## REBEL FACTIONS CALLING UPON MEDIATOR

### Lombardo Summoned From Paris in Effort to Heal Serious Breach Between Carranza and Villa Which Has Retarded Successful Campaign Against Federals.

Canadian Press Despatch. EL PASO, Tex., July 1.—Miguel Diaz Lombardo, constitutionalist representative at Paris, cabled today that he would leave at once for El Paso. This was taken here as indicating that he would act as an unofficial peace commissioner between Gen. Carranza and Gen. Villa in their yet unsettled estrangement. Lombardo was minister of public instruction in the cabinet of the late President Madero. He has been friendly with Gen. Villa since the Madero revolution, also is on good terms with Gen. Carranza, and is a close friend of Gen. Felipe Angeles, Carranza's deposed secretary of war, whose present relation with Villa has been credited as occasioning much of the ill-feeling between the two factions of the constitutionalists.

Breach is Wide. It was learned today that the proposed conference between Villa and representatives of Carranza is far from complete. Alfonso Madero, brother of the late president, Santos Guernero, the Peruvian poet, who has been active recently in Mexican affairs and Alberto Pani, one of Carranza's younger advisers, some days ago offered their services as mediators in the internal embroilment, it was said. As far as Carranza or Villa agents have learned, no definite plans are laid for an attempted adjustment.

In late afternoon time Villa's heretofore successful campaign with Mexico City as the ultimate goal, is delayed indefinitely. City in Darkness. Advice received by mail from Guadalupe said that the second largest city in Mexico was about to be attacked by Gen. Obregon's troops. The revolutionists, it was stated, had cut off the water supply of the city which aside from making water scarce had shut off the electric light and power. The city for days has been in darkness except for the use of candles.

From the eastern part of Mexico some reports that the attack on San Luis Potosi soon would be attempted by the troops under Gen. Pablo Gonzalez. Carranza's western division commander. Six thousand soldiers composing three brigades recently have left Saltillo. It was said, and within a few days will be investing the city. In the meantime, Villa's forces of the central division have remained idle, attempting no movement against Aguas Calientes on account of a lack of ammunition. Villa's men assert they are not assisted by the Carranza faction in their efforts to secure war munitions.

The Daily Mail asserts that Premier Asquith's attitude has undergone a modification, and that he now is ready to grant exclusion to Ulster by statute instead of by the ballot.

## CHINESE KILLS WESTERN MAN

### Restaurateur Offended at Threats of Victim and Shot After Uttering Warning.

Canadian Press Despatch. ESTEVAN, Sask., July 1.—George Bidler, farmer, was shot and killed last evening at Bromhead by Lee Han, Chinese restaurant proprietor. The Chinaman was arrested and appeared on preliminary trial before Magistrate Speers, who committed him for trial. Bidler had been drinking and threatened to clean out the place. Lee Han told him to stand off and backed toward the rear door to get out of the way of Bidler, who continued to advance, and as the Chinaman could not get out of his way, after warning Bidler he would shoot, he fired the shot. Threats were made to lynch the Chinaman and the police, to avoid trouble hurried to Estevan.

## King of Servia Ill.

VIENNA, July 1.—Prof. Francis Chyotek of the Vienna University, and a specialist for internal complaints, was summoned today to proceed to Servia to attend King Peter.

## ANARCHISTS' NET TIGHTLY DRAWN

### Elaborate Measures Taken to Ensure Murder of Archduke and Wife.

Canadian Press Despatch. VIENNA, July 1.—The conspiracy against the lives of Archduke Francis Ferdinand and the Duchess of Hohenberg was so well planned that it would have been impossible for them to escape from Bosnia alive, according to some members of the late archduke's suite, who returned here today. The officials declare that two clock-work bombs were found beneath the archducal party on their return to the city hall. A similar infernal machine also was discovered in the chimney of the room occupied by the Duchess of Hohenberg at Ilje, a watering place a few miles from Sarajevo and a woman was caught with seven bombs in her possession. The bullet which killed the archduke was an explosive one. It has been ascertained by the authorities that Gavria Princip, the assassin, is the son of the proprietor of an hotel at Sarajevo, and that he has passed his 20th year, so that he may be sentenced to death for the crime.

## ULSTERMEN TO RESIST EFFORT TO SEIZE ARMS

Canadian Press Despatch. LONDON, July 1.—Ulster volunteers have been notified, according to The Belfast Echo, that the time has arrived when, on order from their commanding officers, the men may carry arms openly, and that any attempt to seize the arms or the volunteers who may be carrying them in accordance with this order is to be resisted.

## CONCESSIONS BY ASQUITH LIKELY

### Ulster May Be Excluded by Statute—Agreement by Party Leaders is Probable.

Canadian Press Despatch. LONDON, Thursday, July 2.—The precise effect of the house of lords' proposed amendments to the government's amending bill will not be known until the home rule bill reaches the committee stage next week, but favorable omens are drawn by the London morning newspaper from the conciliatory tone of the speeches on both sides of the house of lords yesterday for a renewal of the negotiations between the party leaders, which it is believed will result in an agreement. The Daily Mail asserts that Premier Asquith's attitude has undergone a modification, and that he now is ready to grant exclusion to Ulster by statute instead of by the ballot.

## MARITIME LABORERS MEET AT FREDERICTON

Canadian Press Despatch. FREDERICTON, N.B., July 1.—The New Brunswick Federation of Labor convention opened this morning. President J. A. Sugrue of St. John presided and there were about 50 delegates from St. John, Moncton, Sackville and Fredericton, who filed their credentials during the morning. In the afternoon business sessions were commenced, with an attendance of about 125.

## FIFTY BRITONS LEAVE MEXICO CITY FOR COAST

Canadian Press Despatch. MEXICO CITY, July 1.—Fifty British residents, including 6 women and children, will leave the capital tomorrow for Vera Cruz. From that port they will proceed to Jamaica.

## RAILWAY MATTER WELL HANDLED, SAYS PERLEY

### Guaranteeing of Debentures of Canadian Northern and Grand Trunk Pacific Protects British Lenders—Canada Extolled as Field for Investment at London Dinner.

Canadian Associated Press Cable. LONDON, July 1.—Dominion Day was generally celebrated by the Canadian colony here. Hon. G. H. and Mrs. Perley gave a reception in the afternoon. The customary dinner in the evening was attended by about 500 guests. Mr. Perley presided and the principal guests were: Prince Alexander of Teck, Colonial Secretary Harcourt, Henri Bourassa, Sir Thomas Skinner, Lord Emmett and John Stanfield.

Premier's Message. The following cable from Sir Robert Borden, premier of Canada, was read. It said: "We can all congratulate each other very heartily on this forty-seventh anniversary of confederation that the progress of the Dominion in less than half a century's existence has been so splendid, so securely founded; pray assure the gathering also that the Canadian people are fully conscious of their responsibilities as possessors and trustees of a wonderful inheritance; are fully resolved to maintain their just part in maintaining the integrity of the empire."

Predicts Prosperity. Sir Charles Tupper wrote: "You will be able to give the most abundant assurances that the depression, which Canada feels for the moment in common with the rest of the world will soon pass away, to be followed by prosperity as unparalleled as she enjoyed for so many years."

Mr. Perley had a magnificent reception. In proposing the toast of the "Dominion" he opened his remarks with a graceful reference to the late Lord Strathcona, and passed on to review the general conditions in Canada. He claimed that the Dominion had passed through the period of depression as well as any other part of the world. He added: "Stands for Canadian Honesty. 'I stand up for Canadian business honesty and probity as being as great as anywhere in the world, but at the same time the investor should exercise his usual wise care and caution before deciding what he had better invest in. If you buy town lots in outside subdivisions or make purchases of oil shares, you are really entering into speculation rather than investment, and the country should not be blamed if it turns out wrong. (Cheers.)"

Railway Situation. "I am sure the manner in which the Borden Government has handled the railway situation must commend itself to investors here. When we came into office we found two great transcontinental railways under construction. Many people say that the Laurier Government would have been wiser to have encouraged the building of only one at a time. However this may be, the present government found that further assistance would be required. They looked carefully into the situation and parliament authorized the guarantee of the further \$45,000,000 debentures necessary to complete the Canadian Northern. It was felt that this road should be finished as soon as possible so that it would be of practical use to the people of Canada, also to protect the investors here who already put money into it.

"After many conferences with the Grand Trunk president legislation had been passed to provide a further guarantee of \$16,000,000. I mention these," said he, "to show that Canada has every confidence in her own future, every intention to carry out in good faith all her undertakings. (Cheers.)"

Answers Pessimists. "With regard to the future and pessimistic suggestions which I understand are put forward by some here, that our growth has been too rapid, I only wish that everyone could travel thru Canada and see the country for himself. Our immense natural resources are still there unaffected by any financial condition. There have been reports lately of lack of employment in Canada, but these reports are

(Continued on Page 2, Column 5.)

## COUNTESS OF CARLISLE BACKS NATIONALISTS

Canadian Press Despatch. LONDON, July 1.—Rosalind, Dowager Countess of Carlisle, has sent to John Redmond, leader of the Irish Nationalists, \$1,500 for the Nationalist Volunteer Fund. Accompanying the donation was a letter, in which the countess said: "Since the Conservative party is trying to overthrow the government by threats of civil war, it is high time that a force should be created to protect, if necessary, the rights secured to Ireland by the home rule bill."

## STUDENTS DEMONSTRATE AT SERBIAN LEGATION

Canadian Press Despatch. VIENNA, July 1.—Several hundred students renewed their demonstrations tonight against the Serbian legation, but were driven off by the gendarmes guarding the palace. The students then formed and marched to the emperor's palace in Ringstrasse, which they attempted to invade. This was prevented by a strong detachment of guards with fixed bayonets.

## ROWELL WILL ADDRESS EPWORTH LEAGUE RALLY

Canadian Press Despatch. BUFFALO, N. Y., July 1.—The ninth annual international convention of the Epworth League will be formally opened here tonight with a welcome meeting. Hundreds of delegates are arriving on every train and an attendance exceeding 10,000 is expected. Sessions of the convention will be held in three halls simultaneously and will continue thru Saturday when a patriotic rally with former Vice-President Charles W. Fairbanks and N. W. Rowell, M.L.A. of Toronto, as the principal speakers, will be held. Special religious services will be held on Sunday.

## MARTIAL LAW IS EXTENDED

### Serious Rioting in Bosnia and Herzegovina—Inquiry Into Assassinations Begins.

Canadian Press Despatch. SARAJEVO, July 1.—Martial law has been proclaimed at Tuzla and in these towns, where much Serbian property has been destroyed. The preliminary examination by a magistrate today into the assassination of the archduke and his wife, showed that it had been the intention of Princip to commit the deed at the time of the manoeuvres at Tarnai, but the attempt was abandoned owing to the strict military guard which prevented any outsider from approaching the archduke.

Princip gloried in his guilt. "I do not regret the deed," he said. "I had nothing to do with the bomb attack. When I heard the explosion I exclaimed: 'There are still people who feel and think as I do.' This strengthened my resolve still further."

There was rioting today also at Arevo and Gubelino, in the Stolac district, where Serbian churches were stormed and destroyed by Mussulman mobs. Martial law has been declared thruout Bosnia and Herzegovina.

### FIFTY THOUSAND RIFLES FOR REDMOND'S FORCES?

### ANOTHER FOR DELLO.

STRATHROY, Ont., July 1.—Jimmy Dello, the crack Toronto runner, added still another to his already long list of wins when he won the 10-mile marathon in connection with the Dominion Day celebration here today in 44 minutes and 15 seconds. Ernie Cook of Stratford was second.

## What He Thinks of The World.

Writing for a number of extra copies of The World, W. H. Ukers, editor of The Tea and Coffee Trade Journal, has this tribute to say of the Ad Convention special: "I want to take this opportunity to congratulate you upon this highly efficient manner in which you covered the 'Ad Men's Convention.' Your enterprise in this direction set a new high-water mark in modern journalism."

## Lords Are Eager to Make Terms To Prevent Civil War in Ireland Outlook Bright for Compromise

## BOURASSA RAPS CABLE TO TIMES FROM TORONTO CORRESPONDENT

Canadian Associated Press Cable. LONDON, July 1.—Henri Bourassa has a lengthy letter in today's Times, concerning a recent cable from The Times' Toronto correspondent in which he said: "The mass of active and aggressive Imperialists in Canada sympathize with Ulster. It is they who have kept the flag flying in North America." What category of Canadians is designated? asks Bourassa. Is it the group of financiers who waved the flag in their hands so brilliantly and successfully in the war against reciprocity? They, no doubt, know how to keep the flag flying so long as it protects their financial and industrial concerns.

## ASSASSIN GLAD HE MURDERED FIVE TRAPPED IN FIERY MINE

### Alleged Confession of Slayer of Austrian Archduke and Duchess, Blames No One Else.

Canadian Press Despatch. BELGRADE, July 1.—The newspaper As Usag publishes today what it declares to be the confession of Gavrio Princip, the assassin of Archduke Francis Ferdinand and the Duchess of Hohenberg. According to this statement Princip began to read Anarchistic works while he was a reservist with the colors, with the result that he became an Anarchist and formed a resolution to destroy one of the pillars of the Austro-Hungarian monarchy. When at Belgrade he read of the archduke's intended visit to Sarajevo, he decided to go there and try to kill him. He obtained a revolver and cartridges from a member of one of the revolutionary groups at Belgrade, who, however, he said, was ignorant of the purpose for which it was wanted.

He had at first intended to shoot the archduke as he was driving to the town hall, but decided to await his return. When he saw a woman with the archduke he hesitated for a moment, then fired, but could not tell what was the effect of his shot, because the people closed in on him and struck him. He concluded by saying: "I do not regret what I have done. I am indeed well satisfied because I have accomplished what I desired to do for a long time."

## FEW MISHAPS ON HOLIDAY

### Only Two Minor Accidents Reported to Police, Which Constitutes Record for Dominion Day.

Dominion Day, 1914, set up a new record yesterday in that it is the first in many years on which there were absolutely no accidents of any importance. Boasting accidents which are a frequent occurrence on the big holiday were possibly prevented by the threatening aspect of the weather in the early part of the afternoon which possibly caused many persons to remain at home. The police ambulance handled, but two minor accidents all day, one a lady, who sprained her ankle at Hanlan's Point, and another who thrust her arm thru a window at her home at 899 Colborne street, sustaining a slight cut on the wrist. Both were medically attended at the General Hospital and then removed to their homes.

Deceives posted at the baseball and lacrosse games on the lookout for "dips" and other criminals, could not even ascertain the theft of a postage stamp. It was a very orderly holiday.

### INSURGENTS CUT WIRES.

The cable companies today issued a notification that telegraphic communication in Albania has been interrupted by the cutting of the wires by the insurgents at many places in that country, such as Tirana, Elbasan, Kavaya and Shkial.

BARGAIN IN HOUSES—We offer you a pair of new, solid brick, 3-roomed houses in Danforth District. All conveniences, side drive. Will accept \$600 cash. Balance on easy terms. See us at once. This will not last long. TANNER & GATES, Realty Brokers, 25-27 Adelaide St. W. Main 5893.

## Marquis of Lansdowne Admitted Grave Doubt as to Whether Policy of Exclusion of Ulster Had Any Real Friends on Its Actual Merits—Second Reading of Home Rule Bill to be Followed by Series of Conferences.

Canadian Associated Press Cable. LONDON, Thursday, July 2.—It is doubt extremely whether the policy of exclusion on its merits has any real friends. This sentence towards the close of the Marquis of Lansdowne's speech in the lords' debate is regarded by today's papers as significant. The Daily News, one of the principal Liberal organs, says it encourages the idea that something deserving the title of settlement will be achieved. The Morning Post fully agrees with Lansdowne, owing to the futility of exclusion, but is still convinced that no amendments could ever make the bill acceptable to the Unionists, and declares their first duty will be to strike it off the statute book.

Lansdowne's speech was subsequently keenly discussed by members of both houses. Says The Standard's lobby correspondent. Although Lord Marley on behalf of the government gave little hope of peace, Lansdowne's subsequent statement was marked by a moderately conciliatory spirit, and certainly in the estimation of a majority formed a notable contribution towards pacific settlement. The Unionist leader in the lords was careful even at this late hour to leave open the door to negotiations. It will come as a surprise to most if the leaders do not confer with one another shortly after the committee stage of the amending bill is completed in the upper house.

## WILL INTRODUCE AMENDMENTS

Canadian Press Despatch. LONDON, July 1.—When the bill to amend the Irish home rule bill came up today for the second reading in the house of lords, the Marquis of Lansdowne, the Unionist leader, announced that as Ireland was one vast armed camp, it was necessary to find a way out of the calamity which was threatening. The Unionists, therefore, he said, would give the amending bill a second reading and introduce amendments during the committee stage in regard to the area to be excluded from the operations of the home rule bill, the duration of the exclusion and the government of the excluded area.

The Unionists, he concluded, would not agree to the second reading of the home rule bill itself.

## Must Avert Civil War.

Lord Lansdowne added that their action in passing the second reading of the amending bill would be misunderstood and misrepresented in many quarters, but there was no other way by which breathing space could be obtained, with the prospects of averting the horrors of civil war. The amendments to be introduced in the committee stage would be directed solely to making the bill a really adequate exclusion bill.

With a touch of pathos, he said: "The peers are so fast bound by the meshes of the Parliament Act that there is no other course open to them which would be likely to prove effective."

"Die Harder" Faw. Most of the other speakers were equally conciliatory in tone. A notable exception was Lord Willoughby de Broke, the leader of the "die harders," who moved the rejection of the bill.

The Archbishop of York said that what the country wanted now was not the rejection of the bill but a settlement in some form. Irish self-government, he declared, was now inevitable. The Earl of Arran announced that he could not vote for the second reading, because it would be in violation of the oath of the Ulster Covenanters. Lord Bryce, in the course of the debate, expressed the belief that the difficulties could be surmounted. He admitted that some form of exclusion was necessary, but declared that he did not attach much importance to the time limit.

## CITY COUNCIL MEETS TODAY.

Both the city council and the Toronto Hydro Commission meet this afternoon. The council will resume business where it was dropped on Tuesday and the hydro commission will take up "general business," the popular interpretation of which term is now accepted as a rate reduction.

Shapes; high or medium \$3.00 hats. Maple Leaf 1.45 and split brims; curling leather sweatbands. .85 manufacture, soft, pliable and tapes. Thursday, for 3.75

## Peter's Adventures in Matrimony

By LEONA DALRYMPLE  
Author of the new novel, "Diane of the Green Van," awarded a prize of \$10,000 by Ida M. Tarbell and S. S. McClure as judges.

The truth about "the girl in the case" distinguishes this new series by Miss Dalrymple. Her character studies will not appear unfamiliar to the majority of readers, who will follow the fortunes of "Peter" with interest.

No. 111  
Economy and Locality.

How many times Mary and I discussed economy, how many times we quarrelled about it, and how many times it worried me could certainly not be counted upon one's fingers and toes. Theoretically, at least, we did a great deal of economizing—practically, we did none at all.

For the life of me I could not figure out why it cost so much more to live in this new apartment of ours than it had in the old—outside, of course, the \$15 difference in rent, but even our table expenses seemed lighter. Does the air in this elite section of the town make us both any happier?

The Mystery of the Bills.  
"We've never before lived so extravagantly," I retorted. "This living in a fashionable locality has had a mysterious effect upon all our bills. For one thing, the grocer's bill is a great deal lighter than it ought to be, and there is in addition a caterer's bill that would tangle a millionaire. Does the air in this elite section of the town make us both any happier?"

## Advice to Girls

By ANNIE LAURIE

Dear Annie Laurie:  
I have always read your advice to young people; it always seems the right thing to do, but I have often wondered if it was a farce or really true, and now I have finally decided to write.

## As a Clown Sees Us

By Harry La Pearl

It is lots of fun to watch the big crowds that throng the circus, or any huge amusement place. Just as soon as they get within the doors they all grow younger except the children, and they become just a wee bit older.

## No Longer Orthodox

"Is your new minister thoroughly orthodox?"

"Hardly. He says he does not regard himself as a fire escape."

## CONVERSATIONAL EMERGENCY SHELVES

Secrets of Health and Happiness

## Why Pain Is a Boon; What It Teaches You

By Dr. LEONARD KEENE HIRSBERG  
A. B., M. A., M. D. (Johns Hopkins).

PAIN is one of the most useful of all human sensations. Were it not for this capacity resident in living tissues there would be little or no life on earth.

Ah, happy hills! ah, pleasing shade! Ah, fields beloved in vain! Where once my careless childhood strayed, A stranger yet to pain!

Happily, pain is no longer pain when it is past. There is nothing more helpful, yet irritating, and nothing so quickly forgotten, which leaves so many benefits behind.

Where Pain Occurs.  
Sensibility to pain differs in degree in various areas of the skin as well as in different people. A nerve may be stimulated by pressure on or closing the canal within the skin to the brain, and if such stimulation be sufficient pain will be localized either at or in the neighborhood of the end of that nerve.

Answers to Health Questions  
L. M.—Have had sensation like escaping steam in ear for one or two days. What causes it, and can it be stopped?

Your tonsils, nose, adenoids and mouth should be looked after by the most attentive, interested and patient throat surgeon you can find. He may discover the cause and remove it.

Your blood pressure may be too high, your thyroid or other tissues too active. Take a hot mustard foot-bath and jump into bed, and eat only a pound of food in the day. Do not eat after 6 o'clock.

1.—Highly seasoned foods, injuries, infections, chronic worry and glutinous diet are among the causes. 2.—It does not directly affect the heart. Nervous palpitation may occur in association with it. 3.—Large amounts of sodium bicarbonate or small amounts of acids. Lactic acid bacilli, charcoal, magnesium oxide, calcium chloride, and "near-goat diet."

Dr. Eiseberg will answer questions for readers of this paper on medical, hygienic and surgical matters that are of general interest. He will not undertake to prescribe or offer advice for individual cases. Where the substance of general interest letters will be answered personally if a stamped and addressed envelope is enclosed. Address all inquiries to Dr. L. K. Eiseberg, care this office.

## How One Girl Won Fame for Cleverness

By Eleanor Ames

Did you ever find yourself seated at a dinner table without an idea in your head and your tongue cleaving to the roof of your mouth, when you struggled with all your mental energy to make some fairly appropriate utterance?

Margery Pearson, who has a wise and as pretty head on her graceful young shoulders, says it is because we depend too much upon our own resources and fail to take advantage of all the wisdom of the ages and the great minds with which we are surrounded.

I confess it sounded like a scheme of prayer and plagiarism, but it turned out to be a sensible plan of having an emergency shelf in your mind for unexpected occasions. Just as the wise housekeeper has one in her pantry for uninvited company.

## The Servant Route to Honors

By Winifred Black

The rich girl isn't going to be a trained nurse after all. She tried it for three weeks, and she said, "There's too much drudgery about it." "I wanted to be a nurse," said the rich girl yesterday to a newspaper reporter who was asking her about it, "because I thought I could aid suffering humanity."

"I have been at the hospital for some weeks now and I find that three-fourths of my time was taken up in dusting, sweeping and making beds." "And yesterday the doctor made me go to work and clean up a whole linen closet—just because he didn't like the way the sheets were arranged. If I'm going to do everyday housework, I might as well go home and do it in my own house."

## A Nurse's Qualities.

The first requisite of a good trained nurse is patience, and the next is obedience, and the next is attention to details. I'm afraid the rich girl has shown very plainly that she possesses not a single one of these most essential qualities.

## Tried and Found Wanting.

It wasn't your linen closet that was under the test, my poor little Rich Girl. It was you, and you didn't even guess at it.

Weighed in the balance and found wanting—that was the verdict the doctor found in your case, poor little Rich Girl. And not all the dollars in all your father's bank can alter that doctor's opinion of you and your fitness for the high and holy calling of a nurse.

If for ever there was a high and holy calling it is the profession of nursing. You won't do, poor little Miss Rich Girl, you won't do, little doll. It takes a woman to do a woman's work in a world that is not made for women.

## Three Minute Journeys

Where Men Play "Catch" Like Women

By TEMPLE MANNING

TWO hundred and forty miles from Mecca, the place of pilgrimage of all true believers in the Mohammedan faith, is a town of nearly equal religious reverence—Medina. Here rests the body of Mohammed in a marble-paved mosque, whose entire surface is covered with costly praying rugs.

When the dinner was over and the young novice was helping to wash the dishes and listening to the stories of the wit and eloquence of the guest from the others in the kitchen who had heard a few choice sallies—through the kitchen door—a telegram came to the convent. It was from a distinguished body of statesmen then in convention assembled close by, and they asked for the honor of the young novice's presence as chaplain to their meeting.

The priest who told me this story laughed when he told it. He said it took him almost six months to learn to laugh about it.

Encamped near the village of Gubina, close by the caravan route, whose hopelessly less merchandise we could hear rattling in the night, the plecterized camels and the growing numbers of our 600 pilgrims made a picturesque sight. The leader of our company, a Bedouin sheik, who had taken a liking to me, was sitting beneath my tree. Quite suddenly he glanced up and spoke rapidly to his men, who left us alone, and then he turned to me. Without warning he tossed a small tobacco pouch toward me and called: "Catch it!"

In other words, I was not to be permitted to go to Medina. I protested, and my captors threatened me; then the sheik came and spoke to me. He told me, more in laughter than in anger, that he had found me out, and he told me how he had made the discovery. If he had permitted me to go further, my life would probably have been forfeited by my ignorance. As it was, I went back along the desert, having been rescued by my ignorance. As it was, I have said, I brought my legs sharply together. I did not know what a mistake I had made until later.

I Was Found Out.

The Toronto World

FOUNDED 1880. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited; H. J. Maclean, Managing Director.

WORLD BUILDING, TORONTO, NO. 40 WEST RICHMOND STREET. Telephone Calls: Main 5308—Private Exchange connecting all departments. Branch Office—15 Main Street East, Hamilton.

It will prevent delay if letters containing "subscriptions," "orders for papers," "complaints," etc., are addressed to the Circulation Department.

The World is delivered before 7 o'clock a.m. in any part of the city or suburbs. World subscribers are invited to advise the circulation department in case of late or irregular delivery.

THURSDAY MORNING, JULY 2.

A HUMAN VOLCANO.

The assassination in Bosnia of the crown prince and wife of Austria; the recent Balkan war with its awful destruction of life and property; the crowding of Turkey out of Europe; the threat of Greece to make a fresh attack on the Sultan; the slender tie between the German and Hungarian peoples who make up the united kingdom; the approaching end of the reign of Francis Joseph; the series of domestic tragedies that have made the long life of that monarch unique in history; a thousand other things would seem to point to some kind of great upheaval in that mixed and teeming and badly governed area known as southeastern Europe.

VILLA—WILSON—HUERTA.

is the president of the United States wedged in between the two irregular and bloody claimants to the government of Mexico? If so, the situation is not a cheerful one for the people of the United States to look upon.

OPPOSITION ADHERENTS.

There is some hope for the Ontario opposition in the advent of so many new faces in the legislature to the left of the Speaker. A good deal of stress is being laid on Major Tomlin, who defeated Hon. J. O. Reame in Windsor, and who has decided to abandon his clerical prefix. He is one of the younger generation also and takes the young man's view of things, which is a virtue everybody outside The Globe will appreciate.

EXIT POSTOFFICE SQUARE.

While no one likes to think that the city council has a preference for policies that are cheap and nasty, it is clear that the aldermen are no better in 1914 than in previous years when it comes to making improvements in the appearance of the central part of the city.

THE LIVE STOCK SHOW.

When the city undertook the support of the Winter Live Stock Show last year it was inevitable that a fair trial should be given to the enterprise. The arguments that are being used at the present time against the show are not at all different from those used last year, when they should have been effective if at all. It is quite illogical to listen now to reasons which have

HOME BANK'S ANNUAL MEETING

Director Points Out Necessity of Helping Western Farmers.

The annual meeting of the Home Bank of Canada, held on Tuesday afternoon, June 30, brings to close the 14th of financial statements of the various banks for 1913. The Home Bank report shows that the bank's operations for the year were not so great as the first occasion as it will be with the greater publicity that attends a second exhibition, and the public will undoubtedly give it greater attention this year than they did last. It was the finest show of the kind that was ever held in Canada, and this is the opinion of well qualified judges.

RADIUM AS A FERTILIZER.

Still another use has been found for radium, that mysterious element whose properties are now under investigation by scientists in all parts of the civilized world. From information supplied by the deputy consul-general of the United States in London to the department of commerce at Washington it appears that experiments have been in progress at Crofton for the purpose of ascertaining what effect radium exerts on plant growth. So favorable are the first results that it is quite possible that radium may become one of the most valuable agencies in the improvement of crops. This it does not so much directly as thru its destructive influence on adverse soil organisms that retard or impede proper development.

What promises to bring radium into general use, should these experiments be confirmed, is the very small quantity required. The best results are said to be obtained from only about one seven-hundredth part of a grain of radium to one ton of soil. This renders it possible to utilize the residues left after radium has been extracted, since a minute amount remains on them. When these residues, of comparatively little value, are mixed with the soil, wheat and barley grow with great rapidity, but the most decisive results have been obtained from radishes and carrots. In some cases these have been nearly six times as heavy as when grown under ordinary conditions. Once incorporated with the soil, radium particles will remain constant in effect for hundreds of years.

THE AGRICULTURAL GAZETTE OF CANADA.

Much valuable information is contained in the June number of The Agricultural Gazette of Canada, issued by the Dominion Department of Agriculture. This monthly magazine, now in its sixth issue, promises to be the least important of the means adopted to assist the farmer and stock raiser. It covers not only the Dominion but also the provincial departments, calls attention to all new legislative enactments and all the latest experimental work and contains various special contributions, reports of agricultural organizations, reviews of books on agriculture and rural subjects and notes of general interest.

What is perhaps most noticeable in this issue of The Gazette is the increasing attention being given to early and systematic instruction in scientific agriculture. In May last the president of the United States assented to the Smith-Lever bill, which in many ways corresponds to the Agricultural Instruction Act now operative in the Canadian provinces. Of interest, too, is the communication from one of the field instructors of New Zealand, describing the methods employed to direct the attention of the high schools towards agriculture and kindred pursuits. New Zealand has developed remarkably as a food exporting country and has been successful in its efforts to engage the interest of young students.

A BIG AND BARLESS HOTEL.

Editor World: There is a lot in what you said yesterday, and I believe it is temperance people of Toronto, of all Ontario, ought to start the best and biggest hotel in this city without a license. Such a hotel ought to carry at least five rooms each with bath and right in the business heart of the city. It would pay and it would do more than anything else for the cause they have at heart. Some day some people will go to the best hotel just because it has no license.

NEW TRAIN SERVICE CANADIAN PACIFIC LAKE SHORE LINE.

Trains are now operated between Toronto, Whitby, Port Hope, Cobourg, Belleville, Ottawa and intermediate stations over C.P.R. new Lake Shore line as follows: Train No. 28 leave Toronto 8:05 a.m., arrive Cobourg 10:35 a.m., Belleville 11:55 a.m., Ottawa 4:50 p.m., and train No. 37 leave Ottawa 10 a.m., arrive Belleville 2:54 p.m., Cobourg 4:19 p.m., and arrive Toronto 6:50 p.m. daily, except Sunday, carrying cafe coach and parlor car. Train for Belleville and intermediate points will leave Toronto 6:30 a.m., arriving Belleville 10:25 p.m., and returning, leave Belleville 7 a.m., arrive Toronto 11 a.m., carrying parlor car. For further particulars apply any C.P.R. ticket agent.

HORSE MUST GO.

The department of agriculture states that the farm horse averages about three and one-half hours of work a day the year round, and he eats fodder steadily. The electric motor, on the other hand, consumes energy only when it is in operation.

COCKNEY SLANG.

The London dustman's slang name for articles of value found in dustbins is "lots," while "sparrows" is the name for gratuities.

WHAT THEY ARE SAYING

The press comments upon the election are in accord upon the proposition that the banish-the-bar issue did not perceptibly affect the result. They agree that the people simply declined to vote on provincial-wide prohibition in this way. The Liberal newspapers show no bitterness and but little surprise, and nowhere is to be found any complaint of Mr. Rowell's picturesque if unsuccessful campaign. His lack of chance, as Napoleon took a chance when he returned from Elba, but if the result was disappointing he did something at least to stir up the party, which provincially has been in a slough of despond since the overthrow of the Ross Government in January, 1905. That is the view of The Montreal Gazette (Con.), which says:

The election of a new legislature in Ontario yesterday showed results less favorable to the Liberal opposition than had been anticipated, assuming the party of Mr. Rowell still retains its vigor as in the latter years of its power at Toronto. As leader Mr. Rowell has shown a certain amount of adaptability. What was done before 1904, when Sir George Ross, Mr. George P. Graham, of Brockville, Mr. Alexander Mackay of North Grey and Mr. J. R. Stratton of Peterboro were doing their best to carry the party to power in office when opposition was all against them, still weighs upon the organization, however, and that is the reason that can be said for Mr. Rowell may be that he is getting the Liberal party on its feet again.

That the party will have to drop the abolition of the bar as its one cardinal principle is a sad political reality, unless, perhaps, The Toronto Globe. But Mr. Rowell can still maintain a temperate question, which is a much wider platform. He had demonstrated by experiment that the province could accept the result of the experiment without rancour, but without evasion, and we are told:

The result of the election is simply that things really went pretty nearly as they were. The Conservatives suffered a few losses in the new assembly, but the government is confirmed in office by a substantial majority. The point that did the abolition of the bar play in the result? The complete answer cannot be given until the total popular vote is available for analysis. There is some evidence of temperance activity in reduced minorities here and there, but the effect on the representation in the legislature, and it is the representation that counts, is negligible. A large number of clergymen all over the province have intimated their willingness to support a measure of closing the bar. Five clergymen appealed to the electors as candidates, and one was elected. The Rev. J. C. Toimie, who was elected for Windsor, it must be remembered, is a member of the Liberal party, and that there were two Conservative candidates.

BUS SYSTEM FOR TORONTO.

To the Mayor and Council.—Before letting this question go to the people for a vote careful investigation should be made so that the voters will have some idea as to whether there is the slightest chance of such an experiment paying running expenses, or whether it is likely to be another very costly experiment. Having made some investigations along this line, I gravely question the advisability of submitting the question to Toronto at the following reasons: Bus systems have proved a most unprofitable investment wherever they have been started. In London, where the land itself, after ten or twelve years' operations, it is only within the last two years after many failures, reorganizations and other things, that they have begun to get small returns on their investment. New York and Philadelphia have tried buses repeatedly without success. The companies being in the hands of the receivers most of the time they were in operation. The existing New York system is obliged to charge 10 cents per passenger and cannot make any money.

In face of these facts, how can Toronto expect to operate buses except at an immense loss? London has an immensely larger population to draw upon; no electric surface cars in the downtown section; labor at 40 to 50 per cent. lower than Toronto; can purchase its equipment in vehicles and goods at a 50 per cent. less than they would cost in Toronto; its cost of up-keep and repairs would be 50 per cent. less than such would cost here. London has no snow problem to contend with in winter, which would increase the cost of the bus system. Toronto is a city of at least four months in the year, and in addition, London fare rates would give greater returns per car mile than those in Toronto. London they get two cents per each mile, while in Toronto most of the fare would be lost during the three to five miles on a five-cent basis.

Couple these facts with the higher cost of municipal operation for at least the first three years and you will see the wisdom of a thorough, instead of a superficial investigation of the bus question. There is no doubt that the new districts of the city are heavily handicapped for the want of a good car service. There is no doubt, then, that the shareholders of the Toronto Street Railway Company, in view of their poor prospects upon the expiration of their present franchise, would probably give us 35 per cent. rates, and at least as good a service as they would ultimately get under civic management. Cleveland's success along this line is well worth investigation.

HERE AND THERE

In the spring and summer seasons the many insect pests do their most destructive work and increase the already high cost of living. Already the young apples are beginning to fall off the trees in great numbers. This is because the codling moth laid its eggs in the apple blossoms, the eggs hatched, and the young worms ate their way through the apple and destroyed it. The codling moth costs over \$2,500,000 a year for spraying and destroying the insects that injure the trees cost the nation \$100,000,000 a year, and besides, there are many other insects, army worms, wire worms, leaf hoppers and others that do a great deal of damage to our crops and property. And yet there are, as Dr. W. C. Hornaday points out, about five million men and boys who are slaughtering the birds, which are the most efficient agencies we have in eating and destroying the injurious insects. Many states have laws protecting insectivorous birds, and the federal government is aiding them in their efforts, but the slaughter of useful birds, and the destruction of all insect-eating shore birds ought to be stopped peremptorily. In this everybody can help. If the boys and girls can do a great deal.

WHAT THEY ARE SAYING

The press comments upon the election are in accord upon the proposition that the banish-the-bar issue did not perceptibly affect the result. They agree that the people simply declined to vote on provincial-wide prohibition in this way. The Liberal newspapers show no bitterness and but little surprise, and nowhere is to be found any complaint of Mr. Rowell's picturesque if unsuccessful campaign. His lack of chance, as Napoleon took a chance when he returned from Elba, but if the result was disappointing he did something at least to stir up the party, which provincially has been in a slough of despond since the overthrow of the Ross Government in January, 1905. That is the view of The Montreal Gazette (Con.), which says:

The election of a new legislature in Ontario yesterday showed results less favorable to the Liberal opposition than had been anticipated, assuming the party of Mr. Rowell still retains its vigor as in the latter years of its power at Toronto. As leader Mr. Rowell has shown a certain amount of adaptability. What was done before 1904, when Sir George Ross, Mr. George P. Graham, of Brockville, Mr. Alexander Mackay of North Grey and Mr. J. R. Stratton of Peterboro were doing their best to carry the party to power in office when opposition was all against them, still weighs upon the organization, however, and that is the reason that can be said for Mr. Rowell may be that he is getting the Liberal party on its feet again.

That the party will have to drop the abolition of the bar as its one cardinal principle is a sad political reality, unless, perhaps, The Toronto Globe. But Mr. Rowell can still maintain a temperate question, which is a much wider platform. He had demonstrated by experiment that the province could accept the result of the experiment without rancour, but without evasion, and we are told:

The result of the election is simply that things really went pretty nearly as they were. The Conservatives suffered a few losses in the new assembly, but the government is confirmed in office by a substantial majority. The point that did the abolition of the bar play in the result? The complete answer cannot be given until the total popular vote is available for analysis. There is some evidence of temperance activity in reduced minorities here and there, but the effect on the representation in the legislature, and it is the representation that counts, is negligible. A large number of clergymen all over the province have intimated their willingness to support a measure of closing the bar. Five clergymen appealed to the electors as candidates, and one was elected. The Rev. J. C. Toimie, who was elected for Windsor, it must be remembered, is a member of the Liberal party, and that there were two Conservative candidates.

From the information available it must be concluded that there was no notable rallying of the temperance forces in response to the abolition of the bar. Looking at the situation purely from a party point of view, it would seem that the Liberal party had the best of the election. The bilingual issue apparently did not help Mr. Rowell much in Russell County. The Liberal majority dropped a thousand, but the Conservative-French-Canadian vote undoubtedly went to the Liberals on the bilingual issue.

The Ottawa Free Press bids the banish-the-bar issue, as follows: "Not for many years probably will there be another attempt to introduce provincial-wide prohibition in Ontario. Mr. N. W. Rowell, leader of the Liberal party in the province, has fulfilled his pledge. Yesterday he gave the people of the province a straight answer, saying whether they were in favor of the immediate abolition of all hotels and club licenses, and the removal of the three-fold obstacle to the elimination by local option of the liquor shops. The answer was in the affirmative, as indicated by the composition of the new legislature, is that they are content with the present liquor laws and with the machinery provided for the gradual elimination of licenses by separate municipalities on a 50 per cent. vote.

The Winnipeg Free Press makes haste to assure the untortured Liberals:

AND HE DID

I HAVE A FEW FRIENDS COMING IN TONIGHT. I'LL SING FOR THEM!

SANDERSON'S Scotch Mountain Dew. POSITIVELY THE FINEST WHISKY IMPORTED.

WHAT THEY ARE SAYING

people as the banish-the-bar policy. The Kingston Standard says: "Two things stand out clearly as a result of yesterday's provincial election—one, that the people of the province prefer real temperance to political temperance, are not willing to allow themselves to be deluded by any false cry against a government that has done so much for temperance in the truest sense of the word; and second, seriously to an English province and that the party that truckles to the French-Canadian element, as Mr. Rowell certainly did, must pay the penalty thru the loss of English votes. It is manifest that it was only due to this trucking that Mr. Rowell gained the two Ottawa and two Essex seats; but to think as to his other bilingual followers, he is welcome.

It is much to be doubted if Mr. Rowell owes his two seats in Ottawa to the "trucking" above referred to. Ottawa is divided by the Rideau Canal and the French-Canadian population in West Ottawa is negligible. In East Ottawa the Conservative candidate, Napoleon Champagne, is quite prepared to go any length in support of the demands of his compatriots. The Ottawa Press Press (Lib.) thinks that the temperance issue cut quite a figure in Ottawa West, and that the small French vote in that district made them the sole for the French candidate upon the bilingual issue. The result was more likely due to the great influence of The Ottawa Citizen, which is a Conservative paper, supported Mr. Rowell in the late campaign.

The Citizen congratulates the people of Ottawa upon their splendid independence in defying the temptations, but the fact is that Ottawa has had long-standing complaints against the party government. The city has had great difficulty in getting necessary legislation and some exactions of the government respecting a bill petitioned for in a petition of years ago brought forth protests from all over the province. The city's request for a more up-to-date assessment law was somewhat brusquely disregarded and the provincial government has interfered just enough with the terrible policy to make it apparently forever hopeless.

The Citizen having won its fight and rather put one over the Toronto government, it is not surprising that the defeated Conservative candidates should be taken care of, and we read:

Messrs. Ellis and Champagne, the defeated local candidates in yesterday's election, are illustrations of the unhappy fate of politicians who have to follow the party leaders even when the issue is an unpopular one in their particular constituency. Both candidates put up as good a fight as any candidates could—better perhaps than could any other available ones, but they were defeated by comparatively little known men who stood for progress. Both have been in the forefront of battles for many years, and in consequence are deserving of the usual party recognition.

Mr. Ellis, with his municipal electric experience, would seem to be well fitted to fill a responsible executive position in the Ontario hydro-electric at Toronto, or one of the assistant deputy-ministers at Ottawa.

Mr. Champagne should receive one of the vacant senatorships for Eastern Ontario. He is a man of high character, and his Conservative party wishes to hold its French-Canadian following in Ontario it would seem to be necessary to have a senator of Mr. Champagne's eloquence and persistence to offset the activities of Senator Belscourt in the Liberal interest.

The bilingual issue apparently did not help Mr. Rowell much in Russell County. The Liberal majority dropped a thousand, but the Conservative-French-Canadian vote undoubtedly went to the Liberals on the bilingual issue.

desire to separate themselves from their usual environment during their vacation, but few people but will want to know what is going on in the world beyond their view. The Toronto Daily and Sunday World will supply the following blank form and have the brightest and best newspaper your daily visitor.

of Manitoba that the issue before that province on the 10th inst. is not the banish-the-bar issue as we have it in Ontario, and says: "It is inevitable that an analogy should be drawn between the Ontario and the Manitoba cases. There are, of course, certain points of resemblance, but the conditions are by no means parallel. Thus, Mr. Rowell is making his campaign on a straight proposition to banish the bar by direct legislative action immediately after entering office. In Manitoba the Liberal party is to submit directly to the people a measure providing for the abolition of the bar, leaving it to the people to decide whether the bill is to become law or not. There is a difference between the positions. We think that the Manitoba Liberals is the more politic and better, not only for the party, but for the country as well.

New York Stock Talk

Compiled in New York Especially for The Toronto World

NEW YORK, July 1.—Interest in the financial district today centred in the disbursement by the banks of over \$244,000,000 in dividends and interest and other developments marking the beginning of a new fiscal year, and movements on the stock exchange were, therefore, of secondary importance.

DODD'S KIDNEY PILLS. WIRELESS TELEPHONY. The London Times reports that on March 29 a tenor singing in a concert at Laeken, near Brussels, was heard by wireless telephony on the Eiffel Tower in Paris. The distance between the two places is 235 miles. Use was made in this experiment of a new microphone invented by the Italian engineer, Marconi.

BOB DIBBLE WINS HIS HEAT AT ROYAL HEVLEY HAD THREE LENGTHS OVER LONDON SCULLER

DIBBLE, BY THREE LENGTHS, WINS HIS HEAT IN DIAMOND SCULLS

Toronto Boy Had Easy Time Against Scrutton - England's Hope is Out - Ayer of Boston a Winner.

HENLEY-ON-THAMES, July 1.—Robert Dibble, under the colors of the Don R.C. of Toronto, and James B. Ayer of Boston, today won their preliminary heats for the Diamond Sculls in the boys' regatta. Both men pulled a strong...

The American contests will be bunched. Ayer rows Sinigaglia at 12.10 o'clock. Boston will meet London at 11.40, and Harvard and Leander at 12.40.

The Harvard men are boated exactly as when they rowed last year. They are now in the hands of the regatta committee...

The river near the shores was crowded with houseboats and launches, occupied by officers of the "crack" regiments, and prominent society people...

The day's program was largely taken up with the preliminary heats of the Diamond Sculls, in which there were a number of scullers from across the Atlantic.

The entire total of seven crews and scullers, which is up to the usual average, altho this year shows a scarcity of four-oar crews and only a small representation of the Oxford colleges.

There is an entry of sixteen for the Diamond Sculls, but if we take, say, Dibble, the Canadian, as a standard on his present form we can neglect at least...

ROSEDALES SWAMP CORNWALL OUTFIT

N. L. U. Fixture in Factory Town is Easy for Toronto Squad.

CORNWALL, Ont., July 1.—(Special.)—The Dominion Day attraction at the lakeside grounds here today was a N.L.U. match between Rosedale of Toronto and the Cornwalls. A crowd of about 2000 was present, and while they did not see...

The last period gave Fred Thompson's boys five goals and Cornwall one, and the game finished 1-5 for the visitors. The visitors gave a wonderful exhibition of swift, accurate combination, and to describe the team one might almost do so in the single word "Superb."

The Rosedale goals were scored by Barnett and Bennett, each with a free kick; Murton, Kalks, T. Fitzgerald and Gordon, each with a free kick; and Gordon with a free kick. The Cornwall goals were scored by George Penny, J. J. Penny, Phelan, Anderson and Ransom one each.

RIVERDALE BEATEN ONE RUN AT GALT In Exciting and Closely-Played Cricket Exhibition - Toronto Today.

GALT, Ont., July 1.—(Special.)—The Galt cricket club today entertained the Riverdale club of Toronto to an all-day day of cricket in the Galt grounds. The visitors were the winners of a most exciting and closely-played match by a single run, 130 to 129.

Riverdale batted first and was put out with the small score of 38. E. Raven of the visitors, was the only man to reach double figures. Labrook for Galt, batted second, taking 8 wickets for 10 runs.

Table with columns: Club, Won, Lost, Pct. Rows include Stratford, Galt, etc.

SOUTH POLE COAL

The importance of the coal discovery made by Sir Ernest Shackleton at the South Pole is not generally appreciated.

DOUBLE WIN FOR HUSTLERS HIT LEAF PITCHERS HARD

Bunny Hearn Given Real Lacing in Morning Fixture and Herbert Weakened Late in the Afternoon Game, and Ganzelites Scored a Shut-Out.

What the visiting Hustlers didn't do to the poor Leafs yesterday wasn't worth a mention. After trouncing them in the morning game to the tune of 13 to 4, Johnny Ganzel's outfit turned around in the afternoon and handed them a shut-out, 5 to 0.

Nobody who saw those games yesterday will doubt us for a moment when we say that the Hustlers were the present season's best team in this respect.

Until the eighth innings the afternoon game was a real battle and apparently anybody's game. In the fourth the Hustlers counted their first on Shultz's sacrifice to Sullivan.

The morning game was a horrible nightmare for the Leaf twirlers, the Hustlers counted three of them at will. Pipp, who was the star of the game, was the first to go down.

The excitement proffered by the Leafs was the ninth when, with Willson adorning the middle station, Jordan scored into the bleachers for a home run.

Table with columns: Club, Won, Lost, Pct. Rows include Toronto, Montreal, etc.

ENGLISH SPOKEN IN JAP SCHOOLS

Five hundred teachers of English gathered recently in Tokyo for their second conference in the history of the subject. Of the total, about five per cent are English and the remainder are American men and women.

Table with columns: Club, Won, Lost, Pct. Rows include Toronto, Montreal, etc.

WAGNER AND ROCHESTER TODAY

The final game with Rochester will be played this afternoon at the island. The game will be called by Walter Wagner who has won his last three games, will pitch for the Leafs.

REDS ARE ALLOWED ONE HIT BY CHENEY

Cub Pitcher in Great Form and Cincinnati is Shut Out.

CHICAGO, July 1.—Larry Cheney held Cincinnati to one hit today, while his teammates bombarded the Reds for two runs and one inning, shutting out the visitors 7 to 0.

Table with columns: Club, Won, Lost, Pct. Rows include Chicago, Cincinnati, etc.

Talk From Bench Causes Trouble

ST. LOUIS, July 1.—Casey Hageman pitched his first full game for St. Louis today and won from Pittsburgh 5 to 1.

Table with columns: Club, Won, Lost, Pct. Rows include St. Louis, Pittsburgh, etc.

CASTAWAY SAILOR TOLD PITEOUS TALE

When the steamer Banca, arriving at Bombay recently after a voyage to the Persian Gulf, was rescued by the British navy, the captain told a tale of woe.

Torontos Defeat the Indians In Whirlwind Game at Beach

TORONTO'S GREAT TURNED TABLES ON INDIANS Lightning Fast Play in Final Moments Stalled Off the Red Shirts, and Beach-rites Came Thru and Won A Pretty Battle.

Torontos came back strong yesterday afternoon at the beach when they beat the Indians by the score of 8 to 6. The blue shirts showed surprising good form while the red shirts were equally good but did not get the breaks. The game was one of the fastest that have been seen in Toronto this season and never for one moment did the teams let up on their struggle.

Yankees was the cry of the Beach-rites, and they got it good and proper. They kept the red shirts hammering away one goal behind the goal line. The game was very hot and the players were very tired. The Indians were very strong and the game was very close.

The weather was threatening and it affected the crowd. The game was very close and the players were very tired. The Indians were very strong and the game was very close.

The Indians pressed from the start and Allman pulled off some real clever work in the field. The game was very close and the players were very tired. The Indians were very strong and the game was very close.

Only some 400 of the famous forest of cedars of Lebanon remain, and they have been enclosed by a stone wall in order to protect the smaller trees from the ever hungry mountain goat. The cedars stand on a small plateau at an elevation of 8000 feet.

Analysis of our edible weeds shows that they possess powerful medicinal qualities. The dandelion, for example, is a purgative, and is a diuretic. It is also a good source of iron.
