All Under Way For a Big Boom Week of Winter Sport and Social Events—Ice Arch Wins Admiration—Committee Puts Finishing Touches on the Preparations.

Detroit Matron, 17, Sues the Head of the House of David

Says He Took Jewels—Maidens of Colony Taught to Consider "Prophet" as Heaven-sent, She Asserts.

Benton Harbor, Mich., Feb. 10.—Charges that twenty-four girls were forced to marry men chosen by "King" Benjamin Purnell, head of the Israelite House of David, are made in an affidavit introduced in the court in the amount of \$20,000 damage suits brought against Purnell by Ruth Bamford Reed, seven, of Detroit, and her sister, Gladys Bamford Hubel, of Detroit. Attorneys for the girls are suing Purnell for a writ of habeas corpus, returnable February 17.

Scathing denunciation of the practices and habits of the high lord of the Israelites for the reading of the Bible, the efforts of attorney for Purnell in his efforts to have the girls released from their marriages, and charges were alleged against Purnell.

Much of their jewelry, valued at several thousand dollars, is now worn by Purnell and his wife, Mrs. Reed asserts. Her mother's wedding ring even adorns the finger of Miss Purnell, so completely under the domination of the high priest has the Bamford family become, says Mrs. Reed.

When she was four years old she was taken from her parents and put under the supervision of Purnell's agents, the affidavit continues. Later she was sent to the home of a woman supervisor, who instructed and trained twenty-seven girls in the doctrines and practices of the sect.

They were taught to believe that anything Purnell did or said was sacred and right and an act of God.

When she was taken once a week to the House of Benjamin, the home of the chief, here, she was given the pleasure of reading with him and enjoying the rare treat of candy and cakes.

Under this pretense, Mrs. Reed charged, Purnell mistreated her, she conducted continuing and repeated sessions of punishment and disgrace and told her that whatever Purnell said was sacred.

After Purnell tired of her he attempted to force her marriage to Robert Reed, a member of the colony. Mrs. Reed says she was married following repeated refusals and protestations, and only consented on the pleadings of her mother, the affidavit relates.

It is the close of the reading Nelson announced that the plaintiffs would prove that twenty-four girls of the colony were forced to marry men selected for them by Purnell after he had cast aside their husbands.

Counter charges of blackmail and conspiracy were made by H. F. Dehler, member of the colony and former Superior Court Judge of Los Angeles, numerous affidavits being produced from members of the House of David to show that the Bamford girls with their attorney have entered into a conspiracy to "break up the House of David."

THIRTY-THREE IN MINE DEATH LIST

Cumberland, B. C., Feb. 10.—(Canadian Press) The list of thirty-three men were lost as the result of the explosion in No. 4 mine on Thursday evening, according to a statement by officials of the Canadian Collieries Limited.

Thirty-one bodies have been recovered and two remain in the mine. Section of the victims are white men and the remainder orientals, mostly Chinese.

The cause of the explosion is shrouded in mystery. In the Cumberland hospital are three white men suffering from the effects of after-damp, who had been reported dead. They are H. Brown, J. Gibb and J. Wehber. The latter are making a valiant fight for life, but their recovery is doubtful.

SON OF SPRINGHILL POLICE CHIEF KILLED

Amherst, N. S., Feb. 10.—George Smith, son of Police Chief of Springhill, was killed. He was run over by a coal cart on which he was brokenman. It is presumed that he slipped from the top of one of the cars.

WORCESTER FIRE

Worcester, Mass., Feb. 10.—Fire caused \$55,000 damage to the four-story Higgins building, in the heart of the Main street business district last night.

The first gun has been fired and St. John's Winter Carnival is a reality.

The formal act of opening was performed this afternoon in King square by His Honor Lieutenant-Governor William Pugsley. His Honor, in the course of his remarks, referred with pride to the excellence of the preparations and the spirit which had dominated those responsible for the great event.

He paid a tribute to clean sport and its development and congratulated the executive committee and all who had assisted them on the thoroughness of the arrangements and the value of the event to the city and province. He declared the Carnival officially open and presented the switch of the highest number of brightly colored lights of the ice arch and the lights which lined the front of King square.

Mayor G. Frederick Fisher made reference to the good attendance at the formal opening, saying that such a good beginning was an encouragement to the committee in their work. All should pull together to make the meet a success. He expressed the hope that this year's meet would be such an unequalled success as to make the holding of the international meet in St. John a yearly event. He welcomed those visitors who had already arrived and extended the welcome of the city to those to come. He urged all the citizens to extend that hospitality for which St. John already was noted.

He expressed the hope that the interest of the people in her had been very plainly demonstrated. She would be accorded a royal welcome back to her home city, whether she came as Miss St. John or as a skater. The city, he said, was making a gift of a gold watch suitably engraved, to the highest number of skaters who attended the meet. He expressed the hope that it might go to a St. John man, but if the fate of the watch was to be decided by a drawing, the committee would be glad to accept it.

St. John's band was present and played several selections during the opening. When the ceremony was concluded the committee went immediately to the skating rink for consideration of further details in connection with the meet.

Many people took advantage of the opportunity to visit the sportsmen's show in St. Malach's hall under the supervision of W. Harry Allen, president of the New Brunswick Guides' Association. The display there was very interesting and of great educational value.

On Monday the reception committee of which Charles A. Owens is chairman, will go to the station to meet the train from Montreal bringing the queens and skaters to the city. The C. P. R. is putting a special dining car on this train. It will not be known definitely until Sunday night just which queens will be coming but a cordial and royal welcome has been arranged for such as do come. H. Mont Jones, chairman of the transportation committee, has arranged for vehicles to bring the visitors up town to the Carnival headquarters. St. Mary's band has kindly volunteered to accompany the skaters on the way to headquarters and play outside headquarters, while the skaters are being welcomed and having their rooms allotted to them.

Charles E. Owens, chairman of the Carnival reception committee, interviewed Mayor Fisher this morning with reference to the skating rink. His opinion was taken in the welcome to the queens and skaters arriving on Monday. It was decided that the Mayor would take in the welcome to the queens and skaters on Monday. It was decided that the Mayor would take in the welcome to the queens and skaters on Monday. It was decided that the Mayor would take in the welcome to the queens and skaters on Monday.

It is expected that a great crowd will be present at the station on Monday to give the visitors a royal welcome in keeping with the spirit of Carnival week.

The city presents a holiday appearance today with all the poles in King street draped with red, white and blue bunting, buildings adorned with flags and bunting and flags flying from the flag poles. The business houses look particularly attractive and, with the bright illumination which has been provided, the city should tonight merit the title of the Carnival city of North America.

Handsome Ice Arch

Many favorable comments have been heard on the ice arch at the head of King street. The arch, which is the

work of George Lawson, consists of four ice columns supported by a cornice of evergreen. Rising about five feet from the ground at the centre of the arch is a cut of ice blocks in the form of a battlement which adds greatly to the general effect. With the arch, strings of lights will be put up over the evergreen trees surrounding the arch and the trees will be sprayed, giving them the effect like that of a silver thaw. The pillars will be capped with ice tonight. Excellent work has been done by the city equipment in clearing a track for horse racing at Millville, according to S. E. Rice, who has charge of the matter in hand. Much interest is being taken in this feature. Horses from Hampton, Clifton and Sussex will race, as well as horses from the city.

Reception for Skaters and Queens

Last night the following telegram was received from the executive committee of the international meet in St. John: Managers, rejoice at your splendid showing and welcome to the city. Every confidence for your ultimate victory. You have a royal welcome awaiting you.

"CARNIVAL COMMITTEE"

W. K. Haley, reporting for the track for the international meet, said that all arrangements have been completed and that if necessary the big meet could be held today. Start and finish lines have been marked and rubber hose has been set in the ice for blocks. Signs also will be attached to the arch. Owing to the large number of skaters, it has been found necessary to erect a small structure for the boy and girl skaters, leaving the skaters and senior men. The upstairs reception room of the Tebo house will be given over to the skaters.

Mrs. E. A. Smith, on behalf of the Health Centre, has invited the executive committee to hold their reception at the fancy dress carnival on Thursday night. Reservations have been made for the evening at the Hotel de Ville. All the officials for the meet are expected to attend a meeting tonight at 8 o'clock.

Sportsmen's Show

The Sportsmen's Show opened in St. Malach's Hall this afternoon at 2:30, under the supervision of W. Harry Allen, president of the New Brunswick Guides' Association. W. Harry Allen, president of the New Brunswick Guides' Association, was in charge of the show. The display there was very interesting and of great educational value.

On Monday the reception committee of which Charles A. Owens is chairman, will go to the station to meet the train from Montreal bringing the queens and skaters to the city. The C. P. R. is putting a special dining car on this train. PRINCESS MARY A MOTHER

Princess Mary, Viscountess Lascelles, is now the proud mother of a son, who was born on Wednesday night, February 7, the first grandchild of Their Majesties, the King and Queen.

JAIL FOR FOUR PROMINENT IN SOCIETY; LIQUOR AT DINNER

BEER TAX AND INCOME TAX

La Montagne Brothers of New York Given Few Days to Fix Business Affairs.

New York, Feb. 10.—Jailed yesterday for bootlegging were four members of the La Montagne brothers, distillers, all of them socially prominent and one internationally known as a polo player. Bail of \$10,000 each was set for the four.

The quartette recently were indicted by a Federal Grand Jury which investigated a dinner at the fashionable Racquet and Tennis Club on Park avenue, at which liquor was alleged to have flowed.

London, Feb. 10.—(Canadian Press)—The preliminary correspondence of the Canadian Press wires that the new session opening on next Tuesday will be a severe testing time for all the parties. In the short and stormy winter session the Premier and his ministers were not really put upon their mettle with the exception of the new attorney-general, Sir Douglas McG. Gage, who without any previous parliamentary experience conducted the fish treaty bill with consummate skill.

The main business of the coming session will be the federal budget and the budget and unemployment and the highly contentious rents.

The beer tax question will be up for discussion, as well as the income tax. As to the income tax a reduction of six pence in the pound is asked for, this representing \$28,000,000. At least a penny a glass off the coat of beer, amounting to a total of about \$20,000,000 or \$25,000,000 is requested by the trade.

The session may witness a rapprochement of the Conservative side. The doors of conciliation have not been closed. The Liberals will enter the new session with only shadowy prospect of a reunion of the two wings of the party.

The Labor party has yet to prove that it is qualified to provide a stable alternative government, and its prospects, in the opinion of experienced parliamentarians are nearly bleak. Reconstruction by the Republican leaders is not regarded as hopeless in some quarters, where it is remarked that some prominent Republicans are under the sentence of death and that their safety may weigh with their friends, while powerful influences will also be brought to bear on both sides to end the quarrel, because it is generally recognized that if this opportunity for peace is allowed to slip away another chance may not present itself soon.

Thought Deadly Pills Candy

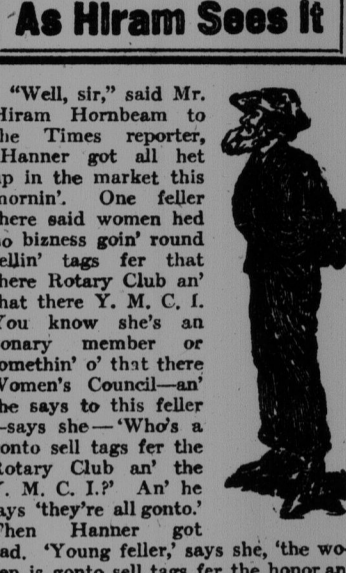

Little Worcester Boy is Dead; Tiny Sister Dying.

Worcester, Mass., Feb. 10.—Herbert F. Santos, five years old, is dead, and his sister, Doris, four years of age, is dying in the City Hospital as a result of mistaking deadly poison pills for little red candies last night. They found the pills, long forgotten left over from an illness in the family, in a bureau drawer, while their mother was putting two younger children to bed.

NO NEW TRIAL

Calgary, Feb. 10.—The appellate division of the Supreme Court of Alberta by a majority has dismissed an appeal for a new trial of Amelio Piarillo and Florence Lassandri, convicted and sentenced to be hanged on Feb. 21, for the murder of Provincial Constable S. O. Lawson, at Coleman, Alberta, last September.

As Hiram Sees It

"Well, sir," said Mr. Hiram Hornbeam to the Times reporter, "Hanner got all hot up in the mud this mornin'. One feller there said women had to dress good 'round sellin' tags for that there Rotary Club an' the Gyro Club an' everybody else is workin' fer 'em. They all want to see St. John do a big thing—an' she can't do it on wind. You got to hev money—an' the choice lies among 'em. Everybody to feel it's their town an' their Carnival—an' they're goin' to hev it. I do believe if that feller had got sassy Hanner she'd a give his ear a pinch—yes, sir. But he didn't. I'll say that fer his part. Missus will take two tags from you Monday if you're round here. He did so—By Hen!"

BLIND, HE WINS HIGHEST HONORS

Chicago Youth Captures Three Awards in Law School.

Chicago, Feb. 10.—A blind student has surpassed all previous achievements in the way of winning honors at the Northwestern University Law School.

George H. Weiman of Chicago, eightless since babyhood, has won the Rufus H. Sage scholarship for 1922-23, the only scholarship at the disposal of the law school faculty, has captured the Charles A. Koeppe prize for the same college year, a prize awarded annually to the student who has demonstrated the satisfaction of the faculty by his promise of future usefulness.

Weiman is twenty-three years old and attributes his success to his mother. He says: "Like Abraham Lincoln, I most of all believe in 'water over a mill, or ever hope to be, my work may be done."

Completion of the committee of judges was not attained until yesterday. No restrictions or rules have been given to the judges to decide the winner beyond the fact that each will have the candidates under observation. It is intimated that the eagerly expected announcement will be made during the supper intermission.

The contest tonight will be the judges of the winter sports committee and members of the winter sports committee and their wives. The latter are: Donat Raymond, chairman, and Mrs. Raymond; Hon. J. W. Martin, Mayor of Montreal, and Mrs. Martin; Mr. and Mrs. J. Duchastel de Montroque; Mr. and Mrs. Armand Dupuis; Mr. and Mrs. Vernon G. Gandy; Mr. and Mrs. W. R. Granger; Mr. and Mrs. A. L. Cron.

Special arrangements have been made for dancing partners for the candidates. The ball will be formal and open to the public. It was hoped last night that arrangements would be perfected for the crowning of Miss Canada, but the choice had been made.

The ball will be the concluding function at which the candidates will assemble together as guests of the winter sports committee. Tomorrow and early next week will see the nominees leaving for their home towns. Miss St. John will leave tomorrow to be present at the St. John Winter Carnival. Miss Halifax will attend this carnival as the guest of Miss St. John.

This afternoon Miss St. John will attend a bridge and the dance in the Mount Royal Hotel held by the business women's branch of the Catholic Women's Guild, accompanied by her chaperon and manager.

Miss Blair has received this honor because of her popularity with the staff of the Mount Royal Hotel which has a large representation of business women in its staff of more than 1000 employees.

(Special to The Times)

Last night Miss St. John completed with all the other contestants in the Miss Canada aggregate on the steel blades. It was not a speed event nor a fancy skating test, merely an exhibition of graceful locomotion and the big M. A. A. rink was crowded with spectators and skaters.

The representative of the winter sport departed herself with much credit and as a proficient in the sport any of her rivals and considerably more so than some. She skated with Colonel Lowry, Mr. Savary, one of the judges, Mr. Riddell and Master Jack Scott son of John Scott, managing editor of the Montreal Gazette, all of whom were good partners.

Miss St. John was attired in her green and white and silver Swiss dress sort skating costume and looked stunning. Miss Winnipeg wore honey dew sweater costume with toque, Miss Halifax wore ermine, Miss Sherbrooke wore white and seal, Miss Edmonton a skirted suit of striped flannel.

Names of the Judges and Points to be Determined—Events of Yesterday and Today in the Miss Canada Competition.

(Special to The Times)

Montreal, Feb. 10.—The final day of the Miss Canada contest is fine and the forenoon found the contestants resting in rooms for the grand coronation ball tonight in the Windsor hotel. A flourish of apparel is anticipated for this occasion. Miss St. John will wear a simple little French frock of blue with straight long waist and fluffly outstanding skirt. The waist is of panne velvet, the skirt is of flowers in strange colors decorate the skirt and the simplicity and girliness of the frock may be in contrast to some of the costly gowns promised.

Each contestant will have a large following of friends, it is expected, and demand for ball tickets is large. The judges are now known and the skating committee will be announced tonight. It is now thought that the choice lies among St. Anne de Bellevue, Halifax, St. John, Quebec and Regina. As all the girls are very pretty and have departed themselves nicely it is assumed Miss Canada will be chosen on the merit of personality.

A resolution providing for an amendment to the Government of 250 acres of land on Vimy Ridge, given to Canada by the Premier and carried after the three party leaders and other members had paid tributes to soldiers who fought and died in the war.

A resolution providing for an amendment to the cold storage act so as to make subsidies to co-operative cold storage plants, preferring to the Government for the erection of a war memorial and expressing gratitude to France for the gift was introduced by the Premier and carried after the three party leaders and other members had paid tributes to soldiers who fought and died in the war.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, FEBRUARY 10, 1923

IN N.Y. IN 1922 350 HOMICIDES

Arraignment of the Whole System of the Courts—Too Much Unpunished Crime.

(Boston Herald.) The medical examiner of Greater New York has recently published the results of his investigations during 1922. The record disclosed is a rather startling one to those who have been influenced by recent statistics indicating a rather relatively low murder rate...

It is rather significant that shootings should have numbered 227 while stab-wounds account for thirty-four, assaults for forty-five and infanticides for thirteen homicides during the year.

It would be interesting and practical of great value to know the number and proportion of those guilty of homicidal crimes brought to justice, convicted and finally subjected to capital punishment.

Since the New York figures are supported by data from other sections of the country, it is not going too far to say that murder in this country is becoming a relatively harmless procedure.

There is certainly the utmost urgency for radical reforms which, however, must include a wide range of statistics and conditions. We need most of all accurate and adequate statistics of

CHARLIE CHAPLIN SAYS—CAN YOU SOLVE THE PUZZLE I'VE MADE FROM MY PICTURES?

HERE are scenes from 5 of Charlie Chaplin's famous picture plays. Whether you have seen them or not, are you sure you know the names of the pictures from which these scenes were taken? To help you, we have listed names of several of Charlie Chaplin's famous pictures at the left, and the first scene in each picture is shown in the puzzle. Can you unscramble these jumbled letters. Can you pronounce the names of the pictures in proper relation to the letters, and put them in the correct order? Don't miss this opportunity of showing the distribution of over \$2,000.00 in cash and prizes.

CHARLIE CHAPLIN HIMSELF IS HONORARY JUDGE!

murder and of the results of the judicial procedure involved in murder trials. The British judicial and criminal statistics form in this respect an admirable precedent deserving to be taken into account.

We are also in need of drastic reforms in coroners' inquests dealing not only with murder, but also with suicide and accident cases. There are reasons

for believing that the legal aspects of the case often are made to yield to sensational and wrongful expectations. Nor is there always the proper correlation of judicial procedure to private conduct in connection with murder cases.

Homicidal crimes have become so common in this country that they are all too soon forgotten. It should be the function of a special department of the government to collect statistics of capital crimes and publish a record thereof with observations as to the results of judicial procedure. From Birmingham, Alabama, comes the recent report of a long list of axe murders and assaults of which the last occurred only a few days ago.

According to a dispatch to the New York Herald, the axe assault list reached twenty-four, of which nine were fatal. The crimes in question covered a period dating back to 1919, when two persons were slain followed by ten assaults with three deaths in 1921, and by eight assaults with three deaths in 1922. Thus far this year there have been four similar assaults with one death, yet it appears that on one has been punished, or even apprehended for the crimes in question.

It would seem to us that the census office might follow the admirable precedent of its division of vital statistics and gradually develop a registration area of judicial statistics which would furnish trustworthy evidence on a national scale of the true extent of the murder problem. Until the facts are brought home to the public that murder goes largely unpunished, there is little hope for a material improvement in a situation which is a scandal and a disgrace as well as an indictment of our civilization, and of our boasted claim that ours is a land of law and order.

Either will boil when it reaches a heat of ninety-eight degrees. Lined oil must reach a heat of 640 degrees before it will boil.

SEA WOLF'S FIST KILLED SAILOR, DOCTOR ASSERTS

Van Buren's Surgeon at the Trial of Ex-Captain for Murder Testifies Pantryman Died After Being Hit.

New York, Feb. 9.—George H. Miles, former commander of the steamship President Van Buren, who is charged with murder on the high seas, was forced to listen in Federal court to further stories of his alleged brutality.

Dr. George W. Farquhar, who as the ship surgeon treated Harry Baxter, a pantryman, alleged victim of the captain, testified that the man had died from the effect of a solar plexus blow.

The physician further declared that the mate of the Van Buren had prevailed upon him to omit any mention of brutal treatment in his report of the death.

Miles sat chatting with Eli Rosenberg, his attorney, while the physician gave his testimony.

Mutual Life of Canada Rolls Up Over Three Million Dollars Surplus Earnings

Company has record-breaking year

POLICYHOLDERS in the Mutual Life Assurance Company of Canada have every reason for congratulation as a result of the remarkable showing in all departments of the Company's business last year.

The fifty-third annual report, presented on February 1st at the Annual Meeting to the policyholders of the Company, who alone constitute the Company, shows that in each of the three financially important divisions of the business, namely, death claims, expenses incurred and the rate of interest earned on invested funds, the Company had an unusually favorable experience, the combination resulting in a wonderfully prosperous year, as shown by the

Record Surplus Earnings of \$3,040,273.93

This is equivalent to \$56.72 for every \$1,000 of total assets held at the end of the year, an unparalleled achievement in the history of the Company.

14% Decrease in Operating Expenses

In harmony with the spirit of the times the affairs of the Company were conducted with a due regard for economy. While the business was expanded to the extent of over \$34,000,000 of new assurances written, the ratio of expense to income was reduced from 18.60% to 15.96%.

Increased Interest Rate on Investments

Owing to the favorable opportunities for investment prevailing during the past few years, the average rate of interest earned on the Company's invested funds has been steadily rising. This condition continued during the year 1922, when the average rate of interest earned over the entire investments increased from 6.60% to 6.74%.

Increased Distribution to Policyholders

The steadily increasing factor in the economic life of our country, which the institution is becoming, and the magnitude of the great public service it performs find illustration in the following facts:

Under cross-examination Mr. Rosenberg got an admission from Dr. Farquhar that he had never treated a person suffering from such an injury and that he had not noticed any marks on Baxter's stomach.

NEWEST LIFEBOAT IS ABLE TO SAVE 150 AT A TRIP

Remarkable Development of Craft in England Bared in Royal Report.

London, Jan. 10.—(By Mail)—Some remarkable developments in lifeboat construction are referred to in a report just issued by the Royal Lifeboat Institution, as quoted by "The London Morning Post."

Great progress, states the report, has been made during the year just closed with the construction of what will be, when she is completed, the largest and most powerful motor lifeboat to have been built for the institution's station on the Mersey. She will be sixty feet long, fitted with two new engines of 90-horsepower each, and have a radius of over 100 miles.

Her two cabins will hold fifty people, while a total of 150 persons can be taken on board. This boat marks a very great development in the work of rescue from shipwreck, for she will be the first to rely entirely on motor power.

So satisfied are the institution's advisers with the work accomplished by motor lifeboats that there are now thirty-eight of them in the fleet of 228 lifeboats. Six more motor lifeboats are nearing completion; eight new ones

deavoring to co-operate with the War Veterans to have it duplicated. Many invitations are being received from various parts of the province for visits from your secretary and promises are being made for visits in the late spring and early summer. In connection with sheltered employment for disabled soldiers the necessary steps are being taken by the local society to obtain information asked by the head office. Correspondence has also been conducted with the American Red Cross in regard to a soldier now living in Maine. As the soldier enlisted in west the matter was taken up with head office who are now giving the matter their attention.

Public Health Nursing. Miss H. T. McKeljohn gave the report of the public health nurses, showing that the seven nurses had made a total of 879 visits, cared for 182 patients, inspected 1,111 school children and given twenty-five health talks. She gave details of the work of the various nurses, Miss J. Petrie at Bathurst, Miss Maloney at Campbellton, where fine clinic quarters had been secured and operations had been performed on several school children; Miss Armstrong at Chatham, from which place three children had been sent to the St. John General Public Hospital for surgical treatment; Miss Brown at McAdam's; Miss Wallace at Shediac; Miss Jessie Murray at St. Stephen and Miss Petrie at St. John. Miss Smith had resigned from her duties at Minto because of ill health and the local committee wrote expressing appreciation of her services and requesting the appointment of another public health nurse. At St. Stephen a new local committee had been formed and it was hoped to interest the town council and the industrial firms in supporting the nurse. In St. John, Miss Ferris had ninety-three girls enrolled in her classes and the curriculum of the classes was growing daily. Miss McKeljohn presented communications she had received. One from John Kelly, of Kouchibouguac, expressed gratitude for the care given his family in the recent epidemic of typhoid. Miss Jarvis delivered a message from Mrs. Alfred Morison, president of the St. John Red Cross, telling of the splendid success met with in the establishment of the Red Cross workshops for disabled soldiers. A committee of men and a committee of women had been appointed to carry on the work, some new equipment had already been installed and the men were at work framing six pictures of the various chapters to present to the Secretary's Report.

Girl Guide Notes

The second Robesay feels a little sad that none of our other companies have taken them on for hockey. They are playing McAdam's on Friday and are hoping to play another game on Saturday—but they would like awfully to play with guides. Their meeting was cut short on Monday so that they could get a few pointers at the R. C. S. & St. J. H. S. game. Guide Dorothy Sparrow got her second class and Ambulance badges. Will all officers please be present at Tuesday's meeting as the district secretary, and possibly district commissioner, of the Boy Scouts have kindly consented to share some of the "Gillwell Park" knowledge with us—eight o'clock!

JERSEY HEALTH BOARD ADVERTISEMENTS FOR BLOOD

Seeks "Young, Healthy Males" to Re-serve Firemen and Police in Trans-fusion, at \$50 Each.
"Wanted—Young, healthy males to supply blood in medical and surgical emergencies. Fifty dollars each trans-fusion. No charge for examination and listing. Report to Mr. J. P. Von der Leth, Jersey City Board of Health Laboratory, any Monday or Thursday at 8 p.m."
This advertisement appeared under "Help Wanted, Males," in Jersey papers after officials of the Jersey City Hospital decided to relieve police and firemen of the city of offering blood in city cases. After conferences with police heads it was decided that the calling of policemen and firemen away from duty for emergency blood trans-fusions hampered the routine of the departments.
Dr. John Nevin, head of the City Hospital, inserted the ad, he said, because of the great success achieved in numerous cases where transfusion was employed. He added that physicians also were ready to pay well for blood givers.

TESTIFIERS SHOPMEN'S STRIKE COST HIS RAILROAD \$5,000,000
St. Louis, Feb. 10.—The shopmen's strike last summer cost the Missouri Pacific railroad \$2,000,000 in direct expenses, and necessitated the purchase of fifteen new locomotives costing \$3,000,000. E. C. Wells, assistant general manager, testified at a hearing here.

FORCE (Whole Wheat Flakes) a delightful pleasing meal for all mankind.

CHILDREN ENTERTAINED.

The 140 children from the St. John Baptist school were entertained yesterday afternoon and evening at the parish high tea. They went from school to the hall in the basement of the church where the tea was held and were regaled with a feast of good things as well as shown all the sights and given all the treats of the bazaar. There were about three hours of entire delight for the children and the committees in charge found plenty to occupy them during that time. The tea and sale was closed on Thursday evening and in the four nights during which it was conducted there were more than 1,200 served at supper and the booths received splendid patronage. It is expected that the affair will have realized a substantial sum to go to-

JUVENILE CRIME IS LARGELY DUE TO DISEASE, NEGLECT OF PARENTS AND IGNORANCE, DECLARES JUDGE

In Annual Report J. F. McKinley Shows That Increase in Juvenile Court Cases is Result of Prosecuting Parents—93 Per Cent. of Cases in Court Are Boys.

"Ninety per cent. of the juvenile crime committed in the city of Ottawa last year was occasioned as a result of disease, ignorance or neglect of parents," is the conclusion reached by Mr. J. F. McKinley, Judge of the Ottawa Juvenile Court, in his annual report.

"A very careful examination of all the cases that have come before the court during the year has brought to the attention of the court the fact that 90 per cent. of the juvenile crimes committed in the city of Ottawa last year was occasioned as a result of disease, ignorance or neglect of parents. Surely something can be done to correct such a condition."

"The most interesting forward step made in the court this year was the establishment of the Medical Board. This board consists of Dr. Wallace McKay, Dr. H. Dover, Dr. G. A. Campbell, and Dr. L. C. E. Berard, who have been giving their services gratuitously to the court."

"Another cause for the increase, says Judge McKinley, 'was the activities of the school attendance officers in bringing truants and their parents before the court. The prosecution of the parents with the children had the effect of reducing truancy 86 per cent. in one month of the city in the short period of one month. Apparently foreigners who come to this country do not realize that our laws require them to send their children to school, as they have a constant disregard as to whether the children attended or did not attend school. In these cases it has been found that a suspended sentence hanging over the head of these parents has had the desired effect. Still another cause for the increase may be, perhaps, just down to a change in the method of handling some cases. When a boy is brought before the court for theft, for instance, the probation officers try to sound up his companions and make an effort to clean up the environment that has caused his delinquency. If only one boy of a gang is caught, as is the case with the stock of his companions when he returns home, and under such circumstances it is practically impossible to get the best results from the probation system."

Mostly Boys. "Roughly, 93 per cent. of the delin-

"When the stormy winds do blow" So goes the old sea song, and it would be good advice to add

DRINK Baker's Cocoa

It is warming and sustaining, for it has genuine food value, and may be safely indulged in any hour of the day for it is stimulating only in the sense that pure food is stimulating.

It is delicious too. MADE IN CANADA BY WALTER BAKER & CO. LIMITED

Open air, good food, and an outlet for the energy which I have referred to above was all these boys required. If all the children in Ottawa who had delinquent tendencies could be sent home (read at night, there would be no need for a Juvenile Court.

"The majority of the boys who were at the camp last summer had never been on a railway train before, and a great number had never tasted butter. The average gain in weight, while at camp, was 3 3/4 pounds, and the average gain in chest expansion was 1.2". With a medical man in attendance, physical defects were quickly noticed and the little fellows given special exercises, which either permanently cured or greatly helped their various defects. The result was that these boys returned to the city in a far better state of health than when they left. They were able to throw off temptations to which they perhaps might still have succumbed, had they been still suffering from the physical or mental ills.

Canuck Club. "As an offspring of the camp, the Canuck Club was formed under the direction of Mr. Howard Ward. This club meets regularly at the Y. M. C. A. as a gymnasium class, and Mr. Ward has created new interests for the boys and this club has kept a number of boys from the court."

"Too much cannot be said in praise of the Big Sister movement and the great good it has done during the year. This organization is indeed lucky to have at its head, as president a woman possessed of the energy of Mrs. J. P. D. Van Veen, who has given so much to the work that I am sure she is the envy of Ottawa. With the members of the court in the background, Mrs. Van Veen for all she and her organization has done for the delinquent this year."

"The defeat of the playground bill this year is regretted by the court organization, as the playgrounds in Ottawa have done much to keep down juvenile crime. The part the citizens at large can take in the work is great, and it is gratifying to see the increasing number of citizens who are interesting themselves in the vast problem we have before us."

Other citizens who have helped greatly during the year: Rev. George Kilpatrick, Rev. Father Courie, Rev. Father Dumont, Rev. Father Leduc, Mr. W. A. Miles, Mr. C. E. Russell, Miss Cassaday, Mrs. Donaldson, Mr. B. Fogie, Mr. Burton Gamble, the school attendance officers, Messrs. Kerr and Dostaler, and the officers of the Children's Aid Society."

MAY DROP LATIN OR GREEK FROM YALE A. B. REQUIREMENTS

New Haven, Conn., Feb. 10.—Reports that authorities at Yale University were seriously considering the elimination of Latin or Greek as a requirement for the Bachelor of Arts degree were confirmed by Professor Robert N. Corwin, head of the Board of Admissions, who said that the question would be considered at the meeting of the Yale Corporation Saturday. Professor Corwin refused to discuss what chances the measure had of being passed.

RALPH CONNOR'S VIEWS CONCERNING UNION

Ralph Connor, author of "The Sky Pilot," "The Man from Glenarry," and many other popular novels dealing with the life of Canada, may be a man of dual personality, in that he is also the Rev. C. W. Gordon, D. D., minister of St. Stephen's Presbyterian Church, Winnipeg, and ex-Moderator of the Presbyterian General Assembly, but he has no two opinions on the question of Church Union. In the course of a recent interview, the preacher-novelist emphatically declared himself as opposed to further delay in the consummation of the Union.

"The interests at stake are so vast and pressing that the Christian Church cannot afford to pause for a single day, merely for the sake of pausing or because of any hope that we may have of winning those opposed to Union to share our convictions," said Dr. Gordon.

"We shall have to expect that a number of brethren will be unable to see their way to move into the Union just now, but no amount of delay will change their convictions or attitude," he continued. "I feel that the delaying of this great movement for Christian unity in Canada is trifling with interests serious and inviting disaster so great that I could not accept responsibility for advising delay."

"Speaking of the situation in the west with which he is so familiar, Dr. Gordon said:—There is no doubt in my mind that as far as Western Canada is concerned, Church Union is practically accomplished, and nothing that I can imagine will prevent its formal and complete consummation. Very few indeed will be the Presbyterian congregations in the west that will remain outside the Union Church."

Advertisement for Old Dutch Cleanser. Text: 'Old Dutch Cleanser Contains no lye or acids. Soft and flaky won't scratch. A little goes a long way. MADE IN CANADA'

One Better. Sometimes the Yankee's humor of exaggeration is met by as good as he gave. An American in London stopped at a coter's stall and lifting up a good-sized melon said, "Are these the largest apples you have?" "But that bloom! grape dahm, will yer?" said the coter.—Boston Transcript.

WILL PROHIBITION SWEEP BRITAIN?

E. Scyngour, M. P. Sees Prospects of the Old Country Going Dry.

London, Jan. 20.—(A. P. by Mail).—Great Britain's prohibitionist member of Parliament, Edwin Scyngour, now universally known as the man who beat Churchill, predicts that in the next general election, assuming it will be five years hence, the cause which he represents will sweep the country.

"This cause," he said, "is the cause of a representative of the Associated Press. 'On what basis do you predict a dry victory in the next general election?' asked the correspondent. 'Well, in the first place,' he answered, 'since my election I have received every day a stack of letters congratulating me on my victory. The writers are going to bring pressure to bear on the members from their several constituencies to support the bill I intend to introduce. If that does not work, the people of this country at the next election (taking a lesson from the Bahamas and other British islands off the Atlantic coast, which we know is intended for smuggling into America. It is ridiculous to imagine that these places are only sufficient for British inhabitants. The great correspondence between Mr. Hughes and Ambassador Geddes clearly indicates that we must be careful not, even tacitly, to interfere with the enforcement of the laws of a friendly country. The Pussyfoot Protest. 'When Mr. Johnson came here, there was a storm of protest against his alleged interference with the affairs of this country. Well, the same argument should hold true in our attitude toward the enforcement of prohibition in the United States. Of course, however, we prohibitionists know Mr. Johnson did not interfere with the affairs of this country. He merely came, at our invitation, to tell us what had been done in the United States and let us draw our own conclusions. 'It has been alleged that the Anti-Saloon League has been helping us in the cause of prohibition. Of course that is not true. The Anti-Saloon League has not given us one penny, and we don't expect any material support from any American organization. We are quite able to do the thing ourselves, although certainly we shall welcome moral support from whatever source.'"

If It Were Not for Women and Children—

The "guardian angel" of life insurance is today standing watch over thousands of Canadian homes. It is the great protector and friend of the women and children. It stands ready with three billion dollars to care for the dependents of the vast army of those insured,—to provide rent, food, clothing, education, and the other things that become even more necessary when the breadwinner is removed.

Take stock of your provision for those whom you love and who are entrusted to you for protection, not for so long as you live, but for as long as they live. Let it not be said: "He provided so well for himself, his wife and children, that he entirely forgot his widow and orphans."

Consult any life insurance representative, and you will be surprised to learn what adequate provision can be made through life insurance, and how simply it can be done.

IF IT WERE NOT FOR WOMEN AND CHILDREN THERE WOULD BE NO LIFE INSURANCE. HAVE YOU ENOUGH LIFE INSURANCE FOR YOUR FAMILY?

LIFE INSURANCE SERVICE.

TWO MILLION DOLLAR GIFTS FROM NEW YORK ACADEMY OF MEDICINE. New York, Feb. 3.—Gifts of \$1,000,000 each by the Rockefeller Foundation and the Carnegie Corporation to the New York Academy of Medicine were reported Thursday by the New York Times. A part of the money is to be used in the erection of a 12-story home for the academy which is planning an enlarged programme for the information of the medical profession and for the instruction of the public in preventive medicine.

THE LOYALISTS AT SHELBURNE

Their Sufferings Recalled—The Scaffold, the Lash and the Pillory For Criminals.

(Occasional in Halifax Recorder.) The late Rev. T. Watson Smith read a very interesting paper on April 10th 1888, before the Nova Scotia Historical Society, on "The Loyalists at Shelburne, N. S." Rev. Mr. Smith's paper says: "The new Loyalist settlement received its name—Shelburne—on August 2nd, 1783. This name was given by Governor Parr in honor of Lord Shelburne, (afterwards Marquis of Lansdowne), Secretary of State for the Colonies. During this visit, Governor Parr whose presence was attended by a succession of festivities on ship land and shore, appointed several magistrates. In one important matter the inhabitants were disappointed. They had set their hearts upon the incorporation of their projected city. These agents had been instructed to press the point with all earnestness, but from the Governor now on the ground, they could obtain no satisfaction. Soon after his return to Halifax, the Governor, in a letter to Lord North, expressed an opinion that the people of Shelburne, the number of whom exceeded five thousand, would soon prove a happy and prosperous community.

"While these five thousand exiles, suddenly set down among rocks and stumps, were striving to make the best of their new and peculiar position, they were sorely perplexed by the arrival of five thousand others, many of whom they regarded as unwelcome neighbors. Whatever trials the earlier exiles had had to endure, their position had been preferable to that of friends who had remained behind. In August, 1783, Sir Guy Carleton wrote to Washington that the distress of the articles of peace shown by the newspapers, and by threats from committees formed in various towns, and even in Philadelphia, where the Congress was in session, was such that he was obliged by his relation to his government, and by humanity itself, to remove all who should wish to be removed. In September, 1783, a large fleet with Loyalists and disbanded soldiers—8,000 in all—left New York for St. John and Shelburne. One of the vessels bound for St. John was wrecked on a ledge near Cape Sable, with the loss of nine lives, but all the vessels due at Shelburne reached their destination in safety.

"The sudden arrival of 8,000 persons in a settlement where 5,000 previously on the ground could scarcely be numbered, was a serious event, especially near the end of September, in the emergency of the government. For some time, two new divisions were run out on the reservations intended for the north and south commons, and the long streets parallel with Water Street were increased to the number of eleven. As early as November 11th, the citizens in the autumn spent the winter on the vessels at the cove, and some had a tent as their only shelter. For some time, at Shelburne, the winter was one of unusual mildness, and therefore much more satisfactory to the settlers here than to their fellow exiles in New Brunswick. Many of the Loyalists at St. John spent the winter in log houses, back camps and tents, and a number of persons died through exposure. At Fredericton, the winter was more severe. Women delicately reared, cared for their infants beneath a canopy of snow which lay six feet deep in the open spaces of the forests. Men accustomed to look toward the sun, toward a future which seemed hopeless, and, as one said who had passed through those dreadful days: "Strong proud men wept like children, and lay down in their snow-bound tents to die." At that place, too, the survivors are said to have narrowly escaped starvation, through the non-arrival of supplies before the closing of navigation. At Shelburne, throughout that winter, rations were issued by the agents of the British government to between nine and ten thousand persons.

"During the succeeding Spring other lands were laid out and allotted, but the growth of the proposed city was retarded by several causes. In many cases the lots drawn were ill-suited to the business of the owners, and proper sites could only be obtained by exchange or purchase at the expense of delay. With all the effort practicable, it was not possible to secure a sufficient number of workmen nor a satisfactory supply of building materials.

"One is startled by learning from these old records what trifling crimes were followed by the penalty of death. Shannon and Doyle, for stealing some money from a vessel at Sandy Point, in 1784; Britain Murray, for an attempted theft, which secured a fine; and John Murray, for a robbery at Tuguek, and one whose name unknown, suffered death by hanging, at Shelburne. In pronouncing sentence of death on these poor wretches, Shelburne magistrates were acting quite within the lines of British law. English judges were then obliged to pass

Obelisk Liar By The Clock; Caesar Blamed

(New York Tribune.) This is about the obelisk in Central Park, Augustus Caesar, Moses B. Cotworth—and a crab; not the soft-shell crab, but the best of the Egyptian granite species, used for an obelisk to sit on.

He determined to make a complete investigation, so yesterday he went to the obelisk in the current Alexander Gallatin and took up the matter with a park engineer. The latter got out a large plot of the obelisk and the territory surrounding it. According to Mr. Cotworth, both he and the engineer, by independent figuring, arrived at the conclusion that the obelisk, in its park setting, had been oriented at 2 degrees clockwise from true North, accounting for the monument's perpetual prevarication as a time piece.

"As most persons do not know, all obelisks have bases rounded on the bottom, to aid in the work of setting them up. The base is locked into the setting by four supports, one under each corner. Inscriptions on the obelisk I inspected showed that the obelisk was first erected in Helios month, 1801 and 1805 B. C.

"According to the second crab, the obelisk was removed from Heliopolis to Alexandria in 22 B. C. by the Romans, set up in Alexandria as a part of the imperial celebration of the Roman subjugation of the Egyptians.

"I am convinced that in the transporting of the obelisk to this country, the engineers in charge were scrupulously careful to follow its exact mathematical setting up in Alexandria. This would place the blame for the faulty orientation squarely on the shoulders of Augustus Caesar, and I investigate further, that is the case. It appears to be merely a perpetuation of his error."

Mr. Cotworth said that he hates Augustus on principle, anyway, since he was the one who gammed up the present calendar by getting an extra day tacked onto August, his birth month, because the Romans believed months having an even number of days were unlucky.

ST. LUKE'S CHOIR ENTERTAINED

The members of the choir of St. Luke's church were entertained at a complimentary dinner at Bonds last night by the members of the music committee. There were sixty present and the dinner was a pleasant social occasion. Lester W. Mowry, the chairman of the music committee, presided at the banquet and proposed the toast to the King. To honor this toast, the National Anthem was sung. Willard A. Smith proposed the toast to the church and Rev. E. P. Wright replied. The toast to the choir was proposed by H. Usher Miller and replied to by H. W. Bromfield, the choir leader. The senior warden, W. F. Cronk, in a short address and speaking on behalf of the congregation of the church, expressed deep appreciation of the excellent service rendered by the choir. A musical programme followed and solos were sung by Miss Besse Chittick, W. A. Smith, Mrs. L. Waters, Miss Mary Philbrick, C. A. Munro and Mrs. H. Usher Miller. Piano selections were given by Mr. McLean and a general sing-song was indulged in. The banquet was a pronounced success and heartily enjoyed.

COUPE TO SAIL TODAY

New York, Feb. 10.—Emile Coue sails for home on the White Star liner Olympic today and he will take with him seven new trunks filled with letters and souvenirs accumulated since his arrival in this country. In a message to Lee Keechick, manager of his tour, Coue said: "As in France and England, the clergy of the United States have seen I carry on my work without coupling it with any particular religion. They have also seen that I do not make light

HEARS OF \$2,000,000 LEGACY

New York, Feb. 10.—A \$2,000,000 windfall is announced by Joseph A. Coons of 1475 Grand Concourse, the Bronx, who said that a forgotten uncle had left him that amount in his will.

Word of the inheritance came by registered letter from Budapest, Hungary, said Harry Segal, Mr. Coon's secretary. It reported that Mr. Coon's uncle, Jacob Coon, a grain dealer at Buenos Aires, died two months ago and left the bulk of his fortune to his nephew here. Mr. Coon never had seen the uncle who left Budapest in 1860. The uncle did not know Coons had emigrated to this country, and the message telling of the bequest were forwarded to Budapest and then relayed here. Mr. Coon was described as a general broker at 146 West Forty-first Street, but inquiry there yesterday failed to find him.

No milk this morning!

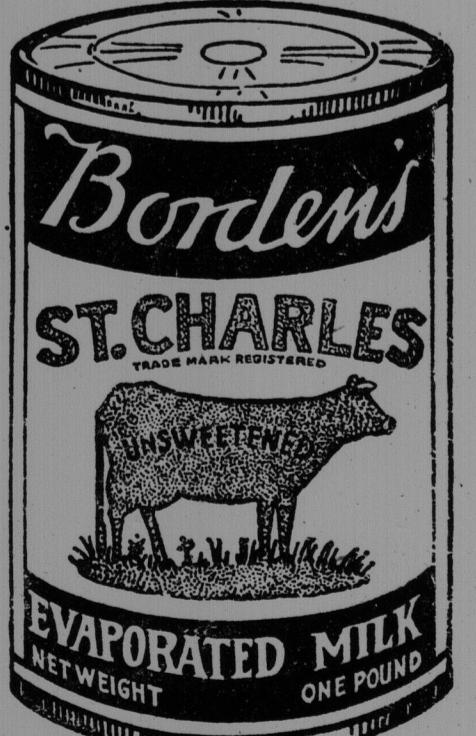

KING Winter holds a shivering world in his icy grip! And the Milkman is out there—somewhere. But he'll not get through those snowbound streets for hours and hours—and then the milk will be frozen!

LOCAL NEWS

IS POSTPONED.

The meeting of the Civic Hydro Commission which was to have been held this afternoon has been postponed until the first of the week.

AMICABLY ARRANGED.

The difficulties of two families residing in Acadia street were aired in the police court this morning, but when the air had cleared it was distasteful to complain that the matter be dropped. Acting on this suggestion, the affair was settled out of court.

MADE TRAIN LATE.

The engine on the Montreal train broke down at Westfield Beach today while en route to this city, and another engine had to be sent to bring the train, arriving about an hour and a half behind schedule time.

BIG GRAIN BUSINESS.

So far this season the Canadian Pacific Railway has shipped 10,639,000 bushels of grain from the elevators in West St. John. From all indications the shipments this season will greatly exceed those of last year, when only 11,490,000 bushels were sent forward to various destinations.

SENATOR THORNE WON IT.

The drawing for an oil painting which has been exhibited in the Royal Hotel window took place yesterday at the office of Geo. W. Parker. He and Alfred Morrey composed the committee. Tickets No. 16, 21, 25, 29, 30, 46, 48, 50 and 53 won \$5 each. Ticket No. 22, held by Senator W. H. Thorne, drew the oil painting.

FRANK GARNETT'S TROPHIES.

A fine array of cups and medals won by Frank Garnett during his skating career to date is on exhibition in E. F. Colgan's drug store, Waterloo street, and is attracting much attention. There are also some first class pictures of the boys in action at Lake Placid, which were forwarded to Garnett by some of his friends on the circuit.

BAPTIST M. W. UNION.

The executive of the United Women's Baptist Missionary Union of the Maritime Provinces concluded their session in the Main street Baptist church yesterday afternoon. The executive adjourned to meet again in May. Most business of a routine nature was transacted during the session here. The outside members have practically all left for their homes.

PANTRY SALE.

St. Monica's Guild of the Mission Church, St. John Baptist, held a very successful pantry sale in the lobby of the Imperial Theatre this morning. A very tempting array of home cooking and candy proved a ready sale. A considerable fund was raised, which will go towards the placing of a hardwood floor in the church of the Holy Mother. Mrs. J. Carleton Lee, president of the guild, was convener, and she was assisted by willing workers.

THIS IS LAST NIGHT.

E. M. Olive, chairman of the board of assessors, said this morning that statements of incomes were coming in fast today, though in the lobby of the hotel, more up to last year. He said people were getting educated up to the idea, and each year the thing was being out more satisfactorily. The period in which statements may be filed ends at nine o'clock today, though statements mailed today will be received on Monday.

BOARD OF HEALTH FIGURES.

At the office of the Board of Health this week there were reported six marriages and nineteen births—eleven boys and eight girls. Nineteen deaths were reported from the following causes: pneumonia, tuberculosis, cancer, Bright's disease, gastric cancer, intestinal obstruction, interlobular hemorrhage, tuberculous tumor of chest wall, pericardial aneurysm, congenital hypertrophic stenosis of pylorus, one each.

GOING TO ENGLAND.

The Canadian Pacific steamship Melita will sail this evening for Cherbourg, Southampton and Hamburg with approximately 190 cabin and 150 third-class passengers. Among the cabin passengers will be Chief Justice J. S. Archibald, Montreal; Mrs. Bosworth, wife of G. M. Bosworth, chairman of the Canadian Pacific Steamships, Ltd.; C. E. Benjamin, traffic manager of the Canadian Pacific Steamships, Ltd.; and Mrs. Benjamin, John S. Letich, vice-president of the Collingwood Shipbuilding Company of Collingwood, Ont.; Mrs. R. J. Hooper of this city, and Mr. and Mrs. W. A. Black of Halifax.

RUNAWAY.

The delivery team of Anthony Brothers, milk dealers, came to grief at the head of King street a little before noon today when the horse took fright at the ice and the driver did his best to control the animal, but in the mix-up the sleigh became upset. As the horse was being unfastened from the delivery sleigh he bolted and broke loose. He ran along Charlotte and continued his mad dash, half harnessed, down Union, but was finally stopped at the head of Prince Edward street. The runaway caused considerable excitement in the up-down section, but fortunately the accident happened just before the usual noon time rush. No body was hurt and the horse was meekly lead back to the sleigh again.

MRS. JOHN M. TAYLOR.

A host of friends learned with regret of the death of Mrs. Alice M. Taylor, widow of John M. Taylor, which occurred yesterday at Hampton, at the age of seventy-four years. Mrs. Taylor had been in failing health for the last year. She was a daughter of Hartwell B. and Elizabeth Crosby of Maine. Her father was for some years in this city, a member of the contracting firm of Crosby & Smith, who executed some large contracts in and about St. John, and were well known in their business. Some years ago Mrs. Taylor was prominently connected with Trinity church in its various religious and philanthropic activities. She leaves two sons, Stanley H. Taylor of this city and Harold G. Taylor, with whom she made her home in Hampton. The funeral will be held in Hampton on Monday afternoon, the body brought to the city on the suburban train for interment in Fernhill.

Saw Large Meteor.

Godbout, Que., Feb. 10.—A very large meteor dropped here last night with a very loud explosion.

LOCAL NEWS

IN THE MARKET.

Dealers in the city market said this morning that money appeared to be very tight at present and that people were not buying the quality or quantity of goods they formerly did. Very little poultry was being sold. The prices of the various commodities were as follows:—Beef, 20 to 35c.; veal, 22 to 35c.; lamb, 20 to 40c.; pork, 25c.; ham, 30 to 35c.; bacon, 40 to 45c.; chicken, 40 to 50c.; fowl, 35 to 45c.; a pound; potatoes, 55c.; beets, carrots and parsnips, 50c.; turnips, 25c. a peck; radishes, lettuce and parsley, 6c. a bunch; celery, 80 to 40c. a head; cabbage, 20c. a head; butter, 40 to 50c. a pound; eggs, 50 to 80c. a dozen.

MIXED BOWLING.

In the Modern Bowling League on the Imperial Allys last night the N. B. Telephone Co.'s team took all four points from the team of the Corona Candy Co., as follows:—

ALL CALLED ON TO MAKE MEET ROUSING SUCCESS

Ladies Begin Advance Sale of Lily Lake Tags

The Grand Stand Seats are Available at Salon—How They are Divided—Committee Hope for Hearty Backing of Their Efforts.

The sale of tags for the International Skating meet has been commenced by a body of workers from the Local Council of Women. The employees in the local stores, warehouses and other industries are being canvassed and the big drive will be made on Monday. Through the efforts of the meet all the roads and paths leading to Rockwood Park and Lily Lake will be dotted with workers to canvas the crowds on their way to see the skating.

The joint committee of the Rotary Club and Y. M. C. I. have done their work so efficiently in preparing for the big sporting event that everything is in readiness for the skaters. The only thing needing now is funds to make the affair as sound a success financially as it promises to be from every other standpoint.

This is in the hands of the people of St. John. The only source of revenue from the sale of tags and the grand stand accommodation and it is now for the St. John sport lovers and citizens in general to make this revenue sufficient to meet all the expenses and give a generous surplus to the charitable objects it is designed for. To do this everyone must help for the expenses this year are heavy and it will be necessary to take in a lot of fifty-cent pieces to make the credit side of the account outbalance the debit.

The new grandstand, a decided asset to the skating rink, has been a heavy item of cost. Then there are other very heavy items, including the expenses of the skaters, their trainers and assistants, the cost of laying out and keeping up the skating track and many other incidental, enough to make the need for a lot of money apparent.

The people of St. John, more especially to all the citizens interested in it, are, but really all the people, should be interested in making the skating rink a success. To all the citizens because it is their city which will benefit and they who will share in the benefits. To all citizens this fact should be apparent. To the hotels, commercial houses, places of entertainment and many other, the fact will be shown in a direct business increase while to the employees in these places and in allied concerns the results will be indirect but will be nevertheless sure. To the average citizen and to the community as a whole comes the greatest gain, that of a lasting advertisement throughout the length and breadth of the continent and the reputation of being a live sport city, ready to back up a great big event in a big way.

Last year the people of St. John hung up an excellent record for attendance at the Canadian National championships and showed themselves ready to back the stars of the world. By their hearty response to the call of the local sport stars, Charles Gorman and Frank Garnett, Willie Logan and others in the skating world and Hilton Belyea on the water, the people of St. John are rapidly reaching the stage where their city will not be any more noted for its champions than they will be worthy of note on account of the fair name of their home town.

The tags are selling for fifty cents each and each tag is equivalent to an entrance fee to the scene of activities for each of the three days sport. There will be a different form and color of tags for each of the three days of skating and it is hoped that great crowds will attend every day. Besides this the grandstand seats, enough outside of the rink to accommodate about 3,200 people, will be sold for fifty cents extra to tag holders. Each of these seats will give an unobstructed view of the whole track and will form a great improvement on the arrangements formerly made for the skating rink.

To accommodate about 800, is being sold out in three day reservations for \$5 a seat, good for the whole three days, tags included. Then there are boxes of six seats each at \$50 for the whole meet.

It is hoped by those in charge that the response of the people will be generous in the extreme and that the hopes of the committee for a nice balance will be fulfilled. The people of St. John are being appealed to to uphold the fair sporting name of their city which has bred so many champions. All seats are on sale at the Phonograph Salon, King Square.

SEEKS \$300,000 IN PROMISE SUIT

Portland Milliner Brings an Action Against Rich Realty Owner.

Portland, Me., Feb. 10.—A \$300,000 breach of promise suit has been instituted against David Shwartz, business man and real estate owner here, by Miss Veta Gerber, who is forty-five, exacted a promise of marriage from Miss Gerber Dec. 5, in this city, when the pretty milliner's allegation. The ceremony was to take place, she says, last month. In the interim Mrs. Gerber, she remained unmarried, despite her attractiveness and thirty years. But Jan. 2, according to her complaint, Shwartz refused to go through with the ceremony.

His attorneys say that Shwartz's two sons have entered into the affair, one threatening the father if he did marry, and the other threatening the girl if she did.

The defendant is a widower, is a director in eight local banks, and owns a large amount of valuable real estate. Miss Gerber will sit at her home in Portland, where she has lived since she was born in Russia and has been in this country for nearly ten years.

In her writ asking damages from the wealthy property owner, she alleges that she ran a profitable millinery business at the time that Shwartz is alleged to have proposed marriage. Assured, she alleges, that matrimony was near, she sold the business late in December. In the bill of sale, she says, was an agreement that she would not enter into the millinery business in this city for the next five years. Therefore, she now asserts that through this agreement and Shwartz's failure to carry out his alleged purpose of marriage she is deprived of a means of livelihood in Portland.

Pressed for a statement on the suit, Shwartz said, "I don't like publicity." He refused to make any other comment.

HARD FIGHT WITH THE ICE

The Canadian Government steamer Laurentian was unable to force her way through the ice in St. Andrew's harbor yesterday, and, as a result, the harbor will probably be closed until a thaw thins the ice sufficiently so that it can be broken.

The ice out of Black's Harbor yesterday and then proceeded to St. Andrew's, where she made two attempts to break through.

The Aberdeen is busy keeping Yarmouth clear. There is no ice here in this section except the Stanley, of the Halifax division, and she is busy keeping Louisbourg, Sydney, and Cape Breton harbors passable. More people every day are saying that the ice conditions in the bay are the worst they have ever seen.

Manitoba Has Large Deficit

Winnipeg, Feb. 10.—Manitoba's deficit for the fiscal year of 1922 was \$1,246,182.15, according to the public accounts tabled in the legislature by Hon. F. M. Black, provincial treasurer. Departmental estimates were expended by \$453,797.08. The appropriation for all government departments was \$8,846,119.81, while the total spent was \$8,404,822.73.

The deficit, the largest in the province's history, was brought about through failure of the government to collect revenue estimated. Practically every source shows a reduction from 1921. The total revenue earned by the province was \$7,148,140.08.

Pius Michaud For Co-operation To Save Forests

Ottawa, Feb. 10.—Co-operation between the Federal Government and the provinces for the preservation of the forest wealth of Canada is urged in the resolution to be brought before the House of Commons by Pius Michaud, Liberal M. P. for Restigouche and Madawaska.

APPEAL FOR FUNDS TO BUILD THE BASILICA

Quebec, Feb. 10.—An appeal for funds to reconstruct the Quebec basilica, destroyed by fire last December, will be made by His Eminence Cardinal Begin and Mr. LaFamme, parish priest of Notre Dame parish, on Sunday. The appeal will take the form of a pastoral letter which will be read in all the churches in the district. The appeal is being made to obtain \$500,000 including the insurance money.

MOTORS
And Their Care

Increased Mileage From Tires.
It is estimated that by careful driving a motorist can increase the mileage of tires more than 30 per cent.

Thoughtlessness Is Dangerous.
Never stop in the lane of travel to pick up or discharge passengers. Many accidents and rear-end collisions are caused in this way.

Care of Vibrator Points.
A way of reducing the wear on the coil vibrator points with battery ignition is periodically to reverse the direction of the current flow through the system.

For a Handy Tool.
To magnetize a screwdriver, for picking up screws, nuts, bolts and other metal objects from inaccessible places, hold it close to the dynamo for a few minutes until it is charged.

Be Thorough and Consistent.
Make sure that no oil holes or grease cups are overlooked. Study the oiling chart of a car carefully. There may be many working parts and other connections which are suffering from neglect.

An Emergency Patch.
Canvas makes an excellent substitute for a blow-out patch. Carry a piece large enough to extend outside, so that it will be caught and held by the rim. The size will depend on the size of the tire. Fold it double when using it. But do not neglect to use the tire sleeve as well.

Importance of Spring Clips.
The spring clips which hold the springs to the axle should be frequently inspected and tightened. A loose clip will cause a spring to break very quickly. A little oil and graphite injected between the spring leaves will also make the spring more flexible and prevent squeaks, due to rusting.

Consider Carefully.
When buying a new car it is valuable to consider the ease of handling and driving the machine. Note the convenience of the control pedals and brake and gear levers. A large person may find the pedals in the way, and the hands or knees may touch the dashboard or scrape the side of the body when changing gears or using the brakes, and the right arm may be uncomfortable.

Testing the Mixture.
If the mixture is suspected of being too rich, shut off the fuel in the tank and open the throttle. If the mixture passing into the cylinders is too rich, the engine speed will increase as the level of the gasoline in the float chamber is lowered, since the operation

RUSSIA'S FATE LIES IN HANDS OF PEASANTS

For First Time in History They Have Begun to Exercise Influence on Politics of Great Slav Nation.

(Savel Zimand in New York Tribune)

There are three roads which Russia can take in the future.

First, there is the road to out-and-out capitalism. It seems improbable that the Bolsheviks will take this road. They are too much determined on state ownership of basic industries.

The second is the road to communism. For the Bolsheviks have hope for a world revolution. And communism, the argue, cannot exist in a single nation alone.

The third is the road to state capitalism, with increasing attention paid to the wants of the village.

That is the road upon which the Bolsheviks are traveling at present, and that increasing attention paid to the village brings into the political life of the country the great majority of the Russian population, which until the revolution has kept aloof from politics.

Reform in Russia Must Help the Peasants.

Before following the third road the peasantry will gain tremendous influence in the country, and any reform in Russia must carry their mark on it.

The most momentous power of the Russia of tomorrow will be its peasantry; they will play the most considerable role in the future shaping of the country. The revolution gave land to the peasants and the new economic policy gave them freedom of trade.

The old feudal conditions have been entirely wiped out. The Russian peasant has for the first time in history made out his own farm.

They may rent the land to those who can work it with their own means.

Government Helps With Agricultural Implements.

The government is devoting a great deal of attention now to the improvement of bad lands, and is making efforts to increase the number of agricultural implements in land cultivation.

It will be a long time before Russian agriculture is rebuilt and a long time before the Russian peasant will think more politically than he has in the past, but the revolution has brought this vital force of Russian life into the forefront. Nothing can prevent the peasantry from playing an important role in future Russian politics.

Today the peasants do not take an active political part in the life of the country, but when I was among them and asked what their feeling was toward the Bolsheviks, I usually received the following reply:

"We don't like the Bolsheviks. What power has given them the right to take possession of the country? But we don't want the Czar back, never, never. Now we have land and no war. But we don't like the Communists because they don't believe in God. We want land and peace, and the Bolsheviks have given us that. Perhaps it isn't a bad government after all."

Hope for Future Lies In Younger Generation.

It is hard to prophesy what this mass of people—so many of whom are illiterate—will do in the future. But all over Russia the peasant is giving great attention to his land and the younger generation is beginning to take interest in the politics of the country.

Politically the peasant is still apathetic. But the Russian town meeting which the Bolsheviks name "Soviets," has aroused some interest in politics in the army, which is composed now mostly of sons of laborers and peasants, and in which the peasant can rise to high rank.

The Bolshevik hope that with the development of industries the peasant will become more dependent upon the city and the cities less dependent upon the farmer.

Whether Russia can ever be brought up to become an industrial nation is still a question. The Russian word for whom I saw did not look like the industrial laborer familiar in America. Most of them spend a number of months every year on the farm. In fact, there seem to be more farmers than industrial workers.

But, no matter what happens to Russian industries, the improvement of the welfare of the farmer is what matters most for the near future. "With a few years of good harvests," an important director of an iron mill said to me, "our situation will improve. When the farmer needs our products more our industries will improve."

Hope Large Scale Farming Will Help New Psychology.

The Bolshevik rulers are interested now in introducing large scale methods of farming because, they reason, such methods will bring about a new social psychology in the village. On account of the closing of many factories many workers returned to their villages and thus the industrial population of Russia was considerably reduced. Unless the industries are rebuilt and therefore give more employment to industrial workers, the government will be forced to make one compromise after another with the peasantry until Russia becomes merely a middle class peasant republic.

There are two important principles which, according to present indications, the Soviet government will never give up. The first is the nationalization of the land and the second is state ownership of basic industries.

With the nationalization of the land the Bolsheviks gained the support of the peasantry. In controlling the basic industries they are in a position to accommodate the peasants when necessary demands. Apart from those two principles they are ready to make many compromises.

I was seated in Carl Radek's study in the Kremlin. He was smoking heavy black cigars and between puffs asking questions about American newspapers and politics. "All the Americans who

THE QUALITY CIGARETTE

IMPERIAL TOBACCO COMPANY OF CANADA, LIMITED.

The World's Lowest Priced Quality Car

The selling price of any automobile is based on the cost of material, production, distribution and overhead. Large volume of sales greatly reduces all these costs.

The Chevrolet has so correctly gauged the present demand for a quality automobile providing transportation at the most economical cost, that its volume of sales has increased tremendously. It now occupies first place in sales of fully equipped quality automobiles.

Therefore it is possible for Chevrolet to establish the lowest price in the world for a quality automobile. Chevrolet is not merely the lowest priced

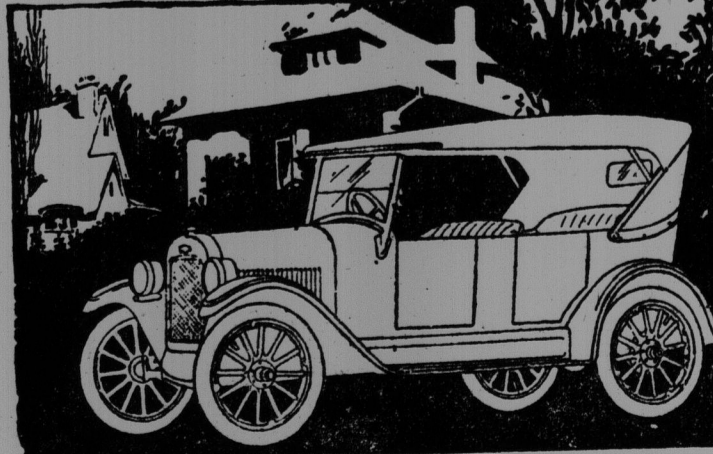

quality car, but it is the lowest of any car in the cost of operation.

See the new 1923 Chevrolet cars. They are marvels of value.

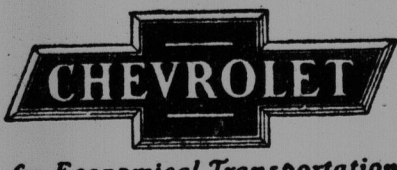

Prices are as follows: 2-passenger Roadster \$695; 5-passenger Touring \$710; 2-passenger Utility Coupe \$910; 5-passenger Touring \$1115; 5-passenger Sedan \$1125.

All prices f. o. b. Oshawa. Government taxes extra. Ask about the G. M. A. C. plan of deferred payments.

tragedy, "which threatens to destroy a boat and all the cargo, a man is used not to throw overboard a part of his treasures in order to save the whole. I will throw away part of my rights, but I will save my ship from disaster!"

The great hope of Russia is in peasantry. The Russian peasant is likely to contribute a new civilization to the world. He has in him eternal young strength. He expresses in all his work and suffering the enduring power of the Russian folk. In the past he did not feel the oppressive weight with which he was burdened, and at present he does not realize the possibilities of the freedom that has been given to him."

URGES FISH DIET.

The more extensive use of fish as a food was advocated on Monday by speakers at an inland shore dinner held at the Hotel Pennsylvania, New York, under the direction of the Department of Public Markets and the Middle Atlantic Fisheries Association.

Dr. Royal S. Copeland, United States senator-elect, said that fish could be substituted for all other kinds of meat every day in the year without any ill effects. Dr. Lyman Fiske, president of the Life Extension Institute, said that a liberal diet of fish was the surest road to good health.

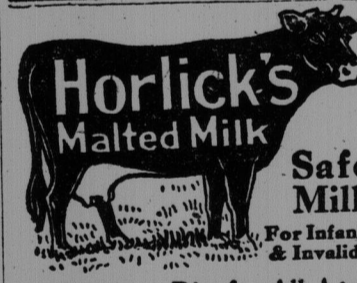

William Follows Morgan, Jr., president of the Middle Atlantic Fisheries Association, urged that fish be eaten at least twice a week.

SPECIAL-SIX SEDAN \$2950

Sterling quality of materials and the most skillful craftsmanship are reflected inside and out, in the appearance of the Special-Six Sedan, in its sturdy construction and in its equipment.

The handsome body, built by Studebaker, will last indefinitely. There is no makeshift or compromise embodied in its manufacture—the quality of Studebaker materials, workmanship and finish is never cheapened to meet a price.

Upholstery is of highest grade mohair velvet plush, laid over soft, restful, ten-inch cushions. Thick carpets are harmonious in tone. Fittings are complete in every respect.

No body combines a greater degree of luxury, enduring beauty and convenience. The Sturdy Special-Six chassis completes the satisfaction to be gained from the Sedan.

In year-round service, in town or country, the fifty-horsepower Special-Six motor furnishes an abundance of power—flexible, economical and dependable.

WANTED—Small heated flat, central; three adults—West 70. 8869-2-25

WHAT'S GOING IN THE MONEY AND STOCK MARKETS TODAY

U.S. TARIFF HITS THE SILVER FOX

Duty of 50 Per Cent Adversely Affects Buying for United States—European Sales Break.

(Montreal Gazette)

Yesterday's auctioning of the silver foxes had a particular significance, in that a tariff of fifty per cent duty has been imposed by the United States Government since last fall on the importation of these skins. Consequently, purchases for importation to the United States were much lower than in former years.

"Our European friends have come to the rescue, however," remarked R. S. Collier, vice-president of the Canadian Fur Auction Sales Company, yesterday afternoon. "A feature of the sales today is that Spanish buyers are taking large quantities with English, French and Belgian merchants, buying strong. The demand shows that Canada can market her furs readily notwithstanding the prohibitive duty recently placed on the silver foxes by the United States Government. A great many foreign buyers are present here purchasing them for other countries that the United States. Silver foxes are bringing from fifteen to twenty per cent higher prices than was accepted by the shippers. Frankly I think that the United States prohibitive duty in this regard is acting as a boom, for they are losing out."

Daniel F. Meehan, of New York, large importer and exporter of furs, frankly admitted that he was buying large quantities of silver foxes for direct shipment from Canada to Paris, France, but with regard to United States markets, purchases were being restricted somewhat by the higher tariff.

U. S. Buying Less.

"We are buying what we think will go well in the states, though," confessed Mr. Meehan, "but we are buying less as a whole. The result will be a shortage in the country, and our silver foxes, as soon as the people realize that the law is here to stay, however, they will pay the increased prices, for the reason that the silver fox cannot be imported. It stands alone in being among the other fur skins, and the demand for it must be served."

"Then you think that the silver foxes will continue to be imported into the United States despite the fifty per cent duty?" Mr. Meehan was asked.

"Certainly," was the reply. "We will go right on. We have to submit to this duty the same way we have to submit to the prohibition law." Mr. Meehan added jokingly.

In the case of those people who wanted silver foxes in the United States and were not prepared to pay the extra prices occasioned by the duty, Mr. Meehan thought there might be an attempt to avoid the extra payments. They will come up here as tourists and buy their silver foxes in your stores and then return home with them over their shoulders. They will, of course, say that they had the furs when they came to Canada on the visit. This will possibly result in the Government instituting a registration service along the border; otherwise the law will be cheated."

Mr. Meehan admitted that the silver foxes desired could not be obtained in the United States. Except possibly in parts of the States of Maine, the fur of the foxes could not compare in the states to those in Canada. With the long Canadian winters the fur of the animals thickens more and reaches a beauty not attained in warmer climates.

Salt weighs from fifty to eighty pounds to the bushel.

FIRM AS STOCK MARKET OPENED

Southern Railway Advances to New High—Even Tone and Moderate Trading in Montreal.

New York, Feb. 10.—Opening prices on today's stock exchange were firm, early changes generally being small and unimportant. Southern Railway advanced 1-8 to 87 7/8, a new high record for the year and Marine Preferred opened a point higher. Good buying was noted in the sugar, motors and some of the dividend paying stocks. American Hide and Leather Preferred dropped a point.

Montreal, Feb. 10.—(10-80) — The market opened with an even tone today and trading during the first half hour was moderate. Slight fractional gains were registered in several of the leading issues. Lake of the Woods and Maurice Paper each gained one point, the former to 183 and the latter to 91. Smelters at 28 1/4 and Textile at 61 1/2 were up one quarter of a point as also was Quebec Railway at 31 1/2. All other stocks traded were flat. Preferred 1-2, Detroit 8-4, Breweries 1-4 and Spanish River common one full point. Landed 8-4, Steamships Preferred 1-2, Montreal, Cement, Montreal Paper and Steel Canada.

The Dollar.

New York, Feb. 10.—Sterling exchange throughout country. Demand rates for Great Britain 4.88 3/8; Italy 4.81 1/2; Germany 6.084; Canadian dollars 1-16 per cent discount.

SPORT NEWS OF A DAY; HOME AND ABROAD

BASEBALL. Scott Signs With Yanks at Old Salary. Boston, Feb. 10.—The New York Yankees apparently are not trimming salary bills to meet the demands of financing construction of their new grounds.

Cravath to Assist Fletcher. Philadelphia, Feb. 10.—Garry Cravath, one-time champion home-run hitter of the National League and former manager of the Philadelphia Athletics, has signed a contract as coach and assistant manager of the Philadelphia Athletics.

Yankees Sign Pitcher. New York, Feb. 10.—The signed contract of pitcher Albert Johnson, one of the rookiest pitchers of the Yankees, has arrived in the mail of Edward G. Harrow.

Frederickton High Wins. Frederickton, N. B., Feb. 10.—Frederickton defeated Robbsey Collegiate School in an interscholastic basketball game yesterday by 42 to 9.

To Ask For \$50,000. Toronto, Feb. 10.—(Canadian Press.)—Athletes of Canada, in common with those of other nations of North America, Europe and Australia, are hard at work in preparation for the eighth Olympic, to be held in Paris in 1924.

Since the annual meeting of the A. A. U. of C. in Montreal early in December the reorganization of the Canadian Olympic Committee on a national basis has been accomplished and much preliminary work has been done.

The question of financing the Canadian team is an all-important one and a representative committee from all sections of Canada will wait on Premier Mackenzie King and members of the Dominion Cabinet at an early date to ask that the Olympic grant be increased to \$50,000.

McGILL-TROJAN MATCH MONDAY. Crack University Basketball Team Coming—Miss St. John Will Attend Game.

Local basketball enthusiasts are eagerly waiting for the big McGill-Trojan game in St. Vincent's gymnasium on Monday evening.

The visiting team will arrive on the Montreal train on Monday noon accompanied by Manager Macle and Coach Van Wagner.

The demand for tickets for the Monday evening game has been so great that a second contest has been arranged for Tuesday afternoon in the Y. M. C. A. McGill is sending its best players to clash with the Trojans' Captain Manson, who is considered to be the best man on the college team.

This will give the spectators an excellent opportunity to see St. John's candidate for the Dominion title. A preliminary game between High school and the Y. M. C. A. will be somewhat of an attraction itself as it will be the first game between these teams this season.

The Trojans have not yet announced their line-up for the big games but their followers can make a pretty good guess.

DARTMOUTH COMING. Dartmouth is to play here against the St. John team on Monday evening. Dartmouth is said to be the fastest team in the Halifax City Hockey League and at present stands tied with two other teams for the league leadership.

Therefore the game Monday night will show the best St. John can produce pitted against the cream of Halifax hockey players.

MANY ENJOY BOYS' RACES. More than 500 spectators enjoyed the boys skating races on Hilton Belyea's rink yesterday afternoon when the first of a series for West St. John and Fair-

MATCH POSTPONED. The last match of the semi-final for possession of the President's trophy, which was to have been curled on this ice last evening, was postponed until Monday evening.

The game is between Skip A. J. Machum's rink and Skip S. W. Palmer's rink.

Rugby football originated in England in 1823. Hops grow about 400 pounds to the acre.
