THE CANADIAN POULTRY REVIEW

DEVOTED TO POULTRY, IN ALL ITS BRANCHES.

PUBLISHED BY H. B. DONOVAN. ESTD 1888

Vol. xv.

58½ VICTORIA STREET, TORONTO, OCTOBER, 1892.

No. 10.

NOTES AND COMMENTS

SOME KINGSTON BREEDERS.

WHILE visiting the limestone city we had the pleasure of going out to Cataraqui, where Messrs. Oldrieve & Nicol's, and Haycock & Kent's extensive yards are situated. Mr. Kent kindly placed himself and rig at our disposal and under his guidance we saw all that was to be seen. We first viewed Mr. Haycock's farm where all

MESSRS. HAYCOCK & KENT'S BIRDS are kept and raised, this establishment is extensive and most suitable for the purpose of raising fancy fowls. The yards are situated in a fine orchard providing plenty of shade and with a nice clover sod all over. The main house is convenient, well lighted, and warm in winter, with large runs in front, covered with wire netting, a feed room is built in a convenient spot, and a brooding house now ready will be used next spring for early chicks; additional houses will be built this fall. Several yards of 2 to 3 acres each, some even larger, fenced with boards and wire netting are used for raising chicks and next year a breeding pen will be put in each yard with neat movable houses for shelter and roosting. Some hundreds of chicks were around, but

many late ones as owing to unavoidable accidents many of the first ones were lost. A fine pond at the end of the farm is devoted to a large flock of Pekin Ducks.

MESSRS. OLDRIEVE & NICOL'S YARDS are on Mr. Nicol's farm, which adjoins Mr. Haycock's and is the same in every particular with the exception of the large yards, the chicks all being allowed to run together. A new house for the Games, numerous bred by this firm, has just been erected and is a neat and commodious building. The yards attached are boarded up four feet high and then wired over. The only fault we find with this arrangement is that it will be difficult to spade them up when necessary. A large compartment with heavy glass front and stove inside, is used for early chicks before the weather is fine enough to permit running out. A nice little house, warm and cosy, is devoted entirely to Bantams, both ornamental and Game. Here again some hundreds of youngsters were about in all stages of development and fine in quality. All birds on both farms, looked healthy and well, as well they might.

AT DETROIT SHOW

Canadians carried off almost all the prizes in fowls. Messrs McNeil, Oke, and Mc Cormick of London, being the largest exhibitors, and sweeping the

decks clean. We are sorry we have not room for the prize list, but so many Canadians shows, which have the first call on our space, having been held the past month prevents our using it.

MR. L. G. PEQUEGNAT

writes us under date of Sept. 20th: "I regret to state that one of my barred Plymouth Rock cocks has not been shipped back to me from Toronto Exhibition. I hope, however, that he will be found again, be so kind as to mention it in your paper, I have written and telegraphed to Mr. Daniels but have no answer so very likely he went to Montreal. I have in my possession a breeding pen of black Spanish that have been sent to me instead of Rock and prize pen."

MR. GEO. G. MCCORMICK'S POULTRY FARM.

While visiting the Western Fair, London, Mr. McCormick kindly drove us out to visit his new poultry farm distant some four miles from the city. Though Mr. McCormick has occupied it but for a short time many improvements are visible. The dwelling house stands well back from the road and is approached by a nice driveway, which it is the intention to fence on both sides and plant with shade trees. Plenty of shade is available for the chicks as many trees of good growth are already on the ground,

besides underbrush and shrubs, etc., and an unlimited quantity of green food. One new house for breeding pens has been erected, complete in every detail, and with what one seldom sees in Canada, an open shed attached to each pen. The yards are spacious and nicely arranged. A novelty is a "cock-house" or a house divided into small pens of about 4 x 6 feet on either side of an alleyway. In each of these compartments is to be kept a single specimen. In each pen is a light of glass, moveable perch, feed and water vessels and slide for exit to separate outside yards of which each cock will be allotted a space of about 4 x 6 feet. In this way it is intended to keep some 15 to 20 exhibition males of each variety on the farm. We saw many chicks running around and all in fine healthy condition.

MR. R. OKE, LONDON,

has a curiosity in the way of a high kicking buff Cochin cock. The bird is apparently afflicted with some nervous affection of one leg and continually throws it backward and upward with a sharp jerk; woe be to the chick that gets in his way. "Dick" has not yet decided whether to train him to do a John L turn or put him on the stage as a chicken skirt dancer.

IN MR. OKE'S YARDS,

we saw many evidences of a good seasons breeding, youngsters being numerous and good, and we hear that others, Messrs. McNeil, Bogue, etc. are enjoying the same happy results of their years operations.

MR. J. C. MONTGOMERY, BRANTFORD, was in Toronto last month looking up special attractions for the fair in that city. He reports the interest taken in poultry greatly on the increase and pos-

sibly, in the near future, Brantford may resume her old place as a centre of this industry.

FROM MR. DANIELS.

Since receiving Mr. Pequegnat's letter Mr. Daniels writes us:—"I understand Mr. Pequegnat has written you re P. Rock cock, the bird was not lost but died. All we are short of is, one pair young duckwing Games, you might publish it in REVIEW. I have written all Game men and in the mean time we might find them. I think we did splendidly not to loose more, considering the jam we had."

DR. G. L. MILNE, VICTORIA, B. C., was a visitor at Toronto, during the fair, and purchased several of the winning birds.

SO MANY REPORTS OF SHOWS, appear in this issue that we have been obliged to rather curtail that of the Industrial to get all in. This will also account for the REVIEW being a day or two late.

EXHIBITIONS

MIDLAND CENTRAL FAIR, KINGSTON.

AT KINGSTON they have a most suitable building, well lighted and ventilated and nicely fitted up with neat coops. We were surprised to see such a comparatively small exhibit, as the list offered was a good one and all on single birds. The premium list should have drawn at least 800 birds while but about half this number were shown. The exhibit was well classified and grandly fed, kept beautifully clean and free from any undesirable odor, a thing unusual in a

poultry show. Mr. Oldrieve made a model superintendent and had his business well in hand. We trust next year to see an exhibit much larger in numbers though in most cases we cannot hope for a great advance in quality, the birds in this respect making up for the lack of numbers.

Brahmas were few, a fair dark cock, good light cock in first, nice shape, good body, well set on comb; 1st and 2nd hens good, we preferred 2nd; chicks only moderate.

Cochins.—Very poor outside of first black hen, grand shape, large and very lustrous green black color, looks like an old timer.

Wyandottes.—Whites were good, first cock large and shapely but all out of feather, good shaped well placed comb; chicks very nice indeed, pullets especially, and little to choose between first and second, should mature well. Golds ahead of silvers, especially pullets, one young yet, unnoticed, will win later, first cockerel a big nicely grown one, fair comb and color, good legs.

Langshans.—Few, a nice pullet in first.

Plymouth Rocks.—A nice lot, whites more particularly in which some good youngsters were shown and clearly ahead. Barred chicks good especially 1st and 2nd pullets, 2nd loses in shape to 1st; 1st cockerel a good all round one.

Leghorns were not out in their usual force, in fact these classes show a falling off all over during the past two years. It seems a pity as we have no more useful variety for laying purposes. However, we would remind breeders that Bantams are not needed, and many of those recently shown have not been much more. A few nice chicks were here.

Andalusians were good, 1st pullet large, clear tail, more even in color

than 2nd; 1st and 2nd cockerels both good ones.

Hamburgs and Polish were few but some good ones. A very nice silver spangled pullet won 1st, good tail, shape and color.

Games.—An excellent lot, much better than usually seen, all cards went to Oldrieve & Nicol.

Bantams, especially *Games*, turned out well both in quality and numbers, and here again Oldrieve & Nicol had a field day. *Sebrights* fair. *Rose-combs* good, 1st cock neat shape, good color, white lobe, hardly smooth enough; 2nd good, but has lost back part of comb. In *Pekins* but one pair of chicks shown, good shaped cockerel but bad in under color, moderate pullet, also fails in color. 1st brown-red cock has been a good one, now gone wrong; 2nd larger and coarser but in fine fit. 1st black-red hen very neat, well up, good head; 1st cock upstanding, nice tail, wings carried a bit low. Several good white-booted shown.

Rose-Comb Leghorns in youngsters were very good and show a distinct improvement.

Dorkings—Few, of moderate quality. *A. O. V.* was divided between white *Minorcas* and black *Leghorns*, very fair birds in both cases. A new variety came out in *rose-comb Minorcas* and not by any means a bad lot. Probably a *Hamburg* cross.

Ducks.—Good, young *Pekins* well grown, good shape and color. *Rouens* good.

Turkeys and Geese—Very few, but fair.

Breeding Pens were a good feature of the show but not so many as we would wish.

Houdans were poorly represented by one pair each of old and young, good birds.

The birds all round seemed exceptionally healthy even at the close of the show.

H. B. D.

LIST OF AWARDS.

BRAHMAS, dark.—1st cock, 1st hen, Jas. Brown; 2nd cock, 2nd hen, Jas. Fisher; 2nd cockerel, 2nd pullet, W R Knight. Light.—1st cock, 1st hen, 1st and 2nd cockerel, 1st and 2nd pullet, Haycock & Kent; 2nd cock, 2nd hen, W R Knight.

COCHINS, Buff.—2nd cock, 2nd cockerel, Geo. Wright; 2nd hen, 1st and 2nd pullet, T Orrell; 1st hen, J A Counter. Partridge.—1st cock, 1st hen, Geo. Wright; 2nd cock, 2nd hen, N & G Gunn.

LANGSHANS—1st cock, 1st hen, W H Reid; 2nd cock, 2nd hen, 2nd cockerel, 1st pullet, W R Wright.

HOUDANS—1st cock, 1st hen, 1st cockerel, 1st pullet, W R Knight.

WYANDOTTES, golden.—1st and 2nd cock, 1st and 2nd hen, 1st cockerel, 1st pullet, 1st and 2nd breeding pen, Haycock & Kent; 2nd cockerel, 1st pullet, W M Baillie. Silver—1st cock, 1st and 2nd hen, 1st and 2nd pullet, H Turpin. White—1st cock, 2nd hen, 2nd cockerel, 1st and 2nd pullet, 1st breeding pen, Haycock & Kent; 1st hen, 1st cockerel, W H Reid.

PLYMOUTH ROCKS, barred—1st cock, 1st and 2nd hen, 1st cockerel, 1st pullet, 1st breeding pen, Haycock & Kent; 2nd cock, W R Knight; 2nd cockerel, 2nd pullet, Oldrieve & Nicol. White—1st cock, 1st cockerel, 1st and 2nd pullet, W M Baillie; 2nd cockerel, Chas. Bonnick; 2nd cock, 1st and 2nd hen, W H Reid.

GAME, B B R—1st and 2nd cock, 1st and 2nd hen, 1st and 2nd cockerel, 1st and 2nd pullet, Oldrieve & Nicol. Brown-red—1st and 2nd cock, 1st and 2nd hen, 1st and 2nd cockerel, 1st and 2nd pullet, 1st breeding pen, Oldrieve & Nicol. Red pyle—1st and 2nd cock, 1st and 2nd hen, 1st and 2nd cockerel, 1st and 2nd pullet, Oldrieve & Nicol. Golden Duck-wing—1st and 2nd cock, 1st and 2nd hen, 1st and 2nd cockerel, 1st pullet, Oldrieve & Nicol.

HAMBURGS, Black—1st cock, 1st hen, W R Knight; 1st cockerel, 1st pullet, W. H. Reid. Penciled 1st cockerel, 1st pullet, 2nd hen, W H Reid. Spangled—1st cock, Jos. Fisher; 1st hen, 2nd cock, R G Martin; 1st cockerel, 1st pullet, W H Reid; 2nd cockerel, N & G Gunn; 2nd hen, W R Knight.

ANDALUSIANS—1st cock, 2nd hen, 1st and 2nd cockerel, 1st pullet, W H Dunstan; 2nd cock, 1st hen, W M Osborne; 2nd pullet, W R Knight.

MINORCAS—1st cock, 2nd hen, 2nd cock-

erel, W H Reid; 2nd cock, 1st hen, W C Rothwell; 1st cockerel, 2nd pullet, W R Knight; 1st pullet, Jas. Brown.

LEGHORNS, Brown S C—1st hen, 2nd pullet, W R Knight; 2nd hen, T Orrell; 2nd cockerel, 1st pullet, W. M. Osborne, 1st cockerel Jas. Brown, Rose C Brown—1st and 2nd cock, 1st and 2nd hen, 1st and 2nd cockerel, 1st and 2nd pullet, Haycock & Kent. S C White—1st and 2nd hen, Jos. Fisher; 1st cockerel, 2nd pullet, W M Osborne; 2nd cockerel, 1st pullet, W R Knight.

POLISH, Golden—1st cock, 1st hen, R G Martin. Silver—1st cock, 2nd hen, R G Martin; 2nd cock, 1st cockerel, 1st hen, 1st pullet, W R Knight.

DORKINGS—1st cock, 2nd hen, J Saunders; 1st hen, R G Martin.

BANTAMS, GAME B B R—1st and 2nd cock, 1st and 2nd hen, 1st and 2nd cockerel, 1st and 2nd pullet, Oldrieve & Nicol. Duck-wing—1st and 2nd cockerel, 1st and 2nd pullet, Oldrieve & Nicol. Brown-red—1st and 2nd cock, 1st and 2nd hen, Oldrieve & Nicol. Pyle—1st and 2nd cock, 1st and 2nd pullet, 1st and 2nd hen, Oldrieve & Nicol. Golden or Silver Sebright—1st and 2nd cock, 1st hen, Oldrieve & Nicol; 2nd hen, W H Reid. Rose C Black—1st and 2nd cock, 1st and 2nd hen, 1st cockerel, 1st pullet, Oldrieve & Nicol; 2nd cockerel, 2nd pullet, W H Reid.

TURKEYS, Bronze—1st, Oldrieve & Nicol; 2nd, W H Reid. Young—1st, S A Lyon.

GESEK, Toulouse—2nd, W H Reid. Any Other Variety—1st W H Reid; 2nd, R G Martin.

DUCKS, Aylesbury—1st, R G Martin; 2nd, Geo. Wright. Young—1st Geo. Wright.

Pekin—1st, Haycock & Kent; 2nd, W H Reid. Young—1st, Haycock & Kent; 2nd, R G Martin.

Rouen—1st, R G Martin; 2nd, Geo. Wright. Young—1st and 2nd, Oldrieve & Nicol.

INDUSTRIAL EXHIBITION, TORONTO.

“CANADA'S Great Show” has again proved a record breaker, no less than 2,300 birds having been cooped this year, indeed the permanent coops in the immense new building have already proved insufficient, and some of the exhibitors' slat fronted coops had to be called into requisition. Mr. Daniel,

was of course, at the head of affairs, and the birds were well looked after, being given soft feed once a day and plenty of the best grain. Owing to the removal of the grand stand the building did not seem to us to have as many visitors as on former occasions.

In packing the birds for the return journey some few mistakes were made, which are particularized in another column, but we hope whoever received the wrong birds will at once communicate with the Superintendent.

Light Brahmas opened up well though we could not agree with the decision on the cock class, 3rd we thought an easy win, better than those above him in color, leg color, and hackle and further though moulting. Cockerels a fine lot, and pullets grand; 1st and one almost as good sold to go to Messrs. Haycock & Kent's yards, at Kingston.

Dark Brahmas were good, and classes fairly filled.

Cochins, black and white were really good, especially the white pullets and were shown in excellent condition. *Partridge* fine. *Buff*, a strong class, 2nd cock but for his bad undercolor might have gone higher; 1st and 2nd hens, two grand ones, profuse in feather but in rather ragged shape. Chicks good, and the pens a feature of the show.

The winning *Langshans* are the most typical we have seen, and all were in good feather. In pens we noticed one of Eisele's evidently overlooked as it was an easy 2nd and would have run 1st close.

Plymouth Rocks, barred, a grand lot and cards well placed. 1st hen an immense well barred one, stands well ahead of others. Winning pullets good in color, legs and beaks, win easily. *Whites* made the best class we have seen yet, and the judging gave satisfaction; 1st pullet very typical, in fine fit. Others good.

Wyandottes, golden, better than usual. We preferred 3rd cock, light in eye, to any. 1st cockerel fair color on top but, and underneath, a bad error. Pullets good. *Silvers* show some improvement, old birds holding their color better, but too many types, this variety as we see it here certainly cannot be called "show birds," though excellent in other ways; cards well placed. *Whites*, an extra large class and fine. 1st cock and 1st cockerel the pick of the lot. Some of the younger pullets will win later. This variety seems to gain in popularity.

Minorcas, black, a fine class; and here Mr. T. A. Duff had a field day, winning the bulk of the prizes with very high class birds, well shown. 1st cockerel a good all round one, the best at present of Mr. McCormick's lot. In *Whites* we were glad to see considerable improvement, especially in cocks and youngsters. Here again Mr. Duff took most of the awards and deservedly.

Games of all colors were good, and the *black-red* cockerels something immense, with pullets not far off. "Grandpa," Main won the silver cup for the third time and it now becomes his absolutely. The winning cockerel was a big upstanding good colored bird, but looked out of sorts. In first pen we noticed a really good cockerel, fit to give any a rub, and better than same owner's entry in open class. A good *duckwing* cock, a new arrival, not through moulting, was 1st in his class. Other winners good.

Indian Games made a large display, and the birds were excellent. *A. O. V. Game* all went to white Indians of good quality.

Andalusians were a very nice lot, but we were disappointed in the number of *Leghorns* shown, and in some cases in the quality also. *White S. C.* were good, and the rose-combs were better than we have seen before. *Browns* fair, but 1st cock had a decidedly squirrel

tail and should have given way to others. *Blacks* were really good for the color and show advancement. Don't let this grand egg-laying variety run down.

Any other variety, cards went to nice *Silkie*s and buff *Leghorn*s.

The French breeds were all good and deserve to be more popular, and in *Javas* we have one of the most useful breeds, little shown, but here made a grand class and better than we remember seeing them before.

Game Bantams were a grand lot and honors even, *black-reds* especially. *Pyles* also good but an unnoticed cock of *Mackenzies* should have been 2nd or perhaps 1st. 1st bad on breast, 2nd very bad color, barred on tail. *Brown-reds and Duckwings* were a fair average lot. In *A. O. V. Game Bants* what cards were given went to white *Malays*, much too large.

Ornamental Bantams.—Pekins—An extra nice lot. We notice Mr. McNeil's grand little cockerel, winner of 1st, is a shade darker than he usually shows and we prefer him so. He is a good one all over, grand shape, even color and properly placed on his limbs; 2nd well up. Winning pullets a good, even color, 1st a bit pale on leg. Three grand hens shown and in nice fit. Cocks also good. *Sebrights*, a splendid lot, 1st golden cock, a good one, neat comb; 2nd not so good in head, well laced, not quite so clear in tail as 1st; 3rd larger, fails in ground color to those placed over him. 1st hen a really good one; 2nd close up, a bit larger; chicks an extra nice lot. *Silvers* if anything ahead of the golds. 1st hen a beauty, grandly laced; 2nd a bit larger, but a good one. Others good. *Japanese*, good, but 2nd cockerel should have given away to 3rd, he is black and too long in back, too long in head with a bad comb, high on leg and in fact is not good anywhere; 3rd outside of a few flecks in hackle is a

good all round Jap. *Rose-combs*, very numerous and all good. Some beginning to approach the Game type a little too much. *A. O. V. Bantams*, 1st cock, a white Poland; 1st hen a good shaped white Cochin, profuse in feather, pale legs and beak; 2nd cock, 2nd hen, both nice white-booted; 1st cockerel, a nice colored white Cochin, good color, legs and beak, too much tail and hock; 2nd a very shapely black Cochin. 1st pullet, neat black Cochin; 2nd good white; 3rd white-booted.

Turkeys, Ducks and Geese were, as always at Toronto, large classes of fine quality.

Breeding Pens were never so numerous and never so good in quality. Many, in fact we may say all, are fit to show in the open classes.

The Incubators were rather a failure. The Gerred hatched out over 50 per cent. The Victory met with a mishap, caused by a leak in the water tank which destroyed the chicks almost ready to hatch. A Diploma was given for a good sensible brooder, but placed too high off the ground.

H. B. D.

The following notes have been supplied by a breeder.

Dorkings, Silver gray 25.—Rather more shown than usual and all of good quality; the 1st prize pullet being especially fine. *Colored, 14*.—Which were also well shown and of good quality, some of the winners being extra fine. *White, 8*.—Of the usual good quality; 1st prize cock and hen large and in fine condition.

Hamburgs.—A large class all through numbering 112 birds in all. *Golden Spangled*.—Show a noticeable improvement in both old and young, rich in color and good spangling; the 1st prize cockerel and pullet being well grown and rich in color. *Silver Spangled*.—Winners all of good quality; 1st pullet good even spangle.

Golden Pencilled cock, winners good rich color, hens rich in color but off on breast pencilling; chicks rather light in ground color all through; pullets nicely pencilled but hardly rich enough in color. *Silver Pencilled*.—In fowls, winners were good, especially 1st prize hen, the best we have seen for some

time being very fine and evenly pencilled; chicks, cockerels good, pullets rather light in color. *Black*.—A large class, winners a fine lot all through, the prize cards were well placed through all varieties.

Polands.—So nearly perfect that it is hard to find a fault with them.

PRIZE LISTS.

BRAHMAS, dark—cock, 1st Hall, 2nd McNeil, 3rd Brister; hen, 1st and 2nd Hall, 3rd Brister. Light, cock, 1st and 2nd Penny, 3rd Cole & Paton; hen 1st Donnelly, 2nd Cole & Paton.

COCHINS, buff—cock, 1st and 3rd McCormick, 2nd Hall; hen, 1st and 2nd McCormick, 3rd Hare. Partridge, cock, 1st and 2nd Bogue, 3rd Jackson; hen 1st Brister, 2nd Bogue, 3rd Hall. White, cock, 1st McNeil, 2nd Bogue; 3rd Hall; hen, 1st McNeil, 2nd Bogue, 3rd Hall. Black, cock, 1st McNeil, 2nd Bogue, 3rd Hall; hen, 1st McNeil, 2nd Hall, 3rd Bogue.

LANGSHANS—cock, 1st E McCormack, 2nd Benson & Green, 3rd Fletcher; hen, 1st McCormack, 2nd Fletcher, 3rd McCurdy.

DORKINGS, colored—cock, 1st Bogue, 2nd Corcoran & Cale, 3rd Hall; hen, 1st Corcoran & Cale, 2nd Bogue, 3rd Hall. S. G., cock, 1st Bogue, 2nd Corcoran & Cale, 3rd Allin Bros; hen, 1st Corcoran & Cale, 2nd Main, 3rd Allin Bros. White, cock, 1st and 2nd Bogue; hen, 1st and 2nd same.

HOUDANS—cock, 1st and 3rd Bogue, 2nd Stockwell.

LEFLECHE—cock, 1st Oke, 2nd Smith; hen, 1st Oke, 2nd Smith.

CREVE CŒURS—cock, 1st Oke, 2nd Smith.

WYANDOTTES, black or white—cock, 1st McCormick, 2nd Corcoran, 3rd McCormick; hen, 1st Greyerbiehl, 2nd Corcoran, 3rd McCormick. Silver laced, cock, 1st Meyer, 2nd and 3rd Clemo; hen, 1st and 3rd Meyer, 2nd John Gray. G. L., cock, 1st F II Brown, 2nd McNeil, 3rd Haycock & Kent; hen, 1st Haycock & Kent, 2nd and 3rd Woods.

PLYMOUTH ROCKS—cock, 1st Corcoran & Cale, 2nd J W Colson, 3rd Pequegnat; hen, 1st Downs, 2nd Clark, 3rd Allin. White, cock, 1st Allin, 2nd Jackson, 3rd Benson & Green; hen, 1st and 3rd Bonnick.

DOMINIQUE—cock, 1st McNeil, 2nd Knight; hen, 1st McNeil.

GAMES—B. R., cock, 1st Barber, 2nd Oldrieve & Nicol, 3rd Corcoran; hen, 1st and 2nd Main, 3rd Barber. Brown-red, cock, 1st and 3rd Oldrieve & Nicol, 2nd Barber; hen, 1st and 2nd Barber, 3rd Old-

rieve & Nicol. Duckwing, cock, 1st Troth, 2nd Barber, 3rd Oldrieve & Nicol; hen, 1st and 3rd Barber, 2nd Oldrieve & Nicol. Pyle, cock, 1st and 2nd Barber, 3rd Oldrieve & Nicol; hen, 1st Troth, 2nd Earl, 3rd Gordon. Indian, cock, 1st and 2nd Davies, 3rd Benson & Green; hen, 1st Benson & Green, 2nd Davies. Any other variety, cock, 1st Manson, 2nd Jackson, 3rd Earl; hen, 1st and 3rd Manson, 2 Jackson.

HAMBURGs, black—cock, 1st McNeil, 2nd Holmes, 3rd Patterson; hen, 1st McNeil, 2nd Oke, 3rd Hall. G P., cock, 1st McNeil, 2nd Bogue, 3rd Holmes; hen, 1st McNeil, 2nd Bogue, 3rd Oke. S. P., cock, 1st Brister, 2nd McNeil, 3rd Bogue; hen, 1st Brister, 2nd McNeil, 3rd Bogue. G. S., cock, 1st McNeil, 2nd Oke, 3rd Smith; hen, 1st McNeil, 2nd Oke, 3rd Bogue. S. S., cock, 1st Bogue, 2nd Oke, 3rd Henderson; hen, 1st McNeil, 2nd Oke, 3rd Bogue.

RED CAPS—cock, 1st Gray, 2nd Brown; hen, 1st Gray, 2nd Brown. Javas, black, cock, 1st Robertson, 2nd Knight; hen, 1st Robertson, 2nd Knight.

LEGHORNS, white—cock, 1st Holmes, 2nd Rice, 3rd Henderson; hen, 1st Rice, 2nd and 3rd Laird. Brown, cock, 1st and 3rd Pletsch, 2nd Rice; hen, 1st and 3rd Pletsch, 2nd Hower. Laird, Brampton; John Pletsch, Shakespeare; W. Patterson, jr., Barrie; W. P. Gough, River-
side; Jno Schuler, New Hamburg.

MONTREAL EXPOSITION.

(By our own Correspondent.)

ONE of our most successful exhibitions has just closed. The entries amounted to the magnificent number of 1600. Over 800 entries of pigeons and nearly as many in the poultry classes. Owing to the exertions of Messrs. Ulley, Costen and others, the poultry house had been entirely made over, and is now one of the handsomest on the continent. The services of Mr. I. Lumsden were secured as Superintendent, and he worked like a Trojan to please everybody, and being a thorough fancier, he knew exactly what was required by the exhibitors. Owing to being unavoidably detained Mr. S. Butterfield did not arrive till Wednesday evening too late to judge the show, as the committee had secured the services of Mr. Thomas Hall, who took all the classes with the exception of Games and the

Bantams, which were judged by Mr. I. B. Johnson, of Toronto. Owing to being appointed judge, Mr. Hall withdrew his Brahmas from competition. The quality of the exhibits was grand and the competition keen, and notwithstanding the splendid exhibit from the west our Montreal fanciers managed to hold their own with honor. We noticed among many others in the building from the west Messrs. Main, Smith, Oldrieve, Garnett, Howison, etc.

The prize-winners were numerous as will be seen by the prize-list. Messrs. Oldrieve & Nicol showed 83 birds with 69 prizes; A. Thompson, 65 entries with 57 prizes, two medals and a diploma; J. L. Taylor, 14 entries with 7 prizes; T. T. Virtue, 9 entries with 9 prizes; W. H. Ulley, 4 entries with 3 prizes; J. Shetler, 6 entries with 5 prizes; T. Costen, 8 entries with 8 prizes; W. K. Lowden, 11 entries with 8 prizes; Lumsden & Smith, 30 entries with 29 prizes; Messrs. Roddick & Hannaford, 15 entries with 10 prizes; F. W. Molson, 13 entries with 10 prizes. There were over 100 entries refused, being entered too late, and the only drawback was the unfortunate habit so many exhibitors have of keeping their entries back till the last moment. Another year many of these tardy people will stand a chance of getting left.

One of the features of the show was the incubator in full working order exhibited by Mr. T. Costen who took first prize for incubator as well as brooder.

A new venture in this market is Ulley's Poultry Food which was on exhibition and received a diploma and medal for its excellence.

PRIZE LIST.
FOWLS.

BRAHMAS, light—Cock, 1st A C Shaw, Montreal, 2nd and 3rd R T McGibbon; hen, Shaw.

COCHINS, buff—Cock 1st S Daoust, Montreal, 2nd A Ducharme, St Marc, 3rd R T McGibbon; hen, 1st and 2nd Ducharme. Partridge, cock, 1st Daoust, 2nd C J Daniels, Toronto, 3rd P Vincent, Turcot, Que; hen, 1st, 2nd and 3rd Daoust. White, her. 1st T Costen, Montreal, 2nd Daniels, 3rd Costen. PLYMOUTH ROCKS—Cockerel, 1st Oldrieve & Nicol, 2nd Farrar, 3rd W A Tooke; pullet, 1st Haycock & Kent, 2nd Oldrieve & Nicol, 3rd Tooke. White, cockerel, 1st and 2nd Thompson, 3rd Daniels; pullet, 1st, 2nd and 3rd Thompson.

GAME, black-red—Cockerel, 1st Main, 2nd Oldrieve & Nicol, 3rd Main; pullet, 1st and 2nd Main, 3rd Oldrieve & Nicol. Brown-red, cockerel, 1st and 2nd, Oldrieve & Nicol. Duckwing, pullet, 1st Oldrieve & Nicol. Pile, cockerel, 2nd and 3rd Oldrieve & Nicol; pullet, 2nd and 3rd Oldrieve & Nicol. Any other variety, cockerel, 1st and 2nd Daniels; pullet, 1st and 2nd Daniels.

HAMBURGS, black—Cockerel, 1st Reid, 2nd Tooke, 3rd Smith; pullet, 1st Reid. Golden pencilled, cockerel, 1st Reid, 2nd Smith; pullet, 1st Reid, 2nd Smith. Silver pencilled, cockerel, 1st Paton, 2nd Smith, 3rd Paton; pullet, 1st Paton, 2nd Smith, 3rd Paton. Golden spangled, cockerel, 2nd Smith; pullet, 3rd Smith. Silver spangled, cockerel, 1st Thompson, 2nd Reid, 3rd Daniels; pullet, 1st Reed, 2nd Daniels, 3rd Thompson.

RED CAPS—Cockerel, 1st Daniels, 2nd Bedlow; pullet, 1st Daniels, 2nd Bedlow.

JAVAS, black—Cockerel, 1st and 2nd Daniels, 3rd Reed; pullet, Reed.

LEGHORNS, white—Cockerel, 1st Osborne, 2nd Grier, 3rd Thompson; pullet, 1st Thompson, 2nd Grier, 3rd Osborne. Brown, cockerel, 1st, 2nd and 3rd Costen; pullet, 1st Osborne, 2nd and 3rd Costen. Rose comb brown, cockerel, 1st and 2nd Haycock & Kent; pullet, 1st and 2nd Haycock & Kent. White, cockerel, 1st Daniels, 2nd Bedlow; pullet, 1st Bedlow, 2nd Daniels. Black cockerel, 1st and 2nd Osborne, 3rd Dawes; pullet, 1st and 2nd Osborne, 3rd Dawes.

SPANISH—Cockerel, 1st Shetler, 2nd Garrett, 3rd Shetler; pullet, 1st Shetler, 2nd Garrett.

ANDALUSIANS—Cockerel, 1st Daniels, 2nd Osborne; pullet, 1st Daniels.

MINORCAS, black—cockerel, 1st, 2nd and 3rd, Molson; pullet, 1st and 2nd Molson, 3rd Lowden. White, cockerel, 1st, 2nd and 3rd, Osborne; pullet, 1st and 3rd Osborne, 2nd Molson.

POLANDS, white-crested black—Cockerel, 1st and 3rd Lumsden & Smith, 2nd Bedlow; pullet, 1st Lumsden & Smith, 2nd Bedlow. White, cockerel, 1st Garrett; pullet, 1st Garrett. Silver, cockerel, 1st Garrett, 2nd and 3rd Lumsden & Smith; pullet, 1st Garrett, 2nd and 3rd Lumsden & Smith. Golden pullet, 1st Lumsden & Smith. Buff laced cockerel, 1st and 2nd Lumsden & Smith, 3rd Taylor; pullet, 1st and 2nd Taylor. Any color, unbarred, except white, cockerel, 1st Smith; pullet, 1st Smith, 2nd Lumsden & Smith. Any other variety fowl, cockerel, 1st Thompson, 2nd and 3rd Daniels; pullet, 1st Thompson, 2nd and 3rd Daniels.

BANTAMS, game, black-red—Cockerel, 1st and 2nd Oldrieve & Nicol, 3rd Virtue; pullet, 1st and 2nd Oldrieve & Nicol, 3rd Virtue. Duckwing, cockerel, 1st and 2nd Oldrieve & Nicol; pullet, 1st and 2nd Oldrieve & Nicol. Pyle, pullet, 1st and 2nd Oldrieve & Nicol. Rose comb, black, cockerel, 1st Oldrieve & Nicol, 2nd Reed, 3rd Keating. Golden Sebright, cockerel, 1st Smith, 2nd Reed; pullet, 1st Oldrieve & Nicol, 2nd Smith, 3rd Reed. Silver Sebright, cockerel, 1st Smith; pullet, 1st Smith. Japanese, cockerel, 1st Daniels, 3rd Keating; pullet, 1st Daniels, 3rd Keating. Pekin, cockerel, 1st Smith, 2nd and 3rd Daniels; pullet, 1st Smith, 2nd Daniels. Any other variety, cockerel, 1st Reed; pullet, 1st Reed.

TURKEYS, GESE AND DUCKS.

TURKEYS, bronze—Male, 1st Main, 2nd

Thompson, 3rd Reid & Co., Hintonburg; female, 1st Main, 2nd Thompson, 3rd Reid & Co. Any other variety, male, 1st Smith, 2nd W J Rudd, Eden Mills, Ont., 3rd E Ouimet, St. Francois de Salles. Any other variety, 1st Smith, 2nd Rudd, 3rd Ouimet.

GEESE, Bremen or Embden—male, 1st Main, 2nd Thompson; female, 1st and 2nd Thompson, 3rd Main. Toulouse, male, 1st Thompson, 2nd Pickering, 3rd Bedlow; female, 1st Thompson, 2nd Smith, 3rd Pickering. China, male, 1st Thompson, 2nd Pickering, 3rd Thompson; female, 1st Pickering, 2nd Thompson, 3rd Smith. Any other variety, male, 1st Smith; female, 1st Smith.

DUCKS, Rouen—male, 1st Thompson, 2nd Main, 3rd Oldrieve & Nicol; female, 1st Main, 2nd Thompson. Aylesbury, male, 1st Thompson, 2nd Smith; female, 1st Smith, 2nd Thompson. Pekin, male, 1st Thompson, 2nd Paton; females, 1st Paton, 2nd Thompson. Cayuga, male, 1st Thompson, 2nd Smith; female, 1st Thompson, 2nd and 3rd Smith. Any other variety, male, 1st Thompson; female, 1st and 2nd Thompson.

TURKEYS, GESE AND DUCKS OF 1892

TURKEYS, bronze—male, 1st Thompson, 2nd Main, 3rd Thompson; female, 1st Main, 2nd and 3rd Thompson. Any other variety, male, 1st Smith, 2nd Thompson; female, 1st Smith, 2nd Thompson.

GEESE, Bremen or Embden—Male, 1st Smith, 2nd Main, 3rd Thompson; female, 1st Main, 2nd Thompson. Toulouse, male, 1st Bedlow, 2nd and 3rd Thompson. Any other variety, male, 1st Smith; female, 1st Smith.

DUCKS, Rouen—male, 1st Main, 2nd Oldrieve & Nicol, 3rd Reed; female, 1st Oldrieve & Nicol, 2nd and 3rd Main. Aylesbury, male, 1st Thompson; female, 1st Thompson. Pekin, male, 1st and 2nd Thompson, 3rd Haycock & Kent; female, 1st and 2nd Thompson, 3rd Reed. Cayuga, male, 1st Smith, 2nd Thompson; female, 1st Smith, 2nd Thompson. Any other variety, male, 1st Thompson; female, 1st Thompson.

ORNAMENTAL.

Pair guinea fowl, 1st Thompson, 2nd Pickering, 3rd Reed.

Common pea fowl, 1st and 2nd Smith.

Pair guinea pigs, 1st Taylor, 2nd Lumsden & Smith.

Pair white mice, 1st Taylor.

Pair grey squirrels, 1st M Hebert, city.

Rabbit, lup-ear—buck, 2nd Jas. Bacon, doe 2nd Bacon.

Rabbit, any other variety—buck, 2nd Virtue; doe, 2nd and 3rd Virtue.

Ring dove, 1st Cole, 2nd Cole.

BREEDING PENS.

COCHINS—best breeding pen of one male and three females, 1st Costen, 2nd Lowden.

LANGSHANS—1st Browning.

DORKINGS—1st and 2nd Roddick & Hannaford.

PLYMOUTH ROCKS—1st Virtue, 2nd Thompson, 3rd Beaubien.

Hamburgs—1st Beaubien.

LEGHORNS—1st Costen, 2nd Gri. r.

HOUDANS—1st Lowden.

SPANISH—1st Shuter, 2nd McGibbon.

Polands—1st Lumsden & Smith, 2nd Garrett, 3rd Taylor.

MINORCAS—1st Melton.

WYANDOTTES—1st and 2nd Roddick & Hannaford, 3rd Browning.

JAVAS—1st Daniels.

GAME, and other bantams—1st Danic's, 2nd Keating, 3rd Virtue.

POULTRY APPEIANCES.

For the best incubator in full working order—1st and 2nd Costen.

For the best brooder in full working order—1st Costen.

Poultry food—1st Uiley, medal and diploma.

Best food cutter—1st Lowden.

WESTERN FAIR, LONDON.

WITHOUT exception this was the best arranged and neatest poultry show we ever saw. The building has been renovated and new coops put in all through. The coops are large and neatly painted inside and out, with black japanned iron bars in front, and large slide doors of the same. The feed and water tins are fitted in in the same way as at the Industrial, Toronto, but are to be replaced by some more suitable, as the ones now in use are too large. The coops are arranged in six long rows, from end to end, with wide passages between each two. At the front of the

central rows two large pyramids had been erected, and on these were placed dozens of fine flowering plants, coleus and other foliage plants, etc., and also along the top of each row. Commitees who wish to make their exhibitions attractive to the artistic eye can well take a lesson from this. As a rule, however, good and handsome as the fowls may be, the surroundings are generally poor in the extreme and lacking in any aesthetic taste.

Somehow, we always feel at home in London, and we are sure other visitors were in like happy mood while there. The local breeders do all in their power to make visitors feel at home, and they succeed. A great deal of the pleasure of our visit was due to the generous hospitality of Mr. and Mrs. George G. McCormick, and Mr. and Mrs. Oke, parents of Mr. Richard of that ilk.

Some of the birds were looking a little weary after their four weeks confinement, but every thing possible was done to keep up their vitality and strength, soft feed being given each day and the pens and building kept very clean. All birds were shown in pairs, always an objectionable feature in our eyes and to be regretted.

Light Brahmas.—Made large classes, of fair quality, hen in 1st pair a good one, large, good shape and color, cock a bit rusty on top, tail not yet out, fair comb. 2nd and 3rd well up. Well grown cockerel in 1st, good shape and legs, pullet fair, others close up. Darks, a fair class, cock in 1st easily ahead, cockerel, 1st the Toronto winner looking well, splashed on breast. 2nd not so good in top color but larger.

Cochins.—As usual a grand class, in buffs Mr. McCormick making a clean sweep and taking every thing in sight with a fine lot, very even in quality.

Whites, a nice lot, good all round. 1st and 2nd pullets beauties all over, profuse in feather and a grand clear color. Blacks a good lot, sound and lustrous in color, and in nice fit. Partridge, good.

Langshans.—Large classes and good birds of typical shape.

Javas.—Not large classes, but good birds shown.

Dorkings, Polands and Hamburgs.—Were as they always are here of grand quality all round. Prizes awarded to well known exhibitors.

Plymouth Rocks.—barred, large classes but contained some very poor ones especially in old birds, winners easily ahead, winning chicks a good evenly barred lot; 2nd cockerel a bit brassy on neck and back. Whites, good especially chicks, 2 pairs (Bonnick) placed someway distant from others in class, must surely have been overlooked by the judge as they should easily have been 2nd and 3rd.

Dominiques.—Few and but moderate in quality; red in plumage of 1st cockerel.

Wyandottes.—Golden, poor old fowls especially hens, chicks much better, silvers about as usual, whites good, a nice lot, especially 1st old pair. Could find no cards on chicks which were not quite as good as usual

Spanish.—Large classes as they go, only fair in quality.

Minorcas.—Black, not large classes but good, nice cockerel in 1st pair, whites few but good.

Leghorns.—Buff, four pairs shown, the best we have seen, especially 1st pullet which is very sound in color all over, 1st cockerel has willow legs, 2nd, also light willow; whites fewer than usual and not many good ones, nice pair chicks in 1st, black good all round, brown good, show more quality. This

variety seems to be losing ground all over.

Andalusians.—A small but nice class 1st cock good, also chicks; *Redcaps* nice especially chicks.

Games.—A very good class indeed, in old black-reds, the winners were easily ahead. Pyles good, the cock in 1st a long headed upstanding fellow; in pyle chicks the judge to us seemed to be far astray, easily the best pair left entirely out, cockerel well cut away, good clear color, good head, well up, pullet good all over. Another good pair unnoticed but cockerel yellow legged, pullet willow; 1st black-red cockerel well ahead, pullet also a neat bird. Duckwings and brown-reds good classes and birds fair. A. O. V. old, 1st white, 2nd Sumatras, 1st and 2nd chicks, good Indians.

Bantams.—Good as usual in all varieties of Japanese, Pekins, Sebright and Rose-combs. Some very nice white-booted, which with Polish won in the variety class. Games good; in old black-reds we thought 2nd better than 1st. The hen is a good one and the cock easily ahead. Other varieties well up to the average. In 3rd old pyles the cock was yellow legged, while the hen was willow.

French Varieties good, especially the firsts.

The Variety Class was a mixture of Silkies, black Wyandottes, Frizzles, &c.

Breeding Pens were few. Diplomas don't draw entries.

Turkeys, Ducks and Geese were numerous and good.

Phasants were a nice class; 1st silvers, a nice pair in good feather; 2nd ragged, cock looks sick. 1st gold hen too dark, cock also dark on top and in front; 3rd a nice pair of this year's hatch. One good pair English and a pretty pair of Oregon Quail made up the rest. H.B.D.

LIST OF AWARDS, ALL BREEDS SHOWN
IN PAIRS.

BRAHMAS, light, 1st and 2nd John Anderson, London, 3rd C S Jackson, International Bldg; dark, 1st Thorpe and Scott, London,

2nd Lewis Sage, London, 3rd Geo S Brister, London.

COCHINS, buff, 1st, 2nd and 3rd Geo G McCormick, London; white, 1st and 3rd Wm McNeil, London, 2nd R B Millard, London; black, 1st and 2nd McNeil; part ridge, 1st and 2nd David Bogue, Lambeth, 3rd Jno Collins, Union.

LANGSHANS, 1st T J Keiley, London, 2nd R McGurdy, London, 3rd Bartlett Bros, London.

BLACK JAVAS, 1st and 2nd McCormick. **DORKINGS**, white, 1st and 2nd Bogue; silver gray, 1st Bogue; colored, 1st Bogue.

PLYMOUTH ROCKS, white, 1st Jackson, 2nd Baker, 3rd O'Brien & Colwell. Barred, 1st Flawn, 2nd Kennedy, 3rd Sippi.

DOMINIQUE, 1st and 2nd Sippi. **WYANDOTTES**, white, 1st, 2nd and 3rd McCormick. Golden laced, 1st Williams, 2nd Baker. Silver laced, 1st Gray, 2nd O'Brien & Colwell, 3rd Bedggood.

BLACK SPANISH, 1st Bartlett Bros, 2nd Moore, 3rd Kennedy.

MINORCAS, black, 1st and 2nd McCormick, 3rd Baker. White, 1st and 2nd Scott & Son. **ANDALUSIANS**, 1st and 2nd Stockwell.

RED CAPS, 1st Niven, 2nd Gray. **LEGHORNS**, white, 1st Scott, 2nd Robinson, 3rd Kennedy. Black, 1st Goebel & Schuler, 2nd and 3rd Scott. Brown, 1st Robinson, 2nd Dewar, 3rd Laird. Buff, 1st Jackson.

POLANDS, 1st and 3rd McNeil, 2nd Bogue. White, 1st and 3rd McNeil, 2nd Bogue. Golden or silver, unbarred, 1st and 3rd McNeil, 2nd Williams. Golden bearded, 1st and 3rd McNeil, 2nd Bogue. Silver bearded, 1st and 2nd Bogue, 3rd McNeil. White, 1st McNeil, 2nd Bogue. Buff laced, 1st, 2nd and 3rd McNeil.

HAMBURGS, black, 1st McNeil, 2nd McLeod, 3rd Oke. Golden pencilled, 1st and 2nd McNeil, 3rd Oke. Silver pencilled, 1st Bister, 2nd McNeil, 3rd Bogue. Golden spangled, 1st McNeil, 2nd Oke, 3rd Bogue. Silver spangled, 1st Bogue, 2nd Oke, 3rd McNeil.

Any other variety fowls, 1st Jackson, 2nd Bartlett Bros, 3rd Luther Folley.

HOUDANS, 1st Stockwell, 2nd and 3rd Bogue.

CREVE COURS, 1st Oke.

LEFLECHE, 1st Oke.

GAME, black or brown-breasted reds, 1st Walter H Butler, 2nd Barber, Toronto, 3rd W J James, St. Thomas; Pyle, 1st and 2nd Barber, 3rd Butler; duckwing, 1st and 2nd Barber, 3rd McLoud; any other variety, 1st McLoud, 2nd Jackson.

BANTAMS, golden sebright, 1st McNeil, 2nd Oke, 3rd Wm A Gage; silver, 1st McNeil, 2nd Oke, 3rd McNeil; black African, 1st Oke, 2nd and 3rd McNeil; Pekin, 1st McNeil, 2nd Oke, 3rd McNeil; Japanese, 1st McNeil, 2nd Oke, 3rd McNeil; ornamental, any other variety, 1st Oke, 2nd McNeil, 3rd Oke; black or brown-breasted reds, 1st McLoud, 2nd Butler, 3rd Barber; pyle, 1st Barber, 2nd Oke, 3rd Scott; duckwing, 1st Barber, 2nd O'Brien & Colwell, 3rd McLoud.

CHICKENS.

BRAHMAS, light, 1st and 2nd Anderson, 3rd Jackson. Dark, 1st Sage, 2nd Thorpe & Scott, 3rd Sage.

Toulouse bred in 1892, 1st and 2nd Bogue, 3rd Hider & Parkin.

DIPLOMAS.

Pen dark Brahmas, L Sage, London. Pen Game, black or brown breasted reds, W J James, St Thomas. Pen Game, any other variety, C H Thornton, St Thomas.

WESTERN FAIR OFFICERS.

WE have pleasure in presenting our readers with excellent portraits of the President and Secretary of the Western Fair.

THE PRESIDENT,

CAPT. A. W. PORTE,

we have known for many years as a busy man but always genial and pleasant. He is one of the heads of the McCormick Manfg. Co. and was horn in London. For several years he has bred light Brahmas and has been successful in the show room.

THE SECRETARY,

MR. T. A. BROWNE,

is also a native of London, and is a son of ex-alderman Browne. The miniature imitation of the Sahara Desert which he wears over his brain makes him look in his picture older than he really is. To his associates he is familiarly known as "Tom" and to poultry breeders he will, in future, be best known as the permanent Secretary of the Poultry Association of Ontario.

POULTRY ASSOCIATION OF ONTARIO.

MEETING OF DIRECTORS.

A MEETING of the Board of Directors of the Ontario Poultry Association was held on September 13th, 1892. Mr. John Eastwood, the President, in the chair, and present Messrs. Wm. McNeil, London; D. C. Trew, Lindsay; J. Dilworth, Toronto; Judson Buck, Brantford; J. J. Mason, Bowmanville; J. Cole, Hamilton; Allan Bogue, London; W. Barber, Toronto.

In the absence of Mr. Browne, the Secretary, Mr. J. J. Mason, of Bowmanville, was requested to act *pro tem*.

There being a vacancy on the Board owing to the demise of Mr. Goldie, of Guelph, Mr Allan Bogue moved, and Mr. J. Cole seconded the nomination of Mr. Judson Buck, of Brantford, to fill said vacancy. Carried.

The next order of business discussed was the annual show to be held in Hamilton on January 2 to 6, 1893.

Mr. J. Cole, of Hamilton, reported on behalf of the Hamilton Association that the existing arrangements in relation to the financing of the poultry shows were not at all satisfactory to them. Mr. Dilworth moved the following resolution which was seconded by Mr W. McNeil: That the door receipts of the Poultry Exhibition to be held in Hamilton be given to their Association to provide coops and other necessary articles for said Exhibition. Carried.

In considering the prize-list, Mr. J. Buck moved and Mr. D. C. Trew seconded: That the list remain the same as last year.

Mr. McNeil moved in amendment: That the following varieties be added: Dominiques, buff laced Polands, Cochin Bantams and white-booted Bantams, which was carried.

Mr. D. C. Trew moved, and Mr. J. Cole seconded the following: That Messrs. Sharp Butterfield, T. H. Smelt, L. G. Jarvis, and Geo. E. Peer, act in the capacity of judges on the same classes as last year. Carried.

Moved by Mr. McNeil, and seconded by Mr. Cole, that the exhibitor's name be entered on the entry tickets. Carried.

Moved by Mr. Dilworth and seconded by Mr. Buck, that Mr. Allan Bogue, of London, be recommended as Super-

intendent of the Poultry exhibit from Ontario to the Chicago Columbian Exposition 1893. Carried unanimously.

The Secretary was instructed to write to Mr. Awrey, M.P.P., Ontario Commissioner to World's Fair setting forth the action of the meeting in regard to the recommendation of Mr. Bogue, and request that it be given favorable consideration.

Moved by Mr. A Bogue, and seconded by Mr. McNeil, that Wednesday afternoon of the poultry exhibition week be devoted to a general discussion of poultry matters and reading of essays thereon. Carried.

THOS. A. BROWNE,
Secretary.

NOTES.

WE had the pleasure of attending the Ottawa show last month for the first time.

A brief report and prize-list in full will appear in next issue.

The annual meeting of the Eastern Ontario Poultry Association was held during the show, and we hope to have a report in November REVIEW.

We had a long talk with Mr. A. G. Gilbert, Mgr. of the Poultry Department of the Experimental Farm and he informs us that he has now a large duck house ready, and will, next year, take up some experiments in this line which cannot fail to prove interesting.

If any errors should appear in the lists of awards published in this month's REVIEW we shall be glad to correct them on receipt of word from the winners.

Pigeon and Pet Stock Department.

PIGEONS AT CANADA'S GREATEST FAIR—INDUSTRIAL EXHIBITION, TORONTO.

MR. I. B. JOHNSON, JUDGE.

Special Report by Chas. F. Wagner.

Carriers.—A large class of good quality. Black cocks—1st H. B. Donovan, a tall, racy looking bird, thick beak, well shaped beak-wattle, large, even eye-wattle, narrow skull and long neck; 2nd, Wesley Mills, M. D., a fine colored bird, off in eye-wattle, down faced. A better bird overlooked. Black hens—1st Donovan, a very fine bird, long thin neck, tight feathered, very thick beak, well shaped wattle and narrow skull, grand eye-wattle, evenly laced, wins well; 2nd, W. Fox, a nice bird, thick beak badly stained, open, should be trimmed, large eye-wattle, not laced, good beak-wattle. Dun cocks—1st Donovan, thick beak, a little open for want of trimming, good beak and eye-wattles, plumage a little sun-burned; 2nd, Donovan, thick beak, long face, very heavy wattle, getting too rough for show pen, wants attention. Dun hens—1st Donovan, thick box beak, good beak wattle and grand even eye-wattle, eye full of fire, plumage sun-burned; 2nd, A. J. Groves, a nice one, very racy looking bird, good skull, a little thin in beak, good beak and eye-wattles, might have been disqualified for white in plumage. Any other color cocks—1st, Fox, (white) too broad in skull, eye-wattle too small and pinched behind and rather down faced; 2nd Fox (pied) narrow skull, nice eye and beak-wattle, lots of fire in his eye. Any other color hens—1st, Fox, (white) wedge shaped

skull, evenly laced eye-wattle, a little thin in beak; 2nd, Groves, (white) very narrow skull, great length of face, nice eye-wattle, racy looking bird, would have been in first money only for bent leg.

Pouters.—A good class of high merit. Blue pied cocks—1st, Wm. Whitehead, Brampton, a grand bird, long stocking booted limbs well placed, large blower, a little girthy, good color and well marked; 2nd, Maplewood Columbar, Toronto, good bird, with long limbs, off in marking and out of condition. Blue pied hens—1st, Geo. Duffield, a good colored bird, long limbs, very roughly booted, might have given away to 2nd; 2nd, Whitehead, very slender bird of good length, long stocking-booted limbs, good blower and very stylish, might have been 1st. Black-pied cocks—1st, Maplewood Columbar, an old winner, in fine condition, good long stocking-booted limbs, slender girth and large blower, a long feathered bird; 2nd, Whitehead, another good one, slightly snipped, very slender girth, long stocking-booted limbs, pushes hard for 1st place. Red or yellow-pied cocks—1st, Maplewood Columbar, (red) good color, large blower, thinly booted limbs; 2nd, Duffield, (red) coarse, fair limbs, good length of feather, getting beyond the show pen. Red or yellow-pied hens—1st, Maplewood Columbar, (yellow) good color, well marked, fair length of limb, roughly booted, beyond the show pen, might have given away to a red hen overlooked; 2nd, Maplewood Columbar, (red) fair limbs very roughly booted, short in feather. White cocks—1st, Maplewood Columbar, a long feathered bird, with good long stocking-booted limbs, rather girthy, very

large blower; 2nd, Maplewood Columbar, a very long limbed bird and slender girth, fair length of feather, not so large a blower as first one. White hens—1st, Maplewood Columbar, a well known winner, wins easily, good length of limb, slender girth, stylish; 2nd, Whitehead, fair length of limb, rather short in feather and not straight enough in limbs.

Dragoons.—Came out in full force and had a hard fight. Many were slain. Blue or silver cocks—1st Donovan, (blue) fine color, grand wedge shaped skull, thick black beak, hard peg shaped beak-wattle, which stood perpendicularly at the back, damson eye cere, pinched behind, a cobby looking bird; 2nd, Donovan, (blue) a youngster, wins well, will make a dandy. Blue or silver hens—1st Donovan (blue) thick black beak, wedge shaped skull, beautiful gypsy eye, broad breast, with wing butts prominent, racy looking; 2nd Donovan, (blue) a baby, wins well over some old birds in same class. Any other color, cocks, 1st Donovan (blue chequer) broad wedge shaped skull, dark eye cere, pinched behind, hard beak wattle, black beak with plenty of substance; 2nd Fox (blue chequer) good skull, thick beak, strong bird. Any other color hens, 1st Donovan (blue chequer) stout, short feathered bird, beautiful skull, thick beak; 2nd Wesley Mills, M.D., (silver) strong bird, wedge shaped skull, good eye cere, short thick neck.

Barbs.—Turn out few in quality, but make up in quantity. Black cocks—1st Maplewood Columbar, a young bird, broad parallel skull, good even eye wattle, thick beak and smooth beak wattle; 2nd Maplewood Columbar, good shaped skull, clean stout beak, even eye wattle, short thick neck

and broad chest, pushes hard for first place. Black hens—1st Maplewood Columbarry, thick beak slightly stained good eye and beak wattles, good colored bird; 2nd E. McMurtry, rather thin in the beak, and wedge shaped skull. Red or Yellow Cocks—1st Maplewood Columbarry (red) broad skull, large eye wattle, well chiselled; thick beak, smooth beak wattle, nice white eyes, thick neck, fine bird wins easily; 2nd Maplewood Columbarry, (red) a young one should make a nice one. Red or Yellow hens—1st Maplewood Columbarry, thick beak, even eye wattle of bright red color, broad skull, a good bird; 2nd Maplewood Columbarry, good skull, rather thin in beak, good color. Any other color cock—1st Maplewood Columbarry (dun) good color, broad skull, thick beak and large eye-wattle; 2nd Geo. Kemp, Toronto. (white) broad skull, eye-wattle pinched behind. Hens—1st Maplewood Columbarry, broad parallel skull, fair eye-wattle, and fair beak; 2nd Geo. Kemp, (white) narrow skull wedge shaped, rather thin in beak.

Tumblers.—Mustered in good order among which were many fine birds. Short-face almond cocks—1st Donovan, a grand bird, good stop, broad skull, nice eye, fine beak, good ground color, feather pretty well broken; 2nd Wesley Mills, M. D., good ground color, fair stop, a little coarse in beak. The best skulled bird in this class was "not in it," being too dark in plumage. Almond hens—1st Duffield, lucky bird, ground color too light, fair stop, thick coarse beak, fairly spangled, should have given away to 2nd; 2nd Wesley Mills, M. D., good stop, broad skull, fine beak, though poorly spangled should have had 1st money. Any other color cocks—1st Donovan, (yellow agate rose wing) a beauty, very high stop, broad skull, fine beak, good eyes, good sound color on rump; 2nd do, (red agate) good stop, fine beak,

beautiful sound, glossy color throughout. Hens—1st Donovan, (kite) good bronze under color, very glossy plumage, good stop, broad skull, fine beak and good eye; 2nd do. (golden dun) good stop, fair breadth of skull, white eye, fine beak, nice colored bird. Long face bald or bearded cocks—1st Fox, (black beard) poor color, flat skull, good eye, well cut chuck, one foul tail feather and a few foul feathers at knee joints, might have been disqualified; 2nd Donovan, (blue bald cock) good skull, high cut, good eye, well marked all round bird, might have had the plum. Hens—1st C. S. Fox, (black bald) high cut, good flights and tail, wins well; 2nd Donovan, (black bald) high cut, a little off in flights. Any other color cocks—1st Donovan, (red whole feather) good sound color, fine shaped skull, good eye, might have given away to a beautiful black without a fault; 2nd Fox, (red cock) poor color, foul in tail. Hens—1st Fox, (a poorly marked badge) might have given away to a good sound colored red; 2nd Donovan, (red hen) good color, good eyes and skull, good Tumbler form, might have been in first money.

Fantails.—Blue or silver cocks—1st Maplewood Columbarry, very large tail spread and flat as a pancake, beautiful color, fair style more of the English type; 2nd Maplewood Columbarry, good tail spread, but not so large, good carriage. Blue or silver hens—1st Maplewood Columbarry, good style, short back, nice tail spread, a little broken, fine; 2nd Maplewood Columbarry, very spread, fair style, good color, short back, good, pearl eyes, should have had first money. White cocks—1st Wm. Fox, (crested) very coarse bird, neck too straight, back too long, good tail spread; 2nd Maplewood Columbarry, fine tails spread, short back, good carriage, only fault a little coarse. Another bird in this class equally as good as 2nd, out

of condition. White hens—1st Fox, rough tail, poor style, too long in back; 2nd Maplewood Columbarry best Fantail in the show, good tail spread, very fine carriage, long snaky neck, breast carried high, head low at root of tail; another very stylish bird in this class was not in it. Any other color cocks—1st Maplewood Columbarry, (black crested) fair bird all round; 2nd Maplewood Columbarry (black) a better bird than 1st winner but out of condition. Hens—1st Duffield (black) a very nice bird, good tail spread, fair style, good color, but off in eyes; 2nd Maplewood Columbarry, (black) good tail spread, fine carriage, good color, pushes hard for first money, a little out of condition.

Jacobins.—Red or Yellow Cocks—1st Maplewood Columbarry (red) good color; good length of feather; head well hidden, hood well formed; mane very good; chain long and close fitting, fair skull, high cut, good flights, wins well. 2nd, Fox, good color, a little off in hood, good chain and fair mane, moulting. Hens—1st, Fox, (yellow), too long in face, low cut, short hood, good mane and chain, good colored bird, 2nd Maplewood Columbarry, (red), good color, long feather, hood lying closely to head, fair skull, good mane and chain. Another red hen in this class with long, close-fitting hood and good mane and chain, smallest bird in the class. White cocks, 1st Maplewood Columbarry, very clean, good feathered bird, pearl eyes, good skull; 2nd do., out of condition. Hens—1st Maplewood Columbarry, very nice bird, one bull eye, should have been disqualified; 2nd Maplewood Columbarry, good bird a little out of condition. Any other color cocks—1st Maplewood Columbarry, (black) good length of feather, good color, very nice hood, fair mane and good chain; 2nd Fox, (black) very fine color, good feathered bird pushes hard for first place.

Hens—1st Maplewood Columbar, (black) a baby wins well, very high cut and plenty of flights, long feathered bird, should make a good one; 2nd do., (black) good bird, a little off in color.

Antwerps.—Short-face, blue or silver dun cocks—1st Maplewood Columbar, (silver dun) very thick beak, massive skull of good depth, great circular profile, large bird, wins easily; 2nd Maplewood Columbar, (silver dun) grand profile, good depth of skull, a youngster, will make a spanker. Hens—1st Maplewood Columbar, (silver dun) the best Antwerp in the show, very massive beak, fine circular sweep of skull of great depth, large bird of fine color; 2nd Maplewood Columbar, another nice one, shorter in face and smaller skull, not as good color as 1st winner. Any other color cocks—1st Maplewood Columbar, (red chequer) very massive pair of jaws, good profile, great depth of skull, very chubby-headed bird; 2nd Fox, (red checker) a good bird, good profile, not so deep in skull and not as massive in beak as first bird. Hens—1st Fox, (red chequer) a grand bird, good profile, very stout beak, good depth of skull, nicely marked, wins easily; 2nd Maplewood Columbar, (red chequer) should have been disqualified, one bull eye. Long or medium face, blue or silver dun cocks—1st Maplewood Columbar, (silver dun) great skull, good length of face, large bird, wins well; 2nd Maplewood Columbar, (silver dun) another good one, pushes hard for 1st money. Hens—1st Maplewood Columbar, (silver dun) grand profile, thick beak and good depth of skull; 2nd do. do., (silver dun) another very fine bird of good color. Any other color cocks—1st Fox, (red chequer) good skull, a little short in face, good profile; 2nd do., another good one, not much choice between 1st and 2nd. Hens—1st Fox, (red chequer) a youngster, will make a nice one; 2nd do. do., another

nice one, thick beak and good skull.

Trumpeters—Any color cocks—1st Fox, (black) a grand colored bird, good rose, very large shell crest, beak too dark; 2nd do. do., (splash) good crest, circular rose, good length of foot feather, off in color of beak. Hens—1st do. do., (black) best Trumpeter in the show, good circular rose, large crest, long foot feather, fine colored bird, beak too dark; 2nd do. do., (splash) very good bird all round with exception of beak which is too dark.

Turbits—turned out in full force and were of exceptionally fine quality. Red or yellow cocks—1st Donovan, (yellow) good headed bird and good color, a little too straight in face; 2nd Donovan, (red) broad skull of great depth, thick beak, grand profile, good gullet and frill, bolting eye, cheeks very full. Hens—1st Donovan, (yellow) broad skull, thick beak, good depth of skull, fair gullet and good frill, little off in color; 2nd Donovan, (red) short in flights, fair substance of beak, skull fair depth and breadth, good frill. Black or dun cocks—1st Donovan, (black) a dandy, bull finch beak, grand profile, deep skull, eyes prominent, cheeks full, beautiful glossy black color, good flights; 2nd Donovan, (black) a youngster, will make his daddy hustle some day. Hens—1st Donovan, (black) beautiful color, good in flights, nice shaped skull of good breadth and depth, thick beak and good frill; 2nd Donovan, (black) a very nice bird, a little out of condition. Any other color cocks—1st Donovan, (blue) thick beak, broad skull, good profile, bolting eye, good gullet and frill, fine colored bird; 2nd Donovan, (blue) a young bird, wins well. Hens—1st do. do., (blue) a good one, fine color, good profile, thick beak, good gullet and frill; 2nd Donovan, (blue) a nice little bird, pushes hard for first money.

Blondinettes—Cocks—1st Maplewood Columbar, a light arrow-pointed bird,

good tail spot, good flight markings, well marked on back and shoulders, good skull, good beak, nice gullet and frill, nice peak crest; 2nd Maplewood Columbar, dark arrow-pointed cock, fair marking on back, off in tail spot, fair skull. Hens—1st Maplewood Columbar, light arrow-pointed bird, beautifully marked on tail, flights and back, good skull, nice profile; 2nd Maplewood Columbar, sulphur laced, good tail spot, good head and beak, a little light in marking on back. Any other variety Oriental frills cocks—1st Maplewood Columbar, (Satinette) good tail spot, good flights, nicely marked on back, good skull, thick beak, good gullet; 2nd Maplewood Columbar, (Satinette) another nice one, well marked and good skull. Hens—1st Maplewood Columbar, (Bluette) nice color, good wing bars, good tail spot, good flights, nice skull, good gullet and frill; 2nd do. do., (Satinette) nicely marked and good head points.

Swallows—Red or yellow cocks—1st Maplewood Columbar, a fine colored red, good shell crest, well marked skull and wings, long foot feather; 2nd do. do., another red, a little off in head marking, good bird otherwise. Hens—1st Maplewood Columbar, red bird of beautiful rich color, well marked, good large shell crest, nice long foot feathers; 2nd do. do., another good red, well marked, a little out of condition. Any other color cocks—1st Fox, (blue, black bars) well marked, good color, good long foot feather, good crest; 2nd Maplewood Columbar, (black) good bird of fine color, moulting. Hens—1st Fox, (blue, black bars) nicely marked, good shell crest, good foot feather; 2nd Maplewood Columbar, (black) moulting and out of condition.

Nuns—Any color cocks—1st Maplewood Columbar, (black) a grand one, fine color, good flights, large shell crest well marked bib; 2nd do., another black of fine color, deep bib, large

crest and good flights. Hens—1st Maplewood Columbar, (black) a beauty, very high shell crest, deep bib well cut, good flights, good shaped skull; 2nd do., (black) a good one pushes hard for first place.

Magpies—were plentiful and of good quantity, any color cocks—1st Donovan, (yellow) a grand bird, long snaky head and neck, clear beak, pearl eyes; 2nd Donovan, beautiful sound colored red, well marked, long thick neck and good shaped head. Hens—1st Donovan, (yellow) well marked, nice thin head and neck, good pearl eyes, sound in color; 2nd Donovan, (red) a nice bird not quite so well marked on saddle as 1st. There were some beautiful blacks in this class but the Judge seemed to prefer reds and yellows.

Archangels.—Cocks—1st Fox, a fine bird, good color, very glossy, wins well; 2nd Maplewood Columbar, another nice bird but not as glossy as the first. Hens—1st Maplewood Columbar, a nice bird but should have given away to bird "not in it;" 2nd Maplewood Columbar, a fair bird should never had a prize, struck luck that time.

Eng. Owls.—the finest lot ever seen together in Canada, blue or silver cocks—1st Wesley Mills M. D., (blue) a fine bird very stout beak, great frontal, nice profile and good depth of skull, nice bodied bird to, wins with ease; 2nd Fox, (blue) a good sound colored bird, stout beak, good profile, good gullet and frill, lacks a little in size for an English Owl. Hens—1st Wesley Mills (silver) a grand one, but proves to be a cock, should not have been in it; 2nd Donovan, (silver) best blue or silver hen in the show, should have had 1st money. Any other color cocks—1st Wesley Mills M. D., (Silver chequer) good skull, very stout beak, good gullet and frill, a little off in marking; 2nd Mills, a youngster will make a good one. Hens—1st Mills, (black) a fine bird, should have been disqualified for white

in plumage; 2nd Donovan, (silver chequer) should not have been in it, a better bird over looked.

African Owls—White or black cocks—1st Donovan, (white) a grand little bird with stout beak, good profile and nice gullet and frill; 2nd Donovan, (white) another good one, very small, runs hard for the pot. Hens—1st Donovan, (white) a nice little thing, all over; 2nd do. do., a grand one, very close to 1st. Any other color cocks—1st Fox, a good headed bird but too large for an African Owl. Hens—1st do., do., a fair bird, would not stand much competition.

Any other variety not mentioned—Cocks—1st Fox, (Frillback) fair bird; 2nd Donovan, a yellow German beard, a little sunburnt. Hens—1st Donovan, (yellow German beard) good color and well marked; 2nd Donovan, (spot Fairy) fairly marked, very long boots.

PET STOCK.

Judging in this section was a mere farce, the gentlemen officiating not knowing even the names of some of the varieties, and had to call in the services of one of the exhibitors and a visitor standing near, rather a peculiar way of doing things, and giving little encouragement to exhibitors in this department, which has increased so greatly the last two years.

Rabbits—*Lops*, were only fair, and show a retrograde movement, none of the winners extra. *Himalayans*, were really good but some of the best were quite unnoticed. *Dutch*, fair, good black buck 1st, 2nd young black, 1st doe, fair blue, 2nd black. *Belgian Hares*, made a small class but two or three being shown. *Angoras*, good.

Cavies, Smooth—Here is where the judge (?) went most astray; a grandly marked tortoiseshell, a winner here and in England being passed over, and a miserable little nondescript colored one given 1st. 1st boar a sound colored

black, 2nd a red and white. *Peruvian*, 1st sow a three color, very well furnished, 2nd white, should have given way to a much larger cream and white with better coat. 1st boar a large red and white, 2nd white. *Collection of mice*, 1st all white; rats do. H.B.D.

RABBITS, Lop—Buck, 1st Fox, 2nd Steele; doe, 1st and 2nd Fox. Dutch, buck, 1st Donovan, 2nd Fox; doe, 1st Donovan, 2nd Fox. Belgian Hare, buck, 1st and 2nd Fox. Himalayan, buck, 1st Donovan, 2nd Fox; doe, 1st Donovan, 2nd Fox. A. O. V., buck, 1st and 2nd; doe, 1st and 2nd Fox.

CAVIES, smooth—Boar, 1st and 2nd Donovan; sow, 1st Fox, 2nd Donovan. A. O. V., boar, 1st Donovan, 2nd Fox; sow, 1st Donovan, 2nd Fox, Fancy Rats, Fox. Fancy Mice, Fox.

PIGEONS AT LONDON, ONT.

MR. ALLAN BOUG, JUDGE.

All birds were shown in pairs, numbering over 200.

Carriers, black—very nice lot of birds, 1st W. Fox, Toronto, good color and nicely wattled, 2nd Fox, another very nice pair. Duns, 1st Fox, very good, 2nd Fox, better matched as a pair. Any other color, 1st Fox, pair of whites, 2nd Fox, pied, better in skull points than first pair, but not matched so well in color.

Pouters, white—1st and 2nd Maplewood Columbar, Toronto, two very fine pairs of birds, very lengthy in feather and good long limbs. Black or blue-pied, 1st Maplewood Columbar, blacks, well matched and very fine color, 2nd Maplewood Columbar, blue, not so well matched as a pair though a very fine pair of birds. Red or yellow, 1st Axtell, London, reds, very rough limbed, good color, 2nd Axtell, yellows, not so good in color as first winners, and very rough in limbs.

Tumblers, short-faced—1st Maplewood Columbar, a fine little pair of

yellow mottles with grand heads, 2nd Maplewood Columbarry, a fine pair of yellow agates. Any other variety, 1st Fox, a pair of nice little silver-dun bald-heads, 2nd Maplewood Columbarry, a pair of kites well matched.

Jacobins, red or yellow—1st A Stockwell, London, a very fine pair of reds with good long feather, 2nd Stockwell, another nice pair a little loose in feather. Any other color, 1st Fox, blacks, nice pair long feathered birds. 2nd Stockwell, long feathers, good rich color and closely feathered.

Fantails—1st Fox, a fair pair, could not show themselves in such a small coop, 2nd Maplewood Columbarry, a very fine pair, hen has a split tail. Any other variety, 1st Maplewood Columbarry, blues of good quality and well matched, 2nd Maplewood Columbarry, blacks, a little out of feather.

Barbs, black — 1st Maplewood Columbarry, very nice pair with good skulls and eye-wattles, 2nd Fox, very nice pair, will improve. Any other color, 1st Maplewood Columbarry, reds, nice color and well matched, 2nd Maplewood Columbarry, duns, not so well matched as first pair.

Trumpeters—1st Fox, blacks, well matched and beautiful color, 2nd Fox, splashes, another very nice pair.

Turbits—1st Maplewood Columbarry, reds, a good pair with nice shaped skulls, 2nd Fox, blues, very good color and fair skulls and good frills.

Archangels—1st Maplewood Columbarry, very nice color with metallic hue, 2nd Fox, another very nice pair a little off in crest.

Owls—1st Fox, silvers, fair color and good skulls, 2nd Fox, a pair of blues of good quality.

Swallows—1st Maplewood Columbarry, reds, well marked and in fine condition, 2nd Fox, blues, good color

and marking, crests a little out of condition.

Nuns—1st Maplewood Columbarry, a fine pair with good high crests and well marked, 2nd Fox, a very nice pair, moulting. REPORTER.

LIST OF AWARDS.

PIGEONS.

Black Carriers, 1st and 2nd William Fox, Torod o. Dun Carriers, 1st and 2nd Fox. Carriers, any other variety, 1st and 2nd Fox. White Pouters, 1st and 2nd Chas F Wagner, Toronto. Jacobins, red or yellow, 1st and 2nd A T Stockwell, London. Jacobins, any other variety, 1st Fox, 2nd Stockwell. Fantails, white, 1st Fox, 2nd Wagner. Any other variety, 1st and 2nd Wagner. Barbs, black, 1st Wagner, 2nd Fox. Barbs, any other variety, 1st and 2nd Wagner. Trumpeters, Russian, 1st and 2nd Fox. Turbits, any variety, 1st Wagner, 2nd Fox. Archangels, 1st Wagner, 2nd Fox. Owls, 1st and 2nd Fox. Swallows, 1st Wagner, 2nd Fox. Nuns, 1st Wagner, 2nd Fox.

RABBITS, lop-ear, 1st and 2nd Fox. Dutch, 1st and 2nd Fox. Angora, 1st Pumphrey, London, 2nd Fox. Guinea Pigs, 1st and 2nd Fox.

MONTREAL SHOW.

PIGEONS.

POUTERS—blue pied, cock, 1st Lumsden & Smith, 2nd Wesley Mills 3rd Laurin; hen, 2nd Laurin, 3rd Lumsden & Smith. Black pied, cock, 1st Rawlings, 3rd Lumsden & Smith; hen, 1st Rawlings, 2nd Lumsden & Smith, 3rd Laurin. Red or yellow pied, hen, 1st Wesley Mills. White, cock, 2nd Wesley Mills.

CARRIERS, black—Cock, 1st Wesley Mills, 2nd Potter, 3rd Wesley Mills; hen, 1st Potter, 2nd Wesley Mills, 3rd Bunning. dun, hen, 1st Wesley Mills. Any other variety, cock, 1st Lumsden & Smith; hen, 1st Wesley Mills, 2nd Lumsden & Smith.

DRAGOONS, blue, white, red or yellow—Cock, 1st Wesley Mills, 2nd Potter, 3rd Seale; hen, 1st Wesley Mills, 2nd Wesley Mills, 3rd Potter. Any other color, cock, 1st Wesley Mills, 2nd Wesley Mills, 3rd Shuter; hen, 1st Wesley Mills, 2nd Wesley Mills, 3rd Shuter.

BARBS, black—Cock, 1st Cooch; hen, 1st Lumsden & Smith.

TUMBLERS, shortfaced, almond—Cock, 1st Wesley Mills; hen, 1st Wesley Mills. Any other standard color, cock, 1st Wesley Mills,

2nd Lumsden & Smith, 3rd Browning; hen, 1st Wesley Mills, 2nd Lumsden & Smith, 3rd Browning; A O V hen, 1st Lumsden & Smith, 2nd and 3rd Browning.

FANTAILS, blue or silver—Cock, 1st Lumsden & Smith, 2nd Rolland; hen, 1st Wood, 2nd Campbell & Murray, 3rd Rolland. White, cock, 1st Lumkin, Cote des Neiges, 2nd Campbell & Murray, 3rd Wood; hen, 1st and 2nd Lumsden & Smith, 3rd Campbell & Murray. Any other standard color, cock, 1st, 2nd and 3rd Lumsden & Smith; hen, 1st Lumsden & Smith, 2nd Wood, 3rd Lumsden & Smith.

JACOBIANS, red or yellow—Cock, 1st and 2nd Bunning, 3rd Rolland; hen, 1st and 2nd Bunning, 3rd Lumsden & Smith. Any other color, cock, 1st and 2nd Lumsden & Smith; hen, 1st Wood, 2nd and 3rd Lumsden & Smith.

HOMERS—Cock, 1st and 2nd Shuter, 3rd Eaton; hen, 1st and 2nd Shuter, 3rd Browning.

ANTWERPS, silver dun—Cock, 2nd Cooch. Blue or black, chequer, cock, 3rd Shuter; hen, 3rd Shuter.

TURBITS, red or yellow—Cock, 1st and 2nd Lumsden & Smith, 3rd Bunning; hen, 1st Lumsden & Smith, 2nd Campbell & Murray, 3rd Bunning. Any other color, cock, 1st, 2nd and 3rd Lumsden & Smith; hen, 1st Wood, 2nd and 3rd Lumsden & Smith.

BLONDINETTES—Cock, 2nd and 3rd Lumsden & Smith; hen, 3rd Lumsden & Smith.

SATINETTES—Cock, 1st and 2nd Lumsden & Smith.

ARCHANGELS—Cock, 1st Lumsden & Smith, 2nd Reed, Kingston, 3rd Browning; hen, 1st Reid, 2nd Browning.

SWALLOWS, red or yellow—Cock, 2nd Lumsden & Smith; cock, 1st Cooch, 2nd Lumsden & Smith, 3rd Browning; hen, 1st Lumsden & Smith, 2nd Cooch.

NUNS, any color—Cock, 1st Wood, 2nd Lumsden & Smith, 3rd Browning; hen, 1st Lumsden & Smith, 2nd Wood, 3rd Browning.

OWLS, English, blue or silver, black or yellow—Cock, 1st, 2nd and 3rd Wesley Mills; hen, 1st, 2nd and 3rd Wesley Mills. Any other color, cock, 1st and 2nd Wesley Mills; hen, 1st and 2nd Wesley Mills, 3rd Wood. African, any color, cock, 1st and 2nd Lumsden & Smith; hen, 3rd Lumsden & Smith.

Any other variety, not specified in this list, Cock, 1st Rolland.

PIGEONS AT KINGSTON.

WE expected to find a better lot and more of them. A somewhat similar list at London two weeks later brought out about 250. In almost all cases the quality was poor, and when we arrived on Thursday some had left the show room, a practice not at all to be commended. In Dragoons a fair pair of silvers won. Black

Carrier hen (we presume one of first pair, cock absent) had a case of canker in the ear and might have been at home. A fair pair Jacks and pair silver Owls. Others poor. H. B. D.

PRIZE LIST.—All birds shown in pairs.

Pouters, 2nd W H Reid. Carriers, 1st Dr Clark. Barbs, 1st W H Reid. Fantails, white or black, 1st G Wood & Co., 2nd W H Reid. Any other color, 1st W H Reid. Tumblers, 1st Dr Clark, 2nd W H Reid. Jacobins, 1st and 2nd Dr Clark. Nuns, 1st G Wood & Co. Trumpeters, 1st G Wood Wood & Co., 2nd W H Reid. Owls, white or black, 1st Dr, Clark, 2nd W H Reid; blue or silver, 1st G Wood & Co., 2nd W H Reid. Turbits, 1st and 2nd W M Auburn. Antwerps, 1st W H Reid, 2nd Dr Clark. Any other variety, 1st G Wood & Co., 2nd W H Reid.

POULTRY

MONTHLY MORSELS.

BY F. A. MORTIMER, POTTSVILLE, PA.

WHEN you come across a man that neither flattery nor abuse will stimulate, let him alone, he has gone to seed.

This is the dull season in the poultry business; occupy your time in preparing for fall campaign.

On the average 75 or 100 acres farm it will not cost over 50 cents a piece in clean cash to keep up a small flock of laying hens. With fair treatment they will average 100 eggs each in the year at 15 cents a dozen, the egg product will be worth \$1.25 per hen.

Green food is abundant, and though hot weather makes one feel tired it

should be liberally supplied. It is cooling to the system of the fowls, keeps them in better health, and as an inevitable consequence they lay better and pay better.

Give your fowls some sunflower seed about twice a week, but not too much at a time, it will give them a fine gloss after they are done moulting.

Not many eggs from moulting hens. The food that formerly was used in the manufacture of eggs is now diverted to the formation of feather.

The pullets of the cross breeds, Plymouth Rocks and Brown Leghorns, have proved such excellent winter layers that I should like to say a word in their praise, writes a farmer's daughter to *Country Gentlemen*. Some of them began laying before they were six months old and have continued steadily ever since. The winter has been unusually mild, I know; still, I think some credit is due my improved stock because my nearest neighbor who has about the same number of hens, gets only one-tenth as many eggs as I do. It makes me feel very proud to bring in a nice basketful every day, while she can put all she gathers in the palm of one hand. I took her out to the poultry-yard the last time she came to see me and showed her my pretty red-combed beauties: they are so gentle that they always come running when they see me, and range themselves as if on exhibition, so as to show off their bright, glossy plumage and dazzling combs and wattles to the best advantage. The color of the cross-breed is either a dark Plymouth Rock with white lobes and moderately tall combs, or the pretty brown Leghorns with the larger, and sometimes the falling combs peculiar to that breed. In either case

the cross is larger than the brown Leghorns, though smaller than the Plymouth Rocks, but it has always a pretty trim shape and an upright, graceful carriage. I am sorry to say, however, that the pullets inheriting the Plymouth Rock color also retain the propensity to sit, so characteristic of that breed. They are much more easily broken, though, than those of the pure breed, two days of solitary confinement being usually amply sufficient.

It requires but little time and attention to manage a small flock but if it is intended to go into poultry raising as a business it means work and plenty of it. Hard work is necessary to grow crops, to conduct a dairy, or to manage stock, and the same of poultry. In the winter time there may be huge drifts of snow to shovel before the hens can get out coops, the droppings must be removed, the quarters cleaned, the fowls fed and the water cans filled, the eggs must be collected frequently in order to prevent them from being frozen, and the surplus poultry and eggs must be shipped to market. All these details calls for labor and the larger the number of fowls the greater the amount of work required. We wish to impress this fact on our readers as we seek to give solid truths in preference to theories and impossible inducements, but there is nothing discouraging in being compelled to work, but for the labor required there would be no profit in the business: it is the labor that sells, in the shape of eggs and carcasses, and not the chicken itself. The profit is that derived above cost of food, labor, etc.

Give the birds chopped onions occasionally, they are among the best of

foods and a preventative against disease.

We do not recommend any rooster but a pure bred one, but if our readers will cross a Dominique cock and a Plymouth Rock hen and use the young rooster resulting from the cross they will find them more useful and serviceable than any other kind with common hens.

If you don't kill off or dispose of some of those cockerels about your place very soon you need not be disappointed if your egg crop falls below your expectations.

Buy offal meat from the butchers and cook it, chop up the meat and pour the water used in cooking over the soft feed and you have a first-class dish for laying hens, feed the meat too.

Grit is an important factor in successful poultry keeping. The keeper requires it in his character and the fowls must have it in their crops.

PRACTICAL HINTS.

BY BLACK WYANDOT.

AFTER a man has gone through the long labor of raising a flock of fowls for market he is certainly honestly entitled to the best possible price for his product, and he should strive to realize it. It is quite often the case, that chickens half grown will bring as much or more as when full grown. August prices are usually good, and if one can get anywhere near the price per head in August, which the same birds would bring in November, there is double the money in letting them go. Yet many never think of selling chicks until late fall or winter,

and never think of examining the market reports to ascertain when is the most profitable selling time. It takes brains as well as muscle to make the poultry business a success.

This is the fanciers culling season but not the beginning of it. Chicks with glaring defects might have been consigned to the frying pan two months ago, but many culls have to come near maturity before their defects develop in any pronounced way. The quicker the cull are got out of the flock the better. Their room is worth more than their company in a flock of thorough breds. As soon as they are weeded out, an experienced fancier is delighted with the aspect of things and can spend an hour admiring his flock. A cull is an eye sore easily gotten rid of, but the presence of a few of them in a flock, often gives visitors a wrong impression and spoils the sale of a good bill of fowls.

The old light Brahma stands to-day the king of fowls. More Brahmas change hands each season than any three breeds that can be mentioned. They are always one of the leaders at every show, both in rumber, and in the interest they command from fancier and visitor. Their great size, unrivalled dignity, and massive form attracts the admiration of all. Their plumage is of the most charming combination of black and white imaginable. Their disposition is perfect and they are the hardiest breed alive. A flock of light Brahmas will do better under ordinary "hard knocks" than any other Standard bird, and I have found them less liable to disease both as chicks and mature fowls than any breed I ever kept. I have kept all most popular breeds and put the light Brahma first.

CENTRAL EXPERIMENTAL FARM.

REPORT OF THE POULTRY MANAGER,
MR. A. G. GILBERT.

(Continued.)

ANOTHER INTERESTING CASE.

THE publication of the following case, and the treatment for it advised by Prof. Wesley Mills, of the Physiological Laboratory, McGill University, Montreal, may be useful to others:

STROMNESS, 18th Jan., 1892,
"Manager Poultry Department,
"Experimental Farm, Ottawa.

DEAR SIR,—Having received the yearly report of the experimental farms, I notice that you aid farmers in curing the diseases of their poultry. I am much interested in poultry on the farm as a means of profit. My fowls are troubled with a disease that has caused me serious loss for three years past. The sick fowls get pale around the comb and dumpish. Some linger along for a month or two, and others die in a week or two from the time I notice they are attacked. I aim to get eggs in winter, and feed liberally. I get more eggs than any farmer around, considering the number of hens I keep, but they keep dying off. I kill them and bury them. Those that I have opened have all enlarged livers; in fact, their livers are so large as to fill the hen so full as to displace the other organs. Some have enlarged kidneys as well. One liver I weighed came to three-quarters of a pound. If the fowls were allowed to die all their livers would weigh the same. Some of the livers have whitish spots on them, appear to be very tender, and are much filled with water. My fowls are in too limited quarters, but will soon have more room. Hoping for your advice.

"Yours very truly,

"HENRY E. DICKHOUT.

"Stromness, Ont."

The case was deemed so important that the letter was forwarded to Professor Wesley Mills, asking his opinion and advice in the interests of the farming community. With his usual kindness, Dr. Mills returned the following reply:—

"PHYSIOLOGICAL LABORATORY,
MCGILL UNIVERSITY.

Montreal, 13th February, 1892.

"Manager Poultry Department,

"Experimental Farm, Ottawa.

"DEAR SIR,—I have your favor of 11th February, enclosing Mr. Dickhout's letter. From the clear and intelligent account this gentleman gives, I have little doubt that the fowls are suffering from fatty degeneration of the liver, owing to overfeeding and lack of exercise, exaggerated possibly by inadequate ventilation from the 'limited quarters.' Whether there be also cystic disease from parasites or tubercule, it is impossible for me to say without seeing one of the livers.

The remedies are obvious—feeding on oats with vegetable food, scattering with chaff among straw on the floor and enlarging the quarters.

"Truly yours,

"WESLEY MILLS, M. D."

INCUBATOR TRIAL.

On the 13th May 96 eggs were put into an incubator purchased some years ago from A. W. Bessey, of St. Catharines, the manufacturer. The eggs were from the mixed hens which had been running outside for some time and were likely to be fertilized. Careful note was taken of the temperature of the incubator at 7 a.m., 12 noon, 4 p.m. and 8 p.m. The proper temperature to keep was 103. The greatest variations of temperature were on the 17th of May, when the thermometer in the egg chamber rose to 105 for a short time in the morning, and on the 16th May, when 97 was registered in the morning. The desired figure of 103

with these exceptions, was kept with remarkable regularity, but the result was very unsatisfactory. Four chickens only hatched. Examination of the remaining eggs showed five well developed chicks dead in the shell; 39 ditto imperfectly developed; 17 just started, and 23 eggs with no sign of development, probably not fertilized. It should be stated that the incubator was constructed with two tanks, one on the upper and the other on the lower part of the egg chamber, with the eggs placed on a tray between the tanks. This principle of hatching eggs has received unstinted condemnation. All incubators are now constructed with one upper tank, the eggs being placed underneath subject to the "top heat." The contention is that the eggs are hatched by the top heat of the hen. The numerous enquiries by letter as to the most improved method of incubation indicate increasing interest in the subject. It is beyond question that artificial incubation is more generally and successfully prosecuted at present than it ever was before in this country, and its advantages can hardly be overestimated.

EGGS KEPT IN DIFFERENT TEMPERATURES AND IN DIFFERENT SUBSTANCES.

The experiments with eggs kept at different temperatures and packed in different substances, in order to ascertain how long they would keep without spoiling was continued from date of last test, 24th February, 1891 and numbered "Examination 26."

Examination No. 27.—On 14th of March, 1891, examined an egg laid first week in August, 1890 and kept in drawer of table in office of main poultry building, placed there the same week it was laid. Contents quite sweet and free from mustiness.

(To be Continued.)

PUBLISHERS' NOTES

U. S. OFFICE.

We have established a branch office at Boston, Mass., U.S. Readers will receive prompt attention to their enquiries when addressed to P.O. Box 1379 Boston.

Mr. J. H. Cayford, Box 1,168, Montreal is our Agent and Correspondent for the Province of Quebec. Any correspondence relating to subscriptions or advertising may be addressed to him.

"The Dog in Health and Disease," by Prof. Wesley Mills, Montreal, \$2.25, free by mail from GAZETTE Office.

AN EASY WAY TO GET FELCH'S GREAT BOOK.

To any one sending us five new subscribers with \$5 we will send a copy of "Poultry Culture" by I. K. Felch, value \$1.50, a book no fancier should be without. We have lots of these books so don't be afraid the supply will run out.

ON 40 DAYS' TRIAL

The Great Truss for

RUPTURE

This Pad closes Hernia as if your extended hand was drawn together, closing the aperture. Truss is held positively without friction day and night, and healed like a broken leg. There is no duty to pay, which many Canadians found more expensive than the truss. The easiest, most durable, and

cheap Truss. Sent by mail.

made natural in five months without cutting. (Appliances for above patented).

SPINAL INSTRUMENTS half the weight of other makes, and more effective. Send stamp for illustrated book. Valuable information. Address,
