Serious Conditions on the Gibson Branch as the Result of Forest Fires—Several Valuable Lumber Tracts Burned—Rain Badly Needed

Fredericton, June 9.—(Special)—The weather here today is cloudy and there is a prospect that the long looked for and badly needed rain may set in before night. Forest fires along the Kewick stream burned all night with great fury, and only the unceasing vigilance of the inhabitants prevented the destruction of the railway and highway bridges at Upper Kewick Station. During the night flames swept through a stretch of green woods, burning it right down to the water's edge. The fire came within a few rods of the bridges, and their escape from destruction was due to the short of miraculously. Three dwelling houses and the railway station were also saved after a hard fight.

COLLINS IS FREE; CHARGES THEFT AGAINST A GIRL

Mrs. Murphy Censured Judge Forbes Scathingly Arraigns Woman Who Was Injured in Recent White Street Orgy.

In dismissing Charles Collins from custody today Judge Forbes scathingly arraigned Mrs. Elizabeth Murphy, whom Collins was accused of assaulting, and declared that he did not place any reliance in a word she uttered on the witness stand. He expressed his surprise that she extended the pleasure of sentencing her to a lengthy term in the penitentiary, and informed Collins that his liberation in all was marred by associating with Mrs. Murphy, in the carnival of May 8. He believed that the wound on her head was inflicted by falling on the stove in the Collins' domicile.

USED BALLOON AS TARGET FOR RIFLES

Farmers Used Balloon as a Target—This Poor Shooting Saved the Aeronaut.

Indianapolis, June 9.—Carl J. Fisher, of Indianapolis, pilot of the balloon Indiana in the national balloon race, has won the trophy which he offered to the aeronaut staying longest in the air. Mr. Fisher said last night, over the telephone from Nashville, Tenn., that he landed Monday night about 77 miles from Indianapolis. According to this information, the balloon had been in the air 48 hours since its flight from Motor Speedway Saturday afternoon. Mr. Fisher said the Indiana had two stops, but in neither case had touched the ground.

NOTED MEN AND WOMEN TO MEET

Sixty-sixth National Conference of Charities and Correction, Opens in Buffalo Tonight.

Buffalo, N. Y., June 9.—The sixty-sixth National Conference of Charities and Correction, which opens here tonight, has brought together a splendid body of men and women, many of whom have made their life's work the scientific study of the best means of caring for the defective or incorrigible, feeding the hungry, clothing the naked, educating the ignorant and reforming the tramps.

DEFAULTING BANK CLERK HAD A PILE OF STOCKS

New Haven, Conn., June 9.—A safe deposit box located in the name of Frederick H. Brigham, the bookkeeper of the Merchants' National Bank, which is alleged to have absconded with a number of thousands of dollars from the bank's funds, has been opened and found to be full of envelopes containing stock certificates.

WILL BE WARM SIX ROUND "GO"

Bout Between Jack O'Brien and Stanley Ketchel Tonight is Expected to be a Hot One.

Philadelphia, June 9.—With both men in fine physical condition and with the bout limited to six rounds, hot action is looked for tonight when Jack O'Brien and Stanley Ketchel meet in the ring at the National Athletic Club, where O'Brien outpointed Jack Johnson, the negro champion. Both men are determined to get the advantage and the fight is expected to be a fast one from the first sound of the bell.

MISS FARRAR DENIES IT

American Singer Declares She is Not Engaged to Marry Signor Scotti

Berlin, June 9.—Geraldine Farrar, replying to an inquiry concerning a report recently published that she was engaged to be married to Signor Scotti, the singer, writes as follows: "You may officially deny all reports of my engagement or marriage. They are absolutely untrue and are expected to interest me."

MUCH DAMAGE IS DONE BY FLOODS

Grand and Gunnison Rivers in Colorado are Rising Rapidly.

Grand Junction, Colo., June 9.—Reports from the head waters of the Grand and Gunnison rivers indicate where the floods are just commencing. After remaining stationary all day yesterday, the Gunnison river rose rapidly during the night further threatening the destruction of the municipal pumping plant. Hundreds of men are working to save the costly Reclams dam, which is seriously undermined. The Grand river rose twelve inches yesterday and is the highest in 15 years. The Denver and Rio Grande railroad is keeping a large force of men on guard protecting its tracks. All parts of the western slope report considerable damage from floods.

GRAIN TRADE GOING TO AMERICAN PORTS

Montreal, June 9.—(Special)—American ports are benefiting largely by the high ocean rates out of Montreal to old country ports. Grain now here state that rates via Boston are 1.65 cents per bushel of 60 pounds cheaper than via Montreal. Consequently Canadian shippers prefer the American route, when the advantage is so great.

ANOTHER HUNT FOR POLE

Paris, June 9.—Dr. Nees and Merite have left Paris to join the Duke of Orleans who starts on Saturday for the Faro Islands. The duke will undertake a new Arctic expedition on board this vessel.

AMERICAN HORSE SECOND

Beverly, Eng., June 9.—The Bishop Burton stakes of five sovereigns each with 100 sovereigns added for two-year-olds, distance five furlongs, was run here today and won by Stella Kiss, August Belmont. Boudier was second and Quickstitch third. Eight horses ran.

A LONDON VIEW OF SPEECHES OF GREY AND LORD ROSEBERY

London, June 9.—(Special)—The Daily News, referring to the speeches of Lord Rosebery and Sir Edward Grey at the imperial press conference, says the statesmen who see the end so clearly, ought to have some resource beyond a departing appeal to the common sense of the workman. The workman, the paper adds, is not to blame. The News points out that if the struggle, the constant talk about which it depreciates, is to take place, it will be in home waters. If the colonies wish to assist they can take a useful part only by contributing money or ships to be maintained in Europe. A fleet of second class cruisers, such as Canada is supposed to be contemplating, would represent money wasted.

THE TIMES NEW REPORTER

A FULL EXPLANATION. The Times new reporter was informed this morning by a member of the provincial government that the smoke in the atmosphere is not due to forest fires, but is caused by the speed with which the government's fire protection service is moving on the enemy. "You can see it smoke," was the exact remark of the honorable gentleman, indicating that he did not commit suicide on the bridge of his steamer as has been reported from Marseilles. This statement will cause a universal feeling of relief. The reports in the press that the forest fire were everywhere doing enormous damage had prompted a general feeling of uneasiness, and a fear that the government had not kept its pledge; and that its boast about the fine system of fire wardens was merely a clever device to divert the attention of the public to certain of its friends. The assurance that there is no fire, but that the atmosphere is obscured by the winged heels of the Hazen fire brigade, rushing through space like the messengers of the gods from old Olympus, to extinguish the embers of camp fire and preserve the provincial forest domain for a grateful posterity, will be received by all the people with great joy, and a boundless gratitude. Some of the outsiders were down Black River way yesterday.

Torturing, Blinding Headaches Cured

—absolutely cured—by GIN PILLS.

Ninety per cent of the Headaches—that drive women almost mad—are caused by Kidney Trouble. Heavy housework, washing, sweeping,—strain the back and weaken the kidneys.

It is the duty of the kidneys to take uric acid out of the blood. When these organs are inflamed, weakened, uric acid stays in the blood and is carried all over the body. It inflames the delicate tissues of the brain and spinal cord at the back of the neck, causing excruciating Headaches.

Gin Pills cure these Headaches because they cure the kidneys.

Williamdale East, May 31. I cannot refrain from writing you of the benefit I have received from Gin Pills. Before taking Gin Pills I had suffered for some time with a severe headache and was unable to get on my feet. I have tried almost everything but have not found relief until I got Gin Pills. I feel now as if I were a new man. I am now as well as ever.

MR. MILLANOR F. RIPLEY.

Take Gin Pills on our positive guarantee of a cure or money back. If, after taking 6 boxes of Gin Pills, you feel no benefit, write us to that effect and we will refund your money through your druggist.

Gin Pills are sold by all dealers at 50c. or 6 boxes for \$2.50 or sent direct if your druggist can't supply them.

I had made it necessary that I should depart from the palace and I secured apartments in a respectable but quiet section of the city, where I established myself under the name of Dabranik; and it was generally understood by those who came in contact with me that I was a pardoned exile who had been permitted to return under stipulated conditions, as such men are sometimes, though rarely, allowed to do. In the mean time, I had gathered around me several certain individuals whom I had known and employed in the past, and whom I knew from experience were perfectly honest and were not Russian among them. The Russian may be trusted always wherever his heart is involved and his political conscience is at rest, but never unless those forces are working in sympathy with the employment of his hands and head.

I sent to Paris for Michael O'Malley, whose long residence there had outwardly transformed him from an Irishman to a Frenchman, and who for convenience of his name Malet, thus retaining the sound without the substance. He opened his eyes, because of his long residence, speedily became the resort of the higher officers of the Russian army stationed at St. Petersburg. Every one of the writers in his establishment were spies in his employ brought from Paris, and not one of them knew of my existence. Thus did I stand on the English plan, but never a small army of men under him who worked in the same way as Malet's servants. A Frenchman and his wife—their names were St. Cyr—a high class intelligence officer, and furnished valets, maids, cooks, chamberlains, etc. for the best families at the Russian capital. I had one assistant who taught singing to the nobility, and another who was a master at arms and gave lessons in the science of handling all kinds of weapons. In the less pretentious quarters of the city I had proprietors of four or five cafes on my list; also longers, loafers, seeming drunkards, laborers. But more important than these I succeeded in securing for one of my best men—at American—the management of the city Messenger Service; and one by one by me I succeeded in replacing the messengers by persons of his own selection, until many of them were unwilling members of my staff. Unknowingly, mind you, for, thus I insisted much of the secret of my power. My workers did not know what they did. Unhappily really did great work for me while he held that position, and I do not neglect to give him credit for it.

O'Malley, Coyle, the St. Cyr and Campbell were really therefore the several competent parts of my immediate staff and those five were the only persons among all my hundreds of workers who knew Dabranik to be their chief; and it is a perfectly safe statement to say that in all St. Petersburg, may in all the world at that time, there were but nine persons living who had the least knowledge or even suspicion of my business; the nine were the czar, Prince Michael, the five assistants, myself and Moret now in solitary confinement although in a comfortably appointed room in one of the prisons.

It is well that I should say a word or two in reference to these assistants of mine, in passing.

O'Malley was an Irishman of the finest type of bluff and honest manhood. I have known him and tried him through many a difficulty where his sterling qualities of character, his rugged honesty of purpose, his unflinching loyalty and devotion to me and his unswerving qualities as an investigator had endeared him to me both personally and personally beyond the expression of mere words to describe it. I knew that I could rely upon him absolutely in all emergencies and that he was utterly fearless in the face of any danger that might present itself. By opening the cafe described, patronized by the elite of the Russian capital, he merely followed out a plan long before undertaken in Paris for a like purpose and through the workings of his wits and other employees he possessed sources of information and facilities for investigation unprecedented in their far reaching possibilities. There is many a whispered word and undertone conversation carried on at a supper table over the coffee or a bottle of wine which finds its way into the ears of servants and O'Malley's duties consisted not alone in piecing together after they were supplied to him these scraps of conversation, but in having his workers spy upon certain persons when they appeared at the cafe and so anticipate secrets which they might have to unfold. Even he had lesser men in authority under him and many of those who were almost directly under his employ believed that they were allied to the regular secret police and did not know of their employer's official capacity.

Tom Coyle, a huge tough, and Irishman who in outward appearance might have passed anywhere for a Russian, was not less efficient or less loved than myself by me than O'Malley. As a proprietor of a cab stand every driver was a minion of his and served him precisely as O'Malley's valets did their chief, and it may readily be determined that the power thus exerted for making reports, for knowing the distinction and the engagements of certain individuals was far reaching indeed. Coyle also had served me in the execution of many delicate missions of the past and I could depend upon him almost as absolutely as I could upon myself.

TORONTO HAS AN OFFICER WITH PLENTY OF NERVE

Policeman Who Was Shot Twice, Won Medal for Bravery and Once Made Fourteen Arrests in a Day—An Exciting Career.

(Toronto Telegram.)

Police Constable James L. Tidberry, ex-chief of East Toronto, now on the city force, has rather a unique record. East Toronto, a railroad town, has been one of the hardest to look after. Tramps who travel by freight, "blind" they did their work in the dark, but they did it well. Another Irishman, Tom Coyle, who looked like a Russian, established a cab stand on the English plan, but never a small army of men under him who worked in the same way as Malet's servants. A Frenchman and his wife—their names were St. Cyr—a high class intelligence officer, and furnished valets, maids, cooks, chamberlains, etc. for the best families at the Russian capital. I had one assistant who taught singing to the nobility, and another who was a master at arms and gave lessons in the science of handling all kinds of weapons. In the less pretentious quarters of the city I had proprietors of four or five cafes on my list; also longers, loafers, seeming drunkards, laborers. But more important than these I succeeded in securing for one of my best men—at American—the management of the city Messenger Service; and one by one by me I succeeded in replacing the messengers by persons of his own selection, until many of them were unwilling members of my staff. Unknowingly, mind you, for, thus I insisted much of the secret of my power. My workers did not know what they did. Unhappily really did great work for me while he held that position, and I do not neglect to give him credit for it.

HARD CRIMINALS TO CATCH

Very few crimes have been committed in East Toronto without the perpetrators being brought to justice. Sometimes it is exceptionally hard to apprehend the kind of traveling criminals who perhaps arrive on a freight car after dark and are away at sunrise.

East Toronto has by no means been free of this class of offenders, and in years gone by the ex-chief has over-crowded the "lock-up," to the rear of Constable Tidberry's in one evening.

Hobbes, who head for Toronto from the east, came on the freight, but instead of running right into the city, disembarked in the vicinity of East Toronto to avoid railway officers.

SHOT TWICE

On May 1st, 186, Constable Tidberry, in carrying out his duties was nearly killed. Early in the morning he was called out, tramps being in a barn on Danforth avenue. They had slept there the night before, and the horses annoyed them so, they turned them at large. A neighbor's garden was destroyed and Constable Tidberry was called to arrest the tramps. He climbed the ladder to the hay loft, and in the ordinary way told them they were under arrest. Being half undressed they pleaded for time to put on their clothes, and when they stooped over to put on their shoes, drew revolvers and opened fire.

One bullet went through Mr. Tidberry's right arm, entering just above the elbow, glanced along the bone, flattening it, and came out near the stump. It then went through his clothing, and when Dr. W. R. Walters examined him the bullet fell to the floor.

SHOT IN THE HEAD

Another bullet struck him on the forehead, tearing the scalp about three inches. The bullet that struck the hole where the latrine comes up, and fell through the opening to the stable floor.

The tramps jumped from the hay window, and headed through the country toward Scarborough. Although Constable Tidberry was severely wounded, he gave chase, and with the assistance of two boys, captured the trio after a run of about a mile and a half.

The bullet that struck the constable on the forehead glanced off, lodging in the roof of the barn. He has both the bullets at home now.

The men were Charles McDonald, who was sentenced to 15 years, John Henderson, who also got the same term, and James McMurphy, who went down for ten years. They were wanted at Glencoe for theft. Constable Tidberry recovered the stolen property.

SAYS ROOSEVELT IS HUNTING IN A ZOO

Major Seaman Calls it Place Where Noah Landed the Animals From Ark—Little Danger in Lions.

(New York American.)

Free from the field in which former President Roosevelt is hunting, Major Louis L. Seaman, a surgeon, arrived in New York yesterday. He went to Africa to study the dread sleeping sickness, and is the first to bring word of the former President. In addition, Major Seaman has brought about a hundred and fifty specimens of game, shot where Mr. Roosevelt and his party are now shooting.

The trip was Major Seaman's second. When it was a professional one, Major Seaman said he, with Dr. Guiteras, who accompanied him could not resist taking something like six weeks off after reaching New York, because the game was so plentiful.

"It is the greatest shooting in the world," said the Major in his apartments at No. 247 Fifth avenue, yesterday. "It is just a zoological garden without a fence around it, it is the place where old Noah landed the Ark and stood the animals off, and their descendants are still there."

"Of course Mr. Roosevelt will go much further than we did. We travelled only about five hundred miles on foot. He will go past the lake and to the Congo, so Cunningham told me. In Cunningham and Slaus he has the two best hunters in Africa—yes, in the world. They are dead shots and know the country and the game."

"I never shot an elephant and never saw but one wild one, and then I didn't have my gun. Mr. Roosevelt is going to see them more than fifty feet away. He will get the white rhinoceros."

"Killing lions is tame sport. The king of beasts is a whelp. When a lion and a gorilla meet he will charge you and give you some trouble. But he is a coward and the natives treat him with contempt. When a lioness and lion are together, the thing to do is to shoot the lioness. She is the gamer of the two, and you kill her the lion will take the jungle. Kill him and you have got to kill him."

No rhinoceros is a dangerous customer and the only one the President has to meet where he is now. He charges and comes like a steam engine, and cannot see them more than fifty feet away. Neither can an elephant. But they get the scent of a man and charge."

Major Seaman said Mr. Roosevelt was in the best of spirits.

"I was at the banquet given to him in Montreal," said he. "He made a happy speech that was well received. He certainly is going to have a grand trip."

On the subject of the lion and the sleeping sickness, the cause of the visit to Africa, the Major said:

"The condition is a dreadful one. Whole districts have been depopulated. The fly is a carrier of the disease, the same as the mosquito carries yellow fever. It has been learned that for fifteen days after he becomes infected by biting a person afflicted with the disease he is infectious. Each tabset is capable of digesting 134 pounds of food—a good square meal. One tablet after eating, with a half tumbler of water, insures perfect digestion, providing reasonable care is taken to avoid foods that have been found especially disagreeable to the stomach."

If you have suffered from a weak stomach, why not let thousands have done—take Father Morrierty's No. 11 Tablets and be cured? So, at your dealer's, or from Father Morrierty Medicine Co., Ltd., Chatham, N.B.

SIR ROBERT PERKS TALKS OF PRESS

He Says Canadian Newspapers Do Not Contain Enough Information About the Empire.

Chatham, N. B., June 8.—In ringing words tonight at a public meeting in St. Luke's church, Sir Robert Perks asserted the supremacy of Great Britain and gave reasons for the close connection which exists between Canada and the mother land. He devoted considerable attention to the Canadian press and said that he had never read in the Canadian papers anything of the uprightnes, up-to-dateness or strength of England, but he had read of her decay, that the physique of her people was deteriorating, that the army of unemployed was getting larger and that the population was decreasing. There was very little information in Canadian papers of the history and activities of the empire but a great deal about the politician of the next town. This seemed to be indicative of a lack of interest and was a phase of public opinion to be guarded against.

The press of England was controlled almost exclusively by the Conservative party and in this could be found the reason for the unfavorable reports published in Canada.

As regards the test of wealth, of education and of prosperity, England still retained her right to be known as the leading partner in the empire.

They were not afraid of the people on the other side of the German ocean. "We've got enough money at home to build all the Dreadnoughts that are good for us. As for you here, don't get on slippery slope of military and naval expenditure, but put your money to better use in the building of industries and public utilities. The progress and liberty of the dominion depends upon the preserving of the empire."

He said the knowledge that all the British forces available would be massed to repel invasion has kept the "Stars and Stripes" for 100 years from crossing the parallel.

Sir Robert came from Newcastle this afternoon in the steamer St. Nicholas, as the guest of W. B. Snowball, and enjoyed the sail on the Miramichi.

James Beveridge was chairman of the public meeting tonight. At the close of the ladies of the church served refreshments in the basement, and an opportunity was given to all who wished to shake hands with Sir Robert.

HALIFAX MAN IS FOUND DROWNED

George Way Either Fell or Jumped Overboard—His Body Found in Halifax Harbor

Halifax, June 8.—George Way, city traveler for Wentzels Ltd., was drowned in the harbor this morning. Mr. Way had been out to a steamer in the harbor, and when he returned to Pickford & Black's wharf with a couple of people from the steamer, he asked a friend to consent to do so and said he would return in a few minutes, and left Way in the boat. When he returned Way was nowhere in sight, but after looking around the dock he discovered the body of Mr. Way floating face downward in the water.

The medical examiner was notified and will hold an inquiry. It is thought while moving in the boat Mr. Way lost his footing while the boat was rocking, and he fell overboard, with the result that he was drowned. The deceased was 43 years of age.

Palpitation of the Heart.

One of the first danger signals that announces something wrong with the heart is the irregular beat or violent throb. Often there is only a fluttering sensation, or an "all gone" sinking feeling; or again, there may be a most violent beating, with flushings of the skin and visible pulsations of the arteries. The person may experience a smothering sensation, gasp for breath and feel as though about to die. In such cases the action of Milburn's Heart and Nerve Pills in quieting the heart, restoring its normal beat and imparting tone to the nervous system, is beyond all question, marvelous. They give such prompt relief that no one need suffer.

Mr. Sylvester Smith, Hampton, N.B. writes:—"I was troubled with palpitation of the heart and tried doctor's medicines, but they only gave me temporary relief. I heard of your Heart and Nerve Pills and bought two boxes and before I had used them I was completely cured and would recommend them to all similarly affected."

Price, 50 cents per box, or 3 boxes for \$1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Steamer Sherwood, Captain Healey, will sail today for London and Havre via Halifax with a general cargo.

ATTACKED WITH KNIFE

In the summer of 1904 an Italian named Rastanti went into a house in the town and attempted to assault a woman. Constable Tidberry was soon on the scene, and when the Italian saw the constable coming he drew out a large, ugly-looking knife, with a blade over five inches long, and made for him.

Mr. Tidberry used his baton, and by mere luck struck the knife on the point, knocking it into the wall. The prisoner took off nearly all the constable's clothes, and made for him.

A POLICE FAMILY

Mr. Tidberry was born in Pickering, Ont., in 1848, and moved to East Toronto 20 years ago.

George Tidberry, brother of the ex-chief, was formerly deputy sheriff of Ashland, Mass., and had managed a railway from being killed while holding that office. He was shot through the thigh and hand.

Mr. Tidberry has a brother a policeman in Edmonton, Alberta, and also another in police service, being chief at Dauphin, Man.

SCARLET FEVER IN NEWCASTLE

Board of Health Orders That all the Schools Must Be Closed

Newcastle, June 8.—Parish Liberal Association will meet in Blackville June 9; Derby, June 10; and at Redbank, June 11. The annual meeting of the county association will be held in the Temperance hall here on the afternoon of the 15th instant, at 2.45.

Police Magistrate Maltry recently fined Medames Ratton and Fitzgerald of Nelson, each \$50 and costs on complaint of County Scott Act Inspector John Menzies. A notice case is likely to be brought soon from South Esk.

Scarlet fever is again epidemic, several new cases this week. At a meeting of the board of health last night it was decided to close all the schools in the main part of the town, except the advanced grades of Horton Academy and the convent. Instructions are being given to citizens to at once clean up their premises.

The Castellucci Brothers, who are playing at the Nickel, called at the General Public Hospital yesterday and played some selections for Gene McAuiliffe, son of Jere McAuiliffe, who is still a patient there, though progressing well, after his accident of a year ago. The Castelluccis were with Mr. McAuiliffe's company last year. Their music was a treat to all who heard it.

THE WOES OF THE WEAK-STOMACHED MAN

Relieved by Father Morrierty's "No. 11"

Did you ever see a happy dyspeptic? Or a man cheerful over his indigestion? No wonder you didn't, for the man who cannot digest cannot enjoy very much. When the stomach refuses to work the whole system goes wrong, and there follows heartburn, headache, constipation, bad breath and severe pain. Then the mind is affected; a person becomes irritable, nervous, surly—in fact, almost unbearable.

Father Morrierty gave this matter special study, and devised a tablet now known as "Father Morrierty's No. 11," which relieves the misery. Each tablet is capable of digesting 134 pounds of food—a good square meal. One tablet after eating, with a half tumbler of water, insures perfect digestion, providing reasonable care is taken to avoid foods that have been found especially disagreeable to the stomach.

If you have suffered from a weak stomach, why not let thousands have done—take Father Morrierty's No. 11 Tablets and be cured? So, at your dealer's, or from Father Morrierty Medicine Co., Ltd., Chatham, N.B.

WHAT IS A STOCK WORTH?

The Extraordinary Story of "Steel Common," Brought Up to Last Thursday

On Thursday of last week United States Steel common stock sold at 69.38. A week before it had closed at 61.14; two weeks before, at 58.78; a month before, at 50.18. Until yesterday, it had reached a "new high record price," for its whole history on each successive business day since May 18. Its highest record, prior to that date, was the 58.78 touched on No. 10, 1907. Last year, the culminating day of the wild "after-October boom" of the New York Stock Exchange, its highest price in the immensely prosperous steel trade year 1908 was 50.14; its highest in another year of great earnings, 1905, was 43.84; the top notch in the memorable speculation of April, 1901, was 35, and that was high record until last November. In 1901, the stock was paying twice as much in dividends as it pays today; in 1906, it reported net earnings 40 per cent. larger than what its statement for the first quarter of 1909 indicated. At present prices, and the present dividend rate, the stock yields 2.78 per cent to the investor. How, then, it will be asked, is the recent extraordinary movement to be accounted for? There are four prevalent explanations:

NEW SERUM FOR TUBERCULOSIS

Dr. Ross, Son of Senator G. W. Ross has a Cure for Which He Claims Much.

Toronto, June 7.—The presentation of a remarkable serum for the cure of tuberculosis of the glands or joints and other diseases, and which its demonstrator, Dr. G. W. Ross, of Jarvis street, son of Senator Ross, expects will revolutionize the treatment of some bad diseases was explained to a reporter through Dr. Ross himself.

To show to the lay reader how the serum claims to be used, the reporter was directed to a young woman whose ankle had been attacked by tuberculosis. She was in bed for months, and was treated by many physicians, but to no avail. It was finally decided to have the leg amputated. To save the young woman, Dr. Ross began treatment with the new serum. Yesterday she walked one and a half miles to prove to the medical men that her cure was a thorough and genuine one.

Another case was of a young Englishman who had contracted "barber's itch" three years under the best treatment, but without result. He came out to Canada, but could get no work, owing to his appearance. Dr. Ross began his treatment with the serum, and in eighteen months his face was as smooth as that of a child's. He, too, was present to bear testimony. These and other cases which had been abandoned by other physicians of the discovery of the new plan of treatment is due to Sir S. Smith, of London, England. Dr. Ross studied under him for three years, and two years ago came to the United States. He has the ideas gained. With his well-fitted laboratory at the general hospital, in charge of Dr. Chas. H. Trevelyan, he has succeeded in producing in six hundred cases, the majority of them being successful. Nearly all of these had been abandoned as hopeless by other doctors.

To obtain it, a vaccine emulsion is made of the dead germs of the disease, and these are injected in minute quantities into the patient's arm. This produces in the blood, the serum, the latter so produced in the organs of the diseased either in glands or joints, and they are taken up by the white corpuscles of the blood and thrown out of the system.

There is by no means a unanimity of opinion among medical men respecting the genuineness of Dr. Ross' cures, and these dissenting views were raised during the statement of his case yesterday disputing the young physician's claims, and the reasons therefor are few. The cure of the young woman with the tubercular ankle was allowed to pass without comment.

MORE JUNE BRIDES

George-Furniss. St. Rose's church, Milford, was the scene of a pleasant event this morning at 8 o'clock, when Rev. Charles Collins united in matrimony Philip F. Furniss to Elizabeth (Lila) Furniss.

Reardon-Keenan. St. Peter's church at 6 o'clock this morning was the scene of a very pretty wedding, when Miss Kathryn Grace Keenan, daughter of Jas. Keenan, was united in marriage to Harry Edward Reardon, of Montreal. Rev. Fr. Dale officiated at the ceremony.

Donaldson-Smith. A quiet wedding took place last evening at 83 Winter street, when Rev. A. B. Coburn united in marriage George W. Donaldson, son of John Donaldson, of Milford, and Miss Gertrude Smith, daughter of Andrew G. and the late Lillie A. Smith. The bride was unattended. The bride wore a dress of white organza and carried a shower bouquet of pink and white carnations. Only the immediate relatives of the contracting parties were present.

Kirkpatrick-Ramsay. What is expected to be one of the prettiest weddings of the season will take place this evening at seven o'clock in Holy Trinity church when G. H. Ramsay will give his daughter, Miss Ida M. Ramsay, in marriage to Frederick Arthur Kirkpatrick, formerly of St. John, but now superintendent for the Donald Fraser Lumber Co., at Plaster Rock.

Killam-Watt. A quiet but very pretty wedding took place at 6 o'clock this morning at 41 Sevel street, when Miss George Gilbert Watt, daughter of Mrs. John Bond, was united in marriage to Frank Colburn Killam, of Killam Bros., wholesale grocers, South Wharf. The ceremony was performed by Rev. Gordon Dickie, pastor of St. Stephen's church, in the presence of the immediate friends and relatives of the contracting parties. There were no attendants.

Oram-Alexander. The marriage took place yesterday afternoon at the home of the bride's parents, near St. Martin's, of Rev. George Oram, of the Reformed Episcopal church, who is now occupying the pulpit of the Methodist church at Vernon River, P. E. I., to Miss Alexander, Rev. Samuel Howard, of Exmouth street Methodist church, performed the ceremony and the conclusion Mr. and Mrs. Oram left for the island.

Munroe-Bailey. A very quiet wedding was celebrated this morning at 10.30 at the home of Frederick Bailey, Victoria Lane, when his oldest daughter, Annie Patterson Bailey, was united in marriage to Charles Alexander Munroe, for many years traveler for J. E. Crete of Halifax. Rev. Dr. Flanders, of Centenary church, administered the sacred rites.

McKenzie-Ross. Frederick, N. B., June 9.—(Special)—The residence of Malcolm Ross was the scene of a quiet wedding this afternoon, when his youngest daughter, Margaret Kelsie, became the wife of J. A. McKenzie, formerly of Sydney, N. S., now resident engineer of the Transcontinental Railway near Winnipeg. The ceremony was performed by Rev. Dr. Smith, in the presence of relative and friends. The bride was given in marriage by her father and was unattended. She was attired in a travelling costume of cadet blue chiffon, with hat to match. After the ceremony luncheon was served. The bride, who is a popular and accomplished young lady, was the recipient of a large number of valuable presents. The happy couple will leave this evening for Winnipeg, where they will reside.

SUPERINTENDENT CARTER The appointment of Mr. W. S. Carter to succeed D. Inch as superintendent of education for the province of New Brunswick will receive general endorsement throughout the province.

Mr. Carter is well fitted by education and experience for the work. He has done valuable work for many years as teacher and inspector. He is a man with progressive ideas. In his annual reports as inspector he has always directed attention to weak points of the school system and pointed out where improvements could be made.

He has always insisted that St. John should improve its school room accommodation and take steps to ensure the attendance of all pupils of school age. He has been an advocate of manual training and domestic science, of consolidated schools where that is possible, of more attention to commercial education, of better salaries for teachers, and other measures to make the schools of New Brunswick of greater value to the people.

As a university man, he appreciates the value of the higher education. That he will develop excellent administrative capacity and devote himself with great zeal to the duties of an office of so great importance may be taken for granted. He is in the prime of life, and blessed with a vigorous constitution. Under his direction the work so well done by Dr. Inch should be carried on with vigor, and further advancement made in broadening out and perfecting the public school system of the province.

During the period of his inspection of the schools of his inspectorial district he made great progress in securing better buildings, providing better grounds, and securing better equipment.

THE VALLEY RAILWAY The provincial government has appointed a committee of its members to confer with the federal government and the St. John Valley Railway Company. The purpose of this committee is not to forward the scheme for the construction of the railway, but to do what may be possible to embarrass the federal government in connection with it.

When in opposition Mr. Hazen was loud in his advocacy of the Valley Railway. He wanted it built without delay. Since he became premier he has been diligently casting about him for excuses for delay. The people along the route of the proposed line must possess their souls in patience until the provincial government has done what it can to unload responsibility and if possible discredit in the minds of the people the government at Ottawa.

The construction of the railway is a secondary consideration. A committee composed of Mr. Hazen, Mr. Fleming and Mr. McLeod may be relied on to have an eye single to the interests of the province, and to be guided by juggling with this question as long as possible.

IMPERIAL DEFENCE The only summary we have seen of Lord Rosebery's speech at the press conference, which has been much commented on by the press, and which is described by one correspondent as one of the greatest speeches of his lordship's career is the following:—

"Lord Rosebery was particularly serious in his reference to the European situation, pointing out that whereas all the talk is of peace all the action is in preparation for war. He said he regarded the outlook as ominous, almost appalling. He had never seen the condition of things in Europe so remarkable and so menacing as at this moment. There were features of this general preparation for war, he declared, which must cause special anxiety to the friends of the British Empire. One was forced to wonder where it was going to stop, whether it would merely bring Europe back into a state of barbarism or whether it would cause catastrophes in which the workmen of the world would say, 'We will have no more of this madness and this folly, which is grinding us to powder.'"

Yesterday's despatches stated that Lord Rosebery had said concerning the European situation. The London Morning Post, on the other hand, declares that

THE KICKER

The chronic kicker is the man who never satisfies. He seeks the fault in every plan. And through the good and the bad, he finds the fault in every plan. To please him were a futile task. To blame him were a waste of time. For his fault, for more he'll ask And kick for all he's worth.

No day is ever bright enough. No sky is exactly clear. The smoothest path to him is rough. With everything that's done— I wonder there's always something wrong. The chronic kicker on— I've studied kickers in my day. I've seen them frown and smirk. I've heard them grumble and say "I've never heard of it." Oh, no! a kicker never aids. He is the latest of trades— The job of trading laws.

And when he gets to Heaven's gate I'll warrant he will say "I've never heard of it." If I am going to stay, I'll be sure to take the way. The Heavenly world is run; And he will grumble every day At everything that's done.

The full force of the escaping steam struck the man on the side of his face and body.

The S. S. Lady Sybil did a profitable piece of work for her owner on Saturday last when she towed the Norwegian ship Margaretha off the shore near Cape John. The Lady Sybil left Pictou in the afternoon and returned at 10.30 that night with the ship in tow. The actual work of hauling the ship off did not take more than an hour and a half.

The tug boat James Reid has been made to her boiler by the foundry. The Reid is owned on the lakes. When she leaves here she will take up the work of towing the wreck of the S. S. Turret Bell off the north shore of the island.

The mackerel news from the Cape Shore, N. S., is decidedly more encouraging. A dispatch from Liverpool, N. S., says: "Coast alive with mackerel, several vessels ordered filling up." About 50 Gloucester schooners are on the Cape Shore at the present time. Large quantities of fresh mackerel are being shipped to Boston, the Prince Arthur, from Yarmouth, N. S., taking 1700 barrels on Saturday last.

A new trading post has been opened up by the steamer Acadia, belonging to the Port Egan Trading Co., which arrived in Summerside on Saturday afternoon with several passengers and considerable freight, and left again at eight o'clock on Monday morning on return to Port Egan, taking a load of produce, and other goods. It is the intention of the owners to have this boat come to Summerside every Saturday during the summer.

Either on Saturday or Sunday night thieves effected an entrance into the business premises of Sanderson & Co., of Charlottetown, and carried off a quantity of goods. It is supposed the men in some way got into the cellars of the first two firms.

Laying of concrete walks commenced in Charlottetown on Monday.

W. S. CARTER WILL SUCCEED CHIEF SUPT. INCH

The Government Made the Appointment Last Night and Passed a Resolution of Appreciation of Dr. Inch's Work.

William S. Carter, M. A. of St. John, will be the new chief superintendent of education for New Brunswick, in succession to Dr. J. R. Inch, who recently handed in his resignation to the government after nearly sixty years spent in educational work in the province.

At a meeting of the government last night, at which all the members with the exception of Mr. Morrisey were present, it is understood that Mr. Carter was appointed. He will assume his new duties at the end of June, when Dr. Inch's resignation will go into effect. The resignation of Dr. Inch was placed before the government and accepted, and a resolution was passed expressing appreciation of his great services for the cause of education in the province, and the satisfactory manner in which he had discharged the duties of chief superintendent during his term of office.

The new chief superintendent will be the fourth to occupy that position. He has been all his adult life connected with educational matters. Of localist descent, he was born in July, 1833, in Kingston, the old shire town of Kings county. He was educated in the Almonde school under a local teacher, and then took a course in the Normal school, afterwards putting in two more years teaching in the country.

In 1878 Mr. Carter entered the U. N. B. and in his junior year headed his class and won the microscope donated as a memorial to the Douglas and Lorne gold medals. Graduating in 1881, he was appointed mathematical instructor in the St. John High school, a position which he continued to hold till January 1888, when he succeeded Dr. W. P. Dole as inspector of schools in the district No. 6, including the parish of St. Martin, and the county of Charlotte, except the parishes of Clarendon, Dumarton and St. James. The duties of this office he has continued to discharge to the present time.

The new chief superintendent has had wide experience in all branches of country and city school work, and also holds a certificate for manual training. He was the first teachers' representative on the senate of the U. N. B. and at present holds the position of president of the Almonde Society. He received his degree of M. A. in 1884.

Mr. Carter is an excellent platform speaker. He has been a very efficient inspector, has progressive ideas on educational matters, and is a worker. His administrative ability has been clearly shown in the several positions he has held. He is a man of pleasing manners, is a good conversationalist, and his superior sense of duty and successful career as superintendent as has marked his years as inspector.

Other names connected with the appointment to the office of chief superintendent, it is understood, were: Dr. H. S. Bridges, Superintendent of city schools here; Geo. W. Meneserau, inspector of No. 1 school district; and B. C. Foster, of the Fredericton district.

The appointment of Mr. Carter will make a vacancy in school district No. 6. Three names are heard to have been mentioned-Samuel Worth, Charlotte county man, now principal of Victoria school in this city; William M. McLean, principal of the school here; and Thomas E. Powers, of the High school staff.

WANT TO BUILD A NEW CHURCH

Victoria Street Baptists Abandon Plan to Enlarge Present Church - May Build New One.

At a largely attended meeting of the Victoria Street Baptist church last evening, it was decided to set aside the plans for the enlarging of the church building. The project was abandoned because of the high cost of the present church building and the fact that the season was getting late and that it would be after and contracts signed and work commenced. Beginning so late, the work would be going on late in the fall, which would probably greatly inconvenience all who would attend the services of the church.

It was decided that the matter should rest as it was, and further that it should not be brought up again for six months at least. In the meantime new plans for enlarging the present church will be considered and figures and specifications obtained. Failing to secure any plan whereby the present church building can be suitably enlarged so as to make it modern, adequate and attractive, the project of building a new church will be seriously considered.

If a piece of land in this vicinity could be secured at a reasonable figure, it is felt that a new church building would be erected. The idea is to revive the matter in the fall and winter, so that next spring the church will know exactly what they are to do and then go ahead and do it.

HYPOCHONDRIA

Quoth he, "Whenever I'm breathing A fever's lurking death There's danger in a beefsteak And there's trouble in the pie. 'Trot nature's crystal fountain In terror I must see, Let something in the water, May not be good for me. 'T must not be neglected, 'Of duty I am conscious, And yet avoid excitement, Whatever may arise. And so he daily ponders On danger and distress, And falls into a swift decline Through sheer nervousness."

BIG SUNDAY SCHOOL MEETING AT SUSSEX. Anglican Sunday School Conference Opens at Sussex.

Sussex, N. B., June 8.-The Sunday school teachers' conference in connection with the Church of England under the auspices of the standing committee of the synod on Sunday schools, was held at Sussex today. The delegates arrived on the morning train and commenced with a religious service in the morning at Trinity church at 10 o'clock, Rev. Canon Neales celebrating.

The first session of the conference was held in Medley Memorial hall at 2.30 p. m. Bishop Richardson presiding, some sixty teachers and clergy being present. Rev. Canon Cowie read a most admirable paper on the Place of the Church in the Sunday School System, on which discussion followed.

Miss Ethel Jarvis taught a lesson to a class of little boys on Faith, which was very instructive to both pupils and the teachers present. An interesting paper on home department was read by Rev. Canon Smithers, of Fredericton.

Bishop Richardson took occasion to urge the great importance of home department to the diocese, especially in the country and vacant missions. The secretary of the standing committee was requested to bring the whole subject of home department before the synod at its next meeting.

In the evening a public meeting was held at 8 o'clock in the hall, which was comfortably filled. Bishop Richardson presiding. After prayer, Rev. E. B. Hooper, of St. John, read a most scholarly paper on the Bible and Recent Discoveries, by the Rev. D. S. Coopers, who was unable to attend.

Bishop Richardson called upon Rev. J. Roy Campbell to make some remarks on the paper, which he did briefly and with much acceptance to all present. Rev. G. A. Kuhring, of St. John, then read a paper on The Bible, What it Claims to be and the Importance of Direct Contact with the Word, which claimed the closest attention of those present.

After singing a hymn the meeting adjourned. Tomorrow Holy Communion will be celebrated in Trinity church at 6 o'clock, and the business sessions will be resumed in Medley Memorial hall at 10.30 a. m. when Rev. G. A. Kuhring will deliver a Bible lesson, followed by discussion, after which Rev. Mr. McKim, of St. John, will deal with the subject of How to Create a Missionary Atmosphere in the Sunday School, which will bring the sessions to a close.

The various clergymen and delegates have been entertained by the church people of Sussex and have been so far favored with good weather, which seems likely to continue to the close.

ST. JOSEPH'S WIN ANOTHER GAME

They Whitewashed the St. John's in the Inter-Society League—The Standing of the Teams

In a game marked by heavy hitting on the part of the victors and poor fielding by the losers the St. Joseph's defeated the St. John's Baptists on the Shamrock grounds last evening, 11 to 0. The quality of ball put up by the St. John's is hardly calculated to keep up the interest in the league. Better work by the St. John's and the A. O. H. is hoped for.

MUCH INTEREST IN THE E. D. C. SPORTS

Looks Good for One of the Best Athletic Meets of the Year on Saturday

Saturday afternoon's sports on the Every Day Club grounds should attract a great crowd of citizens. The fact that Stirling in Amherst on Monday made a new maritime record for five miles lends additional interest to the ten mile race on Saturday, for which there are already nine entries. There are ten entries for the points, six for the five mile intermediate, and a good list for the jumps, pole vault and intermediate 100 yards.

ST. JOHN PLAYERS ARE INVITED TO HALIFAX

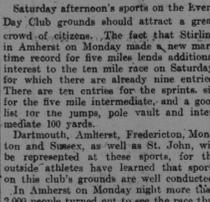

C. F. Inches has a letter from J. T. Lithgow announcing that the Nova Scotia Lawn Tennis Association will hold its annual tournament in Dartmouth on August 9, and he asks if the New Brunswick association can arrange to send one or two good players to compete. It is hoped to have Beals Wright, the American champion, and one or two Boston players present.

A Convenient Vehicle

After all isn't the bicycle about the most convenient vehicle for transportation you know of? It saves car fares, gets you away from the crowded street cars and gives you the exercise you need.

The Cleveland Bicycle

It is a wheel built from best material by expert workmen and sold at an honest price. It has all the big individual features that have returned the bicycle to popular favor.

"Cleveland Bicycle"

You must test this new bicycle to experience what these improvements mean.

The Cleveland is a "Pullman" compared to the "day coach" of bicycling.

Write to-day for the catalogue—Test the new features.

The Hercules Coaster Brake is the latest and greatest of coaster brakes. It has no side arm—can be taken out and replaced in any bicycle in one-third of the time required by the other kind.

SIR WM. MACDONALD GIVES PROPERTY TO MCGILL

Montreal, June 8.—The Joseph property at Sherbrooke and MacTavish streets, which was bought recently for \$142,500, and for a high-class hotel, has been turned over to Sir William Macdonald in the interests of McGill University, at the cost price by the promoters of the hotel. McGill will hold the property for a year, but could not raise the funds. The possibility of its being used for a hotel accounted for a storm of indignation and regret among the college people, and Sir William Macdonald's action saves the situation. The hotel people will now seek another site.

LUMBAGO VICTIM GIVES GOOD ADVICE

Tells of a Wonderful Remedy That Brought Him Health and Comfort.

The man whose back is lame and sore can't afford to trifle with the hundred and one so-called cures for lumbago. He needs a powerful, penetrating pain-destriving treatment—one that will quickly sink into all the tendons and muscles—such a liniment as "Nervine," which acts like lightning. Right to the spot it goes, carrying healing, soothing properties to the nerves and muscles that cause all the pain.

"When my back was so painful that I couldn't turn in bed, when rubbing hot iron over my back failed to ease, when I cried aloud with agonizing twinges—then it was that I used Nervine and got quick relief and was ultimately cured. There is something in Nervine that isn't to be found in other liniments. Its power over pain and its facility for sinking into the core of the sore parts is simply a marvel. After getting rid of the pain and when I started back to work, of course I wore a Nervine Porous Plaster over the weak spots. I have friends that use Nervine for Rheumatism, Neuralgia and Sciatica. They all think as I do that Nervine is a foot letter carrier and beyond a mounted one."

The above statement of F. R. Muckmore, the well-known merchant of Greenfield, is ample proof that Nervine can't be beaten, try it yourself—but be sure the dealers give you "Nervine" only. Large bottles, 25c. each.

SAPLE. "How's your wife?" "Nob—got the grip." "How's that?" "Awfully good, I sleep. What are you doing?" "Nob—No. Haven't been home since the war."

HERE'S ONE OF THE BEST

A Bishop who has a liking for fine fruit once remarked that while the Creator could doubtless produce a better berry than the strawberry, doubtless He never had.

We often reflect that the same words, slightly varied, would be true of the magnificent models of 20th Century Suits we are now selling at \$18, \$20, \$22 and \$25.

Some day, as experience and skill show the way, better suits may be produced for equal money.

But we believe they have not yet been surpassed—if equalled.

Genuine, honest worth—inside as well as outside goodness—Characterize these suits.

Summer weight—Light Fabrics, coats half lined or full lined as preferred.

\$18, \$20, \$22 and \$25 for the exceptionally fine ones, But good honest value at all prices down to \$8.

January, 6,715
February, 6,979
March, 7,167
April, 7,164
May, 7,007

The Times does not get its largest sale through newsboys. It is delivered at the homes. That is the kind of circulation which is of value to the advertisers.

TO ADVERTISERS

We issue at 12 noon, Saturday, until further notice. Advertisers should have their copy at the Times office not LATER than five o'clock, Friday, p. m.

THIS EVENING

Moving pictures and illustrated songs at the Nickel.

Illustrated songs and moving pictures at the Star, north end.

City Cornet Band will give a concert in King square.

Dr. Kate McMillan, of Korea, will give an address on her work in St. John Presbyterian church.

New Brunswick Lodge, No. 1, Knights of Pythias, meet in their hall, Germain street.

LATE LOCALS

The Every Day Club will hold a business meeting in the hall this evening at 8:30 o'clock. All members who can do so are urged to attend.

Puruss line steamship Shenandoah, Captain Healey, sailed this afternoon for London and Havre via Halifax with a general cargo.

Onicer Semple was called upon to extinguish a bonfire on Winter street last evening and afterwards dispersed a crowd of boys in the neighborhood.

Steamer Calvin Austin, Captain Allan, landed 117 passengers from Boston last night, and sailed on her return trip this morning. She took away 80 boxes fresh salmon for the Boston market.

Between 11 and 12 p. m. yesterday the north end police were called into a house on Barker street to quell a disturbance which a man named Stillman was creating there.

The annual memorial service of the W. C. T. U., of north end, will be held at Riverview Park, on Friday, June 11th at three o'clock. Members of other unions are invited to be present.

Judge Forbes arranged this morning that the appeal of Myles Carroll from the decision of the magistrate in beer cases, would be heard before him tomorrow morning at 11 o'clock. J. B. M. Baxter, represents the appellant, and A. A. Wilson will act for the liquor license Commissioners.

George Burns was taken into custody on Charlotte street this morning by Patrolmen Bettes and Sergeant Caples for intoxication. It is said that Burns was obtaining in several stores on Union street last night, and at one place the proprietor presented him with some fruit as an inducement to retire.

In the police court this morning, Matthew Kerr, an inebriate, who sat down on the north side of King Square last night, and was taken into custody by patrolmen McNamee and Steeves, was fined \$4. He did not hesitate to criticize the officers for molesting a man, who is supposed to be in a free country, and feels an inclination to sit down.

In the case of Paul Hallinger vs. George P. Black, before Judge Forbes this morning on review from the city court, the defendant was refused as part of the claim had been paid into court, the magistrate was directed to enter a non-suit. His Honor contended that no suit was permissible at any stage of the proceedings, and the sum paid into court was to be collected by the plaintiff. Costs were awarded against the defendant.

A very enjoyable concert was given in St. Peter's hall, Elm street, yesterday afternoon and evening under the direction of Mrs. Alfred C. Wilson. The programme, as given in this paper last night, was carried out admirably, as was also a very pleasing soldiers' drill by the following boys: Frank McDermott (captain), Leonard Butler, Thos. Gonnell, Albert Butler, Frank Kylin, Frank Brossan, Joseph Coyle, John Rolston, Joseph Goulogue, Vincent Duffy, Arthur Kusella, Roland Robinson and Joseph O'Connor.

Harry Noakes and Roland Lemon will be escorted to the Boys' Industrial Home this afternoon by Reserve Officer Goolmie, who was compelled to visit to the institution after returning yesterday afternoon with young Noakes, as there was no conveyance provided. The signature of the mayor as chairman of the commission, was obtained this morning, and there is now apparently no hindrance to the reception of the boys into the home. Both lads are willing to enter the home, and have not attempted to leave the city or conceal themselves, although no restriction is placed on them. They are both at their homes.

PERSONALS

Mr. and Mrs. J. H. McDade of Boston, arrived in the city last evening on the Calvin Austin, on a honeymoon trip. The young couple will spend some time here, the guests of Michael McDade, Cliff St. after which they will journey to Roxbury where they will make their permanent residence. Mr. McDade is connected with the Boston Transcript.

Donald McMasters, formerly of the Union Bank of Halifax in this city leaves today for Havana where he has accepted a position on the office staff of the branch of the Royal Bank.

John Jackson, the South Wharf fish dealer, has returned from a business trip to Boston. Mrs. Jackson accompanied her husband.

Charles McL. Charlton

Word has been received of the death of Charles McLeod Charlton, which occurred on the 7th inst. at Caplin River, Quebec, after a lingering illness, in the 28th year of his age. He was a son of Mary and the late Nelson Charlton. Besides his widowed mother, he leaves three sisters and one brother to mourn their sad loss. The sisters are: Mrs. George Morrison, of 112 Britain street, St. John; Mrs. William Morrison, St. John; Mrs. Frank F. Leonard, Caplin River, Quebec, and the brother is William Charlton, Queen street, St. John, N. B.

JUDGMENT RESERVED IN EXCHEQUER COURT

Case of John J. Gleason Was Finished This Morning—Judges Will Be Given in September.

The exchequer court opened at 10 o'clock this morning with His Lordship Judge Casella presiding, and the trial case of John J. Gleason vs. crown was continued. Dr. A. F. Emery the first witness called by Mr. McAlpine for the crown, testified to his experience, medical knowledge, etc. He also gave evidence regarding the causes of rupture, which were mostly from internal forces. About 30 per cent. of ruptures occurred.

Cross-examined by Mr. Powell, witness said that a recurrence of rupture might be caused by external stress or force.

L. R. Ross, I. C. R. terminal agent at St. John, was the next witness. He swore that the number of the car in which the accident is alleged to have occurred was 17, and that on the day in question, July 28, 1905, the car was held over for half an hour.

Alexander Barnett, assistant foreman at Moncton, on being sworn, identified a rack, produced by Mr. McAlpine, as having been in car 17, and explained the manner in which it was placed on the wall of the car, but could not swear whether this was the rack in use in July, 1905.

Oscar Peterson, foreman car-cleaner, L. C. R. St. John, sworn said his duty was to keep the cars clean. He had nothing to do with brakes or external repairs. He swore that the racks in use in car 17 in July, 1905, were similar to that produced in court.

In closing the case for the crown, Mr. McAlpine claimed that according to the evidence submitted by Dr. Christie yesterday, it was shown that plaintiff was injured, and that by the evidence of Dr. Emery about 30 per cent. of ruptures occurred. The crown, he thought, should not be held responsible for the acts of passengers on railway cars. Regarding damages, he felt that if the plaintiff in the opinion of His Lordship, was entitled to any relief, the indemnity, it should not exceed the amount of his wages for the time he was idle, and for his doctor's bills.

As to bodily injuries and physical suffering, he thought it was absurd that any sum should be given for such.

He quoted passages from the Dominion to show that if a person wished to claim indemnity for injuries received in a railway accident, his claim should be instituted before the expiration of one year.

Mr. Powell cited many railway cases which might make clearer the case in question. He claimed that in this case the New Brunswick acts only should apply. There was some discussion between Mr. Powell and Mr. Powell regarding the meaning of the acts of limitation referring to personal injuries.

He stated that the plaintiff was entitled to money amounting to \$230 for time lost from work and \$80 for medical expenses. He stated that at least \$1,000 should be given for bodily injuries and physical suffering.

The judge said he would like to have more authority on the questions pending before rendering any decision, and for that reason would reserve judgment until some time in September.

PREPARING FOR THE FALL FAIR

King's Daughters Appoint Committees for Bazaar in November.

At a meeting of the King's Daughters' Guild held yesterday afternoon, the following convenors of committees were elected for the fair to be held in Keith's assembly rooms during the first week of November:

Candy booth—Mrs. G. W. Campbell.
Apron booth—Mrs. C. A. Clark.
Handkerchief booth—Mrs. G. A. Teed.
Fancy work booth—Mrs. John Bullock and Mrs. S. T. Vaughan.
Ball booth—Misses Estabrooks and Eady.

The kitchen table will be in charge of Mrs. J. O'Brien, while the tea committee will have as their convenor Mrs. A. Mc-Nicol. The Winogene Circle will look after the fishing pond, and other committees will be formed later on.

The convenors of the different committees in charge of the various booths will appoint their own committees.

PROPOSAL IS OFF

Not Likely That Anything More Will Be Heard of plan to Organize New Brunswick Athletic Body.

The proposed meeting of athletic organizations for the purpose of discussing the formation of a New Brunswick governing body is off indefinitely. It would now seem doubtful if the matter will be again taken up. There is apparent difficulty in getting together with President Lithgow, and the opposition, or refusal to participate, on the part of the towns like Fredericton and Moncton, whose presence is essential, are matters that give the thing a black eye. All this is unfortunate, as it is most discouraging to those more prominent ones who are ever striving to straighten out the present unsatisfactory state of affairs.

RAIN IS BADLY NEEDED

Dry Weather is Helping the Forest Fires and Hindering the Crops

All over the province the farmers are anxiously awaiting rain. A downfall is needed, not only for the crops, but it is urgently desired for the quenching of the forest fires that are raging in the different sections. Suburbanites arriving in the city on the C. P. R. trains this morning, tell a heavy fall of smoke that is apparently coming nearer all the time to the line of railway. The fire is south of the railway, probably in Charlotte county.

There was some alarm about the city yesterday when a heavy smoke was seen back of Crocodile. Inquiries were made and it was stated there was no danger, as it was simply a bush fire on the Lower Black River road and was under complete control.

The annual Pharmaceutical examinations for the province will be held tomorrow and Friday in the Pharmaceutical Society rooms, in the market building.

Mr. and Mrs. Charles McDonald came in on the Montreal train at noon.
