaker, as member of the board, pointed out that while the commerce of the country had increased 62 per cent. for the year past the contributions of the Baptist people had fallen off about 10 per cent.

AN ITALIAN KILLED.

Elderly Man Struck by a Train at a Brantford Crossing.

Brantford, Oct. 17.—An Italian, aged fifty years, whose name is believed to be Draugob Despetovic, was instantly killed at the Colborne street crossing of the Grand Trunk at five o'clock this afternoon. He was run down by an engine, whose approach he did not notice. Crossing Watchman Pilling made a valiant attempt at rescue, being severely cut about the face himself. The victim's hands and feet were severed and the body mutilated. The police have been unable to locate his friends. An inquest opened to-night and was adjourned.

FUN WITH THE FRESHMEN.

Tied Up in a Row and Branded With Indelible Ink.

Kingston, Oct. 17.—At Queen's University this morning the science sophomores prepared a trap for the freshmen, whom they secured, one by one, in the old gymnasium and tied them against the wall in a row. Each freshman was branded on the forehead with a cross mark of indelible ink. Their boots and socks were taken off and thrown in a pile in front of the Arts building, where for an hour they hunted in bare feet for their belongings in view of hundreds of other students.

In the first place "Blunoz" serge is not made in Nova Scotia.

In the second place, it is not all a blue serge, for it is a freely woven Australian wool serge in both the navy blue and black colors. You have a choice of either.

To be sure they call the Nov. Scotians "Blunozs"—but that is not the derivative of "Blunoz" serge.

Only two woollen mills in Canada can make the "Blunoz" Serge—and the Semi-ready Company control and absorb in their tailor shops the entire output.

This is the Canadian Serge which has made the British mills "sit up," and it is the Standard cloth by which the Government judge the tariff needs of this particular Canadian industry.

TRACING THE BABY MYSTERY. Railway Tickets May Give a Clue to the Girl Wanted.

Stratford, Oct. 17.—The mystery surrounding the wife left in a tifo here the other day is being investigated by the police. On Monday a girl aged about eighteen, dressed in black and carrying an infant wrapped in a shawl, came off the Buffalo train about 10 p. m., and proceeded up Nile street, and it is believed she returned to Buffalo on Tuesday morning.

An order has been issued by the railway authorities here to the passenger department in Montreal, asking that all tickets issued from Stratford to Buffalo on October 15th be returned, and an effort will be made to identify the young woman.

A summons has been issued for William Cheshire, 191 Carlton street, Toronto, charging him with criminal negligence with respect to the death of James Rigby, who fell from a scaffold.

MCCARTHY WILL PLAY TO-MORROW.

Tigers Will be Strong in the Game With Argonauts.

Hackenschmidt, the Russian Lion, Will not Meet Joe Rogers—Tempus Fugit Beaten at Lexington Yesterday.

Last night the Tigers had their last hard work-out preparation for to-morrow's big game with the Argonauts. Every man was out with the exception of Loftus and he could not get off from work, but will be out to-night. It warmed the hearts of the other players and the big crowd of enthusiasts who were present to see Denny McCarthy turn out and go through his paces with the team, and with Pfeiffer, Murray and Gray to choose a scrimmage from there is a certainty it will be as good a scrimmage as ever represented the team.

senior Rugby team, will not play again this season. It is said that a recurrence of effects from an old injury is the cause of his retirement. "Pud" is playing the same position for the St. John's team, of Winnipeg. This is from a report of the Ottawa College-Queen's football match played in Ottawa last Saturday: "Some of the reverend fathers got quite interested in the game and did some good coaching from the side line. "Give it to him, Mick; you have him skinned a hundred ways," was the encouragement offered by one of them.

FREE KICKS. In the senior city league series to-morrow the Y. M. C. A. team will meet the Beavers at the Cricket Grounds, as a curtain raiser to the big game. The match will be called at 1.15. The Winona-Grimmsby team will play at Britannia Park at 1.30.

On account of the big football match to-morrow the Hamilton Gun Club has postponed its Saturday's shoot.

ICON-FIRST.

Tempus Fugit Beaten at Lexington Yesterday.

Lexington, Ky., Oct. 17.—The defeat of Tempus Fugit in the first race yesterday was the greatest surprise of the meeting this far. The starter let the field go with Tempus Fugit in the rear, and in a break as he passed under the wire. Before Geers could get him on his feet the other horses were a quarter of a mile in the lead, and he was hopelessly shut out. Codero won easily. Margaret O. easily took the next three heats. After the second heat the best Codero could do was to trail the field and take second money in the final summary.

Out of ten starters in the second race for 217 paces five caught the flag in the first and second heats. Major Mallow had no trouble in winning in consecutive heats.

Windsor, Ont., Oct. 18.—The mile hand-

icap yesterday was a runaway victory for Mode Nicolls' good Avanteer. He went to the front at once, and won by half a dozen lengths from Glimmer, who was only getting one pound in weight for the two years' difference in age. The time was sensational—first quarter in 23 2.5 around the turn, half-mile in 47 4.5, five furlongs in 59 4.5, three-quarters in 1.13 1.5, and mile in 1.39 1.5, by far the fastest at this meeting. The starters in this race included Scud, the Golden-Joshua colt that will probably be the Valley Farm's best release for next year's King's Plate. Though only a two-year-old, he carried 107 lbs. which was more than anything else in the race except Col. Jack. Being green at the post, he stumbled and almost unseated Jockey Moriarity as the boy turned him away at the raising of the barrier, but quickly made up ground, and went into a good position. After going a half-mile the difference in the weights told, and he fell back. Scud is a very good looking colt, and has a fine turn of speed. A couple of months ago he showed five furlongs in 1.00 4.5 at Fort Erie, and he has outworked Charlie Gilbert at equal weights for six furlongs.

Tony Hart jumped sideways over the very first bank in the steeplechase, and knocking down The Chief, Russell A. following. Snowdrift and Dr. Koel also came to grief, and Little Wally won handily. Picktime had hard work beating Amber for the place, and was under the whip for the last three furlongs. The meeting will close on Saturday, the date set in the programme book, which provides for thirteen days of racing.

Wernberg, \$4,000; Lad of Langdon, W. W. Darden, \$3,000.

OVER A MILE SHORT.

Course of Ward Marathon Race Measured Yesterday.

Toronto, Oct. 18.—The distance covered by Tom Longboat in the Ward Marathon race on Saturday is eighteen miles and seven hundred and fifty yards, and not twenty miles, as announced. The course was measured yesterday.

This measurement may or may not be found to be accurate, but it shows at all events that the course was not twenty miles, as has been claimed all along by persons who gave the subject a moment's consideration. According to the cyclistometer the distance was one mile and 1,000 yards short of twenty miles. Instead, therefore, of covering twenty miles in one hour forty-one minutes and forty seconds, Tom Longboat ran eighteen miles and 750 yards in Saturday's race in the time mentioned, which in itself is a wonderful performance.

It was announced yesterday that Controller Ward intends to have the course measured. This should have been done before the race. The public was led to believe that it had been measured, and officials in charge of the race can hardly be excused for their failure to look after such an important feature of the race.

He received quite an ovation upon his arrival at his Toronto destination. He was accompanied by Trainer O'Brien and Jimmy Reynolds, both of whom traveled the distance in a buggy, though the walking barbed paced Langford, the last few miles. The Woodbine May be Cut Up.

Toronto, Oct. 18.—A point about seven miles from the corner of King and Yonge streets on the Kingston road, near the Halfway House, it is said, will soon be the site of the Woodbine race track. The present grounds may be divided into building lots and sold, it is expected, at a profit on the \$150,000 paid not long ago to the Duggan estate. The Auburn farm, now known as the Munro farm, on the north side of the Kingston

road, and containing 104 acres of land, has been purchased from Mr. W. F. Findlay, who has owned the property for 21 years. The property can be easily reached by the Scarborough cars. The present race course contains 84 acres, with a frontage on Queen street of 2,577 feet. The land is assessed at \$59,910 and the buildings at \$25,000. By running Eastern avenue through the property and laying out streets, north and south, it should easily bring in over \$200,000, it is thought.

Some Snap Shots at Sport and Sportsmen

Toronto World: The O. J. C. raised the price of admission this year to \$1.50, and the receipts were normal. Hamilton's scale remained the same, and the season showed a wonderful improvement in the club's finances. This is the difference between country and city rule. There was worry at every turn for the directors at Woodbine, while at Hamilton the run of the race machinery was smoothness personified. No wonder the O. J. C. talk of moving to more congenial quarters.

to pieces when the mighty Argonauts withdrew their support? And isn't it funnier that the C. A. A. doesn't ever seem to care very much? However, there is no doubt but that the trouble is something of a hard knock to the Union, but then the weathering of these hard knocks will but make the organization the stronger, as we were so often told in our youth.—London Free Press.

PAY \$15.00 FOR A GRAFTON SUIT AND SAVE \$3.00 TO \$5.00

The saving will be \$5 more than it is \$3, because you'll rarely find in any other store in Hamilton as good a suit as you can get here for less than \$20. A store that may occasionally offer as good a suit for \$18, but then it will only be a bait. Of course, it would be unreasonable to expect to get as good value elsewhere as you can get here, not only at \$15, but at \$18, \$20, \$25, or any other price. No other store can meet our prices, because no other store does business under such favorable conditions. When you buy from us you buy directly from the makers. All the clothes we sell are made in our own factories. Consequently, we save the middleman's profit, which other stores that have to buy their clothing in the open market must pay. You can readily see, therefore, why we are in a position to undersell others. Just apply this condition to your own business, if it happens to be a manufacturing one. You know very well that if you sell your product directly to the consumer the price he pays will be very much less than if it is sold to him through the jobber and retailer, both of whom must make a profit. Well, that's exactly the situation when it comes to buying Grafton Clothing. Our retail business is so enormous that we can afford to sell directly to the consumer with but one profit added. All middlemen's profits are eliminated from our prices, and you pay no more when you buy from us than the prices other stores pay at wholesale. The saving to you is 25 to 30 per cent, and often more. And you not only save money in buying Grafton Clothes, but you get the best in factories, in tailoring, in style, in service that any one can give.

Prof. Ashley Proposes an Athletic Combine.

He Would Have Them Refuse to Compete for Individual Clubs Unless the Proceeds are Devoted to Sending a Team to the Olympic Games. Toronto, Oct. 18.—Mr. C. H. Ashley, physical director of West End Y. M. C. A., in a speech at the supper on Wednesday at West End headquarters, had an important suggestion to offer regarding the Olympic games next year. He had referred at some length to the excellence of the material available for the Canadian team, and then took up the question of financing the undertaking. "Before our games last summer I figured out the cost of bringing a couple of men from England, and after carefully going into the thing I found that it would mean an expenditure of probably \$600 just to have the men here for a few days. Now, you can judge from this how large will be the sum required to send a whole team to England next year. The men will have to be there for a month so as to become acclimated. The cost will be enormous, and I do not think that the Government, Dominion or Provincial, or the civic authorities will make a sufficient grant to our representatives in England. A BIG PROJECT. "I believe, boys—and every one who takes part in competitive athletics must be interested in what I am going to say—I believe that if our athletes are going to England they will have to largely finance the undertaking themselves. "My suggestion is that you band yourselves together and until the time of sending the team next year arrives refuse to take part in any meet unless all the profits are put into a general fund to meet the expenses of the team abroad. "Here is a chance for all the clubs in the city who are in sport merely for the love of it. Let them cooperate. Let the athletes get together and

The Board of Control has extended its patronage to the team, who will witness the test matches between England and Australia. LARGEST CUSTOM TAILORS IN CANADA The Finest Moderate Price Tailored Clothes Are Made by Lyons

There's a reason for the remarkable superiority of Lyons' garments over that of other moderate priced tailors. It is this: The immense business of our four large stores enables us not only to sell at a much closer margin, but to secure our materials direct from the mills, thus saving the wholesaler's heavy profit, which other tailors are forced to pay. Paying more for their materials other tailors must consequently either get higher prices or use inferior materials and workmanship—most often doing both. The forty-first annual matches of the Thirteenth Regiment were completed on Saturday last and the statistical officers have been busy making up the records. The year's work by this regiment is one that the city and the officers of the regiment, as well as every man connected with the regiment, has good reason to be proud of.

As will be seen the shooting was exceptionally high, and a record for the home ranges. The regimental team at the Ontario rifle Association matches won the "last cup" with an average of 90 points per man, being the highest score ever made in this competition.

HACK'S BACK UP.

Russian Lion Refuses to Meet Joe Rogers. London, Oct. 18.—Hackenschmidt, the "Russian Lion" whom Joe Rogers, of New York, expected to wrestle here, has been withdrawn out of the match made for him by his manager, Charles Cochran, and Tom O'Rourke, of New York, acting for Rogers. It was a bitter disappointment for Rogers, who had brought his protegee from the United States purposely to wrestle "Hack."

WALCOTT WON.

Rockland, Me., Oct. 18.—Just a few minutes before the end of the last round of the boxing contest last night between Joe Walcott of Boston, and Billy Payne of Philadelphia, the latter was counted out. Walcott inflicted severe punishment with body blows all through the contest, and Payne was four times down for the count of nine. In the sixth round Dr. G. L. Crockett who refereed the bout, threw Walcott through the ropes into the crowd because the latter disregarded his command to "break" in a cinch.

DIED FROM BLOW.

Windsor, Oct. 17.—Bailliff Charles Baby, one of the best known men in Essex County, died this afternoon from a fracture of the skull received as the result of an altercation with William H. Chevalier, a resident of Detroit. The men met on the street here shortly before 1 o'clock this morning, and after an exchange of words, it is alleged, Chevalier struck Baby a smashing blow across the face. Baby fell to the ground, his head striking the corner of a stone step as he fell, causing the injury from which he died twelve hours later.

### LATE SPORTING NEWS

The Toronto Argonauts will make the Hotel Royal their headquarters to-morrow.

Oshawa, Oct. 18.—David Langford, the pedestrian, arrived back here at 10:40 this morning, ten minutes behind schedule time, and left at 11:15 on his way to Port Hope. He is in fair condition in all respects but his feet, which are in very bad shape. He had to stop at a farm house west of here to have his feet washed and treated. He has nine hours to make the 32 miles.

Stockholm, Sweden, Oct. 18.—Prince Gustavus Adolphus, Duke of Soria, eldest son of the Crown Prince Gustavus, is manifesting great enthusiasm in regard to the proposed challenge for the American Cup in behalf of the Royal Swedish Yacht Club. The prince has declared his intention to support the movement by every means possible and his name appears among those who have signed the appeal for subscriptions to the fund to guarantee the expenses of building a challenger and racing her in American waters.

The Tiger thirds will go to Dundas to-morrow on the L15 car to play a league game with Dundas Seconds. The game will be a hard one as some of the new players who will figure on the Dundas Intermediate team will play junior to-morrow. All Tiger players are expected to be not later than one o'clock.

The Tigers II may not be able to go to London to-morrow, to play the Cockneys in the Interprovincial Rugby League series. There is no regular train after 9 o'clock, and it would cost a special. If arrangements can be made with some of the employers of the Tigers II, the boys will go in the special; otherwise they will forfeit the game.

Fitting the Feet.  
Fitting the feet of children, and why Hamilton parents should let John F. Shea fit the little folks: If there is a father or mother in Hamilton who has not visited the department devoted to children, they are invited to come, test and examine our stock. We believe we devote the largest space and carry the largest of any retail house in Canada. From a stock so varied that any child may be fitted well and nicely, we mention these: Misses' box calf boots, little heavier than kid, sizes 11 to 2, \$1.45; size 8 to 10 1/2, \$1.25. Same style in kid, high grade, for hard usage, \$1.45; 3 to 10 1/2, \$1.25. Little lads' box calf lace boots, with hooks, 8 to 10 1/2, \$1.10. Little lads' fine box calf Blucher cut, with hooks, only \$1.35.—John F. Shea, 25 King street east.

## Electric Lighting

### Important Announcement

From 1st December next, rates for domestic incandescent lighting will be reduced by 25 to 60 per cent, according to consumption—all incandescent renewals being furnished free.

No flat rate contracts will hereafter be made or renewed.

For commercial lighting, meter rate 4 1/2 cents per kilowatt hour, in addition to a fixed charge depending on the size and kind of lamps used.

A kilowatt hour will operate a 16 candle-power incandescent lamp 18 hours.

Domestic incandescent lighting will, exclusive of meter rent of 25 cents per month, cost, according to amount of consumption from 7.65 cents to 5.94 cents per kilowatt hour.

The above applies only to service within the city limits.

The Hamilton Electric Light and Power Co., Limited.

## Reputation Sustained

Sometimes the winning of a race satisfies the winner.

Some business houses attain a reputation and are then satisfied—this won't do.

To be successful in business our good reputation must be sustained.

Each new season spurs us to greater attainments.

The designs and models of last season will not do for this.

What we have done for this season is proven in the new models in Suits and new models in Overcoats. Priced from \$12.00 to \$30.00, and bearing the "Sovereign Brand" label, and to meet the needs of those who must draw the line at \$10.00 we have more than sustained our reputation in these handsome Tweed and Cheviot Suits at \$8.50.

Before you finally decide to have your tailor measure you see this display of ours and see what we've done to sustain our reputation as makers, wholesalers and retailers of men's clothes.
