THURSDAY EVENG, FEB. 27, 1873.

Town and County News.

The Fairbairn Family propose giving a concert in Guelph, on the 18th March.

"GRAND TRUNK" ALWAYS ON TIME.—Parties wanting to go for "Grand Trunk" will always find it on time at McCullough's Medical Dispensary.

Y. M. C. A.—The regular monthly public meeting in connection with the above Association will be held in their rooms this (Thursday) evening, at 8 o'clock. Programme: Opening exercises, Reading by T. Thomas, Recitation by S. B. Dates, Reading by Geo. Patterson, Closing Exercises. Singing will also be provided.

From the increasing interest which the public generally are taking in the Association, no doubt the meeting to-night will be well attended. All are invited; no charge; no collection.

THE WEATHER.—Just when people began to feel that the back of winter was well nigh broken, another heavy snow storm sets in, causing us to feel as did Longfellow when he wrote "Oh the cold and cruel winter." Several inches of snow fell last night, and the storm continues to-day.

In the midst of this it is funny to hear the St. Catharines papers say that it was feared by many that the late extreme cold had killed all the peach buds, and that we would be deprived of the privilege of eating any of this delicious fruit, grown in Canada, this year. From information supplied by horticulturists, we learn that though a great many buds have been killed, there are many buds left healthy and strong, and if no untoward occurrence happens we may anticipate a fair crop yet.

Grand Social in Clinton. Clinton, Feb. 27.

A grand social was given in the Town Hall, last night, by the Ladies Aid Society, of the Presbyterian Church of this village. It was the largest crowd ever witnessed in the building. After tea was served the Rev. Mr. McDonald, of Elora, made a very eloquent speech, after which Mr. Wade, of the Bible Christian Church, of this village, and several others spoke. Everybody was well pleased with the evening's entertainment, and quietly dispersed at 11:30 p.m.

Ontario Legislature. Feb. 26.

Mr. Lander moved that the House will, on Friday next, resolve itself into a committee to consider the following resolution:—"That, in the opinion of this House, there is no just reason why settlers on inferior School Lands should not have the same measure of relief as settlers similarly situated who are occupants of ordinary Crown Lands; and that settlers on School Lands have just grounds of complaint unless this House takes immediate steps to secure to them the full advantages of recent legislation regarding lands occupied by them."

Considerable discussion followed, but no action was taken in the motion.

Mr. Clarke (Wellington) moved the third reading of the Bill for the protection of insectivorous and other birds beneficial to agriculture.

Mr. Jackson moved an amendment to the effect that the gun of an offender under the Bill shall not be seized and held in payment of the fine, but the offender shall simply be subject to fine or imprisonment.

Mr. Sexton moved an amendment to the amendment that that part of the clause relating to the seizure and sale of the gun be struck out.

Mr. Macdonald consented to withdraw his amendment, and Mr. Sexton's amendment was carried.

The amendment was made in Committee of the Whole, and the Bill reported.

Mr. Bethune moved the second reading of the Bill to restrain and regulate the use of the steam whistle on railway engines, within cities, towns, and incorporated villages. In doing so he stated that much inconvenience and annoyance were caused by the immoderate use of the team whistle to persons residing in the vicinity of these whistles. The bill was lost on a division.

Hon. Mr. Mowat moved that the report of the Committee on the resolution respecting the contract between the Canada Car Company and the Government for the labour of the prisoners in the Central Prison be received.

Mr. Cameron moved an amendment which was lost, and the original motion was carried.

On motion of Hon. Mr. Mowat the House went into Committee on the Bill respecting the appointment of Queen's Counsel. The Bill was reported.

PROGRESSIVELY.—The Prince Edward Island delegates had an interview with the members of the Ottawa Cabinet yesterday (Wednesday). Negotiations, so far, are said to be satisfactory; they have submitted their proposals, the nature of which has not yet transpired.

OBITUARY.—The death of Mr. Robt. Bell, formerly M. P. for Russell, is announced. He brought the first locomotive, the first printing press and the first telegraph works into Ottawa.

Local and Other Items.

MR. ROBERT BELL, ex-M.P.P. for Russell is dead.

There were 5,860 deaths in Montreal and surrounding municipalities, last year, of which 983 were caused by small-pox.

There is in store in Owen Sound, at the present time, 85,000 bushels of wheat, 26,000 bushels of oats, and 10,000 bushels of peas.

A new line, composed of ten first-class propellers, has been formed in Montreal to carry on the forwarding trade with Chicago during 1873.

The Town Council of Brampton, met on Monday and raised the price of tavern licenses to \$80, and shop licenses for selling liquor to \$100, for the present year.

The stockholders of the London, Liverpool and Globe Insurance Company held a meeting in London, on Tuesday, at which no dividend was declared, owing to heavy losses sustained in Chicago and Boston.

A BLIND VILLAIN.—A notorious character murdered two little girls in Indianapolis in June 1870. He immediately afterwards became blind, and on Tuesday last confessed the commission of the deed and was arrested.

The majority of the European powers maintain semi-official relations with Spain pending the formation of a regular Government. Russia, however, is not disposed to recognize in any manner the present Government.

A WOMAN AND FIVE CHILDREN BURNED TO DEATH.—A disastrous fire occurred near Beachburg, in the township of Westmeath, on Wednesday night, in which a woman and five children were burned to death. The origin of the fire is unknown.

MASQUERADE BALL.—The German masquerade ball come off in Berlin, on Wednesday night, in St. Nicholas Hall, and was a grand success. About 85 couples were present, including about 40 couples that were masked, and in costume. Another masquerade ball is to take place on the eve of the skating rink, on Friday, the 7th of March.

A sad accident occurred in Mt. Forest on Wednesday last, by which a man named Charles May lost his life. While moving a building he accidentally got caught under the front corner when going down the hill and it jammed him severely, causing death in a few hours. He leaves a wife and eight children to mourn his untimely end.

A Row.—There was a row Wednesday evening at the City Hall, Montreal, and the partisans came to blows over the alleged fraud in depositing a vote. At one time things looked serious, but before pistols were used a strong body of police marched down and cleared the polling room.

BOLD ATTEMPT AT ROBBERY.—A young man named Ede, while collecting for the Globe in Hamilton, about 11 o'clock on Wednesday morning, was assaulted by two ruffians, who attempted to rob him. The police interfered and prevented the transfer of the money from an honest to a dishonest person. The Times trusts that the police will be successful in their search for the villains.

TRY, TRY AGAIN.—We learn from Toronto that there is some probability of Mr. Clarke's prohibitory liquor law bill being withdrawn, as there is but little hope of its being carried into effect. It is generally felt that the condition of public sentiment has not yet become sufficiently strong to warrant the hope that such a measure could be rendered operative.

FORGERY IN TORONTO.—Quite a sensation was caused in Toronto to-day from the statement that a man named James, well known there and in Yorkville as a bright and shining light in the Church, has committed forgeries to a heavy amount, which some place as high as \$75,000. He has left for parts unknown, and efforts have been put forth by the authorities to secure his arrest, if possible.

LIBEL SUITS.—Libel suits, and those for damages, are the order of the day in Montreal. Mr. Cushing has brought one against the Victoria Rink Skating Club for \$5,000, for alleged unlawful expulsion from that rink. The St. Mary's Church libel suit is in progress. The rector claims for \$10,000 from seven of his parishioners for malicious and slanderous statements. Two more suits are preparing, and will see the light next week. The layers are happy, and business flourishes in the big court house.

HEARTLESS CONDUCT.—An astounding sensation was created in Brantford, on Wednesday, by the discovery that two young girls, aged 8 and 10 years, were found in Grace Church, where they secreted themselves on Sunday last. They are orphans named Draper, and were turned out of their home on Saturday by their uncle, a certain Mr. McCracken. These young girls slept in William Watts' shed on Saturday night, and hungry and cold crawled into Grace Church on Sunday. They became so famished that they climbed up to the window and attracted attention by their cries. If the authorities do not make an example of McCracken, they will not be doing their duty.

SENSELESS.—Women's rights cease to be so zealously advocated in the United States now as of yore. Women have sense enough to see that their rights are fully accorded them, and have ceased to look for an extension of privileges of which they were only deprived in their own imagination. The Ladies of Toronto have organized a Woman's Christian Association, with Mrs. J. C. Gilmore as its President. This is the first association of the kind in Canada. The ladies on the other side of the lines would do well to take a leaf out of the book of their Toronto sisters.

THIS MORNING'S DESPATCHES

Supposed Loss of the Steamship "Grecian."

Probable Strike of Coal Miners in North Wales.

The Mining Districts Quiet.

Decisive Stand of the Spanish Republic.

Opening of the Greek Chambers

Insurrection in Russia.

Murder and Plunder.

London, Feb. 27.—The steamship *Grecian* from Liverpool for Palermo, with forty hands on board, is supposed to be lost. The Conservative Association give a grand banquet at Leeds on the 16th April. Sir Rowland Stephenson is acting as mediator between the masters and the men in South Wales for settling of the strike. The Dowling Company yesterday extinguished the fires in the other furnaces. It is probable that the coal miners in North Wales will strike in a fortnight if the increase of wages they demand is not conceded. The mining districts are quiet.

Madrid, Feb. 26.—The Minister of the Colonies has telegraphed to the authorities of Cuba and Porto-Rico the formation of a new Ministry, and says that the Republic will defend at whatever price the integrity of the Antilles.

Athens, Feb. 26.—King George opened the Greek Chamber to-day in a speech, in which he said foreign relations of the country are in a satisfactory condition. The Royal speech promises reforms in the Government, the continuance of railway construction, and that brigandage shall be annihilated.

Vienna, Feb. 26.—Unofficial advices from Brody, a frontier town of Galicia, state that a Socialist insurrection has broken out among the peasants in the Russian provinces of Volhynia and Sodelia. The insurgents are reported to be committing frightful atrocities—murdering their opponents and plundering and burning property in all directions. The force of Russian troops which had been sent to repress the insurgents was defeated by a body of the latter.

Emigration of Farm Laborers.

The meeting called for the purpose of devising the best means for encouraging farm and other laborers, as our readers are already aware, was not held on Tuesday evening in consequence of Messrs. Donaldson and Haight failing to reach here in time, owing to the disappointment of a connection at Harrisburg. The Mayor decided that as these gentlemen had arrived it would be well to hold the meeting, and accordingly called it for one o'clock on Wednesday, but owing to the short time at his disposal the meeting was not so well attended as the importance of the occasion demanded.

On motion made and seconded, A. Robertson, Esq., Mayor, took the chair.

The chairman stated the object of the meeting in a few well-chosen remarks, and introduced Mr. Haight.

This gentleman said that the very much regretted he had been absent last evening. He only arrived in Guelph at half-past ten o'clock, and the meeting was called for seven. He was very sorry to see such a small attendance at the meeting, but accounted for it owing to the shortness of the time to properly notify the people. Mr. Donaldson and himself had been sent for the purpose of discussing the best means of bringing out and taking charge of emigrants, and they would be glad to give their views upon the subject and afterwards listen to the ideas of gentlemen present. Canadian farmers had hitherto complained of the scarcity of laborers, and the evil would be more likely to increase than decrease, on account of the large number of men required for the construction of railways and other public works about to be commenced in the Province, and vigorously pushed forward to completion. He said that there were plenty of able-bodied men in England who were anxious to emigrate, and were only waiting for a little assistance. At the present moment he had letters in his possession from which he was made aware that one hundred and seventeen families were only awaiting pecuniary assistance to emigrate to Canada. A very large number of farm laborers are similarly situated, and are prepared to make Canada their home, and fill the positions for which they are so eminently qualified, so soon as they are placed in a position to do so. The Ottawa Valley Emigration Society was formed not long since for the purpose of encouraging emigration, and preventing emigrants, upon their arrival in Quebec, from going to the United States. In 1871 this Society assisted nine hundred and seventy-four emigrants, and in 1872, two thousand one hundred and five of their present prosperous position to the liberality of this Society. He then spoke of the importance of forming an Emigration Aid Society for the County of Wellington, that it would strengthen the

hands of the Ontario agents in the old country, and also of himself and Mr. Donaldson, by their being able to assure intending emigrants that they would be well taken care of, and would find persons to place them in work immediately on their arrival in Ontario, and would also ensure a better distribution of emigrants throughout the Province. He briefly explained the objects of the Society to be the assisting of emigrants from the old country to this, and affording them advice and assistance when they came amongst us. He mentioned the cost of passage money from Liverpool to Quebec as being \$31.50—the Dominion Government gives a rebate of \$10 and the Ontario Government \$6, (after a residence of three months), which enables an emigrant to cross the ocean for the small sum of \$15.50. Persons remitting \$21.50, through the agent of the Society, may have a friend's passage paid from Liverpool to Guelph. Through the agency of these Societies emigrants reach our shores at less than half the usual price charged. He referred to the fact that a bill was being introduced into the Ontario Assembly for the purpose of giving Emigration Societies certain necessary powers whereby they may become of more permanent advantage to the Country.

The Chairman then called upon Mr. Donaldson, who said that the object of the meeting was for the purpose of arranging for the demand of agricultural and other laborers. He believed that men going to the neighborhood from which they came in the old country, would do more to make known the wants of Canada, and induce able-bodied men to emigrate, than was being done by many of the agents at home. He did not think that the supply of emigrants would be equal to the demand. There will be a very large number of men required in the shape of railways, canals, &c. He spoke of the people who emigrated to Canada years ago, and who had not only done well for themselves but had sent money to friends to bring them out.

Mr. Sturton was sorry that the meeting was so small. Not one of our representative men were present, excepting the Mayor. He thought some of the Commissioners might have found time to be present and talk over this important matter. Canada is a fine country, and he was sorry to think that the people of the old country were so ignorant of the fact. He referred to the article published in the London Times, which hoped that Canada would set up house for herself. That article had the effect of provoking discussion, and Canada was now better known throughout England than ever before. He referred to the appointment of incompetent men as emigration agents—we want men who have fought the battles of Canada, and who are able to tell the emigrant what he may expect when he comes to Canada. He had no hesitation in saying that every laborer coming to Canada was worth \$100 a year, and if we can secure an article worth \$100 for \$20, he thought the investment was a very good one. If the Ottawa Valley Emigration Society had been a success, he saw no reason why a similar society here should not be quite as successful. He prepared a resolution which he read as follows:—

Moved by D. Sturton, Esq., M. P., seconded by D. McCrae, Esq., That having in view the many advantages that would arise from the formation of an Emigration Society for the County of Wellington, be it therefore resolved that the following gentlemen be a Committee to take the necessary steps to organize an Emigration Society in compliance with the conditions of the statute:—The Mayor, Messrs. George Elliott, James Massie, Chas. Raymond, F. C. Chadwick, James Laidlaw, Wm. Whiteleaf, John Blair, (Warden) John McCrae, and the Messrs. Ferguson and Elora. The Mayor to be convenor.

Carried.

Mr. McCrae considered the object the Government had in view was a very laudable one, and considered the suggestion thrown out by one or two of the speakers, of sending home practical men, a good one. We are opening up a new country now, and it would be necessary that some men of capital should accompany the man of small capital to that new country, in order that its opening might be a success.

Mr. Laidlaw had pleasure in endorsing the sentiment of the resolution.

The Mayor thought that the capitalists of England, who had their funds invested at two and three per cent., could be induced to come out to Canada now that our country is better known to them. He endorsed the view expressed by previous speakers, that practical men would be better to send home to induce emigration than to follow the course hitherto pursued. Conversational meetings would be more effective in inducing emigration than the usual meetings at which platitudinous speeches were delivered.

Mr. Laidlaw said that these were his views exactly. Practical men would do more to encourage emigration than the agents who were now employed in the work.

Mr. Sturton moved that the thanks of the meeting be given to Messrs. Donaldson and Haight for the clear and explicit manner in which they have placed the views of the Government before the meeting. The motion was seconded by Mr. J. T. Cunningham and carried unanimously.

Mr. Donaldson and Mr. Haight returned thanks, and stated that they would do all they could to forward the interests of the County, and to encourage emigration generally.

Mr. McCrae moved, seconded by Mr. Blair, that the thanks of the meeting be tendered to the chairman for his impartiality in the chair. Carried unanimously. The Mayor returned thanks, and the meeting adjourned.

The leading Governments of Europe have agreed to protect Portugal from any possible aggression from Spain.

The Census of 1871.

The first of five volumes of the census of 1871 has been published, from which we extract the following interesting statistical information. The total area of Ontario is shown to be 68,979,372 acres, or 107,780 square miles. That of Quebec, 123,747,140 acres, or 193,355 square miles. New Brunswick 17,486,280 acres, or 27,322 square miles. Nova Scotia 13,907,603 acres, or 21,731 square miles. In Ontario there are 292,221 families, and in the four Provinces 622,719 families. The population of Ontario is 1,620,831; and the total population of the four Provinces 3,485,761. There are 828,590 males, and 792,261 females, or a total of 1,620,851 in Ontario. In the four Provinces named the males number 1,764,311; females 1,721,450, or a total of 3,485,761. There are 1,085,376 married people in the four Provinces; 117,382 widowed; 2,283,003 children and unmarried. Ontario contains 124,062 from England and Wales; 153,000 from Ireland; 90,807 from Scotland; 43,406 from the United States. The Baptists number 62,945 adherents in Ontario; Roman Catholics 274,162; Methodists 456,294; Presbyterians 356,442. In the three millions and a half of Canadians we are proud to say that there are only twenty persons who have avowed themselves atheists, and they should not have been held responsible for the declaration. Like poor Tom Paine, they will own up in a hurry at the final moment. Of those who believe in the existence of God, but disbelieve revealed religion—commonly known as deists—we have 409. Five thousand one hundred and forty-six of our population are represented as heathens or pagans. No doubt this class belongs to the Indian tribes. It is worthy of remark that while in 1871 only 13,849 are given in Ontario as having failed to mention what religion they professed, in 1851 there were as many as 33,740, while in 1851, 8,121 gave no creed, and 17,373 returned themselves as of no religion. It appears that there are thirteen disciples of Mahomet, and of these ten reside in North Wellington. Brigham Young appears to have 534 admirers in the Dominion, only one of whom, thank Providence, resides in Wellington, and we would strongly advise him to immigrate with all haste to a more congenial climate. Canadians have no sympathy with Mormonism, nor do desire for the society of its adherents. There are 1,115 Jews equally divided between Ontario and Quebec, almost all of whom are found in the cities. There are 4,870 Universalists, 2,227 Unitarians, 7,345 Friends. Out of our population of 3,485,761 we have 2,862,335 native born Canadians or about four-fifths of the whole.

GOING, GOING, AND ALMOST GONE.—There is trouble in the Ministerial Camp at Ottawa. John A. is not going to have it all his own way much longer. His followers are deserting him one by one. The changes which have recently taken place in the camp are regarded as a sign of weakness of the Government. Hincks resigned contrary to his chief's very urgent desire, leaving Tilley to look after the finances, as best he can. Tupper succeeded Tilley, and O'Connor takes the inland revenue. We are told that no new members will be taken into the Cabinet till after the session, should the Government be able to pull through. Things at the capital do not look the most promising just now, and these desertions are playing the mischief with the hitherto unruffled temper of "Canada's greatest statesman." Something desperate, no doubt, will be attempted to keep the shattered forces together, as Sir John and his followers would sooner give up the ghost than part with the keys of the public treasury. There's fun ahead, and plenty of it.

MISERABLE ACT OF PARTISANSHIP.—The Dominion Government has taken advantage of a technicality in the law in order to upset the election of Mr. Taylor, for Halifax. It appears that he was an employee of the Ottawa administration, and the law requires that he should have sent in his resignation ten days before the nomination. It appears that he failed to comply with the regulation, and a telegram was sent by Sir John to Halifax declaring his election illegal. This miserable act of partisanship is ascribed to Dr. Tupper's influence. The Nova Scotia Legislature meets to-day when the action of the Dominion Cabinet in Mr. Taylor's case will meet with severe condemnation.

PRINCE EDWARD ISLAND AND CONFEDERATION.—The people of Prince Edward Island, in public meeting assembled, resolved to send two delegates to Ottawa to make arrangements for their entry into the union. No sooner had the delegates arrived at their journey's end than the same people kick up a dust, and say that they don't want to become part and parcel of the Confederated Provinces, and that the Government did wrong in sending delegates upon a mission not approved of by the people. Well, all we have to say is if the peo-

ple of Prince Edward Island don't want to go into partnership with us, let them remain by themselves until such time as they see it for their advantage to do so. In pretending that they are not inclined to cast their lot with us they are only looking for better terms. The dodge is too transparent. We do not wish to compel the people to join us, but when they are willing to do so we will take them into our confidence. To be SHELVED.—It is rumored that Sir Francis Hincks has been offered the Lieut.-Governorship of Ontario, and has reserved his reply.

Presentation in Puslinch. A public examination of the school in Sec. 12, Puslinch, took place on Friday last. Amongst those present we noticed the Inspector, Messrs. McPherson and Knowles, of Puslinch, and Mr. D. L. McCrae of Guelph. The children, assisted by the Section choir, sang sweetly. After the good things of this life had been disposed of, Mr. Kilgour was presented with a musical album and a valuable ring, together with the following address:

MR. WILLIAM KILGOUR,
Dear Sir,—We, the undersigned, in the name of all your scholars and your friends in general throughout this Section, present to you this album and ring as small tokens of the regard with which you have been held as our friend and teacher, during the past three years, which it has been our fortune to have you among us. Hoping you may stay long with us, and wishing you all health and happiness, we subscribe ourselves,
SAMUEL KERBYNIAH,
ABRAHAM RUDEL,
REBEY.
Dear Scholars and fellow Sectionists,—Just one year ago was I similarly surprised when the scholars presented me with a handsome writing desk, but I can assure you that I am more surprised this time, not expecting at the least any such thing to happen. However, I can assure you that I heartily thank you for this magnificent present you have bestowed upon me as a mark of esteem and respect. I shall ever remember it as such where ever I may be east through life's weary pilgrimage. My thanks can scarcely be expressed in words, but please accept of this as a faint expression of my esteem and gratitude towards you. I hope this feeling may long exist between us. Many happy days have I spent among you, and hope still to spend many more. It should be my lot to remain with you, I shall endeavor to discharge the duties of a teacher faithfully and to the best of my ability, as I heretofore have done. Many of you, no doubt, are not aware of the responsibility and care that rests upon a teacher, but you this day have lightened my burden of responsibility by this expression of esteem. I feel satisfied that I have done my duty in your sight, and I earnestly hope that I have faithfully discharged it in the sight of God. The minds of children are easily imprinted with evil, and it is at school where so many children get together, that these bad habits very often originate; hence the duty of the teacher is great. He should be vigilant, and careful in his actions, and try to detect these faults if possible, for they ruin the souls of many. Parents and guardians it is in your power to free the teacher of so much of the care and anxiety, by working agreeably with him, hence your responsibility as parents and guardians. Again, thanking you heartily, I remain your teacher and friend,
Wm. Kilgour.

ANNABEL

OR THE TEMPTATION.

CHAPTER VII. THE DOINGS OF THE REV. BARTHOLOMEW KIDD.

This little excursion into Annabel's sitting apartment had not taken him two minutes to accomplish, but the result seemed to afford him much satisfaction. His next proceedings were rather wonderfully. Off went the blue spectacles, off went the broad-brimmed hat, and off, too, went the reverend head of hair, which falling down to his shoulders in smooth iron grey locks, had given him such a ministerial appearance. He had anything but that look now, and instead of these things, he turned out to be a sharp-faced, beardless man of not more than forty, with dark hair and small grey, greedy, glancing eyes, out of which the sweet light of piety had gone, and into which had come a glance keen and worldly in aspect. Away, also, vanished the smiling smile and the unctuous expression of face which he had worn in the presence of Mrs. Dobson—in short, he had changed into his natural character, and that character was diametrically opposite to that which he had been assuming. Looking at him now, one was at a loss to understand what he was. There was nothing of the ruffian about him, or of the dissipated and abandoned character, but that he was a clever, clear-headed, acute, and unscrupulous man there could be little doubt. The part he was now playing showed this, but his own hard sharp face, and small, gleaming eyes showed it still more.

Whatever might be his purpose in coming thus to Mrs. Dobson's he had not come without his plans and preparations, for after he had laid aside hat, wig, and spectacles he drew from an inner receptacle a small pistol, and with it bored a hole at the side of one of the panels of the door of communication between his own and Annabel's room. The perforation being effected, he applied his eye to the aperture and obtained a view of nearly the whole of the other chamber. Standing at this point of observation, he could watch unobserved the movement and occupation of any person in that room. The act was an intensely mean and dastardly one; but the man who did it had no scruples of delicacy or gentlemanly feeling. The purpose he was following after, outweighed all such considerations.

At the end of the hour, when Mrs. Dobson came up after tea, she found him with wig and spectacles on as before, seated at the table, with manuscripts and print-papers before him, and he, with pen in hand, seemingly hard at work upon them. So absorbed was he, or pretended to be, in his literary occupation, that he appeared to be unaware of the landlady's entrance, and gave quite a start into the consciousness of her presence when she set the things down on the table.

"Oh, ah, Mrs. Dobson," he observed, showing his sweetest smile. "In the present state of affairs of this most suitable place I have been able to absorb myself so thoroughly in my work that I have been heedless of the flight of time. It is indeed an hour since you left me, Mrs. Dobson."

"One hour to a minute, sir. I make it a point always to be punctual." "A most excellent habit to cherish, my good Mrs. Dobson. Punctuality is the soul of business—I mean of work—all kinds of work. I find it so in the discharge of my varied duties, ma'am, and it is essential in every sphere of life. If every one was like you, Mrs. Dobson, and made a point of punctuality, this would be a much better world than it is. Were you, ma'am, with your invaluable principle to enter on a crusade against the prevailing procrastination of individuals and of society, and succeed in converting people to your practice, you would become one of the world's greatest benefactors, Mrs. Dobson; and after your death a monument would be raised which should perpetuate your memory to all generations.

"I, sir, I ain't much inclined for a monument," observed Mrs. Dobson, who nevertheless blushed with pleasure at receiving such praise from so dear and good a man.

"No, the great and virtuous are always humble. Let us endeavor to do our duty, and not think of results. Find the best place for doing your duty, and there do it. Talking of that, Mrs. Dobson, I had already that this room will suit me most admirably."

"Which I am delighted to hear, I am sure, sir. I always feel it a pleasure when my lodgers are satisfied. In my way of doing, sir, it don't always happen that this is the case. I have seen me do my best and get only grumbling."

"Ah! I believe that, ma'am. There is great deal of ingratitude in the world, and deception too, Mrs. Dobson. We cannot be too much on our guard in intercourse with strangers, for people, I am sorry to say, are not always what they seem. You have had some experience of that, I dare say, Mrs. Dobson."

"I, sir, yes. I have found them sometimes worse, sometimes better, than they looked. But, dear heart, Mr. Kidd, there be people as isn't deceptive, but straightforward and good. I know them when I see them, sir."

And Mrs. Dobson directed such a meaning look towards her lodger that the latter was forced to understand the compliment as directed to himself, whereupon he looked blushing and modestly deprecatory.

PETRIE'S NEW DRUG STORE

Nearly opposite the Old Stand, NOW OPEN.

M. PETRIE takes this opportunity to thank the Public for their large and liberal support during the seven years he has been in business in Guelph.

The New Store is the one formerly occupied by Mr. H. Derry, and lately by Mr. J. R. Port, as a Confectionery Store. The store has been enlarged and refitted, making it a much more desirable place of business than the old stand.

Having secured the new store for a term of Ten Years, I hope, with the assistance of the Public, to present in the future as I have done during the past seven years, any monopoly in the Drug Trade in Guelph.

The old store will remain open for business until the first of May.

By conducting my business in the future in the same upright principle as in the past, I trust to receive a continuance of your generous support.

I am, yours very truly, A. B. PETRIE.

BREAKFAST—EPPE'S COCOA—GRAPEFUL AND COMFORTING.—By thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Eppe has prevailed on to break a new field with a delicately flavored beverage which may save us many heavy doctors' bills. *Civil Service Gazette.* Made simply with Boiling Water or Milk. Each packet is labelled—**JAMES EPPE & Co., Homoeopathic Chemists, London.**

MANUFACTURER OF COCOA.—We will now give an account of the process adopted by Messrs. James Eppe & Co., manufacturers of dietetic articles, at their works in the Euston Road, London.—See article in *Cassell's Household Guide*. J206mdw

An Eminent divine says:—"I have been using the Peruvian Syrup. It gives me new vigor, buoyancy of spirits, elasticity of muscle." J. P. Dinmore, 36 Day St., New York, will send free, a pamphlet of 32 pages, containing a full account of this remarkable medicine, to any one sending him their address.

No organ of thought or action can be employed without the assistance of the blood, and no organ can be employed safely or with impunity without a supply of healthy blood. With healthy blood the exercised organs become well developed, whether they be muscular or intellectual. By the use of Eppe's Compound Syrup of Hypophosphites the blood is vitalized and purified, and so made capable of producing a sound mind and a sound body. "Persons suffering from impure blood, or whose health is giving way, either as ministers or those who study closely, will find in the Syrup the material to build them up and the tonic to keep them there." IMPROVE NUTRITION.—The condition of the human system, and the vitality of the organs and tissues of the body, is dependent on the quantity and quality of the food which is assimilated. Dr. WHEELER'S COMPOUND ELIXIR OF HYPOPHOSPHITES AND LACTOGEN, is the only agent known that acts directly as an excitant of nutrition, by imparting tone to the stomach, liver, and pancreas, the great triad that prepares nourishment for building up the organs and tissues of the body. The action of this remarkable preparation is extraordinary in strengthening and vitalizing the constitution, whether impaired by age, exhausted by excess, or debilitated by any of the ordinary methods of treatment. Being a tonic under all circumstances, it is eminently adapted to prostrate, anemic women and delicate children.

IRON IN THE BLOOD

PERUVIAN IRON SYRUP

MAKES THE WEAK STRONG.

The following Syrup is a Perfect and Complete Preparation of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agents, Iron in the blood, and cures a thousand ills, simply by Feeding up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damage, and waste, checking out a cold, or removing a fever, and giving vigor to the system.

This is the secret of its wonderful success in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhoea, Bile, Nervous Affections, Gills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its curative effects are not nullified by corresponding reaction, but are permanent, infusing vigor and new life into all parts of the system, and initiating up an Iron Constitution.

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

See that each bottle has PERUVIAN SYRUP blown in the glass. Pamphlets Free.
