WILL FORM ASSOCIATION

Branch of Ontario Fish and Game Protective Ass'n. Will be Established Here

Large and Enthusiastic Meeting of Fishermen and Sportsmen Held—Address Given by A. Kelly Evans of Toronto

A meeting of local sportsmen, fishermen and others was held in Harrison Hall yesterday afternoon, to consider the advisability of forming a branch of "The Ontario Fish and Game Protective Association" in this city.

The following were among the large number present—John Cameron, David Smith, Milton Backus, Henry Stephens, Wm. Wilmore, Judge Bell, W. N. Massey, Chas. Hadley, W. Stanworth, Frank Rankin, Samuel Holmes, C. W. Haviland, A. Kelly Evans, Caleb Wheeler and others.

Mr. Scullard was unanimously elected chairman. He made a few introductory remarks on the object of the meeting and then called on Mr. A. Kelly Evans to speak.

Mr. Evans, who is secretary-treasurer of the Toronto branch, then gave a lengthy address, in the course of which he drew attention to the great need of fish and game protection in this part of the province, and said that although fishermen and sportsmen viewed the matter from different points of view, they should both realize the advantages of protecting their waters and hunting grounds from the ravages of those unscrupulous people, who, by utter disregard of the laws governing the close season, work so much harm to both fisherman and sportsman.

He showed the position of Ontario's large fishing and game fields on a large map and produced statistics showing the decrease in the fishing industry on Lakes Erie, Ontario and St. Clair.

He then proceeded to compare the Maine fishing and hunting industries with those of Ontario, showing how in the former State the people who had once been the chief cause of the decrease of game and fish, had realized the value of observing close seasons and husbanding their resources, and by proper conduct in these matters during the last few years had built up the fishing and game pursuits until they assumed their present gigantic proportions. Just as Maine had realized its mistake and saved the situation, so must Ontario, a province possessing far more valuable and extensive fishing and hunting grounds than Maine, make an effort to restore and maintain its rapidly vanishing game and fish.

Further on in his address Mr. Evans mentioned that J. B. Pyne, the Ontario Minister of Education, had been approached over the matter of placing notices in schools, telling children of the wickedness of bird-nesting and other cruel pastimes. He started the meeting by reading an extract from a Government report, which stated:

"That in 1899, 31,000,000 lbs of white fish were taken from the waters of Lake Erie, while in 1903, only 21,000,000 lbs. were taken, showing a decrease of 10,000,000 lbs., or one-third of the entire 1899 catch, in only four years."

Mr. J. Bagnall took exception to these statements, which he said were either mistaken or untrue. Finally, Mr. Evans assured the fishermen of Ontario that the Association did not intend to make any movement that would be of detriment to them; in fact, his wish was for the fishermen to join the Association and work toward an object which would be to the mutual benefit of all concerned.—Applause.

Mr. Oliver Adams, vice-president of the Toronto branch, followed with a long speech, supporting the first speaker by statistics and reports, and at the conclusion of his remarks Mr. Scullard said that he thought there could be no longer any doubt as to the need of a local branch of this splendid Association. Although not a sportsman or fisherman himself, after the evidence and arguments advanced by these two speakers, he thoroughly believed that such a branch was needed and heartily supported the formation of one. He asked for some gentleman present to move that a branch be formed.

Moved by C. W. Haviland, and seconded by David Smith, "That a branch of the Ontario Fish and Game Protective Association be formed in Chatham."

The motion was carried by a large majority. Mr. Ward Stanworth then made a brief speech repudiating the reports that fish was unobtainable at low prices or in large quantities on the Chatham market. Fishermen were willing to sell their fish to local people at a much lower rate than they could obtain for them in New York. The fish which is sent from Chatham to New York is mostly carp and sucklike fish, which local people will not buy.—Applause.

Mr. Caleb Wheeler made a speech replying to Mr. Stanworth, and asking for support for the movement.

SPEECH FROM THE THRONE

Excellent Address Given at the Opening of the Legislature

Work for the Session Reviewed—Busy Session Looked For—An Honest Government

Toronto, Ont., Feb. 15, 1906.—The following is the address given at the opening of the Ontario Legislature to-day:

Mr. Speaker and Gentlemen of the Legislative Assembly, I take great pleasure in meeting you again as representatives of the Province in Parliament assembled. Out very earnest thanks are once more due to Almighty God for the bountiful harvest of the year that has passed, which even exceeds the one that called for our gratitude last year with this harvest, the market conditions have been such as to maintain the prosperity which our farmers have enjoyed in recent years. This has been noticeable in the dairy industry, the output of which has been very large. The evidence of steadily increasing enterprise and activity on the part of our people which have been apparent for several years past, are to be seen on all sides at the present time, and afford good reason for congratulation and thankfulness. The past year has been the most successful in the history of the Agricultural College from the standpoint of the number of students, the number of farm visitors, and the amount of work done. For the first time in its care of the total number of students of all classes exceeded one thousand. The Macdonald Institute has apparently taken a firm hold on the appreciation of the public, and farmers' daughters have come to its halls in numbers that promise a very bright future for the institution.

You will be asked to provide funds for increasing the teaching facilities of the college in various departments. The past year has shown a large increase over previous years in the number of immigrants settling in Ontario. Preparations are being made to receive and settle a larger number during the present year, and will be directed to the farms of the Province. With increased facilities and an improved system it is confidently expected that the immigration and colonization work of this Government.

SHIVERS NOW

A Certain Young Man is Mourning over the Loss of an Overcoat—A Very Necessary Garment To-Day

"First out, best dressed" was evidently the principle followed by one young man who attended a certain social held in the city a couple of nights ago.

The social was a success, everyone enjoyed the evening and all the guests have pleasant memories of the occasion with the exception of one young man, who lost his overcoat. He wishes he hadn't gone. Before he went he had a dandy new coat, and now he is wearing what he calls, in his disgust, a "rag carpet." Some one evidently envied him his stylish clothes, and left early. Then, again, of course, the coat may have been taken by mistake. Unfortunately, the loser was the last to leave and he had no pick or choice. He had to take the only coat that was left. The incident is particularly distressing to him as the coat he once owned was considerably warmer than the inferior garment which was left for him.

McCALLUM-WEBER

A very happy wedding was celebrated last evening at the home of the bride's parents, Mr. and Mrs. Frank C. Weber, Detroit, Mich., when their eldest daughter, Dorothy Edna, was united in wedlock to Mr. John A. McCallum, accountant of the Chatham Gas Co. The bride looked very charming in white silk, multicolored with lace, carrying bouquet of white roses. She also wore a beautiful sunburst of pearls, the gift of the bridegroom. The bridesmaid, Miss Belle Weber, sister of the bride, was gowned in pink silk, and Mr. Ross Webster, of The Ark, was best man. The groom's present to the bridesmaid was a crescent of pearls. The house was beautifully decorated with smilax and carnations. The ceremony was performed by the Rev. Walter E. Burnett, pastor of the Preston Methodist Episcopal church, Twenty-third street. After a sumptuous repast, the bride and groom took a Wabash train for the east to spend their honeymoon, carrying with them the best wishes of a large circle of friends. Mr. and Mrs. McCallum will be at home to their friends after March 15th, Grey street, Chatham. The young couple were the recipients of many handsome and valuable presents, showing the esteem in which they are held.

WILL GET NORMAL SCHOOL

Deputation From Chatham Was Given Every Encouragement

Chatham's Claims Were Well Put Forth by Able Speakers—Every Courtesy Shown the Visitors

The Normal school delegation who yesterday waited upon the Honorable Minister of Education in Toronto, have returned, and the optimistic views which one and all of them express give every indication that their mission will prove a successful one.

The Chatham Normal school delegation was a strong one, and the Cabinet Ministers to whom they made their representations were visibly impressed. Small wonder then that one of the honorable gentlemen was afterwards heard to say in unmistakable tones of admiration, "Well, this is certainly the most unique deputation which has ever waited upon the Government."

THE DEPUTATION.

The names of those forming the delegation are as follows: P. H. Bowyer, M. L. A.; A. McCoig, M. L. A.; H. S. Clements, M. P.; D. A. Gordon, M. P.; Mayor Marshall, Warden Scargis; Rev. Fr. McKeon, Chancellor London Diocese; Rev. Fr. James, Superintendent Separate Schools; R. M. Paxton, Chairman Public School Board; T. A. Drew, Chairman Separate School Board; Dr. Thornton, Chairman Collegiate Institute Board; F. Stone, Chairman Public Library Board; Dr. J. L. Bray, Dr. McKeough, Dr. Hall, County Councillors; Haggart, Horal, and Grant; A. W. Potter, Ald. C. Austin, Ald. W. H. Benson, Robert Park, I. P. S.; Rev. W. H. G. Colles, I. P. S.; S. Stephenson, W. A. Hadley, President Board of Trade; Wm. Robertson, W. G. Richards, James Taylor, Narcisse Bechard, J. W. Fleves, Principal Model School. The deputation was received by Hon. Dr. Pyne, Minister of Education, with whom were present Hon. Dr. Reaume, Hon. J. W. Hanna and Hon. J. J. Foran. The deputation was favored with the hearty assistance of Hon. Adam Beck, of London.

P. H. Bowyer, M. P., formally introduced the delegation to the Cabinet Ministers, taking occasion to remark that the claims of Chatham for one of the proposed new Normal Schools received his most hearty endorsement.

Dr. A. W. Thornton was the first speaker for the delegation. He presented the claims of the city by the aid of a map prepared for the occasion. Dr. Thornton clearly proved that Chatham was the exact centre of the Western Peninsula, and that a circle described with Chatham as the centre, would touch the town of Amherstburg on the west, and the town of Forest on the north, and that within that circle would fall a large number of towns and villages having Collegiate Institutes, High schools and continuation classes, the very institutions necessary to produce the students for a Normal school.

The speaker drew attention to Chatham's position geographically, with its early spring and late fall, giving an additional month for outside nature study. He also spoke of the large number of manufacturing industries of this city, where Normal school students would have an opportunity of studying the process of manufacturing, not only in the city itself, but in the adjacent town of Wallaceburg, so easily reached by our electric railway system.

Dr. Thornton added by way of parenthesis that the only article that we do not manufacture was whiskey, and he had to confess that we have neither a brewery or a distillery in the county, but he thought that the Honorable Minister would concede that a study of this branch of manufacture was not necessary to the proper development of the teacher.

In conclusion, the doctor stated that after all Chatham put its claims on the broad basis principle of all governments, namely, the greatest good to the greatest number.

Dr. George T. McKeough followed with a splendid address, setting forth the many educational advantages of the city of Chatham, drawing particular attention to our magnificent Central and McKeough public schools, our splendid Separate school and the unique work being done by the devoted ladies of the Urquhart Academy, establishing beyond a doubt that the environment and atmosphere of Chatham were such that the success of a Normal School located in Chatham would be assured.

County Councillor Horal presented the case from the standpoint of the agriculturist and his speech was a source of strength to the delegation's representations.

Narcisse Bechard spoke as a trustee of the bi-lingual schools, impressing upon the Minister the great good which would accrue to these schools.

WISE EXPENDITURE.
The city certainly owes a debt of gratitude to the large number of gentlemen who composed the delegation that waited on the Government in regard to establishing a Normal School in this city.
No expenditure, made by the City Council of this year will bring greater returns to the city than that which will pay the cost of this delegation to Toronto.

SUNDAY TRAVEL.
Premier Whitney has long since elicited the admiration of all fair-minded people for his frankness in meeting delegations and for the unmistakable language he uses in his replies. There is no equivocation, nor does he indulge in phraseology that cannot be understood by the gentlemen who appear before him, and the general public.

His answer, given a few days ago, to the delegates of the Lord's Day Alliance, who asked that legislation should be enacted that would in future prevent the running of trains on Sunday—what the delegates chose to designate as a desecration of the Sabbath—left no doubt in the minds of those present that he had no intention of introducing legislation that would meet their wishes, and in that he was perfectly right.

To curtail this privilege might have met with the approval of our people years ago, but the public think differently to-day. It was only a few days ago, in our city, that the management of the Electric Road was requested by some of our clergymen to run a special car for the convenience of those at a distance who might wish to attend the Sunday evening church services in the city, and the result has been that hundreds of church-goers are given an opportunity to attend the services in the different churches, when otherwise they would be unable to do so. Surely there can be no harm done by permitting a continuance of this car service. If the gentlemen comprising the Alliance would confine their efforts to the enactment of missions that have already been approved of by the general public, who, after all, are the best judges of what is wanted, they would accomplish more good than they can ever expect to do in trying to force the Government to undertake something which is directly opposed to public opinion.

THE LIQUOR QUESTION.

Windsor has been known for many years as a "wide open city," but on Sunday last, for the first time, every bar-room was closed and the cigar stands and front counters were also put out of business for the day.

If there is one regulation the Planet would like to see strictly enforced it is the Sunday closing law, and in time, no doubt, the Whitney Government will bring about this desirable state of affairs.

The strict enforcement of this law cannot be accomplished in a day. After years of an almost total disregard of the importance of this question, under the Ross regime, an honest effort is being made, and it is backed up by strong public opinion, and some day those engaged in this perfectly legitimate calling, under certain restrictions, will realize it.

The hotel men will soon understand that it is to their interests to observe the law, and many already do. The intention of the present Government, to make those in the business keep hotel, instead of merely carrying on saloons in the general acceptance of the term, will do much to raise the standard of the calling by bringing into the business a class of men who have a higher appreciation of their responsibilities.

The Bobcaygeon Independent (independent) says that "The Whitney Government, nominally Conservative, is distinguishing itself as a very fair sample of Reform Government."

BURNS AGAIN

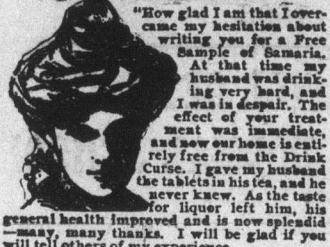

"Jimmy" Burns, who is generally known around town as a desperate character, was arrested by James McGregor on a charge of stealing harness from Albert Wilcox. He was remanded for a week.

Burns has figured in the Police Court several times and is always viewed with suspicion by the police. Mr. Wilcox has been missing his harness lately and Burns keeps a horse. There are good grounds for suspecting him.

Mr. Wilcox, the complainant in the case, is Chatham's oldest resident. He is 88 years of age and enjoys excellent health. He walks around as lively as any young man. He was quite seriously ill some time ago, but has now fully recovered and feels as young as he ever did. This is remarkable in a man of his extreme age.

PRESENTATION

Miss Pansy Pope Entertained by Friends on the Eve of her Departure for Gravenhurst

A few friends of Miss Pansy Pope met at the home of Mrs. Luke Wheeler, Baxter street, on Monday evening and presented her with an address and a well filled purse. The address read by Miss Morrison, was as follows:

Miss Pansy Pope:
Dear friend,—We have met on this the eve of your departure for your new home in Gravenhurst to extend to you our best wishes for your prosperity and happiness.

Your friends all regret that it is necessary for you to sever home ties and ties of friendship to maintain a healthy body, but we trust that what may be hard to bear now may prove a blessing. The same loving Father guards our way wherever we may be; may He guide and bless you continually.

Your industry in whatever work has been undertaken, your bright and happy disposition has made for you many friends, who have desired to show appreciation in a tangible form. We therefore ask you to accept this purse as a token of the esteem in which you are held.

Signed by about forty friends, Feb. 12, 1906.

SOME OTHER WARD

In connection with the report of a social assembly which took place in the I. O. O. F. Auditorium recently, the name of Fred. Ward was mentioned as that of floor manager of the dance.

Since the item appeared, Fred. Ward, the well known salesman at G. S. Heyward's grocery, has had to explain many times that it was not himself but another Fred. Ward to whom the item had reference.

Members of the Evangelistic Union and other prominent persons with whom Mr. Ward is associated in church work, waited upon him and politely requested an explanation of this rather peculiar conduct on the part of a hitherto much respected lay member of the cloth.

Mr. Ward has no desire for Dr. Jekyll and Mr. Hyde notoriety. He has on many occasions led in evangelistic services, and it is obvious that he would not be found calling off at dances and hops during the week.

BREATHE HEALING BALSAM

Hyomei, the Medicated-Air Catarrh Cure, Endorsed by Physicians.

No one should confound Hyomei with the patent medicines that are advertised to cure catarrh. It is as superior to them all as the diamond is more valuable than cheap glass. The composition is secret, but Hyomei gives its formula to all reputable physicians.

Its base is the famous eucalyptus oil, well known for its antiseptic qualities. This is combined with aromatic and healing gums and balsams, making a pure liquid which, when used in the Hyomei pocket inhaler fills the air you breathe with germ killing, disease destroying and healing powers that restore health to every part of the throat, nose and lungs.

Hyomei is endorsed by physicians generally. Many of them use it themselves to break up a cold and prevent pneumonia. It is the only natural and rational way of curing catarrh.

Would it be a common sense treatment to try and cure a corn by stomach dosing? Is it not just as foolish to try and cure catarrh of the head and throat by swallowing tablets or liquids? The only natural way to cure this disease and all diseases of the respiratory organs is to breathe Hyomei.

If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write to-day for consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth Company, Hyomei Building, Ithaca, N. Y.

All philosophy lies in two words, "sustain" and "abstain."

DOG FISH

A Car Load From Chatham Will Soon Make Their Appearance on New York Dining Tables

The other morning a Planet scribe while on the lookout for news at the C. P. R. depot, detected a strange and unpleasant effluvia hanging round the freight office there.

Wondering, he asked an official the cause of this unusual perfume and was told that a carload of "dog-fish" from Jeannette's Creek had passed through the station on its way to New York during the night.

"Dog-fish, dog-fish," queried the Planet man, what do they do with 'em in New York?

"Why," replied the station minion, "they are cooked and served up as dainties in the big hotels there."

By referring to his Webster, a hear later, the knight of the pencil learned that "dog-fish" refreshments given to many different species of small sharks, and discovered also that the fishiness of the local atmosphere was due to its short acquaintance with the "Mustelus Canis," which is the "dog-fish" "turbot" of Lakes Erie and St. Clair.

TEACHERS' MEETING

The meeting of the Sunday School Teachers' Association, held in the First Presbyterian Church Tuesday evening, was in charge of D. S. Patterson, B. A., and an excellent address on the Model Lesson was delivered by Wilson Taylor, B. A.

A violin solo was rendered by Miss Etta Watt, accompanied by her brother George, on the piano.

At the conclusion of the evening's business and program, refreshments were served. The next meeting of the society will be held in Victoria Ave. Methodist Church.

SMALL-POX IN STEWART

The mild form of small-pox which seems to be going the rounds at the present time has struck the little village of Stewart in Tilbury Township. Mrs. Graham (nee Mattie Gardiner) who is well known in this city, has been taken down with the dreaded disease, but it is understood that the case is not a serious one, and the patient will soon recover.

A grain of sand in the eye can cause excruciating agony. A grain of sand intensifies the torment. The pain is not confined to the organs affected. The whole body feels the shock of that little irritating particle. It is so when there is any derangement or disorder of the delicate womanly organs. The disorder may seem trivial but the whole body feels it. The nervous system is disordered. There is fretfulness, irritability, sultriness and depression of spirits. The general health of a woman depends on the local health of the organs—peculiarly feminine. Remove the drains, ulcerations, bearing down pains, and other afflictions of woman, and the whole body feels the benefit. Dr. Pierce's Favorite Prescription is a specific for the diseases that undermine the strength of women. It is free from opium, cocaine and other narcotics, poisons which enter into many other preparations for women's use. It makes weak women strong and sick women well.

When a man gets into a tight place he feels "small."

The Nova Scotia "Lumber King" says: "I consider MINARD'S LINIMENT the BEST Liniment in use. I got my foot badly jammed lately and it was well with MINARD'S LINIMENT and it was as well as ever next day."

Yours very truly,
T. G. McMULLEN.

AUCTION SALE

Farm Rented

Mr. Geo. Stacey has decided to devote his whole time to his prosperous grocery, butcher and dairy business in Chatham, and will sell by public auction, without reserve, on MONDAY, FEB. 19, at Ten o'clock a. m., on his old homestead farm in Dover, lot 12, concession 6, Winter Line, two miles from Pain Court, all his valuable farm stock and implements, including a number of thoroughbred Durham cattle and a number of good grade cows with calves by their sides, also a few fine Jersey cows which are unsurpassed milkers, both in quality and quantity, also a number of hogs with several good brood sows which are due to farrow in March or April. We wish to call special attention to the hogs, as they are from imported stock (Yorks and Tamworths). The horses are all in good order and ready for work. For full particulars see bills and do not forget the place and date, Feb. 19th.

P. S.—The auctioneers respectfully call the attention of the public to this very early sale, as Mr. Stacey has always been very careful in selecting his stock and, being a good judge, has raised nothing but the best. No reserved bids, everything must be sold, as he is entirely giving up farming. We ask you to get there early as it is a large sale to get through with.

Lunch served to those from a distance.

In an article on Al. W. Martin's "Uncle Tom's Cabin," which will appear at the Grand for two performances to-day, Leander Richardson, the eminent New York dramatic critic wrote:

"I wonder when the time will come when 'Uncle Tom's Cabin' will lose its charm to the rising generation. Judging from its present freshness, all alluring powers will be perennial. There is something in the skilful combination of the pathetic and humorous that never fails to fascinate, and the story of the suffering of the poor slaves appeals directly to the finer sensibilities of the human soul. Such plays are better than sermons. They teach lessons in thoughtfulness and charity. They impress our minds with the precepts of the Golden Rule. Mrs. Stowe's book is one of the great books of literature, because it deals with questions of immeasurable human import and the play itself is one that can never die. If it does no more than keep alive the memory of the rise and fall of one of the greatest iniquities that history deals with, it is written not in vain."

Mr. Martin has taken great pains to organize his band and orchestra and has engaged some of the best musicians of the country. The band will give two grand open air concerts daily, free, which don't fail to hear. The evening concert will take place at 7:30 in front of the Grand Opera House.

Prices—matinee 10 and 25 cents; night, 25, 35 and 50 cents. No higher.

WEEK OF PRAYE

This week is observed as a week of prayer by the W. C. T. U. of Ontario. Since the death of Miss Frances Willard, the World's W. C. T. U. President, on Feb. 17th, 1898, that date, Feb. 17th, has been kept as memorial day.

The evangelistic call sent to the local unions this year is for a revival in every union. "O, Lord, send a revival, and let it begin in my heart," is the motto.

Chatham local union will hold three special meetings, as follows:—
Thursday, Feb. 15th, at 3 p. m., at the home of Mrs. Blazell, Baxter street.

Friday afternoon, a missionary meeting, at the home of Mrs. Dell, Selkirk street.

Saturday afternoon, Frances Willard memorial meeting, at the home of Mrs. A. J. Wilson, William St.

Correct color combinations come to women by lastest.

—It will pay you to keep Chamberlain's Colic, Cholera and Diarrhoea Remedy in your home. It only costs a quarter. Sold by all druggists.

COULD NOT INFLICT THE TORTURE WOMEN SUFFER FROM HEADACHES

Headache is not in itself a disease, but a symptom or accompaniment of other diseases, principally those of the stomach, liver and bowels, such as Constipation, Dyspepsia, Liver Trouble, Bad Blood, Female Complaints, General Debility and Weakness. Headache is common to both sexes, but more frequently affects females.

The varieties of headache most common are sick or bilious headache, nervous headache, headache from constipation, debility or indigestion, periodical and spasmodic headache. Undoubtedly the cause must be removed before permanent relief can be had.

CURE SICK HEADACHE.

Mortgaged For Seven Years.

Windsor, Feb. 14.—By unanimous vote the City Council has increased City Tax Collector Cheyne's salary \$300 per year. Collector Cheyne will have to make good missing Zailiff Millard's shortage of \$3,400. The Council agreed to accept repayment of \$500 a year without interest. The \$3,400 is partially offset by Millard's sureties, but Collector Cheyne is responsible for the full amount.

Chinese Laundries Looted.

Ottawa, Feb. 14.—An organized looting of Chinese laundries seems to be in effect in this city, as during the past four weeks no less than 17 shops have been robbed. The amount stolen has ranged from \$5 to \$35. The looting has always taken place on a Sunday, when the Celestials were at Sunday school or at some congenial rendezvous.

WEARY DAYS AND SLEEPLESS NIGHTS

Many men and women toss night after night on sleepless beds until near dawn. Their eyes do not close in the sweet refreshing repose that comes to those whose heart and nerves are right. Worry or disease has so debilitated and irritated the nervous system that it cannot be quieted. Or, again, you have heart palpitation and sensation of sinking, a feeling as if you are going to die; or perhaps you wake up from your sleep feeling as though you were about to choke or smother, and rest leaves you for the night. Allow these conditions to continue and you will feel your health declining.

They can be set right by the use of

MILBURN'S HEART AND NERVE PILLS

They soon induce healthful, refreshing sleep, not by deadening the nerves, but by restoring them to healthy action and removing all symptoms of heart trouble, which is often the cause of nervousness and sleeplessness.

Mrs. Ennis Chambers, Massey Station, Ont., writes: "I was troubled with dizziness, weak spots and fluttering of the heart. I was so bad at times I could not lie down in bed at night but would have to get up. I doctored for a whole year and got no relief. I took three boxes of Milburn's Heart and Nerve Pills and was so completely cured I have not been troubled since. I cannot recommend them too highly."

Milburn's Heart and Nerve Pills are 50 cents per box or three boxes for \$1.25 at all dealers or sent direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

LOWTHER IS RE-ELECTED

British House of Commons Elects Its Speaker.

Assembling of Parliament For Routine Work—Great Rush For Seats by Members—Swearing-In of the Members Will Take the Balance of the Week—Great Crowd Outside Show Keen Interest.

London, Feb. 14.—Although the ceremony for formally opening Parliament will not occur until Feb. 19, and while no legislative work can be undertaken until after the King's speech has been delivered on that occasion, the second Parliament of King Edward assembled yesterday afternoon for the election of a Speaker of the House of Commons. This was the only business yesterday, and the swearing-in of the members will occupy the balance of the week.

Resembled Entry to Theatre Pit. The new House of Commons meets under conditions of unusual interest, and evidence of this was seen in the

JAMES WM. LOWTHER.

wild rush for seats at midnight, when the spectacle at the entrance of the House of Parliament at Westminster resembled the entry to a pit on the first night of a play by a popular author. Nearly 300 of the members are entirely new to Parliamentary life, as a consequence of the upheaval caused by the general election, and the House of Commons police had a difficult task in differentiating between members and outsiders, who attempted to take advantage of the occasion to view the proceedings.

Outside the House a great crowd showed keen interest in the proceedings, criticizing or cheering according to their political bias, the better known members, while the arrival of the yeomen of the guard to make the historical search of the vaults for a Guy Fawkes, with all the time-honored formalities, evoked unbounded enthusiasm.

Accorded Great Reception. At 2 o'clock, the time for the opening of the House was crowded. The party leaders were accorded a great reception by their respective adherents, the Unionists trying to veil the noticeable paucity of their numbers by an extra display of enthusiasm. A minute or two later, Black Rod entered and summoned the Commons to the House of Lords, where the Parliament was formally opened by a Royal Commission. Only a few peers were present. Upon the withdrawal of the Commons the peers met to present their writs and subscribe the oath.

Elected a Speaker. In the meantime, the Commons had proceeded to the election of a Speaker. The Clerk of the House, who is not permitted to speak, solemnly rose and pointed his index finger at Sir Wilfrid Lawson. The latter moved the re-election of James Wm. Lowther, and Mr. Lowther was re-elected unanimously. The House then adjourned until to-day.

WILL NOT OPPOSE BALFOUR.

London Liberals Consent to Former Premier's Election by Acclamation.

London, Feb. 14.—Former Premier Balfour's non-committal speech at the banquet of the Conservatives of the city of London Monday evening has apparently satisfied the Liberals, as at a meeting of the City of London Liberal Association yesterday afternoon it was decided not to oppose the former Premier's election for the city of London. Mr. Balfour, therefore, is assured of a seat in Parliament.

ROTHSCHILD PARTY COMING.

Immigrants Will Pay Back Fare When Placed in Positions.

London, Feb. 14.—(G. A. P.)—The hundred and ninety emigrants who have been afforded a new start in life by the Rothschild's emigration scheme have bid adieu to their old homes in Tottenham. There are no "wasters," no "unemployables" among them. "Every man's life and character have undergone the strictest investigation. Everyone has a situation and home ready for him whenever he reaches his destination, previously arranged for."

As for his fare, it will be advanced by the Rothschild's fund. Each man signs an agreement to repay the amount in monthly instalments, amounting to 30 per cent. of the wages received in Canada. In addition to this amount, should the man leave any debts here, he agrees to pay the same at the rate of 10 per cent. per month of his own wages, making a total of 40 per cent. per month to be returned until the whole debt is cleared off. In the case of a young man who has been in the habit of supporting his parents, an agreement is secured from him to continue contributing at least one pound per month, as far as possible. Only one of a family will be placed in a locality in Canada. A small amount of money has been sent to whatever point the emigrant is going, for his use on arrival there.

Baron Rothschild spoke cheering words. "It is through men like you that Canada has become great," said he. The emigrants had a most enthusiastic send-off. Thousands assembled in the neighborhood of St. John's Hall, Stamford Hill. The emigrants sailed yesterday on the Lake Champlain for St. John, N.B. W. T. R. Preston also addressed encouraging words to the emigrants.

God help the man who thinks he can afford to give petty dislikes a place in his heart.

Schoolbooks and Contagion.

A discussion of far reaching interest has taken place in the French Academy of Medicine on the subject of class books as disseminators of contagion in schools, especially in the case of such diseases as scarlet fever, measles and diphtheria. Paper has long been recognized as a dangerous agent of infection, even in tuberculosis, owing to the habit among children of turning over leaves with fingers wetted with saliva. Dr. Lop in order to test the extent of danger in schoolbooks made long experiments to establish the duration of infective power in various bacilli, finding it to range from forty-eight hours for some to fifty days for the Eberle and 108 days for the Koch bacillus. General agreement was expressed as to the importance of thorough disinfection of school materials.

OPEN PUBLICITY THE BEST GUARANTEE OF MERIT.

When the maker of a medicine, sold through druggists for family use, takes his patients fully into his confidence by frankly and fearlessly publishing broad, cast as well as on its bottle wrappers, a full list of all its ingredients in plain English, this action is the best possible evidence that he is not afraid to have the search light of investigation turned full upon his formula and that it will bear the fullest scrutiny and the most thorough investigation. Dr. Pierce's Favorite Prescription for the cure of the weaknesses, periodical pains and functional derangements of the organs distinctly feminine, is the only medicine put up for sale through druggists for women's special use, the maker of which is not afraid to take his patients into his full confidence by such open and honest publicity.

A glance at the published ingredients on each bottle wrapper, will show that it is made wholly from native, American, medicinal roots, that it contains no poisonous or habit-forming drugs, no narcotics and no alcohol—pure, triple-refined glycerine, of proper strength, being used instead of the commonly employed alcohol, both for extracting and preserving the active medicinal properties found in the roots of the American forest plants. No other medicine for women has any such professional endorsement—worth more than any number of ordinary testimonials. If interested, send name and address to Dr. R. V. Pierce, Buffalo, N. Y., for his little book of extracts from the works of eminent medical writers and teachers endorsing the several ingredients and telling just what Dr. Pierce's medicines are made of. It's free for the asking.

First Treaty of Portsmouth.

The first treaty of Portsmouth, N. H., was signed July 11, 1713, the contracting parties being belligerent Indians and the whites. The news of the treaty of Utrecht, which ended Queen Anne's war, reached the city Oct. 29, 1712. The Indians desired a treaty, and it was formally signed on the above date.

AN ANCIENT VOLUME.

Old Playbook of Jefferson's Grandfather Rescued From Scrap Heap.

Before me lies an ancient playbook rescued from the scrap heap of a junk dealer. It contains three small pamphlets hand stitched with coarse linen thread—"The Emperor of the Moon, as performed at the Patagonian Theatre, London;" "Damon and Phillida, with the Musick prefix'd to each Song," and "English Readings, a Comic Piece in one Act." They are dated 1777, 1765 and 1787. On the frontispiece of each playlet is inscribed a signature—J. Jefferson. The autographs have so nearly faded into the yellow dimness of the time stained paper that it is not possible they could have been written by the genial comedian of our day. Each signature is evidently as old as the book itself.

One day, curious as to the ownership of the little volume, I submitted it to the late Joseph Jefferson. He turned the yellowed pages slowly and with much interest, studying attentively the autograph inscribed here and there through the book.

"It is undoubtedly," he said, "a stray volume from the library of my grandfather. Like my own library, it was bound to have many playbooks in it. He may have used it in London and brought it with him when he came to America in 1797. The playbills of those days abounded in a medley of short pieces such as you find in this little volume. What interests me most, however, is the curious likeness I find in the autograph of my grandfather to my own writing. The characters are smaller, and some letters are unlike. Still there is a family resemblance, somewhat like that handed down in face and figure."

A CAT'S AMUSING TRICK.

Fuzz Found a Way to Keep Her Appearances.

"My cat," says a writer in the Chicago Tribune, "is twelve years old and an ordinary tabby. Since it was delicate as a kitten, I always let it sleep in the kitchen on the ground floor, from which a large window overlooks a yard. In this window is one pane which opens separately by means of a latch."

"When it was about two years old the cat, no doubt finding the night long, taught itself to open this pane and get out through it. At first when the cook told me about it I was incredulous, knowing that servants have a way of making the cat responsible for any little negligence of their own, but as the window was found open every morning I was bound to believe it. Since then I have seen the cat do the trick a hundred times, for, once it knew that we had discovered it at it, it no longer made a secret of it. Its way of doing it was to jump upon the inner window sill, push the latch upward with the tip of its nose and pull the frame back with its paw. It did this as easily as a human being would do it with the hand."

"The most amusing part is that one of this cat's descendants, perceiving that its mother knew the secret of getting outside, taught itself the same trick in quite a short time. This kitten opened any sideboard or cupboard in which the key had not been turned by pulling the door toward it with the greatest dexterity."

The Seal's Sense of Smell.

The sense of smell possessed by the seals is very strong and will invariably wake them out of a sound sleep, even if you come upon them ever so quietly to the windward, and you will alarm them in this way much more thoroughly, though you be a half mile distant, than if you came up carelessly from the leeward and even walked in among them, they seeming to feel that you are not different from one of their own species until they smell you. The chief attraction in these animals is their large, handsome eyes, which indicate great intelligence. They are a deep bluish black, with a soft, glistening appearance, and the pupil, like the cat's, is capable of great dilation and contraction.

Carlous Manx Cantom.

On July 5 every year all 11 officials of the Isle of Man, including the clergy in their surplices, walk to the top of Tynwald hill, and from the top of it the laws made during the year are promulgated in Manx and English. This promulgation of the laws on Tynwald hill is as necessary as the royal assent to the validity of all laws passed by the Manx legislature. This is one of the many relics which the old Norsemen left behind, and it dates so far back that its origin is lost in the mists of antiquity.

Getting It Right.

A schoolteacher instructing her classes in grammar wrote this sentence on the board for correction: "The horse and the cow is in the lot." No one seemed to know what was wrong with it till at last a polite little boy raised his hand. "What is it, Johnny?" asked the teacher. "You should put the lady first," corrected Johnny.

Legle.

"Now, then," thundered the temperance orator, "what causes most of the crime in this world? Drink! And what causes drink?" "Thirst!" cried a voice in the rear of the hall.

The Simple Life.

"To what extent do you believe in the simple life?" "By never indulging in those things that you do not care for."

Roman censors often fined bachelors, and men of full age were required to marry.

lature His Excellency Earl Grey,
Governor General of Canada, accom-
panied by Countess Grey and their
estimable family, have visited several
sections of the Province and the seat
of government has been honored by
their presence on two occasions. The
people of the Province have noted
with satisfaction the great interest
taken by His Excellency in all mat-
ters affecting their welfare and
happiness. The extensive experience
gained by His Excellency in the var-
ious public positions which he has
occupied, renders his opinions on such
questions of the greatest possible
value. While the interest manifest-
ed by the Countess Grey in all move-
ments of a social nature has been a
source of great satisfaction. You
will be pleased to learn that the
operation of the first section of the
Transit and Northern Ontario
Railway for the past year has been
very satisfactory. The income being
largely in excess of the expense of
operation and that the construction
of the extension of this road has been
proceeded with in the most energetic
manner. The growing importance
and value of the mineral interests
of the Province call for the most
careful consideration and manage-
ment, and necessary amendments to
the mining law will be submitted
to you for your consideration. Since
the last session an agreement has
been arrived at with the Dominion
Government for the negotiation of an
equitable terms of a treaty with the
Indians who occupy large portions
of the Province not now under
treaty.

Among the measures to be sub-
mitted to you for your consideration,
in addition to the amendments of the
mining law above mentioned, will be
bills respecting county councils; re-
specting the department of lands and
mines; amending and consolidating
the liquor license act; amending the
volunteer land grants act; revising
and amending the railway act; the
street railway act and the electric
railway act; amending the agricul-
tural and arts act; amending and
consolidating the several acts relat-
ing to companies; revising and
amending the acts relating to pub-
lic schools, and the act respecting the
department of education, respecting
the University of Toronto, and
amending the supplementary revenue
act, 1899, providing for the taxation
of railways.

The extraordinary possibility is
which the future may have in store
with reference to electric power are
still attracting increased attention
on the part of the commissioners ap-
pointed to enquire into and report
upon hydraulic and electric power in
the province, will be laid before you
before the close of the session. A
mass of information has been col-
lected which will no doubt be of
great importance in the future con-
sideration of this very important
question.

In the month of October last, a
commission was appointed to report
upon a scheme for the management
and government of the University of
Toronto, in the room and stead of
one under which the said university
is now governed, and for other pur-
poses. The report of the commission
is expected shortly.

You will be glad to learn that the
revenues of the province are large-
ly in excess of the estimates, and
more than sufficient to meet the pro-
vincial expenditure during the year.

The public accounts will be laid
before you, for your consideration, at
the earliest moment, and the esti-
mates for the coming year will also
be submitted for your approval at
an early date.

GRAND TRUNK AND POWER CO.

Come to An Agreement About Crossing
Former's Tracks With Wires.

Ottawa, Feb. 15.—Yesterday morning,
at the Railway Commission, the Grand
Trunk and the Ontario Power Co. came
to an agreement respecting the cross-
ing of tracks of the former by the pow-
er wires. Rigid steel structures are
to be employed in all cases. Where the
line is single track the span is to be 56
feet; where it is double track the span
must be 76 feet.

This is the width when the "wire
crosses" the track at right angles, and
when it is made on the slant the dis-
tance from the tracks must be as great
as when the crossing is at right angles.
The cost is to be borne by the power
company and the specifications are to
be approved by the commission.
The power company is to be allowed
30 days (during which it may turn on
the power) within which to erect the
structures, taking meanwhile special
precautions to avert accidents. The
telegraph and telephone wires of the
company are to be specially protected.
All risks of accident are to be assumed
by the power company.

LOVERS' DEADLY QUARREL.

Niagara Falls Couple in Hospital With
Bullet Wounds.

Buffalo, N. Y., Feb. 15.—As the re-
sult of a lovers' quarrel yesterday af-
ternoon, Miss Van Syckle, aged twenty
years, who came from Niagara Falls
several weeks ago, and Lawrence
Spore, of Niagara Falls, are in the hos-
pital, the former suffering from a bul-
let wound in the side, alleged to have
been inflicted by Spore. Spore carries
a bullet in the head, said to be self-
inflicted. The reports from the hos-
pital say the girl will die.

Late Robt. Wood's Estate.

Toronto, Feb. 15.—The estate of the
late Robt. Wood, who died 15th Sept.,
1905, and represented the Aetna Fire
Insurance Co., is valued at \$1,357,542.20,
and it is left as follows:

Robert Wood, son . . . \$688,271.10

Thomas Henderson Wood,
son . . . 688,271.10

Helen B. Gray, niece . . . 20,000.00

Mary McBride (old servant) . . . 1,000.00

The estate is not to be divided until
ten years after his death, and there is
a clause, that if either son die without
issue, his brother is to take the whole
estate.

Mr. Wood also instructed that \$100
was to be given to each servant who
had been over a year in his service.

—It will pay you to keep Chamber-
lain's Colic, Cholera and Diarrhoea
Remedy in your home. It only costs
a quarter. Sold by all druggists.

The Fashionable Man's Raincoat.

Time was when a raincoat was a heavy
clumsy ill-looking garment of oilskin
rubber—but today the raincoat is one
of the most fashionable garments in the
wardrobe of the carefully dressed man.

The new raincoat is a light overcoat
as serviceable for bright sunshiny days as
for the wettest weather. The material is
just the same as goes into other high-
grade overcoats except it has been treated
by a special process which makes it proof
against rain. Makers vie with each other
in the manufacture of these latter day
raincoats, but the highest expression of
the tailor's art is found today in the
"Watershed from Austin & Co."

OUR SPECIAL AT \$10.00

We let you choose from many different styles in these
rain or shine overcoats, all new spring models. Fabrics are
fine worsteds and tweeds in plain and fancy weaves, 50 to 52
inches long, very special, all sizes from 36 to 46, at \$10.00.

GREETING

Message from the Twenty Fourth Regiment to Friends in England was Appreciated

During the New Year's holidays just passed, Stephen Anquetil, son of Daniel Anquetil, of this city, sent to headquarters of the Royal Alderney Artillery and Engineers' Militia stationed at Alderney, England, a copy of the New Year's Greeting sent out by the members of the Alderney Band, also a photo of the 24th Regiment Band in uniform.

The officers and members of the Alderney militia were very much pleased with these tokens from Canada, as is evidenced by the following, which appeared in the Alderney notes of the Gurnsey Weekly Press under date of January 27.

CANADIAN GREETINGS.

"It will be remembered by the Alderney people that many years ago, that quite a colony of various members of the best island families emigrated to Chatham, Ontario, Canada. Our kinsfolk there have thrived and prospered, but have not forgotten the small islet from which they sprang. A card of New Year's greeting, as under:

"1906. Bugle Major William Plummeridge, Non-Commissioned Officers and Buglers and Drummers of the 24th Regiment Bugle Band, extend to you the compliments of the season and a Happy and Prosperous New Year."

Has been sent to the Royal Alderney Artillery and Engineers' Militia, which said greeting, embossed with the Maple Leaf (Canadian coat of arms), is to be answered with a copy of the "Weekly Press" by Sergeant-Major George Le Gros, R. A. A., and E. (M.) Mr. Stephen Anquetil, native of this island, is the sender of add that card. We have also the pleasing group of the Volunteer Band in full uniform has been received, and is now on view in the shop window of Mr. Anquetil (our island constable). The reception of the greeting has given great satisfaction to all concerned.

Ladies, read this catalogue of charms. Bright eyes, glowing cheeks, red lips, a smooth skin without a blemish, in short, perfect health. For sale with every package Hollister's Rocky Mountain Tea, 35 cents.

GETTING HER MONEY'S WORTH.

A woman living in a certain village in New York State who lost her husband by death, sent the following communication to her home newspaper:

"Mr. Editor: I desire to thank the friends and neighbors most heartily in this manner, for the united aid and co-operation during the illness

JUST A LITTLE BIT OFF THE TOP

If variety be the spice of life, the Weather Man is certainly leading a tickle and frivolous career.

The City Council should not allow their "canny" notions run away with their good sense.

"Never build a bridge till you have counted the bolts," might apply as a local motto.

Now that we are going to secure protection for our fish, won't someone move for protection against the inventions of the enterprising genius when he returns home to tell his friends how many he caught?

If we don't gain proper protection, it is an easy matter to see the fishes' fin-ish.

Everything points to a big Conservative convention on Saturday.

Two young people are to be married in Kentucky, who became acquainted through the fact that she etched her name on an egg which was afterwards served to him at his boarding house. No doubt they will look upon it in their case as a marriage yolk.

Ald. Austin says that dead men voted on certain by-laws. There must have been only a ghost of a show for the by-laws' passing.

Of course the dead men who had a hand in carrying those by-laws must be termed as the "shady vote."

GETTING HER MONEY'S WORTH.

A woman living in a certain village in New York State who lost her husband by death, sent the following communication to her home newspaper:

"Mr. Editor: I desire to thank the friends and neighbors most heartily in this manner, for the united aid and co-operation during the illness

and death of my late husband, who escaped from me by the hand of death on Friday last while eating breakfast. To the friends and neighbors who contributed so willingly towards making the last moment and funeral of my husband a success, I desire to remember most kindly, hoping these few lines will find them enjoying the same blessing. I have also a good milk cow and a yearling gelding horse, eight-year-old, which I will sell cheap. God moves in a mysterious way his footsteps on the sea and rides upon the storm. Also, a black and white shote very low.

PILLS AND PILES.

A prolific cause of Piles is the use of cathartics and pills of a drastic, violent nature, which is always followed by a reaction on account of the resins, drying properties they contain.

There are other causes, but remember what the cause or what the kind of Piles, Dr. Leonard's Hemorrhoid can be relied upon to cure—stay cured.

It's an internal remedy that removes the causes of itching, bleeding or suppurating Piles.

A guarantee goes with each package containing a month's treatment.

It can be obtained for \$1.00 at druggists, or The Wilson-Fyle Co., Niagara Falls, Ont.

Think much, speak little, write less.

It arouses energy, develops neural stimulates nervous life, arouses the courage of youth. It makes you young again. That's what Hollister's Rocky Mountain Tea will do. 35 cents. Tea or Tablets.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong as steel, so that nervousness, headache and dizziness disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars. WE WILL CURE YOU OR NO PAY.

NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

Peter E. Summers, of Kalamazoo, Mich., relates his experience: "I was troubled with Nervous Debility for many years. I lay it to indigestion and excessive use of early youth, became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me, sneered my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, were an electric belt three months, went to Mt. Clemens, Mich., but received little benefit. While at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through my nerves. I was cured mentally, physically and sexually. I have sent them many letters and will continue to do so."

A LESSON IN PHYSICS.

How to Make a Water Mill From a Common Clay Pipe.

This water mill belongs to the class of "reaction" mills which are turned one way in the effort to throw a stream of water in the opposite direction, and it is made of a clay pipe.

Cut away one side of the mouth end of the stem with a knife (not your best one) or rub it away with a file or on a grindstone until it is like Fig. A—that is to say, until you have laid bare, so to speak, the bore of the stem for half an inch or so. Then stop the hole, both at the end and at the side, with sealing wax, leaving only a small round hole at the point farthest from the end, as shown in Fig. B.

Now, all you have to do is to fasten a fine cord with sealing wax to the

CLAY PIPE WATER MILL.

edge of the bowl at the precise point that comes nearest to the smoker's mouth. Tie the other end of the cord to the chandelier or other convenient object and pour water gently into the bowl.

A fine jet of water will shoot out sideways from the little hole in the stem, and the pipe will begin turning in the direction indicated by the arrow. It will keep on turning as long as there is any water in the bowl, and, indeed, a good deal longer, by the effect of momentum.

What makes it turn is this: At any point of the pipe except near the little hole the water presses with equal force in every direction on the pipe. At the point of the stem opposite the little hole there is a certain pressure on the pipe from the inside, and this pressure is not balanced, because on the opposite side—that is, the hole—there is nothing for the water to press against except itself. Hence the water is driven out in one direction and the pipe is spun around in the other.

THE MAGIC PENNY.

It Helped a Sore Thumb and Taught Harold a Lesson.

Harold had a splinter in his thumb. He was only three and a half, and the sight of a sharp needle which his father brought to dig out the splinter terrified the little fellow.

Coaxing was useless. Mother's promise that it would not hurt did not stop the tears. At last mother said cheerfully, "If you are a brave, good boy and let papa take it out, he will give you a penny."

As if by magic the tears were dried. With the valor of a soldier he held out his thumb, and the silver was out in a jiffy. When Harold then got his reward he first squeezed it hard in his little fat hand, then looked at it lovingly, wrapped it in paper, put it in his treasure box, took it out again to see if it was really there and finally decided to go to the candy store and spend it.

Sister Alice took him. He was embarrassed by the variety of things he could buy with his penny—two barber pole sticks, four round drops, a chocolate mouse or a lemon candy pipe. What he chose was one barber pole and two round drops. These he generously divided with his sister and went home feeling very happy. When he kissed his mother good night the startling thought came to him that he had not given her any of his candy.

"You forgot both papa and me, Harold, dear. What are you going to do about it?"

Harold looked very sober for a minute, then his face brightened up as he said, "I know. I'll get a splinter in my other thumb and let papa take it out. Then he will give me another penny, and all the candy I buy will be for you and papa."

The Smallest Sheep.

A specimen of a herd of the smallest sheep in the world—they are only nineteen inches high at the withers—is now to be seen at the Natural History Museum at South Kensington, England.

A Good Fairy.
Of all good fairies round the house
Good Nature is the sweetest,
And where she fans her airy wings
The moments fly the fleetest.

And other fairies, making cheer,
With her are gayly present;
They shine like sunbeams in the place
And make mere living pleasant.

The smiles she gives are rosy light
Shed softly on the wearer;
They make a plain face sometimes fair
And make a fair face fairer.

Before them dark Suspicion flies,
And Envy follows after,
And Jealousy forgets itself,
And Gloom is lost in laughter.

Were there great genius or great power,
Great wealth, great beauty offered,
Let pass these fays, dear heart, but keep
All the good nature proffered!
—Harriet Prescott Spofford in St. Nicholas.

Another Revolutionary Outbreak in Santo Domingo.

Cape Haytien, Hayti, Feb. 14.—A messenger who arrived here yesterday from Monte Cristi, in the northern part of the Republic of Santo Domingo, reports that a revolutionary movement has broken out at Monte Cristi. Gen. Nenezy at the head of a numerous body of troops, has attacked and captured the town of Dajabon on the frontier of Hayti. Nenezy is a devoted partisan of Gen. Jimenes, former president of Santo Domingo, and it is generally believed that the movement is in favor of Jimenes and that his object is to prevent the Government from holding the approaching elections.

WHEN ALL HOPE WAS ABANDONED

Elzear Cote Found in Dodd's Dyspepsia Tablets a Speedy and Permanent Cure For His Stomach Troubles.

"I suffered for four years from stomach trouble. I consulted five doctors and they told me that I had Dyspepsia and no remedy would help me." So says Elzear Cote, of St. Hedwidge de Clifton, Que. But Mr. Cote found a remedy that those doctors did not know. It was Dodd's Dyspepsia Tablets and it cured him. He says:

"Then I quit the doctors and started to take Dodd's Dyspepsia Tablets. After the first box I had no more trouble. It is now two years since I took them and I am still well. I do all my own work. I am never tired. That's why I recommend all who have stomach troubles to use Dodd's Dyspepsia Tablets."

Dodd's Dyspepsia Tablets digest the food themselves. This gives the overworked stomach a chance to rest and it naturally comes back to its normal healthy condition.

Sufferer Drops Dead.

Port Arthur, Feb. 14.—Allan McDougall, corporation engineer, dropped dead from heart disease. He was engaged in giving levels on the street. He was driven to the doctor's, but was dead before arriving.

Hastings Provided For.

Toronto, Feb. 14.—Thos. A. Hastings, deposited license inspector, has been appointed superintendent of Dominion Government buildings throughout Ontario.

NO SATISFACTION IN EATING.

Food does you no good. You can't digest, consequently you're afraid to eat; tongue is coated, mouth tastes bad, stomach is bloated. Pretty soon you'll be overcome by weakness and nervous prostration.

Best prescription for your condition is Dr. Hamilton's Pills. For dyspepsia and indigestion it is doubtful if a better remedy will ever be devised. These pills bring new strength and vitality to the stomach and digestive organs; they build up the general health and instill such vim and restoring power into the system that sickness is impossible; try Dr. Hamilton's Pills.

Prominent Doctor Arrested.

Calgary, Feb. 14.—Dr. E. Aul, a well-known Calgary physician has been arrested by the mounted police and taken to Claresholm, charged with responsibility for a criminal operation on a young woman of that town.

IS YOUR CATARRH ANY BETTER?

Probably getting worse all the time. Why not give up that snuff and stop dosing your stomach? The one sure treatment is "Catarrhoxone," sure to cure because it goes where the disease really is. Certain to cure in your case because it has restored tens of thousands worse than you are. Catarrhoxone is a thorough cure because it destroys the causes as well as the effects of the disease. Relief is prompt, sure is quick with this powerful remedy, which is guaranteed to cure Catarrh in any part of the nose, throat, bronchial tubes or lungs.

Two Waterloo Youngsters.

Detroit, Feb. 14.—Glenn Bricker, aged 14, and Harold Altens, aged 12, of Waterloo, Ont., started for Detroit Sunday night without the knowledge of their parents. They were rounded up Monday night by the police while taking in the sights and are held pending action by their parents.

UNCLE SAM'S PROPOSAL

Said to Be Such That France and Germany Can Accept.

Statement From Algiers Which Herald Successful Ending of Conference — Ambassador White Only Awaiting the Psychological Moment to Present It—Firm Attitude of Both Powers, But Deadlock Is Denied.

London, Feb. 14.—The Standard's correspondent at Algiers telegraphed to his paper under yesterday's date: "I am in a position to assert that the final solution of the Moroccan dispute will emanate from America. Ambassador Henry White is only awaiting the right moment to submit a proposal which it is believed will prove acceptable to both France and Germany. I have Mr. White's authority to state that a successful issue confidently is expected."

There's Still Hope.

Algiers, Feb. 14.—The reports circulating in European capitals that a crisis has been reached at Algiers are not warranted by the actual conditions here. The negotiations on the political and financial questions are proceeding uninterruptedly, but have reached a dead end point on which neither the French nor the German delegates show any disposition to yield. This firmness on both sides has caused some apprehension of an eventual deadlock, but the delegates, so long as the negotiations continue, will not admit that a crisis has been reached.

Interviews took place yesterday morning between Herr von Radowicz and M. Rivier, respectively, the first delegates of Germany and France to the Moroccan conference, and Count von Tattenbach and M. Regnault, respectively, the second delegates of Germany and France. The interviews have caused much comment, but nothing has yet transpired as to their result.

In Paris.

Paris, Feb. 14.—Prince Radolin, the German Ambassador, had a conference with Premier Rouvier yesterday. A Government note issued last night says Prince Radolin did not submit to Premier Rouvier any new proposition relative to the Moroccan question. All negotiations on that subject, the note adds, necessarily must take place at Algiers.

JAILED FOR CONTEMPT.

Robt. Atcheson, Aged 65, Said to Have Alienated Wife's Affections.

Brookville, Feb. 14.—Yesterday morning shortly after the arrival of the train from Westport, Robt. Atcheson, aged about 65 years, and a well-known resident of the above-named village, was arrested while sitting in a local hotel, by Deputy Sheriff Trail, and lodged in jail, where he still remains. Atcheson is held on a charge of contempt, in attempting to leave the country after being served with a writ for \$5,000 damages for alienating the affections of the wife of W. A. Lamond, a traveler.

On the Shelf

of every home in Canada there should be found a bottle of Shiloh's Consumption Cure, the Lung Tonic, for Coughs, Colds, and all irritations of the throat, lungs and air passages. It is easy to take, gives instant relief and cures permanently.

Power Report Agreed Upon.

Toronto, Feb. 14.—The municipal power commission met last night and virtually agreed upon their report, but the same will have to be formally drafted and some other details attended to, before it is filed.

"Nothing whatever has been given to the press," declared President W. B. Snyder and Secretary H. H. H. when the Rosses last night; "what ever has been published is the merest guesswork."

Mr. Snyder declined to give out the findings or recommendations of the commission.

Not New.

Don't think our Vapo-Cresolene is something new, for it isn't. For more than twenty years it has been extensively used for all forms of bronchial and throat trouble. Mrs. Ballington Booth said of it, years ago, that "No family where there are young children should be without Vapo-Cresolene." You breathe in the vapor, it goes all through the bronchial tubes, soothing, healing, curing. It's pleasant, safe and economical.

A Chivalrous Message.

Let us defend woman! In these days feminism is one of the battle standards of all reformers. Whatever may be said of the rehabilitation of woman under Christianity, her lot—at least among us—is far from enviable. President of Ecuador in His Message.

STARTLING BUT TRUE.

People the world over were horrified on learning of the burning of a hundred people lost their lives, yet more than five times this number, or over 5,000 people died from pneumonia in Chicago during the same year, with scarcely a passing notice.

Every one of these cases of pneumonia resulted from a cold and could have been prevented by the timely use of Chamberlain's Cough Remedy.

A great many who had every reason to believe that they were safe, were taken by surprise when they were warned of this remedy.

The following is an instance of this sort: "Too much cannot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cured my daughter, Laura, of a very severe cold, and I believe saved her life when she was threatened with pneumonia." W. D. Wilcox, Logan, New York. Sold by all druggists.

NOTICE TO CONTRACTORS.

SEALED TENDERS, addressed to the undersigned, marked on the envelope "Tenders for Construction," will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until twelve o'clock noon on Monday the 12th day of March, 1906, for the work required for the construction, in accordance with the plans, profiles and specifications of said Commissioners, for the following sections of the Transcontinental Railway, the said work to be completed on or before the first day of September, 1907, viz:—

(1) District "F." From a point designated on the plans of the said Commissioners at or near the City of Winnipeg, to a point known as Peninsula Crossing, near the junction point of the Fort William branch of the Grand Trunk Pacific Railway a distance of about 245 miles.

(2) District "B." From a point designated on the plans of the said Commissioners, at the north end of the Quebec Bridge and Railway Company's bridge in the vicinity of the City of Quebec, to a point near La Tuque, a distance of about 150 miles.

(3) A steel viaduct about 3,000 feet long across the Cap Rouge Valley, in said District "B." in the vicinity of the City of Quebec, the work to be performed in accordance with the General Specifications of the Commissioners of the Transcontinental Railway, and the General Specifications of the Department of Railways and Canals of Canada, 1905.

Plans, profiles and specifications may be seen in the office of the Chief Engineer of the Commissioners at Ottawa, also in the office of the District Engineer at Kenora, Ontario, for the section of District "F." and for the section of District "B." in the office of the District Engineer at Quebec.

Persons tendering are notified that tenders will not be considered unless made in duplicate, and on the printed forms supplied by the Commissioners.

Separate tenders must be submitted for the work in each District. Tenders shall not be in any way entitled to rely upon the classification or any other information given by any person on behalf of the Commissioners, and before submitting any tender, bidders should make a careful examination of the plans, profiles, drawings and specifications, and read the forms to be executed, and fully inform themselves as to the quantity and quality of materials and character of workmanship required; and are understood to accept and agree to be bound by the terms and conditions contained in the form of contract, specifications, &c., annexed to the form of tender.

Each tender must be signed and sealed by all the parties to the tender and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the Commissioners of the Transcontinental Railway for the sum of four hundred thousand dollars (\$400,000), for District "F." and two hundred and twenty-five thousand dollars (\$225,000), for District "B." and thirty-five thousand dollars (\$35,000) for steel viaduct in said District "B." Any person whose tender is accepted shall within ten days after the acceptance thereof furnish the security required by the Commissioners for the due and faithful performance of the contract according to its terms, sign the contract, specifications and other documents required to be signed by said Commissioners; and in any case of refusal or failure to sign the contract, the party whose tender is accepted to complete and execute a contract with the said Commissioners and to furnish the approved security within ten days after the acceptance of the tender, the said cheque shall be forfeited to the Commissioners as liquidated damages for such refusal or failure, and all contract rights acquired by the acceptance of the tender shall be forfeited. Cheques deposited by parties whose tenders are rejected will be returned within ten days of the signing of the contract.

Attention is called to the following clauses in the form of contract: "All mechanics, labourers or other persons who perform labour for the purpose of the construction of the works hereby contracted for shall be paid such wages as are generally accepted as current for competent workmen in the District in which the work is being performed, and if there is no current rate in such District, the wages shall be determined by the Commissioners now in force, or which may in the event of a dispute arising, be what is the current or a fair and reasonable rate, it shall be determined by the Commissioners, whose decision shall be final."

"This agreement is subject to the regulations now in force, or which may at any time hereafter be in force during the construction of the works hereby contracted for, made under the authority of the Department of Labour, and which are or shall be applicable to such works."

"The contractor shall in connection with the whole of the said work, as far as practicable, use only material, machinery, plant, supplies and rolling stock manufactured or produced in Canada, provided the same can be obtained in Canada, and upon as good terms as in Canada, as elsewhere, having regard to quality and price."

The contractor shall conform to the Fire Regulations adopted by the Commissioners, and also to the "Law" and "Regulations" respecting fire in the different Provinces wherein the work is being performed.

The right is reserved to reject any or all tenders.

By order,
P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway, Ottawa, 8th February, 1906.
