Just as the train due out of St. Thomas at 2:12 p.m. for London pulled in he was talking to a stranger, who stayed close beside him while he boarded the cars. Mr. Mark felt somebody at his pocket, and as he turned around the stranger jumped through the opposite door of the coach and ran, taking with him the money. Immediately Mr. Mark dropped his leather bag and gave pursuit, but lost the stranger, however, after a, short run.

While the chase was going on the train pulled out, and Mr. Mark was left stranded with but a few cents in his pocket, as his ticket was in the stolen wallet, and his leather bag had been carried away on the moving cars.

\$2,000,000 Damage Results From Explosion At Whiting Plant-Accident Due To Slight Gas Leak or Over-Pressure Carried in Tanks-Many of the Victims Caught in Shower of Flame.

Chicago, July 5.—Eight men are dead today, thirty-six others re injured, ten so seriously that they may die, and property damage is unofficially estimated at two million dollars as the result of yesterday's explosion in the Standard Oil Company's refining

Most of those injured were caught in the shower of flame, but others were struck by the falling brick and steel walls of the two steel stills which burst. Excessive pressure or a tiny leak of gas were two probable causes of the explosion advanced by those familiar with the operation of the stills, which are filled with crude oil under pressure in the manufacture of gasoline. The first still to explode fell against the second, causing it to let go also. Fire ignited the wreckage, and it was some time before the bodies could be recovered.

SMUTS ARRIVES IN DUBLIN, ON VITAL MISSION

Will Confer With Sinn Fein and Unionist Leaders.

PEACE EXPECTED

British Press Looking Forward To Solution of Problem.

London, July 5.-Conferences were under way in Dublin today betwee. General Jan Christian Smuts, t' South African premier and prominent South African premier and promine, at Irish leaders, says a dispatch to the Evening News from Dublin this afternoon. General Smuts, who arrived in Dublin during the morning, conversed with Lord Mayor O'Neill and afterwards with Eamonn De Valera, the Republican leader, and Arthur Griffith, founder of the Sinn Fein, and a member of De Valera's cabinet, the message states.

Dublin, July 5 .- Gen. Jan Chris. tian Smuts, the South African premier, arrived in Dublin this morning and is the guest of the lord mayor here.

The welcoming delegation, including the lord mayor, Arthur Grif-fith, founder of the Sinn Fein and R. C. Barton, Sinn Fein member of Parliament for Wicklow, awaited Gon. Smuts at Kingstown, expect-ing to meet him there and escor-him to Dublin. Through some slip. however, they missed the general, and he motored to Dublin unnoticed.

London, July 5 .- Gen. Jan Christian London, July 5.—Gen. Jan Christian Smuts, premier of the Union of South Africa, left for Dublin last night. It was understood here this morning that the purpose of his visit to Ireland was to confer with Sinn Fein and Unionist leaders of South Ireland preliminary to the resumption of their conference mext Friday. The Unionists and Sinn next Friday. The Unionists and Sinn Feiners held a brief meeting in Dublin yesterday, and reports received here indicated that they had reached an understanding as to matters to be discussed at future conferences.

The Dublin conference was the outstanding feature in London newspapers.

"As there seems to be considerable trouble from poison ivy, I am sending a prescription of a remedy which has proved beneficial

Caicago, July 5—Ren of Fourth of July accidents ..om various parts of the-United States revealed today that while the celebration by fireworks and firearms took its toll of deaths and seriously injured, by far the greater number of fatallities were from drownings and automobile accidents common to all summer holidays. Heat prostrations also took a number of lives according to the reports.

In New York city seven persons were drowned, one committed suicide after becoming demented from the heat, and one heat prostration was reported, while premature explosion of firewarks accounted for only minor accidents, Chicago reported two persons shot to death by accident, another wounded, five drowned, and five killed in automobile accidents, while a panic in a vacant lot, where a quantity of freworks exploded prematurely, led to several persons being hurt.

McCullough's Charge

Support His Statements.

"This affair came up several months ago," declared City Clerk Baker today, commenting upon the reply Monday from T. D. McCullough, secretary of the Social Service, that he was at liberty to choose between the two terms, "blatherskite" or "prevaricator." "But at that time I did not know that I was being attacked by McCullough."

The controversy hinges on the charge thurled some days ago that widows from the county were being "dumped" into the city, where they would receive benefits under the mothers' allowance act, inflicting considerable expense upon the citizens. T. D. McCullough stoutly denies the same, while the city clerk is equally confident that such has occurred at different intervals.

4. Water your horse as often as possible. So long as a lorge as working it makes the solution of the board of education at a regular meeting of that body this afternoon, by delegates from the employees on the new Collegiate Institute, is considered Command."

While it is believed that the great majority of the members of the G. W. V. A. locally are in favor of the proposed amaigamation of all the different soldier bodies, it develops that a number of that organization seem desirous of a change in the near future regardless of what may transpire at the Dominion convention next September.

That efforts are being made to establish a second branch in the city was learned today. Application for permission to do so has been made to the Toronto executive in Toronto, it is stated, and the charter for the new body is expected to arrive daily. That the latter will be known as the Lord Byng Command of the G. W. V. A., with it headquarters preferably in East London, is also intimated.

Commenting upon this move by a certain element of the G. W. V. A., J. W. Cunliffe, formerly secretary of that body for more than four years, advised that he had known for some time that such a move was in progress, but could throw no light as to who were the prime movers. That there has existed considerable dissatisfaction among the members for some time is intimated, and accordingly a representative number are breaking away from the London branch. That unusual care will be exercised in accepting members for the new body is explained, and prospective transfer of members from other branches will be given close consideration as well. The east end branch will comprise mostly overseas veterans, it is further claimed.

Would Gladly Welcome Conference, Declares Yukio Ozaki.

TOKIO, July 4.—Yukio Ozaki, former Japanese minister of justice, on the conclusion of a ten thousand mile campaign of the empire in behalf of limitation of armaments, a campaign unparalled in Japanese political history, declared his conviction today that if the United States Government "proposed a conference on limitation of armaments it would meet with an eager response throughout the length and breath of Japan.

**M. Ozaki, whose achievements have made him the foremost Japanese liberal, and the foremost place of Nations sallance that a statement of the pagine of th sulted from conflicting statements as to what has really taken place in con-

it would meet with an eager throughout the length and breadth of Japan.

M. Ozaki, whose achievements have made him the foremost Japanese liberal, sold:

"If the United States Government proposed an international conference to discuss restriction of armaments, it will surely be the beginning of a solution of all the diplomatic questions between Japan and the United States. If we are unable to prevent the clearly unnecessary wasteful naval competition how can we expect to solve other irritable and more complicated questions between our two countries? The latter will easily adjust themselves when the former has been settled."

M. Ozaki explained that he spoke in almost all the important cities and towns from Kyushu, in the furthest north, addressing more than a hundred thousand persons at 100 meetings, large and small at which postcards were distributed so that his hearers could vote freely on disarmament. The final result on the returns from these cards. M. Ozaki asserted, showed that ninetyfour per cent favored limitations.

The intense endeavor of M. Ozaki appears to have awakened the nation to the fact that armament restriction is the supreme problem of the era for Japan. An investigation in the highest official quarters elicited confirmation of previous statements, that the Government would welcome a conference on armament limitation.

COMMERCIAL COURSE MAY BE LENGTHENED

At the meeting of the London Tech At the meeting of the London Technical and Art School held on Monday afternoon, it was recommended that instead of a two-year commercial course, as has been the custom up until now, a three-year course would be necessary to complete the term. To carry this out it would be necessary to engage an additional specialist in English and also to procure the necessary equipment for an additional class-room. If the third year is added, classes will commence in September.

readiness for two weeks of real enfoyment for the boys in attendance there. This camp is situated on Lake Erie in Norfolk County, and is an ideal spothaving all the facilities for amusements and sports. There are about 350 boys and instructors in this camp and the secretary states that they are having the time of their lives.

The boys arrived in camp in trucks which were kindly donated for this purpose by the Ruggles Motor Company and Smallman & Ingram, excepting that two of the trucks lost their way and tried to land at Port Burwell instead of Vittoria, everything went without a mishap.

Immediately after supper the first night, the Kitchener boys played the Hamilton Tigerse in baseball and were defeated by two runs, the score being \$-6 in favor of the Tigers. This game was followed by a campfire on the lake shore, where the boys participated in community singing, group yells and a variety program, which ended with a good-night service and talk by Rev. Capt. Christic of Woodstock. On adjournment to their tents at 9:45 the funbegan.

JACK DEMPSEY "TIGER OF THE RING"

Tells a Secret Of His Training-Advises People Who Are In a Weakened, Rundown Condition To Use Nuxated Iron To Increase Their Strength, Vigor and Vitality

Today, recognized as the physical superior of any living man, the superman of the age, Jack Dempsey, heavyweight champion of the world, explains below the part Nuxated Iron played in helping to prepare him for the two supreme tests of his career. First he used Nuxated Iron as a part of his training to increase his strength and endurance in his decisive smashing victory over the mighty Willard who had never before been knocked from his feet. In this battle Dempsey displayed a dynamic overwhelming strength and power never before known in the history of the ring; and now again in his phenominal victory over Carpentier he displayed that same indomitable force and nerve never before seen in any human being. The fact that Dempsey took Nuxated Iron as part of his training for both Willard and Carpentier is convincing evidence of the importance he attaches to keeping his blood rich in strength-giving iron, and the high regard in which me than Willard and I felt practically as fresh after the fight as when I started."
It should occur to every thinking person that if a man as physically fit as Dempsey should consider it advisable to take Nuxated Iron, in training for his battles with Willard and Carpen-tier, how much more important it is for the average man or woman to see he holds Nuxated Iron as a master strength and blood builder.

In a statement made at his headquarters in New York after the fight back Dempsey said: "A couple of years ago in preparing for my big fight with Jess Willard I took Kuxated Iron, and after I had taken it for a short while I was positive I could stand harder straips with less fatigue than before and I firmly believe that for my big fight with Jess Willard I took
Nuxated Iron, and after I had taken it
for a short while I was positive I could

Nuxated Iron put added power behind
my punch and helped me to whip Jess
Willard and thereby win the world's championship at Toledo. After that time whenever I felt rundown I used Nuxated Iron and
when I started to train for the international
championship bout against Carpentier I resumed the regular use of Nuxated Iron, feeling
positive that it would help give me that ruggard strength, endurance and power that is
of greatest importance in contests of this kind,
because, other things being equal, victory
always goes to the strongest man. In this I
was not mistaken as Nuxated Iron again

And Win The World's Championship

Important Statement of Jack Kearns, Manager for Dempsey "Knowing the benefits that Demp-

sey had derived from the use of Nuxated Iron in training for his contest with Willard, I strongly in-sisted that he must again use this product as part of his regular training for his battle with Carpentier, and from the results which Dempsey has obtained from the use of this product in both his phenominal victories over Wil-

lard and Carpentier, I strongly advise people who are in a weakened rundown condition and blood builder."

What you need is something to put more nerve force in your nerves and more fron in in your nerves and more from in your blood. This ismost effectively, accomplished by the free use of Nuxated Iron. This valuable product contains the principle chemical constituent of active living nerve force in a form which most resembles that in the nerve and brain cells of man. It also contains organic iron. MR. MEIGHEN'S TRIP TO LONDON.

The decision of the lord chancellor that the Anglo-Japanese alliance must stand for at least another year has come as a great surprise to the members of the imperial conference. To the Rt. Hon. Arthur Meighen, criticizing Ludendorff, Tirpitz and other leaders. especially, Lord Birkenhead's pronouncement has come like a bolt from the blue. Mr. Meighen has been trybimself. But Mr. Meighen may find consolation in the fact that the Anglo-Japanese question now enters upon a cepted which calls for a conference between Britain, des Dames. the Pacific Dominions, and the United States on the also that Tirpitz launched his big submarine attempt, one hand, and Japan on the other. Judging from the preliminary blasts in regard to Mr. Meighen's attitude on the matter, before the conference began its sittings, he had his course all marked out and charted. and this without waiting to see in what direction the breezes of the empire might blow. And now that all this has turned out to be a dead reckoning, Mr. Meighen ought to be a sadder and a wiser man.

However, it will soon be time for Mr. Meighen to steer his bark westward, en route for his little grey home, in which retreat he may soon have all the leisure he wants to ponder on the problems that abler minds will have the task of trying to solve.

BRITAIN AND PALESTINE.

It is claimed for Britain, and with justice, that any country which comes under her protection benefits thereby. From the day that Gen. Allenby entered Jerusalem with his modern contingent, in striking contrast with the ex-kaiser's flamboyant advent some years before the war, the object of the administration has been to improve the condition of the inhabitants, irrespective of creed, caste or color. It was singularly becoming that the pomp and circumstance of the entry of victorious troops should be eliminated when they came to a city which had been entered so humbly nineteen hundred years previously by the Messiah himself, and it is still more fitting that in imitation of One who "went about doing good" that the arrival of the British should mark the beginning of a new era of progress for the people of Palestine.

There has fust been issued by the British Palestine committee a statement which shows in the most striking manner the amount of work that has already been done towards improving the health of the people and attending to their general welfare. Government dispensaries now exist in fifteen towns in Palestine, with an aggregate of 138,248 attendants during the past year. Owing to the prevalence of eye disease among particularly, the ophthalmic side of the work is being specially developed. In this again we are reminded of One who gave sight to the blind and caused the dumb to speak. Diseases of the eye, it is well known, have been one of the curses of Eastern countries for

the sanitation of railways in Palestine, and of the popes came to an Italian port city, but one, it was first aid. First aid equipment is also being provided to leave the shore, for the projected conference. A at stations and on passenger trains.

new era has appeared for the rising generation, and the little ones are to be given the chance of developing sound minds in healthy bodies. In a country where the most elementary rules of hygiene have hitherto been neglected, it can readily be imagined that the task of reforming these conditions is by no means an easy one, and requires a considerable amount of tact and perseverance. When it is pointed out that 3670 from 25 per cent to 80 per cent of the children in dif-From 9 p.m. to 8:30 a.m., and holidays, call 76. The romance of the Holy Land seems to flicker and fade before such sordid facts as these, but the lepers of uncleanness have to be sought out and healed today just as they were nearly two thousand years

All the schools in Palestine are regularly inspected by the department of health, and a definite medical service has been established for state-aided schools and orphanages. Railway Problem And in railway circles I know high officers with whom, after a conversation at Saturday lunch, I have been invited back to empty offices to be shown colos-sal sacred books that showed—there was no doubting it-how poor Bill Langley head for figures had gone wrong again! How Bill, in public addresses before the railway commission, solemnly swore cause, for sooth, the railway rates had rates hadn't done this *gobbling, it seemed. Among the small Eastern investors—the kind with whom my business brings me in frequent contact-I find what I might almost call sublime conceit in supposing that they can see through the char-latan and discover the fraud out West twice as quickly as the West itself "No," quavers one of these very nice people with perhaps \$1,000 to invest, "I don't think I care to hold any more Western school debentures—or city bonds, or whatever it is —until I see. There is a bit too much demagogery out there! Too many young lawyers strutting around and flirting with parlor Bolshevism. Not just the O. B. U. strike Winnipeg, though that was bad enough—but I heard of a case, etc., etc., etc., etc." I wonder how many of the wellinformed easterners know the amount of uncombe of that kind is talked among the little investors in the East and in England, timid peple to whom the loss

of the interest on even one debenture would mean some bill unpaid, some comfort done without? The West is just as sane as the East It sees through its own demagogues just as quickly and perhaps a little more quickly than the easterner. The Western farmer is the last man in the world to tolerate Bolshevism. If, as I suppose, the basis of this eastern distrust is due to sometimes extravagant attacks on the railways by Western orators, the East should remember that one of the surest ways a young lawyer can take gobbled up the rest: Well, the railway for getting into the public eye out West, rates hadn't done this gobbling, it and winning a good constituency is to quote Scripture and rag the railways. the columns—and there the figures! BLACK—GRISWOLD

A pretty June wedding took place on Wednesday June 23, at the home of Mr. and Mrs. P. A. Griswold, when their daughter Jean Catharine became the bride of Mr. Keith Black, the Rev. Mr. Elder of Melbourne officiating.

The bride was prettily gowned in livory satin trimmed with pearls, wore a bridal veil with orange blossoms, and carried a shower of bouquet of Ophelia roses and maiden-hair fern. She was given in marriage by her father, appearing at the strains of the bridal chorus from Lohengrin played by Miss Grace Perry.

The ceremony took place beneath an archof evergreens and roses.

The bride was attended by her sister, Miss Margaret Griswold, who was attired in a dainty dress of pale blue silk, and carried a bouquet of roses. The groom was supported by his brother, Mr. Duncan Black. Little Miss Alice Griswold made a pretty little flower girl gowned in white silk, and carried the ring embedded in roses. The groom's gift to the bride was a handsome cabinet of silver, to the bridesmaid a signet ring, to the groomsman a pearl tiepin, to the pianist a silver barpin, and to the flower girl a signet ring. The bride received many useful and handsome gifts, among them some very substantial checks.

After a wedding dinner the happy couple left, amid showers of confetti and good wishes for Toronto and Niagara Falls, the bride traveling in a navy serge suit and black hat.

Birds.

Dear Miss Grey,-The birds seem to be so full of song that I cannot see why they aren't appreciated more and more protection provided for them. One alone can do but very little, but every little is greatly appreciated by our feathered friends.

I know children who would go and take the eggs out of robins' nests or at least any kind of birds' eggs, and break them and also destroy little birds.

Now, if they were left just think of the number of insects or seeds they would destroy which destroy our crops.

The visit of the provincial delegate, Miss Guest of Toronto to the Kintore Women's Institute, was much enjoyed, between 50 and 60 women attending the Women's Institute meeting on Thursday several motoring out from Embro and Lakeside. Miss Guest proved a very pleasant and interesting speaker. The subject chosen for her address was "The Place and Power of Young Womanhood in the New Era," the speaker proving that women possess a power in these days never dreamed of in the past. She remarked that although men were not apt to admit it, they were practically under petticoat government from their youth up. Ac-

BAY CITY, July 4.—The London league leaders never had a chance against the fighting Wolves today, Bay City winning both ends of the double-header by scores of 8 to 3, and 10 to 5. The first game was a bang-up affair, featured by plenty of sensational plays and hard clouting, but the second was a fiasco, and from the first inning London was a beaten team, the Wolves toying with the Tecumsehs in the late stages.

Delotelle hurled the first game, but was easy, the locals bunching their hits to good advantage, and being aided considerably by six misplays by the visitors. Boothby, on the mound for Bay City, was touched for just as many hits, but was given splendid support in the pinches, nad was never in danger.

Pinto opposed Collins at the start of the second contest, but was even less effective than Delotelle in the first game, being nicked for nine hits, including two triples by Kelly in the fourth Manager Wetzel took the mound and stopped the scoring, although by that time the locals were tired out, and did not try to get on, several of the right-handed hitters several of the right-handed hitters batting left-handed and refusing to batting left-handed and refusing

OTTAWA. July 4.—Police officials, intervened today and prevented fulfilment of a wager on the Dempsey-Carpentier battle when they notified Roual Mercier that they would not permit him to roll a peanut four city blocks along Sparks treet, the main business thoroughfare of the capital. Mercier, an ardent supporter of Carpentier's, Amas Seguin and Lorenzo Lafleur, both second year men at Osgoode Hall, and followers of Dempsey, put up the sporting offer to roll a peanut along a route to be selected, the "roller" depending on the result of the big contest.

The police say that traffic would be absolutely disorganized by the tedious poperation and that under no circumstance could they permit it to be held.

Those who backed Carpentier must sadly realize that it doesn't pay to let too much sentiment enter into bets. Had this element not entered into the July 2 fight it is doubtful if a quarter the money put on Carpentier would have been in evidence at all. The other quarter would have, for when there are odds of 3 to 1, it's always a good gamble.

Carpentier elected to fight a totally different fight than was expected. Had Jack Dempsey had the choice of what tacties the Frenchman should pursue, he probably would have ordered just those Georges started with Saturday. Georges was made for the champion, the moment he essayed to mix it, and swap punch for punch.

There is just the possibility that Georges had the right idea, and if he could have weathered another round or two, the champion would have been burned out, and he then could have got in his scientific, persistent, wearing-down process. Meantime, he had always the opening for his right to expect. However, when he did get the opening, it must have taken most of the courage from the challenger to find that his punch wasn't irresistible.

Another element that entered into the fight was the uncanny way in which everything has turned out for the Frenchman during his career. Everything he touched turned to gold—except what the German's shells changed back into brick dust for a few years' interlude.

Mons. Descamp's "evil eye" was given a certain amount of credence, from the very fact that everything he and Carp attempted turned out all right. However, Mons. Descamps must have been wearing a dark shield over the wicked optic on Saturday.

St. Louis split even in today's games the Pirates winning the morning contest, 5 to 2, and losing in the afternoon 6 to 2. Glasner's pitching in the morning was effective while Bailey was hit hard and timely. In the afternoon Cooper was unsteady and his hit batsmen and three passes were followed by long hits. The indicted White Sox players will prove in today's trial that they didn't get the salaries they were presumed by the public to be getting. That wouldn't be as hard a job as some of the Mint League players would have proving they earned the salaries they received, on paper or off.

The dope is that Benny Leonard lolled on some damp idleness so long before the Benton Harbor fight that he got rheumatism. According to a local fan who was in Chicago last week, a bunch of Leonard's friends weren't going to let friendship interfere with the way they placed their bets. However, the champion developed the rheumatism and friendship wasn't strained.

Score: Flint Vehics Got Back Into

SARNIA, July 4.—The Hurons made a clean sweep of today's double-header with Patsy O'Rourke's Hams at the Port Huron ball yard, by duplicating their morning score of 8—2 in the afternoon contest. Hughes, who did the hurling for the Hams, pitched a nice game, but he was accorded very ragged support in the infield. Bullard, while touched freely by the Hams, tightened at will and had the visitors at his mercy. Owen Kelly, local third baseman, injured his leg while sliding into the home plate and was compelled to quit, Maloney replacing him, and Hooker, who has been out of the game for a couple of weeks, going into left field. After the second inning the Hurons were never headed, going into the lead in the third, and pounding Hughes for six hits, some of which were of the scratchy variety, when the infielders became tongue-tied and fiveruns were made. The Hurons batted into what should have been three double-plays this inning, but both men were safe in each instance. Umpire Cavanaugh was hard ridden by the players on both sides, his decisions hardly meeting with the approval of the teams, though there was little reason for any kick coming on the whole. Score:

Makers of the Famous Eddy Matches B28

is always the highest that can be produced. Each tire is specially designed for the service it must deliver. Goodrich Fabrics, in the popular sizes, have established themselves as unusual values from the standpoint of real economy. Silvertown Cords in their class have always held first place in the esteem of motorists, not only because of their symmetrical perfection of finish, but furthermore, by reason of their long life, complete dependability and satisfactory performance.

One to make and 5 days. We had a beautiful flower, So lovely, bright and fair. We thought we must only love it with tender care, So we loved our darling dearly, And thought to keep him always, But the King of the garden saw it, And the Lord, my king, did say. Their fury it cannot bear. Come to my heavenly garden And see in its perfect bloom. The flower you loved so truly and thought that I plucked too soon. O, then, we shall know the reason, Though we know it not today. Why in his promising beauty He took our Harold away.

Matter Awaits Arrival of President Currie - Council May

Regarding Stanley Street Track

Have Tracks Torn Up and Relaid—Vehicles Barred
From Victoria Park.

The city council met twice Monday night for general business, and despite the two meetings took no action regarding paving the Stanley street track allowance other than deciding to await the arrival from Cleveland of Charles Currie, president of the London Street Railway Company. He will arrive here in the near future, possibly—this week when a consultation on the problem will be in order.

The council met in the chambers at \$ p.m., and shortly thereafter adjourned to the public utilities commission rooms, where City Solicitor Meredith explained to the public utilities which are involved in the Stanley street controversy. Representatives of the press were barred from this private session, but Mayor Little informed the reporters afterward, that the solicitor has stated that the council enacted a bylaw closing Little informed the reporters afterward, that the solicitor has stated that the vehicles Barred

On the motion of Ald. Bridge, City Clerk S. Baker was instructed to write to Attorney-General Raney and io the Cathon that the department of justice at Ottawa ask-department of justice at

track allowance, charging the comparior same.

Following this information the council decided to await President Currie's arrival. The solicitor also informed the city fathers he was taking steps to collect the amount due the city for paving the track allowance on Rectory street, and it is possibly due to trouble over this account that the council shelved the Stanley street problem.

Paving Deferred.

Paving of Central avenue from Richmond to Adelaide streets, and Adelaide street north, was deferred, pending consultation with President Currie, as there are street car tracks on these thoroughfares. Considerable discussion was in order regarding the civic paving

there are street car tracks on these thoroughfares. Considerable discussion was in order regarding the civic paving program, Ald. Cameron Wilson moving that tenders be called for this work, stating that prices as submitted by City Engineer H. A. Brazier seemed high. Ald. W. A. Wilson declared that delay involved in calling for tenders would throw many civic employees out of work. Ald. Bridge suggested that sufficient work be authorized to keep the employees busy while tenders are called for other jobs. City Engineer Brazier stated that the sheet asphalt pavement to be laid on Grosvenor street from William to Adelaide would keep his department busy for two weeks, and that he purposed, if authorized to do so, to commence grading on this job today.

Barred From Park.

The council enacted a bylaw closing Victoria Park to vehicular traffic. An amendment by Ald. F. E. Harley that only the corner entrances of the park be closed was lost. Ald. Cameron Wilson declared that three streets bounding the park are paved, and that the sides open to traffic by Ald. Harley's amendment included the sites of two fatalities due to autos in the park. He stated that the park is not safe for children with autos in any part of it.

"Keep them out," he urged. "Two side gates open will nullify the effect of the whole bylaw."

Ald. Watkinson declared the park to be public property, and as such no one

of the whole bylaw."

Ald. Watkinson declared the park to be public property, and as such no one should be deprived of entrance to it. He pleaded consideration for the aged, sick and infirm, who must go in autos. A reduced speed limit, in his opinion, would assist greatly. Ald. Wenige total that while these people must be katted that while these people must be considered, the greater number of people must also be similarly treated. Jos. Cake (Hist., Lat.)
