PROPOSITION TO LAURIER DEVELOPS AT WESTERN CONVENTION
GERMAN OFFENSIVE IN RUMANIA HOT FIGHTING IN EAST AFRICA
Canadians Close in on Lens Crown Prince Attacks Fail

LENS TO FALL TO CANADIANS IN BRIEF TIME

Intrepid Troops of Dominion Continue to Extend Saps Daily.

ENEMY SHOWS ALARM

Germans Begin to Throw Curtains of Fire Before Coal Town.

London, Aug. 7.—Bombardments, at some points attaining fairly violent proportions, and here and there small infantry manoeuvres have occurred on the front in Flanders, but as yet the operations have not taken on the aspect of a contemplated resumption of the big allied drive which had weathered last week brought to an abrupt end.

The Canadians operating against Lens have again made thrusts of a successful nature into the environs of the coal centre, which apparently cannot long await capitulation.

The official report from British headquarters in France, issued tonight, reads: "Beyond the usual artillery activity of both sides, there is nothing of special importance to report."

Violent Cannonade. The French war office issued the following official statement tonight: "In Belgium the cannonade was rather violent during the day."

URGE GERMANY NEVER TO MAKE PEACE OFFER
Bonn University Professors Recent British Challenge to Retire.

Amsterdam, Aug. 7.—Seventy-eight professors of Bonn University signed a petition, urging the German Government never to make another peace offer, "since Germany's recent offer has been answered by the British, challenge to retire behind the Rhine."

CORN PRODUCTION BILL PASSED BY COMMONS
British House Gives Measure Third Reading by Big Majority.

London, Aug. 7.—The corn production bill, which proposes to pay fixed prices to farmers for cereal crops for a number of years after the war, passed the third reading in the house of commons today. The vote was 108 to 14.

HATS FOR HOLIDAY NEEDS. Hats for traveling by train, boat or motor. Before going on your vacation make sure you are provided with a comfortable dress hat that will make you feel at home in either sun or wind.

OPENING CLASH OVER C.N.R. NATIONALIZATION

Opposition Calls for Fuller Information and Graham Refers to Stock as Valueless—Perley's Overseas Staff Criticized by Hughes and Others.

Ottawa, Aug. 7.—The resolution embodying the government policy of public ownership of the Canadian Northern Railway system was considered by the house of commons tonight, but in a somewhat inconclusive manner. No sooner was the matter broached than Sir Wilfrid Laurier asked that the main discussion of the railway question be held over until the return of the western Liberal members at present attending the Liberal convention in Winnipeg.

The minister of finance stated, in the course of his explanations, that the government had not received any written request for assistance from the Canadian Northern. The officials of the company had, however, made it plain that some \$20,000,000 would be required to pay interest on underlying securities and provide needed betterments.

Opposition Critics. The chief critics on the opposition side of the house were Hon. George P. O'Connell and Hon. William Pugsley. The former, arguing that the shares of the C.N.R. were of no value, said that anything the government paid Macdonald and Mann should be known as "recognition" of their services in developing the country, not as payment for valueless stock.

Clash Over Perley. The house in the afternoon showed signs of awakening political "finger," perhaps due to the evident failure of the western convention to back up union proposals. The matter before parliament was the raising of the appointment of an overseas minister and of two parliamentary secretaries. The debate was marked by a personal passage of arms between the prime minister and the Hon. Rodolphe Lemieux of Rouville.

INCISIVE BATTLE IN GERMAN EAST AFRICA
British Open Another Advance From Lindi Region on Indian Ocean—Find Enemy in Strongly Defended Posts.

London, Aug. 7.—The beginning of a forward movement in the Lindi area, on the Indian Ocean in southeastern German East Africa, is described in an official statement issued tonight. The offensive began on Aug. 2, when the Germans were driven from their advanced positions on the Milubin stream, ten miles northwest of Lindi.

WEATHER IN FLANDERS PROVES GERMAN ALLY
French Troops Have to Hold Shell Holes Filled With Water—Present Conditions Worse Than Counter-Attacks.

London, Aug. 7.—(Via Reuter's Ottawa Agency.)—Reuter's correspondent at British army headquarters, telegraphing today, says: "The Boches have much to be grateful for. The weather is causing the Anglo-French forces more trouble than any conceivable counter-attack."

U. S. COAL SHIPMENTS TO CANADA TO GO ON
American Government Will Not Shut Off This Country's Supply.

Washington, Aug. 7.—Reports that the United States would embargo coal shipments to Canada were denied officially today. Canada has been receiving large shipments of coal from the Dominion's reduced production, but coal exports now connected with the American Government may the United States is producing enough coal for both countries and that the problem is solely one of equitable distribution.

BRITAIN WILL BORROW ANOTHER LARGE SUM
Andrew Bonar Law Introduces Resolution in Parliament.

London, Aug. 7.—Andrew Bonar Law, chancellor of the exchequer, introduced in the house of commons today a formal resolution authorizing the government to borrow another £250,000,000 on the security of the United Kingdom, an amount which a war loan bill for this purpose will be introduced within a few days.

FOE HAS NO VIEWS. Berlin, via London, Aug. 7.—"There is nothing of special importance to report from either the western or eastern fronts," says the supplementary official statement issued this evening, from the German headquarters.

ENEMY BEGIN NEW ADVANCE UPON DANUBE

Germans Carry Russian Positions at Fokshani Before Galatz.

RUSSIANS WITHDRAW

Ally's Troops in Bukovina Offer Stronger Resistance Than Ever.

London, Aug. 7.—Having been enabled mainly thru the disaffection in the Russian army, to drive the Russians out of the greater part of Galicia and Bukovina, the Austro-Germans now have begun in southern Moldavia a manoeuvre the success of which would be of vast import against the Rumanian line barring the way to Bessarabia.

Substantial Balance to Canada's Credit
White Points Out Thirty-Eight Millions Stands on Books.

Ottawa, Aug. 7.—Sir Thomas White made it clear to the world tonight that, while the total advances made to Canada by Great Britain since the outbreak of war, including the upkeep of the troops in France, are estimated to be \$272,000,000, the balance in favour of Canada is \$244,000,000.

Committee Will Consider Divorce Question in Canada
By a Staff Reporter.

Ottawa, Aug. 7.—Sir Robert Borden in the house this afternoon named the following committee of parliament to consider and report on the desirability of revising the rules and regulations governing divorce: Boyce, Maclean of Halifax, Northrup, Pugsley and Steele.

CANADIANS ESTABLISH NEW FRONT AT LENS
Troops of Dominion Now Hold Group of Houses Within Few Yards of Foremost Line of Enemy.

By Stewart Lyon. Canadian Army Headquarters, Aug. 7.—The Canadian outposts around Lens have established a new line in a group of houses which is within a few yards of the enemy's front line at that point.

TIGHTEN GRIP ON LENS. British Front in France and Belgium, Aug. 7.—(By the Associated Press.)—The British lines continue to tighten about the French City of Lens north of Arras. Canadian troops who on Saturday night pushed their positions forward approximately 200 yards along a front of a thousand yards in the western environs of the city, late yesterday added a 600-yard front of a similar depth of their defences south and west of the city.

Crisis in Newfoundland

St. John's, Nfld., Aug. 7.—A political crisis developed in the Newfoundland Legislature today when the upper house rejected the bill for the taxation of business profits for war revenue.

HUNS WOULD BREAK ANOTHER PROMISE
Try to Evade Pledge Not to Annex Belgian Territory.

London, Aug. 7.—(Via Reuter's Ottawa Agency.)—Lord Robert Cecil, minister of blockade, stated in the house of commons today, that so far as he was aware, the German Government had been careful not to remind the world that they had expressly promised, in 1914, to Great Britain, not, under any pretence whatsoever, to annex Belgian territory, but from the tenor of communications emanating from apparently inspired sources, this was a promise which, if they could, they proposed to renege.

Fails to Stamped. An effort to start a stampede for Laurier by Mr. Barley of Calgary was frowned down by the convention. Mr. Barley moved to adjourn on the ground that the convention was merely marking time instead of settling the all-important question of leadership.

WOULD EXPROPRIATE LAND. The resolution was seconded by T. A. Crerar, who believed that the government should expropriate the amount of the action in the west near the railways withheld from cultivation by speculators. He declared that no less than 80,000 acres of land suitable for settlement was being held in the hope of reaping an unearned increment. He thought much of this land should be expropriated as another plank was adopted as a favoring admitting single women to the same rights of homestead as men.

Winnipeg, Aug. 7.—The big western Liberal convention is now under way, with about 1,000 delegates in attendance, including 100 women. The fight is on between the Laurier Liberals and those who want to break away altogether from Quebec, organize a new party and help form a national government. Three hundred more delegates arrived this morning, and many of those are conscription Liberals, hence tonight there is not the same overwhelming confidence in the Laurier camp.

The fight will not reach the floor of the convention before tomorrow. It is now dividing the committee on resolutions, which consists of over 100 members. A large majority of the Alberta and British Columbia delegates are for the old chief, and it is probable that he has a good majority in Saskatchewan. On the other hand, Manitoba is almost solid for union government, and finds some support among the delegates from the other three provinces. The opposition from Manitoba is so determined that the party leaders fear a split, and every effort will be made to agree on a compromise.

The wires have been kept hot between Winnipeg and Ottawa in an effort to get Sir Wilfrid Laurier to declare that he will, as a last resort, enforce the Militia Act in the event of his being returned to power. If he will make this concession, he can get the convention by an almost unanimous vote.

The anti-conscriptionists were greatly delighted to learn this morning that Dr. Michael O'Connell, Red Deer had left the city in disgust and returned to Ottawa. This was taken to indicate that the anti-Laurier Liberals had given up the fight. Several prominent members of the anti-Laurier wing, like J. W. Daffoe and W. A. Buchanan, M.P., say the result is still in doubt. The most that can be said is that both sides are playing for position, and seem unwilling to come to close grips.

Tribe Swings Over. When the delegates left the convention hall this afternoon newsboys were calling "Here's The Winnipeg Tribune, an Independent Liberal paper. We don't handle the Sifton sheet."

This is taken to mean that The Tribune, which has been supporting union government, is ready to swing into line behind the Laurier Liberals in case they carry the convention.

Avoid Fighting Words. The convention which has been supporting union government, is ready to swing into line behind the Laurier Liberals in case they carry the convention.

The next plank sent in was one declaring that the lands set apart for school purposes should be vested in the provinces, as well as the administration of the funds arising from the sale thereof. This was moved by Hon. Edward W. Brown, provincial treasurer in Manitoba, and adopted without dissent. At 5 o'clock the secretary of the convention reported that the committee on resolutions had no more planks ready and could not guarantee to have even one more fashioned for some time, and the convention recessed until 8 o'clock.

Vital Issues Deferred. At the evening session several more planks were sent in, but the convention decided to postpone them until tomorrow. Indeed, T. A. Crerar, president of the United Grain Growers, Limited, and a member of the committee, told The World that the vital issues had not yet been taken up for discussion by the committee on resolutions.

The first plank presented to the convention tonight called for a better system of land settlement and immigration, and was presented in a vigorous speech by J. G. Turfitt, M.P. for Assiniboia. He thought that Canada should seek to get English-speaking immigrants only, as about all the fighting done for Canada in this war had been done by English-speaking people. In the course of his speech he approved the action of the government in nationalizing the Canadian Northern.

GERMAN SYSTEM CONTINUES SAME

Berlin Press Gives Lukewarm Welcome to New Cabinet.

NO DEFINITE PROGRAM Officials Still Make Up Kaiser's Government, People Told.

Berlin, Aug. 7, via London.—Germany's press is decidedly lukewarm today in its welcome to the new occupants of the ministerial benches, and characterizes the fourteen newcomers to executive and minor posts as a cabinet constituted of officials whose appointment does not betray a change in system. "It cannot be denied that the events occurring in our internal politics lack historic dimensions, as compared with our present military achievements," says The Tagblatt. "The great German nation, which is the only 'kultur' people in the world, exercises neither direct nor indirect influence in the selection of its servants. "The present reorganization of the governmental personnel, which is of little moment as regards the internal development of the empire, shows Chancellor Michaelis for the present facing the question of democratization or parliamentarization with the same bewilderment as the he stood in the presence of some exotic sea monster. With us the making of his- tory appears to be the sole privilege of the army." "The National Liberal Bremen Zeitung, in its comment, says: "We have again a Simon-pure ministry of officials. The parliamentarians, Dr. Spahn and Dr. von Krause, cannot be considered as evi-

CANADIAN RECORDS RECEIVE PRAISE

Australian Officials Thank Lord Beaverbrook for Assistance.

C. A. P. Correspondence. London, July 20.—So successful has the Canadian War Records Department proved that the officials of the Australian War Records have cast envious eyes on the Canadian establishment. The assistance of Lord Beaverbrook was sought by the Australians in organizing their records department, and the result is seen in a letter written to Lord Beaverbrook by the officer in charge, Australian Records, cordially thanking his lordship for the valuable assistance given. J. G. Colmer, honorary secretary Canadian War Contingent Association, London, has received a grateful letter from Lieut.-Col. J. W. Warden, commanding a Canadian infantry battalion in the field. The colonel writes thus about the good work the associations is doing: "Quite apart from the material benefit of the gifts we have so constantly received, there is what I might almost call a spiritual satisfac- tion in knowing that the donations of our friends in Canada are so cap- sively grateful and that it often hap- pens that we can only return you a scribbled receipt on your own forms, you must never believe that such seeming discourtesy is dictated by more than the exigencies of the mo- ment. I can assure you that many a letter remains unwritten simply on account of shortage of paper." Canadian Forestry Corps have been increased by 75 officers and 200 other ranks. Eight companies of the corps have been despatched overseas from the United Kingdom recently. The following chaplains have ar- rived in England: Hon. Capt. (Rev.) C. G. Hepburn, M.C. (O.M.); R. Fen-

ILLINOIS MAY SEIZE AND OPERATE MINES

State Has Power if Operators Refuse to Lower Fuel Prices.

Chicago, Aug. 7.—Seizure and operation of Illinois coal mines by the state for the benefit of the consumers was suggested today at the meeting of the Illinois State Council of Defense, as a solution of the coal problem, if the coal mine operators refused to lower fuel prices. Reporting behind closed doors to the state council, Levy Mayer, Chicago lawyer and chairman of the council com- mittee on law and legislation, told the council that the governor had the power to seize the coal mines and operate them if necessary, unless the operators agree to equitable prices for their output. Operators have protested that the prices arranged at the recent federal conference from \$7.75 to \$1.75 at the mine mouth should not be disturbed. "It was said that the question of seiz- ing the coal mines and operating them under state authority had been presented to Governor Lowden.

stians are at grips with the enemy and apparently are more than holding their own, on several sectors having driven back the Teutonic advanced posts. Taking advantage of the retreat of the Russians west of the Zbrozeczka River, where the dissatisfaction in General Brusilov's army made it vir- tually a rout, the Austrians and Ger- mans are harvesting hastily the crops left behind. Artillery duels continue to be the chief factors of warfare in both the Austro-Italian and Macedonian the- atres. Severe fighting is taking place in southeastern German East Africa. As yet it has reached no definite re- sult, although the British have gained some ground. The Teutonic guns are intensively bombarding the Russian front to the southwest of Brody, Galicia. The text of the Russian official statement reads: "To the southwest of Brody, in the region of the Villages of Dube and Zarkov, the enemy is conducting an intense artillery fire. To the south of Grimalov our ad- vance detachments drove back one of the enemy's advanced posts. "In the region to the west of the Zbrozeczka enemy troops are hastily gath- ering for the harvest. "In the valley of the River Sereth, and chiefly of the River Souchava, fire is continuing to press back our detachments. The Villages of Vasokovy, Salsour, Radauts, Burla and Gilt were occupied by the enemy. "Romanian Front.—In the direction of Kimpolung the enemy, after a bat- tle, has occupied the heights to the north of the railway station at Mele. In this region the cable wire of the 26th Infantry Regiment, under the command of Captain Luchkin, beat off several attacks of the enemy and forced them to retire in disorder. ENEMY SEEKS GOLD FOR COAL SUPPLIES

Germany Attempts to Coerce Switzerland—Allies May Aid Republic.

Washington, Aug. 7.—Confirmation has reached the state department of the report that Germany has demand- ed a loan in gold from Switzerland in return for coal. In official circles here this is taken as emphasis to the stories of financial difficulties in which Ger- many finds herself at present. Germany is in sad need of gold to meet the obligations which she has in- curred with those neutrals with whom she can trade, for German paper money is no longer in favor, and the value of the German mark is depreciating al- most to the vanishing point. Switzerland is resisting the demand, and if it is pressed she is in far better shape than Holland or the Scandina- vian countries to resist either military or economic aggression from Germany. Under present conditions Switzer- land is dependent upon Germany for her coal, but it is believed that the allies may be able to meet her needs. With the restoration to France of the mining region so long in German hands the supplies of the allies may be increased to such an extent that Switzerland can be supplied, despite the drain caused by urgent despatch from Italy for fuel.

Col. Curran Tells York Pioneers Incidents of the Fight.

NOTHING WAS SCARCE

Toronto Soldiers Were Provided to Endure Bitter Cold.

"It was no prayer meeting, but a serious chance for action," said Lieut.-Col. Curran, speaking upon the Riel rebellion of 1885 at the York Pioneers' anniversary...

Of the engagement itself, fought for the most part in darkness and under the most adverse conditions, Curran gives a most graphic and interesting picture of the historical events...

LIBERIA WITH ALLIES

Washington, Aug. 7.—Liberia, the negro republic on the coast of Africa, has declared war on Germany. Some time ago Liberia broke off diplomatic relations. The declaration of war now gives opportunity to intern German merchants and others who have been accused of unneutral activities. The United States was advised today of the little republic's action.

JAP JOINS KILTIES

British, French and American Medical Officers Visit Toronto Hospitals.

Nearly 200 recruits offered for military service yesterday at the Toronto mobilization centre in the armories.

British-born recruits from the United States class were 78 strong to the Toronto mobilization centre yesterday.

The recruits from across the border included a Japanese student from New York City named Tom. Nash.

He decided to join the 48th Highlanders overseas company.

The recruits from across the border were distributed among C. E. F. units as follows: 48th Highlanders, 15; Canadian Army Service Corps, 10; Engineers, 7; Army Medical Corps, 6; Trenchers, 5; Royal Canadian Mounted Rifles, 10th Regiment and York and Simcoe Forestry and Construction Draft, each 3; Princess Patricia's, No. 1 R.R. Draft and Army Dental Corps, each one.

The total of 96 men gained by the C. E. F. during the day were attached to the following units: York and Simcoe Forestry and Construction Draft, 31; 48th Highlanders, 17; Canadian Army Service Corps, 11; Canadian Mounted Rifles and Army Medical Corps, each 8; Engineers, 8; 110th Irish Regiment and Royal Grenadiers, each 5; Queen's Own, 3; Princess Patricia's, No. 1 R.R. Draft and No. 1 Forestry Draft, each one.

The 48th Highlanders will on Thursday morning send between 60 and 70 men to Camp Borden for C.E.F. service.

This will be the first contingent of the Highlanders' company at Camp Borden up to approximately 300 men.

LA. Col. Reynolds and Major Vaughan, of the United States Medical Corps, and Major (Dr.) Fitzgibbon, of the French Army Medical Service, have for the last few days been inspecting the medical arrangements of the Canadian military camps.

They have been escorted by Major (Dr.) J. W. S. McCullough, provincial medical officer of health, and Major (Dr.) Fitzgibbon, of the French Army Medical Service.

The party have visited the Toronto military hospitals, Camp Borden, the Toronto University and the farm at Fishery, and also inspected the camps at Petawawa and Barriefield.

A draft of 51 engineers left Toronto last night for the training grounds at St. John's, Que., under command of Lieut. J. L. Mallory. The engineers are asking for recruits for the mounted section. There is also a strong demand for artisans, such as carpenters, plumbers, painters, bricklayers and plasterers.

SOME MYSTERY IN VIADUCT DELAY

Aldermen Beamish and Ball Think Explanation Should Be Made.

What is the true cause of the continued delay with the work of the Bloor street viaduct? Apparently there is something wrong with the contractor who knows which he refuses to divulge.

A conference, consisting of Ald. Beamish, Ald. Ramsden, the mayor and the commissioner, was held Saturday, but nothing came of it.

Ald. Beamish, speaking to a reporter of The World concerning the continued delay, expressed himself in no uncertain terms, and stated that in his opinion it is due to nothing but the stubbornness of Commissioner Harris.

"He could get that work done if he liked to," he remarked. "It is all up to the commissioner, as he is the one that is holding the work up, but he will not tell us why. I maintain it is very wrong on the part of a civic official to hold up any public work in this manner, and it is time that the council looked into it. We are trying to do our part, and as representatives of the people we have a right to know why this work is being held up."

Questioned last night as to his views on the subject, Ald. H. H. Ball said: "Apparently there is something that has not yet been made public regarding the delay with the viaduct. The works commissioner distinctly stated two months ago that he had no intention of completing his share of the work until next spring. Apparently the finance commissioner also has some difficulty in the way that he has not stated to the council. At the conference with the board of control Mr. Drumshaw stated that the financing could be arranged and later contradicted when I confronted him with the statement. 'Have Been Delinquent.'"

"The works department seems to have been delinquent in not bringing forward a local improvement bylaw necessitated on Davenport avenue for the approach. This might have been arranged three months ago so that the delay could have been at least two months. There seems to be an understanding in the works department that there was no anxiety on the part of the citizens to have the use of the viaduct this year."

Deputation Goes to Ottawa To Ask for Ninety Airplanes

CONTRIBUTION OF 90 aeroplanes, which will cost about \$700,000, is to be asked of the Dominion government tomorrow by a deputation representing the Canadian aviation fund.

The deputation will leave Toronto tonight. It will appear before the government council committee, of which Hon. J. D. Hazell is chairman. It is proposed to use the 90 aeroplanes for training purposes under the direction of imperial government officers.

CHICAGO OFFICIALS HERE. Matt Frans, Edward J. Keindl, John J. Touhy, Stanley Adamkiewicz, Frank Klaus, Max Adamowski, Walter P. Sleffan, Thomas F. Byrne, Captain Morgan Collins, James Crowley, Frank S. Righelmer and John M. Kelly, all of Chicago, arrived in Toronto last night and were escorted thru the city hall, police headquarters and the General Hospital. The party is in charge of Matt Frans, alderman of the 20th ward, Chicago, and is composed of civic officials, forming the Chicago fire police and house convention. From Toronto the party goes to Montreal, Boston and various other cities to study housing, fire and police conditions.

GAS PRICE GOES UP. Peterboro, Aug. 7.—The Hydro-Electric Power Commission of Ontario, who own the gas plant here, have notified the city of a raise in price of 15 cents per 1000 feet from August 1st. The local price is \$1.10.

L.O.O.F. GRAND LODGE ELECTS OFFICERS

John McCorley, Ex-Mayor of Chatham, is Grand Patriarch.

GRAND SIRE EXPECTED

Tiny Tots From Orphanage Entertained Gathering With Patriotic Songs.

Over one hundred delegates arrived in Toronto yesterday from different points of America to attend the 45th annual session of the grand lodge and associate bodies of the Independent Order of Oddfellows.

The convention is being held in the Oddfellows' Temple, College street, and will be the arrival of the new delegates yesterday, there was an attendance of over five hundred people at last night's ceremony.

Seventy-five hundred more delegates are expected to arrive from different points in Ontario this morning. The Hon. F. C. Goudy of Denver, Colorado, chairman of the order, is expected to arrive in Toronto to attend the meetings of the grand lodge which commences on Thursday morning.

Miss S. Hoyt, grand patriarch, arrived yesterday from New York accompanied with W. Hutchinson, grand secretary, from Michigan, and J. Bushling of the Connecticut order.

Aside from the usual routine proceedings the afternoon and evening sessions were taken up with the election of officers for the ensuing year in both the Rebekah and the Grand Encampment lodges. John McCorley, former mayor of Chatham, was elected grand patriarch of the Grand Encampment and Mrs. W. Swartman of Waukesha, Wis., was elected grand president of the Rebekah assembly.

One of the important questions to come before the grand council on Thursday will be the selection of the place to hold the next convention. It has been suggested that the grand council change the date of the annual convention of the Oddfellows from the month of August to June. During the afternoon 20 orphans from the society's orphanage at the corner of Parliament road and Ossington avenue were brought in motors to the temple.

The tiny tots entertained the gathering with patriotic songs and at the close of the proceedings over \$100 was collected for the children.

Officers Elected. Following are the results of the election of the Grand Encampment: Grand patriarch, John McCorley; grand high priest, Frank Wagner; grand secretary, J. Bushling; grand treasurer, E. E. Gandwood; grand warden, Malcolm Sinclair; grand junior warden, Fred Evans; (mayor of Prescott); grand associate warden, J. Macdonald; (Toronto); grand treasurer, E. E. Gandwood; (Picton); representative to the sovereign grand lodge, Joseph Oliver, (Toronto).

Rebekah Assembly, President, Mrs. Swartman; (Waukesha); vice-president, Mrs. J. J. Thompson; (Toronto); associate warden, Mrs. F. Middleton; (Toronto); associate secretary, Miss V. Pearce; (Toronto); treasurer, Mrs. M. Dodson; (Chatham).

TORONTO TO MONTREAL RUN IN RECORD TIME

Motor Car Covers Distance in Eleven Hours Actual Running Time.

Montreal, Aug. 7.—Ray McNamara, driving a Maxwell touring car with three observers carrying despatches, beat the former record from Toronto to Montreal, 360 2-10 miles, by 5 1/2 hours. The running time was eleven hours flat, and the elapsed time eleven hours and forty-five minutes.

This run shows in what time automobiles can carry troops and supplies from all Canadian roads are not bad.

MEN MUST SERVE TO SAVE HARVEST

Government Campaign to Provide Farm Help in Full Swing.

MANY RESPOND
More Must Come Forward if Toronto is to Do its Duty.

Dr. A. H. Abbott, secretary of the organization of resources committee, stated yesterday that 260 of the men, which number is the quota of Toronto for work in the harvest fields, had offered their services and signed up at the office of the War Production Club, 15 East King street. A large percentage of the men left last night for the farms assigned, and the others will go out today. Of the men who signed up for work yesterday about 225 men were the employees of the T. Eaton Co. and the William Davies Co. The remaining were individual workers who had of their own accord responded to the call as expressed in the newspaper advertisements.

Encouraging reports as to the progress made in other municipalities have been received by Dr. Abbott. The mayor of Kitchener wired that every effort was being put forth to meet the situation. A meeting of employers was held in Woodstock yesterday, from which results are anticipated. In that town about 100 required from that town have been secured.

Meeting Today.
Invitations have been sent out to fifteen hundred employers of labor to attend a meeting in the parliament buildings this afternoon. Sir William Hearst, as minister of agriculture, will be the guest of honor. In order that Ontario's crops may be successfully harvested, S. R. Parsons, president of the Canada Manufacturers' Association, will ask the Toronto employers to release 4000 men as their contribution to the farm work. This meeting will be the inauguration of a campaign which will spread through the province.

Dr. Abbott has issued a number of letters which he has forwarded to various organizations, mayors of the large centres, editors of newspapers and others. He explains the present need of men and requests that they who receive the letter co-operate in sending men to the farms. Mr. Bowles explained that the Ontario Government will pay railroad fare both ways for men who volunteer for farm service, and the present employers are asked to make up to the men the difference in wages which they may receive from the farmer and that which they are now getting.

IMPORTANT BLOCK SOLD.

One of the largest real estate transactions of this city in some time was consummated yesterday when H. L. Bowles, proprietor of three restaurants in Toronto, purchased the northeast corner of Front and Bay streets for \$1,100,000. The lot is a frontage of 78 feet on Front street by 212 feet on Bay. The cash payment was \$25,000, leaving a mortgage of \$1,075,000. The property was owned by the Baldwin estate. Ever since the big Toronto fire in 1904 the property has remained vacant. It is the intention of Mr. Bowles to erect a restaurant similar to the one at the corner of Bay and Queen streets on the property.

TEACHER APPOINTED.

Miss Ada Adams of Peterboro joins Richmond Hill Staff.

Miss Ada Adams of Peterboro has been engaged as assistant teacher in the Richmond Hill High School to teach modern, English, and physical culture to the girls, and expects to take up her duties when school opens again.

Summer-Spoiled Skin Remoied by Absorption

As undus summer exposure usually leaves an undesirable surface of tan, redness or roughness, often freckles, too, the sensible thing to do is to remove such surface. There's nothing better for this than ordinary mercurized wax, which actually absorbs an unwholesome complexion. The thin layer of surface skin is itself absorbed, gently, gradually, so that there is no inconvenience, no detention indoors. Spread the wax lightly over the entire face at bedtime and take it off in the morning with warm water. If you will get one ounce of mercurized wax at the drug store, use for a week or so, you may expect marked improvement daily. When the underlying skin is wholly in view your complexion will be a marvel of spotless purity and beautiful firmness.

Don't let those summer wrinkles worry you; worry breeds more wrinkles. Banish them by bathing the face in a solution of powdered exfolite, 1 ounce, dissolved in 1/2 pint witch hazel. Use daily for a while this will be found wonderfully effective.

PLAYS, PICTURES AND MUSIC

THE ROBINS PLAYERS.

Edward H. Robins and the Robins Players next week, commencing Monday, Aug. 13, will present the funniest farce that New York has approved of for several years. This is H. H. Frazer's latest success, "A Pull House" written by Fred Jackson, the most popular of short story writers since O. Henry. Almost unheralded this play was produced in New York and achieved a brilliant and enduring success. In its bright lines, amusing situations and incessant action "A Pull House" set a new standard for such productions, and as the public taste runs almost exclusively to plays that amuse and entertain, this new production has had a wide appeal, not only in New York but also on the road where, among other places it played was Toronto, where it scored one of its best successes.

AT THE MADISON.

Patrons of the Madison witnessed a good holiday bill, which will be repeated today, in addition to "Big Timber," a drama of the Sierras, with Kathlyn Williams and Wallace Reid in the lead. A new Arbutic comedy, "A Rough House," shows Roscoe Arbuckle at his best.

DURBAN'S BAND POPULAR.

Crowds continue to throng to Scarborough Beach chiefly, no doubt, by the wonderful playing of Durban and his band. The great popularity that this band won when it played in the park in 1914 has been eclipsed by the present engagement. Whether one delights in light popular airs or high-class opera, the appeal of the band is alluring. It cannot play anything badly or indifferently. It would appear to be trying to make each number surpass the other in original effect. The Three Theodores and the well-known Apollo Trio, with additional attractions, and their vaudeville acts are among the best on the circuit.

MISS HUMBLE'S SONG.

"We're From Canada," the popular march song composed by Miss Irene Humble, was selected as a special feature of the musical program during the week of Philip Sousa, at the Hamilton's last week. On that occasion it was enthusiastically received by the large audiences and given generous applause. The young composer is being congratulated on this signal recognition of her musical ability by one of the world's most famous band leaders and composers.

"THE WEB OF DESIRE."

Regent patrons are being delighted this week with the story told by Ethel Clayton and a splendid company of the excellent "The Web of Desire." The favorite of the presentation, Mrs. Marshall, in the grasp of the husband, but elsewhere, and in places to which the tears of the audience are being shed. It is a real love story, and the tears are being shed. It is a real love story, and the tears are being shed. It is a real love story, and the tears are being shed.

DOG TURNED NASTY.

While the little five-year-old son of P. Kemp was playing with a Scotch terrier in front of his home on Kensington avenue, North Toronto, the dog, owned by Mr. Woods of the same street, suddenly sprang and bit the child in the face. Dr. Evans of Rosedale avenue was called, who cauterized the wounds, and it is thought that nothing serious will result.

SOLDIERS DEPART FOR POINTS EAST

Drafts From Forestry and Railway Construction Depot Leave Camp Borden.

Camp Borden, Aug. 7.—To the strains of Auld Lang Syne, played by the camp band, another large draft from the Forestry and Railway Construction depot took their departure this afternoon for an eastern port. Headed by the band, they marched to the train thru the cheering ranks of the men of the infantry training depot who lined both sides of the road. Lt.-Col. Osborn, A.A.G.; Lt.-Col. George, Major Healy, D.A.A., and Q.M.G. Lt.-Col. Dodge, A.D. of S. and T. and many other officers were on the platform to see them off. A picturesque feature of the leave-taking was the presence of the newly-joined Indian recruits of the Forestry depot, who marched to the station with the departing troops. Before the train pulled out members of the Y. M. C. A. staff distributed a large stock of magazines thru the cars.

Hon. Capt. and Paymaster J. E. Wylie, whose transfer from the Sudbury mobilization centre is noted in today's orders, accompanied the draft. This is the second forestry draft to leave today, the first lot getting away this morning.

As Capt. P. M. Flanagan, late of the 180th Sportsmen's Battalion, who was camp athletic director last year, has been struck off the strength of the C.E.F. Lt. M. S. Threlfall, 58th Battalion, also has been struck off. Lt. J. M. Cane, No. 2 Special Service Co., has been transferred to "D" unit, military hospitals commission.

Major J. C. Allan, C.A.S.C., has assumed the duties of officer in charge of barracks in succession to Lt.-Col. W. A. Collins, who has taken over the post of superintendent of military properties.

This morning Maj.-Gen. S. C. Mewburn, Maj.-Gen. John Hughes, Lt.-Col. Emmott, E. Clark, A.D. of S. of T. at Ottawa, and Maj. E. Trump, formerly of this military district, and now at militia headquarters, the list of officers for the new depot, battalion Central Ontario Regiment, went forward tonight to Ottawa for approval. While nothing can be announced authoritatively, until this is granted, it is understood that the higher commands will be as outlined by the Canadian press in Tuesday evening's Special to The Toronto World.

Another visitor to camp was Major D. Barris of the staff of Engineers Services from militia headquarters. Mrs. Mewburn accompanied Maj.-Gen. Mewburn to camp and will stay a few days as the guest of Mrs. Logie.

Maj.-Gen. Logie went to Hamilton today to inspect the Canadian Mounted Rifles Depot Regiment with Maj.-Gen. Leonard. Wednesday, Maj.-Gen. Logie inspects the Welland Canal force, returning to Hamilton Friday, where he will present Maj.-Gen. J. Anderson of the P.C.C.I. with the military medal. The presentation will take place in front of the city hall. On Friday the general will be in Toronto on district business, returning to camp Friday night.

In view of the approaching mobilization of the Canadian defence force, the belated announcement in orders of the appointment of Lieut. A. W. Lomas, 51st Regiment, as quartermaster of the 1st Battalion, C. D. F. and Lieut. G. F. Dilcock, 36th Regiment, and M. S. Elliott, 51st Regiment, as lieutenants in the same corps, would appear to be, one unacquainted with the speed of the official machine, like the work of a humorist.

OFFICERS WERE MISSING

Business of A. R. Club Held up Thru Their Non-Attendance.

Trouble still exists in the camp of the A. R. Club and despite the recent reorganization and election of new officers the organization's affairs are not yet running smoothly. Last night when the regular meeting should have been held, not one of the officers was present and no one knew whether to call the meeting off, or hold one themselves. As several prospective members were waiting to be initiated, it was finally decided to call a meeting, and H. Williams, one of the directors, climbed into the chair and called the meeting to order, after which it immediately formed itself into a social evening. What will be done at future meetings should the officers still stay away, has not yet been decided upon.

FIRE TRUCK IN COLLISION.

considerable damage was done to a motor car belonging to George Leacock, 14 South Drive, last night, when a motor truck from Lombard street crashed into it at the corner of King and Yonge streets while responding to an alarm at the customs house, where a pile of rubbish was being removed. The motor truck, which was heavily loaded, struck Mr. Leacock's car, then came to a standstill on the car track. The service was tied up for fully 15 minutes. Luckily no one was hurt.

Don't Spoil Your Hair By Washing It

When you wash your hair, be careful what you use. Don't use prepared shampoos or anything else that contains too much alkali, for this is very injurious as it dries the scalp and makes the hair brittle. The best thing to use is just plain purified coconut oil for this is pure and entirely greaseless. It's cheap, and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

M'BRIDE FUNERAL TO BE HELD TODAY

Ex-Premier of British Columbia Had Lengthy Illness.

Canadian Associated Press Cable. London, Aug. 7.—The funeral of Sir Richard McBride, who died yesterday, will be held from his residence in Throp's square to Golders Green crematorium tomorrow. Sir Richard was gravely ill for several months. His passage to Canada was booked weeks ago. At the time of sailing he was in a comatose state, practically hopeless. Sir Richard McBride was a highly acceptable figure in many circles here. His illness, since he assumed the position of chief official representative of British Columbia, rendered it impossible for him to take his place amongst the overseas representatives, which would certainly otherwise have been his. He was well known in London, however, on account of visits paid previously. A natural dignity and unaffected manner commended itself to all with whom he was brought in contact.

SENATE FIGHT INVOLVES MUNICIPAL INTERESTS

Features of Consolidated Railway Act to Be Subjected to Attack.

An Ottawa despatch to The Toronto Telegram yesterday said: "Corporate interests are sharpening their axes for a grand slaughter in the senate of those features of the Consolidated Railway Act that are designed to safeguard municipal interests. The senate railway committee, this morning organized for a hearing of the bill. Senator Thompson, Liberal, of Fredericton, is chairman. There will be another meeting Thursday, when non-contentious clauses will be taken up. The contentious ones will be assigned special dates. Liberals predominate on the railway committee, but recent appointments to the senate, including Senators Blain and Macdonell, furnish some valiant champions for the hydro-electric cause.

"The man who represented the Toronto and Niagara Power Companies when the bill was before the commons committee, had an interview with Sir James Loughheed, government leader in the senate. He was accompanied by Senator Frederic Macdonell.

Brantford Manufacturers Will Release Five Per Cent. of Help

Special to The Toronto World. Brantford, Aug. 7.—The urgent farm aid situation, which is really critical in this district, brought together the manufacturers of the city this afternoon. They decided that on account of the serious situation it was imperative that certain men be released from the various factories for this work, and that the purpose of harvesting the crops. Already the board of trade has placed 150 men on Erant County farms. Mayor Bowby today also appealed to the men of the city to turn out and assist the farmers to gather in the harvest.

CAR HAD DISAPPEARED.

Private Frank Gourlie, 43 Beaconsfield avenue, was taken into custody last night by Policeman 122 on a charge of stealing a motor car belonging to Central Motors, Limited, 415 West Queen street. W. Gibson, the complainant, had left the car standing at the curb opposite the store room where he went to get a wrench, and on the return the car had disappeared. The policeman saw Gourlie driving the car on the street and promptly placed him under arrest.

Brantford Maltose Denies He Murdered His Com Patriot

Special to The Toronto World. Brantford, Aug. 7.—Carmelo Callala was arraigned in police court this morning charged with the murder of Gio Batt Bonello, whose body was found in D'Avigny Creek last Wednesday. He appeared nervous in the box, but when asked by the interpreter what his plea was, answered vehemently in Maltese: "I never did it." Acting Crown Prosecutor S. A. Jones, K.C., asked that a remand of a week be given, and this was granted.

Why You May Walk or Talk in Your Sleep

By DR. L. K. HIRSHBERG
A. B., M. A., M. D. (Johns Hopkins University)

TO say that a man is a "dreamer" commonly means that he is not a practical person of deeds, but one who operates his mind and seldom his muscles.

This popular term of disapproval is a bit misleading. It fails to state the true definition of a dream, to wit, activity of the intellect when volition is suspended.

Man sleeps that his flesh may for the most part be in repose for a period long enough for recuperation. Strong enough, the automatic, instinctive mechanism of the flesh, such as the heart beat, breathing and the flow of fluids continue, but the will to do cannot be shifted over and translated into action. Habits and instincts may in a measure go on in dream sleep, but the will and the wish to perform may be present consciously.

Nevertheless, the direct links and pathways to the muscular are, as a rule, blocked. The will may govern the ideas, judgments may be formed more correctly and speedily in dreams than in the wide-awake world, but the transition into movements is not there.

Prof. John Basset Chapin, in recent researches on dream sleep, says that the ability to pay attention is absent in dreams, and confirms the saying of old men while awake are in one common dream, but each when asleep is in a world of his own.

If prophesies, inspirations, solutions, and realizations are found in a dream it is because your mind, undisturbed by working influences, has solved the puzzle by an assembly of the facts already gathered there—ideas and strands of knowledge put together in peaceful sleep for the first time.

What we may walk, talk or evidence in dream sleep are manifestations in our physical world of the ideas and feelings that are in our mind. These are not realizations of the imagination, but are lacking in volitional states. These are often repeated, instinctive or habitual acts, stated automatically by some combination of thought similar to that of the real waking world.

Sensations, perceptions and memories received since infancy and stored up in the tissues of the human person are like dissociated films, plates and negatives. They are sculptured impressions, stamped in the flesh and the switchy or exchange place called the brain, coming and bringing them into proper conjunction, and in the dream state they are apt to appear in haphazard, loose, disjointed fancies, or in widely separated groups or fragments of ideas.

Therefore, the nearer a person is to the waking state the more aptly are the brain paths through which ideas and feelings flow. That is to say, the beaten channels are unblocked and the messages are allowed to flow in the streams through which they first entered the diffracting tissues, and to couple themselves up intelligently, symmetrically and with their proper associates.

Answers to Health Questions

- 1.—A. K. Q.—Please tell me how to get rid of dandruff.
- 2.—M. J. feet are flat. Please tell me how to raise the arches.
- 3.—What will remove pimples from my face?
- 4.—Please tell me what to do for a shiny nose and face.
- 5.—Dandruff occurs in tiny flakes of dry epidermis as well as in oily state on the scalp. Red blotches may or may not be present. Sometimes there is itching and burning, sometimes not. Sulphur is a popular remedy. I dream of it with 10 grains each of resorcin, salicylic acid and sulphate of quinine to an ounce of petrolatum used three times a week does good.
- 6.—Have a proper support made fitted with a key to raise the arch by degrees each day. Dancing exercises are also beneficial as is massage.
- 7.—Acne or pimples are little localized infections in the skin, due in part to the greasy character of the face or other tissues resulting from the kind of food eaten and personal habits. They may also be caused by the germs which sequester in the pores of the flesh. Sometimes powdered sulphur is a good treatment, at other times ammonium sulphide ointment may be used. Never use both remedies at the same time.
- 8.—Reduce the amount of oily, fatty, greasy, rich food taken into the body. Avoid the use of soap or hot water on the skin, but wash with cold water then cleanse with a greaseless peroxide cream.

WINIFRED BLACK WRITES ABOUT Life's Cross Roads

Copyright, 1916, by Newspaper Feature Service, Inc.

Winifred Black

John because John had tried to get him to take the manly way—not to spend his health and his time at the corner saloon. William chose to be controlled by the childish pole of the world's axis, so he killed his brother, like Cain of old, to settle the argument.

"I can never get John back, but you can give me Bill," said the old mother. "I've felt like I wanted to come before this commission on my knees and ask for my boy." And then the story told how the people standing near her sobbed. I wonder why?

Was it because they felt sad to see such an old woman begging the world to give her another chance to choose his road? Or did they sob because they were elderly people and they doubted Bill's ability to keep the ways of your father and your grandfather, with all its thorns and heart-aches, would soon be done?

It's hard to tell. At least, I'm thankful I was not on that commission to have to say "Yes" or "No" to that poor old woman.

Read the Signs.

What about those "tendencies to be manly or childish" the speaker mentioned? Did he mean that when we're born we lean one way or the other, and that it all depends upon ourselves, when we are old enough to leave school, to decide whether we'll keep on leaning toward darkness or turn toward the sunshine and grow—or, having a leaning toward the light, lean even further and be really successful?

Or—but, oh! it's too very complicated when you get to thinking about the ways of your father and your grandfather, and just how much of an excuse they furnish for what you do.

If we're born healthy like John and Bill, it doesn't take a technical education to make us see the two ways to go or to help us to decide which one is better—even if it leads to death.

If the commission lets Bill out on parole I wonder what he'll do, don't you?

It's very hard for a man who's been in prison to get work and hold it. And the neighbors will talk a good deal, though they did sign the petition to please his old mother. And it's much easier to be a little boy than it is to be a man, isn't it, now?

I wonder if the mother remembers the time she first noticed Bill wanted to be a little boy all his life? Perhaps she thinks she can make a man of him now, just as she could have then if she hadn't loved to see him "keep his baby ways."

What a lot of things there are in the world to start us wondering, aren't there?

Of course, there are all the big wonders we read about every morning and pack away for our minds. But I was thinking of the little bits of news—not really news at all, I suppose—just "things."

A young bachelor was so desperate that he wrote to the mayor of the city the other day, so I read, and asked him to help him find a wife:

"She must be a widow—plain, young and jolly. No old maids need write—I hate them," so he wrote. He also stated that he was thirty and that he wanted his wife to be "sweet, slow, receptive—and jolly."

He insisted she must be controlled by the manly spirit I'd been reading about, and had decided he could and would be the grown-up member of the family. Or was he so delightfully childish that he couldn't endure to have any one about who was not jolly in season and out, like himself?

Advice to Girls

By Annie Laurie

DEAR ANNIE LAURIE:

We are two young girls, 15 and 19, and we are keeping steady company with two young men, 20 and 21. We love them dearly and are sure they love us, although they have never told us so. How shall we encourage them? We have given up our other beaux for them.

Also, is it proper for the gentleman to kiss the young lady good night upon returning from a party if they are not engaged?

S. AND E. You are indeed unwise. My dear girls, to have given up all your other friends for these two unless you are engaged. You ought to have all the good times you can while

you are young. I don't mean, of course, that you ought to be out every night, but that you ought to have several good friends if you care for good times.

It is considered distinctly improper for a young man to kiss a young woman unless they are engaged. Kisses are for relatives and sweethearts, and a man has not the right to call a woman his sweetheart unless they are engaged.

DEAR ANNIE LAURIE:

Some time ago a young man friend of mine asked to keep company with me, but I felt that I did not care enough for him, and so refused. Since then I have learned to like him very much, and regret that I refused. Please advise me what to

do to win him back.

LONESOME.

LONESOME: I would advise you to be patient, little girl, and if you like him he is sure to notice it and he will begin to offer his attentions again. But dear child, don't agree to give any one all of your time unless there is a definite engagement. It is very unwise to devote all of your time to any one boy no matter how much you like him.

Annie Laurie will welcome letters of inquiry on subjects of feminine interest from young women readers of this paper, and will reply to them in these columns. Letters to Miss Laurie should be addressed to her, care this office.

Revelations of a Wife

By ADELE GARRISON

Is Dicky Really Jealous?

HAD I dropped a bomb shell into the middle of the dinner table, around which the Underwoods, Grace, Draper, Dicky and I were gathered, I do not think it would have caused more astonishment than did the little quotation I had recklessly cast at Harry Underwood in returning his salutation.

The sight of Grace Draper and my husband in intimate, low-toned conversation, coupled with the knowledge of Dicky's undue interest in the girl, had saddened me. At just that moment Harry Underwood had uttered some nonsense about being my partner in manufacturing a steamed clean dressing I had concocted, and he had responded audaciously in the refrain of a popular song: "To the end of the world with you."

I suppose in my excitement I must have pitched my voice higher and louder than is usual with me. At any rate, I was terrified at the sound of my own voice. It seemed to my imagination as if I had blown a trumpet and the sound had paralyzed the diners.

Dicky turned around as if he had been shot and stared open-mouthed at me. Miss Draper looked mildly astonished, and I fancied there was a bit of malice in the wondering look she bestowed upon me.

"Lillian's eyes twinkled with an approving amusement that reassured me. Only her husband presented an absolutely unmoved exterior, although I knew that really he was both astonished and shocked at the dinner table.

"That's a bargain," he said gaily, "remember I have your pre-r-r-romance."

My words were light enough, the expression on his face was one of careless banter, but I had an uncomfortable little feeling that he had just been told an indefinable sinister something which I always felt menacing when in this man's presence. I regretted the impulse that had given birth to the rash words I had uttered.

Dicky Is Puzzled.

But Dicky's attitude during the rest of the dinner made me wonder if, perhaps, I had not struck the right way of dealing with him after all. He was plainly puzzled.

I have always been quiet and reserved, and have guarded my own dignity closely. He has heard me express my dislike of Harry Underwood, and must have guessed my resentment of the man's burlesque upon the subject of vulgar repartee addressed to his friend must have started him.

Of course, he took no open notice of the incident, but there was no more absorption in Miss Draper's fascinating. Dicky divided his remarks and attentions impartially between them for the rest of the evening. My little while he cast a furtive glance in my direction, which would have greatly amused me if the remark of "I don't mean so much to me emotionally."

The sight of his puzzled uneasiness was like a heavy draught to me. Surely, I reasoned to myself, my little forebodings concerning Harry Underwood's probable future conduct were too ridiculous for consideration.

I knew that I was not hurting Lillian's feelings by encouraging her husband's salutation, for I had understood the matter-of-fact relations between the Underwoods.

Besides, I knew that Lillian would approve any action of mine calculated to distract Dicky's attention from his beautiful model.

I made no further glib speeches, but I purposely made my manner toward Harry Underwood more friendly than I had ever done before.

The way in which he responded to my unwonted friendliness reassured me. He was deferential, attentive. I had the feeling that there was no word or look of mine that escaped him, yet there was

no hint of the unwelcome admiration which had marred my other talks with him.

I told myself that my imagination had led me wildly astray in my conception of the man. There probably was nothing sinister at all beneath the surface of the exaggerated burlesque with which he was wont to garnish his conversation.

What Harry Said.

By the time the dinner was over and we had adjourned to the living room for our after-dinner coffee, I felt that I had misjudged Harry Underwood, woefully; that he was in reality a charming and wholly harmless acquaintance.

He escorted me to a big easy chair, drew another one near it and settled down as if he meant to be a fixture there for the rest of the evening.

We had barely finished our coffee, however, before Dicky attempted to break up this little arrangement.

"Here Tommy Tricker, you must sing for your supper," he announced, coming over to where we sat.

"Not much I don't," returned Mr. Underwood, "I'm entertaining Mrs. Graham for my bit."

"You lazy pup," Dicky retorted, with a threatening gesture. "If you don't come out of that this minute and let out that Henri Scott voice of yours I'll make your face look like a German trench."

Mr. Underwood raised himself to his full height, and turned a sorrowful, pitying glance at Dicky. Whatever else he may be, he is a wonderfully clever actor.

He told me once that Mr. Underwood was formerly a member of the theatrical profession. As I watched him in his profession with Dicky I wondered why he had ever left it.

He laid his hand on Dicky's shoulder tenderly.

"I had to see how far jealousy will carry a man," he said patronizingly. "Don't grudge me too much, little one, and, his tone had the old mocking note I disliked. "I shall soon return."

He walked to the piano. To my surprise Dicky's face had reddened at the other man's bantering. I caught my breath as he turned to speak to me, after all, he was jealous of Harry Underwood!

FAMILIAR scene, isn't it? Of course, you and YOUR sweetheart never have such "spats," but you've seen lots of OTHER couples with wrinkled brows, tightly pressed lips and eyes that stare straight ahead in stubborn unresponsiveness, haven't you? Yes, indeed, all TOO often!

There's a strange silence also—the stillness that falls just after a battle—a throbbing, thrilling "I won't give in" silence that wrings the heart and pounds in the ears and, sometimes, actually is seen rolling down flushed cheeks. Strange, isn't it, that neither side ever wins—but ALWAYS loses? The greatest sufferer is Cupid—poor chap, a prisoner of war, his hands are tied and his heart is breaking. TAKE WARNING! Release him quickly, or else love dies.
