Upstreamers Tuxis St. James' Church Hold "Open Night" With Fine Programme—Piano Result of Their Splendid Efforts.

The address embodied in this report gives the why and wherefore of a highly successful gathering in the school room of St. James' Church on Monday evening, under the auspices of the "Upstreamers" (Anglican) Tuxis Square.

The proceedings took the form of an open meeting of the Square. After the usual routine business the following programme was carried out:

Warey Counsel for Defendant, G. H. Warey Clerk of the Court, Mr. J. Roberts Sheriff, Mr. V. Campbell Witness for the Plaintiff, Miss Garzinta, Rev. E. Underwood, Chas. LeBrun; for the Defendant, J. Donat.

Part III.
Presentation of the piano. To the Rector, Wardens and Vestry, of the Parish of Bridgetown, N. S. On behalf of the Square of Tuxis Bays of this church, known as "The Upstreamers", I desire to present to you, for use in this school room, the piano which you see here installed.

For the purpose of information and record it may be interesting to recall the steps leading to the meeting of the Square now being held.

From time to time, the desire had been expressed for a piano in this room, especially on the occasion of social gatherings, and this desire was particularly emphasized last Winter.

Accordingly, at the mid-week meeting of our Square, on Wednesday, February 8th, 1923, this subject was brought up, and it was suggested that it might be possible for the Square to inaugurate a fund for the purchase of a piano.

Several schemes were discussed at that and subsequent meetings, and it was finally decided to get up a Minstrel Entertainment. This was done and the entertainment given in the Primrose Theatre on Thursday, April 19th, with highly gratifying results, which so encouraged us that, at our mid-week meeting on April 25th, we decided to continue our efforts, and to raise the whole of the money required to purchase a piano and present it to the church.

Violations of Auto Regulations to be Dealt With

The town has been pestered, and the safety and comfort of citizens interfered with by speed fiends, a number of whom have been travelling at night without either rear or front lights. One or two of these have deeded themselves with the idea that the "silent policeman" is something to run into. In a very short time some of these nuisances are going to run up against the real policeman and the results will be beneficial to the town treasury.

Paradise.—Fifteen of the Paradise Boy Scouts under the leadership of their Scout Master, Mr. Robert Longley, are tenting out at Clementsport this week. They extend a cordial invitation to relatives and friends to visit them this week.

The Annual Business Meeting of the Women's Missionary Society was held Thursday, the 5th, at the home of Mrs. W. H. Robinson. Among other business transacted it was decided that in future when one of the members is removed from the circle by death that instead of making the usual offering a special offering will be made for Missions in the name of the departed member and will be known in the Society as the memorial offering. Christmas tree gifts for the Bobill Boarding School were gathered including many of the articles mentioned by Miss Cora Elliott in a recent number of Tidings.

A beloved child of God passed from among us when Mr. Phineas Charlton was laid to rest on July 4th. Funeral services were held at the residence of Rev. and Mrs. J. Hadden Balcom. Mr. Charlton lived to be 88 years of age and joined the Lawrencetown Baptist Church when but a lad of 18 years. He was a man dearly beloved, not only by his own family, but by all who knew him. He possessed those rare Christian graces which in some of the Heavenly Father's children are so wonderfully developed and so very apparent. In these latter years of his confinement and feebleness to visit him was always like a visit into some "upper room" of blessing and benediction. The family who mourn the loss of so dearly beloved a father has the communities deepest sympathy.

Miss Idaline Bowly, surgical supervisor of the Lawrence Gen'l Hospital is home for a two months rest and vacation.

Miss Phyllis Denton of Little River, was the guest of Miss Leon Banks July 5th. Miss Banks leaves for Boston July 14th to spend a month's vacation with her sister, Mrs. E. E. Brooks.

Mr. and Mrs. Kenneth Brooks after a several weeks wedding trip on the Atlantic Coast, returned to Paradise July 6th. A large company of well-wishers were on hand in the evening, celebrating the home-coming in a becomingly cheerful manner. Mr. and Mrs. Brooks have the communities best wishes.

BEAR RIVER WINS BASEBALL GAME

Score 8-0—Game Interesting in Spots—With Some Spectacular Plays.

On Friday afternoon Bear River ball team met Bridgetown for the first time this season on the B.A.A. grounds and won out by a score of 8 to 0. The game was interesting in spots though the results were never in doubt. Bear River has assembled a very good aggregation of baseball players this year and they are now working together well. Matches with outside teams and teams not in the Valley League have also improved their playing. The local boys, however, should not feel discouraged. They should be thankful that results were no worse than they were considering the amount of practice they have put in this season.

Among the spectacular features of Friday's game were two and three batters by Alexander of Bear River and a very fine double play when Alexander batted the ball out to left field where Jefferson promptly accepted it and made a fine throw to the home plate where Roy Donaghy was right on the job tagging Austin just in time to retire the visitors.

Some rather expensive errors told against the home players while the visitors for the first time this season were not to be outdone. Harry McKenzie at the plate umpired in his invariably satisfactory manner and Rice held down the job O.K. on bases. Summary is below:

SHARP SLUMP IN THE SUGAR MARKET

New York.—Another slash was made in the price of refined sugar in the local market, which caused refined granulated to drop as low as \$7.75 by one refiner, or 1 1/2 cents below the high price of the season and half cent below last week's close.

The drop was due to re-offering of 2,000 tons of refined sugar which had been shipped abroad, but was returned because no foreign market could be found. The slack domestic demand also was a contributing factor.

RECITAL BY PUPILS OF MRS. CHADWICK

Very Interesting And Creditable Programme Closed With "Afternoon Tea".

On Tuesday afternoon of last week the pupils of Mrs. John Chadwick gave their semi-annual recital at her home in Centrelea. Besides parents, several privileged friends were present and were delighted with the work which reflected much credit on teacher and pupils alike. After the recital proper Mrs. Harry Ruggles sang several vocal numbers, and Mrs. Chadwick played a piano solo which gave much pleasure. Later she was the recipient of a delightful token of appreciation from her pupils.

MATERNITY BENEFITS

A comparative study of maternal mortality rates in various countries on both sides of the Atlantic resulted in the recent discovery that our Canadian rate of maternal mortality is abnormally high. There were no fewer than eighteen nations whose rates are lower than ours, and in the majority of these cases the rate is very much lower than ours.

There is considerable force in these and similar statements. But before arriving at any general conclusion on the subject, some study should be given to the methods adopted by those countries where the maternal mortality rate is lower than in Canada.

It is interesting to note that in no fewer than seventeen countries of Europe legislation has been enacted at some time within the last fifty years providing maternity benefits for necessitous women. Another significant fact is this, that in no case has any country of Europe repealed legislation of this sort once it has been enacted, and wherever a change has been made in the original statute it has been for the purpose of extending its scope.

The advantages of schemes for maternity protection and benefit have become so apparent that the International Labor Conference two years ago devoted special attention to the subject and a Draft Convention was adopted for the purpose of guaranteeing protection to all women engaged in commercial and industrial undertakings.

MUST ARRANGE A NEW LOAN

Finance Minister Must Provide For \$150,000,000 Coming Due in November. Ottawa—A Dominion Government loan for \$150,000,000 is coming due on the first of November and within a week or two the Finance Minister must move to take care of it. The exact method of doing so has not yet been determined. When a similar obligation matured last year, the privilege of converting it into a new issue was extended and, although considerably availed of at the time, the result was somewhat disappointing. Those who wanted their money, of course, got it. Some time previously, a loan for \$100,000,000 had been negotiated in New York and the residue was available for this purpose. There is no "sleeve account" in the present instance although the loan of course will be financed. Whether it will be by another conversion offer, a new issue, or how, is the question to be determined. Present opinion is that it will not be by a popular loan but by direct negotiation with financial houses.

QUEBEC TO PASS LAWS TO CONTROL SALES

Cookshire, Que.—The outstanding statement at the meetings of the Associated Board of Trade and the Eastern Townships Immigration Society was made by the Hon. Jacob Nicol, Provincial Treasurer, during the joint session. The members in attendance had listened to a thorough discussion on speculations and blue sky laws for Quebec and they had heard with no small degree of anger and horror the relation of numerous instances of financial tragedy brought about recently through the get-rich-quick schemes of dishonest house to house stock salesmen. It came as a decided relief, therefore, when Mr. Nicol said: "I am glad to be able to tell you that the government is looking into the matter and we are going to try to help prevent the selling of worthless securities." They hoped to have blue sky legislation passed during the next session of the House. Other important developments during the course of the day include a lengthy controversy on provincial emigration and immigration, and a comprehensive review of the present dairy situation in Canada by J. A. Ruddle, Ottawa, Dominion dairy and cold storage commissioner. He said: "I believe we can hold our own and I see nothing to fear for the Canadian industry if we make the quality right," he claimed. A magistrate at St. Peter's fined Cornelius \$200 and costs.

British Organization Will Have Nothing To Do With Communists.

London.—By a card vote of 2,227,000 against 219,000, the Labor Party conference has rejected the resolution of the Barrow Labor Party in favor of extending the party whip to J. P. W. Newbold, the Communist member of Parliament for Motherwell. A supporter of the resolution declared that Newbold's only crime was that he desired to abolish the capitalist system more speedily than some members of the Labor Party considered practicable. The speaker attacked J. H. Thomas, M.P., general secretary of the National Union of Railwaymen, and referred to him as a "right wing extremist." He said the Labor Party in future must take in more men for the type of Newbold and shed more of the "type of privy councillors who are mugs".

WAS THE KENNEDY'S CARGO OF LIQUOR FOR HECTOR CELEBRATION

The government cutter Margaret steamed into port on Tuesday having in tow the three masted schooner W. E. Kennedy. On board the Kennedy, in addition to captain and crew, was a cargo of a thousand cases or so of "gnor", including, it is said, a lot of Haig and Haig, Scotch whiskey, if not of the best, at least the second best brand. The Margaret found the Kennedy floating around in the strait. The Kennedy had cleared from Halifax for Nassau and the captain of the Margaret, good fellow that he is, seeing that the captain of the Kennedy had lost his way, took him into port, so that he could get his bearings and make from here a fresh start. As to the story that the Kennedy was brought around here to unload a supply of wet goods for the Hector celebration that she had an agent ashore who was commencing to place the whiskey at \$35 a case and that she was just waiting word from him as to where she should land it that's what it may be. We suppose that smuggled whiskey could be sold at a fair profit at \$35 a case and it is just possible that the Kennedy was not the first and will not be the last schooner to lose her way around these shores when loaded with liquor. For the success of the Hector celebration it would be well that not too many Kennedies drift around the beaches.—(Pictou Advocate).

CONFERENCE ON CANADIAN COAL ADVISED

Ottawa.—A conference of coal operators, representatives of transportation companies and of the federal and various provincial governments, to discuss methods for establishing an independent fuel supply for Canada, is recommended in the final report of the House of Commons committee on mines and minerals. It is suggested that the Department of Mines should at once undertake an educational campaign to convince the public of the necessity for making Canada self-sustaining in the matter of coal, also to emphasize the value of Canadian coal for domestic use.

FULL RIGHTS FOR WOMEN DEMANDED

Winnipeg.—Amendment of present legislation to give women full rights of citizenship irrespective of the husband, was demanded of the federal government in a resolution adopted by the Manitoba Federated Women's Institutes, in session here. The resolution condemned the present system as inflicting injustice on Canadian and British women.

MAINLAND MEN AGAINST STRIKE

New Glasgow.—The voting at Stellarton on the question of demanding that the 1921 wage scale be restored resulted as follows: Stellarton, against demand, 639; for demand 318; Tioberurn, against demand 98; for demand 150. In Stellarton the U. M. W. local has about 1200 members; at Tioberurn some 350 to 400 members. The Westville local repudiated the vote on constitutional grounds. It is composed of employees of the Intercolonial Coal Company and has some 500 members. Recapitulating, it can be seen that the total Pictou County stands about 1232 against and 414 for.

Chatham, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for a run-down condition after the birth of my baby boy. I had terrible pains and backache, and was tired and weak, not able to do my work and care for my three little children. One day I received your little book and read it, and gave up taking the medicine I had and began taking the Vegetable Compound. I feel much better now and am not ashamed to tell what it has done for me. I recommend it to any woman I think feels as I do."—Mrs. J. R. McMahon, 183 Harvey St., Chatham, Ont.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has for nearly fifty years been restoring sick, ailing women to health and strength. It relieves the troubles which cause such symptoms as backache, painful periods, irregularities, tired, worn-out feelings and nervousness. This is shown again and again by such letters as Mrs. McMahon writes, as well as by one woman telling another. These women know, and are willing to tell others, what it did for them; therefore, it is surely worth your trial. Women who suffer should write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book, upon "Aliments Peculiar to Women."

STRIKE SITUATION IN CAPE BRETON

The strike situation in Cape Breton took on a new and possibly unexpected phase when Attorney General A. J. O'Hearn ordered the arrest of the Red leaders on the charge of publishing false tales whereby injury would likely be occasioned to the Government and to the Provincial police of Nova Scotia. To those who have been following closely the course of events the sequel will be no great surprise. It was manifestly impossible that agitators of the class indicated above should be permitted to carry on their work without obstruction. There is much more at stake in the whole business than even the interests of the people's and communities most directly affected. There are the interests of the whole Province and in fact the whole country and while there has not been much said in public protest regarding the labor situation in Cape Breton there has nevertheless been a pretty general feeling that the activities of the Reds should be curbed with a firm hand. The whole situation, as we have stated before, is a somewhat complicated one, and expert knowledge is required to get right at the bottom of matters and issues are often clouded. There are, however, some very outstanding facts that cannot be gainsaid and while every reasonable man would wish to see the cause of labor get the fairest possible treatment, it must be recognized that labor has its obligations as well as capital. In this case of the present troubles the men have, we believe, most unfortunately allowed themselves to be led or stampeded, if you like, into movements which if persisted in will set the clock of labor back for a long period. The men have proceeded in violation of agreements made and their action is evidently contrary to the wishes of their union, the United Mine Workers of America, they have aided and abetted in acts which lead to the destruction of property to the injury not only of the company and themselves, but also to the detriment of the country generally.

Apart altogether from this is the fact that the men have not the funds to continue a strike and can scarcely expect support from the U.M.W. when they disobeyed the orders of their ruling body. The result can mean only failure, loss of money, with no corresponding gain.

A strike apparently was bound to come in Cape Breton, though previously there have been only two of large dimensions and long continuance. One result which may follow is that the men in time will get under saner leadership and the just demands of labor will be ultimately better served than they can possibly be in the perilous situations into which the men have latterly been led.

GOVERNMENT MUST ECONOMIZE

Discussing the present financial condition of Canada La Presse of Montreal says: "The situation is clear. The Dominion, notwithstanding the energy and activity of its people, cannot find a way out of its economic embarrassment. It drags a fiscal bullet at its heel which restricts its progress. This bullet must be made lighter until the nation can be liberated from it entirely. In order to do this we must stop borrowing, for every loan is an aggravation of the evil. It is altogether out of the question to impose new taxes. The limit has already been reached. There remains therefore no other solution except to resolutely practise the most rigorous economy. That way lies the only chance that we have of finding a remedy to the present situation. It is necessary to have sufficient courage to be out-spoken to the people. Opportunism is an excellent thing, but Providence helps only those who help themselves. He who hopes does well; but he who acts does better; and the only practical action to take at the present time is to economize. Let the government rid itself of all electoral fears. It may be convinced of one thing: It is that in the event its present precarious majority should fall it through execution of a program of economy, it is assured of a decisive majority on an appeal to the electorate. This would enable it to carry on a policy of economy, for if there is one thing the people want, if there is one thing they insistently demand it is a policy of action which will liberate the country from the difficulties with which it is struggling. The people will give their confidence to those who boldly point out the way to salvation. That road may be overgrown with thorns at the beginning, but it must be traversed even at the cost of certain sacrifices. Power is assured and for a long period to those who show they are good shepherds. And the country depends upon the present government to play that part by resolutely adopting a program of strict and rigorous economy."

A QUESTION PEOPLE ARE ASKING

The question has often been asked in the press and through the county at large: "Is there one law for a white man and another for a colored man?" It is a well accepted principle in equity that the same laws are made for all. Drafters of legislation know no color line, hence it is unfortunate indeed that such questions as the one referred to above should be asked. Are there not, however, reasons for the enquiry? The very foundations of all laws and respect for them lie in fair and unbiased interpretation and enforcement. Public confidence must, in all cases, be retained. Otherwise the tendency is a

disregard of law and a gradual reversion to anarchy.

Speaking generally there is probably more law in the United States and in proportion less observance of it than in any county considered thoroughly civilized in respect particularly to certain serious crimes. This is by many attributed to the influence of politics in the making up of the legal machinery. In Canada these influences have not prevailed to nearly so great an extent and punishment is more certain and sure. Appointments to the judiciary should never be made as a reward for political service. If there is one place more than another where state-ship should prevail it is in the making of these, for the influence is felt through the whole social fabric. Decisions should be based on fairness and justice so thoroughly that they cannot to any wide extent be subjects of adverse comment.

NO PROVINCIAL EXHIBITION FOR HALIFAX

Special Committee of City Council recommends that no action be taken.
At a meeting of the special committee of the City Council appointed to submit a report on Exhibition matters held here, a resolution was passed recommending that no action be taken by Council with regard to the re-establishment of the exhibition this year. This course of action was decided upon by the committee in view of present financial conditions, and because of the passage of recent legislation which permits only one representation of the city to serve on the Exhibition Commission.—Chronicle.

BLUESO'S RIVAL A REAL FISHERMAN, SAYS BOSTON POST

The schooner Columbia comes back from the Sable Island fishing grounds after a remarkably brief stay, with 350,000 pounds of prime salted cod in her hold, one of the biggest fares of the kind ever brought to Gloucester. She rode out every storm in fine shape, and showed herself to be a speedy and able boat in all kinds of weather. The Columbia is a real

fisherman, that is sure. There can be no question about her eligibility on that score. And if she proves as fast a craft as her friends and crew believe her to be she will give our Canadian friends a good strong tussle for the possession of the International Fisherman's Cup, retained for Nova Scotia last year by the Bluenose.—Boston Post.

Halling for 340,000 pounds of salt cod, the new schooner Columbia, Capt. Alden Geale, dropped her anchor in the stream last night, fully four weeks ahead of an ordinary salt bank trip, having been gone on her maiden trip, just two months to a day. Capt. Geale made his catch on the Sable Island fishing grounds, and on several occasions met severe weather which tested the challenger's ability as a schooner. He said in all of the thirty odd years he had been on the water, he never had set foot upon the deck of a finer craft than the Columbia. Unable to test her utmost sailing abilities owing to shortened sail, the schooner having gone out with but a riding sail in place of the main-sail, the skipper could vouchsafe no information in that direction, but it is believed she can hold a pace with the rest of them. The Columbia is anchored in the stream awaiting purchase of her trip. Only two of the Lunenburg fleet were on the grounds when the Columbia left for home.—Gloucester Times.

TWENTY-SEVEN BRIDES SAIL ON PICTOU CAPTAIN'S SHIP

The Barnes-Bermuda liner Fort St. George, which is in command of Captain McKenzie, of Pictou, sailed Friday from New York for Bermuda with a collection of old shoes hanging over her taffrail and her promenade deck slippery with rice. She carries twenty-seven brides, at whom the shoes were thrown and on whom the rice was showered. She broke the record as a June bridal ship.

Red Hot July Days Hard on the Baby

July—the month of oppressive heat; red hot days and sweltering nights; is extremely hard on little ones. Diarrhoea, dysentery, colic and cholera infantum carry off thousands of precious little lives every Summer. The mother must be constantly on her guard to prevent these troubles or if they come on suddenly to fight them. No other medicine is of such aid to mothers during the hot Summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent Summer complaint, or if the trouble does come on suddenly will banish it. The Tablets are sold by medicine dealers or by mail at 25 cents a box, from The Dr. Williams' Medicine Co., Brockville, Ont.

BRIDGETOWN AND KENTVILLE

First Game of Season Won by Visitors 23 to 12

The Bridgetown Cricket Club played their first match of the season on the B.A.A. grounds on Monday when their old friends from Kentville were the visitors for a friendly game. Kentville obtained their first victory on this ground since cricket was revived here a few years ago. Good sportsmanship was a feature of the game which was thoroughly enjoyed by all who took part, also by a goodly number of spectators who were present. The fielding was very keen on both sides and some fine catches were made by Captain Holland, Dr. Rice, Dell and John Donat.

The veteran J. Miller and Doll made a great stand for the 4th wicket, the partnership yielding 42 runs. Beauchamp and Holland also batted well, the latter carrying his bat for a useful 10. W. Donat did some hard clean hitting for his 29 runs. Three times he hit the ball out of the ground. Dr. Rice was the only one to offer him any support; the "tall" making very feebly, no fewer than 7 making "ducks".

Bridgetown had several new young players who, with a little practice, should prove useful members of the team.

Mrs. Roberge Gained 35 Lbs. Taking Tanlac

"I've gained thirty-five pounds by taking Tanlac and just think it's the greatest medicine in the world," declared Mrs. Caroline Roberge, highly esteemed resident of 224 Prince Edward St., Quebec.
"For the past two years I suffered from a bad case of indigestion. I had no appetite at all, my stomach was always sour and I had a bad taste in my mouth all the time. Nothing I ate would agree with me, and I was so weak and dizzy all the time it seemed that I had no energy at all."
"Well, Tanlac was the first medicine that did me any good, and it surely has been wonderful for me. I am eating as much as anybody, everything digests perfectly, never suffer from sour stomach any more, and my strength and energy have come back so completely I just feel fine in every way. Tanlac is simply grand."
Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Our well fishermen are still getting some good catches of salmon, but evidently there is someone around here that thinks he has a right to the fish without the expense or work of putting in well on June 26th. Mr. Norman Hamilton took seven nice salmon which he put on the ice and on visiting the ice house on morning he found two of the best ones were gone. We hope it was someone outside of Hampton visited that ice house.

A MOTHER'S HEALTH NEEDS GREAT CARE

Care of Home and Children Often Causes a Breakdown.

The woman at home, deep in household duties and the care of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor living tend to weaken her constitution. No wonder that the woman at home is often indisposed through weakness, headaches, backaches, and nervousness. Too many women have grown to accept these visitations as a part of the lot of motherhood. But many and varied as her health troubles are, the cause is simple and relief at hand. When well, it is the woman's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman in the world needs rich blood, and plenty of it. There is one way to get this good blood so necessary to perfect health, and that is through the use of Dr. Williams' Pink Pills. Mrs. W. T. Riley, R.R. No. 1, Apple Hill, Ont., has proved the great value of Dr. Williams' Pink Pills to mothers, and tells her story as follows:—

"Two years ago, after the birth of my boy, I became very weak and run down. Gradually I lost weight and energy until I was unable to do my housework. I could not sleep, my nerves would twitch and jump so that I arose in the morning with heavy aching limbs and head. Indigestion helped to make the misery worse, and my heart would palpitate terribly. I doctored steadily for a year without getting better, but just dragged along feeling that I would never be well again. But one lucky day, on the advice of a friend, I began treatment with Dr. Williams' Pink Pills. I have taken only six boxes, but I wish you could see the difference. I am now able to do my work, go about and enjoy myself. I feel so entirely like a new woman that I advise every weak or ailing woman to try Dr. Williams' Pink Pills and I know they will get beneficial results."

If you are ailing, easily tired or depressed, it is a duty you owe yourself and your family to give Dr. Williams' Pink Pills a fair trial. What this medicine has done for others it will surely do for you. You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

UNITED FRUIT COMPANIES HOLD ANNUAL MEETING AT KENTVILLE

The eleventh annual meeting of the United Fruit Companies of Nova Scotia, Ltd., was held at the Nickel Hall, Kentville, Tuesday, June 26th, with a record attendance—the largest in the history of the organization. A spirit of enthusiasm was manifest in the meeting, as shown by discussions which were taken part in very generally.

President F. W. Bishop presided and after the reading of the minutes, his address was presented. This was a comprehensive review of operations during the past year, and contained practical suggestions for the future which were fully discussed by the delegates. The work of the Dominion Atlantic Railway Company in meeting the wishes of the shippers for the movement of practically all the apples during the cold weather was favorably commented upon. The task of moving these apples was the most difficult and expensive ever experienced and was fully appreciated. Ideal conditions been normal, he was sure that the service would have been much better than that of former years. The excellence of the apple crop was commented upon, the handling of apples, supplies, etc., and thanks and commendation given to the managers and directors of subsidiary companies for their support of the central office.

The splendid work of General Manager A. E. McMahon, in the successful conduct of the company throughout the most strenuous times, received a just tribute, great credit being also given the other officers and executive staff in their valuable co-operation.

The apple report was then read. This is always an interesting subject, and this time proved no exception, as it was very generally discussed. It dealt with the marketing of fruit, the quality and condition of arrival, and transportation.

G. Herbert Taylor, of the firm of J. & G. Goodwin, Manchester, Eng., was present, and was called upon to give his ideas concerning the quality of our fruit as compared with other fruit growing countries, also the much discussed question of boxes and barrels. Mr. Taylor maintained that Nova Scotia principally was a "barrel country" and while he thought a certain quantity of boxes necessary to maintain proper connections, the bulk of the business should be confined to barrels.

Various questions were asked and a very interesting discussion ensued. Mr. Taylor is familiar with all conditions in the different countries and gave very satisfactory information.

At the opening of the afternoon session the important subject discussed was the apple pack. The discussion centred around the bad advertising Nova Scotia apples had received owing to bad packing. The United Fruit Companies, Ltd., have determined that if they cannot meet competition in the open markets of England, realizing as they do the special flavor and high quality of our fruit, they would prefer annihilation, therefore, a most determined campaign was inaugurated whereby Nova Scotia producers in the United Fruit Companies place themselves on record to organize themselves to meet competitive producers. That a notable improvement would be visible, whereby the United Fruit Companies will be pre-eminent in this respect.

Pride was also expressed by the membership on account of the fact that Nova Scotia is in a fair position to produce a fifth successive large crop, and is distinguished not only by producing a clean crop, but by a pack that will become individual in merit.

The chief feature in connection with the discussion was the criticism of the weaknesses and strong support of anything which tended to the betterment of conditions and the advertising of the quality of Nova Scotia fruit.

The financial statement finds the organization in first class standing, and while profits were returned to the producers yet the financial standing of the organization was not reduced. The future prospects, with possible changes in the matter of averages, placing the different companies on the merit of their pack, enthused the various companies to enter into a competitive spirit, whereby premium will be placed on the best results. The slogan with which the meeting closed was: "Satisfaction to the Purchaser; the producer through his organization standing behind his project."

The management was returned practically unchanged. The general manager, A. E. McMahon, who has given such service to the organization, and with his officers and executive carrying on so successfully from year to year, will no doubt be unanimously placed in the same position.

The list of officers follows: President—F. W. Bishop, Paradise. Vice-President—E. H. Johnson, Greenwich. Secy.—K. L. Pineo, Kentville. Board of Management—F. W. Bishop, E. H. Johnson, Dr. P. N. Balcolm.

Wonderful Tea!

Users of KING COLE Orange Pekoe are frequently heard to remark: "It's really wonderful tea." This is not particularly in reference to its outstanding quality although that is necessarily included, but is due to the wonderful way it "spends." For KING COLE Orange Pekoe is a rich liquoring tea as well as a deliciously flavorful one. Skilful blending combines these two great tea qualities for your enjoyment.

IS ELECTED FIRST MAYOR OF BERWICK

Berwick—S. C. Parker was, on Tuesday, elected by acclamation to be the first mayor of the newly incorporated town of Berwick.

Nominations for Councillors, which were received by Charles H. Beardsley, were as follows: Douglas Chute, A. W. Hutz, W. I. Hundley, J. G. Road, J. W. Hutchinson, F. B. Patterson, S. B. Parker, B. E. Woodworth, N. W. Keady, Dr. Cook, A. L. Morse, A. L. Burgess, H. J. Chute and J. A. S. Wilson.

PROMISE PRIZES FOR BERWICK SCHOOLS

The annual school meeting was held on Monday evening at the school house. Quite a large number of ratepayers were present. S. C. Parker was elected chairman, and J. C. Crowe acted as Secretary.

The Financial Statement was read and adopted. It showed that a great number of improvements had been made to the building. The sum of three thousand dollars would be needed during the coming year for the running expenses. F. L. Morse was re-elected trustee.

Miss Rooney, the Municipal, gave a very encouraging report of the year's work. There had been one hundred and ninety-two pupils enrolled, and the average attendance had been one hundred and seventy-five. She stated that several societies in the town and

private individuals had promised to donate sums of money to go for prizes during the year.

IMPORTANCE OF WEEKLY PRESS

Halifax was glad to welcome and entertain the representatives of Canadian weekly newspapers, and the weekly newspaper representatives were glad to know went away with pleasant impressions in regard to this city and its people. It may be timely to remind citizens of Halifax that the influence of the weekly press is a very potent one; and that it is well for this city to have the goodwill of the fine body of men and women who are interested in that enterprise.

A disposition to regard the weekly newspaper as of little consequence in these days of enterprising and aggressive dailies is not well advised. The daily fills its place as the regular visitor of certain classes of populations. The weekly newspaper with equal regularity and efficiency does its work for other classes some of whom have access to the dailies, others of whom are too far removed from centres to find the daily of desired service to them. Together the daily and weekly perform valuable public service in the conveyance of news and the dissemination of educative influences.

The weekly newspaper necessarily devotes itself more particularly to matters of local concern. It is the regular news-letter of its readers in the country and in villages and towns as well. It becomes part of the family, and its coming every week is looked forward to with anticipatory pleasure. It fills another place with great satisfaction to persons who remove from the "old home". The home weekly gives them the news of localities and old friends. Only those who have enjoyed its reading under such circumstances know how eagerly its columns are read.

In this province we have a good weekly press. It is enterprising, well conducted, and useful. It is in the hands of publishers and editors who are devoted to their profession, and who are ever striving to give good service. It is gratifying to know

that their work is appreciated. We have pleasure in wishing the weekly press continued and growing success.—Halifax Herald.

Unanimous sympathy will be extended to Mrs. F. M. Dargie in the accident which she suffered at Digby on Monday by the fracture of her knee cap. When leaving the Myrtle House to enter her car she mistook two steps for one and the unexpected jolt caused a snap which was discovered to be a broken knee. It is feared the accident may cause lameness for a long time.—Spectator.

Numerous congratulations were extended on Tuesday (July 3rd) to Mrs. Agnes King, mother of A. M. King, on attaining her 92nd birthday. She had a goodly number of callers who remembered her with flowers and other souvenirs of the occasion. Mrs. King is still in excellent health and enjoys life as much as anyone. The Monitor joins in sincere wishes for many more happy birthdays.

One step won't take you far, You've got to keep on walking; One word won't tell folks who you are, You've got to keep on talking; One inch won't make you very tall, You've got to keep on growing; One little ad. won't do it all, You've got to keep them going.

To-morrow (Thursday) St. James' Church Sunday School will hold their annual picnic at Morton's Point, at Clementsport. To avoid confusion the starting point for all will be the church at 8:30 a.m. If Thursday be wet the picnic will be held on Friday. Ely Hall, Clementsport, for the past week has been the headquarters of as merry a party of Bridgetown girls as would well be imagined. They are members of local C.G.I.T. groups and for this semi-camp life are under the leadership of Miss Ruggles. All will have much to tell when they return if reports reaching here be true. Such wonderful cooking and dish-washing never was, and each and every one has become an expert cook-maker. Altogether the week has been a profitable experience in every way.

A "miscellaneous shower" was tendered Mrs. Florence Parlee, of West Paradise, at the home of Mr. and Mrs. Wilfred Phymmer. A very pleasant time was spent and the gifts were beautiful and tasteful. Mrs. Parlee will be married in Montreal, latter part of the month to Mr. Hennigar Bent.

Follow this simple rule

to have lovely, gleaming hair

Never shampoo your hair without olive oil, hair specialists warn. To do so is to leave hair dry, dull, brittle—all its rich warmth of color and life gone. No hair can be beautiful unless clean, they say. Nor can hair be beautiful without the glossy sheen so much admired.

Therefore—use olive oil shampoo.

You see prettier hair everywhere, today. Women have learned that the most delightful form of olive oil hair wash is PALM-OLIVE SHAMPOO.

It is convenient for home use, and most economical—costing but a fraction of what you'd pay to have the same treatment from a specialist.

It cleanses away all dirt and oil—thoroughly removes dandruff. And it leaves hair fluffy, soft, pliant as a baby's; with the gleaming sheen of new silk.

Send coupon today for free 15c trial bottle. Or get full-size bottle at your dealer's. Use it. Results will amaze you—after even one shampooing.
