De Valera Again Voices Sinn Fein
Claim For The Separation of Ireland

SAYS ONLY GOVERNMENT RECOGNIZED
WAS MINISTRY OF THE DAIL EIREANN

Released Prisoners Are Among 130 Members
Present—Account of Peace Negotiations To-
morrow—Hope for Settlement Still Entertained
—St. John Lady Speaks in Montreal—Troops
Recalled from Leave.

Dublin, Aug. 16.—In opening the Dail Eireann at its
first public session here today Eamonn De Valera, the Re-
publican leader, reiterated the Sinn Fein claim for separation
from Great Britain and claimed the only government the
people recognized was the ministry of the Dail Eireann, the
Irish Republican "parliament."

There were 130 members present, including those who
had been released from prison to admit of their attending the
session. A great audience crowded the galleries and floor as
Eamonn De Valera led the members into the chamber.

Prayer was offered in beginning the ceremonial and then
the Sinn Fein oath was administered to all the members en
masse.

PROF. JOHN MCNEILL, SPEAKER

John T. Kelly was re-elected speaker, but he declined the
office and Prof. John McNeill was chosen.

After the formalities had been concluded and Mr. De
Valera, as head of the Irish Republican government, had ad-
dressed the assemblage, the parliament adjourned.

Mr. De Valera in his address said he would tomorrow
give an account of the negotiations with Mr. Lloyd George,
after which the reply to the British premier's offer would be
considered in private session.

The members in attendance included half a dozen women,
among whom were Countess Markievicz.

He and his colleagues, the head of the Republican cabinet said, had adopted
towards Great Britain the principle laid down by Cardinal Mercier of Bel-
gium towards Germany, the principle that authority was unlawful.

The cabinet, Mr. De Valera declared, did not think the British proposals
were just. Mr. De Valera said that "virtually impossible conditions" surrounded
negotiations with the British government, for the position, he said, was that of
a man unarmed facing a man pointing a pistol.

There were people who would not negotiate to save their faces, he continued,
but the Sinn Fein would negotiate to save faces, but to save, if possible,
bloodshed, and for right and principle.

Mr. De Valera asserted that Ireland had at the elections virtually de-
clared by plebiscite for a Republican government, not because the people were
Republican doctrinaires, but because Irish freedom and independence could not
at present be realized in any other way.

Dublin, Aug. 16.—Great crowds gathered about the Mansion House in this
city early today in the hope of witnessing some phase of the opening session of
the Irish Republican parliament, upon which has devolved the duty of shaping
the future destiny of Ireland. The work of this assembly today was expected
to be principally organizational, and it was not believed any action relative to
acceptance or rejection of the British government's offer in settlement of the
Irish problem would be formally taken before Thursday.

Eamonn De Valera, the Republican
leader, was to speak today, and will
probably make another address tomor-
row. Executive sessions, at which the
parliament will frame its reply to the
British offer of dominion status for Ire-
land will follow. It is understood today
that decision as to future relations with
the United Kingdom, or as Premier
Smuts of South Africa described them,
with the British empire, would be
reached before the end of the week, but
that formal consideration of the British
government's offer would not be begun
until Thursday.

It was said that it was possible that
his programme had been arranged so
that Harry J. Boland, Sinn Fein agent
in the United States, might participate
in the debate. Mr. Boland sailed for
Europe from New York last Saturday,
and it was said that, as the Sinn Fein
in Ireland was greatly influenced by the
Sinn Fein organization in the U. S., a
decision might be delayed until Mr.
Boland could appear before the "par-
liament."

There were one thousand seats for
spectators in the assembly hall of the
Mansion House, and upwards of ten
thousand applications were made for
them.

While the situation today was admit-
tedly grim, there was a note of opti-
mism to be found, and the earnestness
which was evident everywhere when
members of the parliament gathered in
this city appeared to indicate they were
determined to study carefully the situa-
tion before reaching a final decision.

No Change in Ulster.
Belfast, Aug. 16.—After a meeting of
the Ulster cabinet, which was held to-
day, an official report was issued stat-
ing that the general situation was care-
fully reviewed and that there was ab-
solutely no change in the position, so far
as Ulster was concerned.

Montreal Meeting.
Montreal, Aug. 16.—That Ireland is on
the verge of obtaining her freedom, and
that the regime of the Black and Tan
cannot be reversed, to were the pre-
dictions made by Neil MacLean, labor
member of parliament for Glasgow,
Scotland, and Dr. J. J. Guerin, ex-mayor
of Montreal, who were the principal
speakers at a meeting of the Self-Deter-
mination for Ireland League held in
this city last night. Armand Lavergne
and Lindsay Crawford, who were
scheduled to speak, did not reach the
city, but a lengthy message was received
from Armand Lavergne, in which he in-
dicated his belief that the British empire
could not any longer exist without the
good will of the dominions.

St. John Lady Speaks.
The meeting was presided over by Al-
derman F. O. O'Connell and among
those on the platform were Katharine
Greeny, organizer for the league in the
maritime provinces, who also addressed
the gathering.

Dr. Guerin referred to De Valera as
the justice of peace at Datura.

TRINIDAD WANTS
VOICE IN THEIR
GOVERNMENT

Ask Secretary of State for
Permission to Elect Three
Unofficial Members to the
Executive Council.

Montreal, Aug. 16.—The Canadian
Gazette has received the following cable
from Port of Spain, Trinidad:—
At a large and impressive public meet-
ing of the inhabitants of Trinidad, held
at Princess building, Port of Spain, on
August 11, the mayor presiding, it was
unanimously decided to send a resolution
to Right Hon. Winston Churchill, sec-
retary of state for the colonies, declar-
ing:—
"That the time has come when the
inhabitants of this colony should have a
voice in the government thereof by
electing three unofficial members of the
executive council."

MAN ARRESTED
LAST NIGHT FREED

Found He Had No Connection
With McAuley Case—
No Further Progress To-
day—Wolfville Suspect.

There were no new developments this
morning in the McAuley murder case.
The detectives continued their elimina-
tion process and made some progress.
They interviewed a number of children
said to have been picking berries in the
park on the day that little Sadie Mc-
Auley was murdered, but their efforts
failed to reveal any other detective
known.

Last evening Sergeant Andrew
Power received a telephone message
from Wolfville, N. S., saying that the
authorities there were seeking a man
said to answer the description of the
murderer. No further word was re-
ceived this morning.

Allowed to Go.
The young man who was arrested last
night by Police Constables Quinlan and
Downey on suspicion of being in-
volved in the crime was allowed to go, as it
was proven beyond a doubt that he was
not the man. The arrest was made at a
house in Coldbrook. A report that
the murderer had been apprehended
spread throughout the city and
interest was quickly re-awakened.

FIRE ON STEAMER
WITH SMUTS ABOARD

London, Aug. 16.—The steamship
Saxon, on which Jan C. Smuts, premier
of the Union of South Africa, is proceed-
ing to Cape Town, has reported a fire in
two of her bunkers, and is proceeding
to Sierra Leone, being accompanied by
the British ship Waspura. The report
states that all passengers on board are
well and that the ship is under full con-
trol.

BRITISH SOLDIERS'
LEAVE CANCELLED

London, Aug. 16.—All soldiers on leave
from Ireland in Aldershot and Farn-
borough have been ordered by telegraph
to return to their regiments immedi-
ately here today. Trayer was said to
be by Rev. Archdeacon Armitage, Halifax,
Major J. S. Parker, secretary of the dete-
ment to Halifax. Other speakers were
J. B. Olive, president, Truro; John
Snow, Halifax. Professor Washburn,
Chicago, lecturer and demonstrator in
embalming, was introduced.

UNDERTAKERS
MEET AT HALIFAX

Halifax, N. S., Aug. 16.—The thir-
teenth annual convention of the Nova
Scotia Funeral Directors' Association
closed here today. Trayer was said to
be by Rev. Archdeacon Armitage, Halifax,
Major J. S. Parker, secretary of the dete-
ment to Halifax. Other speakers were
J. B. Olive, president, Truro; John
Snow, Halifax. Professor Washburn,
Chicago, lecturer and demonstrator in
embalming, was introduced.

DECIDE AGAINST INCREASE
IN HONORARIUM OF \$300
FOR OTTAWA ALDERMEN

Ottawa, Aug. 16.—Ottawa aldermen's
honorarium will remain at \$300, city
council decided last evening, when the
board of control's recommendation for a
\$200 increase was defeated by a vote of
twelve to nine.

NEGRO LYNCHED
Groesbeck, Texas, Aug. 16.—Alex.
Winn, negro, was hanged yesterday at
Datura, near here, by an armed mob,
following an attack upon a white girl,
according to word received here today
from the justice of peace at Datura.

As Hiram Sees It

Mr. Hiram Horn-
beam and the Times
reporter were sitting
in a fence corner, beside
a field of oats that had
just been cut. A squirrel
flushed into view
near a stone wall, and
a raspberry, mounted a
stone, squatted on its
hind legs and took a
raspberry, and began to
whirl the berry in its
fore-paws, eating all
some-time's were...
"That fellow," said
Hiram, "is havin' a real
good time. A lot of
folks ain't got as much
sense as squirrels. They
don't know of wild berries fallin' off
to rot on the ground that folks might
just as well be presided for next win-
ter—they won't take the trouble to
pick 'em."

"The question just occurs to me," said
the reporter, "where are all the wild
things that found shelter in the forests
that have been burned?"
"Some of 'em," said Hiram, "is dead.
Some of 'em kep' ahead of the fire. Mis-
ter, I don't think o' what it means to
the Lord's creatures that ain't human
when we let a fire get goin' in the
woods."

"Yes," said the reporter, "we ought
to have to shoot—and then cook
them." "That," said Hiram, "is what I'd
call a cold crack—By Hen!"

WILL BE FORMED
INTO FOUR GROUPS

New Schemes for Admin-
stration of British Rail-
roads.

Will Save £25,000,000 in 7
Years, Says Sir Eric Ged-
des—Same Scheme Refused
by Government Few Years
Ago—The National Wages
Board.

London, Aug. 16.—(Canadian Press).
—The greatest interest continues to be
manifested in the emergence of British
railways today from government con-
trol.

No immediate general reduction of
passenger and freightage charges is pos-
sible, although the remainder of the
holiday season will witness a further re-
vival of excursions.

The most far-reaching outcome of the
new schemes is the eventual compulsory
amalgamation of all the railways into
four great groups, who invariably
reversal of parliamentary opinion, inas-
much as only a few years ago the govern-
ment refused a similar voluntary group-
ing of three railways.

Sir Eric Geddes, minister of transport,
does not think it possible to save £25,000,000
in working expenses within seven years,
which sum many regard as a vital neces-
sity. The cost of labor, now based
on the cost of living, was recently re-
duced £17,000,000, but the total cost of
railway labor had risen £120,000,000
since the opening of the war.

Careful critics are of the opinion that
the great hope of the future lies in the
smooth working of the national wages
board. J. H. Thomas, leader of the rail-
waymen's union, who invariably
counsels moderation, gives the opinion
that the new system will mean economi-
cization of the national wages board.
As far as the men are concerned,
says Mr. Thomas, they have no inten-
tion of making their agreement, and he
refused to believe that the companies
would be less honorable.

ZIKOR TAKES OUT
\$5,000,000 POLICY

Said to be Largest on Record
—Mary Pickford, Charlie
Chaplin and Douglas Fair-
banks Insured for \$1,000,-
000 Each.

New York, Aug. 16.—Adolph Zuker
has taken out a life insurance policy for
\$5,000,000 in favor of the company of
which he is the head, a prominent agent
of the Metropolitan Life Insurance Co.
of New York. This is regarded as the
largest policy ever taken out by an
individual to protect a business. The
policy is in the name of the late Thomas
L. Sheelin, which was in favor of the
Springs, Duncan Bruce, 1920 marling
champion in the mile walk, entered for
that event and the three-mile run; and
B. Hutchinson, for the boys' 100-
yards dash.

SPANISH MAKE
PROGRESS IN A
NEW OFFENSIVE

Now Command Entrance to
Melilla Peninsula—General
Navarro Wounded in Leg,
Taken by Moors.

Madrid, Aug. 16.—Spanish forces in
Morocco have begun an offensive against
the Moors. An official statement issued
here last night says that they have oc-
cupied the town of Sidi Amaran, and
have dominated positions which com-
mand the entrance to the peninsula on
which Melilla is situated.

WEATHER
REPORT

Issued by auth-
ority of the De-
partment of
Agriculture,
R. F. Stewart,
N. B. meteor-
ological service.

Synopsis—Local showers have oc-
curred in Alberta and Saskatchewan,
where it has turned somewhat cooler,
while it is showery in the lower St. Law-
rence Valley this morning. The weather
has been warmer in Manitoba and the
Lake Superior region, while it has been
mostly fair and cool in eastern Canada.

ITALIAN VICTIM OF
BOOTLEGGERS

Witnesses Fear Results and
Will Disclose Nothing—
Twenty Casualties in Last
Three Months.

New York, Aug. 16.—Joseph Silco
was reported by the police today to be
dying with sealed lips, a victim of a
bootlegger in the Italian quarters
which has rolled up a casualty list of
twenty in the last three months.

WITNESSES FEAR RESULTS AND
WILL DISCLOSE NOTHING—
TWENTY CASUALTIES IN LAST
THREE MONTHS.

The attack on Silco was made in the
middle of a crowd of fifty picketers at
New Dorp Beach, Staten Island, but
detectives were unable to gain a single
clue as to the assassin's identity.

REV. A. J. MACDOUGALL, IN CHARGE
OF THE BAPTIST CHURCH, RECEIVED
A LETTER FROM THE PASTOR, VERY REV. A. W.
MEAHAN, SAYING THAT HE WAS IMPROVING
SLOWLY.

Eleven of the nineteen shootings that
preceded Silco's took place at or near
the corner of Grand and Christie streets,
in the lower east side. This corner, the
police say, is the scene of a secretly con-
ducted bootleggers' "curb market."

LOOK FOR RECORD
WHEAT HARVEST

Northern Saskatchewan Re-
ports Forty Bushels to
the Acre.

Oats Seventy-five and Barley
Forty—It is Not Expected,
However, That Whole Pro-
vince Will Show Up So
Well.

Prince Albert, Sask., Aug. 16.—Ideal
harvest weather prevails over the north-
ern area and wheat cutting is becoming
general. This is the general tenor of
a report issued yesterday by the
department of agriculture. At some
points where brighter conditions prevail
yields as high as thirty bushels are ex-
pected. This, however, is not the general
situation over the province.

DAMAGE IN SASKATCHEWAN

Regina, Sask., Aug. 16.—Rust and saw
fly, together with wind and rain lodging
the grain, has done a considerable
amount of damage to the wheat crop of
the province. This is the general tenor
of a report issued yesterday by the
department of agriculture. At some
points where brighter conditions prevail
yields as high as thirty bushels are ex-
pected. This, however, is not the general
situation over the province.

POTATO CROPS

Montreal, Aug. 16.—A fair trade con-
tinues to be done in new crop potatoes
and the tone of the market is firm with
sales at \$3 to \$3.25 per bag of eighty
pounds. The prospects are that the crop
this year will be much smaller than pre-
vious years and the indications are that
prices will rule higher later on in the
season.

SOME BIG PURSES

Philadelphia, Aug. 16.—With eighteen
events, including special races for a total
of more than \$25,000 in stakes and
prizes, the program of the fifth an-
nual Grand Circuit meeting for trotters
and pacers was scheduled to open this
afternoon at the Belmont mile track at
Narbeth, Pa.

WAS INMATE OF YORK COUNTY
MUNICIPAL HOME—MANY
ATTEMPTS TO ESCAPE.

(Special to Times)
Frederick, N. B., Aug. 16.—James
Ivey of North Lake who since May 11
has been an inmate of the municipal
home of the County of York at Nash-
ville, was found drowned on Satur-
day in the St. John River, a short dis-
tance below the mouth of the Nackawic
River. He was seventy-two years
old. The body evidently had been in
the water some time as it was decom-
posed to such an extent that identifi-
cation was difficult. It was accomplished
chiefly by means of a piece of beefsteak
which was found in his pocket. This had
been given him by a lady from whom
he had begged a meal. The sum of
twelve dollars was found in his pocket.

FRANCE ACCEPTS
U. S. INVITATION

Premier Briand Will Repre-

Paris, Aug. 16.—The official acceptance
on the part of the French govern-
ment of the invitation extended by
President Harding to the conference on
disarmament and Far East questions
was forwarded to Washington last night.
Premier Briand, who yesterday told
Meyr T. Herrick, the United States am-
bassador here, that he would attend the
conference, notified Washington that he
would be present.

FOUR KILLED IN
EARTHQUAKE ON
AFRICAN COAST

Rome, Aug. 16.—Serious earthquake
shocks are reported from the Italian
colony of Eritrea, on the African shore
of the Red Sea. A telegram from As-
mara, the seat of the governmental re-
sidence of the colony, says four people
have been killed and a score injured at
Massawa on the Red Sea coast. Several
houses have collapsed and others have
been damaged in that town, while other
casualties are reported from nearby
places.

SCRAPPER III
IS DISMASTED

Halifax, N. S., Aug. 16.—Scrapper III,
P. W. Baldwin's new Owen designed
sloop, which recently sailed from Bad-
deck for Halifax, to participate in the
Coronation Cup yacht race next week,
has been dismasted off Green Island, St.
Peter's, Cape Breton, according to a tele-
gram from V. Baldwin, received here
by officials of the Royal Nova Scotia
Yacht Squadron. The spar will be
spliced, the message adds, and the yacht
expects to arrive here before the end of
the week.

TEN STRAIGHT HITS, ONE
BEHIND SPEAKER'S MARK—DAVIS
HAS A GOOD PITCHING
STREAK—LATE SPORT NEWS.

New York, Aug. 16.—Ten hits in suc-
cession, one less than the major league
record, had been made by George Sisler,
St. Louis American star first baseman,
before he went out in his second time
at bat yesterday. The record is held by
Tris Speaker, of Cleveland, who set it
last year.

No hits had been made in 141-3 in-
nings off Pitcher Davis, of St. Louis,
until the Tigers made the first of their
three hits in the sixth inning.

The most far-reaching outcome of the
new schemes is the eventual compulsory
amalgamation of all the railways into
four great groups, who invariably

FOREST TENNIS CHAMPS

Forest Hills, N. Y., Aug. 16.—Suzanne
Legien's first match in America, against
Miss Eleanor Goss, of New York, was
the outstanding feature of today's
women's national tennis championship
parade on the courts of the Westside Club.
The match was scheduled for 4.15
o'clock.

The French champion also was listed
with Mrs. Molla Malory, U. S. cham-
pion, to meet Miss Margaret Grove and
Miss E. Walsh in a double match at five
o'clock.

Miss Legien in a brief practice ses-
sion with Sam Hasty, U. S. Davis Cup
team captain, displayed a scintillating
form that left her gallery eager to see
her in a real match.

MANY BADGES WON BY THE BOY SCOUTS

Upwards of 300 badges were won at the annual Boy Scout camp at Grand Lake, which broke up yesterday morning, after a fifteen-day period of successful camp life.

Mr. Timberley said last night that it was the most successful camp yet held, being attended by 250 boys from all parts of the province.

ADVOCATING BIG COMMUNITY CENTRE FOR WOMEN'S WORK

The enlargement of the present Y. W. C. A. quarters so as to include a big community building to be available for all women's organizations in the city was advocated at the meeting of the Y. W. C. A. board of directors yesterday afternoon in the King street home.

We will certainly require every bale of hay that is in the province at the present time, and I fear much more if it could be had. Unfortunately the upper provinces are as badly off, and it would be hard to secure feed at any price even though we could afford to pay the excessive freight rate that is being charged on such goods as hay.

The reports submitted showed gratifying progress. Mrs. J. D. Hunter, told of the girls' work, reported club activities had been successfully carried on. The Corns and the Boosting club among the cotton mill girls had had very pleasant gatherings.

The Travellers' Aid report, given by Mrs. James P. Robertson, told of many cases of travellers receiving assistance for which they were deeply grateful.

The gymnasium report showed that the indoor-outdoor club had now forty-four members. Among the special summer activities were picnics to Rugged Point, Seaside Park, a drive to Fairville and Camp.

The report of the cafeteria and dormitories was particularly good and showed a satisfactory balance in both departments. As many of the permanent boarders were away, transients had been received.

On the discussion regarding the proposed community building, it was thought that an endeavor should be made to achieve the big building.

MR. MEIGHEN'S DILEMMA

The Ottawa correspondent of Conservative newspapers like the Montreal Gazette are saying that Premier Meighen personally favors an early appeal to the people. The Ottawa Journal is inclined to believe the elections will soon occur. These papers agree that most of Mr. Meighen's supporters in the house are opposed to an appeal to the country before another session, and the reason is quite obvious. Another seasonal allowance is much to be desired, and very few of the members have any hope of being in the new house. Mr. Meighen, however, has to consider his own position as leader and it may possibly lead him to disregard the views of any but those who advise him to consider the future, not of individuals, but of the party.

WILL THE GOVERNMENT ACT?

Referring to the unemployment situation the Toronto Globe says: "The cities do not want a repetition of last winter's experience. The industrial and trade depression came with little warning, and relief methods had to be improvised in the winter months. The public authorities cannot plead that they will be taken by surprise again. There has not been the expected recovery, and it has been recognized for months that special provision would have to be made for the unemployed when the seasonal work of the summer and autumn slowed down. There is no sign that the Federal government has regarded it as a national problem calling for Dominion-wide measures. It will be a grave injustice if the entire load is to be put again on the shoulders of the municipalities, as it was a year ago. It would mean that Toronto, Montreal, Winnipeg, Vancouver, Hamilton and a few other cities would be flooded by non-residents seeking work or charity, and that they would have to bear a disproportionate share of the cost of relief."

IN IRELAND

Premier Lloyd George, on behalf of the British government, has offered Ireland such a measure of home rule as even the Home Rulers themselves in years gone by never dreamed of. Mr. De Valera has replied with a demand for Irish independence. Sir James Craig, speaking for Ulster, has made it clear that Ulster stands by its parliament and the imperial connection. The "republican parliament" meets today in Dublin for a four days' session to consider the situation. It has to choose between the very generous terms of the British government, which Gen. Smuts very strongly urges it to adopt, and a renewal of bitter strife. The government has made it clear that separation is not to be considered for a moment. The hour of decision is at hand. The true has given the people time for reflection, and it may be that the extremists will be outnumbered. There is a suggestion that the question may be submitted to a plebiscite of the people of southern Ireland, or that a new "parliament" may be elected. The general tone of discussion is still optimistic, perhaps because few persons can persuade themselves to believe the Irish people would deliberately choose war in the face of a measure of home rule so broad that one Ulster journal asserts it would, if given effect, disrupt the Empire. There can be no doubt that if the terms offered are flatly rejected the conditions in Ireland will be made infinitely worse than they have ever been. The door is still open, however, and the counsels of Gen. Smuts may yet prevail.

THE ADVANCE OF EDUCATION IN PALESTINE MARKED

London, July 30.—So comprehensive is the education plan of the government of Palestine that, at the present rate of progress, the whole country will be provided with schools within four years, it is announced here. Since January, 34 new village schools, providing elementary education for 1,860 children, have been opened, while state-aided schools are being built in villages by the inhabitants have been taken over by the government. An additional 28 schools will be opened during the current financial year, it is announced. Measures also are being taken for the development of the two training colleges for teachers. Teachers are also being appointed to the new schools, and the Bedouin tribes and teach their children. A central education committee has been formed, consisting of four Moslems, three Jews and three Christians. Under the arrangements now in force the people of the villages provide the buildings and furniture and keep them in repair, while the government pays the salaries of the teachers and other costs of maintenance.

ROCKWOOD MEMORIAL

The Rockwood Park memorial, erected in memory of seven young men who gave their lives in the great war, is a tribute to the patriotic zeal of the young ladies who form the Rockwood Comfort Club; and it is a memorial which through the coming years will remind all visitors to the Public Gardens that they who fell in the cause of right and for the preservation of the British Empire and the great principles of democracy are not forgotten. It is well to have these monuments erected, to record for future generations the deeds of brave men gone before, which preserve the heritage of Canadians and advanced the cause of Christian civilization. We reflect all too little in this age of universal hurry and mad pursuit of worldly aims, and it is well if now and then the sight of a monument such as the Rockwood Park memorial of enduring granite causes us to pause and reflect upon those principles and virtues which are the guarantee of human welfare in every age and clime.

THE ARMENIAN PRAYER

Bryant Washburn, when he returned from England, where he had been touring "The Road to London," an Associated Exhibitors' production, told the incident he witnessed in Soho, London, a district almost entirely populated by foreigners. The Turk and the Greek simultaneously arose from their table and started toward the Armenian, who covered in his seat. "Why did you chuckle when we were cursing each other?" bellowed the Turk. "Do you think you can laugh at us?" yelled the Greek, brandishing a knife. "Pardon me, gentlemen," sniggered the Armenian, "I was not laughing at you. I was praying."

TARIFF COMMISSIONS

The United States has a Tariff Commission, which is a body of men such as we have had in Canada, but a permanent body which was supposed to work for a long time in domestic politics. The New York Journal of Commerce says that it has not prevented the drafting of a tariff bill for the past year. It has even provided the frame of a scientific tariff. No other tariff passed within fifty years has evoked so much opposition as the Fordney Bill. The Commission has fallen down. This weak-kneed, unscientific disorganizer to tomorrow with current conditions in tariff-making and to worship the gods of any political party that happens to be in power has almost always been characteristic of government boards and commissions."

"That's better now; and the time before that?" "I was thinking of you, sir, as I got off with a \$10 fine."—Los Angeles Times.

A NOTABLE CONVERSION

The Mail and Empire asks, "What other question of world politics transcends that of bringing the British Empire and the United States into operation for promoting and maintaining the peace of the world?" We freely admit the importance of that object, and we agree with our contemporary that such an entente has been the dream of many of the largest minded friends of mankind. It goes on to say that Mr. Meighen's strongest party opponent should be willing to render him full credit for the signal service he did to Canada, to the empire, and to the world by removing a wedge of distrust between Great Britain and the United States. We have no desire to withhold credit from Mr. Meighen for taking a friendly attitude toward the United States, but we cannot forget that he and his party friends, and the Mail and Empire itself, are very recent converts to that position. Until recently it was their fashion to denounce the Liberal party as pro-American. Twice at least in 1891 and in 1911—the Liberal party proposed a union with the United States. Not content with opposing the project on economic grounds, which was legitimate enough, the Conservative party described it as a disguise for a movement for political union. Liberals were branded as traitors to Canada and the empire, while Americans were accused of slyly endeavoring to entrap Canada into annexation. Their neighbors were described in most unfriendly terms, and every possible effort was made to arouse anti-American prejudice in Canada. Even within the past year the campaign literature of the Conservative party said to those who were advocating better duties in Canada were friends of the American manufacturers, and were no better than friends of the Kaiser. There was evidence that a vigorous anti-American campaign would be part of the ammunition for keeping the Meighen government in office. Apparently this idea has now been abandoned, and Mr. Meighen has adopted the Liberal policy of cultivating friendly relations with the United States. It is a most welcome conversion, and we should be happy to believe that we have heard the last of anti-Americanism in a campaign cry. If Mr. Meighen can bring his party friends to the penitent bench, nothing more remains to be done, because Liberals and Progressives do not need to be converted to the faith which they have always held.

SAY COAL COMPANY OWES THE MINERS

Sydney U. M. W. Intends to Place Lien on One of Port Hood Coal Mines. Sydney, N. S., Aug. 16.—Unless the wage money is forthcoming, the United Mine Workers will place a lien on the coal mines at Port Hood, J. B. McLachlan, district United Mine Workers' secretary, stated yesterday. The federal government took no steps last year to promote work, nor does it appear to have any such intention this year. Will it do anything to ensure a proper organization for the administration of relief? There is a labor department—what is it doing? No doubt spring will bring better times, but a hard winter intervenes. In the words of the Toronto Globe: "If the government has not a policy ready it will be guilty of culpable neglect."

LANDLORD FINED AGAIN

Bronx Man Must Pay \$50 for Failing to Supply Hot Water. (New York Times). Aaron Elayoff, a tailor and landlord, who lives at 1,165 Vyse avenue, the Bronx, was fined \$50 yesterday, the second time in two months, on complaint of a tenant, Mrs. Bertha Zoller, also of 1,165 Vyse avenue, because he did not supply hot water, as agreed. The fine was imposed in the Bronx Court of Special Sessions by Justice Edwards, Herman and Healy, who gave Elayoff until Aug. 18 to pay the fine.

On July 20 he entered the room of Patrolman William McCarron in Brooklyn while the latter was asleep, and started to make off with his watch. McCarron awoke in time to arrest him. McCormick said his home was in Haverstraw, N. Y.

INCH HATPIN, SWALLOWED BY CHICAGO WOMAN, REMOVED

Chicago, Aug. 16.—Three months ago Mrs. Alla Levy swallowed a six-inch hatpin when she became excited as her small son fell off a chair. She told her doctor, but he had no success. She went to a doctor, and the pin, which had punctured the stomach walls in three places, was removed. Today she is on the road to recovery. "She should have been dead in 24 hours," Dr. C. C. Meyer said, but Dr. Roy Wiseman characterized the woman's recovery as a "miracle."

FAMOUS MOGAL JEWELS TO BE RETURNED TO INDIA

London, Aug. 16.—London is returning to India two famous Mogal jewels which have been stolen by the celebrated Koh-i-noor diamond. The jewels are to be restored to one of the great Indian museums, and Delhi has been suggested as their eventual resting place. The jewels were made for the Mogal Emperor Shah Jahan about 1650. After the sack of Delhi in 1739 these and other treasures were carried off by the ruler of Persia and Afghanistan, Nadir Shah; the fugitive Shah Jahan restored them to Benkt Sing at Lahore in 1813; in 1840 they were bought by the Government of that time, Lord Dalhousie, eventually passing to his daughter, and after her death to the Victoria and Albert Museum, in London. Each jewel is carved from a single stone. One is an emerald bow ring, intended to protect the left thumb when a strained bow string is released, and the other is an emerald toilet cup, mounted in gold, having a red gemstone, the not being chased and partly overlaid with translucent gold enamel.

"BLUE LAW" FOR GIRLS

Washington, Aug. 16.—A "Blue Law" for the girls was introduced in the House today by Representative Herrick, Republican of Oklahoma. Representative Herrick would prevent girls from going into the movies or on the stage. His bill is designed to prohibit beauty contests conducted by newspapers and by film organizations. "My motive for introducing this bill," said Mr. Herrick, "is that the young American woman of today is drifting farther away from home life, ceasing to be interested in maintaining a home, being a wife and rearing a family. It is a notorious fact that the American-born population is decreasing and that the recent immigrants and their immediate offspring are increasing and in the chair. All details in connection with the association's exhibit and the part which it will take in the exhibition were discussed. Mrs. J. Boyle Travers was appointed as convenor to take charge of the St. John Ambulance booth. Demonstrations in first aid work for the exhibition were arranged for and it was expected that association would have a very attractive exhibit."

A SILK PURSE FROM SOW'S EAR

Chemistry Proves Fallacy of Old Proverb—Caterpillar's Method Copied.

Cambridge, Mass., Aug. 14—A silk purse made from sows' ears, as chemistry's answer to the old saying that it couldn't be done, will be shown at the Chemistry Exposition in New York during the week of September 12.

In announcing the successful result of experiments, Arthur D. Little, Inc., chemists and engineers, of this city, said the silk was not very strong and that there was no present industrial value in the process involved. It was more or less the product of chemistry at play, but a contribution also to philosophy in refuting the fallacy of the old proverb.

In reciting the factors that entered into the transition of sows' ears from Chicago stockyards to a silk purse such as a woman might carry, the chemist explained that the first step was to analyze the silkworm's method of making silk. This done, its caterpillar chemistry was copied in the laboratory.

It was found that man had to provide a substitute for a process by which the silkworm exudes from two fine ducts in its head minute threads of a viscous liquid, coated with another secretion, which are cemented into a double strand, when it coagulates on reaching the air.

Analysis of this viscous liquid showed it to be like glue and with somewhat similar chemical properties. The sows' ear being chiefly gristle and skin, also has the natural elements of glue. This was obtained from the ears and it was put through several processes of preparation, filtered under pressure and placed in spinning apparatus of a special design.

The solution of glue and chemicals came out of sixteen very fine colorless streams, joined into one composite fibre, treated to give it strength and color, and pressed yet again to obtain the desired soft, silky feel. The weaving followed on a small hand loom, the fabric was formed and the purse made.

SEES BULLFROG SMOKE A CIGAR

Noted Scholar and Author Vouches for the Story.

A bullfrog that smokes is a curiosity lurking somewhere in Nichequam Lake, near Peterborough, Mass.

When in camp there the other evening, Librarian Harland Ballard, noted scholar and author, of this city, cast a lighted cigar in the water. Promptly a huge amphibian leaped after it, grabbed the unlighted end and swam to a rock, where it enjoyed a smoke for ten minutes.

Afterward the frog gave a concert, which indicated no illness. Mr. Ballard is trying to secure it for the Berkshire Museum, of which he is curator.

A QUEENS CO. MAN MISTAKEN FOR A DEER AND SHOT

William W. Gambelin of Cody's, Queens county, was accidentally shot and killed last evening between 7 and 8 o'clock by a young lad. It is alleged that the lad mistook the victim for a deer.

It is said that William Gambelin, accompanied by Harry Starkey, was walking through the woods near Long Creek when a boy fired at him thinking that he was a deer. Gambelin was hit in the leg by the bullet and fell to the ground. His companion assisted him to the house of David Fisher nearby where an effort was made to staunch the flow of blood but all in vain.

According to reports received last evening no arrangements have been made yet for the holding of the inquest in connection with the accident. While the shooting, according to reports, was accidental the fact that this shooting took place out of the hunting season was commented on.

The victim was a son of G. A. Gambelin of Cody's. He was single and twenty-two years of age. He is survived by four brothers: James R. of Coles Island; George A. and Walter H. of St. John and Harold S. at home; five sisters: Mrs. E. L. Northrup, of Coles Island; Mrs. J. B. Hetherington, of Washademoon; Mrs. Herbert Hickson, of Fredericton; Mrs. K. M. Vallis, of Oak Bay and Mrs. W. C. Goodwin, of East St. John; and two half sisters: Mrs. S. E. Perry, of Hartford (Conn.), and Mrs. R. E. G. Clark of South Deerfield (Mass.). Arrangements for the funeral have not been completed.

LATCH-KEY LAW

Vienna, July 27—The famous "latch-key law" has been passed and Vienna youngsters now may go to bed and stay there without having to let in late home-comers. As the "size of the average front-door key in this country prohibits carrying it in pockets, they are being made of aluminum and fold on a pivot.

Woman Suffrage For Uruguay

Montevideo, July 19—President Bram has sent the Uruguayan Congress a bill providing suffrage for women and all other legal rights held by men. The project has met with the approval of influential groups in Congress and it seems to be assured of success. Passage of the bill will give Uruguay the distinction of being the first South American nation to grant women equal rights.

RECENT WEDDINGS

Ellis-McDermott.
The marriage of Miss Mary Elizabeth McDermott, of Burnsville, Kings county, to Charles Edward Ellis, of Shanklin, St. John county, was solemnized last evening at the Main Street Baptist parsonage by Rev. Dr. David Hutchinson. The young people will spend a short honeymoon in St. John.

RECENT DEATHS

Mrs. Johana H. Steiper.
Mrs. Johana H. Steiper, widow of the late C. Steiper, died yesterday at her home, 731 Main street, at the advanced age of eighty-nine years. Mrs. Steiper, who came to St. John from Denmark in 1854, was one of the founders of the Postwick Hall Mission, which was formerly located on the corner of Main and Mill streets. When the Mission church was started she was among the first to worship with that congregation.

Mrs. Steiper was the mother of twelve children, seven of whom survive her, namely: Mrs. W. H. Perkins, of California; Mrs. W. Hanson and Mrs. S. W. Glover, of Saugus (Mass.); Mrs. R. E. Mullen, of Bangor; Misses Ada and Annie, at home, and W. A. Steiper, of this city.

The funeral will take place from the Mission church, Paradise row, Wednesday afternoon at 2.30. Interment will be made in Fernhill cemetery.

DANCE ABOUT TOMB FULFILLS BEQUEST

Quaint Cornish Custom Revived With Children as Beneficiaries.

London, Aug. 16—A quaint but celebrated Cornish custom was observed with all joyousness again this year for the first time since 1914, when children danced around the grave of John Knill, who made a bequest for this in a curious will. For many years he was collector of customs at St. Ives, Cornwall.

He died and was buried there more than sixty years ago. He settled by a deed of trust on the Mayor of St. Ives, to sing an annuity of £10. The deed also directs that once every five years the following sums be expended: Ten pounds sterling for a dinner for three trustees and two guests; that five pounds sterling be equally divided between ten girls of twenty years of age who shall dance around his mansehouse for a quarter of an hour; and afterward shall sing "Old Hundred"; one pound sterling for a fiddler who shall play on this occasion; two pounds sterling for two widows, not less than sixty-four years old, who shall accompany the girls, and one pound sterling for white ribbons for the girls, the women and the fiddler.

On this occasion P. K. Hawke, for the tenth time in fifty years, was master of the ceremonies and a good time was had by all.

Other strange bequests made by Mr. Knill were: Five pounds sterling to the man and wife over sixty years old who had reared to the age ten years or more the greatest number of legitimate children without parish relief; five pounds sterling to each, the best knitter of fishing nets and the best packer of pickled eels; a five pound sterling marriage portion to the St. Ives woman married between the previous December and the Knill festival in the following year.

This year the knitting award was won by two women, one of whom is ninety-two and the other eighty-eight years old.

WOMAN ASKING ALMS HAD \$1,694 IN CASH

Arrested in New York Subway Station While Begging From Passengers.

(New York Times.)
A woman who was arrested yesterday by two special officers of the Brooklyn Rapid Transit, who charged her with soliciting alms in the thirty-fourth street subway station, had on her person when searched enough money to bring her within the province of the income tax law. A total of \$1,694.99 in pennies, silver, gold and notes was found in her clothing, the police said.

She gave the name of Maria Hant-

GIFTED SCOTTISH LADY IN TORONTO

(Toronto Globe.)
Not the least among the noted men and women of the Empire now gathered in Toronto is Mrs. McMurray, now of Capetown, South Africa, who in coming to Canada trends the footsteps of her father and mother of her race who came to this country when the great landowners turned their backs on the highland hills and the clansmen sought homes across the sea.

Their story is told in "The Highland Clearances," written by Mrs. McMurray's father, the late Alexander Macrae, the editor of The Celtic Magazine, and known throughout Scotland as "The Clack."

In his work he was much helped by his wife, an Englishwoman, who herself was an authoress, so it is small wonder that the daughter is a writer by nature. She received her first training in her father's office and later was a member of the staff of the London Nation for nine years, and private secretary to Henry W. Massingham, a post which brought her into touch with many of the literary lights—Chatterton, Bennett, Galsworthy and others.

About eleven years ago she went to South Africa to pay a month's visit to her brother, Mr. Thomas W. Mackenzie, editor of The Friend, Bloemfontein, and remained there, learning Dutch after a time and entering the civil service. Child welfare work (which is making such strides in South Africa that it is causing New Zealand to look to its laurels) next claimed her enthusiasm and energy, and now she is in Canada on a travelling scholarship awarded by the government, and may take a course in the social service department of the University of Toronto, and will study child welfare work generally as Canada knows it.

Her stories of South African distances are more readily understood by Canadians than by any other fellow-visitors. Her statement about "1,600,000 white people in an area of 900,000 sq. miles" passed unnoticed in the little group to which she spoke, but when she said that it was a journey of three days and three nights between Durban and Capetown and five days and five nights of a continuous journey from Capetown to German West Africa (where she spent

HUGE HAWK SHOT BY THE SEXTON ON THE ROOF OF A CHURCH

New York, Aug. 15—Shoppers on Fifth avenue were given a thrill when they heard a shot ring out and then saw a large hawk come tumbling to earth. The huge bird, which measured five and a half feet from the tip of one wing to the other, perched itself on the steeple of the Collegiate church of St. Nicholas and calmly devoured a pigeon.

Charles S. Medler, the sexton, took a station on the roof of the church, waited for the bird to fly and then brought him down with a shot from a gun he uses to hunt geese.

SCENE OF TURCO-SPANISH WAR IS FAMED BARBARY COAST

Picturesque Country Where Pirates Once Operated and Europeans Were Carried Into Slavery—Present Trouble Followed Revolt of Native Soldiers—Abd-el-Krim a Clever Leader.

Madrid, Aug. 14.—(The Associated Press)—That part of Morocco called the Spanish zone where Spain's troops have just suffered disastrous reverse at the hands of the Moors with the loss of thousands of men and thousands of square miles of territory is part of the famous Barbary Coast whose pirates preyed on European commerce for many years and carried Europeans into slavery.

In the present generation it has been made famous by the operations of the chieftain Mulai Ahmed el-Kaimi, who captured and held for ransom Ion Perdicaris, an American citizen, in 1905. This was in the administration of President Roosevelt and evoked from Secretary Hay the historic phrase denouncing "Perdicaris alive or Perdicaris dead" which resulted in the almost immediate release of Perdicaris.

The rest of the world knows comparatively little about Morocco despite the fact that it has been the ground of intermittent fighting for centuries. It occupies the extreme northwestern part of Africa, having an area estimated at about 300,000 square miles and a population of 5,000,000 to 10,000,000. Its people contributed to the armies which once invaded Spain and conquered Granada.

An Absolute Monarchy. The country is an absolute monarchy with a sultan or caliph as its head. The present occupant of the position is Mulai el-Mehdi but his control over the sheikhs, or nobles, has been for many years only nominal. Various European governments have negotiated with the sultans in an attempt to pacify the Moors, but these have only resulted in outbreaks by numerous leaders such as Raisuli, who have committed outrages which again brought the Moorish question before the European cabinets.

Three races inhabit Morocco, the original Berbers, or mountaineers, who conquered Spain on three different occasions; the mixed race of Arabs and Berbers known as Moors, both of which races are generally Mohammedans, and the colonies of Jews which inhabit the coast cities and control the majority of the country's commerce.

The Spanish zone, where the fighting is now in progress, is a narrow strip of land along the northwestern coast fronting on the Mediterranean Sea. It is about 200 miles long, east and west, with an average Algeria, under control of the French, to the Atlantic Ocean on the west. It does not, however, include the extreme northwestern tip of the land which is located in the city of Tangier.

French nominally control the Moorish zone, but the northern littoral of Morocco was assigned to Spain under the terms of the Franco-Spanish treaty signed in 1912. Since then Spain has been engaged at intervals in sporadic attempts to maintain her authority with varying success and failure.

Both the French and Spanish governments decided in January, 1920, to send military demonstrations in their respective zones for the purpose of preparing the way to more orderly government. The French zone was soon pacified. The Spanish territory which is administered by General Damazo Gomez, a high commissioner, was not so submissive. Spanish troops at first made their base on the Atlantic coast of Morocco, at Arzila, also known as Larache. From there they penetrated well into the interior and captured a number of important military installations in their respective zones.

The Spaniards, however, sent another expedition under the command of General Silvestre, who established a base at Melilla, midway on a promontory which extends from the eastern end of the Spanish zone northward into the Mediterranean. From that point, General Silvestre's troops attempted to penetrate southward into the interior. Early successes were reported, but last spring the Spaniards encountered strong native troops and hostile tribesmen, estimated to number 20,000 men, who were well armed and equipped with artillery.

The present reverse of the Spanish forces had their beginning early in June when six companies or auxiliary orish officers and then joined the rebels. Since then the Spaniards have suffered several other disasters and are being thrown back upon Melilla. General Silvestre was either killed or committed suicide while endeavoring to maintain one of the outposts. The Moors in that section are headed by Abd-el-Krim who is about thirty-five years old, and is an accomplished linguist. His aim is said to be to divide Morocco in accordance with European ideals but without losing the essentials of Moorish culture. He was loyal to Spain. During the world war he became actively pro-German and interned him, but he escaped and was said to have avenged upon General Silvestre.

Raisuli has not figured in the recent fighting. His territory seems to be further westward and he is said to have his stronghold in the native city of Wazan which lies below the line of the Spanish zone.

DECEDE TO RAISE PER CAPITA TAX. Railway Carmen Will Use Increase to Improve Benefits and Strengthen Defence Fund.

Toronto, Aug. 16.—The question of raising the per capita tax on all its 200 members, was introduced at yesterday's session of the railway carmen of America, and passed by a substantial majority.

From the present straight rate of 50 cents a month the law committee recommended a graded increase, calling for a monthly tax of 55 cents on each cleaner; 65 cents on helpers and apprentices; and 85 cents on mechanics.

It was also proposed that the great increase in revenue which would result from this should be used for certain improvements in benefits, notably the issuance of "out-of-work" stamps, and the enlargement of the scope of disabilities, to include partial as well as total, and also to strengthen the defence fund.

INJUNCTION IN LIQUOR EXPORT CASE EXTENDED

Shipment Into United States Allowed by 1871 Treaty is Claim of Distillers.

Detroit, Mich., Aug. 16.—An extension until August 26 of the temporary injunction recently given Hiram Walker and Sons, distillers of Walkerville, Ont., to restrain Collector of Customs Richard I. Lawson and John A. Grogan, collector of internal revenue for the Detroit district, from interfering with shipments of liquor in bond passing through this district, was also issued the original order. This injunction would have expired today.

Counsel for the distillers told the court that they intended to file briefs of the arguments heard in Congress during debate on the Volstead Act which they believe will support their contention that the act does not affect the trade treaty of 1871 between the United States and Great Britain.

Liquor Unloaded. New York, Aug. 16.—The British schooner Henry E. Marshall, which was seized as a liquor runner off the Jersey coast, was towed from her anchorage in New York harbor to the Hudson River pier yesterday and 1,200 cases of liquor, were unloaded and conveyed to a warehouse to be held pending confiscation proceedings.

Public Carriers Only. Toronto, Aug. 16.—All shipments of liquor that leave the Canadian shore on the Essex border by any other mode of conveyance than a public carrier, will henceforth be subject to Federal excise duty. This has been decided by the Attorney-General's department to police and license officials.

Trailing Smugglers. Atlantic City, N. J., Aug. 16.—Larger vessels than the two schooners recently confiscated, are involved in rum running along the Atlantic coast, Assistant U. S. District Attorney Pease said yesterday.

"Our agents are trailing the big fish in the smuggling game and arrests of these men may be expected soon," he added. "The cases go much further than those against the schooners, which will seem insignificant by comparison, our evidence tracing the liquor to cargoes of bigger vessels."

"PEGGY PUTS IT OVER" DELIGHTS UNIQUE PATRONS

Lovers of the beautiful and those who enjoy a simple tale of comical and emotional thrills will delight in seeing "Peggy Puts It Over," the Alice Calhoun production which was shown at the Unique Theatre last night.

This is the type of story that appeals to all classes and all ages. The beautiful landscapes, the Hudson river, the pastures with cattle grazing and the horses with colts running about the field. The story itself is an individual who lives back to nature and is simple, frank and honest in his dealing. Alice Calhoun is charming and does her work with unusual skill and finesse.

When she checks her in a building project, she does a unique bit of acting. Her act is exceptionally capable. Her leading man, Eddie Langford, is a type that blends with the evening's entertainment. "A Dollar's Worth," featuring Harry Sweet, was fun to see. The religious views he is alleged to have expressed in a public address, according to George Harrison, secretary of the St. James rate-payers' association. Mr. Bayley was dismissed from the principalship of the King George V school by the St. Boniface school board for the same reason.

TO ATTEMPT AGAIN TO SWIM CHANNEL. Boulogne, Aug. 16.—Henry Sullivan, the Lowell, Mass., swimmer, who has made several attempts to swim the English Channel, and is now in France for another try at this feat, announced today that he would make the effort August 26, 27 or 28th, according to the tide and wind. His start on the attempt to gain the British side of the channel will be made from Cape Grimes, southwest of Calais.

40 CHINESE HELD AS STOWAWAYS

Fourteen Taken From One Steamer at New York Yesterday—Attempt at Smuggling Revealed.

New York, Aug. 16.—Fourteen more hidden Chinese were found by immigration inspectors on the British steamer Bows Castle yesterday, making a total of forty arrested since the vessel's arrival Saturday.

Investigations of the stowaways effect revealed business cards of Hong Kong agents introducing the bearers to boarding housekeepers in New York and vicinity. Some of the Chinese said \$500 had been paid to one man and \$200 to another to aid in smuggling them into the United States.

THE UNEMPLOYED PLAN FOR RELIEF

Resolutions Passed at Toronto Meeting—Employment or Pay at Union Rates Demanded.

Toronto, Aug. 16.—Employment or compensation at union rates, a heavy tax on all incomes over \$3,000 to pay for the unemployment compensation, immediate trade with Soviet Russia to "stimulate Canadian industry," no evictions for non-payment of rents, and medical care for the unemployed and their dependents were some of the things demanded by a crowd of about six hundred unemployed in a resolution passed at the Labor Temple last night.

At the same time it was urged that the workers organize in every city and town, and in the background was held out the promise that mass action would solve the whole problem.

40,000 FRENCH WORKERS TO STRIKE

TO MAKE LAND PRODUCE. Mexico City, July 31.—National lands in the territory of Quintana Roo which have stood idle since 1899 are to be divided into small tracts and sold on easy terms to farmers, who can give suitable financial references. The distribution of these lands was suspended on December 18, 1909, in order to allow for a complete survey.

POWER FROM THE WATER COURSES

K. H. Smith Reviews the Situation in These Provinces.

The first annual convention of the Electrical Association, Province of Nova Scotia, will take place in Halifax, August 16th to 17th. The proceedings will be held at the Technical College, Spring Garden road. It seems generally understood that the hydro electric development in the Maritime Provinces has been largely instrumental in the formation of the Electrical Association.

The Halifax Chronicle quotes several pages to the general subject of electric energy and the development of its use in an article by K. H. Smith, chief engineer of the Nova Scotia Power Commission, who is well known in St. John's with electric energy from the water courses of the provinces, and is as follows:

"An electrical Association could have little excuse for existence in a territory where there was not an adequate supply of electrical energy. Up to the present time, with few exceptions, this has been the situation in the maritime provinces. Existing generating stations, whether steam or hydro-electric, have been inadequate. In addition the typical rates for electrical service in general effect have not been such as to induce a general use of electricity."

"It is generally recognized that hydro-electric generating stations offer the best opportunities for investment to increase electrical energy. In such generating stations, by far the greatest part of the total cost of electricity is the investment, which must be paid in any case, so that once these adequate supplies of electrical energy are up to the capacity of the generating station may be sold at a very attractive rate."

Financial Successes. "There have been quite a number of small hydro-electric stations throughout the maritime provinces, these stations, however, have not been operated on a twenty-four hour service basis, and have not properly conserved their water supplies. Moreover, the flat rate for electrical service in effect in most of these towns has been such that the few years exhausted the capacity of most of these developments within a very limited period. It is interesting to note, however, that all of these small hydro-electric developments which are almost everywhere, have been extraordinarily successful from a financial standpoint. In some cases at Liverpool and Shelburne where the capacity of the generating stations has been reasonably adequate, the business conditions of these towns, notwithstanding the more or less unsatisfactory rates in effect.

"The condition of affairs outlined will shortly be very materially altered by the completion of a number of comparatively large hydro-electric power developments in the maritime provinces, and a number of smaller developments, one or two of which have recently been completed.

"The St. Margaret's Bay Development, some fifteen miles from Halifax, the initial stages of which are now nearing completion, will have an initial capacity of 8,600 h. p. at Halifax, or 21,000,000 k. w. h. a year. The final development of this site will supply over 30,000,000 k. w. h. a year.

In New Brunswick. "The Musquash development, about thirteen miles from St. John's, has a capacity almost identical with the initial capacity of the St. Margaret's Bay development. The development at Grand Falls, the development of the Nepisiguit river in New Brunswick has recently been completed by the Bathurst Lumber Company. This development has an installed capacity of 9,000 h. p., with provision for an ultimate installation of 12,500 h. p. While intended primarily for the Bathurst Company's own purposes in connection with their lumber and pulp industry, it is being utilized to supply all the commercial needs of the district. The first unit of this development is now operating and is now supplying not only the Bathurst Company but the town of Bathurst and the surrounding power. In this connection it is interesting to note that a storage battery suburban car is being operated from Bathurst and Commissioned batteries being charged at Bathurst from this hydro-electric development on the Nepisiguit river. It is possible that when adequate supplies of electric energy become available in various parts of the maritime provinces, more of these cars might be used to advantage. A transmission line thirty-seven miles in length is now being built by the New Brunswick Electric Power Commission, who are buying power in bulk from the Bathurst Company. This line, with extensions in the Miramichi river, which, with necessary extensions of generating station and distribution lines, will be adequate to supply all the existing and immediately prospective electrical needs of the Lunenburg-Malbone-Bridgewater district.

Other Projects. "Other projects are under active consideration, notably that of Sheet Harbour to supply the Pictou county industrial district, and that of Bear River to supply the Annapolis Valley. "Within the past two years a hydro-electric development has been completed on the Gaspeaux river near Wolfville. While this development is being used largely for industrial purposes, it is also being used to supply the pulp and lumbering industries, transmission and distribution lines are rapidly being built to supply all the thickly populated district surrounding this plant. "Within the past year or two a small hydro-electric plant has also been completed in the vicinity of Berwick, and this development is now supplying the Berwick, Aylesford and the surrounding district. "All of the developments mentioned represent the most permanent and highly effective type of construction. The

OTTAWA PAYS FINAL TRIBUTE TO MRS. EDDY

(Ottawa Journal, Friday.) With bowed heads the hundreds of employees of the firm of E. B. Eddy Co., Ltd., paid their last respects to the memory of the late Mrs. E. B. Eddy as the funeral cortege passed the works on its way to the Union depot yesterday afternoon for Chatham, N. B. To enable the employees of the firm to show their respect a half holiday had been declared.

The funeral cortege left the house at 3 p. m., passing along the Aylmer road to the Chaudiere bridge, where it crossed the Ottawa river into Ottawa, and proceeded to the Union depot in time to catch the 4:30 train for Chatham, N. B. The funeral cortege was accompanied by many floral tributes accompanied the casket, as besides the large number of friends who sent tokens of sorrow, each department in the E. B. Eddy works sent a wreath.

Among those present at the funeral service were: Hon. W. S. Fielding, representing Dalhousie University, Halifax; Col. J. W. Woods, Messrs. Jackson and Fred Booth, Mr. C. H. Beddoe, Mr. G. H. Miller, Mr. S. G. Cushman, Ald. J. F. Taylor, Mr. Walter Brunson and many others from St. Andrews and other parts of the province. Mr. E. J. Richardson, of Santiago, brother and sister of the late Mrs. Eddy, accompanied the cortege to Chatham.

At a meeting of the executive committee of the Ottawa Association for the Blind, held at the Hotel St. Andrew, which had benefited most from Mrs. Eddy's generosity, the following motion, moved and seconded by Mrs. W. P. Grant and Mrs. J. M. MacFarlane, was adopted: "That the Ottawa Association for the Blind learn with genuine grief of the death of its vice-president, Mrs. E. B. Eddy, who for years a devoted worker for the blind as well as a true friend and liberal supporter of their cause in Ottawa, and desires to express to her surviving relatives its deepest sympathy with them in their bereavement."

SEA TALE OF A PARROT. Frees Other Birds on Lincer Justin When Offered by Officer.

(New York Times.) Jack O'Brien, a big green parrot, was one of a consignment of 100 birds on the Negisquit river. Justin during a trip from Manaus, Brazil, 1,000 miles up the Amazon, which ended at this port yesterday. Jack was made a pet by those on board, and he accumulated a whole bag full of tricks. One day when the vessel had headed north from Bartados, her last port of call, Jack took offense because one of the officers showed him out of his room when the bird interfered with the making out of a report.

For a day Jack brooded, spending his time with the chief engineer. Early the next morning the parrot went to the cages of the other birds and liberated at least a score of them. This caused consternation among the negroes of the crew, for parrots kept popping out of them from dark places and screeching in their ears when not expected. Finally all the birds were recaptured.

The officers were responsible for the story that Jack at 11:15 o'clock every night when the watch was changed, would mount the bridge and shout out "Change watch."

ALWAYS A FIGHTER. Kitchener Telegraph: Sir Sam Hughes is maintaining his reputation to the last as a fighter and man who never knew when he was beaten. The veteran soldier and statesman several times has rallied his strength for another battle with the Grim Reaper when doctors believed death was a matter of moments.

Margaret's Bay, Musquash and Nepisiguit developments are not excelling in time with the chief engineer. Early this year, synchronizing as it does, with the completion of a number of considerable power projects in the maritime provinces, is most appropriate."

THEFT OF \$20,000 IN FURS REPORTED

Waterbury, Conn., Aug. 16.—Charles B. Rodman, furrier, whose store is within 300 yards of police headquarters, yesterday reported loss of furs during the previous night which he valued at \$20,000. Among other items were sixty-five fur coats.

FOOD PRICES IN MOSCOW DECLINE

Riga, Latvia, July 27.—(Associated Press by Mail)—Prices of foodstuffs on the Moscow market are reported steadily increasing. A pound of rye bread, early in July, could be had at from 3,600 to 4,000 rubles; beef at from 7,000 to 8,000 rubles; pork from 10,000 to 12,000 rubles; from 18,000 to 20,000 rubles and potatoes from 4,800 to 5,200 rubles; while eggs are sold at 1,000 to 1,200 rubles and cucumbers, one of the most popular articles of diet, at 1,000 to 1,500 rubles each.

The average wage paid in factories and to government employees, in addition to rations supplied by the state, was about 10,000 to 15,000 rubles a month. The Moscow rations for the week, as reported by the official Pravda, were, for workmen of the preferred classes, three pounds of black bread, some herrings and small quantities of other essentials for a period of five days. Less favored citizens were allotted one pound of bread for five days and no herrings. The wages allowed in addition to these rations would not buy a pound of butter.

The Bolshevik government, in fixing international telegraph tolls, considered 20,000 rubles as equal to one dollar.

Inspected River Glade

As guests of Joseph A. Likely, the president of the anti-tuberculosis society of St. John, a delegation of those interested in anti-tuberculosis work visited the River Glade Sanitarium yesterday. The party of fourteen went to River Glade in a private car attached to the 10 C. N. R. train yesterday morning. Piloted by Dr. Carmichael, the superintendent, and Miss McKel, the matron, the party inspected the various buildings of the institution and were much impressed by the attractiveness of the locality and the efficiency of the equipment. In their opinion, Dr. Carmichael was carrying on a very effective work in every way was the right man in the right place. The happy, contented patients were a pleasing testimony, they said, to the benefit derived from the rest cure and fresh

air treatment under proper scientific control. The guests were treated to an enjoyable luncheon after which speeches were made by Mr. Likely, Dr. A. F. McAvenny, Dr. A. H. Farris, Dr. Carmichael, H. B. Scholfield, and Hon. C. J. Osman, one of the directors of the sanitarium.

The speakers advocated still greater support from the Provincial Health Department and it was urged that the government should follow the example of all the other provinces and enable the workers to establish dispensaries in every large centre to the end that an energetic effort might be made to stamp out the dread disease. Dr. Carmichael met the members of the party on their arrival at River Glade station and motored them to the institution. They returned last evening. Those who made the trip were: Mrs. M. B. Edwards, Dr. Doris Murray, Miss Muriel Sedgwick, Mrs. E. Heaney, Miss Grace Skinner, Miss Agnes Warner, Joseph Likely, E. Blasing, H. B. Scholfield, Rev. W. Duke, Dr. A. F. McAvenny, Dr. W. BIG STORY AT THE IMPERIAL TODAY

Hobart Bosworth in "His Own Law"—A Powerful Production—Interesting Travelogue.

Lovers of tough-fisted and strong-minded heroes will find Hobart Bosworth's impersonation of J. C. MacNeir, construction engineer, in the latest Goldwyn-Parker Road, Jr., production, "His Own Law," now at the Imperial, one of the surest and truest delineations of the able, sturdy hero that this finished actor has made for the screen. J. C. MacNeir, a successful construction engineer, has formed the habit of going on a spree at the conclusion of every successful job. On one of these, he has an encounter with a young Frenchman, with whom he later makes friends and bunkers for the night in a cheap lodging house. Upon MacNeir's return to his business, he is called upon to undertake a long engineering task in Chinook, Alaska. He takes his acquaintance with him, and together they begin the long job.

From the other end of the world comes Sylvia to settle the matter of a deed for an aunt back home. MacNeir's companion, Jean Saval, meets the girl and the inevitable call of youth to youth follows. During the progress of his summer idyll comes the awful summons from France: "Report at once to your regiment for transportation to Bordeaux, where you will join your regiment." There is but one thing to do, Jean tells his friend, MacNeir, of love, and sends him away and will not return for a few days. As Jean left for France, the justice of the peace came home—but too late. But MacNeir knew the meaning of friendship in all its aspects; and it entailed a protective duty, first to Jean, the trustee, and then to Sylvia, whom Jean had left in good old Mac's care.

The first few months of Jean's absence came to a crashing climax for Sylvia in the receipt of a telegram saying that her lover had been killed in action. And the justice of the peace had come a moment too late! There was but one to whom Sylvia could turn, and in shame and contrition, she told MacNeir her dilemma. He did the only thing that his sense of duty prompted him to do; and Sylvia consented to live with him when he volunteered always to think of her as poor Jean's widow.

Four years passed, during which Jean Saval's little son had awakened a great love in the heart of MacNeir. And then, Jean Saval came back. He found Sylvia and MacNeir, and little Jean. The situation was plain to him. His friend—and Sylvia even—had betrayed him he thought. There are battles which leave in their wake bruised and bloody bodies. MacNeir faced a death struggle between his love for Sylvia and his promise to his friend. In the end, it was Sylvia who decided. What she decided and who was the stronger to bear the burden of defeat, forms the powerful climax of this thrilling photo-drama.

In addition to the above excellent feature the Imperial presented another of Burton Holmes' splendid travelogue, this time A Trip to Finistère, one of the quaintest sections of La Belle France. The Topics of the Day and Fox News

UNVEILING OF THE ROCKWOOD PARK MEMORIAL

As a memorial for all time and as an inspiration to those who follow after there was unveiled in the public gardens in Rockwood Park, last evening, a monument of granite erected by the members of the Rockwood Comfort Club to commemorate the seven, residents of that vicinity, who gave their lives for the cause of liberty and right in the great war. The ceremony was a deeply impressive one. To witness it there was a large gathering in which were the representatives of the civic authorities and of the leading organizations in the city. The evening was clear and very still, giving added dignity to the ceremony.

The guard of honor composed of members of Knox Church Cadets under the command of Mr. Vall and of members of the Rockwood Comfort Club, led by Patrol Leader Ralph McDaid surrounded the monument. Venerable Archdeacon H. Crowfoot, rector of St. Paul's church, in making the opening address explained how the girls of the Comfort Club had sustained the boys from that neighborhood when they enlisted and went overseas, how they had sent comforts to them and how when some of the boys had been called upon to make the supreme sacrifice the girls had felt that at least they could do was to raise a monument to their bravery. The gathering had assembled to witness the unveiling of that memorial and it was fitting that relatives of those who died should unveil it. Beside Myers and Gordon Noble, whose brothers names are inscribed on the tablet having performed the act of unveiling, Archdeacon Crowfoot then read the inscription as follows: "Erected by the Rockwood Comfort Club in memory of J. A. Myers, W. C. Smith, H. L. Boyer, L. C. Seelye, E. L. Arnold, D. M. Noble and M. C. Noble, residents of this vicinity, who in the great war gave their lives for the cause of liberty and right."

In Bed of Flowers. The memorial stands in a bed of flowers at the eastern end of the garden on slightly rising ground where it can be seen prominently from all parts of the garden. It is made of a solid block of Spoon Island granite, eight feet high and four feet across the base and with the exception of the lettering and two maple leaves, which are polished, the whole monument is of rough finish. The inscription is surrounded with a laurel leaf and the guard of honor and beneath are crossed rifles deeply carved.

Rev. A. Gordon Dickie, former minister of St. Stephen's church, in his address said there seemed to be the finger of destiny in the fact that the nearest church brought him to St. John at the time when the ceremony was to take place. He extolled it a great feat of the boys whose names had just been read had been members of his church. They had been bright and happy and had taken their part in the Sunday school, and the church organizations, and in the sports and pleasures. With equal readiness they had answered their country's call and, in war, had paid in practice the teachings of games in co-operation and friendly rivalry. It was a pleasure to know that a monument had been erected where they had played. The question was sometimes asked would the British Empire pass as other empires had in other days, but he thought that the question could be safely answered. The British Empire would endure because it was founded not on material things but on the finer traits of character which these men exemplified. There remained the duty to treasure that memorial just unveiled that the lads of the city beholding it might receive inspiration from the noble example it commanded.

If you put a little more thought into the purchasing of your Electric Lamps

You will derive increased pleasure from your home surroundings. Good lighting from efficient lamps will aid in decorating your rooms and will improve your choicest ideas in furnishings. Don't buy your electric lamps carelessly—anywhere—anyhow—attracted mainly by cheap price. Good lamps require skill in manufacture and consequently are not found on bargain counters. Buy good lamps—from a good electrical or hardware dealer. For your Living Room, Dining Room, Hall, Kitchen, Porch and Bathroom, you should most certainly use LACO NITRO Lamps. They give a beautiful, strong, high-powered light, because they are filled with an inert gas, in which a specially prepared filament burns more brightly and efficiently than in the ordinary vacuum bulb.

LACO NITRO LAMPS

Plan never to look over your lamps and then get the poor, weak bulbs, and replace with LACO NITRO LAMPS.

"In America the Methodist Church is probably the most numerous of all churches," said Dr. Workman, secretary of the Congress to the Westminister representative. "It is under episcopal government, and the delegates are selected by the bishops. As an indication of the cosmopolitan characteristics of American Methodism, it carries on a German, and in certain districts it was

After an interval of twenty years, the Methodist Ecumenical Congress is to meet next month in London, Eng. At its previous sessions it assembled in Wesley's Chapel. On the present occasion only the opening meeting is to be held in this mother church of Methodism. The remainder are to be held in the Central Hall, Westminster. Out of the millions of Methodists throughout the world—all sections are uniting in the Congress—only 55 representatives are selected by the different churches in the various countries. Of these, 220 are nominated by the Methodist Churches in the British Isles, Australia, New Zealand, the Cape and India. The remaining 330 come from Canada, the United States, the Methodist U. S. A. mission fields, and Japan. Some of the delegates will be native missionaries from India, China and Japan.

rency.
Washington, Aug. 16.—The treasury

Bradstreet's Review of
Business Situation
Bradstreet's Weekly Trade Report,
Montreal, says: "The wholesale dry
goods houses now look upon the stability
of prices at their present level, which
have been greatly reduced, and the trade
are looking more confidently into the
near future. Retail buyers, while they
are not ordering as in the old days, are
gradually increasing their quantities."
The quantities of refined sugars ex-
ported during the past week were con-
siderably heavier than any of the ship-
ments during the past few weeks. Eng-
lish firms are still making liberal pur-
chases of Canadian refined sugars, which
has made the local market much firmer,
with the result that prices have ad-
vanced fifty cents to one dollar and fif-
teen cents per hundred pounds as to
grade. Wholesale grocers report busi-
ness as normal, in a few lines of manu-
factured goods prices are easier, while
some of the staple lines show slight ad-
vances.

Don't Be Caught
Unprepared

Dear John:
I know you mean well.
You're taking prosper-
ity for granted. In case
you were called away,
you think we will be all
right—or have you given
it thought?
Your children might
be homeless and penni-
less tomorrow—who
knows?
Therefore, the time to
make sure of protection
is to-day.
Please do something
right away.
Your loving wife.

Are You Wasting \$20,000?
Out in Kansas City little Jimmy
Godfrey, aged thirteen, climbed a tree
to gather walnuts. Suddenly there was
a flash, a hiss, a scream. Jimmy's face
had come into contact with an expos-
ed wire, searing his cheek and leaving
an ugly scar which physicians declared
could never be removed. Moreover,
every time the boy attempted to smile
he was able only to pucker his lips and
grimace—and it was upon this ground-
that a suit for damages was brought
against the electric light company.
At the trial, medical experts testified
that the burn had severed the "smile
muscles" in the boy's cheek and that
he was destined to go through life with
the handicap of a twisted, smileless face.
Counsel for the light company attempt-
ed to minimize the effect of the injury,
but the jury, without a moment's hesi-
tation, returned a verdict of \$20,000 in
favor of the plaintiff.

Twenty thousand dollars for a smile
—particularly when you remember
that every one is able to smile, though
a lot of people appear to have forgotten
the art. But look at it from another
angle. That searing flash of the elec-
tric light wire not only prevented Jimmy
Godfrey from smiling, but it practically
cut him off from the acquiring of new
friendships, as well as from the possi-
bility of earning a living in the most
generative of all employments—salesman-
ship. He might have overcome the loss
of an arm or a leg. He might have
trained one eye to take the place of
two. He might even have surmounted
the obstacles presented by paralysis of
his body—for in all of these he would
have had the advantage of a cheerful,
winning smile.

But, with this denied him, with the
specter of laboring under a lifelong
strain, it is any wonder that the jury
awarded Jimmy \$20,000?
Incidentally, how are you using that
\$20,000 you received as a birth-
right? Are you making it pay good in-
terest or have you forgotten that you
have it?

Thirteenth Is Far From
Unlucky for Canton.
Walking over ladders, seeing black
cats glide across the roof in front
of him, breaking mirrors, changes in the
moon, Friday, the thirteenth and
other such well-known superstitions hold
no terrors for W. E. Canton of Detroit,
Michigan, a man who has had a long ex-
perience of the combination of Fri-
day and the number thirteen.
It was no doubt due to this fact that,
when he happened to glance at his cal-
endar a short time ago and noticed that
he was soon to be favored with another
Friday and thirteen at the same time,
Canton determined to celebrate the
event and to show his appreciation in
some fitting manner.

Then, just to emphasize the fact that
thirteen is an especially lucky number,
he determined that only the thirteenth
customers should be favored by the gift
of money.
This decided upon, Canton happened
to think of the fact that it was get-
ting near straw hat time and that the
great majority of men always wait till
they see the rest of their fellow citi-
zens wearing summer headgear before they
purchase their own. His plan was com-
plete. Then, on Tuesday night of the event-
ful week, Canton rested his show win-
dow with straw hats. There were
hats in all stages of construction, from
the loose straw to the finished chevron,
showing just how straw hats are built.
A large card in colors bore a picture of
a man wearing a straw hat and also
announced Canton's determination to
make Friday, the thirteenth, a lucky day
for others. Generous ones in the news-
papers also announced the plan on

Thursday and everything was in readi-
ness.
Everything, that is, except the
weather. In commenting on the result
of his party, Canton says: "The only
mistake I made was that of failing to
take the weatherman in with me on the
plan. I think he must be superstitious.
At any rate he failed miserably to co-
operate with me in my scheme to prove
that Friday, the thirteenth, is a lucky
day for others as well as myself. On
Friday it rained, and Saturday it turned
cold and almost snowed. Interest peo-
ple in straw hats during such weather?
They were wearing overcoats and
rubbers. We sold more hats
than ever had, though, in spite of the
inclement weather. We sold more hats
than ever before on a single day and,
besides the actual sales, we got a great
deal of publicity and favorable notice
from the street. People would stop to
look in the windows and pass remarks
about the plan and about the straw hats
supposed to be unlucky day. Many
would conclude by remarking: 'It be-
seems lucky. I'll try it anyway and
see if I can get a free straw hat for
the season.'"

Jazzy Hair Ties
Sales, Girls Are Told.
The "jazzy" hair ties denounced
by Will H. Farley, Eastern business
lecturer, in addressing Omaha sales-
people recently. Mr. Farley was
brought here by the Associated Retail-
ers for a series of lectures.
"One big retail store has but one
right restriction concerning the dress of
its employees, and that concerns the
hair," he added. "It permits the
women to dress their tresses in a choice
of three different, comfortable, fashion-
able but not ultra jazzy styles, and
requires the men to use Judgment along
the same lines."

Lost 29 Pounds
Dysentery
Was the Cause
Dysentery is one of the worst forms
of bowel complaint, and hardly any
other disease so quickly undermines the
strength and brings about a condition
of prostration and utter collapse that
often terminates fatally.
To check the unnatural discharges
without bringing on constipation you
should use that grand old remedy with a
reputation extending for 100 years.

DR. FOWLER'S
EXTRACT OF
WILD STRAWBERRY.
Mr. G. H. McVagh, Mower, Sask.,
writes: "About eight years ago I had
a severe attack of dysentery. I was
sick for three weeks. I weighed 154 lbs.
when I took sick and 125 when I got it
stopped. I think I tried every medicine
on the market, but did not find relief
until I used Dr. Fowler's Extract of
Wild Strawberry, and one bottle did it.
I think there is nothing like it for dys-
entery or dysentery. I always keep some
on hand as a person does not know when
he will need it."

LONDON VIEW OF DE VALERA

He is Likened to Parnell for Sagacity and Shrewdness.

BRITISH POLITICS

Gossip Concerning the Pacific Conference—The Edward Statue—The London Flapper.

(From Our Own Correspondent) London, July 21.—When the war was at its height, the imagination of the whole world was fired by the stories which came home of the manner in which the opposing troops had fraternized in "No Man's Land" one Christmas day. It was like a glint of sunshine in a stormy sky. But the French Headquarters Staff was furious. It saw to it that nothing of the kind happened when Yuletide came round once more. The objection raised was that if the men fraternized like this it might become very difficult to get them to fight afterwards. This dramatic incident of the Great War was recalled to me this week by a Cabinet Minister, when I asked him how the Irish negotiations were going on. He said the difficulties were almost insuperable. It appeared nearly impossible to reconcile the conflicting demands of Sinn Fein and Ulster. Then after a pause, he recalled what happened in "No Man's Land" and reminded me that the warring elements are now fraternizing all over Ireland. "Therein," he said, "lies the best hope of peace. Whatever happens, we can't go back."

That, I believe, pretty accurately represents the position and it is a factor in the situation which is appreciated by all parties. Eamon De Valera. What manner of man is this Eamon De Valera? I have been asked the question several times during the week, and it is one which even an Irishman finds it rather difficult to answer. He has more Spanish than Irish blood in his veins, but those who say they have never known him make a joke in his life rather exaggerate. He has nothing of the enthusiastic optimism of John Redmond, nor is he so pessimistic or so melancholy as John Dillon. He has been likened to a second Parnell and the comparison is not altogether false. Up to the present, however, De Valera has not been tested in the fire to the extent that Parnell was tested. But in these negotiations

he has displayed quite extraordinary sagacity and shrewdness. Unquestionably he enjoys the respect and affection of the great majority of the Irish people, and that, too, in an unusual degree. It was thought that he could not control the committee. I fell into this error myself last week. But he has shown that he can do so. The truth revealed that it has been loyally ascribed by all Sinn Feiners. It has only been broken by Belfast.

General Election Plans.

Meantime the official ukase has gone forth to the Coalition wirepullers to prepare for a General Election this winter. The instructions may be regarded as something more than provisional in their character though they must not be regarded as absolutely final. Nor do they represent a recent decision. On the contrary the Government's desire to avoid an autumn session, announced in Parliament some few weeks ago, is intimately and directly bound up with this intention of appealing to the electorate somewhere about Christmas. Whatever may now happen in Ireland it will be readily appreciated that Mr. Lloyd George, from his own point of view, has a good deal to gain by not delaying the dissolution very much longer. Before Christmas a solution of the Pacific problem may have been hammered out at Washington and we may be on the road to the adoption of a workable scheme of partial disarmament. Added to this the Government has succeeded, or thinks it has succeeded, in stealing the thunder of the anti-wasters and in spiking the guns of its most dangerous rivals—the Labor Party.

Nor is this all. A very quiet and unostentatious great deal is being done about which no one up to the present has heard at all, to effect economies in public administration. I am not, of course, referring to the dismantling of the railways or the decentralization of the Government. These are economies which could not be hidden and therefore they have been advertised for all they are worth. But the Man with the Axe, in the person of Sir Robert Horne, is going about making shrewd chop here and there and the savings may be inconsiderable. I am assured that they will amount in the aggregate to an enormous sum. Mr. Lloyd George hopes, in fact, to be in position to give a very good account of his stewardship when the time comes to appeal to the country. Furthermore, in anticipation of an event which now draws very near, all the most successful propaganda experts in the country are being drawn into the Coalition ranks. Some of them are very busy already.

The Pacific Conference.

The diplomatic dovecotes, and especially the St. James' Club, where the diplomats do most frequently, have been much flattered by President Harding's invitation to the Washington conference. Everyone agrees that the invitation comes better from America than from anyone else. Nevertheless it is a fact, I believe, that Mr. Lloyd George and the Dominion premiers were actually engaged down at Chequers in discussing the issue of such an invitation in their own account, when the American ambassador arrived hot foot on the scene with President Harding's message. Now everyone is debating who is going to represent Great Britain. Much will depend, of course, on the action taken by France and Italy, and there will, I am told, be an informal interchange of views between London, Paris and Rome. If it is to be a prime minister

Tiny Dose and Baby Is Happy. THE medicine a mother takes for her own condition is seldom the same medicine for her baby. Thousands of mothers, for thirty years past have been using Dr. Caldwell's Laxative Syrup for their babies. The full formula is on the package. This remedy is mild and gentle and does not grip. It contains no narcotics. Half a teaspoonful will relieve constipation, biliousness, feverishness, colds and many other symptoms that indicate baby's inactive bowels. Mother, a sixty-cent bottle will last you months. And if you don't do as advised your money will be refunded.

If you would like to test Dr. Caldwell's Laxative Syrup for your baby free of charge before buying it in the regular way of your druggist, send your name and address to Dr. W. B. Caldwell, 10 Front Street, Bridgeburg, Ont., and a free trial bottle will be sent to you promptly, postpaid.

Grandmamma Flapper. Really, this latest nodon of our up-to-date flapper, for wearing these astonishing old-fashioned modern horn-rim spectacles, is the funniest yet. Miss 1921 presents herself as Grandmamma in 1861—with a difference. With her very short and flimsy skirt, her very long and light silk stockings, her diaphanous, low-cut blouse, her bobbed and fringed hair, her incessant cigarette, and her elegant-major vocabulary, the fashionable modern flapper needed only this artificial touch of sobered Early Victorianism, in the form of an exaggerated pair of granny's spectacles, to set the well-informed with amazement and merriment. But horn-rim spectacles for all the nicest and most fashionable flappers are now quite the thing in this London town. One recent night I was seated in the stalls at a West End first-night show and hardly found time to look at the stage.

Just in front of me was a family party, in no way remarkable except for its inevitable nonchalant flapper, a pretty girl of about nineteen, with very elaborate summery evening dress, revealing a hint that June might have owned in her teens, a back that Apollo Belvedere might have boasted, a shock of artificially fringed hair worthy of Kingling's Puzzy-Wuzzy, and—great ground horn-rim spectacles! The flapper is not yet so accustomed that this young lady failed to draw all eyes. But she simply

his Royal grandmother's interest. It is to be feared that, apart from historical interest, the new Waterloo Place statue, showing King Edward VII on horseback in full uniform—a combination simply detested by that great sovereign—will not add to the real wealth of artistic London. It is entirely conventional and artistically uninteresting. But King Edward's memory will endure the statue to Londoners and to all who understand how bravely and astutely that monarch served England's greater interests. Sir Sidney Lee tells us today that the archives bear witness how King Edward's personal influence, though powerless to prevail against the Prussian Hun in the Councils of Berlin, did actually postpone the great war until we were far better able to meet the great catastrophe. In 1905, King Edward, after one of his continental visits, stated that war must capture within ten years. He expected it about 1916. But Admiral Lord Fisher foresaw that, when the work on the Kiel Canal was audaciously delayed in 1912, it would come two years earlier.

Lord Kitchener's Death. A sensational weekly journal purports to give the suppressed facts about the tragic fate of Lord Kitchener. The story is that the decision that Lord Kitchener should visit Russia and the name of his ship and port of departure and course were known to the German government within a few hours.

The Mountain to Mahomet. The manager of a Ceylon coconut plantation now in London tells me of an interesting topical discovery about to be put into practical test on the island. In the past one of the most costly items in running a coconut plantation has been the native labor which had to be employed to climb trees and bring down the nuts. Wages have increased very heavily, and this item has, during the last five years, become more and more a burden. An agricultural expert now claims the Maldives, because of its similarity to those growing on the Maldivian islands, which is much smaller in height and on which the nuts are within easy reach from the ground. The nuts themselves are smaller, as well, but in every other respect they are equal to those grown on the larger trees, and the weight of nuts per acre is actually larger from the smaller tree. A syndicate is now proposing to plant an estate with this variety and to discover whether practical results will be as satisfactory as the preliminary experiments have justified the experts in expecting.

King Edward's Work. This week King George ceremonially unveiled the statue to his illustrious father, King Edward, in Waterloo Place, amid a steady payment of Guards and court uniforms. The Prince of Wales returned specially from the South Coast in order to attend the ceremony, at which he was appreciably the idol

barrassed one of the Chin Chin Chow camels. But the "young person" as Mrs. Grundy would call her, walked along, only faintly smiling, as lightly and unself-consciously as a milkmaid in a country lane.

QUEBEC'S G. O. M. (Montreal Herald). Perhaps the most wonderful old man in Canada, and probably its richest citizen, is paying a visit to his native province, Quebec.

John H. Booth is in his ninety-fifth year and as sturdy as an oak. If he were asked to explain his success and green old age he would probably answer in one word—work. He has worked hard all his life with both hands and head. When he was building the Canada Atlantic and Ferry

Sound Railway he could be seen morning after morning helping in the construction with his own hands, and at the age of seventy! In his big lumber mill at the Chaudiere he was with an accident by the falling up him of a heavy piece of material which was helping to move with his hands, and he was then ninety!

Notwithstanding his great wealth, his great age, Mr. Booth is still keen business. In conjunction with lumbermen he met Premier Tascher and colleagues on Wednesday and requested a reduction of stampage on the ground that business was dull. Twenty years ago he was worth \$90,000,000, and today would not be surprising to find the \$100,000,000. Besides being Canada's largest producer of lumber he is an extensive manufacturer of paper.

The railway, the most marvelous creation of individual enterprise on the continent, he sold to the Grand Trunk years ago for a sum between ten and twenty millions dollars, into the chagrin of Sir William Mackenzie, who offered \$100,000 for an opt at \$14,000,000.

Mr. Booth, who is staying at Quel for a brief holiday, is also a philanthropist, being one of the founders of Lady's Hospital at Ottawa, and two years ago built and endowed a wing at Quebec has a right to be proud of one of her most distinguished citizens.

GIRLS! LEMONS BLEACH THE SKIN

Squeeze the juice of two lemons into a bottle containing three ounces of Orchar White, which any drug store will supply for a few cents, shake well as you have a quarter pint of harmless and delightful lemon bleach. Massage the neck, arms and hands each day, the shortly note the beauty and whiteness of your skin.

WHY YOU NEED IRON

To make you strong and "briny" and put the power into your blood to overcome disease germs.

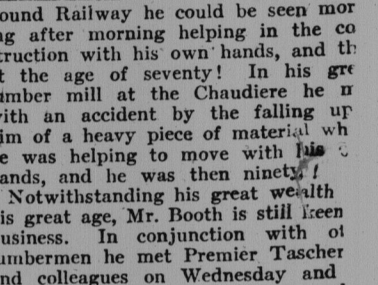

Practical advice on how to develop great energy and endurance. The food you eat contains carbon. When your food is digested it is absorbed from the intestines into the blood. When the carbon in your food comes in contact with the oxygen carried by the iron in your blood, the carbon and oxygen unite and by so doing they give off tremendous energy, thereby giving you great force, strength and endurance. Without iron your blood carries no oxygen and without oxygen there is nothing to unite with the carbon in your food, so that what you eat does you no good—you do not get any strength from it—it is like putting coal into a stove without a fire. You cannot get any heat unless the coal unites with the fire.

The strongest weapon with which to prevent and overcome colds, pneumonia, kidney trouble, rheumatism, nervous prostration, in fact almost any disease or disease germs is plenty of good rich, pure blood, strength, energy and endurance and the greatest energy carrier in the body is organic iron, not metallic iron which people usually take, but organic iron like the iron in spinach, lentils and apples and like the iron contained in what is known as organic Nuxated Iron, which may be had from almost any druggist.

If you have been taking metallic iron without benefit such as no proof that organic Nuxated Iron will not help you. Nuxated Iron often increases the strength, energy and endurance of weak, nervous, run down folks in two weeks' time. It is such an extremely valuable product that even the Pope at Rome wrote especially of its merits in a communication to the Pharmacologic Normal. It has been used and highly recommended by former United States Senators, Members of Congress, Judges of U. S. Courts, many physicians and prominent men. Over 4,000,000 people are now using it annually. Satisfactory results are guaranteed or the manufacturers will refund your money. Sold by all druggists in tablet form only.

for lameness

Lameness neglected often becomes serious and permanent and the longer you delay the more difficult the recovery. Promptly treated with Absorbine, Jr. the joints and muscles soon lose their soreness and stiffness.

Absorbine, Jr. is made of herbs and is non-poisonous—safe and pleasant to use. \$1.25 a bottle at most druggists. W. F. YOUNG, Inc., 244 St. Paul St., Montreal.

The Great Race Of 1871, When Paris Crew Won

Thrilling Account of St. John Men's Victory and the Death of Renforth to be Reprinted Tomorrow.

The Times, tomorrow, will reprint from its files of 1871 the report of the great race between the Paris crew of England which took place on the Kennebecasis river near what is now known as Renforth on August 23, 1871. The report which is a clear and well-written account of the race, also describes the sudden collapse of Renforth of the English crew and tells of his death a few hours later. The names of the officials in charge of the race and of several of the outside press representatives are given, and the excitement of that day is referred to at considerable length. It is a story worth reading.

A third is expected to arrive today with Catcher E. Casey. The new men are Sam Bent, an infielder, and Howard Doherty, a catcher. A pitcher is expected today.

MATHEWSON, MUCH BETTER, PASSES JOYOUS FORTY-FIRST BIRTHDAY ON AUGUST 12. Saranac Lake, N. Y., Aug. 16.—Christy Mathewson, idol of the baseball fans in the United States for many years, passed one of the happiest days of his life here—his forty-first birthday.

The former pitching star of the New York National League Club, who has been for more than a year fighting tuberculosis, said he was feeling better than for some time past and hoped for a complete early recovery.

Mathewson spent the day with Mrs. Mathewson and her son, Christy, Jr. They went motoring for half an hour in the morning. Mathewson chatting and laughing with friends when they passed. An enthusiastic angler, Mathewson said that he is awaiting a chance to get out in the woods. His health has improved to such an extent that he is now permitted to take an automobile ride every other day.

HORSE HAD HEADACHE. Took a Day Off and Peddler is Fined \$2 for Pulling Cart Himself. (New York Times). Hyman Licker, forty, of 129 Livingston Place, a peddler, arrested by Patrolman William Kelly of the Clinton street station, at Washington and Livingston Place, was arraigned before Magistrate Edgar W. Frothingham in Essex Market court yesterday charged with peddling from a pushcart without a license.

"I gotta license, judge, your honor," said Licker, handing a paper to the magistrate. "This is a license to peddle from a wagon with a horse, not from a pushcart," said Magistrate Frothingham. "Why didn't you have your horse out yesterday?" "The horse had a headache, judge, your honor," said Licker. "Pay \$2 fine to the clerk over there," directed the magistrate.

DELICATE OPERATION COMPLETE SUCCESS Performed But Ten Times in Wole History of Surgical Science. Physicians of the University Hospital at Ann Arbor, Mich., have completed, for the second time successfully, the unique operation for the relief of patients suffering from pain caused by cancer, known in surgery as choroidoma. This operation has been performed but ten times in the history of medicine, the two most recent attempts having been strikingly successful.

The operating surgeon opens the spinal canal at a point just below the line of the shoulders and cuts the "tracts" which carry the pain sensation. These "tracts" are so small they can be seen only through a microscope, so that the surgeon must be guided by his knowledge of their position alone. The spinal cord also carries the other nerves "tracts" which are vitally necessary to life of the body, and the danger lies in that if the knife varies a minute fraction the patient will be paralyzed or weakened vitally.

While this operation does not attempt to cure cancer, and is performed only upon those who are considered to be without hope of cure, it has been completely successful in relieving the patient of pain.

VERDICT FOR THE DEFENDANTS IN NORTH SHORE CASE

Judgment in Snowball-Sullivan Trial Handed Down—Other Cases Before Chancery Court Today.

At the opening of the Chancery Court this morning His Honor Chief Justice Sir Douglas Hazen delivered a lengthy judgment in the case of the Snowball Co. Ltd., vs. Sullivan et al., a matter which has previously been reported in this paper. It is a North Shore case involving quite a large interest in lumber lands and pertaining to a certain agreement between the parties, concerning lumbering operations. Reference was made to the claim of the plaintiff upon a certain alleged trust but it was found that there was not sufficient to support the contention of a deed of trust. His honor found in favor of the defendants and allowed them costs against the plaintiff. Dr. J. B. M. Baxter, K.C., appeared for the plaintiff and M. G. Tread, K.C., and H. A. Powell, K.C., for the defendants.

The docket was then taken up and was as follows: Blair vs. Grand Orange Lodge, G. Earle Logan and Dr. F. R. Taylor, K.C., for plaintiff, S. B. Bustin and S. W. Palmer for the defendant.

George vs. George, G. Earle Logan and Dr. F. R. Taylor, K.C., for plaintiff, S. W. Palmer for defendant Stephen, S. B. Bustin for the Lancaster Loan, and J. B. Dever for the defendant George as administrator.

Maritime Nail Co. vs. Gregory, Dr. J. B. M. Baxter, K.C., for plaintiff, W. H. Harrison and H. A. Powell, K.C., for defendant.

Penton Land Co. vs. Minnie Nasse, Harry Nasse and the said Harry Nasse, an application for confirmation of a master's order for foreclosure. B. S. Smith for plaintiff.

Following the setting of cases for trial and the hearing of ordinary motions, the first case on the docket was begun. W. H. Sully, grand secretary of the Orange Order, was called and gave evidence concerning the order for expulsion of the plaintiff, George A. Blair, from the membership, against which he is appealing. The witness told of the proceedings of the meeting at which the matter was discussed and admitted that Blair had been suspended without a trial. Reference was made to the reports of the meeting and to the passing of certain resolutions covering the case.

Adjournment was made till this afternoon.

THOUSANDS OF YOUNG HEARTS GLADDENED TODAY

J. D. O'Connell Gives Annual Picnic to Children of City—Penny Scrambles, Sweets and Everything at Rockwood.

This is the annual red letter day of the orphans and other children of the city. The friend of children, old and young, J. D. O'Connell, is giving his big outing and picnic in Rockwood Park this afternoon. All the orphans of the

J. D. O'CONNELL

Who gave his annual picnic to the children at Rockwood Park today.

The picnic was held at the grounds in cars generously provided by members of the Rotary Club and other volunteers. The other children, although just as welcome, had to find their own way out and a constant stream of all sizes and ages wended their way parkward before two o'clock.

The first event at the park was the "penny scramble," participated in by all the children. Mr. O'Connell threw 20,000 pennies, mixed with American nickels, on the ground and a mad scramble ensued. Each child orphan and other child, designated as worthy by any society, was brought up and presented an envelope containing a twenty-five cent script and five bright new pennies.

And then came the cats-ice cream, six different kinds of candy, salted peanuts, roasted peanuts, oranges, suckers and cake. In order to facilitate serving the boys were placed in one place and the girls in another.

The attendance reached more than the anticipated 4000, but all were made welcome and a reserve supply of goodies was on hand, so no one was disappointed.

The Royal Hotel, where Mr. O'Connell is staying while in the city, was bedecked all the morning by little people, hoping to catch a glimpse of their patron.

Mr. O'Connell will go from here to Sussex to gladden the hearts of the children in his home town and then to Nova Scotia and back to Maine. He has been at his beneficent mission for thirty years now. He has spent a small fortune on the work, but he says that he has enjoyed it fully as much as the children.
