Some Advance by French And British Last Night

Gain Made Between the Somme and Demuin; Haig's Men Secure Prisoners, Capture Machine Guns and Repulse Counter-Attack; Arrangements Made for Large American Force to Fight

London, April 2.—The general situation at the moment as described by Reuters' correspondent at British headquarters is that the main movement of fresh army troops and others that are moderately fresh continues to be toward the zone between the Somme and Mont Didier. North of the Somme the British have succeeded in stabilizing the line, at any rate, for the time being.

Paris, April 2.—French and British troops advanced last night between the Somme and Demuin, it is announced officially. Over most of the front between the Somme and the Oise the night was relatively calm. Heavy artillery fighting occurred at some points.

London, April 2.—The war office announces that in the sector between the Aves and Luce rivers yesterday the British took fifty prisoners. Thirteen machine guns were captured.

Near Hebutens the British made a successful attack, capturing machine guns and prisoners. A German counter-attack was repulsed.

British Army Headquarters in France, April 2.—(By the Associated Press)—The British yesterday stormed and a strongly held German position in a wood along the Luce river. When the enemy withdrew after sharp fighting he left the ground covered with his dead.

HIGHER SALARIES DROPPED FOR SOME CIVIC OFFICIALS

One Hundred Dollars Each Was Rule Established

ONE GETS TWO HUNDRED

Commissioner Russell Advocates Increase Wages for All Employees West Side Industry Will Get New Lease on Better Terms

A dozen or so of the city employees are expected as a result of action taken by the commission in committee this morning. A large part of the session was devoted to the consideration of salary increases, and nearly all those recommended were approved. Commissioner Russell urged that all city employees who were getting less than a living wage should be granted increases, but the council felt that lack of funds stood in the way of this generous programme.

As it was, the increases were limited to the cases recommended by the various commissioners for special consideration. The mayor expressed his willingness to pay for increases of not more than \$100 for officials getting not more than \$1,500, and this rule was adhered to, with one exception.

The mayor presided and all the commissioners were present. Commissioner Russell reported that, after consultation with the city solicitor, he was prepared to recommend the request of the Canada Nail and Wire Company for a new lease on the grounds provided that the city solicitor should draw the new lease and protect the city against the possibility of having to pay for filling in. The resolution was adopted. Commissioner Fisher dissenting on the grounds that the company should be required to furnish vouchers for all money spent for improvements.

Commissioner Russell also reported that the Dominion inspector of steamers had ordered the city to install 500 additional life belts on the ferry steamers at a cost of \$1.75 each. The matter was allowed to stand over until this afternoon when the commissioner will present to the council the government instructions.

In reply to a question by Commissioner Wigmore, Commissioner Russell said that no agreement has been reached with Kane & Ring regarding their claims on account of wharf construction in West St. John and that he was not prepared to report on the matter.

Regarding the lease of the west side lots for J. Fred Belyea, the commissioner also said that he was not prepared to report.

Salary Increases
The matter of salary increases was taken up and Commissioner Russell urged that the salaries or wages of all employees should be considered and increases given where it was found that men were not receiving enough to live on. He did not think the city should ask to work for \$1.75 and \$2 a day.

Commissioner Wigmore recommended increases as follows:—G. D. Martin, chief clerk, \$1,600 to \$1,700; S. A. Sewell, superintendent, \$1,200 to \$1,300; Alfred King, assistant superintendent, \$1,200 to \$1,300; George Ballantyne, draughtsman, \$900 to \$1,200.

Commissioner Fisher recommended P. W. Jenkins, chief clerk, \$1,175 to \$1,800; C. G. Price, superintendent, \$1,175 to \$1,900; D. A. Duffey, assistant to road engineer, \$830 to \$875 a day.

Commissioner McLellan recommended an increase for Beverly Stevens, chief clerk, from \$1,200 to \$1,400.

Commissioner Russell made a general claim for increases for all the employees in his department.

The mayor laid down as his policy a willingness to vote for increases of \$100 (Continued on page 2, seventh column.)

MEANT TO TAKE ARRAS AND VIMY

German Attack Brought Them Only Great Losses

OUR GUNNERS CHECKED THEM

Enemy Lost Heavily in All Day Fighting on March 28 and Object Failed Through Careful Plans Had Been Laid

British Army Headquarters in France, Monday, April 1.—(By the Associated Press)—The German attack along the Scarpe river on March 28 had as its objective the city of Arras and the formidable Vimy Ridge. Careful plans were laid to meet this ambition and the attack was supported by a very heavy assault south and southwest of Arras, units of at least seven German divisions being employed here. It may be seen, therefore, that the German plans were far-reaching, but the main result they achieved was to swell the already great total of their casualties.

At about 3 o'clock on the morning of the 28th German artillery of all calibres opened a terrific bombardment against the British positions. It was obvious the enemy intended to attack and at 6.40 o'clock the British gunners unleashed an avalanche of steel against every known place of assembly the Germans might be using.

A little after 7 o'clock the enemy advanced. They came forward slowly and deliberately in full marching order. Each infantryman carried rations for six days, two blankets and an extra pair of boots, indicating that the attack was in deadly earnest. The company commanders were mounted and the infantry was followed closely by the artillery.

The German advance was checked by the British machine gunners and the British tanks. The German attack was repulsed and the British positions were strengthened.

South of the Scarpe the Germans were held up for a time by a division which had been engaged against them for the previous week. After the first day of the fighting they were somewhat later and were compelled to fall back behind Neuville-Vitasse on account of pressure to the south.

Paris, April 2.—Four persons were killed and nine wounded yesterday by shells fired by the long range German cannon.

AMERICANS ARE GOING IN
London, April 2.—An official announcement issued here last night says: "Our observation balloons and air-planes were active on Sunday, good visibility enabling the former to carry out useful work in conjunction with the artillery. The activity of our air-planes was chiefly centred south of the Somme. A close watch was kept on enemy movements in this area and large columns of hostile troops or transports were bombed and engaged in machine gun fire."

"Very little fighting occurred in the air. Two hostile machines were shot down; another was driven to the earth out of control. Four of our machines are missing."

"Four British machines previously reported missing have since returned to their units. Night flying was impossible until after midnight, owing to low clouds. From midnight until dawn, however, our bombing machines were constantly at work, twenty-four tons of projectiles being dropped on railway stations at Douai, Cambrai, Bapaume, Roisieres, Thourout and docks at Bruges. Troops and transports in the neighbourhood of Bapaume and Chaulnes were also attacked with bombs and machine gun fire. All our machines returned safely."

TO DEATH UNDER COURT MARTIAL

Constantine's Emissaries to Arrange Spy System in Greece Pay the Penalty

Athens, Saturday, Mar. 30.—Lieutenants Calamaras and Hodojopoulos, who came to Greece recently on a German submarine as agents of the former king, Constantine, were condemned to death by a court martial and the sentence was carried out today. Their lawyer, M. Constantinou, also received the death sentence.

The two officers, after receiving instructions at Zurich, Berlin and Vienna came to Greece on a secret submarine from Pola with a letter from former King Constantine and plans to arrange a system of espionage and to establish a naval base at Salonika was interrupted in the matter. A sister of Lieut. Calamaras was sentenced to life imprisonment and a peasant was given fifteen years for harboring the officers.

A royal court martial has been directed to prosecute Captain Pappagopoulos, former aide de camp to King Constantine, who is said to have arranged for the visit of the lieutenants, and Kolidas Capachief, who also aided in their plans.

Paris, April 2.—An air raid warning was sounded at 8.15 o'clock this morning. Anti-aircraft guns began to fire immediately and a continuous curtain of fire was placed around the capital. At 8.25 it was announced that all danger was over. The night was calm and the moon gleamed fitfully through the light and fleecy clouds, amidst which glided the twinkling lights of the French airplanes defending Paris.

PARIS THREATENED WITH AIR RAID THIS MORNING

There was much suppressed excitement around the house of commons this morning over the Quebec developments. The members who have returned to participate in the resumed deliberations of the house this afternoon anticipate a statement from the premier.

It is understood that an effort is being made to confine discussion to a moderate and deliberate review of the events of the last few days, members fully realizing that it is time when calm councils should prevail. It is said to be not unlikely that some opposition members will express the opinion, should an opportunity arise, that the situation at Quebec could have been handled without the use of military forces and that may urge the withdrawal of the soldiers as the best cure for the serious situation that has developed.

GIVE UP IDEA OF SECOND TRIP AFTER THE SEALS

St. Johns, Nfld., April 2.—Owners of Newfoundland sealing steamers today virtually abandoned plans for sending the Sealers to the icebergs and the hunting grounds because of reports of stormy weather brought in by the latest arrivals. Wharf laborers landing the cargoes returned to work today after striking yesterday for higher wages. The laborers demanded a forty per cent increase, but accepted twenty-five per cent. The recent arrivals were the steamer Thetis with 22,000 young seals; Terranova, 25,000, and Diana, 20,000.

Dullest Morn in Months ON THE NEW YORK EXCHANGE

New York, April 2.—(Wall street 10.30 a. m.)—Early dealings on the stock exchange today were unusually unexciting, many active issues remaining untraded in the first half hour. Last night and it is thought by the military that with the men returning to work the tendency to get together will be diminished. However, no relaxation of the stern methods which the military have inaugurated to crush the rioting will be seen.

So far the killed and wounded appear to be innocent citizens who were not connected with the disturbances in any way. The soldiers used every care to protect the lives of citizens, but with thousands of people in the region where the sniping was being carried out they could not fire without a chance of hitting some innocent person.

The soldiers behaved with quiet courage and calmness. The most of the men have been with the colors only a few weeks and their behavior under the sniping was exemplary. As they stood out in the open streets under the strong electric light they provided an excellent target to be conflicting and the cause of the accident has yet to be determined.

Montreal, April 2.—This is civic election day in Montreal, and voting is taking place for mayor and several aldermen. The majority candidates are Mayor Mederic Martin and a member of the old board of control, Joseph Ainey, who has the support of the reform element. The indications this morning were that a light vote would be brought out and this will militate against the candidature of Ainey, who is depending upon the support of the English-speaking portion of the population. The Quebec disturbances are also believed to be having a direct bearing upon the contest. The result will not be known until late tonight.

There are contest in eleven aldermanic wards. The candidates include a former speaker of the federal house, Hon. Charles Marcl, the board of control was abolished by the recent legislation passed in the Quebec legislature for a commission to administer the affairs of Montreal for a term of years.

Five Killed In Quebec Fighting

All Civilians; Fifteen Citizens and Five Soldiers Hit by Snipers' Bullets or Machine Gun Fire; Arrests Number Sixty-Two

Quebec, April 2.—The question of what disposition should be made of sixty-two men arrested by the military authorities during last night's rioting was considered today by General Lessard, Inspector-general of Canada, in charge of the administration of law and order in Quebec, in consultation with the law officers of the city. The military were anxious that, as the men were arrested under the criminal code and the clause relating to rioting, they should be dealt with under the ordinary provisions of the law. They were afraid, however, that if the men came up before a jury, sympathy for them would be so great that they would all be acquitted. The military felt that an example should be made of those participating in unlawful assemblies.

The introduction of martial law and the trial of the men by a military court was the alternative to the civil method, but the first method was preferred if it would secure the ends aimed at.

This morning doctors reading in the vicinity of the rioting last night reported to the police fifteen cases of wounded. They were all people hit in the streets by snipers or by bullets fired by soldiers in return. It was said by the authorities that probably some wounded men were treated privately at home as they were not anxious to let the military know that they were present at an illegal gathering and thus run the chance of arrest.

In order to assist the military to keep the streets clear and to keep people indoors and out of danger from wild shooting and rioting, meetings scheduled for tonight have been cancelled. The military have posted proclamations warning people of their liability if they attend gatherings of an illegal character.

Today was still foggy in Quebec and the prospects were that weather favoring the operations of snipers would prevail tonight.

The body of an unknown man was found behind a fence near Jacques Cartier square. He had evidently been shot by machine gun fire as the body had several bullets in it.

For the countries in the fighting last night follows: Civilians dead, five; civilians wounded, fifteen; soldiers, five.

Coronel Jolicœur will tomorrow open an inquest into the cases of men killed last night.

Several St. Roche merchants today received letters signed "The Association of Liberty" warning them that their stores were in the danger zone and instructing them to take the goods out of their windows.

Ottawa, April 2.—The Quebec situation was again under discussion at a special meeting of the cabinet this morning. Lieut.-Colonel Machin, director of military service, who returned to Ottawa from Quebec today, has made a special report to the minister of justice. When he left Quebec, Colonel Machin says, Major-General Lessard had the situation well in hand. "The renewed outbreak last night," he said, "would indicate, however, that the disturbances were apparently more organized than was at first thought." Colonel Machin will leave for Quebec again this afternoon.

**SHOT STEP-FATHER
WHO BEAT MOTHER**
Youth Then Gave Himself up To
the Montreal Police

Montreal, April 2.—"I have just killed a man," said George G. Haas, a twenty year old alien, as he stepped into the West St. Catherine street police station, accompanied by his mother, and laid a revolver on Lieut. J. Corbett's desk. The mother was bruised and bleeding from fistings administered by her husband, stepfather of George, and George explained that it was because his step-father had frequently beaten his mother that he tried to kill him.

The wounded man was found in the kitchen at home, 64 St. Luke street, with three wounds from the step-father's revolver. He was taken to the Western hospital, where his condition is regarded as serious. The young man was taken into custody.

SEE NO LABEL IN IT
Case Against Sir William Reid of Newfoundland Fails

St. Johns, Nfld., April 2.—An indictment charging Sir William Reid, former president of the Reid-Newfoundland Railways, with criminal libel was dismissed by the grand jury. The charge was brought by Hon. Wm. Coaker, a member of the present government and president of the Fishermen's Protective Union.

Mr. Coaker instituted proceedings as a result of the publication of a letter from Sir William to Lord Shaughnessy in Montreal, stating that Coaker had taken part in discussions with political leaders on a plan to bring about confederation of the colony with the Dominion of Canada. Sir William was arrested on the charge on January 12.

The jury held today that the publication of the letter did not constitute libel.

IN MEMORIAM

Lines written to the memory of the late Lieut. Gordon Tufts, killed in action, 1917, Somewhere in France:

Beneath a wooden cross somewhere in France, a hero lies, And hid from mortal eyes and care, And hid from mortal eyes.

His aim in life was not to seek The eminence great men attain; He sought to help the lowly weak And place them on a higher plane.

A man, a comrade, and a friend— None worthier a higher place; A patriot seeking to defend The aims and ideals of our race.

When duty called he did not lag Behind to reckon what the cost, But proudly went to serve the flag, He honored, loved and cherished most.

Far, far, from Canada's fair strand, Across the ocean tide, far from home, He bravely fought for his homeland And for its nobly died.

No greater sacrifice there is Than his who for his country dies; And such a sacrifice was his Who in a soldier's grave now lies.

So passed this man, beloved by all, So upright, true, sincere; His honored name we'll oft recall— His memory never.

then scored while Doyle was being tried at first base. Rube Benton and Cecil Causey did the pitching for the Giants, and allowed five hits, four of which were made by the Detroit players. Donie Bush had a great day, knocking out two doubles and a single, and drawing a base on balls. He also gave a tidy exhibition of fielding, handling ten of his eleven chances. James also got a hit. Causey did some fine pitching, allowing only two hits in six innings. It looks as though he will be retained. Benny Kniff was left in Maclin, as he has a heel bruised, but he will be picked up with the members of the piling staff tonight as the team passes back through Maclin on its way to San Antonio.

Dandruff Surely Destroys the Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will steal your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it. You will find, too, that all itching and itching of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

Labor and Capital Announce Plan Adopted for Mediation of All Disputes—Umpire's Decision Final

Washington, April 2—A comprehensive programme for the settlement of disputes between labor and capital by the adoption of national war labor laws would be averted and production kept at a maximum during the period of the war, has been submitted to William B. Wilson, secretary of labor, by the War Labor Conference, which has been in session here several weeks. It is believed that Mr. Wilson will approve the recommendations and that the machinery necessary to carry out the plan will be created within a short time. One of the most important recommendations contained in the report places in the hands of an umpire power to make final decisions, from which there can be no appeal, when all other channels of conciliation have been exhausted. The umpire is to be selected either by the unanimous vote of a national war labor board, the creation of which is recommended in the report, or drawn by lot from a list of ten persons to be nominated by the president of the United States. The agreement to accept such a provision received the full approval of the five representatives of capital and five representatives of organized labor participating in the conference, the latter selected by the American Federation of Labor. Should the recommendations receive the approval of Secretary Wilson and the president and be put into effect, it is the general understanding that those who refuse to abide by the plan will be looked upon as outlaws and obstructionists.

Nujol the only Remedy to Help in Twenty Years

Mr. A. L. Raplee writes the following strong recommendation of Nujol after this effective remedy relieved him from chronic constipation.

NUJOL LABORATORIES, STANDARD OIL CO. (New Jersey), BAYONNE, N. J. Dear Sirs— I cannot speak too highly of Nujol. I had constipation for twenty years, and Nujol was the first remedy of all I have used to help. Yours truly, A. L. RAPLEE. Bluff, Utah.

NUJOL will relieve you of chronic constipation as it did Mr. Raplee. It makes no difference how long you have suffered, nor what remedies have failed to help you. Get the necessary relief by the use of Nujol, which helped Mr. Raplee when all other remedies were unsuccessful.

Nujol relieves in a gentle, effective way, without griping or unpleasant reaction. It contains no drug; does not artificially stimulate; and so aids the bowels to act naturally and regularly. Nujol is a safe remedy for the youngest child or the weakest invalid. Thousands now use Nujol instead of harmful pills and salts. Try it yourself and be "regular as clockwork."

STOP WALKING ON THE SIDE OF YOUR HEEL

It looks very bad—besides it is expensive and uncomfortable. You can save your repair bills for straightening heels if you wear a pair of Dr. Scholl's "Walk Strate" Heel Pads in your shoes. These pads will make you set your feet down straight when walking, yet are always comfortable.

Ask your Shoe Dealer for "Scholl's Walk Strate Heel Pads"—25c per pair.

"Twin Beds At 3 A. M." and Other Good Acts Delight All At Gem

Sterling Programme Scores Hit in Music and Monologue, Skill and Fun in Picture

SCENE FROM "TWIN BEDS AT 3 A. M."

There's a swing and there's a dash to the Gem's programme under its new policy this week that make the offering one of the best of entertainments. Four good acts of vaudeville and an attractive picture go to make up a bill that is hard to beat. And the patrons are enjoying it, as the rattling laughter and hearty applause at each performance demonstrate.

Jessie Parker & Co. are scoring a big hit in "Twin Beds at 3 a. m." It's a snappy one act sketch. There they are, the twin brass beds on the stage and the occupants a young couple. They close an unearthly hour for a quarrel, which is born of suspicion of the wife for her husband's reticence of life. He is very much worried till Mrs. Turner's baby, that does not exist, is seen in the offing. The little wife's out-for-a-time fallings are disclosed. But all the time there's fun that has the house happy with laughter. The title gives a hint at the act, but you'll have to see it to enjoy it. It is going big.

The Nicos, man and woman, present a spectacular juggling act. There are many features new to such performances here and the man's work is clean-cut and clever. In all a superior act. Dan Gracey is a sprightly dancer, a rollicking story teller and sings good songs. His is an Irish monologue of the old school. His "Shore Line" stories are well told. There's lots of laughs while Dan performs.

The Rag Time Trio is composed of three youths who play well on mandolin, violin, guitar and banjo. It's good wagg and very pleasing. In all the vaudeville provides a clay entertainment with every feature good. The picture was "Her Circus Knight," a ripping two-reel comedy. A new picture will be shown tonight and for the rest of the run, Wm. S. Hart in "The Last Card." The present vaudeville will continue until including Thursday night, with all new on Friday afternoon.

The Dramatic Mirror, a well-known theatrical weekly and motion picture weekly, was sold this week to the United Publishers' Corporation of 289 West Thirty-ninth street, New York, which publishes a variety of trade journals. The Mirror has been owned by the Dramatic Mirror Company, of which Harry A. Wilson was president and Lyman O. Fluke, secretary. It is announced that there will be no change in policy.

When the prime minister, David Lloyd George, suddenly appeared on the floor just before the close with an important looking document in his hand. Instantly, members began to speculate as to what might be the subject of the announcement he was to make. The premier started talking confidentially with one of the under-secretaries so soon as he had taken his seat on the treasury bench, and it was immediately inferred by observers that the subject was military, possibly the military situation in England, or some development on the fighting fronts. Other members noticed that Lloyd George was in good spirits and began whispering about the likelihood of a great victory somewhere, or perhaps good news from the Irish convention.

Parliament Asked for \$125,000 for Widow of Gallant Commander at Kut and Bagdad. London, Mar. 2.—(Correspondence of the Associated Press)—There was a stir in the House of Commons the other day when the prime minister, David Lloyd George, announced that he had received a request from the widow of General Frederick Stanley Maude, who commanded the British expedition that captured Kut and Bagdad. The general, after a wonderful career of victory, died a poor man, leaving hardly more than enough to pay his funeral expenses. The king's request was referred to its proper committee and it is expected that the grant will, in due course, be made.

ELECTION CARDS

To the Electors of the City of St. John. This is to advise you that I will be a candidate for Commissioner of the City of St. John at the election to be held April 8th. To the Electors of the City of Saint John:

Ladies and Gentlemen: Having already announced my candidature for City Commissioner, it but remains to make this formal intimation. Former United States Senator Towne Recommends Nuxated Iron. To All Who Feel the Need of Renewed Energy, Says That Henceforth He Shall Not Be Without It. Probably no remedy has ever met with more phenomenal success than Nuxated Iron—Over three million people annually are taking it in this country alone, to say nothing of the vast number who are using it in France, England, South America and other countries. It has been highly endorsed and used by Former United States Senators and Members of Congress; physicians who have been connected with well known hospitals have prescribed and recommended it; Monseigneur Namin, a prominent Clergyman recommends it to all. Former Health Commissioner, Wm. R. Kerr, of Chicago, says it ought to be used in every hospital and prescribed by every physician. Dr. A. J. Newman, late Police Surgeon of the City of Chicago, and former House Surgeon Jefferson Park Hospital, Chicago, says Nuxated Iron has proven through his own tests of it to exceed any preparation he has ever used for creating red blood, building up the nerves, strengthening the muscles and correcting digestive disorders.

What Senator Towne Says:— "As a member of Congress from New York, as a member of Congress and Senator from Minnesota, as participant in political campaigns and candidate for Vice-President my nervous energy and reserve force were tremendously drawn upon. That I survived these trials and came into advanced middle life with the elasticity and strength of a boy is unquestionably due to the rigorous attention I have paid to the proper care of my body. Recently I have been taking Nuxated Iron and have found it of the greatest benefit as a tonic and regenerative." Former United States Senator, Charles A. Towne, graduated from the University of Michigan, was twice elected member of the United States Congress, served in the United States Senate, nominated for Vice-President, takes Nuxated Iron, and says that henceforth he shall not be without it.

It is surprising how many people suffer from iron deficiency and do not know it. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers or nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking iron in the proper form. MANUFACTURERS NOTE: Nuxated Iron, which has been used by former United States Senator Charles A. Towne with such surprising results and which is prescribed and recommended above by physicians, is not a secret remedy, but one which is well known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser, or they will refund your money. It is dispensed in this city by Wasson's and all other druggists.

IMPERIAL SCORES MARKED SUCCESS IN "THE HONEYMOON"

Delightful Comedy With Exquisite Scenic Value as Well - Good Music

The gladsome Easter tide was ushered in at Imperial Theatre yesterday by a bill of pictures and music quite in keeping with the season and of exceptional brilliancy. Constance Talmadge was the bright particular star of the film feature, The Honeymoon; Miss Florence Gilmour sang that splendid number, Lo, Hear the Gentle Lark; Mr. and Mrs. Sydney Dewe entertained with one of their domestic comedies, while our old friends, Mutt and Jeff, made their bow to imperial patrons in animated cartoons.

The Honeymoon is a picture that elicited roars of laughter and its tangled and twisted plot everybody in ripples of excitement. The piece was so splendidly enacted by Miss Talmadge, Earle Foxe, Russell Bassett and a score of other well known players, that every detail of the story was brought out clearly. The groom in the story had the misfortune to marry a girl of desperately jealous tendencies and they had been married not less than a quarter of an hour when an innocent whispered remark to a pretty bridesmaid started a storm. Matters became complicated during the honeymoon when the groom came across a musical comedy star from whom his brother-in-law was trying to get release in the matter of an engagement to marry. The groom promised to "fix" this matter, but he came very nearly fixing his own happiness into the bargain.

Special mention should be made of Miss Gilmour's charming rendering of that favorite number, Lo, Hear the Gentle Lark—pretty appropriate to the advent of spring. It would be unfair to mention this little soprano and leave out Eugene Arnold, the Imperial's flutist, who so artistically accompanied her with bird-like notes with which this number is characterized.

"DAUGHTER OF THE GODS" MARVELOUS FILM SPECTACLE

Attraction at the Lyric a Stupendous One With Annette Kellerman in Chief Role

The great and growing gallery of American screen classics has been enriched by a new production, which ranks with the very best. Enthusiastic as this may sound, it is still far from anything like a full appreciation of "A Daughter of the Gods." The play with this singularly happy and strikingly appropriate title was presented to large gatherings at the Lyric Theatre last night.

Of all the great film spectacles now appealing to popular favor few will enjoy greater and longer popularity than "A Daughter of the Gods." To begin with, the subject is the most cheerful and the most charming of any of the big features. Every man, woman and child that goes to the theatre wants to be delighted and entertained first of all. Now, here is a spectacle which fills us with genuine wonder. No nursery with ever hushed into more attentive silence than the audience which followed the marvelous succession of scenes of supreme beauty unfolding themselves on the screen. One would as soon think of testing Grimm's fairy tales for syllogisms or dramatic sequence as applying ordinary standards to this clever and most delightful flattery of the human eye. No need for the title-builder to urge a return to the days of our childhood. The spirit of this happiest time in our lives grips us before the film is fairly under way. We are beguiled, we are bewitched, we lose the perception of time and we get back to the realities of life like one who is waking from a lovely dream.

Beauty is the keynote of the film. Beauty and symmetry of form, grace, suppleness, strength, glowing health, modesty are but single items in this catalogue of human beauty. Added to this are natural beauties which over-power the best of critics and knock his best epithets and adjectives into anticlimax. Even the colorful word-painting of such a master as Lafcadio Hearn could not translate into language the ineffable majesty of the scene and each division boasts of one or more star players. The Twentieth Century gave a very creditable account of itself some days ago when it met the champions of 1917, the Associated Franciscans, the game ended with a score of two to one.

But it is among the younger generation that football has taken a firmer hold. There are more than 500 colleges in Paris alone and every Sunday about 250 games are decided. It is estimated that more than 100,000 people see the games each Sunday.

Before the war the "Ligue de Football" association, composed of twelve clubs, played weekly games which were attended by numerous enthusiasts of the sport, but with the coming of the trench warfare, and owing to the close

KNOW THEM BY THE FRIENDS THEY MAKE WHY DODD'S KIDNEY PILLS HOLD THEIR POPULARITY.

Dame Clement Collins Tells Why She Recommends Them to Her Friends How They Have Made Their Reputation. Breche A Manon, Que., April 1.—(Special)—Among the many friends Dodd's Kidney Pills have made in this part of Quebec is Dame Clement Collins, a well-known resident of this place. "I received great relief from Dodd's Kidney Pills," is the reason she gives for always recommending Dodd's Kidney Pills to her friends, and she adds that a great deal of her health and vigor is due to the help she got from the great Canadian kidney remedy.

WHY Zam-Buk CURES ARE PERMANENT.

Zam-Buk gets to the seat of the trouble, destroys all germs (the cause of skin diseases and sores) and cures from the "root" up. Ordinary ointments, on the contrary, owing to their coarse ingredients, never get beneath the outer skin, so that the cure, if any, is only on the surface, and obviously can be only temporary.

There is a reason for Zam-Buk's unusual power of penetration. Unlike ordinary ointments (which contain a large proportion of coarse animal fat and poisonous mineral drugs) Zam-Buk is composed exclusively of herbal essences and vegetable oils. The highest scientific skill is used in the refining, concentrating and blending of these ingredients, and the result is a balm of the greatest possible power of penetration combined with unequalled germ-destroying, soothing and healing properties.

Zam-Buk is not only invaluable for such serious skin troubles as Eczema, Ringworm, Old Sores, Ulcers and Blood-poisoning, but is also best for Cuts, Burns, Scalds, and all skin injuries.

MILLION FOOTBALLS FOR TROOPS IN FRANCE

The War Has Given Great Impetus There to Britain's National Game Paris, Mar. 2.—(Correspondence of The Associated Press)—Football has made such wonderful strides since the beginning of the war that it bids fair to become as popular in France as it is in England. As it stands now it may already be looked upon as the national game of the French people before the outbreak of hostilities.

Mr. Mummie, the president of the Union of the French Societies of Athletic Sports, told the Associated Press that the soldiers have found the game invaluable in helping them to while away their days and to keep their bodies in better condition at the conclusion of the game than a leather covered ball would have been if subjected to the same usage.

MATHEWSON TO TRY COME-BACK WITH REDS

And if He Succeeds His Team Will Be Dangerous New York, Mar. 30.—Christy Mathewson is going to try a comeback, and take the word of those in the National League who have faced Christy—if that bird can really place himself on the pitcher's mound and go through half as many games as his best season a few years ago showed—the Reds will hardly remember having lost some good pitchers to the army.

THREE KILLED, FIVE WOUNDED IN QUEBEC

Riots Continued Last Night Led to Battle With Soldiers in City Streets—One Hundred Prisoners Taken The riotous faction in Quebec and the military forces which have taken over the policing of the city, clashed last evening in St. Roch's, the lower section of the city. As a result, three civilians were killed, five soldiers and two children were wounded and 100 men placed under arrest.

MORNING WAR CABLES

The repulse of the German assault between Lassigny and Mont Didier was the most severe blow that the enemy has suffered since the beginning of the offensive. Moreuil was recaptured by the French and Canadian soldiers charging together. Reports sent back by the French army leave no doubt but that the enemy suffered terribly and did not gain an inch of ground.

Tonsillitis, Sore Throat, Chest Colds, Can Be Cured Over Night

They Vanish Quickly if Nervine is Well Rubbed In When the throat tickles, when it hurts to draw a long breath, when you feel as if a knife were stuck in your side, it's time to draw out the congestion that will soon become pneumonia. An ordinary cough syrup has no chance at all—you require a powerful penetrating liniment. Nothing is known that possesses more merit in such cases than Nervine. Rub it liberally over the sides and chest—rub it in hard. The warm, soothing effect of Nervine will be apparent in five minutes. Nothing like it for quick relief—takes soreness out of the throat in one rubbing—breaks up the chest cold, draws out the inflammation, stops the cough quickly. Rub it on for rheumatism—it destroys the pain—drives it right away. Try it for stiff muscles—it works miracles in just a few cases. Give Nervine a chance on your neuralgia, prove it out for lumbago, see what it can do for sciatica. No pain-relieving remedy compares in power to cure with Nervine. Largest sale in Canada of any liniment for nearly forty years. The reason is plain, it satisfies every time. The large 25 cent family size bottle is very economical. Sold by dealers everywhere, or the Catarhosone Co., Kingston, Canada.

GOLF

Be Your Own Caddy.

Chicago, Mar. 28.—(Associated Press correspondence)—A plan for golfers to release caddies for farm work and contribute the usual caddy fees to war funds is under way, having been started by a coterie of Chicago men, headed by Perley H. Boone of the Calumet Country Club.

During the first year of America's participation in the war, golfers contributed thousands of dollars to the Red Cross, liberty loans and other war funds, used parts of hundreds of links for gardens and furnished many prominent players to the army and navy.

With the spring cry for youth to help on farms, the campaign to induce golfers to carry their own clubs has gained many supporters even although the golf season is several weeks away. As outlined in the prospectus of the campaign the golfer is invited to make his usual call at the desk of the caddy master; but instead of demanding a youth to big his clubs, he is to proffer fifty cents, the average fee for carrying eighteen holes, and request two thrift stamps. The purchase of the stamps is made secondary, however, as the main object of the campaign is to release the caddies for farms.

It is figured that there are about 1,000 golf clubs of first class size, whose average number of caddies daily is twenty-five each. This would make a total of 25,000 boys.

BASEBALL

Pitching Feats in American League.

Pitcher with highest percentage of victories—Babe Ruth, Boston, .678.

Pitcher with most victories—Eddie Plank, New York, 303.

Pitcher with most defeats—Eddie Plank, New York, 179.

Pitcher with most strike-outs—Walter Johnson, Washington, 827.

Pitcher with most bases on balls—Eddie Plank, New York, 997.

Pitcher with most shut outs—Walter Johnson, Washington, 73.

Pitcher with most one-hit games—Walter Johnson, Washington, three.

Bagby Signs Contract.

Cleveland, Mar. 30.—Pitcher James Bagby of the Cleveland American team, who has been a holdout, today signed his contract after reaching a satisfactory agreement with President James C. Dunn. Bagby leaves today for the training camp at New Orleans. With the exception of Pitcher Joe Boehling, another holdout, the Cleveland team is now complete.

Proud of Pitching Staff.

New York, Mar. 29.—Manager Barrow of the Red Sox insists that in Ruth, Bush, Leonard and Mays he has the strongest pitching staff in fast company. Barrow's opinion does not meet with approval in other big league cities. Chicago fans, for instance, say that the White Sox and Cubs equal the Red Sox on the mound, with Clifton, Faber, Russell and Williams working for Rowland and the Cubs relying on Alexander, Tyler, Vaughn and Douglas. The Giants seem to be in the running with Schupp, Benton, Selles, Peritt and Barnes, while the Washingtons, carrying Walter Johnson, Ayers, Harper and Shaw, must not be overlooked. The Cleveland, too, are entitled to much consideration, as Manager Fohl has S. Coveleske, Bagby, Morton, Groom and several others.

Ruth Robs Dodgers Again.

Little Rock, Ark., Mar. 30.—The Brooklyn Dodgers had a victory within their grasp today in the exhibition game with the Red Sox at Camp Pike, only to have it taken away from them by a smash by Babe Ruth, the slugging left-hander. His hit drove in the winning run in a ninth-inning rally, and Boston won by a score of 4 to 3.

The series now stands three games to one in favor of Boston, and in each of the three victories for the Hubbs Ruth has had to be derailed in the ninth. Both Dodgers and Red Sox did some home-run hitting. Each club was credited with two blows over the fence. Myers and Miller were authors of the circuit smashes for Brooklyn, when Agnew and Ruth delivered for Boston.

The defeat is charged to Dan Griner, who began to waver in the eighth inning and had to be derailed in the ninth. For the first five innings Babe Marquard was on the mound and Boston never threatened to score on him. He allowed only two hits and was going easy under a one-run lead when he retired at the close of the fifth.

Griner went along all right until the eighth, when Agnew and Ruth both made homers. In the next inning Griner lost his effectiveness. Hoblit singled, Whitman followed with a double down the right field foul line, which landed Hobby on third. Fisher hit for Evers and sent a short single into right field. Hobby scored on the hit and Whitman went to third.

THE RING.

Submit New Boxing Bill.

An effort to have amateur boxing bouts where an admission fee is charged legalized in New York has been instituted by Senator Robert R. Lawson, Republican, of Brooklyn, and Assemblyman Charles D. Donohue, Democrat, who introduced bills in the legislature at Albany providing for the promotion of the amateur ring sport, independent of the professional sport. The bill is an amendment to section 1710 of the penal code, which prohibits boxing where an admission fee is charged.

President Frederick W. Rubien of the Metropolitan Association of the A. A. U., with the assistance of the local organization's legislative committee, drafted the new bill. President Rubien declared that he was confident the bill would meet with the approval of both houses, and subsequently of Governor Whitman. The governor has several times declared favorably for the amateur sport, and this is taken to presage favorable action on the new bill.

Amateur boxing, since the repeal of the Frawley law, has increased in favor and has been promoted in a much larger scale. At all the local clubs, however, care has been taken to eliminate the admission fee, and in its place a voluntary form of subscription to one of a number of war relief funds has been made.

The proposed amendment to Section 1710 of the penal code, as follows: "This section shall not apply to boxing contests or exhibitions between amateurs of not more than four rounds of three minutes' duration each, with gloves not less than five ounces in weight, when such contests or exhibitions are regularly sanctioned by the Amateur Athletic Union or the Intercollegiate Association of Amateur Athletes of America."

With the score tied, the winning run on third, and a hit needed to win, a situation had been created which was made to order for Babe Ruth. Agnew had meantime forced Fisher when Ruth came up.

Manager Robinson decided not to trust Griner any longer, and called on Clarence Mitchell, the left-hander from Cincinnati. Ruth hit Mitchell's first offering on a line over Myers' head in center field, and scored Whitman with the winning run.

Brooklyn played better ball than in any game in the series. The hitting was almost perfect. For the first time the Dodgers out-hit Boston, making eleven to nine.

Miss Gulligan Wins Swim.

Detroit, Mar. 30.—Claire Gulligan of New York tonight won the National A. A. U. fifty-yard free style swim for women at the Detroit Athletic Club. Her time was 7:44 3/4. Olga Dornier of Philadelphia was second, Charlotte Boyle of New York was third, and Thelma Darcy of Indianapolis finished fourth.

New Paris Tax.

Paris, Mar. 6.—(Associated Press correspondence)—The tax commission of the municipal council of Paris has proposed the levying of a municipal war tax running from one and a quarter per cent to three and a half per cent of rentals. A man paying rent of the equivalent of \$200 a year, would pay the equivalent of \$2.50 tax. A thousand dollar a year apartment, of which there are a great many in Paris, would pay \$250.

This proposition is put forward in order to lighten the increases that must be made in taxes that the city levies on products in order to make up the deficit in the city finances.

Kalamazoo factories saved their machinery from damage during recent floods by operating huge pumps.

THE FOLLINGS CASE

In his evidence yesterday in the police court in the case against Carl Follings, charged with embezzlement from F. W. Daniel & Company, Limited, Mr. Daniel testified that he had never given Follings liberty to endorse checks but gave him authority to accept drafts while he (Mr. Daniel) was away and advised the bank to that effect.

BIRTHDAY PARTY.

BEFORE MAGISTRATE ADAMS.

Magistrate Adams held court yesterday morning at East St. John and a prisoner was brought before him charged with disturbing the peace and creating a disturbance near the county hospital on Sunday night at 9:30 o'clock. He was arrested by County Policeman Saunders. A fine of \$25 or three months in jail was struck.

NO NEW BRUNSWICKERS.

The passengers who arrived at West St. John yesterday afternoon on a transatlantic liner left in a special train at 8:30 o'clock. The train consisted of four sleepers, a dining and baggage car. The majority of the passengers were officers and soldiers returning home. The 2,900 packages of mail were taken later on the regular mail train. There were no new Brunswick soldiers among the passengers.

THE WAR GARDENS.

The war gardens movement is not to be confined to the men of the city. The women are expected to assist, and such as are interested in the movement are requested to attend a public meeting in the court house when the War Gardens Association will be organized and will hear an address from Thomas Adams of Ottawa, formerly manager of the Letchworth Gardens in England. F. A. Dikeman, chairman of the vacant lot committee, has received many assurances from owners of vacant lots. R. D. Paterson is chairman of the fertilizer committee. This committee will arrange for the supply of manure and is desirous of getting in touch with people having such. The whole movement is shaping up well and it only needs the hearty support of the public to make it a splendid success.

POLICE COURT.

Six men were brought before Magistrate Ritchie in the police court under the Military Service Act this morning and at the request of Lieut. W. Brown, who appeared for the military authorities, were allowed to go on suspended sentence to join the ranks of the depot battalion. They were: J. Moore, Arthur W. Northrup, George Scott, S. DeWolfe, Bliss Powell and C. F. Livingstone. J. A. Barry appeared for Northrup, who is only eighteen, and asked that he be allowed to enlist in the siege battery as he had enlisted two years ago when under age and it was largely through his father's persuasion that he left at that time. This was granted, and the six men were allowed to leave under an escort.

Two men were charged with drunkenness this morning, both being remanded. Peter Yapp pleaded guilty to being drunk and having liquor in his possession. He was remanded.

C. Bennett pleaded guilty to being drunk and finally to having liquor in his possession as well. Policeman Sheehan gave testimony. His honor adjourned Bennett where he got in.

A—I met a man in the street, stranger, Sir, and he gave it to me.

Q—Didn't you pay him for it?

A—No, sir, it didn't cost me a cent.

Magistrate—My, my, what a lot of benefactors there are in the world! The idea of telling a story like that here!

A—I can't say anything else, sir.

Magistrate—Well no one will believe you. You're fined \$8 or two months in jail and you're liable to \$200 or six months.
