French Peeved Over MacDonal's Allied Conference Bid DELEGATES STILL BACK NOMINEE

ARE SUSPICIOUS OF AGENDA OF BRITISH PREMIER

French Foreign Office Not in Accord With His Programme. CABINET CONSIDERS Say Neglect of France May Compromise Success of Negotiations.

(British United Press.) Paris, July 4.—The French are disgruntled because Premier MacDonald of Great Britain has sent out invitations to an inter-allied conference in London on July 16, accompanied by an outline of an agenda. They are suspicious, believing MacDonald is capable of placing certain matters on the agenda of which France would not approve. It is suggested that this neglect of France may compromise success of the proposed conference in advance.

As a matter of fact, until noon the French Government had not received an invitation, but as the conference results from a talk Premier MacDonald and Herriot had at Chequers recently, it is assumed that the French are invited to occupy a position similar to that of Great Britain.

The cabinet sat for two hours this afternoon discussing the situation created by the form of MacDonald's invitation.

(By Canadian Press.) May Be Counter Suggestions. Paris, July 4.—The French Government is not in accord with Premier MacDonald on the agenda for the forthcoming allied conference in London as set forth in the British Premier's invitation to the other allies, it was said at the foreign office this morning.

The French, it was added, will be unable to accept the British idea of taking from the reparations commission the prerogative of deciding when Germany shall have defaulted in the execution of the Dawes plan.

Mr. MacDonald's instructions to the British ambassador here in this connection are taken in Paris as mere suggestions concerning the agenda and the French delegation to the conference will have counter suggestions to present in London.

TAKES EXCLUSION MATTER TO ROME Jap Embassy Hopes For Audience With Pope—U. S. Flag Returned.

(By United Press.) Tokyo, July 4.—The immigration issue between the U. S. and Japan will be laid before the leaders of the Catholic Church at Rome. M. Gainmushio, it was announced today, is proceeding to Rome, hoping for an audience with the Pope.

Condemns Fascisti, Is Badly Beaten Up Rome, July 4.—(By United Press.)—A trolley-car passenger at Milan was seriously beaten yesterday by a gang of 50 Fascisti when he voiced open condemnation of the Fascisti party.

Arms Are Barred At Mexican Election Mexico City, July 4.—(By United Press.)—Three hundred secret police will go on duty Sunday with orders to see any civilian carrying arms during the Mexican elections. Those arrested will be sentenced to one month in prison, without the option of a fine. The ruling includes arms and weapons of every kind, even to cans.

To Be Re-united After 48 Years

Council Bluffs, Iowa, July 4.—After having separated for 48 years, each believing the other dead, Miss Margaret Leahy, 72, of Dundas, Wentworth, Ontario, and her brother, John Leahy, aged 76, of Council Bluffs, Iowa, are to be re-united. Leahy left home in 1876 and a year or so later lost track of his sister, Margaret Leahy, the only remaining member of the family. He came to Council Bluffs, became a building contractor and was successful. Some years ago he lost his health and his property. Old friends took up the search of his sister for him. She was finally found in Dundas and wants her brother to go to that town and live with her. The County Supervisor will pay his railroad fare and expenses of the trip.

TWO KILLED WHEN BOYS START ROW

Aged Man Whom Lads Were Teasing Faces Charge of Murder. Exeter, N. H., July 4.—Two men, one of them a police officer, were shot to death last night while attempting to quell a disturbance caused by boys. Parker McDuffy, an aged man, near whose home the shooting occurred, was arrested charged with murder. The dead are Patrolman Albert L. Colon and Arthur C. Bent. According to meagre reports of the after in possession of the police, Colon went to McDuffy's home to quell a number of boys assembled there to tease the old man, who was regarded as eccentric. It was reported to the authorities that McDuffy came out of the house with a pistol when the two men approached, and shot them both down.

WILL BENEFIT ALL PERMANENT MEN

Superannuation Scheme Provides For Civil Servants, Wives and Children. Ottawa, July 4.—The Civil Service Superannuation bill, which passed committee stage in the House yesterday, will apply to all permanent employees in receipt of \$600 or over, and also to those classed as temporary, but who were really permanent. Each employee would make a contribution of five per cent of the salary. Retirement would be optional at 65 and compulsory at 70. After 10 years' service each employee would be entitled to an allowance of one-fifth of the average salary during the last 10 years multiplied by the number of years of service not exceeding 35. Widows would be entitled to an allowance of one-half of the civil servant, while the allowance for each child would be 10 per cent, up to the age of 18.

Say 'Quake Damage Report Exaggerated'

Tokyo, July 4.—Denial that the earthquake in Tokyo, Yokohama and Yokohama, the Japanese naval base, last September, cost the navy the major part of its oil reserves, as had been reported, was made in the lower House of the Diet today by Admiral Hya Takarabe, Minister of the Navy. The minister, answering an interpellation, said the loss was comparatively small.

Wire Briefs

Southampton, Eng., July 4.—Pierre Wertheimer's crack four-year-old, Epland, was shipped to the U. S. today on the Berengaria. Berlin, July 4.—(By United Press.)—The premiers of the Reich States have approved the Government's acceptance of the experts' report. Halifax, N. S., July 4.—John McPhee, aged 84, a native of Lochabar, Antigonish county, and a veteran of the American civil war, died in Dartmouth last night.

Ottawa, July 4.—Today the Commons will discuss Canadian National branch lines bills which have been amended by the Senate, then public works estimates. The Senate will sit.

Pretoria, July 4.—(Canadian Press cable, via Reuters)—Premier Herriot, who has just assumed office in the South African Union, has called J. H. Thomas, colonial secretary, express his hope for the continuance of cordial relations between His Majesty's Government and the Government of the Union.

Sima, July 4.—(By United Press.)—Having arrived safe at Multan, a silk centre in the Punjab district of India, after a short flight from Ambala, where they had been halted by engine trouble, the U. S. world fliers were due to fly to Karachi, near the mouth of the Indus, on the Arabian Sea, today.

WOULD WELCOME CANADIAN ENVOY AT WASHINGTON

British Ambassador to U. S. Says Much Work at Capitol. IS VISITING CANADA Sir Esme Says Representation From All British Dominions Desirable. (Canadian Press) Ottawa, July 4.—I should welcome a Canadian minister at Washington," said Sir Esme Howard, British Ambassador at Washington, in an interview with a Canadian Press representative, at Government House here. "For one reason because it would relieve me of a vast amount of work," he added with a smile. Sir Esme is in Canada for 10 days on an unofficial visit. Before returning to Washington he will spend two days in Montreal and two days in Quebec. Sir Esme said that the Canadian work of the Washington embassy had greatly increased during the past few years and it had been necessary to enlarge the staff.

DR. MACLAREN TO VISIT SOUTH AFRICA

Will Be One of Delegation of Eight From Canadian Parliament. Ottawa, July 4.—A parliamentary delegation, consisting of four members of the Senate and four of the House of Commons, will shortly visit South Africa as guests of the South African branch of the Empire Parliamentary Association. An extended tour of South Africa will be made. The delegation will consist of the following: Right Hon. Sir George E. Foster, Senator; Senator Robert Watson, Senator W. B. Willoughby, Senator J. P. Casgrain, Dr. Murray MacLaren, M. P. (St. John city), J. F. Fafard, M. P. (Quebec), E. R. Chevrier, M. P. (Ottawa) and W. G. McQuarrie, M. P. (New Westminster).

BERLIN DISCOVERY CAUSES SENSATION

Lot of Munitions Found in Communist Quarters in Landtag. (By United Press.) Berlin, July 4.—Political police searching Communist quarters in the Reichstag in the Prussian Landtag today found a quantity of grenades, explosives, caps and pistols. The discovery caused a sensation. A number of documents, which police say held damaging evidence against the Communists, concerning plans of the Reds, termed by the police as "dangerous" were also found. The Communists tried to prevent the police from searching the rooms, but were unsuccessful. The Prussian Minister of the Interior, Severing, on being informed of the size of the seizure, hastened to the Landtag to make an investigation.

SAYS HELP OF U. S. NEEDED IN EUROPE

British Premier Hopes Country Will Have Delegates at Conference. (By United Press.) London, July 4.—"The time must come when America will have to help in some way to solve European problems," Premier Ramsay MacDonald declared in a speech in Wales last night. "I shall be glad to see the United States represented at the forthcoming reparations conference, not fully, but helping by watching and concentrating. I believe the conference will be successful, but I will not attempt to prophesy."

A. P. PATERSON ONE OF DELEGATION

Will Go to Montreal For Interview With C. N. R. Chief. At a meeting of the "Port Committee" this morning A. P. Paterson was added to the delegation which is to interview Sir Henry Thornton in Montreal, to take the place of Hon. W. E. Foster, who found it impossible to go. His Worship is writing Sir Henry that the delegation will meet him in Montreal on Monday morning at 11:30 and they will leave St. John on Sunday afternoon. The matter of additional trade for the port is the chief item to be taken up with the head of the Canadian National and the committee are hopeful of bringing back good news.

SERIOUS CHARGE IS WITHDRAWN

Basil Malley, at Newcastle, Now Is Being Tried on Assault Count. (Special to The Times.) Newcastle, July 4.—In the police court this morning a charge against Basil Malley, who was arrested for attempted murder of George Bennett at Chatham Head on June 21, was reduced to assault and occasioning actual bodily harm. The accused elected to be tried summarily by Magistrate Demers. George Bennett gave evidence of the alleged assault this morning.

King to Review Fleet at Spithead

London, July 4.—King George will review more than 200 warships at Spithead the end of July at what is expected to be the finest naval spectacle seen in British home waters since the war. At the last naval review at Spithead in July, 1914, 220 warships were at anchor, but the navy then possessed more capital ships than it does today. Among the big ships to participate in the July review will be the Queen Elizabeth, the Barham, Malaya, Valiant, Warspite, Revenge, Royal Oak, Resolution, Royal Sovereign, Centurion, Ajax and Thunderer.

BRITAIN FACES GREAT STRIKE AND MILLIONS LOSS

Seven Hundred Thousand Men are to Quit Their Work Tomorrow. AFFECTS HOUSING Trouble is Echo of Former Dispute—Hope Strike Will be Brief. (By H. N. MOORE (British United Press.) London, July 4.—Millions of pounds will probably be lost through a building strike which will begin tomorrow. The strike is generally regarded as a national calamity, holding up the housing programme which it was hoped would get well under way during the summer weather when immense and rapid progress is urgently needed to solve the pressing problem of providing homes for the homeless. Echo of Old Trouble. The dispute developed along unusual lines. Several months ago the men demanded an all round increase of four per cent and a guaranteed week. The employers offered an increase of half this amount and the building trades accepted this offer everywhere except in Liverpool, where an unofficial strike broke out. Owing to the high wages in that area the proposed agreement would have meant an actual lowering of wages. The employers took the next step when they refused to ratify the national agreement unless the strike at Liverpool ended, and threatened a national lockout. The men, angered at this counter move, demanded of their officials that retaliatory action be taken. The Government then intervened by the appointment of a court of enquiry. The men in their turn, however, refused to accept the authority of the court. It is generally believed that the strike will not be of long duration.

NEW YORK HEIRESS WILL WED PRINCE

Engagement of Miss Alice Astor to Russian Nobleman Announced. New York, July 4.—Miss Alice Astor, sister of Vincent Astor, and daughter of Lady Ribblesdale and the late John Jacob Astor, is engaged to marry Prince Olesensky Nieldinsky-Meletzky of Russia, says a dispatch from London. During the world war the Prince was married to Princess Catherine Alexandrovna, a daughter of Czar Alexander II. After they lost their property in the Russian revolution they went to England, and last December the Princess obtained a divorce. Miss Astor last year came into complete possession of \$5,000,000 trust fund created for her by her father.

VISIT IS ENDING

Seven British War Vessels Will Leave Tomorrow For San Francisco. Vancouver, B. C., July 4.—The visit of H. M. S. Hood, Repulse and H. M. S. A. S. Adelaide, is drawing to a close. The festivities which have prevailed since their arrival on June 25, will terminate tonight. At 6:15 a. m. Saturday the warships will leave to resume their world cruise. The Hood and Repulse have already steamed 28,000 miles and have about 12,000 miles yet to go before they reach England on September 29. The light cruisers Delhi, Dauntless, Dragon and Danae, will join the larger vessels off Victoria on Saturday and the squadron of seven will then head for San Francisco where they are due on July 7. After leaving the Golden Gate the ships will part company, the Hood, Repulse and Adelaide passing through the Panama Canal, while the British light cruisers will proceed down the west coast of South America and through Magellan Straits to the Falkland Islands.

SAYS MARRIAGE AID TO CAREER

New York, July 4.—"Certainly it is possible for a woman to have a career and also be happily married," said Mrs. Adela Rogers St. Johns, who has had a consistent and substantial record to fame as a magazine writer. "Marriage is a protection to any woman who negotiates a career," she continued. "It protects her from diverting emotions and makes her stronger and more capable in her efforts." An Englishman Mrs. Johns is happily married, the mother of two delightful children and devotes persistent office hours to her work. She lives in Hollywood and is in New York on business. "Marriage is a partnership," interjected Ivan St. Johns, her husband, who is a business man. "Yes, that's right," said his wife emphatically.

Surgeon Wants Part of Human Ear; Many Respond to Call For Volunteers

Chicago, July 4.—Philanthropy, mother love, desperation, a father's anxiety to secure money to care for a little son and bravado all figured in answers to the advertisement by a plastic surgeon for someone who would sell part of a human ear. A man whose son is a patient, a young man who was in a runaway accident eight months ago, who was dragged along some distance by a frightened horse and half his left ear had to be amputated. Now he desires to marry and is anxious to have the ear patched up. A man whose son is the philanthropist. He wanted no pay, but desired to help. He already has given away much blood for transfusion and numerous patches of his skin. The mother of six children, their sole support, offered her ear. She has already sold her blood in cases of transfusion. Another applicant said he was desperate with hunger. A lake sailor came in and said he would contribute an ear just for the fun of the thing.

GUARDS ARE KILLED

Two Jugo-Slavs Die as Result of Fusilade on Italian Frontier. (By United Press.) Rome, July 4.—Two Jugo-Slav frontier guards were killed in a frontier skirmish near Trieste, according to reports from that city which said the fighting took place on Italian territory. The guards repeatedly fled toward an Italian post and the garrison, thinking it was being attacked, returned the fire.

Winnipeg Masons Get \$1.25 an Hour

Winnipeg, July 4.—The strike of Winnipeg bricklayers and stone masons which was called on Monday, ended abruptly when an agreement was reached with the employers, which will bring the union scale of wages up to \$1.25 an hour. This represents an advance of 15 cents.

DELEGATES TAKE RESPITE AFTER SIXTY-FIRST VOTE

Number of Ballots Taken So Far Already Four Above Record. PROGRESSIVES MEET Lafollette's Candidacy Likely Will be Announced Tomorrow. Madison Square Garden, New York, July 4.—The continued deadlock in the Democratic National Convention, which seeks to name a candidate for the Presidency of the United States, and which passed all national convention records when the 58th ballot was started, remained unbroken today after 61 votes had been taken. Tired out with their protracted efforts to reach a solution, the delegates were granted a respite after the 61st ballot, planning to resume their task at 1 p. m. The deadlock was attributed by Rockwell to the failure of favorite sons to withdraw and leave the race to the leaders. Senator Glass was the only member of this group to release his delegates yesterday, but the Virginians could not make up their minds to take his advice to go to McAdoo and decided to stick to him a while longer.

TEACH FIRE PREVENTION IN SCHOOLS; JUDGE OF BOARD AT MEETING HERE

Committee is Appointed to Take Important Matter to Authorities.

A step of far-reaching importance in the universal cause of fire prevention was taken by the New Brunswick Fire Prevention Board at its semi-annual meeting here yesterday when it was unanimously decided to interview provincial education authorities with respect to the inclusion of a fire prevention manual in the curriculum for the schools of New Brunswick.

The value of instruction of this nature in our schools, said Mr. McLellan, this morning, "cannot be estimated in dollars and cents in the matter of carelessness. If we can profoundly impress on the rising generation the utter folly of the enormous losses we sustain every year from preventable fires, I look forward to the time when such a systematic endeavor will achieve results scarcely dreamed of at present."

In his pronouncement on Dr. Logan's manual, Superintendent Mackay says this book was written by a Nova Scotian of wide experience and of the suggestion of the Fire Prevention Board of the province. Continuing, he says:

"In every school, every day, the teacher should give lessons—object lessons when possible—as nearly objective as it can be made, on one or other of the general character-forming, habit-forming, thought-developing subjects without which the mechanical acquisition of reading, writing and ciphering is not educationally worth while. An oral lesson every day to help the child understand his or her environment without a sad experience of the consequences of the neglect of the subject, is to be preferred to the most tedious and unprofitable of the most terrific in action, and it is therefore appropriate that fire accidents should be the first text on the prevention of accidents to be put into shape for the education of the public."

"Fathers and mothers need this education as well as the school boy and girl who are going to school to get the pointers possible for a useful, happy and long life to come."

The Advisory Board of Education examined the MS. and recommended it to the C. P. I., which has approved such instruction. The Superintendent of Education as secretary of the Council of Public Instruction has pleasure in bringing to the attention of teachers, school trustees, and inspectors the great importance of such oral instruction in every school—rural, village and urban—and of the value of books in the hands of the children so far brought into their homes. The text should be on every teacher's desk where it will form a convenient source for oral lessons which should cover every part of the year. It should also be every school library, so that anyone who cannot pay the nominal price for it may have free use of the information which the book well covers a very important section of "useful" knowledge which should pervade the atmosphere of every school room during many of the teacher's daily talks to the whole school."

In explaining the board's plans, Mr. McLellan said it was the intention at present of having the board pay the cost of placing the manual in the schools. He paid a tribute to Dr. Logan in this regard in that he had gone to much trouble in drawing up the book and had now given it to the world. Dr. Logan's manual has eleven chapters on such topics as matches, lights,

cooking and heating, smoking, celluloid, etc. Fire Losses.

In his report to the board yesterday, the Fire Marshal announced that fire losses in the province for the six months ended June 30 this year amounted to \$699,000. He pointed out that this was a decrease of \$158,000 from the corresponding period last year—or slightly more than ten per cent. This was a most gratifying decrease when compared with the same period for 1922. In that year, the figure stood at \$857,000, a decrease of more than half a million dollars.

The board was first organized, Mr. McLellan said, in 1921. In its first year the losses amounted to \$3,000,000 in Nova Scotia schools, and if the same ratio months as for the first six months, this year should see the annual loss reduced considerably.

Mr. M. B. Edwards presided at yesterday's meeting and the following were present: Mayor McKenna, W. B. Snowball, R. S. Ritchie, John Thorn, Mr. McLellan, Routine, Superintendent of the rest of the meeting's time.

DELEGATES TAKE RESPIRE AFTER SIXTY-FIRST VOTE

(Continued from page 1.)

A proposal to amend the rules to eliminate the low candidates on each ballot until only three remained aroused considerable discussion, but no one seemed to know just how it could be done.

Progressives Convene

Cleveland, July 4.—The National Convention of the Progressive Party, which opened here today, is expected to adjourn tomorrow night.

The big public auditorium of Cleveland where the Republican national convention met in June, was the scene of the gathering. About 700 delegates will be admitted on credentials.

Extending Senator Robert M. La Follette, after ridiculing the Republican party, scolding the Democratic and fiercely denouncing Communists, William H. Johnston, head of the International Union and chairman of the conference, struck the keynote of the convention. Independence in politics rather than a "third party" movement was emphasized as a slogan.

Senator La Follette was hailed as "the tribune of the American people, their greatest spokesman and their most loyal defender."

The recent Republican national convention was referred to as "a lifeless gathering of political puppets," the gathering of delegates at a "disorderly meeting, which responded to boss control quite obediently in its voting."

Mr. Johnston claimed the present convention represented 8,000,000 citizens.

Many people have been puzzled by the fractions of votes cast in the Democratic convention and have wondered how men and women could be counted in halves and tenths. These fractions result when there are more delegates than the state has votes. Thus Connecticut with 14 votes in the convention sent 20 delegates and delegates-at-large, and each delegate has 7/10 of a vote. North Carolina's situation is more complicated. That state with 21 votes sent New York 33 delegates, and delegates-at-large. The result is that each of the 33 delegates has 4/11 of a vote. This is the closest approximation possible, but even then North Carolina, if all her delegates vote, gains an advantage of .009 of a vote on each ballot cast. Thus on 20 ballots North Carolina casts almost one-fifth of a vote more than her lawful number.

Held For Killing Woman With Car

New York, July 4.—Paul Rossignol, a real estate salesman, of 2684 Broadway, is held by Magistrate House in \$15,000 bail on charges of kidnapping while intoxicated. He was arrested at 3 a. m., five hours after he was reported to have run down and killed Mrs. Esther Weinstein, fifty, of 216 West Ninety-ninth street, Mrs. Weinstein was struck by a motor car at Ninety-ninth street and West End avenue and died two hours later at Reconstruction Hospital.

MAY BE GOVERNOR

Cash Cole's name certainly fits his calling. He is in the coal business, at Juneau, Alaska. But he probably will be governor of the territory in a three-cornered race in the recent elections, he received the largest number of votes cast for any candidate. The post is filled, however by presidential appointment, but the voters' preferences influence that to a great extent.

AUTO PARTIES FROM U. S. TO NEW BRUNSWICK MAKE EARLY RECORD

More Than Double Last Year's Number So Far Arrive.

With the tourist travel to New Brunswick not much more than well begun a fine record has already been established in the number of automobiles coming in from the U. S. with parties of tourists. Up to July 1 this summer, 789 cars had come into New Brunswick at St. Stephen and this is an increase of more than 400 over the record at this time last year. More than double.

In 1922, 2,044 U. S. cars entered New Brunswick, passing over the International bridge at St. Stephen. In 1923, 3,248 U. S. cars crossed and established a new record. With this early rush for 1924 and the big months yet to come it looks good for a new mark to be set.

Visitors from across the border are also arriving in increasing numbers by boat and train and there will be many more with July 4 over.

Today the Boston train had 15 passenger coaches which were taxed to capacity with tourists and former residents who were coming to the Maritime Provinces to enjoy vacations.

IS SENT UP TO HIGHER COURT

At the conclusion of a preliminary hearing in the police court this morning, in the case of James Hanlon, who was arrested on suspicion of stealing rope from the S. S. Johnstown, Magistrate Henderson asked the defendant "I have nothing to say," and was then informed that the evidence was sufficiently strong to warrant sending him up for trial.

When the case was resumed, Detective Biddiscombe called Rhyse Webb, an apprentice on the S. S. Johnstown, who was on watch on the night of Sunday, June 29. He told about missing a large hawser which had been coiled up on the deck. He did not see or hear anyone around the ship and did not know until next morning that the hawser had been stolen.

R. GOULD PLANS ANOTHER RAILWAY

Would Link Presque Isle With C. P. R. on Quebec Border

"If the project becomes a reality it will make Maine and Quebec more neighborly," commented A. R. Gould, president of the Aroostook Valley Railroad, at the termination of a convention in Montreal during which he had outlined a proposal for the construction of 112 miles of new line through Aroostook county, Maine, to connect Presque Isle with Frontenac Lake on the Quebec border.

Senator Gould was in Montreal yesterday, says Wednesday's Gazette, having come here for the purpose of meeting officials of the Canadian Pacific Railway. Afterwards at the Windsor Hotel he explained the proposals which had been discussed and which are now under consideration. The line, if built, would give a connection between two termini points of the Canadian Pacific and would offer to that road a second line across the State of Maine, bringing the cities of Montreal and Quebec closer to the heart of a rich country, and affording a more direct route between Quebec and St. John.

"The project was under discussion in 1912," said Senator Gould. "But the outbreak of the war put an end to any proposals for new railway construction. Afterwards costs of labor and material precluded action, but the time now appears to be propitious for the development planned. There is now a section to Washburn in operation. This is an electric road, and the proposal is to operate electrically throughout. There is ample water for the development of electric power. Further, it is planned to furnish electric power for such mills as may be erected and obviate the use of steam power and reduce the fire danger. The proposed line would run through a heavily wooded country and open up a million acres of timber. There is ample pulpwood, with hardwood on the ridges. By taking out the hardwood and handling the softer woods on a proper plan, it has been estimated that there will be more room for the smaller stuff to grow and that there will be more wood in that section a hundred years hence than there is now. This is to be a forestry plan, developed along scientific lines. From another point of view, the line would give convenient access to a wonderful fish and game country."

There is, it appears, a considerable movement of freight in both directions, and Senator Gould said that the proposed new line would effect a considerable reduction in distances and give business to Canadian railroad connections. Some of this would be due to the desire of Michigan furniture manufacturers to get into the forest section for certain hardwood useful in their trade and which they are now compelled to seek for afar off.

In conclusion, Senator Gould said that the proposed line would bring a rich country within easier reach of Montreal.

ACID STOMACH IS DANGEROUS

Suffers From Indigestion or Stomach Trouble CUT THIS OUT

"Stomach trouble, dyspepsia, indigestion, sourness, gas, heartburn, food fermentation, etc., are caused nine times in ten by chronic acid stomach," says a well known authority. Burning hydrochloric acid develops in the stomach at an alarming rate. The acid irritates and inflames the delicate stomach lining and often leads to gastritis accompanied by dangerous stomach ulcers. Don't dose an acid stomach with pepsin or artificial digestives that only give temporary relief from pain by driving the sour, fermenting food out of the stomach into the intestines.

"THUMBS DOWN" FOR EX-KAISER

This is the Attitude Adopted by Many of Former Officers.

By CARL D. GROAT (United Press Staff Correspondent). Berlin, July 4.—Kaiser Wilhelm II can never ascend the throne again, so far as German officers are concerned. The "Deutscher Offiziers-Bund," chief organization of the officers of Kaiser Wilhelm's former army, has taken a vote against the Kaiser. The Bund is a monarchist organization, but the question was raised whether the Bund favored his return, and fewer than one-third of the voters voted in favor thereof.

Recalls Tale of Heroism in War

Dover, England, July 4.—A dramatic incident of the war is recalled by the necessity of removing a British monitor which was sunk north of the fairway at the entrance of Dover Harbor. The vessel had just taken on board a supply of shells and was anchored near the harbor entrance, awaiting a chance to slip out to sea, when she caught fire. Anchored beside her were two ammunition boats. The danger of an explosion and disaster on a large scale was imminent. Troops were ordered out, townspeople were cleared from shore. To save the harbor and town the monitor's bottom was blown out, and many of her crew perished.

MERRY WAR OVER A BUILDING LAW

Arkansas Town Does Not Want Apartment House Near Capitol.

Little Rock, Ark., July 4.—The power of the United States District Court has been invoked by a Memphis, Tenn., corporation in an effort to prevent the city of Little Rock from enforcing a zoning ordinance which would prohibit the erection of a seven-story hotel apartment building within a few hundred feet of the state capitol building. Arkansas is proud of her magnificent state house, which sets on a hill overlooking the city, the Arkansas river and historic Fort Root across the river. Several acres south and west of the new capitol have been acquired by the state and made into a park, but the legislature has postponed action to acquire land north and east of the building which was contemplated to round out the capitol grounds.

Recently the Tennessee corporation purchased several of these lots and announced its intention to erect a large apartment which would overlook the capitol and even tower above the huge dome of the state house. Immediately a movement was started by those who said they sought to maintain the beauty of the capitol and grounds to prevent the erection of the building. This culminated in the passage of a city zoning ordinance, prohibiting the erection of buildings more than three stories high within certain prescribed limits near the capitol.

The apartment corporation answered with a petition in federal court asking for an injunction to restrain the mayor, aldermen and other city officials from enforcing the ordinance.

APPOINTED TO CAMP. Miss Leonora Belyea has been appointed leader for rural recreation work at the teachers' camp, rural science summer school, which opens in Sussex on July 15. DROVE CAR WITHIN 8 FEET OF MOOSE

Woman Had Interesting Experience on Road—Saw Bear Last Year.

Houlton, Me., July 4.—It is not often that a moose is chased for 200 feet and one can get within eight feet of one but such was the experience of Mrs. Annie E. Newell on Sunday while she was driving a party to her home at Forest City. The party sighted a deer in an oat field and watched it for several minutes seeing it start off gracefully and disappear in the woods on the opposite side of the road and in less than a half hour later a young bull moose came onto the road just a little way ahead of the automobile and for a second all thought it must be a young colt until getting nearer it was seen to be a moose. The driver stepped on the gas and soon the car came within eight feet of the moose. During the running the moose looked back once or twice and one saw its face to good advantage. It went off into the woods by the side of the road and disappeared out of sight.

Last summer Mrs. Newell had the excitement of having to stop her car between Forest City and Forest Station to allow a large bear to cross the road ahead of the car.

SAYS GUNMAN'S NAME IS DAVIS

Bangor Official Talks of the Man Arrested by Biddiscombe Here.

Police Inspector Frank J. Golden, who returned to Bangor on Sunday from St. John, N. B., making the trip in John H. Lyon's Packard touring car which was recently stolen and was recovered in St. John, calls Dan O'Brien, arrested here by Detective Biddiscombe John Davis. Golden said Davis made a trip to Bangor in a Ford sedan which he took from John E. Black's garage in Woodland. The abandoned Ford was found by the police in the yard of the Sidney Robinson farm on the Oolin road.

According to the inspector's story Davis is one of four men who recently made a series of breaks between Portland and St. Stephen, N. B., including a break at Columbia Falls, where large quantities of clothing, tobacco and other goods were stolen. A small footprint which has been found in the vicinity of several of these breaks has caused the authorities to believe that one of the burglars was a woman, but Inspector Golden says that it has been ascertained that these footprints were those of a young boy who has been a member of the burglar party.

Davis is the only member of the party who has been arrested but it is expected that the other three will soon be in the hands of the law.

THE BUSINESS OUTLOOK

The Royal Bank of Canada, in its July circular, says that certain favorable developments in general business took place during June, although on the whole trade was comparatively quiet.

ENCOURAGING THE TOURIST

The value of the tourist business has been recognized by the Union of Municipalities of the Province of Quebec. Last year the Union took the initial steps in the formation of a Tourist Association, and this year a resolution has been adopted urging all the people to organize to welcome tourists and provide them with the best possible accommodation.

THE GROWTH OF WINNIPEG

On June 18, 1874, Winnipeg was incorporated as a city. Its population was about three thousand. Four years before, 215 souls comprised the whole population of the village of Fort Garry.

C. N. R. TELEGRAPH HEAD RESIGNS

Toronto, July 3.—C. E. Davies, general superintendent Canadian National Telegraphs, has sent in his resignation after twenty years' service with the telegraph companies.

A CHANGING ORDER IN POLITICS

(Boston Transcript.) The old-time political oratory no longer rings true. Such examples of it as have been given at the national conventions this year failed to arouse the expected response, notwithstanding the noise that they provoked.

Tactics change in political campaigning. On the whole they change for the better. There are fewer torch-light parades than there once were. Time will come when there will be fewer such demonstrations in political gatherings as those which have turned the Democratic gathering this week into something resembling a riot.

THE CHURCH OF THE ELEGY.

(Boston Herald.) Gray's "Elegy in a Country Churchyard" is one of the best known poems in the language. The church and the yard commonly associated with the musings of the poet now are in danger of being encroached upon by the city of London as to lose almost entirely the characteristics of the quiet described in the poem, and the church building has become so unsafe that structural alterations already are under way which it is hoped will change only for a time the outward aspect of the edifice.

The suburbs of the great city are fast reaching out towards Stoke Poges. A real estate agent announces that building lots are for sale in the meadows which since Gray's time, almost two centuries ago, have kept the quiet and beautiful characteristics of the scenery of the Thames valley.

The "ivy-mantled tower" of the poem is under sentence of removal. A temporary wooden canopy is to be put over the square base and a wooden scaffolding now surrounds the spire. Under the tower the Penn family has a large square pew, but that now is to be abolished, and other changes are necessary owing to the decay wrought by time.

Whether Gray actually wrote his "Elegy" here is a matter of debate. He may have contemplated more than one of the country churchyards then abounding in England. But he lived at Stoke. It must have been the place of his meditations. There he was buried. A century ago, a handsome cenotaph was erected on the meadow lands in his memory and made large enough to be seen for a considerable distance.

TWO GREAT LAKES ON BAFFIN ISLAND.

That the southern part of Baffin Island contains two lakes comparable in size with Lake Ontario, and that the island, which is almost a thousand miles long from north to south, is nearly five times as large as Cuba, are some of the striking facts brought out in a report by F. D. Henderson, D. L. S., of the topographical survey of Canada.

Mr. Henderson, in the capacity of surveyor and topographer, accompanied the 1923 Arctic expedition of the Northwest Territories branch, department of the Interior of Canada, under J. D. Craig, D. L. S. His duty was to survey lots for posts for the Hudson's Bay Company, the Royal Canadian Mounted Police, and other private interests at the points at which the Canadian government steamer Arctic called, and to take magnet observations and make topographical surveys wherever possible. Work at Craig Harbor, in latitude 76 degrees 11 minutes is probably the most northerly survey of a parcel of land in any part of the world, certainly the most northerly in Canada.

SUPERANNUATION BILL PASSES HOUSE

Belgian-Canadian Treaty is Signed—Yesterday in Parliament.

Ottawa, July 3.—The ways of Parliament are many and devious. Today it passed the superannuation bill, ever which it was anticipated there would be some difficulty, but the Commons made no difficulty about it. It affects about 50,000 civil servants all over Canada, and provides that on the retirement of a civil servant, after a stated period of service, he can draw a pension of seven-tenths of the aggregate salary received in the five years preceding his retirement.

Drug Treaty Dropped.

Ottawa, July 3.—A resolution asking the Canadian Parliament to ratify the treaty to curb the traffic in liquor and drugs across the international border was dropped from the order paper of the House today.

Immigration Bill.

Ottawa, July 3.—Canada's policy towards "alien" immigrants came under discussion in the House of Commons tonight. Following the Winnipeg strike of 1919 rigid changes were made in the Immigration Act in regard to the admission of persons seeking to overtake constituted authority by force.

C. G. M. M. Deficit.

Ottawa, July 3.—An unanimous recommendation that the House of Commons should pass the estimates \$900,000 contained in the estimates of the Canadian Government Merchant Marine for the fiscal year ending March 1925, is contained in the report of the House standing committee on national railways. The report draws attention to the fact that the amount requested is \$600,000 less than the vote of last year. The committee urges the Government to give serious consideration to the possibility of developing the chilled beef trade between Canada and Great Britain in this trade between the Argentine and Great Britain have refrigeration capacity of from 15 to 20 times greater than the four ships of the Canadian Government Merchant Marine operating from Canada with refrigerating plants on board.

West Indies Trade.

Regarding the West Indies trade, the report says: "It is felt that passenger and freight business between Canada and the West Indies could be greatly increased with resulting profit if modern vessels with cool air and cold storage facilities could be provided for tropical fruit which could be marketed in Canada, but this business naturally cannot be secured without steamers of greater speed and cold storage facilities." The committee recommends that the Government look into the possibilities of improving the passenger service to and from the West Indies.

Branch Line Bills.

Ottawa, July 3.—Five Canadian National branch line bills were killed in the Senate today. Four of the

lines are in Saskatchewan, the fifth is in Nova Scotia.

The line in New Brunswick which was scheduled for construction from Kingsclear to a point on the St. Croix River was changed to run from Fredericton to Vanceboro. This involves the securing of running rights over the Canadian Pacific Railway.

HILLS.

(Arthur Gutterman, in New York Times.) I never loved your plains— Your gentle valleys, Your drowsy country lanes And bleached alleys. I want my hills—the trail That scorns the hollow. Up, up the rugged shale Where few will follow. Where's your crest? Up, over wooded crest And mossy boulder, With strong thigh, heaving chest And swinging shoulder.

IN LIGHTER VEIN.

A Compliment. Editor—"Are you sure that this has never appeared in print?" Struggling Author—"Oh, thank you, sir."

The Appropriate Answer. Judge—"Why did you steal this gentleman's watch?" Accused—"In cross-eyed, Judge, and I put my hand in his pocket by mistake—I only wanted to know the time." Judge—"Three years."

TRANSFER JUDGE IN ROCKEFELLER CASE

New York, July 4.—Magistrate Norman J. Marsh, for eighteen months assigned to Traffic Court, has been transferred to Harlem Court and joined the regular circuit of magistrates. The transfer is the result of a suspended sentence on Miss Abby Rockefeller, daughter of John D. Rockefeller, Jr., after her arrest as a second offender on a speeding charge.

FIRE IN AN ASH CAN.

About 8.15 o'clock last evening, the fire department was called out by an alarm from Box 16 for a fire in an ash barrel in the rear of 308 Prince Edward street, near the corner of Hanover street. Burning refuse in the barrel caused such an amount of smoke that a person walking along the street thought there was a building burning and sent in the alarm without investigating.

LOST YOUNGSTER FOUND.

Audrey Chalison, aged two years, was found wandering about King street yesterday afternoon at 5 o'clock by Traffic Officer Duffy, who took the youngster to Police Head quarters, where she was later called for by her father and taken to her home at 84 King Street East.

SPIRITUAL STAGES IN THE OLD TESTAMENT.

"Nothing in the story of mankind more interesting than the stages by which the Ideal of the Father became possible to the human race, says Basil King in Harper's Magazine. Glimpses of God have been seen wherever man has lived. The Egyptians have had theirs, the Greeks theirs, the Romans theirs, the Hindus theirs, the Chinese theirs, the Moslems theirs. They have been truer or more distorted according to the instinct of the race. But it is always a groping after God, with some measure of ability in finding Him. What gives Hebrew effort its supreme importance is its supreme success. Not, it must be repeated, that the success came all at once, or that it came easily. It came through many errors, held through many centuries. Of these errors there is one on the very surface of the Old Testament which sometimes makes it hard for the modern man to read that book with sympathy or approval. It is the habit of mind, and the turn of phrase, which ascribes to God all the passing impulses of a young and semi-civilized nation in the process of expansion. What their passions or ambitions urged them to do they believed that their God commanded them to do. He was their inspiration and their refuge."

WOULD ASSIST OUR JUVENILE COURT

Toronto Judge Offers to Aid—Local Action Off Until Fall.

Because of the small attendance at the meeting of the juvenile court committee last night it was decided to adjourn until the latter part of September. A committee consisting of A. R. Crookshank, chairman; Lt. Col. E. C. Weyman and A. L. Machum with power to add was appointed to take whatever action was deemed wise to promote the cause in the meantime. Last night's meeting was held in the Board of Trade rooms with A. R. Crookshank, chairman, presiding. Mr. Crookshank told of having visited the juvenile court in Toronto and found that Judge Mott was much interested in the attempt to establish a juvenile court in St. John. The judge had offered to assist in any way possible and had urged a continued campaign of education to create a realization of the fact that a juvenile court was one of the essentials of a modern city.

On Mr. Bedding's motion it was decided to adjourn until a date in the latter part of September and to appoint the committee to act in the meantime. The motion was carried unanimously.

Those present and the organizations they represented were as follows: A. M. Bedding, Children's Aid; W. F. Burditt, Board of Trade; Miss Cora Sinclair, and Rev. George Scott, Children's Aid; Mrs. J. D. Seely and Mrs. E. A. Young, Local Council of Women; Mrs. D. R. Willett and Mrs. G. B. Taylor, Y. M. C. A. Ladies' Auxiliary; D. C. Clinch, Society for the Prevention of Cruelty; Thomas Killen, Trades and Labor Council, and A. R. Crookshank, St. John County Religious Education Council.

STRAWBERRIES 12 CENTS.
The motorship D. J. Purdy I. and the steamer Premier docked at Indian-town yesterday with fair cargoes. The Purdy carried mostly hay and the Premier brought a large shipment of strawberries from the Grand Lake. The berries sold for 12 cents a box.

DEATHS

Rev. James A. McLean.
Rev. James A. McLean, B. A. of Truro, N. S., passed to his rest at The Manse, Thorburn, Pictou Co., N. S. on Wednesday evening, July 2, at the age of seventy-one. His first charge was at Clyde and Barrington, N. S. where he labored for seven years. This was followed by 22 years in the congregation of Harvey, York Co., N. B. and by 18 years in the congregation at Mahone Bay, N. S. At the close of this pastorate he made his home in Truro and retired from active work but took great delight in occupying vacant pulpits whenever the occasion arose.

Rev. Mr. McLean was twice married. His first wife, Julia Kilpatrick, died 20 years ago. His second wife, who was formerly Winifred Winton, survives him, also a son and daughter, children of the first wife. The son, Rev. J. Hugh McLean, is at present in charge of his father's congregation at Harvey and the daughter, Margaret, is of the staff of the Colchester County Academy. One sister, Mrs. D. G. McDonald, of Thorburn, N. S., also survives.

The funeral services were conducted at the Thorburn Manse on Friday at 8 p. m. by the Presbytery of Pictou. Interment will take place in the family lot at Lawrence, Mass.

Mrs. Catherine McSweeney.

Mrs. Catherine McSweeney of Winnipeg died on June 25 at Shelby, Montana, where she had gone only a short time ago to visit her son, Thomas McSweeney. Mrs. McSweeney was the widow of Thomas McSweeney of Moncton, and had been a resident of Winnipeg for nearly 25 years. She was 76 years of age, and is survived by her son, one daughter, Mrs. Ella McLean, and one grandson, Donald McLean.

William S. White.

The death occurred last evening at the home of his brother-in-law, Robert Clarke, 306 Princess street, after a few weeks' illness, of William S. White. Mr. White was born in Ireland and came to this country when quite a young man. He was a master mechanic and had traveled over most of the world. At one time he was in charge of the Dover Cotton Mills, New Hampshire, and for years was with the Dodd and Alcock Chemical Company. For several years he sailed in different steamers from American ports to all parts of the world. He was a 32nd degree Mason and a member of the Mystic Shrine.

He leaves one brother, Joseph White, of Brockton, Mass.; five sisters, Mrs. Robert Clarke, of this city; Mrs. Samuel deVenne, of Waltham, Mass.; Mrs. Walter Lang and Miss Martha White, of Brockton, and Mrs. Frank Hayward, of Campbell, Mass. The funeral arrangements will be announced in the evening paper.

Melbourne E. Whelpley.

Sussex, N.B., July 3.—Melbourne E. Whelpley, aged 18 years, passed away at his father's home, Church avenue, this morning, after a lingering illness. He leaves his father, Edgar Whelpley, two sisters, Greta and Frances, at home, and one brother, Lee, of Beverly, Mass.; also three half-brothers, Ralph Proctor and Beverly Proctor, of Sussex, and James Proctor, of Beverly, Mass. The funeral will take place on Saturday at 2:30 o'clock with Rev. D. J. McPherson officiating.

— MAKE IT THE CHILDREN'S TREAT —

PREPARES TO TREAT 8,000 YOUNGSTERS

The great O'Connell picnic is to be held tomorrow afternoon from 2 to 5 o'clock on the Barrack Green if weather conditions are favorable. J. D. O'Connell said last night that all orphans and under-privileged children brought to the grounds by social or welfare workers would receive a new 12-cent script and five new pennies. They receive this in addition to the regular treat given all children, which consists of a box of candy with six different varieties, a bag of peanuts, an orange, ice cream and cake and an all day sucker. There will also be a scramble for new pennies. The scramble goes on all during the afternoon.

Mr. O'Connell said that all small or crippled children who do not wish to mingle with the crowd may take seats within the enclosure and will receive their treat there. There will also be plenty of seats for adults who will attend to watch the children enjoy themselves. All would be welcome, he said.

A large space has been set aside where automobiles may be parked. This space has a convenient location that will enable the occupants of the automobiles to remain in their cars and witness the scramble and the other sports of the day. A place has also been provided for the parking of baby carriages.

Mr. O'Connell said last night that he would be pleased to see everyone. He has made preparations for the entertainment of 8,000 children. He has also a special treat for infants.

L. O. B. A. MEETS.
Baxter Lodge, L.O.B.A. No. 92, held its regular meeting last night in Orange Hall, Fairville, with a good attendance. Mrs. Edward Duff, the worthy mistress, presided. Routine business was transacted. The members decided to take charge of the lunch counter at the July 12 celebrations on the Barrack Green.

ADVENTURES OF THE TWINS

By Olive Roberts Barton

JACK-IN-THE-PULPIT

"That suits me exactly," said a solemn voice. "Come on," cried Johnny Jump Up, Nancy. "Where are we going tonight, the merry little garden fairies. Aren't Johnny?" "I don't think we'll go any place you dressed yet?" "We'll be there in a minute," said unless we can find the titmouse," said

Johnny. "He seems to have disappeared altogether. That's why I want you Twins to hurry—so we can hunt him." The Twins put on the little shoes that Johnny Jump Up gave them and instantly they became as small as pepper-corns, if you know how small that is. Then down they slid to the magic garden. "Tommy, oh Tommy Titmouse, where are you?" they called. All the little violet fairies hunted, and the little Dutchman in the tulip hunted, and the little Scotchman in the blue bells hunted, and the little French fairy in the pansies hunted, and the cowboy fairy and the tiny Turk hunted and everybody hunted. But no one had seen Tommy. Not even the big black kettle knew where he was. "We can't go on a journey tonight," said Johnny Jump Up. "We'll have to give it up." "That suits me exactly," said a solemn voice. "Now I'll have a chance to give my lecture." And looking where the voice came from, everybody was surprised to see Jack-in-the-pulpit standing under his canopy and looking as solemn as a preacher. "Sit down, everybody," said Jack.

So Nancy and Nick and Johnny Jump Up and all the other garden fairies sat down on the ground to listen. "My lecture is on the moon," said Jack. "The moon is round except when it isn't. Sometimes it's just a sliver. Sometimes it's rightside up and sometimes it's wrong down up and sometimes it's standing on end." "The moon shines only at night," went on Jack. "No it doesn't always," said Nick. "I've often seen it in the day time. If you look hard you can see it right in the blue sky." "But it doesn't shine. It just shows," said Jack-in-the-pulpit. "There is a big difference. As I said before—the moon shines only at night. The man in the moon is bald-headed and fat and jolly and—"

LOCAL MAN ON BOARD. At the annual meeting of the Canadian Fisheries Association, held yesterday in Montreal, Walter F. Leonard of this city was elected a member of the board of directors. Just then there was a loud snore and there was Tommy Titmouse on the puffy willow fast asleep. "Better wake up, Tommy, a cat will get you," said Nick. (To be continued.)

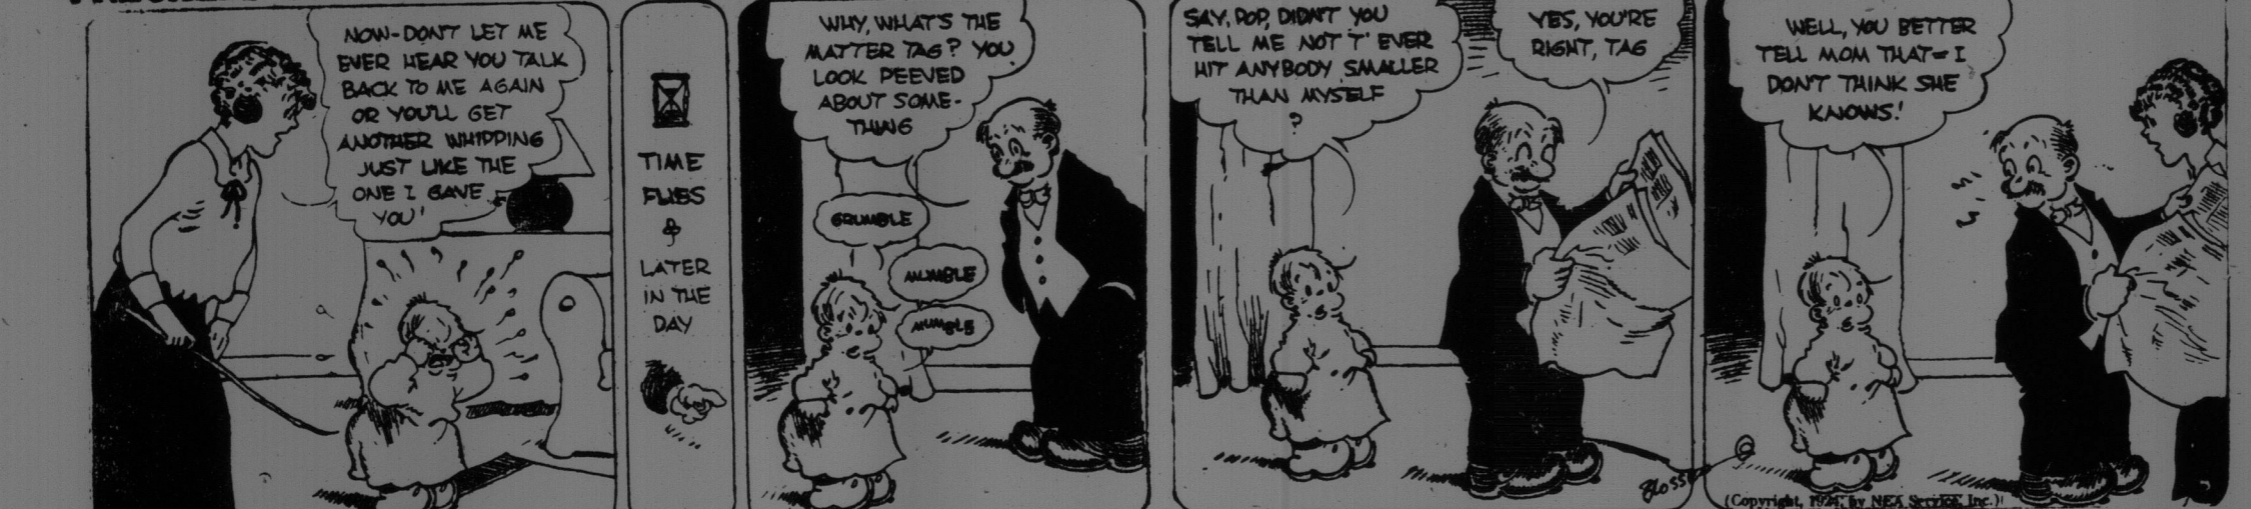

TO BUILD SUBWAY AT M'ADAM JCT. C. P. R. in Return Will Get Fixed Valuation of \$205,000. Fredericton, July 3.—The Municipal Council of York this afternoon adopted a resolution moved by Councillor Whipple, and seconded by Councillor Gaynor, both of McAdam, whereby legislation is to be promoted under which the valuation for assessment of the Canadian Pacific Railway in the parish of McAdam will be fixed at \$205,000 for a term of 10 years. In return for this fixed valuation the railway is to construct a subway beneath it tracks at a point largely used as a crossing. If the arrangement is made to the satisfaction of all, the railway will bear the entire cost of the subway, estimated at \$18,000. Otherwise the railway commission bears 25 per cent, and the railway and parish divide the remainder.

FABLES ON HEALTH Slow Down on Meals. Many professional and business men have difficulty meeting dietary demands they are frequently called upon to follow. At least such was the case with associates of Mr. Mann of Anytown. The noon lunch generally means eating at the handiest place and accepting such foods as the bill of fare may offer. And, fresh from a morning of possible overactivity, he of all persons should be careful. He expects a pill or laxative to counteract the evil effects of violating means of recreation or play for half an hour or more, then resting for a few moments.

W. U. APPLETON IS DINED AT MONCTON. Moncton, N. B., July 3.—In recognition of his recent promotion to the position of general manager of the Atlantic Region of the Canadian National Railways, Walter U. Appleton was tendered a banquet tonight in the Hotel Brunswick. There was a large and representative gathering. Captain J. E. Masters presided. Addresses were given by several prominent citizens, including the guest of honor, Deputy Mayor Bellevue, Ivan C. Rand, K. C., Matthew Lodge, R. P. Dickson and Owen Cameron. An orchestra furnished music. FISHERMAN SAVES LAD. The prompt action of Theodor Evans of Lorneville in going to the rescue of Harry McCavour, 12-year-old son of Mrs. Ethel McCavour, was the means of saving his life. The lad had fallen off the wharf at Lorneville and failed to come to the surface. Mr. Evans rowed to the spot and dived after him. Last evening he was reported to be coming around and it was expected he would be all right in a few days.

SISTER MARY'S KITCHEN A Daily Menu For The Stout and Thin EAT AND-- Lose Weight-- Gain Weight

Twelve raw oysters with lemon juice, 3 green olives, 6 blades celery, 1 tablespoon oyster crackers, 10 stalks fresh asparagus on toast, 1 cup macaroni of fruit, 4 ounces boiled chicken, 1 fresh tomato on 1 cup shredded lettuce with 1/2 cucumber cut in slices and 1 tablespoon sauce vinaigrette, 2 slices fresh pineapple, 1 gluten roll, 1 pint skimmed milk. Total calories, 1242. Protein, 277; fat, 812; carbohydrate, 653. Iron, .0232 gram. This menu is planned for the person who chooses to drink hot water for breakfast. Or she may have one of her cups of skimmed milk with her morning paper. The liquor in which the asparagus is cooked is to soften the toast. This makes use of mineral salts which otherwise might be lost. Oysters, olives, celery, crackers, asparagus and macaroni of fruit are suggested for luncheon. Sauce Vinaigrette. Two tablespoons vinegar, 1/4 teaspoon salt, dash pepper, dash mustard, 1/2 teaspoon minced chives, 1/2 teaspoon minced parsley, 1 teaspoon catsup, dash paprika. Combine dry ingredients. Stir in parsley, chives, vinegar and catsup. Total calories, 8. Carbohydrate, 8. Six large unsweetened stewed prunes, 4 tablespoons vegetable hash on toast with 1 poached egg, 1/2 head lettuce with sliced radishes and onions and pepper, 1 cup clear soup, 1/2 broiled live lobster, 1 tomato sliced with 1/2 medium sized cucumber on 2 ounces lettuce with 1 tablespoon lemon juice, 2 tablespoons rhubarb baked with 6 raisins, 2 crisp pieces gluten toast, 8 bread sticks, 2 thin slices gluten bread, 1 1/2 pints skimmed milk, 1 tablespoon butter for lobster. Total calories, 1179. Protein, 333; fat, 286; carbohydrate, 540. Iron, .0198 gram. If you love lobster you will be glad to know that you can eat it freely if it's just boiled or broiled. The average "chicken" lobster weighs around 1 1/2 pounds before it is cooked and as the shell is the heaviest part of it you can eat a whole one and not use more than 150 calories. However, each tablespoon of melted butter adds 100 calories of fat, so beware of any sauce. But lobster a la Newburg and deviled lobster and all the fancy lobsters are not for the likes of you. Lobsters have no iron content, as all meats and most other fish have, so you must make up the deficiency in other foods. The vegetable hash as calculated contained carrots, asparagus, string beans, a bit of onion and just enough potato to hold the whole together.

WANTED A THRILL; SO SHE GOT WELL

Given Six Months to Live, She Went Exploring and Found Health. London, July 4.—The doctors told Lady Richmond Brown that she had six months to live. "All right," she said. "If my life has to go, I want it to go with a flourish. If I want to die, I want to die with a thrill. I don't want to sit down and wait for my life to ebb away and quietly away." So Lady Richmond Brown, thinking herself doomed by an incurable disease, joined the Mitchell-Hedges exploring party, bound for uncharted regions of Central and South America. She intended to have thrills before she died. She had the thrills. The party endured many hardships and encountered many adventures and passed through many perils—and Lady Richmond Brown got as fit and well as a prizefighter, and didn't die at all, and has just landed back in London to tell her friends all about the Kaymallas, uncharted islands of the Caribbean, and the strange city of Chucumaque, which they found in the interior of British Honduras. "No, the average modern girl couldn't go through such hardships," she said. "Too many of our girls to-day have become dolls. They are not made of the right sort of stuff. They are slaves of the powder-puff. The girl might make up her mind to die with a thrill, but she would get it at the Palais de Danse."

Mix Mustard Yourself

After mixing in cold water, it takes just ten minutes to liberate from dry mustard the essential oils which give the full rich piquant flavour, and which so greatly aid digestion and assimilation of foods. Unless you mix your own mustard you miss the best part of the flavour and benefit. Have your mustard always fresh.

DR. F. J. DONNELLY GOING TO VIENNA

Dr. Frank J. Donnelly, a former St. John boy, chief surgeon with the Abitibi Power and Paper Co., Ltd., at their plant in Ironquills Falls, Ont., for the last five years, has resigned his position and will leave next week for Montreal on the steamer, Mellia, for France. He is going to Vienna, Austria, to take post-graduate work in surgery and to carry on some research work in which he is interested. He will continue his studies in Edinburgh, London and Copenhagen. Dr. Donnelly will be accompanied by his wife and two children, Edith and Jean, all of whom have been in St. John for the last month visiting Mrs. Donnelly's parents, Mr. and Mrs. J. Paterson, Queen street. ADMIRE THE PROVINCE. Great admiration was expressed by Dr. John E. Freed, of Terre Haute, Indiana, for the beautiful scenery of New Brunswick, the native province of his wife, who was Miss Gillespie, daughter of Mr. and Mrs. William C. Gillespie, of 107 Charlotte street. Dr. and Mrs. Freed and two children arrived in St. John more than a month ago by motor from the United States and were guests of Mrs. Freed's parents and other relatives. They left Wednesday morning for their home. En route they will visit in Rockland, Mass., with Miss Alva Gillespie, sister of Mrs. Freed. Dr. Freed took a month's special course at Harvard University, Cambridge, while his wife and family were here. He returned last Saturday to the city. It was his first visit here, and he was delighted with the country. More than 75,000 accidental deaths occurred last year in the United States.

Others who returned and who reside in the city were Joseph Owens, Clarence street; Joseph Crowley, Adelaide street; Walter Hughes, Douglas avenue. The boys will remain home for a month's vacation. Miss Beatrice Stinson, of Fairville, is visiting in Fredericton and vicinity. Miss Sarah Wood, who had been the guest of Mrs. James Wood, Manawagonish road, has gone to Moncton to visit relatives there. From Moncton she will go to Hexton to visit. Mrs. Rose Lowe, of Jerusalem, N. B., who has been the guest of Mrs. Oliver Stinson, of Prospect street, Fairville, has returned to her home. Miss Agnes Callan, of Fairville, has returned home after a short visit in Fredericton. Mrs. Barry Adams, of West St. John, is visiting her sister, Mrs. Harold Chadwick, Manawagonish road. Mrs. Ira Stymest and child, Fairville, left yesterday for Chipman, where they will be the guests of Mrs. Stymest's parents Mr. and Mrs. J. Dykeman. Miss Clara Dunham, who had been a patient in the General Public Hospital, has returned home much improved in health. A Taylor, of Fredericton, is the guest of his sister, Mrs. William Stinson, Prospect street, Fairville. Miss Annie Smith, of Milltown, N.

GOES TO NEWCASTLE.

Adjutant Cummings, who has been in charge of the Salvation Army Corps in Sackville for five months, has been transferred to Newcastle. Capt. Hardy of Montreal and a lieutenant from the training home at Toronto will go to Sackville. TO START BUILDING SOON. At a meeting of the board of directors of the Inter-provincial Home for Young Women, held in Moncton on Wednesday afternoon, it was decided to proceed with the building in the near future. Rev. H. A. Godwin of St. John attended the meeting.

W. A. HAS OUTING.

Thirty members of St. Mary's W. A. enjoyed a pleasant outing yesterday afternoon at the residence of Mrs. George Redmpre, Loch Lomond road. The afternoon was spent in games and the hostess served refreshments.

SAYS LIQUOR WAS SHIPPED FROM HERE

Captain Kidd's adventures and piratical deeds were recalled in Montreal yesterday afternoon before Justice Decarie when J. M. Isaac, a Winnipeg lawyer, testified in the charge of piracy on one high seas against Captain Sam C. Ford. He told of having been handcuffed on the steamer Lutzen together with the supercargo, Jack Morris, and kept in the bottom of the hold while Captain Ford and confederates who had invaded the ship, proceeded to disguise it and engage in selling the cargo of whiskey and other liquors to bootleggers along the coast of Long Island, a few miles from New York city. In cross-examination Isaac declared he was at St. John last October when he found out that 4,000 cases of liquor were shipped on the Lutzen by a local wine and spirit company. He testified that Captain Ford had threatened to drill a hole through him if he ever dared to speak of the affair later. The name of the ship was changed to the Gama. After the cargo had been sold he and Morris were taken to Bermuda where they were compelled to sign fictitious names on the crew's list. Isaac admitted he was partially interested in the cargo of the Lutzen. He denied, however, having been on a bootlegging expedition when the ship was raided. Hearing was postponed until next Tuesday. ST. JOHN MAN HURT. D. S. Grimmer of this city and a passenger with him were slightly injured Tuesday when the automobile in which they were driving was in collision with a car driven by George W. Hurst of Parrsboro, near the latter town. Both cars were damaged in the mix-up.

How A Stamp Collector Uses Want Ads

W. W. MacLaren of Cleveland has been a collector of stamps for several years, says Printers' Ink, and as his collection grew it became increasingly difficult for him to get additional material through stamp dealers. So he decided that it would be necessary for him to go out over the country and find such material as he wanted in old homes and offices where it might be stored.

Being a busy man, Mr. MacLaren did not have the time to spend on extended collecting pilgrimages, so he decided to try advertising.

His first want ad read something like this:

WANTED—Grandfather's love letters. There are lots of old letters stored in many an attic. These letters may have stamps that I would be willing to buy. You keep the letters and send me the envelopes with the stamps on for examination so that I may make an offer. Or write me about what you have.

Through this form of advertising Mr. MacLaren has been able to build up what is said to be a very valuable collection of old stamps, and has sold enough material that was not suitable for his collection to make the whole business profitable.

You can find hundreds of interesting and profitable ways to use classified advertising. Read the ads regularly and learn how other people use them to their advantage.

BETTER TONE TO MONTREAL MARKET

Gains This Morning Far Outnumber Losses in Moderate Trading.

Montreal, July 4.—While the volume of business on the Montreal Stock Exchange this morning was not very large, the tone continued to show an improvement. Gains outnumbered losses by a wide margin in a narrow range of stocks.

Canadian Industrial Alcohol was again the most active issue and came out unchanged at 10 1/2. Demand for Montreal Power, up 1/4 to 17 1/2. Breweries, up 1/4 to 5 1/2. Steel of Canada, up 1/4 to 10 1/2.

OLYMPIC RELAY DRAW ANNOUNCED

Canadians, With Maynes, to Meet Yanks and South Africans First.

Paris, July 2.—Canada's Olympic representatives, while returning from practice on an adjoining field today, found themselves locked out of the stadium. They were compelled to climb over a barbed wire fence and scale the structure to the skylight passage leading to the dressing room in order to retrieve their clothes.

The Canadian relay team will meet the Americans and South Africans first, as only two runners will qualify from this heat. A gruelling contest is expected. The Canadians have been practicing faithfully and are confident of victory.

Field gossip affirms that Canada's hand-made machine of 27 athletes will knock the door for points in the 100, 400 and 1,000-metre events, the walk, relay and marathon.

Great Britain will banquet Canada's Olympic team on Sunday night. The Prince of Wales will preside.

Several misfortunes have overtaken the British Olympic track team, and the door for points in the 100, 400 and 1,000-metre events, the walk, relay and marathon.

Mr. Barnard, who is Secretary of the Vocational Committee of that organization, will be president of the consolidated companies, and Mr. Schaefer will be treasurer. The Barnard firm, it is said in the announcement, bound the original edition of "Uncle Tom's Cabin" and also the first edition of Watts' "Hymn Book."

Mr. Chivers has been known to the prominent business men in the Hamilton Club of Brooklyn for years. He was regarded by the club members as retiring and conservative. They knew his interests in England and that he divided his time between the two countries, but were astonished late in 1922 to learn that he had become Lord Mayor of Bath.

What his ideas about labor were he never expressed, but I remember his telling me he never had a bit of trouble with the employes in the book bindery.

British journals have referred to Mr. Chivers' methods as "American." He has staged mass meetings and parades and made strong personal appeals. He has denounced "the plutocrats of English industry," "the profiteers," "the munitions interests" and "the war lords," and has termed the wave of opposition to the League of Nations as "Jugency."

It is said that the success of his business in Brooklyn, together with wise investment of the proceeds that made him wealthy, was the foundation of his subsequent business ventures in England, where he opened large book-binding establishments in London and Bath.

THE ROYAL TRUST & EXECUTORS AND TRUSTEES. There will be sold at Public Auction on Saturday 5th at 10:30 o'clock a. m., at 122 Mill St., third floor, the following goods—1 stove, table, chairs, beds and other household effects, the same having been distrained for rent.

NEWSIES REWARD

Trenton Karpus, a carrier boy for the San Francisco Daily News, has been commended frequently for the businesslike way he handled his deliveries. But the other day he got a still bigger reward. One of his customers willed him \$1,000 on her deathbed. He intends applying it upon a college education.

HAS TITLE MONOPOLY.

Louise Fordyce of Youngstown, O., has just won the Ohio State golf championship for the third successive time. It may be the last time she will play in the event. She so completely dominates the field that her entry robs the tournament of interest.

Three new national records were set in the final Olympic track and field trials in Italy. Gargiulo cut the time for the 400-metre run to 50.4-5. Pighi threw the discus 42 metres 71 centimetres and the 400-metre relay time was reduced to 42.9-5. The marks are not as high as probably will be required to win Olympic honors, but they show that Italy is stronger than was expected, and that the battle for third and fourth places in the games will be a close one.

Because of their performances the three athletes set new records were placed on the Italian Olympic team. Gargiulo also ran on the relay team, but he will be replaced, officials stated, by another athlete because he is at the shorter distances. Torre, who is to be placed on the Olympic team, was unable to compete in the finals, but a place has been reserved for him because of past performances.

Zeni will throw the hammer for Italy at Paris. He has not been doing as well this year as he did last, but he is the best the country has and, with added training, it is expected that he will round into even better form than he enjoyed last year when he was throwing a considerable distance. Frigerio will compete in the 10,000-metre walk. He has been improving steadily and while he has not been timed officially it is known that he is turning in excellent times, and coaches state that he will be among the leaders in the Olympics.

The Royals can always be depended on to draw the crowd. They are not only a novelty in the way of baseball teams but they usually put up a classy brand when the occasion demands. In Earl Nelson, they have a youngster whom ball players here admit is one of the best in amateur ranks while Freddie Diggs and his speed ball have proved a stumbling block more than once to other teams.

There should be considerable spice to the evening game between the Fairville Jads and the Gunners. Both are strong contenders for the championships in their respective leagues and Saturday night's game should be a good test of the ability of both teams. Both number some hard and consistent hitters in their line-ups and both have two promising young catchers in Fitzgerald and Sparks. Although this is Sparks' second year in fast company, he has demonstrated he is one of the best.

Manager Fitzgerald will use either Conlon or Murphy while Manager Markham has Carpenter and Brookings primed for the fray. "Bob" Atkinson and "Tom" Morrissey will handle both games.

A water route from the Great Lakes to the Gulf of Mexico is now being completed. The locks at Marquette, Illinois.

HOFF TO COMPETE IN 400 METRES

More Than 80 Entries in "Billy" Maynes Event at the Olympics.

Announcement of the final entry lists today reveals that a total of 1430 athletes, representing forty-five nations and comprising the greatest field in Olympic history, will battle for the international track and field laurels, beginning next Sunday in the Colombes Stadium.

Of the individual events the 100-metre dash has the largest field, 97 athletes, representing 35 nations; while the 400-metre relay is the most popular team contest, with 121 entries from 20 nations.

The hammer throw has drawn the fewest competitors—18, representing 10 nations, of which the United States has a stalwart, who are expected to score a clean-up.

The entries cover 26 events, in one of which—the cross-country—individual as well as team first places count, thus providing 27 gold medals altogether.

The two dashes, the 400-metre run and the 100-metre relay are the only events attracting more than 80 entries each, the others averaging about 60.

The marathon, the classic and concluding feature of the games, has 62 entries from 22 nations. Aside from the six Americans, who are generally admitted to have excellent chances in this event, the most prominent entries include Hannes Kolchmann of Finland.

Both are also entered in the 500-metre run. Wide set a world's record for the 500-metre run a year ago when he covered the distance in eight minutes 50.2-5 seconds.

The 500-metre run, which has drawn sixty-seven entries from twenty-seven nations, now is expected to develop the keenest battle among the middle distance men. It is predicted that the star American quartet—W. B. Richardson, S. C. Enck, Ray Dodge and J. W. Waters—will encounter the stiffest opposition from the Englishmen Douglas Lowe and G. H. B. Stallard, while Norway has Hoff and Sweden, Sven Lundgren. There will be added interest if Nurmi runs, but the Finnish ace now is expected to be held for the longer distances.

Need for more funds for the maintenance account was reported at the monthly meeting of the board of directors of the Protestant Orphan's Home, held yesterday afternoon at the Wright street home, and it was decided to hold a garden fete at the new home, Manawagonish road, to raise money. J. E. Arthurs and William M. Campbell were appointed conveners of a committee to make arrangements for the affair. The offer of Rev. C. W. Follett of Loch Lomond to divide the receipts from his annual picnic with the orphanage fund was gratefully accepted, as was his invitation to the older children to attend the picnic.

The body of Edwin A. Carr, who was killed in an auto accident in Los Angeles, will be brought home for burial. No further particulars regarding the accident have been received other than that his car collided with another. Mr. Carr was having his home erected in Los Angeles and expected his wife and daughter, Miss Helen, to join him in the fall. He leaves many friends here who will regret his sudden passing. The body is expected to arrive in Amherst on Friday and interment will be made at the Oxford.

keeneat battle among the middle distance men. It is predicted that the star American quartet—W. B. Richardson, S. C. Enck, Ray Dodge and J. W. Waters—will encounter the stiffest opposition from the Englishmen Douglas Lowe and G. H. B. Stallard, while Norway has Hoff and Sweden, Sven Lundgren. There will be added interest if Nurmi runs, but the Finnish ace now is expected to be held for the longer distances.

Need for more funds for the maintenance account was reported at the monthly meeting of the board of directors of the Protestant Orphan's Home, held yesterday afternoon at the Wright street home, and it was decided to hold a garden fete at the new home, Manawagonish road, to raise money. J. E. Arthurs and William M. Campbell were appointed conveners of a committee to make arrangements for the affair. The offer of Rev. C. W. Follett of Loch Lomond to divide the receipts from his annual picnic with the orphanage fund was gratefully accepted, as was his invitation to the older children to attend the picnic.

The body of Edwin A. Carr, who was killed in an auto accident in Los Angeles, will be brought home for burial. No further particulars regarding the accident have been received other than that his car collided with another. Mr. Carr was having his home erected in Los Angeles and expected his wife and daughter, Miss Helen, to join him in the fall. He leaves many friends here who will regret his sudden passing. The body is expected to arrive in Amherst on Friday and interment will be made at the Oxford.

MEANS GETS 2 YRS AND \$10,000 FINE

Jarnecke, Aid in Liquor Plot Gets Same Term and \$5,000.

New York, July 4.—Maximum jail sentences were imposed by Federal Judge C. E. Wolverton on Oregon on Gaston B. Means, former agent of the Department of Justice, and Elmer W. Jarnecke, formerly his secretary, convicted on an indictment charging that they had accepted bribes from persons who wished to obtain whisky withdrawal permits.

Judge Wolverton sentenced each of the defendants to the Federal Penitentiary in Atlanta for two years. He imposed on Means the maximum fine, \$10,000. Jarnecke was fined \$5,000 after the Government Prosecutor had suggested if any leniency were to be shown Jarnecke should receive the benefit. The prosecutor asked the maximum for Means, declaring that Means was the master mind and that Jarnecke was influenced by Means.

Both prisoners, handcuffed and guarded by three deputy marshals, were led back to the Tombs after Judge Wolverton, in compliance with the Government's request, had placed bail at \$25,000 each on the filing of a writ of error for the defendants.

G.W.V.A. FAIR GETS A GOOD OPENING

East End Grounds Attractive Place and Evening is Enjoyed.

The big show under the auspices of the G. W. V. A. got away with a bang last evening on the East End grounds and there were many in attendance.

All kinds of amusements have been arranged for the visitors, including wheel games and also mechanical race horses and many games of skill which resulted in the winning of large prizes.

After emerging from the thrills of the submarine, the next daring feat was to mount the big Ferris wheel and "view the landscape o'er."

The excitement of so much rushing about having aroused a healthy appetite, one could turn to a clean and well-kept refreshment booth.

The game of Spot the Spot was a port.

MORE NOISE

Here is another new one for the jazz orchestras. Its inventor, Senor Miguel Jehan, Spanish musician and instrument maker, calls it the "midget melba."

great test of skill, but was accomplished by several before the evening passed when they were seen with large traveling rugs, clocks or other prizes.

TOWN SETS 30 M.P.H. AS THE SPEED LIMIT

Signs Say Twenty and New Law Will Not Change Them.

Albany, N. Y., July 4—Motorists who drive less than 30 miles an hour in the village of Colonie will not be molested, Justice of the Peace Harry N. Hall of that village has declared.

Justice Hall said that the recent change in the State motor vehicle law had nothing to do with the decision of the village authorities to make a change in the local rule.

Fortune in Fines

Motorists were picked up by the hundreds by the two motorcycle policemen which the village maintained out of the fines, Justice Hall said.

Seven officers and 13 other ranks of the 15th Heavy Siege, 6th and 4th batteries, left last evening for Petawawa for a two weeks' qualification course in artillery work.

catching the one who had "stepped" on the gas. Justice Hall said that the village would continue to maintain the motorcycle policemen. The new law permits the village to retain \$1 for each inhabitant of the village, but after that limit has been reached all of the fines must be turned into the State treasury.

For every Lloyd comedy is distinctive from all angles and in all respects except one, and that's laughter.

Little Jobyna Ralston, who made such a hit in the last Lloyd comedy, "Why Worry?" is again seen playing opposite Harold, and she gives an excellent account of herself in a rather difficult part.

NO MATTER what the weather may be the remaining days of this week or what engagements one may have made, it would be well not to let pass this extraordinary fun-feature, and thus miss the very best one of Harold Lloyd's successive hits.

BRANDS DRUG EVIL GREATEST MENACE

Big Film at Opera House Exposes Operations of the Traffic.

That the whole country is facing the greatest menace in its nefarious drug systems, is told thrillingly in the big film, "The Greatest Menace," which was shown for the first time in this city at the Opera House last night.

The picture serves a two in one purpose. It not only hands the narcotic evil a wallop amidships but it tells an exciting story in which a young woman emerges as the biggest figure in the narrative.

There is a frameup and the boy is held for murder.

Goodyear Does It Again!

The story of a sensational improvement in tire-making, of greatest economic interest to every car owner

YOU probably know that the modern, low-pressure balloon tire is made with thinner sidewalls and greater flexibility than other tires.

These characteristics involve new problems in design, and important special requirements in materials.

The most essential requirement of the successful balloon tire is a new kind of cord fabric, of extreme elasticity and endurance.

No ordinary cord fabric can withstand the balloon tire's continuous and repeated flexing, and at the same time victoriously resist severe road-shocks.

In its laboratories and its own cotton mills Goodyear has solved this urgent problem—by perfecting a remarkable and exclusive cord fabric called SUPERTWIST.

Tests made with tires embodying this new material, showed that a carcass made of SUPERTWIST delivered more than 100% greater service than a carcass containing an equal number of plies of standard cord fabric.

In other words, it was demonstrated in these tests that, ply for ply, Goodyear SUPERTWIST cord fabric literally doubled the carcass life of the tire.

Certainly this justifies the belief that no greater contribution to the art of tire-building than SUPERTWIST has been recorded since the introduction of the cord tire itself.

The superiority of Goodyear SUPERTWIST is due to its greater elasticity and power to flex, with consequent wider distribution of shock and greater freedom from stone-bruise and like injuries.

This incomparable material is now used in regular Goodyear production and is built into all Goodyear Balloon Tires—to fit new wheels, or the wheels now on your car.

For Goodyear Balloon Tires to fit your present wheels, see the Goodyear Selected Dealer. Regarding new, smaller wheels and rims, with Goodyear Balloon Tires, see the Goodyear Selected Dealer, your car dealer or the nearest Goodyear Branch.
