time to preparing forthwith a list of the things that the Railway Act calls upon the electric railways to do, and to give the public and press a list of these things so that a check may be kept upon these railways.

We do not think that Mr. Moore, the manager of the Metropolitan, did Mr. Ingram a good turn, tho, no doubt it was well intended, when he alluded in his statement to the extensive and intimate negotiations that were going on between the two in connection with the adoption of a two-cent-a-mile schedule when somebody butted in. You would almost think that one had a line on the other. Certainly Mr. Ingram and the members of the commission would cut a better figure if they let the people imagine that they did their duty in the premises by reason of public criticism, no matter how outspoken, than that they did what they did to by an arrangement with Mr. Moore.

LET EACH MAN PAY HIS OWN WAY. It is a truism that the poor pay twice as much as the rich for what they get; the very poor, in many cases, pay three and four times as much. To a large extent this is unavoidable, and it furnishes a reason why so many deserving men remain in a rut for life. The father of a family has given hostages to fortune. If he has employment, however moderate, his inclination is to retain it. His wages often are only sufficient to maintain his family without improving their position. He does not get the return from his money that he should. His rent should more than pay for a home, for he pays far more, in proportion, for a roof to shelter him, than does his more prosperous neighbor.

There is no objection to a round-trip ticket or a commuters' ticket being sold at a reduction, if thereby the railway makes money. But the company has no right to carry anyone at a loss, and then to compel some other passenger to make up that loss, by paying an extortionate fare.

Canada's harvesters. As Canada's wheatfields increase, the cry for harvesters will become more clamant and insistent. As intending settlers in the Dominion are rapidly absorbed and cannot be expected to abandon regular employment for a temporary, even if highly paid, engagement, the only alternative seems to be the importation of laborers from other fields, and their return when their purpose is accomplished.

Aspiring Australia. Canadians, who are naturally proud of their country and of its place among the imperial states, are sometimes a little inclined to regard its claim to premier rank as indisputable. But the Australians do not seem disposed to concede the inferiority of their own island continent, even in matters which Canada believes to be her own chosen field. There is, of course, nothing ph-

jectionable in this rivalry, so long as it is kept within bounds and lends to an extension of knowledge about themselves among the British people scattered throughout the world. Sir John Forrest, treasurer of the Commonwealth of Australia, introducing the budget in the house of representatives, drew some interesting comparisons between Australia and Canada. Australia, with a population of 4,063,000, against Canada's 6,000,000, had \$75,000,000 less of imports, but \$65,000,000 more of exports than the Dominion.

Whether we look at our position collectively or individually, we have, I think, good cause for satisfaction. Collectively, we have the opportunity to do something for the millions of people in the world, of guiding the destiny of an immense continent, composed by the inviolable sea, and of fashioning her laws, broad-based upon the people's will. Individually, we are removed from the crowded centres of the old world and its grinding competition, in a sunny land, with plenty and pleasant surroundings, where there is plenty of room for all to make a home for themselves. The opportunity, surely we may all rejoice that our walks are by the long wash of the Australian sea, and that we have the opportunity and great privilege of taking occasion by the sun and making the sounds of freedom wider yet.

Without questioning, but rather approving, the aspirations to which the Commonwealth's treasure gave such eloquent voice, Canadians also feel that, under differing circumstances, but with at least equally good opportunities, they also have in their power to build up a powerful and free nation. The not encompassed by the inviolable sea, their proximity to the great division of the English-speaking peoples gives them a peculiar mediatorial place to fill, which, successfully, would alone yield them sufficient honor. There is ample room in the world for Canada and Australia, and if both act to the measure of their opportunities, neither of them nor the empire itself will be the loser.

STAFFING THE NORMAL SCHOOLS. Editor World: We desire to maintain at all hazards our ideals, and yet to be moderate and rational. But do we not hear the majority of our teachers say, "Raise the standard! Turn out better teachers!" It is admitted that we have as a profession lost ground, at least not attained the perfection that we should. We all want better salaries, but better salaries should call for better men. Are teachers to day worth any more? Let us be fair to the people and let not the blind lead the blind. We say, sir, that our normal schools have a big place in our school system. The ex-principals of the old model schools are not competent, are not as competent as the public school inspectors are, for modern normal schools positions. Inspectors have been appointed and what have they done? The ex-principals have very limited experience and training. We ask directly what special training have they had, or did they ever take? HASTE TO RESENT INSULT LEADS TO SISTER'S DEATH

How Kathleen Cronin Came to Her Death in an Accidental Way.

A man who went to the wrong house in mistake for a place where he should not have been going to at all is to some extent responsible for the death of Kathleen Cronin, a spinster, 32 years of age, who was housekeeper for her brother Jeremiah at 117 George-street. At an inquest conducted by Coroner Greig in St. Michael's Hospital last night some sad features were brought out before the jury.

It appeared from the evidence that in the neighborhood of the Cronin house there is another place which has many visitors, some of whom would occasionally mistake Cronin's for the place they were looking for. This was a source of a lot of annoyance. On Saturday, Aug. 4, Jeremiah Cronin had been drinking and he went home. Removing his boots and upper garments he sat at an upstairs window to cool off. A man came to the door, and when Miss Cronin refused him admittance made many remarks as to the character of the house. This nettled Cronin, who made a beeline down stairs after the intruder. His sister had locked the door, but dropped the key presumably when her brother bumped into her and demanded it. Cronin got out and collared the intruder, punched him and then returned to his home. His sister was in a recumbent position in the hallway moaning. He thought she was in one of her "cranky fits" which were not unusual when he drank, so he went upstairs and lay down. It might have been a couple of hours before he was aroused by the moans of his sister, and he went downstairs again, finding her about where he had left her before. By this time he knew where he was at and sought his brother John, who lived in Moss Park-place. John summoned Dr. W. J. McCollum, and the injured woman was removed to St. Michael's Hospital, where she died on Thursday night. Jeremiah, John and James Cronin, who live in Richmond-street, brothers of the deceased, were examined. Jerry had told the same story and it was accepted by the jury after the coroner had remarked that it showed him in a rather unfavorable light.

The evidence of Dr. W. J. McCollum and Dr. Anderson, who conducted the post mortem examination, was to the effect that shock, combined with a low state of health, had caused death. The woman's thigh was not broken, as was at first thought, but it had been injured by a fall.

UNBUSINESSLIKE METHODS CHARGED AGAINST CITY

Tenderer for Supply of Gas Lamps Has Suffered Thru Broken Promises.

Conduct that, to say the least, unbusinesslike, is alleged against the city in the dealing with tenders for the supply of gas lamps...

The Chairman and Members of the Board of Control, Toronto: Gentlemen—On August 1 our clients, the American Street Lamp & Supply Co., received from the secretary of the fire department a "form of tender" for gas lamps...

Immediately on receipt of the "form of tender" the company addressed a letter to the board of control, under date of August 3, calling the attention of the board to certain provisions in the "form of tender" which, unless modified, would necessarily operate to prevent the city from receiving the wholesome and beneficial benefits of bona fide competition on fair and usual terms for the work...

Secretary McQueen of the board of control acknowledged receipt of the company's letter, under date of August 7, and in reply stated that the board of control had been advised by the secretary of the fire department that the board of control had received from the secretary of the fire department a "form of tender" for gas lamps...

Our clients hearing nothing further from the board of control, on the subject of the fire department relative to the more material objectionable provisions contained in the "form of tender" referred to in the company's letter to the board, the company's manager came to Toronto and saw Secretary McQueen last Monday, the 14th inst. The secretary explained to the manager that the "form of tender" in question was generally employed by the city, and that a reasonable modification of the objectionable provisions would undoubtedly be made by the board of control on application...

For the purpose of receiving direct assurances from the board of control that would permit the company to enter a formal tender without prejudice to itself or the best interests of the city our Mr. Smoke, with the company's manager, Mr. Momand, and Mr. Keith, its Toronto representative, called at the boardroom at the city hall last Tuesday, the 14th inst. Finding the boardroom vacant (at the usual meeting hour, 11 a.m.) they visited the mayor's office, where they met Controller Shaw, who informed them that there would be no meeting of the board until Wednesday, the day after the tenders were to be made...

Upon being informed of the object of their visit to the boardroom the controller stated that the board would be reasonable in the matters referred to by the company in its letter to the board, and in all matters pertaining to the tenders and execution of the contract...

On receiving these assurances with the statement of the controller, that no time would be lost by the board in passing on the tenders and awarding the contract, in view of the near approach of the expiration of the three months' extension of the old contract recently made by the board, the company duly put in its tender for the lamps...

At the opening of the tenders the following day (15th) Mr. Smoke's suggestion to the board, that the secretary of the fire department, to whom the tenders had been referred, be requested to report on the tenders the following day, was met with the objection that this time might be a little too short. The board finally agreed that Secretary McQueen would be required to report on Friday, the 17th inst. With this understanding Messrs. Smoke and Momand retired from the board meeting. We were greatly surprised to learn thru Secretary McGowan later in the day that after Messrs. Smoke and Momand's departure from the board room in the morning the board had adjourned until next Tuesday, the 22nd inst. Secretary McGowan further stating that he had not received any instructions from the board of control as to the date when he should make his report...

Feel Aggrieved. In view of the fact that Mr. Momand came from New York expressly on this occasion to put in his company's tender, and made his arrangements to remain here until to-day, when as above stated Secretary McGowan's report should have been received and acted upon, we think you will admit that our clients have the right to feel aggrieved at the delay which has occurred thru no explained or proper cause. Their tender now in for new and up-to-date lamps and equipment is much lower than the only other tender for new lamps and equipment, and they are, therefore, justified in expecting that the board will in the city's interest award the contract to them. Naturally the sooner the contract is awarded the sooner its execution can be entered upon and completed, and it is occasioning the company great and unnecessary inconvenience for Mr. Momand to remain here, while at the same time it is necessary for him to be here in order to make arrangements for the immediate carrying out of the contract...

There is, of course, a tender in by the old contractors to sell the city its old lamps and equipment at a price lower than that at which a new plant can be furnished, but it is scarcely conceivable that the city would, when entering upon its own street lighting, desire to encumber itself with a plant with which, as Professor London's report already before the board shows, such altogether inadequate results have been given, and a plant whose comparatively little value is shown by the difference between the price at which its owners offer to sell it, and the price the same owners ask for their new plant.

SENT TO JAIL FOR THEFT INNOCENCE SEEMS PROVEN

Expressman Convicted of Stealing Trunk Which is Located Across Lake.

Detective Guthrie yesterday afternoon located Isaac Tweedie's trunk on the Yonge-street dock, which has been the cause of sending William Meehan to jail for 30 days. Meehan was sentenced in police court yesterday morning for stealing the trunk. He pleaded not guilty, but was a victim of circumstantial evidence. Now that the trunk has been located the case will be re-investigated, and the prisoner may be set free. The story goes that Tweedie and a friend, Johnston, were going to Niagara Falls, N. Y., on July 14, via steamer Garden City. At suspension bridge they were held up by head-thieves upon which they turned back. Arriving at Toronto, they gave their checks to a man who was waiting for them. After waiting three or four days without receiving their goods Johnston and Meehan went to Johnston's home. Detective Guthrie learned that the trunk was lying in Port Dalhousie, and ordered it brought to this city in the afternoon. Meanwhile, Meehan is in jail.

Mr. Momand returns to New York to-day. "We are in that position now that we hardly care how the contract awarded. We feel that we have been most unfairly treated, he said last night. I submit that this breach of faith on the part of the board with the company's representatives is greatly to be regretted in that it manifests, at a critical period, a lamentable disregard of ordinary business methods that must invite apprehension as to the board's good faith in its dealing with the company in the absence of any proper explanation."

JOE THOMPSON CHAINED. New Commissioner in Close Trench With Former Associates. The staff of the city treasurer's department took occasion last night to present their former associate, Joe E. Thompson, the new commissioner of industries and public utility, with a substantial token of their regard for him, which has been accumulating since he entered the treasury office over seventeen years ago. A gold chain and locket and a finely furnished traveling bag were presented to Mr. Thompson as he left the treasury office last night. The presentation was made at a supper in the large hall at the Toronto Rowing Club's island quarters. City Treasurer R. C. Coody presided and Assistant Treasurer John Patterson was in the vice-chair. About sixty gentlemen were present, prominent among them being Paymaster Wm. Burton, Abe Black, Geo. Kimber and all the smaller lights of the treasurer's office. City Auditor Wm. Anderson, H. W. Berryman, W. McCartney, Jas. Shields, James Johnston of the engineer's department, Tax Collectors Thos. White, James W. Bell, W. Vanhook, also John Hewitt and Capt. Hutchinson from the waterworks department, and Matt. Warnock, W. N. Sliver, P. J. McLaughlin and many close city hall friends of Mr. Thompson. Ald. Thos. Church was there.

The city treasurer, in making the presentation, gave Mr. Thompson the splendid character of having successfully catered to the wants of many thousands of citizens and not once in the seventeen years had there been a complaint registered against him. The office of commissioner of industries was safe in Mr. Thompson's hands as he had ability and intelligence and was worthy of the position. With the regret felt that Mr. Thompson had to sever his connection with the treasury department was the satisfaction that he was to take a departure of his own the first time a change had been made at the city hall, and one that reflected credit both upon Mr. Thompson and the treasury department. Many elogetic speeches were made, and W. N. Sliver, a singer, Thor. Michelson, banjoist, and other gentlemen provided music. President White, who welcomed the gathering to the club, and Walter Garwood of the Toronto Ferry Company was thanked for his courtesy in providing a special boat.

Mr. Thompson enters upon his new duties in earnest on Monday. FOR RAISING CHEQUES. Young Man is Arrested at Port Burwell for Local Police. Chas. Darragh was arrested yesterday at Port Burwell on a charge of having passed a bogus cheque for \$15 on the T. Eaton Co., purporting to be signed by his brother, A. T. Darragh, manager of the Canadian Shoe Case Co., a Toronto Junction. He is also suspected of having passed raised cheques on the Home Bank for from \$1 to \$100, and \$15 to \$500, and one on the Bank of British North America branch at the Junction, which he had raised from \$15 to \$115. When arrested letters were found on him from girls telling him to keep away from Toronto or he would be arrested. In the city he always dressed stylishly, with a silk hat. He is in his early twenties.

EXPECT BOOM IN BUSINESS Two New Cars Sent Up to the Metro. politan Railway. The new two-cent a mile cars for the Metropolitan are a fine looking affair. Two of them passed The World office at 1 o'clock this morning, creating a roar which could be heard until they were away up the streets, waking up and frightening the populace. The noise was caused by the fact that the cars were on tracks to fit the standard gauge and not the gauge of the Toronto Railway tracks. There were a few places south of King-street where the wheels cut into the cobble stones. The new conveyances are very handsome and nicely furnished, and include a baggage compartment. They are after the style of a full grown steam railway coach and made by the Toronto Railway Co.

ACCUSED OF BIGAMY. cc Abigail Brown 34 years of age, married, anadian born housekeeper by occupation was arrested last evening on complaint of William. Keala charged with bigamy.

modern, well-mounted batteries. Severe storms and a tidal wave at Valparaiso, June 30, 1906, wrecked the railroad and did great damage to the city. Early during the present year there were a number of earthquake shocks in Chili, creating much alarm, but doing little damage.

ALMOST DERAILED. Lumber Falls on Railway Tracks and Fast Train Runs Into It. Newburg, N.Y., Aug. 17.—The Wolverine express for Chicago over the New York Central and Hudson River Railroad, leaving New York at 4.30 p.m. had a narrow escape from derailment and serious accident near Flatbush this afternoon. The axle of a freight car standing on a siding broke and allowed a load of lumber to slide off. Some of the planks fell across the northbound passenger track. The engine of the express dashed into these at a speed of fifty miles an hour, throwing the lumber high into the air. One of the flying timbers struck Wm. Vanwegen, who was standing at a crossing, and injured him severely.

HARVESTER TAKES AID. Unknown Man From Ontario Attempts Suicide at Winnipeg. Winnipeg, Aug. 17.—(Special)—An unidentified man, well dressed and believed to have arrived during the day on the Ontario harvest hands' excursion, drank carbolic acid and to-night lies dying in the hospital. He was found in a drug store, asked for eight ounces of the poison and swallowed the whole of it a moment later, falling in the street in his convulsions. There was nothing in his pockets to indicate his name or home. The grain yield is proving even heavier than the sanguine optimists of a few weeks ago. The crop is overtopped and the demand for harvest hands is very pressing.

VALPARAISO IS SHAKEN. Continued From Page 1. jured. This despatch, however, is not well authenticated.

CITY SHAKEN. New York, Aug. 17.—The City of Valparaiso, Chile, reported badly damaged by earthquake. One report received here is that the situation in Valparaiso is very serious as the San Francisco disaster. Practically every building in the city is damaged, and there are fires in different parts of the city. Many persons are reported killed and injured.

SEVERAL HOURS' DURATION. Washington, Aug. 17.—The weather bureau to-day issued the following earthquake bulletin: "A very heavy distant earthquake was recorded on the seismograph at the weather bureau in Washington yesterday afternoon, beginning at 10.15 a.m. and lasting 22 seconds, with 10th meridian time. Complete and perfect records were obtained of both the north and south and the east and west movements of the earth. The earth tremors of slow and deliberate motion, each complete movement covering from 18 to 40 seconds of time. The earthquake lasted continuously for several hours, and finally ceased at about midnight. The most violent shock occurred at 7 p.m. with a duration of 26 seconds p.m. From press reports this is evidently a record of the great Chilean earthquake of Aug. 16, and is the heaviest recorded in Washington since the San Francisco earthquake."

LOS ANGELES STRICKEN. Buenos Ayres, Aug. 17.—The newspapers to-night publish telegrams from Mendoza (an entrepot for the trade between Buenos Ayres and Chile) to the effect that many houses in the Los Andes district were destroyed by the earthquake, and that there have been a large number of casualties. The interruption of all means of communication with Chile is most serious. Many rumors of disaster are afloat.

A Special Drive in Panetelia. To-day we are selling a 5 inch long genuine hand-made clear Havana "Panetelia" Shape cigar at 6 for 25 cents or \$2.00 per box of fifty. These cigars are of very fine quality and are a real value. Get a few today at A. Clubb and Sons' "New Store" 5 King West.

BRITISH COMPANIES LOSE. Liverpool, Aug. 17.—Most of the British firms in the city have been interested in Valparaiso, Chile, but the amount involved is not nearly so great as was that at San Francisco.

WIRE DOWN. Buenos Ayres, Argentina, Aug. 17.—All the attempts made here to obtain telegraphic communication from Chile through Valparaiso, Chile, are fruitless up till late this afternoon, on account of the interruption of wire communication.

BUSINESS SUSPENDED. New York, Aug. 17.—A private cable dispatch to W. G. & Co. from Valparaiso, received by way of Lima, Peru, says that the earthquake in Valparaiso, Chile, has put the business in the city has been totally suspended.

WHERE VALPARAISO IS. Valparaiso is a fortified seaport of Chile, and the most important commercial town of the western coast of South America. It has a population of about 150,000. It is the capital of the province of the same name, and is situated on a large bay in the Pacific Ocean, seventy-five miles west northwest of Santiago, with which it is connected by rail. The Bay of Valparaiso, which is well sheltered on three sides, is bounded by ranges of hills, rising to from 100 to 1700 feet high, on the slopes of which a considerable portion of the City of Valparaiso is built. On the south side of the bay are the spacious suburbs of Nueva Valparaiso and Gran Valparaiso, from which pass out one of the finest of the thoroughfares of Valparaiso, the Avenida de las Delicias. The lower central section of the city is constituted by the Alameda, having regular and attractive streets, and containing the principal business houses, the park, the Plaza Victoria, and the National Theatre. To the northwest of this section in the quarter of the city known as El Puerto (or the port) are situated the greater number of the public buildings, and the vast warehouses which line the quays and docks. Elevators connect the lower parts of the city with the villa section of the heights. The port of Valparaiso is terminus of important lines of steamers for Europe, and is the centre of the South American coasting service. It contains a numerous foreign colony, composed chiefly of British, German and French merchants. The harbor is defended by

The Bell Piano

Wonderful Success of The Bell Player Piano "The Autonola"

The one difficulty that we have in marketing the Bell Player Piano is that the demand is more than equal to the supply. Ever since this style was first placed upon the market our factory has been doing its utmost to produce instruments in sufficient quantities to allow us to accumulate some stock ahead, but despite our best endeavors the demand increases with the increase in output. Not only is our stock low, but we have quite a large number of purchasers waiting for styles that have been ordered and have been in course of construction for weeks and, in some instances, for months past.

The remarkable demand for this wonderful instrument is easily explained, for the "Autonola" is ideal in every respect. With this Bell Player Piano any home can have music, for with it anyone can play without necessarily having any knowledge of music. By the aid of the player mechanism that is contained within the piano itself the non-player can actually play for himself any one of nearly fifteen thousand compositions—classical, popular, dance, vocal, etc.

Not only is the Autonola an instrument that can be played with the aid of treadles and music-roll, but it can also be converted instantly into a regular piano for playing by hand. When it is to be used in the regular way the music-roll box is concealed and the treadles slide into the case, with the result that in appearance the piano is like an ordinary instrument.

The Autonola Piano is thus two pianos in one—one for playing automatically, the other for playing manually.

The splendid thing about this player piano is that, unlike most player instruments, the glorious Bell tone is unimpaird by the player mechanism. The instrument exhibits all the exquisite musical qualities of the regular Bell styles. Surely the home that may have a piano of the ordinary kind now, and that has people who crave music (and what home is without music-lovers?) needs a Bell Player Piano. Consider for a moment the possibilities musically in having such a piano in your home; then come and see this ideal instrument for yourself.

We are quite willing to take your present upright, grand or square piano in part payment of the new one. We will come to your house and make a valuation on the old piano free of charge. We will do this at any hour, day or evening that you may appoint. We can arrange, too, to receive the balance in comparatively small payments month by month. We will gladly send literature giving complete details to any address on request.

Don't fail to see and hear these wonderful instruments at the forthcoming Toronto exhibition and also at

### NEXT WEEK'S CONVENTION ALL THIS IN READINESS

Toronto Will Be the Temporary Home of Thousands of Medical Men.

The university looks like one of the big drygoods houses during a spring opening. Cases of all dimensions and shapes cover the lawn and fill the corridors. Planks are laid down to protect the floorways. The classrooms are fitted up for exhibits, which appear likely to rival the industrial. In the arrangement committee rooms an immense amount of work has been done in procuring lodging for visitors and a constant stream of telegrams and correspondence is being dealt with.

welcome to be given by the lieutenant-governor, the mayor, and Mr. I. H. Cameron, for the local reception committee. The address of the retiring president, George Cooper Franklin, F.R.C.S., of the Leicester Infirmary, England, will be the feature of the meeting. The induction of the new president, Dr. R. A. Reeve, of this city, will be an interesting event.

A number of British and foreign doctors have already arrived, but the registration does not commence till 9 o'clock this morning, and an effort is being made to have the local doctors register as soon as they can, as there will soon be a big rush. "There is no doubt that this will be the biggest meeting the association ever held," remarked Dr. Starr to The World. "The registration will take place at the main entrance to the university. The Daily Journal of the association, which will be published during the convention, will have its first issue out to-day, and it will contain the program for Tuesday next, the opening day.

### WEEK, PUNY MEN TRY THIS CURE.

It is no longer an experiment. It is hailed by thousands with loud praise because it cures them. I am well and strong as ever. What more could one ask? writes a man with a heart full of joy. Do not be in error. This grand appliance is like no other. It is new. It is the good points that are known in electricity. It gives a powerful current, but does not burn or blister, because my special cushion electrodes make the current a warm, gentle glow, which exhilarates and relieves at once.

### MR. MCBRIDE'S BUSY DAY HIS IDEA OF MODEL MAYOR

Gets Several Civic Officials Scouring on Matters of General Interest.

City Solicitor Chisholm declined to give an opinion when The World spoke to him yesterday upon the contentment of Ottawa's city solicitor, that municipalities had no power to pay delegates' expenses at the convention of the Union of Canadian Municipalities. "I'll show you the act," said Mr. Chisholm, as he turned up the law book and read section 698, which reads as follows: "The council of any city may include in the annual estimates a sum to be expended in the reception and entertainment of distinguished guests and any traveling expenses (necessarily incurred in and about the business) of the corporation, which sum shall, in the case of cities having a population of 100,000 or over, not more than \$500; in the case of other cities having a population of 20,000 or over, not more than \$100; and in the case of other cities not more than \$50 in any year. The council may also include in the estimates a sum to be expended in the payment of last year to read expenses 'incurred' pertaining to civic interests," which may be good law, but is very poor English.

"All municipalities are governed by the same act," he says, "but we do not raise such questions in Toronto." Last year an Ottawa citizen obtained an injunction restraining that city from paying the expenses of the mayor as delegate to the convention. The change in the act at the last session of the legislature is not considered by the Ottawa law department to make the payment of the mayor's expenses legal.

Acting Mayor McBride. The box of cigars in the mayor's office was the provision of Ald. Sam McBride, who was acting mayor yesterday, and he hustled on the job. The city engineer got instructions to hurry up the reconstruction of the macadam roadway on Queen's-avenue for the benefit of tourists and citizens. The condition of King-street, west of Spadina-avenue, was also brought to Mr. Rust's attention. Dr. Shear was in conference with the acting mayor, who argued that the macadam pavements in the ward were entitled to as much attention as the asphalt pavements in the more aristocratic districts, and the doctor promised favorable consideration. The city engineer will, at Mr. McBride's request, lay a track crossing over the tracks below the bridge on Spadina-avenue.

The park commissioner came in for his share of attention and was instructed to go on with the Don speedway as soon as he can. The police were asked to enforce the law in regard to shunting, and to keep the streets clear of the trucks and heavy machinery. The city engineer was instructed to place advertisements on the outside of street cars without his permission. The city engineer was also instructed to place advertisements on the outside of street cars without his permission. The city engineer was also instructed to place advertisements on the outside of street cars without his permission.

Liberal's "Big Four." It was stated yesterday by a local politician that there is widespread opinion to believe that the Liberals have already made a "slate" for next year's election. The "big four" are: Uryuhart, Spence, Ward and J. J. Graham. The measurements for Lansdowne-avenue subway were taken by Bridge Engineer Williams yesterday.

Car Service to Coney. Expected That Receipt-System Will Ensure Peace To-Day. New York, Aug. 17.—President Coler of the Borough of Brooklyn, with Stephen C. Baldwin and S. F. Marquin, his attorneys, and former Lieutenant-Governor Wm. F. Sheehan, representing the Brooklyn Rapid Transit Company, were parties to a conference held today in Attorney-General Mayers' office in Albany, for the purpose of considering the method of legal procedure to be adopted to determine whether the Brooklyn Rapid Transit Company was acting within its rights in charging a cent fare from Brooklyn to Coney Island. Both sides were disposed to settle as speedily as possible.

Excursion to Beautiful Barrie To-Day. To-day at 1.30 the Micmac Club ran a special excursion train to Barrie. The Barrie Old Boys are going with them. On the run up the special will stop at LeRoy, so as to let the summer residents on Lake Simcoe an opportunity of taking in the trip. This is the last excursion of the season to Barrie, and a large crowd will go. The club have only issued sufficient tickets to comfortably fill the special, so that excursionists may be assured of plenty of room. Mayor Donald Ross of Barrie says, "Please feel yourself free to order us. How can we advance your interests?" The Barrie people are paying particular attention to excursionists this season. They have placed a tent on their newly sodded market square park, where the excursionists will have their headquarters in the old town of beautiful Barrie.

Miss Gordon Resigns. Kingston, Aug. 17.—(Special.)—Miss Elizabeth Gordon, formerly of Toronto, who has been superintendent of the General Hospital here for nearly two years, has resigned. There is an agitation among the doctors and a few laymen to have a qualified medical man appointed.

**STRANGLER IN HER HOME.**  
Negro Suspected of Killing Farmer's Wife—\$1000 Missing. New York, Aug. 17.—Mrs. Mary Maneski, the wife of a farmer, was strangled to death in the dining room of her home in East Williston, L.I., to-day. Her body was found by her son lying on the floor face downward with her apron bound tightly around her neck. A search showed that the rooms had been ransacked, and it is believed that \$1000 which Mrs. Maneski had in the house was stolen.

**TRAIN LEAVES RAILS.**  
Four Coach Loads of Harvesters Get Shaking Up. Barrie, Aug. 17.—(Special.)—As the first section of No. 65, the C.P.R. excursion harvesters' train, was pulling into the station four passenger coaches left the rails. The trucks of the first coach were smashed, the second coach plowed into the sand bed 30 feet, and the third and fourth remained standing.

**ROPE BREAKS; TWO HURT.**  
One Man Will Die; Second Hurt and Third Escapes. Ottawa, Aug. 17.—Three men were hurled thru space for 20 feet at the government mill building this morning by a scuffling rope breaking. E. Peterson, stone mason's attendant, was so badly injured, he will likely die. James Aldridge, stone mason, is severely injured, while the third man escaped injury. Peterson struck on his head and is suffering a hemorrhage of brain and fracture of the skull. Recovery is improbable.

**KING EDWARD AND WILLIAM**  
Result of Their Meeting Will Promote Friendly Relations. Berlin, Aug. 17.—The correspondent at Homburg of the Lokal Anzeiger quotes British Ambassador Lascelles as describing the result of the meeting here on Wednesday of King Edward and Emperor William as likely to be of great advantage in promoting friendly relations between Great Britain and Germany.

**A PANORAMA OF PORT ARTHUR.**  
William Armstrong the well known artist of Toronto, has just returned from Port Arthur bringing with him a colored panoramic sketch of Port Arthur extending from McKay's Mountain to Blend River. The work is done in colors, and is to be reproduced as a chromo-lithograph. It is a most creditable piece of landscape work.

OPEN PUBLICITY THE BEST GUARANTEE OF MERIT

When the maker of a medicine sold through druggists for family use, takes his patients fully into his confidence by frankly and fearlessly publishing broadcast as well as on its bottle wrappers, a full list of all its ingredients in plain English, this action on his part is the best possible evidence that he is not afraid to have the searchlight of investigation turned full upon his formula.

**WALL-STREET RELIES ON DIVIDENDS.**

World Office, Friday Evening, Aug. 17.  
Nothing small about Hartman. He ran a New York insurance company until compelled to discontinue and has since given great attention to the stock market. Fancy a straight 5 per cent. dividend on Southern Pacific! This is not fiction, but absolute fact. Very seldom, if ever, has Wall-street witnessed such a daring adventure as this. It is usual among directors to pay dividends part in cash and part in stock. Brokers' judgment was opposed to the highest grade of stock market financing, and it was not until the advance in these two securities. Yesterday witnessed a contest between the two forces, and to appearances, Hartman won out. Surface indications are not always a guide to success, and the pool operating against market sentiment may yet triumphantly succeed as opposed to stock jobbing of the veriest type. With the placing of Southern Pacific on a 5 per cent. dividend basis, Union Pacific was increased from 6 per cent. to 10 per cent. and Southern Pacific 6 points before the forces behind the market showed any desire to get out of the shorts. Today's developments do not seem to be the method by which public interest is to be again riveted on the New York stock market.  
Herbert H. Ball.

for wheat is poor and we do not look for any sustained advance at the moment. Whiggep was quite dull and moved within a narrow range. There is nothing new to be mentioned in connection with the developments of the day. It will have to sell a few cents lower before it can be an export basis.  
Corn showed considerable weakness. Selling down sharply and the distant options sympathizing. We would not sell the wheat developments, but we would sell the distant options on all hard spots.  
Oats—Weak, partly in sympathy with the wheat, but more so. May oats on set-backs should prove profitable.

REVEALS FATHER'S SECRETS

Daughter of Bank Wrecker Tells All She Knows.

Chicago, Aug. 17.-Mrs. Inga Sandberg, daughter of Paul O. Stensland, wrecker of the Milwaukee-avenue State Bank, is said to have told the authorities all she knows of her father's affairs, especially those relating to Mrs. Leone Langdon Key, the statuette and dashing brunette to whom her father was so generous.

"I do not know where my father has gone," she said. "I do not know much about his financial affairs. I knew he spent much money on women. He installed in his home Leone Langdon Key, whom I introduced to him, and this compelled me to go to Madison and teach music."

There were two more tragedies yesterday as a result of the Stensland Bank trouble. Gustav Turkhardt, a depositor, went mad and was locked up. Mrs. Mary Jara, another depositor, also became crazed and was locked up to prevent her from killing her children.

OBITUARY.

W. H. Selmes. The death of Capt. W. H. Selmes of the steamer Chippewa, which was recorded in yesterday's World, came as a great shock to many. He was 67 years of age, and leaves a widow, son and daughter. He had sailed the Ivan Allen steamer, Rupert, Empress of India, Chilora, Corona and Chippewa. The body left last night by the G.T.R. for Waspoons, accompanied by Mr. W. Gibbets, chief baggage agent for the Niagara River line. All the steamers of the Toronto fleet carried their flags at half-mast yesterday.

Miss Nellie Stoneburg. The death took place on Thursday of Miss Nellie Stoneburg of Little York, at the age of 21. Deceased was for years a resident in the city, and was a member of Queen-street Methodist Church and many friends. She is survived by her parents, four sisters, Mrs. J. Herrington of Sharbot Lake, Mrs. W. Salter, Mrs. N. M. Williams and Mrs. R. G. Grey, and a brother, Louis of Trenton. The funeral takes place to-day to Norway Cemetery.

PASSENGERS ILL-TREATED.

Mayor Coatsworth Takes Up Arms Against a Sea of Troubles.

Mayor Coatsworth has been having adventures since he left Toronto. He has written a long letter from Halifax to his secretary, Geo. Wilson, complaining bitterly of alleged uncomforable treatment experienced, along with other passengers, in the steamer Prescott, between Prescott and Lachine.

He writes: "I had a chair with the back broken off for about 20 minutes. After that I spent the whole day on the lower deck in the bow among the anchors, chains, ropes and a general assortment of litter. My only seat was an exceedingly dirty soda water bottle box turned on end, and this I loaded several times to obtain a view of their rest. When this precious box was occupied by another I sat in a window or walked around."

His wrath does not regard this as a solitary instance of disregard for passengers' convenience, for he concludes his letter as follows: "I might add that it appears to be a settled conviction among public carriers such as railways and steamboats that they are not to be held responsible for first-class fare for third-class accommodation. One who has occasion to travel out of the Union Station on the train, especially for summer resort trains, is struck with the fact daily that the accommodation is absurdly inadequate, and that companies give no sufficient effort to have it otherwise. I have seen people riding on the car steps all the way from Toronto to Muskoka. The conductors ought to be held responsible for getting everyone a seat, instead of paying no attention to it, as at present. It is my mind a question of honesty, and we deal with companies who have no conscience. They do not hesitate to exact the utmost fares from the people. On the other hand, they continually rob the people of the class of accommodation for which they have paid."

SAVES TROUBLE FOR THIEVES

Friendly Notice Posted That Valuables Are in Safety Vault.

New York, Aug. 17.—It will be regarded as a distinct violation of the ethics of burglarizing for any crackman, protected or unprotected, to ignore or disbelieve the notice which was put in place yesterday on the front door of mansions on Riverside-drive, Fifth-avenue, and upper Madison-avenue. It reads as follows:

"Thieves and burglars, take note, jewelry and silverware are stored with safe deposit company, not front door. This information, intended to save unnecessary labor and avoid disappointment, is printed in bold, black letters, standing out in relief on black cardboard, and is hung with a blue silk cord to the front door of the window of the house whose tenants are absent. No provision has been made for the removal of the sign by night, because it is reasoned that a burglar of discrimination and experience would first make his plans by day, and that in making a reconnaissance he could not but have his attention drawn to the friendly warning, which would save him much bother."

The notice which attracts most attention is placed on the door of the Kitzel residence, at 122nd-street, which is the home of the summer. There are half-a-dozen others further down the drive, below Bishop Potter's high place, for instance.

The trust company which evolved the idea reasoned that the average householder would prefer to save time and labor—particularly time—and that the notice would be of mutual benefit. No attempt is made to save time and labor of intelligence will regard the notice as bona-fide, and not intended as a bluff.

BACK TAXES ON \$7,000,000. Thirty-Three Estates Undervalued by Chicago Assessors.

Chicago, Ill., Aug. 17.—The board of review has added more than \$7,000,000 in the personal property assessments of thirty-three estates judged to have been undervalued by the county assessors. More estates will be heard, and further large increases are expected.

Charles T. Yerkes' name was placed high in the list of deceased Chicagoans who failed to pay taxes during 1905 on the value of their personal property. A back assessment of \$2,000,000 for 1905 was placed against his estate.

CITY HAPPENINGS. A four-foot "Welcome" electric sign will be placed on the city hall for the first time during the next month.

Justice MacMahon has granted the winding-up order against the Perth Flax and Cordage Co.

A bathing attendant has been appointed for the Rogers Coal Co. boiler-room on the Esplanade.

Sparks from a furnace caused a \$150 fire in the Rogers Coal Co. boiler-room on the Esplanade.

Justice MacMahon has given the family of George Miller, a wealthy farmer, Thurlow Township, Hastings County, an order for the addition of the \$10,000 farm and \$4000 worth of stock. Caldwell is declared to be mentally and physically incapacitated.

John B. Leonard, who admitted that he wrote grossly insulting letters to his son and daughter, promised never to do it again, and was yesterday released on his own recognizance.

The will of George Pitts, late of 32 Glen-road, in disposing of personal effects, bequeathes "my gold-headed cane to my son, George, at whose death it shall go to his son, Charles Wesley Pitts."

Everything but the press building is ready for the exhibition opening, says Dr. Orr.

NEW INFANT'S HOME.

Fine Structure Being Erected by Sisters of St. Joseph.

What will prove to be one of the finest buildings in the city devoted wholly to philanthropic purposes is now in course of erection on Slack-ville-street, just south of Queen-street, by the Sisters of St. Joseph. It will be known as the Infants' Home and will cost \$46,000. The building will be erected on a portion of the House of Providence grounds, will be of the most modern construction, of solid brick and four stories in height. At present there are some 80 children to be grouped in the new structure on the first floor, where they will have access to the play grounds. Some of the aged inmates are deprived of their rooms at present and compelled to sleep in the hallways, while many applications to both the Infants' Home and the House of Providence are, thru lack of accommodation, refused. The cornerstone will be laid Sunday, Aug. 26.

To Those Who Know

The ill-effects of improperly fitted glasses, it is needless to say that "the best is the cheapest." To those who don't we would say that this means the best and most thorough examination, as well as the best quality in the glasses. Our reputation will insure you of both, which fact we owe mostly to devoting our entire time to the scientific examination of the eye and the furnishing of glasses.
