## Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- Coloured covers / Couverture de couleur
- Covers damaged / Couverture endommagée
- Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- Cover title missing / Le titre de couverture manque
- Coloured maps / Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- Bound with other material / Relié avec d'autres documents
- Only edition available / Seule édition disponible
- Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- Additional comments / Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured pages / Pages de couleur
- Pages damaged / Pages endommagées
- Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed / Pages décolorées, tachetées ou pliquées
- Pages detached / Pages détachées
- Showthrough / Transparence
- Quality of print varies / Qualité inégale de l'impression
- Includes supplementary material / Comprend du matériel supplémentaire
- Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below / Ce document est filmé au taux de réduction indiqué ci-dessous.

10x	14x	18x	22x	26x	30x
				✓	

12x      16x      20x      24x      28x      32x

The copy filmed here has been reproduced thanks  
to the generosity of:

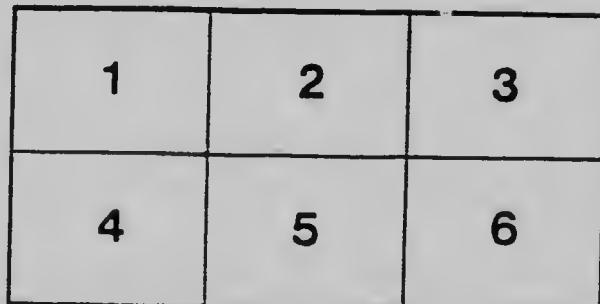

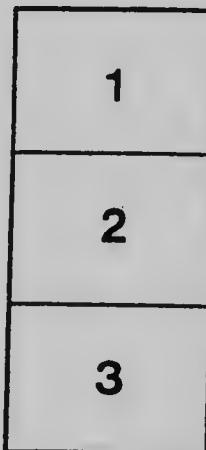

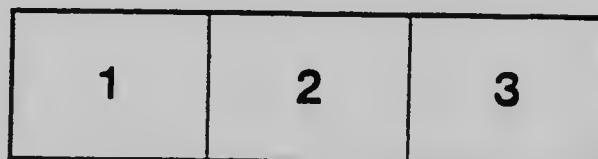

National Library of Canada

The images appearing here are the best quality  
possible considering the condition and legibility  
of the original copy and in keeping with the  
filming contract specifications.

Original copies in printed paper covers are filmed  
beginning with the front cover and ending on  
the last page with a printed or illustrated impression,  
or the back cover when appropriate. All  
other original copies are filmed beginning on the  
first page with a printed or illustrated impres-  
sion, and ending on the last page with a printed  
or illustrated impression.

The last recorded frame on each microfiche  
shall contain the symbol → (meaning "CON-  
TINUED"), or the symbol ▽ (meaning "END"),  
whichever applies.

Maps, plates, charts, etc., may be filmed at  
different reduction ratios. Those too large to be  
entirely included in one exposure are filmed  
beginning in the upper left hand corner, left to  
right and top to bottom, as many frames as  
required. The following diagrams illustrate the  
method:

L'exemplaire filmé fut reproduit grâce à la  
générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le  
plus grand soin, compte tenu de la condition et  
de la netteté de l'exemplaire filmé, et en  
conformité avec les conditions du contrat de  
filmage.

Les exemplaires originaux dont la couverture en  
papier est imprimée sont filmés en commençant  
par la première page et en terminant soit par la  
dernière page qui comporte une empreinte  
d'impression ou d'illustration, soit par le second  
pièce, selon le cas. Tous les autres exemplaires  
originaux sont filmés en commençant par la  
première page qui comporte une empreinte  
d'impression ou d'illustration et en terminant par  
la dernière page qui comporte une telle  
empreinte.

Un des symboles suivants apparaîtra sur la  
dernière image de chaque microfiche, selon le  
cas: le symbole → signifie "A SUIVRE", le  
symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être  
filmés à des taux de réduction différents.  
Lorsque le document est trop grand pour être  
reproduit en un seul cliché, il est filmé à partir  
de l'angle supérieur gauche, de gauche à droite,  
et de haut en bas, en prenant le nombre  
d'images nécessaire. Les diagrammes suivants  
illustrent la méthode.

OTTAWA, CANADA

**BULLETIN No. 164**

CANNED MEATS

OTTAWA, October 10, 1908.

W. J. GERALD, Esq.,  
Deputy Minister of Inland Revenue.

SIR,—I have the honour to report upon 76 samples of Canned Meats, collected throughout Canada in August last. These samples may be classified as follows:—

	Samples.
Boneless Chicken .....	4
" Turkey .....	2
Brawn .....	1
Corned Beef .....	11
Devilled Chicken .....	2
" Ham .....	6
Jellied Veal .....	1
Loaf Beef .....	1
" Chicken .....	3
" Ham .....	4
" Veal .....	6
Lunch Ham .....	2
" Tongue .....	2
Melrose Paste .....	1
Pork and Beans .....	1
Potted Beef .....	1
" Chicken .....	2
" Duck .....	1
" Ham .....	2
" Mixed Meats .....	3
" Pheasant .....	1
" Sausage .....	1
" Tongue .....	5
" Turkey .....	5
" Veal .....	2
Roast Beef .....	3
" Mutton .....	2
Smoked Beef .....	1
Total .....	76

With a single exception (No. 34328, Potted Pheasant) these have been found in perfect condition of preservation. The exceptional sample, being "game", may be in such condition as consumers of the article prefer.

Boracic acid is the only preservative found in any of the above; and it is present in 28 samples, or nearly 37 per cent. of the collection. In no case is the amount present above one-half of one per cent of the weight of the sample.

Canned Meats form the subject of Bulletin No. 85 (June, 1903), when 99 samples were reported; and of Bulletin No. 123 (July, 1906), when 322 samples were reported upon.

In this Bulletin, the late Chief Analyst suggested the possibility of cereal products being used in the potted or devilled meat preparations; and for the purpose of investigating this point, a further study of 90 samples of potted meats, selected from the same samples reported in Bulletin 123, together with 41 samples of sausages collected in July and August, 1906, was made, and reported in Bulletin No. 125 (September 1906).

All of the potted meats were found to give reactions for starch; and the inference was perhaps too hurriedly drawn, that these contained added cereals. In certain of these samples, the microscope proved maize and potato starches present; and this undoubtedly constitutes adulteration, when not acknowledged on the label. The mere finding of starch, in potted meat, is not, however, to be regarded as implying fraudulent addition of such. Many spices contain starch (pepper about 50 per cent); and these meat preparations are all highly spiced. The various cooking processes to which they are subjected result in such changes in the starch as to make it difficult, if not impossible, to identify the starches specifically.

The question, how much starch may legitimately be present in these articles is a difficult one to solve. In the present case, the starch has been quantitatively estimated in all samples, with the following results:—

	Samples.
No starch, or traces only.....	46
Below 1 per cent of starch.....	17
Between 1 and 2 per cent.....	5
Above 2 per cent.....	8

All of the samples containing above 2 per cent. of starch are sold as "loaf" meats; with exception of the sausage.

The actual amounts of starch found in these samples (by hydrolysis and determination as dextrose) are as follows:—

No.	Name.	Manufacturer.	Starch.
31311.....	Veal Loaf .....	Libby, McNeil & Libby....	2.79
31214.....	Ham Loaf .....	" " "	4.90
31215.....	Chicken Loaf.....	G. H. Hammond & Co.....	3.26
32620.....	Ham Loaf .....	Libby, McNeil & Libby.....	5.36
22605.....	Veal Loaf .....	" " "	6.57
35297.....	Sausage .....	W. Clark.....	4.06
35319.....	Beef Loaf.....	Libby, McNeil & Libby.....	2.05
35316.....	Ham Loaf .....	" " "	4.08

So far as taste is concerned, the devilled and potted meats appear to be more highly spiced than the so called "loaf" preparations. None of these yield more than two (2) per cent. of starch; the majority of them contain much less than 2 per cent. Hence it seems fair to infer that starch, in other forms than as spices has been introduced into the so called "loaf" meats. *Leach* (Food Inspection, &c., p. 185) says "One per cent, or more of starch present, may be due to the pepper and spices used in seasoning the sausage."

As already pointed out (Bull. 125, p. 6) it may be that the word "loaf" is intended to convey an implication of the use of cereals in their preparation. If such is the case, a clear definition of the term "meat loaf" is desirable. No objections, upon the ground of wholesomeness can be taken to the addition of small amounts of flour, and it may be that the consistency desired by the manufacturer requires the use of gelatinized starch to give necessary coherence to the product.

I beg to recommend the publication of this report as Bulletin No. 164.

I have the honour to be, Sir,  
Your obedient servant,

A. MCGILL,  
*Chief Analyst.*
