EVERS TO BE HEAD OF CUBS FOR FIVE YEARS

Frank Chance Says He Will Serve Under Him in Any Capacity

LATE NEWS OF SPORT

Montreal English Rugby Team to Halifax—Stallion Sold For \$150,000—New Ring Weights—Canadian Hockey "Outlaws"—to Be Re-instated

(Canadian Press) Chicago, Ill., Oct. 24—President Charles W. Murphy of the Chicago National League baseball team today confirmed the report that the leader of the team for the next five years would be John Evers, second baseman in this year's team. Evers said he expected to sign a contract for the five years' term today, and President Murphy indicated that his understanding was the same.

Montreal, Oct. 24—The Montreal English Rugby team will leave for Halifax this evening. They are scheduled to play against the Wanderers on Saturday afternoon. On Monday they will play the team composed of the Wanderers, H. M. S. Cornwall and Dalhousie University.

It will be remembered that the Wanderers played here last spring and defeated Montreal by only one point, in a series of two games. Halifax thinks the first and Montreal the second.

The team going down is a good one. The Montreal lineup will be—Lane, full back, Deas, (captain), Ruse, Cunningham and Bailey, three quarters, Heap, and Simpson, halves, Phillips, Buchanan, Deas, Hutcheon, Crosley, Hill, Crossfield and Buckley forwards, Spencer, Wildie, Clave, Ripley, Haggard and Reid, C. Crossley will manage the team.

Chicago, Oct. 24—Frank Chance, after saying that Evers had his best wishes as manager, made the surprising statement that he would attend his signature on the kind of a contract President Murphy would offer him, even though it called for more than \$100,000 and that he would report to the club and try for a place on the team.

"I don't care about the money," said Chance, "I am giving my word that if Murphy offers me a contract outside that amount, I will sign it. I will come back, go on the training trip and work as hard as any new recruit to get a place on the team. I say that I will sign a \$150,000 contract. I have more money now than I ever thought was in the world for me when I began playing baseball. I have all I need for the rest of my life."

New Standard of Weights New York, Oct. 24—For the first time in the history of boxing the United States, an official attempt will be made by the New York State Athletic Commission to fix an international standard of weights to govern championship bouts in the various classes.

The commission hopes to get its schedule recognized by the authorities governing the sport in England, France and Australia. The following weight scale, drawn up by the New York Commission is now on its way to the governing bodies in the three countries named, and is expected to receive their approval:

112 pounds, featherweight 125 pounds, lightweight 145 pounds, welter weight 165 pounds, middle weight 185 pounds, light heavy weight "commission weight," 175 pounds, heavy weight 175 pounds and over.

The commission in fixing the scale also stipulated that the various weight limits made at the ringside.

New York, Oct. 24—When the Minnesota skis from Jersey City on Saturday, they will have on board the highest priced stallion in the world, Rock Sand. The horse, which has been stabled in Lexington, Ky., was recently purchased from August Belmont for \$100,000 by a syndicate of Paris turfmen.

Ottawa, Ont., Oct. 24—The National Hockey Association clubs have evidently come to an amicable understanding with respect to the re-instatement of Emlen Johnson, Harry Hayden, Jimmie Gardner and other players who were "outlawed" last year for jumping to the British Columbia league.

Ottawa will make no objection to their being signed at the N. H. A. meeting in Quebec on Saturday. The Ottawa team is desiring for one of the British Columbia stars. They have also sent contracts to Dublin Kerr and Marty Walsh, but merely as a matter of form and to prevent them from signing with any other club in the east. Locally it is believed that the Toronto club will both be weak, as the men they have been signing to date are far below the N. H. A. standard.

ALL WEATHER BULLETIN Issued by authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

Toronto, Oct. 24—The disturbance is now centered near New York and is increasing in energy. Weather continues fine and mild in western provinces; to the Grand Banks and American ports, east and south-east.

Probabilities Here. East and southeast gales with occasional rain today and Friday. A storm warning was issued.

DR. MacLAREN HEARD TODAY

Health Matter Before Municipalities Union in St. Stephen—Likely Finish Meetings This Afternoon

(Special to Times) St. Stephen, N. B., Oct. 24—The meeting of the Union of New Brunswick Municipalities was resumed this morning with all the delegates in attendance. Com. W. H. Smith of Milltown dealt with some of the features of the assessment law as applied to Milltown. He cited instances in the history of that town from the time it was the centre of a lumber manufacturing town to the present time when one saw mill saws all the lumber there. He said that Milltown has a population of 2,000 but there was not one first class grocery store and not one law office.

The cotton mill employed 800 hands and about one-half of these resided in Milltown. He advised the most serious consideration be given any changes in the present assessment laws were made.

Councillors Black of Sackville, Stirling of York, and Mayor Robinson of Moncton were appointed to nominate the executive committee.

Dr. Murray McLaren, St. John, gave important suggestions on health protection. He dealt with provincial problems and said that a healthy and vigorous population was the greatest asset a country could have.

He showed that each municipality can help the whole province by proper sanitary regulations. The subject of public health has not drawn the same attention as large public works, but it was necessary that all persons should have a general knowledge of sanitation. He referred to the great good being done by the teaching of sanitary laws to the armies of the world. Even in New Brunswick great good was being done by the teaching of sanitary laws in the military camps.

He pointed to the danger of the house fly, and characterized it as a menace to public health as a carrier of disease germs. The killing of the fly was the science of extermination, but it was necessary to do away with these breeding places.

Knowledge of cooking was another important matter. Many of the people in the province did not understand how to cook food properly. Dr. McLaren said that he had heard that the frying pan was the curse of the country, and there was a great deal of truth in it.

GREEK KILLS SISTER AND FLEES FOR HOME

Murderer in Chicopee, Mass., Quarreled With Girl Over Her Love Affairs

Chicopee, Oct. 24—John Pitropoulos, 29 years old, shot and instantly killed his sister, Theodora, aged 18, at 25 Centre street, in a quarrel over love affairs. Pitropoulos fired two shots, the first taking effect, but the second was diverted by the interference of Anastasia Andropoulos, his brother-in-law. The murderer escaped on a trolley bound for Springfield, Mass., and Andropoulos, who witnessed the tragedy, said that Theodora was in love with Peter Panos. Andropoulos said that Pitropoulos returned from work about 6 o'clock. After supper, Theodora went into the corridor and was seen by Pitropoulos. He was talking about Panos's affections.

Before any one was aware, the girl was dragged into the kitchen and shot in the right side of the neck. The bullet severed the jugular vein and penetrated the brain.

Pitropoulos has lived in this city a year, coming from Greece, and worked in the Dwight mills as a weaver. During the last week, according to Andropoulos, he talked many times about the war in Greece. Far East, and it is thought he is on his way to New York and thence to Greece.

Members of the household said that Pitropoulos presently warned his sister against keeping company with Panos. Mrs. Pitropoulos was hysterical after the murder and could not discuss the case.

Andropoulos said Pitropoulos carried a weapon for some time. He said he was in the adjoining room when the first shot was fired and ran out and wrested the weapon from the murderer.

PRESENTATION TO PROMINENT MAIN STREET CHURCH MEMBER

In the school room of Victoria street Baptist church last evening there was a large gathering of members of the Young People's Society, and of the members of the church, to tender farewell to J. Arthur Vanwart, who has been active in the welfare of the church, and who is severing connection with it through his removal from the city. He has been president of the Young People's Society, superintendent of the Sunday school, and a deacon of the church, and his departure is keenly regretted by the members of the congregation, old and young.

Appreciation of his services and the esteem with which he is regarded were shown last evening when the members of the Young People's Society presented to him a handsome gold-mounted fountain pen with his monogram engraved. The presentation was made by Walter Hatheway, the new president of the society. There was also presented to him by Rev. B. H. Nobles, the pastor, on behalf of members of the church, a well-filled purse. Mr. Nobles expressed the highest regard for Mr. Vanwart and of his services in the church, and spoke of the regret felt by the congregation in his departure. The recipient replied, thanking his friends for their kindness. He will leave for Hampstead to take up his home in a few days.

SHOOTING ACCIDENT NEAR PORT ELGIN

Contents of Shot Gun Cause Many Injuries to Youth

Was Hunting in Woods With Brother—Another Victim of Schooner Wreck Given Up by the Sea

(Special to Times) Sackville, N. B., Oct. 24—Near Port Elgin yesterday afternoon Guy, the seven-year-old son of Job Tenholm, of Timbuctoo, had the fleshy part of his right hand terribly torn, the thick body of a rabbit and several fish wounds by a young brother he was accompanied by. The boy had a rifle, the other a shot gun loaded with number 8 shot. He had asked his brother to hand over the shot gun that he might shoot it, and while the weapons were being exchanged the shot gun was discharged. His injuries are not likely to prove fatal.

The management of the Sackville race way is arranging for horse races on an indefinite day.

Another body has been found, a victim of the late schooner wreck at Slemogee. It is said to be that of the son of Mr. Jimmo, owner of the schooner. It was found near Amos Point by Whitney.

Wilson More, aged thirty-two, died at the home of his father, Alfred R. Moore, of New Zealand, on Tuesday evening, after a lingering illness of consumption. He leaves his wife, who was a daughter of the late R. Harry Smith of Moncton, two brothers and a sister.

To End His Saloon Keeping Days in Chicago on November 1

Chicago, Oct. 24—John Johnson will retire from the saloon business in Chicago on November 1, according to an announcement made by city officials today. He has been operating, it is said, a brewery. Johnson's contract to buy it will expire on November 1, and will not be renewed.

WANT FOSTER AT OTTAWA

Borden Needs His Lieutenant in the Strenuous Times Ahead

Ottawa, Oct. 24—If Hon. C. E. Foster carries out his plans of accompanying the imperial trade commission to Australia and New Zealand, he is the most able man in parliament this session. Word has been received from England that the commission will sail from England on January 15 for the Antipodes and that they will not return until July.

There is a strong feeling in government circles that Mr. Borden cannot afford to be without the services of Mr. Foster for the entire session, as he is the most able debater and probably the parliamentarian of the longest experience sitting to the right of the speaker.

Mr. Foster may be induced to abandon his trip or at least not to leave until the session is partly over. He will be back in Canada to take part in the naval debate if it takes place before Christmas.

FORMER SPEAKER OF BRITISH COMMONS IS DEAD AT 83

London, Oct. 24—Viscount Foster, speaker of the House of Commons from 1884 to 1890, died today at the age of eighty-three. He was created a viscount on his retirement from the speakership.

SUDDEN DEATH OF I. C. R. MAN

The funeral of Geo. P. Monahan took place yesterday from his late residence in Queen's street, Dartmouth, N. S. Many friends in this city heard, with regret, of his sudden death on the 21st inst. in the office of H. B. Dastin, terminal agent of the I. C. R. in Halifax, where he had been employed. He went to work in apparent good health and spirits, but during the afternoon collapsed and died in a few minutes. Mr. Monahan was in the service of the I. C. R. for the last fourteen years, and was a valued employee. He is survived by his wife, who was Miss Jennie Cooper, of Montague, and one brother, Frederick, of Sydney.

DRIPPING CHIEF HERE. E. J. Diven, who will be in charge of the operations of the Norton Griffs of Dredging Company, arrived in the city today from Montreal, and will take charge immediately. The two dredges with the necessary crews are now in port and every thing is nearly ready to commence work. The company expects to begin dredging within a very short time.

BECKER CASE TO JURY

Judge Goff's Charge Delivered This Morning—Fate Likely Known Tonight

(Canadian Press) New York, Oct. 24—By tonight Police Lieutenant Charles Becker should know his fate. His trial for the murder of the "squealing" gambler, Herman Rosenthal, having been concluded last night with the closing address of Assistant District Attorney Morse, there remained this morning only Justice Goff's charge to the jury. Becker is hopeful of acquittal, but through the closing address of the court and strained forward as if to catch every word. After instructing the jury that the defendant must be proven innocent until it was proven beyond a reasonable doubt that he was guilty, Justice Goff defined the different degrees of murder, and said: "This man's case rests solely with you. But in making your decision you must be guided entirely by the evidence and not by remarks of counsel." Justice Goff warned the jury not to toss questions counsel to which the witnesses were not permitted to reply.

When Becker entered the room, he was smiling. John F. McIntyre and John H. Hays, Becker's lawyers, chuckled and laughed with him at their table. Justice Goff began his charge at 10:40 o'clock. The justice spoke almost in a whisper and the jurors leaned forward in their seats to hear him. Becker turned the side of his head to the court and strained forward as if to catch every word. After instructing the jury that the defendant must be proven innocent until it was proven beyond a reasonable doubt that he was guilty, Justice Goff defined the different degrees of murder, and said: "This man's case rests solely with you. But in making your decision you must be guided entirely by the evidence and not by remarks of counsel." Justice Goff warned the jury not to toss questions counsel to which the witnesses were not permitted to reply.

TURKS SAW SWEEPING VICTORY; GERMANS SAY IT'S DIFFERENT

(Canadian Press) Constantinople, Oct. 24—The Serbian army operating near Kumanova has been completely defeated by the Turkish troops defending that town, which is on the way to Ulick. The Serbians suffered enormous losses, according to an official dispatch from the commander in chief of the Turkish army. The Turkish troops are pursuing them energetically.

The Serbian army is believed to have comprised four strong divisions. Belgrade, Serbia, Oct. 24—The Serbian army near Kumanova, according to a telephone message received from Vranje, has captured one of the Montenegrin advancing Serbians had very little effect and after a short time, was silenced by the Serbian guns.

Desperate fighting is still going on in the vicinity of Kumanova. The taking of the Turkish town of Novopazar was achieved only after three days of severe fighting during which there was much slaughter both among the Serbians and the Turks. The small town of Strazimirovo between Egr-Palanka and Kumanova, was captured yesterday by the Serbians.

London, Oct. 24—The bombardment of the Turkish town of Tartaokoch on Lake Scutari, which began on Tuesday, was continued throughout yesterday by the Montenegrin troops, according to an official statement issued today by the Montenegrin consul here. He says the Montenegrin artillery is firing with great precision but rain is hindering the operation. He continues: "The statements concerning Montenegrin reverses are untrue. The losses of cannon by the Montenegrins and the number of their killed and wounded have been greatly exaggerated."

WOODSTOCK MAN RUN OVER BY TWO TRAINS

Norman Williams' Body Fully Mutilated Last Night

WAS PUT OFF TRAIN?

(Special to Times) Woodstock, N. B., Oct. 24—The Gibson train, which is due here at 8:40 p. m., struck and instantly killed Norman Williams last night. The man went out on the train going north at 7:50 and explanation of how he came to be on the track is not obtainable, although it is said he was put off the train a short distance from Upper Woodstock station.

He had wandered down the track, and it is supposed intended to board the Gibson train, when he was killed. A special freight coming along later is also thought to have run over him, standing on the track. Chief of Police Kelly went up the track with others and near Hayden's mill found the head and other portions of the body. Papers in a pocket of a piece of clothing gave a clue to the identity of the man. It was impossible to make identification except by the clothing.

The remains were brought to Henderson's undertaking rooms and an inquest will be held. Williams was about thirty-five years old and unmarried.

An interesting wedding took place this afternoon at half past three o'clock at the home of the bride, 346 Union street, when Miss Mary Jennie Hackett was united in marriage to Henry Fobrook, of St. John, Y. C., chief engineer on the government dredge "Pelding." The ceremony was performed by Rev. W. W. Brown, assisted by Rev. Afterwards a dainty luncheon was served and this evening Mr. and Mrs. Fobrook will leave on a honeymoon trip to Montreal and other Canadian centres. They receive many handsome presents from their friends, including a beautiful silver service from the groom's associates among the members of the Order of Elks, Lodge No. 7, by whom he is held in high regard.

MUCH LESS CEDAR USED

A change in the Railway Tie Making—The Canadian Figures for 1911

Ottawa, Oct. 24—In 1910 eastern cedar composed 40 per cent of the total number of cross ties purchased in the Dominion. In 1911 it fell to 34 per cent and to fifth place in importance of species used. Its place has been taken by yellow pine, which was used for 40 per cent of the ties used in 1911 were made. Tamarack, with nineteen per cent; Douglas fir, with fourteen per cent and hemlock with twelve per cent are the next three in order.

The forestry branch of the department of the interior, which is authority for this statement in its bulletin on the subject dated 1908-17, totals, or 4,689,898 more than in 1910, were purchased in 1911. Railway development in the west is largely responsible for the increase.

The average price for a tie was thirty-nine cents. The United States furnished the most expensive kind; southern pine at \$1.10 and white oak at eighty-nine cents each. These latter were used largely in switches.

DIED IN BOSTON

Many friends in St. John will learn with regret of the death of Mrs. Mary Agnes, wife of Joseph L. Portier at her home in Roxbury, Mass., yesterday. She was a former resident of St. John, and is survived by her parents, Mr. and Mrs. James McMillen, one brother, James, and four sisters, Mrs. D. B. Spear, and Mrs. C. Jery, both of Roxbury, Mass., and Misses Nina and Irene McMillen at home. Mr. Portier was also formerly of St. John.

"Fruit-a-tives Cured Him"

The Big Little Things

By EUTH CAMERON

HOW very, very large are the little things of life! We were talking the other day about a woman who had carried herself wonderfully through a terrible ordeal of threatened disgrace imminent to the one she loved most dearly, and then had utterly failed in forbearance and graciousness towards a thoughtless but repentant friend, and some one said:

"She is one of those people who are splendid when there is any big occasion to be met, but failures in the little relations of life." Let some big trial, some great test demand their energies, and they immediately rise to the height of the need. But when the great moment is past, and it's just a case of enduring and forgiving the little pin pricks of everyday life, they fall ignominiously.

Exhausted Nerves Sleepless Nights

Continually Grow Worse Until Dr. Chase's Nerve Food Restored Vigor and Strength.

Mrs. Campbell

"What misery to lie awake nights and think of all sorts of things without being able to get the rest and sleep which is necessary to restore the nervous energy wasted in the tasks of the day. This symptom of sleeplessness is one of the surest indications of an exhausted nervous system. You must have sleep or a breakdown in certain. Dr. Chase's Nerve Food feeds the feeble, wanted nerves back to health and strength. In a few days you obtain the natural, restful sleep which helps so materially in restoring vitality to the nerves and strength to the whole body."

WHITE GIRL INFEATUATED WITH JOHNSON, HELD AS A WITNESS

LUCILE CAMERON

Rockford, Ill., Oct. 24.—Lucile Cameron, who was found by her mother in company of Jack Johnson, the negro pugilist, is in jail here, held as a witness against Jeanette Dorr, accused by the government of violating the Mann "white slave" law. She reads every line in the Chicago papers that tells of the doings of the negro prizefighter and of the probability of his being killed by some angry white man, but she does not say a word about him.

GIRL IS SAVED FROM THE NET OF WHITE SLAVERS

Interested herself in social movements of kind. She had taken a particular fancy to Amy and was going to see that she not only found her friends, in safety, but also had a most enjoyable stay while in the city. Suddenly a third party put in an appearance. This time it was a man—immaculately dressed, well-mannered and most urbane. The "society" lady greeted this fellow very warmly, and introduced him as another "philanthropist."

Bold Operators in Montreal Frustrated By Quick Action of C. P. R. Brakeman

(Montreal Herald.) That agents of the dread white slave traffic are aggressively at work in Montreal and that unscrupulous young ladies arriving in the city by train are imperilled by more than usually daring band of these unscrupulous vultures was evidenced this morning. A Three Rivers young lady, who had just arrived in Montreal, was accosted by a well-dressed couple at the Place Vigor station, but was rescued before she could be whisked away in the taxi-cab in which she had been invited to journey to her destination. Carrying a suit-case and a hat-bag, Amy Boucier stepped from the day-coach of the Three Rivers train at Place Vigor, assisted by a brakeman who remarked her beauty and fragile appearance so much that he kept an eye on her in the crowd. She had not gone the length of the car towards the waiting room and the station exit when a young woman collided with her, presumably by accident. She was profuse in apology, putting herself in considerable trouble to compensate for the slight derangement which the stranger's apparition sustained. Posing as Society Worker Then the young woman seemed to take a particular interest in the new arrival. She spoke to her most kindly and freely offered her services as guide and friend which the stranger unwittingly accepted. Introductions were mutual, Amy being informed that her new found friend was a prominent young society woman who in-

FEEL BULLY? TAKE CASCARETS TONIGHT

A 10 Cent Box Will Keep Your Liver Stomach and Bowels Clean, Pure and Fresh for Months

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver, delayed fermenting food in the bowels or sour, gassy stomach. Poisonous matter clogged in the intestines, instead of being cast out of the system is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache. Bile, cathartic pills, oil and purgative waters force a passage for a day or two—but they don't take the poisons out and have no effect upon the liver or stomach. Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases, take the excess of bile from the liver and carry out of the system all the congested waste matter and poisons in the bowels. Cascarets tonight will surely straighten you out by morning. They work while you sleep—10-cent box from your drugist means your head clear, stomach sweet and your liver and bowels clean and regular for months.

WHAT IS TREASON?

Toronto Star—Some Canadian canners want American tomatoes admitted free of duty, because the supply is short in Canada. The Borden government has been obliged to go to Washington to obtain facilities for carrying grain on the American railway. Canadian manufacturers insure their premises in American companies. The imports for the last four months from the United States were nearly \$145,000,000, or about two-thirds of the total imports. A large proportion of the imports from the United States are raw material for our manufacturers. A large proportion of the shareholders of the C. P. R., who will participate in the melon, are American citizens. But it is high treason for the farmer in Macdonald, Manitoba, to want to sell his wheat in the United States.

COLD IN THE CHEST?

Rub Well With Zam-Buk!

For had colds on the chest, rub the chest and between the shoulders well with Zam-Buk at night. If you suffer from catarrh or cold in the head, just insert a little Zam-Buk at the base of the nostril, and as the balm becomes warm, inhale the healing essence which vaporizes. Sores in the nostril, which are sometimes set up by catarrh, will yield to Zam-Buk treatment. Mrs. N. S. Babcock, of Matawatsch, Ont., says—"For a long time I had a very disagreeable sore on the inside of the nostril, which gave me great pain and caused much annoyance. I feared it would turn to cancer, and all I tried proved unavailing. I was ordered to try Zam-Buk, and I am glad to say that the sore that defied all other remedies was overcome by one box of Zam-Buk and is now quite healed."

Daily Hints For the Cook

FILLED COOKIES. Two cups rolled oats, 3 cups flour, 1 teaspoon salt, 2 cups sugar, 1 cup shortening cup sour milk, 1 teaspoon soda dissolved in the milk, 1 pound washed and seeded dates. Cream the sugar and shortening, mix flour, oatmeal and salt and add milk. Mix stiff. Roll the dough very thin, cut with cookie cutter and lay on each one a pressed date and another layer of dough. Sprinkle the top with sugar. PANCAKES. One tablespoon cornmeal, one tablespoon hot butter, poured over the meal, one teaspoon salt, one teaspoon soda dissolved in two tablespoons hot water. Stir all this together vigorously; it will swell the cornmeal and soften it making it digestible. Take now a bowl of sour milk and sufficient flour (white) to thicken, adding alternately a little sour milk and little flour into the mixture, beating nimbly with a wooden paddle, such as having three or four slugs, as it mixes quicker. Add beaten egg Fry in butter.

BOHEMIAN GIRL DRAWS BIG HOUSE

Aborn Company Fill it From Pitt to Gallery — Elaborate Effects and New Features

The presentation of a modernized production of Balfe's "Bohemian Girl" by the Aborn Opera Co., in the Opera House last evening was attended by an audience which was easily the largest in months. The company numbered about sixty people. The principals showed themselves superior to the average members of a touring company, while the chorus was strong and well balanced. The stage settings were a very striking feature and were arranged in six changes each of which was appealing, notably in the fair scene and the palace scene. From a spectacular point of view the production was an undoubted success. In the singing of some of the solos it is to be regretted that the soloists sought to improve on the work of the composer. In the part of Arline, Miss Blanche Morrison became a favorite with the audience and won hearty applause. Her singing was in the last act and in the quartette "From the Valleys and Hills". The singing of Miss Albright as the Gypsy Queen was a pleasing feature, although she has not the same opportunity to display soloist ability as others in the cast. She was good in her dramatic work as well.

James Stevens, baritone, as Count Arhem, sang with general good effect. His voice is well rounded in tone. He won a recall for "The Heart Bowed Down".

Mr. Plicher sang the part of Thaddeus, and shared the honors with the other principals. It was pleasantly noticeable that proper phrasing marked his singing.

Joseph Florin made a masterful "Devil-hoof" the captain of the Gypsy band, and his rich bass was a valuable adjunct in the mixed singing.

The special numbers were features in themselves. In the fair scene a group of six Japanese acrobats gave an exhibition of whirlwind gymnastic manoeuvres so completely above the usual run of such, as to command thundering applause. Such clever acrobatic work has not been witnessed in St. John.

Another interpolated number which was very effective and pretty was contributed in the palace scene in "Ballet de l'Elle", when twelve maidens attired in flowing, graceful costumes in various colors, to represent morning, noon, evening and night, presented a series of bewitching tableaux and dances. They also were the recipients of prolonged applause.

The whole performance was one which afforded general pleasure, and this was evidenced by the appreciation shown by the audience. The stage groupings and the stage effects and costumes were evidently in good hands for the results were excellent. A good orchestra added to the success of the production.

FORESTERS' GOOD TIME

Last night was Foresters' Night at the Temple building in Main street, and the members of Court Ouanongny L. O. F., had a very enjoyable evening. Several new members were initiated, and an address was given by Judge M. N. Cockburn, of St. Andrews, and musical and literary programs were also enjoyed, after which refreshments were served. L. W. Mowry and Chas. Tremaine contributed songs. Those present were High Chief Ranger Cockburn of St. Andrews; High Vice Chief Ranger Grass of St. John, and High Deale Flewelling of St. Stephen. The evening was generally enjoyed.

AMUSEMENTS IN ST. JOHN; WHAT THE PLAYHOUSES OFFER

PLEASED BILL AT GEM

The presentation of the mid-week programme at the Gem Theatre yesterday was given to audience which were pleased with every feature. The historical production of "The Relief of Lucknow," by the Edison company, naturally held the laurels as regards general interest, and it proved to be all that was said of it in advance. The scenes were enacted with care and attention, and every detail well worked out. The march of Havelock to the relief of the city was cleverly reproduced with the aid of the "Queen's Rifles," and with the pipes playing a spirited Scottish air.

In addition to this great picture, the Biograph Co. presented "A Fend in the Kentucky Hills," which would ordinarily be termed a distinct feature hit, and which last evening scored heavily with all who saw it. It is the story of a romance of the south, in which two brothers and a pretty girl play important parts.

The comedy was supplied by the Lubin company in "The Overworked Bookkeeper," a laugh-maker of office life with gags and scenes at every turn. Miss Sweeney had a new character song and the orchestra had some special music.

THE LATE ROBERT BARR

Novelist, Short Story Writer and Newspaper Man—Friend of Kipling and Jerome

Robert Barr, novelist, short story writer and humorist, is dead of heart trouble, at his home in Wellingham, in Surrey, Eng. He had been ill, but his death was entirely unexpected.

He was born in Glasgow on September 16, 1860, the eldest son of Robert and Jane Barr. He was brought to Canada by his parents when five years old, the family settling at Wallacestown, Ont. He was educated at the Toronto Normal School, where he took a first-class certificate as a teacher. He became a school master in Toronto and later at Windsor, Ont., and remained in the teaching profession until 1878, the year of his marriage to Miss Eva Bennett, of Raleigh, Kent county, Ont.

Then he drifted into journalism, and became a member of the editorial staff of the Detroit Free Press. Here he found his true sphere, and his humorous sketches, under the pen name of "Luke Sharp," made him known to a wide constituency all over the United States and Canada.

In 1881 he was selected to start an Old Country edition of the Free Press which proved a great success, and from that until now he had resided in London or its suburbs. He was thus brought into contact with many well-known British authors, with all of whom his geniality and wit made him a favorite.

For some time he lived with Rudyard Kipling in character, and with Jerome K. Jerome he founded the *Illustrated London News* in 1892, from which he retired a few years later to devote himself to story-telling. Robert Barr had few equals among his contemporaries.

Realizing the danger, the men shouted to the girls, who were working in the factory, to leave the building. They did so and all but one were saved.

YOUR GRAY HAIRS QUICKLY VANISH

A Harmless Remedy, Made from Garden Sage, Restores Color to Gray Hair

A feeling of sadness accompanies the discovery of the first gray hairs which unfortunately are looked upon as heralds of advancing age. Gray hair, however, handsome it may be, makes a person look old. We all know the advantages of being young. Aside from the good impression a youthful appearance makes on others, simply knowing that you are "looking fit" gives one courage to undertake and accomplish things. So why suffer the handicap of looking old on account of gray hairs, when a simple remedy will give your hair youthful color and beauty in a few days' time?

Most people know that common garden sage acts as a color restorer and scalp tonic as well. Our grandmothers used "Sage Tea" for keeping their hair dark, soft and lustrous. In Wyeth's Sage and Sulphur Hair Remedy we have an ideal preparation of Sage, combined with Sulphur and other valuable remedies for dandruff, itching scalp and thin, weak hair that is split at the ends or constantly coming out. A few applications of this valuable remedy will bring back the color, and in a short time it will remove every trace of dandruff and greatly improve the growth and appearance of the hair.

Get a fifty cent bottle from your druggist today, and notice the difference in your hair after a few days' treatment. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.

COST OF LIVING IN A NEW RECORD IN COMING WINTER

Provisions of All Kinds Are Reported to Be Soaring in Montreal

Montreal, Oct. 23—The constantly increasing cost of living is causing such concern in the majority of the households in Montreal, and many a housewife has to puzzle her head as to how to make a dollar do what seventy-five cents used to accomplish easily.

The big jump which has been taken in the price of eggs, with further advances threatened, has already been noted. Cool which last year could be bought for \$7.50 a ton, and which, but a few years ago, was but 90 a ton, has now soared to \$8.50 and will in all probability be still higher before the winter is over.

Milk, which but a short time ago was 6 cents a quart, has the month been advanced to ten cents, and cream to 25 cents a pint. Butter is correspondingly dear, and already the dealers are beginning to prophesy a shortage in potatoes, and a similar fall in weather, which may again carry those necessary articles of diet into the class of eggs, as regards value, as happened last winter. This winter, as happened last winter, the potato shortage from Europe, for fear of the European potato disease being spread here.

This high cost of living, however, is not peculiar to Montreal. It is being experienced all over the continent. In the United States the fluctuations have been slightly more extreme than in Canada, but the trend in general has been very parallel in the two countries for the past twenty years.

At the same time, some remarkable differences in the prices are shown by a comparison between different cities, and these comparisons show that Montreal is nearly always at the top of the list. For instance, when in January, 1911, the market price of new-laid eggs in Montreal was from 50 to 55 cents a dozen, in Boston, for 36 cents, and in Buffalo, for 38 cents. And even now the prices are so much more favorable in Montreal that egg-layers in Ontario, who live comparatively close to Montreal, send their eggs to Montreal by preference. Eggs are now up from five to ten cents a dozen compared with what they were two or three years ago.

Butter is already up this year to considerably higher than the usual mid-winter price, although the present season has been one of the most favorable for dairy in many years. At the end of February, 1911, the wholesale price of the best creamery solids only reached 25 1/2 cents per cent, as against \$4.20 to \$4.30 or more for the past five years has been 24 cents. Now 25 to 30 cents is the market price. At this rate, all butter will be 10 cents dearer this winter than usual.

All kinds of meat show a corresponding tendency to increase this year. Three or four years ago, for instance, choice hogs were down to around 85 per cent. Now they have gone up to from 88 to 90. Breakfast bacon only four years ago was from 15 to 16 cents per pound, at present time it is fetching 18 cents.

Choice steers are now bringing \$6 to five a few years ago was \$4.50 to \$4.75 and executed the same for and in the same amount. Choice hogs are now bringing 15 to 16 cents per pound, at present time it is fetching 18 cents.

Choice steers are now bringing \$6 to five a few years

SPORT NEWS OF A DAY; AT HOME AND ABROAD

Hockey In Moncton. If better arrangements can be made with the management of the Moncton rink and with the Halifax and New Glasgow hockey team managers, it is assured that Moncton will again have a pro hockey team and one that will be able to hold up the colors of the railway city. If arrangements cannot be made Moncton promoters will not take the matter in hand as it is a long proposition. Letters from Fred Duberdy, Billy Hague and Fred Povey have been received in Moncton and the former "Vic" stars are anxious to come back to Moncton this winter and help win the Crosby Cup and premier honors of the maritime provinces for another year.

Football High School Victorious. In a good football match on the Marston grounds yesterday afternoon the High School second team defeated Rothery, 8 to 5.

Provincial News. Fredericton Gleason—On Friday King's College will play U. N. B. here. This game will prove the first real test of strength for the Red and Black inasmuch as King's team have played both Mount Allison and Acadia and their players should be able to size up the strength of the three teams of the Intercollegiate League pretty well after the game.

Baseball. The following are the results of the match on the St. Peter's alleys last night: Thistles Won.

Table with 3 columns: Player Name, Total, Average. Includes names like Joe Dever, Cleary, McEwen, Howard, White, and totals for Shamrocks and Thistles.

On Saturday Fredericton High will play Colby College here. It will be the first game here of the Intercollegiate League series, and if Fredericton High wins all doubts as to the winners of the championship will be over. Fredericton now holds the trophy and expect to keep it here for another year.

Monday will be Thanksgiving Day and the holiday week will not be complete without a football game. The St. John team will be here to play U. N. B. team today.

The U. N. B. team's practice yesterday was one of the best of the season. Thirty-nine men were out in uniform and the second team under Capt. City Bender gave the first team a good battle.

Fredericton Mail—There was another hard workout at the College Field yesterday. Players on both first and second teams putting lots of vim into their playing. There seems to be too much shifting about of players, however, with but two days intervening before the King's College game, the first team, particularly the second, should be selected. Ken Macmahon has replaced "Curly" Ballman on the first team's halfline. "Curly" being laid up in bed. Macmahon is making good in the position.

The formation of a second team at U. N. B. is working out well. There have been big turnouts so far this week, and the second XV has given the first all it wanted. In fact, there has been too much ill-fitting displayed.

The U. N. B. hospital lid, besides Ballman, includes Joe Dugway and Jewett. Unless some of the cripples get back into the game there will be some new material used against King's on Friday.

Patterson is being used in the first team. His healing ability is very noticeable.

It is understood that the second U. N. B. team will be sent to Colby next month to play St. Thomas' College. There is material available for a first-class XV among the second team string.

Football Notes. Princeton has scored 33 touchdowns this fall and has kicked 30 goals from touch-downs, which, with two field goals, makes the Tiger's score for the season aggregate 234 points.

Halifax Philbin of Yale, has improved a lot since last fall.

The Maine State college championship games will begin on next Saturday, when Bowdoin and Colby meet and Maine plays Bates. Maine has not beaten Bates since 1909, and last year's match between Colby and Bowdoin was a tie. Since 1882 in nineteen championship seasons, Bowdoin has

Mr. Chapelle will open a training stable. His reason for coming east is to give his children better educational advantages, and perhaps a little tiring of the monotony of the prairie.

Baseball. 200 Pitches in Game. A comparison of the work of the pitchers in the second game of the world's series in Boston shows that Mathewson had far less to do in retiring the Red Sox than the home pitchers in retiring the Giants. A total of 200 balls were pitched to the opposing batters by the four pitchers who took part in the game, and thirty-four more than Matty. The figures are 128 for Matty and 162 by Collins, Hall and Belmont. Of this number Collins pitched ninety-four during his seven and one-third innings of service. Hall pitched fifty-two in two and two-third innings, and Belmont had to pitch sixteen to retire the Giants in the eleventh inning.

Mathewson, as usual, had wonderful control, and went through the game without giving a pass. In the first inning he was compelled to pitch twenty-five balls to retire the Red Sox. The top figure for any inning in the present series to date. In the eleventh inning he made the unusual record of pitching only three balls, three successive batters going out on grounders.

He averaged 11.7-11 balls per inning, as compared to 14-11 for the three Boston pitchers. Hall's wildness raised the Boston average, the Mexican giving out four passes during his short time on the mound. Both teams went up to the ninth inning without giving a pass.

Hitting the first ball was indulged in freely by both teams, and less than twenty-three times during the game was the trick accomplished by the two teams. Merkle and Mathewson were the only players who were struck out on three pitched balls. Following are the balls pitched per inning: Mathewson—25, 9, 6, 8, 11, 14, 9, 10, 14, 24—28. Collins—12, 13, 9, 15, 8, 11, 15, 10, in eight innings—64.

Hall—Twelve in eight innings, 24, 16, 22. Bedient—16.

Two Good Suggestions. Manager McGraw of New York has suggested that a rule be made for future world's series games that if rain stopped a game, no matter at what stage, play be resumed the following day where the two teams left off, rain checks being provided that all the fans who attend a game see the play-off free of charge, their seat checks being refunded to them when they return to the park. It is said both suggestions will be adopted.

Has Three Propositions. New York, Oct. 23—The Baseball Players' Union of the Eastern manager, Mr. Feltz, said that every player in the sixteen major league clubs except five were members of the organization. He also said that the main object of the union was to improve the general morale of the sport and to protect the player from the tyranny of fines and suspensions without a hearing.

The Ring. Johnson's cause. Charles, a younger brother of Jack Johnson, was yesterday a witness against his brother in the matter of the alleged abduction of Lucille Cameron. A development in the case is the filing of a suit for \$25,000 by Willard Davis, a negro, against Johnson, on charge of abducting the girl.

News of the Boxers. Salt Lake City has again been wiped off the boxing map. Clarence English will meet in St. Louis on October 29.

Kid Williams and Eddie Morgan have been matched to box in New York next month.

Jeff Madden, of South Boston, and Tom McLellan have been signed to box in Albany on November 11.

Johnny Dundee, of New Orleans, A. C. on Monday night, and Dundee received a scheduled 12-round bout. Andy Morris, of Boston, was carded to meet White, but the management announced that Morris was out of condition. The sailor sent his left to Wiegner's jaw and the latter went down, but was immediately on his feet again. Wiegner landed a couple of rights to White's body and in ten the sailor pushed, finishing the bout with a back-handed hook to Wiegner's jaw at close quarters.

Ad Wolgast defeated Teddy Maloney in a six round bout at Philadelphia yesterday. The champion, however, made a poor showing.

Billy Papke defeated the French champion George Carpentier in their fight in Paris yesterday. The Frenchman quit after the seventeenth round. At the weigh-in Papke exceeded the middleweight limit and Carpentier was under weight. The manager of the French fighter would not let his man fight for the title of middleweight champion as a result.

John L. Sullivan, the old time champion fighter of the world, was celebrating his fifty-fourth birthday.

THE NEED OF THE WEST. Fredericton Mail—H. A. Perley, of Calgary, accompanied by a wife, arrived in the city this morning. The people of Alberta, said Mr. Perley, like those of Saskatchewan, were strongly in favor of reciprocity, and if a provincial election came on, although that was not probable, he expected to see the Liberal government elected. As an instance of the importance of the United States market to the west, Mr. Perley stated that he had a friend who, by selling Alaskan catfish in Chicago this autumn rather than in Montreal, would make \$40,000.

NO-BODY LOVES A BALD MAN! Every day we see young men and women, who have grown prematurely grey. They immediately fall into the "Old Age" class, because grey hairs are so closely associated WITH OLD AGE. His extremely discomfiting and humiliating to be bald—to be grey when the young men so marred—the young man soon learns to discriminate between natural hair in its full bloom of health and NATURAL COLOR, and shabby looking grey and faded hair. Give nature a chance. If she is encouraged, stimulated, assisted, she will give you a head of hair that you will be proud of. Give it to her. STREET RAILWAY AND TELEPHONE COMPANY

Both Have Applications Before the City Commissioners

Communications from the St. John Railway Company and the New Brunswick Telephone Company were dealt with at the meeting of the city commissioners today.

The street railway company informed the commissioners that they are not yet ready to go ahead with the work of laying the trolleys at their new car barns in Westworth street, for which permission was given on condition that they pave the street in that block. They are anxious to be allowed to secure access to the car sheds, however, as their new cars have arrived and they wish to place them in the new building. For this purpose they ask permission to lay a temporary siding from Westworth street. The matter was laid over for consideration.

The telephone company asked permission to erect new poles in Seely street and Watson street, W. E., and to change the position of poles in Hanover and Clarence streets. The application was referred to the commissioner of public works to investigate.

SAYS HE IS GUILTY OF BOTH THEFTS

Blinkerton's Plea is That He Was Drunk at Time—Goldsworthy Denies Getting Liquor From Ramsay

Wesley Blinkerton, aged twenty-seven, was arrested in Dock street yesterday afternoon by Sergeant Scott and Policeman O'Neill on the charge of stealing a dress suit case containing four bottles of brandy, one bottle of whiskey, and a pair of ladies' shoes, all valued at \$10. The goods are the property of William C. Fullerton.

After being taken into custody, Blinkerton told the police where he had hidden the case, and it was found lying on a mud scow at Long Wharf. Sergeant Scott had a lively run to catch Blinkerton. Hearing in the case was begun in the police court this morning. Blinkerton pleaded guilty to this morning. Blinkerton pleaded guilty to this morning. Blinkerton pleaded guilty to this morning.

Mr. Carleton, who conducts a sailor's boarding house in Smythe street, told of Blinkerton calling at his house and asking for board. Yesterday morning Blinkerton had gone to the witness' room, and after he had gone a gold watch was missing. He identified the watch taken of the prisoner as the one.

Mr. Fullerton told of meeting Blinkerton at noon yesterday on his way to the depot. He left his suitcase down while he purchased a ticket, and when he went to get it he could not find it. He reported the matter to the police. He identified the case in court as the one that he had lost. One of the bottles was missing.

Sergeant Joseph Scott told of making the arrest. The prisoner had denied the theft at first, but later confessed. The suitcase was found on a barge near Long Wharf, and the watch was found on the prisoner.

Blinkerton was remanded to jail. He was told by His Honor that he was liable to a term of five years in Dorchester, and that if he got the full penalty he would have no one to blame but himself and the rum.

Moses Ramsay, charged with supplying liquor to Williams Goldsworthy, an inter-County Goldsworthy denied positively that Ramsay had given him any liquor on Thursday night or at any time. He said he only knew Ramsay to speak to and did not remember of ever getting liquor from him. Ramsay was remanded until tomorrow morning, when other witnesses will be called.

One prisoner, charged with drunkenness, was remanded.

FORMER ST. JOHN MAN ONE OF THOSE KILLED

Sad News For Mrs. McLaughlin, Here Because of Father's Illness and Death

Sad news for at least one family in St. John was contained in the morning papers despatch from Halleyburg, Ont., telling of an awful fatality in the plant of the Explosive Co. where five people lost their lives, and others were badly hurt. One of those killed was a former resident of St. John, John McLaughlin, whose wife is at present in the city, at the home of her sister, Mrs. George Scott, St. David's street.

Mr. McLaughlin was born in Eniskillen, Ont., about thirty-three years ago. A few years ago he was on the staff of the C. P. R. in west St. John, but later went to Toronto and thence five years ago to Halleyburg, where he was a foreman in the works of the company where the explosion occurred. He had been progressing well, and making a good name for himself. He was a member of the school board of the town, was prominent in the Orange Order of Elks. Besides his wife he is survived by one stepson, Beverly Nesbitt, his mother, three sisters, and three brothers.

Mrs. McLaughlin is a daughter of the late Joseph Mason of Apollonia. She came here seven weeks ago because of his serious illness and was with him at his death on September 26. Since then she has been with her mother in Apollonia and came to St. John last Thursday to spend a few days with her sister, Mrs. Scott. She will leave this evening for her home and will be accompanied as far as Montreal, if not the whole distance by Mr. Scott.

The news contained in the morning paper was a fearful shock to all. The first intimation of the fatality was the newspaper despatch and coming so soon after her recent bereavement in the loss of her father, the blow was particularly sad.

LOOK AHEAD TO 1913

Commissioners Planning the Street Work For Next Year

Plans for street work for 1913 are already under consideration at City Hall, and it is understood that the programme will call for some extensive additions to the work. The road engineer has surveyed fifteen streets on which permanent pavements are to be laid, and about the same number of streets in residential districts, where a lighter pavement will serve and from among this number those in the most pressing need of new pavements will be selected for next year's work.

The commissioners are adopting the plan of doing permanent work on a continuous plan along the chief lines of traffic, so that the streets which have new surfaces will not be made filthy by mud tracked onto them from the unpaved streets.

CLOTHING FOR THE WELL-DRESSED BOY

Parents who weigh the question of the boy's suit as it should be considered, don't stop at the price or the seeming savings offered. They look into qualities—the materials, the making—the points that mean service. They judge of the style and fit—essentials in bringing a hundred cents worth of value for a dollar.

Another point, perhaps the most important of all: they judge the store. The store that watches with even more particularity than parents do the intrinsic worth of their boys' clothing (and such a store is apt to be a safe store when offering a bargain.)

The Oak Hall Boys' Clothing Store offers carefully-made clothing in best styles for boys. Never a suit goes out but what is broadly guaranteed. Better yet, never a suit comes in but what we believe so good that the guarantee won't be called on. But it works automatically in case of unforeseen mishap.
