## LAW RESPECTING NEWSPAPER

Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions.  
If Subscribers order the discontinuance of their papers, the publisher may continue to send them till all arrears are paid.  
If Subscribers neglect or refuse to take their papers from the office to which they are directed they are held responsible till they have settled their Bill, and ordered their papers to be discontinued.  
If Subscribers remove to other places without informing the publisher, and the paper is sent to the former direction, they are held responsible.

## From the Boston Atlas UNITED STATES DISTRICT COURT.

Phineas Winsor vs. Geo. R. Sampson et al.  
This was a libel by the master of the ship Rockland against the owners, for \$1761.42 wages on a voyage round the globe, from New York to San Francisco and Calcutta, and back to Boston.

The defence was that the respondents, Messrs. Sampson & Tappan, were not owners of the vessel, and not liable to Capt. Winsor for wages; and, secondly, if liable, they claimed an offset of \$1254.71, for various items, specifically considered in the opinion of the Judge.

JUDGE SPRAGUE.—The first question is whether the respondents are liable at all for wages. They say, in their answer, that they were not owners, and made no contract with the libellant. It appears that the register and bill of sale were in their names, as sole owners. But they say that they held merely as trustees, and an indenture of trust between them and one Horace B. Teltbets, of New York, has been produced. From this it appears that they were to hold the legal title and the possession of the vessel, to appoint the master, to collect the freight at all the ports, to determine the employment of the vessel, and, at the end of the voyage, to sell the vessel, and, after paying all expenses, to divide the net profits of the voyage, including the price obtained for the vessel, with said Teltbets, and one Ward, giving one half to Teltbets, and one quarter to Ward, and retain the balance to themselves. In pursuance of this indenture, they appointed Capt. Winsor, gave him his instructions from time to time, and it was to him they rendered his accounts at the end of the voyage. As mere trustees in possession, they would in point of law, be liable for wages, unless the master clearly exempted them, and looked to others. It is alleged in the answer that he contracted with and relied upon Teltbets; but the evidence is otherwise, and Teltbets says that he made no contract with him, and it can hardly be supposed that Capt. Winsor looked to Teltbets for his pay, and Teltbets, was then known to be insolvent, and to have no legal title in the vessel. But the respondents were not mere trustees. They had an interest in the vessel and were trustees for themselves as well as Teltbets. On every principle, then, they must be held liable for the wages.

The remaining question, then, is upon the claims against the master, which they allege by way of offset. The charge of \$78.69 for medical advice and attendance, and charge for extra carriage, hire, are abandoned. Those which are insisted on are six in number, which I will take up in their order.  
1. A charge of \$475 for the passage of the captain's son. The captain had leave to take his wife with him, and this was a boy about two years old, who went with his mother. The libellant says it was verbally agreed that the boy should go with his parents, and he has interrogated the respondents on this point, under oath. They deny all knowledge of the boy's going in the vessel, and their answer is evidence in the case, and the only direct evidence. There was nothing in writing, and no knowledge of his going is traced to the respondents. In this state of the case, the master must pay for his son's passage. Messrs. Cabot & Brown, experienced brokers, say that the charge should be about half the passage of a man, with some deduction on account of the master's having put on board extra stores. Mr. Brown thought \$300 a reasonable charge, and I shall adopt that as the proper charge in this case.

2. The next charge is \$100 for freight of a piano from New York to San Francisco. This piano belonged to Mrs. Winsor, was placed in the cabin, kept open, and used by Mrs. Winsor and other ladies who were passengers. The evidence shows that it was taken as an article of furniture, and for use and amusement, and was not an incumbrance but rather an addition to the cabin, and to the pleasure of the passengers. This item, therefore, is disallowed.

3. A deduction of \$118 12 is claimed on the libellant's board bill while at Singapore. The master's answer says that he was boarded at the lowest rate, and the bill was paid by the respondents' agent there, apparently without objection, and no evidence is offered to prove that the amount paid was unreasonable. This deduction therefore is not allowed.

4. The respondents charge \$125 for the passage of a servant to the master, his wife and child, from Singapore to Boston. The evidence shows that this man, as an assistant steward, signed the articles, and was paid by the owners; also that it was necessary to have such a person in a ship of this size, having three cabins, and that he did steward's duty, and did not attend more on the captain and his family than on the other passengers. This item, therefore, is disallowed.

5. The next item is a charge of \$34 for regulating the captain's chronometer, at San Francisco, Singapore and Calcutta. It seems there were two chronometers on board, one belonging to the ship, and the other to the captain, and they were both regulated together. There is no evidence of the usage in such cases, and in the absence of evidence of a settled usage to the contrary, I think it reasonable that the expense of rating and regulating the captain's chronometer, where he uses it for the benefit of the ship, solely, should be borne by the ship.

6. The last item is a charge of \$300 for the use of three extra state rooms on the passage from Calcutta. There was but one passenger beside the captain's family, and the state rooms in the three cabins were nearly all of them unoccupied, except by a few articles of ship's stores. The captain put several articles of his own in these rooms, with the ship's stores, but all his could have been stored in one room, if necessary, and were only distributed for convenience, and were not unreasonable in quantity. If there were the least reason to suppose that he used these rooms so as to displace freight or stores, he should be held answerable in some way; but the evidence of both the supercargo and the mate shows that there was no use for these rooms. It would be extremely unreasonable, therefore, to charge him for them. I shall, therefore, allow the whole amount claimed in the libel, less \$300, for the son's passage.

Decree for libellant, for \$1161.42, and costs.

R. H. Dana, jr. for libellant; Wm. Dehon for respondents.

### FOUR DAYS LATER FROM EUROPE.

The steamship Baltic arrived at New York on Sunday evening May 1, bringing Liverpool dates to the 20th of April, and 92 passengers, among whom was Miss Doherty of the Victoria House, St. John, and Mr. Hilliard, of Portland.

The Asia arrived out on the 17th. The propeller Genoa sailed from Liverpool on the evening of the 19th, for Quebec and Montreal, with a full cargo.

The Cotton market was tame, and prices were in favour of the buyer. Considerable business was doing in the Flour market, but without any material change in prices.

The Kosuth rocket affair remains hazy. Kosuth is apparently guiltless. Halc, the ostensible owner of the factory, threatens to prosecute the Government. In the meantime, the munitions seized are deposited in the Woolwich arsenal.

A great soiree had been given in Glasgow to Mrs. Stowe; also at Edinburgh. She was enthusiastically received, chiefly in religious circles.

The Dutch Government has protested against the establishment of the Catholic hierarchy in Holland, and has withdrawn its minister from Rome.

The English and French Ambassadors have arrived at Constantinople. The former has assured the merchants of a continuance of peace.

The principal news received is, that the Chancellor of the Exchequer's financial statement proposes to continue the income tax on a diminishing scale for seven years, and extend to Ireland and all incomes over £100; also to reduce advertisement duty upon stamps and some others; substitute five per cent. ad valorem duties; making ten per cent. the maximum on manufactures; increase the spirit duties; reduce the tea duty within the next four years to one shilling per lb., and immediately to 1s 10d; all of which would supply a surplus of half a million sterling. Public opinion is divided respecting the statement; some approve of the scheme; others think it will overthrow the ministry.

A motion in the House of Lords to inquire into the system of education pursued in the Maynooth College, Ireland, was negatived by 110 to 53.

In the House of Commons the Chancellor of the Exchequer said the revenue for the finances of the year exceeds the estimates by near £1,500,000. The expenditures had fallen short of the estimates £380,000, leaving with the surplus revenue an actual overplus of £2,426,000.

RAILWAY INTELLIGENCE.—Mr. Beatty, at the head of a large staff of Civil Engineers, charged with the construction of the New Brunswick Railways, came passenger in the Canada. It was understood, the original intention of Mr. Beatty to have proceeded to St. John, but a Telegram message from London previous to the departure of the steamer advised that gentleman to make Halifax his Head Quarters. We learn further that it is the intention of Mr. Beatty to make a thorough survey of the Trunk Line of Railway from hence to the New Brunswick frontier, and that all the working plans, surveys and Reports of Major Robinson, Messrs. Falkner,

Sykes and others, were promptly placed at his disposal by the Executive. [Halifax Chronicle.]

## ST. ANDREWS & QUEBEC RAILROAD COMPANY.

### DIRECTORS REPORT FOR GENERAL MEETING OF SHAREHOLDERS.

From the fact of every station and operation of the Company necessarily becoming public almost immediately on its occurrence, in consequence of the limited number of Proprietors among whom the shares are divided, and the smallness of the community by whom we are surrounded—your Directors do not consider, in coming before you in accordance with the provisions of the act of Incorporation, that it will be necessary for them, to enter very minutely into detail.

Shortly after the last General Meeting, a contract for the construction of the Road to Woodstock was taken by Messrs. Sykes, King & Brookfield, of Sheffield, at £2300 Sg. per mile; and the works are now going on favorably.

The progress hitherto made has not been so rapid as your Directors could have wished, but this has been owing to a variety of causes, over which they had no control. In the outset considerable delay arose from the tardy arrival of the ships with the Contractors' plant; and subsequently to this your Directors have been prevented from urging on the works with the rapidity they would otherwise have exacted, in consequence of the adverse interpretation which has again been put by the Government on the Debiture Bond Facility Act.

In the course of last year it became necessary, for these circumstances, to direct Mr. Thompson to proceed to England; and within the last three months the Board has been obliged to send a Deputation to confer with the class A Directors on these matters.

It is now confidently hoped, from the results of the steps which have been taken, that all serious objections and difficulties have been removed, and that the work will proceed without interruption; in which case the Directors anticipate that 25 miles will be finished before the commencement of winter.

The Contractors are importing laborers for the vigorous prosecution of the works, 150 have arrived during the last month, and two more ships with additional men and 600 tons of iron have sailed from England and may be almost daily expected.

It is gratifying to announce to you that as the works develop, themselves the paying qualities of the Line become more and more apparent. Mr. King has added his testimony to this point, and has stated that the further he penetrates into the country the more he becomes convinced of the enormous traffic, which must pass over the Road.

Considerable improvements are being daily made in the location of the Line, by which great savings will be effected, so that the slightest fears are entertained of confining the quantities within the estimates.

A short Bill has been passed during the Session just closed, to transfer the nomination of the two Government Directors from the two Houses of Legislature to the Executive Council.

Debentures to the extent of £1000 have been received, and £11000 are in the course of issue. A grant for 20,000 acres of land has also been received since the last General Meeting; and the Company are now entitled to a further grant of 30,000 acres; the application for which will be immediately sent in.

The Books of the Company have been made up to the 1st of March, and a statement of the Accounts, both in England and in this Province, since its formation, was exhibited, showing a total expenditure of £68,888 16s. 10d.

## SOLILOQUY OF A BOY.

"Oh, would I were a boy again." I don't see why in the world father wants to sing that for; and there's grandpa says with a sigh, "my dear boy, you'll never be as happy as you are now," and grandma looks doleful, and chimes in with the "golden hours of childhood!" I wonder where the gold is!—If I got a penny sometimes when I was a little youngster, I thought I was well off, and always felt very sorry after I had spent it; that is, after the cakes were all gone, and then somebody was always ready with—"why, my dear boy, you can't eat your cake and keep it too." Well, I know that now, but there's something I don't know, and that is, where all this great pleasure is in being a boy.

When I was five years old, and had just begun to enjoy something, I must be bundled off to school, and sit on a high bench and no cricket; had to say A till everything I looked upon, even my mother's face, seemed one big A, and to crown the whole, I was a dunce, for I took me three weeks to get on to B, and a good deal longer learning to D and through the alphabet.

And when I was older, I had the satisfaction

of being called "a great awkward boy," even by mother, and when I would try to do my best I was invariably laughed at. It is coming into the room I happened to upset half a dozen chairs, a titter was raised, and "Oh, he's a boy!" considered sufficient apology. If I played with the baby I was sure to make it cry, and the nurse would look all around to see if I had pinched it; boys she said were always full of such tricks.

When I was to the boy where there are a host of girls; why I have known my sister play all sorts of tricks, and John—John's I—necessarily got the blame. And then it was "John, you are younger than Mary, put up this clothes line; John, you are a great boy, and must learn to work; just go down to the cellar and split some wood; John, run up to the garret and bring down a squash; or two; John, run out to the wood house and get some kindlings;" and on damp days the girls invariably held a jubilee, and poor John was a slave.

The fact is, I don't believe but what I could do the girls' good, if they learned to go out in wet weather as well as the boys. But they're always crying "thin shoes" and "wet feet," and if I ask them why they don't wear thick shoes as I do, they only laugh at me and answer, that such clumsy things are well enough for boys.

I often tell them no wonder they get cold, with nothing but a bit of lace over their shoulders and a piece of gauze on their arms. It seems so funny to call boys "hardier" than girls. Why? If I thought so—thin socks, thin slippers, bare arms, and bare necks, I shouldn't live a month. "Hardy—they're the hardest mortals alive, for they do stand such treatments some way, though they're mighty delicate and seem to be proud of it in fact. I think a good many of them had rather have a fashionable consumption, than a vulgar, good constitution.

I wonder how long a boy is a boy—there's my sister Louisa come home from boarding school "flushed," as they call it, at sixteen, while I've got to study three years longer to know as much as she does—that is, provided she's got her education, and I am passed eighteen. Louisa is going to be married next week—who pretends to call her a girl? No body; it's Miss Louisa Sands, that young lady "of her, and its 'my dear boy," by mother, and "we must overlook the freaks of a boy," by father—and that's the way they talk to me and of me—me, John Sands, that's next to the head of the family.

Sisters can do anything they please, even to wearing false hair and every other false thing, and nobody says a word; but the first time I put on a dicky it was almost as much as my life was worth to meet with the family. I thought I could be it like a hero, but the "oh's" and "ah's!" the pulling the pocket over my cheeks, the mock salutations to Mr. Sands, the derisive laughter, was more than I was prepared for and I actually ran from the house while all the girls shouted after me, "good bye, Mr. Sands, take care of that new dicky."

I brought home a nice razor-box the day I was 18, and for safe-keeping, hid it in the garret between the rafters. Vain precaution! When I got home, box, brushes, strops, powder, and razor were all paraded upon the table, and a little scrap of paper pinned to the wall on which was written, "Johnny dear, be careful, little boys should not play with 'edge tools,'" and all my sisters could sing that day, "A frog he would a wooing go."

Never was I an angry man in my life, but I bore it like a philosopher, only it did try me, when of mornings I fondly thought myself unobserved, to hear giggling outside the door, and my little six years old sister lip, instigated by older and more wicked spirits, "Johnny, here's pussy wants to be shaved."

And so it is in everything; it seems strange that men who profess to so much dignity after they are twenty-one, should have to submit to so much indignity up to the very borders. It's curious, and it puzzles me; it's a fact in metaphysics that I can't account for, and I don't suppose I ever shall. It's martyrdom, and you won't catch me after I'm twenty-one, singing—"I, would—I were a boy again."

Mrs. Stowe secured the copyright in England for her Key to Uncle Tom's Cabin by first publishing it in that country. She is making a rapid fortune out of these books, and will soon be able to set up her carriage. Ninety thousand copies of the Key have already been printed in this city, the paper for which has cost \$10,621. Two hundred hands, or one hundred persons, are employed in the binding. [Boston Post.]

STEAMER BURNED—LOSS OF LIFE.—On Sunday May 1—We learn from Kingston, Canada West, that the steamer Ocean Wave was burnt yesterday morning near the Ducks, fifty miles above Kingston. She is reported to have had 60 passengers on board, only 22 of whom were saved. Four hours after the fire was discovered the hull went down. Those saved were taken off the wreck by the schooner Georgiana.

CLOSE OF THE SESSION.—The Legislature was prorogued on Tuesday 3d inst., by His Excellency the Lieut. Governor, with the following Speech:

Mr. President, and Honourable Gentlemen of the Legislative Council; Mr. Speaker, and Gentlemen of the House of Assembly:

I acknowledge with thanks the attention which you have given to the business of the Session.

There is reason to hope that the blessing of Providence may again reward our House, our Fishermen, our Farmers, and our Merchants.

The success of all these interests depends on the skill and industry of the individuals engaged in them, far more than on any aid from positive legislation.

I conceive, therefore, that the postponement of several important measures to another Session will not necessarily impede the general prosperity of the Country.

You have passed Acts, however, of some importance, Commerce, by amending the Law relating to Merchant Seamen, by regulating our Weights and Measures, and by facilitating the issue of Patents and the improvement of our Postal connection with Great Britain.

The Address on the subject of the Fisheries and Trade with the United States has been transmitted by me to His Grace the Secretary of State for the Colonies, and I doubt not that the loyal sentiments of Her Majesty's Subjects here will be fully appreciated by our Gracious Sovereign.

Mr. Speaker, and Gentlemen of the House of Assembly:

I thank you for the Supplies which you have given for the Public Service; it shall be my care, to see that the sums thus granted are expended in conformity with your wishes, so far as at least as the imperfect organization of certain Public Departments will allow.

I regret very deeply that there is no one political Officer whose attention is especially given to our Finances. I regret too the total want of Executive Machinery for properly controlling the expenditure on the Roads.

The creation of such offices, however, involves arrangements which require your sanction as Representatives of the People, and as that sanction has not been given, the administration of these matters must remain in its present state.

Mr. President, and Honourable Gentlemen of the Legislative Council; Mr. Speaker, and Gentlemen of the House of Assembly:

I cannot allow this Session to terminate without expressing some fear that inconvenience will arise hereafter in this Colony, from the increasing tendency to private legislation; any such inconvenience will be more felt in proportion as we look forward to the investment within our limits of foreign capital.

The season is fast approaching when money and labour will be expended on our projected Railways, and when fresh surveys will probably be pushed through our Forests. I hope at the next meeting of the Legislature, to congratulate the People of New Brunswick on the progress actually made in these undertakings.

I now release you from your public labours with my hearty good wishes for the success of your own pursuits, and with my earnest prayer for the general welfare of the Province.

THE LEGISLATURE.—A variety of business was transacted during the last few days of the session, and as usual, was put through in a hurry. A despatch says:—

Several addresses were passed—one authorizing the appropriation to the extent of £2,000 for the importation of Sud Horres, sun not exceeding £200 to be granted to each County Agricultural Society, when the Horres are imported, &c.—the County contributing £50. The Contingent Bill passed after severe adjournment by several members—total amount for the Assembly £1750 7s.—£650 more than any previous year—stationery charged £200 more. The Attorney General, who was chairman, said it was a most extraordinary session, &c. Wilmet, Gray, Kerr, Smith, Boyd, Ryan, McPherson, Hatheway, and others spoke, denouncing corruption, extravagance, &c., or denying any share in it—spoke of gold rings, pencils, chains, portfolios, &c., got by members, who, however, all appeared to be away. Gray charged corruption on parties who talk most of reform, retirement, &c.—Much was said of adopting a new system to put an end to the present mode, &c.; still the act was passed—

all agreed they must pass.—Contingencies of the Council are comparatively higher, being £1066.

We may state that most cheering letters have been received relative to the construction of railways in Nova Scotia. Mr. Beatty, the Government Engineer, who came out in the last steamer, is now in Halifax, which he intends to make his head quarters. [Halifax Colonist.]

### THREE DAYS LATER FROM ENGLAND.

The Ash with Liverpool dates to the 23d of April, arrived at New York on Thursday morning.

In Liverpool the cotton market was dull—prices 1d. lower during the week; sales 51,500 bales. Flour in limited demand at previous rates. White Corn 31s. to 32s. 6d.; yellow 31s. to 31s. 6d. A fair business done in Wheat at full prices. Breadstuffs generally unchanged. Lard rather more active at 42s. 6d. Pork very dull. Beef dull. Bacon lower and tending downwards. Causals closed at 1004.1005.

The Franklin arrived out on the 21st.

Another dissolution of the Spanish ministry was announced.

Kossuth's friends are about commencing a prosecution against the Times for libel.

Respal has been pardoned, with the condition that he leaves France immediately.

The Earl of Clarendon in the House of Lords, in relation to the pending question with the U. States, as to the Fisheries, told the British Squadron would cruise on the fishing grounds the same as last year.

It is said that Moskoff, the Russian Ambassador, has threatened to leave unless his demands were brought to a successful issue.

A conspiracy had been discovered at Hanover, and several arrests had been made.

The Financiers.—We are rejoiced to learn (as will be seen by our telegraphic report of the news by the Asia at New York) that British cruisers will be stationed on our fishing grounds the present season, to protect them against foreign aggression. The declaration of Lord Clarendon, the Foreign Secretary, leaves no further doubt on the point, and the announcement will be matter for congratulation in the Colonies.

### SUMMARY OF NEWS.

FROM TEXAS.—*Trouble with the Indians.*—The Austin State Gazette of the 16th states that the Indians have become decidedly hostile and have committed several daring depredations on the frontier. On the 25th March, Major Sibley had some difficulty with the Mapaches, and recently a party of Wichitas having come into Fort Belknap were detained prisoners. At night the chief after murdering his own wife and child, rose upon the guard and aided by nine of his warriors, succeeded in killing the sentinel on guard and wounded another soldier. In the fray the chief was killed but his warriors escaped.

New York, April 30th.—The steamship Merlin arrived this afternoon from St. Thomas and Bermuda, in three days and nineteen hours from the latter place. The British war steamer Devastation arrived at Hamilton Bermuda, 24th inst. from Havana, bound home to be paid off. A beautiful chandelier of native cedar wood, the work of H. J. Jackson, Hamilton, is to be forwarded to the New York Exhibition. Turk's Island advises to the 6th announce promise of abundant salt crop.

Death of Robert G. Shaw.—The painful duty is devolved upon us, to day, of announcing the death of Robert G. Shaw. He has been dangerously ill for the last fortnight, and his fellow citizens by whom he was held in the highest estimation, have been for some days prepared to hear of the fatal termination of the disease. He died at his residence, in Beeson street, last night about 9 o'clock. He was born on the 14th of June, 1776, and was therefore 75 years of age. He has for more than a quarter of a century ranked among the first of the most successful merchants of Boston.

He was a man of great industry; enterprise and public spirit; and was held in universal esteem for the probity of his character, his uniform unkindness and courtesy, and his extensive benevolence.

On the 14th of April, less than three weeks ago, his wife died at the age of 68, and on the 14th of November his brother in law, Dr. Francis Parkman—(Boston Traveller 5th inst.)

The New York Fair is receiving contributions from all foreign quarters, to such an extent that already fairs are expressed that American productions will have but a second dry chance. The Emperor of Hayti has sent a variety of articles from that island, including specimens of coffee, chocolate, nut soap, lignumvite, starch, coal, rosewood, silk wood and pepper wood barks, Hayti hemp, castor oil, black marble, and a peice of mahogany weighing nearly three tons.—1b.

The Constitutional Convention of the State of Delaware has decided that Judges shall henceforth be chosen by the people. Salaries—Chief Justices \$1800; chancellors and associate justices, \$1000 each. The convention voted that no clergyman while officiating as such, shall be elected to any political office; also that no bank charter shall be granted by any future legislature until after three months' notice of application shall have been publicly advertised.

DESTRUCTIVE FIRE.—Baltimore, May 1.—Spencelton's very extensive rope walk, situated on Monument Street, was burned to the ground at 2 o'clock this morning, and a large quantity of hemp, valuable machinery, &c. was destroyed, together involving a heavy loss. Whilst the fire was in progress the ropewalk on Gallows hill, owned by Durand, was discovered to be on fire and it was entirely destroyed. Both fires were created by unknown incendiaries. During the fires, several fights occurred, as usual among the firemen.

## THE STANDARD.

### WEDNESDAY, MAY 11, 1853.

English News.—In another column we have given a synopsis of the news by the steamship Asia, at New York. The only item of importance is that relating to the Fishery question; from which it will be seen that the Parent Government are resolved to protect our fisheries, and for that purpose a number of armed vessels will cruise on the fishing grounds. The telegraphic report of the Parliamentary proceedings, says, that it was stated in the House of Commons that negotiations on the fisheries were still pending.

THE CONTINGENT BILL.—From the published reports at the close of the last Legislative Session, it appears, that severe, and it must be admitted, just animadversions were made by several Members, upon the extravagant and reckless manner in which the public money has been squandered during the Session by some of the Members. The Contingent Bill increases yearly; the total amount for the Assembly is £1,870 6, being £650 more than any previous year. The Attorney-General, who was chairman of the committee, said "it was most extraordinary loading." Messrs. Wilnot, Gray, Smith, Kerr, Boyd, Ryan, and others, denounced it as "corruption," "extravagance," and other equally applicable terms. It is said that one "Legislative pedlar" got 6 lbs. of sealing wax; others purchased gold rings, chains, pencil cases, port folios, &c. and no doubt a supply of stationery, which will last them for years.—And these very gentlemen are said to be the loudest talkers about retrenchment, reform, &c. In 1850 it was agreed that each Member should receive £1 for stationery. Had this arrangement been acted upon, we should not now hear of these Members costing the country, from £12 to £18 each! Truly we would like the public to see the items which compose the account published. What a sorry figure some Members would appear in before their constituents! and these are the worthies who cavil at the Government for paying debts for labors which have been honestly and ably performed.

MORE LABORERS FOR THE ST. ANDREWS AND QUEBEC RAILROAD.—On Monday last 260 laborers, with their families, arrived at St. John in the "Imperial" from Liverpool. These men have been sent out by Messrs. Sykes & Co., to work on our railroad.

The Saint John papers complain of the scarcity of laborers. They also say, that in every department of business and trade wages have been advanced, very considerably.

ACCIDENT.—We regret to state, that Mr. Beck, Messrs. Sykes & Co.'s Engineer, was thrown from his wagon on Friday night, within a short distance of JONX CORNER, and broke his right leg above the ankle. Medical aid was immediately sent for; and we learn that, under the skillful treatment of Dr. E. HAYARD, Mr. Beck will in the course of a few weeks, be able to resume his duties.

JAMES OLIVE, Esq., has been elected Mayor of the City of St. John for the ensuing year.

The Montreal Pilot of the 26th ult. contains the following important information:—It is said that the parties who have contracted with the Government for the Line of Ocean Steamers between this port and Liverpool, have made propositions for the extension of the contract to a weekly line. They propose to guarantee, that letters by this route shall be conveyed to Quebec and Montreal, with equal speed to that with which they are conveyed via New York and Boston; and they calculate, that the increase to the Post Office revenue, which would be derived from letters alone by this route, would suffice to pay the bonus which they ask from the Government—set down at something like one thousand pounds per trip, out and home.

COMMERCIAL BANK.—The annual meeting of this institution took place on Tuesday last, when a statement of the affairs of the Bank for the preceding year was laid before the Stockholders. We are informed that besides paying a dividend of six and a half per cent. for the year, there was a test of upwards of £16,000 on hand. Out of this sum it was proposed to write off a certain portion for bad debts, and to reduce the real estate of the Bank to a marketable value. The President, who possesses the thorough confidence of the Stockholders, was voted £50 additional salary for the past year, making it up to £109.

THE AFRICAN WELL now lying bored in Charleston, S. C., has already attained the depth of 1091 feet. Major Weston, the Engineer, is confident of ultimate success in his search for water.

It is computed that some 7,318 193 acres, or 11,460 square miles of land, are now subjected to conflicting claims in California. Time flies hereafter for the lawyers!

DEATH OF A MAN FROM GLENDALE.—On Sunday last, Corporal Peter A. Stutenburgh, of Queens county, died at Jericho from a disease when administering medicine to a horse affected with it. His hand was scalded by a scum, and the disease communicated to his system.

TABLE DELICACIES.—People who have money enough can obtain as many new poisons as they want, fresh from Bermuda, for 37½ cents per half peck, or 83 a bushel; asparagus, for 50 cents a bunch; strawberries, \$1 a basket, or 50 cents a mouthful; green peas, 50 cents a half-peck; tomatoes, 37½ cents a quart. The latter come from Bermuda, wrapped in paper and packed in boxes, in the same manner that oranges are imported. Most of the green vegetables are brought from Charleston, potatoes also, as well as from Bermuda.—(N. Y. Jour. of Com.)

THE CHOLERA.—We regret to learn, says the Halifax (N. C.) Republican of the 27th of April, that the cholera has prevailed to some extent several miles above this place, on and near Roanoke River. Colonel A. Joyner lost six likely and valuable negroes by this dreadful disease. Every one that was taken sick died in a few hours. The disease we learn, has been stopped on Col. Joyner's plantation by burning up all the old negro houses, and by burning tar on the premises. A BLUNDER.—The New York Atlas, speaking of a man of some note lately deceased, undertook to say "the subsequently commenced life as a legal practitioner but was diverted from it by his love of letters." The editor did not look at his proof, and on Sunday morning he had the pleasure of reading, "He subsequently commenced life as a legal politician; but was diverted from it by his love of letters."

We learn from Washington that fresh negotiations for a settlement of the fishery question, as also the question of reciprocal trade, have very recently been commenced between Mr. Oranston and Secretary May— and it is reported that the United States Government is most anxious for a speedy settlement.

During the recent session of the Legis-

lation, the graver crime of conspiring to defeat, and to bring into contempt the authority of the Legislature of their country.

That in the opinion of your petitioners, your Honorable House in lending its aid to the passing of such a law, would be unwise.

ly moving the question as to whether the act would not transcend the constitutional bounds of your Legislative authority and power, and consequently an infringement of the public law of the Empire, and an unwarrantable attack upon our rights and independence as British Subjects. Your petitioners therefore most respectfully submit, that without impairing the power or the right of your Honorable House to carry the Bill into a law, the policy of expressing such power or right at the present time, with the knowledge of a similar Colonial measure having been disallowed by the Metropolitan Government, is a matter well worthy of consideration.

That your petitioners cannot but regard this Bill in the light—not of a measure originating purely in a desire to redress some individuals in Society from the pernicious vice of drunkenness, but as one emanating from a certain class of politicians whose constant aim it is to plunder the caprice and unprincipled disposition of fanatics, and whose unscrupulous and libidinous passions in an unscrupulous and libidinous manner invade the territory of their neighbors.

Wherefore your petitioners most humbly pray, that your Honorable House will be pleased to take the measures into your consideration, and that you will withhold your sanction from the said Bill, and reject the same.

And your petitioners as in duty bound will every pray.

Jos. Gibb, Jas. B. Forsyth, Weston Hunt, and a great number of others.

UNMISTAKED RASCALITY.—A case was brought before the Police Court of Cincinnati on Thursday last, which in the testimony disclosed facts of the most revolting baseness, involving the health of the citizens of that place. It appeared that a butcher named William String, holding a stall in the public street market, had killed a dog on the previous Sunday, and dressed it after the fashion of mutton for the purpose of selling it in market. The evidence against the scoundrel was positive, the market master himself having seen it suspended in the slaughter house. The sentence of the Court was that he should be forbidden to appear in the market for the space of six months, and to pay a fine of \$20 and the costs of the prosecution, and to stand committed until paid. Too mild by half.—*Exchange paper.*

The grape disease, it is feared, will this year cause much distress in the Island of Madeira. The ordinary exports of the island (chiefly wine) are in value £800,000. Those to England amount to £150,000. Should the disease again prove destructive, a repetition of the misery which took place in Ireland, on the failure of the potato crop may be expected in the Island of Madeira.

The City Temperance Alliance in New York city are going to have a large tent erected near the Crystal Palace for the delivery of lectures. They will not suffer for lack of occupation.

## THE STANDARD.

### WEDNESDAY, MAY 11, 1853.

English News.—In another column we have given a synopsis of the news by the steamship Asia, at New York. The only item of importance is that relating to the Fishery question; from which it will be seen that the Parent Government are resolved to protect our fisheries, and for that purpose a number of armed vessels will cruise on the fishing grounds. The telegraphic report of the Parliamentary proceedings, says, that it was stated in the House of Commons that negotiations on the fisheries were still pending.

THE CONTINGENT BILL.—From the published reports at the close of the last Legislative Session, it appears, that severe, and it must be admitted, just animadversions were made by several Members, upon the extravagant and reckless manner in which the public money has been squandered during the Session by some of the Members. The Contingent Bill increases yearly; the total amount for the Assembly is £1,870 6, being £650 more than any previous year. The Attorney-General, who was chairman of the committee, said "it was most extraordinary loading." Messrs. Wilnot, Gray, Smith, Kerr, Boyd, Ryan, and others, denounced it as "corruption," "extravagance," and other equally applicable terms. It is said that one "Legislative pedlar" got 6 lbs. of sealing wax; others purchased gold rings, chains, pencil cases, port folios, &c. and no doubt a supply of stationery, which will last them for years.—And these very gentlemen are said to be the loudest talkers about retrenchment, reform, &c. In 1850 it was agreed that each Member should receive £1 for stationery. Had this arrangement been acted upon, we should not now hear of these Members costing the country, from £12 to £18 each! Truly we would like the public to see the items which compose the account published. What a sorry figure some Members would appear in before their constituents! and these are the worthies who cavil at the Government for paying debts for labors which have been honestly and ably performed.

MORE LABORERS FOR THE ST. ANDREWS AND QUEBEC RAILROAD.—On Monday last 260 laborers, with their families, arrived at St. John in the "Imperial" from Liverpool. These men have been sent out by Messrs. Sykes & Co., to work on our railroad.

The Saint John papers complain of the scarcity of laborers. They also say, that in every department of business and trade wages have been advanced, very considerably.

ACCIDENT.—We regret to state, that Mr. Beck, Messrs. Sykes & Co.'s Engineer, was thrown from his wagon on Friday night, within a short distance of JONX CORNER, and broke his right leg above the ankle. Medical aid was immediately sent for; and we learn that, under the skillful treatment of Dr. E. HAYARD, Mr. Beck will in the course of a few weeks, be able to resume his duties.

JAMES OLIVE, Esq., has been elected Mayor of the City of St. John for the ensuing year.

The Montreal Pilot of the 26th ult. contains the following important information:—It is said that the parties who have contracted with the Government for the Line of Ocean Steamers between this port and Liverpool, have made propositions for the extension of the contract to a weekly line. They propose to guarantee, that letters by this route shall be conveyed to Quebec and Montreal, with equal speed to that with which they are conveyed via New York and Boston; and they calculate, that the increase to the Post Office revenue, which would be derived from letters alone by this route, would suffice to pay the bonus which they ask from the Government—set down at something like one thousand pounds per trip, out and home.

COMMERCIAL BANK.—The annual meeting of this institution took place on Tuesday last, when a statement of the affairs of the Bank for the preceding year was laid before the Stockholders. We are informed that besides paying a dividend of six and a half per cent. for the year, there was a test of upwards of £16,000 on hand. Out of this sum it was proposed to write off a certain portion for bad debts, and to reduce the real estate of the Bank to a marketable value. The President, who possesses the thorough confidence of the Stockholders, was voted £50 additional salary for the past year, making it up to £109.

The stock of the bank has risen in seven percent premium, which was the price paid at the last sale. We need scarcely add, that great credit is due to the Directors and principal Officers of the Company for their good management during the last few years, the stock having risen forty per cent in value. Of course the prosperous times have had a good deal to do with it. The following gentlemen were elected Directors for the ensuing year, the only change being in the election of A. M. L. S. Esq., in the room of Chas. Ward, Esq. who resigned:—

Daniel J. McLaughlin, Esq. (President.) Mark Dale, John Duncan, Stephen Gerow, Hon. R. L. Hazen, William Jack, George L. Lovet, Charles Morris, William Parks, Edward Sears, A. M. L. Esq., John Walker, and John Wishart, Esqs.—(Courier.)

The Administration and the Monroe Doctrine.—The Washington correspondent of the New York Journal of Commerce writes as follows, under date of the 25th ult.:

"The Administration have adopted, in conformity with the principles of the inaugural Address, a new line of policy towards foreign nations in regard to the claims of the American Continent. They have determined to enforce the Monroe doctrine with a vengeance extending far beyond what has been held to be the doctrine of Mr. Monroe, by his many or contemporary interpreters.

"The Clayton-Bulwer treaty is to be got rid of as soon as convenient, or, in fact, possible. The joint mediation proposed by Great Britain for the purpose of reconciling the difficulties between the Central America is to be charged with the duty of dissuading those States from any foreign alliances, and of encouraging them to look to the United States alone for counsel, aid, and protection. In fact, an American continental policy is now distinctly to be declared and enforced.

"While Mr. Berland shall exhibit these views in Central America, Mr. Buchanan will enforce them at St. James'. This will be the boldest and most important step ever taken by this Government in regard to its general international policy."

The copy of a despatch to His Excellency the  
Lieutenant Governor, from His Grace the Duke  
of Newcastle, Her Majesty's Principal Secretary  
of State for the Colonies, has this day been re-  
ceived, announcing that the proposed emigration  
of children from England to this Province will not  
take place. The following is the concluding para-  
graph of the Despatch, which is dated, Downings  
Street, 29th March, 1853: "Considering therefore  
the difficulties and dangers of executing the plan,  
and seeing that after all there is no prospect that  
it could be carried to any such extent as to be of  
importance to the interests of the Province, I do  
not think that it ought to be prosecuted further."  
(Signed) NEWCASTLE.  
Persons in all parts of the Province who have  
made application for children from England, will  
please take notice that such cannot now be fur-  
nished.

**CHERRY AND LUNGWORT,**  
FOR THE CURE OF  
Coughs, Colds, Hoarseness, Spitting  
of Blood, Night Sweats, Asthma,  
Liver Complaints, and  
**CONSUMPTION.**  
DO NOT NEGLECT IT.  
Can be and as been tried in thousands  
of cases, with only certain remedy.  
JUDSON'S CHEMICAL EXTRACT OF  
CHERRY AND LUNGWORT,  
and this remedy has ever before been discov-  
ered that will certainly  
**CURE CONSUMPTION.**  
The most strongly marked and devel-  
oped cases of Pulmonary Consumption  
where the lungs have become diseased and  
degenerated and the case so utterly hope-  
less, as to have been pronounced by Physicians  
and friends, to be past all possibility of re-  
covery, and at times thought to be dead,  
has been cured by this wonderful remedy,  
and are now as well and hearty as ever.  
It is a compound of ingredients which are  
peculiarly adapted to, and essentially neces-  
sary for the cure of.

**COUGHS AND CONSUMPTION.**  
Its operation is mild, yet efficacious; it  
dissolves the phlegm which creates so much  
difficulty, relieves the cough, and assist-  
nature to expel from the system all diseased  
matter by excretion, producing a most de-  
lightful change in the breathing and sleep,  
and this, after the prescriptions of the very  
best medical men and the inventions of  
kind-sorrowing friends and Nurses, have  
failed to give the smallest relief to the Con-  
sumptive sufferer.

**THOUSANDS OF CONSUMPTIVE**  
persons have been deceived in buying me-  
dicines which were said to be infallible  
cures, but which have proved only pallia-  
tives, but this medicine is not only a pallia-  
tive but a cure for all consumptions. It con-  
tains no deleterious drugs and one trial will  
prove its astonishing efficacy better than  
any assertions of confidence in curing con-  
sumption and all diseases of the Lungs,  
such as Spitting of Blood, Coughs, &c.  
About 1000 certificates of almost miracu-  
lous cures, performed by this medicine,  
from some of the first Doctors, Clergymen,  
and Merchants, have been sent us for this  
medicine, but the publication of them takes  
too much time. Quotations, [will show them  
to any person calling at our office].  
Caution.—This medicine is put up in a  
large bottle and you must find the name of  
Connick & Brother, Proprietors, New  
York, on the splendid Wrapper around the  
bottle. All orders must be addressed to

**CARLTON'S CONDITION POWDERS  
FOR HORSES AND CATTLE.**  
The changes of weather and season, with  
the change of use and feed, have a very  
great effect upon the blood and sinews  
of horses. It is at those changes they  
require an assistant to nature to throw off  
any disorder of the fluids of the body that  
may have been imbibed; and which, if not  
attended to, will result in the Yellow  
Water, Heaves, Worms, Boils, &c. All of  
which will be prevented by giving one of  
these powders, and will at any time cure it  
when any symptoms of disease appears if  
used in time. They purify the blood, re-  
move all inflammation and fever, loosen the  
skin, cleanse the water, and invigorate the  
whole body, enabling them to do more work  
with the same feed. The action of these  
powders is direct upon all the secretive  
glands, and therefore have the same effect  
upon the Horses, the Ox, the Ass, and all  
herbivorous animals—all diseases arising  
from or producing a bad state of the blood,  
are speedily cured by them.

**NOTICE TO THE PUBLIC**  
AND  
Instructions to Postmasters and Way Office  
Keepers.  
HER Majesty's Government have concluded a  
new Contract with the Peninsular and Ori-  
ental Steam Navigation Company, for the con-  
veyance of Mails, by packet, via SOUTHAMPTON,  
to Gibraltar, Malta, Egypt, Ceylon, India and  
China, twice in every Month, instead of once as  
heretofore; and Mails for these places, will, in  
future, be dispatched from Southampton, on the  
10th and 20th of each month; and from London,  
via Marseilles, on the 8th and 24th of each  
Month.  
The Company have also undertaken to provide  
a Packet to convey Mails, once in two Months (in  
connection with the India Mails) on the 4th of the  
Month, via Southampton, and of the 8th, via  
Marseilles, between Singapore and Sydney.  
New South Wales, calling at Batavia, King  
George's Sound, Adelaide, and Port Phillip, thus  
forming alternately with the direct Packets, via  
the Cape of Good Hope, a regular monthly com-  
munication between the United Kingdom and the  
Australian Colonies.  
The Rates of Passage, on correspondence for  
Ceylon, India, China, and Australia, when for-  
warded via Southampton, will be 2s. sterling,  
or 2d. 6d. currency, per single letter, not exceed-  
ing half an ounce in weight, which must be paid  
in advance; but all letters for the above places,  
specially addressed to be forwarded via Man-  
chester, will be liable to a rate of 2s. 10d. ster-  
ling, or 3s. 6d. currency, per single letter,  
weighing under a quarter of an ounce, which  
must also be paid in advance.  
Newspapers will be transmitted free.
