COMPANY OUTLINES ITS PROPOSITION.

Details to be Worked Out Later.

Concession to City on Deering Business.

Will go Before Council Next Monday.

The new proposition under which it is hoped a settlement will be effected with Street Railway Company will be dealt with by the Conference committee at a meeting on Monday afternoon at 5 o'clock. It is Col. Gibson's desire that if any further negotiations are to take place that the Council should first express itself on his new offer, leaving the letails to be worked out after. It is believed that the members of the Conference committee, with probably one or two exceptions, will endorse the new sition and consent to the matter Sefore the Council on Monday The full text of Colonel Gibson's new proposition, which was forwarded o Secretary Brennan, of the Board of Works, vesterday, is as follows:

"Having reference to the conversation which took place at the City Hall last evening between Mr. Hawkins and myself, and the members of the sub-commit self, and the members of the sub-commit-tee on street railway negotiations, and in accordance with the understanding that I should do so, I now send this let-ter by way of modified proposals which appeared to be favorably considered by the sub-committee, though subject to the threshing out of details, if the gen-eral size of the proposals is adopted: "The city to guarantee the street rail-"The city to guarantee the street rail-

"It was stated in the press that some member of the Council had remarked that he did not believe the company was anxious to make any arrangement. I want to say that the negotiations which have taken place have been conducted by Mr. Hawkins and myself, on behalf of the Company, with a most earnest desire to arrive at a settlement, and we were all the more encouraged to persevere in the negotiations by the fact that the sub-committee, who met us from sub-committee, who met us from to time, seemed to be quite as ear-in their desire to arrive at some lest in their desire to arrive at some definite and mutually satisfactory con-

ALFRED EAST DEAD.

Was a Temperance Worker and Military Man.

Many friends in this city will learn with surprise of the death of Mr. Alfred H. S. East, which took place at Sherbrook, Quebec, on April 27. De-ceased made his home in this city for a number of years and was married here. He was connected with the militia in Hamilton, and had also seen service in many parts of the world. He was nnected with some of the temperance organizations here and did some speaking at their public meetings.

ATLANTA BLAZE.

Dozen Business Blocks Burned Down.

Million and a Quarter Damage Done, But Now Under Control.

Atlanta, Ga., May'8.-Half a dozen morning as a result of a fire which started near the terminal station about 3.30, and at 7 o'clock is sweeping through the business section Atlanta.

Atlanta.

The loss at present will reach \$500,000 with the prospect that before the fire is controlled this amount will be doubled. Several small hotels and one large one have been reduced to heaps of brick and mortar. Four business blocks are wrecked and the fire is eating its way in all directions. The block bounded by Madison, Forsythe, Nelson and Mitchell streets has been destroyed. When the firemen reached the scene on the first alarm they found themselves handicapped with low water pressure and this situation had not been remedied at 8 o'clock.

The fire at 8 o'clock was wiping out business blocks in the direction of the centre of the city and threatening the entire business district.

The loss is estimated at \$1,250,000. The first burst of flame issued at 3.30 from the third storey of the four-storey building at Madison and Nelson streets, occupied by the Schlessinger Baking Co. This building extended through half of the block to Forsyth street. Half an hour afterward the Schlessinger building was in ruins, and the Terminal Hotel, half a block away, was burning, while the four-storey brick building between the Schlessinger and hotel structures was in flames.

So far as known no one was seriously injured in the fire.

The Inman block, on the corner of

cutta has been in collision with a steamer of the Hamburg-American line bound for Portland, Me., at a point twenty miles south of here. The name of the Hamburg liner has not yet beet ascertained.

The Matiana has returned here with her stern broken and other damage. The collision occurred in a dense fog. The extent of the damage to the German steamer is not known. A tug has gone out from here in search for her.

WORST STORM IN 25 YEARS.

Much Damage to Boat House and Wharf Property.

Water Over G. T. R. Track on the Beach.

Many Houses on North Side Were Damaged.

Yesterday's disastrous storm presented scene along the bay front and at the Beach that almost beggars description. Never in the last twenty-five years people along the bay front say, has such a storm raged, and never has the water been so high. This morning the bay was quite calm, but along the shores could be seen wreckage of all descriptions. The damage suffered by some of the builders and house owners along the Beach and bay has been heavy. Weir, the boat builder, was a loser to the extent of a fine big boat house, while Mr. Morris, another boat builder, had about eighteen private boat houses swept out into the bay. The floor of his main boat house was also damaged. Ald. Jutten is a loser to the extent of a marine railway that he used for the launching of boats, and part of his wharf will have to be rebuilt. "Never in all my twenty-five years of experience with the bay," said Ald. Jutten, "have I ever seen the water so high. It was six inches higher all day yesterday than it was this morning. It has been an experience that none of us wish repeated, I am sure."

The approaches to the city bath houses have been destroyed, and will have to be rebuilt, and the floor of the bath house was reached by the waves, doing some damage. about eighteen private boat houses swept

damage.

The wisdom of having the revetment damage.

The wisdom of having the revetment wall along the bay front was shown yesterday for, although the waves piled high over the wall, it broke the force of the water, and undcubtedly saved the city sheds and stables. If the wall had not been there these places would have had a ride on the bay. The city dock, at the outer end, was pretty badly damaged, and it will take considerable fixing up. Notices of Two Libel Suits In One Day

Over the M. & M. Hotel Trouble.

Times Has Nothing to Retract.

It is not often that a newspaper is distinguished by receiving notice of two libel suits in one day, but the Times had that honor yesterday. Both came from the same lawyer, one W. L. Ross, K. C., one on behalf of Richard Baird, the present proprietor of the M. & M. hotel, and the other on behalf of Minnie James, wife of Harry James, former proprietor of the same hotel. The article complained of appeared in last Monday's Times,

"A complaint has been made to the License Commissioners in regard to Mr. Richard Baird, the new proprietor of the M. & M. Hotel. The trouble of the M. & M. Hotel. The trouble arises from the fact that Mrs. James is still at the hotel, though James is not. Two Police Court cases have affisen in connection with the matter in two days and it is feared that if the landlord continues to allow the woman to remain in his hotel there will be blood shed. Mr. Baird is a single man and was the vicinity in will be blood shed. Mr. Baird is a single man and was the victim in a pepper-throwing case a year or two ago, and came near losing his sight. Inspector Birrell last week advised the woman to leave the hotel and the host against allowing her to remain, but both disregarded his friendly offices.

well, deofrey? Well, my boy? Now tell me. Don't shut yourself up from z. The old man titled a chair which stoed at Charlie's elbow, dislodged a pair of boots, and took their place.

"Make a clean breast of it, if that will be any comfort. I feel as a father to you. I do, indeed." His hand came down, heavily but kindly, on Charlie's "You are very good, sir. But I an rather in the dark."

"Ah, now don't"—and there was something of entreaty in his tone—don't. I beg of you, shut yourself up from me. I know. I was by you, as you in you me. I know. I was by you, as you in you were you were mere and the paused, with one of his long, groan inflied your face, so like, so like—Ah."

He paused, with one of his long, groan ing sighs, and looked silently, for a while, into the smouldering fire which filled in the smouldering f

measure; and, again, not only her mental measure, but the measure of her manners.

For herself she would willingly have shrunk into the shade, leaving them to judge of her as they chose. But in the case how would they judge of James and of James' discernment! This consideration spurred her on,

"I know I am not fit," she thought, "to be chosen by him—I who have no beauty, no genius; who cannot shine in any way, even in society, for I am still continually in fear of making some awkward mistake. But one thing I can do—my very best to prevent his feeling ashamed of me; or, rather—he is too good and too noble for that—to prevent his having cause to feel ashamed of me, or these people to despise him for loving me."

And this she did prevent, proving herself, even outwardly, as worthy of the position to which she was called as though she had been born or brought up to it; worthy, indeed, to a degree which no mere advantages of birth or of education could have insured.

"Gabrielle," said cissy one day, in a tone of deep solemnity, "what in the world have you been doing to put James in such a state about your behavior in 'company'!"

"Ye velaimed 'Gabrielle, instantly

"I?" exclaimed 'Gabrielle, instantly erimson, and looking both puzzled and

distressed distressed.

"Yes, you. I was in Olivia's room and heard his comments. I always knew that he was absurdly fastidious about young ladies' manners; and as to the young lady, his own peculiar property, she, to satisfy him, must be something

she, to satisfy him, must be something super-hyper-superlative—quite a female Lord Chesterfield. So, Gabrielle, think yourself lucky that he found no more fault than he did, instead of looking ready to ery at the bare idea of his finding any fault at al."

"But what fault did he find, Cissy! Do tell me. I will try to mend it."

"Then I won't tell you. Why should you trouble yourself so much about his opinion? Snap your fingers at him, and strike out a new line of manners for yourself; and, if he object to them, remind him that tastes differ. But come, Gabrielle, you silly child! I do believe that you are really vexed."

"Please tell me what fault James did find. It was only a simple thing, I sup-

find. It was only a simple thing ,I sup-pose, from what you said just now."
"To the last degree simple, my dear."
"But what was it, Cissy?"

MR. ASOUITH EXPLAINS PROVI-SIONS OF THE NEW SCHEME.

\$1.25 Per Week for All Persons Over 70, Excepting Criminals, Lunatics and Paupers-No One Who is in Receipt More Than \$2.50 a Week Income Will be Admissible.

London, May 7 .- Premier Asquith produced the budget to-day before a densely rowded House. The budget provides for old age pensions of \$1.25 per week for all persons over 70, excepting criminals, unatics and paupers. that the maximum number of pensioners is not likely to exceed 500,000, and the is not likely to exceed 500,0000, and the cost must not exceed \$30,000,000 any one year. Married couples are to have \$1.80 weekly between them. The charge for pensions is to be a national, not a local, burden. The scheme is not to be operative until January, 1909. No one in receipt of more than \$2.50 a week income will be admissible.

will be admissible.

As the Prime Minister began to unfold the pension scheme the House listened in the tensest silence. Mr. Asquith warned his hearers that the plan was merely a beginning, and more or less of an experiment. His calculations were largely conjectural. He said he anticipated probable criticisms, and was of the opinion that the Labor party would think the scheme did not go far enough, to which the Labor members immediately assented. He reminded them that it was only a beginning, yet it made immediate ape trembling are explanation, to tell you everythinderstand, once for all the content of the co

cost of pensions. They point out that, with the ever-increasing expenditure, especially for the mayy, there will be enormous difficulties in the future in finding the control of the cont finding money. They spoke with some bitterness of these difficulties being imfinding money. They spoke with some bitterness of these difficulties being imposed upon the coming Conservative Government, which they believe is bound soon to replace the present Liberal Government. The Laborites criticised the plan on the ground that the age limit was far too high, and the income limit quite wrong. They contended that the latter puts a premium on reckless living and penalizes thrift. The Laborites urge that the age limit ought to be reduced at least to 65 years. They point out that very few urban workers live to anything near 70, the average, indeed, being considerably below 60. This scheme will only benefit rural workers.

The Moderate Liberals received the scheme with enthusiasm. They regard it as based on sound finance, and believe that it confers an appreciable benefit upon the aged poor, to whom it brings a message of hope and happiness. This view is voiced by the Liberal press. The advanced Radicals, however, regard the plan as presenting the stumbling block, as do the Laborites.

Delaware Park Survey

Hamilton's Choicest Residential Location

The development of this survey is progressing by leaps and bounds. In a few days the sidewalks between Delaware Avenue and Main Street will be completed and within ten days the roads in this block will be rounded up and 100 choice maple trees will be planted.

7 Sewers and city water pipes have been laid throughout the whole survey. Building operations which have already started will soon be in full swing and a number of artistic dwellings will be erected.

The surroundings to the north, south, east and west combine to make this survey THE choice residential spot of the city.

All the lots on the west side of Weximoreland Avenue (north of Delaware Avenue) have been cold. Some still remain unsold on the cast side of Westmoreland Avenue and on both eides of Eastbourne Avenue. These are still selling at \$15.00 per foot. M'KEE DIVORCE

Decree Will Not be Issued Against or In Favor of Either.

Paris, May 8.-The legal expert of the court presented his conclusions in the McKee divorce case to-day. His finding was in favor of granting a divorce, holding both Mr. and Mrs. McKee responsible. Formal judgment will
be rendered May '14. The suit was
brought in this city by Mrs. A. Hart
McKee, formerly Mrs. Hugh Tevis. The
first hearing took place in March.
In presenting his conclusions the legal expert retraced the history of the
McKee marriage and described 11.1
Mr. McKee and his wife as "spoiled children of fortune," who had fallen desperately in love with each other. He said
Mr. McKee was a man of uncontrollable
temper who always had been interested
in occutism and magic, and found that
he had been guilty of great brutality
toward his wife and that the repeated
seenes of violence had seriously affected
her health.

He strongly condemned the husvorce, holding both Mr. and Mrs. Mc-

her health.

He strongly condemned the husband's action, after the application for divorce had been filed, in instituting an "infamous inquisition" among Mrs. McKee's servants and he characterized the public revelation of the contents of the wife's love letters as Mr. McKee's erowing outrage aganst a woman whose editions are the public and the public revelation of the contents of the public revelation of the contents of the public revelation of the public revelation. erowing outrage aganst a woman whose principal fault was that she loved him too much. Nevertheless the law expert concluded, the charges that Mr. Mc-Kee had tried to starve his wife, had maltreated her child, stolen her jewels, etc., had not been substantiated. As for Mrs. McKee, although she perhaps has been guilty of lack of tact, the charge that she had had unlawful relations with been guilty of lack of tact, the charge that she had had unlawful relations with

The expert found that the French courts are competent to try the defamation suit against Col. Baxter, Mrs. McKee's father, which has grown out of the divorce case, but he declared that neither Col. Baxter nor his wife was involved in the divorce issue.

Supreme Chief Ranger Explains the Proposed Changes.

Windsor, Ont., May 8.-At a largely attended meeting last night, Suprem Chief Ranger Elliott G. Stevenson, of th Independent Order of Foresters, made an important announcement to the members of the Order. It was nuothing less than that the time had arrived when the I. O. F. must raise its rates of insurance to certain members of the society. It had been found, Mr. Stevenson declared, that older members are being carried at unsafe figures, and to place the insurance branch on a sound and substantial basis, three options, or plans, are now offered to the older members to retain their insurance. They may contribute the difference between the old and new rates, with four per cent. interest compounded, and continue under the at a valuation of \$3,250,000. Independent Order of Foresters, made

It was shown that to even up an old member who had entered the 1. O. F. at twenty years of age, and has been a member for ten years, he must pay \$26.43; for fifteen years' membership he \$26.43; for fifteen years' membership he will have to pay \$44.12; and for twenty years' a member, \$65.40. An old member

years' a member, \$65.40. An old member who entered at forty owes on ten years', membership \$117.50; fifteen years', \$196.07; twenty years, \$291.50. If the member desired to carry less insurance, and pay the old rates, a twenty-year member would get a new policy for \$775, instead of \$1,000; if he entered at thirty years, he would be given a policy for \$652; and if at forty years, a policy for \$535.

New York, May 8.—The market during the morning developed fresh strength, U. P. crossing 140 for the first time since August of last year, when it sold above 144 after a decline from 171 3-4 in March. High price for S. P. was 901-4, A. T. 92, A. C. P. 861-8, and A. R. 1337-8. A high authority in U. THE HAMILTON TIMES

FRIDAY, MAY 8, 1908.

FALSEHOOD AS AN EXCUSE.

As matters stood under the Ross Government guarantee, if the Province of Ontario had at any time to take over the road from the bondholders, all it would have got for its \$5,000,000 would be a line without terminals in Toronto and without the portion north of Sudbury which is the chief feeder of the road. * The original Ross proposition was very much as if the Province had guaranteed the bonds for the erection of a five story building except for the ground floor and the top flat.—Ottawa Citizen. for the ground Ottawa Citizen.

The machine organs have all had their cue, and they pipe in concert on this \$2,500,000 C. N. R. guarantee matter in seeking to excuse Whitney's somewhat questionable course in regard to it docio style went them one better in his Hamilton speech, attempted to bluff it out, and brazenly asserted that he did not try to excuse it, but boasted of it His story was that when he came into power he found that the mortgage was drawn in such a manner that all the valuable parts of the property were omitted; and that by the additional guarantee he was trying to secure the

It is not characterizing this statement too harshly to say that it is a tissue of falsehood, the utterance of which furnishes ample evidence, were any required, to convince that Whitney himself knows that the transaction is utterly indefensible on its merits, and was en tered into from other motives than the Provincial good.

The original guarantee was provided for by an act of the Ross Government, passed in 1904. As Mr. MacKay stated, at Woodstock the other day, the act provided for guaranteeing \$1,500,000 of bonds of the James Bay Railway Company, now the Canadian Northern and the taking of a mortgage on the line of railway from Toronto to Sudbury as security. Under that act the mortgage would cover ALL lands, station houses, buildings and rolling stock THEN OWNED OR AFTERWARDS ACOURED by the company. That act was sufficiently broad to cover everything that the railway might own. The mortgage under the terms of this act to secure the Government for its guarantee was not executed at the time Ross went out of office, and it fell to Whitney

Now note these facts. The mortgage is now in existence, registered with Secretary of State at Ottawa, the road being under a federal charter. It is dated July 12, 1906, and the guarantee is dated July 17, 1906, and is signed by Hon. A. J. Matheson, the Provincial Treasurer, on behalf of the Province And two years before this mortgage was taken the railway company had filed the plans of the road from the Union Station, Toronto, to Sudbury. In the mortgage the terminals are not excepted from the security,

In the face of these facts, what be mes of the organs' attempts to excuse the increasing of the guarantee to \$2,500,000 in the last hours of the ses sion? What is to be thought of Whitney's dishonorable attempt to represent the increased guarantee to be a virtuto repair Ross' mistake?

EXAMINE THE FIGURES.

The power monopoly organ indulges in a half-column of drivel supposed to pass for wit on the fact that two very printers' errors crept in to our examination of its extremely crude power estimates. The figurestaken from the Herald-appeared cor rectly enough in the first part of the article, but in a later reference annual ost of maintenance of the transmission line \$5,422 was erroneously stated at \$51.422, while the cost of 5,000 h.-p. at \$10.40, \$52,000, was stated at \$521,000. but a fool would assume that it was in- the Opposition may win 20 seats in the tentional.

But the monopoly organ calls our attention to the fact that 5,000 h.-p. is not a fair amount to estimate upon, that as the Commissioners said that the could not be economically built with the idea of providing for only imthe quantity estimated upon, the betthe showing for the scheme, therefore we assumed 5,000 h.-p. as a basis

But let us take the Herald's figures nd see how they would work out on a 1.500 h.-p. basis: Annual cost of main. guarantee bill, the junior Tory organ tenance of line \$5,422; 4 per cent, interest on estimated cost (\$115,650), \$4,626. ese two items alone give us \$10,048; and the Herald has not provided a cent for paying off the capital cost of the transmission line, which must be done within the 30 years. Suppose we allow-no need for hair-splitting-\$3,000 for this purpose; there will be ooked-for charges in this connection probably to be covered. Then add the it does not expect the Commission's est of 1,500 h.p. at \$10.40, making scheme to mature early-perhaps both. \$15,600, and we have a total in four items alone of \$28,648. Without taking into consideration the cost of transformer stations and their operacost of local distribution system and operation, insurance, management cost, and the various contingencies which must be provided for, let us add but one to prove that no fewer than 450 had item which cannot be overlooked, that been wrongfully disfranchised in one of line and transformer loss of power. election! Authorities vary, but there is general agreement that it would be unsafe to nt on less than 10 per cent. in such a scheme of transmission and transfor-mation. That would reduce our 1,500 h.

p. at the Falls to 1,350 at the city transformer station, which would cost which has resulted in the development,

us for the four items alone, above con idered, \$28.648. That would represen \$21.22 per h.-p. before the other charges

referred to are added. How many of the aldermen have sat down and thoughtfully considered this power proposition in its practical aspect? Certainly, those of them who have are not likely to vote to tie the city up in a contract like that to a 30 years monopoly, much as the local monopoly organ may desire it, and unscrupulous as it may be in its methods of effecting

A BEAUTIFUL BUNGLE.

The railying cry of the Hamilton Times (Liberal) is that "Whitney robbed us of the Normal College." That is to say, because the Government deemed it best, in the interest of the whole the college of the college Province, to discontinue the college at Hamilton, the Government should be de feated.—London Free Press.

That, by the way, is only one of Whitev's misdeeds. It is not correct to say that "the Government deemed it best in the interests of the whole Province" to take the Collegiate away from Hamil-As throwing light on this, one of the Toronto "men with a pull" who had the ear of Whitney, declared, when it was urged that the college should remain here at least till housing and staff were ready at Toronto, that the college was to be got out of Hamilton at once "if it had to be housed in a barn!" The excuse put forward for taking away the college and making the training of the highest grade of teachers a mere side show to a university course, was that the work should all be concentrated in Toronto. Even that was not lived up to, for within a few months a second ern had to be started in connection with Queen's, at Kingston, London is vet quite left out in the cold. And still the cost of the work has been more than doubled, with less efficiency, and with less prestige to the graduates.

WHAT SAY THE FACTS?

The chief Tory organ, in touting for Whitney, gives prominence to the following:

The policy of giving vast sums of toney or huge grants of land to rail-rays has been abolished.

This statement is a violation of the facts as shown by Whitney's record. Years ago he solemnly declared that no further grants to railways would be made. Let us see what has been done

In the session of 1906 Whitney voted \$265,000 to a railway from Little Cur. Under the Conmec Act we can compel it rent to a point 13 miles from Sudbury. In the same session he voted \$3,000 a mile for 38 miles to the Bruce Mines and Algoma Railway. In the session of 1907 he voted \$5,000

mile toward connecting Thessalon with the Soo branch of the C. P. R. He also extended the time for the Canadian Northern subsidy for \$2,000 a mile from Sudbury to Lake Abitibi, and extended the time for earning other subsidies

At the recent session a guarantee of \$2,500,000 bonds was granted to th Canadian Northern, the bill being sprung n the House and put through in the last day of the session. Besides this he roted a land grant of 575,000 acres to the O., H. B. & W. R.

In view of these incontrovertible evi dences of Whitney's violation of princi ple and betrayal of those who trusted to his honor, should this organ not moder

·While the senior Tory organ alleges that Mr. Pense, of Kingston, has "con fessed", that Leader MacKay told him that the Liberals in the Legislature could not afford to oppose Whitney's C. N. R. announces that Mr. Pense has given the story an emphatic denial.

What is that? The Ontario Government making a three years' contract with the Cataract Company to supply power to the Hamilton Asylum! That indicates either that the Government is getting power at less than it believes the Commission will charge it, or that

Mr. Bole, M. P., promptly accepted the challenge of the leader of the Opposition to show that even one man had been deprived of his right to vote by the Manitoba registration system, and

It requires a good deal of audacity or Whitney's part to claim credit for the

even fighting against the construction of the T. & N. R., which has proved the the Whitney organs want us to believe that he hid the silver in the soil!

The Hamilton Herald now admits that Col. Gibson and Mr. Hawkins have made it clear that they would be will for purposes of pumping and street lighting at a rate ten per cent. less than the price which the city would have to the Government Commission for Niagara power." When the Times made the announcement of this offer a few days ago, the Herald charged it with publishing a "lie."

The Toronto Mail and Empire bitter denounces the new Dominson Eletions Act, declaring "that no ballot shall he invalid because of any writing, any number, or any mark placed upon it by returning officer." This clause is intended to prevent the swindling of any candidate-elect out of his seat by taking advantage of a deputy-returning offic er's error in putting marks on the ballots. Common honesty demands that such an outrage as was perpetrated on the Liberals of Wentworth in ley's case should not be repeated.

The Hamilton Times seems surprised to find The Globe looking forward to street car fares at the rate of ten for a quarter under civic operation. The idea is very far from Utopian.—Toronto Globe.

The writer of the above paragraph entirely misses our point. What we wondered at was, not its looking forward to 10 tickets for a quarter under civic operation—tickets at 8 for a quarter are now given both in Hamilton and Toronto, and each city derives a large revenue besides under company operation—; it was the Globe's squinting at "free street dered at was, not its looking forward to 10 tickets for a quarter under civic operation-tickets at 8 for a quarter are now given both in Hamilton and Toronto, and each city derives a large revenue besides under company operation—; it was the Globe's squinting at "free street car service" under the socialistic system, which is a very different thing-"looking to Government to serve us" hard to reconcile with our old acquaintance's principles.

The power monopoly organ professes to fear that if Hamilton does tract for 30 years with the Hydro-Electric Commission, binding itself not to take power from any other source, but buys from the local concern at 10 per cent. less than the Hydro people's prices, there will be danger of the company charging exorbitant rates to private con The danger is a painted one to furnish the service at an arbitrated price, and the fact that it would be selling power and light on such advantageous terms to the city would make it certain that no arbitrators would ratify exorbitant prices, even if business cor siderations did not forbid its doing so. "I first became affected with a dry scaly humor which was profounced dry eczems by three leading physicians. It commenced on my legs and arms, and finally covered the greater part of my body. I suffered for about three years. My scalp around the edges of my hair was a complete ring of scales and crusts. The disease was more disfiguring than can be imagined, and heat and perspiration caused my flesh to be as if on fire and I could not keep my hands away from it at times. I was given salves and medicine repeatedly by each physician, and advised to wash frequently in soda and water, but nothing cured me. Then I read of the wonderful Cuticura Remedies and decided I would try them, and I am glad to state openly that by constant use as directed for two months I am entirely cured. I used two cakes of Cuticura Soap, three boxes of Cuticura Ointment, and the same number of bottles of Cuticura Fills. I will gladly tell about Cuticura to those whom I see in need of a skin cure. I do not think that ever anything smaller or more unworthy was ever dope by any government, especially a government supported as they had been by the people of the Province. We remember the government of Sir John Macdonald gerymandered the constituencies and boasted that he had hived the Grits. We thought that day had gone by forever; that a love of fairness would prevent any government from descending to such contemptible methods, but we find that the Tory party is the same today that it was in the eighties. NEED RAILWAY.

Algoma Liberal Candidate Wants Progressive Railway Policy.

Sir,-Some years ago on three different occasions I succeeded in getting the Boards of Trade and the press of western Ontario to strongly urge the giving of land grants to the Algoma Central & Hudson Bay Railway Company, the Manitoulin & North Shore Railway Company and the Bruce Mines & Algoma Railway Company. The days are past for the giving of land grants, but the time has arrived, I believe, that the Province of Ontario should immediately inaugurate a strong, progressive railway policy, especially in constructing several lines of railway from lake ports northwards to the Grand Trunk Pacific, otherwise western Ontario will be side-tracked.

I am contesting Algoma on behalf of the Liberal party, and I know that western Ontario is confident that with the rapid development of the timber, mineral and agricultural resources of northern Ontario that she will reap great beaffits therefrom. I believe that it would help the cause of all the Liberal candidates in western Ontario to put forward of land grants to the Algoma Central &

ment at the hands of the Province.

I trust that you will pardon me for bringing this matter to your attention, but I believe that there is a good chance of the Liberal party carrying western Ontario with a large majority. As far as I can learn the prospects are very promising in this part of northera Ontario. Yours truly, John McKay.

BANK OF HAMILTON

Household Bank Accounts

A specially convenient and desirable way of keeping control of your income and home expenditure is to open a "Joint Savings Bank Account."

This account is opened in the names of both husband and wife, and cheques can be mide out, and money deposited by either party. Every month the expenditures appear on the bank book and can be checked over, and future expense can be regulated much better than by merely keeping money at home, and forgetting where, when and how it has been spent. In case of the death of either, the surviving party can withdraw, without formality or delay, any balance in the bank.

This class of joint account is particularly suited to many families, and the Bank of Hamilton specially invites such accounts, paying highest current interest on same every three

MR. ASQUITH'S BUDGET.

Britain's Surplus for Year 1907-8 is \$23,630,000.

London, May 7.—The budget was presented in the House of Commons to-day by Mr. H. H. Asquith, the Premier, instead of by the Chancellor of the Exchequer. This departure from precedent is a result of the recent changes in the Cabinat. in the Cabinet.

in the Cabinet.

Mr. Asquith, after commenting briefly on the present slackening of trade throughout the world, following the boom year of 1907, announced that Great Britain's realized surplus for the year 1907-1908 amounted to \$23,630,000. This, he said, would be largely applied to the reduction of the national debt, which had already been reduced by approximately \$90,000,000 during the past year.

and the revenue on the existing basis of taxation at \$788,850,000.

of taxation at 8/88,850,000.

The new budget reduces the duty on sugar from 4s, 2d, to 1s, 10d, per hundredweight. The reduction will become effective on May 18 on raw and refined sugar and on July 1 on articles manufactured with sugar.

LADIES VISIT HAMILTON CLUB

At-Home In Their Honor Yesterday Afternoon

n Connection With The Official Opening.

The New Quarters Much Admired by All.

The formal opening of the new quarters of the Hamilton Club was held yesterday afternoon, and despite the inclement weather the ladies turned out in large numbers for the "at home" in their honor. Nearly three hundred ladies and gentlemen took advantage of the invitaon of the club to be present. Most of the time was spent by the ladies in going over the establishment with Mr. A. E. Mason, the genial secretary of the club. Everything to be seen was explored by them, and they were loud in their praises of all they saw. The rooms were all tastefully decorated with palms, roses and carnations, and presented a homelike appearance.

homelike appearance.

On entering the hall is to be seen a dainty strangers' room, while on the right of the entrance is the lounging room. Further on is the staircase leading up to the second and third floors. To the right of the hall is the large diningroom and two smaller dining rooms, capable of holding upwards of 100 people. These were filled during the afternoon with the ladies and their escorts, and afternoon tea was served. Upstairs is to be found the reading and smoking rooms, also the billiard rooms. The man servants' quarters are on this floor, at the rear of the new wing, and are all neatly furnished. The secretary's office is also on this floor. An innovation that will meet with the approval of the members is a locker room on the third floor, which will be used for the gentlemen who wish to go out riding and can change their clothes there, instead of having to go home. There is a place on the first floor, called the "Nook," which as its name implies, is a cosy corner. During the afternoon Lomas' orchestra discoursed sweet music in this spot.

The members feel hignly elated at the success that attended the opening, and while it has not been spoken of officially, it is expected that the affair will be an annual one—which will, no doubt, be received with delight by the ladies.

WHITNEY'S PLEA FOR MERCY.

Hon. A. G. MacKay Deals With the Hamilton Speech.

Endorsation of the Liberal Leader at Owen Sound.

Constituents Promise Him Their Support In No U. certain Tones.

Owen Sound, May 7.-If those Con servatives who have been nursing a little spark of hope that the Liberal leader will be defeated in North Grey had been present at the Liberal rally here to-day they would have had that spark completely extinguished. I spite of the heavy downpour of rain and climatic conditions prevailing, which would furnish a reasonable excuse for absence, the attendance of delegates was splendid. With an and amid a of enthusiasm, Hon. A. G. MacKay was again chosen as the candidate. He devoted considerable attention again devoted considerable attention to what he described as Premier Whitney's appeal for mercy at Hamilton. He explained that his call to the leadership would necessitate his being absent from the riding more than he had been in past contests. "I ask you, in spite of that, to give me the same support you have in the past. Will you do it?" he asked, and with a roar came back: "We will."

asked, and with a roar came back: "We will."

His discussion of the C. N. R. guarantee was warmly appreciated, while the explanation of the Upposition's position with regard to the Larose deal and the educational middle evoked round after round of applause. Throughout Mr. MacKay and his audience were in entire sympathy, and he is assured that his campaign is in the hands of hundreds of willing and capable leaders. A stirring address was also given by Mr. C. W. Hartman, Liberal candidate in East Grey.

Hon, A. G. MacKay was nominated by Mayor Mathew Kennedy of Owen Sound and seconded by Robert Smith of St. Vincent, There was no other nomination.

notice," said the leader in his ad-"that Premier Whitney, in open-is campaign at Hamilton, asked Thotice, said the leader in all earliers, "that Premier Whitney, in opening his campaign at Hamilton, asked for a square deal; but on reading his speech one is driven to the conclusion that an appropriate heading would be 'a plea for mercy,' particularly with reference to that last awful week. In dealing with the position of the Opposition as to the financing of the University of Toronto I find the Premier reported as saying: Mr. MacKay objected to the government of the university by a commission, whereas the Temsia of the Commission of the University by a commission, whereas the Temsia of the Commission, whereas the Temsia of the Said Premier of the Commission, whereas the Temsia of the Commission of the Commiss sity by a commission, whereas the Tem-skaming & Northern Ontario Railway is managed by a commission.' Premier knows-quite well that he was absolutely misrepresenting my position. In answer to the same statement in the House explained to the Legislature that there to the same statement in the House I explained to the Legislature that there was nothing to prevent the Board of Governors at the close of the academic year making out estimates for the next year; that such estimates could be hinded to and adopted by the Minis er of Education and brought down in the stree way as are the estimates in connection with other public institutions. The Governors and the Government would recessarily carefully calculate and scrutinize the proposed expenditures, and the people's representatives, as well as the great mass of the people, through the press, would become more familiar with the good work now being done by the University of Toronto as a result of the intelligent explanations given by the institution should be sufficiently financed, but that it should be done in the open and not by star chamber methods.

Hirelings of the Government.

Hirelings of the Government.

"Equally unbridled was Mr. Whitney's tongue when he hurled the insulting phrase at the Governors that they were hirelings of the Government.' Men such as Byron E. Walker, Chief Justice Moss, J. W. Flavelle and others prominent in different walks of life, to whom that phrase must equally apply, have, without the payment of a single cent; given their time for the benefit of our great Provincial university, and it is in contradiction of the actual fact that they should be classed as hirelings. The position of the Premier of this great Province loudly demands that those who occupy it should also observe the or linary decencies and courtesies of pub

many decencies and courtesies of public life.

"Premier Whitney took great credit to himself because he did not gery-mander this riding," proceeded Mr. MacKay. "Like the Province in general outside of the cities and New Ontario, nor redistribution has affected this riding since 1885. The then Conservative member was subsequently defeated, and, as a matter of fact, since 1885 there have been two Conservative and two Liberal members elected. It would be interesting to know, seeing that this is the largest riding in the county, how it would be affected by a gerrymander. The Premier boasted that he could have gerrymandered the Province so that even five Liberals would not have been elected. He could be a feeted. five Liberals would not have been ted. He could not do it," comment-Mr. MacKay, "and he knows it, for Liberals were never in better fight-fettle. No better example of the emier's autocratic manner found than his action with regard to the automobile bill, when he practically ordered that the yeas and mays should not be taken. We don't mind paying for a blind mare," said Mr. MacKay, "but we do object to paying \$2,000 a year for a blind Speaker."

Price of School Books.

Again commenting on the Hamilton speech, Mr. MacKay said: "The Pre-mier's statement as to the price of school books was also unworthy of him. school books was also unworthy of him. He claimed that the Government had reduced the price from \$1.30 to 40 cents, and left the public to infer that those prices are permanent. He knows they are not. He knows that a practical man on the commission that made the inquiry distinctly stated that if the new readers are not to date the cast will be on the commission that made the inquiry distinctly stated that if the new readers are up to date the cost will be as high or higher than that of the old ones. The Government's attitude towards model schools is even more to be condemned. The Minister of Education allows his regulation of October last to stand. It says that only a few model schools of a particular type will be retained. Conservative members, headed by the Premier, verbally denied this, and the constituencies are being told that their respective model schools will remain. The Minister should explain the regulation, or it should be withdrawn, or the Minister should resign."

ROCHE MOVES AN AMENDMENT.

POSITION OF THE OPPOSITION ON THE ELECTIONS BILL.

A Galician Jailbird Claimed to Have Supplied Mr. Bole With His Ammu nition in the Debate.

Ottawa, May 7 .- The objections of fered by the Opposition to the Dominion elections bill were crystallized to day in the form of an amendment, moved by Mr. Roche, of Marquette, moved by Mr. Roche, of Marquette, and framed in caucus. In effect it affirms the necessity of legislation with the object of insuring clean elections, but condemns the first clause of the bill as invidious and unjustifiable discrimination against the Provinces of Manitoba and British Columbia. Mr. Roche, though perhaps the fastest speaker in the House, occupied fully four hours to-day in attacking what he characterized as they obnoxious clause in the bill. It was to be expected that the Opposition would make some attempt to wriggle out of the some attempt to wriggle out of the hole into which Mr. Bole thrust them when he unmasked the manipulation of the Galician vote in North Win-nipeg by Conservative officials at the last Provincial election, and in their of the Galician vote in North Winnipeg by Conservative officials at the last Provincial election, and in their dilemma they had to fall back upon the gentleman who is said to have dictated their attitude in the present fight, Hon. Robert Rogers. Having been appealed to by wire, Mr. Rogers promptly sent a reply, which Mr. Rocher fead to the House, to the effect that Rodneski, one of the Galicians who had sworn to one of the affidavits, was a jailbird who had had to flee from the country, and that he had received payment of \$25 from the Liberal organizer for making the affidavit. This was received with rapturous cheers by the Opposition, but nother Mr. Rogers nor Mr. Roche had anything to say about the others, who had sworn to the crookedness of the Conservative officials. Mr. Crawford, of Portage la Prairie, followed Mr. Roche, and within half an hour had riddled not a few of the latter's arguments. He showed that the member or Marquette in his defence of the revision system in manitopa had not or Marquette in his defence of the revision system in Manitolia had not adhered to the facts, and that in his own constituency there was so nuch confusion in regard to the boundaries of the Provincial and Dominion di visions that it was impossible to lo-cate the voters. Mr. Crawford will re-sume to-morrow.

Experimental Farms.

Hon. Sydney Fisher, replying to Mr. Lapointe, as to where the new experimental rarms, for which an appropriation of \$40,000 was placed in the estimates, would be established, said the department was now negotiating with the Governments of Frince Edward department was now negotiatine with the Governments of Frince Edward Island and Nova Scotia in regard to some experimental farms. It was also considering applications from parts of Quebec and from the Provinces of Saskatchewan and Alberta, it was hoped that a definite arrangement would be reached this coming season as to where some of the farms would be situated.

Sir Frederick Borden said that I. was not advisable at the present moment to give information in reply to a number of questions as to arrangements for the militia assembly at the Quebec tercentenary. It had not yet been definitely settled what regiments would be mooilized, but as soon as possible all information would be laid before the House.

Mr. Connee, in resuming the debate on the election bill, cited some instances in which enumerators appointed by the Whitney Government in New Ontario were employees of the Government candidates. In another case in Fort William the law as to the posting of the lists had not been properly carried out; in fact, no one nad known that the enumerators were at work at all. Mr. Connee then dealt with the question of spoilt ballots, and claimed that it was so serious as to call for a remedy. The man who wished to cast an honest vote ought to be able to do so, without and returning officer having it in his power be able to do so, without and re-turning officer having it in his power to spoil it. It was not for the Opposi-tion to attack the bill on the ground of past corruption. Their own history and record should preclude them from doing so. Alanipulation had been proved in Manitoba and also in Ontario, and in these circumstances he maintained that the bill was justified. Their own history

Toronto Labor Council Denounces Ontario Government.

Toronto, May 8.—The District Labor Council last night denounced the Ontario Government for its guarantee of \$2,500,000 of the bonds of the Canadian Northern Railway. The Legislative Committee in its report made the following reference to the matter: "The action of the Whitney Government in guaranteeing the loan of \$2,500,000 to Mr. Mackenzie must certainly have set the people thinking and makes as feel Mr. Mackenzie must certainly have set the people thinking, and makes us feel helpless and ever at the mercy of fin-

JAPANESE ACQUITTED.

The Evidence in Vancouver Stabbing Cases Fails.

Cases Fails.

Vancouver, May 7.—In the Japanese and city firemen fracas on New Year's morning the jury in the Spring Assizes acquitted Murato, the Japanese charged with stabbing three firemen. The firemen' told the story of New Year morning, saying that Anderson slipped on the pavement, falling against the window of a Japanese house and breaking it. Two or three Japanese, carrying knives, ran out. Fireman Frost was severely cut in the face, McDonald in the shoulder and Anderson in the back of the neck. At the close of the evidence Justice Morrison said he considered the case should not have gone to the jury at all. Evidently the police had the wrong man. The foreman announced the jury unanimous in finding the prisoner not guilty. Hearing in the case against Naguchi, another Jap, under whose bed a bloody shirt was found, ended in the accused being allowed out on his own recognizances.

Technicality in Way.

When the question of funds for the \$10,000 addition which the Hospital Governors propose making to the scarlet fever and diphtheria cottages, and another \$5,000 required by the Board of Health for its smallpox hospital came up City Solicitor Waddell pointed out that under the by-law passed in 1907, to raise \$75,000, it was stipulated the money was for an isolation hospital. It might he a fine point whether any of this money could be used for the purposes now suggested. Another technicality that might stand in the way was the fact that the by-law provided the first instalment of the debentures should be paid in April of this year. The debentures have not even been sold yet, and Mr. Waddell thinks that this technicality might interfere with the sale now.

Mr. Waddell thinks that this technicality might interfere with the sale now.

The City Clerk was instructed to get a report from the Hospital Governors as to the changes they intend making. The aldermen decided in the meantime not to take any action on the smallpox hospital. Some exception was taken to the Board of Health placing the tenders before the committee at the last minute, instead of giving them time to consider them.

As a result of the letter sent to the city by W. W. Goddard, complaining of the treatment he stated that Hamilton received at the hands of the Grand Trunk on the Wellington. Grey & Bruce division, the committee will confer with the Board of Trade with a view to taking the matter up with the company. Ald. H. G. Wright said that the city helped to build this road, and was entitled to some consideration. He was confident, that if the matter was taken up with the company it would look after Hamilton's interest.

Brennen, who was recommended to Mr. Paige by Mike Kelly, has many friends in this city, and he was taken by some of them to the National Club quarters. He made an enviable record for fielding in the New England League last season, his percentage being 827. He played short. His batting average was not as good, being 176, but this may be explained by the fact that he was spiked early in the season, and was unable to run well.

Thoney last night was hurried to Youngstown, Ohio, where he will be under the care of "Bone-setter" Reese, a specialist, who gives particular attention to just such cases. Walter Carlisle, the fast outfielder from Loo Angeles, gets a chance to win his spurs with the Red Sox through Thoney's injuries, McGuire said last night he would put him in the game to-day. done, and no opportunity to perform the necessary tasks. No "trials" of race-horses were had, but that is nothing now. Trainers do not spend their time "trying" their charges. The horses are trained, not tried, and the training consists of a course of galloping work so graduated as to bring their powers to the highest point of ability by the arrival of the day of the race. Their energies are conserved and developed in this manner, and not wasted in aimless "trials" to show what they can do in the meantime. The morning gallops are items of work, intelligently directed towords bringing the horses into the best possible physical condition.

HACK WAS GIVEN THE DOUBLE CROSS.

So Says Bat Masterson, the U.S. Sporting Man

Georges Hackenschmidt, the big wrestler known to the sporting world as the "Russian Lion," is still lamenting over the way his recent contest in Chicago with Frank Gotch terminated. AUTO DRIVERS COMMITTED.

Charles Hartman and Oscar Muntz Sent Up

Charged With Causing Bodily Harm by Overspeeding.

White Pleaded Guilty of Stealing Those Tools

This morning Charles H. Hartman, o Hartman's Hotel, Merrick and MacNab streets, and Oscar Muntz appeared before Police Magistrate Jelfs on a charge of overspeeding the former's automobile and through wanton and furious driving causing bodily injury to Miss Glady on Good Friday last. Many will remem ber the accident on that Friday when the two young ladies, who were driving east street, between Caroline and Bay streets, were thrown from their rig the horse running into a telephone pole at Bay and Main streets. H. H. Bicknell pleaded not guilty and declined to elect in the defendant's behalf. F. R. Martin prosecuted. Miss Zimmerman, who is a music teacher and lives at 49 Victoria avenue south, was called and said that the accident happened about 4.30 in the afternoon. The auto came along behind them with two men in it and seemed to be going at a terrific rate of speed. The machine was making a lot of noise and the horse took fright. It mounted the sidewalk just as the car passed them in front of Dr. Husband's house and dashed down the street at a smart gallop. The auto was going at such a speed, however, that it easily passed the maddened horse. The witness said she and the other young lady both pulled on the lines but were unable to check the horse. The beast dodged the pole at Bay street, which is on the outside of the sidewalk, but the buggy struck it and they were pitched over the dash board. This was all she remembered. Miss Plewes corroborated her. Dr. Husband, told a similar story and judged the speed of the auto to be at least 20 miles an hour. William Maggee, no of the Bauk of Commerce, Harry Carpenter, Barrister, Samuel McKay, liverman, Reggie Lumsden and Orville Walsh, boys, all corroborated this, All the witnesses thought the speed to be at least 20 miles an hour. The evidence as to identification was not quite complete, but as Mr. Maggee identified the men the Magistrate committed them for trial.

The regular weekly meeting of the Victoria Avenue Literary Society was lield on Thursday evening in the Sunday school room. Three very interesting historical essays were given, "Canada," by Mr. Jackson; "India," by Miss M. Henning, and "Great Britain," by Mr. Fess. An impromptu debate, "Resolved, that a meat but ill-tempered wife is more to be desired than an untidy but good-natured wife," was won by the affirmative. The oratorical contest, which was to have been held no May 14, was necessarily postponed till May 21. Through an error, Mr. Lloyd Houlding's entry was omitted. He will compete. There will be no meeting on May 14. All are luvited to the oratorical contest, on May 21. The regular weekly meeting of the Victoria Avenue Literary Society was

mer acquaintances have begun to doubt his fate.

The only suitor whose name has not been mentioned hitherto is Bert Albert, of Huron, S.D., to whom she is said to have promised marriage, a plan that never was carried out because of his lack of wealth.

The tenth body was turned up by the diggers at the Gunness farm shortly before 9 o'clock this morning. It is apparently the skeleton of a man. Another body has just been found at the Gunness farm. It was just underneath the spot where the first body of to-day's was found. It is supposed to be that of a woman.

Mrs. Bella Gunness, high priestess of murder, who at the back door of her farmhouse kept a private grave yard, from which 9 bodies have been unearthed, is alive. This was established beyond a reasonable doubt yesterday. An ordinary tape measure proved the agent which may solve the perplexing mystery of the long series of startling crimes. Careful measurements were taken of the headless trunk of the woman found in the ruins of the burned hope, which at first was thought to be the body of Mrs. Gunness. This resulted in the astounding revelation that the dead woman was not more than half the size or weight of the siren who is supposed to have lured a score of men to their death.

In addition to the convincing testimony of the tape, half a dozen of the intimate friends of Mrs. Gunness asserted with the positiveness of absolute convicing the start of the s

Tried to Disturb the Graves.

What the authorities have declared was an attempt to disturb the nine bodies dug up on the Gunness farm, so that identification of the remains would that identification of the remains would be impossible, was made to-day. Two men, whose identity is not known, broke into the carriage house of the farm, where the bodies have been placed, but were driven away by a watchman before they could do any hearn.

The authorities are searching for the men.

The authorities are searching for the men.

The day watchman at the farm of Daniel M. Heston said that the men claimed to be doctors, and had attempted to justify their presence on the place on professional grounds. He ordered them from the premises, but they refused to go until they learned that Joseph Maxson, Mrs. Gunness' man of all work, had been sent to summon the sheriff. The men gained entrance to the carriage house by placing a ladder on the side of the building and forcing open a window.

Matt and Oscar H. Budsberg, of Iola, Wis., sons of Ole B. Budsberg, whose disappearance from the Guinness farm is one of the mysteries of the case, arrived here at 3.15 p. m. They brought with them photographs of their father and information of his movements before his departure from Iola.

Father Missing.

"My father said before he left Iola that he was coming to Laporte to work a farm," Matt Budsberg said in broken English. "He brought with him all the letters which he had received from Mrs. Gunness, and also \$800 in money After his arrival here he raised \$1,000 by selling a mortgage note through the Farmers' State Bank of Iola. Mack, Coroner of the county, to-day, The steps by which his brother Andrew became infatuated with the Indiana The steps by which his brother Andrew became infatuated with the Indiana woman were canvassed once more, but only partial progress was made toward elearing the mystery. Helgelein told again of the secrecy with which his brother had shrouded his movements before his departure from South Dakota. Enough was evolved to show that advertisements for a matrimonial agency had been printed in Scandinavian papers in the Northwest. Helgelein asserting that a single sheet printed in Norwegian and full of such notices had been circulated among his acquaintances.

The circumstances lead the investigators here to believe that Mrs. Gunness established communication with her victims through this agency, such a promise accounting for her relations with Ole B. Budsberg.

Because of the heavy rain it was decided shortly before noon that no further digging would be done upon the Guinness farm to-day. The work will be resumed.

PRINCE IN TROUBLE.

WORST STORM IN 25 YEARS.

(Continued from page 1.)

While the storm raged heavily on the say, it was not a circumstance to its wful magnificence at the Beach. It was awful magnificence at the Beach. It was an aweinspiring sight, and old timers who witnessed it say that nothing has approached it since 1886. To begin with, the water was on a level with the top of the piers all day, and washed over it all the time. Part of the pier out in the lake was washed away. The sidewalk leading from the rear of the Royal Hamilton Yacht Club to the piers is floating, and will have to be fixed up immediately.

and will have to be fixed up immediately.

The Toronto & Niagara Power Company is also having its difficulties. The foundations of the third tower on the north side of the canal has beeu washed away. It is but a short time ago since the second tower washed away. Down toward station 26 will be seen houses floating around in the water. The large number of houses that were moved at the time the Niagara & Toronto company put its power line in, to the bay side at station 26, were floating yesterday, and the house of Mr. Perkins was on an island. Below the power house, at station 30, the road was submerged to the extent of eighteen inches. The Radial tracks are all right, however.

The Radial was a sufferer, in that the water raised quite high in the inlet, flooding the tracks and making it necessary to have the people change cars at the Ferrie street bridge and walk to the Deering station to get another car.

The Macassa started out this morning on time, as both bay and lake had quieted down considerably.

Damage and interruption of shipping are reported at many other places throughout Ontario.

Nearly every woman would feel better for a Cascaret every day. Women exercise less than men. That's why they need help most.

A woman moved into a new flat with a bath room, and she said to a visitor: "You don't know how anxious I am for Saturday night. I want to take a bath."

That's what some of us do with our bowels. We get into the habit of periodical cleansing. And we never realize how much better it is to give a little help every day.

To give you a convenient vest-pocket laxative, the action of which is as natural and gentle as the action of laxative foods. They are not like the old-time physics—castor oil, salts and cathartics. We took them only when we were forced to.

We let matters run until the bowels were clogged, and we were miserable. Today we keep at our best.

The way is to take one Cascaret just as soon as you know that you need it. The results are as pleasant as the dose. Those who exercise enough, and eat coarse food and plenty of fruit, don't need them. All others do need them. Cascarets do just what Nature does for those

in salary is he always satisfied, even if it was what he asked for? Not always. It depends entirely how the advance was given. It is not merely the fact that you receive "more money" for your work that satisfies the average employee; it is the feeling, "Are your services appreciated?"

The successful business manager, we all know, is one who surrounds himself with a force of bright and energetic young men who execute correctly and promptly his ideas, and the most successful manager and the one who gets the best results is he who has that great est of all requisites, tact, and can make his employees feel he is interested in what they are doing for his interest. No young man with any degree of manliness expects or wants-his employer to pat him on the back and say: "You're doing fine, John; keep it up."

doing fine, John; keep it up."

But the greatest stimulus an employer or manager can give to his business is to let his employees know he appreciates their efforts and watches their work from day to day.

If you have a young man in your employ that is due for a raise do not see how long you can "bluff him out of it." If he has earned the advance give it to him without any solicitation on his part whatever, and when you do tell him what a pleasure it is to give the same and that you appreciate his efforts.

The advance might not be all that you would like to give, but is the best that can be done at the present, and thank him for his attention to business and loyalty to the firm.

That man or boy will walk out of your office with tears of joy in his eyes, and you have made him your friend, and he will fight for you and work for you harder and will be happier as a result.

There is something weak at the foundation of an institution, no matter how large or small, where you hear the employees remark: "You will have to go ahead and ask for it if you want it. You won't get it until you do." There are a great many things we never get until asked for.

Mrs. Ziegler spends more than \$20,090 a year in this work, which I believe is one of the greatest philanthropies of modern times, as there is little literature printed for the blind, and it is so expen-sive that few of the blind can afford t purchase it. The book "Ben Hur," for instance, that we get for less than SI in ink type, costs \$10.50 in type for the blind.

they are distributed through the mans free.

We have to pay more than \$1.000 a year postage on the magazines that got to the blind of the United States, so in this respect Canada is ahead of us. If you will give publicity to the above, you can be the means of reaching a great many blind people who live in remote sections, and have them get the oenefit of Mrs. Ziegler's gift.

WOMAN HATER.

Death of Man Who. Never Allowed a Woman in His House.

Woman in this house.

Toronto, May 8.—The death occurred yesterday of Mr. Joseph Heeds, aged 51, an ecentric character, who lived at 216 Bellwoods avenue, the late Mr. Heeds was never known, to have allowed a woman to enter, his house, and he lived a very reclusive life. For 20 years past his only visitor has been Mr. Alex. Tanner, 41 Russett avenue.

Mr. Tanner found, him on Wednesday night suffering from pneumonia. He

Mr. Tanner found, him on Wednesday night suffering from pneumonia. He told Mr. Tanner that in case he died, a wooden box containing his valuables would be found in the cellar. Mr. Heeds sank rapidly all day yesterday and finally succumbed. Inspector Dickson, of the Esther Street Police station, was notifed, and he will make a search of the house to-day. Before coming to Canada, 35 years ago, the deceased was a letter-carrier in County Bedfordshire, England. He owned considerable property in the city. The remains were taken, to the Miles undertaking establishment.

WILL MAKE A HARD FIGHT.

NELSON CANNON DOES NOT PRO-POSE GOING BACK.

Has Engaged Mr. M. J. O'Reilly, K. C., and Has a Syracuse Lawyer Here

"Nelson Cannon will be brought back here," say the legal officials of Ohio. "I reckon not," say some big magnates of New York and Ceveland, and it looks of New York and Cayeriand, and it looks as if they might win, but there will be a hard legal battle. Nelson sits unmoved in Governor Ogilvie's castle in the meantime.

Cannon has retained M. J. O'Reilly, K. C., to help him fight extradition proceedings, and has also got one of his United States attorneys. Mr. Ryan of

R. C., to nelp him light extradition proceedings, and has also got one of his United States attorneys, Mr. Ryan, of Wilson, Cobb & Ryan, of Syracuse, to come here. This morning Mr. Ryan, Mr. O'Reilly and Cannon's wife visited the prisoner in the jail. Cannon has a pleasing personality, and Mrs. Cannon makes friends wherever the wherever she goes.

ing personality, and Mrs. Cannon makes friends wherever she goes.

Yesterday afternoon Cannon and Mr. O'Reilly were before Judge Snider, and the charge was read to Cannon from the warrant issued here. He was straightway remanded to the jail till Monday pending the arrival of necessary papers from Columbus, including the original warrant. Cannon told his solicitors that he was before the grand jury, and pleaded guilty to bribing five people. He was fined on these charges, and was afterwards brought up on another charge of bribery, to which he pleaded not guilty. He was remanded for trial on this charge, and allowed out on bail, and it was immediately made to his interest to sojourn in Canada for a while. He thinks he is wanted as a witness against some men higher up, who will be arrested if he is taken back, and that is why he is so sure of not being his field. Cannon's futher in law and that is why he is so sure of not losing his fight. Cannon's father-in-law, Mr. Wing, of Cleveland, was also sent for, and interviewed the prisoner in the

move.

The prisoner takes things philosophically, and sits in his cell at the jail with the best of literature around him and the best of meals to cat. He is allowed to have as many visitors as he wants, and is perfectly satisfied with things in general

general.

The State of Ohio, through Deputy Sheriff Phelan, has engaged the services of George Lynch-Staunton in an effort to have Cannon extradited. He claims, his arrest is partly an election dodge to discredit "Uncle Joe," his distant relative. It is said that Cannon had a little will in the States, and that the reason ill in the States, and that the reason he was able to live under his own name in Grimsby for so long without being spotted was on account of this same

who was said to be living near the border, and going across to the United States via Lake Ontario and Lew-Inited States via Leke Ontario and Lewiston. Several efforts were made to kidnap him near the Falls, but without success, and for the past six months he has been living comparatively a quiet life. He met many people and attended many parties in Grimsby, and if it had not been for his desire to hold communication with the Yankees he would probably still be rusticating in Grimsby. The sister of his wife, who lives at Aylmer, was also said to be in communication with the United States relatives and friends of Cannon in his behalf.

Extradition proceedings will certainly take a long time here, and especially in such a complicated case.

Charges of Major Hodgins Before Special Committee.

His Cousin Asks For Production of Estimates.

Ottawa, May 8 .- The Commons Special Committee, appointed to inquire into the charges made by Major Hodgins, alleging graft and extravagance in construc Railway, began its investigation to-day. Mr. Geoffrion presided, and the other members of the committee present were Messrs. Carvell, MacDonald (Pictou),
Baker and Lennox, Major Hodgins was
accompanied by his cousin, Frank Hod
gins, K. C., of Goronto. Some preliminfairs in the United States. ary discussion fook place as to the scope of the inquiry, and it was agreed that, as far as possible, the evidence should be confined to the charges connected with the B and F sections of the Trans-

continental.

Major Hodgins was asked whether he had any statement to make. Mr. Frank Hodgins, K. C., said he represented his cousin, and explained that Major Hodgins only arrived from Victoria-yesterius, and had had only a short opportunity of conferring with him. He was not quite certain whether it was the desire of the committee that the Major should state his charges more particularly, but. state his charges more particularly, but, it so, he was prepared to give a nore detailed statement. He submitted, howdetailed statement. He submitted, however, that after the charges were stated, but before evidence was taken, an order should be made for production of estimates and engineers' reports of the Grand Trunk Pacific, giving heir point of view of the work. The main charge was as to over-classification of estimates, and that could not be proved unless the estimates were produced.

Mr. MacDonald asked whether Major Hodgins accepted responsibility for the letter and interviews which had appeared in the newspapers.

etter and interviews which had appeared in the newspapers.
Mr. Hodgins said there were some inaccuracies in the interviews.
Hon, S. N. Parent, chairman of the
Transcontinental Commission, protested against any new charges being admitted. He thought Major Hodgins shouldbe asked to wrwy the charge should ted. He thought Major Hodgins should be asked to prove the charges he had made and those only. Also, he thought, if Major Hodgins was to be represented by counsel, the Transcontinental Commission should also be considered. Mr. Barker—This committee is not going to be dictated to by either Mr. Hodgins or Mr. Parent.

Mr. Hodgins said he had no such intention. All he desired to do was to make charges that had appeared in newspapers more infelligible.

Asked when he would be able to put

in a series of charges, Mr. Hodgins replied that he could have them ready of

Monday.

Mr. Carvell suggested that the committee should meet again on Tuesday to take evidence.

Mr. Barker thought they could go on

until papers were produced.

Mr. Carvell—The principal charge is that Major Hodgins was dismissed because he had declined to hake over classifications which the Commission declined. Surely no papers are required to that.

Mr. Hodgins said the facts proving Major Hodgins' charges were on files of Transcontinental and Grand Trunk Paci-

Transcontinental and Grand Trunk Pacific. There were serious omissions in a file brought down to Parliament.
The chairman thought that when Major Hodgins was on oath and asked for papers, it would be for the committee to consider whether they should be produced. Every facility would be given.

Mr. Hodgins then suggested that counsel should be retained for Major Hodgins at the expense of the Government, quoting the Gamey case as a precedent.

Mr. Carvell objected. Nobody had asked Major Hodgins to write these letters and if he found himself in an unpleasant position he had himself to blame.

At the suggestion of Mr. MacDonald, holida Mr. Hodgin's request was allowed to stand over. With regard to production Park. of documents it was suggested that counsel for Major Hodgins and Transcontinental should confer as to documents that would be required, and then ask for an order of production. City Engineer Barrow is preparing his ammunition for the battle over the reregularization of his department. His
friends are rallying to his support and
he is satisfied that he will win. One of
the project which he Ferinage are the points on which the Engineer's critics have harped is that his estimates were never sufficient to cover contracts. Mr. Barrow's answer to this is a statement showing the actual cost of constructing some twenty consults. structing some twenty-one miles of sewer since 1901, to be \$194,518, while his es-timate was \$199,959. On the third main ob his estimate was \$200,000 and the actual cost was \$202,000,

Mayor Stewart does not think the Cataract Power Company's latest proposition can be called an honorable of fering, because the company guarantees to go ten per cent, below the Hydro-Electric offer, no matter what it may be. He does not think this is fan o the commission. The majority of taldermen, however, do not look at it that light, and the general feeling i railway matter and the power questio will be made with the company.

SOME LATE SPORTING ITEMS

London, May 8.—The one thousand Guinea stakes was run at Newmarket to-day and won by Richard Croker's

shodora.

By capturing this event Rhodora as added another classic to the sporting trophies also captured by Mr. Troker. She won to-day's event from this field of eighteen horses, and was allowed in the think by Ardan. a big field of eighteen horses, and was followed in to the finish by Ardentrive owned by J. H. Houldsworth and Captain F. Forester's Bracelet. Lucien Lyne rode the winner. He displayed such judgment that Rhodora turned the tables on the favorite, Lesbia, a horse that defeated the American filly in the Middle Park Plate last year and that up to the present time never has been beaten. The betting was as follows: Rhodora, 100 to 8 against; Bracelet, 5 to 1 against and Ardentrive, 100 to 6 against.
