ROSEFIELD ONLY A GAME BUTCHER, SAYS NATURE WRITER WILLIAM J. LONG

Failing to Find Buffalo, He is Content With Warthogs—Hunting Yarns and Useless Skins and Bones the Only Product of African Trip

STAMFORD, Conn., May 28.—Dr. William J. Long, the former minister and nature writer, some of whose writings were bitterly attacked by Theodore Roosevelt when he was President, said today, speaking of the reports of Mr. Roosevelt's hunting trip: "They prove what I said two years ago, quoting from his own books, that he is a game butcher pure and simple, and that his interest in animals lies chiefly in the direction of blood, butchery and brutality. 'You remember that when he made terms with the Smithsonian Institution his published letters said: 'Of course, I am not a game butcher,' and that he immediately reserved for himself the right to do all the killing on the expedition. This is characteristic of his alleged scientific attitude. Matthew Arnold declared that 'conduct is three-fourths of life,' and Mr. Roosevelt adds that butchery is three-fourths of science."

CONTENT WITH WARTHOGS. "In the dispatches I notice that when he could not find buffaloes he had to content himself by shooting warthogs and other inoffensive creatures. As the buffaloes are fast disappearing from Africa, and Mr. Roosevelt has already killed several, why in the name of science should he go out to kill more? And why, failing to find buffaloes, should he content himself by slaughtering other creatures? "The whole thing is atrocious. It is exactly like his own record of killing seven bull elk on one trip and then, on his way out, killing two more dead found fighting. These men were unfit to use and was left to rot in the woods. Then he proceeded to us on the virtues of game preservation, and when he comes back from this trip you will hear his righteous dissertation on the man who studies the living animal, or, of course, after he has killed everything he could find.

"Mr. Roosevelt reminds me of an alleged ornithologist whom I met killing warblers the other day, and he thought he was studying birds. The only thing we will get out of the much-heralded trip will be some hunting yarns, almost as variegated as Mr. Roosevelt's account of his heroic exploit at San Juan Hill, and some more skins and bones of which we have already too many. The only person who will ever learn or teach anything of value is the man who studies the living animal, not the man who glazes over a dead one.

INFLUENCE BRUTALIZING. "The worst feature in the whole bloody business is not the killing of a few hundred wild animals in Africa, but the brutalizing influence which these reports have upon thousands of American boys. "Only last week I met half a dozen little fellows in the woods. The biggest boy had a gun and a squirrel tail in his hat, and he called himself Evans Tumbo. They were shooting verything in sight, killing birds at a time when every dead mother meant a nestful of young birds slowly starving to death. And how could I convince them that their work was inhuman? Is not the great American hero occupied at this time with the same detestable business? And why should they not also be heroic and make a few fine shots and content themselves with rabbits and rabbits since gaunal naturalists and other game butchers have killed off all our buffaloes?"

PORT ARTHUR WILL HAVE BIG DRYDOCK And Shipbuilding Plant Employing 300 Men—Agreement Signed Yesterday.

PORT ARTHUR, Ont., May 28.—An agreement was signed today on behalf of the city with a new company, the Western Drydock and Shipbuilding Company, Limited, composed principally of Cleveland capitalists and including Bowman, of Southampton. The agreement calls for the construction and operation of a drydock capable of receiving the largest vessels on the Great Lakes and a shipbuilding plant capable of building three hundred men and will increase the number soon.

A. O. H. PLANNING BIG EXCURSION To Ste Anne de Beaupre and Grosse Island

Will Take Place in August at Time of Unveiling Monument to Irish Immigrants.

The local branch of the A. O. H. are to join with the order in Halifax in conducting a mammoth pilgrimage to the shrine of Ste. Anne de Beaupre, Quebec. Arrangements are now being made with the intercolonial for the excursion and a date in August will be fixed. One of the principal features of the visit will be the unveiling of the Irish immigrant monument at Grosse Ile. Last week the members of the construction committee of the A. O. H. paid a visit to the cemetery, where an altar will be erected for the purpose of having solemn benediction on the 15th of August, the date set for the unveiling. A suitable pathway to connect the cemetery with the monument site has been surveyed. The elaborate preparations being made by the A. O. H. for the conveyance of the public to and from the island on this occasion will render it a most memorable day for Irishmen all over the continent.

TRUNKS SPECIALLY BUILT FOR SMUGGLING N. Y. Customs Men Discover a New Dodge

False Bottoms in the Trunks Enable Passengers to Hide Their Valuables—Wealthy Woman's Baggage Held

NEW YORK, May 28.—A big French steamer trunk brought into port by a wealthy Boston woman has revealed to the customs men, they say, not only a large number of smuggled goods concealed under a false bottom, also the fact that such trunks are being regularly manufactured by a firm in Paris especially for the American trade. In other words "smuggling trunks" are a staple commodity in the French capital. The trunk in question was found on the other side of the water have already been looking for the manufacturer of a rich Bostonian. On her declaration she had entered dutiable goods to the amount of a little more than \$100, which was plainly visible in one of her three trunks. When the trunks were emptied the smuggled articles were found to include two seal-skin sacks, two sable boas, two sable mufflers, two silk gowns, and velvet, a large number of lace handkerchiefs and napkins, several dozen pairs of gloves and a number of Italian corals, canes and set jewelry. Placing a very low estimate upon this collection the custom appraisers said it was worth \$3,000. Among a bundle of bills and invoices was one showing that Mrs. Chesborough had purchased a necklace costing \$6,000 francs, or \$1,000. This was not in the trunk, and examination of the custom records showed it had not been declared or levied upon. Yesterday Mrs. Chesborough's husband came from Boston. He was asked first about the \$15,000 necklace. He said that the necklace was purchased by him in March and that he had it sent to Washington to await the tariff decision on set pearls. He said that if the duty was reduced from 10 to 10 per cent, he would immediately bring in the jewels. Mr. Chesborough explains that his wife did not understand the nature of her act and agreed to pay all duty on the undeclared goods.

ENGLISH BROKER WAS ARRESTED AT QUEBEC On the Charge of Embezzlement—Prince Rupert Land Sales Brought a Million Dollars.

QUEBEC, May 28.—A London (England) broker, Lindsay Gerrard, was arrested yesterday afternoon just as he landed from the Corsican coming from Liverpool. The local police had been instructed by cable to arrest him on the charge of embezzlement. The cable gave no details, but when the steamer docked High Constable Gale was on the breakwater, accompanied by Detective Parry who took the man in charge. Gerrard will be held here until a police official who is expected on one of the incoming steamers, arrives from England.

CLERKS WILL GET THE USUAL HALF HOLIDAY Hardware Men Wanted September Also

And Dry Goods Clerks Asked for June—Neither Request Granted—What the Merchants Think About It.

The hardware clerks will get a sigh of relief as they leave the stores tonight when they realize that this is the last Saturday afternoon and evening in which they will have to work for three months. The customary agreement to close at one o'clock has been signed this year by W. H. Thorne and Co., Ltd., T. McAvity and Sons, Emerson and Fisher, Smith, Robertson and Foster, J. Leitch, The S. Hayward Co., and the Jas. Robertson Co., Ltd. The ship chandlers including A. W. Adams, J. Spence and Co., and Jas. Knox have also signed the agreement. The agreement covers June, July and August in other years. An effort was made to have the half holiday extended to September, but as this is the insurance and other business offices observe the half holiday the year around, but it is only during the past few years that the retail clerks have had a chance to get away from the stores before late on Saturday evening. As the usually the busiest time of the week in the stores the employees naturally do not much appreciate having this trade and making of the customers, especially those from out of town, find it somewhat of an inconvenience. These things have tended to keep the movement from spreading and make it the object of considerable opposition. As far as is known the dry goods stores and the men's furnishing stores will close as usual during July and August this year. Several of the leading stores, speaking to the Star yesterday, said that the most had not been discussed, but they expected to close for these two months. It was suggested a month ago that an effort be made to have the stores close in June also but this did not amount to anything. For several years an agreement was made by the book stores to close on Saturdays, but owing to the fact that some of the merchants did not keep to the agreement the effort has been discontinued. One King street book seller explained to the Star that a large part of their trade was transient and would be lost taken advantage of at the time. To make up for the half holiday he always lets his clerks off during the week, and in this way they get more time off than they would on Saturdays.

A WESTERN VILLAGE THREATENED BY FIRE Windsor Employe in Suspense For Ten Minutes

Magnificent Growth of Wheat—Mining Claims, Offered for Sale in Vancouver, Were Withdrawn

WINDSOR, Ont., May 28.—Jos Pero and another workman were stretching wires across the trolley wires of the electric railway when the feed wire of the railway company came in contact with the one Pero held in his hands. The shock which he received threw him from his position on the pole, but his belt, fastened to the pole, held him suspended in mid-air more than ten minutes before he could be rescued. His hands and arms were badly burned. The wire carried 6,500 volts. WINDSOR, May 28.—A marvelous growth was illustrated by a sample of wheat received by the government yesterday which measured 51-2 inches in height. ABERNETHY, Sask., May 28.—This little village was threatened with destruction by fire yesterday for a time and a number of buildings were consumed before the flames were finally got under control through the resistance of the cement walls of the Bank of Hamilton building; loss, \$25,000. VANCOUVER, B. C., May 28.—At the auction sale in the Board of Trade rooms yesterday \$150,000 was bid for mineral claims in Osoyoos division of Yale. The claims were Idaho, Steamboiler, Hawthite, Brooklyn, Montezuma. Property was withdrawn. The sale was ordered by the court.

Story That F. B. Carvell is to be Made Minister of Militia in Place of Sir Frederick Borden Who is to Succeed Lork Stratheona as High Commissioner

During the past few weeks unexpected situations in political affairs have created some curiosity throughout Eastern Canada, and people who take an interest in such matters have been wondering what is to come next. The interest has developed directly from the recent elevation of Messrs. McKenna and Barry to the Supreme Court bench. It was generally anticipated that Mr. Frank B. Carvell, of Carleton County, would be one of the new judges, and in fact he was at first spoken of as definitely chosen for the honor. But gradually his name was dropped, and that of Messrs. McKenna and Barry taken up.

Not until a few days ago was it learned that Mr. Carvell might have had the judgeship had he so desired. The appointment was suggested to him, and he decided not to accept. Mr. Carvell has been asked why he pursued this course, and explains that he feels himself too young a man to be retired from active participation in public affairs. He expresses his faith in the continued success of the liberal party, and looks forward also to his own success in holding Carleton. While this explanation has satisfied many, there are some more closely following political affairs, who feel that other changes are under consideration and that Mr. Carvell's future is not merely that of a member of the house. Whether or not there is any ground for the rumor, the latter is informed by men closely in touch with public affairs, that New Brunswick will in a very short time have two representatives in the cabinet, and that Nova Scotia will have only one. Everybody knows that in a few weeks Sir Frederick Borden, Minister of Militia, will leave for London to attend the Defence Conference, of which Sir Frederick will not come back, but will carry with him his appointment to the office of Canadian High Commissioner. Sir Stratheona has for several years been desiring of retiring and it is intimated that he will do so under consideration and that Mr. Carvell's promotion leaves vacant the portfolio of militia, and it is to this office that report says, it will well to be called. Mr. Carvell's ability has long been recognized, and his elevation to a more responsible position than he now occupies has several times been predicted.

PETITION BEARS MANY WELL KNOWN NAMES Was Presented to the Council Yesterday

Highly Praises Engineer Murdoch and Asks That He Be Continued in Control of Both Departments.

The following is the petition, with the names of those who signed it, which was presented to the Common Council at yesterday's special meeting and referred to the Water and Sewerage Board. It was called forth by a petition presented some time ago, asking that Engineer H. G. Hunter be placed at the head of the Water and Sewerage Board. To the Water and Sewerage Board and To the Mayor and Aldermen of the City of St. John: Your honorable body, some few months ago, having decided to unite the Departments of Water and Sewerage and Public Works under one executive head, appointed Mr. William Murdoch under the title of City Engineer. This important work of your honorable body met with the approval of the citizens generally, and we think it would be a great mistake, so soon after the change referred to, to revert to the old order of things in the city government. Mr. Murdoch is a gentleman of great experience and ability, and is thoroughly posted on all the requirements of the public service of the city. He has the entire confidence of the great majority of our people and his appointment met with the hearty approval of all classes. We humbly suggest to your honorable body not to interfere with the present arrangement (as has been suggested by interested parties) but that every encouragement and support be extended to Mr. Murdoch in the highly responsible position he occupies. Dated the eleventh day of May, 1908. The petition is signed by the following: Macaulay Bros., A. O. Skinner, McRobbie Shoe Co., Ltd., E. G. Nelson & Co., John Keefe, Wm. BACK FROM HORSE SALE

Thos. Hayes Makes Two Purchases Lord Hastings and Blomidon Rank Among the Best

After a highly successful trip to Boston, where he attended the large auction sale of horses at Readville, Thos. Hayes, the well known local horseman, reached the city at noon yesterday.

Mr. Hayes secured two excellent animals in Lord Hastings and Blomidon. Blomidon has a record made in 1908 of 2:21.2 on a half mile track. The animal was bred and consigned by the Springfield stables and is a member of A. B. Cowan's string.

Lord Hastings is a mare with perfect high action and a show mare of exceptional quality. The pedigree of Lord Hastings should attract the breeders. Mr. Hayes has undoubtedly secured a fine animal.

Blomidon is a two-year-old he worked a mile in 2:25.3, a three-year-old in 2:19, and last year at four in 2:18.4. On several different occasions the animal has been timed eighth of a mile in 1:18 and 1:2 seconds. The horse is undoubtedly one of the finest ever seen here for a long time.

Mr. Hayes has also secured Quincy, a pacer marked at 2:24, and Goldfinger, which Mr. Hayes announces that the horses would stand at his stable on the Marsh Road, and that later they will be seen in races on provincial tracks.

The proposal of the Common Council to initiate a programme of permanent street paving was much discussed about the streets yesterday. While the universal opinion is decidedly in favor of the project, there exists a difference of opinion as to just how the work should be undertaken.

A number of leading merchants interviewed by The Star expressed the belief that the three members of the Common Council who had accepted the offer of a paving company of a free trip through the new England States had businessly compromised themselves in the matter.

Others again thought the free trip might work out to the advantage of the city. All were of the opinion, however, that it was high time the work of paving the streets was commenced.

The Star Theatre in North End will have a big Saturday night bill, and another new programme Monday at afternoon and evening. It has been decided to hold only two matinees each week in this theatre during the warm weather--Mondays and Saturdays. The evening shows will begin at 8.30 as usual. Orchestra Tuesday and Thursday nights.

It should think it would be a great relief at night to get home and away from the ceaseless asking of questions," remarked the stranger. The bureau's informant then smiled a wan smile.

"It isn't much relief," he replied; "it's the father's eight children."

SPORT

ACADIA WINS COLLEGE MEET

MONCTON, N. B., May 28.--Notable strength in running events in all of which except the hurdles the Garnet and Blue was to the front, combined with ability to score seconds and thirds in other events enabled Acadia to retain the intercollegiate athletic championship to the annual games held at Moncton A. A. track today.

Acadia had a margin of nine points over Mount Allison, scoring a total of forty to Mt. Allison's 31, while the U. N. B. was a poor third, with a total of 49. No records were broken, but the 220 yards dash Camp of Acadia came within one-fifth of a second of the intercollegiate record of 23.8, held by Vaughan Black of Mount Allison.

Many of the performances were mediocre in quality. The high jumpers got within an inch of Joe Howe's intercollegiate record, and Doc of Mount Allison made an exhibition effort to set new figures in pole vault, but failed. Runners of Acadia College made a clean sweep in all running events excepting hurdles, from one hundred yards dash to the mile, and incidentally furnished some surprises.

Moland, who showed his heels to everyone else in sprint last year's intercollegiate, and who had been expected to repeat this year, fell in shorter dashes before stocky little Camp, who broke type in both the hundred yards dash and four hundred yards. To complete surprise, Moland turned out and won both the quarter-mile and mile events in commanding style.

Of ten events Acadia won five, Mount Allison and U. N. B. getting two each and dividing first and second points in high jump, in which Beer and Brooks tied. Mount Allison showed winning form in pole vault and shot putting, while Armstrong carried the colors of the U. N. B. to the front over hurdles and Deedes won the hammer throw. The best scorer of the meets was Moland of Acadia, with two firsts, second and third to his credit, totalling fourteen points. Camp won in other ten points for the Nova Scotia college.

While Moland finished right on his heels with Lord of Mt. Allison following and Connolly of U. N. B. not far back. Upon motion of the American delegates the conference voted to recommend that the Swedish managing committee follow the example of the British committee and appoint international judges to assist the Swedish judges at the games.

"Ma wants two rounds of butter exactly like what you sent us last. If it ain't exactly like that she won't take it," said the small boy. The grocer turned to his numerous customers and remarked handsly: "Some people in my business don't like particular customers, but I do. It's my delight to serve them what they want. I will attend to you in a moment, little boy."

"Be sure to get the same kind," said the boy. "A lot of pa's relations is visiting at our house and ma doesn't want 'em to come again."

Many are the stories which are told of the wit of Herr Rosenthal, the well-known pianist, who recently made his reappearance in London after an absence of nine years.

"I am losing a tremendous lot of money in connection with my recitals," said a not too successful pianist to his one day, "What shall I do?" "Give fewer concerts," was Rosenthal's quick reply.

A MONUMENT TO VERNE. A good deal of interest has been aroused lately by the unveiling of a monument at Amiens to the memory of Jules Verne. Comment on this incident has been generally in the nature of references to those of the deceased author's works which deal with the navigation of the air. This is natural enough in view of the fact that the greatest development of late years in aeronautics has been in France, although perhaps not wholly on the part of French experimenters.

tendency of those conducting the business, who naturally have the interests of their shareholders at heart, it is scarcely to be expected that any systematic scheme may be looked for. On the other hand, certain educational authorities in Great Britain feel that without interfering with the commercial aspect of the picture business, they may be able to adapt this industry to their own purpose.

THEIR USE. Said he, "What good are rich relations, Oh, they are all right when you want something to point to without pride."

A DIPLOMAT. "I thought you told me when I engaged you that you never used tobacco," thundered the great statesman.

HEAVY. He had just eaten her home-made bread for the first time and was pensive. "Darling," asked the bride, with a joyous smile, "what are you thinking?"

ON A LINER. A Captain on a liner says he is feeling invariably asked the following line questions on each voyage: "Have you ever been shipwrecked?"

CONSUL WILLIHCHE. While there will be general regret in commercial circles over the announcement that Judge Willrich, the American Consul, is to remove from St. John, there will also be a feeling of pleasure that his able services on behalf of his country have been recognized by well deserved promotion.

EDUCATION BY PICTURES. Moving pictures as a practical feature in education are receiving serious consideration in England. Eminent educationalists recognizing the fact that children more readily understand and retain what they can see than what is told to them, and realizing the almost unbounded possibilities of the camera, are giving thought to the problem of how the lantern and screen can be used to advantage in systematic instruction.

What an unlamented sight to see two people married but not united. Not good friends, not wanting to be together. He fond of reading, she sleeping over a book, or vice versa. He loving the beautiful in sky, stream, woodland, lake or mountain; she having eyes but seeing not, bored by what appears to him.

ON A LINER. A Captain on a liner says he is feeling invariably asked the following line questions on each voyage: "Have you ever been shipwrecked?"

What tips are given usually, and to whom? How many times have you crossed the Atlantic? What's the best remedy for seasickness?

Why are they always painting the ship? Will you let me come up on the bridge some day? Do you remember my cousin who crossed over with you in '87?

I suppose the passengers ask you a great many stupid questions?

THE MARRIAGE MONTH. In almost here, and many June brides and grooms are counting the days, impatiently, and some are looking forward to their bridal nervousness and apprehensiveness.

Divorce seems to be on the increase, and the number of divorces does not tell the number of unhappy marriages.

The expense in Canada keeps many out of the divorce courts, and the publicity and unenviable notoriety keeps out numbers of others.

Marriage since God ordained it, and "divine revelation has declared marriage to be honorable in all," and it is written, "It is not good for man to live alone," ought not to be a lottery.

If it is right to get married as long as you don't marry another man's wife or girl, why should marriages so often turn out badly?

You need not say, "Oh, I think most marriages are happy ones, reasonably happy, at least." No, they are not. They are unreasonably unhappy ones, and I verily believe that they need not be.

Every soul has his mate somewhere waiting for the call of his mate, and if you wait and let the fates arrange for you, there will be no mistake.

A boy, a crude callow boy, goes to ball room, theatre or picnic to select a wife-for a man, and he selects a crude callow girl who thinks it will be "such fun to get married."

If the boy was never to be a man he might select a suitable wife-for a boy-but how can he select a suitable wife for the man he will (or may) be some day?

There can be no more beautiful sight than to see husband and wife growing old together. The best of "chums" and good comrades. Perfectly at home with each other. His tastes her tastes, her likes his likes. Both fond of books, or neither fond of them both enjoying in travel or both wanting to stay at home.

What an unlamented sight to see two people married but not united. Not good friends, not wanting to be together. He fond of reading, she sleeping over a book, or vice versa. He loving the beautiful in sky, stream, woodland, lake or mountain; she having eyes but seeing not, bored by what appears to him.

God bless June brides, and the brides of all the months. May husband and wife be happily mated. If sentiment dies may strong enduring fellowship and true union abide.

THE COST OF LIVING IN FRENCH TOWNS

Interesting Report on Conditions of Municipal and Industrial Life—British Board of Trade's Pamphlet Shows French Pay Smaller Rents, Yet Accommodations are Inferior.

The promised report on some of the principal conditions of industrial life in France was issued last night by the Board of Trade (Cd. 4612). It is a companion volume to those published last year for the United Kingdom and Germany, and it deals with the same factors—namely, working-class housing and rents, food and prices, wages and hours of labor. The bulk of the material was collected by special investigation in October, 1908, at the same time and in the same lines, it covers thirty towns, or rather centres of industry, distributed over the whole of France, including all the chief seats of trade and manufacture, and representing a great variety of occupations and conditions; so that it furnishes an adequate basis of comparison, which is, naturally, the chief purpose and the most generally interesting feature of such an inquiry. The addition of France greatly enhances the value of the series. When two countries are compared—especially when their relative position is the object of such keen interest as in the case of Great Britain and Germany—there is a great tendency to draw hasty conclusions from selected facts or figures and to discover a connection of cause and effect between one thing and another merely because nothing else is presented to view. A third country furnishes a means of checking this tendency by showing similar results occurring under different conditions or different results under similar conditions; and at the same time it provides corroboration of sound conclusions.

LIMITS OF COMPARISON. A prefatory note by the late Wilson Fox has the melancholy interest of being his last contribution to these valuable investigations, which owe so much to his labors. After stating the subject matter of the report, he refers to the method of comparison by index numbers, and repeats a previous warning of the importance of bearing its limitation in mind. "Valuable as is the method of index numbers as a means of consolidation of data and arriving at approximate comparisons of things otherwise difficult to measure, the results which it affords are at best only approximate, and must always be regarded as subject to many qualifications arising, for instance, in the case of prices, from difference of kind or of quality between the articles consumed in the various countries under comparison, or, in the case of rents, from differences in the kind of accommodation. These qualifications are due largely to differences in national tastes and modes of life. "The broad conclusions drawn by Mr. Fox are thus stated: "As regards rents, it appears that the French workman pays somewhat less than the English workman for a corresponding amount of housing accommodation, and therefore much less than the German workman; but against this must be set the fact that his housing accommodation is, as a rule, decidedly inferior in quality. The difference between the rent level of the capital and the rest of the country is quite as marked in France as in England or Germany. "The range of town price levels is not very wide in any one of the three countries investigated, and in France, as in the other two, the difference between one town and another in the cost of living (so far as it relates to expenditure on food) are, as a rule, by no means great. When the relative levels of food prices in the three countries are compared, so far as the data permits, it appears that the general ratio of French prices to English prices for corresponding commodities is the same as that of German prices. "On the assumption which has been adopted for the purpose of these international comparisons it follows that an English workman, with an average family, who should go to France and endeavor to maintain here his accustomed mode of living, would find his expenditure on rent, food and fuel substantially increased—though not to so large an extent as if he had gone to Germany. On the other hand, he would find his wages to be lower than in the latter country and much below the English level, in spite of longer hours. "As pointed out in the prefatory note to the volume dealing with Germany, the results of the comparison are somewhat modified if we take as its basis the foreign rather than the English mode of living. A French workman living in England according

to his French standard would find a certain reduction in the cost of food, but a rise in the cost of housing accommodation. On the whole his expenses of living would be somewhat decreased, but in a proportion by no means as great as that by which the English workman would find his expenses increased on migration to France. HOUSING AND RENTS. Coming more to detail, we learn that the kind of housing more varied in France than in England or Germany. No one type is markedly predominant. In about one-half the towns visited the tenement building is the prevalent form; in about one-third the small separate cottage; in the remainder data and arriving at approximate comparisons of things otherwise difficult to measure, the results which it affords are at best only approximate, and must always be regarded as subject to many qualifications arising, for instance, in the case of prices, from difference of kind or of quality between the articles consumed in the various countries under comparison, or, in the case of rents, from differences in the kind of accommodation. These qualifications are due largely to differences in national tastes and modes of life. "The broad conclusions drawn by Mr. Fox are thus stated: "As regards rents, it appears that the French workman pays somewhat less than the English workman for a corresponding amount of housing accommodation, and therefore much less than the German workman; but against this must be set the fact that his housing accommodation is, as a rule, decidedly inferior in quality. Dodd's Kidney Pills Cured Mr. C. Williams' Rheumatism. HE TOOK THE TERRIBLE DIS-EASE IN TIME AND A SINGLE BOX MADE HIM A WELL MAN. SOUTH INGHAM, Cape Breton, May 23 (Special).—How easily and quickly Dodd's Kidney Pills banish rheumatism and other symptoms of Kidney Disease is well known in the case of Michael C. Williams, a fisherman living in this place. "My Kidney disease started from a strain," Mr. Williams says, "I suffered from it for about three months. I had backache, stiffness in the joints and rheumatism. What I ate in the morning I had a bad taste in my mouth; I perspired freely with the least exertion, and I was always tired and nervous. "One box of Dodd's Kidney Pills cured me and I have been cured ever since. I have been suffering from Kidney Disease for many years. If you have any one of the symptoms mentioned by Mr. Williams you may be sure of two things. One is that your kidneys are sick, and the other is that Dodd's Kidney Pills will cure you. Dodd's Kidney Pills have proved in thousands of cases all over Canada that they never fail to cure Kidney Disease of any kind or stage.

## HOMELESS PASTOR, MOTHER AND SISTER NOW IN ALMSHOUSE

### Pauperism Final Step of Two- Year Church Fight—Ousted From Parsonage, Wander Without Food or Shelter

TRUROVON, Pa., May 28.—The Rev. W. C. Heyer, until recently pastor of the Lutheran church here, sleeps to-night in the almshouse, a pauper. With him are his old mother and his sister, both women also classed as paupers. This situation marks the end of a controversy that dragged through several years, a quarrel between a pastor and his congregation.

Had it not been for a few kind-hearted friends last night the Heyers would have been compelled to sleep in the woods. The preacher, his mother and sister had been sent away from the almshouse because commitment papers had not been made out. They were preparing to lay down on a few boards when they were taken into shelter.

Briefly, the trouble between the pastor and his people was due to a desire on the part of the congregation to get rid of him. The Rev. Mr. Heyer refused to quit. His salary was taken away, he was not allowed to preach, and was evicted from the parsonage. In spite of all this, he insisted that he was pastor, and he remained. He spent his last dollar supporting his loved ones, and then went to the almshouse.

Mrs. Heyer is ill from exposure and lack of food, her daughter has suffered from cold and the clergyman is wan and weak.

MINISTER REFUSES MONEY.  
There are only three beds ready for paupers in the almshouse. One is now occupied by Isaac Swineheart, an old disabled mine worker, while Mrs. Sarah Treen, the matron, says the second bed can be used by Mrs. Heyer who is seventy years old, mother of the clergyman, and his sister, who is thirty-eight years old.

Mrs. Treen is much flustered over the condition of affairs, but says she will do the best she can for the ministerial party.

Three weeks ago they were evicted from the parsonage. They occupied it until the carpet was pulled from under their feet and the tea kettle, boiling merrily, was lifted from the cook stove. A constable, aided by parishioners, participated in the excitement. Aid for a short time after Mrs. Heyer, seated on a chair in the street outside the house, contracted such a bad cold that she has suffered severely ever since.

Mrs. Heyer and his relatives, are Germans without kin in the United States.

Dr. J. Reichert offered Heyer a \$10 gold piece, while other persons collected \$30. The minister would not accept a cent, saying he could not take anything. Andrew Shoenert, a lawyer, permitted the minister's household effects to be stored at his home, and the Heyers were given refuge at the Reichert home.

The following day the Heyers removed to the poorhouse, the clergyman saying he would impose on no one's charity. He arranged to pay the matron \$5 per week for the maintenance of the three.

A hotel is close by, and occasionally the minister sent his mother and sister there for meals, but did not accompany them.

### FORTIFIED AT FIFTY Dr. Williams' Pink Pills Bring Health and Strength to Women at a Critical Time

Few women reach the age of fifty without enduring much suffering and anxiety. Between the years of forty-five and fifty health becomes feeble and acute weakness arises with rheumatic attacks, pains in the back and sides, frequent headaches, nervous ailments and depression of spirits.

The secret of good health between forty-five and fifty depends upon the blood supply. If it is kept rich, red and pure, good health will be the result, and women will pass this critical stage in safety. Dr. Williams' Pink Pills help women of mature years to health, and brings relief from suffering.

Mrs. C. Donovan, Newcastle, N. B., says: "About two years ago I was greatly run down and very miserable. I did not know what was wrong with me. I was hardly able to dress myself about, had severe headaches and no appetite. I took so much of Dr. Williams' Pink Pills that I felt better and I decided to try them, and I can now truthfully say that they have brought me back to health. Under their use my health gradually came back; I could eat, sleep, and feel better and felt stronger in every way, and before long I was enjoying as good health as ever I had."

Dr. Williams' Pink Pills cure by going to the foot of the trouble in the blood. They actually make new blood. There is what you cure such troubles as rheumatism, neuralgia, indigestion, kidney troubles, headaches, aches and backaches, and the ailments of growing girls and women of mature years. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

A big fire broke out about eight o'clock last night in the brush near the site of Smith's mill at Fredrickton Junction. Up to an early hour this morning it had travelled over a large tract of timber land and was still burning in a southerly direction. The loss in timber will be quite heavy. No buildings have been lost. A force of men remained on the ground during the night to protect the buildings nearest the fire, but as the fire is traveling from the town it is not thought that any buildings will be lost.

## DO FAT FOLKS WORRY?

Most thin people would say, no. Most fat folks, yes. They have all the causes for worry they people have, and one other—their fat. Fat mortifies women because it spoils their appearance, and it distresses men, for it affects their activity. A few are afraid of it. There are few fat members of either sex who do not gladly dispense with 30 to 50 pounds if they can. The "how" is explained in a leaflet which will be sent you free, which says, "Do not worry! Do not do away with all the necessary exercise or dieting. It never causes wrinkles or stomach disturbance, and 12 to 16 ounces of fat told, so means an unusual amount of fat to be off of you."

## WOMAN EITHER MURDERED OR FRIGHTENED TO DEATH

HALIFAX, N. S., May 28.—Lying in death at the undertaker's is the body of Mrs. Johanna Harrison, while in the police station Percy Wallace is under detention and may face a charge of murder in connection with the affair. Upon autopsy which will be performed on the woman's body tomorrow will depend the action of the police. At present there is a mystery as to whether the woman was choked to death by Wallace or died from fright and shock. Several physicians who made superficial examination of the body incline to the latter theory.

Late tonight, Mrs. Harrison, in company with her sister, Miss Comfort, left the Argyle Street entrance to Nova Scotia furniture building, where they had been working. As they came out of the door, Wallace staggered along the street under the influence of liquor and fell in the door. Miss Comfort went across the street to get some person to remove him, leaving her sister on the sidewalk. With three young men she came back in a moment or so, and found her sister in the door in the grasp of Wallace. They dragged him off her.

"He's choking me," exclaimed the prostrate woman and then sank back. These were the last words she spoke. Wallace was at once arrested, but made no statement. There were marks on the side of the woman's neck, and her face was cut, the latter injury being received by falling.

NEW YORK, May 28.—David B. Date, who says he is a Connecticut farmer, was arraigned before Magistrate Purton in Brooklyn today, charged with having swindled Henry Priedekamp, a barber, out of \$500, which the latter says, he gave to Date for a half interest in an anti-noise machine.

Magistrate Purton, after following the testimony closely, said that, in his opinion, Priedekamp had been duped, and held the prisoner under \$500 bail. Priedekamp's attorney brought out the fact that since the barber had given up the \$500 the defendant had mar-

## FINDS SHE IS HEIRSS WHILE HOUSECLEANING

Discovers Will of Preacher Bequeathing Her Nearly \$200,000.  
Pastor Had Lived With the Family for a Number of Years Before He Died.

PHILADELPHIA, May 28.—To discover while housecleaning that she had been named as the chief legatee of a large estate by a man who was not known to have any considerable possessions, was the unusual surprise which recently came to Mrs. Margaret Haig, of 2333 Reed street.

For five years prior to his death, on March 22, the Rev. Dr. John Kirkpatrick, who many years ago was pastor of Westminster Presbyterian church, then at Broad and Plover streets, resided with Mr. and Mrs. George Haig at the Reed street address.

After the clergyman's death the Rev. Dr. D. Stuart Moore, of the Church of the Atonement, Broad and Wharton streets, a family connection, went through Dr. Kirkpatrick's effects and then took out letters of administration. A month later Mrs. Haig, assisted by her neighbor, Mrs. Ida Dwyer, of 233 Reed street, was cleaning the room which had been occupied by the aged minister. A bundle of papers was found.

It was about to be cast aside by Mrs. Dwyer, when she, with true housewife's instinct, advised that the papers be first examined. This Mrs. Dwyer proceeded to do, and she happened to discover on a sheet of note paper a bequest by Dr. Kirkpatrick to "his friend Mrs. Haig" of all his property with the exception of a legacy of \$10,000 to his sister, Margaret Moore, of Trenton. The paper, purporting to be a will, will be the date of March 22, and was apparently executed by the minister on the day of his death. It had no witnesses.

The document was taken to Attorneys Clevenger and Patton, who have filed a petition asking a revocation of the letters of administration granted to the Rev. D. Stuart Moore. The value of the estate has been estimated at \$200,000.

## WHEN YOU CAN'T SLEEP.

There is many a man and woman tossing about at night upon a sleepless bed. Their eyes do not close in the sweet and refreshing repose that comes to those whose heart and nerves are right. Some constitutional disturbances, worry or disease has so debilitated and irritated the nervous system, that it cannot be quieted.

Or again, you have a sinking sensation, a feeling you are going to die, or perhaps you wake in your sleep feeling as though you were about to choke or smother, and rest leaves you for the night. If you allow these conditions to continue for a short period over, you will begin to feel your health declining. It is the nerves and heart not acting rightly, and they can only be set right by the use of Milburn's Heart and Nerve Pills. They soon induce healthy, refreshing sleep, not by deadening the nerves, but by restoring them to healthy action.

Mrs. E. Nett, St. Mary's, Ont., writes: "I can gladly recommend your Milburn's Heart and Nerve Pills as I was greatly troubled with my nerves. I was so bad I could not sleep at night without the lamp burning, but after taking four boxes of the pills I became all right again."

Price, 50 cents per box; 3 boxes for \$1.25, at all dealers or The T. Milburn Co., Limited, Toronto, Ont.

ONCE A TEACHER;  
WILL GOVERN ALASKA

WASHINGTON, May 28.—Walter Clark, a Washington correspondent, who went to the Alaska gold fields in 1900 to make his fortune and failed, will go back as governor of the territory.

Clark, born in Connecticut, tried school teaching a while before he assumed the strenuous newspaper game at Washington. He succeeded there, and has been correspondent for the Seattle Post-Intelligencer and the New York Sun, as well as a number of other papers. He has made three trips to the frozen north, and is considered an expert on Alaskan affairs.

SAKLEVILLE, May 28.—Mount Allison closing exercises began very auspiciously tonight with a students' recital in Lingby Hall. The attendance was large and the programme was carried out without a hitch. The violin solo by Lennie Lusby, Amberst, was particularly fine, as was also the reciting by Marton Harrett, Bermuda, and song by Dorcas Johnson, Sakleville. Alice Boyce, Victoria, gave a splendid selection. The closing number by the orchestra of thirty-five instruments, including concert, flute, pipe organ and piano was excellent, and elicited rapturous applause.

DIRECTORS MUST BRING  
HEINZE'S BOOKS TO COURT

Or be Sentenced for Contempt—Heinze  
and the Secretary Have Fled to Europe  
With the Documents.

NEW YORK, May 28.—The federal grand jury investigation of P. Augustus Heinze, in connection with the alleged mis-application of the funds of the Mercantile National Bank, took a sensational turn today, when United States District Attorney Wise applied to and secured from Federal Judge Lacombe, an order directing certain directors of the United Copper Company to produce the full and complete books of that concern in court forthwith, or be declared in contempt.

The directors named, Sanford Robinson, Carter Glass, William J. Curtis and Horace Abel, reported to the court at four o'clock this afternoon, the time set by Judge Lacombe, that they were unable to comply with the court's order, as Mr. Heinze, the president of the United Copper Company, had refused to give them the books or tell them where they are. Mr. Heinze gave as his reason, they said, that he was under indictment and further investigation, so that they were helpless for the moment, but would make every effort to get into the company's vaults and search for the books if given time.

The directors told the court that they had called a special meeting to take place five days hence, when Heinze said that he knew the whereabouts of the books, and would be deposed from their official positions. Judge Lacombe, however, the directors added, had told them that if Heinze had taken the minutes books with him to Europe, Frederick Eckstein, the assistant secretary and treasurer of the company, who was included in the court order, and that he knew the combination of the vaults and was ready to aid in securing the books if they were still there.

Judge Lacombe declared that under the circumstances, he would be lenient and give the directors further time to recover the books. He fixed Tuesday afternoon as the time for them to report in court.

JOHN MITCHELL OBJECTS  
TO GUNS FOR UNION LABOR

Tears Out President Kerby, of National Association of Manufacturers, Who Want to Shake Goodness Out of Workmen

NEW YORK, May 28.—The executive council of the National Civic Federation gave out today an advance copy of an article by John Mitchell which is to appear in the next issue of the Federation's Review. The article is a reply to a speech made by Mr. Kerby, the newly elected president of the National Association of Manufacturers, at the experience of our country, the owners and managers of which work in harmony and co-operation with the organized workmen, they employ.

"Paradoxical as it may seem, the representatives of this employees' association in one breath, decry and denounce what they term 'class, division and class hatreds' and in the next breath malign and berate their fellow-citizens who are working men, and all other groups of society in sympathy with the legitimate purposes and high ideals of the labor movement.

"They claim and proclaim the right and necessity of organizing among employers, yet deny to working men the right of organization and combination. They prate about law and order, yet advocate violence and anarchy; they suggest the use of the cannon as a means of dispersing the working men; they malign and berate the great majority of the employers of labor who refuse to join them in carrying forward their unlovely and un-American designs to destroy the organized labor movement.

"To cap the climax of their inconsistency, they impugn the motives and question the intelligence of the religious, educational and philanthropic institutions of our country simply because these institutions have opened their doors to the organized labor movement and have listened respectfully to the claims made in behalf of the working men and women whose brain and brawn have contributed in no small degree to the commercial, intellectual and moral supremacy of the nation."

SCHOOL BOYS FOUND  
TRAIN ROBBER SUSPECTS

And Teacher Discovered the Registered Mail Bags—Will Get \$15,000 if Men are the Real Bandits.

OMAHA, Neb., May 28.—Three small schoolboys yesterday brought about the arrest of three men believed to be the robbers who last Saturday held up the Overland Limited train on the Union Pacific R. R. at the city limits of Omaha, and a woman school teacher discovered the loot.

The police made the arrests, but to the sharp eyes of the schoolboys belong the credit of discovering the hidden tools of the robbers, thus bringing about the arrests of the bandits. Mrs. Freeman, a teacher, scores of detectives searched the attic bedrooms of a thirty hour village, and last night they arrested the three men now in custody.

When schoolboys yesterday found hidden on the banks of the Missouri some burglars' implements, they told their teacher, Mrs. Freeman. She added that the attic bedrooms after a thirty hour village, and last night they arrested the three men now in custody.

Following the arrest near the Missouri, school detectives were taken to search for further evidence. When these sleuths were busy in vain, they noticed that a ladder used for reaching the attic of the school building had been displaced, and in the next breath malign and berate their fellow-citizens who are working men, and all other groups of society in sympathy with the legitimate purposes and high ideals of the labor movement.

Nonconformists Great Stormy Scene at Swansea Congress

(The Scotsman.)  
The Congress of the Evangelical Free Church in Swansea was, on Wednesday, roused to a considerable pitch of excitement and tumult by an address by Rev. Joseph Hooking, London, on "The alarming development of Modern Romanism." He said that in 1851 there were 668 priests in Great Britain, as compared with 2,137 in 1908. In the same period Roman Catholic numbers rose from 70 to 1,131. Those figures represented a determined effort to pervade England. Romanist pressmen were imported to British newspaper offices. Romanists were in Parliament and were seen everywhere. Romanists were also an insignificant portion of the population so far as numbers were concerned, and yet so the prominence given to Roman Catholic views. No lover of music can afford to miss a musical event of such distinction as the Mendelssohn Symphony Sextet Concert at St. John's (Stone) Church schoolhouse on Wednesday evening, June 2nd.

Policeman Marshall was called to Charles street on account of the disorderly actions of a number of boys. He arrested Ronald Harrington as one of the crowd. The boy was fined \$8, which was allowed to stand against him.

Owing to the absence of the chairman from the city, the regular meeting of the Safety Board and the Board of Public Works will not be held on Monday and Tuesday of next week as usual. The Public Works Board will meet on Friday and the Safety Board on the first of the week.

On Sunday morning Marlborough and Portland lodges, Sons of England, will join in a parade to church. They will assemble at Marlborough Lodge rooms in Old Fellows' hall, Union St. at 10 o'clock, and headed by the Carleton Cornet Band, will march by way of Union, German, King, Dock, Mill and Main streets to St. Luke's church. A sermon will be preached by the rector, Rev. R. P. McKim. After the service the line will reform and proceed to the lodge rooms of Portland Lodge in Alexandra Temple of Honor.

### EIGHT OF THE FASTEST

#### IN TOLAY'S MARATHON

Ten Thousand Dollars in Prizes Sold to be Offered—Jim Jeffries Will be the Starler.

CHICAGO, May 29.—Eight of the fastest long distance runners in the world expect to face Starter Jas. J. Jeffries at 3 o'clock this afternoon in the American League Baseball stadium of this city as contestants in the International Marathon Derby. A track eight laps to the mile has been constructed in the Park. The distance is 26 miles, 385 yards and the record is 2 hours, 39 minutes and 20 seconds. There is \$10,000 prize money, it is said. All the champions of recent fields are represented with the exception of Dorando Pietri. The list follows:

John J. Hayes, the winner of the last Olympic Marathon; Henri St. Yves, winner of the two big New York races; Tom Longboat, the Canadian Indian; Fred Simpson, the Oilway Indian; John Swenberg, the Swedish Champion; Matt Maloney, the New York runner; Fred Appleby, holder of the 15-mile record; Alex Thibault, of Chicago.

Several of the contestants have been training here. St. Yves and Longboat are the favorites in the race. Martin B. Herbert, official handicapper of the A.A.U., will handle the race after Jeffries fires the pistol. The judges will be William H. Arthur and Wm. Hale, Thompson.

### BANGOR CANNOT GET SITE FOR LIBRARY

BANGOR, Me., May 28.—Another chapter, which may be final, was added to the celebrated Bangor library case, so-called, when Clerk of Courts Sweet today rendered from the law court a receipt of that body's decision in the equity suit of Anna C. Peirce vs. City of Bangor, the result being adverse to the city.

This matter, which has been made the subject of a controversy and litigation covering years, relates to a lot of land at Hammond and Franklin streets, which the city has twice attempted to secure by condemnation proceedings for the purpose of a public library site. The first proceedings were declared irregular and then the land was condemned for the second time, with an award of \$45,000. A temporary injunction preventing the city from taking possession was granted by Justice Savage, from whose decision the Hayford heirs appealed to the law court.

### CHAFFEUR FOUND GUILTY OF MANSLAUGHTER

NEW YORK, N.Y., May 28.—William E. Darragh, the chauffeur, who ran down and killed Ingvard Trimbli, the 11-year-old son of a well known Kentucky lawyer in this city, on March 27 last, was tonight found guilty of manslaughter in the first degree. The chauffeur was remanded to the Tombs for one week to await sentence. The maximum penalty for the crime is twenty years.

Darragh's conviction is the first under the new or amended section of the murder law.

### HOW THEY LAY CARPETS AT THE CITY HALL

Floor Covering for the Mayor's Office Has Engaged Attention of Entire Staff for Two Weeks—Not Finished Yet

The carpet in the Mayor's office at City Hall has been relaid after the annual custom of spring housecleaning. This in itself does not look like an important event, but those who are familiar with City Hall methods will realize the magnitude of the task. The carpet was taken up over two weeks ago and the Mayor left word that before being put down again it should be turned around so a faded portion should be at the back of the room. Then he went away on a fishing trip like any wise man who dodges housecleaning whenever he can. He returned a week later but the carpet was not yet down. He was informed, however, that the matter had received serious consideration. Daily consultations had been held by the janitor, the carpet cleaner, the man who originally laid the carpet and the Director of the Department of Public Safety. The matter, however, was too big for them to handle alone and when the Mayor's clerk refused to arbitrate the matter it was decided to await the return of His Worship before taking action in so important a matter.

Since his return the Mayor has been struggling with various parties and factions who have interested themselves in the floor covering with the result that the carpet was laid this morning.

But, sad to relate, it is down again in its original position and it is understood that after a few more consultations it will be taken up, gawed apart, joined together again and laid in another manner. With good luck this may be accomplished before Mayor Bullock's term expires.

### OWNERSHIP OF A SAFE SUBJECT OF SUIT

Case Before Judge Forbes in County Court This Morning.

The May session of the County Court was resumed in Chambers this morning at eleven o'clock. His Honor Judge Forbes presided. The civil case of Gold and McCullough Co. Ltd. v. Isaac Debo was taken up. C. F. Debo was appointed for the plaintiffs and G. W. Fowler and W. D. Turner for the defendant.

The plaintiffs are safe manufacturers at Galt, Ont., and some time ago shipped E. O. B. Galt, a safe to Miller Bros. of London. In payment, Miller Bros. gave the plaintiffs a lien note. Some time after this Miller Bros. went into liquidation and assigned to Sheriff Freese, of Kings Co., for the benefit of their creditors. The defendant bought the safe among other articles under the sheriff's sale, and the plaintiffs are suing in trover for the recovery of the value of the safe, claiming a wrongful conversion of the same. Under the New Brunswick law a lien note must be filed in order to found an action upon it. The note in this case was not filed. Under the Ontario law a lien note need not be filed in order to bring an action upon it. The plaintiffs claim that the Ontario law governs in this case, as the safe was shipped to E. O. B. Galt, Ont., consequently the cause of action arose there. The defendant claims that the law of this province prevails, and therefore the case should fail.

The first witness examined this morning was John Greer, salesman for the plaintiffs.

### MANY ARRESTS LAST NIGHT

It Took Three Policemen to Get One of the Prisoners to Jail.

Patrick Bennett, Orland Murphy and Thomas Highman, three strange laborers got drunk last evening and made things lively on Union street. Sergt. Campbell, Acting Sergt. Scott, and Officer Ward arrested Bennett, who resisted violently and was incited on by his two companions in the presence of about two hundred people, who followed to the police station.

After Bennett was locked up the officers gathered in Highman and Murphy.

Minard Sabean was profane on the South Wharf yesterday and was arrested by Sergt. Saxter.

Orland Murray and Harry Allap were arrested at two o'clock this morning for wandering about Union street and not giving a satisfactory account of themselves. William Vandenberg, a companion, is charged with supplying liquor to Allan, who is but 17 years of age.

### BASEBALL GAMES ALL POSTPONED

The games between Moncton and St. John which were to have been played on the Victoria grounds today, have been postponed on account of wet weather. The Moncton team did not come down. The date for the games will be fixed as soon as possible and will probably be next Wednesday.

The north end games have also been postponed. When they will be played will be decided at a meeting of the executive of the league this evening.
