ANOTHER MOVE UPON THE I. C. R.

Matthew Lodge Would Do Away With Government Ownership

FRED PEARSON, ALSO

Former Says People's Railway is Blight on Lower Provinces Because of it Being in Politics—Gives Interview in Montreal

(Canadian Press) Montreal, Sept. 16.—The I. C. R. is at present a blight upon the lower provinces and the sooner the men at the head of affairs at Ottawa realize this fact the better it will be for all concerned, declared Matthew Lodge, of Montreal, president of the Maritime Board of Trade, who declared today that he was a convert to the idea of disassociated government ownership from the I. C. R.

Nova Scotia and New Brunswick, Mr. Lodge says, lose an incalculable amount every year from the fact that every other part of Canada considers that the I. C. R. is such a drain on the public treasury, which the other provinces have to refill, that any other legitimate demand from the provinces by the sea is scoffed at, and the I. C. R. is flaunted in the face of every man who is interested in the development of the free provinces, and who seeks government assistance.

Politics, he adds, is the curse of the I. C. R. and will always remain so, understanding the fact that the minister of railways, or those in charge of the road, may be animated by the best intentions. Mr. Lodge thoroughly believes that if the government of the day had handed over the I. C. R. to the C. P. R. when that company extended its rails to the Pacific ocean, or to any other strong transcontinental company, the province of Nova Scotia and New Brunswick would be blooming like the rose instead of being more backward than the larger provinces. Fred Pearson, proprietor of the Halifax Chronicle, declared that he thought opinion in all the provinces was about ripe for such a change.

FOOTBALL RIOT WAS POLITICAL ROW

Papers Say Serious Clash in Ireland Was Pre-arranged Affair

Insulting Remarks by Unionist Club Members With References to Pope—Celtic Banner Bearer Maltreated and Some Thousands Were Then in Mix-up

(Canadian Press) London, Sept. 16.—According to the Chronicle's Belfast correspondent, there is a political significance in yesterday's football riot. Accounts of the affair calculated to convey an entirely erroneous idea of the causes of the riot, were sent broadcast over the wires, says the Chronicle, Celtic Park, where the match was played, is at the extreme end of the National quarter. During the week there were rumors of possible trouble, but no one paid attention to them. It now transpires that the whole affair was organized amongst the members of the Unionist clubs in the Belfast shippers.

EDWARD KIDD, ONTARIO M. P., HAS PASSED AWAY

It Was He Who Gave up Seat to Bowden After the Election of 1904

(Canadian Press) Ottawa, Sept. 16.—Edward Kidd, M. P. for Carleton County, died this morning at his residence, North Gower, following an illness of several weeks. He was 60 years of age. From the first stroke he was recovering rapidly and was able to take a few steps yesterday morning, however, he was again seized and lapsed into unconsciousness. Doctor Channonhouse of North Gower and Doctor Kidd of Ottawa were continuously in attendance, but were unable to hold out any hopes for his recovery. He died without regaining consciousness.

Mr. Kidd was born on September 8, 1849, in the township of Oxford, Grenville County, Ont., of Irish parents. He followed the pursuit of agriculture from youth, and later was engaged in the cheese industry. He was first returned to parliament in 1900, and again was elected in 1904, but resigned in favor of Right Hon. R. L. Borden, the Liberal leader of the opposition. Mr. Borden was elected for both Carleton and Halifax counties. Mr. Kidd was a member of the Church of England.

EUCCHARISTIC PROCESSION IN GREAT DOWNPOUR

Was Impossible to Have Celebration of Mass in Open in Vienna as Intended

(Canadian Press) Vienna, Sept. 16.—The brilliancy of the great procession concluding the twenty-third Eucharistic congress yesterday was greatly marred by a continuous downpour of rain and a chilly temperature. From seven o'clock in the morning until one in the afternoon, when the emperor followed the papal legate, Cardinal Van Rossum, with the host through the Burgtheater, rain fell unrelentingly drenching many thousands walking in the procession as well as the thousands of spectators along the route.

Under such conditions that it was impossible to hold the celebration of mass in the open air on the top of the Burgtheater Court, as was intended, the procession simply passed through the Heiden-Platz from the Ring-Strasse into the inner court of the Hofburg, where the papal legate, the cardinal, the emperor and the Archduke Franz Ferdinand, entered the Hofburg chapel and the host was deposited.

TEN BELIEVED DROWNED; FIVE BODIES FOUND

Chicago, Sept. 16.—Five naval apprentices were drowned and five are missing as the result of the capsizing of a cutter from the United States naval training station at North Chicago, Ill., late yesterday afternoon.

THINK TORCH WAS USED IN NORTH END FIRE

Incendiary Believed Responsible for Outbreak in Metcalf Street During Night

There was a fire at work this morning in North End, and his miserable endeavors proved quite effective. There is every reason to believe that a fire in the houses of Metcalf street early today was set by a person or persons, but for what purpose it is difficult to imagine. Last evening the occupants of each of the houses retired early. There was no sign of fire in the section at the rear where it broke out, and no fires were burning in the houses. When the blaze was seen this morning it was about three o'clock, despite the heavy rain of last night, it had gained much headway and the flames appeared to have been fed with oil or shavings, since they had spread not only well over the roof of the house, but over the back of that owned by Mrs. Margaret French across the alley, and fell fifteen feet distant. Both seemed to have taken fire simultaneously.

FROST HITS WEST

Toronto, Sept. 16.—Since Saturday, heavy frosts have been felt in the west, Saskatchewan and in Manitoba they have occurred locally.

It is feared that they were caught in the storm and drowned.

THREE IN DEATH ROW NOW

Montreal Jail Houses Three Murderers—One Makes Second Attempt to Commit Suicide. (Canadian Press) Montreal, Sept. 16.—The inmates of the "death row" in the jail were added to this morning when Domenico Bitonio, condemned on Saturday to suffer the extreme penalty of the law for the murder of Louis Guy, a restaurant keeper with whom he quarreled and whom he shot, took his place in the cells.

There are now three men in the jail under sentence of death, Sylvia Yacouloff who shot his sweetheart, Marie Tremblay, if the appeal to be made to the minister of justice on his behalf fails, will die on Nov. 15. John Cummings who killed his wife in a mad fit of jealousy is to die on Nov. 4 provided the minister of justice does not grant him an appeal. Cummings has twice attempted suicide, his last attempt was made this morning when he dashed his head on the stone floor of his cell. The date of Bitonio's execution is Nov. 23.

DISTINGUISHED VISITORS TO CANADA

ENGLAND PLAYS WAR GAME

Nearly 50,000 Men Represent Invaders From Direction of Germany and Force to Repel Them

(Canadian Press) Cambridge, Eng., Sept. 16.—Having received word that the Blue Army, under command of Lieutenant General Sir Douglas Haig which, in the grand army manoeuvres commenced today represents an invading force from the North Sea had started to march toward London, the defending army set out at daylight this morning to intercept it.

The manoeuvres are being conducted on the most elaborate scale held in England for some years. The general scheme provides for the repulse of an invading army from the direction of Germany, the scene of operations adjoining the eastern coast of England. The manoeuvres in the early stages will be confined to Norfolk and Cambridge though later they will cover an area including Norfolk, Suffolk, Essex, Hertford, Huntingdon and Bedford. The mimic war will continue for five days.

The defending army, which spent last week in carrying out divisional manoeuvres, is composed of 22,500 men, 900 horses, ninety-six guns, sixty-eight machine guns and 13,000 cyclists. The invading force has 2,500 more men. Each army has the use of one airship and eight aeroplanes, the latter fleet having been considerably reduced through the order prohibiting the use of monoplane on account of the recent accidents which resulted in the death of four lieutenants of the army flying corps.

NOT ONE BOY IN AMHERST WAS UNDER ARREST

Mr. Bradford's Fine Work For Juniors There—A Suggestion for St. John

The Times this morning has an interesting talk with John J. Bradford on the community work that is being done in Amherst, not only for the boys and girls of the schools, and those too young to go to school, but the working boys and girls and even the dismissed of the town. It is worthy of note that the Amherst Highlands school building is the first in Canada to be utilized as a social centre, and it is as fully used as any in United States cities. There is also playground apparatus in Amherst school yards which is in use during the school period as well as in the holidays. Last year not a single boy or girl in or out of the schools who is not reached by its influence. His story of what has been accomplished is a revelation. The citizens have become so enthusiastic over the good work done that there is never any serious question about funds. Large open spaces have been bought adjoining school buildings to be recreation spaces for all time, while one field has been secured with an eye to the future, when the city shall have grown around it.

UNKNOWN STEAMER ASHORE

Pensacola, Fla., Sept. 16.—A British steamer, name unknown, is hard ashore thirty miles down the coast from Pensacola. It is believed the steamer was blown from the gulf during a storm on Saturday morning. She is reported lying broadside in about six feet of water. The information was brought here today by a river boat.

MUCH COAL BUT NO GOLD FOUND IN BAFFIN LAND

Crushed in Ice and Abandoned—Then Came Time of Hardship, Crew Living on Few Crackers a Day—Weather Against Them

(Canadian Press) St. John's, Nfld., Sept. 16.—After great hardships in the frozen north, Captain J. Bartlett of the steamer Neptune of this port, who headed a gold hunting expedition to Baffin Land, returned to this harbor reporting the loss of one of his ships and the discovery of extensive coal deposits, but no gold.

The sealing steamer Algernon of the expedition was lost in Pond's Inlet. After she was crushed in the ice, the ship's company walked five miles over the frozen land and found a cache left by Captain Bartlett. For two weeks they subsisted on four crackers a day while they worked to penetrate far into the interior owing to ice and unfavorable weather conditions. The Neptune brought two tons of blubber, sixty bear skins, one musk ox and a live polar bear, which is the property of St. Peel, a wealthy New York sportsman who was a member of the expedition.

WESTMORLAND IS AROUSED OVER A SCOTT ACT MATTER

Alleged That There is Persecution of Magistrate and Churches are Uniting in Protest

(Special to Times) Moncton, N. B., Sept. 16.—The Transcript tonight will say—"The latest move by the anti-Scott Act party, led by a few politicians and office seekers in the city of Moncton, to displace Stipendiary Magistrate Kaye and change the police commission so that Chief of Police Bideau may also be dismissed, has aroused an organized feeling of hostility not merely in the City of Moncton but throughout the county of Westmorland. "Moncton is the citadel of Scott Act strength and the liquor sellers in their attack upon this city are aiming at the movement throughout the county. Elsewhere alarm has been taken at the persistence of attacks made upon the magistrate here. Elsewhere reports of church services in Moncton appear but outside of Moncton, the Moral Social and Reform League, on Sunday, organized a movement within a few hours which resulted in no less than eight churches on Sunday evening entering a protest.

Lesson in Scientific Complexion Renewing

Everyone has a beautiful skin underneath the one exposed to view. Bear that in mind and it will be easier to understand the correct principle in acquiring a lovely complexion. Nature is constantly shedding the top skin in flaky particles which are, in fact, much smaller in size. In abnormal conditions, or in advancing age, these particles are shed as rapidly as in robust youth.

On The Impossibility of Forgetting

By RUTH CAMERON

Two good friends had quarreled. One, who is of a passionate disposition, completely lost her self-control and said many unkind things. When the thunderous misunderstanding finally passed over and the sunshine of reconciliation began to struggle again, the quick-tempered woman told her friend she was sorry for her bitter words, and then added cheerfully: "And now you'll forgive me and forget all that I said, won't you?"

AMLAND BROS., LTD. 19 Waterloo Street THE LOVE OF A KING Egyptian production there will be given a whole reel of good, rollicking, jolly comedy. The Union of South Africa has a total area of 470,000 square miles, with a population approximating 6,000,000. In a masterpiece of picture art to be shown at the Gem on Wednesday and Thursday, a spectacular two-reel production, there is presented the story of an early king of Egypt, Ramses II, endeavoring to win the hand of Selime, a comely maid who is in love with Riffam, a young shepherd. It is a story of royal intrigue and crafty plotting in an effort to keep from the people the monarch's intentions, and it is most cleverly enacted by the players in the cast, which is a very large one. The costuming is excellent and the scenery true to nature and most appealing to the eye. In addition to this stupendous

TRURO TRIBUTE TO THE

ST. JOHN EXHIBITION, WITH SOME CRITICISM

To the Editor of The Halifax Chronicle:

Sir—I have just returned from an extended visit to the St. John exhibition and from the experience of forty years in the exhibition business, I think I can safely say that all in all it was the most successful agricultural show ever held in the maritime provinces. In attendance it certainly eclipsed any previous show, and the live stock exhibits were more numerous and universally of a very high order of merit. The courtesy of the officials from the secretary down, was all that could be desired, and the banquet given to the exhibitors of live stock much appreciated.

I wish to call attention to one point, however, in which the committee were slack, i. e. in the appointment of judges of dairy cattle. We have very distinct classes of dairy cattle in these provinces, viz. Channel Island, Holsteins and Ayrshires, each calling for a separate judge in order that full justice may be done in his class. The St. John committee placed all this work on the shoulders of one man, and, no matter how competent he may have been, it was utterly impossible that he could do justice to the task.

In the first place it delayed the placing of the awards in some instances until the show was almost over, and in the second it was universally admitted that no one man can do the work in a satisfactory manner. He is sure to have an ideal in his mind, which is not applicable to all classes of dairy cattle. In this instance the man was a Holstein man, and his judgment in the other classes, particularly Ayrshires, most disappointing. We hope that the Halifax committee will not make the same mistake.

I said the attendance was splendid. The St. John people certainly patronize their show and are loyal to those who have the matter in charge. Will the Halifax committee do as well this year, and show the province that Halifax is the place to hold future exhibitions, and that a large quantity of other household effects.

I wish to say in closing that there was great delay in railway accommodation at the St. John shore, while being loaded for as much as eight to twelve hours before leaving the yards. Such should not be the case and the attention of the authorities is called to this fact, and they are respectfully requested to apply a remedy in future shows.

While a football game was in progress at Bellevue, Ireland, on Saturday afternoon some followers of one team unfurled a few green and white flags, while some of the other party waved the Union Jack, the "roosters" for the winning team from Limerick waving the flag and shooting for their players. A fight ensued and fifty persons were severely injured. Five of them were wounded from revolver shots and two are in a critical condition.

FATALITY IN MONCTON.

At Moncton, on Saturday afternoon Mrs. John O'Rourke was killed while attempting to cross the tracks at the crossing in Main street. She apparently did not hear or see a shunting engine approaching, and she was struck and rolled beneath the wheels before any effort to save her could be made. PEARS IN SACKVILLE.

Post—P. W. McNaughton is of the opinion that fruit can be successfully raised in Sackville. He has in his garden a pear tree and several plum trees and all are loaded. The pear tree especially is laden with all the fruit it will bear, and they are as well formed pears as the merchant at Sackville bring in from other provinces.

TRURO TRIBUTE TO THE

ST. JOHN EXHIBITION, WITH SOME CRITICISM

To the Editor of The Halifax Chronicle:

Sir—I have just returned from an extended visit to the St. John exhibition and from the experience of forty years in the exhibition business, I think I can safely say that all in all it was the most successful agricultural show ever held in the maritime provinces. In attendance it certainly eclipsed any previous show, and the live stock exhibits were more numerous and universally of a very high order of merit. The courtesy of the officials from the secretary down, was all that could be desired, and the banquet given to the exhibitors of live stock much appreciated.

I wish to call attention to one point, however, in which the committee were slack, i. e. in the appointment of judges of dairy cattle. We have very distinct classes of dairy cattle in these provinces, viz. Channel Island, Holsteins and Ayrshires, each calling for a separate judge in order that full justice may be done in his class. The St. John committee placed all this work on the shoulders of one man, and, no matter how competent he may have been, it was utterly impossible that he could do justice to the task.

In the first place it delayed the placing of the awards in some instances until the show was almost over, and in the second it was universally admitted that no one man can do the work in a satisfactory manner. He is sure to have an ideal in his mind, which is not applicable to all classes of dairy cattle. In this instance the man was a Holstein man, and his judgment in the other classes, particularly Ayrshires, most disappointing. We hope that the Halifax committee will not make the same mistake.

I said the attendance was splendid. The St. John people certainly patronize their show and are loyal to those who have the matter in charge. Will the Halifax committee do as well this year, and show the province that Halifax is the place to hold future exhibitions, and that a large quantity of other household effects.

I wish to say in closing that there was great delay in railway accommodation at the St. John shore, while being loaded for as much as eight to twelve hours before leaving the yards. Such should not be the case and the attention of the authorities is called to this fact, and they are respectfully requested to apply a remedy in future shows.

C. P. BLANCHARD.

While a football game was in progress at Bellevue, Ireland, on Saturday afternoon some followers of one team unfurled a few green and white flags, while some of the other party waved the Union Jack, the "roosters" for the winning team from Limerick waving the flag and shooting for their players. A fight ensued and fifty persons were severely injured. Five of them were wounded from revolver shots and two are in a critical condition.

The two missing gunmen in the Rosenthal murder case in New York, "Gyp the Blood" and "Lifty Louie" were arrested yesterday in Brooklyn, N. Y., by Deputy Commissioner Doherty and a squad of detectives. They were in company with the other two men and were eating supper. Saunders' machine shop, Yonmouth, N. Burket says he is almost as good as ever and that he intends to remain a player. He batted over 200 this season for the fourth successive year in the league. Two of Burket's pupils have gone up to the big league this year—Boonhug, who joined the Washington Senators, and Van Dyke, who becomes one of the Boston Red Sox.

A GREAT GAME BRINGS SEASON HERE TO AN END

Marathons Win Twelve-Inning Contest From Lynn Team SCORE WAS TWO TO ONE

Pitchers in Exciting Duel Backed in Superb Fashion By Men of Both Teams—Demonstrations For Locals After the Victory

Big league baseball ruled on the Marathons' grounds on Saturday afternoon. From three o'clock until seven o'clock nearly two thousand fans of both sexes saw the Greeks and the Lynn team fight it out through twelve innings. They held grand stand and bleachers and banked the base lines, while they enjoyed the best game of the season and the last. Friday's game had won the palm for superior ball but Saturday's excited event that it was a happy through, throbbing with the excitement of the contest, that poured from the grounds exultant in the home details. Even with the team not going the victorious pace at all times, the fans went to cheer them on and would have gone on all the other days when wet weather caused postponement.

It does not need close observation to see some reasons why the Greeks—individually by a fine team of players—did not finish higher in the league standing—than those who were against so hard a proposition as ever in the course of their seventy-two game season.

Great Pitchers' Duel. And now for the game. Winter went in to pitch for the Marathons, while the receiving end, Dutton on first, Pinkerton at second, O'Brien on third, Ramsey at short, Riley at pitcher, and Jordan and Jordan in right field. "Bill" Harrington, a brother of Frank, pitched for the Lynn team. The royal was evident from the outset. It proved a magnificent pitchers' duel, each twirling strongly backed by a superb machine. "White" and Harrington worked brain and muscle in outpitching the opposing batsmen, the men behind them were keenly on the alert to back up the central men of their organizations. There were but two errors, one on each side, though twice or three times the Marathons lost chances and several Greek batmen were given a life, twice when the click of a foul tip scudded and the ball did not stay in the catcher's hands for what would have been a third strike. Lynn's only error cost them the game while a chance to prevent the one run the visitors made was lost when Ramsey held the ball too long on a bluff throw from McGovern. The catcher had a Lynn man on third came home, Jordan in right field took two chances too easily. He waited for them to bounce. It might have been safe playing but one time it certainly seemed that he could have thrown the batsman out at first. It looked as if he lacked life, and the sarcastic cheers of the fans did not seem to bother him.

Both Harrington and Winter pitched great ball. The former is very much like his brother in appearance and style. He threw a quip in with sharp shoot and had the Marathons guessing much of the time as will be seen by his record of six-

ty by the results of his get racing and up to August 21 of this year, his new performers are: Belmont 2, 2.23%; Biene 3, 2.23%; Benaco 4, 2.24%; Byers, 2, 2.23%; Bella, 6, 2.23%; Balfin, 4, 2.23%; Bunge, 6, 2.24%; May Bingen, 3, 2.23%; Bangor, 3, 2.27%; and Bida, 2, 2.23%. He now has forty-three in the list making 35 per cent of all over. The winnings of his get so far this season are: Boston, 2,664, with \$20,200; Bergen, 2,068, \$5,300 and others \$4,304, making \$27,804 grand total. His get are reducing their records, as for instance: Baden, 2, 2.19%; 2, 2.18%; 2, 2.18%; Belgian, 2, 2.28%; 2, 2.23%; and Berka, from 2.37%, to 2.21%.

teen strike outs. He is keen, too, on watching bases and once caught Pinkerton off first. He passed five men, however, and struck out, and therein was his weakness for in each case this contributed to the Marathons' run. Every man on his team was out to win and there was a good lesson in the excellent way they covered up on every throw. They showed fine arm work. What looked like nice hits subsided into outs as the Lynn fielders covered their territory.

Greek's Snappy Play. For the Marathons, too, the same can be said. McGovern caught a wonderful game and he batted well. There was a lot of chafing when he pulled down a long foul one Brother Terry's bat. Dutton had a faultless day at first and his right field fly caught in the winning run. Pinkerton at second was gingerly from start to finish, pulled down some high ones and fielded grand balls in artistic fashion. He played one of his best games and had one of the hits off Harrington. Ramsey and Dutton and he worked a double play that brought the fans to their feet. O'Brien at third gave an exhibition of snappy ball and did timely work at the bat as well. Ramsey's work was also good and Riley and O'Donnell gave some long ones from the bat.

George Winter has never pitched a better game here, or against faster men, but he was it at that. Heady, clever work and grit through every one of the twelve innings by both teams made Harrington strike outs and was found safely only nine times while in the game. It was surely Winter's day and he fielded his position in all style at that.

The Lynn team scored their only run in the eighth. O'Brien was hit and went to first. Riley hit to the pitcher who made a double steal when Ramsey was slow in returning to base and the slide was caught. McGovern later pulled off a double steal when Ramsey was slow in returning to base and the slide was caught. McGovern later pulled off a double steal when Ramsey was slow in returning to base and the slide was caught.

The locals tied the score in the second. Dutton batted McGovern doubled. Logan singled and he and McGovern later pulled off a double steal when Ramsey was slow in returning to base and the slide was caught. McGovern later pulled off a double steal when Ramsey was slow in returning to base and the slide was caught.

After that there was no more scoring until the ninth. At this time the sides were out in one, two, three order; again a man would get to first, sometimes second, only to be caught by the other side.

Bill Harrington certainly did pitch classy ball, much better than his brother Frank has done. Sixteen strikeouts is some record. The fans had McGovern's goat every time his brother Terry came up to bat.

All dignity and pomp was forgotten at the game on Saturday, and everyone took a hand in the rooting.

You don't see a twelve inning game every day, but the Greeks showed that they were capable of playing rings around their opponents.

Bill Harrington leads his team in batting in the New England League, but both Jordan and Winter had the Indian sign on him here.

It's hard to think that the season is over, after such a game. It is safe to say that not another team in the N. B. and Maine League could play near as fast ball as the Greeks did on Saturday.

Ramsey played the best two games of his life on Friday and Saturday.

The Times sporting editor has the addresses of several eligible young ladies from whom certain Marathons could pick life partners after Saturday's game.

Good bye boys and welcome to St. John any time.

Rudderham's work was consistently good. He is the best man seen in the umpire position on the St. John diamond.

Winter's was the credit on Saturday and Jordan had the honors on Friday. Both deserved all praise for great work.

A great crowd saw the finish. The use of buttermilk as a substitute drink is said to have caused a falling off of 35,000 gallons in the consumption of beer in Chicago last year.

FATHER WISSIL, NOTED MISSIONER, DEAD IN STATES

Was Pioneer of Redemptorists in Their Work in St. John—Succumbed to Paralysis

Word received this week, telling of the death of a priest well known in St. John some years ago, Rev. Father Joseph Wissil, C. S. S. R., caused much regret amongst a large number of Catholic people not only in St. John but throughout the Maritime Provinces and Newfoundland, where he was the first Redemptorist to conduct a mission. His death occurred suddenly in Wilkesbarre, Pa., where he was giving a retreat. He succumbed to a stroke of paralysis.

He was the oldest priest in the Order of the Most Holy Redeemer in America, having reached his 82nd year. He was a pioneer in mission work. Had he lived until March of next year he would have been sixty years a priest, which is a record of the Redemptorists where the duties of office are so exacting.

Father Wissil was a native of Bavaria but came to America when quite a young man. He was ordained by Bishop Neumann in 1832. He soon gave promise of being a valuable acquisition to the list of missionaries in this country, but they have not reached the high water mark yet. They are bringing in additional equipment, more locomotives, pile drivers, and cars, and this morning placed an order for four more cars of rails.

As the work opens up and gives them the room needed the additional equipment will be set at work and more men employed. From the present outlook when the job is going at full speed there is every indication that the management will add some new records to excavation history on this continent.

Rapid progress is necessary in order to complete the big job within the time limit and with the men in charge and the equipment at their disposal it looks as if there will be no doubts about the results.

MORE EQUIPMENT AT COURTENAY BAY

Last Week Record One in Excavation Work But it Will be Surpassed

Before the work at East St. John is completed it is expected that some new city records will have been established. Last week was the best that the Courtenay Construction Company have ever put on the contractor, but they have not reached the high water mark yet. They are bringing in additional equipment, more locomotives, pile drivers, and cars, and this morning placed an order for four more cars of rails.

As the work opens up and gives them the room needed the additional equipment will be set at work and more men employed. From the present outlook when the job is going at full speed there is every indication that the management will add some new records to excavation history on this continent.

Rapid progress is necessary in order to complete the big job within the time limit and with the men in charge and the equipment at their disposal it looks as if there will be no doubts about the results.

AT ROTHEWAY SCHOOL

New Master Comes From Cambridge—Miss Beard to be Matron

F. J. Mallett, B. A., of Cambridge, England, has been appointed to the vacant position of headmaster at the Rotheway College school. It is expected that he will arrive in St. John in a few days. Mr. Mallett is an honor graduate of Cambridge University and for the last three years has been connected with the Cambridge Teachers' Training College. He is highly recommended by his former principal and others engaged in educational work. During the interval between the opening of the term and Mr. Mallett's arrival, E. S. Bridge, B. A., a former master at Rotheway, is taking his work.

Miss Pauline St. J. Beard of Hampton has been appointed to the position of lady matron at the college in the place of Mrs. F. Foster, who, to the great regret of all connected with the institution, will leave at the end of the term. Miss Beard will assume her new duties next January.

MARRIED IN CATHEDRAL

At the Cathedral of the Immaculate Conception this morning at six o'clock a very pretty wedding was solemnized when Rev. Dr. A. W. Mesban united in marriage Henry George McGillivray, son of John McGillivray, to Helen Marion, daughter of Mr. and Mrs. Michael Dowd. The bride, who was given away by her father, was prettily attired in a dress of cream silk with veil and orange blossoms and carried a white prayer book. Miss Gertrude, sister of the bride, acted as bridesmaid and wore a dress of pale blue marquisette with hat to match and also carried a white prayer book. The groom was supported by his brother Joseph. The groom's gift to the bride was a gold cross and chain; to the bridesmaid a set of gold cuff links.

After the ceremony a dainty wedding breakfast was served, after which Mr. and Mrs. McGillivray left by train for a trip to Montreal. The bride's travelling suit was of navy blue with hat to match. The escort in which the young people are held was shown by the many beautiful presents received. On their return Mr. and Mrs. McGillivray will reside at 25 Dolbe street.

HEAVY RAIN.

St. John was visited last night by a very heavy rain storm, nearly one inch and a half falling between nine o'clock last night and three o'clock this morning. The total downfall amounted to 1.47 inches. Between ten and eleven o'clock the storm was at its worst. This morning the temperature took a decided drop, and the probabilities are for fine and squally cooler weather now.

Store open tonight till 8 o'clock.
